

### NO OFFICIAL NOTICE YET OF EXPROPRIATION PLANS

#### Mayor Wants to See Plans Before Deciding on City's Attitude.

The civic authorities have as yet received no notification of the application made to the railway commission by the C. P. R. and G. T. R. for the expropriation of the Esplanade property.

The Railway Act provides that the companies may expropriate such lands as are necessary for the extension of their premises to meet the requirements of their trade, but the owner of the property affected, which in this case is the city, must be notified and may appear to oppose the application. The act further provides that in case an agreement as to the value of the lands cannot be reached by the parties, arbitrators may be appointed by one of the justices of the supreme court. The only information received by the city was given by City Solicitor Caswell, to the effect that plans had been filed before the railway commission.

Mayor Ureghere is disinclined to discuss the matter until he sees the plans and can not say whether the city will oppose the application or not. The Railway Act apparently gives the companies the power to take the property and the only question is whether they can not obtain the desirable property in another portion of the city. The mayor is inclined to the view that the Esplanade will be open to the public for the loading and unloading of freight.

Assessment Commissioner Fleming stated that as yet there had been no one to see him in regard to the matter and he was entirely in the dark as to the intentions of the railroads. It has been stated that the leases given by the city expire on the buildings being destroyed, but this is without foundation. In fact, the leases appear to have become seized with an appreciation of the value of their right as a number of them have paid the ground rents since the fire.

It is said that in the event of the land being secured by the railway, one of the first improvements made will be the straightening of the passenger train approaches from the east into the Union Station, making a direct line from Yonge-street into the depot.

McMASTER COMMENCEMENT.

Four Honorary Degrees Conferred and Prizes Presented.

The annual commencement exercises of McMaster University were held last night in Castle Memorial Hall, which was packed to the doors. Chancellor Wallace presided amidst a bright array of gowns with scarlet and white hoods. After an invocation by Rev. B. D. Hahn the honorary degree of D.D. was conferred on Malcolm McVicar of Richmond, Va., (in absentia) and on Thomas S. Johnson of London, Ont., and that of LL.D. on S. J. McKee of Brandon, Man. (in absentia), and on A. L. McCrimmon of Woodstock. The course degrees were conferred on the graduates, amid much applause and many irreverent remarks. The young ladies being presented with immense bouquets.

Professor Wilson Smith addressed the graduating class and the convocation oration was delivered by President Rush Rhees, D.D., LL.D., of the University of Rochester. The recipients of the honorary degrees also made short speeches.

The following are the prize winners:

Fourth year—Crawford Scholarship, W. C. Pearce.

Third year—Frank Sanderson Scholarship in special mathematics, D. L. MacLaurin; Shonnon Scholarship in Special Classics, Joseph James.

### IRISH CRIMES ACT STANDS REPEAL WAS VOTED DOWN

George Wyndham Sees No Good in Reviving Passions Laid at Rest.

LONDON, May 4.—(C.A.P.)—The House of Commons to-night, by a vote of 197 to 124, rejected a resolution in favor of the repeal of the Irish Crimes Act. Geo. Wyndham, chief-secretary for Ireland, in opposing the motion, confessed that nothing could justify the anticipation of a recrudescence of social disorders in Ireland, but said that the repeal of the Crimes Act could only do harm by reviving the angry passions now laid at rest.

John F. Redmond, leader of the Irish party, expressed his extreme dissatisfaction with Secretary Wyndham's statement, which he declared would lead the Irish people if they had the means into open rebellion.

**Devonshire Resigns.**

LONDON, May 4.—(C.A.P.)—The Duke of Devonshire resigned the presidency of the British Empire League to-day, and the Earl of Derby was elected in his stead.

### THE FOOD ROUTE

Is the safest way to steady health.

Many people are kept ill because they do not know how to select food that their own particular bodies will take up and build upon.

What will answer for one will not do for another.

If one is ailing it is safe to change food entirely and go on a plain simple diet, say

**Cooked Fruit Dish of Grape-Nuts and Cream**  
**2 Soft Eggs**  
**1 Cup Postum Coffee,**  
**Slice of Toast,**

no more, Man! but a diet like that makes one feel good after a few day's use.

The most perfectly made food for human use is

**Grape-Nuts**  
"There's a reason."

### LEAVE TO APPEAL GRANTED TO CONVICTED OFFICIALS

#### After Three Hours Argument, Court Consents in Application on Behalf of the Grays.

"Leave to appeal." These three words mean a great deal to those who were convicted in the election trials, and who have still to face a judge and jury on the same charge.

The counsel, E. F. B. Johnston, K.C., and Frank Denton, K.C., for Col. Gray and Frank Gray, yesterday made a strong plea before the court of appeal, and were successful in their endeavor.

It was argued by Mr. Johnston that the accused were charged with taking, opening or interfering with the ballots, and evidence centered on the marking of them, something altogether different.

Chief Justice Moss inquired if this would not come under the word "interfering," but counsel held out; it may have been interference with the voter; but the act of making additional crosses was a silent one.

"Surely it is defacing a ballot!" said Justice Maclean. To this Mr. Johnston said that the indictment had not been properly framed, disclosing no offence save in an express form, and that the act of that branch he thought right to appeal should be granted.

What were described as "erroneous directions" of Judge Winchester were then referred to, and the chief justice said the signing was further carried out by the accused in a short distance from the place where the ballot was put, and that there was no evidence of anything against them.

Then there was the ruling that the men being alone with the ballots, there was no presumption that they were altering the ballots. Mr. Johnston had cases to show that that presumption was not justified.

"You are arguing this application," said Justice Oiler, "as the leave has been granted, and this is the appeal."

"Well," said Mr. Johnston, "it is a very important matter, and I trust your ruling—two yet to be tried, and all on the same indictment and the same state of facts."

"We are impressed with the importance of the case," said the chief justice.

Deputy Attorney-General Cartwright, in opposing the application, defended the conviction as being within the law, and that the judges, after the arguments, had no hesitations in upholding the verdict, and that they were bound to do so.

Altho the leave to appeal is granted, it will apply to the other convicted officials, and Mr. Robertson will see that their interests are well served, while awaiting a decision from Ottawa regarding a commutation of sentence applied for.

### WELSH SEA MONSTER.

Paris, May 4.—The officers and crew of the French gunboat Decade, on the Indian Ocean station, reported having seen an extraordinary sea monster in the Bay of Along near Hainan.

In his report to the admiral the commander said: "I was standing on the bridge when my attention was directed to a round object, resembling a shark, about 100 yards off. I took it to be a rock, but on seeing it move, I saw it was a flat-headed serpent, of about a hundred feet in length.

"It appeared to have a soft, black skin, covered with marble spots, and the head, which rose about six feet above the water, closely resembled that of an enormous turtle with huge scales. It blew up two jets of water to a height of five yards in diameter.

"Afterwards it rose out of the water, and by the undulatory movement that followed I saw that it was in the presence of a great number of smaller animals, and that it was feeding upon them.

"It moved slowly through the water at a speed of about eight knots and when about 150 yards from the gunboat plunged beneath its surface about four hundred yards away."

"A number of officers and crews also watched the monster, which generally disappeared from view."

Curiously enough, Lieutenant Lagastelle, on the French gunboat Hennessey, while cruising in 1868 off the same coast in the gunboat Avalanche, met with a similar experience.

### FAST FREIGHT WRECKED.

Windsor, May 4.—The fast freight, leaving Windsor at 10:30 a.m. on Monday, ran into a lumber pile at High's siding, about twenty-three miles from Windsor.

The engine was a 2-6-0, and the train was loaded with lumber. The engine was wrecked, and the train was derailed. The engine was pushed up the embankment, and the train was pulled out.

The train was unable to stop, and ran into the lumber pile, causing the engine to be wrecked and the train to be derailed. The engine was pushed up the embankment, and the train was pulled out.

### BOILERMAKERS STRIKE.

Five Thousand Now Involved and Others Will Follow.

New York, May 4.—All the large shipyards in the Metropolitan district, except that of the Boston Drydock Co., in Brooklyn, and the yard of Tilden and Lang, in Hoboken, are today tied up, as a result of a strike of the Brotherhood of Boilermakers and Iron Shipbuilders of the United States and Canada. Five thousand boilermakers are involved, and workmen of other trades may soon be affected. The organization is said to have \$200,000 in its relief fund, and the twelve local lodges are well equipped. Beginning to-day married men will be paid \$4 a week and single men \$5 a week while the strike continues. Preparations have been made for a long struggle.

### OUT AT PITTSBURG, TOO.

Pittsburg, May 4.—A strike which is expected to be an international movement against the American Bridge Co., was ordered to-day by the local union of structural ironworkers and bricklayers, and over 600 men in this district will go out to-morrow. The strike is called because the union claims 35 non-union men were put to work last Tuesday evening at the Buffalo, Rochester & Pittsburgh Railway at Coral Pa. This action, it is claimed, is a violation of the agreement to employ none but union men. President Frank Buchanan notified the local union officials here to-day that the bridge company refused to rectify the matter, and said the executive board would meet immediately and issue a strike order against the American Bridge Co.

### DID NOT COME UP.

St. Catharines, May 4.—(Special.)—The separate school board resolution regarding the division of bonus taxes did not come up at tonight's council meeting. Alderman Carly, who wanted to bring up the matter at a previous meeting, said that he had abandoned the idea. It is understood that the matter will come up at the regular meeting of the public school board, to be held shortly.

### ONE REGIMENT MOST BLOODY BATTLE

#### Major-General Kashtalinsky Reports the Grievous But Glorious Fight of Russians.

St. Petersburg, May 4.—The Emperor to-day received the following despatch from Gen. Kuropatkin:

"Major-General Kashtalinsky reports as follows: "I consider it my duty to report the circumstances of the greatest, yet glorious, battle fought by the troops under my command with the superior forces of the Japanese."

"Early in the morning of April 30, the Japanese began to oppress our left flank, but for the previous evening occupied the heights, after an attack, in consequence of which I ordered the 22nd Regiment, which had occupied Khussan, to retire across the Ai River to our position at Potentiansk."

"The morning of the same day an extraordinarily prolonged and violent bombardment of our whole position at Chlutench commenced from Wiju. I foresaw that the Japanese after the bombardment, in which over 2000 projectiles were discharged, would take the offensive."

"I received orders from Lieut.-Gen. Zaslitski to accept battle, and to retain my position, which was exposed to the fire of 20 field guns and siege batteries."

"The Japanese advanced and occupied the position."

"Towards noon I ascertained that the 11th Regiment, Lieut.-Col. Moravsky, which was sent from the reserve by Lieut.-Gen. Zaslitski, with orders to hold their ground until the departure of the 11th and 12th Regiments from Sakakoba. I ordered the 11th Regiment to occupy a commanding position in the rear, from which they could fire on the enemy from two sides."

"I held Lieut.-Col. Moravsky's battery in reserve, and ordered the 12th Regiment to retire under cover of the 12th Regiment."

"My chief of staff led the rear guard to its position."

"At 4 o'clock the Japanese approached so close to the position that the 11th Regiment could not pass along the cross-firing, and took up its position in the rear of the 12th Regiment, for the remainder of the fight, losing its commander, Lieut.-Col. Moravsky."

"A company with quick-firing guns was brought up from the rear-guard, and the chief commanding this, foreseeing the difficult situation of Moravsky's battery, took up the position on his own initiative. He lost half of his men and all his horses. He attempted to remove his guns by hand to the shelter of the hills under the Japanese fire. The quick-firing pieces discharged 5500 bullets."

"The 12th Regiment cut its way through, and the 11th Regiment, having attempted to join the 12th, was unable to do so, and was forced to retreat to the mountain slopes with only half its horses, and retiring to its original position."

"The 12th Regiment, which held its position until the evening, lost all its horses, and was forced to pass at the point of the bayonet, and crossed the ravines with its rifles fixed to the ground. The 12th Regiment lost 4000 men, and about 2000 non-commissioned officers and about 2000 horses were killed."

"The Russians retired in good order on Fengwangcheng."

"The men of the third division sustained their excellent morale, and over 700 wounded proceeded with these regiments to Fengwangcheng."

### LADIES' RELIEF SOCIETY.

Much Charitable Work Accomplished During the Severe Winter.

A well-attended meeting of the Ladies' Relief Society was held yesterday afternoon in the Y. W. C. A., at which J. K. Macdonald presided. The reports of the fourteen districts that the city is divided into all showed excellent work to have been done, both in relieving the poor and strengthening the society.

The secretary's report told of a great deal of work done during the winter, attributed largely to the prolonged and severe cold. The great relief was in the number of cases of the poor that were noted. A case was pointed out where three of a family slept in the same room with a victim of this disease.

It was urged that the city grant of \$1000 be increased, so that the private subscriptions are large the total amount collected each year is not altogether sufficient for the aims. The treasurer's report showed a balance on hand of \$117, with receipts during the year of \$248.69.

Feeling reference was made by Prof. Edwin Smith to the sudden death of Mr. Massie.

Among those present were: Mrs. Ayers, Mrs. Robertson, Mrs. Chamberlain, Mrs. Hunter Brown, Miss Tilley, Mrs. Daniel Rose, Mrs. Pemberton Page, Mrs. Fred C. Ward, Mrs. Joseph R. Davis, A. Hughes, Mrs. Bullman, Mrs. Terrell, Mrs. J. Miller, Mrs. Curry, Mrs. Valiant, Mrs. Bowber. The officers of the society, all of whom were present, are: Patroness, Mrs. Mortimer Clark; hon. president, Mrs. Brett; president, Mrs. Ayers; vice-president, Mrs. Chamberlain; Mrs. Richardson; second vice-president, Mrs. Hunter Brown; secretary, Miss Sherman; treasurer, Miss Yankoughnet; treasurer of industrial room, Miss Nairn.

### DADDY OF THE EARTH.

LONDON, May 4.—Patriotic songs are getting a new boom now, and two that hold prominent places in "The New Barmald," at the Kensington Theatre this week are making very decided hits.

One entitled "Oh, Joe," sung by Miss Amy Augarde, with fine accompaniment, is a sample of its quality.

Of sweethearts it had a queer section, from rich to middle-class and lowly birth. But none have wholly captured my affections like Joseph Chamberlain, the Daddy of the Earth.

Here's the greatest thing that happened for a long time.

Persuasive, sweet, yet cute as any dard.

And when he talks, it's never at the wrong time.

And I'm afraid he's captured my poor heart.

Oh, Joe, I wonder if you know that for my heart goes knit-pat wherever I may go.

Leaves and things are ought to me.

Love my only policy.

And I've a corner in my heart for Joe, Joe, Joe.

THREE APPEALS PENDING BEFORE SUPREME COURT

Christopher Robinson and Mr. Fullerton Will Go to England to Argue City's Interests.

It is improbable that the matters at issue between the city and the Toronto Railway Company will be brought to trial before the legal department has already ample work before it to occupy the attention of the lawyers during the summer.

There are three appeals pending before the privy council, which have been set down for argument and will be tried during the next few months.

STAR WITNESSES FALL FLAT  
RIDDELL SAYS WAIT AND SEE

Ex-Controller Richardson and W. H. Moore Deny All and Sundry Rumors of Recent Import.

The civic investigation, as far as the examination of witnesses is concerned, will close to-day. Nothing has been brought out of a startling nature. Today a few deputy returning officers will tell their stories in the box, just to clear up a few odds and ends of conflicting evidence. On Saturday Mr. Riddell will do his summing up before Judge Winchester.

Mr. Riddell yesterday was very reticent in expressing any opinion on the evidence that had been given in the witness box during the investigation. He claimed that he had given everyone an opportunity to tell all he knew. If anyone had not done so, it was his own fault, and if a deluge occurred on those who are implicated will have only themselves to blame. When asked as to his future proceedings in connection with the inquiry, Mr. Riddell said, "You will have to wait and see."

Judging from his manner and conversation, one would naturally conclude that he has something up his sleeve. The public naturally hopes that he has. A lot of time and money have been spent, and as far as known with little result. Mr. Riddell's address to the judge and the judge's report may, however, satisfy the people.

Richardson on His Defence. The two much-talked-about star witnesses were examined yesterday, ex-Controller Richardson and W. H. Moore of the Toronto Railway Co. They were asked by Mr. Riddell to do any crooked work in connection with the election, the examiners failed to land it. Richardson admitted having spent \$100 on his election. He denied having received a cent from the Toronto Railway for election expenses. If Mr. Moore had done anything to help elect him it was through personal friendship. They had been friends for years. He admitted that Sam Thompson had done electioneering for him, but denied having any knowledge that Thompson was going to do any crooked work for him. He had nothing to do with Thompson's mysterious disappearance after the work there. He did not know Cahoon well and had no arrangements with him.

No Proposal to Settle. Regarding "Mike" Daly, who was one of the organizers, Mr. Richardson commended as an organizer, having had some previous experience as a worker for Controller Spence and E. J. Fleming. Mr. Richardson did not deny his trip to the ward. The money spent for election expenses did not come from the Toronto Railway Co. for the gas company, nor from a political fund. Richardson flatly denied the story that he had said that someone had come to him with a proposition to settle the investigation, or that he had been approached in any way. He drew of no movement made to prevent S. H. Blake conducting the investigation.

The "Secret Service" Fund. W. H. Moore, who is understood to be President Mackenzie of the Toronto Railway Co., and controller of the "secret service" fund, denied having contributed a cent to any one of the candidates for election purposes, or that the company had had any special candidate. Mr. Riddell produced several "secret service" vouchers, and asked that they be issued for. One for \$1000, marked "honorary", was for "special services". Mr. Moore said, "It may have been given him for traveling expenses."

Mr. Keating, who was subsequently examined, admitted signing the vouchers, but did not know how Moore had disposed of the money. If he had disposed Moore would have told him. Mr. Moore said, "It may have been given him for traveling expenses."

Who Knows? Mr. Riddell would like all and everybody who can throw any light on the dark things of and concerning January 1, to come up and tell what they know.

10,000 Pounds of Powder Exploded. Newport, Ind., May 4.—A powder mill owned by the Northwestern Powder Company, three miles from Newport, was blown up today. Four men were killed outright and two were injured. Ten thousand pounds of powder exploded, and the bodies of two of the men were thrown into such small pieces that they could not be picked up.

PASSENGER COACHES DERAILED,

But Wreck on C.P.R. Near Moosejaw Kills No One.

Winnipeg, Man., May 4.—A wreck in which five passenger coaches were derailed occurred at 4 o'clock yesterday afternoon on the C.P.R. near Moosejaw, west of Moosejaw. The train, an immigrant special, which left Winnipeg on Monday night, was proceeding west at a good rate of speed when one of the forward coaches suddenly left the track, being followed by four others. The tender of the engine was also derailed. Not one of the large number of passengers riding in the five coaches was injured to any extent, and the escape of many is considered wonderful. Twelve received minor cuts, scratches and bruises.

FOR A TWO-CENT PASSENGER RATE

Editorial in Weekly Sun, May 4: One of the best moves ever made in parliament for justice for the people for the railways occurred at Ottawa last week. The Michigan and Ontario legislatures, and the Ontario section of the system, where traffic must be quite as heavy as the Michigan and the same passenger rates which it already gives across the line. No other move was made in parliament, but it is a pity that the Ontario section of the system, where traffic must be quite as heavy as the Michigan and the same passenger rates which it already gives across the line. Chatham, May 4.—The Liberal-Conservative convention was held here today with a splendid attendance. The principal feature of the convention was the speech of W. J. Hanna, M.L.A., West Lambton. Mr. Hanna has been accused of taking advantage of his position in the legislature to make statements about Bowman and Connors which would not dare repeat outside the provincial house. He took this opportunity of repeating his former statements.

The other speakers were B. W. Wilson, Dominion candidate for Kent, and Lewis W. Dill, Dominion candidate for South Essex. The convention was called for the purpose of selecting a candidate to carry the Conservative standard in the next provincial election. Owing, however, to it being impossible for the farmers to be present, and as the farmers control over two-thirds of the votes in the constituency, it was thought advisable to postpone the selection of a candidate until the rural districts could be fully represented.

PRINTERS' PECULIARITIES.

London, May 4.—The Institute of Printers last evening held their annual dinner at the Hotel Ogilby, H. L. V. Dawson in the chair. In referring to the coast, "Literature and Art" W. L. Courtney referred humorously to the printer and his work. Many of the members that in an old version of the Bible a text should have read, "Printers have persecuted me without reason," gave an address on the necessity of tempering the foreign settlers of the Northwest, and Rev. Armstrong Black also spoke.

British Wage—£70 a Year.

London, May 4.—The president of the board of trade states, in answer to a question in the house of commons, that the average annual earnings of adult male wage earners employed in the principal industrial and agricultural occupations in the United Kingdom are estimated approximately at £70 per head. Gerald Balfour cannot say what is the average income of a working class family, but he thinks it would considerably exceed this figure.

..Radiators for Fire Sufferers..

In replacing the buildings destroyed by the recent fire in Toronto an important consideration with business firms and architects is the proper heating of warehouses and factories. Our unconditional

Guarantee With "The Safford"

That it is absolutely non-leakable, is a most valuable feature, as many concerns have sustained heavy loss by goods and machinery being destroyed by radiators bursting and leaking at the joints. In this respect the "Safford" is infinitely superior to any push-nipple radiators which are simply pressed together and have to be held there by rods, bolts and nuts. The "Safford" requires neither bolts nor packing, can be perfectly adjusted to any height, length, curve or angle, and when once put in causes no more trouble. It gives the most perfect satisfaction and is unequalled for efficiency and economy. This is why we manufacture and sell more radiators than any other two or three manufacturers in the British Empire. Architects are always safe in specifying the "Safford."

See further particulars concerning the "Safford" in World of next Saturday. Illustrated Catalogue on application.

Annual Meeting of Daughters of Empire Shows Much Patriotic Work Being Done.

The annual meeting of the Daughters of the Empire, Toronto branch, was held at McConkey's yesterday and was largely attended and very enthusiastic regarding the progress shown by the various reports presented. Mrs. Nordheimer presided and the officers were re-elected. They are: Mrs. Nordheimer, president; Mrs. St. John, vice-president; Mrs. John I. Davidson, 3rd vice-president; treasurer, Mrs. Bruce; secretary, Mrs. MacDonald; standard bearer, Miss Bessie Landon. Twenty councillors were also elected.

OPERATED ON HUMAN OSTRICH.

May Articles of Junk Taken From His Stomach.

New York, May 4.—The Herald this morning says: For more than three hours yesterday doctors of the German Hospital, Williamsburg, assisted in the delicate operation of removing from the stomach of John Fassel, who has called himself the "human chain swallower," a variety of metal articles which he had swallowed during the last two months. The following is a correct list of junk that was taken from Fassel's stomach: Six knives of different varieties, one gold watch chain, one key ring chain, one brass hall door key, one roll top desk key, four Yale lock keys, one button hook, fourteen wire nails each three inches in length, two iron nails, four horseshoe nails, two pins.

No Compromise Possible.

London, May 4.—Presiding yesterday at the London Diocesan Conference in Church House, Westminster, the Bishop of London said no compromise had been or was likely to be made that was calculated to induce them to part with the control of their schools. His lordship added that the church could not reasonably be asked to consider any compromise which would in any way affect their freedom to instruct their children in the religion of their parents, not merely on one day but every day.

Gill Having Been Suggested to Act on a Committee.

At present, as shown by Mrs. Strath's report, over a hundred Canadian schools are now through the "linked" with educational institutions throughout Britain and in the other colonies.

For instance, Upper Canada College is linked with Winchester in the pupil exchange letters of information to the country and its affairs, photographs, stamps, and other things of mutual interest. In this way, not a little valuable missionary work is being done. Ireland and Scotland is being done, many letters from correspondents there intimating a resolve to come to Canada some day. It is desired to extend this feature of the work of the order extensively.

BOWMANVILLE ANGLICANS.

Messrs. Tait and Bonnycastle on a Recent News Item.

Bowmanville, May 4.—(Special.)—Wardens Tait and Bonnycastle told their correspondent to-day that they look upon the article that appeared in a recent issue of The World. They ask to have the following inserted:

"We notice an article in The World concerning the officers of St. John's Church, Bowmanville, many statements of which are palpably untrue on the face of it. In the first place, it states that difficulty was experienced in getting a rector to succeed Rev. R. Dearborn. This is manifestly untrue, as at least a dozen clergymen signified their willingness to come here. It also says that the Bishop of Toronto will close the church up if the congregation will not accept of his seeing. This is another misrepresentation, as the Bishop of Toronto made the appointment of Rev. W. E. Carroll, B.A., to this rectory over two weeks ago, and Mr. Carroll's formal induction will shortly take place."

Sprats Stopped a Hunt. London, May 4.—The meeting of the Eastern Sea Fisheries Board at Spalding was enlivened by a hunting story which the chairman related.

It was inspired by the disclosure that sprats have been so plentiful that they are in demand for manorial purposes.

"One day," said the chairman, "some hounds came across a field that had been mowed with sprats, and they went to and ate the lot."

When the laughter had subsided, the chairman completed the story by saying that the hounds refused to do any more hunting that day.

Banded Arm His Weapon. Chicago, Ill., May 4.—The "chloroform man," a new sort of criminal, is under arrest at Davenport, Iowa.

The Miraculous Potato. Berlin, May 4.—The German Emperor has presented a picture to the exhibition illustrating the industrial uses of alcohol, which is now being held in Vienna.

It bears the following autograph inscription: "The mineral chloroform which the odor of the colorless but the sun will always ripen, and the light, warmth and power to be found in the potato are infinite."

Four Bandits Garrotted. Santiago, Cuba, May 4.—Four bandits convicted of murder were garrotted this morning in the provincial jail. It was the first legal execution since the Spanish regime. Two executioners, who arrived here from Havana, with the garrote, were almost mobbed while on their way to the jail.

Suicide Before a Crowd. New York, May 4.—In the presence of a crowd of people about to enter Madison Square Garden to attend the matinee of the military tournament to-day, John T. Wendell, a tailor, drank a few glasses of beer, and was overcome by several women fainted and there was pandemonium for a few moments.

We have a proposition that makes it easy for you to own a GOURLAY. Even if your means are limited, there is no need to buy an inferior piano. Gourlay, Winter & Leeming 188 Yonge Street, Toronto.

CHOSE THE PRETTIER MAID.

Iowa Minister Had to Find Another Pulpit as the Result of Marriage.

Sioux City, May 4.—The Rev. J. B. Lemon, pastor of the First Christian Church of Akron, who came to that town about a year ago, courted an interesting splendor of his flock for half a year, and recently lost interest in her in favor of Pearl, the pretty 15-year-old daughter of Mrs. Sullivan, a washerwoman. Pearl's attractions caused the minister, who is 40 years old, to be so much with her mother's home, that it was a subject of general gossip. Sunday evening the minister announced from his pulpit that he was about to take a wife, and Pearl as the intended. The town disapproved, and so severe was the criticism of the marriage that the minister would perform it.

Finally Mr. Lemon hired the opera house and invited the town to attend. Justice Kidd performed the ceremony, and at the close of the service the minister with his child wife leaning on his arm, Mr. Lemon chafed the townsfolk and mal-factors, as he called them. He told them of his high uncomplimentary opinion of the church, and said that he would resign, called a small boy, handed him some money, and said, "Take this to the pastor of St. John's church, and tell him that Pearl had displaced in his affection the minister's wife. The crowd started for the stage with designs of violence, but Mr. Lemon was prepared and hurriedly fled to a carriage in the town, drove rapidly out of town, never to return.

MAY REACH SETTLEMENT.

Seaman's Union Modify Demands and Embargo May Be Raised.

Cleveland, May 4.—With their demands considerably modified the representatives of the Seamen's Union met with the executive committee of the Lake Carriers' Association this afternoon for another conference on the season's wage scale. It is said the negotiations are excellent that an amicable settlement will be reached soon. Members of the committee of masters and pilots, which meets with the city. A prominent vesselman stated this afternoon that an agreement would be reached without much delay, and that as a result the embargo placed on lake navigation would be raised before the present week ends.

NO LOSS OF LIFE.

Bracebridge, May 4.—Owing to the tickets not having been taken up, it cannot be ascertained definitely whether there was any loss of life as a result of the accident to the steamship Ontario. The general manager of the navigation company, A. P. Cockburn, is here this morning and the work of repairing and repainting the boat will start at once. It is expected that an inquiry into the accident will be held by the navigation company.

DEADLOCK IN SHIPPING.

Buffalo, May 4.—Notice has been given out withdrawing the tariff rate schedule on both eastbound and westbound rail and lake freight. Unless the deadlock between the Lake Carriers' Association and the Masters and Pilots' Association is speedily broken freight traffic on the great lakes will become paralyzed. Freight on lake navigation is being turned over to the railroads.

NO DISCRETION.

Goldwin Smith in Weekly Sun: At the close of the Ontario session the royal assent of the Hon. Geo. W. Ross was duly given to the whole list of bills, which he had introduced. The royal assent was given, but in effect the royal approval. This part of the ceremony might surely as well be omitted. It seems now to be accepted doctrine that the holder of the royal prerogative has no discretion or responsibility that his office is a venial apparatus through which a party leader speaks in the name of the crown. His position in this hypothesis resembles that of the great seal, which used to be treated as a personage, to whom special attention was paid, and to ride in a state coach of its own. Still he is not a thing but a person, with a character to be sustained and a moral sense of self-respect. Credit ought to be given him for unwillingness to be made the mouthpiece of a policy which he cannot approve. The extreme theory of his irresponsibility which now prevails is new. If the premier of Ontario had approached Lord Elgin, Sir Edmund Head or Lord Lisgar with a demand that the representative of the British crown should utter from the throne his approval of anything which honor did not approve the demand would probably have been met with a brief and proud reply. We are left to conjecture what, without power or responsibility, the use of these offices can be.

JABEL ROBINSON'S COURAGE.

Weekly Sun: Mr. Robinson has on many occasions given proof of the fact that he recognizes that his business in parliament is to aid in maintaining the rights of the people. But never did the membership of the West Elgin give better proof of this fact than when he jumped in behind Maclean in the fight to compel the Michigan Central to give its Ontario patrons a two-cent rate. To take this position required courage as was a sense of public duty. Mr. Robinson is now in Mr. Robinson's constituency, and the Michigan Central, with its St. Thomas car shops, is a power in that city.

BANQUET FOR MAJOR MURRAY.

The members of I. O. O. F., known as "Murray's Dandies," who served under the Queen's Hotel, are to give a banquet at the Queen's Hotel on Thursday evening next, May 12. The committee are: F. S. Nash, Fred Lord, Harry Ford, Dr. T. B. Richardson, Morgan Jellett, F. Foster Hill, W. L. Hime.

As London Saw It.

London Daily News: A great fire caused all Tuesday night at Toronto, causing damage to the amount of two millions sterling. The fire originated in a soap factory in West Wellington street at 9 o'clock. The flames spread with such rapidity that the firemen were powerless. The fire was only got under control at 3 o'clock yesterday morning, by which time a district of fifty acres had been burned out. So brilliant were the flames, says The Central News correspondent, that in duty for miles around objects were as clearly visible as in daytime. The Queen's Hotel is gutted. Hundreds of guests were in the house, and many had thrilling escapes.

AGAINST RECIPROCITY

Francis Curtis has a three-column article in the Springfield Union, in which he undertakes to tell "the whole truth" about reciprocity.

They would have us open our markets to eighteenth-century products and well-to-do people to the farm products and manufactures of Canada in return for a market of six-million people who are not so well off, who are not so well paid for their labor, and whose purchasing power does not amount to one-tenth, no, not one-twentieth the purchasing power of the people of the United States.

The people of Canada are not at all anxious to go into this subject at the present time; they are not anxious to go into it at any time unless they can get not only an advantage by the bargain, but a very great advantage.

The remark about our purchasing power is unkind, and it contrasts strangely with a table printed by Mr. Curtis, showing that Canadians buy more than twice as much from the United States as the United States buy from Canada.

ONTARIO AID TO THE G.T.P.

An article is now going the rounds of the government press concerning the Grand Trunk Pacific. The article is a bargain for the Canadian Pacific Railway, and pointing out that the Grand Trunk Pacific is not subsidized either in cash or in land.

The article is misleading in several ways. In the first place, as has been often pointed out, there is no fair comparison between the two bargains. The Canadian Pacific Railway was the first of our transcontinental railways, and was regarded by many persons as a rash experiment.

In the second place, it is mere evasion to say that the G. T. P. is not subsidized. It is getting assistance equivalent to a very large money grant; the only change from the old subsidy system is in form.

In the third place, apart altogether from what the Dominion parliament is doing, the Ontario legislature is giving the Grand Trunk Pacific \$2000 a mile and \$2000 a mile for 200 miles, that is, \$400,000 and \$400,000, a total of \$800,000. The matter is not improved by the fact that this grant is being given by Ontario alone, instead of by the whole Dominion; in fact, it is rather worse, for Ontario on that account. Nor does it matter that the 200 miles bonus does not appear as part of the main plan. It is all part of the same plan. The Ontario grant cannot be omitted in any fair account of the assistance given to the Grand Trunk Pacific.

LETTER CARRIERS' PLAIN.

Ottawa, May 4.—(Staff Special).—Sir William Mulock informed the house of commons that he had received from letter carriers in Toronto, Montreal, Ottawa and other cities respecting grievances said to arise from the amended postoffice act.

Live Stock Superabundant

The capital in live stock business of the west—impossible to show in excess of the purely grain-growing investments. What is still more serious is the fact that the surplus is coming out of the west.

What the West Wants

Another indictment from the live stock interests comes in the form of numerous complaints about the manner in which the Dominion parliament has permitted to graze the border.

Ontario Farmers Export Some Controversy

Ontario farmers export some controversy, however, because of live stock interests of this section, which they perhaps do not understand.

CITY DECLINES LIABILITY FOR SANITARIUM DEFICITS

Tone of Board of Health Meeting Yesterday, When Lively Discussion Was Indulged In.

Had to Restore Order

Dr. Lynd strongly supported the motion of health officer, saying that the city's liability ended with the payment of the \$50,000. Dr. Noble intimated that Dr. Sheard and Dr. Lynd were very much surprised at the amount of dollars and cents, and had no feeling in regard to the 60 consumptives lying in the city.

Dr. Noble objected to the monthly report of the medical health officer in which it was stated that there were twenty-two cases of typhoid fever in the city. The doctor said that there were at least fifty, but the doctors did not report them.
