**SCIENCE PROVES THE DANGER OF BLEEDING GUMS**

Medical science proves that unhealthy gums cause serious ailments. People suffering from Pyorrhoea (a disease of the gums) often suffer from other ills, such as rheumatism, anaemia, nervous disorders, or weakened vital organs. These ills have been traced in many cases to the Pyorrhoea germs which breed in pockets about the teeth.

Four out of five people over forty have Pyorrhoea. It begins with tender and bleeding gums. Then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of the infecting Pyorrhoea germs.

Guard your health and your teeth. Keep Pyorrhoea away. Visit your dentist often for tooth and gum inspection, and make daily use of Forhan's For the Gums.

Forhan's For the Gums will prevent Pyorrhoea—or check its progress—if used in time, and used consistently. Ordinary dentifrices cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean.

What Will Save His Hair

Quick Action is Needed—But it Can Be Done With Simple Home Treatment.

Thin Haired Readers Urged Not to Delay Parisian Sage is Just What is Needed.

Thousands of men and women are growing hairless every day and don't know the reason why. This is indeed a pity, because loss of hair usually comes from neglect. Few of us get bald in a day and we all have ample warning when our hair is thinning out. Parisian sage is a most efficient hair restorer, but to immediately stop any further loss of hair and quickly start a new growth it must be rubbed into the scalp so the starved hair roots can readily absorb it and get the vital stimulation so badly needed. You will surely be delighted with the first application, for your hair and scalp should look and feel very much better. Parisian sage is not expensive. It's a scientific preparation that supplies hair roots—a clean, non-sticky, antiseptic liquid that is sold at drug stores everywhere, with guarantee to give you perfect satisfaction or money refunded. Good looking hair is half the battle in any man's or woman's personal appearance. Neglect means dull, thin, lifeless hair and perhaps baldness, while a little attention now helps insure thick and lustrous hair for years to come. No matter what your hair troubles, try a Parisian sage massage tonight.

An Unfailing Way To Banish Hairs

(Beauty Notes.)

Ugly hairy growths can be removed in the privacy of your own home if you get a small original package of delatone and mix into a paste enough of the powder and water to cover the hairy surface. This should be left on the skin about 2 minutes, then removed and the skin washed and every trace of hair will be vanished. No harm or inconvenience can result from this treatment, but be sure you buy real delatone.

Ten years without a corn

Countless people boast that record now. Years ago they started using Blue-jay. Never since has a corn pained twice. And never has a corn stayed a week. You can quickly prove that corns are needless. Millions have already done it. Think what it means. No more paring, no more pain, no more unsightly pads. Dainty shoes without unhappy hours.

Apply a touch of liquid Blue-jay or a Blue-jay plaster. The corn pain will end. And soon the whole corn will loosen and come out. The action is gentle but sure. Blue-jay is the scientific method, created by this world-famed laboratory. It is not like the methods which are harsh and crude. Try Blue-jay on one corn. Buy it tonight from your druggist. Live the rest of your life without corns.

Cocoon Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with. Don't use prepared shampoo or anything else that contains too much alkali. This dries the scalp, makes the hair brittle and is very harmful. Just plain multified coconut oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair. Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage. You can get multified coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

### NO OPPOSITION.

Hon. Dr. Roberts, minister of health, will be returned without opposition. This is as it should be, and it is what the minister has merited by his record since he entered the legislature. During that period he was successful in getting the public health act drawn and accepted, and the province fairly well organized under its provisions. He devoted himself with rare energy to the task, and met every difficulty with a good-natured determination to remove objections and win public support for the measure. There is still a great deal to be done, and his past achievements are a guarantee that Dr. Roberts will not relax his efforts.

The opposition convention on Wednesday evening was too small to develop any degree of enthusiasm for an election campaign. The wisest heads of the party could see no good purpose to be served by a contest in which they could have no hope of success. If there were some who felt that their personal ambitions might be served, they must wait. The memory of events prior to and just after the defeat of the old government is yet fresh in the public mind, and the extraordinary conduct of the St. John members in first repudiating and then later accepting again the leadership of Hon. James L. Murray.

### ROCKWOOD PARK.

The robins hopping about on the grass in the Public Garden at Rockwood Park, and the smaller birds singing in the trees, may have wondered to see so many humans, especially children, traversing the walks yesterday. The garden shows the need of rain to make its green more vivid, and to bring out the foliage; but over in the park birds enclosures, the brilliant bloom of the rhododendron and many other wild flowers show the effect of the sun's warmth.

Rockwood Park had many hundreds of visitors yesterday afternoon. There were old as well as young folk, but children were everywhere. Many families were there with baskets, and lunched on the grass among the trees. There were many baby carriages, and now and then a horse and carriage passed, with a family party. More than a dozen boats were on the lake, and here and there an angler cast a line in hope of luring a trout. At points of vantage by the shore bright dresses could be seen, where groups were enjoying the sunshine, that made the rippled surface of the lake a small sea of sparkling diamonds. The air was filled with the murmur and the laughter of children, and the swinging of the staff had an exceedingly busy afternoon, for in the Park a bit of chocolate, an ice cream cone or a bottle of aerated water has a real holiday flavor not detected in the city.

When will Rockwood Park be brought within easy reach of all parts of the city? It is such a spacious and wonderful playground, with such a variety and array of natural attractions that to spend an hour there is to wish for many repetitions of so delightful and healthful an experience. To those who cannot have suburban homes this Park offers wonderful allurements, with all the beauty as well as the fresh air of the country. Where now hundreds go there is ample space for all, with new charms revealing themselves at every turn of road or path.

### WEST AND EAST.

While we may rejoice at the growth of any province in Canada, there is food for thought in New Brunswick and other maritime provinces in an Empire Day book issued by the Manitoba department of education. It is a very handsome little book, with a few interesting illustrations, and is commemorative of three anniversaries. These are the 20th anniversary of the founding of the Hudson Bay Company, the 100th anniversary of the settlement on the shores of Red River of Lord Selkirk's Scottish colony, and the 50th anniversary of Manitoba's entry into the Dominion of Canada.

We are chiefly concerned with the developments since Manitoba became a province of Canada. In fifty years the province has increased in population from 12,000 to over 600,000, and its capital, Winnipeg, is the third city in size in the Dominion. It will be fifty years on July 15 since the province entered confederation. The story of growth as told in the book under review is a story of romance. The boundaries of the province have been enlarged, and riches have poured into its coffers. Here are a few salient facts: The first public school in Manitoba was opened in 1871. Today there are 2,017, with some 3,800 teachers and an enrollment of 114,692. The University of Manitoba last year enrolled 1,164 students, and 1,129 took the courses offered at the agricultural college. The first railway connection was made in 1878; there are now 4,460 miles of railway in the province. In 1878 the wheat crop totalled 480,000 bushels; in 1915 it was 96,000,000 bushels. Last year, a poor one, the yield was: Wheat, 41,300,000 bushels; oats, 57,000,000 bushels; barley, 17,000,000 bushels; potatoes, 5,280,000 bushels—making a total value of \$122,462,200. In addition, cattle, sheep and wine marketed, and dairy products, poultry, wool and honey, reached

a value of \$191,730,000. Today a great transmission line to carry light and power is running out from Winnipeg to Portage La Prairie, and will one day radiate all over the province. There are in the province 834 manufacturing plants, employing nearly 20,000 workers, with a pay-roll of \$19,000,000 and value of products amounting to \$62,000,000.

This is a wonderful story; but as the book under review observes, the real story lies in the future and not in the past. The province is leading in legislation in relation to many social matters, and the next fifty years will witness further great development.

In reading the story of Manitoba, however, and rejoicing in the splendid record of growth, the citizen of New Brunswick is bound to make certain contrasts, which are not inspired by envy but established by cold facts. This province cannot look back upon fifty years of wonderful growth as a result of confederation. It went in with the other original provinces, helped to build the canals and railways, helped to open up the west, and to purchase the vast territory added to the western domain; it accepted a tariff which reduced its profitable trade with the United States; and patiently waited for the wonderful benefits to accrue from confederation. Its people listened and cheered when orators from the provinces west came down and appealed for a broad national spirit, only to learn that when these gentlemen spoke of Canada their thoughts were of the Canada west of the eastern border of Quebec; and what was really wanted was a good market down here for the products of factories in Quebec and Ontario.

There is a growing number of people down this way who feel like calling the half-century bluff. They are not at all averse to a national spirit that is national or a policy for all of Canada; but they want to see a delivery of the goods. If these provinces had never entered confederation what would the rest of the Dominion do for winter ports? And what is the rest of the Dominion doing to equip these ports for its trade? What is it doing to make the government railways serve the best interests of the people to whom the first government railway was offered as a guarantee of good faith at the time of confederation? What real work is the federal government doing—or what has it ever done—to induce settlers to come to these provinces? There must be a slow-down presently. These provinces could flourish under the British flag if they were not a part of the Dominion, and if the Dominion wants them it should adopt the policy of the square deal.

When the late George F. Baird was a power in the politics of Queens county, one of his intimate friends and supporters was Mr. John R. Dunn, whose death is just announced. Another very active figure in the life of Queens in those days was Mr. S. L. Peters, whose death was announced last week. Both Mr. Dunn and Mr. Peters, the latter a much older man, were known throughout the length and breadth of Queens and adjoining counties, and took a very keen interest and an active part in the politics of their time. Many old friends in St. John have learned with regret of their death.

The three subjects of discussion at the West India conference at Ottawa are trade relations as regards preference, and the objects of preference, transport facilities for freight and passengers, and improvement of cable facilities. With both parties to the conference very desirous of good results the conference should move smoothly along and accomplish its ends. Each county has what the other needs but cannot produce, and that is the very essence of profitable trade.

In a town in North Carolina a produce merchant convicted of selling whiskey was fined \$1,000 and told he must leave the state within ninety days or go to jail. They believe in North Carolina that law is law. New Brunswick might with profit adopt a like belief and act thereon.

The shipping output from the Clyde in May was twenty-three vessels of 41,501 gross tonnage. Since the first of the year the output has doubled that of the first five months of last year. Conditions are getting back to normal.

The Montreal Light, Heat and Power Company wants to charge a dollar a thousand feet for gas. The rate has been eighty cents. The rate in Toronto is ninety cents. Compare these with the rate in St. John.

The decision not to oppose Hon. Dr. Roberts was not made by the self-confident leaders, but the men who would have to do the work. They politely but firmly declined to go into a campaign.

The Mothers' Allowance Act of Ontario will, it is estimated, cost the province \$895,338 for the first three years. It will be money well spent.

The Prince of Wales is proving as popular in Australia as he was in Canada. Everywhere he is received with the utmost enthusiasm.

### COMFORTING THOUGHTS

The wind is tempered to the sheep whose coat of wool is shorn; and there's a balm for those who weep, for those who sigh and mourn; I've never seen so dark a day, so full of grief and care. I couldn't find a little ray of comfort anywhere. Thus, when my sunset came here to spend six months or more with us, I thought my joy must have an end; like Job, I stooped to cuss. Then I recalled the solemn fact that seven ants are mine; if they all to my wig-wam tracked, I well might shed the brine. But only one of them had come to linger in my lair, and it were folly to be glum and say that life's a snare. Whatever evil comes along, your passing days to curse, whatever ill whatever wrong be sure in your tile, 'twill ease the sad and painful grind, and help you sing and smile.

### CANADA—EAST AND WEST

Domestic Happenings of Other Days

#### FINDING THE ARGENT.

The early days of June, 1898, saw William Mackenzie setting out in three frail canoes on a great trip of discovery into the wilds of the northland of what is now the Dominion of Canada. It was what has been called his grand voyage of discovery; he left Fort Chipewyan in the early days of the month in a birch bark canoe. His crew consisted of four men and two young Indians. In the second canoe was an Indian, his two wives—probably taken along to do the heavy work—and two Indian boys who were brave enough to undertake the trip. In another canoe were the goods taken along for trading or presentation to Indians met on the way.

The journey was begun by going northward from Lake Athabasca, down the Slave River into the Great Slave Lake and along the river now called the Mackenzie to the Frozen Sea. The mishaps of the journey were many; the scenes were all new; the natives were astonished at the sight of the bewhiskered stranger; supplies of fish and game were obtained as needed along the way; it required all the tact and strength of the explorer to keep the Indians in order for the entire trip. But about the end of July he was rewarded by a glimpse of the object of his search, the Arctic Sea.

But it was late and he could do nothing but retrace the trip of a thousand miles he had taken for that vision. The Indians needing no urging on the return trip and Fort Chipewyan was reached about one hundred days after setting out. What is it doing to make the return to obtain the mathematical knowledge that he had found so necessary in determining his locations from day to day on the Arctic trip, but he was back in Fort Chipewyan in 1892 ready for a new trip into the north.

#### VIOLETS PURPLE

Violets purple, violets white, Delicate windflowers dancing light, Primrose, mercury, muscated, Shimmer: diamonds round the dell. Squirrel is climbing swift and lithe, Chief-chief wailing wailing wailing, Woodpecker whirs his rattling rap, Ringdove flies with a sudden clap.

Rock is summoning rock to build, Dumcock his beak with moss has filled, Robin is lowering his colorful brown, Tomtit chattering up and down.

#### LIGHTER VEIN.

The Truth. Gus—"Bertie is always bragging about his ancestral halls." Algy—"His ancestral halls he means. His grandfather had a fortune out of kippers."

#### Thoughtful Willie.

Mr. Slim—"Willie, didn't you go to the trunk-makers yesterday and tell him to send round the trunk I ordered?" Willie—"Yes, pa." Mr. Slim—"Yes, pa, but I told him I thought you hadn't better have any strap."

#### Not Her Fault.

The young bride, after serving to her husband a dinner that was so so, said, as the dessert of mince pie was brought on: "I intend, dear, to have some sponge cake, too, but it was a total failure."

#### All Fancy.

"I believe in the wisdom of the plain people." "So do I," answered Miss Cayenne. "But so few of us are contented to be regarded as plain people!"

#### Progress.

"So you are having your house re-decorated?" "Yes." "How are you getting along?" "Fine. The painters and paper-hangers worked a full day last week."

#### No Comparison.

"Young man," said the fond father, "in giving you my daughter I have entrusted you with the dearest treasure of my life." The young man was duly impressed and made no endeavor to conceal his emotion and his gratitude. Then, during the few moments of impressive silence that followed he heard the patter of rain against the window.

The shy man stood in a crowded street next to a woman who wore very dangerous, protruding hatpins. For a time he bore her movements, which spelled danger to all in her vicinity, but at last he summoned up courage enough to say: "Forgive me, madam, for addressing you without an introduction, but thought I ought to tell you there is a spot of blood from my cheek on one of your hatpins."

## ACCUSED OF THE MASSACRE OF THOUSANDS

### Turkish Millionaire Living in Luxury in Switzerland.

Geneva, Switzerland, May 15.—(Correspondence Associated Press)—In one of the most luxurious hotels in Lausanne is now living a Turkish multi-millionaire named General Ahmed Djemal Pasha, former Turkish minister under the Young Turk regime at Constantinople and former commander of the fourth Turkish army in Syria. He is the first upon the black list of the Arabians government for extradition and punishment, being accused, says the Tribune de Geneve, of the deaths of 7,000 Arabians, Syrian and Armenian families whom he is alleged to have ordered to be massacred or deported into the desert where they would be hungry and thirst in the war. He has been sentenced to death after a hearing in Constantinople.

Djemal Pasha, who called himself the "Hero of Hildan," admits, according to the newspaper, that he was directly responsible for about 200 deaths of heretics; by tyranny, it is charged, he obtained his wealth in the gold, always refusing bank notes. Once a week his wife or one of the members of his family traveled to Constantinople by military escort with small boxes of diamonds which were forwarded subsequently to Switzerland and Holland.

It was Djemal and David Pasha who were in Paris in July, 1914, and, seeing the news, bought the German warships Goeben and Breslau for their government by orders from Constantinople. Djemal, who has only a temporary permission to sojourn in Switzerland, was recently requested by the Swiss government to leave this country, but he managed to procure a medical certificate proving that traveling would be prejudicial to his health and so he remains at Lausanne.

The Tribune demands his expulsion from Switzerland with several of his satellites. Djemal, however, cannot return to Turkey, as the death sentence awaits him there.

This Djemal Pasha should not be mistaken for another Turkish leader of similar name and title, who recently was appointed a minister of the new Turkish cabinet.

## MORE REVENUE IS REQUIRED

### Telephone Company's Case Continued by Public Utilities Commission.

It developed yesterday at a hearing given by the New Brunswick board of commissioners of public utilities, in the provincial government rooms, on the application of the New Brunswick Telephone Co. for authority to increase rates and reclassify the exchanges, that the company's requirements financially will be somewhat greater than estimated by Samuel H. Mildram, of Boston, the commission's expert accountant and consulting engineer, in his report on the corporation's affairs submitted early in the spring. At yesterday's session of the board, which was largely taken up by various counsel questioning Mr. Mildram, the latter said he had not allowed for a general advance in the wages of the company's employes, which apparently would have to be made in the near future for a public utilities tax imposed at the last session of the legislature. There would also be some increase in insurance rates.

Mr. Mildram informed the meeting that he estimated the company was losing about \$20,000 a year in its pay station department by free telephoning, that by reason of large numbers of people borrowing the use of subscribers' telephones for calls, for which service no return is given. The "borrowing" habit was prevalent throughout the province.

It was also brought out at the hearing that the company had been unable during the war years, to make greatly needed renewals and to engage in much necessary new construction, although the company had a fund for this purpose. Since that period labor and materials had vastly increased, and the fund would not go much more than half so far now as it would have gone then.

The chairman, A. B. Connell, K.C., of Woodstock, opened the session at 2:30 o'clock. Among those present, besides the commissioners, were: Colonel Frank B. Black, of Sackville, president; O. J. Fraser, superintendent; Hon. Dr. J. B. M. Baxter and Peter J. Hughes, of Fredericton, counsel for the company; M. G. Teed, K.C., representing the Retail Merchants' Association; E. C. Weyman, the Wholesale Grocers' Guild; Mayor W. D. Turner, of Sussex; Warden Keith, of Westmorland; Councillor Gaskin, of Carleton Place; Alderman H. M. Lambert, of Sunny Brae, and Alban McLarty, of Sackville.

The sympathy of the community was extended to Mr. and Mrs. Patrick Murray, of Fairville, in the death of their son, James Clement, which occurred yesterday at the age of twenty years. Three of their sons have died within the last few years and the young man whose death occurred yesterday was exceptionally bright and had a brilliant future before him. On Wednesday evening John R. Dunn was found dead in his office in Gagetown by his friend, Frederick N. O'Neill. Mr. Dunn's death is attributed to heart failure. He was a graduate of U. N. B. of the class of 1888, and studied law in the office of James Curry, St. John, being admitted to the bar in 1888. He practiced for some time, later resigning the office of clerk of the peace for the same county. He was in his sixtieth year and is survived by his wife, one daughter, Mrs. Frank Farley of Florenceville, N. B., and three sons, D. F. and Benjamin R. of Canora, Sask., and Frank of Halifax. One brother, Frank, of Foulton, also survives him. The funeral was held this afternoon.

**Celebrated Wedding Anniversary.**  
Rev. W. D. Wilson and Mrs. Wilson celebrated the twentieth anniversary of their marriage at their home in George street, Fredericton, on Thursday evening. About seventy-five friends were present, and during the evening Rev. G. C. Mr. Wilson made a feeling reply, after which refreshments were served.

**To Wed Next Week.**

**GET THIS HEALTH HABIT:**  
Drink a glass of pure water as soon as you get out of bed; drink a small glass of pure orange juice just before you eat breakfast; for breakfast heat two Shredded Wheat Biscuits in the oven (to restore their crispness) and eat them with hot milk or cream. All the nutriment needed for a half day's work—the mind clear and alert, the liver and kidneys active, the stomach sweet and clean. Try it for six days and see how much better you feel.

motor boats were out in the harbor and along the river with crowds of holiday makers on board.  
The Lake Flag, a steel steamer of 1,000 tons net, arrived at Portland on Wednesday from Chatham (N. B.), with a cargo of pulpwood. This vessel was built at Superior (Wis.), and came around from the Great Lakes via the St. Lawrence, taking on her cargo at Chatham.  
According to a Halifax dispatch, the French trawler ashore at St. Pierre probably will be refloated in a few days by the Atlantic Salvage Company. The

steamer Canadian, the tug Musquash, Lord Roberts and a wrecking barge are all engaged on this salvage work.  
It has been announced that the Canadian Government Merchant Marine is to open a new service with Martinique, Guadeloupe and the French West Indies. The Canadian steamer, now building on the Great Lakes, will probably be ready to sail for the Barbados on July 29, and will call at Martinique. If this proves successful, the new service will be continued.

**PALESTINE STAMPS.**  
London, May 15—(Correspondence Associated Press)—Palestine is now the only nation which has no postage stamp of its own. But representatives of the Zionist government here have informed London philatelists that this anomaly promises soon to be rectified, for with the establishment of Palestine as the national home of the Jewish nation, it is believed, little time will be lost in enulating the examples of other small nations called into being by mandates of the Peace Conference by the issuance of distinctive stamps.  
Pending the preparation of definite designs, stamps sold by British Army post offices in adjacent former enemy

territory are being utilized by overprinting with the word "Palestine."

*There's nothing too good for His Majesty the Baby*

THAT'S why whatever Talcum Powder you buy for your own use you *must* be thoughtful what you buy for baby.  
That's why Mennen searched the wide world over to find a powder which would suit and soothe His Majesty's tender skin.  
Samples from every available source were tested and analysed, and at last—in Italy—a mineral was found which most nearly met his requirements.  
It was talc, that soft, pearly substance which the ancients called *stella terrae* or "Star of the earth."  
But talc itself was not enough.  
Little limbs needed soothing as well as being kept free from chafing, so patient investigation and research went to the perfecting of a gentle medicating process which finally resulted in "Borated Talcum."  
Mennen Borated Talcum Powder has been a friend to millions of babies the world over, and is destined to become the friend of millions-to-be.

*There's a difference in Talcum Powders—*

In the grade of Talc—in the milling processes—in the laboratory—the handling—in reputation. Because of the superior knowledge and experience of Mennen chemists in selecting and combining the ingredients so skilfully, Mennen's still remains the finest Talcum Powder in the world. Its formula has never been bettered. For your Baby—always buy—

### RECOVERY OF BELGIUM IS REMARKABLE

New York, June 4.—(By Canadian Press)—The remarkable recovery which Belgium is making is described in reports received by the Guarantee Trust Company of New York from its correspondents in that country. The little country which was so ruthlessly laid waste by the Germans according to these reports, is now rapidly assuming a place in the forefront of producing and commercial nations.

Here is a summary of Belgium's position at the end of the war:

One-third of the factories destroyed; 2,000 kilometers of railways, 1,800 bridges, 600 kilometers of canals and practically the entire telephone and telegraph systems rendered useless; 60,000 railway cars and 2,500 locomotives had been taken; the public administration had been disorganized; the State Treasury was empty.

Here is the present commercial position of Belgium as shown in the reports just received:

The factories are operating in percentages of pre-war production ranging from 40 per cent in the steel mills to 80 per cent in textiles and totally in wool.

The railroads are hauling 80 per cent of the normal pre-war freight trains and 60 per cent of the normal pre-war passenger trains.

Exports to Holland exceed by 40,000,000 francs the imports from that country; the exports to France are 20,000,000 in excess of the imports, and progress is being made toward equalization of

The new club house of the Fair Vale Outing Club was opened yesterday. Lunch was served by a committee of ladies, after which dancing was enjoyed. The new building was artistically decorated for the occasion. The committee in charge of the function were as follows:—Advertising, Gen. Garden street was the scene of a daring hold-up about one o'clock Thursday morning when Albert Trentowsky was held up and assaulted. He was on his way to his home, 180 St. James street. Just before he reached Hazen street two men sprang out from a dark alley and calling him by name, ordered him to throw up his hands and at the same time striking him a blow on the head with a blunt instrument. Alarmed by the cries of Mr. Trentowsky the thieves made off, and their victims went to the police station, where his wounds were dressed by Policeman Thomas.

WHISKEY FOR SICK CHILD MAKES TROUBLE IN TOWN IN OHIO  
Lancaster, Ohio, June 4.—This town has been divided into bitter rival camps by an ad which appeared in a local paper. It read: "WANTED—A little whiskey for medicinal use for five-year-old child who is desperately ill."

The ad was inserted by Mr. and Mrs. Hufble, theatrical people who were forced to leave their show by their child's illness. On Sunday, the day after the ad appeared, a number of people on their way to church stopped at the hotel where the Hufbles were staying and left whiskey. Dry detectives are now threatening arrests, supported by some of the local prohibition forces, while a large section of the population has lined up behind the actors.

PUBLISHERS OF ONTARIO PROTEST  
Ottawa, June 4.—Announcement in the press last night that the Beckus interests at Fort Frances have applied to the Ontario government for additional pulp leases and power concessions aroused a storm of protest from the publishers of Ontario daily newspapers who are in Ottawa this week endeavoring to prevent the diversion of their newspaper supplies to the United States.

At a special meeting of these publishers last night a resolution was adopted unanimously urging that, in view of the attitude of the Beckus interests towards domestic requirements of newsprint, it was not in the public interest that they should be granted any further pulp wood or power concessions in Canada; and that all pulp wood concessions previously granted to those interests in respect of which they may be in default should be cancelled forthwith.

**PRESENTATION TO PROF. A. BELLIVEAU**

Closing Exercises at Normal School — Comment on Registration for Teaching Profession.

(Special to Times.)  
Fredericton, June 4.—The provincial normal school held its public closing exercises this morning. A feature was the presentation of a cane to Prof. Alphee Belliveau of the French department, who has retired from teaching after being connected with the school for upwards of forty years. The presentation was made by Dr. D. V. B. Bridges, principal, on behalf of the staff. The cane is silver-mounted.

Dr. Bridges referred to the fact that the attendance at the school had showed a steady decline about 100 in three years. It was not the first decrease of the kind, however, as the history of the institution showed that attendance varied considerably over long periods. He believed that there was to be a revival in interest in the teaching profession in New Brunswick. The recent legislation affecting salaries would have a marked tendency to improve teaching conditions. He also made reference to the work of the French department in music the school under the direction of W. J. Smith had made marked advances in the same way as true physical training.

The medals, as announced on Wednesday, were presented.

The bride, who was given away by her father, looked charming in a suit of saige tulle with hat to match and seal tie and carrying a white prayer book. She was attended by her bridesmaid, Mrs. O'Leary, who wore a very becoming dress of navy blue silk with picture hat to match. The groom was supported by Patrick Murphy of Hampton. Following the ceremony, a wedding breakfast was served at the home of the bride, 159 City road. The house was prettily decorated with apple blossoms. Mr. and Mrs. Peacock were recipients of a large number of presents in silver, cut glass and furniture. Among the gifts was a substantial check from the bride's father, Mr. and Mrs. Peacock will reside at 161 City road.

J. H. Jenner. The bride, who was given away by her brother, Ernest Brown, was attired in white duchess satin with gorgette and pearl trimmings, and carried a bouquet of white bridal roses. Many beautiful gifts were received, including furniture, cut glass, silver and linen. After refreshments were served, amid showers of rice and confetti the bride and groom motored to their home, 24 Douglas avenue.

**FIRE ALARMS**

**The Finishing Touch to the Attractive Home**

The difference between an ordinary, unimpressive room and a room that enourmours you with its beauty and luxury frequently lies in the absence of the very simple finishing touch.

Art in the home should not be overdone, but its proper and effective introduction is indispensable to home beauty. Every time you change the home around, you find need of some new touch of color, or some object of art that will relieve an otherwise uninteresting corner. Perhaps a Statue is needed here, or a Jardiniere there, or over here the proper thing might be a mirror.

Such things cannot be considered as luxuries, for they really create the beauty and welcome of the home.

This store shows very wonderful selections in such things for the home, gathered from all over the land.

IN WALL STREET

New York, June 4.—(Wall street, 10:30 a. m.)—The usual irregular price changes were recorded at the opening of today's stock market. Indications pointed to another uneventful session. Baldwin Locomotive, Crucible Steel, Atlantic Coast Line and International Paper were conspicuous for their one point gains, while American Woolen represented the reactionary issues at a point decline. Oils and coppers were inclined to waver with food issues. More uncertain tendencies developed within the first half hour.

Noon Report

A few specialties, notably International Paper, American Writing Paper and Union Bag, were the only striking exceptions. Sales in the first hour were less than 50,000 shares, establishing a low record for any similar period other than a week end so far this year. Brokers ascribed the increasing idleness chiefly to uncertainty arising from impending political developments.

Money conditions were unchanged, call loans opening and renewing till next Monday at six per cent. Trading in bonds was active. Liberty issues again losing ground after opening with a degree of steadiness.

**U.S. FARMERS ARE RESUMING THE TREK TO CANADA**

Omaha, Neb., June 4.—(By Canadian Press)—The great exodus of farmers out of the trans-Missouri country into western Canada, which was in full swing in 1914, and which was checked by the outbreak of war, is again getting under way, according to a recent statement made by W. Y. Bennett, who is in charge of the Canadian government land office here. Mr. Bennett asserts that the cheapness of land offered in the dominion is responsible for some of the best farmers and citizens of Nebraska leaving the state and since the beginning of the year they have been crossing the international boundary in a steady stream. In short, western Canada has re-assumed its pre-war attractiveness to farmers from the central western states. The Canadian government's land office has been functioning in Omaha under the management of Mr. Bennett since 1906. In that year sixteen farmers with very apparent misgivings stirred out of the Missouri valley, and proceeded to western Canada provided with round trip tickets by Mr. Bennett. The return tickets were not used. Since then the stream of farmers poured continually out of the Missouri valley into western Canada, until 1915, when the war sounded a death knell to emigration from the United States to the dominion. According to Mr. Bennett's recent statement, in the first three months of 1920 almost as many settlers from the trans-Missouri country have gone to Canada as went in 1919, when 408 emigrants applied for certificates. The value of the goods taken by the contingent last year was \$1,050,000. During the first three months of this year 383 settlers applied for certificates at the Omaha office, and took with them to the dominion \$1,094,030.

CROWD CHEERS WILDLY AS SNAKE KILLS GIRL

Geneva, June 2 - Applause from a large audience resounded in the little theatre at Scruback, near here, on Thursday while a gigantic python slowly crushed its trainer to death. The trainer, a Hungarian girl, whose name was Ciro, realized her peril and shrieked for help as the coils of the serpent closed about her, but the audience believed her cries were a part of the entertainment, and cheered loudly. Franklin Ciro's manager, rushed on the stage and shot the snake, but not until the young woman was beyond help. It was not until after the performance was over that the people perceived the fact that they had witnessed a gruesome tragedy.

**GO TO SEA TO GET CHANCE TO DRINK**

One Liner Recently Had Bar Receipts of More Than \$5,000 on Single Voyage.

(Canadian Press.)  
New York, June 4.—They that go down to the sea in ships these days see greater wonders than ever on the deep. This is the testimony of sea-wise mariners who have piloted liners over the Atlantic and back for many years. Since a major portion of the North American continent went dry the lure of the sea

SHOULD BE KEPT HANDY!

**Windsor Table Salt**

has grown more alluring than ever, and the fauna and flora of the ocean have been added to with many specimens surpassing pre-war imagination.

Captains of ships have a simple explanation for the undoubted fact that passengers from this side of the pond now do more drinking at sea than they ever did before. The explanation goes like this:

"When they leave a dry country, going Europe-ward, they drink because they are so glad to be away from prohibition. When they are coming back to America from less arid lands, they drink because they are once more approaching the desert. Like the camel, they desire to store moisture away in their humps."

Since the United States went dry by constitutional amendment, many and various schemes have been proposed to beat the prohibition laws. Some visionaries have dreamed of purchasing an island well out beyond the three-mile limit, and establishing there an oasis where the bar would never close and compulsory laws would never be known. Others thought of a wonderful yacht, stocked with the juice of the grape and the corn, that would cruise and cruise and never make port except to replenish. The more practical minded did not stop to dream, but if they had the price, purchased a steamship ticket. The boats to Cuba are crowded, and so are those to Europe. On every vessel the bar steward is overworked.

Prohibition should be favored by the steamship companies. In one week 14,000 persons left New York recently for ocean voyages. One large British liner reported the other day that its bar receipts on one crossing were \$5,025, a record.

Miss McNeil, the vocal teacher of the schools, has been working hard on the

matter, and there will be a chorus from ten or more of the schools competing.

Harry Dean, director of the Halifax Philharmonic Society, is in charge of the contest, which will be conducted on the same lines as those held in the old coun-

try. The judges will be the Rev. Father O'Sullivan, Miss Kate Mackintosh and Theodore Sangar.

A painful mistake is reported from North London. It appears that a young lady who went to a fancy dress ball as "The Silent Wife" was awarded the first prize for her clever impersonation of a telephone girl.

N. Y. POLICE TO PRACTICE CHASE OF BANDIT IN AIR

New York, June 4—Just after having taunted "Nicky" Arnstein, long hunted in connection with New York's \$5,000,000 bond theft plot, when he returned to Manhattan in his wife's automobile under the very noses of the city's 11,000 police occupied with their annual parade, the department yesterday announced an airplane "bandit pursuit" demonstration for next Sunday.

In this programme a car containing a perfectly safe and reliable "bandit" will rush out of town along a pre-arranged route from Riverside Drive to Broadway to the Polo Grounds and the open stretches beyond. A police plane will pursue and endeavor to "net" the "bandit" when the "chase" gets into the open.
