

TWENTY-FIVE CENTS A MONTH—16 PAGES

CALGARY, SATURDAY, AUGUST 31, 1912

ELEVENTH YEAR—No. 156

Calgary is on Qui Vive for Opening Of Great Stampede that will Link Past and Present and Reproduce Stiring Days And Episodes of Life on the Cattle Range

Horses That Will Participate in Duel With Man Tagged and Ready for Action; Finishing Touches Being Put on at Grounds and Actors Awaiting Signal

Reproduction of Hudson's Bay Post and Old Fort Whoop Up Offer Material for Entertainment of Lover of Antiquities; Line of Parade Changed for Monday

WHEN the hands slip around the dial of the clock this afternoon to the hour announcing that the day's work is done, and the carpenter drops his hammer and his tool box, the Stampede grounds will be ready for the staging of an exhibition at once historic, thrilling and barbaric.

Calgary is on the qui vive, and will remain so until the little gate swings open at the mouth of the broncho chute, and that collection of concentrated cussedness, intelligence and gameness bows his back and begins the battle that means either his own eclipse or the ignominious trailing in the dust of mother earth of the laurels garnered by daring knights of the saddle in many a hard-fought contest.

Unrestrained Eagerness. Calgary's expectancy is not half-heated. It is anticipation something, and it will get its own way. It is able longer to control their energies, and they will be ready to take a look at the grounds yesterday if the opportunity round out the performance.

While there was much to see, all attention was concentrated upon the modern gladiators who will pit the courage and skill of mankind against the determination and savagery of the monarch of the quadruped world.

Already several caravans of horses, each bearing some special attraction, are on their way to the Stampede grounds. The Stampede grounds will be ready for the staging of an exhibition at once historic, thrilling and barbaric.

PREMIER BORDEN OFF FROM LIVERPOOL FOR CANADA

Expresses His Thanks for Cordiality and Hospitality Extended to Him in Britain

Declines to Make Statement on Sir Wilfrid's Speech on the German Menace

Postmaster General Pelletier Announces Reduction in Cable Rates

LIVERPOOL, Aug. 30.—The Victorian left port today in the rays of a glorious sunset. Right Hon. R. L. Borden and Hon. L. P. Pelletier were met by Sir W. Rowing, representing the Liverpool chamber of commerce, and Archdeacon Madden. Compliments of a very cordial character were exchanged with a group of newspaper men.

Mr. Borden declined to say anything regarding Sir Wilfrid Laurier's speech on the German menace, and remarked that he had said all he had to say regarding the navy. He added that he was unaware that the phrase "an English need apply" had any significance in Canada.

Postmaster-General Pelletier announced that he had secured a reduction of cable rates. He said that the rate for a message to London would be reduced from 10 cents to 8 cents.

When I first arrived in London, I said that one of the most important objects of my visit was to obtain reduction of cable rates. I then promised to make a public statement before the House of Commons, in my opinion, are unfair and should be considerably lower.

CROPS KISSED BY JACK FROST; DAMAGE OF NO CONSEQUENCE

Temperature Dropped Barely to Freezing Point Thursday Night

Thin Skim of Ice Noticeable on Pools of Water Around Town; Now is Warmer

Reports of Big-Elevator People Indicate Frost Visitation to Have Been Several Degrees

LOCAL rainfall records show that the total precipitation for the present week was 1.70 inches. The heaviest rain of the week was that of Wednesday night, when 5.4 inch fell in a few hours.

The frost about Calgary district Thursday night was heavy, and the temperature dropped barely to freezing point, a thin skim of ice being noticeable in pools of water in the C. P. R. yards.

Manager L. P. Strong, of the Alberta Elevator company, said that a few reports received yesterday by the company indicated that there were from one to five degrees of frost in the Calgary district.

Stettin, Alta., Aug. 30.—The bright sunshine and heavy wind helped greatly to dry up the land here today. It has been a relief to the farmers, as the weather was concerned, but the land was too damp to permit working the blunders.

SHORTHAND AND OTHER TECHNICAL COURSES WILL BE TAUGHT

SCHOOL BOARD APPROVES DIRECTOR KIDNER'S PLANS FOR ADDITIONAL PRACTICAL SCHOOL WORK

Minister of Justice Explains Situation in Regard to Naturalization Law

Proposed Legislation by Imperial Parliament Would Take Away Dominion Rights

THAT Calgary is rapidly getting into the metropolitan class of cities which require an owl service of the street cars, is the opinion of Mayor Mitchell and Commissioner Clarke.

At the conference of 1911, the desirability of agreement between the United Kingdom and the self-governing dominions upon legislation which would establish a common condition of naturalization granted by the home government and the governments of the dominions respectively, effective throughout the empire, was unanimously recognized.

The decision to add the new courses is due to two facts—the great success achieved last year in the local department of technical education, and the recent trip by a special committee of the school board to cities in Western Canada and the United States.

At the conference of 1911, the desirability of agreement between the United Kingdom and the self-governing dominions upon legislation which would establish a common condition of naturalization granted by the home government and the governments of the dominions respectively, effective throughout the empire, was unanimously recognized.

STREET CAR SERVICE UP TO 1 A. M. IS RECOMMENDED

MAYOR MITCHELL AND COMMISSIONER CLARKE WILL FORWARD REQUEST TO COUNCIL

THINK CITY HAS ATTAINED GROWTH WHERE MORE METROPOLITAN SERVICE IS NECESSARY

SUPERINTENDENT MCCAULEY OF STREET RAILWAY CONCURS IN THE PROPOSAL

THAT Calgary is rapidly getting into the metropolitan class of cities which require an owl service of the street cars, is the opinion of Mayor Mitchell and Commissioner Clarke.

The recommendation will ask that five cars leave Centre street and make three half-hour trips from that point at 12 o'clock midnight, 12.30 midnight, and 1 a.m. every night.

At the conference of 1911, the desirability of agreement between the United Kingdom and the self-governing dominions upon legislation which would establish a common condition of naturalization granted by the home government and the governments of the dominions respectively, effective throughout the empire, was unanimously recognized.

BOY FALLS 2,000 FEET TO HIS DEATH

Accidentally Caught in Guy Ropes of a Balloon and Carried Aloft

At Great Height Rope Becomes Unwieldy and Victim Dashes to Ground

Flint, Mich., Aug. 30.—In the presence of hundreds of people, 14-year-old Chester Betts, son of Mrs. M. Betts, was accidentally caught by the guy rope of a balloon today and carried aloft 2,000 feet in the air before the rope untangled and hurled him to his death.

The tragedy occurred at a country fair and when the balloon and its ropes were being lowered to the ground. The boy was caught in the ropes and carried aloft to a height of 2,000 feet.

PARLIAMENT'S LAW BRANCH WILL BE REORGANIZED

Strife Among Members of the Staff for Years; Two Carried Revolvers Last Winter

Ottawa, Aug. 30.—Speaker Sprague is expected to announce next month that he will take up with the government the reorganization of the law branch of the house of commons.

St. Louis, August 30.—George Lohr, an Alton farmer, pastured a stray horse belonging to Mrs. Ella C. Voorhees. His bill for the services was \$1.25, and she was willing to pay only 50 cents.

La Crosse, Wis., Aug. 30.—An examination as to sanity, it was said today, would be ordered in the case of Joseph Cohn, of Pueblo, who created a scene in the Standard Oil office on Friday by demanding \$419,000,000, which he said John D. Rockefeller owed him.

SENT TO ASYLUM THREE TIMES; IS RELEASED

Wife is Making an Effort to Have Henry Bott Committed Again

Montreal, Aug. 30.—Henry Bott, a foreman bricklayer, whose wife claims he is insane and has threatened to kill her, today for the third time secured his release from the Verdun insane asylum on errors in the method of his commitment.

Mr. Bott, immediately following a court order today, secured his release from the Verdun insane asylum on errors in the method of his commitment.

TURKO-ITALIAN WAR CAN ONLY BE TERMINATED BY REGULAR CONFERENCE

Geneva, Switz., Aug. 30.—The view that the Turko-Italian war can only be terminated by a regularly constituted peace conference of an international character is rapidly spreading in diplomatic circles here.

The "conversations" between "unofficial" Turko-Italian war delegates have been slowly dragging on for weeks. They have met at Zurich, Lausanne, Caux, and Evian without reaching any agreement.

It was suggested that the recognition and effectiveness within the dominions of naturalization with the United Kingdom should be made dependent upon the action of the parliaments of the dominions in the same manner as naturalization in any one of such dominions is under the bill dependent upon the legislation of the United Kingdom parliament.

PRESUMPTION AND PATRIOTISM

To read the frenzied utterances of some of our loud-mouthed patriots one might easily receive the impression that Great Britain is rapidly approaching a state of collapse, into which she must immediately subside if she is not upheld by the strong young arm of the Dominion.

"Now is the time for the West and for Canada to take the matter up," says this publication, in the course of a discussion of the naval question, "and to grant Britain such assistance that Germany will not be inclined to take any liberties with the Motherland."

Not many newspapers, of course, would attempt to make the distinction between the West and Canada which appears in this paragraph and few of them would strike a note of such pronounced superiority and patronage as that which is sounded in the suggestion that Canada should "grant" assistance to Great Britain.

Great Britain is neither bankrupt nor approaching bankruptcy and we make ourselves ridiculous when we speak of the largest contribution we can make as other than a mite in the vast and well-filled imperial coffers.

camera, roving flying steeds first on one, then two, and then around all four feet, lying on the ground picking off a rider passing from behind, twisting loops, and doing other things to display his mastery of the rope.

POLITICAL PROPHECY

Great emphasis is being laid by the Tory press of this country upon the assurance of visiting Unionist politicians that the influence of Liberalism in England is on the wane and the present administration speeding fast to its doom.

In any case it is clinging desperately to the belief that these gentlemen must be able, by virtue of their exalted position and their life-long devotion to the pure milk of the political word, to diagnose at any moment with infallible judgment the mind of the great British public.

THE PUBLIC DOMAIN

The people not of Western Canada alone but of the whole Dominion will be slow to admit that Mr. Borden, as prime minister of Canada, regards any of the pledges which he made a year ago as leader of his party, in the light in which they are regarded by the Conservative organ in Regina, which says, in respect to one of the most important of these pledges, that: "the people of Saskatchewan by their recent action at the polls released Premier Borden from any promise he may have made to transfer the public domain to Saskatchewan."

It is not at all a case of a promise Mr. Borden "may have made." The pledge that a Conservative government at Ottawa would transfer the public domain of each of the prairie provinces stands as one of the foremost planks in the pre-election platform of the Conservative party.

If Mr. Borden desired to bring himself and his government under the just condemnation of the people of Western Canada, he could not do it more effectually than by declaring, or signifying by continued inaction, that the above-quoted utterance of the Dominion government organ in Regina, is an authorized utterance.

In the legislature of this province at its last session, it will be remembered, Sir Redmond Roblin, in announcing the boundary extension arrangement, declared that in respect of the public domain it was only a temporary arrangement, until the Dominion government fulfilled the pledge made in respect to the public domain in each of the three prairie provinces.

by King Charles II. more than two and a quarter centuries ago.

Outside are the quarters within the stockade where friendly red men and intrepid trappers took refuge from a common enemy. Old cannon, cast in 1797, stand as mute witnesses of that stirring time when history was made fast and written in blood.

Shades of Pioneers. It is not hard to recall Madoc Chasse and Pierre Bepiet Radisson, who about the middle of the seventeenth century began their arduous work for the French.

The old Hudsons recall the days when ships from the mother country came with furs and other things prized by the early red men, and the year 1871, when a brass kettle the size of a sugar bowl brought midway a set of furs that would be the envy of the most exacting redskin beauty.

HUDSON'S BAY COMPANY

You are invited to Visit Hudson's Bay Co.'s Fort

ONE of the principal attractions of the Stampede, apart from the actual riding contests, is the Hudson's Bay Company's Fort. This is a reproduction as near as it is now possible to get, of an old-time fort or trading post, as was used by the Hudson's Bay Company about 150 years ago.

New Fall Merchandise

HARDLY a day now passes but what records the arrival of new fall goods. This has been going on for the past month, so that our assemblage of new things is now beginning to assume large proportions.

Stampede Visitors Welcome

WE EXTEND a hearty welcome to Stampede visitors and invite them to visit Calgary's popular shopping place, whether intending to purchase or not.

Women's and Misses' Fall and Winter Coats Direct from New York--Two Special lines, \$17.75, \$19

THE latest shipment of new apparel to arrive in the Ready-to-Wear Salon contained these smart Chinchilla Coats. This fabric is very popular for early fall wear and is soft, nappy and of medium thickness, but not cumbersome.

One line is shown in an imported all wool Chinchilla, with large shawl collar, loose coat sleeve, with large cuffs, large outside pockets and fastens with large handsome buttons to match material; color medium gray. Price \$17.75

Shooting Boots

The duck season is here and many men are planning shooting trips. Like many other sports you cannot fully enjoy shooting unless you have proper footwear.

Shooting Boots, specially made for the purpose, are what you need. We have them in the 10 and 12-inch top styles. They are made with Goodyear welt and vulcanized waterproof soles and will give excellent wear.

Half Price Sale of Women's Kid Gloves

THIS remarkable value is due to a special purchase, part of which comprises this offer. It is by far the best bargain in Kid Gloves that we have offered for some time and it will certainly pay you to take advantage of it.

The Gloves are made of soft and pliable French kid with two-dome fasteners and are in the short style. Sizes: Browns and tan, 6 1/4, 6 1/2, 6 3/4, 7; white, 5 3/4, 6, 6 1/4, 6 1/2, 6 3/4, 7.

Men's Working Boots

The principal feature that is essential in working Boots is ability to give good service. Hudson's Bay Working Boots are always bought with that quality in mind, so it is no wonder that so many workmen find them so satisfactory.

We are showing them in pebbled grain, chrome kip, French kip and black and tan kip. They are splendid value, too, at \$2.00 to \$5.00

Hudson's Bay Linen Note Paper

This paper is manufactured expressly for us and in such large quantities that we get it at a special price. It is of a good quality, distinctive as specially suitable for social use.

Kanouse, who saw the stirring times when his intemperate sheltered untamed spirits that held life as a pawn and to be as easily sacrificed. Like the old Hudson Bay post, this is a true reproduction of the historical old vestige, old cannon, relics of primitive days, rope harness, pack saddles, and Red river carts with their narrow tread, ancient yokes whereon the stolid ox dragged his burden across the prairie, the old alarm bell on the bastion which called men cool of nerve and steady of aim into the fort.

modern progress, when by man's pangs he transplants from the frozen north, the sun-kissed mesas of Texas, the sluggish somnolence of Arizona, and the perfume-laden valleys of the land of the orange and pomegranate, these historical episodes, and bridges the wide chasm between the life that has passed and that which modern civilization has brought to mankind.

Big Mason to Preside. Mr. Fred W. Harcourt, first grand principal of the Royal Arch Masons of Canada, will preside over the next regular convocation of Alberta Chapter, Royal Arch Masons, which will be held Tuesday, September 3, in the Masonic hall, Alexandra corner. All Stampede companions are invited to attend.

If there is a black sheep in your family keep it dark

Mr. Norman Rankin returned from the coast yesterday.

Mrs. R. G. Kegey, Cleveland, Ohio, is a visitor in the city.

Miss Jeanie MacLeod, of Edmonton, is visiting friends in the city.

Mr. and Mrs. Hemphill, of Winnipeg, are visitors in the city.

Mrs. A. T. Horsman and Miss Irene are holidaying in Banff.

Mrs. Geo. Muir, of Olds, spent a few days in the city this week.

The spirit of that opening day comes back to you!

There is a "gathering-of-the- clans" feeling surcharging the air, when everybody, who isn't new and who possesses the slightest grain of enthusiasm comes back "armed and well-prepared" with the very newest fashioned pencil-boxes, newest colored lead pencils and newest picture covered scribbler. There they are, the noisy, restless, shouting, happy children, all racing to school!

There are the last year's "never-missed-a-day" pupils with faces fresh from the morning's scrub.

There are the last year's "always-on-time" pupils and they have been around an hour or more opening time.

Yes, and even the "laggards" in school are making and breaking records and are mingling with the others.

But the best! The beginners! Alas the primary room is one of sobe and grief! There are partings and partings, but that first real parting when the mothers have to go home down in tears all the glory and importance of being "old-enough-now" to go to school.

It is the real trial—the first step without the "apron string".

But the school bell rings, the lines march in and everybody takes his or her place quietly.

On the quietness of the school room that first week! It is a quietness born of novelty, shyness and wonder.

But the first event is the moving-on of those who've "passed". The triumphal ones march out with disdainful eyes cast toward those who didn't pass. Children are not usually sympathetic.

And the ones who didn't pass are filled with sorrow. The girls maybe cry—but the boys smile; one of those pathetic, quivering, don't-care smiles.

But after a week everybody gets used to everything and school-life becomes common—common that means to the monotonous just as everybody's common, everyday work does.

## DO YOU REMEMBER THE FIRST WEEK OF SCHOOL?

Ottawa, will be guests in the city during Stampede week.

Mrs. L. F. Davis and family, who were visiting in Olds, have returned home.

Mr. Jack Beattie, of Calgary, was the guest of Mr. and Mrs. H. W. Brown at Olds this week.

Mrs. (Rev.) A. Mahaffy, of East Calgary, who recently had an operation for appendicitis, is doing nicely.

Mrs. Nelson Macree, of Banff, Alta., is visiting her parents Mr. and Mrs. Fred B. Cummer, 1013 Fourth street west.

Mr. and Mrs. Arthur Hutton and little daughter have returned to the city from a holiday spent in Picton, Ont.

Mrs. Alley, who has been visiting her parents, Mr. and Mrs. J. F. Glanville, left for her home in Fort Francis, Ont., this morning.

Miss Alice Edie, of Montreal, who has been visiting Mr. and Mrs. Douglas McKenzie, has returned to her home in Picton this week.

**KEMP-BAKER.**  
At the Central Methodist parsonage Mr. Ralph Kemp and Miss Minnie A. Baker of East Calgary, were quietly married by Rev. E. S. Marshall last night.

They were attended by Miss E. Frederick and Mr. R. C. Chambers.

Mr. and Mrs. Kemp will reside in British Columbia.

## Dougherty Returns

Ottawa, Aug. 29.—Hon. C. J. Dougherty, minister of justice, who arrived in Canada from England some days ago, but who was detained in Quebec on account of the illness of Mrs. Dougherty, reached the capital this afternoon and immediately resumed his duties.

Mr. Dougherty expressed himself as being well pleased with the reception accorded Premier Borden and his colleagues in the Old Country.

While there he studied the prison systems of Great Britain and France, and got new ideas which may be adopted in Canada.

## Many Ohio Reforms

Columbus, O., Aug. 29.—Woman suffrage, the initiative and referendum, food laws, the minimum wage, and a change in the judicial system are among the things that have been incorporated in proposed amendments to Ohio's constitution, which will be voted on by the people soon. The election, which was set for September 3, may be delayed.

## Mitchell in Medicine Hat

Medicine Hat, Aug. 29.—Hon. C. J. Mitchell arrived in the city yesterday. Mr. Mitchell is here to take in the fat and also with the deputy telephone minister to look into the telephone situation with the idea of deciding the best system to be installed to improve the present system.

## CHARITY TAG DAY

All the girls who are going to help in the Associated Charity Tag Day are requested to be at the office bright and early Monday morning—8:30 being the chosen time.

The office is located on Seventh avenue east between Second and Third streets.

Each group of eight girls will be chaperoned. Every cent of the money raised will be spent to the utmost advantage and the citizens of Calgary should be proud to give their assistance to such a worthy object.

Various women's clubs of the city, including the W. C. T. U., have given their aid.

This is one of the last appeals for help and on the "help" depends the success of the day.

## Watch for Potato Canker

Ottawa, Aug. 29.—There has been issued by direction of the minister of agriculture at Ottawa a conspicuous poster calling the attention of potato growers to the importance of examining their crop to determine whether or not it is infected with "potato canker." The hanger shows in natural colors a potato plant, the whole of which is affected by the disease. It also shows the appearance of individual tubers in which the canker has started to work.

Growers who discover suspicious symptoms of the disease in their crop are requested to send affected specimens to the Dominion botanist, experimental farm, Ottawa. The poster is issued as farmers' circular number three of the division of botany, and is being distributed by the publications branch.

Toronto, Aug. 28.—With the return of Judge Winchester today from his vacation, it is expected that a special meeting of the police commissioners will be called for the purpose of making arrangements for the investigation into Inspector Duncan's record in connection with the Farmers' Bank records which disappeared. Inspector Duncan is due to return from his vacation September 15.

## Sinnett's Lethbridge Buildings

Lethbridge, Aug. 29.—Excavation work has started on the new Sinnett building, corner of Fifth street and Fourth avenue, which when completed will contain six good sized store rooms. The building will be of brick and for the present one storey high, while later on, three additional storeys will be added.

## NO MATRIMONIAL BILL WILL BE INTRODUCED AT NEXT SESSION

Lancaster, Father of Last Winter's Bill, Will Carry the Question No Further

Politicians Opine That Matter Should Rest Where Privy Council Placed It

Should Charbonneau Judgment be Upheld Cause of Agitation Will be Eliminated

OTTAWA, Aug. 30.—From the present trend of events it is considered practically certain that no legislation in any way relating to the marriage question will be introduced in the Dominion parliament this coming session.

While there was considerable talk of amending the B. N. A. act following the judgment of the privy council, which made it clear that the federal parliament has no jurisdiction over the question so as to clear the way for the introduction of a universal marriage law, the agitation has been subsided.

It is also understood that Mr. E. A. Lancaster, the father of the now famous bill of last session, has taken the stand that he is not prepared to carry the question any further than he already has done.

In political circles the opinion is pretty generally held that the matter should rest where the imperial privy council placed it.

Although the British lords did not answer the crux of the whole question was centred around the solemnization laws of the province of Quebec in the eyes of the civil law.

Should this judgment be appealed to the privy council and upheld, the cause of the agitation will be eliminated. It is extremely doubtful, however, if anything will be done or any attempt made towards amending the B. N. A. act.

## Music and Drama

When the curtain goes up Sherman Grand on Monday will be to the strains of music a complete new orchestra. The orchestra will be composed of the best players in the city. The addition of these players to the orchestra will be a great attraction to the public. The house make a up-to-date orchestra which Mr. Sherman Grand in order to furnish to his patrons will be heartily appreciated.

Speaking of the place of drama in theatrical production is of an interesting nature. It is the only one of the new drama last week. The article to the opening of the new drama last week which has been completed by Mr. W. and which contains several innovations. The orchestra is the usual place beneath the stage. Music and Drama

When the curtain goes up at the Sherman Grand on Monday night it will be to the strains of music provided by a complete new orchestra of eight pieces, which Manager Sherman predicts will surpass anything in the orchestra line ever known around these parts.

Speaking of the place of the orchestra in theatrical productions reminds me of an interesting item which appeared in one of the New York papers last week. The article referred to the opening of the new theatre on Forty-eighth street which has just been completed by Mr. W. A. Brady and which contains several interesting features. The orchestra is located in the usual place beneath the stage, but is completely hidden by evergreen bushes planted in a fragrant heap, and the strains of music float so gently over the playhouse as to give the impression that they are coming from a remote part of the house.

Another pleasing innovation is the addition of a "gossip room," comfortably furnished, where the audience may indulge in a little relaxation during the intermission between acts.

Mr. George E. Holt, who has been on an extended vacation in the East, returned to the city this week and will resume charge of the choir of the Cathedral at the regular services tomorrow. Another prominent Calgary musician who returned to her native hearth this week is Miss Gladys McKelvie, the clever young pianist. The promise of a successful career which was predicted for Miss McKelvie when she commenced her studies abroad has been amply fulfilled this season. In addition to the silver medal awarded at the Royal Academy of Music, Miss McKelvie was also successful in winning a bronze medal for sight singing.

Several years ago Mr. Frank Wright gave a series of very enjoyable organ recitals in Knox church, but since that time, until very recently, no organ recital in Calgary was an unknown quantity. This has not been due to any lack of appreciation of organ music by the people of Calgary, but rather to the lack of suitable instruments on which to give a satisfactory performance.

EVENTS NEXT WEEK

Sherman Grand First three nights with Wednesday matinee, Billy "Single" Clifford and his company in "The Girl, the Man, and the Game." Last three nights with matinee daily, opening bill of the Orpheum Vaudeville Circuit attractions.

Lyric All week, Marjorie Lake and her company in musical comedy repertoire.

Empire Every night with matinee daily, regular vaudeville bill. Change of bill Thursday.

Happily, these conditions are changed, and we now have in the city two organs well adapted for recital purposes, and, before very many months have passed, we will have two or

three more. Fortunately, there are several talented young organists assigned to the various instruments and good recitals are, therefore, in store in the form of organ recitals. The organ in Wesley Methodist church, while not as complete as some of the other organs, has been much admired for the purity of its tone, and it will be of interest to learn that a series of recitals are to be made this fall by the clever young organist of the church, Mr. Leonard Pearson. The recitals will be given on the first Saturday afternoon of each month at 4:15 o'clock and will be of one hour's duration. The first of these recitals will be held next Saturday afternoon, September 7, when the following program will be rendered: Guilmant, "First Organ Sonata Introduction. Allegro. Pastorate Handel, "Largo Dvorak, "Humoreske Lemmens, "Allegretto" Hatton, "Wreck of the Hesperus" Vocal selection, Mr. J. E. Williams Gounod, "March Cortage (From 'The Queen of Sheba')

Next week marks a new era in the development of Calgary as an amusement centre. The advent of the Orpheum Vaudeville Circuit attractions to this city places Calgary on the same level as Minneapolis, Spokane, St. Paul, Los Angeles and other large centres, where the Orpheum attractions play to capacity houses at practically every performance, and Calgary theatre-goers will be privileged to see exactly the same bills as are given in these cities. It is safe to say that the Orpheum and Edmonton are the smallest cities on the circuit, and as the extension of the attractions to these cities is largely in the way of an experiment it is up to the people of both cities to see that the shows are well patronized.

There is every reason why good houses should be the rule locally; we have a theatre well adapted for vaudeville performances, the prices are very reasonable, and a high standard of merit is assured in the attractions. What more could be desired? It is gratifying to be able to record that the advent of the Orpheum attractions will not make any appreciable difference in the number and quality of the legitimate attractions to be seen at the Sherman Grand during the season. In fact, from the bookings now arranged by Manager Sherman we will be assured of first-class shows right up to the end of the year. These include some of the greatest of last year's New York successes, as well as several big attractions, which have never before visited this territory, such as "The Chocolate Soldier."

As the date for the Schumann-Helk recital draws near the interest in the great contralto's appearance is increasing, and the indications are that the famous singer will be greeted by a capacity house when she sings in the Shrine hall on September 18. Schumann-Helk comes to Western Canada direct from Beyreuth, and Calgary has been honored in being selected as the city in which she will inaugurate her American tour, which in the number of engagements as well as artistic achievement, promises to eclipse any previous season. All day yesterday, the subscribers for the artists' course were rejecting their seats and the plan for the general public is open this morning at Hentzman & Co's piano warehouses.

Charges That He Led His Faction Against His Rivals, and in Fight Moon On Was Killed Montreal, Aug. 28.—Charles King, a former Chinese interpreter in the local courts, and leader of one of the two rival gangs whose differences have been envenomed by Montreal's Chinatown, was today committed to stand trial for the murder of a rival on the September arm of our King's Bench. The evidence was to the effect that King was at the head of a gang of Chinamen who broke into a gambling house frequented by members of the rival gang, and fired a fusillade of bullets at the inmates. One of these Moon On, was badly injured in the head, and was taken to the hospital, where he later recovered. No one would swear that King had actually fired, but many testified that he shouted to his followers to do so. Six murder cases and three cases of attempted murder are now pending, and will be heard next month before the court of King's Bench.

HALF MILLION POUNDS OF HALIBUT

Vancouver, B. C., Aug. 29.—Yesterday was a busy day for the New England Fish Company and the Canadian Fishing Company, as there were no fewer than three boats in together during the afternoon with a cargo of halibut totaling \$20,000 pounds.

The Manhattan brought 150,000 pounds, the Celestial followed her with the same amount, and the Flamingo arrived with 200,000 pounds. As a result of this heavy catch two boats will be towed up the river, each having a capacity for about 100,000 to 150,000 pounds each, to take care of future catches.

MUNICIPAL UNION IS OPPOSED TO C. P. R. STOCK ISSUE

WINDSOR, Aug. 29.—The most important action taken by the Union of Canadian Municipalities at its final session here today was the adoption unanimously of the resolution offered by Alderman Joseph Clark of Edmonton, opposing the application of the Canadian Pacific railway for permission to increase its capital stock by \$50,000,000.

The convention based its opposition to the proposed plan on the grounds that the scheme is for the purpose of keeping provision of the company below the limit at which the Dominion government would be entitled to exercise control over its freight and passenger rates. The resolution of Alderman Clark read as follows: "Whereas upon the incorporation and issuing of a charter to the C.P.R. company of Canada, provision was made that the government should retain and exercise control of the freight and passenger rates as soon as the profits accruing to the said company reach the amount of ten per cent per annum on the common stock."

"Whereas up to the present time this beneficial provision has not been put in effect in securing to the patrons of the said railway company, especially in the western part of Canada, the reduction of its freight and passenger rates for the reason that the said company has not admitted their profits equalled 10 per cent annuum on the common stock and profits are large."

"Whereas now the profits of the said company have reached such proportions that it is impossible in the long run to deny that the profits have reached that point where the government of Canada is entitled to exercise control and regulation of the freight and passenger rates and: "Whereas the said company have made application or are about to make application for permission to increase the common stock of the company without in any way retaining the safeguard and equitable provision stipulated by the government of Canada, when the provision herein referred to was first inserted, and: "Whereas in the opinion of this convention it would be inequitable, unfair and lacking in sound public policy to permit the said company to increase its present stock without retaining the same or more effectual control of freight and passenger rates as is now existing and that steps should be taken at this time to extend the control retained by the government of Canada upon the issuing of the charter to the said company."

To Laurier, Too. "And that a copy of this resolution be sent to the premier of Canada and to the minister of Railways and Canals, and also to the ex-premier of Canada and to the ex-minister of railways and canals."

Another resolution adopted, deprecated the practice of carrying of appeals to the government by railway companies who objected to adverse rulings by the railway commission. In the opinion of the municipal delegates the commission should be the sole arbitrator of the disputes.

Saskatoon was named as the city for the holding of the next convention, although Sherbrooke, Regina and Victoria were all anxious for the honor. Roster of Officers The following officers were elected for the ensuing year. Chas. Hopewell, Mayor of Ottawa, president. L. A. Lavallee, K.C., of Montreal, 1st vice-president. R. G. Waugh, Mayor of Winnipeg, 2nd vice-president. J. L. Egan, Mayor of Victoria, 3rd vice-president. W. D. Lightbail, K.C., Westmount, Quebec, re-elected treasurer. G. S. Wilson, Montreal, re-elected assistant secretary.

Representatives from the western provinces were elected as follows: Saskatchewan—A. Morton, Mayor, Prince Albert; A. W. Mayhew, Mayor, Moose Jaw; P. McAra, Mayor, Regina; Jas. Clinehill, Mayor, Saskatoon. British Columbia—J. Leo, Mayor, New Westminster; J. Findlay, Mayor, Vancouver; E. Shaw, Mayor, Nanaimo. Alberta—H. Ross, Mayor, Surrey; H. B. Steadman, Mayor, Macleod; R. B. Welliver, Mayor, Red Deer. Manitoba—W. B. Evanson, controller, Winnipeg; Thomas Berry, Mayor, St. Boniface; John Cardale, reeve, Balcarres; Mr. Fleming, Mayor, Brandon; J. W. Cookburn, controller, Winnipeg.

DEEP PRICE-CUTTING OF HIGH-GRADE PIANOS

During Their "Forced Removal Sale" Mason & Risch Lower Prices on Highest Class Instruments Made to Almost Manufacturing Cost.

Easy Terms of Payment Arranged on These Fine Pianos Just as Readily as on Used and Medium Grade Instruments.

Store Open Evenings. 710 Centre Street

Some people have gained the impression that during this sale we have included only used and medium grade pianos, and that we have reserved all our finest instruments from the deep cut in prices. To all we wish to state that not one instrument in our big stock of over 100 pianos and player-pianos has been reserved. All during the sale the store will be open in the evening, and if you only care to come and look over the bargains do so. There is no obligation on your part by a call of inspection. Mason & Risch Limited, 710 Centre Street. Our position forces us to dispose of them at the earliest possible moment, and we have accordingly cut the price to a point that will insure their immediate sale, even though we are forced to suffer a temporary loss. But we feel that this loss will be regained by the many new friends who become owners of Mason & Risch instruments—living, walking, talking advertisements. While the sale lasts you can have your choice of \$350 pianos for \$272, new \$400 pianos for \$312, new \$525 pianos for \$448, and new \$775 pianos for \$698. A small payment down and the instrument will be delivered to your home, while the balance may be paid on terms of your own choosing. All during the sale the store will be open in the evening, and if you only care to come and look over the bargains do so. There is no obligation on your part by a call of inspection. Mason & Risch Limited, 710 Centre Street.

His remedies contain poison, which wreck the stomach and vital organs before the disease is reached. Instead of giving something to help Nature cure, he does your stomach with drugs, which eat up your vitality and make the ailment worse. Drugs don't restore health, because they contain nothing that builds health. Nature wants nourishment, not poison. The proper way of curing is to help Nature cure. Do this by giving her the power to combat disease and drive it out of your system. This power is electricity. It gives strength to every vital organ. It vitalizes the blood and increases circulation. It is food to weak nerves. Electro-Vigor is the only successful appliance for infusing electricity into the body. It does this while you sleep. Its influence is powerful, yet soothing, and pleasant to the nerves. All night long it sends a volume of electric life into the ailing part. Electro-Vigor is a practical body battery, not an electric belt. It makes its own power and never needs charging. It is curing people every day whom drugs had failed to benefit. Dear Sirs:—It is just four weeks since I began using Electro-Vigor, and I must say it has done wonders for me. My rheumatic pain in arms and shoulders is all gone, and also my nervousness. I have no more tired feeling in the mornings, but wake up happy and fresh as a lark, and in good spirits the whole day long. I hope in another month to be just as well as ever. SPORTING - FACTS - AND - FANCIES

At the meeting of the Western Canada Rugby union held in Moose Jaw, week ago today, the question was discussed at some length of the best way to force the East to respect the claims of the West as being part of the Dominion as far as rugby matters were concerned.

The writer suggested that the papers of Western Canada refuse to speak about the games in the "East" as deciding the Dominion championship and whenever a telegraph report of an Eastern game came in, and reference was made to the Canadian championship that the Sporting Editors of the "West" insert the word "Eastern" before the word "Canadian".

With the Stampedes, the Bayley-Allen contest and Western Canada league baseball all on tap, sport lovers will have plenty with which to amuse themselves this week. The baseball games will all be played in the evening with the exception of Monday and Saturday when double-headers will be staged, the first game starting at 2:30 and the second at 6.

It looks as though Tommy Burns was going to sit on the Calgary Municipal Council. His announcement that he would build a permanent structure on the grounds of the Bayley-Allen contest.

Allen arena just outside the city limits, makes this look probable. The city strong box will thus be deprived of the license money and the control will be taken out of the hands of the Calgary police.

Jim Flynn is experiencing the ups and downs of the Queensberry game. Last July he went against Johnson, this coming Labor Day he will tackle Charlie Miller, the veriest novice in the heavyweight ranks.

The Toronto Globe remarks that the Toronto playgrounds athletic meet will be contested this year under a new plan—the weight system.

**EXPERT SEES REAL PERIL IN BIG GERMAN NAVY**

Sir George Armstrong, Naval Authority, Sounds Pessimistic Note in Winnipeg

Believes Germany's Preparations Are Aimed at Prestige of Great Britain

Winnipeg, Aug. 30.—Sir George Armstrong, who accompanies the party of British statesmen, at present visiting Winnipeg, is regarded as a naval expert and has made valuable contributions to naval literature. Born January 19, 1866, his love for the sea was more or less inbred, as he received his education on H. M. S. Britannia. From the "Old Brit" he entered the navy in 1878, and was gazetted lieutenant in 1890.

He saw a bit of the world while "following the sea," for he served in the Mediterranean, North America, West Indies, Channel and China stations. Resigning in 1891, Sir George embarked on a journalistic career, joining the staff of The Globe, and later for a period of twelve years acted as its editor. He is part proprietor of The People, but has never entirely forsaken his old love, as his name is on the emergency list of officers of "the king's navy."

Interviewed yesterday, Sir George, preferring to leave politics in general to his fellow travelers, was nothing loath to expound his opinion as a naval man on the naval question. "The menace which Germany offers at the present moment," he said, "and the enormous increase of the burden of naval armament on the Mother Country renders it essential that the empire should realize that if we are to maintain our position in the world and our supremacy at sea, the colonies must unite with the home land to meet this menace."

During the last few years Germany has made the most extraordinary efforts to provide herself with a fleet which must be counted a rival to our own, under the provisions of the German navy law. She announced her intention before all the world of having such a navy that in the event of hostilities with England she could imperil our supremacy at sea. So great has German pressure become on the North sea that England has been forced to abandon the Mediterranean, so far as her battleships are concerned, and the decision of the British government to send some of the latest armored cruisers out there has been brought about entirely by the pressure of public opinion at home, and not because England was really in a position to afford it. As a matter of fact, the sending of the armored cruisers to the Mediterranean deprives the commander-in-chief in home waters of a most vital adjunct to his fleet, a something that could fill the gap, still, because he cannot be choosing and the presence of these ships can only be looked upon as the temporary alleviation of an intolerable situation. Nothing could be more disquieting or more grave than the admissions of the prime minister and the first lord of the admiralty in the House of Commons when introducing the supplementary estimates for the other day; yet having pointed out the state of affairs, they had nothing tangible to offer the country as a remedy, but were evidently reluctant to ask England to add to the already over-powering burden. What that burden may be underestimates when it is realized that even without making allowance for urgent measures of the moment, the navy estimates in Britain for next year must amount to \$15,000,000, and this at a time when the government of the day refuses to have access to fresh sources of taxation, by means of protection and preferential tariffs.

May Lose Empire. "The time has come when students of naval affairs must realize that we hold our great Empire by the worth of our right arm, and unless the empire as a whole rises to the proper perception of the position, the day will inevitably come, sooner than most of us realize, when our empire may be won from us by a jealous and ambitious world. It is impossible for us to exist merely on prestige. The prizes which the British crown possesses all over the world are looked on with covetous eyes by our rivals in Europe, and by Germany in particular—Germany a great and virile nation which is seeking outlet for expansion, and is determined to get them if she can, by force of arms, and the great navy she has been building is an earnest of her intentions. But time presses, and the situation has become so critical that unless we move more quickly we may find we are too late."

Asked a question about Winston Churchill as first sea lord, Sir George remarked that the sentiments expressed by the former in the House of Commons regarding the naval needs of the empire were excellent and obvious, but having placed the situation before the country, he had offered no remedy, purely and simply because the cabinet of which he was a member shirked the expense. The efficiency of the navy itself, Sir George also answered, as far as officers and men were concerned, was of a very high standard, but that an unfair responsibility was placed upon that personnel by placing in their hands an inadequate weapon.

"The margin of sea power has fallen to a perilous point; we can afford to take no risk, for defeat at sea means ruin and disgrace, and inability on the part of Canada and the rest of the empire to carry out its own destiny." Concluding he said: "The warning of Lord Charles Bessford, ab constantly put by him before his countrymen, have been justified up to the hilt, and if we had grappled with the problem four or five years ago in a courageous and statesmanlike manner we should not be confronted with the crisis of these days." Returning to the question of efficiency, Sir George said: "The navy is efficient as far as it goes, but it is lamentably lacking in personnel, and the serious part of that is, that to augment it, cannot be done in a month or a year, as some considerable time must be devoted to training."

The man that buys a suit of clothes with a fancy name, and the price in the pocket, is paying too much for it! The manufacturers of these garments are wise men, and grow fat on the exorbitant prices they get for their goods. First they get a good sounding name such as Fitwell, Everwear, etc., and they get one store in each city or town to handle their clothes exclusively. This store accepts the agency and then the manufacturer charges him exactly what he pleases for his goods. The manufacturer advertises them extensively and the people are deceived into buying them. He can well afford to pay large advertising bills with the profits he makes, as he has no opposition and can make them as poorly as he likes, and get his price. Gentlemen, these are facts. Buy your clothing from a firm that buy have the seller's guarantee as to the quality, and you don't have to pay double for it.

Just to illustrate this to you a merchant not many miles from Calgary told us he bought 20 dozen Stiff Hats, all costing him the one price. He put the firm's name on 10 dozen of them, and the other 10 dozen he got a fancy name on. He advertised them and got \$4.00 for the fancy name and he sold the one with his own name on at \$2.00. The hat with the fancy name sold like wild fire. What's in a name—"Money."

**WIRELESS TIME IS NEXT MOVE OF SCIENCE**

Clocks of Ships at Sea Will be Regulated From Headquarters in Washington

Naval Observatory Expects to Measure Time Lapse of Flashes to Europe

WASHINGTON, August 28.—Scientists in the United States and England are anxiously awaiting the completion of the navy's new wireless station at Arlington, Va. The astronomers at the naval observatory in Washington have been invited by the scientists at the Greenwich observatory in England to conduct transatlantic experiments to determine the time required for the electric flash to travel the intervening distance. Plans to flash time signals to ships at sea also are under way.

Wires will be strung between the Arlington wireless station and an operating room in the naval observatory, three miles distant, from which experiments will be conducted.

Wireless communication hitherto has not been established at a sufficiently long range to permit time tests.

Measuring the Waves. "Little is known of the possibilities of the wireless or the use to which the ether waves may be put," said Professor George A. Hill of the United States naval observatory. "Immediately on its discovery everybody turned their attention to its immediate commercial value. Now its vast possibilities have won the interest of the scientist."

"We know that when the powerful flash of electricity leaves the aerials it is taken up by the ether. The ether receiving the electricity broadens out in waves, similar to waves on a quiet pond caused by the dropping of a pebble. What is the wave of ether and what can it be made to do?"

"We know the exact time of Washington as taken from the sun and the stars. Also we know the exact time of Greenwich. If a flash of electricity is released from the aerials of the wireless automatically by our standard time clock, and received automatically by the standard time clock at Greenwich, the length of time required for the electricity to cross the Atlantic can be readily reduced to tenths of a second by computation."

Send Time to Europe. "Every night we expect to exchange time signals with both the observatory at Greenwich and at Eiffel Tower in Paris. The wireless experts assure us that

there will be no difficulty in establishing communication with both the English and French stations.

"The observatory is planning to send out a time signal every night to ships sailing the Atlantic. This signal is now sent out from the naval station at Cape Cod. The signal will be flashed from the wires automatically by the time clock of the observatory, but owing to the high potential to which the apparatus will be tuned up only those

ships several hundred miles from the east coast will be able to get the signal."

## TO WHOM THIS

Know Ye that Coquitlam is absolutely the safest and most profitable realty investment on the market today. We don't make this statement without an explanation or pointing out the absolute facts about it. We take first its location. COQUITLAM IS THE NECK OF THAT WHOLE PENINSULA where Vancouver is situated and is the only outlet to the Pacific Coast. Coquitlam is at the junction of the Pitt and Fraser rivers which affords the finest fresh water port in British Columbia. The C.P.R. paid several hundred thousand dollars for a site in Coquitlam where they are constructing their large terminals. Coquitlam is the only level piece of country near Vancouver, and is the only place that affords sufficient railroad and water transportation facilities. We notice, that in a meeting recently held by the grain men and some of the C.P.R. officials, it was stated that by the time the Panama Canal is opened there will be about 50,000,000 bushels of wheat to be moved to the Pacific Coast from the West. This will entail 40,000 cars.

It is the belief in grain circles that the C.P.R. will immediately lay out plans to erect terminal elevators at Coquitlam. When we stop and look ahead for a moment and realize that Canada has only started to develop, we will have foresight enough to see the possibilities of this wonderful new city.

Forty-five industries have purchased or applied for sites in Coquitlam, they want to get in on those rich resources in B.C., which they would have done before, had they been able to get trackage and water frontage.

Coquitlam is only six months old, and already has a population of fifteen hundred to two thousand people.

They have their abundance of electric power, they have an electric street lighting system, and will have by the first of the year a street car system. Any person with the average intelligence and foresight cannot fail to see the great future of Coquitlam, and with the rapid developments taking place there, it will be of no use to realize this fact unless you act quickly, as the prices will soon be too high to get in with so small amount of money as it is necessary at present.

**DE NOT MISLED BY FAIR RAILROAD PROMISES**

That is the Advice of Hon. Geo. E. Foster to Farmers, Who Would Ship Grain

Advices Grain Growers to Take No Chances and Provide Shelter for Wheat

Toronto, Aug. 30.—Hon. George E. Foster, minister of trade and commerce, who with Hon. Dr. Reid, minister of customs, said a brief visit to the Canadian exhibition today, speaking at the directors' luncheon, warned the farmers of Western Canada against trusting to various railway promises to remove their grain before the weather conditions spoiled the threshed wheat.

The minister stated that it was essential that the farmers of the prairie provinces secure private barns to house their crops this year. He said that in other years a large quantity of grain had been ruined through the farmers not providing shelter until the railways could handle it, and that he was certain that this would be the case this year if the farmers do not take immediate precautions to prevent a recurrence of such losses.

"It is almost sure that there will be more wheat harvested this year than ever before. Of course the farmers have the shortage of laborers to contend with but our information is to the effect that this will not prove disastrous unless heavy rains set in during the harvesting."

## Jack Frost's Master McClary's "Sunshine" Furnace

Jack Frost had the time of his life last winter. He warred against all elements and froze them stiff. Lakes and rivers he turned into solids; he also put a razor-like edge on the wind. He even bit into steel rails making them as brittle as burned glass. Outside, Jack reigned supreme, but his chilly majesty was locked to a frazzle inside by "The Understudy of the Sun"—McClary's "Sunshine" Furnace.

Think of the past winter when the mercury swung timidly below the freezing point—not for a day or a week, but for months at a time. How you shovelled coal, and how you talked about the appetite of that poor old furnace in the cellar. It simply ate up coal and then fell down when it came to heating the house evenly and comfortably.

McClary's "Sunshine" Furnace makes the most of every fuel, and distributes a better percentage of heat to the house than the ordinary stoves cannot be active fire and the in the "Sunshine" absolute guarantee of other in the home, why icy garments are jingling.

## THE MARKETS

### Winnipeg Wheat

Winnipeg, Aug. 30.—Trading in futures on the wheat market was quiet and prices steady, fluctuations being narrow. Opening figures for all the months were unchanged, following which there was an advance of 1-2 cent on the other months on the firm or Liverpool cables, but later declined, closing 1-4 cent lower for October, and 1-2 lower for December and May.

American markets opened steady, Minneapolis being unchanged to 1-8 higher, while Chicago was 1-8 lower.

Winnipeg closed 1-2 lower for September and December, and 3-8 lower for May, while Chicago closed 1-8 lower for September, 5-8 cent lower for December and May. The cash demand at Winnipeg was good for all grades with a more active inquiry from exporters, while the offerings were all there was a good demand for cash bids for the aster trade, which stiffened prices of futures to some extent. Flour was sold at 1-2 cents higher than Thursday close. Receipts were 55 cars today.

### Dun's Review

New York, Aug. 30.—Conditions throughout the Dominion of Canada, as indicated by despatches received by Dun's Review, from branches offices of R. G. Dun and Co. in the principal commercial centres are generally favorable, although there is some complaint of cold, wet weather in a number of farming districts.

Montreal reports that wholesale trade is quite active, with most business preparing for heavy fall and winter trade. Dry goods are being freshly ordered. Leather is firm and in good demand, and there is a satisfactory distribution of groceries and other staples.

At Quebec the situation continues favorable, a good seasonable demand being noted for groceries, all kinds of merchandise. Wholesale business is very active at Toronto, although the weather has not been favorable for an extensive movement in some lines. Sporting trade has been good for the season, and the demand for dry goods, clothing, footwear, building materials, hardware and other staples is well maintained. At London wholesale business is starting up well. Manufacturers are busy and the outlook generally is very encouraging. Montreal reports that both wholesale and retail trade continues to be active, there is some complaint regarding the weather in the far west and north, but generally operations are progressing favorably, which stimulates confidence among the merchants and makes the outlook very encouraging.

Winnipeg reports notable activity in the grain trade, and the well maintained prices of grain.

Chicago, Aug. 30.—Prospects of an increase in the visible supply here are indicated by despatches received by Dun's Review, from branches offices of R. G. Dun and Co. in the principal commercial centres are generally favorable, although there is some complaint of cold, wet weather in a number of farming districts.

**ELECTRIC ENGINE STARTER**

To those of our customers who prefer the highest and latest type of electric engine-starter to the regularly furnished acetylene gas-starter we offer what is undoubtedly the simplest, most efficient and trouble-proof, electric-starter in existence. It consists of no more than three parts, has neither bearings nor gears, runs at engine speed, and is all enclosed. The starter itself and storage battery add less than 100 pounds to the total weight of the car.

Electric engine-starters are built into the cars at the factory and cannot be added later, except at considerable expense.

**What This Value Means**

Self Starter  
30 Horsepower  
5 Passenger Touring Car

110-inch Wheel Base  
Timken Bearings  
Prestolite Tank

Centre Control  
Remy Magneto  
Warner Speedometer

Mohair Top and Boot  
Clear Vision Automatic  
Wind-shield

This car, at this price, smashes all previous records. It even totally eclipses 1912 Overland values, which a year ago baffled the world. 40,000 Overlands will be made in 1913. This enormous production makes possible this new car at this new price. As the production goes up, prices come down, as has been shown each preceding year. In this age of rapid progress it is sometimes difficult to grasp the full significance of an important, progressive manufacturing step, such as this car exemplifies. But when you sum up the extraordinary, cold dollar-for-dollar value which this car offers, as compared to any and all competing motor car values, the giant economical manufacturing strength of the huge Overland plants is realized and recognized. It only proves the ability of this most powerful and efficient automobile factory.

Here we can but call your attention to the bare facts. This is the car—a big, powerful, beautiful, spacious, comfortable, self-starting, thirty horsepower, five-passenger touring car—fully

equipped—all ready for night or day, rain or shine service. Made of the best materials on the market, by the most skilled men known to the trade, and in the most efficient automobile shops in America. And the price is but \$1450.

This is the automobile industry's record value. Come and see this car of extraordinary value—take a ride in it and you will be convinced. We can show it to you today.

**Your Money's Worth**

*In Appearance*, the new Overland Models are stylish and impressive than they have been heretofore.

*In Service*, they are wonders of power, endurance and easy control, and a revelation of the perfection attained by the most successful concentration of engineering skill and enormous preparation devoted to the production of one article in great quantities.

All cars are self starting and completely equipped with every accessory needed.

# TO STAMPEDE VISITORS

YOU ARE NOW in the Most Progressive and Fastest Growing City in the World. Calgary has grown from a "Frontier Cow Town" to an up-to-date METROPOLITAN CITY in the last Ten Years and her future is today brighter than ever before, and no doubt hundreds of you will want to make investments here, and naturally you will want the best and safest, and all we ask is that you INVESTIGATE

## LAKE VIEW HEIGHTS

Lake View Park, As It Will Be When Completed In 1913

Of course you know that where the greatest amount of money is being spent in improving a property is where the greatest amount of profit will be made, and in this connection let us point out the fact that in the centre of LAKE VIEW HEIGHTS we have Calgary's one and only lake—30 acres—and we are spending over \$100,000 in improvements there. Briefly, we have a concrete wall one mile around our lake, with beautiful lighting columns every hundred feet; around this is a ten foot walk, then a twenty foot plot of grass, trees, and ornamental shrubbery, a sixty-six foot drive or

boulevard, and another twenty foot plot of shade trees and shrubbery. One entire block overlooking the lake and city will be utilized for a public dancing pavilion, band stand, refreshment parlor and observatory, with steps leading to the boat house and jetty at the water's edge; and remember our pride is in LAKE VIEW PARK, and we will spare no expense to make it the finest park in all WESTERN CANADA, and the beauty spot of Calgary. Our customers include some of Calgary's best people, and our building restrictions will make LAKE VIEW HEIGHTS Calgary's highest class residential property.
