A CLOTHING STORE POLICY

That Has Made the Business of its Age The Biggest in New Brunswick. Many people have been surprised at the wonderful growth of this business, but there has been no secret about its policy. The policy has been a simple straightforward one. Thoroughly understanding the Clothing business in the first place, buying direct from the manufacturers, thus saving the middleman's profit, selling only reliable goods, doing a strictly cash business thus saving the "bad debts" the office expense, and giving us the cash to take advantage of any bargains given, employing only competent and obliging salesmen, seeing that all customers are promptly and carefully served, in short our policy has always been never to take a dollar of any man's money unless we give him one hundred cents' worth of wear and satisfaction.

WANT AN ATHLETIC FIELD FOR CARLETON

Will Present Petition to Council---LaTours Planning Football and Hockey Teams ---Presentation of Prizes.

A petition will be presented at this afternoon's meeting of the Common Council, on behalf of the La Tour Athletic Association asking that the chain gang be sent to West St. John to level the large vacant lot known as Courtney Hill for the purpose of turning it into an athletic ground. The club has recently done much to stimulate athletics on the West Side and think that they are deserving of some support from the city, especially as their sports are run as a money making enterprise. There is sufficient room in this spot for a splendid athletic ground, and with a little work the present hill could be made both attractive in appearance and useful.

At a meeting of the La Tour Section tomorrow evening the prizes won at the sports held under the auspices of the Section on Labor Day will be presented to the successful competitors.

The Section is planning further activities along athletic lines. An intermediate football team is being organized which will be placed in the city league this fall and they hope to put both an intermediate and junior hockey team on the ice this coming winter. It is possible that during the winter a cadet corps will be started for members of the Section.

PERSONALS atored. nt Miss Lillian Fowler and Master Earle Fowler left on the Calvin Austin last evening for their home in New York.

Mrs. Walter Lyons, of Amherst, arrived on the Halifax express this morning to take care of Mr. and Mrs. Jas. Lyons' children until Mrs. Lyons comes out of the hospital.

CHARGE THAT PEONAGE EXISTS IN MINNESOTA

Immigration Official Reports That Foreigners are Practically Slaves in Lumber Camps.

MINNEAPOLIS, Minn., Sept. 8.—That a system of peonage exists in Minnesota and that two of the alleged victims are citizens of Russia, is the charge made by John Clifton Elder, of the United States Immigration Department in a letter to Governor Johnson.

Mr. Elder charges that the foreigners are tricked and beaten if they attempt to leave the employment of those who detain them, and in some cases the law is used to detain the laborers. Mr. Elder says these conditions are general in Minnesota lumber camps.

F. A. OUS GENERAL DEAD IN NEW YORK HOSPITAL

Lieut.-Gen. Henry C. Corbin Had a Distinguished Career in American Civil War.

NEW YORK, Sept. 8.—Lieut. General Henry C. Corbin, of the United States Army, retired, died in Roosevelt Hospital in this city today from an operation. He was 82 years old.

General Corbin's first military service was as a Second Lieutenant in the 3rd Ohio Volunteers Infantry, he having enlisted July 28th, 1862, and served throughout the Civil War with the army of the Cumberland, holding all grades from Second Lieutenant to Colonel. He was brevetted Brigadier-General of Volunteers in 1865. He entered the regular army in 1865. He was promoted to Major in 1870, to Lieutenant Colonel in 1875, and retired the same year.

General Corbin was in the company of President Garfield when the latter was assassinated in 1881.

AUTO BROKE DOWN AND BLOCKED THE CARS

A Moncton man, who was running a handsome automobile came to grief about 12.45 o'clock today on Market square. The "auto" collided with the car track and the front wheel was badly damaged. The car blocked the railway tracks for some minutes and attracted a large crowd. The owner of the machine endeavored to smash-up from the square. J. A. Pugsley was communicated with and the car is now undergoing repairs at the garage.

PEARY INTIMATES THAT DR. COOK WAS NEVER NEAR THE NORTH POLE

Messages from Indian Harbor on the Labrador Coast Confirms Story of His Own Discovery and Scoffs at Cook's---Now on His Way to Battle Harbor---May Not Be Able to Send Story for Several Days

INDIAN HARBOR, Labrador, Via Cape Ray, Nfld., Sept. 8.—Commander Peary and his party arrived today for Sydney, N. S. The Roosevelt arrived here Sunday night and has been detained until this morning by a heavy gale. On the arrival of the Roosevelt, Mr. Peary and Captain Bartlett came ashore and personally filed the despatches which were sent by wireless to the United States. Commander Peary expressed gratification at his successful completion of his life's work in discovering the North Pole. He and Captain Bartlett expressed to be in the best physical condition. The Roosevelt is uninjured from her long and arduous voyage through the ice-jacks of the Polar Sea.

NEW YORK, Sept. 8.—The following despatch was received here early today: Indian Harbor, Labrador, (Via wireless, via Cape Ray)—Sept. 8.—To Melville E. Stone, Associated Press, New York: "I have called the Stars and Stripes to the North Pole. This is authoritative and correct."

MOTLEY ASSEMBLY DECORATED THE POLICE COURT BENCH THIS MORNING

Drunks, Wife-Beaters, Fighters and Hoboes---Cattlemen Tell of Vigorous Methods Used to Make a Companion Take a Bath.

There were a variety of cases in the police court this morning and a large number of spectators were present at the session.

Thomas Grand was arrested on suspicion of having been fighting on the street and was held in the city jail. He had not been fighting, but admitted that he ran away from the chain gang on May 13th, 1909. He was remanded to jail.

Wilson Pritchard was charged by Robert Ellis with assault and during the trial Ellis pointed out Robert McMillan who was in the city jail, as having also assaulted him. Ellis stated that he and the defendant were cattlemen on board the steamer Manchester Corporation, and that yesterday afternoon at 4.30 o'clock McMillan entered the ship's forecastle and kicked defendant in the stomach. The complainant said that he then ran away from the ship.

Pritchard admitted hitting the complainant, but said that he did so because Ellis had assaulted him. McMillan took the stand and described the life of a cattlemen. He said that his native name was Ireland, and he had worked his way to the old country as a cattlemen, and his captives were not looked on by ship's officers as human beings.

Ellis was only known to the other cattlemen as "Boston" because that was where he hailed from. The whole trouble arose over the fact that "Boston" was dirty, was a thief, a tramp, and refused to wash himself. It was over a month and the Boston hobo had not even washed his hands, so with the assistance of a couple of other cattlemen McMillan secured a bar of soap and a scrubbing brush. They took Ellis' clothes off and despite his objections they scrubbed him. His shirt was so filthy that they threw it into the sea, and his other undergarments they put in a pot of boiling water.

Barney Garson, a Jew, who has a junk license purchased by his brother, was before the court, charged with purchasing two bottles of eight-year-old Donald Singer. The little fellow said he received a cent for the two bottles and purchased candy. The magistrate remarked that such persons as Garson, who can't read, write or talk English, should not be granted a license. He was liable to a fine of forty dollars and advised him to go to City Hall and talk the matter over with Mr. Ward, the Mayor's clerk, as life was too short for the court to try to talk with a person like the defendant.

The boy was asked why he was not in school and replied that his grandmother had kept him home. His honor told the boy to take the court's compliments to his grandmother and tell her to send him to school every day. He said it was these kind aunts and grandmothers who allowed boys to remain from school who were finally responsible for their final bringing up in the reformatory.

ONLY CHURCH TOWERS OF MEXICAN CITY SHOW ABOVE VERITABLE SEA

Destruction of Noto La Marina Complete—Tents on Tall Hill the Only Evidence of Life.

MEXICO CITY, Sept. 8.—Word was received here last night that the destruction of Noto La Marina, a town in the state of Tamaulipas, was so complete that the whole place has suddenly disappeared with the exception of the church towers that project from the surface of a veritable sea. No one has been able to get closer than a league from where the town once stood. From this point rescue parties have noticed tents on the side of a tall hill, the only evidence of life remaining.

The remains of the late Thomas Miller, who died in Buffalo, N. Y., Sept. 2nd, were interred in Pershill cemetery this afternoon. Service at the residence of C. H. Smith, 67 Sewell street, was conducted by Rev. David Lane, after which the funeral cortege proceeded to Fernhill.

The funeral of the late John Collins of Zion street was held from the cathedral this afternoon at 2.30. Requiem mass was conducted by Rev. Fr. Mehan, after which the remains were taken to the old Catholic cemetery.

NEWSPAPER MEN ON THEIR WAY TO MEET PEARY

Representatives of New York and Boston Papers Pass Through the City—More to Follow.

Eager to secure interviews, photographs, etc., from Commander Robert E. Peary, who placed the Stars and Stripes on the North Pole, a party of newspaper men from Boston and New York passed through the city at noon en route to Sydney. The Commander is figuratively lost to the world at present, but homeward bound in his ship. The Roosevelt will soon reach Sydney.

The American newspaper men were a jolly party and intend to secure from Peary, everything he could say. Among those in the party were: Professor Evelyn Briggs Baldwin, New York; Mr. Coan, New York Evening Sun; John Carberry, Boston Globe; F. H. Thompson, Boston Post; J. Frank Davis, Boston Traveller; and William T. Pearson, staff photographer, Boston Traveller. The latter carried cameras and other equipment. He was the only photographer in the party. Other journalists are expected to pass through on the Boston express tonight. The newspapermen related a number of experiences during their career. A few of the number had previous interviews with the great commander. New York and Boston are awaiting with intense interest Peary's personal words. Most of the party voice the opinion that Peary is greater than Cook in the north pole expedition.

The intrepid explorer will be magnificently entertained upon his return to the States.

KAUFFMAN HAS NO CHANCE WITH JOHNSON

The Experts' Opinion Regarding Tomorrow's Bout—The Black is Heavy But Fast.

SAN FRANCISCO, Sept. 8.—Final boxing was done yesterday by Jack Johnson and Al Kaufmann preparatory to their ten round fight tomorrow afternoon.

Johnson practically cut out boxing last week, declaring he did not care to take chances with his hands going back on him. He boxed on Sunday, sparring with Dave Miller and Young Peter Jackson. The colored man is bigger than ever and fast, but experts say he is a trifle high in flesh. Kaufmann seems to be faster than he has shown in previous matches, but is not considered to have a chance. Betting is ten to four that Johnson will win the fight and 2 to 1 that Kaufmann will stay the entire ten rounds.

PRESENTATION OF WILLIAM F. BROWN

William W. Brown, who is leaving this evening for Calgary, was tendered a surprise party last evening. About forty friends gathered at his home on the West side and spent a few hours in games and other amusements. At the close of the evening R. H. Parsons, on behalf of those in attendance, presented Mr. Brown with a solid gold watch fob. Mr. Parsons referred to the interest Mr. Brown had shown in the La Tour section, and the I. O. O. F. refreshments were served and all present joined in wishing Mr. Brown every success in his new field of labor.

COMMUNICATIONS TO THE COMMON COUNCIL

The Common Council is meeting in monthly session this afternoon. A communication from Mrs. Gregory returns the sincere thanks of the family to the Common Council for the kindness in sending a wreath as a tribute to the late Mr. Hurd Peters, C. E. The matter of a grant to the widow is also being discussed.

James Breming sends a communication complaining that \$2 should not have been charged him for a dog license. He asks that it be returned. The proposed increase in ferry tolls and the appointment of an assistant engineer promises to be thoroughly discussed and the session will be an interesting one.

HARRIMAN RUMORS APPARENTLY UNFOUNDED

ARDEX, N. Y., Sept. 8.—Evidence that nothing of unusual importance had transpired at the home of E. H. Harriman during last night was furnished this morning when the whistle that summons the workmen to their tasks on Tower Hill, the Harriman home, was sounded as usual.

ARDEX, N. Y., Sept. 8.—A telephone call at 10 a. m. brought a statement from Mr. Harriman's house that there was nothing to announce at this time but a statement would be issued from his New York office some time today.

SPORT IN ENGLAND.

Henri Piet, of France, made a surprising good show against P. Walsh on Monday, and if the Britisher was putting all in, one can only think that France will soon take forward a place in the boxing world as in the realm of bicycling. Piet was not knocked out, but gave to the twelfth round, and stated he had injured his leg in the fourth round, which gradually got worse and compelled him to stop.

PEDESTRIANISM.
B. R. Day of Blackpool, who is Irish, and F. Davies, of Wales, tried conclusions for the half mile professional championship early in the week. The race was run on a heavy grass track at Mountain Ash and it came as a surprise to find the winner (Davies) putting up such a fine performance as 1 min. 57-5 secs. for the rather low job in England, for owing to the lack of encouragement many who would rather run for money are compelled to stay in the amateur ranks and try to meet expenses by betting when possible, and selling an occasional pipe.

ATHLETICS.
Having shown his pace against rival athletes, R. E. Walker has now tried conclusions with a cyclist. This was at Birmingham on Wednesday, when the South African was beaten by V. Johnson in a 100 yards level race, time 9-4 seconds, but won at 120 Johnson was simply held up on his bicycle, so the start was from an actual stand. Walker also competed at Worthington a few days since and got second from scratch in the 100 yards invitation handicap. The time was 9-1-4 seconds. Walker being close up. Another of our noted visitors in N. J. Castrolini ran very well at Bath on Saturday, after easily winning the level 100 yards from E. W. Halsey, he ran second in the 120 yards from the one-half yard mark (beating Halsey, 8-4 yards), while he was only narrowly beaten in 121-5 seconds.

James J. Corbett, he of the pompadour haircut and histrionic talents, says nothing of his tenure as champion pugilist some years ago, has burst forth in righteous indignation over the amusing Jeffries-Johnson situation. "Gentleman Jim" is now leading in the approving smiles of general British music hall audiences. With true suaveness Corbett has been flatterring the staid and sport-loving public about the perfect build of their heavy weight athlete. He professes to hope that the championship of the big follow-up division will go to the Island Kingdom in the near future. However, Corbett is quoted as having said: "I believe that Jeffries intends to meet Johnson. I haven't any special information on the subject, but everything points to his having let himself be tempted. Whether he will be able to do the trick if he and Johnson do meet is quite another matter. It will be asking Jeffries to perform a pretty sizable miracle in the ordinary way, but then that isn't saying that he might not be able to come back to the ring as good, or nearly as good, as he was when he retired. Any fool can figure out on paper that it wouldn't be such a hard job seeing that Jim is only 34, just a year or so older than Johnson. But then Johnson has never quit the ring and Jeffries has, and it is just here that the trouble lies."

DISGUISED AS BANANAS

COPS NAB BLACK-HANDERS

HAMILTON, Ont., Sept. 7.—By a very clever ruse the police this morning captured three "Black Hand" men red-handed, though they had a long chase across the fields before they succeeded, and had to bring the Italians into submission by means of revolvers. The three men are Carmelo Colombo, Sherman Avenue, Ernest Speranza, MacNab street, Napa, Hamilton, and Sam Wolfe, Niagara Falls. They were taken before Magistrate Jells and remanded for a few days. Some time ago Salvatore Sanzone, fruitler, James street, north, received a letter from Niagara Falls notifying him that unless he carried \$1,000 with him next time he went out on Dundas road he and all the members of his family would be killed. Sanzone informed the police and told them he was going this morning, and they advised him to load his wagon with bananas and to cover all with a tarpaulin. He was further advised to prepare a parcel of money. Detectives Coulter, Bledsky and Sager climbed into the wagon and covered themselves with the tarpaulin, after which the trip was begun. When Sanzone reached the radial crossing about two miles west of the city, three men went out on the road and demanded \$1,000. He handed over a bundle, which one of them took, and had a brief consultation with them, during which he gave the police a call. They hurriedly scrambled out of the wagon, but the three men got a good start before they got free and set them a fast pace over the fields. The detectives pulled their revolvers and a few shots were fired over the heads of the Italians, who then gave themselves up. When searched one had the package of money on him, and two had revolvers. The third had a big false beard in his pocket.

LOVE ROMANCE OF A SPANISH PRINCE

Titles and Honors Sacrificed for a Wife.

Wife of King Edward—King of Spain Meets Incessant by His Cousins' Marriage.

A wonderful love-tale comes from Spain, Prince Alfonso of Orleans, first cousin of the King of Spain, having sacrificed his titles and honors to marry the girl of his choice, Princess Beatrice of Saxe-Coburg.

King Alfonso forbade the union on account of the Princess Beatrice being of inferior rank; the Princess also refused to embrace the Roman Catholic faith. Nothing daunted, the Prince took the law into his own hands, the wedding ceremony being performed according to both Roman Catholic and Protestant rites.

The King of Spain was so incensed, the more especially as all three brothers of the Orleans family have contracted monialties, that he has now deprived the Prince of the rank of Infante, also of the Orders of the Golden Fleece and of Charles III., and has dismissed him from the army.

In Court circles at Madrid King Alfonso's action is attributed to Queen Ena of Spain, who, it is said, has always maintained a bitter feeling against the Coburgs since the differences of opinion between her mother, Princess Beatrice of Battenberg, and the Dowager-Duchess of Coburg, on questions of precedence at the English Court.

It is hoped that the measure will be only temporary, as in the case of the Grand Duke of Baden, who was deprived of his decorations by the Tsar for marrying a sister of Princess Beatrice, who was eventually reinstated with all honors.

The marriage, which had been in contemplation for over a year, took place last week at Coburg. When the marriage was first suggested the Infante Prince Alfonso of Orleans met the proposal of the most energetic opposition. Prince Alfonso's own wedded life has not been particularly happy, and he and the Infanta Eulalia have been separated by mutual agreement for some years. When Prince Alfonso became aware of his father's opposition to the marriage he was determined to marry the Princess Beatrice whatever the cost it may entail.

THE POPP'S INTERVENTION.

The aid of the Vatican was then sought by Prince Alfonso, and the Pope intimated to the Prince Alfonso that he would never give his consent to the marriage unless the Princess Beatrice, in the event of her leaving the House of Bourbon, could legally take place without His Majesty's approval. According to tradition, the Princess Beatrice had received the consent of his father and mother, and it was equally necessary that the Vatican should be consulted in addition to the King's consent.

The Prince is in a very difficult position, as his marriage without the King's consent has entailed the breaking of some very stringent laws, which the King of Spain is the head, and which he is bound to enforce. It is impossible for the Vatican to approve of the union of a prince of a reigning Catholic family with a princess belonging to a Protestant House.

In reply to this Prince Alfonso declared his unalterable intention to proceed with the marriage, despite the opposition of his family, the law, and the Church.

COBB CHARGED WITH INTENT TO MURDER

CLEVELAND, Ohio, Sept. 7.—A warrant charging T. Cobb, right fielder of the Detroit American League baseball team, with assault with intent to kill was sworn out today by J. J. Klein, attorney for George Stanfield, night watchman at the Euclid Hotel, who, it is said, was assaulted by the ball player in the hotel Saturday.

Stanfield signed the affidavit in his room at the hotel, as it was said he is too weak to leave his bed.

A detective employed by a private agency will go to Detroit, where Cobb is now playing, to serve the warrant.

FIRE REVOLVER TO FRIGHTEN THE CROWD

St. James street was the scene of a disgraceful act last evening when a crowd of unruly boys viciously attacked a policeman, Officer Thos. McFarland was called to that street between nine and ten o'clock. There he found a bonfire burning, and a crowd of lower covers engaging themselves in vandalism about the street.

The police officer proceeded to extinguish the bonfire, and as he did so the boys attacked him. They threw stones and bricks at him, and one large stone struck his helmet, diverted it, and injured him quite badly. They continued their malicious attack on him until he was forced to draw his revolver from his pocket and discharge it.

The boys then soon scattered and Officer McFarland was unable to effect any arrests. The bullets fortunately did not strike any of them. The conduct of the boys was of such serious nature that an investigation will likely be made and arrests may follow. It is indeed seldom that a police officer is forced to discharge his revolver, and especially when boys are the cause of the trouble.

MISSIONS BETTER NOW THAN EVER

The annual meeting of the Baptist Home Mission Board was held yesterday, Rev. F. E. Bishop presiding over the meeting. The business, although plentiful, was largely of a routine nature. Rev. F. E. Bishop was re-elected chairman of the board, and Judge Emerson of Montreal, treasurer. Rev. W. E. McIntyre was elected to the office of recording secretary. Rev. F. E. Bishop (chairman), Rev. Dr. W. E. McIntyre (secretary), Rev. David Hutchison, Rev. A. B. Cohen, Rev. B. H. Koble, Rev. W. Camp, Thos. Robinson and James Patterson. The executive committee of the city members of the board only, the object being to facilitate matters in convening the committee. The usual quarterly grants to the missionaries were passed by the board, after which the general reports were received. They showed that everything in the field was very satisfactory, and the outlook was bright. During the past year the total has been better covered than in any previous year. Twelve missionaries have come out from the old country and taken up work under the board within the past year. Much other routine business was dealt with, after which the meeting adjourned.

REBUILT THE QUEBEC BRIDGE

MONTREAL, Sept. 7.—The committee selected to solve the Quebec bridge plans met here today. Associated with the members were Paul Wolf of Philadelphia and P. Johnston of Montreal, in the capacity of consulting engineers. It was practically decided to call for tenders for both cantilever and suspension types of bridge, and the final choice would then be determined by the relative cost and the time required for building. Several important changes were decided upon. The new bridge will be 250 feet above high tide for 600 feet in the centre of the river; it will also be 74 feet wider than the old bridge, which was only 81 feet wide. The centre span will be reduced from 1,500 feet to 1,315 feet by building new piers 100 feet farther from the north shore than the present pier. On the south side the present pier will be widened and strengthened so as to bear the greater weight. Nickel steel will be used in eye bars and for compression members and in brief the new structure will be made as safe and strong as human ingenuity and skill can make it. It is expected that a start will be made very shortly as today's meeting has removed many of the causes of the delay.

KILLS WIFE OF GUEST, AS BURGLAR

Carolina Planter Fires With Shotgun in Darkness

Receiving No Answer to Challenge Physician, It is Said, Advised His Host to Fire—Husband Sees Tragedy.

CHARLESTON, S. C., Sept. 7.—Mrs. C. C. Bigham, wife of Dr. C. C. Bigham, was shot and killed last night by William A. Avant, a prominent planter, who mistook her for a burglar. Mrs. Bigham had accompanied her husband home, Sunnydale plantation, on Murrell's Inlet, near here. Mr. Avant was sitting on the front porch of Avant's home at about 10 o'clock. There he saw in the darkness a figure pass the house and go toward a nearby creek. Not being answered when they halted they saw a shotgun and followed. They saw the figure apparently crouch near the creek bank and hearing no reply when they called, Avant asked Dr. Bigham what he should do. "Shoot it," said Dr. Bigham, it is alleged, and Mr. Avant fired both barrels at close range. Running back to the house, they obtained light, and returning to the creek bank, to find Mrs. Bigham stretched there dead. The contents of both barrels having struck her in the back. Even the gun wads had penetrated her flesh.

Avant carried the news to Georgetown and accompanied the deputy sheriff and coroner back to Murrell's Inlet.

PULLED DOWN OLD GLORY; RELEASED BY COURT

Toronto Highlanders Would Not Have Their Bare Legs Beilitted by American

TORONTO, Ont., Sept. 7.—Last Thursday night William Carson and James Mahoney, two Highland laddies, were wading their way down the coast street. After some words the American flag which was hanging from the Alexandra Royal argument between the Highlanders and the American flag was pulled down and cast into the water. The Highlanders were arrested and fined for the offence. The case was dismissed today.

CANADIAN NORTHERN SHOPS FOR TORONTO

FREE TO MEN

Until Robust Health, Strength and Vigor is Regained.

Perfect Manhood. The man of courage, of strong heart, from whom good health, self-confidence and undaunted energy. The embodiment of success, popular in every walk of life, respected and esteemed by all. Such is the manly man.

For forty years I have been making strong, vigorous men out of the puniest weaklings. A man comes to me weak, nervous, despondent and discouraged; with Drains, Looses, Impotency, Varicocele, Rheumatism, Lame Back, Kidney or Stomach Troubles. I give him my world-famous Dr. Sanden Electric Belt, with suspensory, absolutely free, to use for two months. Mind you, not one penny in advance, or on deposit. A few nights' use convinces him that he has found the right remedy. It fills him with new life, joy, vigor and strength, and at the end of the time he is only too glad to pay me for the Belt and to recommend it to his friends.

This is the way I cure men. This is the way thousands every year regain their lost strength, without the slightest risk to themselves, for if I fail it costs you nothing whatever. You pay me only when cured, or if you want to pay cash, full wholesale discount.

My great success has brought forth many imitations of my Belt, but my great knowledge, gained by forty years' experience, enabling me to guide and advise my patients, is mine alone and is given freely with the Belt. Be sure you get the genuine.

Call and take a Belt along. Or send for one and my two books on electricity and its medical use, which I send free, sealed, by mail.

NAVAL POLICY WILL FIND FAVOR WITH CANADIANS

HALIFAX, N. S., Sept. 7.—The first of the great Liberal political picnics to be held throughout Nova Scotia took place at Yarmouth today. An Liberal demonstration held in this stronghold of Liberalism should be successful, but probably even Yarmouth people themselves were surprised at the question of their own defense, associated with the defense of the Empire. The question is in what manner shall it be done? One division of the Empire has offered a Dreadnought, but this has not seemed to us the best thing to do. In our naval affairs we want to keep control as we have done in our military affairs, and if we are to provide naval service Canada must control it. If we are going to build warships (in a moderate scale, we must do so) we want them, of course, directed and controlled by experienced men, and we must aim to have a Canadian fleet so organized that in the moment of emergency we can convert it into an Imperial fleet.

At present he could not say much more as to the deliberations of the conference on this subject but he was satisfied that when the result was disclosed it would be found to be consistent with the Canadian spirit mingled with the Imperial.

BIG MONEY LURE

IN "MOONSHINING"

Turning \$16 Worth of Raw Material into \$120

Worth of Liquor

Makes Many Take the Risk—Internal Revenue Officer Declares Illicit Distilling Has Increased in "Dry" States.

BALTIMORE, Me., Sept. 7.—The possibility of converting \$16 worth of raw material into \$120 worth of liquor is making a powerful appeal to the moonshiners in the South, and a great revival is being witnessed in their once almost extinct industry.

To quote Knox Booth, one of the most widely known internal revenue officers in the Southern States, the illicit manufacture of liquors in Alabama has increased fully fifty per cent since the prohibition law went into effect, and a like condition is said to exist in Georgia, Tennessee and other states where the legitimate sale of intoxicants is prohibited by law.

Under the old condition with saloons running on all sides and many groceries in the rural sections handling liquors, there was comparatively little profit in the manufacture of "moonshine" whiskey.

At that time the stuff was sold as low as \$1 and \$1.50 per gallon. This price was not sufficient to encourage the industry in the face of vigorous work on the part of Uncle Sam's revenue agents, and the moonshiners became few and far between.

Now, however, the rewards of successfully evading the law are much greater and the old timers are taking bigger risks than they did under former conditions.

BIG PROFIT IN SIGHT.

Mr. Booth quotes one man as saying that six bushels of malt and two hundred pounds of sugar gives him thirty gallons of whiskey, which he can readily sell at \$4 a gallon. A small still can turn out thirty gallons per day, affording the enterprising shiner a profit of \$100 for the day's work—and a day's moonshining is more tempting than at any time since the war, and the looks are much better for the industry.

Internal revenue agents will have to do the work of almost a generation ago again.

In the old days, when the moonshiner flourished over the South, it was a desperate conflict that was waged between the revenue agents and the moonshiners, and many an unmarked grave bears witness to the terrors of the struggle. But the revenue agents backed by a powerful government, finally won.

In these days, when the mist and mystery of the mountains filled the mind with terror, the moonshiners fought for a principle as well as for the profit found in the perilous business. He cherished the conviction that when he raised grain and fruits upon his little farm he had an inherent right to convert them into any product he saw fit, and he looked upon the revenue officer as one who sought not only to rob him of a livelihood but to take from him a right, a liberty, that was as dear to him as his life.

It was this spirit that made every path leading to an illicit still one fraught with deadly peril to the stranger; it was this spirit that led to many a deadly battle in the mountains of Kentucky, Tennessee, Alabama and Georgia, as well as in other States where the moonshiner made his home.

The moonshiner gradually learned that there was "somewhere in the distance" a government that had to be supported and that the tax upon whiskey had behind it something more than a desire to intrude upon the liberties of mankind. He also learned that this government maintained an alarming number of penitentiaries and had an inexhaustible supply of men upon whom he could turn a handsome profit.

As a rule, he does not go armed to kill, as did his forefathers, and he relies upon his heels rather than upon the accuracy of his fire when the revenue men put in their appearance. The profit of the revenue agent is nothing like it was a generation ago, and it is

LOOKING FOR A

"QUEBEC" GOBALT

Premier Announces Progressive Policy

Experts Will Investigate Region Rich in Silver, Gold and Asbestos—Will Build a Railway.

MONTREAL, Sept. 7.—Wanted a Quebec Gobalt. Such was the gist of Sir Lomer Gouin's speech at St. John's, P. Q., last evening. To secure the Gobalt, the government will build a railway to the Clubsgom district, where prospectors have been going for years, and where it is claimed that the deposits of silver, gold and asbestos are extremely rich. If the experts bear out the claims of the prospectors the government will build a railway into the camp. The nearest road now is a hundred miles away, and the hills are so bad that although out and many of the companies have failed. Over three hundred claims have been staked during the past few years in anticipation of a railway. The G. T. P. will run about 70 miles from Lake Doré, the centre of the district.

Another announcement of the premier was that the government would build huge reservoirs on the St. Maurice River so that the spring freshet water could be collected and the prospects of the trade, yet we cannot but be struck with the anomaly of proposing advancing when stocks are increasing and exports decreasing. The trade, indeed, is in a very interesting position just now, but we regard it hopefully for the indications are all in the line of improvement, though the improvement may not be so quick nor so great as the sanguine anticipate.

The gold output of the Transvaal, August, as estimated by Kaffer houses, was 600,000 ounces in London the above estimate proves correct. August's Rand gold output was at almost exactly the same rate as in July, when 620,784 ounces of gold were turned out. Comparison of value is as follows:

Aug., 1909.....	\$13,160,000
July, 1909.....	13,185,000
June, 1909.....	13,078,000

Aug., 1905.....	13,108,000
Aug., 1904.....	6,632,000

There was hardly a change in cost of living during August in Great Britain, the Economist's index number of commodity prices being 2.55 for September 1, as against 2.54 a month ago. An advance in prices for cotton, copper and sugar occurred, but they were balanced by a fall in prices of the principal food stuffs. The net advance, though of a single point, brought the index number to the highest figure since April 1 last year.

Comparison of the September 1 number makes the following showing:

Sept. 1, 1909.....	2.55
Aug. 1, 1909.....	2.54
July 1, 1909.....	2.50
June 1, 1909.....	2.235
May 1, 1909.....	2.197
Sept. 1, 1908.....	2.341
Sept. 1, 1907.....	2.519
Sept. 1, 1906.....	2.341
Sept. 1, 1905.....	2.141

It is indeed that one is either killed or wounded.

Speaking of the revival of moonshining at this time, Revenue Agent Booth said:

"As a rule, the moonshiners pick out the most inaccessible places to be found, and they are always on the lookout for the approach of the revenue men. The appearance of an officer is the signal for flight, and the men frequently get away for the time being. We rarely shoot, because we know that we will get them later, and are willing to take our time rather than shed blood."

WHOLESALE TRADE

IS IMPROVING

Outlook for Future Business Good Owing to Excellent Crop Reports.

Montreal reports to Bradstreet say that the wholesale trade has experienced an active business during the past week, the shipping departments of our large houses being pushed in order to satisfy the demands of their customers.

Dry goods houses state that they have received more orders, mainly for Boston week for Fall and Winter goods, than for several weeks past. Hardware and grocery houses are talking in almost the same strain. Considerable orders are coming in from the Northwest, where the crops are now virtually assured.

The wholesale millinery houses had their Fall opening this week, which brought in a large number of buyers from the interior, and some extensive purchases were made. Paper falling due this week is expected to be fairly well met as comparatively few reprints have been asked for. City retail trade is improving. City collections are only fair.

STRADE IN BOSTON, STANLEY

CARR RETURNS HOME AND IS PLACED UNDER ARREST

Stanley D. Carr, the ex-Waterloo Street grocer, who left the city about a week ago, having obtained from several prominent citizens large amounts of money, has placed the \$1000, fell into the hands of the police early last evening, he having been seen to return from Boston, where he was penniless and could not obtain employment there.

Carr, who is only nineteen years of age, opened up a grocery, fruit and candy store at Waterloo street about the first of July. He did not meet with very great success and began to purchase goods on extended credit. At various times he also borrowed sums of money from several citizens saying that he had pretty heavy accounts to pay and would like to have a loan for a few days. He was willingly given the money for a few days, but it was never returned.

Things grew steadily worse and worse, and about a week ago, his financial condition was such that he finally left his store, and went out of the city, going to Boston. He arrived there about the 1st inst., and secured money soon became aware of Carr's departure from the city, and the next day he was placed under arrest. Fred Scott, his landlord, seized the stock, left in the store for several days, the amount being sixty dollars. Alvah B. Chapman, manager of the Equitable Life Insurance Company, from whom fifty dollars was obtained by Carr, laid the information against the young man, and served out a warrant for his apprehension.

Chief Clark learned that Carr was in Boston and immediately sent a dispatch to the police authorities there, asking them to detain him if located. Yesterday afternoon the chief sent further particulars of the case, but

In the meantime the man had been nabbed. Deputy Chief Jenkins, and Detective Killen had scoured the city high and low yesterday, to ascertain if Carr had returned, but they failed to locate him at any of the hotels or boarding houses. But when coming through the King Square, they saw their man and forthwith they placed him under arrest, taking him to Central Police Station, where he was locked up in a cell.

Carr had but thirty-seven cents and some papers in his possession when arrested. He had just returned from Boston yesterday afternoon. He said he returned because he was dead broke and couldn't get a job.

For a short time after Carr set up in business he was apparently prospering, and seemed to have many friends, but after a time failure became his lot.

The money he obtained was about \$1200, the sum of the victims being touched to the extent of \$200.

There are about twelve or thirteen persons from whom the prisoner obtained money and they now mourn their loss.

Carr was born at St. Martin's, came to St. John and a few years ago went to Salisbury, but returned recently to St. John.

The prisoner will be arraigned before Magistrate Ritchie this morning, after his preliminary examination will be begun.

The prisoner was represented in the police court this morning by E. S. Ritchie. He was told that he need not plead at the present time and was remanded to jail.

Before being taken into jail he was seen by a photographer and a picture taken.

BROUGHT BACK AFTER HIS THIRD ESCAPE

Angus Degay, of Campbellton, Again an Inmate of the Reformatory.

Angus Degay, the French lad from Campbellton who holds the escape record at the Industrial Home for boys, Crouchville, was brought sadly back again yesterday by Superintendent McDonald. This is the third time in which Degay has figured in such an escape.

Degay made his getaway about a month ago, and has managed to travel some since then. He first struck out for his home, but the people seeing him to visit his married sister in the province of Quebec. Some looked too good to Angus, however, and he drifted back again. Chief Crawford had been watching for him, and had been unwilling to go to the expense of bringing him from Quebec. When he showed up in Campbellton he was again arrested, and word was sent to his proper place of abiding.

Superintendent McDonald went to Campbellton on Monday evening and returned with the boy by last evening's P. du Chene express.

HARRY GREEN ENTERS THE REFORMATORY

Formerly an Inmate of Orphan Asylum—Large Portion of Sunbury Hay Crop Lost.

Harry Green, a former Protestant Orphan Asylum boy, was brought to the city by Sheriff Holden of Sunbury county yesterday to commence a two years' term in the reformatory.

Green was given this sentence by County Court Judge Wilson of August 28th for the theft of a pair of trousers, a coat and hat from Stephen Hoey of Ellerslie. He was tried under the Speedy Trials Act.

Young Green, while only fourteen years of age, was taken from the orphanage by Herbert H. Smith of Ellerslie, but ran away from the Smith home three years ago, and has spent the intervening period in Houston and Bangor. He returned a short time ago, and had not been long back before he entered the home of Mr. Hoey, an aged man who lives alone, and fitted himself out with clothing. He has spent the time since receiving his sentence in the jail at Burton.

Sheriff Holden told a Star reporter last evening that a large portion of the Sunbury county hay crop has been lost on account of the wet weather. The crop in the low lands has been covered with water and has not been cut at all, while much of that on the uplands had to be left standing because the ground was so soft from the wet that its removal would not permit of cutting it.

SAYS C. P. R. BRAKEMEN ARE PERFECTLY GOOD

Supt. Downie Denies That Any of Them are Implicated in Alleged Baggage Robberies.

An article in a morning paper implicated C. P. R. brakemen in the recent robberies on the Boston trains. The brakemen are all competent and reliable men and well worthy of the confidence which the company places in taking active steps to find the real thief.

In examining the baggage of the passengers the customs officer is assisted to facilitate matters, by two special porters. To one of these men the finger of suspicion points.

Detective Killen has recovered two rings which have been stolen and is still engaged investigating the matter. The rings were secured by the detective from a chamber maid in a boarding house who "is on intimate terms with the suspected thief."

The Star interviewed William Downie regarding the robberies this morning. The C. P. R. superintendent stated that there were no further developments.

"I wish you would correct the statement," said Mr. Downie, "that our brakemen are implicated in the robberies. The brakemen are most respectable, and are above all suspicion. They are thoroughly competent men and the company would like to distinctly understand they have no connection whatever with stealing from the trunks."

NEW DIVISIONAL POINT READY BY NOV. 1ST

Work on C. P. R. Buildings at Aroostook Junction is Proceeding Rapidly

There is great activity at Aroostook Junction and the new C. P. R. buildings are rapidly being erected. The undertaking is a large one, as the place will be made the divisional point of the Canadian Pacific Railway. General Superintendent Downie stated this morning that November first would see the completion of the buildings and other improvements.

McDONALD HAS A VERY BAD MEMORY

His Story of Banco Trick on Calvin Austin Was Without Foundation.

Leonard W. McDonald of Georgetown, P. E. I., who in the police court yesterday stated he had been robbed of \$16 while on board the Calvin Austin, displayed rather a poor memory.

To Magistrate Ritchie, McDonald claimed that shortly after retiring an official came and ordered him to hand over his valuables, and he gave him \$16 to be cared for by the purser, and that yesterday morning when he applied for his money they denied all knowledge of his whereabouts.

A Star reporter in conversation with the purser last night received an entirely different story and one which removes all shadow of blame from the steamship officers.

About six o'clock Monday morning McDonald handed the purser's clerk an envelope containing \$5 with "L. W. McDonald" written on it in two places, asking that it be put in the safe over night. McDonald was very drunk at the time. On Tuesday morning he encountered the chief steward and while in the same condition. The steward being busy and seeing his condition, paid no attention to his talk, and McDonald upon landing went to the police court with his grievance as stated above.

At present the money is being held in the company's office and awaits Mr. McDonald there.

WOODLAND-CAMPBELL

At the residence of James McO. Campbell, Windsor street, West End, this evening a pretty wedding will take place, when his daughter, Miss Mary, will be united in marriage to John Woodland, Jr. Rev. Mr. Bell will perform the ceremony at eight o'clock in the presence of friends of the contracting parties.

Many presents mark the popularity of the couple, who will reside on Charlotte street, West.

J. J. RITCHIE WILL DEFEND McDUGALL

But He Missed the Train Last Night and Case Was Postponed Until Tomorrow.

The case of the King vs. C. Bruce McDougall, which was to have commenced in the Circuit Court before His Honor Mr. Justice White, was postponed until tomorrow morning at ten o'clock on the motion of A. J. H. Mellish, counsel for McDougall. After the court resumed this morning the Attorney General moved that the accused be arraigned. Shortly after this he was brought into court and the indictment read to him. Here Mr. Mellish arose and said that before his client made a plea he would move for a postponement on the ground that as an additional count had been incorporated in the indictment—charging the defendant with libelling Police Magistrate Kay of Moncton—the defence needed time to look into it. Mr. Mellish also said that the defence had retained Mr. J. J. Ritchie, K. C., of Halifax, and instructed the sheriff to summon an additional panel of twenty jurors.

McDougall looks somewhat pale but has lost no flesh on account of his incarceration.

As yet the defence have made no plea of justification.

CORNFIELD-GATES.

A pretty wedding took place this afternoon at the residence of Albert McGuire of Mirford, when his niece, Jessie L. Gates, was united in marriage to Henry Evelyn, son of William J. Cornfield of West St. John. Rev. Leonard McCall of Fairville, performed the ceremony after which the happy couple left on the C. P. R. for a three weeks' trip through Upper Canadian and American cities.

Many handsome presents testify to the popularity of the couple, who will reside in Carleton upon their return.

WASHINGTON, Sept. 8.

The first bulletin of the Director of the Census showing the operations of the cotton ginners for 1909, was issued today. It covers the period up to Sept. 1, and shows that for that time 37,559 running bales have been ginned as against 40,229 for same period last year.
