VARSITY VS. WELLINGTONS

A Swift Game at the Mutual Street Rink.

SCORE 11 TO 3 AGAINST VARSITY.

A large crowd of Varsity and Wellington supporters assembled at the Mutual street rink on Saturday night to witness the game between their respective teams. The ice was good, considering the weather, and the game was fast, the score of 11 to 3 being a true entation of the respective merits of the teams.

It was not expected that the Varsity team would win out in their first game, as they have been laboring under great disadvantages. The team never played together before, as the men only got back from vacation last week, and the weather has prevented any chance of practice together. The accident which laid off Wilkie Evans the day before the game caused Varsity stock to drop considerably, as he is one of their best defence men. It is not probable that a week from Saturday will find him in the game again. The Wellingtons won because they were in a better condition and could shoot better. This is the weak point of the Varsity forwards hey are poor shooters. As far as com-pinations and team playing are conerned Varsity has the advantage, and with more practice in shooting will give

the Wellingtons all they want.

In spite of the fact that the score was against them, the men who wore the blue and white played for all that was in them, until the whistle sounded for time, and comments were heard on every side upon their pluck and perseverance, while the spectators' interest in the game never lagged from start to

Parcoe played a very good game in goal, and stopped several hard shots.

MacLaren at point showed up well, and when in better condition will make a valuable addition to the team. Doc Wright at cover played his usual heady game, and spoiled several of the Wellgame, and spoiled several of the Wellington's rushes. Fred Broder, who was elected captain before the game, played like a Trojan, and kept his men well together, while Gibson, the fast little forward, was in evidence all the time scoring the three goals for Varsity. Bert Wood did not do himself justice while to a lack of confidence, which him sold him ageries an aggressive wing to a lack of confidence, which revented him playing an aggressive ame. Gilbert, the big forward, did not manifest the vim and energy one would expect from a man of his calibre, being apparently rather lazy. The lack of "ginger" is the only weakness in his playing. Lionel King made a very sat-

piaying. Lionei King made a very sat-isfactory referee.

The first goal was scored by Varsity about two minutes after the play be-gan. At the end of the first half the score stood 6 to 2 in favor of the Wellingtons. The end of the game showed

11 to 3 against the blue and white.

The teams were:

Varsity—Goal, Pardoe: point, Mac Varsity—Goal, Pardoe: point, Mac-Laren; cover-point, Wright: forwards, Wood, Gibson, Broder, Gilbert, Wellingtons—Goal, Bilton: point, Smart; cover-point, Ardagh: forwards,

Warden, McKay, Chadwick, Hill. Referee—Lionel King.

Referee—Lionel King.
There is plenty of good material
around Varsity, and plenty of chance
for every man who is any good, as
there are three teams, the senior,
junior, and intermediate, and the affable and energetic manager, Allan Magee, will see that every man has a show according to his merits.

The next game in the senior series is with the St. George's team on Satur day, the 18th, at the Mutual street rink. The first intermediate game is with Parkdale this week at Mutual while the first junior game is with Hamilton at Hamilton.

ASSOCIATION LEAGUE

Annual Meeting of the Intercollegiate Association League.

EXTENDED POWERS OF THE PRO-TEST COMMITTEE.

On December 13 the annual meeting of the Intercollegiate Associatica Football League was held in the gymnasium, and was fairly well attended. President Armstrong occupied the chair, and after the adoption of the deal of business was transacted.

The constitution was amcaded to allow Queen's University and the Royal Military College to form a section of the league at Kingston if they so desired. The powers of the Protest Committee were extended. Formerly they could merely say whether a protest was sustained or not, now they can fix a penalty according to the offence committed. This is a commendable changin the constitution and one which has been necded for some time

The rules regarding ineligible players were made more rigid, and there will now be no further chance of playing a match over again in the case of ineligible players having taken part in the protested game. The association put protested game. The association put iself on record as being in favor of giving a cup to be competed for by teams of the various public schools of The election of officers resulted as follows

Vice-President—E. F. Burton, B.A. Secretary-Treasurer—Ralph De Lury The past season's record speaks wer for the Association league and its offi cers, and the fact that there is a hand some surplus in the treasury is a tri bute to their financial abilities and also a proof of the increasing interest in Association football. Last season the Arts team won out in the senior series after a hard final game with McMas ter, and then played the Galt team for the championship of Ontarlo, losing by one goal only. The intermediate series was won by the Dental team, by score of 2 to 0, in the final game. was a matter of tegret to both Varsity and Queen's that the latter, on account of some misunderstandings and conflicting matches, were unable range a game here with Varsity last fall. However, it is hoped that next season nothing will intervene to prevent the meeting of the two teams.

The Men Will Go East This Time-Good Prospects Ahead.

CLUB CONCERT ON JAN. 2187.

THE TOUR OF THE HARMONIC CLUB.

The arrangements for the tour of the Harmonic Club were completed during the holidays, and an enjoyable trip is assured. The tour will include Peterboro, Lindsay, and Ottawa, and will be of three days' duration. The Canadian Pacific Railway is dealing most muniicently with the club, and has guaran-eed to supply an elegant special car for the whole journey. The "chosen few" will travel by C.P.R. to Peterboro by Grand Trunk to Lindsay and back to Peterboro, and then to Ottawa and home again by C.P.R.

In Peterboro the touring members of the club will be the guests of a com-mittee of graduates and their friends. In Lindsay the Literary Society of the Collegiate Institute is to take care of them, and the Bank Street Presbyteran Church in Ottawa.

About thirty-five men in all will be taken from the Glee Club, the Banjo Mandolin, and Guitar Club, and the or hestra. There is little doubt that, considering the excellence of their training and the fine quality of the voices, the boys will be one of the very best of ads, for our Alma Mater.

Every singer and player is expected to perform at the city concert, which takes place the night before the club leaves on the tour. The men to go on the tour will be chosen partly on account of their assistance at the city concert. The orchestra will be represented by a quintette or a sextette.

Glee Club practices will be held on Monday, Wednesday, and Friday of his week, and on Monday and Tuesday of next week. All who hope to go or the tour mast attend every practice. The following is the itinerary of the

A HAPPY NEW YEAR.

College Topics wishes its many readers a Happy New Year and a successful term. The publishers wish to express their thanks to the students of the various colleges for the hearty support they have accorded the piper, and trust they in turn have been fairly well satisfied with the result of their investment in subscribing for it. Next year the paper will be, as it has been this year, the official organ of the Union, and the editors will endeavor to make th better and more attractive than ever, and they feel that they can confidently count on an even larger subscription list in the futue than they have had in the past. It is with regret that the editor realizes that this year finishes his connection with College Topics, but if he has done anything to promote closer friendship between the men of the different colleges and to consolidate their interests he feels that he has had an ample reward for his labors.

THE ORATORICAL CONTEST.

The annual oratorical contest is ap 31st of January, while the comes of the contestants must be handed it by the 22nd. This is a week later than the date first appointed, in order to give everyone a chance. There should be a good contest this year, as or itions of previous years have both entertained and stimulated the hearers, and a new crowd of orators should be growing up to emulate the older ones. P. obably no prize will be more treasuled by a student than that presented for the best oration, and fortunate is the man who wins it. The sys-tem of allowing each man to choose his own subject gives ample scope to the most versatile spraker, and also gives every man a chance, no mat-ter what his course of studies may have been, he being confined to no particular line. Everyone is looking forward to a peculiarly interesting contest this year, and it is up to the Orators to see e not disappointed. that they

The last regular meeting of the Lit for the Michaelmas term was held on he evening of December 14th. program of the literary session, though short, was very enjoyable. Mr Walker and Mr. Eckardt entertained with well selected readings, and nearty encore which followed the ction of the Mandolin and Guitar hard practice were much appreciated by the society. After the business be had been briskly dis posed of, an important part of the program, the election of officers, followed. During the election the grave stories and songs calivened the pro-

ceedings. At the conclusion of the elections, Messrs, Hamilton and Beer, on behalf of the students, presented Mr. W. J. Mortimer, '02, with a traveling bag and toilet case, accompanied by address, expressing to him their hearty sympathy and best wishes for his suc-cess in the foreign mission field, to which he is now going.

At the close of the meeting refreshments were brought in, and while al were around the table Robert gave his jokes and advice, and warnings to B.D.'s and Freshmen, of the pitfalls that lie in the way of the young and innocent in the merry Xmas season The following officers of the Literary Society were elected: President, Mr. D. Presentation to Prof. Graham-The Engineers' Dance.

HOCKEY-FOOTBALL-BASEBALL

The Toronto Engineering Company propose holding their first annual dance on February 7, in the Varsity gymnasium. All the officers and "noncoms." are hard at work making all the necessary arrangements for decora tion, catering, music, printing, etc., and a most successful evening is assured. The tickets, which are limited in numher to four hundred have been placed at \$1 apiece, or \$1.50 for a double Those who wish you to go had better look after their tickets very soon.

G. H. Marquis of the first year has

given up his work at the School, and is now at his home in Brantford. The freshmen have lost a good man, and we extend our sympathy to Marquis in the loss of a brother, who died just be

The graduating class pins are now out. They are of a very pretty design, by Ambrose Kent & Sons, and have

proved quite pepular.

J. A. Houten of the second year, who made such a brilliant record last year. has been compelled to give up his work the School owing to ill-health. The School has lost a good student, and to Harton we extend our sympathy.

The graduating photos are to be tak-en at Rowley's, on Spadina, this year. There will be 44 in the class, with a faculty of 20, all the fellows being included this year for the first time. The boys are now sitting. Rowley's being open from 10.20 a.m. to 3.20 p.m. Attend to it at once and save delay.

Although somewhat out of date, men

tion must be made of the final Mulock Cup game, in which the seniors won out against '04 by a very narrow margin, and thus bringing the cup to the School for the fourth time. The cup is at present in the hands of Ryrie Brothers, having the shield, with all the names of the players of the successful team engraved on it, put on. Things looked blue when word was received that Biddy was sick in bed, and the game did not seem the same withou Charley Harvey was a brick. The doctor said he must not play, but afte some coaxing Charley consented, for which we humbly thank the Lord, for which we numby thank the Doll, to fie (not the Lord) and Baldy rather queered the bucking feature of '04. The very best of feeling prevailed, and Bal-lard put up a stubborn fight, and de-serves the greatest of credit for the

team he got together and trained.

Hockey is in the air around the School, but thus far the juniors are the only ones who have been doing any systematic work. It is high time that the seniors were getting together. Coulson, Pod, and Johnstone have move up from the juniors, and will be of great service for their team.

At present much more interest is tak-en in the inter-section games, which are so popular, especially in the class of '02, where the Mechanicals have put three swift teams on the ice, and some hot stuff will be served up before they are through. The Miners have two fautless combinations in view, which will materialize next week. The "Coal Heavers" hereby challenge the "Sewer Scavengers" to a game on the Varsity rink for a suitable trophy of seven bottles of the Dominion Brewery Company's best.

The great success of the Toronto Engineering Company in the indeer baseball league is a matter of great satisfaction to all concerned. In fact, their success has been phenomenal, and the hustling manager, Ernie Oliver, deserves the greatest am ant of credit for his managing abilities. Keep them at it, Ernie! Seven consecutive games, and all victories! Among some of the stars may be mentioned Evans (capture of the stars may be mentioned Evans (capture). tain), Baldwin, Reynolds, Elwell, Alison, McFarlane, Charlebois, Jack Madden, Burnside, Prof. Williams, Chown,

Bryce.

A few days before School closed H. G. Barber was called home on account of the serious illness of his father. Barber arrived home 'just in time to have a last few hours with his father before he died. We can do no more than extend our sincere sympathy which is genuine.

Just before the break-up the third year made a happy presentation to Professor Graham. The presents—1 Professor Graham. The presents—a silk umbrella with an engraved silver handle and a meerschaum filled with "Bollard's best"—west given as a slight token of the respect and esteem which the third year have for Mr. Graham. In acknowledging the gifts, Mr. Graham referred to many little events of other days, bringing to memory the day when Principal Galbraith had ordered him to get an axe and break open the door behind which the freshmen (now of the third year) were enacting a bit of hydraulic tragedy.

J. A. Johnston of the class of '00 is back at the School taking his "postgrad." Owing to sickness Johnston had to give this up the year before. Glad to see him back.

ST. MICHAEL'S

Friday evening, January 3rd, a very interesting concert was given in the college hall. Willie Ruddy was in the chair, and acquitted himself in a very creditable manner. His jokes and slight French accent kept the gallery in roars of laughter. The Oriental scenes were most beautifully described by the chairman, who seemed to know something about them. The usur were directed by the "Dean," who was a very busy man that night. Mike Kehoe borrowed a white tie and appeared, after the show was nearly over, to show the strangers their seats. The performance was a grand success, so Willie Conaty says, although he did not have a chance to see much of it. Frank Quinn col-lected the coppers at the door, but refused to treat the boys next day on the 'rake'' he made

coming back to the Biolog, one more. Most of the boys say they en joyed themselves very much Christmas vacation, and why shouldn' they, after Professor MacCallum's strong advice just before the closing of the term of 1901. He said they should throw all studies aside for the two weeks and thoroughly rest and eajoy themselves, and the boys all look as if they had obeyed him. The boys of the second year are one by one getting back to the dissecting room for their final few months of dissecting, and they will no doubt be very much pleased when next May comes around.

A splendid meeting of the chemists o the second year has been called for o'clock Saturday afternoon, January 25, when some of the boys will discuss the possibilities of chemistry. TRINITY MEDS.

Though it may seem like an echo from the far distant past, yet we wish to place on record in this, the last issue for this year of the Topics our hearty congratulations to the Literary Society for the very successful concert which we enjoyed in the Guild Hall, near the close of last term. It does not cast any discredit to previous committees either when we say that it was the most successful concert we have had for several years. Of course, we missed the Dean on the platform, but his place was well filled by Dr. Temple

We shall miss from our midst for the rest of this year our friends Latta and Henderson, of the final year, who left last Thursday night for England on their way to South Africa, to serve on the Field Hospital service there speed on their mission.

The conduct of some of our students who come in late for lecture reminds us of the story of a Scotch plowman who went to church one day with a pair of new corduroy trousers on. Anx ous that all should see them, he came late, and spent a long time disposing of his bonnet, plaid, etc., until minister finally lost patience, said, "Sit doon, mon, sit doon; we've i' seen your breeks." He sat down in a hurry. It would be well, perhaps, if ome of our boys would take the hint is quickly.

Our irrepressible artist, Dr. Heyden. called at the College the other day and eft his mark on the blackboard in the hape of a cartoon representing osterior view of some of our aspirants for glory in the Hospital Corps in South Africa. It was executed with the doctor's usual abandon and fine disregard for details, as for instance military uniforms, not to speak of the feelings of the victims. It also illustrated another fine point in the artist' namely, ludicrous exaggeration of peculiarities, which is the ideal of every cartoonist. It was quite a wonderful production, though it was not perhaps any great source of pleasure to the persons depicted.

The ranks of the freshman class are augmented by the arrival of two "fresh" ones. They received their initiation according to Trinity's old-es-tablished—we might almost say classic -method. It was funny to see those big husky fellows come down voluntarily like lambs to the slaughter, and take their medicine without a word. It was different from the scene when the other ellows got theirs.

Miss Yeomans of Mount Forest his eturned to college after an absence of year or so. Accordingly our due become a trio.

Another new face in Pharmacy corv Armenia.

Many of the boys have expressed regret that Ellis is not now one of them, In spite of the fact that a regular

class dinner is to be dispensed with this year at Pharmacy there is an agitation on foot to have am informal supper at a down-town cafe some time within a month. As to whether or not the ide: will ever materialize is a debatable question. But if it should, Pharmacy would do well to follow in the steps of Trinity and have a "soft" evening. How would it be to invite Ross and Whitney down on that occasion and have them declare their politics on the very delicate question of prohibition? O.C.P. boys are usually much interested in that line of thought.

The Y.M.C.A. will soon be going again, boys,
Whistle, Wilson.

THE HARMONIC CLUB CONCERT.

A notice appears in another column of the Harmonic Club concert to be given in the Pavilion on the 21st. If there is any club around the Univer-

sity that deserves support it is the Harmonic Club. The officers and members have, in splite of obstacles and discouragements, maintained the high standing of the club during the last few years, and this season are in a better position than perhaps they have ever been to give a most attractive and up-to-date concert, while the admission up-to-date concert, while the admission price places it within the reach of every student, even if he is, to use a popular phrase, "on the rocks." It is probable that no club does as much to advertise the University among the various towns and cities of the Province, and it therefore should meet with the heartiest support from both faculty and students.

DENTAL COLLEGE.

With dreams of turkey and Christmas pudding the boys have once again returned to a fare of hard-tack and prunes. Fate has torn them away from holiday joys and once more plunged them into the abyss of lectures and books. By the last of the week nearly everyone was back, giving the other men the glad hand, and now everything is running smoothly in the ame old way.

Monday night the Dents turned out for their first hockey practice, and though a number had not yet returned to town, a pretty fair-sized bunch was on the ice. An hour's good work was done, and prospects were never brighter for a good fast team. Since then the eather has been decidedly unfavor able for the game, but everyone is liv ng in the hopes of a decided change Mr. A. G. Fraser was unanimously

WYCLIFFE COLLEGE

Another Christmas has come and gone, and the first year of the ne century has left us to join the grea majority. The usual New Year resolu tions are apparently having good of fect this year among the men, for with but one or two exceptions they are all back and settled down, not only to re gular attendance at lectures, but to systematic study besides. The fact tha ome examinations had to be written off last week may account in measure for this phenomenal outburst of scho lastic endeavor. The Council are pushing on the planfor the new college convocation hall as rapidly as possible. It will probably be built so as to run east and west from the wing which now comprises the dean's recidence. By thus making the three sides of the square complete a quadrangle will be formed, and the whole will constitute a formation en-tirely in keeping with traditional university customs and ideals.

Most of the students have returned merry in heart and refreshed in body and mind. Lectures were resumed in all the classes on Wednesday.

There was a universal feeling of re gret expressed by the students of the college when we learned of the death of Rev. Dr. Robertson. He was known by sight by all of us, and was a personal and tried friend of many of our number. To show their respect for the deceased the Knox students in theology and arts went in a body to the ser which was held in Bloor Street Presbyterian Church last Wednesday afternoon. After the service the students accompanied the cortege as far as Yonge street.

The students of this University will be pleased to hear that two of their number have composed and published a successful coon song, entitled "Ma

Mr. H. W. O'Flynn, '03, who contributed the music, is well known around University College. He is probably the most gifted young planist that we have Before coming to Varsity he was in doubt for some time whether to take a university course here or to complete his musical education in Germany. He has found diversion from his studies in learning a countless number of coon songs, which he plays with great spiri and expression; so that when he set his hand to the composition of a coor song he found one already completed on the ends of his fingers. This is not the first musical publication of Mr O'Flynn. He wrote a march some time since, which was published by Nordhelmer & Co., and was very successful both artistically as well as financially.

Mr. F. E. Brophey is still known to the present generation of Varsityites. In college journalism Mr. Brophey has had considerable experience as editor of College Topics and prior to this one of the assistant editors of the Varsity It was during Mr. Brophey's editorship that Topics was enlarged and in-creased in circulation. Mr. Brophey has contributed humorous poems to the various city newspapers under different oms-de-plume. Our readers may have detected his trade mark at different imes in humorous poems and sketches Both music and words have been com mended by competent judges. Mail and Empire says that the song is a very tuneful ditty, and likely to prove opular to lovers of coon songs. New York Herald has an appreciative notice of the song. Other notices by the local and Provincial press join in

sounding the same note of praise.

The U. of T. Harmonic Club will include "Ma Arabell" in its repertoire while on its January tour to Ottawa

We hope that the readers of this paper will show an appreciation of their fellow-students' labors by purchasing a copy of the song, which may be had for 25 cents at University College and from all the large musical stores in the city. Whaley, Royce & Co. are publishing the song for the authors. It is opyrighted in both Canada and the

Osgoode Hall Debating Society Takes Up the Question.

A large number attended the public debate held Friday night in the Convocation Hall by the Osgoode Legal and Literary Society. The president of the society, D'Alton Lally McCarthy, president and Lally and Lally merchants. presided, and delivered his inaugural address. He spoke of the work being carried on by the society and advoated a business course in connection

The debate was: "Resolved, that the ownership and control of all Canadian ailways and telegraphs should be cransferred from the private com-panies to the State." The affirmative vas looked after by R. V. Lesueur, B. B. Clute, B.A., and Alex. McGregor B.A., LL.B., took the negative side. After a warm oratorical contest, during which the affirmative ably upheld their ase, Justice Lount, the referee, decided in favor of the negative side.

After the debate the 150 present enjoyed dancing.

The committee was composed of the

following: D'Alton Lally McCarthy, Eric N. Armour, F. E. Brown, H. W. McLean, R. D. Hume, George H. Smythe, N. G. Guthrie, George A. McGaughey, and R. D. Schooley.

THE DEMON OF IMPATIENCE.

(By Sir Edwin Arnold.) The present dearth of talent and the intellectual barrenness in England, though partially due to that jealousy of genius and love of mediocrity which are the inevitable outcome of democracy, is still more to be ascribed to that demon of impatience which makes itself so strikingly manifest in every department of life. Rapid communications speed with which people can travel or transmit news has aroused a nervous impatience of delay which is fatal to ourtesy and good manners. For good manners are the outcome of unselfishness and leisure, and these find themelves strangely antiquated in the midst of all the bustle and hurry of the The punctilious rules of oldfashioned etiquet demanded a sacrifice of time and patience which our neigh-bors (we will not be so rude as to say ourselves) are not prepared to make. One meets occasionally some interesting survival of an almost extinct spe cies, and one is both surprised and amused at the quaint figure cut by this Don Quixote or Sir Charles Grandison amid a wild of Vulgarians.

The formalities of courteous behavi-or take time, and most people are now far too busy to expend that precious commodity in such an unremunerative fashion. Abruptness has therefore be-

and smartness bids fair to take the place once held by good breeding. For-merly, birth and culture were indispensable, but now the chief criteria of gentility are to be found in well cut clothes and a large lnoome. The cor-respondence of to-day is in striking contrast to that of the past; formerly letters were dignified and interesting, but now they are lacking in both these qualities. People have no time to write elegantly, and in a spirit of impatience they scribble a few lines to some friend when there is no escape from the painful necessity. This note, one cannot call it a letter, is probably ill spelt, and centainly badly written and imperfectly punctuated. People are too pressed for time to study the feelings of the recipient and the puret head to be presented. recipient, and he must be left to decipher as best he may this slovenly epistle. Age was once held to be a fitting object for reverence, and the obliga tions of the fifth commandment were understood to include a respectful behavior of the young towards their seniors. But "nous avons change tout cela," and age has become a synonym for incapacity and boredom.

The superior young man is every-where en evidence, and the experience of age is at a discount in the markets of the world. In the clerical profession a premium is offered to youth and inexperience; curates who have attained to middle age in the discharge of their duties are left to starve on a beggarly pittance, while boy priests, well backed by patronage or impudence, are pre-ferred to rich livings. In the educational world schoolmasters who have had 20 years of experience in tuition are thrown aside in favor of youthful graduates who are gifted with a certain knack in hitting or kicking about a ball; and among governesses youth and beauty are of more serviceable value than intellect or the power to impart instruction. In political matters statesmen who have served their country for the greater part of their lives are to be pushed aside to make room for younger and smarter politicians. The demon of impatience threatens to dismiss our aged statesmen; it has already proved absolutely fatal to the British matron as chaperon. Young ladies of long ago never went to evening parties except under the protection some suitable guardian; but nowadays our unmarried girls have such a thorough acquaintance with up-to-date literature they may be confidently reied upon to take care of themselves This restless spirit of impatience has not only affected our manners, but it has also had a deteriorating effect upon our politics, literature, and art.

SHUFFLING CARDS BY MACHIN-ERY.

From the Chicago Inter-Ocean. A card-shuffling machine has been invented by R. F. Bellows of Cleveland It should make business poor for crooked card players. The device is compli-cated, yet simple, in its action.

"Card-players who want a fair and honest game are enthusiastic in their praise of my machines," says Bellows They say it shuffles cards more thoroughly than can possibly be done by and that it is impossible for the dealer to put up a hand to suit himself. I have exhibited the machine to a number of professional gamblers Some of the keepers of gambling rooms told me they would do all they could to prevent the machine from being put use, because it takes away all the dvantage which the dealer's skill in shuffling gives to the house. But when the machine gets into the rooms where square games are played the fair play rs will go there, and the crooked cooms will then be compelled to adopt ts use also.

The shuffling machine is a metal box about 12 inches high, 3 inches wide, and inches from front to back. All the nechanism is inside. The cards are dropped in at the top and rest on a tiny shelf. Below this there are five small fingers, one on each of five thin steel blades extending across the full width of the machine. When a shutter on the front is dropped the shelf falls and the cards drop upon the blades and are separated into fine little irregular bunches by the fingers. The blades separate, and one by one cards drop from the various bunches into a receptacle at the bottom, the drop be ing regulated by a clockwork mechan-

There is no way of telling where any particular card will be found in the pack after they are shuffled. The same card, placed on the top of the pack, will rarely be found twice in the same place after the shuffle.

ings. Environment blasts the life of the child raised in the slums, and als forces business men to compete in a dishonest manner. Socialism will change the conditions which surround men to-day, and make it possible for them to be honest citizens. Socialism means the operation of all industry in the interests of the whole people, and it will be brought about by nationalization of railroads, telegraphs, coal mines, and other monopolies, until all industry is in the hands of a Government controlled by the people through the initiative and referendum. If the C.P.R. and other monopolies will not sell at a fair valuation, the people will duplicate their plants, and force them out. Present conditions are the cause of nearly all crime; but if the people are given good homes and all the wealth they create, crime will practi cally disappear, as few men do wrong for the mere love of it. The trusts find men who, for fair salaries, will conductheir business for the shareholders. the Government takes over the busi ness and all the people become share-holders, it will be just as easy to find honest managers.

Pardello, the Italian wrestler, was introduced to George W. Lederer the other day, and the talk turned upon athletic sports. Pardello declared that he would not wrestle any more on a percentage basis, as the remuneration was often too small, but in future would demand a guarantee of a stated amount. In the office at the time was a New York State manager, who occasionally dabbles in sporting events. "Come up to my town and wrestle," said he to Pardello, "You'll make a good sum out of it."

The Italian thought for a minute.
Then said, "All right. You getta Dan Daly, I'll wrestle him."
Bob Fitzsimmons happening along later, was told the story. He did not crack a smile.
