PREFACE.

8:

y-

an

bė

In the bringing out of this, the first, edition of the COUNTY OF WENTWORTH AND HAMILTON CITY DIRECTORY, the publishers beg to assure the public that every effort has been made to render it a complete index to the professional, commercial, manufacturing and farming communities of the City and County, and though it is next to impossible in a work of this nature to have it entirely free from error, they feel that their experience and success hitherto in the Directory line should satisfy their patrons that nothing has been left undone compatibly with an early issue and accuracy that could be desired, even by professed fault-finders.

Several new features have been introduced into this work which need not be enumerated here, and the publishers desire to present acknowledgments to the many gentlemen, both in the City and County who have so promptly furnished them with so much useful imformation, which would otherwise have involved much time and expense to procure. They also beg to acknowledge their gratitude for the patronage and encouragement received from the commencement at the hands of the professional, mercantile, manufacturing and farming interests, both of Hamilton and the County, and they trust the advertisers will find their investments as profitable to them as the work will be useful to the thousands of readers who will have occasion to consult it.

Lastly, they wish to say to those whose names may unwittingly have been left out, that they will gladly make all amendments and corrections in the next edition.

HAMILTON.

The city of Hamilton, as a point for the carrying on of a large wholesale trade, presents many advantages to the retail merchants of Western Canada that no other Canadian city can, Montreal or Toronto not excepted. The Hamilton importers can purchase in the English and other European markets equally as low as the Montreal importer, and can sell to the retailer equally as low, adding the freight from Montreal which is much lessened by the larger quantities taken by the importer than the usually small amounts carried for the retailer from Montreal. There is also a large saving in insurance, charges, &c. From the excellent facilities afforded for transportation of merchandize from Hamilton, the country merchant in almost any part of Western Canada, can, in forty-eight hours, get frequent supplies of such articles as he may want to keep his stock suppled, without being necessitated to take a trip to more distant markets, and to save expense be compelled to purchase largely and unfortunately too often beyond his means.

Hamilton may feel justly proud of its numerous large and wealthy wholesale establishments. In dry goods, groceries, hardware, crockery, clothing, drugs and medicines, fancy goods, hats and caps, leather and findings, iron and steel, jewellery, paper warehouses, saddlery hardware, wine and liquors, reference can be made to the full lists of names given under each branch of business in the classified departments of Hamilton in another part of this work.

In manufactures Hamilton is now rapidly striving to compete with her sister cities of Canada, and in mechanical industry to a large extent lies the prosperity, wealth and happiness of any community, but more particularly so of our large cities. Many capitalists are becoming alive to the importance of Hamilton as a manufacturing point, and some very extensive establishments, of new branches of trade, have been within two years commenced and carried on with excellent success.

The following is a brief review of the several establishments:

shed

nd

AGRICULTURAL IMPLEMENTS.—L. & P. Sawyer are exclusive manufacturers of agricultural implements. The works were established in 1834 by McQuesten & Co.; Messrs. Sawyer have been carrying on the works for about eight years; they give employment to thirty men, and use twenty-two horse steam power to propel their machinery; they turn out about thirty thousand dollars worth of threshing machines, mowers, reapers, and general machine work, per annum. There are several other firms manufacturing agricultural implements, but more largely engaged in general foundry and machine work. (See Foundries and Machine Shops.)

Bellows.—Dallyn & Sons are the only makers in the city, their shop is on James street, corner Stinson.

BOAT BUILDING.—The only person in this branch is Denis Phelan who emyloys generally three hands.

Boots and Shoes.—The largest boot and shoe manufactory in Western Canada is here carried on by R. Nisbet & Co. It was established in 1860. They now give constant employment to one hundred and forty hands, turning out one hundred and twenty thousand pairs of boots and shoes per annum. They use a number of machines requiring a twelve horse power engine to propel. All the machinery is of American invention and make, and consists of three pegging machines, each of which will peg on an average sixty pairs of boots and shoes per hour, one rolling machine, a splitting machine, heel press, welt cutter, sole cutting machine, heel rounding machine, and a counter skiver. There are several other firms employing from five to ten hands.

BRICK MAKING.—Alfred Leittle and Daniel New are turning our each about one million and a half of bricks during the season; they employ each about twenty-five men.

BROOM MAKING.—There are three or four firms doing each a large business. In this branch of trade about fifty hands are kept employed.

BRUSH MANUFACTURING.—This branch of industry is carried on by Meakins & sons, King street east, who give constant employment to nine hands.—Alfred J. Green in the same branch employs four hands.

CARRIAGE AND COACH BUILDERS .- The Burlington Carriage fac-

J. P. Pronguey, (City Coach Factory,) employs twenty hands and turns out about twenty-five thousand dollars worth of coaches, carriages, &c., per annum. Coaches from this establishment are sent to Toronto.

H. G. Cooper & Co. (Hamilton Coach Factory) employ fifty hands in various departments, and turn out in the carriage line twenty thousand dollars worth per annum. Many of these men are employed in spring making, silver plating and hame manufacturing.

THE CANADIAN OIL COMPANY employ from fifteen to twenty men, and turn out about one hundred and fifty barrels of refined oil per week. A capital of over fifty thousand dollars is invested in carrying on the establishment. The store is on King Street, West.

THE HAMILTON OIL COMPANY employ about ten men, and turn out about one hundred barrels per week. The warehouse is on James Street, near Post Office.

COFFEE AND SPICE MILLS.—Samuel Cann established works of this kind in 1859. He employs eight hands, and uses steam power to the extent of six horses. In broom making he gives employment to six hands, and manufactures broom handles.

Confectionery and Biscuit Manufacturing.—The principal establishments are that of J. C. Chilman, on King street, west; who employs sixteen hands. And that of Z. Pattison, on Cannon street, near Bay, who employs nineteen men in the manufacture of confectionery, biscuits, and cigars. W. T. Ecclestone, on King street, near James, employs a number of men in the manufacture of biscuits and confectionery.

Cooperages.—That of Wm. Woolley's, in the manufacture of cooper work, wooden bowls, tanks, &c., employs four hands and an engine of five horse power.

FURNITURE.—There are several shops; that of James Reid on King street, corner Bond, was established in 1841; twenty men are constantly kept employed, and twenty thousand dollars worth of cabinet work turned out per annum. Edgar & Melville, very extensive

manufacturers in this line as well as in sash, doors, blinds, hubs, spokes, felloes, &c., were unfortunately thrown out of business by the destruction of their premises by fire, in July last. Over 100 men were thrown out of employment. They are now making arrangements for the commencement of business in the same line again.

GRATES.—Nelson B. Robbins, on Mary street, near Wilson is exclusively engaged in the manufacture of grates and iron railings. The works were established in 1856—five men are kept employed, and \$8,000 worth turned out per annum.

CANADA FELT HAT WORKS.—This establishment commenced operations in 1859; they employ seventy hands, and a steam engine of twenty-five horse power. The firm uses 100,000 fbs. of wool, 500 cords of wood, 100 tons of coal, 10,000 skins, 100 barrels of alcohol; and turn out \$200,000 worth per annum. The average wages of the men are two dollars per day.

Hose (fire).—The manufacturers in this line of business are Wm. Inkson and E. Kraft, they are also manufacturing saddles, harness, trunks, valises, &c., and employ each about nine hands.

IRON BEDSTEADS.—The only manufacturers are Sutherland & Deans, King street, between Bond and Bowery.

IRON FOUNDERS AND MACHINISTS.—E. & C. Gurney established their works in 1843; 70 hands are employed in this establishment, and an engine of twenty horse power used for propelling the machinery. They manufacture stoves, hollowware, tinware, and machine work of every description. Value of work turned out during the year, \$120,000.

D. MOORE & Co. employ forty hands; their works are on Catherine street, and were first established by E. Jackson in 1829—stoves, tinware, and machinery castings are turned out by this firm to the value of \$125,000 per annum.

THE McNab Street Foundry, carried on by J. Stewart & Co., was established in 1845. They employ forty men, and an engine of ten horse power—stoves, machinery, and general castings are made by them.

COPP & BROTHER, (Empire Foundry, Bay Street.)—The business was established in 1857, but during the present season they have erected large and substantial stone buildings on Bay street for the

MARY STREET FOUNDRY.—Turnbull & Co. established the foundry in 1845, employ twenty men, use an engine of 7 horse power, and turn out \$15,000 worth of machinery and castings per annum.

ENGINE BUILDERS AND BOILER MAKERS.—F. G. Beckett & Co. have a large establishment, founded in 1855; they employ forty hands, and use an engine of eighteen horse power. This firm turns out about forty steam engines and boilers, and other kinds of machinery per annum, to the value of \$30,000.

JOHN THOMAS, machinist, employs eleven hands and an engine of eight horse power.

GEORGE NORTHEY, engine builder and boiler maker, employs six hands, and an engine of ten horse power; turns out work to the value of eight thousand dollars per annum.

MARBLE WORKS.—Hurd & Roberts, established in 1852, employ eighteen hands, and turn out about \$25,000 worth of work per annum. Day & McComb, established in 1857, employ eight hands, and turn out about \$5,000 worth per annum.

MELODEON MANUFACTURER.—Thos. W. White, of James street north, is the only manufacturer; he employs several men, and the instruments turned out are considered to be of a superior quality and finish.

NAILS.—R. Juson & Co. carry on the manufacture of nails, spikes, and rivets, and employ ten men.

PIANO FORTES.—The Western Piano Forte Factory was established by Charles L. Thomas in 1856, who employs twenty-five men and turns out about seventy-five pianos per annum. The instruments manufactured here are of excellent finish, there being none but the best of workmen employed in the establishment.

POWDER.—The Hamilton Powder Co. have an office on James corner of Main street. The works are situated in the township of Nelson, county of Halton, 16 miles from Hamilton.

ROPE AND CORDAGE.—The Great Western Rope Works are situated on Mary street, corner Oak, and were established in 1854, and are now

SCALE WORKS.—The Provincial Scale Works established in 1856, by Gurney, Ware & Co., are situated on James opposite Bank of Upper Canada. They use twenty-five horse steam power; and give employment to fifteen men. Value of manufactures per annum, \$18,000.

SEWING MACHINES.—R. M. Wanzer & Co., James corner Vine, established their factory in 1861, since which time they have manufactured over six thousand four hundred machines, and are now manufacturing sixty machines a week. They use an engine of ten horse power, and employ about seventy hands. \$130,000 worth of machines are turned out annually.

SOAP AND CANDLES.—There are three firms, doing each a large business in this line, viz:—John Judd, Bay street; James Walker, Bowery, corner Main; and David Morton, East Avenue near King.

Tobacco Manufacturers.—The firms engaged in the manufacture of tobacco are A. P. Watson & Co., King Street West, employing about seventy hands; F. Schwarz, James street, employing forty hands; J. H. Hill & Co., John street, near King William, employing forty hands; and G. H. & H. A. King, Rebecca street, near John, who employ fifteen hands; Coventry & Co., York street, employ a number of hands.

CIGARS AND TOBACCO.—Chas. A. Birge, manufacturer and whole-sale dealer in cigars and tobacco, employs five men making cigars and turns out of the establishment about twenty-five thousand dollars worth per annum.

VINEGAR WORKS.—The Hamilton Vinegar Works were established in 1845, by B. E. Charlton, corner King and Wellington; he employs four men, and turns out \$23,000 worth per annum. S. B. Medley, corner Peel and Walnut, is doing a good business in the same line.

Hamilton Glass Works.—These works have been lately established by Gatchell, Moore & Co. It is the only factory of the kind in Western Canada; and there is no doubt from the experience of some members of the firm, and the abundance of capital at command, that success will crown the enterprise; fifty hands will be kept in constant employment; flint and green glass, druggist's ware, sodar

ROLLING MILL .- The Rolling Mill recently erected by the Great Western Railway Company, is 170 feet in length, 100 feet in width, 35 feet in height to the eaves, and running from thence to about 70 feet in the centre of the roof. The roof is formed of crossbeams; the engine foundation is of stone, 12 feet high, 16 feet wide, and 35 feet long, there are about 7000 cubic feet of stone in all. One engine of 400 horse power is used together with two smaller engines of twenty horse power each; there are three boilers two of which are thirty feet long and thirty inches in diameter, and one forty inches in diameter. The saws are four feet in diameter, and make 1000 revolutions per minute. The cooling bed is formed of an inclined plane, the large engine is a high pressure vertical engine, with twenty four inch cylinders, three feet stroke, and makes 60 revolutions per minute; the fly wheel is 24 feet in diameter, and weighs 35 otons; the small engines are horizontal, and have two cylinders each with a line 102 inches in diameter, twenty inch stroke. To manufacture 4000 tons of new rails, will consume about 5000 tons of coal; the company employ about 150 men in this mill; and have four rail heating furnaces, and one double puddling furnace. The machinery for the mill was manufactured for the Railway Company by Goldie, McCulloch & Co., of the town of Galt, for the contract price of \$45,000.

JUDICIARY-UPPER CANADA.

COURT OF ERROR AND APPEAL—Judges, Hon. Archibald McLean, President; Hon. Wm. H. Draper, C.B., Chief Justice of Upper Canada; Hon. P. M. M. S. Vankoughnet, D.C.L., Chancellor of Upper Canada; Hon. W. H. Blake; Hon. Wm. B. Richards, Chief Justice of the Common Pleas; Hon. J. C. P. Esten, Vice-Chancellor; Hon. John G. Spragge, Vice-Chancellor; Hon. John H. Hagarty, D.C.L., Judge of the Court of Queen's Bench; Hon. Joseph C. Morrison, do. do; Hon. Adam Wilson, Judge of the Court of Common Pleas; Hon. John Wilson, do. do.; Clerk and Reporter, Alexander Grant.

This Court was constituted for the hearing of appeals in civil cases from the Courts of Queen's Bench, Chancery and Common Pleas, and appeals in criminal cases from the Courts of Queen's Bench and Common Pleas. From the judgment of the Court, an appeal lies to

Her Majesty in Privy Council, in cases over £1000, or where annual rent, fee, or future rights, of any amount, are affected. The Court sits three times a year.

COURT OF QUEEN'S BENCH.—Chief Justice, Hon. Wm. H. Draper, C.B.; Puisne Judges, Hon. J. H. Hagarty, D.C.L., and Hon. Jos. C. Morrison; Clerk of the Crown and Pleas, L. Heyden; Reporter, Christopher Robinson, Q.C.; Clerk in Chambers and Practice Court, William B. Heward; Clerk of the Process, Robert Stanton; Crier and Usher, Andrew Fleming.

The jurisdiction of this Court extends to all manner of actions, causes and suits, criminal and civil, real, personal and mixed, within Upper Canada; and it may proceed by such process and course as are provided by law, and as shall tend with justice and despatch to determine the same; and may hear and determine all issues of law, and also, with the inquest of twelve good and lawful men (except in cases otherwise provided for), try all issues of fact, and give judgment and award execution thereon, and also in matters which relate to the Queen's revenue (including the condemnation of contraband or smuggled goods), as may be done by Her Majesty's Superior Courts of Law in England.

COURT OF CHANCERY.—Chancellor, Hon. P. M. M. S. Vankoughnet, D.C.L.; Vice-Chancellors, Hon. James C. P. Esten; Hon. John G. Spragge; Master, Andrew N. Buell; Taxing Officer, George Hemings; Registrar and Reporter, Alexander Grant; Special Examiners, John Hector, Q.C., and William Vynne Bacon; Usher, John Oliver.

This Court has the like jurisdiction as the Court of Chancery in England in cases of fraud, accident, trusts, executors, administrators, co-partnerships, account, mortgages, awards, dower, infants, idiots, lunatics, and their estates, waste, specific performance, discovery, and to prevent multiplicity of suits, staying proceedings at law prosecuted against equity and good conscience, and may decree the issue, repeal or avoidance of letters patent, and generally the like powers as the Court of Chancery in England possesses to administer justice in all cases in which there is no adequate remedy at law.

COURT OF COMMON PLEAS.—Chief Justice, Hon. William B. Richards; Puisne Judges, Hon. Adam Wilson; Hon. John Wilson;

Clerk of the Crown and Pleas, M. B. Jackson; Reporter, S. J. Van-koughnet; Clerk of the Process, Robert Stanton; Crier and Usher, Daniel Connell.

This Court was established by the Act 12 vic. cap. 63. It consists of three Judges, who sit in Term, in the same manner as the Judges in the Queen's Bench, and has the same powers and jurisdiction as a Court of Record, as the Court of Queen's Bench. Writs of summons and capias issue alternately from each Court.

PRACTICE COURT AND CHAMBERS.—One of the Common Law Judges holds a Court during each Term, called the "Practice Court," for hearing matters relating to the adding or justifying bail, discharging insolvent debtors, administering oaths, hearing and determining matters on motion, and making rules and orders in causes, and business depending in either of the Law Courts. Chambers are held each day in Law and Chancery by one of the Judges of the Courts, for such business relating to suits therein as may be transacted by a single Judge out of Court. Clerk, Common Law, William B. Heward—Chancery, John Black.

HEIR AND DEVISEE COMMISSION.—Commissioners, the Judges of the Courts of Queen's Bench, Chancery, and Common Pleas, and such other persons as may be appointed by commission under the Great Seal.

Their duties are, to determine claims to lands in Upper Canada for which no patent has issued from the Crown in favour of the proper claimants, whether as heirs, devisees or assignees. Clerk, William B. Heward.

County. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant and contract, where the amount is liquidated or ascertained by the act of the parties or signature of the defendant, to £100; but not to cases involving the title to lands (with the exception of actions of ejectment in specified cases), validity of wills, or actions for libel, slander, crim. con. or seduction. An appeal lies to either of the superior Courts of law. These Courts also possess equity powers to the amount of £50, subject to an appeal to the Court of Chancery.

SURROGATE COURTS.—These Courts are now regulated by Con. Stat. U. C. cap. 16, and grant administration, subject to an appeal to the Court of Chancery. Clerk, Chas. Fitzgibbon, Toronto.

Courts of Quarter Sessions.—Chairman, the County Judge in each County, who, with one or more Justices of the Peace, holds a Court of Quarter Sessions in his County four times a year, for trials by jury in cases of larceny, misdemeanour and other offences, and for the decision of appeals from summary convictions.

RECORDER'S COURTS.—In the Cities of Toronto, Hamilton, London, Kingston and Ottawa, the Recorder's Court takes the place of the County Sessions, the Justices for Counties having no jurisdiction in the Cities, the care of which is confided to the Recorder, Mayor, Aldermen and Police Magistrates of each.

Recorders, George Duggan, Toronto; James O'Reily, Kingston; John E. Start, Hamilton; William Horton, London; J. B. Lewis, Ottawa.

Insolvent Debtors' Courts.—The County Judge in each County presides.

Division Courts.—For the summary disposal of cases by a Judge; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to £25, injuries or torts to personal chattles amounting to £10, but not to actions for gambling debts, liquor drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Courts are held once in two months in each Division, or oftener, at the discretion of the Judge. The Divisions are established by the Courts of Quarter Sessions.

CLERKS OF ASSIZE.—Clerks of Assize, the Deputy Clerks of the Crown are ex officio Clerks of Assize and Marshals in their respective Counties. In the Home Counties the Chief Clerks of the two Courts officiate alternately. W. Campbell, Clerk of Assize.

DEPUTY CLERKS OF THE CROWN.—The Clerks of the County Courts will be ex officio Deputy Clerks of the Crown and Pleas of their

DEPUTY MASTERS AND REGISTRARS IN CHANCERY.—These officers are appointed by the Court for each County, as occasion requires.

CLERK OF THE PROCESS.—For sealing and issuing (alternately) all writs of summons in the Queen's Bench and Common Pleas—Robert Stanton. The Deputy Clerks of the Crown in the several Counties also, in like manner, issue the writs for their respective Counties.

CIRCUITS OF THE COURTS.

Law Circuits.—The Circuits are held twice a year in each County, between Hilary and Easter Terms, and between Trinity and Michaelmas Terms, except in the City of Toronto and united Counties of York and Peel, where there are three in each year.

There are six Circuits, as follows, viz:

THE EASTERN.—Perth, Cornwall, Ottawa, L'Orignal, Brockville, Kingston.

beds. Its medical management has recently undergone important reforms, so that it is now one of the best conducted and most efficient of hospitals in the Province. The patients are confided to the care of a board of six attending physicians, one of whom visits the various wards daily, and one resident surgeon. It is open to all medical students and practitioners, at the usual visiting hours, free of charge. The hospital is supported by city taxatian, grants from the Great Western Railway, and the Provincial Government; and its financial management is confided to a committee appointed by the City Council. Patients, except in cases of emergency, are admitted on the order of the mayor, or on the order of a member of the hospital committee. The following is a list of its officers:-J. A. Mullin, M.D., Resident Surgeon; Robert Stuart, Superintendent; Mrs. R. Stuart, Matron. Medical Board: - Drs. J W Rosebrugh, J. D. McDonald, E. Henwood, Henry Ridley, D. M'Intosh, T. Duggan.

STEAM Engines MANUFACTURERS

POR

YAANOITATS

These Engines are simple in construction and easily managed—are made in a substantial manner of the best materials used, they will be warranted to require less than half the fuel used by the average Steam Engines at work, and capable of performing much more than the power rated. The Ten-horse Power will work to the full power with less than half a cord of wood per day. They are applicable to all purposes requiring power. Numerous testimonials from parties using them and workmanship. For cheapness, durability and economy in working, they are unrivalled. If well put up and properly Hamilton and London also the Prince of Wales Prize at Hamilton, Sept., 1864. MANUFACTURERS OF

STEAM ENGINES AND BOILERS,

SIMCOE STREET, HAMILTON, C. W.,

WOULD PARTICULARLY CALL THE ATTENTION OF FARMERS, CONTRACTORS, MINERS, &c., TO

THEIR IMPROVED PORTABLE STEAM ENGINES!

For Working Threshing Machines, Circular Saws, Driving Piles, Pumping Coal Oil, &c.,

These Engines are set to work and proved before leaving the Manufactory, and can be safely set to work in any building, as the fire-place is entirely surrounded by water. When required, they are mounted upon large wheels, and can be moved about as easily as a common waggon.

STEAM ENGINES ALWAYS ON HAND.

Canada Branch-Office Nos. 221 & 223 St. Paul St., Montreal.

Messrs. MORLAND, WATSON & CO., General Agents.

FIRE DEPARTMENT.—The Company commenced business in October, 1861, as a Fire Office, and was called into existence to modify the excessive rates demanded by the combined offices after the Great Fire in Tooley Street, London. The success which has attended of the Directors, and have induced them to extend their operations to Canada, where the General Agents are prepared to take proposals for Insurance against Loss by Fire on property of every description.

General Agents are prepared to take proposals for Insurance against Loss by Fire on property of every description.

LIFE DEPARTMENT.—The marked preference shown for an Office which studies the interests of the Public, as well as of its proprietary, induced the directors to transact Life Business, with the intention not to favour one class of Policy holders at the expense of another, but resolved that the same liberal views which have gained for the office the confidence of the public in its Fire Branch, shall guide them in the management of the Life suggests.

Among the benefits of this Company may be enumerated;—Moderate rates of Premium—Eighty per cent. of the profits divided amongst the Assured—Very liberal surrender value given after three years—Thirty days allowed for payment of premiums, and further extension of time on easy terms—Unchallengeable Policies—Credit System—Service permitted in Volunteer Corps—Convenient and liberal terms, whereby no Policy need lapse through any temporary difficulty in the payment of a Premium.

Further and fuller information may be obtained by calling at the office, corner of JAMES AND REBECCA STREETS, HAMILTON.

CANADA SEWING MACHINE

MANUFACTORY,

Cor. of James and Vine Streets, Hamilton, C.W.

FAMILY SEWING MACHI WANZER SEWING MACHI

the family shuttle machine

PATENTED IN CANADA,

They have the Exclusive Right to Manufacture.

This Machine is ingeniously made to combine all the best qualities of the Singer and Wheeler & Wilson's Machines, makes a perfect stitch, is simple in its construction, will not get out of order without violence, its use is easy to be acquired, it runs with great speed and ease, and is decidedly the most popular machine now in use, which the large number being shipped from the factory will verify.

R. M. WANZER & Co.'s SEWING MACHINES have taken the FIRST PRIZES at the Provincial Exhibitions held in London, C.W., 1861; in Toronto, 1862; in Montreal and Kingston, 1863; and in Hamilton, 1864. They are the only reliable Sewing Machines offered to the Public for all kinds of Sewing, as all will testify on examination.

All orders should be addressed to

TOWN OF DUNDAS.

An incorporated Town in the Township of West Flamboro' and County of Wentworth, situated at the head of the Desjardins Canal, and on the Line of the Great Western Railway, five miles from Hamilton, 79 from London, 44 from Toronto, and 49 from Suspension Bridge. Mails daily, with Money Order Office. Dundas, from its position in the centre of a rich agricultural section of country, must continue to advance in population and wealth. It contains some fine Church edifices, a Town Hall and Market Building, and several good brick business blocks. Many of the private residences are equal to any found in the larger cities of Canada.

The pride of Dundas is its numerous manufacturing establishments in iron, cotton, woollen goods, paper, French burr mill stones, agricultural implements, leather, flour, &c. John Gartshore's large and extensive foundry and machine shops are situated on Hatt Street. About one hundred and fifty men are kept employed at this establishment in the manufacturing of steam engines of every description, mill machinery of all kinds, oil stills, tanks, car wheels and locomotive castings, portable mills, mill stones, water wheels, smut machines, &c. Some of the largest castings ever turned out in Canada, have been made at this foundry.

In the manufacture of agricultural implements, the establishment of Billington & Forsyth was commenced in 1855; they employ twenty-three men, and an engine of fifteen horse power. One hundred and fifty-eight reaping machines, fifteen separator threshing machines, a number of ploughs, cultivators, iron pumps, &c., were turned out during the year.

James Scott & Co., in the same branch of industry, employ thirty hands, an engine of sixteen horse power, and turn out agricultural implements of every description to the value of about thirty thousand dollars per annum. This firm has been established about three years.

On approaching the town by the Hamilton road, the first building of any interest that will be seen is the large cotton factory carried on by Wright & Son. The building is brick, three stories high, and elegantly finished; furnished with machinery for the manufacture of cotton cloths, cotton yarn, and batting. At this factory from 90 to 100 hands get constant employment, and two engines of one hundred horse power are used in propelling the machinery. The engines were built at the establishment of John Gartshore, Dundas.

There are two flouring mills. The Dundas Mills, water power, established in 1833, are carried on by James Coleman, who employs ten hands in the mill, and is also engaged in the manufacture of staves, barrels, &c. The mills contain six run of stone, and has the capacity of manufacturing one thousand barrels per week. The Wentworth Mills, steam and water, Wilson & Bros., proprietors, were established in 1844. They contain f. ur run of stone, and have the capacity of manufacturing six hundred barrels of flour per week.

The Dundas Morocco Factory and Tannery was started in 1860 by W. E. Parmenter, who employs twenty-five hands, and an engine of fifteen horse power, in the manufacturing of morocco, sole, calf, and upper leathers. The Dundas Tannery was established in 1850 by Thomas Howe, who employs ten hands, an engine of fifteen horse power, and turns out fifteen thousand manufactured hides per annum.

The Gore Paper Mills were established in 1834; the machinery is propelled by water power, and thirty-five hands are kept employed. Every description of book, news, and wrapping papers are made here.

Crossland & Brown's Steam Woollen Mill was established during the present year. Eighty hands are employed in this establishment, and an engine of fifty horse power used in propelling the machinery. This firm turns out about fifteen hundred yards of cloth per week.

W. H. Gibson employs about ten hands and an engine of eight horse power in the manufacture of machinists' tools, lathes, iron planing machines, and general machinists' work.

McKechnie & Bertram, manufacturers of machinists' and woodworkers' tools, employ five men, and use steam power to the extent of five horse.

In the manufacture of sashes and blinds, Thomas Sheldrick employs three men, and an engine of six horse power.

J. & W. Chegwin employ ten men in carriage and waggon building, and turn out about five thousand dollars worth per annum.

The only establishment in the manufacture of furniture is carried on by Ostwald & Co., who give employment to fifty men, and use

An establishment for the manufacture of wire work was commenced in 1860 by Timothy Greening, who manufactures wire cloth of every description.

There is one brewery, established by Holt & Gray in 1840. They turn out about three thousand barrels of ale and porter per annum.

CHURCHES.

CHURCH OF ENGLAND, (St James) situated on Hatt street, is a plain and substantial stone edifice, and is capable of accommodating six hundred persons. Rev. F. L. Osler, M.A., Cam., rector of Ancaster and incumbent, Dundas.

KNOX CHURCH, (Presbyterian Church of Canada) was erected in 1847, of brick, at a cost of four thousand dollars, and is seated for four hundred persons.

St. Andrews Church of Scotland was erected in 1837, of stone, at a cost of about four thousand dollars, and will accommodate two hundred and fifty persons. Rev. Mr. Herald, pastor.

PARK STREET BAPTIST CHURCH was built in 1842, of brick. It cost \$1600, and will seat three hundred persons. Rev. W. A Caldwell, minister.

MARKET STREET BAPTIST CHURCH was erected in 1858 at a cost of \$1200, and is seated for 100 persons. No settled pastor.

WESLEYAN METHODIST CHURCH, Cross street, corner Park, was built in 1855, of brick and cost \$12,000. It will accommodate five hundred persons.

ROMAN CATHOLIC CHURCH, erected in 1863, of brick, will cost when fully completed about ten thousand dollars. It will accommodate about one thousand persons.

SCHOOLS.

The Dundas Union Grammar and Common School building was erected in 1856, of brick. The average daily attendance is about 240 pupils. J. Joseph Flyn, principal.

The Roman Catholic Separate School edifice is on Sydenham street, and was established in 1858. The average attendance is about 100

pupils. James B. Looney, teacher male department, and Miss Margaret Sweeney, teacher of female department.

ANCASTER*.—A post village, situated in the north east portion of the township of the same name, 7 miles from Hamilton, and 3 miles from Dundas station, on the Great Western Railway. It was first settled by St. Jean Baptiste Rousseaux and James Wilson,

^{*} A short sketch of the early settlement of the township of Ancaster, will be found by reference to another part of this work.

about 1797. The post office was established about 1822, and John Burwell appointed postmaster. In 1831 he was succeeded by James Chep who held the office until 1854, when the present official George B. Rousseaux was commissioned. Ancaster, for nearly twenty years was the only market west of York then, (now Toronto) and Niagara, for farmers living to the south, north and west to get their produce to, and get the necessaries required for their families, many of whom had to travel a hundred miles. Business in those days was done entirely upon the credit system. Mr. Rousseaux built a log grist mill, and a saw mill in the village shortly after his settlement. The stream passing through the village, though not large, furnishes excellent power, and is used in propelling the machinery of several factories and mill.

The Ancaster Knitting Factory, owned and carried on by J. G. Crane is propelled by water. The buildings and machinery cost about \$12,000, and was started in 1854. Mr. Crane employs about 60 hands, and turns out knitted work, under clothing and hosiery to the value of \$50,000 per annum.

Turner's knitting factory, where the same styles of goods are manufactured as at the Ancaster factory. The machinery is propelled by water, twenty hands are employed, and goods to the value of \$20,-000 are turned out per annum

The Ancaster foundry and machine shop was erected in 1849 of stone by H. & A. Egleston, who use a steam engine of 15 horse power. This firm manufactures every description of cotton and woollen machinery and agricultural implements. Many improvements have been made by Messrs. Egleston in the manufacture of earding machines, particularly their condensing machine, and nearly all the woollen factories and carding mills in Canada have been furnished by this firm. They are about erecting a new woollen factory of stone, thirty-four feet wide. It is intended to put two sets of machinery for cloth manufacturing and knitting purposes, which will be all of their own make.

The Ancaster flouring mills were erected in 1863, of stone, containing three run of stone, and having a capacity for manufacturing 100 barrels of flour per diem. The mills were erected by H. & A. Egleston, at a cost of \$10,000.

The Ancaster tannery, carried on by Jacob Gabel, was established in 1849—the building is stone. Manufactured leather to the value of \$5,000 per annum is turned out.

The village contains three churches, the Church of England, frame, was erected in 1827, and will accommodate 300 persons. Rev. F. L. Osler, rector.

The Presbyterian Church was built of frame in 1830, will seat about 200 peasons, Rev. John Lees, minister.

in l høte dolla Uni The was laid out as a village by William Campbell, James Kievell, Joseph Tansley, and Andrew Patton. A road has lately been surveyed from Milton, the county seat of Halton to pass through the village, and intersect the gravel stone road leading to Hamilton. The Twelve Mile Creek here furnishes an abundant supply of hydraulic power, which is made available in propelling the machinery of a peg and last factory, two grist mills, (one nearly completed) and three saw mills. In the peg and last factory, about twelve hands are employed. In Campbell's saw mills there are five hands, who turn out about four hundred thousand feet of sawn lumber per annum. The other saw mills also turn out a large quantity, and employ a number of hands. There is here one church, the "Messiah," erected of frame in 1863, which will accommodate about two hundred persons—Rev. Daniel Campbell, minister. Population, 100. No post office yet established.

COUNTY OF WENTWORTH.

The County of Wentworth is bounded on the north by the County of Wellington, on the north-east by the County of Halton and Lake Ontario, on the east by the County of Lincoln, on the south and south-west by the Counties of Haldimand and Brant. This County, until 1851, with the County of Halton, formed the Gore District. The County contains the townships of Ancaster, Barton, Binbrook, Beverley, Flamboro' East, Flamboro' West, Glanford, and Salt-The County first commenced settling in 1783, and in 1817 contained about five thousand inhabitants. About the same time the Gore District had a population of seven thousand, and contained four churches, eighteen grist mills, and forty-one saw mills. In 1848 it contained sixty four churches, forty grist and flouring mills, twenty-three oat and barley mills, and one hundred and forty-eight saw mills. From the last census returns we find the County to contain eleven flour and grist mills, with a capital invested of nearly \$80,000, using 122,681 bushels of wheat; five of these mills are propelled by steam and six by water, giving employment to seventeen hands. The number of saw mills in the County was fifty-eight, employing a capital of \$187,000. Forty-one were propelled by steam and seventeen by water; these gave employment to 284 men, and yielded an annual product of 21,850,000 feet of sawn lumber, valued at nearly \$200,000. Three carding and fulling mills, three woollen factories, one distillery, five tanneries, eight foundries, five breweries, one axe and edge tool factory, three cabinet factories, six carriage and waggon factories, six soap and candle factories, two pot and pearl ash factories, one rake factory, two paper mills, three shingle mills, one nail factory, two boot and shoe factories, five brick yards, two potteries, one ship yard, three cotton factories, four tobacco manutories, three oil factories, two sash, door and blind manufactories, three broom factories, four cooperages, four stove factories, one pump factory, eight agricultural implement factories, two hosiery manufactories, one railroad car factory, two brass foundries, two soda water manufactories, one peg and last factory, two vinegar factories, one coffee and spice mill, one glue factory, one gunpowder mill, one felt hat factory, two piano factories, one scale factory, and one sewing machine factory are now in operation.

TOWNSHIP OF ANCASTER.

The township of Ancaster is bounded on the north by the townships of Beverley and East and West Flamboro', on the south east by the townships of Barton and Glanford, and on the south west by the townships of Caledonia and Onondaga, county of Brant. It is of triangular shape, and the first settlement was commenced about the year 1795. The first settlers were a French Canadian named St. John Rousseaux, the progenitor of the family of that name now in the village and neighbourhood, who built a log grist mill and a saw mill shortly after pitching his tent here; the other was an Upper Canadian Loyalist, from the state of Pensylvania. Shortly afterwards the township began to be settled by individuals from the States of Pensylvania and Jersey, many of whose descendents remain unto this day

About the year 1798, two brothers, named Richard and Samuel Hatt, both Englishmen, established themselves here as merchants, and built the second grist mill, (the first in the township for manufacturing flour for exportation); and as the township began to be settled opened up and improved, other enterprising young men followed, and divided the business of the county with the Messrs. Hatt. In 1810 the business of the township and surrounding country was of the most comprehensive character, as it was the only market. Wheat, the staple of the country, was then always worth a dollar the bushel, and the merchant's profits on goods never less than eighty-seven and a half per cent. but more frequently a hundred and fifty.

When Messrs. Rousseaux and Wilson first settled, the country was the abode of the wolf; no roads, nothing but an Indian track, but the proximity of Lake Ontario and Burlington Bay to a very considerable extent, obviated the difficulty of want of roads. Until the Messrs. Hatt built their mill, Mr. Rousseaux's was the only one for scores of miles round, and many of the first settlers, when going to mill, had to trap their grist upon their backs, for want of roads, and had there been roads, for want of the means of other transport. None but the pioneers of a new country know the difficulties of a first settlement.

Previous to the war of 1812, with America, when the farmer came to settle his account with the merchant, if there was a balance in his favor, he generally got as much money in hard dollars (we had no banks then) as would pay his taxes, the tanner for his leather, (for leather has always appeared to be a cash article, "nothing like leather,') his spinning girl and the weaver; the remainder was drawn for in goods from the merchant's shop, in payment to the men who were clearing their lands, usually then called "jobbers."

The moral character of the people before that war was such, that it

was but rare that a man's note was taken for a debt, his word being considered sufficient, and we had then neither lawsuits nor lawyers. But the war had a most demoralizing effect, and things in those particulars became very much changed

In 1815, and up to 1818, there were twenty merchants' shops in the villaga of Ancaster, and all doing a good business; but about that period Dundas. Hamilton, Brantford and West Flamboro' sprung into existence as business places, and later, London, Simcoe, Ingersoll, and other places of business to the westward, and the monopoly employed for a brief period by Ancaster was destroyed, and there are now but three merchants' shops in the village, doing a good business.

The township, however, has not followed the downward course of the village, its farmers generally having capital buildings, large improvements, their farms in first rate condition, and every external, evidencing care, taste, and industry—a sure index to prosperity, wealth

The first house built in this township still stands; it is one and a half stories high, and composed of hewn oak logs. Gen. Simcoe, our first Lieutenant Governor, used to make it head quarters, in his pedestrian excursions from York to Sandwich, in the early settlement of this country. It has been a tavern, a church, a school house, a court house, a cooper shop, a dwelling house, and a score of other things, "everything by turns, but nothing long."

The soil of the township is generally loam, but there is some clay. The timber consists of pine, white and red, or black oak, white and black ash, maple, beech, elm, hickory, black walnut, butternut, chesnut, sycamore, and a great variety of other woods; it is beautifully watered, its surface undulating, and the people only die of old age.

In 1817 the population of the township amounted to 1037, and it contained four grist and five saw mills. In 1850, the population had increased to 4082. There were four grist and eleven saw mills; and seventy thousand bushels of wheat, ninety-seven thousand bushels of oats, eleven thousand bushels of Indian corn, eighty-one thousand bushels of potatoes, fifteen thousand bushels of turnips, sixteen thousand pounds of maple sugar, eighteen thousand pounds of wool, and twenty-five thousand pounds of butter, were produced from the crop of 1849.

In the township are two mineral springs, known as the Ancaster Saline Spring, and the Ancaster Sulpher Spring. The former, which is known to the neighbourhood as the "Salt Well," is about two miles west of the village. A well was sunk, some years since, to the depth of thirty feet, and during the late American War, a considerable quantity of salt was manufactured in a rude way. The water rises nearly to the surface, and at times a stream is said to flow from it; no outlet is visible, yet the spring fills up rapidly when the water is dipped out. The temperature was found to be the same as that of a neighbouring

The township of Barton is bounded on the north by Burlington Bay, on the east by the township of Saltfleet, on the south by the township of Glanford, and on the west by the township of Ancaster. It is rectangular in shape, and nearly one half of it lies below the range of hills skirting along the southernmost portion of the lake, and which is a portion of the same range which breaks the Niagara river, and forms the falls. The township commenced being settled in the year 1787, and in 1817 contained one hundred and thirty houses, and about eight hundred inhabitants. In 1841 the population had increased to fourteen hundred and thirty-four. Below the mountain the soil is generally a sandy loam, and above it consists mostly of clay with a mixture of loam. The timber is a mixture of various kinds of hardwood and pine. Below will be found an abstract of census for 1861.

The township of Beverley is bounded on the north by the township of Puslinch, County of Wellington, on the east by the township of Flamboro' West, on the south by the township of Ancaster, and on the west by the townships of North and South Dumfries, County of Waterloo. The township commenced settlement about the year 1800. In 1817 it contained about three hundred inhabitants, and two saw mills. Wild land, in 1800, was selling at ten pounds per lot of two hundred acres; the land, in 1817, had increased, from ten shillings to two pounds per acre in value. In 1841, the population had increased to two thousand six hundred and eighty-four; in 1850, to six thousand one hundred and fifty-five. At the same period the township contained one grist and twenty-one saw mills, and seventyeight thousand bushels of wheat, ninety-nine thousand bushels of oats, nineteen thousand bushels of peas, forty-four thousand bushels of potatoes, sixty-three thousand bushels of turnips, thirty-four thousand pounds of maple sugar, twenty thousand pounds of wool, and forty-four thousand pounds of butter, were produced from the

TOWNSHIP OF BINBROOK.

The township of Binbrook is bounded on the north by the township of Saltfleet; on the east by the township of Caister, County of Lincoln; on the south by the township of Seneca, County of Haldimand; and on the west by the township of Glanford. In 1817 it contained only sixteen families, and in 1850 the number of inhabitants had increased to three hundred and eighty-nine. The township is well watered by the Welland river and the Twenty-mile creek. The soil is mostly of a clay loam, mixed with sand, and the surface of the country is level, with some parts gently undulating. The timber is mostly pine, with an occasional admixture of hardwood. In 1849 were produced ten thousand bushels of wheat, and eight thousand bushels of oats. Below we give an abstract from the census of 1861. The following tabular statement presents at a glance the products of the township as reported by the last census returns.

TOWNSHIP OF FLAMBORO' EAST.

The township of Flamboro' East is bounded on the north-east by the Townships of Nasagaweya and Nelson, county of Halton, on the south by Burlington Bay, on the south-west by the township of Flamboro' West, and on the north-west by the township of Puslinch, county Wellington. The township was first settled about the year 1799 by George Chisholm, David Henry, John Fonger, and William and John Applegarth. From Hamilton to Waterdown, the chief town of the township, there are three or four roads, which vary in distance from seven to nine miles. By any one of these it is necessary to cross the marsh, (the continuation or scrag end of Burlington Bay,) and also to ascend the table land on the opposite side. A narrow ridge of very high land divides the Bay from the marsh. One portion of the ridge, fronting the warsh has a very singular appearance; being clear of timber for some distance from the top, and covered with a short turf, and sloping down almost perpendicularly for at least a hundred and fifty feet, it resembles a "ha-ha," or sunken fence on a gigantic scale. The usual, or most travelled road to Waterdown is to keep the gravel road on the right hand or Burlington side of the ridge, and cross the marsh, over which there is a good bridge, then follow the Wellington Square road till you are about five miles from Hamilton when a good road turns off to the left at Aldershott or Waterdown station, which runs nearly straight to the village. Should the traveller make a mistake, and turn to the left a quarter of a mile too soon, he will get on a road which will lead him to Waterdown, but by a very circuitous and hilly path. There is another road, rather shorter, gained by following the road on the marsh side of the ridge previously spoken of, instead of the Burlington Bay side, and crossing the marsh over a different bridge. But although a most magnificent view may be obtained from one particular spot on the way, it is doubtful if the

pleasure of the prospect is not more than balanced by the hilly and rocky character of a portion of the road.

Waterdown* which is situated on the mountain, and on Dundas street, is a pleasant looking village, containing about 768 inhabitants, and is situated by a bustling little mill stream called Grind Stone creek, a very significant name, and finds its source in the rear of the

The village of Carlisle, which is about five miles back from Waterdown, contains about one hundred and fifty inhabitants, and is watered

The south-eastern portion of the township is hilly, but the rear is level or rolling. The soil is generally good, and the timber a mixture of hardwood and pine. It is well settled and contains excellent farms. There are two other villages in the township, but want of space prevents us from giving any more than a passing notice of them-they are Progresson and Aldershott. Below will be found an abstract of

TOWNSHIP OF FLAMBORO' WEST.

The township of Flamboro' West is bounded on the north-east by the township of Flamboro' East, on the south by the township of Ancaster, on the west by the township of Beverly. It is triangular in shape, and the surface of the country varies, being composed of hill and dale; the soil is chiefly loam and is well watered with numerous small streams. A beautiful and rapid stream flows or rather dashes through the valley called Mordens' Creek, and known at the village of West Flamboro' as "Flamboro' Stream," and at Dundas as "Dundas Stream." Soon after leaving the village of West Flamboro' you begin gradually to descend the mountain, getting occasionally a fine view over the surrounding country. The road is circuitous, but well

made. Before descending into the town of Dundas, you see towering above you on the left an enormous cutting and embankment. made by the Great Western Railway, and immediately in front of it the Flamboro' Stream, now become the Dundas stream, having supplied the Gore flour and paper mills. Some idea may be had of the value of this stream for manufacturing purposes when it is stated that at these mills water to the extent of one hundred horse power is obtained. At a short distance from this point it crosses the road and rushes down into the valley below, hurrying on to add to the prosperity of Dundas. Dundas is three miles and a half from the village of West Flamboro'

Dundas is three miles and a half from the village of West Flamboro' and five from Hamilton, and is situated on a rising ground at the foot of the mountain. It has long been noted as a manufacturing place, and has almost unlimited water power. In its vicinity there is a large supply of free-stone and limestone, and many of its principal buildings are constructed of the stone obtained at these quarries.

The first settlements in the township were made in 1794, when wild land might be bought for about one shilling per acre. In 1817 the township contained three hundred and sixty inhabitants, one grist, six saw mills, and one fulling mill. In 1841 the population had increased to two thousand four hundred and twenty-eight, and in 1850 to two thousand nine hundred and fifty-five. It produced from the crops of 1849, fifty-three thousand bushels of wheat, twenty-seven thousand bushels of oats, twenty-one thousand bushels of potatoes, twenty-two thousand bushels of turnips, seven thousand pounds of wool, and twelve thousand pounds of butter. Below will be found an abstract of the census for 1861.

TOWNSHIP OF GLANFORD.

The township of Glanford is bounded on the north east by the township of Barton, on the south east by the township of Binbrook, on the south west by the township of Seneca, County of Haldimand, and on the north west by the township of Ancaster. It is well settled, has many fine farms under a high state of cultivation. The surface of the country is rolling, and the timber a mixture of hard wood and pine. The township lies on the plateau of land to the south of Hamilton, and is intersected by the Hamilton and Port Dover gravel road. It has an agricultural society, in connection with the township of Barton, of which Mr. John Gage is president, and Mr. Ira Rymal, secretary. The following is an abstract of the census report for 1861:

TOWNSHIP OF SALTFLEET.

The township of Saltsleet is bounded on the north-east by Lake Ontario, on the south-east by the township of Grimsby, County of Lincoln, on the south-west by the township of Grimsby and Binbrook, and on the north-west by the township of Barton. The first settlement was made in 1787, and in 1817 it contained seven hundred inhabitants. The township is thickly studded with fine farms under a high state of cultivation, and lies partly below and partly on the mountain. The soil is rich, and the timber a mixture of pine and hardwood. The following post offices are in the township: Ontario, Stoney Creek, Tapleytown, and Tweedside. The crop of 1849 produced fifty thousand bushels of wheat, thirty-seven thousand bushels of oats, twenty-six thousand bushels of Indian corn, sixteen thousand pounds of wool, and twenty-one thousand pounds of butter.
