GIRLS TODAY MAKE BETTER HOUSEWIVES

That Was the Verdict of the Judges in a Spirited Debate When Philathias Put the Baracas in the Shade

The ladies of the Philathias Class were the winners in a debate which was held in the vestry of the United Baptist church on Tuesday evening last. A large crowd attended and fine interest was taken in the subject.

The question discussed was, "Resolved that the women of forty years ago made more efficient housewives than the women of today." The speakers for the Philathias class, which upheld the affirmative side of the resolution were Miss Sadie Currie, Mrs. A. A. Walters, Mrs. A. T. Dickinson, Mrs. Rupert Harris, Mrs. P. H. Boyer, while G. W. Montgomery, Y. W. Simms, J. S. King, M. L. Hayward and G. C. Laney represented the Baracas class and negative side.

Before the debate was started, a program was rendered, which consisted of solos, recitations, etc. Capt. Harvey T. Reid gave an excellent address on a few of the nations which are in the public eye today. Mr. Reid claimed that France was justified in her treatment towards Germany, and gave a synopsis of how Germany treated France in 1870. Mr. Reid is a clever speaker and was heartily applauded at the finish of his remarks.

The leader of the debate for the Philathias class, Mrs. A. A. Walters, was unable to be present owing to illness and her place was ably filled by

Miss Sadie Currie. Although only given a few minutes notice, Miss Currie presented her address in an able manner, and brought out points which went to show that the housewife of today was more capable than the housewife of 40 years ago. She was well supported by the different members of her team.

Gage Montgomery upheld the honors for the negatives, and received good support from his team mates.

Both sides displayed an ample knowledge of their subject and the debate throughout was of an unusual high order. It was enlightening to an unusual degree and at times grew so spirited as to call forth frequent interruptions of applause on the part of the large audience.

A. F. Campbell, H. T. Reid and Edmund Stratton acted as judges and E. A. Britton presided at the meeting.

Mr. Reid, in announcing the decision, said that it had been arrived at only after exhaustive consideration, but to their finding the judges had been unanimous. The decision met with the hearty approval of all present.

This was the second of a series of debates by the young people of the church and is an excellent means of discovering and developing talent. The first debate two weeks ago settled conclusively that the enforcement of the liquor act was a failure.

SEEKING CUBAN TRADE AGREEMENT

Delegation From New Brunswick Has a Conference with Hon. W. S. Fielding, Minister of Finance

Ottawa, Jan. 25.—Claiming that the new tariff under consideration by the government of Cuba will, if enacted into law, have the effect of shutting Canadian potatoes out of the Cuban market, a delegation of maritime province potato growers, members of parliament and officials waited upon Hon. W. S. Fielding, Minister of Finance this afternoon, and asked him to assist them in keeping this market open.

The delegation, who was introduced by Hon. A. B. Campbell, secretary of state by T. W. Caldwell, Progressive member for Carleton-Victoria, N. B., stated that a tariff commission appointed by the Cuban government last year had brought in a report recommending that the United States be given a preference of 45 cents a bushel on potatoes. If this report was adopted, it meant that Canadian shippers of potatoes could not compete with those in the United States.

It was pointed out that, even if the report was adopted and the new tariff was approved it would not come fully into effect for a period of six months. Therefore the delegation appealed to the federal government through the minister of finance to send a representative down to Cuba to see if the recommendation of the commission could not be modified. It was suggested that the Canadian government might be willing to make some concessions of a reciprocal nature in order to insure the granting of the request. Decreases in the Canadian tariff on sugar and other commodities might be granted. The delegation was given a cordial reception by Mr. Fielding, who promised to try and find a remedy for the difficulty.

Guy G. Porter, of Perth, N. B., who was the principal spokesman of the delegation, read a memorandum which pointed out that last season the Maritime Provinces produced 25,000,000 bushels of potatoes, largely under government supervision and at a high cost of fertilizer and labor.

"Our farmers," the memorandum says, "have equipped themselves with expensive machinery, frostproof warehouses and special equipment suitable only for the growing of potatoes. Our shippers have built upwards of two hundred frost-proof warehouses throughout the potato growing belt, sufficient to protect a large portion of the crop during the winter months. The railroads have built hundreds of frost-proof and ventilating cars to move the potato crop during all seasons of the year. The government has built several frost-proof warehouses at seaboard to assist in the assembling of cargo for export. All

of this preparation has involved the expenditure of millions of dollars.

After referring to the tariff barrier erected by the United States which has robbed the potato producers of a large market it says: "We have in the Maritime Provinces an exportable surplus of 10,000,000 bushels and we are forced to look to Cuba as the best market available at the present time. Cuba provides a market for 100,000 bushels. The market should be open to us for forty weeks during our shipping season, thus providing an outlet for 4,000,000 bushels. To date we have exported 1,500,000 bushels of last season's crop to Cuba and unless tariff barriers block the business we expect to market at least 2,500,000 by the end of the shipping season next June."

Robert Forke, leader of the Progressives was present and the delegation included: Guy G. Porter, Perth, N. B.; O. R. Sater, Woodstock; C. F. Gallagher, Bath, N.B.; H. H. Hatfield, Hartland, N. B.; Harvey Mitchell, Deputy Minister of Agriculture in the New Brunswick government; Charles Clark, Woodstock, N. B.; W. M. Raymond, Hartland; Fred Sadler, Mapleview.

FORMER PRINCIPAL AND THE SCHOOL

The Observer has been handed a letter, which was addressed to A. W. Kyle. Mr. Kyle was principal of Hartland school for a period of five years and did good work under the circumstances. His reference to Mr. King would indicate that in the estimating that gentlemen was so well aware of existing conditions as he apparently is today.

The letter follows:

Chapman, N. B., Jan. 21.
Dear Mr. Kyle: I have read with much interest your letter in "The Carleton Observer" and am much pleased that some one has taken a hand who will state the exact state of affairs.

For five years I tried to get things bettered there and failed. Not only failed but made several enemies especially at the first special meeting called in the town hall (called especially to combat the N. B. Teachers' Association) when I told them the trustees and rate payers (the exact state of affairs). The trustees, especially, didn't like to hear it. And next day Mr. King wanted to know why I stayed in Hartland as long if the school was as bad as I stated.

The water never froze up when I was there but only because I watched it. Unusually. The ponds were warm and the pipes didn't freeze only because I tended the fires myself night and day and forced a cleaning regularly or a shut-down. I worked at the school from 7 in the morning till 10 at night but got no credit for it and

GRAND FALLS POWER

The International Paper Co. of New York which years ago was given control of Grand Falls water power, and whose lease has been renewed from time to time upon promises and agreements which have never been fulfilled, will soon again ask the government for a further lease.

It will be recalled that two years ago, when the lease expired, the company engaged in a broad newspaper advertising campaign offering electric power to private parties and municipalities and stated that if sufficient power were sold in advance to warrant, they would make the necessary expenditure of \$6,000,000 to develop the power. The public in general and the government in particular was inspired by the appearance of evident good faith. And notwithstanding the significance of a mighty delegation from the upper St. John, Millionaire Dodge of the International Paper Co., was presented with full control of Grand Falls water power for another term of two years. The government stipulated that \$1,500,000 must be spent in development work, but the New York capitalists have had their two years—which cannot now be levied upon or taken back—and they have done no work. The people through the government were hoodwinked. It is really a job that again this year, seeking renewal of their lease, the International Paper Co., is adopting the same method of fooling the people that they got away with two years ago. They are advertising to sell a commodity which they have not got. The government may grant a further extension, but to do so will be suicidal.

Premier Veniot, whose breadth of vision is broader than any resident of St. John where the universe is bounded by Musquash, Red Head and Partridge Island (outside of which all else is fog) has the opportunity of his life-time to make himself solid with the electorate of the province. The majority of the people demand that the Grand Falls power be not ceded to a foreign organization, and that it is immediately developed for the benefit of the province as a whole.

It would be very well indeed if the interested towns and corporations would memorialize the government to immediately develop the Grand Falls power and for each to state as specifically as possible the quantity of current that each would guarantee to take. The Observer understands that a single corporation has applied to the Provincial government for 10,000 horse power. Now let the towns of Edmundston, Grand Falls, Perth, Hartland, Woodstock, Fredericton, Marysville, Blackville, Boiestown, Douglastown, Loggieville, Chatham, Newcastle, Bathurst and Campbellton take into consideration what may be their possible needs and apply to the government for immediate delivery of the power.

It is understood that the power scheme as being considered is to carry transmission lines down the St. John river to Fredericton, thence up the Nashwaak and around to the extreme north shore, probably returning again direct to Grand Falls, making a complete circuit. This is to unite with Nepisiguit power and the Shogomoc reserve.

The government can be trusted to do what is reasonable and feasible from a business standpoint. It is up to the towns to take action and to take action at once.

much contemptuously. That disease-burdened swamp and that dark, damp, coal-like cellar seem to be a source of joy to the present trustees.

Much more I would like to say, much more I could say, all of which you know only too well. I had a long talk with Mr. Potter this summer and saw him on the train near Edmundston the day after you had had your meeting which voted for the new school. He told me all about it and was much pleased over it.

This tremendous increase in the sale of "BALADA" Tea is reported for 1924, over the year 1923. This increase alone in Tea is sufficient to supply the entire Dominion of Canada for nearly three weeks.

GRAND FALLS SHOWS APPRECIATION

The Board of Trade Expresses Satisfaction With the Attitude of The Observer Newspapers with Regard to Grand Falls Development

It is with no little degree of pleasure that The Observer prints the letter that follows which was written by the secretary of Grand Falls Board of Trade, and which speaks for itself:

Dear Sir: We note with considerable satisfaction, the efforts of your paper to facilitate the development of the water power at Grand Falls, and would commend the public spirit and wisdom of the Hartland Observer to the other newspapers of the Province.

It is also noted with pleasure that other towns of the Province, such as Edmundston, St. Leonards, Campbellton, Fredericton, Bath, Hartland, Woodstock and other towns have taken such a live interest in the development of this power and opposing any further extension being granted to the present holders of these valuable rights.

The citizens of this town are disgusted with the Grand Falls Company for not complying with the terms of their charter. Two years ago they pleaded that the cost of labor was too high and now even when the relief of

unemployment is engaging the earnest attention of our Federal, Provincial and Municipal governments, we understand that they want to sell the power before they start development; such an attitude is too ridiculous for serious consideration. Two years ago Mr. Dodge stated that the action of the people in opposing further extension, applied for at that time, was prompted by their aversion to foreign capital but while we welcome foreign capital we strenuously object to any of the resources of this Province being tied up by foreign speculators in which category, owing to their inaction we must place the present holders.

By the way things have been carried on in the past we feel that the rights of the people have been infringed upon to the detriment of the Province at large and we feel that a combined effort of the people should be made to remedy the situation.

Yours for a Progressive Province,
GRAND FALLS BOARD OF TRADE

HARTLAND, N. B., FEB. 1, 1923

THE NEW PREMIER

The St. John Globe, an independent newspaper in dealing editorially with the contemplated changes in the Provincial cabinet pays this well deserved tribute to Hon. Mr. Veniot:

"Hon. Mr. Veniot was the natural choice as successor to the Premier, and the fact that he received the unanimous support of his colleagues is a tribute to the personal popularity as well as an expression of party confidence, years of active political life on the floors of the House, as member of the government and as a campaigner in practically every section of the province have made Hon. Mr. Veniot well known to all those who seek to know public men. Long before he became the Minister of Public Works he had established his reputation as a party campaigner and organizer. As Minister of Public Works he has won commendation, even from his critics, for his energy ability and attention to the many tasks of that department. Road building and bridge building work has been carried on by him on a larger scale than by any other Minister of Public Works, and he has had the satisfaction of seeing a very wide development of provincial good roads. A man of ability and resource, Mr. Veniot has been an outstanding figure in provincial life for many years and his elevation to the premiership is a reward which no one can deny is well earned. When Hon. Mr. Veniot takes over the position to which he succeeds by the voice of his colleagues he will become the first Acadian premier of New Brunswick. That fact is one which makes his selection the more satisfactory to all those who recognize and give support to equal rights for all. The fact that he is to be leader in new paths adds to Mr. Veniot's responsibilities. His very successful political record, his pride of ancestry and commanding position as a representative leader of the Acadian people leave no reason to doubt, that he will not disappoint those who have faith in him."

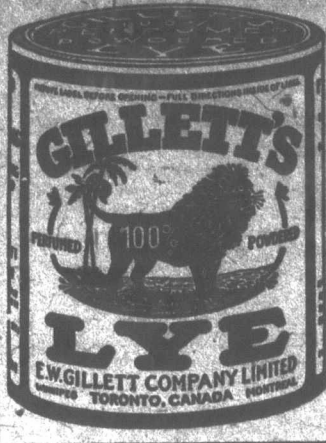

IMPROVED PASSENGER ACCOMMODATION NEEDED

The C.N.R. announces that on the day trains between St. John and Moncton cafe parlor cars now afford passengers more comfort and serve lunch. The B. & A. is advertising a parlor cafe service on its lines from Bangor to Van Buren. The sleeper-cafe service on the C.N.R. between St. John and Edmundston takes most of the direct traffic between these two points. Even this competition on the right and left does not stir the C.P.R. to consideration of the demand of the traveling public for modern service. A traveller may leave Edmundston on Train No. 152 and if he does not take a lunch with him he has no opportunity of eating until a ten minute stop is made at Woodstock late in the afternoon. "Day by day in every way the thousands of patrons on trains 151 and 152 feel the need of parlor cafe service. Travellers out of St. Stephen in

the morning would doubtless appreciate the opportunity of boarding the early train and breakfasting at leisure thereon instead of a hurried bite before dawn. Often the train arrives at Edmundston after the last meal of the day. Many passengers on the train would be grateful if they could partake of the evening meal before the train reaches Edmundston. There is an equal demand for eating accommodations en route in the opposite direction.

Before condemning the C.P.R. too severely it may be mentioned that two cars and two sets of officials would be necessary to fill the demand. Nevertheless the people seem insistent to demand the service.

CORDIALITY AMONG CARLETON TOWNS

Hartland is one of a chain of small towns which make up the greater business portion of the county. Among these towns there should be the most free intercourse socially for there is nothing more broadening than brushing shoulders with one's neighbors. If there is any kind of rivalry between the towns it should always be friendly, never bitter. Nothing gives a visitor to a neighboring town more gratification than a sincere welcome, a cordial hand-shake, a friendly enquiry about things in his own town. The cordiality of the relations between Carleton county villages is not to be Hartland, at least, is remiss. That is seriously questioned but in one thing when a neighboring town presents an entertainment of any kind to Hartland there is almost always such a meagre attendance as to give ground for the belief that the reception is not only indifferent, but almost frigid. This should not be the case. If Centerville Bath, Lakeville or Woodstock comes to Hartland to repeat a concert or a play they are in a way paying us a compliment and the warmth of their reception is the measure of our real size, our breadth, our generosity. If there is criticism in this paragraph it is not intended alone for Hartland as it applies equally well to all the towns

SHERIFF FOSTER HIMSELF PAYS EXECUTION COSTS

A motion commending Sheriff Albion R. Foster for his work in connection with the execution of Bennie Swim and exonerating him from any blame in connection with the bungling of the hanging was passed by the Carleton County Council. The sheriff was present at the session.

Sheriff Foster said that some of the councillors had requested him to send in a bill to the county for the execution of Bennie Swim, but he had refused to do this, although the services of two hangmen had cost him personally \$594. He said that he took over the responsibilities of the position of sheriff with the feeling that he would never hang a man but he felt that it was his duty to pay the cost of any executions which might come within his jurisdiction.

On motion of Coun. Gallagher, seconded by Coun. McDougall, the council thanked the sheriff, complimented him on the manner in which he handled the unfortunate affair and exonerated him from an unjust charge that had been made against him.

HARTLAND BOY IN WINNIPEG

George H. Campbell, son of A. F. Campbell of Hartland, is the head of the G. H. Campbell Sales Co. of Winnipeg, distributors of the famous Pure Gold products. He has a large staff of travellers covering the territory from Winnipeg to the Pacific and is one of the "big business men" of the western metropolis. Writing to the Observer he says, "I would like to tell you that we appreciate your paper very much indeed in connection with advertising. I have had a good deal of experience in the past twenty years with weekly newspapers and I wish to state from this experience that Carleton County people are certainly well served by the Observer and I trust that your returns from the financial side have been very satisfactory. While touring the West in 1921 the Observer party were guests at the beautiful and hospitable home of Mr. Campbell and were indeed pleased to be eye-witnesses of his evident success."

GRAND FALLS BOARD OF TRADE

Is Busy in Matters Affecting the Development of the Great Water Power

At a largely attended special meeting of the Grand Falls Board of Trade held on Monday evening, January 29, the greater portion of the time was spent dealing with communications from outside towns endorsing the attitude of and promising support to the Grand Falls Board of Trade in their endeavor to promote, without further delay, the development of the natural resources of the Province, which they believe can be accomplished by the harnessing of the vast water-power at Grand Falls, N. B.

It is gratifying to the local Board to know that the other sections of the Province are interested in the great advantages to be derived by the Province at large, from the carrying out of completion of this enterprise and to know that such a combined interest is being taken in this movement.

ALONG BORDER BIG ROBBERY

After an investigation in Arrostook and Carleton Counties by Martin Lawless of Houlton, a secret service man, no solution has been found of a recent robbery at the home of Hiram Batchelder in Mars Hill. A burglar carried off \$500 in cash and \$10,000 in mortgages and notes. The mortgages were recorded, but the notes—over \$1,000 worth—were not recorded and are negotiable, providing the thief has the nerve to try to raise funds on them. Entry was gained to the Batchelder home by means of a pantry window.

Neighbors reported seeing a stranger who endeavored to hire a team to take him to Centerville, but the chase was worthless. Tracks were traced in the snow but led to nowhere.

The European Bison.

At one time the European bison ("Bison bonasus") or Aurochs, as the Germans term it, was common throughout the continent and its English name was applied to the numerous fossil remains which have been found in association with those of the mammoth and the extinct rhinoceros. Its last refuge in Europe was the primeval forest of Bialowieza in Lithuania, and here, under Russian administration, a considerable herd was maintained until the outbreak of the war. When, in 1915, the Germans took possession of that part of the country, the herd had been reduced to about one hundred and fifty, and steps were taken by the invaders to protect these in an absolute wild state. With the departure in December, 1918, of the troops of occupation, the fate of the bison was sealed. Scarcely had the last military train disappeared before the slaughter was commenced, and in September, 1919, the last of the mighty wild bulls, famous in history, legend, and story, succumbed to the bullet of a poacher.

A Starlight Motor.

A motor driven by starlight has been invented by a scientist, Dr. W. W. Coblentz, says the Mentor Magazine. So sensitive is the instrument which measures heat radiation from the stars, that it will detect an electric current of one-billionth of an ampere. Or, to put it more graphically, it is possible to measure the heat given off by the most distant star by means of electricity generated by its heat. If the heat from a certain nebula composed of 105 stars, hundreds of millions of miles from the earth, were concentrated on sixty drops of water for 100 years, the temperature of the water would be raised one degree only, Dr. Coblentz says.

Power of Light.

It has been pointed out that not only the direction and intensity of light, but its color, must be considered in estimating its power to reveal fine details. Experiment shows that most persons are short-sighted for blue and violet light. When patterns are illuminated alternately with red, green and blue light, it is found that for ease of seeing minute details blue and green light are preferable to red for short distances, but that at great distances red light gives the best results.

LONDON COUPLE ARE DELIGHTED

His Wife's Two Years of Trouble Is Ended, Says Frank Westlake

"Tanlac has made all the difference in the world in my wife's health and we are both delighted," declared Frank Westlake, valued employee of the Public Works Department of London, Ont., residing at 40 Langarth st.

"About two years ago my wife underwent an operation that left her badly run down and she simply couldn't get back her strength. Her appetite left her and she could hardly eat enough to keep going. The least exertion would tire her out completely and her housework was an awful burden. She would be awake hours at night, too and morning found her just as tired as when she went to bed. She suffered terrible splitting headaches, her nerves were on edge and she got very little pleasure out of life."

"But three bottles of Tanlac simply put her on her feet again. She can do her housework easily now, the headaches have gone, she sleeps soundly and her appetite is a joy to behold. I can't find words to express my gratitude."

Tanlac is for sale by all good druggists.

Over 35-million bottles sold.

PRODUCE PRICES

A peculiar feature of the potato market this year is that from very commencement to the present the price has remained practically unchanged. In other years there has been great fluctuation. Today, as for months past, the price of potatoes holds around \$1 per barrel. Butter is bringing 40¢ per pound and eggs 40¢ per dozen and these prices are just double what the ruling prices were ten years ago.

There is an unlimited market for lathwood and so numerous are the mills that every farmer is within easy hauling distance. Lathwood brings \$3 and laths \$5 per thousand.

Every man willing to work and who is not otherwise engaged is busy at some branch of the lumber industry. It is estimated that nearly \$100,000 a week is coming into Carleton county for the lumber product.

Winter Sports in Canada

Montreal's Fun Festival

Among the countries of the world Canada has long been without a peer as a summer resort. To-day it challenges the hitherto undisputed supremacy of Switzerland in the realm of winter sports. Who has not heard or read of St. Moritz, the pride of the Swiss people and for long years the winter time Mecca of Europe? Canada has a score or more of places where all that St. Moritz can offer in the way of winter sports is not only duplicated but surpassed. The fame of these is spreading beyond the confines of this continent to lands across the seas. No longer is the Dominion pictured as a land which hibernates through a long and trying winter period. The truth regarding the invigorating and exhilarating winter climate of this country, with its joy giving and health imparting sports, is as great an advertisement for Canada as the enthusiastic laudations of the stories of its summer and early fall.

Quebec, the ancient and picturesque, Ottawa, a capital to be proud of, and a host of other cities and

towns might be named as worthy claimants of the attention of those who delight in the season's sports. But the Canadian winter of 1923 belongs, for many reasons, to the old, substantial, and progressive city of Montreal. If that municipality, in which the past and the present, the old and the new so harmoniously blend and combine, had nothing else to point to but Mount Royal it would still have much to boast of. But in addition to the famed toboggan slide of that same beautiful height, there are many attractions to charm and delight every visitor. It would indeed be almost impossible to detail in a single article the variety of the winter sports and recreations that Montreal will afford throughout the balance of this month and all of February. The Winter Sports Committee, selected by the citizens, is responsible for the arrangements which hold particular appeal to all interested in skating, skiing, curling, snowshoeing, hockey, ice-yachting, tobogganing and the like. Every Saturday

contests and exhibitions are held at the Montreal Ski Club, while every other winter sport has its special place on the program. It is doubtful if there has ever been anywhere such a remarkable program for winter sports, varied as it is by masquerades, balls and other social functions, and torch light parades amid the most striking natural surroundings. There is the glamor of romance over all, but there is also behind it the spirit of real Canadianism that knows how to blend its play and recreation with its and its belief in the land it loves.

Montreal has spared no effort to show that Canada as a winter resort, need take second place to none. Even now the success of its undertaking is assured. One of its greatest auxiliaries to that success is the Canadian National Railway which sees in such plans and programs an opportunity not only of developing business, but of spreading knowledge of Canada, and its own boundaries as well, among Canadians themselves.

Railway News

Toronto.—It is announced that Mr. G. S. Beer, C.P.R. city passenger agent, under District Passenger Agent William Fulton, has been promoted to the post of assistant district passenger agent. Mr. Fulton now has two assistants in his territory.

Medicine Hat, Alberta.—An expenditure of about \$60,000 is represented by the extension to the Canadian Pacific Railway roundhouse and the construction of the Company's mechanical coaling plant, and that sum is about equally divided between these two improvements. In both instances the work has given much employment to local men and there is still a considerable amount of inside work to be done in connection with the extension to the roundhouse.

Renfrew, Ontario.—Mr. Ed. Williams, Canadian Pacific Railway baggage master, who in addition to his regular duties, takes care of the flower garden which attracts so much favorable comment from travelers over the line, has secured another triumph. Mr. Williams has just been notified that his plot has been awarded second prize in the Quebec district, all of the depot gardens having been recently judged by an official of the road. During the past few years Mr. Williams has carried off a number of first prizes but the competition is growing keener year by year.

St. Thomas, Ontario.—Work has been commenced on the construction of an extension to the present C.P.R. yards east of the city, in the form of an 800-foot repair track at an expenditure of approximately \$15,000. The grading work which is being done by Irwin and Son of this city, was started recently. The extension is necessary to cope with the increased business and also to facilitate the repairing of cars. It is also understood that the addition of the new track will result in several more employees being added to the C.P.R. repair gang.

A small track about 80 feet long will also be erected alongside the new tracks to be used in case of an emergency. The new track will hold at least forty cars. Four teams and about twenty men are engaged in rushing this work to completion.

Belfast, Ireland.—For the first time on record a Canadian-bound steamer called from Belfast, Lough conveying mails direct from the Northern capital. The vessel was the Canadian Pacific Railway Company's S.S. "Metagama," which, incidentally, was built in Belfast. The vessel anchored off Killybegs, 23 bags of mail, together with some 100 emigrants from Ulster, were conveyed to it by the Harbor Commissioners' tug "Mungrace."

Hitherto it had been the practice to send the mails to Liverpool and other ports from which they were despatched, but, acting on instructions from the secretary of the Post Office in London, the present system was introduced.

One of the passengers was a five-year-old child from Dublin, whose parents are in Canada. The little one was in charge of a matron who handed it over to the matron of the "Metagama."

A Belfast "Telegraph" representative was shown over the "Metagama," and saw something of the excellent arrangements made for the comfort of passengers.

London, England.—Major A. E. Moore, London Manager of the C.P.R. Department of Colonization and Development, 62-65, Charing Cross, has received the following letter from their Brussels office:

"Dear Sir:—I beg to advise that a certain Mr. Martin, Avenue des Couronnes, Bruxelles, who has formerly resided in Canada, brought over by our Line in April of this year a shipment of Canadian potatoes. They were planted soon after arrival, at Boisfort, a suburb of Brussels, where an exhibition of land products was held on Sunday last. A certain Mr. Lemmens planted 2½ acres with Mountain Green and Irish Cobbler. His crop amounted to over 300,000 lbs.; one plant bore 9 lbs. and each one potato weighing well over 2 lbs. This particular plant has been lent to us for window display and has attracted a great deal of attention. Mr. Martin has 400,000 kilos of Canadian potatoes in Belgium, which are not to be sold for immediate consumption but only for reproduction—Yours very truly,

(Signed) G. DE MEY, Agent."

Mrs. L. Whiting, 202 King St. West, Brockville, Ont., writes:

"I look very sick with my nerves and stomach, and seemed to be all run down. At times my heart would flutter and palpitate so, and I would take such weak spells in the pit of my stomach that I sometimes thought I would never get better. I had almost given up hope when a friend advised the use of Dr. Chase's Nerve Food. I did not stop until I had taken twenty-five boxes. It has done wonders for me and I want to recommend it to everyone."

CARLETON COUNTY SUNDAY SCHOOL CONVENTIONS

Rev. W. C. Machum, Baptist secretary, recently completed a series of conventions covering the whole of Carleton Co. The conventions were held in the following places: McKenzie Corner, Meductic, Grafton, Hartland, East Florenceville, East Glassville, Upper Kent, Wicklow, Bloomfield Corner and Jacksonville. Considering the severity of the weather, the attendance was good. Much interest was manifested in teacher training, missionary instruction, memory work and C. S. E. T. and C. G. I. T. work.

At McKenzie Corner very fine addresses were given by Rev. Mr. Marshall, Presbyterian minister at Kirkland, and Rev. William Swan, Presbyterian pastor at Debec. At Hartland several splendid selections of music were rendered by local talent, including a men's chorus from Mrs. S. S. Miller's Bible class in the Baptist Sunday School. Rev. W. P. Haigh, rector of the Anglican church, gave a strong address and also sang an enjoyable solo.

At Upper Kent, Rev. C. Flemington, Methodist pastor at Andover, gave an earnest talk on Sunday school work and the Sunday school children sang. Rev. I. F. Kelstead, Reformed Baptist pastor at Royalton, spoke helpfully at Wicklow on "The Sunday School and Missions."

Clark McBride, the county secretary attended a number of conventions and read a practical paper on "The Need of a Business System in Sunday School Work."

Officers were elected for the various districts as follows:
Richmond—President, Ezra Fleming; Elmwood, secretary-treasurer, Mrs. A. Henderson, Debec.
Woodstock—President, C. W. Munzer, Woodstock, secretary-treasurer, Doris Hanson, Woodstock.
Northampton—President, C. Gordon Sharpe, Pembroke, secretary-treasurer, Mrs. C. Gordon Sharpe.

Brighton—President, Clayton Lewis, Coldstream, secretary-treasurer, Mrs. W. B. Albright, Hartland.

Peel-Simonds—President, Rev. A. W. Williamson, East Florenceville, secretary-treasurer, Mrs. W. W. Melville, East Florenceville.

Aberdeen—President, C. A. Derrah, Glassville, secretary-treasurer, Mrs. Arthur McIntosh, Glassville.

Kent—President, Mrs. S. J. Barker, Bath, secretary-treasurer, Mrs. Gordon Tweedie, Bath.

Wicklow—President, Wm. E. Reid, Lower Knoxford, secretary-treasurer, Mrs. T. A. Jones, Lower Knoxford.

Wilmot—President, Percy Cunningham, Bloomfield, secretary-treasurer, Clark McBride, Centreville.

Wakesield—President, Bedford Hart, Jacksonville, secretary-treasurer, Howard Gibson, Jacksonville.

These district conventions of which approximately two hundred are held in the Maritime Provinces each year because of the smallness of the territory covered by each, give every school an opportunity and bring much practical help to the workers. To this opportunity many schools are alive, when more of the schools realize the advantages they offer, their usefulness will be much increased.

HELP HELPLESS BLIND BABES

A Dominion Charter, without stock subscription, was recently obtained for the establishment in the city of Ottawa, of a Home Nursery, Hospital and Kindergarten, for the blind under six years of age, free to all from Province in the Dominion. So far nothing has been done for those poor unfortunate. According to reports received from various Provincial authorities, there are at present nearly 250 in the Dominion. The late Sir Arthur Pearson, before his death, claimed that "Sunshine Home" at Chorley Wood, England, was "the only home in the Empire for blind babies." It is hoped shortly to have the SECOND in Canada. To this end money is urgently required. Help us with your generous gifts. "Lost we forget, Do it now! Cheques should be made payable to the Canadian Blind Babies Home Association. Remittances will be promptly acknowledged.

LOCAL AND PERSONAL ITEMS

Shirley Mason made a decided hit on Tuesday evening in "A Ragged Heiress," a tale of a child, who was taken to be fostered by her uncle and aunt for the sake of the annuity paid for her keeping by her father, who was taken away to do a term in prison. Straying from her paternal quarters, she was found, adopted and kept until young womanhood by her former nurse. On her foster-mother's death, and by using the credentials of the dead nurse, she by a coincidence, found employment in the same house, from which she had strayed years before. The return of the father, his condemnation of his brother for the loss of the child, the substitute young lady, actually turning out to be his own daughter, and a little love affair all combined to make a very pretty story indeed. The fourth episode of "Bride 13" was also shown. A thrilling film of airplanes, automobiles and submarines and sundry heroics. On Saturday evening Norma Talmadge, supported by Beena Owen, Tully Marshall, Ralph Lewis and a number of other good performers gave a good rendition of "Metha's Vindication," a strange tale of a pact to keep a secret between two girls, the devious troubles that the innocent girl got in to and her eventual justification in the eyes of the public. A "Pajama Marriage" furnished the light side of the entertainment. Don't forget to save all your coupons and come to the drawing on Saturday night, when the big super-special "Queen of Sheba" will be shown. Lucky prize winners will be announced that night.

A well contested game of basketball was played in the High School gym on Friday evening when Centreville High played the Woodstock five. The boys all played a good game and good proof of the calibre of the teams is shown with the fact that the score was tied some half dozen times in the course of the two periods. The final score in favor of Centreville was 28 to 26. The lustiness of the rooting from the bleachers was a great courage and score producer.

Mr. and Mrs. LeRoy T. Lee entertained some forty guests and members of the St. James church guild at their home on Wednesday evening. At the close of the supper hour, tables were placed and bridge was indulged in until the midnight hour.

The evangelistic services in the United Baptist church are being held nightly this week. The meetings are well attended despite the unfavorable weather conditions which prevail and are of a most inspiring nature under the combined efforts of Rev. H. R. Bell, Prof. Fletcher and Rev. Mr. Murchison. The musical program each evening is in itself a most attractive phase of the meeting. Efforts are being made to make Sunday a banner day when in all probability the meetings will be terminated. To give outside points, an opportunity to enjoy the services centrally, all appointments outside will be cancelled and services will be held here at 11 a. m. and 3 p. m. and 7 p. m.

The Rev. Hugh Miller will preach as follows on Sunday, Feb. 4, Centreville at 11 a. m.; Bloomfield Corner at 3 p. m. and Lakeville at 7 p. m.

MOTHER!

Open Child's Bowels with "California-Fig Syrup"

Hurry mother! Even a sick child loves the "fruity" taste of "California-Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary. Ask your druggist for genuine "California-Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "CALIFORNIA" or you may get an imitation fig syrup.
