FUND TO BE RAISED

Pension From Nation for Explorer's Widow—Interest in His Men Shown by Surprise He Had in Store For Them on His Return

(Canadian Press)

London, Feb. 11.—Grief and pride in the simple narrative of high courage, endurance and sacrifice given in Captain Robert N. Scott's farewell message to the world, written while he was doomed to death with his companions in the Antarctic ice, have had an electric effect.

"It is a white and not a black mourning we wear for these gallant souls, who have done and died so greatly," is the prevailing note in the comment.

The closing words of Captain Scott's epic: "Had we lived, I should have been a tale to tell of the hardihood, the endurance and the courage of my companions which would have stirred the heart of every Englishman. These rough notes and our dead bodies must tell the tale, but surely, surely, a great and noble country like ours, will see that those who are dependent upon us are properly provided for." have had an electric effect.

Steps are on foot already to respond to his appeal to the nation by assuring a comfortable future for those dependent on the men who, while awaiting certain death, could still write that they did not regret their journey.

ALL PROFITS OF STORY WERE TO BE FOR MEN

Captain Scott's interest in the welfare of his men was emphasized by practically the last business he transacted before he left to join the expedition in New Zealand. This was the sale of his story.

He declined to make any private profits from the transactions and desired that the total receipts should go to increase the financial regard of the men who had undertaken to share with him the story of the Antarctic region. It was, therefore, that all sums paid by newspapers throughout the world for the story of the adventure should be distributed among the members of the crew as a surprise bonus on their return to England.

Mrs. Scott is assured of a good pension from the British government. A memorial service for Captain Scott and his companions is to be held in St. Paul's Cathedral on Friday. Many flags in all parts of London are flying at half mast.

Telegrams from all parts record the profound regret, mingled with pride, felt throughout the British Empire, while messages of sympathy have reached the government in considerable numbers from foreign states.

STARTED OUT ALONE IN FACE OF DEATH

London, Feb. 11.—Details of the disaster in which Captain Scott and four of his men perished in the Antarctic, are brought in the special despatches of the Central News Service. Captain Oates evidently set out from the tent in which the four men had all but succumbed to starvation and exhaustion, to brave death alone in the blizzard which had overwhelmed them.

After a brave struggle for weeks, with his hands frost bitten, Oates declared to his comrades that he was going to set out in the storm and did not know when he would come back. He left the tent and he was never seen again. He evidently knew as he was setting out to meet his death alone.

The others later tried to push on, but were forced into camp again on March 21, after nine days' struggle in the blizzard. Food and fuel were both exhausted.

Probably realizing that his party was doomed, Captain Scott entered in his diary four days later, on March 25:—"A message to the Public." In this he declared that the disaster was not due to faulty organization, but to misfortune. He said nobody in the world could expect to successfully encounter such temperatures and storms as they had met on the barrier, which so retarded their progress. When they arrived within seven miles of One Ton Depot, they had fuel for only one hot meal, and food for two days.

The doctored explorer wrote apologetically of his "rough notes." He said these and the bodies must tell the tale. He appended:

"GOOD WORTHY MEN MUST GET SOME SORT OF REWARD."

WEATHER BULLETIN

Issued by authority of the Department of Marine and Fisheries, R. F. Murphy, director of meteorological services.

The area of high pressure which was centered in northern Ontario yesterday has passed to the Atlantic and the low which was then in Manitoba is now moving across the Great Lakes. The temperature has risen very considerably in Ontario and Quebec but continues low in the western provinces.

Milder: Then Cold Again. Maritime—Winds increasing to gales tonight from south and south-west with snow or sleet. Wednesday strong west to north-west winds and becoming colder again.

LATE SPORT NEWS

New York, Feb. 11.—A London cable says—"Fredie" Walsh, lightweight champion of the world, defeated Paul Breveres, lightweight champion of France in the third round of a twenty round contest in Aberdeen, last night. The Frenchman retired with a broken thumb.

New York, Feb. 11.—With no important decisions to hand down, the national commission, the supreme court of baseball has in view a plan to suspend this forenoon. Sedon in the history of baseball has the commission had less important business before it.

National League club owners, meeting this afternoon, had before them in addition to the business of ratifying the 1913 schedule, some proposed changes in the constitution and the settlement of the league's claim to a quarter of the New York club's profits in the last world's series. It is probable that to settle all these matters another meeting will be held tomorrow.

The annual meeting of the baseball writers was set for this afternoon.

FUNERAL OF NOVA SCOTIA WOMAN WHOM SON KILLED

Windsor, N. S., Feb. 11.—The preliminary trial of William Sanford, charged with the murder of his mother, Mrs. Ezra Sanford at Belmont on Friday last, will be held before Justice Curry on Thursday morning. Police Constable Wright, who shot the woman yesterday evening, was in the court.

The prisoner is quietly resting in the Windsor jail, closely guarded. F. M. Christie, K. C., will conduct the case for the crown. The funeral of the murdered woman is being held today in Wolfville.

CHANGE THE COMMANDERS OF C. N. R. STEAMSHIPS

Montreal, Feb. 11.—When the Royal Liners start on their Montreal trip next spring, they will be re-organized. Captain Roberts of the Royal Edward has been appointed dock superintendent at Avonmouth, while Captain Harrison of the Royal George will be ready for assignment in a few weeks, has been suspended. The latter's position will likely be taken by Captain Thompson, who took the Royal George to Halifax after she was going off to the late "Oleander" route, where she stranded in late November. It is said that the Royal Edward's captain has not yet been selected.

CITY BILLS

Various bills, including those dealing with the new building law, the city court act and the extension of the limits in the county in which city may operate its water system were submitted to the city commissioners today by the recorder. The bills were approved and will be forwarded to the legislature.

BERWICK BUSINESS MAN BURNED OUT

Berwick, N. S., Feb. 11.—The most disastrous fire that has visited Berwick for some years entirely destroyed the shop and contents of H. D. Rodd, the only remaining business of the north end of the town. The loss will be a heavy one as the stock was only partially covered by insurance.

By heroic efforts the residence of Wm. Wollard was saved. Mr. Rodd came here from Halifax and has been in business here only about three years.

STREET WORK

Matters relating to the street department, including proposals for permanent work during the coming summer, will be discussed by the city commissioners at a special meeting at four o'clock this afternoon.

Terrible Shock to Peary

Washington, Feb. 11.—Rear-Admiral Robert E. Peary, U.S.N., retired, said when he received the news of the death of Capt. Scott and his companions: "The news comes to me as a terrible shock. Mrs. Scott and the wives and relatives of the brave men who perished with Capt. Scott and the whole British nation have my deepest, sincerest and most heartfelt sympathy and condolences."

Admiral Peary at present is recovering from a surgical operation.

Capt. Ronald Amundsen, who led in the race to the pole as against Capt. Scott and other competitors, paid a glowing tribute to Scott in the address he recently made before the National Geographic Society, on receiving the society's gold medal commemorating his achievement.

Amundsen then said that a friendly rivalry had existed between Scott and himself, but that they always had in mind the best interests of scientific research, in which both were engaged.

He felt that the two British explorers, Shackleton and Scott, had done much to assist him by preliminary research in the Antarctic region.

London, Feb. 11.—The tragedy of Captain Robert F. Scott's Antarctic expedition was referred to today in the House of Commons by Premier Asquith. Speaking with evident emotion, he is as follows:

FIGHTING TODAY IN MEXICO CITY

Rebels and Federal Troops Ready This Morning

MADERO IS CONFIDENT

Smiles in Face of His New Troubles and Says Matters Will Soon be Quieted Down—Has 1,500 Loyal Troops

(Canadian Press)

Mexico City, Feb. 11.—The rebels and the federal troops in the Mexican capital have taken up positions and fighting is expected to begin at any moment (this morning). The government troops are slowly closing in on the rebels.

Mexico City, Feb. 11.—President Madero is back in the National Palace, and Senor Madero is in Chapultepec Castle. The president has been spending his time in conferring with General Huerta, Ernesto Madero, the minister of finance, and other ministers. Madero is confident that the government will triumph, and his conversation is characterized by a happy smile and optimistic allusions. He considers that the public is with the administration, and looks forward to development, today as the final act in what he regards as another foolhardy attempt of General Huerta to take the head of Mexico's official line.

It is improbable that the remarkable situation can be much longer maintained. In addition to a small number of troops from Huerta's command already in the capital, there is reported to be a force of 1,500 men under General Alvarez in the mountains some fifteen miles out, and twenty-five carloads more from the Guaymas Cudah district. With whom the sympathies of these troops are, it is not the test, is an open question. Madero says he has 1,500 men on whom he can depend.

BRING MEN FROM OLD COUNTRY TO MINTO

Rethwell Company Had No Response to Local Call For Work

While complaints are being made that men are stranded in the city without work, the Rethwell Coal Company, which is the largest employer of men in the city, is reported to be giving no work to men willing to work. It is announced that the company has been asked to employ a number of men, of twenty each, out of the old country, who are being sent to Minto to assist them to bring out their families.

The population of Minto has been steadily increasing lately and with the new mines which are being opened and the extension of the railway to Fredrickton it is expected that the growth will be permanent. One of the latest signs of progress is the establishment of a branch of the Bank of Nova Scotia.

AMERICAN FALLS ALMOST RUNNING DRY

Great Ice Jam Checked the Flood For Some Time Yesterday

Niagara Falls, Feb. 11.—After running almost dry for several hours yesterday, the volume of water passing over the American falls began to increase toward dusk and then ran again at almost the normal flow. The diminution was caused by an ice jam almost completely checking the flow of water on the American side for several hours.

In fact, those who saw it, declare that the volume of water passing over about ten o'clock on Monday was even less than that which passed over the falls for several days in February, 1909.

While none of the power companies on the American side of the river were embarrassed, the Canadian companies did not fare so well. The plant of the International Railway Company was running at a considerably reduced capacity.

Rome, Feb. 11.—The Pope's sister, Rosa Sarto, died today in Rome, of paralysis. She had been ill for some days and the physicians in attendance had expected a fatal outcome owing to her age, seventy-seven years.

MARTIAL LAW IN VIRGINIA; 10 DEAD IN STRIKE BATTLE

Charleston, W. Va., Feb. 11.—Seven strikers and three guards were killed and many wounded in a battle yesterday between strikers in the coal region and the authorities. Eight strikers were captured.

Seven companies of state militia have been ordered to the strike district by Governor Glasscock. The strike district is isolated in the mountains and travel to points having communication with Charleston is difficult. Martial law is in effect. The territory covers fifteen miles.

TURKS SUFFER HEAVY LOSSES IN GALIOPOLI AND AT TCHATAJIA THEIR MEN MOWED DOWN BY THE BULGARIANS

(Osmanian Press)

Sofia, Feb. 11.—The Turkish army in the peninsula of Gallipoli lost between 5,000 and 6,000 men and fifty officers during the fighting at Bulair, according to a semi-official report issued today. Several thousands of Turkish soldiers fell in a last battle before the Tchatajia line on February 9, and thousands more at Charkai to the southeast of Rodosto.

The report says that the Bulgarian army, having repulsed several Turkish attacks upon Charkai, near the port of Rodosto, on Saturday and Sunday, were almost surrounded by the Bulgarian army and were compelled to retire hastily under the protection of the Turkish warships to their transports of the coast.

The Bulgarian infantry on shore kept up a deadly fire on the small boats filled with Turkish troops, inflicting losses amounting to several thousand men. The Bulgarian losses in the whole affair did not exceed 100 killed and wounded.

Constantinople, Feb. 11.—A Turkish warship went ashore this morning at Karaburnu on the Black Sea coast. Her forecastle full of water.

LIKELY LET KATSURA RESIGN

Tokio Comparatively Quiet Today, But Rioting Starts in Osaka

Tokio, Japan, Feb. 11.—The rioting and disorder which broke out in the Japanese capital yesterday in connection with the cabinet crisis continued until the early hours of this morning, when the mobs dispersed owing to the intense cold and the lack of further objectives on which to vent their fury. Up to noon today there were no further disturbances in the city and the streets were quiet.

Prince Taro Katsura, the premier and the leader of the cabinet, who had been in the city since his resignation, remained at his residence in the city. The cabinet is reported to be in a state of confusion.

The resignation of Prince Katsura and his colleagues will be accepted by the emperor. Gound Gombel Yamamoto, formerly minister of marine, has signified his willingness to accept the premiership together with the leadership of the old constitutional party of which the Marquis Saionji is now chief.

Prince Katsura, will in the meantime, proceed with the organization of his new party.

The official announcement of the change of administration probably will be made before the diet meets again on Thursday. The new cabinet is likely to include Baron Takaki Kato, formerly ambassador to Great Britain; Kei Hara, formerly minister of justice; and Masahito Mikoyama, former minister of justice.

Violent political riots broke out in the city of Osaka today. The rioting was reported to have been caused by the newspapers which support Prince Katsura, the premier, were attacked by great mobs.

FINDS CITY OWNS 1000 TO 1100 ACRES AT MISPEC

The city commissioners have awakened to the fact that the city is the owner of a tract of from 1,000 to 1,100 acres of land, the possession of which has been overlooked. The land is part of the property of the Mispec Pulp Company, and was taken over with the rest of the property when the city found it necessary to buy the pulp mill. Since then the land has been lying idle.

GAS EXPLOSION WRECKED PLANT

Three Men Have a Close Call in Moncton

ABRAMS MACHINE SHOP

Pipe Was Being Blown Out When Building Collapsed Upon Men Under Force of Explosion—Two Severely Burned—Windows Broken Half Mile Away

(Special to Times)

Moncton, N. B., Feb. 11.—The destruction of J. Abrams & Sons' machine shop and plant about 12:30 o'clock this morning was at first attributed to the boiler blowing up but later investigation proved the incorrect. The trouble was due to an explosion of gas remarkable in many ways.

With a roar and a shock which shook the lower part of the city and smashed windows in an office building nearly half a mile away, the explosion completely wrecked the plant and machine shop and almost caused the death of three men who were working in the building at the time.

The force of the explosion blew off the roof and blew out the front of the building and also caused a portion of the front wall of one of the building's rear buildings across the street to buckle and lean over the street. Practically every pane of glass in the windows of the Record Foundry buildings was broken. A window was broken in A. H. Jones' office in the Bank of Nova Scotia building near the corner of Main and Adams streets nearly one mile away.

The explosion was caused by the ignition, in some manner at present unknown, of a large quantity of natural gas which had escaped into the interior of the building while two employees of the gas company were draining water from the main shaft in the building. These two, Farmer and Hinchey, together with the watchman, Robert Glover, were in the building when the explosion occurred and they had a miraculous escape from instant death. As it was Hinchey and Farmer who were badly burned and are in the city hospital undergoing treatment.

Escape Underfoot

The gas men were blowing the water-out of the pipes. They first put out the fire and cautioned the watchman not to light a match or a lantern. Then they uncoupled the supply pipe at a valve near the front of the building and set to work to blow out the pipe. While they were working the explosion occurred and they escaped at all in a matter of wonder to those who have seen the debris littered about the spot where they were working.

Huge pieces of wood and metal and iron and steel shavings fell all about them and the floor fell in on the very spot upon which they had stood as they worked.

Hinchey said in the hospital that he could not remember how they escaped. He said, however, they made a dash for the open street, who was quite a distance from the others escaped with his hand singed.

An alarm of fire was rung in and the firemen found the ruins ablaze in one or two places. What slight fire there was, was quickly extinguished.

Hinchey says he cannot understand how he escaped instant death. He was situated for a moment and, looking up, saw the upper floor coming down upon him and made a dash for the gas pipe which was in the front of the building had been blown out. Three times he was struck and knocked down by pieces of wood and metal but got up again and struggled on, finding himself at last in the open air. His companion Farmer climbed out through a window.

Enquiry at the hospital elicited the information that both the injured men are badly burned, principally about the face and arms. Their condition it is thought is not serious.

The building is all blown to pieces and some of the machinery was badly damaged. The explosion produced a blinding flash which for a moment shrouded the sky all around. So bright was the flash that the glare of a special freight passing forces' siding, six or seven miles away, saw the crew and heard the explosion.

Abrams' machine shop has been burned out several times, once in St. John, once in Hampton and twice in Moncton. There was \$7,000 insurance on the building and plant. The industry however could not be replaced for \$15,000.

A meeting of the board of management of the I. C. R. is being held here. General routine matters are being discussed. Moses Campbell, Pottinger, and Tiffin are present. Mr. Campbell arrived on Sunday.

Several railroad men and station masters arrived last night from Nova Scotia and Prince Edward Island and will, it is understood, attend a meeting of the board today.

Dr. Mary Walker Very Ill

Chicago, Feb. 11.—Dr. Mary Walker, a noted woman entrist, is critically ill here with nervous shock, caused by a fall a week ago. She is eighty-nine years old. The aged woman says that her arrest, a short time ago for wearing male attire, was indirectly responsible for her fall on the street, as she says she strained herself in climbing into a patrol wagon.

AVOIDING COLDS

Every individual should practice the art of avoiding colds, as this may be done if necessary precautions are taken. Colds are often brought on by allowing the system to become lowered, through improper food, by living in an unhealthy manner, or by the mental outlook. In the latter case people often encourage colds by expecting and looking for them upon every possible occasion. If they sit in a draught for a moment, or if there is a change in the weather, they at once cry out, "Oh, dear! I shall have a cold!" Try to throw off this fear, and make mental resolutions that you won't take cold.

Attempts are being made to remedy the defects of the system by having evening classes for technical instruction.

The Standard has made a vigorous attack on Hon. Mr. Fielding for his alleged activity in opposing the Borden naval policy in England.

But there is an even more serious aspect of the whole question, to which attention must be directed, especially in the maritime provinces.

The Conservative members of parliament are clamoring for more pay.

Commodore Stewart of the Chatham World, having been elected a member of the provincial parliament, objects to the degradation of that influential body.

Mr. John T. Hawke gave great pleasure to the Women's Canadian Club and to a number of gentlemen who were their guests last evening by his brilliant address on the Romance of Canadian History.

With regard to vocational training, we should have more of it, and the tendency of education should be more toward the practical.

BIRTHDAYS OF NOTABILITIES

FEBRUARY 11.

HIS HONOR, CALISTO ALME D'AGAS, JUDGE of the Territorial Court for the Yukon Judicial District, reaches his sixty-sixth birthday today.

THE REV. A. R. GORDON, PROFESSOR of Old Testament literature and exegesis in the Presbyterian College, Montreal, since 1907, was born at Inverary, Ardenburgh, Scotland, on this date in the year 1872.

MISS AGNES LAMB, well-known as a writer of books and magazine articles about Canada, also claims February eleventh as her birthday.

THIS IS ALSO the birthday of Thomas Edison, the famous inventor.

MINSTREL MAIDS AGAIN SCORE HIT

Large Attendance and Frequent Applause Last Evening.

The cold weather did not prevent an unusually large audience from attending the Opera House last evening which is a strong indication of the popularity of the Minstrel Maids Company. This clever aggregation of ten players including comedians, singers and dancers, presented their second musical farce comedy, The Upside Down Hotel, a vehicle providing a two hours programme of tuneful music and comedy. Last night's performance differs greatly from the minstrel entertainment given last week and shows to advantage the versatility of the several members of the company. The frequent applause testified to the enjoyment of the spectators and the Minstrel Maids Company may be sure of generous patronage for the balance of the week. The afternoon show began at 3 o'clock and the evening show of two hours begins at 8 o'clock.

FINAL STAND OF CITY ON STREET RAILWAY EXTENSION MATTER

Proceedings of Meeting of Common Council—Somers System Question Left to Mayor to Consider

A proposal, intended to be final, regarding the agreement under which the street railway may be extended to Kane's Corner was adopted by the common council at the weekly meeting yesterday afternoon. It was passed with the dissenting vote of Commissioner McCallan, who objected to the double track section.

The commissioner of public works recommended that the St. John Railway Company be granted permission to lay a double track from Brunells street along the north east side line of Erin street and a single track from the northeast corner of Erin street to Kane's Corner on condition that the company agree to pave with granite blocks on a concrete base the whole street from curb to curb between Brunells street and Erin street, and to make suitable provision for the safe approach and crossing to the Marsh bridge and adequate protection of the city's property beneath the surface and more especially to provide against electrolysis. The company is to pay \$1,200 a year to cover the cost of repairs and removal of snow and ice as provided for under order in council of Feb. 12, 1911, and also, in event of the company at any time getting permission from the city to lay a double track from Erin street to Kane's Corner, it shall pave the street between the tracks and eighteen inches on either side. The company is to do all work to the satisfaction of the engineers of the city.

A plan showing the grades and levels in Germain street, W. E., was approved and adopted.

Plans for laying a ten inch water main from Marsh Bridge to Mount Pleasant was approved.

A refund of \$10, paid by Margaret McGuire for permission to make a drain from premises in Johnston street, was ordered, the drain already existing.

The commissioner of harbors was given authority to communicate with the federal authorities asking the city to provide a crane for handling cargo be provided for St. John harbor and that the shipping laws be amended to provide netting at the side of gang planks for the netting of the cargo.

A price of \$1,800 was placed upon two lots in Brooks Ward, now under lease to Miss Annie M. Walsh.

The report of the city engineer regarding the extension of Crown street, was referred to the commissioner of public lands with the recommendation that the Hughes lease be cancelled on May 1 and the improvement on that land valuation and the matter was left to him for consideration.

WHAT THE PLAYHOUSES OFFER

NICKEL

In spite of the cold weather the Nickel's Theatre was packed with large crowds, and the programme presented seemed to please everybody too. A particularly strong feature of the bill was the magnificent two-act western picture, The Last Blockhouse, depicting an historical event in the early history of the great west. The average wealth of the multiplicity of feature, the strenuous action and the startling climax, such as the blowing up of the blockhouse and the story actually sparkle with interesting moments. Nickel people consider the best western feature yet produced. There was a fine little society comedy by the Lubin Co., entitled Keeping Up Appearances. Miss Joey Long opened with two dainty little songs new to St. John—Oh What a Beautiful Dream and Sugar Babe. These numbers showed off the St. John girl's voice to even better advantage than her first week offerings, and she was loudly applauded on every appearance. The newcomer in the singing line was E. Joseph Ellis, of Philadelphia. Mr. Ellis, singing Paula Teut's My Dreams, made a distinct impression upon his hearers. He is the possessor of a particularly rich, clear, mellow and of easy and wide range, voice, mellow and of easy and wide range, clear and cultivated. His numbers are nearly all of the lyric order, and lovers of good music will enjoy him. Tomorrow the Nickel will show in addition to its regular full programme—a 70c. film depicting the Closing Exercises, Drill, Sports, Procession, etc., at Mount Allison University, Sackville (N. B.), in 1912. There are over twenty St. John students in the picture, as well as Lieutenant-Governor Wood, Rev. Dr. G. M. Campbell, Rev. Dr. Howard Sprague, Dr. B. C. Boden, and many other familiar personages. This will be extra to the regular show.

UNIQUE

It is quite evident from the fact that crowded houses were the rule at the Unique Theatre yesterday in spite of the terribly cold weather, that the wonderful features depicting western life and historic wars shows every Monday and Tuesday are popular with motion picture lovers. The one of yesterday called The Dead Pays a startling presentation of war and heroism with scene upon scene of overwhelming spectacularism unfolding a story of military life, combining thrilling sensationalism and peerless dramatic rendition. The war is a study that if presented two or in fact one year ago in any of the picture theatres would create no end of comment. The charging forces, the advance of the enemy, the falling horses, the powder thrown from many cannons leaving destruction in their wake and the more individual scenes make this picture a real study of war as well as unfolding an interesting story. Johnnie Taylor the well known St. John actor, plays the leading role. Another captivating subject on the programme is Sir Thos. Linton at the Broncho Co.'s Ranch at California, which shows the grand old statesman meeting the Indians and watching the bucking horses, and mules. Comedy runs through the Keystone subject, For the Sake of Lizzie, introducing Miss Mabel Normand at one time a great favorite with the Biograph Company, in the character of Lizzie.

MARRIED YESTERDAY

A quiet wedding took place yesterday afternoon at the parsonage, 242 Duke street, when Rebecca M. Davidson and Elisha Bursey, of Perillon (N.B.), were united in marriage by Rev. T. J. Deane, pastor of the Carmarthen street Methodist church. The attendants were Miss Selina Bright and Eugene Clark. Mr. and Mrs. Bursey will reside in this city.

RECENT DEATHS

The death of Edward Stairs occurred yesterday at his home in Halifax. He was the head of the hardware firm of Wm. Stairs, Son & Morson. For some time he had been an invalid.

The death of Mayor Frank M. Murray of Campbellton is being mourned yesterday. It occurred at his home there yesterday after a short illness from pneumonia. He is survived by his wife and three young children, two girls and a boy. He was for some time a traveller for Reed & Co. of Moncton, finally opening their branch office and managing it in Campbellton. He later went into the insurance business, and also into the coal trade, and was very successful. In last May he was elected by acclamation mayor of Campbellton and had proved a capable and industrious official, meriting the public esteem. His loss is keenly felt by the citizens. He was a brother of F. R. Murray, formerly of St. John, but now in Vancouver. The funeral will be held tomorrow afternoon.

MAKES YOUR BALKACHE QUICKLY DISAPPEAR

A Few Doses Relieve All Such Miseries—Bladder Weakness, Kidney Trouble and Rheumatism Promptly Vanish

It is no longer necessary for any one to suffer with backaching, kidney trouble, bladder weakness, kidney and urinary disorders, or to be tortured with rheumatism, stiff joints, and its heart-wrenching pains, for the new discovery, Crozone, quickly and surely relieves all such troubles.

Crozone is the most wonderful remedy yet devised for ridding the system of uric acid and driving out all the poisonous impurities which cause such trouble. It is entirely different from all other remedies. It is not like anything else ever used for the purpose. It acts on the principle of cleaning out the poisons and removing the cause.

It soaks right in through the walls, membranes and linings, like water in a sponge, neutralizes, dissolves, and makes the kidneys soft and filters away all the uric acid and poisons from the blood, and leaves the kidneys and urinary organs clean, strong, healthy and well.

It matters not how long you have suffered, how old you are, or what you have used, the very principle of Crozone is such, that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it.

If you suffer with pains in your back, and sides, or have any signs of kidney, bladder trouble, or rheumatism, such as puffy swellings under the eyes or in the feet and ankles, if you are nervous, tired, and run down, or bothered with urinary disorders, Crozone will quickly relieve you of your misery. You can secure an original package of Crozone at trifling cost from any first class druggist. All druggists are authorized to personally return the purchase price if it fails in a single case.

SCOTT'S DIARY OF FEARFUL DAYS IN ANTARCTIC

Death of Intrepid Britisher Was Due to Starvation

APPEAL FOR LOVED ONES

Calls on British Nation to See Them Provided For—Gallant Explorer and Four Companions Perish Under Fearful Conditions

The circumstances under which Captain Scott of the British Antarctic expedition and four of his companions met their death were learned by those in charge of the steamer Terra Nova, which arrived at Cape Evans, on January 28, 1912, from the shore party there.

Relief expeditions had been despatched to the assistance of the southern party in March and again in April, but after almost incredible hardships, both parties were forced to return.

From their records the following information was obtained: The first death was that of Seaman Edgar Evans, petty officer of the royal navy, official number 30,262, who died on Feb. 17 at the foot of the Beardmore glacier.

His death was accelerated by consumption of the brain, sustained while traveling over rough ice some time before.

On the 18th of the month, the following information was obtained: The first death was that of Seaman Edgar Evans, petty officer of the royal navy, official number 30,262, who died on Feb. 17 at the foot of the Beardmore glacier.

calm and record were left in the vicinity to his memory. It should be noted that the southern party fully stood by their sick companions to the end, and in spite of their distressing condition they had retained every record and thirty-five pounds of geological specimens which proved to be of the greatest scientific value.

This document was written and signed by Lieut. E. R. O. H. Evans, R. N., who was Captain Scott's second in command.

IF CONSTIPATED OR BILIOUS—"CASCARETS"

No Biliousness, Headache, Sick, Sour Stomach, Indigestion, Coated Tongue or Constipation

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel.

That's the first step to untold misery—indigestion, foal gases, bad breath, yellow skin, mental fogginess, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—10-cent box from your druggist will keep you feeling good for months.

Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good gentle cleaning, too.

PRESBYTERIAN CHURCH GUILDS

The monthly meeting of the Guild of St. Andrew Church was held last night. The programme included lantern views of some of the famous paintings in the Imperial Art Gallery at Dresden, and also scenes about Europe. The interest in the programme was greatly increased by Dr. Russell Jack, who explained the picture shown. He has just returned after a tour of Europe and Asia Minor and gave his views on the situation in Turkey. He also sang. Harrison's orchestra played. The lecturer was tendered a vote of thanks.

A very successful time was spent last night by St. Stephen's Church Guild. Edward Crawford presided and among those who took part in the programme were Mrs. Blake, Harry Gunn, Mrs. Macneil and Miss Ruth Knight. Miss Mart McLaren was accompanist. The members of the junior societies of the church had a skating party before the social.

Europe loses 500,000 natives every year by emigration, while only 200,000 return in the same period.

Reduced in Flesh Sleepless Nights

Kidney Disease and Gravel Cause Keenest Suffering—Cured by Dr. Chase's Kidney-Liver Pills.

That disease of the kidneys cause the greatest suffering is well known, and when stone or gravel is formed in the bladder the torture is almost beyond human endurance.

The disease should never be allowed to reach this dangerous stage. Pains in the small of the back, pain or smarting when passing water, frequent urination, loss of flesh and weight are all of the need of Dr. Chase's Kidney-Liver Pills to regulate and invigorate the kidneys and restore these organs to health.

Mr. W. Smith, Port Dalhousie, Ont., writes—"For some years I was afflicted with kidney disease and gravel in its most severe form, having often a stoppage of water, accompanied by the most dreadful agony. As the disease wore on me I became reduced in flesh and passed sleepless nights. No doctor was able to do much for me, and I used many medicines without relief. My attention was directed to Dr. Chase's Kidney-Liver Pills, and by using this treatment the disease was eradicated from my system in less than six months. I have gained in weight, sleep well, and feel better than I have for twenty years."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

Hidden Skin Troubles

Have you on some part of your body a sore, or eruption, or ulcer, or eczema, or patch which, hidden from the gaze of others, yet causes you hours and hours of pain and inconvenience? Have you tried this, and that, and the other remedy in vain, and are you feeling disheartened and discouraged? If so, read the following instances of Zam-Buk's healing power, and apply it to your case:

"I had an ulcerated leg for several years. The ulcers spread all round the limb, which was swollen to nearly twice its normal size. Several doctors treated me. One suggested amputation. None did me any good. Zam-Buk healed the sores!" So says Mrs. Gilmore, of Princess St., Kingston. Or, read this—

"My mother tried many things for abscesses and eruptions, but in vain. In Zam-Buk she found a complete cure." So says Miss A. Coggill, of Wapella (Sask.). Sufferers from these "Hidden Skin Troubles" of any nature should profit by such experiences as this. Zam-Buk is seen at its best when applied to cases which have defied ordinary treatment. Write for trial box, and test it at our expense.

Zam-Buk AND A MIRACLE OF HEALING

Over and over again Zam-Buk has performed a miracle of healing when applied to sores and skin injuries which have refused to heal under any other form of treatment. Why not let it heal your trouble? Immediately Zam-Buk is applied to a sore or wound or diseased portion of the skin it commences its work in two directions. It soothes the sore and its antiseptic properties prevent any germs and bacilli from creating trouble. Then the herbal essence and juices, so finely purified and concentrated, penetrate the subcutaneous layers and stimulate the weakened or diseased cells to active, healthy operation. These cells then put forth their own outer layer with fresh and healthy tissue. By degrees the whole diseased surface is thus replaced by new healthy skin.

In this way Zam-Buk cures cuts, burns, bruises, ulcers, abscesses, itch, eczema, eruptions, pustules, scurvy, salt rheum, blood poison, and other forms of skin trouble. Zam-Buk also cures piles, varicose veins, etc. All druggists and stores sell at 50c. per box, or from Zam-Buk Co., Toronto, for price. 6 boxes \$2.50.

NEW BAINWICK MATTERS IN THE COMMONS AT OTTAWA

Hon. Mr. Emmerson is asking the government if it proposes a spur line to connect the wharf completed at Sackville last September with the Intercolonial, and why such spur was not ready when the wharf was finished.

He also wants to know if A. B. Carson of Kent county, has any experience beyond that of retailing codfish in a country store to qualify him as representative of Westmorland, Kent and Northumberland on the fishery advisory board. He also asks the government if it is aware that A. B. Carson is said to be an American.

Mr. Emmerson wants to know if the government has reached any decision as to acquisition of Intercolonial branch lines.

Dr. Pugsley was told that the Fairville post office will be opened immediately. No postmaster has yet been appointed. Clerk of Works Berison has been kept on to look after the retaining wall construction.

HOPE TO HAVE 1,000 IN THE CANADIAN CLUB

The new executive of the Canadian Club held its first meeting yesterday, with the president, Rev. G. A. Kuhnig, in the chair. There was an almost full attendance of members, including George A. Henderson, Richard O'Brien, James Jack, G. H. Aitken, Dr. J. D. Walker, W. J. Maloney, Hunter White, H. A. Porter, G. Earle Logan, Rev. J. J. McCallin, and A. M. Bellin.

The president submitted a plan by which it is hoped to increase the membership to one thousand. It was approved, and the president and secretary will work out the details.

The next speaker before the club will be J. J. Kelo, to be followed by Adam Shortt, Prof. Kylo, and probably H. B. Ames and G. H. Cahoon, with other good speakers in prospect.

The president was authorized to correspond with other Canadian Clubs relative to the possibility of having sent through Canada for the various clubs a series of films showing scenes in the United Kingdom and Canada.

The following new members were elected: J. G. Harrison, H. Wilkinson, James MacMurray, J. T. Brown, J. B. Patchell, A. H. Fitzrandolph, W. B. Mayne, E. A. Redding.

There was a very interesting discussion on the prospects of the club for the year, and considerable business transacted. It is expected J. J. Kelo will be here either on February 18 or 25, and the meeting will be held at 8 o'clock and the members of the Women's Canadian Club invited.

G. Earle Logan, who had been elected secretary of the club, found that pressure of work would prevent him from performing the duties. He was therefore appointed on the property committee and H. A. Porter re-elected secretary.

Drink Habit Cured in Three Days The Neal Cure Drives Poison Out of the System, Removing Desire

The habitual use of intoxicants is altogether a bad thing. The drunkard finds every avenue of employment closed to him. To the business man excessive drinking spells ruin. It robs the professional man of his talents, of his reputation and of his substance. It undermines health. It destroys morals. It is the handmaid of crime. It brutalizes its victims. It brings torture and despair to unhappy wives and clothes numberless children in rags. The history of over-indulgence in alcoholic stimulants is an open book and it always reads one way. There is only one thing the man who is addicted to the liquor habit if he does not want to meet the fate of all other drunkards, and that is to stop it. Oh, but you say: "I cannot. I have tried that. The appetite is too much for me. I cannot resist the craving." Have you ever thought of the Neal Treatment? It takes that craving away. The craving results from a poison alcohol leaves in the system. The Neal Treatment drives out that poison. It cures in three short days. It cures without the use of hypodermic injections or dangerous drugs. The cure being effected in so short a time, can be taken without publicity. It is certain as well as prompt. It is like staying three days at a first-class hotel. If you are afflicted with the drink habit and want to be cured, or if you are interested in a friend or relative who needs treatment, or one who is near and dear to you, persuade him to go to the NEAL INSTITUTE, ST. JOHN

How to Buy Musical Instruments for Your Home, or Sell to Other Homes

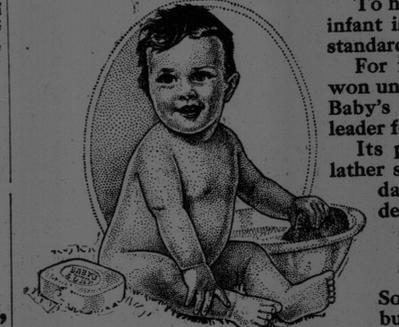

You Can Sell What You Have or Secure Just the Instrument You Want

The whole human system is "softened" and strengthened through the influence of music. Anyone can bring it right into their home. If you or no one else "plays," how about a talking machine? You say you cannot afford it? Well, there is a way that you can. Also, there is a way for you to dispose of the instrument you have, so that someone who may want it can get it. In both cases, the investment of but a few pennies for a Want Ad in this paper will bring to your very door, the thing you want. That way is to

Use "The Want Ad Way"

When a Family "Gets Ahead of the Game"

By J. R. HAMILTON Former Advertising Manager Wanamaker's, Philadelphia (Copyrighted)

A FEW families in the world are always laying in a surplus, but the most of us are always paying our debts.

This is just as true of businesses as it is of families. If we could devote all our energy to going ahead instead of devoting most of our energy to catching up, poor houses would drift into history and misery would be obsolete.

If there is one business message that should be given to all the world it is this—"that the difference between happiness and misery lies in the one extra dollar that you do not need."

It is the biggest, roundest, fattest dollar in all the world, that dollar upon which your necessity has not already made its full demand. Now the world is coming to that extra dollar because the world is thinking harder than it has ever done before.

We have become tired of paying a "church debt," we have become tired of always being short of cash. We are sick of constantly paying for a dead horse. But what we want to find is how to have that extra dollar without paying for it with our happiness. The miser gets it but pays for it with his pleasure. The family that is overshrewd gets it, but a huddled, skipping saving saps all the joy out of life.

However there is a way for everyone to be, each day, ahead of the game and that way is to figure in years instead of months, and in seasons instead of in days.

For example there is not anything except food in which you cannot anticipate your wants. And upon everything you need, money can be saved by buying at the right time and by laying in a supply.

The average family can save at least \$150 a year by reading this paper for which it pays one cent a day. And now is the time when the average family can save the most. The way to do all this is not hard. You simply watch the advertising, not only with a view to what you absolutely need today, but for what you are going to need eight months from now.

When it comes along to next October and you can go and take a warm new coat, or a set of furs, or a pair of new boots, or new blankets, out of your closet, instead of out of some store, why, don't you see, you are going to be ahead of the game? Because you are paying about half as much for those things now as you will have to pay then.

Every worthy store is in this paper now, day after day, advertising good goods at reduced prices. Therefore every one of you families should be reading this advertising day after day, and should be in the stores picking up the bargains that are offered. Try this new plan for a while. "Get ahead of the game."

She had for the last two years been employed with the McClary Mfg. Co. Her death will be mourned by a great number of friends and acquaintances, both in this city and in Bloomington, Ill., where she recently spent two or three months.

LONDON INTEREST IN THE NEW LORD ASHBURNHAM

The Times, London society letter this week has the following paragraph of interest in St. John and Fredericton: "People are wondering if the new Lord Ashburnham, who has lived so long in New Brunswick, will give the same financial support to the Curling Pretender, Don Jaime—as the late peer did. He was, of course, one of the chief supporters of that cause, carrying on the tradition of his family, and received the decoration of the Pontifical Order of St. Charles for his services to the Curling club."

TROUBLE ON SCHOONER AND RESTAURANT IS SCENE OF MORE

Two Police Court Cases of Today—Women on Board Ship in One; Price of a Meal Figures in Other

Several interesting cases were up before Magistrate Ritchie in the police court this morning. Christie Wee, Chinese, charged with assaulting Colin McDermott, was found guilty and fined \$30 or two months in jail. John Olsen, a sailor on the schooner Anne Louise Lockwood lying at the Ballast wharf, was also fined \$20 more in jail for drunkenness aboard ship and also threatening the master, Captain Tiltson. Alice Thompson was arrested last night when she first saw them and soon after that time one of the women left. The Thompson woman remained.

Last night about ten o'clock he called the police in to take her ashore. Policeman Anderson said that he was called about the schooner about ten o'clock last night, and started to search for the woman. He found her hidden behind one of the hanks in the fo'castle. He took her to the lock-up.

The woman was remanded till two o'clock, when several witnesses will testify. Colin McDermott, the complainant in the case against the Chinese, appeared in court with a cut face and bruises on his hands and arms. He said that he went into a cafe on Mill street yesterday afternoon and ordered some liver and bacon, coffee, bread and butter. When he had finished the waitress told him the price was fifty cents. This he thought was too much and he refused to pay more than twenty cents. The waitress then went for Wee, the proprietor and reported the matter to him. Wee, according to McDermott, came out and after talking for a while, ran to the back of the shop and got a heavy bar, which looked to him like a crowbar, and struck him several times, knocking him down and cutting him severely. He was forced to get up, "if I didn't," he said.

Policeman Witttrin told of seeing McDermott standing near the I. C. R. station. He was bleeding profusely. He asked him what had happened to him and McDermott told him that the Chinese had struck him with an iron bar. Witttrin and the complainant then went to the restaurant. Wee said that the man went into the restaurant and ordered liver and bacon, steak, a side of eggs, tea, etc., for which the whole cost was seventy-five cents. He refused to pay more than thirty-five cents but later consented to pay fifty cents. The waitress then looked the door so that he couldn't get out, and called him. The Chinese said he explained the whole thing to McDermott, but he still refused to pay and according to Wee, the complainant tried to throw him down. Wee then rushed to the back of the store and got a broom handle and beat McDermott till he paid. The policeman on hearing the story treated both—holding McDermott as a witness.

Miss Anne Ward, waitress said that the complainant ordered liver and bacon, steak, eggs, tea, butter, etc., and when she told him the charge was 75 cents, he refused to pay. She then took his hat, as she had been instructed to do when the customers refused to pay. She looked the door and reported to Wee she said that Wee struck McDermott several times with the stick and he was bleeding. When he left the store, she had to clean up a pool of blood from the floor.

The defendant took the stand himself and told practically the same story that he told to Witttrin. The magistrate reminded him that St. John was not Russia and that no man could take the law in his own hands to collect a bill. He questioned even whether taking a man's hat was not an assault. A fine of \$20 or two months in jail was then imposed.

Dougal Campbell was fined \$30 or three months in jail for beating in the streets. John O'Brien arrested on a similar charge was ordered to be deported to the States. Two prisoners charged with drunkenness were fined \$4 or ten days in jail and one other was fined \$8 or two months in jail on a similar charge.

It was found necessary to take the ferry steamer Ludlow off the route this morning as the result of the discovery of further damage which had not been noticed at the time of her collision with the steamer Knutsford last evening. The Governor Carleton is now on the service.

An examination of the Ludlow shows a hole broken in her bow, a break in the iron protection plate, and some internal damage which made itself felt this morning. Twenty-one piles in the approach to the floats are broken and the floats are somewhat crushed and twisted out of shape. The Knutsford struck the ferry with her bow when she first got into control and then, after swinging around, struck again with her stern. The second collision drove the ferry against the floats, causing the damage to them. The full extent of the damage and the cost of repairs will not be known until a survey has been made, but it is believed that it may not be more than \$1,000. The damage to the steamer is covered by marine insurance.
