Plants in Ontario**

**SHIPMENT DIVERTED
FROM U. S. HARBORS**

**Direct Sailing of Steamer to
This Port Arranged by
C. N. R.**

ANOTHER result of the Maritime Ports campaign was the arrival yesterday of the Lloyd's Mediterranean Line steamer Valngra with 12,000 cases of oranges direct from Seville, Spain. The oranges are consigned to different marmalade manufacturers whose plants are in Hamilton, Toronto, St. Catharines and Windsor, Ont.

This is the first time that the Canadian manufacturers of marmalade have imported their raw materials through Canadian ports. Formerly, the movement of these has been through the port of New York and via Suspension Bridge, the Canadian railways getting only the short end of the haul. W. R. Caldwell, traffic manager for the Canadian Cannery, Ltd., is here in the interests of some of the importers. With Mr. Heep, of McLane Kennedy Ltd., the agents for the line, he boarded the vessel after she had come to anchor in the stream and made a preliminary inspection.

The Canadian National Railways arranged for the direct sailing to this port of the vessel from Seville, and are moving the whole shipment to Ontario in two special trains of heated refrigerator cars.

EXPERT SENT HERE

The Fruit Branch of the Department of Agriculture at Ottawa has sent Major Roy L. Wheeler, fruit transportation expert, to the city to accompany the first train out tonight and escort it to its destination. Major Wheeler has with him two electrical resistance thermometers for outside reading of the air and temperatures inside two of the cars which will be placed in tonight's train. By this information the railway officials in charge of the train will be assisted in determining what heating arrangements are required to maintain a satisfactory low temperature to transport the fruit.

Major Wheeler explained that his department's interest is less in the imported fruit than in its successful handling over Canadian rails, their resistance thermometer set being only one of the many pieces of equipment which the department has at its disposal in Canada. His concern is only a part of the department's program for the assembly of information looking to the improvement of temperature control and loading methods for perishable winter traffic.

60-HOUR SERVICE

It is estimated that the total movement will require two trains of heated refrigerator cars and the Canadian National Railways management has assured the importers of a 60-hour service from Saint John to Toronto. Mr. Caldwell remarked that the fruit will arrive on Sunday and will go into manufacture on Monday. There will also be an official from the Perishable Traffic Department of the C. N. R. accompanying each train. In this way the railway will gain first-hand knowledge of the conditions to be met with in the transportation of such shipments.

LOW CHARGES URGED

Speaking of the Maritime ports campaign, Mr. Caldwell said that while the importers and exporters in the interior of Canada were anxious to aid the Maritime ports rather than the American North Atlantic ports, all conditions being reasonably equal, sight must not be lost of the fact that competition made it necessary to keep transportation charges at a minimum.

Captain Eposito of the Valngra reported a very rough passage from Seville, the vessel being seven days over her usual time for the run. One seaman received an injured hand as the result of a gale. Captain Eposito said that on one occasion the head winds were so bad that the vessel made only 40 miles in one day. It took three days, at one time, to make an ordinary day's distance.

SAINT JOHN, N. B., FEBRUARY 4, 1926.

TRAITS, GOOD AND BAD.

The editor of the World Review, of Chicago, recently asked fifteen Americans of eminence in various fields to answer through his columns the following searching questions:

"What is our best American trait—in other words what is the most hopeful feature of American civilization—the most prominent aspect of American life?"

"What is the least redeeming feature of American life—the one which should be most ashamed of, and which should make a determined effort to correct?"

"Most of the replies indicate that the Americans have all the virtues as well as all the vices, but in the main the reports are favorable, if not optimistic."

"The most hopeful aspect of American life to-day is the fact that so many thousands of our people are beginning to understand and appreciate the true nature of the substance called Bank."

"The least redeeming feature is the fact that so many millions of our people still fail to understand and appreciate the true nature of the substance called Bank."

The Captain's judgment is worthy of respect, but most Canadians will hope that he does not meditate another dash into the Arctic circle to resolve existing doubts. The Captain has earned a rest, and is old enough to enjoy it.

Likewise, this country has spent a great deal of money in financing exploration, and its premier explorer in his old age still has a restless foot and must travel, it would be cheaper to allow him to explore some of the winter resorts nearer home, which can be reached without equipping an expedition. The lure of the Arctic isn't what it used to be, or its importance either. And, to employ a rural phrase, Peary staggered it, if he didn't knock it down.

The quivering wires this morning bring to a breathless world the word from Mr. Valentino that a report that he is to marry Pola Negri is ridiculous. "Why, I hardly know her," he says. But what has that got to do with it?

Poems That Live

THE ARROW AND THE SONG.

I shot an arrow into the air,
It fell to earth, I knew not where;
For, so swiftly it flew, the sight
Could not follow it in its flight.

I breathed a song into the air,
It fell to earth, I knew not where;
For who has sight so keen and strong,
That it can follow the flight of song?

Long, long afterward, in an oak
I found the arrow, still unbroke;
And the song, from beginning to end,
I found again in the heart of a friend.

—Henry Wadsworth Longfellow.

The Best of Advice

BY CLARK KINNAIRD

ARE YOU ONE OF THOSE PERSONS ALWAYS RIGHT?

THERE are persons, you know, who are ALWAYS RIGHT. There is no country or race but theirs;

No church, No political party, No profession.

"Think of them as you read this little essay by Voltaire, who braved imprisonment and death when he put his thoughts in print; for there was little tolerance in France in his time for a preacher of tolerance:

"I know that men have disorders in their brain. No political party, No profession.

ART OF DEBT SETTLEMENT (Chicago Tribune)
"Let the sponge be drawn across the slate on which our mutual obligations are inscribed," writes M. Caillaux.

Another proposition has been made and we would like to repeat it, and suggest it to M. Caillaux and the other slave-wives. It is for France to send America a few of the art treasures it has collected in the long years of conquest. For the most part they originated in France. Foreign works are all we ask, a few of the bits of painting and sculpture that Napoleon's generals garnered from nearly every European nation, for example.

TURKEY'S OPPORTUNITY (London Morning Post)
Although the Turkish government attempted to influence public opinion in this country, with the aid of a section of the British Press, in respect of the question of Mosul, the British government has condemned that infringement of the rules of international comity, and expressed its willingness to give every consideration to the requirements of the League.

THE NEAR EAST RISK (London Truth)
We are not the only nation involved in this particular risk, as the Angora point out. It would not make France more secure in Syria if the Turks refused by the Turkish government to accept the decision of the League on the Iraq frontier is a defiance of the League, as well as a repudiation of the treaty of Lausanne. But the League can only act in a case of this kind through its own members, and it seems to follow that those members who are more directly interested in the affairs of the Near East should be to be done and when the Angora government makes an attack on an adjoining mandated territory.

New York Had First Newspaper 200 Years Ago

NEW YORK'S first newspaper was published 200 years ago. It was a modest little sheet less than one-fourth the size of a page of an ordinary newspaper today and appeared weekly. A bronze tablet on the south side of the Cotton Exchange marks the site of the office from which it was issued. A few fugitive "news letters" had appeared from time to time, but no regular publication was attempted before 1725. The first paper was known as The New York Gazette. In Boston a regular weekly paper was published at an earlier date.

There was not much news in the New York public two centuries ago. The Gazette consisted of a single sheet printed on both sides, its pages two columns in width and the whole contents measuring less than one modern newspaper column.

ONLY FOREIGN NEWS GIVEN.
In fact, The Gazette printed almost no local news. Foreign affairs were of superior interest. The first number devoted its first page to the text of a treaty between the Emperor of Germany and the King of Spain. The second news feature was a "Remonstrance of the Clergy of France" presented to the King against a new tax of 2 per cent.

The only glimpse of local life in early New York offered by The Gazette is to be found in the advertisements. Each issue contains but from one to five advertisements. New York gave promise of becoming a shipping centre, "without the arrival or departure of some sea-going vessel." Yet there were no ship news reporters on The Gazette staff. The Atlantic crossing then required two months or more.

The real estate announcements offered farms for sale by the present crowded deal line. The suburbanites, however, were already flourishing. There were advertisements for "pantaloons" on sale in New Jersey and Long Island. In almost every number of The Gazette there were advertisements of slaves for sale. From passing through New York is mentioned. Otherwise all attempts at acquainting the public with local happenings ceased.

The Gazette managed to exist, advertisements averaged only an inch or so weekly. A line across the last page announces that the paper is "to be sold by Richard Nickel, postmaster, where advertisements are taken in." It was not until 1741, when the paper had run for about nineteen years, that it achieved a circulation of 900 copies.

Whenever troubles Adam had, He laid them down with Eve's. And every morn when he awoke They each turned o'er new leaves.

M'LAREN ASKS ABOUT PORTS

Queries Stewart Regarding Special Rates to Canada via U. S. Outlets

OTTAWA, Feb. 3.—A series of questions was addressed to the Minister of Immigration when the House opened this afternoon.

Dr. Murray MacLaren (Conservative, Saint John-Albert) asked if Mr. Stewart would make enquiry and report to the House reference in advertisements to special rates to Canada via United States ports.

Mr. Stewart promised to take the matter up at once. He was not quite clear what that section of the advertisement meant, but presumed that there might be some distinction between winter traffic and summer traffic through the St. Lawrence route.

Mr. Stewart replied that the Government had due consideration for the Maritime, especially as regards the employment of young boys. He emphasized that the department of immigration was working with the provincial governments and the trade union to meet the suggestions offered by them.

Several Families of Mission Church Parish in Dire Need, Says Pastor, Rev. J. V. Young

At the Mission church, St. John's Baptist, many poor people are seeking aid and help in specially pitiful circumstances.

Another of Father Young's special cases of the present time is a family with four children. The father in this case deserts his wife and children for days, he says, and when he is home he drinks and abuses his wife.

Yet another of Father Young's special charges is the case of an old man and his wife. The man has only been able to secure a few hours work now and again and is not fitted for regular daily toil.

RETIRE AFTER LONG SERVICE

W. H. Grant Leaving as C. N. R. General Tie Agent

MONTREAL, Feb. 4.—After many years of long and varied experience in railroad work, W. H. Grant, general tie agent of the Canadian National Railway, has retired from active service.

Commencing his career in 1882 as an accountant for D. D. Mann during the construction of the C. P. R. across the Prairies and through the mountains of British Columbia, Mr. Grant recalls that in those days the men at work out on the prairies and in the mountains considered themselves fortunate if they received a mail once in six months.

WALL STREET FOOD CONCERN PLANNED

2,000,000-Share Company Obtains Charter in Maryland

NEW YORK, N. Y., Feb. 3.—Wall street has announced its intention of going into the food business, and in the near future a corporation that will make the neighborhood store merely a small cog in some country-wide chain-system is likely to be in existence.

The National Food Products Corporation is the first great holding company in the scheme and already substantial amounts of the capital stock of companies controlling some 2,000 stores throughout the United States have been secured.

The new corporation is at present formed so that it includes companies dealing in groceries, meats and dairy products. Ultimately, it is hoped to include packing concerns, and then to spread out so as to dabble in virtually every commodity that people eat.

The company has been incorporated in Maryland at a capitalization of 2,000,000 shares. The stock which is par value has been assessed by the state authorities at \$200,000,000.

The United States Store Corporation operating 1,050 grocery and meat divisions in twelve states, is said to be a factor in the syndicate.

100,000th Child In Bernardo Homes

MONCTON, Feb. 3.—A. Bourgeois, treasurer of the Canadian National Railway Atlantic Region, has received from the treasurer of Dr. Bernardo's homes, Scarborough, England, a letter of appreciation and thanks to local C. N. R. employes who were contributors to the support of these homes.

The letter states that at Christmas time a month-old baby was admitted to one of these homes, making the 100,000th child since the homes were established sixty years ago.

A large number of C. N. R. employes here subscribed to the homes by deductions from their salaries and paid through the Bank of Montreal, which acted as treasurer for the fund.

Life's Greatest Sacrifice—Shall the Hard-Headed Business Man Marry the Spoiled Girl Who Won't Leave Her Mother?—How Much Influence Should a Young Man Have on a Girl's Career?

DEAR MISS DIX—To settle an argument, will you answer this question: What is the greatest sacrifice that any one can make in life? Z.

ANSWER: I don't think that your question can be answered categorically, though I suppose that the general opinion is that the greatest of all sacrifices is of life itself.

Anyway, the heroes and the martyrs at whose feet we lay our fairest tributes are those who have died for the faith that was in them. "All that a man hath will he give for his life," says the Scripture, and that minimizes the sacrifice of wealth or ambition or love or personal desire. Yet it has always seemed to me that it would be easier to make the one big sacrifice of life than to endure the years and years and years of countless little daily sacrifices that make one's life a prolonged torment.

Among the greatest sacrifices ever made are those made by poor mothers. Every woman who bears children goes through the agony of the Crucifixion for them, but to this the poor woman adds lack of proper nursing, proper care, proper rest. Her other children are demanding attention, and so she drags herself from her bed of pain to cook and wash and sew and care for them.

Her days are slavery. She never knows a night's unbroken rest. She never has any pretty clothes. She never has anything. Everything she gives to the children. She goes shabby, that her children may be decently dressed. Often she goes hungry, that they may have food. She works beyond her strength, that they may have a playtime. She is like the mythological bird that feeds its young on its own heart.

Great also are the sacrifices that many a man makes on the altar of his home. We all know men who literally work themselves to death to pay the bills of extravagant wives. We know men who continue to come back every night for thirty or forty years to nagging and fretful wives and homes that are places of torment.

We know men who are patient sick nurses to neurotic invalids, and we know that the saints and the martyrs have nothing in goodness or suffering on these men, who sacrifice their hopes and plans and ambitions, their comfort and their joy in life, to their sense of duty.

But, personally, I think that the greatest sacrifice that any one ever makes in life is that made by a young, gay, beautiful and talented girl who gives up marrying the man with whom she is in love and who offers her a full, happy, broad life to stay at home and take care of her old parents or to rear the orphan children of her brother or sister. She gives up everything that she wants in life with the certainty that there will be no reward for her.

Her sacrifice is greater than that of the mother, because she has not the love of those for whom she sacrifices that would be her compensation. Her sacrifice is greater than that of a man would be in a similar case, because when the old people are dead or the children reared the man would still have a chance of some happiness in life, but the woman has none.

The greatest of all sacrifices are those that are made for one's family. And they are rarely appreciated. They are the cross without the crown of glory. DOROTHY DIX.

DEAR DOROTHY DIX—I am engaged to be married to a young woman whom I love very much. BUT she is the youngest child in her family, and very much spoiled. Has always had her way about everything, and I have to give in to her about everything to keep the peace.

She insists on living right by her mother. Says she will never go away from her mother, no matter if it was very much to my interest to go to another city to live.

I have caught her in many untruths she has told me. Now, I am a business man, and I have been trying to figure the proposition out in a business way, whether it is a good thing to invest my all in this matrimonial venture. What do you say? FRANK.

ANSWER: I should rate it as a pretty bad risk myself, Frank. If you were going into partnership with another man you would not pick out one who was selfish, self-centered, arbitrary and hard to get along with, would you? Nor would you select a man who wouldn't back you up in doing what he was best for the good of the firm. And you would never, never tie up with a man who was a liar and whose words you couldn't trust.

Why, then, choose that kind of a woman for a wife? Believe me, it is far more important to get the right sort of a life partner than it is to get the right sort of a business partner, for you can dissolve a business partnership without trouble or heartaches, but getting rid of a life partner means scandal and alimony.

Of all the disagreeable people in the world that any one can possibly marry, the chief ones are those who have been raised pets at home; who have had their laziness and their selfishness and their temper excused because it was John's way or Sally's way, and who have had it bred into their very bones that nobody else has any rights that they should consider.

Such men and such women are a curse to those who marry them, and my advice to you is to let mamma's darling alone. Also avoid the girl who says that she will never leave her mother. The right sort of a wife gives her first allegiance to her husband and is ready to go wherever his fortunes call him. DOROTHY DIX.

DEAR MISS DIX—All my life I have wanted to be a trained nurse, but the boy I have been going with for two years opposes it very much. He wants me to be a teacher, or anything else but a trained nurse. Must I change my desired profession to please him or go ahead as I have planned? UNDECIDED.

ANSWER: If you are definitely engaged to the young man and expect soon to be married to him, you might be influenced by his opinion. In that case he may have some right to dictate to you. But if you are just vaguely "going with him" and do not know whether he intends to marry you or not, he certainly has no right to interfere with your career and prevent you from taking up the profession for which you have a vocation.

In any case, he is taking a very foolish attitude, because there is no better vocation that a woman can go into than nursing—none in which she does so much good to her fellow creatures. Besides this, it is a wonderful preparation for matrimony. The trained nurse is especially fitted to make a splendid wife and mother, because she knows how to care scientifically for the health of her family.

If all of your life you have felt a call to be a nurse, I think you would be very foolish to give it up for the whim of a boy who never didn't know what he is talking about when he opposes it. DOROTHY DIX.

HOUSEHOLD SUGGESTIONS

Bread crusts and crumbs should be browned in a very slow oven before being put away to use in grain dishes. If they are treated in this way they will not mildew.

Pewter must be handled very carefully as it is soft metal and easily scratched. A smooth paste made of whiting and lemon oil applied with a soft cloth is best to use in cleaning. Rinse with hot water and polish with dry, soft cloth. If very soiled the finest quality of wire wool dipped in kerosene may be used first, then the paste may be used as a polisher.

Tinware blackens and tarnishes easily, but a hot soda wash and the spots rubbed off with wire wool will keep it fairly bright and clean looking.

It pays to buy good cutlery and when it is bought take good care of it. It cannot be expected to keep its edge and finish if you give it no care. Acids affect most metals and heating destroys the temper. Cutting of heavy material blunts the edge.

BREADTH without thickness is merely flatness.

Annual Meeting of Rothesay
Chapter, I. O. D. E.
Held

Work of Last Year Reviewed—
Assistance Given to Good
Objects

The Duke of Rothesay Chapter of the I. O. D. E. held its annual meeting yesterday and received gratifying reports of the year's activities. Officers were elected and the year's work reviewed. The meeting was held at the residence of the retiring secretary, Miss E. R. Pitcher, and was presided over by the retiring regent, Mrs. Hugh Connell. Miss Pitcher's excellent report reviewed the work of the year.

CHAPTER ACTIVITIES.
The chapter contributed \$181.61 to the National War Memorial, bringing its total contribution to \$123,61 or \$45.20 per capita. It added to its war memorial fund \$600, bringing that fund to \$2,898.46.
It gave to local educational work \$55. Six prizes were donated, four to the Rothesay Consolidated and two to the Golden Grove schools. Educational slides were shown, banners on "dear to Canadians" displayed and calendars presented to the three Rothesay schools, and to the one in Golden Grove to the latter a collection of 47 books was sent. It donated \$50 towards the purchase of a car for soldier patients at River Glade and \$25 towards the installation of a radio set in the Lancaster Military Hospital.
A small donation was made towards the expenses of a soldier student in the U. N. B., and the usual share of the I. O. D. E. prize in that university was contributed.
The chapter made itself a corporate member of the Society of the League of Nations in Canada, and the principal of the Rothesay Consolidated school an associate member. Tagging was done on Poppy Day and books and magazines were sent as heretofore to the wives of soldier settlers in the province.
The total earnings for the year were \$908.58. Money was raised by two rummage sales, a pantry sale, taggins on Poppy Day, making wreaths for Christmas decoration, a braille, talent money and a tea and candy sale.

Go To Malay Women For Fashion

BY HORTENSE SAUNDERS
IF YOU really want to learn distinction in dress and perfection in line, don't go to Paris, go to Malay, urges Mrs. Carveth Wells, wife of the English lecturer and explorer who is now in the United States.
"I have been in practically every country and have seen the native costumes of every land, but never have I seen women who had so mastered the art of extreme simplicity and extreme sophistication as have the women of Malay," she told me.
"They have convinced me that we are all wrong in changing our styles from season to season. They have been wearing precisely the same cut of costume for hundreds of years, and they have mastered it."
"A simple straight coat, and a length of cloth that ties in front with a particular knot and becomes a skirt—a sarong and hat—constitute their uniform, but they make it more distinctive than Paris's most extreme models."
"And despite the fact that all women wear gowns of the same cut, they still achieve an originality we of New York and Paris yearn for."
The monotony of cut is quite offset by the marvelous colors and fabrics they use, the colorful embroidery batik work, and the intricate jewelry they use, she explained.
Mrs. Wells spent six years in the jungles of Malay, accompanying her husband on an engineering trip, and she penetrated many of the dense portions of the interior of that peninsula where a woman had never before ventured.
"I went there with a certain temerity about snakes, and after six years in the jungle, I became so adept at killing them, that now there is no sport I enjoy more than killing snakes. I even had a tit once with a king cobra, in which I came out the victor."
"Though we might learn about clothes from the Malay lady, we could teach her something about make-up and cosmetics," Mrs. Wells believes.
"The Malay women use more make-up than any women in the world—except Americans," she laughed, "and if they could get hold of the fingernail enamel, the conventional lipstick and the varieties of paints and pomades that are available in American shops, they would probably be the happiest women in the world."

Mrs. Carveth Wells.

Heavy Snow Fall Calls For Large
Expenditure to Keep Streets
Clear

The recent heavy snowfalls have cut heavily into the appropriation for street cleaning. During the last two days 52 teams and 190 men have been on the job making the city streets as safe and convenient for pedestrians and traffic as possible.
King, Charlotte and other leading thoroughfares have been cleared and work is also being done in other less used streets, some of which require considerable attention before they were passable. In addition road-breaking work has been done on the Millidgeville and Sand Point roads and in other places where the snow had drifted heavily.
PRECIPITATION HEAVY.
The precipitation to date has been very heavy, almost as much snow having fallen as during the whole of last winter. As each storm means that the work of grading, clearing and hauling the snow and sanding the streets has to be done over again, the demand on the appropriation for the purpose has been severe.

4 THUGS IN BIG POSTAL THEFT

Bind Pawtucket Employees And Get Away With \$265,000

Burn Way Into Steel Vault Where Stamps and Rich Mail Kept

PAWTUCKET, R. I., Feb. 4.—Four masked robbers bound the night clerk and watchman in the Pawtucket Post Office and after burning through two steel doors in the main vault escaped with 11 sacks of stamps and valuable mail worth \$265,000. The value of the haul was made public by Park D. Calvin, Chief Post Office Inspector of the New England District.

The entire stock of stamps in the office, including letter postage of all denominations and postal savings stamps, were included in the loot.

ESCAPE IN CAR

The robbers escaped in an automobile. The only clue is a description given by a garage man who filled the tank of the car used by the robbers. He said it bore a Rhode Island registration number.

Peter F. Rafferty, night watchman, was locking the doors of the post office at midnight when the men confronted him. They leveled revolvers at his head and one of the thugs locked the doors. The robbers then forced the watchman to call George Sullivan, a substitute clerk working his first night in the office and the only other person in the building.

Sullivan was met by two of the robbers, who thrust revolvers into his ribs. The two employees were then marched to the general delivery department, where they were bound in chairs. Later Rafferty and Sullivan were forced to escort the thugs through the building.

The robbers, hanging a piece of canvas before the vault, began burning their way into the safe. They placed Rafferty and Sullivan in chairs about four feet from the safe. The steel plate was penetrated and the bolts directly connected with the combination was severed, opening the big outer door. By 8 o'clock the men had burned their way through the inner door. Eleven mail pouches were filled with stamps.

The men were gone less than five minutes when Rafferty freed himself. He then released Sullivan, who notified the police.

ON LOST HONEYMOON

Sweethearts 50 Years Ago Wed and Go to His Kansas Farm

CHICAGO, Feb. 3.—More than half century ago Frank T. Leebick and Fannie Rodenberg were sweethearts in Richmond, Ind. They planned to be married, but her parents objected when he decided to strike out for himself and take land in Kansas.

So they separated and he took the land, 1,000 acres, near McDonald. In 1878 he heard she had married. Two years later he was wed. Their mate died, her's in 1918 and his in 1923.

A few months ago the girl, then Mrs. Toland, 73 years old, wrote to Mr. Leebick's sister in Santa Barbara, Cal., not knowing she had died. The letter was forwarded through devious channels to Leebick in Kansas. He took the first train to Chicago.

Since the two had parted in Richmond they had not seen each other until last Sunday. But Leebick lost no time in renewing his suit and they were married yesterday. He is 77 years old.

Today they were going back to Kansas, in search of, as the aged bridegroom phrased, "a lost honeymoon."

Ex-Mayor Is Barred From Woman's Home

PROVIDENCE, R. I., Feb. 3.—A unique court decree handed down by Judge Baker in Superior Court eliminated Mrs. Bertha A. Jette from the calling list of Charles E. Lord, former Mayor of Central Falls.

The decree prohibiting Lord from visiting Mrs. Jette at her residence was drawn up by agreement between counsel representing Mrs. Jette and her husband, Oscar Jette, who is the complainant in a \$25,000 alienation suit against Lord.

Quebec Bill Provides For Matter Service on Investigating Commissions

QUEBEC, Feb. 4.—In future, judges of the Superior Court of the province of Quebec will not be paid for their services when they act as commissioners to enquire into allegations of municipal wrong-doing. This is one of the provisions of the measure which Premier Taschereau will introduce in a bill to amend the provisions of the law under which municipal enquiries are held. There are to be other changes, but they have not all been definitely decided upon yet, but as regards extra remuneration for judges who conduct these municipal investigations, the decision has been taken by the government that such extra fees shall not be exigible in future.

GIRL AND PRIVATE DETECTIVE KILLED

Murdered in Auto By Several Persons, Police Believe—Italian Is Held

DETROIT, Mich., Feb. 3.—Three, and perhaps four, persons participated in the murder of Jay Daubenspeck, a private detective, and Miss Silma Lake, 19-year-old domestic, who were found dead in a vacant field early on Sunday. It was indicated at a post-mortem. Dr. Paul Klebba, county medical examiner, said Daubenspeck had been shot with four different kinds of bullets. He was shot 12 times, and six of the bullets were found in the body. Daubenspeck's revolver has not been found, and it is possible that it may have been wrested from him and used by one of his assistants. Only one bullet was found in the body of Miss Lake, although she had been shot four times.

Samuel Pace, 21 years old, was being held for questioning. Pace, said to have been a sweetheart of the girl, denies all knowledge of the shooting, and insists he can establish an alibi. He is held at home, a statement substantiated by his mother and sister.

The dead girl came to Detroit a few months ago from East Texas. Daubenspeck, a native of Idaho, has been in Detroit since 1918. Pace is an Italian.

Reconstructing the crime, police believe that Daubenspeck and the girl were seated in their automobile when the door suddenly was pulled open and flaming death began to pour in upon them.

They believe Daubenspeck got out of the car and fled from his assailants, finally falling from loss of blood, and that his assailants poured lead into ground.

The girl's body was found about 100 feet from the car in the middle of a little-frequented street.

Yonkers Employees

Get \$450,000 Bonus
NEW YORK, Feb. 3.—About 7,000 employees of the Alexander Smith & Sons Carpet Works of Yonkers are expected to receive the thirtieth semi-annual bonus awarded by the company for faithful service. About \$450,000 will be distributed. This will make about \$6,000,000 the company has distributed to its help since the plan was inaugurated by Alexander Smith Cochran, principal owner of the mills, in 1911.

All employees who have been in the service five years or longer are paid from 5 to 15 per cent. of the wages earned in the six months previous to the bonus. The percentage depends upon the number of years in the company's employ.

FINNISH CHAMPION LIKELY TO RETURN TO FINLAND AT ONCE

THUNBERG NOT SATISFIED WITH N. Y. TREATMENT

Explanation of Expense Matter Made By Fischer

BINGHAMTON, N. Y., Feb. 4.—Dissatisfaction with New York management and not a failure to receive the full amount due him for skating in the National championships, is given by local officials as the reason for the decision of Gus Thunberg to return to Finland, according to W. G. Fischer, local representative of the International Skating Union...

GORMAN'S SIDE.—Julian Fitzgerald's charges against Charlie Gorman were blasted all over the United States yesterday in much detail but Charlie Gorman's side of the matter was hardly mentioned. Here is the Associated Press dispatch on Gorman's version:

SAINT JOHN, N. B., Feb. 5.—(A.P.)—Charlie Gorman, world's amateur skating champion when asked tonight about the report from Detroit that he had demanded \$500 and expected to skate at the international championships there, would only say, "That's news to me."

Carleton and City Clubs Play Tonight.—Carleton and Thistles play six rinks tonight. The make-up of the rinks for the Thistles is as follows: W. H. MacFarlane, H. D. Sullivan, C. Chesley, D. Currie, G. W. Noble, H. W. Kingston, Dr. D. C. Malcolm, W. J. Brown, W. J. B. White, H. G. Barnes, J. D. Cameron.

HALIFAX KEEPS CUP.—HALIFAX, Feb. 5.—(Halifax) N. B. curlers made an unsuccessful attempt to wrest the McLean cup from the Halifax defenders yesterday when two rinks went down to defeat here with scores of 41 to 27. The Dalhousie rinks were skipped by J. L. LeBlanc and J. B. McKay, with points of 19 and 18, respectively, and opposed by skips M. McE. Hall and Murray McNeill, whose points were 23 and 24, respectively. Three rinks from Sydney will come to Halifax next week to play the Halifax defenders for the trophy.

IN SECOND PLACE.—PORTLAND, Ore., Feb. 4.—Portland Rosebuds established themselves as second place in the Western Hockey League race last night, by defeating Vancouver 4 to 3 in a game that went into overtime.

She Could Never Do The Things Other Girls Did.—Miss I. J. Ross, Scotland, Alta., writes: "I am only twenty years old, but have suffered from heart palpitation and nerve trouble for several years. I could never do the things other girls did, that is, in the line of sports, skating, etc., and could never depend on myself at work."

ONE MR. THOMAS MILLIGAN, well and favorably known as a leading contender for the crown sported by Mickey Walker meets another tough egg in the person of Pete Latzo in Boston tonight and if he can crack this one like he did Jack Zivic and Morris Schaller, he will be well on his way toward getting the British Empire back into the championship class again. The New York judges running true to form gave the decision to Zivic recently but the New York crowd, running counter to custom, booted the decision heartily. Much depended on the outcome of that bout as, had Milligan been given the decision, the way to a crack at the title would have been smoothly paved. But as he did not receive the verdict, he has to step down a rung and get a running start. Thus, Mr. Latzo has been selected as the victim. Re- cently, the New York commission impressed on Manager Billy Ames and with this to cheer him, a drive has been started for a return bout with Zivic and the opening gun of the campaign is timed for tonight in Boston. Milligan has shown much promise and to some enthusiasts he is looked on as the Moses who will lead the British flock of pups back into the promised land. It has been so many years now since England had a champion in the heavier classes that you have to go down into the 6th and distant past to find them. Another battler in whom we are more or less interested in Canada is Jack Delaney, the French-Canadian, who tackles Johnny Risko tomorrow night in New York. Delaney is not losing any time these days in making hay and putting it aside for the rainy weather.

SAM LANGFORD, we hear, still is active in the padded mitt arena. The black torpedo is employed as a trainer in a gym in Chicago.

SIX BLUEJACKETS off an American transport steamer while in Havana, Cuba, the other day read about Jack Dempsey arriving with a great fanfare of trumpets there. They made that West Indies run pretty strong the other day and the boys must have filled up on plenty and then they started looking for Mr. Dempsey to tell him what they thought of him and his fighting ability, particularly during the world war when Jack posed for pictures as a shipyard laborer. (The only part that did not go over was that when the pictures were taken Dempsey wore patent leather boots. You can dig the laugh out of this one yourself). Anyway, the boys found that Jack was busy out to sea re-rack playing the ponies and when they made known their intention to the M.P.'s (not members of Parliament), they were promptly locked in the housegown. As we have stated before, the life of a champion is anything but a bed of roses, particularly if you find six tough lads waiting around a dark alley for you some night in the week. The best sleep suddenly without taking any sleeping draughts. Dempsey, by the way, is cleaning up a nice little fortune down in Florida. A real estate company paid him several thousand dollars a day recently to "shake hands" with realty prospects. That gentleman you notice turning green with envy is none other than "Red" Grange.

MONCTON ATLANTICS should give a good account of themselves in the play-offs. Tomorrow night's hockey game here between Sussex and Moncton is the final league game of the season. It will be well worth seeing.

IN THE super-heated air following the big meet here and that nasty mill incident involving "Duke" Donovan, it is a bit difficult to get a calm, collected viewpoint on the entire matter, particularly when on top of that comes Julian Fitzgerald's squawk from Detroit. That matter was promptly and quickly investigated to the hilt by the proper body and the charge against Charlie Gorman disproven. You could hardly blame Mr. Fitzgerald when he THOUGHT, and he thought he was in the dispatch, he had a chance to railroad the local ace and without waiting to allow authorities here time to check up quietly, he broadcast to the world from the holier-than-thou attitude how honest he is and then vents his spleen by dragging in a personal taut for Gorman on O'Neil Farrell's score. Coming on top of the Donovan incident where the same Mr. Fitzgerald allowed the world's record holder for the mile to compete against Gorman in a race which meant a great deal on the opening day, when that same record holder had not properly qualified although he had been told a dozen times about it, coming as it does on the heels of it, it looks decidedly suspicious. Ap- parently, they are not satisfied with Gorman as world's champion. Mr. Farrell probably would look much nicer from Mr. Fitzgerald's view- point. He frankly admits it himself when he accuses Gorman of "run- ning out." He implies that Farrell is the better man and that Gorman is afraid of him. They all had their chance here last week. They were all on even terms. The boy who won the 220 yards, the 440 yards, the mile and the three-mile and came second in the three-quarter clearly earned his golden spurs and had he not been upset on the second day his win would have been larger. Never before was a championly won by such a decisive and impressive victory. Gorman nearly doubled the score on Farrell here. Yet, that apparently does not satisfy them. It DOES satisfy the people of Saint John and they are getting fed up on these attempts to snatch away from their own local boy the laurels he so gallantly won.

BROOKLYN GETS PLAYER.—NEW YORK, N. Y., Feb. 5.—Mer- win Jacobson, hard-hitting outfielder of the Jersey City Internationals, was obtained today by Brooklyn in a deal by which the Dodgers will give two players to the Yankees in exchange, these to be picked later. No cash was involved.

HAMPTON CURLERS DEFEAT THISTLES.—HAMPTON, Feb. 5.—The Thistle Club curlers from Saint John played a friendly match with the local curlers today. There were four rinks and the home curlers won by seven points, scoring 69 to 49 of the visitors. The rinks and scores were as follows: AFTERNOON.

MILLIONAIRES BEATEN.—KENTVILLE, N. S., Feb. 4.—The Sydney Millionaires were defeated before the Kentville hockey team here last night, with a score of seven to one in an exhibition game. Libbus, on a pass from McLeod, scored the only goal for the Cape Breton team.

Brackenhorn Claims \$4,775 Due Him on Contract

BOSTON, Mass., Feb. 4.—A suit of John Brackenhorn, Hamilton Ontario hockey player, against the Boston professional hockey league for \$4,775 unpaid salary was heard in municipal court yesterday. Judge Murray reserved decision. It was testified that Manager Art Ross of the Bruins told Brackenhorn he had not made good and that the other team members objected to play- ing with him because he had lost an eye from an injury received in a game in Canada. There was argument as to whether an agreement or contract had been signed with the plaintiff. Brackenhorn alleged that he signed a contract to come to Boston and play hockey with the Bruins and that he received only \$225 of \$5,000 salary promised him for his services. The contract, he said, drew from November 1925 to November 1927, seventeen weeks to each season. He declared that he was dropped by the club without sufficient cause.

TIE GAME.—NEW YORK, Feb. 4.—New York and St. Pat's played a 1 to 1 overtime draw here last night. It was the sixth extra session for the Americans, and fourth to go the limit to a deadlock.

The basketball games that were played last evening in the Intermediate League were the best that have been played for some time. There was also a revival in the interest as the number of fans that turned out to the game was a large increase over the last few contests. In the first game the Y-Nots beat the Victorias by a score of 28 to 11. This win put the Y-Nots into the finals. W. R. Golding refereed the game.

Between the halves W. R. Golding announced that the league will put up a cup for the winner of the Intermediate League.

ACADIA QUINTETTE TACKLES TROJANS

The Trojans play their first home game tonight against an outside team when they tackle the Acadia University five in the Y. M. C. A. The last time these two teams met in Y. M. C. A. the Trojans were only able to get away with a 44 to 33 score. The college players are extremely clean and their method of play and good open basketball is assured. The over- whelming defeat of U. N. B. by the Trojans in Fredericton last week will be placed along side of the result of tonight's game so that followers of the Intermediate League may judge the chance that U. N. B. will have against Acadia this year. The final game is scheduled to start at 8:30 sharp and there will be no preliminary game.

STRONG FOR LANDIS.—NEW YORK, Feb. 4.—Endorsing the administration of Commissioner Landis and re-affirming their confidence in him, the club owners of the National League yesterday passed a resolution urging his re-appointment for a period of five years from the expiration of his present seven year term in 1927.

Starting Point of Coughs and Colds.—Why Father John's Medicine Protects the Throat.—The delicate skin, or membrane, which lines your throat is a starting point of many troubles. It is in the throat that colds develop and inflamma- tion spreads to the tonsils, the bron- chial tubes and the respiratory organs. If we would be free of coughs and colds, it is clearly a duty to keep the throat healthy. Father John's Medi- cine is especially valuable in protecting the throat of the young.

How They Play It In England

Hockey calls for lots of action and plenty of bruises. The Surrey goal keeper is getting both, but she is preventing the aggressive Hertfordshire player from scoring. The game was played at Norton Abbey, England.

HIGH SCHOOL WINS OVER KNOX TEAM

The senior game was the same old story, Trojans winning from the Nationals by a score of 68-26. Although the score was large the Trojans had a number of good plays were shown on each side.

COLTS AGAIN TRIM MONCTON BY 7-5 SCORE

Locals and Sussex Have Two Games To Play.—SECOND place in the final standing of the Southern section of the Maritime Amateur Hockey Association will not be settled until the final game of the year as Sussex jammed its way into the last night by again trouncing Moncton Atlantics, cham- pions for this year, on Sussex ice, 7 to 5. This makes the second consecutive win for the lowly Colts over the At- lantics, and it makes their prospects bright against Saint John here tomor- row night in the last league game here of the year.

Hockey has had a wonderfully suc- cessful year here and it should wind up in a blaze of glory with these old rivals fighting valiantly to keep out of the cellar berth. Twice this year, they have staged overtime contests that teemed with excitement from the start to finish and with both teams hitting a fast stride, particularly Sussex, Fri- day night's game should be a prim- ary candidate for next Tuesday night at Sussex. A win for Sussex here to- morrow night would put them in fine fettle to repeat the dose on home ice so Saint John must win tomorrow. In case of a tie in the standing, a decid- ing game probably will be played in- stead of a tie in the standing. In last night's game the Sussex boys showed they will be powerful factors next year. The first period was won in the first period and kept it up right through. The second period opened lively and in one minute H. Radcliffe scored a goal made by a nice rush through the Moncton defence. The city team was most hospitably entertained in Rothesay. The line-up of the two teams was as follows:

Rothesay. Centre. Y.W.C.A. M. Peters. Winger. J. Harding. M. Henderson. Lorenz Evans. H. Blanchet. Marion Belding. D. Wyles. Defence. Greta Fowler. A. Allison. Frances Barnes. P. Robinson. E. Henderson. Pearl Cooper.

DISCUSSES TUTORIAL AND LECTURE PLANS

Oxford Man Thinks System Abroad Better For Loafers and Real Scholars, Too

SACKVILLE, Feb. 3.—The recent visit of the Imperial Debating team to Mount Allison was one which will be long remembered by the students. The feeling is general that the actual debate itself was but of small significance in comparison to the opportunity for coming into personal contact with these graduates of old country institutions. The team was lodged in the residence which, as they said, they much preferred to being put up at "pubs" in the town. They stated that the English and Scotch Universities, which do not have the residential system, suffer proportionally in their ability to create "college spirit" the opportunity to get closely acquainted with a comparatively large number of one's fellow students is one of the privileges of residence life.

VIEWS ON LECTURES.
All of the team remarked on the stress which is placed on the lecture system in Canadian colleges. The tutorial system of Oxford, said Mr. Molson, may afford greater opportunities for learning, but it also strongly emphasizes the importance of individual and original work on the part of the student; a higher type of scholarship can be acquired under this method than under the more rigid lecture system of American institutions. At an informal gathering of the student body, R. Munn May, of Birmingham University, spoke eloquently on the National Union of Students in

ANOTHER OVER BRIDGE. The East Saint John fire department was called out again last night to rescue a horse that had gone through the ordinary bridge beyond Kane's Corner on the way to East Saint John. A like occurrence happened on last Sunday night. At this point there is a trestle bridge carrying the street railway tracks, which over a fall of snow, is mistaken for the ordinary bridge by drivers of motor vehicles. It is suggested that a railing is necessary to prevent drivers making this mistake.
