TOWN TOPICS.

"A chieftain's warning, ye takin' notes, As' faith he'll prevent it."

A GOOD PRESENT.—The most useful gift you can make is to give a Wirt Pen. Apply to D. McGillicuddy, agent, Goderich.

Whether there is a carnival or not in Goderich, George Stewart intends to manipulate his large camera for all it is worth on outside views.

Everything, yet everything that can be turned out in a first-class photo studio can be done at R. R. Saloway's, and picture framing can be done equal to the best and at lowest rates.

Merchants can print their Bill Heads, Letter Heads, etc., etc., at this office for very little more than they generally pay for the paper, and it helps to advertise their business. Call and see samples and get prices.

He looked like a dude, And was wearing a little man's suit, And he got his suit at Fridman's store, And when they were out he went for more.

A beautiful design! All parties wishing to purchase a piano are requested to call and examine the magnificent grand piano recently brought into Goderich, which was made by Messrs. Hill & Co., Guelph, Ont. It is finished in a beautiful lacquer and blistered walnut, with patent soft stool. Don't fail to see it Saturday of this week at W. W. Thomson's music store.

Now that the warm weather is to hand it will pay all those who have vegetable gardens and lawns to call at Saunders & Son's and see their stock of garden hose, reels, etc. As the growing season is now upon us, the housewives of the neighborhood will do well to examine our preserving kettles which have been well thought out and will be sold at the cheapest house on the sun.

BRIEFLETS.

Mr. Allan Seager was in town on Tuesday.

Mr. A. Murdoch, of Hensall, spent the last in town.

Mr. Percy Walton, of London, spent July 1st in town.

Patrick Lynn, of THE SIGNAL staff, spent the 1st in London.

J. S. Wyatt, of Brantford, is visiting friends in town this week.

Mr. and Mrs. Jas. Louih, of Wingham, spent Dominion Day in town.

Mr. John Craigie left on Wednesday on an extended trip up the lakes.

Miss Bruce has returned home after a visit to Stratford and other points.

Messrs. Chas. Lee, Ed and Chas. Garrow have returned from Woodstock College.

Mr. Thos. Deans, of Wingham, was among the last of July visitors to Goderich.

Why patronize an outside piano-tuner when you can get guaranteed work done by our own man, Mr. E. Hodgkiss. See advt. in another column.

Miss Annie A. Green left on Friday by the Lora for Cleveland, where she intends spending the summer with her father, Capt. J. W. Green for the benefit of her health.

TEMPERANCE.—The Young Woman's Christian Temperance Union will hold their regular monthly meeting on Monday, July 7th, at 8 o'clock sharp, at the house of Mrs. R. Henderson.

Mr. Wm. McLennan and daughter, of Denver, Col., is visiting at the residence of Mr. Wm. Sharman, sr. Mr. McLennan is an old-time SIGNAL hand, and has many acquaintances in Goderich.

We are pleased to note the fact that Mr. A. Milton Humber, son of our townman, Mr. C. A. Humber, who has been attending the University of Michigan for some time past, has graduated an M. D.

Mr. W. S. Webster, of Galt, who was in the employ of G. N. Davis, of this town, for some five years, is visiting friends in town. He thinks Goderich has improved greatly since his removal five years ago.

A lawn social and strawberry festival at the residence of W. Bawden, Esq., this (Friday) afternoon and evening. Preparations are made for a grand time and all are invited. Its promoters are resolved to make the gathering one of great pleasure. Go if you possibly can!

AFTER TWENTY-FIVE YEARS.—Robt. Whitley, a former resident of Goderich, who has been residing in Chicago for the past twenty-five years, is visiting the scenes of his youth, the guest of Mr. A. Smith, South-street. He has been an employe of Benj. Allen & Co. nearly all that time.

His RIGHT.—A gentleman who has resided in one of the Southwestern States for over a quarter of a century, and has been taking in the beauties of Goderich during the week, stated to THE SIGNAL the other day that "Goderich is the prettiest place between here and the Rocky Mountains." And having travelled extensively in both the United States and Canada, he knows whereof he speaks.

SERVICES AT VICTORIA-ST. CHURCH.—In Victoria-street Methodist church next Sunday Rev. B. L. Hutton will preach three times—in the morning at the usual hour; at three p.m., preach the anniversary sermon to the Orange Association of the town and vicinity, and in the evening hold a patriotic service, delivering a Dominion Day discourse—subject: "Our Rich and Prosperous Heritage." Not a bad day's work of the "The Spider and the Fly," was much appreciated, as were also the renditions on the guitar. The other ladies and gentlemen who took part were well up to expectations. Several recitations and dialogues were rendered by the young people of the church, and a band was also a pleasing feature of the evening. Mr. J. E. Tom occupied the chair in a very able manner, and gave the boys some good advice, and also complimented Mr. Stewart for the efforts he was putting forth to make the corps a successful organization.

ON TUESDAY.—The entertainment held under the auspices of the Cadet Templars of Temperance last Friday evening was very successful. Mr. Young, of Belleville, was unable to be present, but his place on the program was ably filled by Mrs. Wilkins and Mrs. Van der Werf. The solo by the former lady, "The Spider and the Fly," was very much appreciated, as were also the renditions on the guitar. The other ladies and gentlemen who took part were well up to expectations. Mr. Geo. Shannon, of Memphis is spending his vacation under the parental roof.

The promotion examinations of the Separate school, were held during the past week. The names of those who passed will appear in our next issue.

PASSED AT THE NORMAL.—Herb. Robertson, of our town, we are pleased to learn, succeeded in passing the Normal school exam. at Ottawa recently, taking a good place. Goderich boys always go to the front when in competition with outsiders.

THE YOUNG PEOPLE'S SOCIETY OF NORTH ST. METHODIST CHURCH will hold a strawberry and ice-cream festival on Tuesday evening next, July 8; admission 10c. An orchestra is expected to furnish music on the occasion.

A GENEROUS HEART.—Rev. James Carrie, of Duncannon, pastor of Port Albert Episcopal Church, purchased of Geo. W. Thomson (local agent) one of the Goderich Organ Co's Cathedral case-organ and donated the same to the above congregation. Generous acts of this kind speak louder than words.

JOE CHAM.—The Salvation Army will hold an ice cream festival in the barracks, North Street on Friday evening, July 11. Refreshments served from 5:30 to 7:30. A great singing blizzard will be a feature of the evening. A number of officers and soldiers from outside points will be present.

MEMORIAL SERVICE.—Last Sunday evening the pastor of North-st. Methodist church preached a very impressive sermon from II. Tim. iv.: 6, 7, 8, the occasion being a memorial service commemorative of the deaths of Mrs. A. B. Davidson, George Harvey and Richard Bridget. The church was well filled and the choir rendered some excellent music appropriate to the occasion.

PRESENTATION TO MR. CURRIE.—At the High School, last Friday afternoon, at the close of the work of the term, Mr. P. Currie was presented by his pupils in the junior division with an address expressing their appreciation of his career and attention to their studies. The address was accompanied by two handsomely bound volumes of poems. Mr. Currie intends to take a first year's course at Toronto University, with a view to securing a certificate as a specialist in science.

The solo by the former lady, "The Spider and the Fly," was very much appreciated, as were also the renditions on the guitar. The other ladies and gentlemen who took part were well up to expectations. Several recitations and dialogues were rendered by the young people of the church, and a band was also a pleasing feature of the evening. Mr. J. E. Tom occupied the chair in a very able manner, and gave the boys some good advice, and also complimented Mr. Stewart for the efforts he was putting forth to make the corps a successful organization.

ON TUESDAY.—The entertainment held under the auspices of the Cadet Templars of Temperance last Friday evening was very successful. Mr. Young, of Belleville, was unable to be present, but his place on the program was ably filled by Mrs. Wilkins and Mrs. Van der Werf. The solo by the former lady, "The Spider and the Fly," was very much appreciated, as were also the renditions on the guitar. The other ladies and gentlemen who took part were well up to expectations. This is the time of year when all who can afford to do so throw the cares of business to the bowwows and go in for relaxation at the seaside summer resort or the quiet rural retreat. But it happens unfortunately that most of us can't spare time to go even to the rural retreat.

A GOOD SAMARITAN.—Mrs. McWhinney, of Bruce township, about one year afflicted with paralysis, cured by McLeod's System Renovator and Eusphemia A. McLennan's Liniment, visited an acquaintance, last Sunday week, who was similarly afflicted for over two years. Mr. Solomon Russell was so elated that he, accompanied by his son, left home about midnight, arriving in Goderich the following evening. Highly pleased with the substantial fare and the extreme kindness extended to him by the Colborne Home proprietors, returned home next day in good shape, with his supply of the above named medicines. Moral: Go thou and do likewise.

OBITUARY.—Richard Bridget, a bright, intelligent young Goderich man, died in Bay City, on Thursday, June 26th, after an illness of nearly three weeks. On the 7th of June he was first seized of his illness, and after being laid up about two weeks showed signs of improvement, and hopes were entertained of his speedy recovery. In fact so satisfactory were his indications that he wrote to his mother that he was on the road, and would shortly resume work, and that she need experience no anxiety on his behalf. On Tuesday, June 25th, however, he was seized with alarming symptoms, which quickly developed into peritonitis, and at once his relatives were telegraphed for. His brother Henry, who was in Goderich, started for Bay City, and John, the elder brother, proceeded from his present residence, Marquette, to be at the bedside of their dying brother, but before they reached Bay City his spare time fled. "Dick," as he was familiarly called, was a sterling young man, and his equal for integrity would be hard to find. He devoted his time to the printing business in the office of THE SIGNAL, and was an expert and conscientious workman. With an intelligence above the average, there was no position in his chosen calling that he would not in time have filled had his life been spared. His funeral took place from the residence of his parents, Newgate St., on Sunday last, and was largely attended.

How Abner Earned His Schooling.

"Abner." "Yes, ma'am," replied the boy, glancing up from his book. "Did you come hard on you to have to give up your school?" "No, I s'pose," said Mr. Skinner, looking anxiously at the thin, pale face of her son to note the effect of her question. "Why do you ask, mother? I must I?" "It was Abner's question, after a slight hesitation, during which the mother's keen eyes saw the look of disappointment that passed over his face. "Well, son, your father's afraid—he don't just see—"

"I know, mother," interrupted Abner, quietly, but with a tinge of bitterness in his tone; "the doesn't see how education is going to pay." "You've had more schoolin' than times over than ever I had," said the father; "you came in just at this moment, 'an' what good has it done ye? I don't say education's no good, but what good has it done ye? You're sixteen years old, 'an' you know more Latin as the teacher, your mother tells me. Well, 'an' good. Can ye get any kind of a livin' by it?"

"Not yet," replied Abner, seeing that his father waited for some reply from him; "but I can by-and-by." "Ay, by-and-by! 'An' the bread and butter meanwhile?" "To Abner the short laugh with which his father ended his words contained a reproach, and he had great difficulty in restraining from a sharp retort. He controlled himself, however, and in a few minutes went out, brooding over his wrong, real or fancied.

Had Abner not known it, there was nothing reproachful in the laugh that greeted so harshly on his ears. No; that short laugh expressed only some of the bitterness which filled the soul of a man who at the close of the fishing season saw himself no better off than at the beginning, and all because of the slowness of his boat—a defect which all his skill as a sailor and all his energy and hard work as a man could not remedy.

And so it had been season after season, and so it would probably be for seasons to come. He could not make a living without his boat, and he could barely do so with it. Had Abner been able to help him, he would have needed one man less on board, and that man's share would have been saved. It was natural enough that he should feel so when he saw his son, unlike other fishermen's sons, spending instead of earning.

True, it was not much that Abner spent, and so the boy said to himself as he walked moodily along the street. But much and little are terms which have different value. What is little to one who has much is more to one who has not. So it was that in the struggle to make ends meet the few dollars necessary for Abner's books and Abner's food seemed to his father a large sum.

Abner, however, in his angry mood did not recognize anything but the disappointment which threatened him, and he took his way to his friend, the schoolmaster, full of the sense of his father's injustice. "But, Abner," said the schoolmaster, kindly, after he had listened to his young friend's story; "it seems to me that your father is right."

A NIGHT ADVENTURE.

"During the year 1869 I was employed by the Bank of Raybury to exchange money between it and the Bank of Mutual Redemption with which they did business in the city. It was not a very interesting employment and gave me but a small salary, but just then times were dull and work scarce, so I was glad to get anything to do, especially as I had an aged mother depending upon me for support."

One dark, drizzly November night—nearly all November nights are dark—the stage from Raybury broke down about fifteen miles from its destination. Of course the accident happened in just the worst part of the road, where it was next to impossible to get a carriage of any kind, and where the only place of entertainment was a rude log-house, dignified by the name of the Jefferson Inn.

Mr. Griggs, the landlord of the tavern, was soon on the spot, and gave it as his opinion that the passengers had better go to his house for the night, but, as some half dozen of them were determined to go on, there was no alternative but to get out an old express wagon which was stacked away in a remote shed, and dispatch them on their way. The stage horses were made available, and the passengers piled in with selfish haste and long before I could get my valise out of the ruins of the stage and reach the wagon, it had rumbled off, and left me, with half a dozen more, behind.

It was absolutely necessary that I should be in Raybury that night, else I should cause serious inconvenience at the bank the next morning. And as I had been so often congratulated on my promptitude in my business, I felt loath to be behindhand now. I spoke to Mr. Griggs about it, and asked if it were not possible for him to let me have a horse for Raybury. I would pay him liberally, and return the animal in good condition the next day. But he only shook his head. He had only one horse in his stable, he said, and Mrs. Griggs was subject to dreadful spells of the colic, and might be taken at any hour, and he made it a rule of his life never to let Mr. Griggs go out of the stable for fear Mrs. Griggs might be seized and die before the doctor could be brought.

Under the circumstances, of course I could not urge my request for the use of Digby, and there was no chance for me to get to Raybury until the 11 o'clock stage next day, unless I footed it, and that I should not have to put up with such accommodations as my horse offered. I shouldn't wonder if Sally—that's my daughter, miss—will let you have half her bed, seeing as you've been unfortunate."

"I must go on," he said, earnestly. "I have been some months from home, and I have been summoned thither by the illness of my father. Indeed, sir, I cannot delay here, for the despatch said my father was dying."

There were tears in her voice, but it was too dark to see whether they dimmed her eyes. "It's too bad," said Griggs; "but I couldn't let Digby go on any account; because, you see, if Mrs. Griggs should be taken, she'd die afore we could get Dr. Lumston here on foot. You see, when she has these spells she's awful! Hello! What's coming now?"

A close carriage drawn by two dark horses had come up and halted by the side of the overturned coach. It was just light enough to show me that there were two men in the carriage, and that they wore caps with the visors well down and a chilly, raw evening, and one needed to be muffled. "What's the difficulty?" asked one of the men in a hoarse voice. "Stage upset," said the landlord; "stage broke, and everything gone to thunder."

What to Sing. It was at a kind soiree, and the next anthem the choir had to sing was entitled God be Merciful. The chairman, a good and worthy if somewhat solemn minister, was not a man of many words, and was likewise not endowed with any superfluous musical gifts. In somewhat apologetic tones, therefore, he made the following startling announcement to his audience: "The choir will now favor us—God be merciful."

EVICTING A GHOST.

Almost every town or village has its haunted house, and the settlement of Wanda, in India, was no exception. Here a number of English officers and their families lived during the warmer months. The rumor that Captain Besselcamp's house was haunted by a ghost was circulated by a servant. He was awakened one night by a most extraordinary noise. The door-bell was ringing violently, and a struggling, writhing noise in the wall of the house—not in one place, but in several at once, and then he heard a long-drawn sigh. This was the last feast. He rushed to his employer's room, and aroused him, vowing that the place was haunted. The notoriety so cheaply earned exceedingly became disagreeable. Matters stood in this shape for some days, when one morning a party of jugglers reached the haunted house. At three o'clock they began their performance, and there were a number of children in the room, the performers were invited into the grounds and gave an entertainment. Finally, one of the men took out a small oval basket having an orifice in the top, and seating himself near it, began to play a quaint air upon a flute. After a few moments playing for a few moments, up through the hole in the basket came the head of a cobra, and when twelve or fifteen inches above the basket it began to wave to and fro, as if in obedience to the measure of the music. After the snake danced—or the snake-dance—between the two snakes were wont to call it—the Indian snake-charmer walked around the house, and among the bushes pointed out a hole which might have been made by a rabbit. To one of the natives he said he would take out a cobra which he thought was in the hole. Seating himself before the hole the musician began his mournful plaint. For fifteen minutes he kept up the noise, and then from the opening there appeared the ugly, hooded head of a cobra. Another hole was soon found, this being directly at the base of the wall of the house. The man examined a few moments carefully the hole, and then he played upon the flute. Hardly had the group gathered about the performer before a most remarkable noise came from the house. First, there was a sound as of escaping steam; then a sound of some great body striking the wall and rubbing against the timbers, and in a few moments the hole, and the charmer started back in terror, overturning the man behind him. Recovering himself, he darted at the hole and, thrusting his arm in, drew out, not a cobra, but the tail of a larger snake. Astonishment was depicted on the faces of the on-lookers, and in a few moments the horror on those of many of the spectators, as he stood holding the tip of the tail, and five feet of the body was visible. For a second the man hesitated, then, regaining his courage, he shouted in Hindoostanee for the lookers-on to stand back, and, raising a good grip upon the tail, he pulled rapidly toward him, and it came, foot by foot, inch by inch, five ten, fifteen, sixteen feet—eighteen, was there no end?—eighteen feet of quivering snake-flesh as large as a man's thigh! A quick jerk and the entire monster was girdled at least a yard from the hole, and he lay upon his back, yet held by a single man. His body was, however, not in the least discouraged. He clung to the tail, and as the huge reptile turned toward him with an angry hiss he gave it a swinging motion by turning slowly. Gradually he increased his speed, turning faster and faster, until he seemed to whirl like a wheel, the apices of which were the tip of the python. So rapid was the motion that the snake's body was perfectly straight, and it was evident that as long as the motion could be kept up the man was safe, but if the monster could reach him he would in a moment be crushed in the horrible folds of the reptile. It soon became apparent that the charmer knew what he was about. Not far from the house stood a stout flag-staff a foot and a half higher, and the monster was whirling the top of the staff over his head, and as he was within twenty feet of it, it dived upon the few spectators what he was about to do. This was to strike the head of the reptile against the pole. Nearer he came, whirling faster and faster, until the reptile stood quick step forward, and then, with a crushing sound, he brought the head of the animal against the wood with a crashing sound. He released his head, and the great reptile doubled up in convulsive folds, digging up the earth and sending clouds of dust into the air, finally dropping limp and lifeless. One thing was evident, there was the ghost. —Philadelphia Times.

It soon became apparent that the charmer knew what he was about. Not far from the house stood a stout flag-staff a foot and a half higher, and the monster was whirling the top of the staff over his head, and as he was within twenty feet of it, it dived upon the few spectators what he was about to do. This was to strike the head of the reptile against the pole. Nearer he came, whirling faster and faster, until the reptile stood quick step forward, and then, with a crushing sound, he brought the head of the animal against the wood with a crushing sound. He released his head, and the great reptile doubled up in convulsive folds, digging up the earth and sending clouds of dust into the air, finally dropping limp and lifeless. One thing was evident, there was the ghost. —Philadelphia Times.

Almost every town or village has its haunted house, and the settlement of Wanda, in India, was no exception. Here a number of English officers and their families lived during the warmer months. The rumor that Captain Besselcamp's house was haunted by a ghost was circulated by a servant. He was awakened one night by a most extraordinary noise. The door-bell was ringing violently, and a struggling, writhing noise in the wall of the house—not in one place, but in several at once, and then he heard a long-drawn sigh. This was the last feast. He rushed to his employer's room, and aroused him, vowing that the place was haunted. The notoriety so cheaply earned exceedingly became disagreeable. Matters stood in this shape for some days, when one morning a party of jugglers reached the haunted house. At three o'clock they began their performance, and there were a number of children in the room, the performers were invited into the grounds and gave an entertainment. Finally, one of the men took out a small oval basket having an orifice in the top, and seating himself near it, began to play a quaint air upon a flute. After a few moments playing for a few moments, up through the hole in the basket came the head of a cobra, and when twelve or fifteen inches above the basket it began to wave to and fro, as if in obedience to the measure of the music. After the snake danced—or the snake-dance—between the two snakes were wont to call it—the Indian snake-charmer walked around the house, and among the bushes pointed out a hole which might have been made by a rabbit. To one of the natives he said he would take out a cobra which he thought was in the hole. Seating himself before the hole the musician began his mournful plaint. For fifteen minutes he kept up the noise, and then from the opening there appeared the ugly, hooded head of a cobra. Another hole was soon found, this being directly at the base of the wall of the house. The man examined a few moments carefully the hole, and then he played upon the flute. Hardly had the group gathered about the performer before a most remarkable noise came from the house. First, there was a sound as of escaping steam; then a sound of some great body striking the wall and rubbing against the timbers, and in a few moments the hole, and the charmer started back in terror, overturning the man behind him. Recovering himself, he darted at the hole and, thrusting his arm in, drew out, not a cobra, but the tail of a larger snake. Astonishment was depicted on the faces of the on-lookers, and in a few moments the horror on those of many of the spectators, as he stood holding the tip of the tail, and five feet of the body was visible. For a second the man hesitated, then, regaining his courage, he shouted in Hindoostanee for the lookers-on to stand back, and, raising a good grip upon the tail, he pulled rapidly toward him, and it came, foot by foot, inch by inch, five ten, fifteen, sixteen feet—eighteen, was there no end?—eighteen feet of quivering snake-flesh as large as a man's thigh! A quick jerk and the entire monster was girdled at least a yard from the hole, and he lay upon his back, yet held by a single man. His body was, however, not in the least discouraged. He clung to the tail, and as the huge reptile turned toward him with an angry hiss he gave it a swinging motion by turning slowly. Gradually he increased his speed, turning faster and faster, until he seemed to whirl like a wheel, the apices of which were the tip of the python. So rapid was the motion that the snake's body was perfectly straight, and it was evident that as long as the motion could be kept up the man was safe, but if the monster could reach him he would in a moment be crushed in the horrible folds of the reptile. It soon became apparent that the charmer knew what he was about. DIAZ IN DANGER.

MEXICO REPORTED TO BE ON THE VERGE OF A REVOLT.

United States Troops Sent to the Border. The Agitators Said to Be Merely a Gang of Bandits—Some Unpopular Legislation.

LAREDO, TEX., June 25.—There seems to be no reasonable doubt that the Mexican Government fears some kind of an uprising, and there are various sensational rumors afloat in connection therewith, but none of them can be traced to a source sufficiently authentic to warrant refutation.

The enemies of Diaz say that the law recently passed by the Mexican congress making it possible at the next election to elect Diaz for life, will result in his assassination and a revolution.

Mr. Fenell, who is an old and careful engineer, said: "This is the most peculiar and painful accident that I ever saw or heard of. The first intimation I had of the presence of the poor girl was just a few (about six, I should say) feet before we got to the culvert."

KILLED IN A CATTLE-GUARD.

The Tragic End of Lizzie Fraser in Oro Township—A Peculiar Accident.

TORONTO, June 25.—The mail train over the Northern division of the Grand Trunk, due at Union Station at 8.10 last evening from the north, was delayed for about three-quarters of an hour on account of a very peculiar accident.

The train was skimming along at her usual rate of speed between Gowan and Barrington, in the Shanty Bay vicinity, and just in rear of Col. O'Brien's (M.P.) farm in the township of Oro. It was about 5 o'clock.

The accident happened at a sideline, and the train ran several lengths beyond before she was brought to a standstill.

The train had been dispatched in various directions, and several farmers were notified of the horror. About 300 yards up the sideline stood a white cottage. It was here the poor girl lived with her grandfather and grandmother, Mr. and Mrs. James Fraser.

THE M'KINLEY BILL.

ONE REASON FOR SECRETARY BLAINE'S OPPOSITION.

European Powers Accept the Measure as a Declaration of Commercial War.

New York, June 30.—The Herald's Washington special says: One week ago a desperate attempt was made by some of Mr. Blaine's alleged friends to break the force of what the Secretary of State had said about the McKinley Tariff Bill.

Months ago Mr. Blaine intended to speak about what he feared would be the drift of the tariff policy in Congress. He took the quieter course of endeavoring by confidential intercourse with gentlemen of the Ways and Means Committee and others to engrave upon the general tariff bill a special provision for substantial free trade with Latin-America through the agency of reciprocity.

It is not alone the pending Tariff bill that has aroused this feeling, but the general commercial policy of the party now in power in Washington. The Customs Administration bill came first, pretending to be a measure to simplify the business of transportation and to suppress the evils of undervaluation, but really meant to obstruct importation and to raise rates of duty by indirect means.

MURDERED BY A MANIAC.

A MADMAN'S TERRIBLE WORK NEAR GRAVENHURST.

Charles Robinson Killed by William Brown—The Victim Beaten Over the Head With a Gun—The Murderer in Jail—An Inquest Begun.

GRAVENHURST, July 2.—William Brown, a insane person, strayed from DeLauriers Mills on Wednesday morning. Monday morning and had not been heard of till yesterday afternoon, when he turned up in a field owned by Thomas Robinson, a farmer in the township of Morrison, four miles from this town.

The maniac seized an old gun and with the stock felled Robinson to the floor. After breaking the gun over the murdered man's head he cut some fearful gashes in his victim's side.

Chief Constable Sloan of Gravenhurst was summoned, and the murderer was found lying concealed in the grass still naked.

THE CIGAR SEIZURES.

Mr. Muller Has an Extended Conference with Minister Howell.

OTTAWA, July 2.—Mr. C. W. Muller, a traveler for Goldstein & Co. of Montreal, arrived in this city this morning from Toronto. Mr. Muller had a lengthy conference with Minister Howell and Commissioner Johnson of the Customs Department in connection with the recent seizure of cigars in Toronto and St. Catharines.

It is an illegal act to place these domestic cigars in imported boxes, but the thing is done almost every day all over the Dominion. It is said that Mr. Muller's interview with Mr. Howell will greatly aid the department in the investigation which they are now making in connection with the Toronto seizure.

WASHINGTON, July 2.—Representative Keckham having received the necessary information from the Postoffice Department reported favorably today from the committee on Postoffice and postroads the bill limiting the hours of labor to eight hours for clerks in first and second class Postoffices.

FARM AND GARDEN.

Peach Curl. The Saline Observer says: A large percentage of the peach trees in this vicinity are afflicted with what is termed "leaf curl," the leaves curling and wrinkling up and in some cases ruining the young fruit.

Thinning Fruit. As a general or approximate rule, large peaches should be four or five inches apart on the bearing branches, and small or early ones three or four inches; peaches should be at quite as great distances, with more variation for differences in size.

Consumption Surely Cured. To the Editor:—Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured.

Counting the Jewels. The king of one of the Asiatic countries—so reports a recent writer—causes all the royal jewels to be displayed before him twice a year, that he may handle them, count them and gloat over their splendor.

A certain portion of them belong, as is the case in most monarchies, not to the king personally, but to the crown. He cannot sell them, nor give them away, a fact which may be supposed to lessen materially his enjoyment in handling them.

A Southern woman who died lately, at a great age, and who had carried to the last days of her life a happy heart and a singularly gay temper, thus explained the mystery of her untiring cheerfulness.

"I was taught by my mother when a child to reckon each morning, before I arose, the blessings which God had given me with which to begin the day. I was not simply to say:

When all the mercies, O my God, My rising soul surveys, Transported with the view, I'm lost in wonder, love and praise,

but I was to count the mercies one by one, from the neat and serviceable shoes that covered my cold feet to the sunlight shining on the hill-top.

"We have all a store of richer jewels than the heathen kings; and, unlike the crown regalia, these jewels are our own, given to us by our Father.

How many of us mutter over, as the day begins, some perfunctory words of thanks which mean nothing? How many number their mercies, tasting the delight and joy of each, and out of glad hearts thanking the Giver?

"And how many quite forget to think either of them or of Him?"

A Canadian Favorite. The season of green fruits and summer drinks is the time when the worst forms of cholera morbus, diarrhoea, and bowel complaints prevail.

Minard's Liniment Cures Garget in Cows. Hadn't Discovered It. Wickwire—There is a great difference in women. Yabley—Mebbe there is, but so far I have met with indifference.—Turro Haute Express.

Absent-Minded. While the learned professor was writing his great work he was so absorbed that for eight days he salted his soup with the sand from his writing-desk and never knew it.—Fliegende Blatter.

Minard's Liniment cures Distemper. A lie is troublesome and sets a man's attention on the rack, and one trick needs a great many more to make it good. The secret of success in life is to keep busy. The busy ones may now and then make mistakes, but it is better to risk those than to be idle and inactive.

There are plain colors for a won likes stuffs that are not costly. There are spots big and little, plain and straight, and stripes of all wide kinds. Be a little careful in your color, and remember, that somebody tells you how well you can do in navy blue you may conclude that every blue shade is to you, for that extremely trying very beautiful, one known makes the average woman's complexion as yellow as a lemon.

Let makes your hair look wavy gives a deeper color to your eye, not follow that magenta is suited General! Do not be misled by advertisements. Are nothing if not in Somebody says that small bonnets are universally becoming, and you face is rather broad, whose nose is prominent, put one on and look well. A bonnet more than anything else, needs to be tried. Try one that one may generalize and sets are ladylike it can no more be said that bonnets are always in fashion. So just think out things for yourself.—Mrs Mallon, Home Journal.

THE HOME CIRCLE

What Boys Should Learn There are a great many things that boys should learn. They learn these lessons so well they forget them during life, and prove of inestimable help to them times when they need help.

Among other things that a boy should learn is to be kind and helpful to others as they expect their sister them.

To make their friends at home. To take pride in being a gentleman. To take their mothers into confidence if they do anything above all never lie about anything.

To make up their minds not to smoke, chew or drink, realizing that these things cannot be learned, and that they are drawbacks to young men, and are bad ones.

A Cup of Good Tea. An experienced firm of tea Manchester have been giving to the housewives of this important but not well understood of making a cup of tea that goes as a rule, a simple thing of the millions who use this and agreeable beverage a very plain and simple one.

But it not properly made, tea of a great deal of its value is rendered absolutely worthless. It should be made in a simple manner, and poured on the tea must be allowed to overboil in properly of boiling water when the tea evaporates and event pears. Tea should not be brewed as an infusion. It should be brewed as a tea.

It should be brewed as a tea. It should be brewed as a tea. It should be brewed as a tea. It should be brewed as a tea. It should be brewed as a tea.

DUNLOP.

From our own correspondent. While a number of scholars in the school yard were at play recently one of them got his foot in contact with a bit of glass, cutting it badly.

Until the blood is cleansed of impurities, it is useless to attempt the cure of any disease. Rheumatism, which is traceable to an acid in the blood, has been cured, in numerous cases, by the use of Ayer's Sarsaparilla.

GEMS OF THOUGHT.

We forgive so long as we love. Cheerful looks make every dish a feast. Without a friend the world is but a wilderness. Good example always brings forth good fruits.

Scrap Books.

Most persons find a scrap-book a very useful and convenient part of their possessions. Any large book which is of no literary value may be utilized for this purpose and become a veritable treasure.

Save Your Carpets.

A sheet of sticky fly paper will do more damage to carpet and furniture than anything ever invented. No careful housewife would have one about.

Little Quarrels Breed Big.

You just bring a couple of little quarrels into your family and they'll breed like sparrows, and you just bring a bottle of Burdock Blood Bitters into your house and see how quickly health and strength follow its use.

Under the management of former proprietors this business has been the most successful in its line of any in town, and as the new proprietor has been identified with it for over eight years, there will be no falling off in the energy formerly exhibited in keeping it in the front rank.

Goods delivered to all parts of the town.

The latest and best lines of flour and feed always on hand and choice seeds in season.

THOS. J. VIDEAN.

I take this opportunity of thanking my customers for their liberal patronage during the proprietorship of the East-st. Flour and Feed Store, and also take pleasure in recommending my successor, Mr. Thos. J. Videan, who will be found to be a thoroughly reliable man.

A. E. CULLIS.

The farmer in the Hill Farm mine at Dunbar, Pa., have not yet been reached and are certainly all dead. The work of recovering the bodies, however, is being vigorously proceeded with.

In view of reports have reached New Orleans regarding a general arming of negroes in one section of Louisiana for the purpose of waging a race conflict. Some shooting has taken place. The sentence of death pronounced upon the Bulgarian Government was carried out on Saturday, where he was shot. He met his death bravely.

The French clergy have become alarmed at the action of the Government in abandoning Mr. Goschen's licensing clauses, fearing that the ministry may also regard it as expedient to withdraw the latter bill. In spite of Mr. Gladstone's desires that the Liberals of Barrow-in-Furness assist in the return of Mr. Caine, they have flatly refused to do so, and have already selected a candidate, Mr. Duncan, to oppose him.

The Philadelphia carpenters' strike, which has been in progress since May 1, is virtually at an end, and the men, who have been holding out for thirty-five cents an hour, will take work at the best terms they can get. The Wabash road has given notice that, taking effect on Monday, it will further reduce the rate on dressed beef by way of the Detroit and the Canadian Pacific to the basis of 20 cents per 100 pounds, Chicago to Boston.

Prince Bismarck will establish at Schonenhausen a museum which will be made up from the common gifts which have from time to time been presented to him. A portrait of the present Emperor will occupy the place of honor. Rochefort Macquire, the nominee of Mr. Farnell for seat in the House of Commons for North Donegal, made vacant by the resignation of Mr. O'Doherty, also a Home Ruler, has been elected without opposition.

A London cable says no details of the Stansbury-O'Connor race have been published, but the English press denounces the Australians for their unportant treatment of O'Connor, whom they advise to come home at once. It is said Mr. Gladstone will strongly oppose the cession of Heligoland to Germany when that matter comes up for discussion in Parliament and will be supported by Sir William Harcourt, Mr. Morley and other leading Liberals.

The Minneapolis Northwestern Miller says the aggregate flour production of 111 mills last week was 72,500 barrels. Present indications point to an output this week of 75,000 barrels. The export shipments for last week were 30,560 barrels.

The schooner "J. N. Stearns," from Nova Scotia, brought into New York the shipwrecked crew, numbering ten men, of the Scotch brig "Jennie," which was lost off Sable Island, on the coast of Nova Scotia, on April 23, while on a voyage from Falmouth to Boston. Donald Cox, mate of the "Jennie," and two men were lost attempting to gain the shore.

A crisis in the Illinois Central strike was reached on Friday in Chicago. After an all day session, the conference between the strikers' committee and the Illinois Central officials ended with the positive refusal of the railroad company to discharge Superintendent Russell, who is the cause of the strike. Speculation is rife as to whether a general strike throughout the Illinois Central system will be ordered.

Not Ripe for Prohibition.

HALIFAX, July 1.—The Episcopal synod, regarding the prohibition question, resolved that: We deplore the great evils produced by the excessive use of intoxicating liquors and the great need there is of the use of every means of suppressing their evils by education, moral suasion and legislation.

Just in Time.

LONDON, Ont., June 30.—It is learned that Mr. Fulkinson of Dorchester township, who has been in New York attending the Pastors Institute, will return home this week thoroughly cured. The specialists say that he reached there just in the nick of time and that had he delayed two days longer it would have been impossible to save his life.

Gen. Middleton Resigns.

OTTAWA, June 30.—There is a prospective vacancy in the command of the Canadian militia. Gen. Middleton has resigned at last, the official document having been handed in to the Minister of Militia on Saturday. The general felt, in view of the resolution of course passed by the Canadian Parliament, that no other course was open to him.

I took Cold, I took Sick, I took SCOTT'S EMULSION

I take My Meals, I take My Rest, AND I AM VIGOROUS ENOUGH TO TAKE ANYTHING I CAN LAY MY HANDS ON; getting fat, too. FOR SCOTT'S EMULSION OF PURE COD LIVER OIL AND HYPOPHOSPHITES OF LIME AND SODA NOT ONLY CURED MY INCURABLE Consumption BUT BUILT ME UP, AND IS NOW PUTTING FLESH ON MY BONES.

PORT ALBERT.

From our own correspondent. Mr Robert Graham left on Monday to visit friends in Toronto.

Oscar Hagison has gone to fishing islands at the north. Miss Victoria Hawkins, of London, is spending her holidays with her parents here.

Mr Peter Stewart, teacher, No 5, Colborne, and Miss Hatlie Andrews, of Sheppardton school, visited our school Friday last.

Jas Hawkins, sr., we regret to say, is suffering severely with cancer of the tongue. Mr Wiggins' yacht, with a party of Goderich beaux and belles on board, paid this port a visit one night last week.

Dominion Day passed off in an unusually quiet manner here. The Goderich races were no doubt the centre of attraction for pleasure seekers. Nevertheless some three hundred people, more or less, from the neighboring backwoods villages, Danzonnans, Donnybrook, etc., spent a very pleasant and profitable time here, fishing, boating, etc.

Mr R. R. Sallows, photographer, Goderich, paid a business visit to this village on Thursday last and secured the shadows of the 60 odd pupils which our present very able teacher, Miss Annie Burrows, has under her control.
