PLAN CONFERENCE

Ottawa, Jan. 2.—An interprovincial conference on immigration and colonization under the auspices of the Federal department of immigration and colonization will be held here on Jan. 10.

THE WORKMEN'S COMPENSATION ACT

John J. Martin, Labor M. P. P. Chatham, who spent a few days of last week in St. John in conference with the executive of the New Brunswick Federation of Labor, returned home Thursday evening. Among the matters under consideration was the Workmen's Compensation Act, particularly the suggested changes in the Act advanced by the Lumbermen's Association. While there, Mr. Martin had a conference with Premier Foster, and suggested on behalf of the Federation that a conference representative of the Employers of Labor of the Province, and representatives of the Federation, including also representatives of the Government, and of the Workmen's Compensation Board be arranged for in the near future to discuss Workmen's Compensation Act.

"FRUIT-A-TIVES" SAVED HER LIFE

This Fruit Medicine Always Gives Relief

917 DORION ST., MONTREAL.

I suffered terribly with *Dyspepsia*. I had it for years and all the medicines I took did not do me any good. I read something about "Fruit-a-tives" being good for all *Stomach Trouble and Disorders of Digestion*, so I tried them.

After finishing a few boxes, I was entirely relieved of the *Dyspepsia* and my general health was restored; and I am writing to tell you that I owe my life to "Fruit-a-tives".

Will Search For Gold In Labrador

Ottawa, Jan. 3.—Matthew Morris, of Wilson's Corners, Que., is here making final preparations for a long journey to Northern Labrador. He has been engaged by a company in which some ten Ottawa men are heavily interested, to be the mining expert in an expedition to the new gold field.

The company is purchasing two suitable vessels in Halifax and will have them outfitted in time to sail by the 29th instant.

ANOTHER ADVANCE

Ottawa, Jan. 4.—Commencing Monday, January 1st, both The Ottawa Journal and The Ottawa Citizen increased the sale price of their paper to a copy. This has been made necessary by a further increase in news print, which went into effect at the beginning of the New Year, and also the fact that commencing with 1923 the full effect of increased postal charges introduced in 1922 must be met.

There are indications that there will be a second advance in news print in 1923, probably about the middle of the year.

THE MARITIME UNIVERSITY SCHEME

The maritime university federation scheme as agreed upon at recent conferences, provides for the removal of maritime higher educational institutions to Halifax, there to become constituent colleges of a new university, each retaining its own name, endowment and property. The scheme also calls for a non-denominational constituent college with its own board of governors distinct from the new university. The government shall be in a board consisting for the first six years of two from each constituent college and twelve others representing the public at large, and after six years board shall consist of the president of the university, one from each of the constituent colleges, six elected by the associated alumni of all colleges, three named by the governor of Nova Scotia and three by the governor of New Brunswick, one by the governor of P. E. I. and one by the governor of Newfoundland, and divided into groups so that one group shall report each year. The university senate is to consist of the president of the university, the heads of several constituent colleges and one member of full professional rank of the Arts faculty of each constituent college, the deans of the several faculties of the university, two professors of the university teaching Pure Science, two professors of each faculty of the university. The colleges are each to hand over their library collection, scientific apparatus, etc. It is hoped to have faculties of arts and pure science, law, medicine, dentistry, applied science and to organize with possible faculties of agriculture, pharmacy, forestry, fine arts, education, etc., while in theories any constituent college will give instruction and conduct examinations under its own regulations. As to finances it is provided that each federated institution shall retain control of present property and buildings, that a uniform scale of fees shall be adopted, that each college shall fix its own board and lodging charges, control its own scholarships. The concluding sections of the tentative agreement provided for the appointment of two representatives from each university and government to present the plan to their government with a request for aid to present it to the Carnegie trust for its consideration and aid. In submitting the scheme to the public to-day there is also submitted a statement of Fletcher Peacock setting forth the claims of Moncton as the most central spot for the location of this university and suggesting a Moncton grant of 500 acres of land and a substantial endowment to be supplemented by a provincial endowment to neutralize the present advantage held by Halifax.

BANFF Indian Day—always the third Monday and Tuesday in July, was this year the most successful of its kind ever held in the thirty-two years since its inauguration. An atmosphere of festivity prevailed the two days the tribe of six hundred Stoney Indians were at Banff, the centre of that most beautiful part of the Canadian Pacific Rockies.

No place in the world could have a more perfect setting for an event such as this, and what could be more picturesque than the Tschantoga Indians "people of the woods," in their native costumes amid these Great Hills. There is a dignity and poise to these people of the woods—calm, strong faces with character written in every line and seam of their countenances.

The parade started at nine thirty, and circled around the main street twice before going to the Banff Springs Hotel. The streets en route to the hotel were thronged with residents and tourists, and the steps of the hotel and court were densely packed with onlookers for the distribution of prizes for the best native costumes took place here. The Governor General and Lady Byng, who were on their way west over the C.P.R., were among those who viewed the proceedings. Lady Margaret Boscowen, sister of Baron Byng, presented the prizes won.

The parade was most spectacular, and combined with the sports it was well worth travelling hundreds of miles to see. The chiefs rode at the head of the procession and looked picturesque in their costumes of buck-skin and bead work, and gay head-pieces of feathers and ermine. Not only were the natives decked out in their gala attire, but the horses also shared in the pomp and splendour. Their trappings were also made of buckskin, with patterns worked in beads, the coloring and designs of superb workmanship. Skins were also used, and designs of various colors. The higher the rank of their rider the more beautiful and costly the trappings.

The sports were held in the encampment grounds on one side of which the Indians had erected their picturesque wigwags. The grand stand was packed and thousands were present, and fever in the history of Banff was this event witnessed. Cars were lined up in all directions, and the excitement of the day was everywhere.

The Indian Day Committee are to be congratulated on giving Canada this annual event, which is so typical of our own life, and the beauty of which is in keeping with the great hills of the Rockies. The day was indeed a day of the officials of the day were indeed. Chief of the very industry did their share toward making Indian Day the success it undoubtedly proved to be.

backing contest. Three money prizes were given for each race. The Governor General, Lady Byng and party attended, and later left for Lake Louise. The cowboy race was the most spectacular. There was a pole at each end of the course, which the horses had to go around, and as they appeared to get there almost simultaneously, it was a wild jumble of horses and riders apparently on top of one another.

The setting for this scene was perfect. Hills well timbered with dark spruce and pine, and behind them the mountains in a dull grey haze—due to the distant forest fires. Against this setting the teepees stood, white with the top a cinnamon brown, smoked from camp fires within. Many were of brilliant colors, beautifying the encampment grounds still further. The excitement of the afternoon over, the Indian families returned to their own quarters, and the little played on the green grass in front of their teepees. Some of the men and women reclined on skins, or blankets in the cool of the early evening. Squaws went to the brook for water, others came from the woods with bundles of faggots, and soon fires were started for supper, and their flames leapt into the air, adding more color to this already brilliant scene.

The Indian Day Committee are to be congratulated on giving Canada this annual event, which is so typical of our own life, and the beauty of which is in keeping with the great hills of the Rockies. The day was indeed a day of the officials of the day were indeed. Chief of the very industry did their share toward making Indian Day the success it undoubtedly proved to be.

ESCAPE WEATHER PERILS

This sort of weather gives coughs and colds to the strong as well as to the weak-chested. Infectious throat and chest ailments are also about. To safeguard against this two-fold peril take Peps.

When a Peps tablet dissolves on the tongue, powerful medicinal fumes are breathed direct into the lungs. This Peps medicine soothes, heals and strengthens every part of the throat and chest. It speedily banishes

Coughs Colds & Bronchitis

Whenever you leave home, office or works, slip a Peps tablet in your mouth to keep out the "cold germs."

If your throat feels sore, your head stuffy, or you start to sneeze, bathe your nostrils, throat and lungs with the germ-destroying Peps-fumes. They prevent the development of serious throat and bronchial ailments.

Cause of Early Old Age

The celebrated Dr. Michenoff, an authority on early old age, says that it is "caused by poisons generated in the intestines. When your stomach digests food properly it is absorbed without forming poisonous matter. Pepsins bring on early old age and premature death. 15 to 30 drops of "Sign's Syrup" after meals makes your digestion sound."

HOW DEATH COMES

In a New York magazine Mr. Irvin S. Cobb, writing from a unique personal experience, tells how death comes. One night not long ago, so the story goes, Mr. Cobb fought for twelve hours to keep his grip on life. He was close to death but was conscious throughout. He knew and felt and thought, and now gives an extraordinary fragment of autobiography. Says Mr. Cobb:

"I have not set down this account merely through a desire to talk about my own ailment or to glorify in print my own adventure.

"I think I have a decent motive. We are all of us going to die. Some may look upon death with indifference, some with a shrinking dread in their souls. Some—and this, I assume means the majority—in times of health put from them all contemplation of death as a concrete fact; even so, there must be hours when they speculate upon it as applying to themselves.

"So to all such, I, who have skirted the Valley of the Shadow, say that if my own experience is typical—and it

surely must have been—then those among us whose lot it will be to face the finish while still in reasonable possession of our faculties will face it without fear and without bitterness without reluctance and without repinings, without sufferings, whether physical or mental; we shall find it at last, but a peaceful transition, an eternal change mercifully accomplished.

OIL TREATMENT OF STREETS

From various viewpoints, one of the most important of the modern civic developments in Ottawa, has been the oiling and tarvia processes by which in recent years the streets have been kept free from dust and the roadway preserved.

Beginning as far back as 1913, when the use of light oil for dust laying was introduced, the system has been gradually improved in method of use and extended in area, till today over 50 of the 100 miles of the city streets which are not paved, are either oil or tarvia treated. Ottawa has 165 miles of streets. Of this number 65 miles are asphalt paved, and the remainder are either macadamised or remain in their original soil condition. Of the 100 miles which are not paved, 50 miles are sufficiently macadamised or improved so that oil or tarvia can be applied.

At the outset the oil and tarvia process met with considerable opposition from ratepayers. There were then and still are, minor inconveniences in connection with the work, but as the years have passed the people generally have come to so appreciate the merits of the oiling and tarvia systems that they are willing to overlook the temporary drawbacks of the fresh tar in view of the final benefit.

Street oiling has now entirely replaced street sprinkling here. In 1918, before oiling was introduced, there were 50 street sprinkling wagons in use in Ottawa. These have been replaced by three tarvia wagons and four motor driven street flushers. If street sprinkling were still in force some 60 wagons would be required, and the cost would be enormously greater than the cost of the oiling and tarvia systems.

In the period between 1913 and the present, experience has shown that the tarvia is preferable to oil for good macadam roadways, as the tar makes a carpet as it were over the roadway and tends to preserve it, as well as lay the dust. The oil has been used mostly on non-macadamised streets, where tarvia could not be suitably used. It is an excellent dust layer, but is not as good a preservative. During the past couple of years an oil with an asphaltic base and which has much the effect of tar, has been introduced and will probably be considerably used. The complaint against the oil used to be that it would not dry quickly or make a "coat" on the road. The new mixture dries fairly fast and "sets" well.

When oil was first introduced the rate under the sprinkling-by-law was set at 4c. per lineal foot property frontage, the same as the water. From that time (1913) on, the cost of oils of all kinds and labor steadily mounted, and the frontage rate has had to be increased from time to time till this year, the rate is set at 10c. per lineal foot frontage. If water sprinkling were still in force the frontage rate would now be seriously greater. At the present rate of \$8 per day for teams, it is estimated the work could not be done for less than \$400 per day, notwithstanding the fact that the city would not pay anything for its water.

But such has been the benefit of the tar and oil processes that even if they cost more, instead of much less than the water, the people would undoubtedly prefer to dig a little deeper into their pockets and get the dustless streets—Ottawa Journal.

100 Striking Miners Arrested At Mine In Alberta

Edmonton, Jan. 3.—Crammed to capacity the city police station is the home of one hundred striking miners arrested yesterday for disorderly picketing and rock throwing at the Standard mine. The whole afternoon was taken up in identifying the men arrested and they asked for a remand to give them time to consult with lawyers. The men were charged jointly. Adjourment was allowed the defence until this morning.

The imprisoned men went on a hunger strike at noon but when supper time came the strike was broken, and the men ate heartily.

THIRTY YEARS SUCCESSFUL FARMING

SAMUEL LARCOMBE
and his exhibit of grain and vegetables at KANSAS CITY EXHIBITION

In a period when the profession of farming is more or less stagnant, when the tendency in so many countries is from rural districts to the cities and industrial centres, and the oft-made complaint is that the ardors of deprivations of an agricultural life are not commensurate with its compensations, it is consoling to read the history of a satisfied farmer of thirty years' standing, one of the continent's premier agriculturists, celebrating his seventieth birthday in the tranquil satisfaction of the honors which have come to him in his chosen profession.

Such a man is Samuel Larcombe, of Birtle, Manitoba, who expresses pride in the realization of the signal part he has played in making the possibilities of Western Canada known to the world.

The record of Mr. Larcombe's thirty years of farming is almost phenomenal. In that period, with the products of his Manitoba farm, he has carried off no less than three thousand prizes, including the world's championship for wheat at the Peoria International Fair in 1917, and

the sweepstakes for the best individual farmer's exhibit as well as the sweepstakes for wheat in the dry-farming section at the World's Soil Products exhibition in Kansas in 1918. His Canadian successes constitute an aggregate which gives him an average of one hundred prizes per year.

Born in a little Devon village and for ten years following the pursuit of market gardener, Mr. Larcombe's experience forms a further addition to the examples of outstanding success achieved by immigrants from the British Isles, unacquainted with Western conditions. He came to Winnipeg in 1889 and proceeded to Birtle, where even then existed a thriving colony of old country farmers. After a year's experience as hired man with a farmer in the district, he rented a farm, which, after five years he purchased and still occupies.

At a time when everyone was engrossed in wheat he concentrated not so much on grains as on vegetables. His first local exhibit won three

prizes, and in his first ten years of farming he made forty entries and secured 134 awards. From 1905 to 1908 he grew roots, vegetables and grain for the Canadian Pacific Railway for exhibition purposes in other countries, and produced citrons, cucumbers, pumpkins, squash and marrows for the Dominion Government for the same purpose.

Mr. Larcombe's career as an exhibitor has been one consistent succession of triumphs too lengthy to mention in detail. His international successes have brought considerable renown to Western Canada and widely advertised the wonderful possibilities of intelligent farming with assiduous application. Mr. Larcombe recently celebrated his seventieth birthday on the farm which has been the scene of every one of his achievements. He can look back over his thirty years of agricultural life in Manitoba with supreme satisfaction in the knowledge that in winning renown and prosperity for himself he has pointed the way to thousands of his fellow-countrymen.

FOR THE PRINCE OF WALES' RANCH.

HERE'S the grand champion Shropshire ram bought for \$500 by the Prince of Wales at the recent International Live Stock Exposition, Chicago, for the "E. P. Ranch," covering about 3,000 acres in Alberta, Canada, 60 miles south of Calgary, owned by the Prince of Wales, and which will be the future home of the great Shropshire sire. The Prince signs himself

"E. P.," meaning "Edward Prince," and when he bought the ranch during his tour of Canada he rode the range of his prairie "dominion" beyond the seas," with the Alberta cowboys, and decided that its proper moniker was "E. P. Ranch." Since then the Prince has sent a large flock of Shropshire sheep, Dartmoor ponies, thoroughbred fillies descended from Ormonde, St. Simon and Bend Or and short-horn bulls

and cows from his Cornwall, England, stock farm to the Alberta ranch. The purchase of the Shropshire grand champion was made by the Prince's representative, Prof. W. L. Carlyle of Calgary, who attended the Chicago Exposition in quest of the best Shropshire ram exhibited. This ram, which weighs 250 pounds, was exhibited by J. C. Andrews, West Point, Ind., a director of the International.

1923—A YEAR OF PROMISE
In extending best wishes for a Happy and Prosperous New Year to all, it is pleasing to note that there is a general feeling of optimism in the air regarding business prospects for the ensuing year.

Under the caption, "1923—A Year of Promise," the Canadian Finance Journal says: "The tide is turned, Canadians face 1923 ready to go forward once again on the march towards prosperity."

Sir Philip Lloyd-Greame, President of the Board of Trade, in a speech delivered in the British House of Commons recently, declared that from a mass of evidence he had in his possession, he was quite certain that trade is definitely reviving. "I say that with full sense of responsibility," added the speaker, "and I am absolutely certain that it is not confined to one branch of trade or another, but a general revival is being shown in many branches of industry and trade."

Of course, it does not mean that

Home Accidents

Seldom does a day pass without someone in your family happening an accident.

Housework means no end of bruises and knocks. Ironing time brings its burns, cooking often results in cuts, burns and scalds, while the children are "always in the wars." Consequently, every wise mother keeps a box of Zam-Buk close handy.

For the sprained ankle or wrist, the cut finger or bruised forehead, the burn or scald, antiseptic Zam-Buk is the safe ideal first-aid. Zam-Buk ends smarting pain and soreness almost instantly. It kills disease germs, cleanses the broken tissues, and grows fine new skin.

Zam-Buk is a pure highly-refined balm, of Nature's herbal oils and essences. Its timely use has averted many a festering hand, poisoned knee or crippled leg, common results of haphazard treatment with impure fatty ointments and salves.

There's no truer saying than that "Daily Mishaps Make Zam-Buk a Daily Need."

A DAILY NEED

Why Backs Ache

The Kidneys Seldom to Blame—The Trouble Due to Blood Impurities

There is more nonsense talked about backache than any other trouble. Some people have been frightened into the belief that every backache means deadly kidney trouble. As a matter of medical fact not one backache in twenty has anything to do with the kidneys. Most backaches come from sheer weakness and kidney drugs can't help that. You need something to improve your blood and build you up, and that is exactly what Dr. Williams' Pink Pills will do. Some backaches are really muscular rheumatism; some are the symptoms of such ailments as influenza, indigestion, constipation and liver troubles. In women most backaches come from any weakness or irregularity of the blood supply. To get rid of the trouble take a tonic like Dr. Williams' Pink Pills to enrich the blood and bring strength to aching back and weak nerves. Mr. W. V. Prince, Lovering, Ont., writes what these pills did for him. He says:—"Periodically I suffered for about five years with backache. If I caught cold it seemed to settle in my back, which pained me so badly that I could hardly turn in bed. These attacks would last for a week or ten days. I tried many remedies but they did not drive away the trouble. About two years ago, while suffering from one of these attacks a friend advised me to try Dr. Williams' Pink Pills. I followed his advice with the best of results, as I have had no attack of the trouble since, and I feel sure that I am permanently relieved."

You can get these pills through any dealer in medicine or by mail postpaid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

there will be no difficulties to encounter during the new year; but it does mean that there will be a fighting chance for all. But we must be ready for the fray. As an athlete trains for the contest, so must we train for the struggle in the business world.

May this Year of Promise unfold to all of us—the best yet!

CASE FOR EX-SERVICE MEN

The central provincial committee, in charge of preparing the case for ex-service men to be submitted to the Royal Commission on re-establishment and pensions, is composed of E. Allan Schofield as chairman, G. Charles Logan, secretary; C. B. Weldon, Moncton; Jude P. Bourgeois, Moncton; H. E. McLean, Chatham; Herbert Priestman, McAdam Junction; W. B. Manzer, Woodstock; John R. Gale, Dr. G. B. Peat and Dr. John A. McCarthy of St. John; and A. L. Barry, Newcastle. The secretary of the committee is sending out a questionnaire. Individual complaints will not be heard by the commission, but any suggestions tending to improve the lot of ex-service men will be gladly received. The appeal for these suggestions is made not only to returned men but to the public at large.

PREPARE FOR THE INCOME TAX MAN

Forms will soon be available at the post office for returns to the inspector of Taxation on estates, salaries of employees and on dividends of corporations. Forms are each day being sent out to the post offices throughout the district.

These three classes of returns must be filed not later than March 31 and the penalty for failure to file on time is \$50. The penalty was enforced last year against a considerable number of delinquents, the total exceeding that of the previous year.

Those liable under the act should keep in mind that the onus of getting the returns in rests on the taxpayer. The taxation office has, as a matter of courtesy, endeavored to

send out forms to those liable, but under the act, the taxpayer is required to get his forms at the post office or from the taxation office.

Forms for returns of individuals and corporations have not yet been received by the local office, but are expected soon.

CONDUCTOR NICKERSON AND ENGINEER FRASER, RETIRED

Among those who retired on the Provident Fund on December 1st last are Conductor Stephen G. Nickerson, formerly of Moncton, but who for the past five years has been residing at Dalhousie Junction, and Engineer William Fraser, of Campbellton.

Conductor Nickerson formerly resided on High street, and ran out of Moncton on the Accommodation north for a number of years, but for the past five years has been residing on the north shore and running on the branch train between Dalhousie Junction and Bathurst.

Engineer Wm. Fraser, of Campbellton, entered the service of the old I.C.R. at Campbellton about forty years ago. After being promoted to man the throttle he ran between Campbellton and Mont Joli on freight and specials, but for the past few years has guarded the throttle of the Ocean Limited between these points

BOSTON REQUEST TO GET SYMPATHETIC ATTENTION

Ottawa, Jan. 4—(Canadian Press)—Hon. George P. Graham, Minister of Defence, has not yet received the letter from Mayor Curley, of Boston, requesting the return of the cannon captured by the British from the Americans at the battle of Bunker Hill, and which is said to be in the Quebec citadel. It was understood, however, that the request would be given sympathetic attention when received.

EVERY RUTLAND BABY GETS A DOLLAR

Rutland, Vt., Dec. 28—The slogan "Catch 'em young" is being applied to thrift promotion in this city. The Clement National Bank directors have voted to give a bankbook with a deposit of one dollar credited to every baby born in Rutland after December 1st of this year. The plan will be in effect for a year.

Occupation Of Essen By French Force Is Planned

Paris, Jan. 8—The occupation of Essen by a small French force, accompanied by engineers and customs officers, is now slated for Thursday morning. It was stated on good authority to-day, Belgian and Italian engineers and technical experts will accompany the French, but only the Belgians, it is understood, will contribute to the force of occupation.

A Miniature Hotel Kitchen

The above interior view is one of the new steel dining cars which are the last word in up-to-date railway construction.

There is not in all Canada a housewife who would fail to be interested in the kitchen of one of the new up-to-the-minute steel dining cars that are every day moving to and fro across this country. The convenience of the modern flat is often ingeniously planned out in the railroad car almost anything in the way of food that his fancy may dictate and he expects it served in a perfect manner as in a first-class hotel. That is why the hotel kitchen will at once show how ingeniously this has been done, and with what regard for one hundred per cent efficiency and the most perfect cleanliness in ranges, refrigerators, and cooking utensils reflect the lights in their polished nickel surfaces, and ready to hand, in its well appointed place, is every thing in the way of an aid to cooking that the experienced chef may require.

What these miniature hotel kitchens can do may be gathered from the fact that in the course of a journey from Montreal to Vancouver 11 meals are served en route, and these to an average of 10 persons per meal. There are long stretches during this run when it is impossible to obtain supplies, so the superintendent must see to it that the ice-boxes and larders of each diner are stocked to satisfy the capricious appetites of the travellers it serves.

The importance of this branch of a big railroad may be gathered from the fact that the Canadian Pacific Railway has in daily use 150 dining, cafe and buffet cars, a larger number than operated by any other railroad in the world. The department also looks after the lunch coaches, and dining rooms scattered over its 19,000 miles of rail and to serve three and a half million meals that are yearly partaken of by travellers on this road, requires the effort of 1,500 stewards, cooks, waiters and other operatives. To serve this large number of meals requires the yearly consumption of the following quantities of supplies:

Table with 2 columns: Item and Quantity. Items include Fish, Beef, Ham and Bacon, Poultry, Butter, Coffee, Tea, Apples, Potatoes, Eggs, Oranges, Milk, Cream, Bread.

COURT NEWS

The Supreme Court, King's Bench Division Northumberland Circuit, opened on Tuesday morning at 11 a.m., Judge Chandler presiding.

In re Mary Gennish, an application under the Habeas Corpus Act. (It is interesting to note that this is the first application of this nature since the old Scott Act days.) McDade & Barry moved for the release on Habeas Corpus of Mary Gennish, an Indian woman at present confined in Newcastle Gaol. They argued that the imprisonment was not lawful and that the warrant of commitment was irregular.

The court considers the application.

action stands until Jan. 30th with a view to settlement. A. A. Davidson, K. C., for the plaintiff, McDade & Barry for the defendant.

The other cases on the non-jury docket were settled out of court.

VapoRub Salve is a Real Boon For Catarrh Sufferers

Melt a little Vicks' VapoRub in a spoon. Inhale the vapors. Then insert some in nostrils, snuffing it well back. You will be delighted to see how it clears the head.

Catarrh sufferers seem to think they have to endure it forever because they live in a "catarrh climate". The disease is hard to get rid of, but Vicks brings welcome relief and in many cases persistent use has wrought permanent benefit.

Vicks is a quick-acting treatment for all cold troubles—absorbed like a liniment and at the same time inhaled as a vapor.

Mrs. M. Stefano, of 645 Somerset St., Ottawa, Ont., says: "When I first heard of Vicks VapoRub I decided to try it, as I had a severe cold in my chest and catarrh in the nose. I had been bothered with catarrh for over a year and every time I got in the least draught it seemed to settle on my chest. I applied Vicks on my nose and chest and rubbed it well. In the morning there was a change. I applied it on my chest for three nights and on the fourth day my cold was better. I applied it on my nose for one week for the catarrh and the catarrh is all gone. I haven't had a cold this winter and the catarrh didn't come back. I highly recommend Vicks' VapoRub. At all drug stores 50c a jar. For a free test size package, write Vicks' Chemical Co., 344 St. Paul St., W. Montreal, P. Q.

Tho Vicks is new in Canada, it enjoys a remarkable sale. Over 17 million jars used yearly.

Healthy Children Always Sleep Well

The healthy child sleeps well and during its waking hours is never cross but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers, if your children do not sleep well; if they are cross and cry a great deal, give them Baby's Own Tablets and they will soon be well and happy again. The Tablets are a mild but thorough laxative which regulate the bowels, sweeten the stomach, banish constipation, colic and indigestion and promote healthful sleep. They are absolutely guaranteed free from opiates and may be given to the new-born baby with perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

GRANITE SHERRARD WORKS

FEW ARE NOW JOBLESS IN OLD FRANCE

Paris, Jan. 2.—Recent government reports indicate that France is the most fortunate country in Europe in the matter of employment. In the department of the Seine, which includes Paris, only 258 unemployed persons registered last week and the city is unable to pave streets because of lack of labor. The state, which is the biggest employer of labor reported 3,400 vacancies it was unable to fill.

Thousands of Central European refugees, including Germans, are now working in France through selective immigration laws. Among the Germans are many war prisoners who have returned.

WOMAN SUFFERED FOR MONTHS

Weak and Nervous. Made Well by Lydia E. Pinkham's Vegetable Compound

Webbwood, Ont.—"I was in a very weak and run-down nervous condition, always tired from the time I got up until I went to bed. Sleep did not rest me at all. My sister recommended Lydia E. Pinkham's Vegetable Compound to me and others told me about it, but it was from my sister's advice that I took it. It did not take long until I felt stronger, headaches left me and my appetite came back to me. I am a farmer's wife and have many things to do outside the house, such as milking, looking after the poultry, and other chores. I heartily recommend the Vegetable Compound to all who have the same trouble I had, for it is a fine medicine for women."—Mrs. LOUIS F. ELIASER, Hillcrest Farm, Webbwood, Ont.

Another Nervous Woman Finds Relief
Port Huron, Michigan.—"I suffered for two years with pains in my side, and if I worked very much I was nervous and just as tired in the morning as when I went to bed. I was sleepy all the day and didn't feel like doing anything, and was so nervous I would bite my finger nails. One of my friends told me about Lydia E. Pinkham's Vegetable Compound, and it helped me so much that I soon felt fine."—Mrs. CHARLES BEZLES, 501-14th St., Port Huron, Mich.

Women who suffer from any feminine ailment should try Lydia E. Pinkham's Vegetable Compound.

France To Proceed Without Britain

Paris, Jan. 4.—The reparation conferences broke up here shortly before seven o'clock this evening.

"It is an amicable rupture," said a member of the British delegation as he was leaving the conference.

"We are going home to-morrow. France goes ahead without us."

Mr. Bonar Law's statement which he gave "on behalf of the British Government and the British people", was as follows: "His Majesty's Government, after giving most earnest and careful consideration to the French proposals, have come to the conclusion that they cannot approve them and that, if carried out, they will not only fail to produce the desired result, but are likely to have grave and disastrous results on the economic life of Europe.

"His Majesty's Government at the same time desires to assure the Government of the French Republic that, while they regret extremely that there should be an irreconcilable difference of view on a subject so serious, the feeling of friendship on the part not only of the British people toward the government and people of France remains unchanged.

BEING TOO FUNNY

Oversupply of Humor Not a Thing to Be Desired.

According to Writer, if One Would Succeed in Life, Cultivate Bearing of Solemnity.

"Never make people laugh. If you would succeed in life you must be solemn, solemn as an ass." That advice to a young and ambitious member of parliament is quoted in Ralph Nevill's "Mayfair and Montmartre," Michael Daine writes in the continental edition of the London Mail. It is advice which every young man who wants to make himself a great figure in the world must take to heart, and act upon.

When I read that instruction I thought at once of a man whom I was privileged to know a few years ago. He was a member of parliament. Although few realized the fact, there were in the heart of him some flaming enthusiasms, some determinations to right wrongs, and to make for the following generations a better world than his own pampered youth had known. He had vision and—which is still more rare—he had the constructive mind. But he had shown himself to the world as a jester, and the world, which will never forgive a jester who turns from his jesting to serious affairs, compelled him to remain a jester to the end.

The world has so deep, so insatiable a need for laughter that it believes it cannot spare any of its clowns. It is compassed about with serious people, and it has a cranky belief that serious people are alone to be trusted with its serious work. But once a man has revealed his possession of a trace of the spirit of the clown it will not allow him thenceforward to appear as anything else.

You have only to look round the life of today to see how violently true this is. There is W. W. Jacobs. He began to write funny stories, and the world will take none but funny stories from him. In the "Monkey's Paw" he showed that he could equal if not surpass Edgar Allan Poe in grimly tragic writing, but the world does not want him to write yarns about fat sailormen and impossible villagers.

Then there is the case of the late R. G. Knowles. The world which wants to laugh knew him as an admirable music hall comedian. Only a few were aware that he was an explorer of note, and that he only went on the stage to earn money enough to finance the expeditions which earned him the fellowship of the Royal Geographical society.

If you are born that way the world will quite possibly pay you a lot of money for being funny. But it is perfectly certain that it will forbid you to follow any other trade than that of the clown, and will forbid you any enduring fame. Shakespeare is venerated for his tragedies, not for his comedies. Hogarth is honored as an artist and not as a humorist. John Sebastian Bach, funniest of all musicians, is praised mainly because in odd moments he wrote solemn music.

The funny man may earn money at the moment. He never earns anything else.

A Terrier Decorated.

A terrier named Peter, belonging to Rev. W. Adams of Liverpool, has been awarded the medal of the National Canine Defense League. While on holiday at Borrowdale in the lake district Peter was locked in a garage adjoining the hotel and started the guests by barking violently. Mrs. Adams went to soothe him, and in searching for the cause Mrs. Adams discovered that a young man named Arnold had fallen 50 feet down the hillside and was pinned by the rocks which had fallen with him. His leg was fractured and there were many severe wounds on his body. Mrs. Adams attended to the injured man until the arrival of the nearest doctor, who lived four miles away. Had Peter not given the alarm the young man would probably have died before he was discovered.—Manchester Guardian.

Use for Old Boot Soles.

Many devices have been suggested for the utilization of old army boot soles, the chief being concerned with fuel production. But a periodical, the Fertilizer, proposes to use them for stimulating the growth of beans and peas. The plan suggested is that of carbonizing part of the leather into lamp black and extracting sulphate of ammonia from the residue. It sounds rather like putting one's foot in one's mouth; but even that is a way of making both ends meet.—London Chronicle.

The Difference.

"Young Sam—Father, what is the difference between robbery and pillage?"
Father—Perhaps, I can explain it, my son, by saying that a dentist's bill is robbery, while a doctor's bill is absolute pillage.—Wayside Tales.

BATHURST WON FROM MONCTON BY SCORE OF 6-4

Making their second victory in two nights, the Bathurst hockey team members of the northern section of the N. B., and P.E.I. League defeated the Moncton sextette in the Sunny Brae rink Thursday evening by a 6-4 score. The game which was the third played by the Bathurst aggregation since the opening of the league and the initial appearance of the Moncton line-up since the league opened, was fast and interesting and some splendid exhibitions of stick handling were displayed by players of both teams.
In the first period of play LeBlanc managed to prevent the North Shore puck chasers from chalking up any tallies, and it was only during the last few minutes of this period that Milton of the Moncton aggregation succeeded in banging the rubber into the Bathurst nets. The period ended 1-0 in favor of the locals.
At the close of the second period each team had succeeded in tallying three goals and the period ended with the high number of tallies in Moncton's favor. Score 4-3.
In the final period, the Moncton boys seemed to lack the physical stamina and endurance to stand the pace and Bathurst chalked up three more goals to their credit while the Moncton boys were shut out entirely. The game ended 6-4 in favor of Bathurst.
Few penalties were handed out by Referee W. Watling, of Chatham, who handled the game in a very impartial manner.

Merchants Gain Concessions In Receipts Tax

**They Still Protest, However,
and Hope for Repeal
Eventually**

Several concessions have been obtained from the Federal government regarding receipt stamp tax which, became effective on Jan. 1 as the result of representations made by the merchants and manufacturers. The secretary of the Retail Merchants' Association in New Brunswick says that the stamp is not required in the case of cash register checks and sales slips used for counter sales. This means that cash sales in stores, where no formal receipt beyond the cash register slip or the sales slip is given are exempt from the stamp tax regulations. The secretary said that the merchants were pleased with the concession which they had secured, but that the association was hoping that in time it might secure the complete removal of the receipt stamp tax. As the regulation now stands an acknowledgement of the receipt of \$10 or over, whether that acknowledgement is by the person who receives the money or not, must have the two cent stamp affixed.
Fully 500 telegrams were sent from N.B. to Ottawa. The number had been larger than had been expected at first, and as elsewhere in the Dominion, the N.B. merchants were strongly opposed to the new regulations.

Pope Pius Plans Another Consistory

Rome, Jan. 2.—According to information in authoritative vatican circles, Pope Pius plans to hold another consistory in March at which new cardinals may be created. Of the seventy places in the Sacred College, five are still vacant.
Thirty-three of the present cardinals are Italians and the remainder nationals of foreign countries. There is much speculation as to whether new foreign cardinals would be created in view of the almost equal division at present.

Bathurst Company Bond Issue

It was announced recently that the Bathurst Company, Limited, a well known and important manufacturer of spruce lumber, sulphite and sulphate pulp, had decided to extend its present manufacturing facilities to include the annual production of 15,000 tons of newsprint paper, thus making the company the first producer of newsprint in the Maritime Provinces.

To finance construction of the newsprint mill \$1,500,000 of 6-2 per cent. First Mortgage, Convertible Sinking Fund Gold Bonds, Series "B" were sold to Royal Securities Corporation, Limited. It is understood that the greater portion of this issue has been placed privately by Royal Securities Corporation with investors in Canada and the United States.

The new issue of \$1,500,000 Series "B" bonds is the balance of a closed first mortgage of \$3,000,000 and ranks equally with the issue of \$1,500,000 Series "A" bonds, which was distributed in the United States about a year ago by Callaway, Fish & Co., of New York.
Properties securing the bonds, including timber lands, hydro-electric plant and other fixed assets, have an appraised value of \$9,250,000, plus over \$1,000,000 to be spent on the newsprint mill, against a total of \$3,000,000 of bonds outstanding.

The bonds are convertible at the holder's option into common shares. The \$9,774,000 of common stock now issued is held principally by directors and others closely connected with management of the company.

THE COMMUNITY THEATRE AT NARAMATA

The Little Theatre at Naramata

THE British people are theatre-loving folk, and have to their credit traditions of the theatre that are greater, and of more world-wide importance than any other country. Therein, no doubt, lies the reason why Canadians today take so much interest in theatricals, and particularly those of the amateur variety. Being a small population lying alongside a great one, it is but natural that Canada's professional stage should be entirely dominated by that of the United States, but it is greatly to Canada's credit that there has come into being an important theatrical movement in this country which is distinct from that of the regular professional stage. Under existing conditions it is only thus that there can be developed a Canadian stage with a literature of its own. Montreal has its group of Community Players, Toronto has its Hart House Theatre, and Winnipeg, Vancouver and Victoria, as well as many other Canadian cities, have their theatrical organizations, all of which are doing an excellent work, but none of them are more worthy of note than the little theatre which has been established in the beautiful village of Naramata in the Okanagan Valley, B.C.

It was built by Carroll Aikins on his small fruit ranch. For years he and Mrs. Aikins had been interested in the theatre. One of his own plays was produced three years ago in Birmingham, and it was because there was no native theatre where Canadian plays could be tried out that the little theatre of Naramata came to be built.
The neighbourhood of Naramata had actors enough. Mr. and Mrs. Carroll Aikins were of the sort that could make actors out of anybody who had a love for that sort of thing—but the theatre was another matter. It had to be built, but before that it had to be designed and, not knowing so much about what regular theatres had in their minds about what he thought they should have, Mr. Aikins was able to evolve a community theatre that in completeness of equipment and simplicity of arrangement does not suffer in comparison with any theatre of the kind on the continent, but which presents many novel and interesting features. The theatre is built in the spacious upstairs of the fruit ranch packing house. The stage is on the floor level, and the benches rise gradually on shallow steps, but it is in its stage that the theatre is most remarkable. The back wall is a huge plastered dome with a specially prepared surface on which a splendid array of variously colored lights can create any effect desired. There is no space to describe the scenic effects, all of which were designed and built by Mr. Aikins and his assistants. It is enough to say they were simplicity itself and amazingly successful.
The actors are the fruit pickers of the neighbourhood, reinforced by a number of enthusiasts from various parts of Canada who have gone to Naramata to study stage-craft. It is Mr. Aikins' hope that this number will grow, and that his splendid little theatre will have an opportunity of giving a first production of new Canadian plays by Canadian authors. Naramata has already become the most important place in the country, and will continue to make its name worth the living in beautiful Naramata.

MORE ZERO WEATHER
Newcastle experienced zero weather during the week end. Saturday night the temperature was twenty two below zero and Sunday night it was twenty below. As usual some thermometers showed readings much lower than these. On Monday morning, light snow fell, with rising temperature and at night a regular old fashioned snowstorm blizzard set in.

WILL PLAY SCOTSMEN
Newcastle's rink to play the Scottish Curlers this week at St. John, on the occasion of their visit to N. B., has been completed. John Russell, President of the local club will skip the rink. The other members are: R. C. Clark, A. H. Mackay, and R. W. Crocker. They left yesterday on the local and will play a friendly match this afternoon.

NO MORE PUNCH BOARD
No more punch board, picnic wheel of fortune, or pitch and toss—The Retail Merchants' Association has been taking steps to draw the attention of all persons promoting various affairs to raise moneys for charitable and other purposes to an amendment to the criminal code passed at the last session of parliament and which went into effect a few weeks ago. It is to the effect that all games of chance, such as the punch board, wheels of fortune, gussing contests, etc., are illegal and any one convicted of operating them is liable to two years' imprisonment and a fine of \$2,000.

WEEK OF PRAYER
This week the churches here are observing the "Week of Prayer." Suitable services will be held in the different churches and addresses in keeping with the spirit of the week will be given by the speakers. The topic will be "The Lord's Prayer," the various petitions to be taken one each night. On Monday evening the meeting will be held in the Baptist Church, on Tuesday in the Presbyterian, Wednesday, in the Methodist, Thursday in the Baptist and Friday in the Presbyterian. The co-operation of all people is earnestly requested to make the week of prayer a successful one.
