JOURNAL

OF THE

HOUSE OF ASSEMBLY

OF

PRINCE EDWARD ISLAND.

Third Session of the Sixteenth General Assembly.

TUESDAY, March 4, 1845.

THE House having, by several Proclamations, been prorogued until this day, then to meet for the dispatch of business:

And being met-

A Message from His Excellency the Lieutenant Governor, by Henry Palmer, Esquire, Usher of the Black Rod:

Mr. Speaker,

His Excellency the Lieutenant Governor commands the immediate attendance of this Honorable House in the Council Chamber.

Accordingly, Mr. Speaker and the House went up to attend His Excellency in the Council Chamber—and being returned,

Mr. Speaker reported, that when the House did attend His Excellency this day in the Council Chamber, His Excellency was pleased to make a Speech to both Houses of the Legislature, of which Mr. Speaker said he had, to prevent mistakes, obtained a copy, which was read by the Clerk, and is as followeth:

Mr. President, and Honorable Gentlemen of the Legislative Council;

Mr. Speaker, and Gentlemen of the House of Assembly;

On your return to the performance of your Legislative duties, I have to announce to you the birth of another British Prince; and I am satisfied that you

will rejoice with me in every addition which it may please Providence to make to the happiness of our august Sovereign, and his Royal Highness Prince Albert.

It is imperative upon me to call your immediate and deepest attention to the very inadequate means adopted in this Island for the prevention of smuggling, and the probable loss sustained by the Revenue in consequence: this inefficiency, combined with existing duties, offers an encouragement to the illicit trader, and throws an additional burden upon those who legally follow their Mercantile avocations. Unhappily connected with this subject, I must bring to your notice the melancholy death of the late George Tanton, as also the case of Isaac Scales, severely wounded at the same time-both men being in the execution of the laws. I recommend the settlement of a pension upon the Widow of the former, and that a suitable compensation be made for the injuries sustained by the latter.

I think the present practice, with regard to the method of paying for work done by contract upon the Roads and Bridges, very objectionable, and I am informed that it is much complained of by the contractors; a total revision in this department of the Public works seems to me quite called for, in justice to those who undertake to perform them.

The irregularity with which fines, on conviction before Magistrates, are levied, and those which accrue to the Revenue are ascertained, is a subject that requires revision and regulation; the general improvement in the administration of Justice attendant upon the establishment of County Quarter Ses-

sions, calls for your serious consideration; and the growing inconvenience that exists, for want of a new Index to the Laws, and analysis of the Statutes, calls also for remedy.

Now that the dangers upon the Coasts of this Island, and the numerous obstructions at the entrance of the different Harbours, have been so elaborately laid down by Captain Bayfield, and the Officers of the Royal Navy serving under him, I trust that you will make provision for the erection and future support of the Light House, already proposed to be placed upon Point Prim. I have also to suggest, that the important duty of placing and keeping the several Buoys and Beacons in their stations, should not be confided to a Commissioner of Highways, who, it cannot be supposed, is acquainted with such operations. These important guides have, I regret to say, been very frequently found out of their positions, thus tending to lead into, rather than out of danger. Reflecting upon the amount of life and property often dependent on these objects, I think them entitled to share in the public expenditure proportionably with the Roads and Bridges. I also think that a salaried Harbour Master, professionally qualified, should have the care of these Maritime affairs, in conjunction with other duties, and that that office should no longer remain merely nominal.

While there is much to congratulate you upon in the improvement evidently visible in the Agricultural system of this Island, yet I cannot help pressing upon your attention the advantages of extending to this branch of industry every possible encouragement; and I trust that you will carefully avoid the introduction of any measures tending to increase the burdens of the Agricultural Classes.

It is with the sincerest gratification that I notice the advance of the Educational Institutions throughout this Island. I feel it my especial duty to observe upon the unwonted position to which the Central Academy has attained, under the reorganization of its system lately introduced, and carried out with great zeal; at Georgetown also, a School open to all classes of children, and supported with a most creditable unanimity by all parties and persuasions, promises to convey a lasting benefit to society. You will, I am satisfied, cherish these and other such Institutions, which, under Divine Providence, guarantee to the Colony the establishment of those principles which can alone ensure tranquillity, prosperity and happiness.

Mr. Speaker, and Gentlemen of the House of Assembly;

The Public Accounts will immediately be laid before you; and I rely upon such Supplies being granted as may appear necessary for the service, and in accordance with the pecuniary ability of the Colony.

In deciding, however, upon the amount of Expenditure for the current year, I confidently expect that you will not exceed that of the Revenue for the last. The increasing liabilities of the Colony, as compared with the more lingering advance of the Revenue, I regard with much concern; and I trust you will not only decline engaging in farther responsibility, but I must also express my desire, that you will take some decisive steps towards effecting a reduction of the public debt. I have certainly directed your attention to several important objects, but I consider the expense of their execution can be readily met by curtailing all exuberant outlays and allowances, united to a more general distribution of the means of the Colony-a measure which I think the advanced state of some heretofore necessary and expensive operations will now permit you to adopt with benefit to the population.

Mr. President, and Honorable Gentlemen of the Legislative Council;

Mr. Speaker, and Gentlemen of the House of Assembly;

The completion this year of the Lunatic Asylum is a source of gratification, as those sufferers who are destined to require its protection will be rendered more comfortable, and considerable expenditure will, I believe, be saved to the Colony. I must, however, take this occasion to call your attention to the present system of affording relief to Paupers. I think it very objectionable, and liable to much reflection, however faithfully it may be carried through.

I shall avail myself of an early moment to lay before you every other communication that may be requisite, and tend to facilitate your proceedings; and I offer you my firm assurance that I shall be ready at all times to co-operate in every project constitutionally appearing to enlarge the prosperity of this Island.

Resolved, That a Committee be appointed to revise the Journals of each day after the adjournment.

Ordered, That Mr. Wightman, Mr. Longworth and the Hon. Mr. Palmer do compose the said Committee.

Resolved, That a Committee of seven Members be appointed, to examine what Laws have lately expired, or are near expiring, with leave to report from time to time, by Bills or otherwise.

To His Excellency Sir H. V. HUNTLEY, Knight, Lieutenant Governor and Communder in Chief in and over Her Majesty's Island Prince Edward, and the Territories thereunto belonging, Chancellor, Vice Admiral and Ordinary of the same, &c. &c. &c.

The humble Address of the House of Assembly. May it please your Excellency;

We the Representatives of Her Majesty's faithful subjects of Prince Edward Island, in General Assembly convened, returning to the performance of our Legislative duties, most fully unite in those feelings of joy with which your Excellency has announced to us the additional happiness Providence has conferred upon our august Sovereign, and His Royal Highness Prince Albert, by the birth of another British Prince.

We shall not fail to devote our earnest and early attention to the prevention of smuggling, with the view of extending and rendering more efficient the means for remedying an evil by which the Revenue, under the existing duties, in all likelihood, sustains much loss, and which, while in itself it becomes an advantage to the illicit trader, must in its effects upon those who legally follow their mercantile avocations, prove discouraging and burthensome.

The melancholy death of the late George Tanton, solve itself into a Committee of the whole and the severe injury at the same time sustained by our mature consideration.

We shall give our most deliberate consideration to the practice by which at present payments are made for work done by contract upon the Roads and Bridges; and either by a total revision of the method pursued in this department of the public works, or otherwise, endeavour to obviate those complaints which are made by the contractors.

Believing it to be essential to the due administration of justice, that convictions before Magistrates should be carried into effect, according to the spirit and intention of the Laws, we shall not omit to give to this subject, as also to your Excellency's suggestion relative to the establishment of Quarter Sessions, and the want of a new Index to the Laws, and an analysis of the Statutes, the attention which they may severally require.

We trust we shall be enabled to make the necessary provision for the erection and support of the proposed Light House on Point Prim.

We shall be ready to devise such regulations as we may conceive calculated better to secure to the public the usefulness of the Buoys and Beacons belonging to the Island, objects which, we fully coincide with your Excellency, claim a share of the public expenditure proportionably with the Roads and Bridges.

In responding to your Excellency's congratulation upon the improvement in the Agricultural system of this Island, we assure your Excellency that we are not aware of any branch of its productive resources which more strongly demands our encouragement; and should it be deemed necessary to introduce to the House of Assembly any measure by which a burden may be imposed upon the Inhabitants of the Colony, your Excellency may trust with the utmost confidence, that the Agriculturists shall no more than heretofore be called upon to bear more than an equal proportion with all other classes of the community.

We learn with much gratification that under the system lately established, the Central Academy has attained a position unexampled by any former period. This, and all our similar Institutions, we consider to be entitled to our care and support, co-extensive with their sphere of usefulness, which under Divine Providence, will no doubt secure to the Colony the foundations of happiness and prosperity.

Upon receiving the Public Accounts, we shall duly provide for all matters of the public service which may be deemed compatible with the financial condition of the Colony.

We shall proceed with such care in voting the Supplies for the current year, that while we omit not to provide for whatever may be essentially required for the public service, we shall leave no reason to apprehend that the amount to be expended in the House with the Address.

infraction of the Revenue Laws, cannot fail to claim | whole, will affect the due maintenance of public credit.

> It is highly satisfactory to learn that the Lunatic Asylum is so forward in progress, that its completion may be looked for this year, and that while comfort may be extended to those sufferers who may become its inmates, considerable expenditure may be expected to be saved to the Colony.

> We will duly consider the present system by which relief is afforded to Paupers, with a view of remedying any defect which may be found to exist in this branch of the expenditure.

> We thank your Excellency for promising to lay before us any communication which may be requisite to facilitate our proceedings; and we receive with much satisfaction your Excellency's assurance of cooperating with us in every project constitutionally appearing to enlarge the prosperity of this Island.

> Mr. Rae moved to amend the Report, by adding the following words to the eleventh paragraph of the Address:—" And in regard " to the reduction of the public debt, the " House will give the most serious conside-" ration to any scheme for its liquidation " which may be suggested by the Govern-" ment."

And then he withdrew.

Two Messages from His Excellency the Lieutenant Governor.

Mr. Secretary Haviland, by command of His Excellency, delivered the following Messages:

Nirst Message.

H. V. HUNTLEY, Lieutenant Governor.

The Lieutenant Governor submits, for the information of the House of Assembly, separate Estimates of the expence of erecting a Light House on Point Prim—both of brick, and of the stone of this Island—as desired in their address to the Lieutenant Governor on the 13th instant.

Government House, March 19th, 1845.

Second Message.

H. V. HUNTLEY, Lieutenant Governor.

The Lieutenant Governor lays before the House of Assembly a communication from the Trustees of the Central Academy, with reference to the very inadequate remuneration which the present salaries and rate of tuition-money afford to the Masters of that Institution.

The Lieutenant Governor conceives it to be of the first importance, to secure the services of well qualified and efficient Teachers in the only Educational establishment in the Colony wherein a knowledge of the higher branches of science and literature can be acquired; and he has, therefore, every confidence, that the House of Assembly will take that liberal view of the representation of the Trustees, which its subject so justly merits at their hands.

Government House, March 19, 1845.

To His Excellency Sir H. V. HUNTLEY, Knight, Lieutenant Governor, &c. &c. &c. and Patron and Visitor of the Central Academy.

The Trustees of the Central Academy deem it to be their duty to make representation to your Excellency, of the very inadequate remuneration which the present salaries and rates of the tuition-money afford to the Masters of that Institution, and to request that your Excellency will be pleased to recommend the subject to the attention of the Legis-

This matter has been pressed upon their consideration in a letter received from the head Master, as also by the recent resignation of the third Master, who, though well qualified for the situation he held, found the emoluments unequal to his support, although occupying rooms in the Academy not properly belonging to the office he held.

The Trustees are well aware that it is not necessary that they should point out to your Excellency the importance of placing the gentlemen who are appointed to such honorable labors in the public service, in a position of respectable independence, that no anxiety from pecuniary embarrassment may interrupt their pursuits, and destroy that energy which is so much required to enable them to discharge their duties with pleasure to themselves and satisfaction to the public.

It is also to be remembered, that there should always be something over and above what may be esteemed necessary to the absolute wants of the individual employed as a School-master, to enable him to make some small provision against a time of sickness or incapacity.

offices of such an Institution as the Central Academy, and certainly afford no surplus for future contingencies. The Trustees believe that these points have not as yet received all the consideration which they appear to require and deserve; and they do, therefore, with great respect, lay them before your Excellency, in the hope that, through your Excellency's recommendation, a more competent provision may be allotted to those who are found to be worthy and qualified to discharge such important functions.

Mr. Hudson, from the Committee of the ants of Lots Two, Three, and Four-A whole House, on the consideration of a Petition of divers Inhabitants of Lots Supply, reported, according to order, three Three and Four-A Petition of divers Resolutions of the said Committee, which

Resolutions were again read at the Clerk's Table, and are as follow:

1. Resolved, That it is the opinion of this Committee, that a sum not exceeding Two thousand eight hundred and fifty Pounds, be granted, for the service of Roads, Bridges and Wharves, for the present year; the said sum to be divided among the different Counties, in the following proportions, viz:

Queen's County, One thousand one hundred and fifty Pounds.

King's County, Eight hundred and fifty Pounds.

Prince County, Eight hundred and fifty Pounds.

- 2. Resolved, That the sum of One hundred and fifty Pounds be granted, to defray the contingent expenses on Roads and Bridges—the same to be equally apportioned among the three Counties.
- 3. RESOLVED, That the sum of two hundred Pounds be granted, and placed at the disposal of the Lieutenant Governor, to be expended, if necessary, in the laying out and altering of Highways, under the Road Compensation Acts.

The First of the said Resolutions being again read,

Mr. Coles moved, in amendment thereto, that after the words "Queen's County," the words following be inserted—" with the exception of the public wharves in Charlottetown."

Mr. Speaker objected to receiving the motion, stating as his reason, that the amendment, if carried, would have the effect of virtually increasing in the House read, viz: a sum voted in Committee of Supply.

A Message from the Council, by Mr. Desbrisay.

Mr. Speaker,

The Legislative Council have passed a Bill, intituled An Act to repeal the several Acts now in force regarding Apprentices, and to substitute other provisions in lieu thereof, to which they desire the concurrence of the House of Assembly.

And then he withdrew.

An engrossed Bill from the Council, intituled An Act to require Her Majesty's Justices of the Peace to return to the Supreme Court a Record of all Fines imposed by them, and to authorize them, if they shall think fit, to appoint Clerks, for keeping such Records, and for other purposes, with the amendments, was, according to order, read the third time.

Resolved, That the said Bill, with the amendments, do pass.

Ordered, That the Hon. Mr. Palmer do carry the said Bill to the Council, and acquaint them that this House hath agreed to the same, with several amendments, to which amendments they desire the concurrence of the Legislative Council.

The Hon. Mr. Palmer, by command of His Excellency the Lieutenant Governor, presented to the House the following Letters and Papers.

Fredericton, N. B., 6th March, 1845.

I have the honor to enclose to Your Excellency, the copy of a Resolution this day passed by the House of Assembly of this Province, and through your Excellency to invite the co-operation of the Legislature of Prince Edward Island, in erecting a suitable establishment for the reception and treatment of Lunatics. I will take an opportunity of forwarding, for your Excellency's information, a copy of the latest Report of the establishment in St. John, in which, from judicious treatment, a number of persons afflicted with insanity have been cured. The necessity of enlarging the Institution, and removing it from the City, has now become apparent; and if a commodious Building could be erected in a central situation, for the reception of patients from the three Provinces, I entertain no doubt, that it would be a means of affording an asylum to many afflicted persons, whose derangement only becomes chronic and incurable from neglect, or injudicious treatment, in the early and incipient stages of their malady.

I have the honor to be,

Sir, Your Excellency's

Most obedient humble Servant,

(Signed) W. M. G. COLEBROOKE. Lieut. Governor,

Sir H. V. Huntley, &c. &c. &c.

NEW BRUNSWICK, House of Assembly, March 6th, 1845.

RESOLVED, That a copy of the Resolution passed in Committee of the whole House on the Report of the Select Committee on the subject of providing a commodious Lunatic Asylum in this Province, be laid before His Excellency the Lieutenant Governor; and that an humble Address be presented to His Excellency, praying that His Excellency will be pleased to correspond with the Lieutenant Governors of Nova Scotia and Prince Edward Island, with a view of obtaining the co-operation of those two Colonies in carrying such a desirable object into effect, in the hope that it may lead to the erection of a building suitable to the wants and condition of the three Provinces.

(Signed) CHARLES P. WETMORE, Clerk.

> NEW BRUNSWICK, House of Assembly,

> > Thursday, 6th March, 1845.

The House, in Committee of the whole, on the Report of the Select Committee on the state of the Provincial Lunatic Asylum, passed the following Resolution, which was adopted by the House.

"RESOLVED, As the opinion of this Committee, that measures should be forthwith taken to provide for the erection of a Lunatic Asylum, and that communication should be had through the Executive Government of this Province, with the Governments of Nova Scotia and Prince Edward Island, with a view of obtaining their co-operation in the erection of a commodious building suitable to the wants of that unfortunate class of persons in the three Provinces."

CHARLES P. WETMORE, (Signed) Clerk.

> HYDROGRAPHICAL OFFICE, CHARLOTTETOWN, P. E. I., March 5, 1845.

I am directed by Captain Bayfield to enclose you a plan of Surveyor's Pond, or Inlet, near the East Points of this Island, for the information of the Legislature. Respecting the proposal to open a direct communication with the Sea, close by Ching Point, so as to allow the entrance of the tide, and form a harbour for fishing boats, I beg to state, that I think the stream too insignificant to keep such a canal open, and to prevent its being sanded up in the first gale from the North East, owing to the great accumula-I ceed to consider private Petitions.

tion of sand upon that coast; and that therefore it would be a waste of public money.

> I have the honor to be, Sir, Your most obedient Servant,

JOHN ORLEBAR. (Signed) Lieut. and Assistant Surveyor.

The Hon. T. H. Haviland, Colonial Secretary.

Ordered, That the said Letters and Papers do lie on the Table.

The Hon. Mr. Palmer also, by command of His Excellency, presented to the House the following Returns, in compliance with the Message of this House to His Excellency, of the 14th instant.

Statement of Accounts of Sales of Crown Lands, from 1st January, 1844, to 22d March, 1845.

Surveyor General's Account of expenses on sales of Crown Lands, during the year 1844.

[See Appendix (G.)]

Then the House adjourned for one hour.

And being met—

Resolved, That this House do now resolve itself into a Committee of the whole House, on the further consideration of Ways and

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Hudson took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Hudson reported, that the Committee had come to three Resolutions, which he was directed to report to the House, whenever it shall be pleased to receive the same.

Ordered, That the Report be received to-morrow.

Mr. Hudson also acquainted the House, that he was directed by the Committee to move for leave to sit again; which the House agreed to.

Ordered, That the House do again pro-

The House proceeded accordingly to take the same into consideration.

The Petition of John Dunn, of Belfast, Ireland, was taken up and again read; and thereupon,

Mr. Thornton moved, that the said Petition be referred to the Committee of Supply.

Mr. Coles moved, in amendment, that the prayer of the Petition be rejected which being seconded and put, passed in the negative.

The question being then put on the main motion, it was agreed to by the House.

The Petition of Angus M'Isaac, of Wood Islands, was taken up and again read; and thereupon,

The Hon. Mr. Palmer moved, that the prayer of the said Petition be rejected.

Mr. A. Maclean moved, in amendment, that the said Petition be referred to the Committee of Supply—which being seconded and put, passed in the negative.

The question being then put on the main motion, it was agreed to by the House.

The Petition of divers Inhabitants of New London, and others, praying for a grant towards improving the navigation of French River, was taken up and again read; and thereupon,

Resolved, That the said Petition be referred to a Committee of five Members, to examine the same, and report thereon.

Ordered, That Mr. D. Maclean, Mr. Montgomery, Mr. Longworth, Mr. Coles, and the Hon. J. S. Macdonald do compose the said Committee.

The Petition of divers Inhabitants of Township 37, south side of the Hillsborough, was taken up and again read;—and thereupon,

Ordered, That the said Petition be with-drawn.

The Petition of Margaret M'Innis, of Lot 50, was taken up and again read; and thereupon,

Resolved, That the said Petition be referred to a Committee of four Members, to examine the same, and report thereon.

Ordered, That Mr. A. Maclean, the Hon. J. S. Macdonald, Mr. Coles and Mr. Douse, do compose the said Committee.

The Petition of Walter Phelan, of Charlottetown, Teacher, was taken up and again read; and thereupon,

A motion was made, that the said Petition be referred to the Committee of Supply.

The House divided on the question:

YEAS:

Hon. Mr. Palmer,	Mr. Thornton,
Mr. Douse,	Mr. Longworth,
Mr. Leairsto,	Mr. Fraser,
Hon. J. S. Macdonald,	Mr. A. Maclean,
Mr. D. Maclean,	Mr. Wightman,
Mr. Hudson,	Mr. Aitken.
Mr. Coles.	

NAYS:

Mr. Dalziel, Mr. Yeo,
Mr. Montgomery, Mr. Macintosh.
Mr. Macgregor,

So it was carried in the affirmative.

Resolved, That this House will, on Saturday next, resolve itself into a Committee of the whole House, to consider further of a Supply.

Ordered, That the Hon. Mr. Palmer have leave to introduce a Bill to dispense with convictions in form, as now required, in certain cases heard before Justices of the Peace.

He accordingly presented the said Bill to the House, and the same was read the first time, and ordered to be read a second time on Monday next.

Then the House adjourned until to-morrow, at Ten o'clock.

THURSDAY, March 27, 1845.

Petition of divers Inhabitants of Lots bly considers a duty incumbent on every parent and 48 and 49 was presented to the House pastor, and is essential to the well-being and social by Mr. Longworth, and the same was happiness of mankind: received and read; praying for an enactment to prevent the running at large of of Education which does not recognize free liberty of Hogs.

A motion being made, that the said Petition be now referred to a Committee of the whole House;

Mr. Yeo moved, in amendment, that the said Petition be withdrawn by Mr. Longworth—which being seconded and put, was carried in the affirmative; and

Ordered, accordingly.

Mr. Thornton, from the Committee appointed to report on the most effective means to be adopted for the suppression of Smuggling, presented to the House the Report of the said Committee—which being again read,

Ordered, That the said Report be referred to a Committee of the whole House tomorrow.

The Order of the Day, for the House in Committee on the consideration of the several Petitions praying that the Bible may be introduced into the Central Academy, and all other Schools throughout the Island receiving grants of Public money—being read;

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Aitken took the Chair Committee.

Mr. Speaker resumed the Chair.

Mr. Aitken reported, that the Committee had come to a Resolution; which Resolution was again read at the Clerk's Table, and is as followeth:

WHEREAS, to quote the words of the several Petitions now under consideration, relative to the introduction of the Bible, as a Class Book, into the Central Academy, and other Schools throughout the Island receiving grants of public money, "to promote the glory of God, and the knowledge of the Lord principles of the word of God," the House of Assem- words be added thereto:

And whereas this Committee deprecates any plan conscience, it consequently approves of that system of National instruction established by Law, now in progress in the Central Academy-it being based upon a due respect for the rights of consciencewhich leaves the Institution open to all: And whereas the introduction of the Douay Bible, as a Class Book, into the Central Academy, would give offence to one portion of the community, whilst the introduction of a different version thereof would be condemned by another; so nothing can be more injudicious than to make the reading of the Bible a necessary and indispensable condition of receiving the advantages of secular education; nothing more unjust, than to impose a tax upon a large portion of the people for supplying the means of general instruction, and yet. by compulsory regulations as to the use of the Holy Scriptures, to exclude them from a participation in its benefits, unless they thought fit to accept it on terms of which they conscientiously disapprove:

RESOLVED, That this Committee deem it inexpedient to adopt any compulsory measures for the introduction of the Bible, as a Class Book, in the Central Academy, or the other Schools throughout the Island receiving grants of public money.

Mr. Coles moved, in amendment to the said Resolution, that all the words thereof preceding the word "Resolved" be left out.

The House divided on the motion of amendment:

YEAS:

Mr. Coles, Hon. Mr. Palmer, Mr. Macgregor, Mr. A. Maclean, Mr. Douse, Mr. Hudson, Mr. Ailken, Mr. Yeo, Mr. Longworth, M.r. Beairsto.

NAYS:

Hon. J. S. Macdonald, Mr. Thornton. Mr. D. Maclean, Mr. Wightman, Mr. Dingwell, Mr. Rae, Mr. Dalziel, Mr. Monigomery. Mr. Macintosh,

So it was agreed to by the House.

The Hon. Mr. Palmer moved, in amend-Jesus Christ, by the early instruction of youth in the ment to the said Report, that the following

RESOLVED, That it is the opinion of this Committee, that it is expedient to repeal Committee, that the sum of Eight-pence per Galso much of the Act of the 10th Geo. 4, cap. lon be imposed and levied on all Spirituous 9, as prohibits the use of the Holy Scrip- Liquors distilled within this Island; and that it be tures, without note or comment, as a Class an instruction to the Special Committee appointed Book in the Central Academy, by children to prepare the Revenue Bill, to include in such whose parents or guardians shall not object to the same.

So it passed in the negative.

Mr. D. Maclean moved, in further amendment of the said reported Resolution, that the word "compulsory" be struck out.

The House divided on the motion of amendment:

YEA:

Mr. D. Maclean.

NAYS:

Hon. J. S. Macdonald,	Mr. Thornion,
Mr. A. Maclean,	Mr. Wightman,

The Government of Prince Edward Island. To amount of Treasury Warrants afloat, and bearing Interest, £26,223 11 Amount of Treasury Notes in circulation, 11,500 £37,723 11 By amount of Bonds in the Treasurer's hands, (1,681l. 9s. 11d. of the 7103 15 amount bearing interest,) By amount of Bonds in the Attorney 713 2 111 General's hands, By Notes and Cash (including Land) Assessment money) in the Trea-5029 By balance against the colony (which) amount includes all the Treasury Notes in circulation) £37,723 11 21

By a reference to the statement of Expenditure and Receipts of the past year, it will appear that the Expenditure for this time amounts to 21,874l. 8s. 33d. and the Receipts at the Treasury to 15,041l. 6s. 33d., showing an apparent Balance against the Colony, for the year, of £6,833 2s. Od. This balance includes 1,836l. 9s. 11d., paid on account of the Colonial Building, over and above the amount received under the Land Assessment Act for the same year-250l. paid for the purchase of Ground whereon to erect the Lunatic Asylum, and 600l. advanced towards the erection of that building-which amount is to be refunded from the sale of Crown Lands. Also, the expence of holding a Special Commission of Oyer and Terminer, for the trial of Hiscox for the murder of George Tanton, and other expences connected with that affair, amounting to 2211. 19s. 41d. Therefore the ordinary Expenditure of the past year, over and above that of the receipts for the same time, should not be taken to be over 3,924l. 12s. 81d.

The Abstract of the financial state of the Colony shews that the Treasury Warrants afloat and bearing interest, amount to 26,223l. 11s. 2\frac{3}{4}d., and the Treasury Notes in circulation to 11,500l.; to go against which, there are Bonds in the Treasurer's and Attorney General's hands to the amount of 7,316l. 18s. 4\frac{1}{2}d. Cash and Notes in the Treasury amounting to 5,029l.-0s. 7\frac{1}{2}d., leaving a balance against the Colony of 13,377l. 12s. 3d, (and of this amount 3,428l. 0s. 2d., is invested in the P. E. Island Steam Navigation Company), over and above the amount of Treasury Notes in circulation.

Your Committee consider it proper to shew that the debt against the Colony has been increased to the amount of 1666l, 14s. 6d. by the opposition of Messrs. Cunard, and others, to the payment of that amount

assessed on their property for the opening the main Western Road, after the Road has been completed at the expence of the Colony, and their property thereby rendered much more valuable.

Your Committee have also to observe, that there is a sum of 650l. 18s. 5d. due from several Proprietors, for assessments levied on their lands, under the Act 10 Geo. 4, cap. 10, for regulating the laying out and altering of Highways, &c. &c., which, when paid in, will be a liquidation of the public debt to that amount.

It must also be borne in mind, while looking at the amount of debt against the colony, that the amount, as above stated, of 3,4281. Os. 2d. as invested in the St. George Steam Boat, is a sum which, though not immediately available, yet is an amount which may be considered as passing to the credit of the colony for the present time.

Your committee would further remark, that after the completion of the Colonial Building, there will be unappropriated of the Land Assessment moneys, (at the expiring of the act) upwards of 3,000*l.*, which will be available towards the reduction of the public debt.

The Order of the Day, for the House in Committee on the consideration of the Report of the Special Committee, appointed to report on the most effective means for the prevention of smuggling, being read;

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Bearisto took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Bearisto reported, that the Committee had gone through the said Report, paragraph by paragraph, had amended, and then adopted the same; and the Report, as amended, being again read at the Clerk's Table, was agreed to by the House, and is as followeth:

Your Committee who were appointed to report on the most effective means to be adopted for the prevention of smuggling, having duly considered the important subject referred to them; and also the state of the finances of the Colony, with the view of appointing a paid preventive service, submit—

That they consider certain provisions ought to be made, authorizing the Government to appoint so many Land-waiters, or other officers, as may be found necessary, in the different Out-ports of the Island, who shall be entitled to receive the whole amount of any seizures made by themand for the Port of Charlotterown, and the Ports for which Sub-Collectors are appointed, they recommend that the Impost Officer be empowered to place such Officers on board of such Vessels as he may think necessary, while their cargoes are being discharged-which persons shall be paid by the Impost Officer a moderate sum per diem for their attendance—a certain but sufficient time to be allowed for the discharge of the cargo; but if not discharged within such time, and the Officer is consequently longer detained, then the expense of the daily attendance of the Officer to be borne by the master or owner of the vessel discharging -no part of the cargo to be discharged in the absence of the Lan -waiter.

Your Committee would further recommend, for the Port of Charlottetown, that a sum not exceeding £20 be placed at the disposal of the Government, to reimburse the Officer appointed and employed by the Government for the prevention of smuggling, in any unavoidable and necessary expence he may incur in the prosecution of his duty—and that he be allowed the whole of the seizures made by him.

If the foregoing suggestions are adopted by the House, your Committee recommend that a sum he voted in Supply, to meet the expense of the current year.

Your Committee, in the present state of the funds of the Colony, cannot recommend any further expense to be incurred, until the measures recommended by them have been tested.

Ordered, That Mr. Thornton, Mr. Longworth, Mr. Yeo, Mr. Douse and Mr. A. Maclean be a Committee, to prepare and bring in a Bill, in accordance with the said Report.

Resolved, That this House do now resolve itself into a Committee of the whole House, on the further consideration of the Report of the Special Committee appointed to examine and report on the Expiring Laws.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Wightman took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Wightman reported, that the Committee had come to a Resolution; which Resolution being again read at the Clerk's Table, was agreed to by the House, and is as followeth:

RESOLVED, As the opinion of this Committee, that it is inexpedient to grant the prayer of the Petition of certain inhabitants of Georgetown, and others, praying an alteration in the Georgetown Assessment Act, and for other purposes.

Resolved, That the following Address to His Excellency the Lieutenant Governor, do now pass:

To His Excellency Sir HENRY VERE HUNTLEY, Knight, Lieutenant Governor and Commander in Chief in and over Her Majesty's Island Prince Edward, and the Territories thereunto belonging, Chancellor, Vice Admiral, and Ordinary of the same, &c. &c. May it picase your Excellency;

The House of Assembly most respectfully call the attention of your Excellency, to the great necessity of having Bushes placed, in future seasons, upon the Bays from Belfast, Towhship 57, towards Haszard's Creek, on Township 48, and upon such other Bays and Rivers as may require the same, for the guidance of travellers upon the ice in winter; and humbly request that your Excellency will be pleased to cause the necessary directions to be given to the Road Commissioners of the to introduce a Bill to further amend an Act different Districts for that purpose.

Ordered, That Mr. Douse and Mr. A. Maclean be a Committee to wait upon his Excellency with the said Address.

Mr. Speaker communicated to the House the following letter:

Charlottetown, March 27th, 1345.

I beg leave to request you to lay before the House of Assembly, the draft of "An Index" prepared by me, to the two volumes of the Laws of P. E. Island, and the supplementary "Table" to Statutes in print, repealed, expired, executed, &c., herewith forwarded, and to submit a statement of the plan which I have considered most solve itself into a Committee of the whole advisable in the compilation.

1st. In the Index will be found, I think, a complete analysis of every Statute in force on the first day of the present Session, preserving clearness of expression, with as much brevity as could be consistently done. More than double the number of references appear than will be found in the old Index to the first volume.

2nd. In the "Table" will be found a complete catalogue. I think, of all Statutes which appearing in print, might mislead a person using the present printed Edition, combining Acts repealed, expired, and unrevised, executed and disallowed; and also those continued, amended, enlarged, or made perpetual by subsequent Statutes.

The utility of this Table will be at once apparent, as any person owning a copy of the present edition, may take the list in order, and going through it, rectify, by marginal note, the two volumes, with very little trouble, or loss of time. It will be obvious that those marginal notes of reference, already in print in the first volume, are not included in the "Table."

Should any further explanation be necessary, I shall be happy to forward it.

I have the honor to be,

Sir, Your obedient servant, WILLIAM CUMDALL.

To the Hon. J. Pope, Speaker, &c.

Ordered, That the said letter, with the document accompanying the same, do lie on the Table.

Ordered, That Mr. Beairsto have leave passed in the fourth year of the Reign of the late King William the Fourth, for ascertaining the boundaries of the several Townships in this Island.

He accordingly presented the said Bill to the House—and the same was read the first time, and ordered to be read a second time to-morrow.

Resolved, That this House will, to-morrow, resolve itself into a Committee of the whole House, on the consideration of all matters relating to Roads, Bridges and Wharves.

Resolved, That this House do now re-House, on the further consideration of a Petition of divers Merchants, Farmers, and others, praying for Legislative aid towards promoting the cultivation of Flax, Hemp, mittee. and Seeds of various descriptions.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Hudson took the Chair of the Com-

Mr. Speaker resumed the Chair.

Then the House adjourned until to-morrow, at Ten o'clock.

SATURDAY, March 29, 1845.

THE Order of the Day, for the House in Road from Lot 6 Bridge, to the Cross on Committee, on the consideration of all matters relating to Roads, Bridges and Wharves, being read; The House accordingly resolved itself

into the said Committee.

Mr. Speaker left the Chair.

Mr. Aitken took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Aitken reported, that the Committee had come to a Resolution; which Resolution being again read at the Clerk's Table, was agreed to by the House, and is as followeth:

MR. SPEAKER communicated to the the other Directors, shall deem it advisable to House the following Letter from the accept." Chairman of the P. E. Island Steam Navigation Company:

To the Honorable the Speaker of the House of Assembly:

The Directors of the Prince Edward Island Steam Navigation Company beg to submit to your Honor, for the information of the Honorable the House of Assembly, the copy of a resolution adopted at the late Annual Meeting of the Shareholders of that Company.

"That as it appears from the Report and from the statement of accounts laid before this meeting, that the present traffic between the Ports of Miramichi. Pictou, and Charlottetown, is barely sufficient to bear the expence of maintaining the St. George upon the station, and is altogether unproductive of profit to the Shareholders:

"Resolved, That the Directors be empowered (whenever favourable opportunity offers,) to negotiate her sale upon such equitable terms as a due consideration of all the circumstances may appear advisable to them."

The Directors have also the honour to lay before you the following Resolution, adopted by the Board in consequence of the above, and to request that you will be pleased to bring the same under the attention of your Honorable House.

" Resolved, That as the St. George has been some time in the possession of the Company, and is necessarily depreciated in value since the time of her purchase in the year 1842, it is expedient that application be made to the Legislature to modify the 4th Section of "An Act to authorize the appointment of Commissioners to manage certain Shares and Property," &c. &c. passed on the 16th day of April, 1842; and to empower the Lieutenant Governor in Council to allow the Commissioners to make sale of the Shares in the Prince Edward Island Steam Navigation Company belonging to the Government, at such reasonable price as, upon due consideration of all the circumstances, they, in conjunction with

(Signed) CHARLES HENSLEY, Chairman of the P. E Island Steam Navigation Company.

March 28th, 1545.

And the said letter being read by the Clerk;

Resolved, thereupon, that the said letter be referred to a Committee of three Members, to report thereon, by Bill or otherwise.

Ordered, That the Hon. Mr. Palmer, Mr. Longworth and Mr. Yeo do compose the said Committee.

A Message from the Council, by Mr. Desbrisay.

Mr. Speaker,

The Legislative Council have passed a Bill, intituled An Act to authorize the Commissioners of Small Debts, in their respective Courts, to appoint Bailiffs to execute the Processes of the said Courts, and to take security from such Bailiffs for the due execution of the same—to which they desire the concurrence of the House of Assembly.

And also.

The Legislative Council have passed the Bill intituled An Act to confirm the Titles to Lands purchased under the several Acts for levying an Assessment on Lands in this Island, with several amendments, to which they desire the concurrence of the House of Assembly.

And also,

Mr. Speaker,

The Legislative Council have agreed to the amendments made by the House of Assembly to the Bill intituled An Act to require Her Majesty's Justices of the Peace to return to the Supreme Court a Record of

all Fines imposed by them, and to authorize them, if they shall think fit, to appoint Clerks for keeping such Records, and for other purposes.

And also,

Mr. Speaker,

The Legislative Council desire a Conference with the House of Assembly, on the Bill intituled An Act to continue the Act relating to sick and indigent Emigrants; and have appointed the Honorable Mr. Irving and the Honorable Mr. Holl, a Committee to manage the said Conference—to meet in the Committee Room at half-past three o'clock.

And then he withdrew.

Resolved, That this House doth agree to a Conference, as is desired by the Legislative Council, on the Bill intituled An Act to continue an Act relating to sick and indigent Emigrants.

Ordered, That Mr Longworth do go to the Council, and acquaint them therewith.

Ordered, That Mr. Longworth, the Hon. Mr. Palmer, Mr. Montgomery, and the Hon. J. S. Macdonald be a Committee to manage the said Conference.

The amendments made by the Council to the Bill intituled An Act to confirm the Titles to Lands purchased under the several Acts for levying an Assessment on Lands in this Island, were read the first time, and are as follow:

Folio 3, line 16,-Strike out from the word "Provided," to the word "aforesaid," in the 28th line, both inclusive.

Folio 4, line 5,-After the word "taken," insert the word "actual."

Same folio, line 10, -Strike out from the word "and," to the word "registered," in line 21, both inclusive; and insert as follows:-

> "And provided also, and be it enacted, That no Deed which might be confirmed by this Act, shall be held or be construed to be affected thereby, unless the person or persons claiming under such Deed, shall, within six Calendar Months after the passing of this Act, publish once in the Royal Gazette newspaper of this Island, a Notice in the form of the Schedule to this Act annexed: and provided into the said Committee.

also, that no Deed of any Land heretofore sold, under and by virtue of the said Acts, or of either of them, shall be deemed valid, unless such Deed shall be executed within six Calendar Months after the passing of this Act; nor shall any such Deed, or any Deed heretofore made, of any sale or sales under and by virtue of the said Act, or of either of them, be deemed valid, unless the same shall have been, or shall be, duly registered in terms of the Registry Act of this Island."

SCHEDULE.

"Whereas, A. B., Sheriff of County, hath conveyed to me a Tract of Land, on Township No. described as follows: [here insert description] purchased by me at a sale, for non-payment of Land Assessment. Now I do hereby give Notice that I have taken actual possession of the said Land, in terms of my Deed, and that unless the former owner or owners thereof shall pay to me the sum of £ being the purchase money, together with Interest and Expenses, and the value of any improvements I may make thereon, on or before day of the to the said Land will become absolute.

Ordered, That the said amendments be read a second time to-morrow.

To His Excellency Sir HENRY VERE HUNTLEY, Knight, Lieutenant Governor and Commander in chief in and over Her Mujesty's Island Prince Edward, and the Territories thereunto belonging, Chancellor, Vice Admiral, and Ordinary of the same, &c. &c. May it please your Excellency;

The House of Assembly in its last Session appointed a Special Committee to report on the subject of the Crown Lands in this Colony, and in which Report is set forth the charges made by the Surveyor General on the Sales, and those charges the House of Assembly considered as being much beyond what the Law authorizes that officer to make for his services. While the House of Assembly are desirous that the Surveyor General should be adequately remunerated when employed in the public service, yet they cannot consider he is entitled to the high charges he continues to make; as it appears by the accounts furnished this Session, the receipts on Crown Sales amount to £107 12s. 9d. for 1844, while his personal charges are £23 12s. 6d., besides £3 6s. 8d. to Mr. Ball, and £5 4s. for laborers and printing, making a sum of 321. 3s. 2d., being upwards of 25 per cent. on last year's sales.

The House of Assembly therefore pray your Excellency will be pleased to give orders for the disallowance in future of any such excess of charges made by the Surveyor General.

Ordered, That the said Address be engrossed.

Ordered, That Mr. Montgomery and Mr. Wightman be a Committee to wait upon his Excellency with the said Address.

MOTION being made, that the Bill sented to the House the Report of the said to amend the Acts relating to Dis-Committee; which Report was again read

Your Committee who were directed to inquire Mr. Macintosh moved, in amendment, to into the present method of paying for contract work on Roads and Bridges, and to report on such alterations in that department of the public service as may be deemed necessary, have, as far as it was possible, made every inquiry into the matter referred to them, and report-

That previous to 1844, from the difficulty there existed in obtaining cash for warrants issued for the Road service, the Road Correspondent could not meet the demands made on him in a satisfactory manner for the contractors of such public works; and it consequently gave rise to complaints from those parties who in many cases, without being aware of the cause, attributed the delay of their payments to inattention on the part of the Road Correspondent. But it is highly satisfactory to your Committee to find that, during the past season, the Road correspondent has been enabled to obtain cash for all the warrants issued for the road service; and all the claims (with one exception) were promptly paid; and your Committee have not found an instance where the contractor has been obliged to mittee had gone through the Bill, without wait his payment for want of cash to meet it during

Your Committee have examined a person named William Good (the case just before alluded to,) who states, that in 1844, he had a Road certificate for £15, which was not paid in cash till about two weeks after first demanded; and he also states that the Road Correspondent, on its being first presented, offered to pay it, provided he (W. Good) would take Mr. Thornton, from the Committee half the amount in merchandize; but your Commitservice as may be deemed necessary, pre-that the amount being a special appropriation, to be

expended, provided a right of way was established; and the Road Correspondent having received instructions from the Government, not to pay such appropriations till the necessary documents for such right of way had been deposited in the Secretary's Office, the Road Correspondent felt obliged to delay the payment of W. Good's certificate for about two weeks, when it was paid in cash.

Your Committee recommend that security be given by the Road Correspondent for the performance of the duties of his office.

In the event of the Road Correspondent finding a difficulty, or being unable to obtain cash for large warrants, your Committee consider it advisable that he should have it in his power to obtain warrants for £10, for those Contractors who prefer taking such, rather than wait for cash payments; but your Committee trust that the Road Correspondent will in future find the same facility in obtaining cash for the road service as during the past year; and when it is considered that capitalists wishing to invest money must be aware of this mode being the most safe for them, your Committee cannot anticipate any difficulty in the road service, arising from a scarcity of cash to meet the claims on that department; and therefore your Committee cannot recommend any further alterations in it than as before stated.

Ordered, That the said Report be received, and adopted by the House.

A Message from the Council, by Mr. Desbrisay.

Mr. Speaker,

The Legislative Council desire a Conference with the House of Assembly, on the Bill intituled in Act to repeal so much of the laws now in force regulating the performance of Statute Labour on the Highways, as relate to Charlottetown, its Common and Royalty, and to make other provisions in lieu thereof; and have appointed the Hon. Mr. Rice and the Hon. Mr. Swabey a Committee to manage the said Conference—to meet in the Committee Room at half-past one o'clock.

And then he withdrew.

Resolved, That this House doth agree to a Conference, as is desired by the Council, on the Bill intituled "An Act to repeal so much of the Laws now in force, regulating the performance of Statute Labour on the Highways, as relate to Charlottetown, its Common and Royalty, and to make other provisions in lieu thereof."

Ordered, That Mr. Longworth do . to the Council, and acquaint them therewith.

Ordered, That the Hon. Mr. Palmer, Mr. Longworth, Mr. Coles, and the Hon. Mr. Macdonald, be a Committee to manage the said Conference.

Ordered, That Mr. A. Maclean, Mr. Rae, Mr. Coles, and Mr. Beairsto do compose the said Committee.

The Hon. Mr. Palmer moved, that the House do come to the following Resolutions:

RESOLVED, That this House doth concur in opinion with the House of Assembly of the Province of New Brunswick, on the importance of the measure of establishing a Lunatic Asylum, for the unfortunate class of persons from either of the three Provinces, who may be in need of such an institution.

RESOLVED, That this House will readily co-operate with the other Branches of the Legislature in any measure calculated to meet the concurrence of the Legislatures of the Provinces of New Brunswick and Nova Scotia, whereby the Lunatic Asylum now in course of erection near Charlottetown, according to a plan approved of by the Imperial Government, may be adapted to serve for those Provinces, as well as for this Island, and by which any equitable arrangement may be made for apportioning the expense and yearly maintenance of the said establishment.

RESOLVED, That an Address be presented to His Excellency the Lieutenant Governor, with copies of the foregoing Resolutions; and that His Excellency be respectfully requested to communicate the same to the Lieutenant Governor of the Province of New Brunswick; and to procure and forward therewith a Plan of the said Lunatic Asylum now in course of erection, and a description of the site thereof, and also copies of the Acts of Assembly of this Island passed for the erection and support of the said establishment.

on the said Resolutions, they were agreed to by the House.

Resolved, That the following Address to His Excellency the Lieutenant Governor do now pass.

A Message from the Council, by Mr. Desbrisay.

Mr. Speaker,

The Legislative Council do agree to a Conference, as is desired by the House of Assembly, on the amendments made to the Bill intituled an Act to alter an Act intituled 'An Act to alter and amend the Act for the establishment of an Academy in Charlottetown; and have appointed the Hon. Mr. Young and the Hon. Mr. Swabey a Committee to manage the said Conference—to meet in the Committee Room instanter.

And then he withdrew.

And the names of the Managers being called over, they went to the Conference.

And being returned-

Mr. A. Maclean reported, that the Managers had been at the Conference, and had complied with the instructions given them by this House.

The Hon. Mr. Palmer moved, that the following Address be presented to His Excellency the Lieutenant Governor.

To His Excellency Sir HENRY VERE HUNTLEY, Knight, Lieutenant Governor and Commander in chief in and over Her Majesty's Island Prince Edward, and the Territories thereunto belonging, Chancellor, Vice Admiral, and Ordinary of the same, &c. &c. May it please your Excellency;

The House of Assembly, in appropriating the moneys for the service of Roads, Bridges and Wharves, being frequently at a loss for such accurate information as will enable them to make a just distribution and application of the public money voted for these purposes, humbly request that your Excellency will be pleased to take the most effectual means which your Excellency is enabled to adopt, to procure-previous to the next meeting of the House of Assembly-a Return from the different Commissioners of Roads throughout the Island, stating from such ascertained facts as may be within their knowledge, the total linear extent of the Public Roads in their several districts, designating any particular lottetown.

Ordered, That Mr. A. Maclean do go to road, or extent of road, which has become or is becoming of no public utility, as well as any alteration in any road which may be deemed necessary for the public interest: also the number of Bridges, Wharves and Hards, in each District, in three different classes, according to their magnitude; and such further remarks and information in these respects as may be of information to the House.

> The House of Assembly have further to request, that your Excellency will also be pleased to require the said Commissioners to be more regular and exact in stating in their annual returns to your Excellency and Her Majesty's Council, the particular amounts of money required for the service of roads and bridges in each district, and where required.

Ordered, That the Hon. Mr. Palmer and the Hon. J. S. Macdonald be a Committee to wait upon His Excellency with the said Address.

A Message from the Council, by Mr. Desbrisay.

Mr. Speaker,

The Legislative Council have passed the following Bills, without any amendment:

An Act to explain and amend two Acts therein mentioned, relating to Distress for Rent and Replevins.

An Act relating to the appointment of a Harbor Master, and for the better regulation of the Public Wharves of the Port of CharAn Act to make new provisions for the support of Light Houses, Buoys and Beacons.

And also,

"Council Chamber, Wednesday, 16th April, 1845.

"Resolved, That a Committee be appointed, to join a Committee of the House of Assembly, to prepare a Joint Address to Her Majesty, praying aid from the Imperial Government to the expence of forwarding the Mails by Steam communication between this Island and Her Majesty's adjacent Colonies.

"Ordered, That the Honorable Mr. Young and the Honorable Mr. Swabey be a Committee on the part of this House, to prepare the said Address.

" Ordered, That the said Resolution be communicated by Message to the House of Assembly."

And also,

The Legislative Council desire a further Conference with the House of Assembly on the subject matter of the last Conference; and have appointed the same Committee who managed the last Conference, a Committee to manage this further Conference; to meet in the Committee Room instanter.

And then he withdrew.

Resolved, That this House doth agree to a further Conference, as is desired by the Council, on the subject matter of the last Conference.

Ordered, That Mr. A. Maclean do go to the Council, and acquaint them therewith.

Ordered, That the same Committee who managed the former Conference, be a Committee to manage this further Conference.

And the names of the Managers being called over, they went to the Conference:

And being returned-

Mr. A. Muclean reported, that the Managers had been at the Conference, and had met the Committee of the Council, who acquainted them, that the Council do insist on their amendments, for the following reasons:

"Because the Trustees of the Central Academy being empowered by the Act of the 6th Victoria, cap. 21, to apportion the tuition money received from the pupils at that Institution, " to and amongst the Masters, as to them should seem just and reasonable;" and having made such apportionment, and the second Master of the Academy having accepted that situation upon the faith of the apportionment so made by the Trustees, the Council are of opinion, that it would be unjust now to alter the present system, so as to reduce the proportion of the tuition money assigned by the Trustees to the second Master, for the purpose of raising the income of the third Master, who accepted his situation, with a perfect knowledge of the apportionment made by the Trustees; and though the Council are of opinion that both the first and third Masters are inadequately paid, and will willingly sanction an increase to them, by resolution or otherwise, as the Assembly may deem proper, from the general revenue of the Colony, yet they can by no means admit that the second Master is overpaid under the present system; and for these reasons the Council insist on their amendments made to the Bill intituled "An Act to alter an Act, intituled 'An Act to alter and amend the Act for the establishment of an Academy in Charlottetown."

Resolved, That a Committee be appointed to join a Committee of the Council, to prepare a joint Address to Her Majesty, praying aid from the Imperial Government towards defraying the expense of forwarding the Mails by Steam communication between this Island and Her Majesty's adjacent Colonies.

Ordered, That the Hon. Mr. Palmer, Mr. Thornton, the Hon. J. S. Macdonald and Mr. Montgomery be a Committee on the part of this House to prepare the said Address.

Ordered, That a copy of the foregoing Resolution be communicated by Message to the Council.

Ordered, That the Hon. Mr. Palmer do carry the said Message to the Council.

Mr. Thornton, from the Committee appointed to join a Committee of the

Council, to prepare a Joint Address to Her Majesty, praying Her Majesty will be graciously pleased to signify her assent, that a Bill may be passed by the Legislature, authorizing a further issue of Treasury Notes, presented to the House the draught of an Address, as prepared by the Joint Committee; which draught Address being again read at the Clerk's Table, was agreed to by the House, and is as followeth:

To the Queen's Most Excellent Majesty. Most Gracious Sovereign;

We Your Majesty's dutiful and loyal subjects, the Members of the Legislative Council and House of Assembly of Prince Edward Island, most humbly submit for Your Majesty's gracious consideration, that in 1325, the Legislature of this Colony was induced, from the scarcity of specie in circulation, and in anticipation of the advantages to be derived from an issue of Treasury Notes, in forwarding the internal improvements and facilitating the mercantile transactions of the Colony, to issue Notes to the amount of £5000, equal to one year's revenue at that period.

In consequence of the advantages found to be derived from the issue of such Notes, the Legislature, at three subsequent periods, increased the issue to the extent of 16,800l., but from this amount £5000 have been cancelled out of moneys raised by an assessment on land, leaving only 11,800l. at present in circulation.

The Council and Assembly humbly represent, that the system of trade carried on between this Colony and the adjacent Provinces, which are the markets for the surplus Agricultural produce of the Colony, is such, that a great proportion of the sums brought the said Message to the Council. into it in specie or Bank bills, is immediately collected and returned by the importing Merchant in payment. of his merchandize. That there being no Banking Desbrisay. institutions in the Colony, it is impossible to retain sufficient specie to serve the purpose of an exclusive circulating medium to supply the wants of its trade.

That an increased issue of Treasury Notes to the extent of 10,000l. would, in a great measure, relieve the pressure now severely felt by all classes for want of a sufficient circulating medium, without at all endangering the public credit.

The Council and Assembly submit, that in order to guard against the depreciation of the Treasury Notes, the Legislature passed a law (on their issue) to enable the holder of such Notes to fund them, and to receive interest thereon at the rate of six per centum; yet such has been the estimation by the public of the security arising from the increasing Revenue of the Colony, on which such issue was originally based, that lency.

no instance has yet occurred of any such Notes having been so funded, but they continue to be received at their specified value.

The Council and Assembly also beg to represent to your Majesty, that the annual Revenue of the Colony has increased since the first issue of Treasury Notes in 1825, from 5,000l. to upwards of 15,000l., while the population has increased during the same period, from 23,000 to nearly 60,000.

The Council and Assembly therefore humbly pray that Your Majesty will be most graciously pleased to signify your assent, that a law may be passed, authorising the issue of 10,000l. in Treasury Notes, under such guarantee for their redemption, within a period of fifteen years, as the Legislature, with the approval of Your Majesty, may provide.

That the said Address be Crdered, engrossed.

Resolved, That a Committee be appointed, to join a Committee of the Council, to prepare an Address to His Excellency the Lieutenant Governor, requesting that His Excellency will be pleased to forward the Joint Address of both Houses to Her Majesty, on the subject of the further issue of Treasury Notes.

Ordered, That the same Committee who prepared the Address to Her Majesty, be a Committee on the part of this House, to prepare the said Address to his Excellency.

The Legislative Council and House of Assembly having adopted a joint Address to Her most gracious Majesty the Queen, praying that Her Majesty will be pleased to give Her Royal assent to a Bill to authorize a further issue of £10,000 of Treasury Notes in this Colony, for the reasons therein set forth;—we respectfully request that your Excellency will be pleased to forward the same, so that it may be laid at the foot of the Throne; and also that your Excellency will be further pleased to give the prayer of this Address your strong recommendation.

Resolved, That a Committee of this House be appointed, to take charge of the Legislative Library, in conjunction with a Committee of the Legislative Council.

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

The Memorial of the Legislative Council and House of Assembly of Prince Edward Island,

Most humbly sheweth;

That during the year 1842, a Company was formed and incorporated by Act of the Legislature of this your Majesty's Island Prince Edward, under the name of the Prince Edward Island Steam Naviga-

tion Company, for the purpose of facilitating the to the rest of your Majesty's North American Colointercourse between this Colony and your Majesty's Provinces of Nova Scotia and New Brunswick, by a Steam Vessel, as well as to connect the communication with Canada, by meeting the Mail Steamer Unicorn at Pictou, once every fortnight, during the summer seasons.

That this Colonial Government took shares in the said Company, to aid in the procuring a commodious Steam Vessel and safe conveyance for your Majesty's Mails to and from Nova Scotia; a vessel of 110 horses power was purchased in England, at a heavy outlay of capital, and was employed during part of the summer of 1842 and the whole of the summer of 1843, in running twice a week between Charlottetown, the capital of this Island, and Pictou, in Nova Scotia, where she received the British and Colonial Mails, and once a week to Miramichi in New Brunswick; and during the past year, 1844, the same service was performed, with the exception that the Boat went only semi-monthly to Miramichi, instead of once a week, as in the previous years.

That during the whole of these summers, the Mails of this Island have been regularly conveyed twice a week between Nova Scotia and this Island, and once a week to Miramichi, during the two first mentioned seasons, thereby not only providing a safe and expeditious transit of the correspondence of the Colony, but affording a regular intercourse between all your Majesty's North American Provinces-an intercourse which has now become absolutely necessary.

That in perfecting this extended communication and public convenience, the said Company have expended such large sums of money, and have suffered such considerable loss, in which the local Government has borne its share, that without aid they will be compelled to desist from their operations. That the expenses of the transit of the Mails and other Post Office charges, have left a balance against this Colony in the past year, of 372l. over and above the receipts from this head of revenue, so that no aid can be looked for from that source; and moreover, that the Post Office arrangements are not under the controul of this Legislature.

That the commerce of this Colony with the United Kingdom has so increased as to render it necessary, that nothing should interfere to interrupt the accommodation thus so satisfactorily established and conducted; and as your Majesty has been graciously pleased, in furtherance of an extended commercial intercourse, to supply funds for the conveyance of the Mails to all your Majesty's possessions, your Memorialists are induced to believe that a distinction will not be made in the supplying them to this Island; but that the same liberality will be extended to it as | Assembly."

nies.

Your Memorialists therefore most humbly pray your Majesty to be graciously pleased to grant in aid of forwarding the Mails between this Island and Pictou, such a sum as will prevent the inconvenience and injury which an abandonment of the present communication would inflict.

A Message from His Excellency the Lieutenant Governor, by Henry Palmer, Esq. Usher of the Black Rod.

Mr. Speaker,

His Excellency the Lieutenant Governor commands the immediate attendance of this Honorable House in the Council Chamber.

Accordingly Mr. Speaker, with the House, went up to attend his Excellency, when his Excellency was pleased, in Her Majesty's name, to assent to the several Bills following:

An Act to authorize the Commissioners of Small Debts, in their respective Courts, to appoint Bailiffs to execute the processes of the said Courts, and to take security from such Bailiffs for the due execution of the same.

An Act to explain and amend two Acts therein mentioned, relating to Distress for Rent and Replevins.

An Act to render valid certain proceedings heretofore had before the Court of Commissioners for the recovery of Small Debts, for the District of De Sable, in Queen's County.

An Act to dispense with Convictions in form as now required, in certain cases, heard before Justices of the Peace.

An Act to repeal the several Acts now in force regarding Apprentices, and to substitute other provisions in lieu thereof.

An Act for suspending for a limited period certain parts of an Act passed in the Fourth year of His late Majesty's Reign, intituled 'An Act for ascertaining and establishing the Boundary Lines of Counties and Townships, and parts of Townships, and for regulating the Duties of Surveyors, and to repeal a certain Act therein mentioned.

An Act to confirm the Titles to Lands purchased under the several Acts for levying an Assessment on Lands in this Island.

An Act to incorporate the Trustees of the Baptist Church in Charlottelown.

An Act to continue an Act intituled an Act to consolidate, amend, and reduce into one Act the several Acts, and parts of Acts, relating to the qualifications and mode of summoning Grand and Petit Jurors.

An Act for the regulation of the Mackerel Fishery.

An Act for the appointment of Clerks to Justices of the Peace, and to regulate proceedings had before them.

After which, Mr. Speaker spake as followeth:—

May it please your Excellency;

On behalf of Her Majesty's faithful Commons of Prince Edward Island, I have now to present the several Bills of Aid and Supply voted to Her Majesty during the present Session, to which I have humbly to request your Excellency's assent:

An Act for the increase of the Revenue of this Island.

An Act for the better prevention of Smuggling.

An Act to make new provisions for the support of Light Houses, Buoys and Beacons.

An Act to continue an Act intituled 'An Act to alter, and in addition to an Act made and passed in the Tenth year of the Reign of His late Majesty King George the Fourth, relating to the laying out and altering of Highways, and for other purposes therein mentioned.

An Act to continue an Act to prevent Hawkers and Pedlars travelling and selling in this Island without Lucense.

An Act to continue and amend an Act relating to sick and indigent Emigrants.

An Act to suspend a certain Clause in the Land Assessment Act, relating to the cancelling of Treasury Notes.

An Act to authorize the Sale of the Government Shares in the Steam Boat St. George.

An Act further to alter a certain part of the Laws now in force, regulating the performance of Statute Labour on the Highways, as relates to Charlottetown, its Common and Royalty.

An Act relating to the appointment of Harbour Masters, and for the better regulation of the Public Wharnes of the Port of Charlottetown.

ships, and parts of Townships, and for regulating the Duties of Surveyors, and to repeal a certain Act therein mentioned, for the service of the year of Our Lord One thousand Eight hundred and forty-five.

To each of which His Excellency was pleased, in the Queen's name, to give his assent.

And then His Excellency was pleased to make the following Speech to both Houses:

Mr. President, and Honorable Gentlemen of the Legislative Council;

Mr. Speaker, and Gentlemen of the House of Assembly;

Your exertions enable me to release you from your Legislative duties, after a comparatively short Session, extremely conspicuous for the variety, importance and utility of the measures adopted therein. It is incumbent upon me to acknowledge with thankfulness your attention to the several subjects that I considered it proper to bring before your notice at the opening of the Session; and it is not less gratifying to find, that my opinions have been for the most part corroborated by your actions.

Mr. Speaker, and Gentlemen of the House of Assembly;

Accept my thanks, not only for the supplies voted by you, the application of which will be in careful accordance with your intentions, but also for the reduction you have prudently made in the expenditure, which I have every hope the current Revenue will at least meet; the cases of the unfortunate sufferers at Bedeque, you have also treated with a humane feeling that I hope will be annually renewed.

Mr. President, and Honorable Gentlemen of the Legislative Council;

Mr. Speaker, and Gentlemen of the House of Assembly;

During the prorogation I shall, with my best ability, endeavour to inform myself of those measures which may apparently be most calculated to advance the prosperity of the Colony. I am satisfied that your energies will, in your several Districts, be directed to the same object. The zeal you have displayed during this Session, convinces me that I may unite the consideration of your public duty with that which is due to your personal convenience, and select that period for calling you from your homes, when neither shall sustain embarrassment.

After which the Honorable the President of the Legislative Council said—

2

Gentlemen;

It is the will and pleasure of His Excellency the Lieutenant Governor, that this General Assembly be prorogued until Tuesday, the First day of July; and this General Assembly is accordingly prorogued until Tuesday, the First day of July next.

End of the Third Session.

Downing Street, 18th June, 1844.

(COPY.) SIR;

I have to acknowledge the receipt of your two Despatches of the 10th and 11th May, Nos. 24 and 25, on the subject of the appropriation of certain sums out of the Crown Land Fund, towards the erection of a Lunatic Asylum, and for other purposes mentioned in those despatches.

would be proper for me to advise the Queen to return to the Address of the House of Assembly, it is necessary that I should understand precisely the condition of the Land Fund, and what is contemplated by the application for £300 towards an Asylum for Insane persons. On referring to the past correspondence, I find that a grant of £1500 was sanctioned by my predecessor for the purpose of erecting a Lunatic No. 112. Asylum in Prince Edward Island, but that the balance in hand of the Land fund has not yet admitted of the intended appropriation.

As it now appears that some benefit would occasionally be derived by their earlier arrival at Amberst, I have given directions that in future the Mails for Prince Edward Island may be invariably despatched from Halifax during the winter with the Mails for New Brunswick and Canada.

Although Her Majesty has been advised to confirm this enactment, I think it expedient that in Acts of this class provision should be made for giving to the holders of Policies, and to the Creditors of the Company, a direct remedy against the Shareholders, to the extent of the unpaid portions of their shares, in case the funds in the hands of the Company should be insufficient. The local Legislature, indeed, by providing in the present Law that bonds shall be taken from each shareholder for the amount of his unpaid share, would appear to recognize this principle; but I conceive that the provision made is not sufficient, inasmuch as it would be difficult for a creditor under the present enactment to put such a power in force; and as the Company is to be incorporated, he would have no remedy against individual Shareholders; and I would recommend the reconsideration of this question, with a view to the amendment of the Act.

wastes, or of land situate at such a distance from any Harbour or other place where Limestone could be the measure; and that to tax these lands for the sole benefit of the remainder, would be partial and unjust. They further contend, that the discrimination which the Act makes between cultivated and uncultivated lands, by the imposition of a double assessment on the latter, is liable to the same objection.

Without pronouncing an opinion on the validity of these objections, it appears to me that the procuring and burning of lime is not a fit subject to be provided for by the imposition of a public tax; and that any enactment which might be passed for this purpose, however carefully framed, could not operate otherwise than partially and unjust.

For these reasons Her Majesty will not be advised to confirm the Act.

As the Act has a suspending clause, it will not be necessary that any order should be made by Her Majesty in Council for its disallowance.

To His Excellency SIR HENRY VERE HUNTLEY, Lieutenant Governor and Commander in Chief in and over Her Majesty's Island Prince Edward, &c. &c. &c.

In Council.

The Memorial of the Directors of the Prince Edward Island Steam Navigation Company,

Sheweth-

That the Memorialists deem it to be their duty to represent to your Excellency, the great risque the St. George Steamship (in constant operation upon the coasts of this Island,) is subject to, by reason of the total absence of any lights by which to regulate the approach of that vessel to these shores during the night, or to guide her in navigating the entrance into the Harbour of Charlottetown at that season.

It has been the endeavour of the memorialists so to rule the voyages of the St. George, as to exempt her as much as possible from the risque and peril which necessarily attend night operations upon a coast so such site as your Excellency shall ascertain to be unprovided with the necessary means for enabling most desirable for the purpose. vessels to be navigated with safety in dark and tempestuous weather; but no management, however careful, can prevent her from being occasionally exposed to it, by reason of the sudden changes which so frequently occur toward the fall of the year.

Under these circumstances, the Memorialists beg humbly to solicit that your Excellency will be pleased to take this Memorial into consideration, and cause such necessary steps to be taken for the erection of Light Houses in suitable positions, as may for the future secure their vessel, and all other ships visiting these shores, from the imminent hazard they at present incur from their absence.

> CHARLES HENSLEY, JAMES PEAKE, Andrew Duncan, SAMUEL NELSON, T. H. HAVILAND, WILLIAM SWABEY, FRANCIS LONGWORTH.

Charlottetown, Aug. 23, 1844.

To His Excellency SIR HENRY VERE HUNTLEY, Lieutenant Governor and Commander in Chief in and over Her Majesty's Island Prince Edward, &c. &c. &c.

IT COUNCIL.

The Memorial of the undersigned Merchants, Ship Owners and others,

Humbly and respectfully sheweth-

That your Memorialists have for many years contributed largely to the revenue of the Colony, by the payment of Light Duty and otherwise, without a single Light House having been erected on any part of the Island, for the security of their property; and from the want thereof, great inconvenience, and frequently loss, has been experienced, and every day some are subject to injury in consequence.

That in the year 1841, the sum of One hundred and ten Pounds was granted by the Legislature for the erection and completion of a small Light House for the Harbour of Charlottetown, to be erected on

That if the said sum was expended in the erection of a building in some eligible situation contiguous to the Harbour of Charlottetown, great advantage would be derived, not only by vessels entering that Harbour, but by those navigating the Straits of Northumberland; as until a suitable lanthorn could be obtained, it would as a Beacon, afford greater security to vessels entering Charlottetown, or proceeding up or down the Gulf.

That the daily intercourse with the neighbouring Provinces alone renders it absolutely necessary that greater facilities should be afforded for the security of lives and property.

Your Memorialists therefore humbly pray your Excellency will be pleased to cause the necessary inquiry to be made as to the most eligible site for a Light House, agreeably to the views of the Legislature; and that you will also be pleased to direct its erection at your earliest convenience.

And your Memorialists will feel very thankful. [Here follow the signatures.]

That the elevation of the proposed Light House should not be less than eighty feet above the level of the sea. That the site on which the Light House should be placed, is about twenty feet above the sea. That the building itself, therefore, will require to be sixty feet high. That this elevation will place the lights at about seventy-five feet above the sea, which will render them visible on the horizon at a distance of eleven miles and a half. That a person standing upon the deck of a vessel approaching the Light House, having his eye raised twenty feet above the sea, will be able to observe them at about seventeen miles and a half, which appears sufficient for ordinary occasions; and in any emergency, by sending aloft, a sight of the light might be attained at a distance of twenty miles.

Having satisfied themselves upon these particulars, they requested Mr. Isaac Smith to draw a plan and estimate of a suitable Light House, having an elevation of sixty feet from the ground. These papers they beg to lay before your Excellency, with some observations.

1st. That it is probable the estimate of the eightytwo yards of stone for foundation, will be found to be too high; as there is plenty of good stone near to the proposed site.

2nd. That the estimate for the Keeper's Cottage is considerably above the rate at which a suitable residence for him could be built.

3rd. That the charge of £15 for Nova Scotia stone is not absolutely necessary, as the Island stone Braziers' and Plumbers' work, may be made to serve.

With respect to the "amount of outlay necessary 72 panes of glass, at 3s. 6d., to maintain it," they have been able (through the lindness of the Hon. Samuel Cunard) to obtain an Lamps, glasses, wick, &c. say 40 0 account of the expenses of the Sambro and Shel- Stove and pipe, 110s., ventilaburne Light Houses, which they beg also to lay before your Excellency, with these remarks.

That the salary of the Keeper is higher than is required, and there is reason to believe that a fit and proper person may be obtained at a considerable reduction.

That the allowance for fuel is too high, and will admit of great diminution. That a reduction of one-

To His Excellency SIR HENRY VERE HUNTLEY, fourth may be made in the charge for Oil, as the Lieutenant Governor and Commander in Chief in light would not be required during three months of

In conclusion, they have the satisfaction to inform The undersigned Commissioners appointed by your your Excellency, that they have received assurance Excellency, to "enquire into the probable expence from William Douse, Esq., that the Government of erecting a suitable Light House upon Point Prim, will not be put to any charge for the site upon which

Charlottetown, Nov. 21, 1844.

Description of the Light House intended for Point Prim, according to the Plan herewith.

The height to be a little more than 60 feet—breadth at the base, 20 feet—at the top, 10 feet. The foundation to be of rubble stone work, (built of large stones) to the surface of the ground, and of roughly hewn expence is much greater.) stone, set in oil putty, above the surface.

11 inch iron bolts, not less than 5 feet in length, with an iron plate, walled in at the bolt head below, and a a plane, and made square at the ends. A broad water table of 3 inch pine plank to be fixed around the base, and a coping of 2 inch pine plank around the covered with copper, with a spout to carry off the water reaching the timber of the frame. The win-light. dows to be made strong, and glazed with best flatted

glass, and the doors to be 2 inches thick, (four pannelled) hung on two inch ribated jambs, and fastened, the lower one with a good 8 inch knob-handled lock, and the upper one with hooks or sliding bolts inside. [N.B. A small porch, or a second door at the entrance inside, would be an advantage in keeping out wet and snow in stormy weather. The windows also, if deemed advisable, might be only half the height, (6 panes in each) and hung on pivots in the middle, which would render them less liable to become leaky, and make them more durable.]

The floors inside to be laid with 11 inch plank, grooved and tongued, and broad step ladders made of 2 inch plank to be fixed from bottom to top. The top floor and all the inside, as also the stand for the lamps, to be covered with 20 oz. copper, and also a trap door at the top of the ladder in the light room, to be hung with hinges, and covered in like manner.

The lantern and railing round the gallery to be made of refined iron, and the platform for the keeper to stand upon, to clean the glass of the lantern, to 6 be made of good two-inch pine plank, firmly riveted to the iron braces which support it. The ribs or 3 angle piers of the lantern to be 3 inches broad by 3 of an inch thick, and, with the bars for the sashes, which are to be framed into them, and all neatly fitted up and made tight and strong, to be properly prepared with rebates for the reception of the glass. To be glazed with best flatted glass, all choice pieces selected with care, so as to be free from inequalities and shades, or places that would distort or refract the light, so as to render it less effective. (Plate glass is usually employed for Light houses, but the

The Keeper's cottage, as estimated, is intended to The walls and floors to be framed according to the have a good cellar, well walled round, where the oil working plan, and fastened to the foundation by four may be kept. (Usually an iron tank is preferred for this purpose, to prevent leakage.) The frame to be rough boarded and shingled like the light-house. To nut and screw on the top of the sill of each buttress have a good brick chimney, and all the walls and above. The outside to be covered with inch boards, ceilings to be well plastered. A house built of plank and strips of birch bark over the joints, and all neat- or of logs, and of a less finished description, and even ly shingled over in 5 inch courses. All the shingles a little smaller, without the porch, may perhaps be to be neatly shaved, of equal thickness, jointed with deemed sufficient for the time, which would materially lessen the immediate outlay.

The Lantern on the top of the Light House to be top, as shewn in the elevation, and all to be made water. The funnels for carrying off the smoke from perfectly tight. The outside braces and the ends of the stove to be double, with a tube to terminate in the sills on which they stand, to be cased with pine the outer space fixed from each lamp, to carry off boards and plates of zinc, to put at the top of the the moist vapours and impurities, which would otherbraces and under the sills of the doors, to prevent the wise lodge upon the glass and thereby obscure the

Presentment of Grand Jury of King's County.

The Jurors of our Sovereign Lady the Queen represent to the Honorable Court, that the present mode of obtaining Store and Tavern Licences is very expensive to parties that live at a distance from Charlottetown, and suggest the propriety of authorizing the Clerk of the Court to grant Store and Tavern Licences to applicants, on the same conditions that they are now obtained in Charlottetown, which mode the Grand Jury are of opinion would rather increase than diminish the Revenue.

ANNUAL REPORT

OF THE VISITOR OF DISTRICT SCHOOLS OF PRINCE EDWARD ISLAND.

To the Members of the Board of Education;

Gentlemen;

Pursuing the duties connected with my department, I lay before you another Annual Report, on the state of General Education in this Island.

I have the satisfaction of announcing to your Board, that amid the occasional depression and langor of our Colonial sources of wealth, causing obstacles to present themselves in the way of rapid improvement—the cause of Education has of late, been fast gaining upon the public attention, and all who admit that the prevalence of ignorance is an evil demanding instant remedy and removal—all who regard as sound policy the principle, that the shortest way to a country's prosperity is not to wait the progress of improvement before establishing good Educational Institutions, but to commence with them—have cause of thankfulness to know, that during the past year, Education has been making a steady progress in this Island, and that on the whole, advantages have been realized equal at least to the means employed to secure them, and that the Public Schools to which my charge extends, are not only increasing in number, but in some instances rising in character and usefulness, and thus aiding in preparing the way for the more rapid advancement and diffusion of knowledge, under the approaching influence of more prosperous times.

Although I hope to show, that Education is in as thriving a state in Prince Edward Island as the limited resources of the Colony, and the poverty of many of its inhabitants would lead us to expect, still we must not close our eyes to the fact, that our educational Institutions are not yet commensurate with the wants of the population, and that the absence of funds to afford adequate remuneration to deserving Teachers, continue to afflict many Settlements, and has been the cause of closing the doors of some of our most useful District Schools.

To afford the fullest view of the existing state of Education and of the Schools, in the briefest space, I subjoin the following abstract or statistical Schedule, which will give the requisite information in a much more comprehensive and succinct manner than can be done by any lengthened details.

That the number of Institutions for public instruction has increased in proportion to the means set apart for promoting them, will appear from this Table.

TOTAL POPULATION.	of	Number of Scholars	atten- dance in	Number	Increase in Number of Scholars since 1833.	of Pupils	of Schools	Proportion of Schools to all Children in School attendance.	of Schools to all within edu-
In 1833—32,292 1841—47,034 1843 1844		2176 4690 5272	29-4 40 39-5	60	3096	1833, 1 to 14-8	1 to 436	1 to 40	1 to 67

From this, it appears that the increase from 1833 to 1844, in the number of Schools, has been sixty, and in the number of pupils three thousand and ninety-six—the Legislative allowance was in 1833, £674, and in 1844, £1544.

The population statistics of most countries agree in computing all within the ages of 6 and 14, the legal Educational age—to be about one-sixth of the whole, or nearly one-third of all under the age of sixteen.

Following these data with reference to the Island, and without allowing for the increase of population since the last Census, we find one-sixth of the whole, or all those within the above legal educational age in the Island to be 7,839, from which, deducting those in school attendance, there will yet remain 2,567 children of both sexes unprovided with Education.

From the foregoing Table, it would also appear, that the Schools now open are sufficient to educate the whole juvenile population, in the proportion of one School to every sixty scholars, or one School to every 351 of the whole population of all ages; but owing to the scattered state of almost all new Settlements, and also of many old, this standard would be found too great. The average attendance now, is one in thirty-nine. Assuming this to be a fair proportion, sixty additional Schools at least would be requisite; or at the above rate of one in sixty scholars, forty in addition would be sufficient. But allowing that the average attendance on each School should be fifty, it will be found that twenty-two additional Schools are requisite to supply the whole with education.

Our Common Schools are of three grades or classes according to Law, and are supported from the following sources, viz: The Colonial Treasury, Subscriptions and Fees paid by the pupils—partial assessments on the Inhabitants—the Glebe Land Fund, and the Colonial Church Society of London.

In the different Legislative enactments for Education, the impossibility has been often experienced, of being able to give to a mixed population like ours, an Education Law, adapted in all its details, to the peculiar opinions, wishes, and perhaps exclusive notions of each. Perhaps no enactment on this subject was at first more obnoxious, than that relating to the imposition of an Assessment in certain cases. I am now happy to acquaint you, that no provision of the Law is found to work better, under all circumstances, than this; and it is well known, that under its operation, many Schools are sustained, that would, without this coercive power, have been otherwise abandoned.

Another source whence some Schools derive a partial support, is the Glebe Lands Fund, under the control and direction of the Bishop of Nova Scotia, aiding in the support of seven Schools in the following localities, viz: Charlottetown and Georgetown (intant Schools); St. Eleanor's, Crapaud, Milton (Lot 32), Rustico, and New London.

Aid from this quarter is extended only on these conditions:—1st, That there be an Episcopal Clergyman resident in the Parish—School to be subject to his visitation and superintendance in religious matters. 2d. That the School House and Land attached be held as the property of the Church. 3d, That the Teacher be a Member of the Church of England.

I have found considerable opposition raised to the establishment and progress of these Schools in various places, in a great measure occasioned, I am led to believe, by the jealousy with which the Public have always regarded any thing having the appearance of a monopoly, or denominational exclusiveness in Educational matters; and by the unpopularity of the mode of appropriation of this Fund, which, in the opinion of some other sects, has been diverted from the purposes contemplated by the Colonial law—viz: its application to the encouragement of general Education, without any conditions or restrictions other than the existing School Act might impose.

At St. Eleanor's the Trustees and other subscribers, being dissatisfied with the District Teacher, obliged him to resign his charge; but on opening a private School in the vicinity, the great majority of the Pupils returned to him, in consequence of the conversion of the Public School of the District into a Church School, while the Teacher of the latter—an exemplary individual, has under his tuition but twenty.

At Westmorland Harbour, or Crapaud, another of these Schools—a neat and commodious building, has been erected on the site of the former District School, last year destroyed by fire. When visited a month since, it was found to be under the charge of the former District Teacher, attended by thirty-five children, successfully learning the usual branches of an English Education—the School was found to be in an efficient state, having the benefit of the supervision of the resident Clergyman, who takes an unwearied interest in its welfare. Still being upon this foundation, and the site being in addition, deemed by some ineligible, the Inhabitants of the District are not unanimous in its support, and I have been requested by these latter.

officially, to take measures to establish in the Settlement, another School according to law. Whether under these circumstances, the School in question will be recognized as the District one of the Settlement, and draw the public grant as such, or whether the establishment of another, as contemplated, can supersede it, and on conforming to the provisions of the law, be alone entitled to the Legislative allowance, or whether both Schools, (supposing a second to be opened) can equally share in the public grant,—must rest with your Board to determine.

Whilst alluding to this subject—which I do for no other object than to put you and the Legislature in possession of the fullest information on the subject of Education as bound by law to do, I should add, that I am informed by the highest Ecclesiastical authority here connected with the Glebe Fund, that while the object of such Schools is to impart secular and religious instruction, the doctrines of the Church are not taught to children of other denominations attending, whose parents object to her tenets.

In Georgetown, likewise, an Infant School, which is intended to be preparatory to, and connected with a superior Seminary on the same foundation, has succeeded the District School of the place, lately closed on the removal of the Teacher to the third Mastership of the Central Academy. This scheme for the establishment of an institution on a more comprehensive plan, and which affords the advantage of Infant training, at so cheap a rate as to be almost nominal, meets with great favor in the sight of some portion of the population; latterly, however, some scrupulous parties have withdrawn their support, preferring rather to sustain the District School as formerly, apart from any control or interference not provided by the School Act, but they find a difficulty in raising sufficient maintenance for a Teacher, and the District School-house of Georgetown, built at a cost of £112—£60 of which was defrayed by the Government, is now vacant. There are of children between the ages of five and fourteen in Town and Royalty, about 100—45 of whom attend the infant School.

In discharging my trust as visitor, as nearly conformable to the spirit of the law, and the intention of the Legislature as I was enabled—I need only refer you to former Reports, from which will be found that I have constantly endeavoured to infuse into the Schools of the Island, as much uniformity in the method of teaching, as, under all circumstances, they are capable of; that I have endeavoured to direct the system so as to secure considerable agreement in their general management, making all needful adaptation to local deficiencies. I am, however, daily more convinced, that no plan of instruction, however ingeniously devised, can be prosecuted with much success, if the indispensible pre-requisite of suitable Books is wanted, notwithstanding great exertion has been made on the part of many Teachers to supply the deficiency by ingenious contrivances, and extra labour.

Some time since, on calling the attention of your Board to this subject, I suggested the propriety of bringing the Schools, in remote localities, more within the benefit of the public grant, appropriated for the purchase of Books at a cheap rate, by establishing various depots for the sale of those Books in the country. It does not now appear, that any returns have ever been received by the Government, from the different depositaries appointed two years since, among whom the one hundred pounds worth of Books was distributed. This leads us to suppose, either that the Inhabitants have not availed themselves of the opportunity thus put within their reach of obtaining Books at a cheap rate near home, or that those in charge of the Books have overlooked the necessity of passing the proceeds into other hands. However this be, with all the aid afforded by the Legislature, Schools are yet, in no one point, more destitute than in the article of Books; and those whose circumstances are such, as to enable them to surmount this difficulty, have to complain of the inferior paper, and catchpenny binding of School-books, which render them unfit for long service in the Schools, where the old maxim of "borrow and lend," has its fullest application. On viewing this day, the lot of these public Books, consigned to the charge of the late Secretary of your Board, I found them all intact, except two or three sold to the pupils of the Academy, and comprising about 100 vols. including a lot for a country station, which the Depositary appointed, declined taking charge of. It may be concluded from this, that sufficient publicity has not been given to the matter, or that Books can be procured as cheap, if not cheaper, elsewhere; but to this I shall yet have occasion to advert.

The Legislature, aware of the great moral influence which the men to whom Schools are entrusted, are liable to exert on the minds and characters of the rising generation-has wisely provided that the individuals to whom so great a charge is delegated, should be of approved character, to the end that schools should become bulwarks of morality against ignorance and crime. Avoiding every thing which might seem to sanction or foster denominational prejudices, the law provides expressly for no religious instruction in Common Schools beyond what may be supposed to depend on the character of the Teacher, his own sense of duty, and the nature of the Books used by common consent or the wishes of the Parents. I remark this principally for the information of some parties, who will perhaps, suspend their dissatisfaction with the manner in which I discharge this part of my duties, when they know that I have no authority to introduce into, or graft upon the schools, any system of religious instruction in my official capacity. The Scripture: of the New Testament are read in the generality of our District Schools, principally because they are found to be good and cheap Class Books, and comparatively easily obtained. Apart from their highest aim—that of teaching man the knowledge of a Supreme Being, and his duty to him—I regard the Scriptures, in opposition to the views of some others, as supplying admirable exercises for reading, enlarging the understanding and refining the taste, nor can I see sufficient grounds for the alarm of others, that its use as a common Class Book, will expose the volume of inspiration to any thing like desecration or profanation, so long as it is regarded and read by the pupils, with that due reverence and solemnity, which a right minded Teacher can always inculcate. Although the Scriptures are read in the majority of the schools, I cannot say that they are regularly read by the majority of the scholars, being commonly used as a reading Book in the stage between the Spelling Book, and the English Reader, or some other advanced Class Book.

The great majority of the present Teachers are young men, natives of the Island, or who have received some portion of their education here, and as a Board of Education should always be the moving power of the well-working of an Education Act. I am happy to know, that the public generally confide in the qualifications of the Teachers licensed by your Board, and, different from their former practices, almost invariably now, make this test a sine qua non in their agreements. I think it but just to add, that those Teachers who have spent some time at the Central Academy previous to their being licensed, are more esteemed and sought after in the country than others, as the insight they get into the highly intellectual and systematic mode of instruction, carried out in that Institution, gives them a superiority over their brethren who have not enjoyed the like advantages.

On this head, I would recommend, what for the last five years I have been urging on the attention of your Board—that a Normal or training class for Teachers, might with ease be formed in the Academy, where, without any additional expence to the country, young men should be required, preparatory to obtaining a license, to devote some time in qualifying themselves for elementary teaching, and instead of gaining experience as now, at the expense of two or three sets of children who pass through their hands, they would then at once be fitted to enter upon their duties in the high position of masters of their prefession. I would further recommend to Teachers the benefit of passing the leisure time afforded by their yearly vacations, in the Central Academy, and familiarizing their minds with the details of instruction and discipline therein pursued.

The advantages of Education are not confined in this Colony to the English pupils alone, but are extending to the Acadian French, and likewise to the Indians. There are six Acadian Schools open, receiving public aid. The Acadian Teacher at Mascouche, having qualified himself as a District School-master, has taught the School of that Settlement above a year with much approbation and success. In addition to the French language, (through the medium of which, the children rapidly acquire a knowledge of English, by familiar translations), the higher branches of the Mathematics, and English Grammar are constantly taught. Two or three young men are here preparing themselves for Teachers. The School-house is neat and comfortable, and I consider this Teacher enfitted to the allowance of a combined District and Acadian School, as he fully performs the duties of both.

The children of two Micmac Indian families, continue their attendance occasionally on School, and seem to possess as great a facility for acquiring learning as others with whom they are brought into comparison. It is an interesting spectacle, to see these children of the aborigines conning over their lessons in unison with their more civilized schoolfellows, and manifesting a disposition to teach the other children of their tribe, what they themselves know. These are indications, combined with the improvement in their habits, since the introduction of temperance principles among them, which lead us to hope that a greater number of this long neglected race will be led to receive that instruction which can best humanize and elevate their natures, and that as the "fortunes of the chase" become yearly more precarious, they may thus be enabled to transact to advantage the ordinary duties of life.

Female Schools are not so numerous throughout the Island as could be wished. In Charlottetown there are five, from those of a very high order to a primary School. Two of these receive Legislative aid, and are in a very efficient state, dispensing instruction in various useful and ornamental branches to about fifty children yearly. At St. Peter's, two female Schools are also open. The first is under the provisions of the Act, and although but a year established, has already proved of much benefit to the pupils attending it; the usual elementary branches of English are taught; the School gives promise of much usefulness; more especially as there is no District School within several miles of it; it is not intended to supersede this latter, but it in a great measure supplies its place. The school-house, erected on the premises of the Minister of the Parish, is neat and commodious.

The other female school in this vicinity is also deserving of notice, although receiving no public aid. The Teacher who conducts it, is in my opinion, very competent; the improvement of the children—many of them of a tender age, has been highly satisfactory; the closing of this school would be felt as a loss by the Settlement.

There are three or four more private schools of this description, making no more than half a dozen female schools out of Charlottetown. It is to be regretted that these schools are not more numerous in the Colony, as they afford instruction at a cheap rate, and embrace many advantages peculiar to themselves. In some European countries, and in the New England states, female Teachers form nearly as numerous a body as the male, and in a great measure supply their places, during the summer months, while they pursue the more profitable avocations of agriculture and fishing.

The benefits which would result from the establishment of a convenient number of such schools, are not to be overlooked, as those who cannot afford to send the female part of their families to Charlottetown, to receive such instruction as cannot be imparted in the common District schools, labour under a disadvantage, which nothing but the organization of a sufficient number of female schools can remedy or remove.

With respect to the poor or new settlements, which receive a share of the Grant for primary schools, numbering fewer than twenty scholars, I would observe, that the roll of several of such schools will be found to number more than twenty scholars; still I am of opinion, that the extension of the bounty in such cases, is no contravention of the spirit of the law, as the pupils who exceed nineteen, are taught as supernumerary or free scholars.

Although no Teacher has refused to furnish me with a list of the number of children taught in his sbhool, which it is his duty by implication at least to do, in order to fulfil the law, yet I regret that no power is invested in me by the Act, to require from such schools returns of the days of attendance of each pupil, the number of absent days of the Teacher, with the cause assigned, &c. In many cases my request to be furnished with such statistics are occasionally complied with, but in the majority of instances, neglected. In this position I am driven to the alternative of begging that as a favour, which it ought to be my undoubted right to demand, or of assuming that as a right, which is constantly liable to be disputed.

It is evident that without such returns, very great difficulty and uncertainty must attend my judgment, and estimation of the improvement and efficiency of the school itself, and exposes me to the risk of giving publicity to erroneous statements, from my liability to be in some cases misled and imposed upon; neither am I permitted to have any share in the regulation of the discipline, or course of study of any school—a

duty which the law vests especially in the Trustees—nor have I any power to hear or determine disputes between parties of a school, although such are very often referred to me. This latter, perhaps, would be no enviable duty, but when taken into connexion with the other disabilities above alluded to, it affords an illustration of the absence of that authority and influence, which the efficient and useful exercise of the functions of a Superintendent of Education imperatively calls for.

By the Canadian Law, Teachers receiving public bounty are obliged to keep a regular Journal for their schools respectively. In that Province also, from considerations of the inclemency of the weather, unavoidable distance of some from school, necessity of assisting in agricultural pursuits—disadvantages to children—equally existing here, the scholastic term by law is nine months, and the Superintendent of schools in a recent communication to the Government of that country, recommends the reduction of this time to six months.

In the State of New York, which contains upwards of 10,000 organized schools, the schools were kept open last year, during the average period of eight months throughout the year. It has been shewn that some remote Districts are yet without any means of instruction—the circumstances of the settlers being such, as not to admit of their raising a sufficient salary for an approved Teacher for a full year, or if they do this—of sending their children to school for twelve consecutive months. Now if encouragement were held out to Teachers engaged for six months, such inhabitants might become participants of the sensit of the instruction from which they are now excluded, by employing Teachers, during that part of the year in which they could best spare their children from assisting in the labours of the field.

Two or three conterminous Settlements might thus afford constant employment to one Teacher, who, if he were encouraged by enactment, would be disposed to divide his services equally amongst them. By such an arrangement as this, the wheels of the machine of Education might be kept continually in motion, bringing the most remote and most isolated localities within its influence.

Deeming it my duty by all legitimate means to give an impulse to Education, in so far as its direction and application were committed to me—I formed the project of bringing into competition at central stations, the most meritorious of the pupils of the nearest adjoining schools, and by gradually extending my operations, thus bring the youthful minds of the Colony into emulous collision. I have not been enabled to extend this plan to all the principal Districts of the Island, and until I can comprehend the whole in one Report, defer, with one exception, publishing the result of what has been partially effected. I add only, that these exhibitions, so far, have afforded me a very favourable opportunity of being able to judge of the progress of the children, as also of the talents and endeavours of the Teachers.

With regard to the 15th section of the Act, I would observe that greater success, and more lasting benefit would attend my exertions in the duty of establishing schools in localities, where such have either never existed, or where they have been so long discontinued, that the houses have fallen into decay, if a sum of one hundred pounds were appropriated, to be hereafter strictly accounted for, to be divided, as an assistance in favour of the poorer and smaller Settlements, for the building of school-houses in proportion to the population, and the efforts of the inhabitants. Were the Government to advance this aid in the first instance, I feel confident it would be met with a corresponding readiness on the part of not a few inhabitants, who cannot by any other argument be stimulated to exertion, and who from their poverty, their great distance from town markets, and other disadvantages, in many cases really are, and in many more, fancy themselves unable, without same foreign aid, to accomplish this object. The Canadian Law provides that Government shall pay half the cost of creeting school-houses, at the rate of Fifty pounds a house, and in rewarding the children who make most progress, at the rate of ten shillings a school.

While Literary societies and public Libraries for the improvement of the adult population, are established in various places, it would be well not to overlook the utility of doing something towards procuring school Libraries, and thus early commence in the right way and place, to attain the ends of Education.

For want of this advantage, many young people leave school after the attendance of years, and the loss of time and money, sadly deficient in their amount of general or correct information. In one instance

only, out of all our schools, have I met with any thing like a school Library, and such Class books as History, Geography, with Atlasses and Maps, are lamentably scarce. I feel assured your Board would readily superintend the formation of such, by the selection and recommendation of the most approved and indispensible Books.

With respect to the branches taught, the method, discipline, &c, I can only recapitulate the information given in former reports generally. In the preceding year it was found that in addition to learning the simple elementary branches, a proportion of about one-third of the whole learned Grammar, and not more than a tenth any higher Branches. This year, the number learning Latin, and the Mathematics in the country schools, is nearly double that of the year previous.

The schools in Road District No. 10 are in this respect, superior to those of any other District in the three Counties. In the schools of Belle Creek, Portage, and Orwell Head, severally, Latin and Practical Mathematics were taught with success. The school of Point Prim, although not a classical one, has, for several years, sustained a character, as one of the most deserving schools in the county. It is now vacant by the death of the Teacher, an amiable and exemplary young man.

The Georgetown school already alluded to, bore a high reputation up to its close, for the extent, no less than the attractive form of the instruction imparted by the most improved method; these considerations mainly induced me to select this station, as one of the first wherein to assemble the select pupils of the adjoining schools, to compete at a general examination. From the unfavourable season, the scholars of Brudenell River school, as being the nearest, were alone enabled to attend, along with their Teacher, and after a long and minute examination, the scholars of the former were judged superior only in the variety of the branches learned, and in general information: while the latter, by their general proficiency, and correct reading and orthography, gave the most ample evidence of their own capacity to learn, and of the zeal and ability of their Teacher—himself at one time a pupil in the Georgetown school.

I cannot omit calling your attention to entries which I find in the Warrant Book, of payments made through the course of last year of £10 each, to two individuals represented as School-masters, on Lots 17 and 65 respectively, who, to my knowledge, never taught in these settlements. Some mode of providing against the recurrence of such frauds, by a more stringent enactment, is worthy the attention of the Legislature.

For all other details, I beg to refer you to the following Tabular statement and remarks; observing, that the total number, including quarterly and transient scholars, who have entered each school throughout the year is given, and not the average regular attendance, which in every school must fall considerably below that number.

Table of the District and other SCHOOLS open on the Island, from March, 1844, to March, 1845, and receiving Grants of Public Money.

DISTRICT No. 1.

Lots 1 & 2.—In these, as in all the Acadian Schools on the Island, except that on Lot 17, above alluded to, instruction is principally, or altogether, conveyed in the French language. A few read English, learning it through the medium of translations; they are useful Schools, being the only class which this part of the population support, who still retain a prejudice against educating their children at a mere English School.

Lot 5, Cascumpec.—The best school, and the most numerously attended in this District.

Lot 11.—With respect to the two schools in this Township, the first has shown the most improvement through the year, both have been very irregularly attended, to which cause, and to the want of Books, more than to any other, I believe, is owing to the inferior condition they present when compared with other Schools in this County. The School of this Lot, at one period under the Teacher first mentioned, was superior to any in this or the two nearest Districts.

DISTRICT No. 2.

Lot 7.—This School has for several years proved of much benefit to the inhabitants of this remote Settlement, who are laudably ambitious to provide for their children, all the education their means will allow. It is hoped the projected improvement in the Road communication of this quarter will bring the settlers within reach of many advantages from which they have been long shut out. The School is under the charge of one of the most experienced Teachers in the Colony, and whose remuneration is not equal to the length nor to the utility of his services in the cause of instruction.

There is also an unlicensed School in the vicinity which has not yet been visited.

Lot 12.—The School at this station, was found to be in a very inefficient state, but in justice to the Teacher, it must be remarked, that he had but recently succeeded to the charge, when visited last, and had had but little opportunity then, of effecting any improvement.

Lot 13.—The School here was found to have very materially improved, especially in discipline and regularity of method under the present Teacher.

DISTRICT No. 3.

The general state of the Schools of this District is promising. One of the best schools—the first on the list, at Lot 16, has been closed since my last visit. To the schools on Lot 17, I have already referred above.

DISTRICT No. 4.

Lot 18.—1st, In a high state of improvement when closed last Summer, and still continues vacant. The school enumerated 2d, on this Township, was found to be at almost every examination, the best attended on an average in this District. The closing of this very efficient and useful school will be felt as a severe loss by the portion of the community connected with it.

Lot 21.—At this station, a school has been in operation nearly a year, and the children, who with scarcely an exception, commenced in the Alphabet, or first stage, have made very material improvement. The pupils here are educated this year at a much lower rate than in most other country schools, from the circumstance of the Teacher having had a prospect on opening, of obtaining a share of the Glebe Land Fund, in aid of his salary.

DISTRICT No. 5.

Of the Schools in this District, it may be observed in general, that they are of unequal character in point of usefulness and improvement. The first, on Lot 26 (Bedeque), although open little more than a year, under the present teacher, is already the most superior one in the District, and the different examinations, which were always attended by the parents and friends of the pupils, gave proof of their emulation and satisfactory improvement, and of the assidious attention and zeal of the Teacher. The second school in this Township has been languishing for some years, without that improvement visible, which ought to be looked for: by the irregular attendance, as shewn by the roll, it would appear that the desired interest in education is not sufficiently manifested in this portion of the Township.

DISTRICT No. 6.

Lot 21.—The best School in this District, and the most numerously attended.

Lot 22.—Attendance most irregular, but the school steadily improving.

Lot 23.—Removed to Cavendish School recently, and not yet examined.

Lot 24.—This and the School at Lot 21, in addition to their Legislative allowance, have received small grants from the Highland Society as premiums. Grants of Books to twelve schools have also been made by this Society.

Lot 67.—The School here has not been long open, no school having ever been established in this locality before. It has now arrived at a very improved state.

DISTRICT No. 7.

Lot 29.—The first School in this Township is that at Crapaud, referred to in a former part of this Report. With the exception of two additional schools opened in Lot 31, during the last Summer, the general condition of the schools here, differs little or nothing from the state as described in last year's Report. The new schools opened in North and South Wiltshire give much promise severally, of proving a boon of no little value to these settlements. The latter is partly supported from the funds of the Church Society, and by the use of the uniform series of the Sunday School Class Books, promotes the improvement in reading and orthography most materially. The schools at York River Settlement, Lot 32, are both receiving public aid, but are so contiguous (being within a mile's distance), that one school would, in my opinion, be quite sufficient to educate all the children in the Settlement.

DISTRICT No. 8, including Charlottetown.

Not 33.—The Teacher who conducted the School at Brackley Point for some years with much acceptance, has lately removed to the school at New London Point, which has not yet been visited. The other school at Brackley Point Road, is also open under the Teacher of the last year. The children attending this school are remarkable for their quickness of apprehension and capacity to learn, although by frequent changing, they have had teachers occasionally very inefficient. The very useful institution of the National School which has dispensed the blessings of Education to a large portion of the poorer classes, was never under more efficient management, than at the present moment; Scripture reading forms a prominent part of the instruction given in this school. A school at which the large number of 135 scholars attended last year, is still open, being the only District School of the Town—Walter Phelan, Teacher—it is very successfully taught, and imparts gratuitous instruction to a large portion of the children attending it.

DISTRICT No. 9.

The first School on Lot 34, is the best in this District, and equal to any in this County, in every thing which can constitute a good school. Several young men who have received their education under this teacher, have proved to be among the most competent and successful Schoolmasters on the Island. The School on Lot 34, at Covehead or Stanhope, although not long under the charge of this District Teacher, is in an efficient state. The children attend, in general in this Settlement, very regularly.

DISTRICT No. 10.

Lot 48.—I know no school in this County meriting higher praise than the one at the Cross Roads' Settlement in this Township. All the branches, from Practical Mathematics and English Grammar, to the Alphabet, are equally taught with success. The schools on Lots 49 and 50 are also well conducted. At that on Mount Mellick, or the Central one, the Pupils attend more constantly, and it is consequently the most superior among these last named.

DISTRICT No. 11.

This District is the best supplied with the means of education of any in this County. The schools, with scarcely an exception, are conducted with zeal and success. The rudiments of the Latin language, and

the branches of Practical Mathematics are taught in three of the schools of this District. The two schools at Belle Creek and Flat River, which were taught with much acceptance during the past and preceding year, are at present vacant, the teachers being now engaged in further prosecuting their own studies.

DISTRICT No. 12.

Lot 38.—This School is the most advanced in improvement in this District—the scholars would do credit to any District school on the Island. This improvement is chiefly owing to the labours of the former Teacher—the present one having only very lately succeeded to the charge. The school at Si. Pater's Bay, Lot 40, was vacated by the Teacher, the past summer—it was diligently taught up to that time, and is alluded to here, principally to shew the great destitution, with respect to schools, of so populous and thriving a District as that of St. Peter's Bay.

DISTRICT No. 13.

The residue of the schools in this District, excepting that at Rollo Bay, Lot 43, are comparatively newly established. That at Lot 42, North side, is especially deserving of notice, from the successful blending of vocal music with the ordinary branches of instruction taught, a plan which would be productive of the best results, if introduced into all the schools of the Colony. At Bay Fortune, Lot 43, the school from some mistake with respect to the class to which the Teacher belonged, was omitted in the course of the first visitation this year, and on visiting the District a second time, was found to be temporarily closed.

DISTRICT No. 15.

The school on Lot 52, is the best conducted in this District, and the scholars the most advanced.

DISTRICT No. 16.

Lot 59.—This school opened in the course of the last Summer, was examined in presence of several of the Trustees and Parents; although very recently established—the state of the school gave high promise of improvement, and the approved method of teaching pursued, bids fair to place this school (if continued open) speedily at the head of the schools of this District. The school on Lot 61, also continues in successful operation, although the progress is very much retarded for want of School Books, and from irregular attendance. The Teacher is one of the most faithful in the District. The school at Murray Harbour, Lot 64, partly sustained by the London Colonial Church Society, is dispensing the blessings of Education to a large number of children in its vicinity. 80 children attended during the past year, but so irregularly, that the average attendance of each, did not exceed three months in the year.

Thus after a careful and minute examination of the last Census, and as correct and accurate a Return of the number of Schools of every Class and description open during the past year, as personal observation could enable me to make, the result may be summed up as above:—Central Academy 1.—Common Schools of every Class, receiving grants of public money 116-just equal to all the Schools of the year preceding.—Schools receiving no public money, the Teachers being unlicensed, 17.—Total, 134. Seminaries of all grades, dispensing public instruction to 5272 pupils; the people contributing in Fees, &c., about £5,540 and the Treasury £1,544 16s.—Total, £7,084 16s., in support of our whole Educational Establishment, exclusive of the grants for Books, and repairs done to the Central Academy during the past year. It must be taken into account, that besides the increase above shown,—of licensed Teachers, fifteen have discontinued, and three deceased within the past year, none of whom are enumerated in this Report. In order to exhibit in a clear view the number of Schools in each Township, the proportion of Schools to Inhabitants, and the proportion of the educated to the uneducated, in every Tewnship and District in the Island, separately and collectively-I have arranged the Statistics on these heads, derived from the Census, all of which I subjoin for your inspection by way of an Appendix, and the sum of the items which will be found to correspond with the total result, I have above presented; I have only to add, that the foregoing summation shews, that in 1833, each School received an annual average bounty of £9 2s.; and at this day, after a lapse of twelve years, the District and Primary Schools of the Island receive only an average share each of £9 18s. yearly, of the public money. Having already experienced the benefit of this encouragement, and feeling the necessity for continued and increased support—the public are now looking forward with anxious expectation to a greater extension of the means of Education, commensurate with the growth, and growing resources of the Colony.

All which is respectfully submitted.

JOHN M'NEILL,

Visitor of Schools.

The Committee appointed to inquire into the practicability and utility of removing certain obstructions at the mouth of French River, near New London, and deepening the same to the depth of ten feet at high water—have to report, that the Hon. P. S. McNutt has furnished the Committee with a statement of a personal survey of the River, accompanied with a plan, both produced herewith. In addition to the information contained in the said statement, Mr. McNutt has informed the Committee that an offer has been tendered to him, to deepen the River to the depth of ten feet, and keep it at that depth for the term of three years, for the sum of One hundred and thirty Pounds. Mr. McNutt further states it to be his opinion, that mud and sand may accumulate annually, unless a breakwater be erected on both sides of the River. All of which is respectfully submitted.

D. MACLEAN, Chairman.

Committee Room, 4th April, 1845.

CHARLOTTETOWN, APRIL 2d, 1845.

Sir;

In accordance with the desire of the Committee of the House of Assembly, appointed to investigate the practicability and utility of deepening the mouth of the French River, New London, I have to inform you that I proceeded to the said French River, and after making a minute examination of the place proposed to be deepened, I am of opinion that the job can be accomplished, but will be attended with considerable expence, to the depth proposed (say 10 feet), as I could not find more than 6 feet at High Water on the Bar or Bank, at the entrance of the said River, which bank it appears to me has been made or accumulated there in consequence of two vessels having sunk at the entrance of the said River many years since. But the bottom being very soft (Mud and Sea-weed), I make no doubt but if these were removed, that it would continue deep, as the water above, as also outside, is very deep. I herewith send you a sketch of the place, shewing the depth of water on the Bank, as also above and below it; and I will with pleasure wait on the Committee, to give any further information that I am able to do, in furtherance of the undertaking. I received a proposal from a person near the place, to undertake and bind himself to deepen, and remove the obstructions at the entrance of the said River, for the sum of £100, one half of the said sum to be paid by the Government, and he would look to Subscribers to make good the other half.

I am, Sir,

Your most obedient Servant,

P. S. MACNUTT, Road Commissioner.

To Duncan McLean, Esquire.
