INFRACTIONS OF THE LAW INSTANCED BY SUPT. FITZGERALD IN HANDLING SECURITIES

No Names Are Mentioned or Sought After However—Actu-
ary Blackadar Has Discoveries
to Tell About—Superintendent
Pleads a Defective Law Which
Ties His Hands.

Ottawa, March 15.—(Special)—Mr. Tilley: You have no interest as to profits that are paid out to policyholders? Superintendent Fitzgerald: Just in a general way, as policyholder myself, but as department, no. There is no duty cast upon us with regard to it.

Thus did the government's high constable of insurance confess he takes no notice of what becomes of the millions yearly paid to the insurance companies for profits, in the words of the act of parliament, the superintendent of insurance shall examine and report to the minister from time to time upon all matters connected with insurance, as carried on by the several companies.

And so you might go on quoting over and over again from Mr. Fitzgerald's evidence. Dominion Counsel Tilley—his leader, Mr. D. Shepley was away from Ottawa—every now and then struck trails and disclosures vital to policyholders' interests, but did not follow them up.

Superintendent Fitzgerald described a flagrant piece of juggling with securities, the name of the company was not asked. Superintendent Fitzgerald was not asked whether he had called the minister's attention to this kind of thing or had recommended any change in the statute to prevent juggling.

So far Commissioner Langmuir is the only commissioner who has answered his questions any real spirit at the investigation. A few of his queries were: No interim statement.

Mr. Langmuir: I have never asked for any interim statement of the securities dealt with by the companies during the year? Mr. Fitzgerald: I have never asked for any interim statement.

Mr. Langmuir: Would it not be advisable to have a monthly or quarterly interim statement to show what securities deals in securities have been closed out during the year, before Dec. 31?

Mr. Fitzgerald: I think it would probably be advisable to have an interim statement showing all bonds purchased and sold during the year.

Mr. Fitzgerald was not asked if he had suggested such an amendment, but here is his illustration of events which make it probably desirable to strengthen the law.

Mr. Tilley: Can you tell me of any case where you have discovered anything improper by any company that is not shown in the annual returns? Mr. Fitzgerald: I think I have recollection of a case of the kind, going back probably 16 or 17 years, some time about Dec. 30, when a bank pass book showed a large amount had been deposited. Within just a week in January, the pass book showed practically that the entry had been reversed. I was led to enquire into the matter and discovered a whole bundle of premium notes had been put by the company into the bank as cash and been marked as a deposit in the pass book.

Mr. Tilley: From that time till now have you discovered anything else of the same nature? Mr. Fitzgerald: Other things have been discovered since then.

Mr. Tilley: Have you discovered anything of that nature recently? Mr. Fitzgerald: Yes, I believe I did discover something somewhere in the other company, not quite so long ago. The company had a large overdraft in December, and also a very large number of debentures in its vault, and presently did not desire to show in its annual statements. It took quite a large quantity of debentures to the bank and nominally sold them to the bank for cash, and then covered the overdraft in its statements. It took quite a large quantity of debentures to the bank and nominally sold them to the bank for cash, and then covered the overdraft in its statements.

Mr. Tilley: There is nothing that would prevent the company at any time during the year from repaying the loan on improper security, so long as the loan was cleared out in some way before Dec. 31?

Mr. Fitzgerald: No. They might very likely escape detection. Thus the simple policyholder will see that neither counsel nor commissioners asked the names of what companies had been thus convicted of "incorrect entries," neither did they ask Mr. Fitzgerald why he didn't ascertain whether the debentures were in the insurance vault, or whether they represented securities, assets and bank balance at the same time.

SHOULD CANADA SYMPATHISE WITH RUSSIAN JEWS MASSACRES?

A Point Which is Debated in Commons—Mr. Borden's Election Law—Notices of Motion

Ottawa, March 15.—(Special)—Two or three spirited discussions sprang up this afternoon upon questions that are usually devoid of interest. One related to the massacre of the Russian Jews; another to the height above high water of the Quebec bridge.

Questions to ministers first occupied the day. One of them hurt, for Mr. Emmerson admitted that the number of employees on the Montreal and increased from 5037 in 1899 to 8549 in 1905.

It was during this dawning hour that Mr. Armstrong (East Lambton) began his speech. He spoke of the Quebec bridge, and in response to a demand for the point of order Sir Wilfrid Laurier stated that while the gentleman might ask a question he was not entitled to make a speech.

"I am calling attention," said Mr. Armstrong, "to a danger that threatens the commercial existence of Canada. It is necessary for me to hold the flood by doing so, I will now move that the house adjourns to make any other matter."

Curiosity procured him a respectful hearing, and Mr. Armstrong went on to say that the Quebec bridge, as being built, would cause the loss of the larger vessels engaged in ocean commerce.

Mr. Emmerson stated that the main danger of the bridge was that it was high water. Nowadays steam vessels were equipped with telescopic funnels, and, as to sailing vessels, they could lower their masts.

Sympathy for Russian Jews. Claude Macdonnell (South Toronto) presented a resolution expressing the sympathy of parliament with the massacred Russian Jews, and condemning the atrocities inflicted upon them.

The resolution was to be forwarded to the imperial government, and Mr. Macdonnell declared that he could not agree; the resolution was but an expression of sympathy. Our parliament had no power to do so.

Mr. W. P. Mackenzie declared that he could not agree; the resolution was but an expression of sympathy. Our parliament had no power to do so.

Mr. Borden personally favored the resolution, but as leader of the opposition he could not do so.

TOLD WANTS TO HON. MR. PYNE Several Deputations Had Favors to Ask—Normal School Again.

London will be included with Toronto and Kingston as a place for holding medical examinations. A deputation from the Ontario Medical Council, which asked Hon. R. A. Pyne that this institution be held there.

Hon. Dr. Pyne also received a Woodstock deputation, who asked that the promised improvements of the collegiate there to cost \$20,000 be immediately carried out. This will be considered.

Another normal school-seeking contingent, this time from Orillia, presented their plea.

Coal Strike. In the event of a coal strike, Mr. Wheeler, general manager of the Central Coal Company, states that their sheds are stocked up with coal, and to their regular customers no advance in price above the present prevailing price of coal will be made.

Old Man Ontario: "Well, there may be an alteration or two necessary, but it's a big improvement on some of the 'hand-me-downs' I've been getting across the street lately."

Six Million Loan Floated Province Gets Good Terms

Treasurer Matheson Announces Sale of \$1,200,000 Inscribed Stock at 98 1/2, Interest 3 1/2.

The provincial treasurer made an important announcement in the legislature yesterday, to the effect that he had just made arrangements for the sale of Province of Ontario stock amounting to \$1,200,000 sterling for 40 years to redeem treasury bills issued for the Temiskaming railway.

The issue price will be 98 1/2, and an arrangement has been made with the bank by which the province will pay interest in July 1 next only one-half per cent.

The issue price will be 98 1/2, and an arrangement has been made with the bank by which the province will pay interest in July 1 next only one-half per cent.

"It being desirable that a portion of the loan should be offered for sale in Canada, it has been decided that the remaining amount authorized \$1,200,000, and any amounts which may in the future be required will be payable both principal and interest in Canada.

Net Result. "In 1903, the then commissioners continued on Page 4. If a connoisseur try 'Club Coffee'."

COBALT. Two more good live business men wanted with two hundred and sixty-six dollars each to join ten others in developing a good claim in Township of Coleman, on the line of the Temiskaming & Northern Ontario Railway.

CHRIS STONG, COON HUNTER, MEETS INSTANT DEATH FALL FROM TREE

Tragedy Occurs Near Newmarket—Had Just Been Discussing "Quitting the Business."

Chris Stong of Woodbridge, king of coon hunters, is dead. It may have been the careless contempt of danger that almost surely comes in time to the man who makes risk and hazard a part of his daily routine of life, that made towards the trunk end, whether he be so or not will never be fully known.

Chris Stong has passed. He has scalded his last tree. He was drawing his dog, Pepper, and would carry on the hunt with the scaling kit that had been his trusty companion.

Of the story there is little to tell. Mr. Stong and a youth, Roy Wilson, left Foray's Hotel in Newmarket at 8 o'clock yesterday morning on the familiar expedition for coons. On the farm of William Patterson, near the occasion of Whitchurch, about a mile south of the town, was found a tall elm tree, which, by traces known to the skilled hunter, was the haunt of sought for game.

As he made ready for the climb the hunter told his companion that he was giving up coon hunting for good. He wanted to dispose of his outfit. With his spurs giving him foothold in the bark, and his stout thigh circling the tree, he began the climb. On the ascent he turned round to call down that he wanted Pepper, the white bull terrier, that has been his inseparable chum in many a hunt, to have a good home.

Death instantaneous. Watson's attention had wandered from the tree, and he was in his wagon to Newmarket. The dog remained by the body till the wagon began to move away; then his coon-hunting instincts, bred into him by long training, showed themselves, and he scurried down beneath the tree. He could not be coaxed away until late in the afternoon, hours after the fatality, which took place about 10 o'clock.

There is no need of an inquest. It was too clearly a case of accident," said Coroner Wesley of Newmarket, who has been in attendance.

Farmer Patterson was notified at once, and the body was taken in his wagon to Newmarket. The dog remained by the body till the wagon began to move away; then his coon-hunting instincts, bred into him by long training, showed themselves, and he scurried down beneath the tree.

There is no need of an inquest. It was too clearly a case of accident," said Coroner Wesley of Newmarket, who has been in attendance.

CLAYWORKERS WANT GRANT TO ESTABLISH A COLLEGE

Mr. Foy Will Introduce Deputation to Premier To-Day for Recognition of Big Industry.

The Ontario government is to be asked to-day to establish and help to support a school for the instruction of clay-workers. The industry refuses to be despised, and at the Palmer House, Toronto, a deputation of the industry is to be presented to the Premier.

The value of clay products from the last statistics are \$2,400,000 in Ontario for 1903; nickel and copper combined, \$2,250,000; gold, silver, iron, lead and zinc combined, \$665,000. The men employed in clay products were 371; nickel and copper, 1487; gold, silver, iron, lead and zinc, 987.

The deputation will ask the government to help the industry by providing instruction to manufacturers. They will point out that the United States have five of these schools and Germany and England have government-supported clay schools, brick tile, sewer pipe, pottery, terra cotta and other things.

In view of the decrease in timber in this country, the deputation will claim that their industry supplying the want of fireproof material deserves all possible aid.

Edward Morgan & Company, Chartered Accountants, 26 Wellington St. East. Phone Main 1168.

ASKED THEM TO RESIGN. But Platt and Dewey Are Still Safe in Senate.

New York, March 15.—A resolution offered in the Republican county committee to-night, calling on Senators T. C. Platt and Chauncey M. Dewey to resign their seats in the United States Senate, was quickly defeated.

The resolution was offered by James H. Allen of the ninth assembly district. Its reading created something of a sensation among the committee men. The demand was based on the recent insurance investigation.

Toronto Man Murdered Tragedy at Collingwood

Fred Lewis the Victim—Mix Up in the Grand Central Hotel—Only Lived Three Hours After Stabbing—Murderer Arrested.

Collingwood, March 15.—(Special)—A tragedy was the result of a fracas which occurred in the Grand Central Hotel to-night. It was at one of the best hotels in the city, which is patronized by many commercial men and the best business man who came here. Louis Bartelle stabbed Fred Lewis, in the barroom, at about 5 o'clock, and Lewis died three hours later.

Lewis was until lately a bartender in Midland, and he promoted himself to the position of a bill-poster not long ago. His mother is said to live in Toronto, at Markham and College-streets. He died at 8.30, from the effects of the wound.

Louis Bartelle, the man who did the deed, is a Frenchman with a good word coming to him from a host of acquaintances. He is said to live in Toronto, and is well thought of in the town generally.

Enclosures made at the house of J. D. Lewis, 315 Markham-street, a few yards from College-street corner, late last night were cordially met, but Mr. Lewis said it must be some mistake. He did not know the murdered man.

THE SOVEREIGN BANK CHANGES.

Montreal, March 15.—(Special)—A number of important changes have taken place in the staff of the Sovereign Bank. James Parker, first vice manager of the Marmoras branch, has been made assistant manager of the St. Lawrence branch.

ENCOURAGE FALL FAIRS OF BENEFIT TO FARMERS

Agricultural Estimates Under Review by Legislature—New Bills Introduced.

Progress was made with the agricultural estimates in the legislature yesterday. The opposition asked for a good deal of information about various expenditures...

Mr. Pratt—To amend the Local Courts Act. Mr. Bowman—To incorporate the Port Hope and Picton. Mr. Smyth (Algoma)—To incorporate the Current River Power Co.

Mr. Elber—Respecting the Birbeck Loan Co. Mr. Downey—Respecting the London City Gas Co.

Mr. Currie—Respecting the First Metropolitan. Mr. Fisher—Respecting the Brantford and Erie Railway Co.

Mr. Carcaillon (Hamilton)—To amend the Municipal Act.

Mr. Devitt—To condemn bylaw 618 of the Town of Bowmanville.

Mr. Lennox—To incorporate the Toronto and North Eastern Railway Co.

Mr. Lennox—Respecting the Ontario and Saskatchewan Land Corporation, Limited.

Needed Extensions. Mr. Carcaillon's amendment to the Municipal Act requires that in addition to the publication required in the case of a bylaw authorizing the issue of debentures...

Mr. McNaught's railway bill is to revive an old charter owned by Toronto men in which work has been commenced, but no agreement has been reached...

On the house going into supply on the agricultural items Mr. Ross asked if the government was adopting any definite policy in relation to the small fairs. A good deal of money was wasted on some of these small fairs...

Huron College asked for a change in the method of electing directors. The council will consist of 16 members...

Mr. Lennox (North York) has given notice in the House of Commons to introduce a bill to amend the law relating to non-resident commercial travelers...

Mr. Ross: Do you mean to say the member for London is a high stepper? Mr. Graham wanted to know if the government proposed to establish an experimental fruit station in Northern Ontario.

Mr. Monteth did not reply directly, but said such matters were receiving attention. Mr. Monteth said nothing had been considered as to establishing an experimental farm in connection with the Kingston Dairy School.

Mr. McColeg introduced the San Jose scale into the discussion. There is an item of \$4000 for spraying, and he questioned if this would be ample for the purpose.

Mr. Monteth said during the year he had looked into the matter and the government had supplied spraying material to farmers at cost price, and sent men to instruct the farmers in its use.

Dr. Jessop, who is the member for the fruit section, alluded by the San Jose scale, said \$4000 was a very small sum to be devoted to the eradication of this pest.

An item of \$500 for the Sugar Beet Association was cut out because it did not benefit the farmers, explained the minister of agriculture.

In the passing of the Ontario Agricultural College estimates, Mr. Craig caused a mild flutter by rising from the government benches to complain that Hon. Mr. Monteth had acted unwisely in the estimate of Robert Kerr, and Wm. Sherring, and his medals in this week's Sunday World.

Hamilton Masons will be interested in the report and views, including the Divan of Hameses Temple in their gorgeous regalia, and the drill of the Shriner's of Columbus, Ohio, and Charleston, S.C. Sunday World will in itself be a souvenir for every Mason, and particularly for every Mystic Shriner.

Proceedings at Orange Grand Lodge—Col. Scott is Re-Elected Master.

Goderich, March 15.—(Special).—The Grand Orange Lodge resumed business at 9.30 this morning. The various standing committees presented their reports which were after some discussion adopted. The following M.A.s arrived last evening: J. S. Duff, Dr. Lewis, G. W. Neely, W. J. J. Hunter, or the Kinardine Reporter was a delegate from the Kinardine lodge, G. H. Moorey of the Ripley lodge was a delegate from Ripley L.O.L.

The sum of \$500 was granted towards the building fund of the Hamilton Orange Hall. During the forenoon addresses were presented by the mayor and town council of Goderich, the County Lodge of South Huron and the District Lodge of Goderich, to which appropriate replies were made.

WRECK AT WHITE RIVER

C. F. R. Stock Car Off Track and Delays Traffic.

The Grand Trunk train from North Bay yesterday was several hours late. The P.E. from the west to north Bay was delayed owing to a wreck on the coast at White River. A stock car ran off the track, which necessitated the sending of a train to clear the road. The wreck occurred at the Union station, rather indefinite, and it could not be learned whether any harm befell the stock.

BOXING TOURNAMENT NOTES

English Back First to Enter—Carroll Led to Train His Class.

The announcement of the earlier dates for the spring city amateur boxing tournament was received with favor by the many candidates who are most interested in the change. Two whole weeks will be sufficient for the toughest was the general opinion. The most of the boys had already engaged light preparation.

Chicago Soccer League Formed. Chicago, March 14.—For the purpose of promoting inter-city matches, the Western Association Football League was formed here tonight. It is the intention to arrange a series of matches to fit the western championship in the association game.

City Championship. St. Andrew's College and Parkdale will play tonight at the Mutual-street rink for the junior city championship and the League Cup. Both teams are fast and a fine contest may be expected. Lew Burns will referee. The game will be called at 8.15.

Colorel Mercerized Linings. We have now in stock a large assortment of colors in Cotton Twills—prices from 37 1-2 cents to 45 cents per yard. CHARLES M. HOME, TORONTO

\$50,000 FIRE DOWN TOWN GRAND AND TOY'S SUFFER

Flames Had Wicked Hold in Basement and Firemen Had Hard Task.

Fifty thousand dollars damage was done in a fire last night in the building of Grand & Toy, 10-14 West Wellington-street. Of this amount fully three-quarters of the amount was caused by water.

The fire broke out shortly after 6 o'clock. The firemen raised ladders up the front of the building. Heavy smoke poured from the upper windows and the firemen carried the hose and Deputy Chief Noble, who is in charge, Deputy Thompson having left for a trip to the United States yesterday afternoon, arrived within three minutes and promptly had the firemen get the ladders down and groping around the basement windows to gain an entrance to the basement, where he believed the fire to be. It was found there and spreading rapidly. Flames were roaring up the air shaft, and it looked bad for the building occupied by the Legg Bros., engravers, and the deputy covered with tarpaulins.

When the firemen finished with the basement there was two feet of water in it. The wires in the building were down, and the real extent of the damage could not be ascertained. James Grand, the head partner in the firm, was summoned from the National Club, where he was dining with the Muskoka Lakes Association to come to the fire. After it was all over he said that his stock was worth \$50,000. He had \$42,000 insurance on the stock.

"I consider it an almost total loss," he said. "It is the second blow within ten days." Mr. Toy, the other member of the firm, died within that time.

The building belongs to the Robinson estate, and was damaged to the extent of about \$5000. In the Phillips & Wrench building, one door east of Grand & Toy's, a window in the warehouse overlooked the courtyard and was broken by the heat.

Some of the firemen were called away to the George Hamilton Tanning Co. on the Don esplanade, above Queen-street, where about \$1000 damage was done. Neither the building nor the contents are insured.

BRIDGEGIVE RECORDS. The Sporting Editor World: On behalf of the Bridge Junior Hockey Club I write asking you to conduct the bridge report of the series of games played between Gravenhurst and Bracebridge. The following is a report of the four games: Gravenhurst at Gravenhurst, score 8-5; Gravenhurst at Bracebridge, score 11-1; Gravenhurst at Bracebridge, score 12-5; Gravenhurst at Bracebridge, score 3-2.

It is a fact that Gravenhurst had a little more experience in the game and did not lose but he had a better account of the goals, he would have been much better account of the game and not lead his dear friend Julius Kieper a race. The following is a report of the four games: Gravenhurst at Gravenhurst, score 8-5; Gravenhurst at Bracebridge, score 11-1; Gravenhurst at Bracebridge, score 12-5; Gravenhurst at Bracebridge, score 3-2.

SIX MILLION LOAN

Continued From Page 1.

for the construction of the T. & N. O. railway attempted to float a loan guaranteed by the province, receiving some offers which were not accepted. In November, 1904, the government again proposed to issue a similar loan, but on account of the state of the market were advised to issue treasury bills, which was done, the loan not being advertised. The net result of the present issue to the province will be \$350,000 in excess of 1903, and will be over \$50,000 in excess of any offers made in 1905, and slightly in excess of any other offer received during the present year.

"I may say," went on the provincial treasurer, "that the usual practice in London is to advertise only for a few days say three or four of them. The honorable gentleman opposite will understand the necessity of any discussion being postponed till at least next Tuesday, when we hope to be ready to deal with the matter very fully."

Hon. Mr. Harcourt rose to say that no one would be more glad than he to see that good results were obtained from the sale of the securities. He went on to give the opinion that Mr. Matheson's bit of financial engineering was not so gratifying in results after all.

It is not inopportune to say to the house that the province has sold securities to our own people for less than 30, that is not such a marvellously good transaction. I had been in hopes for the last couple of years that we would have been able to dispose of these securities at a rate not perhaps the same as the best rate that has been obtained, but about as good. Our own people would do well to take these at a better rate than 3%.

"When all the information is obtained it will be learned that with the items of expense in floating securities in London, the results will not be as good as hoped, he went on to say. He also mentioned a considerable diminution will be made from the face value of a \$1 bond or stock security."

Mr. Harcourt agreed that the present was not the time to enter into a full discussion of what he admitted to be a somewhat intricate financial question. He was ready to offer reasonable congratulations, but had to say that on more than one occasion the province had taken securities at a price that was not so good as the market rate.

CHRIS STRONG, HUNTER. Continued From Page 1. Fall, as far as he could be measured, was about 50 feet. The head and shoulders struck first, apparently on a hardwood stump. The base of the skull was fractured, and the bones in the body were also broken. Death must have been instantaneous.

A Native of Vaughan. Christian Albert Stong, who was 43 years of age, was born in Vaughan, Ontario, in 1863. He was a hunter and a trapper, and was known for his skill in hunting and trapping.

He married twice and leaves a widow and three children, the eldest of whom, a boy, aged 22, is in the Northwest. Deceased had a wide circle of friends and was much liked. The funeral takes place on Sunday afternoon, and service will be held at Stong's Church, Townsend.

His Progress as a Hunter. Chris Stong, during the 20 years in which he hunted coons is estimated to have captured something like 2000 coons. He was known for unerring instinct in detecting their hiding places and few escaped him. His first proceeding was to look for claw marks.

the weight of one of them resting upon the stick he would begin to pull and force the coon to climb. On getting him up the stick he would take a revolver and dispatch the coon with a revolver or seize him and throw him to the ground. By the use of his methods he has secured the most valuable of the game animals, some of which weigh 40 pounds and over, in a single haul.

Regarded Coons as Pest. Chris Stong was sometimes criticised for what was termed his butchery of coons, but he always held that the coon was a pest, killing poultry and ravaging grain in field and granary. The pursuit was a profitable one to him from the money view, as he was able to secure good returns for the pelts, which had been averaging in about 1905.

Among the points in his record was the capture of 187 coons in the winter of 1902. In 1904, at Sharon, he took 24 coons in 1-2 hours, his greatest achievement for quick work.

SHALL CANADA SYMPATHIZE

Continued From Page 1.

It was entirely willing that the matter be laid over for the present. Mr. Bourassa, recalling the fact that he was the grandson of Papineau, and therefore a friend of freedom, announced that he was not prepared to join in the resolutions regarding the exiled Jew that was now prevalent in Canada and would it not be well for Canada to attend to her own business?

It was not inopportune to say to the house that the province has sold securities to our own people for less than 30, that is not such a marvellously good transaction. I had been in hopes for the last couple of years that we would have been able to dispose of these securities at a rate not perhaps the same as the best rate that has been obtained, but about as good.

Mr. Harcourt agreed that the present was not the time to enter into a full discussion of what he admitted to be a somewhat intricate financial question. He was ready to offer reasonable congratulations, but had to say that on more than one occasion the province had taken securities at a price that was not so good as the market rate.

RIVERDALE ORGANIZES.

Association Formed to Promote Local Improvements.

The building by the city of a spur railway line along the waterfront from a point around the foot of Cherry-street, to the foot of the water tower, and the building of a bridge over the river at Riverdale, to provide sites for industries which the line could serve, these were the primary reasons for the formation of the Riverdale Association.

Mr. Fitzgerald: I think I have no such authority. There is no penalty attaching in any form to a shareholder or shareholder who is not a shareholder of the company.

Mr. Fitzgerald: Several companies have and several companies still have, securities of this nature authorized. They exceed the amount authorized. The North American Life now has a larger amount invested in and loaned up than the company authorized by the act.

Happiness in a Grain of Wheat. It Contains Every Food Element Necessary for Perfect Food, Energy, and Brings Perfect Health. All authorities agree that fourteen elements are needed in the human body to maintain perfect health, and that these must be supplied in the food taken into the system. Nature has provided us with one single article of food containing all of these fourteen elements in the exact proportions necessary to supply our bodies with vitality, strength and health.

MUTUAL FIRE INSURANCE

CAN'T WILL ENCOURAGE

Proposal That Three Such Organizations Be Formed—Association Will Co-Operate.

A largely attended meeting of the executive council of the Canadian Mutual Fire Insurance Association took place yesterday with C. C. Ballantyne of Montreal in the chair. The feature was the presentation of the insurance committee report by Mr. Heaton, manager of the insurance department, which resulted in the endorsement of the formation of three mutual fire insurance companies.

The resolution embodying the report says that while it was endorsed in principle by the government, it was understood that such mutual fire insurance companies must be apart from and altogether independent of the association.

Mr. Heaton said this class of insurance (which must not be confused with the companies known as the New England Mutuals) was not an experiment, and the insurance department of the association felt the time had come when they should grant their support and co-operation to companies to be organized in Canada on parallel lines.

The members of the association, who are to go as delegates to the sixth assembly of Congress of Chambers of the Empire to be held in London, England, were appointed.

Mr. Heaton said this class of insurance (which must not be confused with the companies known as the New England Mutuals) was not an experiment, and the insurance department of the association felt the time had come when they should grant their support and co-operation to companies to be organized in Canada on parallel lines.

The committee also recommended that the express companies be put under the jurisdiction of the railway commission. A resolution adopted by the committee was to the effect that the executive committee of the Canadian Manufacturers' Association urge the government not to delay action on the important question of electrical power for Ontario, and to express the hope that the report now in preparation by the electric power commission will be presented at an early date, and be dealt with at this session of parliament.

INFRACTIONS OF THE LAW

Continued From Page 1.

having illegal United States investments. The question came up this week: Mr. Tilley, if you found, on Dec. 21, that a company had securities you believed perfectly good, but not authorized by the act, would you not say to the company that it was not the security which you could manage money, and you must get rid of it?

Mr. Fitzgerald: I think I have no such authority. There is no penalty attaching in any form to a shareholder or shareholder who is not a shareholder of the company.

Mr. Fitzgerald: Several companies have and several companies still have, securities of this nature authorized. They exceed the amount authorized. The North American Life now has a larger amount invested in and loaned up than the company authorized by the act.

Mr. Fitzgerald: I think I have no such authority. There is no penalty attaching in any form to a shareholder or shareholder who is not a shareholder of the company.

WHERE IS YOUR SALARY?

The person who commences the week with the knowledge that the past week's salary is gone and that a mortgage on the coming one, has little incentive to work, and as a rule does not die value received his employer. On the other hand, the man who has a snug savings account with this company, and adding to it constantly, it is a safe statement to make that he has enjoyed the life of a millionaire.

Mr. Fitzgerald: Just the circumstance I have mentioned—that was one circumstance where I had asked for certain information. Although it was given it was given reluctantly. There have been other cases of a similar nature.

Mr. Fitzgerald: Within the limits required by the Insurance Act, there have been many inquiries made under it. In one or two cases it became necessary to point out one section.

Mr. Fitzgerald: Yes, and any matter that naturally grew out of the insurance was sent to us. Then Mr. Fitzgerald went on to say he proposed one section, but the first line was altered to read "for the purposes of the provisions of this act," which, he said, crippled the clause and made it of very little use.

Mr. Fitzgerald: Several companies have and several companies still have, securities of this nature authorized. They exceed the amount authorized. The North American Life now has a larger amount invested in and loaned up than the company authorized by the act.

Kidney Disease On the Increase

Recent reports of the New York Board of Health prove that the mortality from kidney disease is greatly on the increase. Bright's disease as well as the other dreadfully painful forms of kidney disease can usually be prevented and cured by giving some attention to the diet and to the activity of the liver and kidneys.

SCRAPS OF NEWS FROM OVER SEAS GLEANED FROM ENGLISH PAPERS

A Letter From South Africa in Which Leading Boers Express Their Confidence in the Liberal Government and Promise Loyalty to Great Britain—Miscellaneous Matters of Interest.

The following letter, which appeared in The South African News, of Feb. 7, is worthy of attention. The Boers as champions of British supremacy appear in quite a new role:

"In accordance with a recent resolution of the Hanover No. 1 Branch of the Afrikaner Bond, confirmed by the Districts Bestuur, the following letter was sent to the prime minister by last week's mail:

"Sir: We have the honor to inform you that at a meeting of the local branch of the Afrikaner Bond, held here on Jan. 20, it was unanimously resolved that by the Afrikaner Bond we congratulate you on your magnificent success over the reactionary forces of Great Britain as represented by the Chamberlain regime. There has always been a division of the Afrikaner Bond, that once the people of Great Britain understood, they would at the first opportunity show their true sentiments against the wrong which we have never had the slightest intention to waver in our assured conviction that the war was deliberately brought about by the Boer people in their own sordid interests. In your own mind, you will understand how your brave attitude before and during the war has endeared you to the vast bulk of the permanent population of South Africa. Indeed, we may say we hope for a pardonable pride in the thought that even before the great bulk of you we people knew enough to honor you as you deserve, we never had a doubt as to the pride with which they should regard you—not only on account of your bravery but also in account of your wise and far-seeing statesmanship.

"It is now felt that you have an almost unique opportunity of proving that British honor, so sadly tarnished by the Boer war, may be restored to its former glory. We have the honor to inform you that at a meeting of the local branch of the Afrikaner Bond, held here on Jan. 20, it was unanimously resolved that by the Afrikaner Bond we congratulate you on your magnificent success over the reactionary forces of Great Britain as represented by the Chamberlain regime. There has always been a division of the Afrikaner Bond, that once the people of Great Britain understood, they would at the first opportunity show their true sentiments against the wrong which we have never had the slightest intention to waver in our assured conviction that the war was deliberately brought about by the Boer people in their own sordid interests. In your own mind, you will understand how your brave attitude before and during the war has endeared you to the vast bulk of the permanent population of South Africa. Indeed, we may say we hope for a pardonable pride in the thought that even before the great bulk of you we people knew enough to honor you as you deserve, we never had a doubt as to the pride with which they should regard you—not only on account of your bravery but also in account of your wise and far-seeing statesmanship.

HOW SHE KEEPS BEAUTIFUL

The Mystery Solved.

Like the flowers that bloom in the spring the young girl just budding into womanhood is an inspiring sight and she is usually beautiful if she is perfectly healthy. She is favored by nature just so long as her health and constitution remain good. Let her be nervous, have backache, sleepless nights, and how soon does it take for wrinkles, grey hair, and other signs of age to appear in the face? Her cheeks were rosy until she began to suffer from woman's weaknesses and the constantly recurring pains and drains brought her down to the point where she was no longer a young girl but a prematurely middle aged woman. It was not meant for women to suffer so—it is due to our unnatural, but civilized methods of living and to the fact that so many neglect these small ills which soon lead up to larger ones. Nothing so drags a woman down as those constant recurring periods when she suffers more and more from a chronic condition that can be easily cured. A woman should take an alcoholic compound for that will disturb digestion, and the food is quickly compacted and becomes hard to digest, mixed with alcohol, rendering the food indigestible. She must go to Nature for a cure. The native Indians of early times were far from wrong when they called a marvelous medicinal plant "Squaw root"—what the physicians of our day called Caulophyllum or Blue Cohosh. This and Black Cohosh, Golden Seal, Lady's Slipper, and Unicorn root are the most important ingredients of a wonderfully successful remedy in modern times, namely, Dr. Pierce's Favorite Prescription. Having made a special study of the cases of women in the early sixties Dr. Pierce soon found that a glyceric extract of these roots with Hydrastis or Golden Seal and Lady's Slipper root, combined with just the right proportions, made the very best tonic and cure for the distressing complaints of women. Where women suffered from backache, weakness, nervousness and lack of sleep, it was usually due to functional troubles, therefore this prescription directed at the cause cured 98 per cent. of such cases. It is why Dr. Pierce soon put it up in a form ready to be procured all over the United States.

Aching from head to foot—that is the condition that afflicts some women at stated periods—backache, dizziness, and pains almost unbearable. An honest and safe remedy which no woman can afford to lose the opportunity of trying for the cure of these distressing complaints which weaken a woman's vitality is Dr. Pierce's Favorite Prescription. Dr. Pierce not only assures you that his "Favorite Prescription" is honestly made, but he lets you know just what it contains.

The best of medical authorities recommend and extol the virtues of the above ingredients in "Favorite Prescription." Thus F. Ellingwood, M.D., Professor of Materia Medica, Bennett Medical College, Chicago, says of Golden Seal: "It is an important remedy in disorders of the womb, in all catarrhal conditions." Of Lady's Slipper root he says: "Exercises special influence upon nervous conditions depending upon disorders of the female organs; relieves pain, etc." Prof. John King in The American Dispensary says of Blue Cohosh root: "This is a very active, powerful and useful remedy. It plays a very important part in diseases of women, the painful conditions incident to womanhood. In dysmenorrhoea it is surpassed by no other drug, and of greatest utility in irritative and congestive conditions."

"His action is slow, but its effects are permanent." It is a reliable and safe remedy for neuralgia or dysmenorrhoea. It is promptly curative.

Dr. John E. Taylor, Conn., Editor of the Department of Therapeutics in The Electric Review says of Unicorn root (Hyalocystis): "It is one of the chief ingredients of Dr. Pierce's Favorite Prescription. A remedy which invariably acts as a tonic, and gives an order and always favors a condition which makes for normal activity of the entire reproductive system, cannot be of great usefulness in the treatment of the utmost importance to the general practitioner of medicine."

In Honolulu we have a medicament which more fully answers the above purposes than any other drug with which we are acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for its remedial use."

This evergreen poem is dedicated to the pages of The British Weekly by "Jan Macdonald" (the Rev. John Watson, D.D.), who comes down rather heavily in favor of the written word. "If," he says, "your minister read and you would prefer that he should deliver, may I whisper into your ear? You can't imagine how much he would suffer the other way—and you do not wish his day to be shortened; nor can you imagine how much you would lose, and you do not want to get all he has for you. The prejudice against reading is, I fancy, dying slowly, and there are a considerable number of people who would be greatly pleased if their minister did read, because the material would be riper and the manner more restrained."

Says a cablegram of Feb. 13 from Tokyo, Japan: "The gala performance given at the Kabuki Theatre last night in honor of Prince Arthur of Connaught was a brilliant affair, the bright interest being the costumes and the rivaling in magnificence the scenes on the stage. The actors were reinforced by a select company of geishas. The Japanese of the program, the Anglo-Japanese Alliance, specially written for the occasion, dealt with the adventures of a pilot, Bill Adams, who is reported to have been wrecked on the shores of Japan in the seventeenth century, the culminating point of the play being reached when Bill Adams marries the Japanese girl, thus forming an Anglo-Japanese Alliance. The costumes were also performed. Their chief point of interest was the display of costumes of different periods of the history of Japan."

The spectacles through which, it is said, Lord Nelson viewed the famous conflict on the Nile have just been discovered at Liangolien. After the victory of Trafalgar, the eyeglasses were given by the victor to Lady Hamilton. She wore them on the Nile, and the Earl of Breadalbane, whose widow sent them as a present to her uncle, George Doughty of Edinburgh, Salt, and the admiral, Hiram Davies, who died a few weeks ago at Liangolien. The eyeglasses, which appear to be of the useful rather than the ornamental variety, are now in the hands of the son of the late Mr. Davies, who cherishes them as a family heirloom.

A new electric tramway route giving convenient access from the Strand to Islington was opened in London on the 12th inst. The line, which is a narrow gauge, starting from Aldwych, runs through a subway along the new Kingston, thence on the surface to Islington. The line is 2.5 miles long, and is operated by the London and North Western Railway Company. It is a very convenient route, and is expected to be a great success.

A memorial tablet has been erected by the London County Council on No. 110 Gower-street (formerly No. 12 Upper Gower-street), where Charles Darwin lived from 1839 to 1842. Here the great naturalist completed his work on "Origin of Species," before his health necessitated a move into the country, when the family settled at Down, where the remainder of Darwin's life was spent.

While digging on land near Frenchpark, County Roscommon, recently, a laborer discovered a very interesting and valuable find. It was a small, round object, about six feet in diameter. It was found in a narrow winding passage led to an old castle, about a quarter of a mile from the present site. The passage is well-built, and some of the walls bear traces of rude inscriptions, while a number of skeletons and bones were found in the passage. The find is evidently of great antiquity.

The Oxford Tribune understands that John Talbot has been approached by a prominent Unionist free trader, who wishes to retire from the ranks of Lord Hugh Cecil from the seat at Oxford University, which he has held continuously for over five and twenty years. Mr. Talbot is a member of the honor and privilege of membership of parliament are so great that members are reluctant to give up the privilege of their time and means and health. The only thing they do resent is that if they die in the people's hands, their names are not on the list, or in regret is officially spoken in the house where they may have labored half a lifetime.

Exciting scenes, says the Cardiff correspondent of The London Daily News, were witnessed the other night at the Village of Llanllun, Carmarthenshire, consequent on a visit from the Roberts, the Welsh revivalist. While hymns were sung men and women were dancing and shouting in the pews and on the benches. A number of women fainted, while the shouting and dancing were deafening. Scores of men and women were praying simultaneously, some kneeling in the pews, others standing, while a few stood on the seats.

Lord Meath writes to The Courier to state that those interested in the "Empire Day" movement may like to know that up to the present date some 25,000 schools throughout the empire have been reported as having last year observed May 24, or as intending to do so this year. The figures given include the Empire Country Club, Ontario, 1889, Cape Colony 2400, Victoria-Australia 2500, Nova Scotia 2400, New Zealand 1877, New Brunswick 1860. If one hundred scholars be calculated as the average number attending each of these schools, the total number of children officially reported as coming under the influence of the movement may be calculated as two million five hundred thousand.

The coming season will be Lord Hawke's twenty-fifth year of Yorkshire cricket, and he is "game" for many a match yet.

The Practitioner considers in his new government toward the medical profession, there are only eleven mentioned in parliament to-day, and the Practitioner doubts their cohesion. "We need not, therefore, look for any amendment of the medical acts in the lifetime of the present government. We may, indeed, consider ourselves fortunate if nothing is done to curtail such privileges as we possess, and if no new obstacles are placed in the path of scientific progress."

Following a custom which has obtained for many years, a large number of the parishioners of Ashbourne, on Shrove Tuesday indulged in an old-fashioned game of football, which was confined on Ash Wednesday. The committee, however, was young man, named Tunnicliffe, who, apparently exhausted by his exertions, sank down in a hedge on the way home, where he was subsequently found frozen to death.

Yarmouth Licensing Committee, at their annual meeting, announced that there would be no recommendations for renewing the number of licenses, as that was being done automatically year after year by the "Trade." The committee hoped, said the chairman, that the process would continue, as it was most satisfactory alike to the authority and to the public, and he hoped, not unsatisfactory to the "Trade." The compensation fund now totaled £1100, upon which there had been no claim, and the board hoped they might not have to draw upon it.

In consequence of the large increase in the price of pork, the Isle of Wight Guardians decided to discontinue the purchase of pork for the present, and to substitute colonial beef and mutton. The price of pork was quoted at 11s. per score, as against 7s. 6d. for mutton. The chairman said they could not afford to keep inmates on luxuries. One member of the board was quoted as saying: "I regard pork as a poor man's diet."

In a few days another house will be opened to visitors at Pompel, which, for the beauty and importance of its frescoes, will rival the famous "House of the Vetti." It will be called "The Exhibition in commemoration of the visit of the band of the regiment to this country last autumn.

The Lord Mayor of London has opened a fund at the Mansion House for the relief of the sufferers by the appalling famine in Japan, and invites the public to contribute to it. The fund is a very charitable one, and is expected to be a great success.

Andrew Carnegie has sent Dalton-Freeman a very attractive offer. Some time ago he advanced the sum of £3000, and a central library and two branches were built. The council applied to him for a further donation, covering the extra expenditure, and this Mr. Carnegie has now emphatically declined to do. He says there is too much of a "melancholy" about the matter of course."

G. H. Druce, the Australian claimant to the titles and estates of the Duke of Portland, continues, in the new number of The Idler, his starting story of the fifty duke. His method is to present the history, so far as they are known, of the fifth duke and Thomas Charles Druce, who he claims were one and the same person, his own grandfather. It is a strange, melodramatic, yet sufficiently circumstantial tale, and we are told its ultimate telling in a court of law will startle England. In the meantime, it forms a sensational feature in an interesting magazine.

The convent of the Daughters of the Cross, with its Gothic cloister, the scene of the last act of the novel "The Cross of Berger," is to be sold by auction. Founded in 1639, the establishment is one of the oldest and most picturesque buildings in Boston. A curious feature of the chapel is the double grille allowing the sisters to worship unseen by the rest of the congregation. The nuns of the convent abound with beautiful rose trees, the gift of Graveau, the French Dean Hook, and these will go to Bagatelle Park, where the Bois de Boulogne collection in which will then be equal to that of King Leopold at Laeken.

Edward Steinkopf, a former proprietor of The St. James' Gazette, and founder of a well-known table-water business, which he sold for two million, has died at his home in the Strand, London, on the 14th inst. He was 78 years of age.

average number attending each of these schools, the total number of children officially reported as coming under the influence of the movement may be calculated as two million five hundred thousand.

ENGLAND'S FIRST GREAT FIGHT ON THE OPEN SEA

How Eustace the Monk Came to Grief Owing to the Tactical Skill of Hubert de Burgh.

The following spirited passage is from The March Cornwall: Hubert de Burgh, Justiciary of England and Governor of Dover Castle, could only muster sixteen large ships belonging to the Cinque Ports fleet, and a score of smaller vessels; but he bade the garrison, if things went ill with him, to surrender him to be hanged from the gallows. He then sailed for the Cinque Ports, and there, having taken the sacrament, he put to sea to meet the French fleet with Eustace the Monk. The French fleet consisted of the Calais with a fresh southern wind, and steered to round the North Foreland. The little English fleet stood out from Dover close-hauled on the starboard tack, plunging into the short channel sea as if they designed a counter-raid on Calais. The monk misanderstood their tactics, as he tactically as he tactically said he, "but it is too well defended for them," and so with disdain he held his course. The English ships were not very weatherly. Short and broad, with high-built fore-castles and after-castles, their one mast stepped high, and their hulls were of English oak, which had time carried two masts; they were not built to sail near the wind; but they stood on till they crossed the water in triumph, and gained the windward position desired. Then by some preconcerted signal they bore up together and struck the French fleet. The French ships were the archers under Sir Philip d'Aubini poured in a storm of arrows. Bags of stones were hurled from the masts, and the English ships were emptied from the top, to be carried by the winds into the Frenchmen's eyes, and as the heavy ships surged forward on the following sea the iron beaks on their bows pierced and tore the French hulls, and many were sunk at the first blow. Then they grappled and fought hand to hand, cutting the haliards so that yards and sails came down with a run and trapped the Frenchmen like birds under a net. Pierce and his crew were the slaughter. Many were the vessels stove in and sunk as they rolled and beat against one another. The great fleet of Eustace the Monk was broken and dispersed; only 15 of his ships were able to make their escape. The rest went down in the grey sea off Foreland or were towed in triumph to Dover. Many prisoners were taken of such as were able to pay ransom; but Eustace the Monk was beheaded on his own deck. His fate is duly recorded in the romance of which he is the hero.

Wistassac il moigne occis; Et il est de tests copiez en l'histoire de France. That was the first of the British naval victories. Of all those which followed it none was more complete, and only a very few displayed as much tactical excellence.

In a few days another house will be opened to visitors at Pompel, which, for the beauty and importance of its frescoes, will rival the famous "House of the Vetti." It will be called "The Exhibition in commemoration of the visit of the band of the regiment to this country last autumn.

The following program for a St. Patrick's Day organ recital in Sherbourne Street Methodist Church at 4 p. m., to be given by Mr. Blackley, has been arranged: Sonata, on Irish Air; Religious meditation, "Come Ye Disciples"; Quartet, "Oft in the Silly Nights"; Overture, "Bohemian Girl"; Ballet, Suite, "Irish Scenes" (a) Love Song (b) Irish dancing (c) Dreams (d) Lullaby; Quartet, "O Breasin' Noh; His Name"; Faugh-a-ballagh (at Ballacava); vocalists, Misses Crawford and Selway, Messrs. Bemrose, Croxall and Reiner.

In order to be successful in the show business nowadays one must be thoroughly up-to-date in every respect. There is no truce on the circuit to-day has gained such success as the "Kentucky Blue" the sterling organization that is booked to hold the boards at the Star Theatre next week.

The program which will be presented by the fascinating Dolmetsch Trio to-night at Conservatory Hall is one of great charm, and it has many popular favorites. Every student, however, should attend. The selections are as follows: Three Scotch Tunes for the Lute; An Anonymous 16th Century Song accompanied by the Lute; "Deere, if You Change"; John Dowland, 1597; "La Caccia"; Thomas Morley, 1595; Mr. Arnold Dolmetsch and Mrs. Arnold Dolmetsch.

An Old English Ballad for the Viola da Amore, Anonymous, 17th Century; A Song from "The Indian Queen"; Accompanied by Henry Purcell, 1675; "La Caccia"; Thomas Morley, 1595; Mr. Arnold Dolmetsch and Mrs. Arnold Dolmetsch.

The Harmonious Blacksmith, for the Harpsichord, G.F. Handel, 1721; Sonata for the Violin, accompanied by the Harpsichord, G.F. Handel, 1710; "Le Coucou," for the Harpsichord; Mr. Arnold Dolmetsch; Claude Daquin, 1720; Mr. Arnold Dolmetsch.

New York, March 15.—Prof. Guillaume Stengel, the husband of Mme. Marcella Stengel, the prima donna, is in a serious condition to-day at the Savoy Hotel, as a result of an automobile accident last night. He had gone to a steamship pier to see some friends, and as his automobile ran on the dock one wheel struck a gate. The shock threw Prof. Stengel against a glass window in the automobile, cutting him badly and rendering him unconscious.

Still Heopeful. "I should have been 90 years old that day." "I suppose you're about ready to go?" said a jocular friend. "Well, no," answered the old man mildly. "I sold a poem to a monthly magazine when I was about 25. It is kinder like to hang on to see the dura thing, in print."

CHICAGO'S VICTORY OVER THE STREET RAILWAY CORPORATION.

One of the greatest stumbling blocks in the way of the municipal ownership and operation of the Chicago street railways has been removed by the decision of the supreme court of the United States issued on Monday last.

The judgment of the supreme court leaves the way clear for the initiation of a municipal street car service. The companies still enjoy a remnant of their original right in various streets on the north, south and west sides of the city, but in all others their rights have absolutely expired.

With that curious apportionment which happens not infrequently, the morning that gave the public the news of the city's victory in the courts also saw the publication of the reports on the traction systems made to Mayor Dunne by James Dalrymple, the general manager of the Glasgow Civic Tramways.

In a second report supplied at the request of the mayor, Mr. Dalrymple gave lengthy advice on the subject of the administration of the car lines by the municipality. What he particularly emphasizes is the necessity of appointing a general manager having absolutely no connection with any political party and who owes his appointment solely to his fitness for the position.

"The success or failure of the undertaking," he says, "depends in a large measure on the manner in which the general manager carries out his duty. You will no doubt see that it would be impossible to secure the best man for the position unless he has an agreement over a period of years and is made entirely independent of all changes in the city council."

Mr. Dalrymple reaffirms in the most explicit manner that his sympathies are entirely on the side of municipal ownership and operation of street railways, and repeats that it is now an accepted principle in Britain that all public utilities—such as water, gas, electric light, street railways, etc.—be under the control of the municipality.

When the public utilities which so vitally concern the comfort and convenience of the community are in the hands of the citizens themselves the best of all incentives to clean and efficient city government is provided.

Private and public bills before the Ontario legislature must as usual take their risk of passing the scrutiny of the various committees. It is understood that a member of the legislature who does not introduce some sort of a bill during the session is not earning his indemnity in the opinion of his constituents.

provincial treasurer, but his criticisms would have been more effective had he equalized the monetary conditions. To compare a flotation in the chief world financial centre with the prices obtained locally for small provincial loans was permissible only from a party standpoint.

judged by this standard, the verdict must be very different from that pronounced by Mr. Harcourt. The terms, as stated, testify to the high credit accorded the Province of Ontario and the soundness of its financial position. To be placed on an equality with the highest class of gilt-edged securities is entirely satisfactory, and will be appreciated at its true value by the citizens generally.

China, according to one of the secretaries to the commission from the Celestial land, which has been investigating the secrets of western success, has aspirations after a constitution modeled after the English pattern.

GOOD ADVICE FROM AN ENEMY. The New York Times in its Topics of the Times says: One whom we suspect of antagonism to any change whatever in the spelling of English words slyly suggested to me in turn, innocently suggested to Mr. Carnegie that he begin his reform with his own name.

CANADIAN POLICYHOLDERS' ASSOCIATION

Get the Form Below Signed and Forward it to the Association.

To Dr. Moorehouse, chairman, and O Goode, Secretary Treasurer, Canadian Policyholders' Association, Gooderham Building, Toronto:

We, the undersigned, hereby agree to become members of the Canadian Policyholders' Association for the protection of life policy-holders, and to subscribe the membership fee opposite our respective names.

Table with 3 columns: NAME, ADDRESS, MINIMUM SUBSCRIPTION 25c.

Where there is no graft public ownership usually pays. Farewell, Madame Albani. Delighted to hear you when you pay us your next farewell visit.

However, the senate seemed to be wide enough awake when the salary grab was going thru to know that hon. senators would also share in the hand out.

Mr. Labrosse, M.L.A., wants to change the election law so that when New Year's Day falls on the first Monday in the year the election shall be held the previous Friday, but Hugh Clark wants to know how it will be when the first Monday in the New Year falls on Wednesday.

How would it do for the Dominion parliament to place itself on record that in future, salary grab resolutions shall come before the house only during the session of parliament immediately preceding a general election, the grab to come into effect in the succeeding parliament?

Store Opens At 8 a.m. THE T. EATON CO. LIMITED Store Closes At 5 p.m.

What's New in Men's Furnishings

What's new? Come and see. Counter after counter of new goods. And everything so conveniently arranged and pleasingly priced that men no longer worry over having to go "shopping."

Our aim in this department, as in every other of the store, is to serve you well, to do it quickly and to save you money at every step. It's worth while patronizing such a helpful store.

Saturday we're displaying the new spring styles. You're invited to inspect. It's another emphatic demonstration of the leadership of this house in Men's Apparel.

At 50c.—New Colored Shirts, with negligible and laundered bosoms; prettily striped and figured cambrics and fancy American cloths.

At twice that price—Shirts of true elegance, that bespeak their worth at a glance. Negliges, pleated or laundered bosoms; splendid assortment of new stripes, figures and checks, \$1.00.

Fancy Colored Shirts of finer quality sell at \$1.25, \$1.50 and \$2.00. Newest American and European styles; shirts of beauty and fitness.

We've always claimed leadership in our Fine \$1.00 White Laundered Shirts of Austrian make. A most particular man would endorse every feature of it.

25c for New Neckwear of the choicest imported silks—light, medium and dark shades; four-in-hands, graduating ends, shield knots and bows. Such value could not readily be duplicated.

At 50c.—A grand assortment of New Imported Four-in-Hands, exceeding in variety and value all previous seasons. These reversible silk ties come in the latest spring and summer shades.

Imported Four-Ply Linen Collars, in most every style you could wish. Sizes 14 to 18, at 12 1/2 c.

Our 25c High-Grade Irish Linen Collars, in full-dress style, will appeal strongly to careful dressers. In quarter sizes—from 14 to 17—insuring perfect fit.

How would a pair of these Fine Elastic Web Suspenders, selling Saturday at 50c, suit you? The famous President, Police and Firemen, "Crown" make; also the French Guyot. Take your choice.

MAIN FLOOR—QUEEN STREET.

Money cannot buy better Coffee than Michie's finest blend Java and Mocha, 45c lb.

LOCAL OPTION IN BRANT. Campaigns in All the Municipalities May Be Inaugurated.

Brantford, March 15.—(Special).—At a large meeting of local optionists held in this city today a resolution was unanimously carried recommending that the municipality in the County of Brant, including the City of Brantford and the Town of Paris, shall pass a local option by-law.

Two Special Ten-Day Excursions. In April via Lehigh Valley Railroad, Special Easter Washington excursion.

Excursion to New York, March 20, via West Shore Railroad from Suspension Bridge or Buffalo, tickets good for return up to and including March 29.

Portraits of the Smith family of Toronto, who will appear with Chauncey Olofin, in the new Irish comedy drama by Edmund Burk, in this week's Sunday.

Experience is the best teacher. Housekeepers, who have tried them all, say WINDSOR TABLE SALT is the perfect table salt.

CASTORIA. The Kind You Have Always Bought. Bears the Signature of Dr. J. C. Williams.

300 INDEPENDENT LINES
UNITE TO FIGHT MONOPOLY

Telephone Companies in Iowa Will
Organize into One Concern
to Cover the State.

Des Moines, Ia., March 15.—At a meet-
ing of the representatives of 300 inde-
pendent telephone companies of Iowa
today, the organization of a quarter-
million dollar corporation to fight the
Bell Telephone Company in Iowa be-
gan.

Each independent company is to put
up \$1000 into a fund to fight the so-
called trust.

The organization of the independent
lines of the state into one company,
entirely covering Iowa, also began to-
day.

THE BAIT IN DANGER.

Joseph Jefferson was a strong believer
in early marriage and he never missed
an opportunity to impress his convictions
upon young men. In an address at
Yale he said:

"I nominate bachelors. The older
they grow the more conceited they be-
come. I was talking to one and I asked
him why he did not marry. He parried
the question by telling me about differ-
ent young women he had known, and
finding fault with each one. But it ap-
peared to me that he was married."

"You are in danger of getting left,"
I said to him. "You had better hurry
up before it is too late."

"I know that," he said, "but the bait
is there danger of the bait becoming
stale."—Everyday's Magazine.

"Secret" to the Rescue.

From Sketch.
First Wrecked "Lifeboat" "Is that
wretched lifeboat coming?"
Second—"Yes, it's all right. A power
boat, evidently. I can't see it, but I
can smell it."

DOAN'S

KIDNEY PILLS

AND CAN BE CURED BY

DOAN'S

KIDNEY PILLS

It is not the back that is aching, but the
kidneys which are situated beneath the
small of the back.

Therefore, dull pain in the back, or sharp,
quick twinges, are warnings of sick kidneys—
warnings of kidney trouble. Plasters
and liniments will not cure a bad back, for
they cannot reach the kidneys which cause
it. Doan's Kidney Pills reach the kidneys.
That is what they are for and that only.
So, if you would be free from backache,
swelling of the feet and ankles, frequent
urinating, specks floating before the eyes,
frequent thirst, brick-dust deposit in
the urine, or anything wrong with the
primary organs of the body, you must keep
your kidneys well. Help them to work
freely, and help them to flush off all the
poor's waste and impurities.

Doan's Kidney Pills are made from the
purest roots and herbs, and have a remark-
able healing and toning effect on the kid-
neys. Mrs. Barling, 26 Locomotive Street,
Hamilton, Ont., writes: "I had been
troubled considerably with my kidneys,
using many remedies, but finding no relief,
I tried Doan's Kidney Pills and found
them to act directly on the kidneys, and
making them strong again."

Price 50 cents per box, three boxes for
\$1.25, all dealers or The Doan Kidney Pill
Co., Toronto, Ont.

SOME INTERESTING THINGS
IN THE CRIST FROM CITY WILL

Chains to Prevent Drowning—
Market Wants Radicals—Won't
Destroy Tower—Notes.

Giving unfortunates a chance to save
themselves from drowning thru falling
off the docks was one of the interest-
ing discussions before Aid. John Dunn's
civic property committee yesterday af-
ternoon.

When people fall in off the city
docks they worry because it's hard get-
ting out again. Church proved
that chains be placed along the dock
so that those who intend to fall in
this year may be more comfortable.
Commissioner Harris wasn't much enam-
ored with the proposal. They had in
Montreal, where it was customary to
have the chains, stolen with consid-
erable regularity, which is never
ever, be placed on the city dock as a
sort of an experiment.

Andrew's applications for use of St.
Bathurst to Palmerston, at \$2000,
the commissioner to deal with at his discre-
tion.

A renewal was granted to the Man-
ning estate of the lease of lots on the
north side of Front-street in the mar-
ket block on a valuation of 4 per cent.
of \$275 per foot value. This will be
\$108.75 per foot. The rental fixed 21 years
ago was \$5.50 per foot, or 2 per cent.
on a valuation of \$130 a foot.

St. Lawrence Market stalls are get-
ting more valuable. John Abate has
rented one for a month, which is an
advance of \$3 on the old fixed rate.

The dangerous condition of St. Law-
rence Hall tower came up again. Aid.
McCarthy moved that the tower be torn
down when he learned that it would
cost \$1600 to put it in shape, and Aid.
Chisholm supported him, but Aid. Mc-
Carthy would not stand for the dem-
olition of such a prominent land-
mark, and the committee carried his
motion that the repairs be made as
recommended by Commissioner Harris.

The commissioner was ordered to re-
port upon the advisability of estab-
lishing a public laundry in connection
with the proposed public bath.

Ald. Sheppard yesterday.
Acting Chairman Aid. Sheppard was
in his place at the appointed time for
the meeting of the parks and exhibi-
tion committee, even tho' it was his
birthday. On March 15, 1848, O. B.
Sheppard arrived with a view to talk-
ing on a useful life, the last 20 years of
which had been spent in the theatrical
world, and the latter portion in civic
interests as well. The alderman bears
his age beautifully, and is always the
same old joyful joker. He and Sec-
retary Somers were sorry the meeting
had to adjourn for want of a quorum.

The absence of Aid. Stewart and
Aid. Vaughan starves the committee.
Dr. Noble couldn't come, so the others
went.

More Deer for the Zoo.

Riverdale Zoo is two deer richer.
The manager of the American
Cycle Club, has presented the city
with two fallow deer, which formerly
belonged to the Rockefeller farm on
the York Road, and was lately given to
the New York Zoo.

N. S. Gardner, who has the refresh-
ment booth on the Don flats in Riverdale,
has applied to the committee for
the city to purchase the deer. The com-
missioner has declined to purchase the
deer, as it is inconvenient for the
people to gain access to his booth on
the waterfront.

The assessment commissioner has re-
ported to the committee that expropria-
tion proceedings will have to be ini-
tiated if the city desires to secure the
property opposite Dufferin Park for
park purposes. William Cook asks
\$12,000 for his parcel of land, and C.
E. Rundle asks \$25,000. The assess-
ment commissioner offers \$8000 for Mr.
Cook's property and \$15,750 for Mr.
Rundle's.

Market Needs Radicals.

A deputation of business men and
ratepayers waited upon the board of
control yesterday and urged that some-
thing be done at once to secure the
removal of radial railways into the
market.

In response to a suggestion that the
fruit market be moved from the foot
of Yonge-street to the St. Lawrence
Market, Controller Hubbard said the
wholesale fruit dealers had blocked
that project themselves when it was
brooked by the city authorities some
time ago.

Mr. Dawson thought that the market
might be aided by establishing the
fruit market here and having the
steamers land the fruit on a wharf
opposite the south end of Jarvis or
Wegh Market-street.

The board pointed out to the de-
putation that the city was ready to
agree to the entrance of the radials
at any time, but the project is blocked
by the desire of the radial companies
to have a charter extending beyond the
termination of the one held by the
Toronto Railway Co. in 1921.

The speaker stated that pure water
for San Francisco would mean a saving
of 3000 lives annually.

The city, after being hindered in
constructing and operating under-
ground railway system of their own.
Light.

MISTAKEN FOR GAS LIGHTERS.

It was a Cleveland maid of all work
who was helping her mistress to pre-
pare dinner. The gas lighters were
produced with a view to converting it
into pudding. (They are in Cleveland.)
The cook (who is in Cleveland.)
held the long white sticks. But when
they were carefully placed in water she
saved a choking gasp.

"Did you see mistus?" she said, in
an awed voice, "that you are goin'
to make puddin' out of that?"

"Yes, Jane," was the reply, "that in
fact it is the same as what you never
seen macaroni cooked before?"

"No, ma'am," answered the cook, "I
ain't. The last place I was in was
the gas lighters, and I used them for
gas."—Cleveland Plain Dealer.

HE KNEW ALL ABOUT IT.

"What do you understand by a cata-
ract?" the new teacher of No. 2 asked
William Striker. The answer came
from the fire engine down at Dale-
ville Corners," he said, in breathless
haste to impart his knowledge. "But it
looks some, and it ain't half so good
looking as the 'Torrent,' either. You
just wait until parade day, and you'll
see her, teacher."—Youth's Companion.

to the parks and exhibition committee
that the city cannot comply with the
Toronto Railway Company to run cars to
Munro Park, as it is outside the city
limits.

Electric Wiring.

John A. Robertson, secretary of the
Canadian Underwriters' Association,
called upon the mayor to discuss the
question of electric wiring and the in-
spection of wiring in new buildings.

It is the desire of the association to
have the city amend the building by-
laws to provide for a decided improve-
ment in electric wiring.

Some Big Pavements.

City Engineer Rust has recommended
the following pavements: Queen-
street, from Yonge to River, asphalt,
\$20,000; Sherbourne-street, from King
to Bloor, asphalt, \$27,000; Bay-
street, from King to Queen, asphalt, \$28,240;
Jarvis-street, from Queen to Bloor,
asphalt, \$47,240; Olive-avenue, from
\$20,000; Palmerston, from King to
Bloor, asphalt, \$27,000; Bay-street,
Huntley-street, from north side of
Bunge to South Drive, \$6236; John-
ston-street, from Queen to Grand, tar
macadam, \$22,500.

Is Your Street Here?

The city engineer has recommended
the following cement concrete side-
walks:
Draper, from Front to Wellington,
\$382; Palmerston-avenue, from Barton-
avenue to Seaton-square, \$215; Barton-
avenue, from Palmerston-avenue to
Macdougall-street, \$437; Fraser-avenue,
from Liberty to 133 feet south, \$142;
Leslie, from Gerrard to Harriet, \$262;
Balmoral-avenue, from Avenue-road to
east city limit, \$88; Spadina-avenue,
from King to Front, \$368; Albany-
avenue, from Wells to Dupont, \$1023;
Bernard-avenue, from Huron to Mid-
don-avenue, \$388; Van Horne, from Os-
ington-avenue to Dovercourt-road,
\$1135; Broadview-avenue, from 19 feet
north of Queen to Gerrard, \$2384; Ger-
nard, from Blackburn to Broadview-
avenue, \$2384; Broadview, from Yonge
to Avenue-road, \$3017; First-avenue,
from 172 feet east of Logan to 162 feet
further east, \$189; Taylor, from Sumach
to west end, \$201.

Extensions of water mains are re-
commended on Hampton-avenue,
Springhurst-avenue, and High Park-
avenue.

PAYMENTS ARE DELAYED.

York Loan Creditors' Claims Are
Somewhat Tangled.

Neil McLean, official referee, has re-
ceived a report from the National Trust
Company, liquidators of the York
County Loan Company, as to the claims
filed against the estate. It states that
the liquidators cannot recommend the
immediate payment of the claims of
claimants, as a number of the shareholders
whose claims matured prior to the date
of liquidation are claiming that they
should be paid in full. The liquidators
are in a position to pay the claims of
these shareholders, but they are unable
to do so until the claims of the other
shareholders are determined. It is
impossible to ascertain whether or
not the claims of the shareholders are
in full. Having pointed out that the
report states that it is difficult to estab-
lish the time which must elapse before
the schedules of shareholders' claims
will be in such shape that they can be
presented to the court, but, as there are
a great number of claimants, and each
case must be enquired into separately,
the liquidator will probably not
be in a position to make a report until
late next fall, altho' an interim re-
port may possibly be prepared by July
1 next.

WHO OWNS THE GOVERNMENT?

Editor World:—An example of the
influence and control of power by a
monopoly have on the government of
the day has lately been revealed in
California.

An ex-arderman lecturing before the
Academy of Sciences at San Francisco
on municipal ownership of the water-
works system, in which many interest-
ing facts were related, and the history
of the Yosemite National Park reser-
vation, but were refused merely on
the grounds that the present company were
against the city, therefore, permission
could not be granted. The speaker
stated that the water works system of
San Francisco was owned by the United
States minister of the interior, seems
good for the soul.

The speaker stated that pure water
for San Francisco would mean a saving
of 3000 lives annually.

The city, after being hindered in
constructing and operating under-
ground railway system of their own.
Light.

MISTAKEN FOR GAS LIGHTERS.

ARMY NEEDS MORE DRILLING
TENDENCY IS TO SLACKNESS

Leading at the Empire Club lun-
cheon yesterday, a discussion on the
question of imperial defence, Lieut.
Col. J. Mason, in the course of his
speech, pointed out that in Canada we
are attacked by an enemy who, we
could not maintain her own, un-
aided by Great Britain. While Can-
ada contributed \$100,000 to the ex-
penditure of the mother land for the
purpose of defence, she contributed
nothing at all to the navy.

Before the introduction of the
aforesaid discussion, J. F. M. Stewart,
following up a custom recently estab-
lished by this club, that of giv-
ing an epitome of leading events in
the empire since the date of the pre-
vious meeting, expressed regret at
the fact that the British parlia-
ment had endorsed the principle of
the payment of defence, but he also
touched on the cattle embargo, sup-
posing that our farmers would not care
if a duty of \$25 were levied on
each animal so long as it was done
honestly.

BURIED IN GOLD MINE.

Four Miners Lose Their Lives—
One Body Recovered.

Halifax, N. S., March 15.—A cave-
in occurred at the gold mine at Mid-
diefield, fifteen miles from Liverpool
N. S., early this morning, burying
four men. Their names are George
Crouse of Baker's Settlement,
Blagdenwhite of Chelsea and two
named Taul of Molega, all Queen's
County men. The body of one of the
Tauls has been recovered, but the
work of digging out the other three
had to be abandoned, for the pit
started to cave in again. Crouse and
Blagdenwhite were single, but the
Tauls were married and leave fam-
lies.

PLENTY OF ROOM.

A visiting bishop in Washington was
arguing with a senator on the desir-
ability of attending church. At last he
put the question squarely:
"What is your personal reason for
not attending?"

The senator smiled in a no-offence-in-
tended way, and replied:
"Don't let that keep you away, sen-
ator. There's always room for another
one."—Philadelphia Ledger.

The Foot's Nightmare.

"I'm quite worn out," the poet said,
"From fancies deep and light,
Ceaselessly flitting thru my head.
By day and eke by night."

Poor man, your case is hard, indeed,
Nor strange your brain should sag.
For Pegasus, immortal steed,
Is an everlasting nag. —G. H. W.

Peace-Meal.

He looked sadly at the dinner of can-
ned meat and things she had set before
him, and, "how nice," he said, "why not
let us have peace?"

"What do you mean?" she asked,
puzzled.

"Why this is warfare, you know,"
he said.

A First Night.

From Punch.
Indignant Playwright (to leading ac-
tor, behind the scenes)—"Confound it
man, you've absolutely murdered the
piece!"

Leading Actor—"Pardon me, but I
think the foul play is yours!"

The Toronto Sunday World will this
week appear in its new form enlarged
to 32 pages, and is being printed from
the new press, which was recently in-
stalled, and is the largest and most
complete in Canada.

PASSenger TRAFFIC.

LACKAWANNA RAILROAD

Easter in New York

It made possible by the
Lackawanna Excursion of Friday, April 6th

The rate is \$9.00 for the round trip from Buffalo on all regular
and special trains, except the Lackawanna Limited at 9.30 a.m.,
on which a few tickets will be sold at \$9.50.

It is the best time to visit New York, for music, style and
recreation. The baseball season is open. School is out.
Spring is in. Tickets are good going April 6th; good return-
ing at any time up to and including April 10th.

Full particulars, reservations, etc., can be had of Allan Lead-
ley, Canadian Agent, 75 Yonge St., Toronto. Phone Main 3547.

Our Washington \$10 Excursion goes March 21st.

Trains leave Buffalo 2.45 a.m., 9.30 a.m., 5.30 p.m., 8.45 p.m.,
and 11.30 p.m. You are all invited.

ESTATE NOTICES.

NOTICE TO CREDITORS—IN THE
ESTATE OF JOHN P. ATWOOD,

Notice is hereby given, pursuant to the
Revised Statutes of Ontario, Chapter 120,
Section 28, that all persons having claims
against the estate of John P. Atwood, in the
County of York, deceased, who died on or
about the 28th day of March, 1906, to send
papers, and to file their claims, at the
Temple Building, Toronto, on or before
the 10th day of April, 1906, after which
date the executor of the said estate, J.
Wilson, M.D., the executor of the de-
ceased, will distribute the assets of the
estate, and discharge the executor, and
discharge and descriptions, full particulars
of their claims, a statement of their securities,
and a list of the

BACK NUMBERS ARE OBTAINABLE

OTTAWA ASKS GRANT.

Government Requested to Give \$10,000 to Dairy Building.

Eon. Dr. Pyne received a deputation from Woodstock yesterday composed of Mayor Butler, Dr. Mearns and Messrs. Woodruff and McNichol.

Ottawa wants \$10,000 for a dairy building, and a large deputation, headed by Mayor Ellis and James White, president of the Exhibition Association, waited on Eon. Nelson Monthie and urged that the grant be made.

Will Ask Similar Reduction. If the manufacturers succeed in getting a reduction in the rate of assessment the Retail Merchants' Association will ask for a similar reduction, states their secretary, Mr. Trowhern.

Bradenstreet in Calgary. Calgary, March 14.—The Bradstreet company, who have had a representative stationed here for some time, have decided to open a fully equipped office. This move on their part is greatly appreciated, not only by the local bankers and wholesalers, but also by all the trade which is more or less tributary to Calgary.

Statehood Bill Goes On. Washington, D.C., March 15.—By a vote of 126 to 85, the Republican caucus in the house voted to stand by the statehood bill.

Don't Neglect a Cough or Cold

IT CAN HAVE BUT ONE RESULT. IT LEAVES THE THROAT OR LUNGS, OR BOTH, AFFECTED.

DR. WOOD'S NORWAY PINE SYRUP IS THE MEDICINE YOU NEED.

It is without an equal as a remedy for Coughs, Colds, Bronchitis, Sore Throat, Pain in the Chest, Asthma, Whooping Cough, Quinsy and all affections of the Throat and Lungs.

Do not be humbugged into buying so-called Norway Pine Syrups, but be sure and insist on having Dr. Wood's. It is put up in a yellow wrapper, three pine trees the trade mark, and price 25 cents.

FORT WILLIAM'S EPIDEMIC.

Health Authorities Have Adopted Precautionary Measures.

Regarding the outbreak of typhoid fever in Fort William the Ontario health department has been assured that the epidemic is subsiding.

The authorities have discontinued the use of the present water supply for domestic purposes and have substituted therefor water obtained from an artesian well situated close to the city hall, the purity of said water having been confirmed by Dr. Smyth, bacteriologist of the provincial board of health.

MOSCOW IS WARNED. Moscow, March 15.—Gen. Ribott, the prefect of police, today issued a proclamation warning the population in view of the alarming rumors of troubles of the disposition made to suppress energetically any attempts to disturb the peace.

EIGHT WORKMEN BURNED. Pittsburg, March 15.—An explosion of hot metal in the converting mill of the Edgar Thompson Steel Works at Bradock, Pa., today resulted in serious injuries to eight workmen. All were terribly burned by the molten metal and exploded in the same to the inhabitants by special wagons.

GUILTY OF EMBEZZLEMENT. Indianapolis, March 15.—Former State Auditor David E. Sherrick today was found guilty of embezzlement, sheriff's charges of \$127,000 belonging to the state.

A Chance to Visit Buffalo via Niagara Falls. On Saturday, March 17, low rate of \$15 for round trip will be in effect going on Grand Trunk Express at 9 a.m., returning until Monday, March 19. Remember this—we have the last train out of Buffalo for Toronto at night.

STILL SWAYS THE MONEY MARKET. Berlin, March 15.—The delay in arriving at an agreement at Algeiras causes a recurrence of mild pessimism which was evident on the bourse today. Imperial three declined and the French are indisposed to lend money freely until the Moroccan question is settled.

Toronto to Niagara Falls. Remember the splendid equipment of the Canadian Pacific between Toronto and the Falls. Luxurious trains, fast time, close connections and solid, smooth running tracks make a strong combination.

Toronto-St. Johns Lodge. The 37th anniversary of Toronto-St. John's Lodge of Good Templars, to be held in the Blue Room, Temple Building, Thursday, March 29, promises to be an interesting event in temperance circles. Several members from out of town have signified their intention of being present. The lodge has members in Guelph, Sarnia, Glenora, Paris, Park Hill and Midway.

TO NEGOTIATE THOSE ISSUES UNSETTLED BY COMMISSION

United States Takes Lead in Arranging for Settlement of Some Important Matters.

Washington, March 15.—Crandier P. Anderson of New York has been selected by Secretary of State Root to prepare the active state of negotiation a number of issues between the United States and Canada left unsettled by the joint high commission which met in Washington in the winter of 1898 and 1899.

These relate to the delimitation of boundaries and fishery rights, the boundary privileges of Canadian railways entering the United States, the fur seal controversy, and other matters.

Correspondence which has taken place on semi-official basis between the officials in the United States and Canada has given ground for the hope that some at least of these issues which have long threatened good relations of the Dominion with the United States may be quickly and satisfactorily settled by direct negotiations.

To save time in effecting the exchanges, it is expected that the Canadian government will designate some person probably Hon. Mr. Foster, to come to Washington to assist Sir Mortimer Durand in an expert capacity in the presentation of the British side of the case. Mr. Anderson was secretary for the American members of the joint high commission, and acted in a similar capacity for the American representatives in the Behring Sea and the Alaskan boundary affairs.

MIDDIES IN CONSPIRACY TO MAINTAIN LOW STANDARD

Washington, March 15.—Midshipmen at Annapolis have been conspiring to prevent a high standard of scholarship according to the statement of Secretary of the Navy, Bonaparte, before the house committee on naval affairs today.

Brilliance has been discouraged and a sort of trade union agreement to hold all midshipmen on a dead level complement as far as class records are concerned, has been in existence.

PLANS OF RUSS SUBMARINES SOLD TO FOREIGN POWER

St. Petersburg, March 15.—A big scandal has developed in the ministry of marine owing to the discovery that the plans of the construction of Russian submarine boats have been sold to agents of a foreign power.

PICTURES FOR THE PAIR

Ottawa, March 15.—A deputation saw the premier this morning, representing the Toronto Exhibition, and asked the government to use its influence with the royal academy to have the Royal Academy pictures brought to Canada.

ICE FIELD IN LAKE SUPERIOR

Detroit, March 15.—A special despatch from Duluth states that a great ice field has formed in the head of Lake Superior. The temperature was 12 below zero at the Soo 4 below, and at Port Arthur 14 below.

FOR FIREMEN TO TALK ABOUT

Peterborough, N.J., March 15.—A meeting of the board of trustees of the National Association of Fire Engineers of America was held here to prepare for the annual convention, Oct. 9 to 12, to be held at Detroit, at 15 above.

NEEDLESS ALARM

Here's a poor man coughing away his lungs—at least so his relatives think. He is a consumptive, coughs all day, and sometimes all night.

HEBREW'S OBJECT

Ottawa, March 15.—A deputation of Montreal and Toronto Hebrews waited on the government today objecting to being compelled to observe the provisions of the Lord's Day Act.

SHOT ACTRESS AND SELF

New York, March 15.—Louis Nossler locked his wife in a bathroom today, and while she was a prisoner there shot and killed Stella Reynolds of New Orleans, an actress, who was a visitor at his home, and then killed himself. She was about 25 years old; Nossler was 40.

TRUST COMPANIES RESERVE

Albany, N.Y., March 15.—The senate today passed Senator Stevens' bill, providing a legal reserve requirement for trust companies.

New Books at the Library

WEAK SPOTS DEVELOP IN THE N.Y. STOCK LIST

Gas Stocks and Missouri Pacific Easily Depressed — Toronto Market Firm for Bank Shares.

World Office, Thursday Evening, March 15. There was nothing in the Toronto stock market to-day upon which any breadth of argument would permit of a discussion of higher prices. Transactions in speculative specialties have very largely been discarded, and the place is being filled for the time being by more activity in the banks. The movement in the latter shares was not quite as free as yesterday, but the activity was fairly well maintained and prices were advanced. Events outside the market were not influential in shaping a bullish uphill sentiment and particularly was this the case in the action of the New York market where sporadic instances of bank weakness were depicted. The Bank of England statement for the week was stronger in its make-up, but the London market showed no response to the improvement. The statement of the Canadian General Electric Company was favorably construed of the quotations for the stock could be judged as a standard. The issue was very inactive and only ten shares changed hands during the day. In other directions there were no important changes in the speculative list.

Among the banks Dominion evolved considerable strength and rallied from the first sale at 27 1/2 to 280. Imperial also was firm and fractionally higher, but in the others the tone was only what might be classed as firmly steady.

Virginia-Carolina Chemical expects business for current year to be 10 per cent. larger than ever before.

United States Steel net earnings for January and February, 1906, based on a quarter's earnings expected over \$36,000,000.

Stocks freely offered in loan crowd.

Chicago City Railway Syndicate may lose \$22,000,000 as a result of Union Traction decision in view of the cloud on the 99-year franchise.

Trade reports continue to indicate pig iron industry in very good shape.

New York banks received from other points \$1,000,000. In addition to their own share of \$3,000,000 of treasury deposit.

General offices of Republic Iron and Steel move this week from Chicago to Pittsburgh.

U.S. Smelting and Refining declares initial quarterly dividend of 1 1/2.

Journal of Commerce computes the amount of dividends to be disbursed to-day at \$18,846,225.

In Albany to-day a local and New York Life Insurance Companies will make joint report against new laws advocated by Armstrong committee.

Coal dealers in New York City and elsewhere are stockpiling coal and not taking chances of a strike.

Sub-treasury gained \$1,820,000 from the banks yesterday, and since Friday it has gained \$1,681,000.

A St. Paul dispatch says the Twin City Company is considering a 15-mile extension from White Bear to Forest Lake, giving St. Paul a north suburban line 30 miles long.

London—Evening—The market for American goods firm. Kaffirs scored a good recovery. Rio Tinto unchanged. Russian specie which the company now holds, is unchanged. Trade for quick interest. There is a big short interest in B.R.T. Wait for good rallies before selling. B.R.T. is being excellently bought.

Following closely on the heels of the break in Chicago Union Traction, came a slump of over three points in People's Gas stock to-day, and while the selling appeared to be good, there was nothing whatever to explain it, and it does not appear that any new developments of an adverse character have come to the front in connection with this property. The fact that it is a Chicago proposition and subject to attack from political interests, together with the decline in the traction stocks, doubtless influenced a certain amount of liquidation, but around the present level it would look as if the stock was cheap.—Town Topics.

We feel that the large interests are not disposed to advance prices generally and

METRIC SYSTEM FOR CANADA
WHY TRY FOR OLD ENGLAND?

Prof. McLennan Advances Arguments Which Board of Trade Members Afterwards Discuss.

Simple and easy to learn, Prof. J. C. McLennan, B.A., Ph.D., described the metric system, when lecturing yesterday afternoon at the board of trade. His remarks were listened to with evident interest by a large gathering of members over whom Peleg Howland, president of the Toronto Board of Trade, presided.

Lucidly did the professor sketch the historical development of the system, and uniformly in the weights and measures under the other systems, especially in the different provinces of France. In spite of opposition, the metric system has been adopted by 43 of the great countries of the world, as the sole official and legal system of weights and measures; these included France, Germany, Hungary, Japan, and the South American republics, in the United States, in Great Britain and Ireland, and also in a number of the dependencies, including Canada.

The professor alluded to the introductions made in the English parliament to make the metric system compulsory. He thought that under the new government in the old country the powers that be would be more inclined to deal with this question. He also had similar hopes of the American congress.

"It is claimed," said the professor, "by the advocates of the metric system, that it would be an advantage to adopt this system, because if they are making goods for home consumption, and also for export to countries using the metric system, as well as British and American markets, it is necessary for them in many cases to have two sets of patterns or dies, whereas if the metric system were adopted in the British empire and also in the United States, one set would suffice. It is of importance to note in this connection that metric manufacturers are always making improvements and alterations in their articles of manufacture, which necessitate the continual preparation of new patterns, models and designs, and it is just as easy to adopt the new system in new patterns as to continue the use of the older system. The supporters of the metric system also claim that the adoption by the British empire, including its dependencies, would greatly assist in preserving a more uniform trade, and also constitute a most valuable means of attesting it. Our consul has frequently reported that we lose trade in consequence of our weights and measures not being understood in other countries."

In the discussion which followed, J. B. Ellis expressed the opinion that it would be well for the board to wait until Great Britain and the United States adopted the system.

D. R. Wilkie, in the course of an energetic speech, stated that the young people of this country should be thoroughly instructed in the system. He recounted the idea of waiting until England adopted the metric system, and that many things had and yet many things to learn.

R. C. Steele, J. W. Woods, Colonel Blinn (Ontario) and J. D. Allan (Quebec) also spoke, the latter as president of the Toronto Board of Trade, recalling that six years ago that body had passed a resolution in favor of the adoption of the metric system as soon as the education of the people had been accomplished. That resolution had been instrumental in furthering the matter before the congressional committee in Washington.

The chairman said that the council could be depended upon to urge the adoption of the metric system in this country in the system which the council would obtain within a comparatively short period.

FOR SALE

BORNEO GIRL'S EARS.
 "I liked the girl," said the sailor, "only her ears were too long."
 He finished his drink at a gulp.
 "Like all them Borneo girls," he said, "she was slim and lithe. Her teeth was white. Her eyes was clear. And it was but then ears! The lobes was three inches long. And do you know why? Because she had stretched them out, had lengthened 'em by pulling 'em continually with her fingers from childhood, the same as a Chinaman from a steel box to get them small. In a week I went in Borneo I found the same long ears among the native girls in Sarawak, in Sampit, in Kuching, and in every place I was in. It was the same in Telokipin, in Banjarman and in Paser. The young women had ears that nearly hid their shoulders. The young girls all sat with their fingers so as to make them long, "Sickens!"

AN HISTORIC NIGHT IN THE LORDS

LORD ELGIN PLAYS A MAN'S PART

The Colonial Secretary Repudiates the Language of the Premier and Refuses to Believe that Slavery Can or Ever Did Exist Under Britain's Flag in South Africa.

By John Foster Fraser.

London, Feb. 26.—There was a dramatic moment in the house of lords tonight in a crowded and excited chamber...

The Colonial Secretary, Lord Elgin, was interrogated by Lord Harris on the phrase "hat of slavery" which Sir Henry Campbell-Bannerman had applied to the conditions of Ch. 1. in South Africa.

Lord Elgin, whilst the opposition laughed, "I wish to express my deep regret that this term has been used."

He added, "The opposition cheered loudly and long. Ministers' heads hung their heads. Members of the government from the other house, who were clustered on the steps of the throne, smiled that they had never seen so much of the same kind before."

Lord Elgin did not flinch. He gave his reasons for repudiating the language of the premier by which most of the Radicals had secured their return.

He did not think that colonists who had made their money in the West Indies and in the sugar plantations should be allowed to dictate to the government.

Lord Elgin said: "I believe with all parties that slavery cannot exist under the British flag. It was the fullest and most complete apology that any minister of state has ever made for his party having hidden into power on a false issue."

Lord Elgin's maiden speech. Truly, it was a historic night in the upper chamber. It was known that the Colonial Secretary, Lord Elgin, would make reference to the condition of affairs in the land which he ruled in the name of the British Empire.

Lord Elgin's speech in the house of lords. Expectancy and interest ran high. The house was full. Lord Elgin, sitting on the throne, was surrounded by the Earl of Rosebery and Lord Roberts as companions, was fidgety.

The neighborhood of the throne was crowded. The Earl of Rosebery and Lord Roberts as companions, was fidgety. The neighborhood of the throne was crowded.

Lord Elgin's speech. Truly, it was a historic night in the upper chamber. It was known that the Colonial Secretary, Lord Elgin, would make reference to the condition of affairs in the land which he ruled in the name of the British Empire.

ANTI-JEWISH AGITATION MAY END TO THEIR GOOD

St. Petersburg, March 15.—Out of the violent anti-Semitic agitation of the reactionists, which enabled Premier Witte to force the resignation of the cabinet...

The entire Jewish question has been raised in acute form and may be settled forthwith. The emperor is said to be amazed at the revelations made by the Jewish deputation which the premier received in audience March 7...

Count Witte is understood to have talked quite bluntly to the emperor regarding the innumerable difficulties which his opponents were raising on this and other questions, and he is said to have gone to the extent of requesting permission to resign the premiership.

The emperor, it is added, would not listen to it, insisting that Count Witte must remain in office, and at the same time instructing him to prepare a program of reforms.

After the ceremony the couple proceeded under escort to the general assembly where Ryan played "Quality of the Assault," Judge Winchester addressed him, saying that he hoped that he would live happily for a number of years...

While these restrictions may not be enough to effect this season, the condition is to be maintained until the next year, it is believed.

It was remarked that the Humane Society meeting yesterday that as a result of the society's many appeals, authorities of both the annual show and the various animal hospitals...

NOTICE BUILDERS. You will do well to see us before purchasing your Hardware and Mantels.

STORMY PASSAGE ON ERIE. Blinding Snowstorms and Fields of Ice Delay Navigation.

Cleveland, O., March 15.—Completely covered with ice, the steamer City of Cleveland, carrying 100 passengers, steamed slowly into port from Detroit today, six hours behind schedule time after one of the roughest passages in her history.

In an English Court. A woman is suing another woman for \$5 cents. The defendant is your lordship. She has been writing private letters to my husband to get and get us parted—the cat (laughter).

Novel situation—on the bookstand. Ordinarily interesting—money at 3 per cent. Fractious makes money, a school boy fractious.

Best tailor does not always do well for himself. Personal slurs might well be regarded as slight injuries.

Some men are so lazy that they cannot even raise a beard. Even the coming man needs to look like a man.

SEALSKIN GARMENTS
THE TIME TO BUY
SEALSKIN JACKETS!

No fur garments have advanced so greatly in price during the past season as seal skin. The value of seal is still on the rise, and there is no prospect of seal being any more plentiful, in less demand or less valuable than it is today.

The furrier who has watched the gradual advance in the value of seal skin and has invested extensively in select skins is bound to realize handsomely on his investments.

Dineen's have allowed no opportunity to slip by where the purchase of seal was concerned. They have an unusually heavy stock on hand. And for the present Dineen's will make up seal skin garments in the vogue of advanced style, at prices that are unusually moderate for this season, and therefore 50 to 75 per cent. cheaper than next season's prices.

DINEEN'S

ALBERTA'S LEGISLATURE
NOW READY FOR BUSINESS

Formal Opening Yesterday—Outline of the Legislation That Will Be Brought Forward.

Edmonton, March 15.—Alberta's first legislature convened to-day and after the surroundings were of rather an informal sort, there was due pomp and ceremony in connection with the opening ceremonies. The big skating rink was converted into quite a presentable amphitheatre and it was here that Lieutenant-Governor Buleya to-day read his first speech from the throne.

The bountiful harvest, the early visit of Prince Arthur of Connaught, the influx of settlers, the growth of agricultural industries, were referred to. An active policy for the improvement of live stock and agriculture generally was promised. Increased public grants and exhibitions would be asked. The organization of the province on constitutional lines would be undertaken.

The growing necessity of commercial and social activity in the province required that telephonic communication between different sections of the province should be rendered as inexpensive and as effective as possible. Attention would therefore be needed in consideration of providing means towards that end. At present the law with relation to mechanics' liens, their registration and enforcement was found in every respect to bear heavily upon laboring classes. A measure would be submitted for approval providing means whereby rights enjoyed by all mechanics or laborers under present law might be rendered capable of enforcement in a simple and inexpensive way. Laws governing public health and sanitation and bills providing for the registration of titles of land in the province, making provision for the establishment at such time as the growth of the province warrants of a provincial university, for appointment of coroners, justices of the peace, sheriffs and clerks of court would be submitted. The present law relating to regulation of coal mines and inspection of steamships having proved inadequate in practice, legislation in this regard would also be brought forward.

The sessions of the legislature will be held in the Mackay-avenue public school.

BIG DEPUTATION FOR OTTAWA
TO HURRY ON TRENT CANAL

Peterboro, March 15.—(Special).—A deputation of some 400 representatives from Peterboro Board of Trade and city council, as well as the council of all the towns and villages along the Trent Canal route, will go to Ottawa on March 29 to impress upon the government the necessity of the speediest possible completion of the Trent Canal.

YORK COUNTY AND SUBURBS
LACROSSE MEN IN MEETING

Officers Are Elected for Season—Sudden Death of John Seagar.

Toronto Junction, March 15.—There was an enthusiastic meeting of Junction lacrosse men in the council chamber at the town hall to-night. It was decided to enter an intermediate and junior team. The following officers were elected: Patrons, Hon. J. W. St. John; Arch. Campbell, M.P.; honorary president, Major J. C. Smith; honorary vice-president, E. B. Wright; honorary second vice-president, J. T. Jackson; president, J. McEachren; first vice-president, Counsellor W. A. Baird; second vice-president, W. J. Dalton; third vice-president, J. E. Massacat; secretary-treasurer, J. Linton; corresponding secretary, A. Gilbert; manager and trainer, Dick Bond; mascot, G. Rice. The delegates to the C.L.A. were appointed as follows: E. B. Wright, H. Campin, F. Breen and G. Patterson. The president, J. McEachren, was nominated as a candidate for the C.L.A. council, and a committee, consisting of the officers and players of the club, was appointed to look after the campaign. Another meeting will be held in two weeks.

The horse attached to T. Chapman's butcher cart ran away to-day and threw the driver, a boy of about 16 years of age, off the vehicle. He was injured about the head and shoulders, and was unconscious for some time. The rig was also damaged.

The firemen were called out this evening to extinguish a blaze in the basement of the Leader and Recorder office. A quantity of waste paper caught fire.

The following building permits have been issued during the last few days, totalling over \$11,000. The following are the list: W. E. Wyatt, frame dwelling on Lakeview-avenue, \$2,000; Bertha M. Rosewar, two-story dwelling on Fairview, \$1,600; H. S. Chap-Phill, brick dwelling on Lakeview-avenue, \$1,700; H. N. Morrison, brick dwelling on Lakeview-avenue, \$3,000; L. McCormack, brick stables, in rear of his house on Annette-street, \$1,500; Charles H. George, veneer house on Fairview-avenue, \$1,600; Arthur Dunn, frame dwelling on Moss-street, \$1,750; W. A. Conroy, frame dwelling on Durlie-street, \$600; J. A. Tovell, brick veneer stables on Keele-street, about \$300.

The sudden death occurred late last night of John Seagar, 103 Laws-street, in his 62d year. Deceased, altho having lived here but a short time, was well-known. He was for a number of years a commercial traveler, but later was appointed inspector of fisheries by the Dominion government. About one month ago deceased buried his eldest son, who died in Port Arthur. His health was none of the best and since that time he gradually sank. Deceased leaves a widow, one son and one daughter, Mrs. Rose of Toronto. The funeral will take place to Mount Pleasant Cemetery on Saturday afternoon.

The death occurred last night from pneumonia of the infant son of Mr. and Mrs. Thornbeck of 104 Franklin-avenue. The funeral will take place tomorrow to Prospect Cemetery.

The Rangers will play the I.C.B.U. on Saturday afternoon at the Mutual-street rink for the intermediate hockey championship of Toronto.

The Weston fair board met in Bailey's Hall, Weston, last night, with the president, George W. Verral, in the chair. Among those who were present were: Wm. Parsons, councillor; Watson, J. Shaver, W. J. Dalton, W. Langstaff and J. K. Keefer. A committee was appointed with instructions to revise the prize list on horses. A committee consisting of J. K. Keefer and W. J. Dalton was appointed to revise the prize list on ladies' work in fine arts. It was decided to hold the annual fair on Oct. 8.

Newmarket.
Newmarket, March 15.—Wednesday morning Ross Webb, youngest son of H. G. Webb, Kettleby, aged 13 1/2 years, got hold of a match and lighted it. It set fire to his night gown, and he was so severely burned that he died last night despite the careful attention of physicians. Deceased was a nephew of Dr. Webb.

East Toronto.
East Toronto, March 15.—The most exciting and keenly contested hockey games of the season were played on the Gerrard-street Rink here to-night, between the East Toronto and Norway seniors and the East Toronto and Norway juniors. The score was, East Toronto seniors 6, Norway seniors 1; East Toronto juniors 4, Norway juniors, 5. The ice was in fair condition and the play fast thruout.

Chas. Robson, secretary, Y. M. C. A. Hall to-night. Addresses were given by R. J. Calville, secretary city railway department; ex-Ald. J. L. Starr, representing Central board of directors, Wilson Fenton, treasurer building committee, E. M. Cook, Rev. Mr. Ferguson and Rev. Mr. Ratcliffe.

North Toronto.
At a special meeting held in the council chamber last night, North Toronto citizens gave no uncertain sound as to the conditions upon which the Toronto and York Radial Railway will be allowed to double track Yonge-st. One fare to all parts of the city, together with other concessions will form the basis of all future negotiations. The meeting was presided over by Mayor Fisher, while the attendance of citizens was larger than on any similar occasion in the history of the town, but based on all future proposition to the meeting preferring rather to consult the directors with respect to the privacies, and demands submitted. Counsellor Peers stated that single fare was not enough. Other concessions must be granted. Counsellor Lawrence introduced the question of widening Yonge-street from 66 to 80 feet. This would permit the double tracking of the road. Counsellor Douglas expressed the opinion that a single fare was not sufficient, while Counsellor Anderson maintained that the people in the ex-

WANT OF THE WEST TO-DAY
Missionaries Are Sought for—Pres. W. H. M. S. Meeting.
Progress in every department of church work was the keynote of the Women's Home Mission Society of the Presbyterian Church in Canada, which yesterday concluded its annual conference in Bloor-street Church. The address of the afternoon was that given by Rev. Dr. Grant for seven years pastor of a church in Dawson City, and largely instrumental in the founding of the Good Samaritan Hospital in that city.

The evening meeting was presided over by Rev. Dr. Wallace, Dr. Herdman, superintendent of home missions in British Columbia and Alberta, reviewed the work of the past five years. From a population of 70,000 five years ago, it had grown to 255,000 in Alberta, while that of British Columbia had increased from 173,000 to 230,000. Among the Galicians four missionaries were engaged, with a fair measure of success. In Southern Alberta work among the Mormons was carried on under great difficulties. The great want of the west to-day was missionaries. At the present time there was an opening for 75 student missionaries.

Rev. E. A. Henry Hamilton and Rev. R. G. Masbath addressed the meeting. The sum of \$11,625 was last year raised for home mission work, which it is hoped will this year be increased to \$15,000.

An Evening At Home.
There are times when you prefer a quiet evening at home. "Murad" make the time pass pleasantly. "Murad" (plain tips) Turkish Cigarettes are the latest and best achievement of Allan Ramsay, for sixteen years government expert of Turkey. During this period Mr. Ramsay's cigarettes—his alone—were the accepted brands of the dignitaries of the Turkish court—15 cents per box.

Salaries Go Up.
Belleville, March 15.—The salary committee of the city council has decided to recommend that the salaries of the city treasurer, street surveyor and gas manager, city clerk and solicitor be increased \$100 a year.

An Exposition of the Particular Points About the New Spring Suits for Men
And a Chance to Buy One Underprice.

From the Men's Store come the following points where this year's suits differ from those worn last season. First, however, as to materials. The fashionable cloth is worsted in the various greys, plain shades in self patterns or faint and subdued plaid and overplaid effects, also wide diagonals.

- The Collar—** The collar has a fairly wide and long lapel.
- The Shoulder—** has a wide, broad effect, gracefully tapering downwards to a semi body-fitting back.
- The Skirt—** The new coat is rather long made, either with vent at center seam or side vents, with fulness over the hips and creases tapering slightly into the waist.
- The Trousers—** The trousers are cut comfortable, full and roomy over the hips and are narrowed down to a neat fitting peg-top at the bottoms.
