BUMPER WHEAT CROP. Thousands of Men Required in Western Canada. This Year's Harvest Promises to be the Largest in the History of Canada.

According to present indications, the wheat crop of 1913 will be the greatest ever harvested in Manitoba, Saskatchewan or Alberta, thus requiring the farm laborers of the East to assist in harvesting the world's greatest bread basket.

The Governments of the respective Provinces state that many thousands of men will be required for this year's harvest. These will have to be principally recruited from Ontario, and the prosperity of Canada depends upon securing labor promptly.

The Canadian Pacific, on which company will fall practically the entire task of transporting the men to the West, is already making special arrangements for this year. Excursions from Ketchikan and Alberta will be run, and special trains operated, making the trip in about thirty-six hours and avoiding any change of cars or transfers. This will be a day shorter than any other route. Dates, rates and conditions will be announced in a few days.

SAYS HIGHER WAGE IS NOT SAFEGUARD

Morality of Women is Not Dependant on Salary Declares Minister.

CHICAGO, July 25.—The Rev. William MacAfee, district superintendent of the Rock River conference, declared in an address that increased wages would not be a panacea for the moral lapses of working women.

"Some persons say our working women go down to live in shame because of insufficient wages," Dr. MacAfee said, "but increase the wages 100 per cent. to-morrow and if the hearts of these young persons are set on finery, theatres, late suppers and automobiles, the increase of wages will avail nothing. Wealth never has and never will give immunity from temptation."

TENNIS AND LAWN BOWLING.

There has been a remarkable revival of the world over with regard to lawn tennis and so there should be, for no more healthy, or heady game has ever been evolved.

It may be of interest to recall that the essential features of this pastime are involved in great antiquity.

Under the name of Paume, some such diversion is found among the earlier records of the dark ages, and the early Greeks and Romans also indulged in a kindred sport. In the fifteenth century it had a great vogue in France and flourished exceedingly later in England.

Another sport which has rightly gained and maintained great popularity in the Old Country and Canada is lawn bowling. This also had a very early origin and it is on record that in 1588 when Sir Francis Drake, Lord Howard, Sir Martin Frobisher, Sir Walter Raleigh and other notables of Queen Elizabeth's day were waiting at Plymouth Hoe, anticipating news of the Spanish Armada, they were engaged at the game when news came of the approaching ships.

The information was brought by a man named Fleming who was on a Scottish privateer when the invader was sighted. Sir Francis calmly remarked that they had time to finish the match, which was done, and the foe afterwards received a very thorough trouncing. Perhaps one of the most satisfactory features of the sport is that the participants can't lose a ball in the same way as so frequently happens at golf.

BEAUTIFUL AND HISTORICAL.

One of the beauty spots adjacent to Brantford, which is not visited nearly so much as it should be, is the Bell Homestead on Tutela Heights.

The view from there of the Grand River Valley with the city in the distance, is not only the most beautiful in this County, but also one of the finest in Canada.

Moreover, great historical interest attaches to the spot. It was here that the Tutela Indians were located at a time when the Grand River valley was peopled by red men, who of course for hunting, fishing and other reasons, had to locate near some body of water. That tribe is absolutely extinct. The last one died many years ago and during his latter days was unable to converse with anyone, as he was too old to pick up any other form of the Indian language.

Before he died a well known ethnologist from the States, came to Brantford in order to glean some information regarding the tribe, but he had to give it up, because the aged man could not make himself understood and there was no one capable of making any interpretation of his pathetic mumbblings. In connection with the records of the Six Nations office in this city, there used to be a column headed "Tutela's", but it was dropped some time ago, as there was no one living who could even remotely be placed in that classification.

Another and more modern phase of the historical side of the location is that the house in which Bell completed his discovery of public property under care of the Parks Board.

It might be well to recall at this juncture the speech which Dr. Bell made in Brantford in 1908, when he was given a banquet here, and during which he remarked (Courier report): "In most interesting language Dr. Bell next took up the story of the invention of the phone. He supposed that was the subject they would most like to hear about. (Loud cries of "Yes, Yes.") Well, during that period he was part of his time in Brantford and part of his time in Boston and he supposed the idea of the phone was where he happened to be. "I can affirm to you, though, gentlemen, that the inception of it was in Brantford." (Loud applause.) He first of all reached the conclusion that if a chunk of iron could be made to vibrate in front of a magnet, why should not similar oscillations be made to transmit the human voice? It was one thing to reach that conclusion and another thing to carry it out. He brought the problem with him from Boston to Brantford and solved it in Brantford while conducting an experiment in a totally different direction. He was at that time interested in the formation of the human ear, and a certain professor had in this regard presented him with the ear of a dead man, with

which he could experiment. That ear was in 1874 set up at Tutela Heights, and he formed a mouthpiece for speaking into it and had a glass which would reflect the vibrations. As he spoke into the ear the tympanum caused the small bones to vibrate in a most wonderful manner. He then attached a piece of hay to one bone and had a smoked glass in front. Then when he spoke into the ear again the vibrations caused the hay to draw the most beautiful curves on the glass. Then came the thought that if the human voice could agitate the tympanum of the ear so as to enable it to vibrate bones so much heavier than itself, why could not the human voice also be made to vibrate a thin piece of iron in front of a magnet and so transmit the waves of sound. "Gentlemen, the telephone problem was solved, and it was solved in Brantford." (Loud applause.)

Later on Dr. Bell told of how by the use of stove pipe wire he stretched a line between here and Mt. Pleasant. He could only send one way to the village and waited, watch in hand, until at a given time his uncle at the Brantford end gave a preliminary cough and he heard the words, "To be or not to be; that is the question." He added:

"Gentlemen, it was to be and for the first time between Brantford and Mt. Pleasant."

For beautiful scenery and associations alike the Bell Homestead is well worth while.

ANOTHER LIBERAL SPEAKS OUT.

The Simcoe Reformer, in confirmation of its views regarding the unsatisfactory leadership of Mr Rowell, relates the fact that Dr. Shehan, a well known Liberal of Delhi, was one of the speakers called on at a garden party and that when he rose to make his address, he stated that the chairman had told him he could speak on what subject he liked. He added that he had decided to select as his text "The wrecking of the Liberal party in the Province of Ontario and how it has come about," as he felt that such a subject should appeal to every "loyal individual, whether he be Liberal or Conservative." It was necessary for the welfare of the province to have a united and well organized opposition. They had that under Mr McKay, who was gaining ground. Then a clique of Toronto Liberals forced him out of the saddle, and since then they had been losing ground under Rowell. In the matter of the abolition of the bar, men on both sides were divided, and only "Temperance Liberals" would vote for Rowell candidates, while other Liberals who did not believe in "sumptuary laws" would largely remain away from the polls.

"The deduction is very plain, Mr. Rowell can never lead the Liberal party to victory. He no doubt could accomplish more if he would frankly drop his banish the bar policy; but the Liberals generally are not satisfied and never will be, because the split in the party came about under Rowell's leadership, and he was directly responsible for it. To prove my contentions, look at the result in North Grey—a Liberal majority of 747 turned to a Conservative majority of 278; also look at the figures of East Middlesex. These figures speak for themselves. The Liberal party is wrecked.

"Now, I am a Liberal, and chairman of the Reform Association in the municipality in which I live."

He added that he had made personal enquiries, and had yet to find a Liberal who was enthusiastic on behalf of that program. He considered the "temperance movement a good movement," but that it should not be in politics, and that as far as their side was concerned there must be a house cleaning and a general convention of the Liberal party in this Province should be called for that purpose."

The Reformer adds that the Doctor had not seen his issue expressing like views when he made his address.

NOTES AND COMMENTS.

An exchange announces that "raspberries are going to waste." Well isn't that a good place to put them?

Now London's on the top, And Brantford's on the flop. A Yea, London's role is stellar, Brantford's roll is cellar.

Some day Toronto will bury the wires instead of the linemen.—Toronto Globe.

Does the astute organ think that lines underground adjust themselves and don't need any human attention.

The Paris Review points out that Mrs. Pankhurst will go down in history as the woman who in jail wouldn't open her mouth and outside of jail wouldn't keep it shut.

Sir Wilfrid Laurier dropped unexpectedly into Toronto and it is believed, he is planning a tour of Ontario in an effort to revive the drooping spirits of the Liberals. He will need a few thousand sunny smiles in order to do that and then some. The fact is that many of the faithful are sore on Rowell, and sore on himself,

because of his silly bungle regarding reciprocity, and the wrong attitude he has taken on the navy question.

A Winnipeg loan floated in London was over subscribed in short order. This goes to show that British investors still very properly have an unshaken faith in the future of Canada.

Miss Sylvia Pankhurst has expressed disgust because one of the leading supporters of herself and her sweet mother is about to be married. The dear girl says that love and the military suffragette cause have nothing in common and shouldn't get mixed. Certainly not if the consequence is a crop of Sylvias. Meanwhile an anxious world is all agog to know the name of the gent who handed the mitten to this gentle mannered daughter of Eve.

To The Editor

THEY OBJECT TO METHOD.

Editor of the Courier:

Sir,—Will ask you to give space in your valuable paper to the following facts regarding sidewalk on Church St. A short time ago we enquired if we could have walk on the sidewalk close to their properties from Brant Avenue to nearly the end of the street where they brought it out in line with old sidewalk. Mr. Suddaby was spoken to by phone and was told what they were doing; he said to have work stopped. Mr. Howie came along and told them to go on with their work. Hearing there was a meeting of the council we went up to protest against removal of A motion was made to have walk put back where it had been for over 25 years; it was seconded by two aldermen. An amendment was made to leave the matter in the hands of the Board of Works to look into next morning. The original motion was dropped, the aldermen expecting the board would comply with owners' wishes as they have to pay the taxes. They met next morning and it was explained to them that it would be an injury to several of their properties to move the walk and no benefit to the city. Mr. Jones and aldermen over-ruled our wishes and walk was put down.

Now, we cannot understand why the wishes of private owners cannot be carried out as well when they are in the right, more so than corporations who are often in the wrong. One of the aldermen who is on the Board of Works at present and who was chairman of same board a few years ago, called a special meeting of the council during the Mayor's absence in the interests of the Brantford St. Railway to change the route from Waterloo Street to Church St. Permission was granted after the company explained to them that Church street was easier to come up than Waterloo. Any person who knows the locality is aware that Waterloo is far easier. The result of this change has been a nuisance both to property owners and also the Board of Works ever since.

Yours,
T. F. Clark and Property Owners.

Bank Robbery

(Continued from Page 1)

The burglars worked uninterruptedly until about 4 a.m., when the janitor (a Chinaman) entered the bank to clean up, as was his custom. He was promptly seized, gagged, bound hand and foot, carried to the basement and tied to a post. It was fully an hour before the Chinaman managed to free himself and give the alarm at the police station in an adjacent building, the burglars having a good half hour start.

The gold and currency they tied up in ticking, sheets and pillow slips from the clerk's bed. The burglars then, in the garage of a man named Trapp and stole an automobile in which to make their escape, and it was while the machine was being cranked up that an early wayfarer recognized McNamara, though not suspecting a burglary had been committed.

Donald Ferguson, a former civil engineer, but at that time working as a treasurer, was on his way to his employment, and as positive he could not be mistaken in the faces of the men he saw standing around the automobile.

The burglars were unable to start the machine owing to the absence of a spark plug from the engine. It has never been shown exactly how the burglars managed to elude capture after their first plan miscarried. In their haste they dropped a package containing \$5,000. Three days after the robbery a hobo was found in the Chinese quarter of Vancouver, having the time of his life, spending money right and left. He had nearly \$5,000 in his possession when arrested. It was part of the proceeds of the bank robbery—the package dropped by the robbers in their flight and picked up in the roadway.

There was also \$24,000 which the burglars found necessary to hide under a wooden sidewalk adjacent to a fence in New Westminster. This was discovered on November 15, two months after the robbery. Twelve days earlier Chief of Police Bradshaw and his detectives found \$35,000 one-third in gold, hidden under a bridge spanning the Fraser River.

Township and City

(Continued from Page 1)

Chas. Mayled objected to the building built on the east side of the street, on the grounds that there were more residences on the West side and because the new walk, if on the west side would be a continuation of the plank walk now in the Township. Ald. Suddaby moved for the work to be gone ahead with, as it was a very important piece of work. City Engineer gave an estimate of the grading work done in the Township and

city at about \$375, and intimated that the building of a cement walk from the city limits to Mt Hope cemetery would cost \$1,800. He did not give an estimate of the cost of the remainder of the grading. Councillor Seace pressed for the completion of the work. However, as stated, the Township and city parted company. The work in the Township is at present stopped. The Township will do the grading this summer, but will not build the sidewalk. The city can also do their grading, the street in the city already having a sidewalk constructed to the limits. The road has been lowered in front of Mr. Hull's property, which is in the township, and the city will put in crushed stone. There was nothing said last night as to the paying for the work already done, and nothing has been decided as yet.

Determined To Marry

(Canadian Press Dispatch)
GANANOQUE, Ont., July 25—Mr. Harrison Willard Edget and Rose Bell Spratt of Sandy Creek, N.Y., an elderly couple who married here yesterday afternoon by Rev. Henry Gracey, pastor of St. Andrew's church. The couple came over on the noon boat from Clayton and after dining at one of the hotels went to the office of Freeman Britton, issuer of marriage licenses and tried to procure a license. But one refused on the ground that it was in violation of Ontario statutes, they not being residents of the town. Later they found Mr. W. S. Abbott, another issuer of marriage licenses and to him they represented that they were former residents of Sandy Creek but had resided here for some time and upon signing the necessary affidavit secured a marriage license. At the manse here they were married. Rev. Mr. Gracey before marrying them put them through a thorough cross questioning and there they also claimed to be residents.

That Omner of Ferry Smuggled Italians Into United States.

[Canadian Press Despatch] SARNIA, Ont., July 25.—The two ferries owned and operated by Captain Egbert, running between Point Edward and North Port Huron were seized and tied up yesterday by American Government officials. Capt. Egbert is charged with bringing Italians into the States from this side after having been warned twice before. Under the law he is now liable to a ten thousand dollar fine.

Last night the two boats disappeared and it is said that a freighter bound down the river while sheering off her course rammed the two craft at the dock and either carried away or sank them.

Nuptial Notes

SMITH—FORCE.
A very pretty wedding took place yesterday afternoon at the residence of Mr. and Mrs. James Hawks, 21 North Park St., when Mrs. Hawks' sister, Letta May Force of this city, was united to Mr. Roy Smith of Calcutta. The ceremony was performed by Rev. James Chapman, of Shensone Memorial church. The bride who was prettily attired in white embroidered voile and wore a veil and wreath of lilies of the valley looked charming as she entered the parlor on the arm of her father. The young couple were attended by Miss Violet Smack, daintily attired in pale blue Mull, and Mr. Elmer Force, brother of the bride was best man. The ceremony was performed in the presence of about thirty relatives and guests, after which a dainty repast was served.

The groom's gift to the bride was a silver mesh bag, to the bridesmaid a signet ring and to the best man a tie pin.

The happy couple left on the six o'clock train amid showers of rice and confetti for Easter points. Mr. and Mrs. Smith will reside in Brantford.

Golf Notes

The successful contestant at the Brantford Golf and Country Club yesterday afternoon was Mrs. D. Gibson who came off victorious in the score over the local links, winning the golf ball. Afternoon tea was served at the conclusion of the game.

Pretty tough that Guelph when the Red Sox outfit "Lily" pitched a good game should have been returned.

There is still a statute for people in Ontario, and yet Sox live.

Guelph holds forth here afternoon. If you weren't at game, where would you be?

Earl Powell did not do very well yesterday, but he was a ball player, and Brantford him.

It must be salt petre Keenan to read the Berlin these days. Berlin amused one yesterday.

Wagner and Ivers both do one inning yesterday, yet failed to score. This is rather even for a tail-ender.

With Ottawa beating London Guelph winning again, yet Thomas lost, there certainly race in the Canadian League.

In fairness to the Red Sox should be said that they played good game of ball yesterday, reckless base running by really lost the game.

If the Guelph club had taken its way in the league, we might get trimmed by that, Mr. Mahoney, or did over your head.

The crowd at yesterday consisted of the fans ultra-little detachment of the fans been there every day this year missionaries in a righteous.

COCKNEYS LOST TO SENATORS

London Was Beaten in a Pitchers' Battle by a Score of 2-1.

OTTAWA, July 25.—The most critical series of the season opened here yesterday between Ottawa and London, the home team winning by the score of 2 to 1. Renfer twirled for Ottawa, and Chaput for the visitors. Both pitchers performed well, but good support behind them pulled them out of many tight pinches. Ottawa scored their first run in the session, and the other came in the third. In the last inning, with the score two to one against them, Manager Deneau ran in Reading as a pinch hitter, who fanned. Score:—Ottawa.....10100000x—2 London.....01000000x—1

HAMILTON DEFEATED ST. THOMAS.

The Kolts Drove Clements From the Mound in the Third Inning HAMILTON, July 25.—By garnering two hits and three runs in the second, and five hits and four runs in the third off Clements, the Tigers defeated St. Thomas at the H.A.A.A. grounds before a large crowd here yesterday by an 8 to 3 score, in the first game of the home series. The local club started right in the first inning to show the fans that they could play ball sometimes, and before the game proceeded very far it was evident that they would succeed in their mission. When Clements was hit so hard in the second and third Manager Ort decided that it was time to change, and he went into the box himself. He pitched wonderful ball for a novice at the game, only allowing one hit for the six innings he pitched. He walked three and struck out one. Patsy Dougherty was Lee's choice of a pitcher. He pitched excellent ball throughout, having perfect control all the time. He allowed seven hits but kept them scattered. He struck out eleven batters and walked only two. Score:—St. Thomas.....00001020—3 Hamilton.....03401000x—8

BERLIN DOWNS PETERBORO

"Bill" Schaeffer Was Very Effective in the Pinches. PETERBORO, July 25.—"Bill" Schaeffer had one of the luckiest days of his pitcher career yesterday, when after starting had in several innings, in which a man on one to two and three bags, he held the home-sters scoreless. Three times he fanned Hilliard when a hit meant one or more runs. Only in the seventh did the Petes hit for a run, when Rowan's single, Trout's infield out, and Hilliard's drive into center scored Rowan. Manager White got the first run for Berlin, when Stroh brought him in from third, and the big boosters' day crowd gave the former White Cap a big reception. Sterling twirled a clever game for the Petes. Score:—Berlin.....00001020—3 Peterboro.....00000100—1

A HANDSOME PIECE OF LITERATURE.

One of the most attractive and exceedingly well executed pieces of railway literature has just been issued by the Grand Trunk Railway, and is entitled "The Canadian Rockies—Yellowhead Pass Route." The descriptive matter deals with the opening up and introducing to tourists and travellers a fresh new outing place, that will, in a short time become the show place of America. The "Last

Wonderland" which is dealt with in this publication is that portion of Canada between Edmonton and Fort George and is a land abounding in big things, a vast and hitherto unknown section in the Central and North Western part of Western Canada—probably the most wild and romantic region on the American continent. The cover page of this book is printed in several colors and embellished with gold; the subject of the title page being an Alpine scene

on the upper reaches of Mount Robson—altitude 13,700 feet—the highest mountain in the Canadian Rockies. The inside is printed on fine coated stock, roughed, and the illustrations give one a splendid idea of this new magnificent mountain district that has been pierced by the Grand Trunk Pacific. Copies of the publication may be had for the asking on application to Thomas J. Nelson, City Ticket Agent Grand Trunk Railway, Brantford.

WON FINAL GAME FROM THE ORIOLES

Manager Dunn Used Four Pitchers Against the Leafs.

TORONTO, July 25.—Fourteen Orioles couldn't subdue the Leafs yesterday, and thus get the odd game of the series, as the latter were in a batting mood, especially in the first four innings, when they secured thirteen of their sixteen safety swats.

PROVIDENCE BEAT HUSTLERS ROCHESTER, July 25.—After being pounded out of the box Monday, Bill Bailey came back against the Hustlers yesterday, and Providence won by 5 to 3.

CANADIAN TEAM IN SCOTLAND.

Record on July 14 Was 11 Won, 11 Lost and 1 Drawn.

A member of the Canadian bowling team writes: "Up to the present time we have played 23 games (11 in England, 5 in Wales, and 7 in Scotland), with 11 games won, 11 lost and 1 drawn. The first four games in England were certainly played at a disadvantage, as the team had no opportunity of resting from the ocean voyage—in fact, in less than twenty-four hours after docking at Liverpool we were on the green playing the Berkshire bowlers at Reading.

After Nip and Tuck Battle for Nine Innings, Louie Cook's Base Ball Aggregation Finally Romped Over the Dyke With a 3-2 Game Tucked Up Their Sleeve and the Fourth Straight Victory Over Kane's Much Abused Pennant Contenders.

"There's nae good luck about the house, There's nae good luck at all." This seems to be the case with Brantford when they get in tight pinches, luck seems to desert them.

Lill made his appearance in a Brantford uniform and pitched a good game. He held the hard hitting Maple Leafs to four hits and had his team mates hit when the opportunities presented would have won his game.

Gero pitched Brantford's ninth, Dunn and Stark went out on flies to Slemm, while Harris struck out.

In Brantford's sixth, Wright stopped Lill's hit from going over the fence, then three Lill out trying to make second. Wagner singled right afterward and stole second. He advanced to third on a wild pitch. Ivers walked and it was up to Powell.

Guelph got an easy run in the second. Shafer got to first on Keenan's error and went to third on two wild pitches, and then scored on Fryer's swinging bunt. Fryer stole second. In the meantime, Lill struck Wiltse and Behan out. Dunn hit to Wagner who missed it but caught Fryer attempting to score from second. One run, one Cincinnati hit and two errors.

GLASGOW, July 25.—Capt Rennie has begun to emphasize the social side of the visit. The Canadians, he tells the people here, did not come over to the old land entirely to win games, but to win hearts, and judging by reports they are succeeding fairly well at the latter, even though the primary object of the visit may fall a little below expectations.

It is becoming somewhat of a byword in the Canadian camp that "We lost another game to-day but won a hundred hearts."

It is rather a notable fact that the Canadian team have won practically every game that was played on an inferior green. This does not mean that the Canadians are fond of tricky greens. Since strating this tour they have come quite critical of the laws and are remarkably quick to size up the good and bad points of the lawn, but it does appear to be a fact that they "find" a crooked green quicker than the old country players who expect every green to work just right.

It has been the experience of the team without a single exception that where the superior greens were grown there were congregated also the superior players. The most conspicuous difference in the play of the old country players and the Canadians is the lack of steadiness on the part of the latter. By comparison they are "in and outers."

The tour should be a potent factor in the development of the game in Canada and in helping along the organization of a Dominion Lawn Bowling Association.

The rules of the Scottish Association, which are now the rules of the international body are proving entirely satisfactory to the Canadian, and it would be a splendid thing for the game if such rules became universal throughout the British Empire. Only one change would be necessary so far as Canada is concerned, and that is the widening of the "hills" and this is an improvement which it should not be difficult to introduce at least for all important matches.

The Glasgow News in its comments on the game at Partick Green says:—"The Canadian team is the youngest that has visited us from the Dominion, and on play considered it the ablest, even taking into regard of defeat so far in the tour by yesterday's combined Scotland. As compared with the Australians, who created such a favorable impression here, they are keener and closer on the jack. They do not take our game so leisurely as the noble Cornish stalks, nor is their drawing so wide. They have thus more of our Scottish style, and mean to swallow the jack every time. Partick turf pleased them immensely, and they declared it almost the finest they had played on."

Like the Australians, they appeared every good shot or point of play, and make no bones about their demonstrations. The bankers present enjoyed their enthusiasm, and I think it might be copied by our own players, who are far too quiet and inattentive on the turf. Please note, Internationals for Garsc, not a few of whom were present yesterday."

Another Query. The Courier sporting editor has received another query, which is the same as the one answered last night, only put in a different way.

Is the Umpire Right or Wrong? A base runner goes from 1st base to 3rd base on a play, and the umpire orders him back to 1st base. In returning, the base runner hesitates at 2nd base; the umpire again tells him he must return to 1st base. While this is going on, the pitcher delivers the ball over the plate and the catcher throws it to 2nd. The second baseman touches the baserunner, who is returning to 1st base, and the umpire calls him out.

Answer—In last night's issue we stated, or intended to state clearly, that the base runner had to return to first base. If he was ordered back to first base by the umpire he would scarcely be under any liability to be put out, until he returned to that base, there would be no play, and one might reasonably suppose the pitcher's delivery to the plate was illegal. In soft ball, with two umpires at work, a situation like this might easily arise. The base runner should, in order to protect himself, have asked the batsman to have stepped out of his box. This would have suspended play. We can't see where he would be liable to be put out until he had touched first as ordered by the umpire, and left it again.

CHAPTER XXIV. FATHER AND SON.

But Frederick's day of trial was not over. There was a closed door to open, a father to see (as in his heart he still called Mr. Sutcliffe). Then there were friends to face, and foes, under conditions he, better than any one else, knew were in some regards made worse rather than better by the admissions and revelations of this eventful day—Agnes, for instance. How could he meet her young gaudy? But it was his father he must first confront, his father to whom he would have to repeat in private the tale which robbed the best of men of a past and took from him a son, almost a wife, without leaving him one memory calculated to console him. Frederick was so absorbed in this anticipation that he scarcely noticed the two or three timid hands stretched out in encouragement toward him and was moving slowly toward the door, behind which his father had disappeared so many hours before, when he was called to the interests of the moment by a single word, uttered not very far from him. It was simply, "Well?" But it was uttered by Knapp and repeated by Mr. Gourlay.

Frederick shuddered and was hurrying on when he found himself stopped by a piteous figure that, with appealing eyes and timid gestures, stepped up before him. It was Amabel. "Forgive me," she murmured, looking like a pleading saint. "I did not know, I never dreamed you were so much of a man, Frederick; that you bore such a heart, cherishes such grief, feels so worthy of love and a woman's admiration. If I had"—

Her expression was eloquent, more eloquent than he had ever seen it, for it had real feeling in it, but he put her coldly by. "When my father's white hairs become black again, and the story of my shame is forgotten in this never forgetting world, then come back and I will forgive you."

And he was passing on when another touch detained him. He turned, this time in some impatience, only to meet the frank eyes of Sweetwater. As he knew very little of this young man, save that he was the amateur detective who had by some folly of his own been carried off on the Hesper and who was probably the only man saved from its wreck he was about to greet him with some commonplace phrase of congratulation when Sweetwater interrupted him with the following words: "I only wanted to say that it may be easier for you to approach your father with the revelations you are about to make if you knew that in his present frame of mind he is much more likely to be relieved by such proof of innocence as you can give him than overwhelmed by such show of the lack of kinship between you. For two weeks Mr. Sutherland has been bending under the belief of your personal criminality in this matter of Mrs. Webb's death. This was his secret, which was shared by me."

"By you?" "Yes, by me, I am more closely linked to this affair than you can readily imagine. Some day I may be able to explain myself, but not now. Only remember what I have said about your father—pardon me, Mr. Sutherland—and act accordingly. Perhaps it was to tell you this I was forced back here against my will and best interest by the strongest series of events that ever happened to a man. But," he added, with a sidelong look at the group of men still hovering about the coroner's table, "I had rather think it was for some more important office still. But this the future will show, the future which I seem to see lowering in the faces over there."

And, waiting for no reply, he melted into the crowd. Frederick passed at once to his father. No one interrupted Frederick after he had shut that door behind him, but the large crowd that in the halls and on the steps of the building awaited his reappearance showed that the public interest was still warm in a matter affecting so deeply the heart and interests of their best citizens. When, therefore, that long closed door finally opened and Frederick was seen, escorting Mr. Sutherland on his arm, the tide of feeling which had not yet subsided since Agatha's letters were read, vented itself in one great sob of relief for Mr. Sutherland's face was calmer than when they had last seen it. His step more assured, and he leaned or made himself lean on Frederick's arm, as if to impress upon all who saw them that the ties of years cannot be shaken off so easily and that he still looked upon Frederick as his son.

But he was not contented with this dumb show, eloquent as it was. As the crowd parted and these two imposing figures took their way down the steps

to the carriage which had been sent for them Mr. Sutherland cast one deep and long glance about him on faces he knew and faces he did not know, on those who were near and those who were far, and, raising his voice, which did not tremble as much as might have been expected, said deliberately: "My son accompanies me to his home. If he should afterwards be wanted, he

"My son accompanies me to his home," will be found at his own residence. Good day, my friends. I thank you for the good will you have this day shown us both. Then he entered the carriage. The solemn way in which Frederick bared his head in acknowledgment of this public recognition of the hold he still retained on this one faithful heart struck awe into the hearts of all who saw it. So that the carriage rolled off in silence, closing one of the most thrilling and impressive scenes ever witnessed in that time worn village. (To be continued.)

It Has Killed Hundreds.

Strong purgatives have killed many a good man. Costiveness is bad—violent cathartics are worse. If bothered with stomach trouble or biliousness, try Dr. Hamilton's Pills. They are so mild that you can scarcely feel their action, yet so effective that the entire system is cleansed of wastes. Dr. Hamilton's Pills move the bowels gently, they tone the kidneys, assist digestion, clear the skin. For those subject to colds, biliousness, languor there is no better medicine. Try a 25c. box of Dr. Hamilton's Pills.

Buying Shoes On Reputation
When any article has consistently "made good" with the public for over 40 years, it must be a SAFE article to buy. No inferior product can stand the acid test of time. Literally MILLIONS of Canadians have bought and re-bought the genuine Slater Shoe during its 40 odd years on the market. From Halifax to Vancouver it has been put to the trial tests of hard wear and often rough usage, year after year. The sales of the Slater Shoe are greater to-day than ever in its history. More people are wearing it. More people are satisfied by actual trial and hearsay that the Sign of the Slate on a shoe stands for extra COMFORT, more VALUE and BETTER WEAR. The genuine Slater Shoe is a SAFE Shoe to buy. It has a reputation to maintain, which the makers have spent over 40 years and thousands of dollars to build up. Beware of imitations. Look for the Slate Mark on the sole.

That Dodd's Kidney Pills Cure Bright's Disease... Ontario Man's Kidney Disease Gradually Grew Worse Till He Used Dodd's Kidney Pills--Then He Found Speedy and Complete Cure.

LEFAIVRE, Ont., July 21--(Special.)--Rescued from the grasp of deathly Bright's Disease by Dodd's Kidney Pills, Mr. Amable Lamarche, a well known resident of this place, is singing the praises of this standard remedy for kidney ailments.

"My sickness started from a strain," Mr. Lamarche states, "and for a year I did not know a well day. My sleep was broken and unrefreshing, my appetite was listless, and my limbs would swell. Then rheumatism set in, and neuralgia, backache, headache, and heart trouble added to my tortures."

"The doctor's help at first could give me no relief, and finally, when Bright's Disease had me in its grasp, I decided to try Dodd's Kidney Pills. "After taking three boxes of them I was as well as ever I was in my life, and my sleep has been perfect."

Mr. Lamarche's case again demonstrates two things. The first is that neglected kidney trouble brings the most painful and dangerous of diseases; the second, that Dodd's Kidney Pills cure kidney disease in any of its stages. Dodd's Kidney Pills cure where every other medicine fails.

"YOUR HEALTH IS— —YOUR WEALTH"

DO NOT TRIFLE WITH THE HEALTH OF YOUR FAMILY

THE BROOM NO LONGER IS GOOD FOR ANYTHING BUT FUEL. INSTEAD OF CLEANING, IT JUST STIRS DIRT UP INTO THE AIR. THE DIRT NATURALLY SETTLES BACK ON THE FLOOR OR FURNITURE, THEN YOU MUST "DUST"—A TERRIBLE, STRAINING PROCESS.

THEN, TOO, THIS DIRT YOU STIR INTO THE AIR IS VERY DANGEROUS. IT IS LADEN WITH DISEASE GERMS AND YOU AND YOUR TOTS BREATHE THEM. THINK OF THAT!

THINK WHAT IT MEANS to the housewife to have the Cleaner run over her floors once or twice a week instead of sweeping them with a broom or carpet sweeper. Realize how absolutely clean she will keep every inch of her carpets with less effort than the old efforts require, dispensing forever with house-cleaning days, keeping her home clean ALL THE TIME, just the same as it was right after house-cleaning time of yore.

Men's Work Has Been Lightened and Systematized by Means of Labor-Saving Machinery Why Not a Woman's?

**Dr. Kellog, President
of the Battle Creek
Sanitarium in One
of His Lectures,
Stated:**

"Excessive loss of life of infants, aged from three months to four years, is caused mainly by the mother permitting the child to play on a carpeted floor, filled with street dirt, which contains millions of microbes that are brought in on the feet and ground into the carpet. It is criminal to let a child play on a carpet unless it has been 'vacuum' cleaned."

Prof Rodugres, United States Expert Consulting Engineer, After Thoroughly Examining Our Machine Says:

"It is the first hand-power cleaner that I have examined that pleases me. The principal is mechanically correct; the construction is based on exact scientific principles. It not only removes all dirt and dust, but, on account of the excessive air displacement and continuous suction, removes the dirt and filth from under as well as from the top of the carpet with less effort than any other vacuum cleaner I have ever examined. In fact, it is the most complete dirt eater I have ever seen. The material used and the construction are both so nearly perfect that it is practically indestructible. If you will think for a minute, you will realize that a number of diseases are caused by germs and microbes in the filth brought into the house by dogs, cats, rats, flies, and the filth off your feet. Among the diseases that can be mentioned are diphtheria, typhoid fever, smallpox, scarlet fever, measles, whooping cough, grippe, spinal meningitis, pneumonia, erysipelas, cholera, yellow fever, malarial fever, tuberculosis, tonsillitis, cholera infantum, and a number of others. Were it possible to show you by means of the magnifying glass the filth and germs that are lodged in your carpets and rugs, you should be so frightened that you would immediately order a vacuum cleaner or abandon your carpets and rugs. Do not trifle with the health of your family!"

If you have no vacuum cleaner, in justice to your family's health, have a demonstrator call to-day. It will cost you nothing, and you will have a sanitary home. It is a health saver, labor saver, and money saver. It can be used every day, and does not wear the nap off the carpet, like ordinary sweeping; nothing to get out of order, runs quietly, a child can run it, and will last for years.

**J. M. Werzke, A.M.,
M.D., the world's
recognized authority
on bacteriology, in a recent
lecture, said:**

"If all carpets and rugs were kept thoroughly cleaned, and all windows and doors thoroughly screened, our mortality from infectious diseases would be reduced 90 per cent; in fact, all Municipalities should enact laws to compel each householder to adopt and use a vacuum cleaner."

The Brantford Daily Courier has made arrangements to secure a large number of 1913 WIRELESS VACUUM CLEANERS. These cleaners are equipped with three bellows which are operated from backward and forward motion of the machine. If you have no Vacuum Cleaner, order one to-day. For free demonstration telephone the Courier Office. Both Phones 139.

Dr. Roche

Says Immigration to the Cities is by No Means Desirable.

(Canadian Press Despatch)
OTTAWA, July 25.—Hon. Dr. Roche, Minister of the Interior, stated to the Canadian Press to-day that though there is much wisdom on the part of the Dominion trades and labor congress in warning prospective emigrants in Great Britain against coming to the cities of Canada unless they have positions waiting for them, he believes that there is still a demand for farm laborers all over the country.

Dr. Roche emphasized that every immigration agent in Great Britain had received instructions to rather discourage any emigrants not having positions awaiting them from coming to the cities of this country. In all the literature published by the department of the interior and circulated freely in the old country, the following warning is printed in bold type and headed "Important."

"Farmers, farm laborers, and female domestic servants are the only people whom the Canadian immigration department advises to go to Canada. All others should get definite assurance of employment before leaving home, and have money enough to support them for a time in case of disappointment."

Fatally Crushed.

LONDON, Ont., July 25.—Arthur Bird, an Englishman, who arrived here two weeks ago from England was probably fatally crushed this morning while at work in Leonard's foundry. He was working beneath a boiler when the crane broke. He was hurried to the hospital. He has a wife and three children in England, whom he intended to bring out when he earned enough money for the purpose.

NEW ZEALAND'S GIFT TO EMPIRE IS AT OUR DISPOSAL

Gray Battle Cruiser
Anchor for First Time
in a Canadian Port

A WONDERFUL SIGHT

Ministers Out to Wel
Officers—Coast Cities
Give Reception.

VICTORIA, B.C., July 26.—A gray ship on a dull gray sea, a dull gray sky, the battle cruiser Zealand reached Esquimalt today after a smart run from Vancouver. She will leave here to-day to convey to remain a week. In the whole entertainment program Vancouver had to be changed as she arrived, for her officers declared that they wanted the first days for cleaning up and coal declared that they had been with luncheons and dances in cities of the Antipodes, which has just come.

The battleship first hove in the straits this morning at 10 o'clock. Within an hour she anchored down in Esquimalt, her boats and steam cutter over side and Captain Halsey receiving calls from Captain H. M. S. Shearwater and Algerine.

Pathetic Contrast
H. M. S. New Zealand, the New Zealand to the empire, anchor in a Canadian port. Two lengths away was the Rainbow, her guns dismantled, her bridge and a skeleton crew left to keep up the paint work.

The arrival of H. M. S. New Zealand was in accordance with navy traditions. She was met into the harbor by a fleet of craft. The Princess Charlotte out with over a thousand sailors and a band, and led the way to greet the New Zealand.

The Quadra took out a large Government officials. Hon. Hazen, minister of marine, Richard McBride, premier, H. J. Houser and members of the provincial Government, embarked steamer, which was gaily decorated with bunting.

"Apparently you Vancouver do not expect us to do any aboard or eat aboard, on board," commented Captain as he laughingly scanned the spring schedule of luncheons then that he intimated that Tuesday would have to be left to ship's work.

The first on board was Hon. Captain Halsey came ashore paid a call on Lieutenant-Governor Patterson, and about 3 o'clock call was returned, the premier, Hon. Mr. Hazen also going. The officers were entertained later at the Empress Hotel at 7 last night, after which a publication was held at the executive wings.

Flies Across Alps.
BASEL, Switzerland, July 25.—to-day by the French aviator Bider, who flew from Milan to this city, a distance of 40 miles in three hours and 10 minutes. He made one brief descent to replenish his fuel, the greatest height attained by the plane was 10,000 feet.
