CARNEGIE'S NIECE WEDS HER MOTHER'S COACHMAN

Marriage Took Place Secretly a Year Ago, and Announcement Only Made Wednesday—Dispenser of Libraries Says He's Well Pleased With the Match, and is Glad He Isn't "A Good-for-Nothing Duke"—Heiress' Choice Was a Widower from Ireland With Two Children, and Now There Are Three—Stock Market Makes Strong Rally.

(From Our Own Correspondent.)
New York, April 19.—That Andrew Carnegie's favorite niece, Nancy, has been married for a year, to her mother's coachman, became known today for the first time. The beautiful bride, who is said to have had a hard time in disposing of the money, took her carriage in both hands today and announced bravely to the world that she was wed.

Andrew Carnegie's daughter, Nancy, is said to have been married to a man who is now Mrs. James Hever, a really pretty woman of twenty-four. All the money that anybody could use has been at her disposal since she was born. While going into society, she has been chiefly noted for her pronounced fondness for outdoor life, and has been famous as a horse-woman, especially devoted to cross-country riding.

Married Secretly a Year Ago.

The new member of the Carnegie family was born about thirty years ago in Ireland, where he was brought up as a foster child in a good family near Dublin. He has had previous matrimonial experience and Nancy Carnegie became the step-mother of two little Hevers when she made her surreptitious marriage vows a year ago. There is another little Hever now, a tiny baby girl, who is the costliest of the little ones.

Marriage Suits Carnegie.

"My niece and Mr. Hever," he said, "were married in New York city a year ago. It is true that the wedding was a quiet affair. I myself, you see, was abroad at the time, and none of my niece's immediate family was in town. But there wasn't the slightest parental objection to the union. Mr. and Mrs. Hever are at home at the time, and none of my niece's immediate family was in town. But there wasn't the slightest parental objection to the union."

Was Bridemaid at Dual Wedding.

Mr. Carnegie's reference to "a worthless duke" has some additional point because of the fact that the bride was herself a bridesmaid at the wedding.

Stock Market Recovers Rapidly.

After the mauling that it had received on Monday and Tuesday the stock market displayed remarkable rallying power in the first hour which affected railroad stocks chiefly, and for the rest of the session continued, although rather feverish, progress in recovering strength. The close was fairly active with prices at about the level of the day.

Plenty of Rumors.

Rumors and gossip were almost wholly concerned with the progress of settling the affairs of the Northern Securities Company and with the readjustment of securities and railway relations growing out of this important matter. There was a flood of alleged news bearing on this and a great deal of highly imaginative opinion, but a story told in the afternoon to the effect that arrangements for the establishment of permanent harmony in the Northwest railway world were moving smoothly, received considerable credence, although it must be admitted that the disposition of the speculative community to extend belief to it found its principal inspiration in the tape.

AMHERST MAN HAS HAND BLOWN OFF

George Dewire's Gun Accidentally Exploded While Hunting Wednesday.

GERMAN STEAMER LIKELY FOUNDERED

London, April 19.—(Special)—The German steamer Mars, Captain Niemann, which sailed from Penzance (Eng.) February 1, bound for Germany, was today posted at Lloyds as "missing."

FARMER BURNED TO DEATH

Ottawa, April 19.—(Special)—James McBride, a farmer, who had been living alone in a frame house about a mile and a half south of Bell's Corners, was burned to death in his home which was destroyed by fire during last night.

CHARTERS FOR ST. JOHN CONCERNS CALL ON JAMES H. HYDE TO RESIGN

Two Hundred General Agents of Equitable Life Pass Such a Resolution

ALEXANDER ENDORSED

Young Vice-President, When Told of the Meeting's Action, Called it Insulting and Preposterous—Grateful Speeches from the President and Tarbell.

New York, April 19.—After a protracted session behind closed doors, the 200 more general agents of the Equitable Life Assurance Society today adopted a resolution calling upon Vice-President J. H. Hyde to resign from his position in the organization and appointing a committee of five from their number to call on Mr. Hyde and present the demands.

SOME APPOINTMENTS

Frederick, April 19.—(Special)—This week's Royal Gazette contains the following appointments:—
Alexander Perley Barnhill, barrister-at-law, to be one of his majesty's counsellors, learned in the law.
J. J. Stewart Campbell, barrister-at-law, to be referee in equity.
C. Albert Esty, to be a member of the board of liquor license commissioners, in place of C. Albert Esty, whose term of office expires on the 31st inst.

Hyde Calls it an Insult.

Mr. Hyde said: "I have not seen the committee and I have not seen the resolutions, but I consider them insulting, and in support of Mr. Alexander. The number voting for the resolution is said to be 193."
The committee was named to bring President Tarbell before the convention to thank them for the hospitality received at their meeting, and the latter part of the day's meeting was, from all indications more peaceful than earlier in the day. It was said that in the earlier session the agents of the Equitable Life Assurance Society, in support of Mr. Hyde, had adopted a resolution that they would rather see Mr. Hyde resign than see the Equitable Life Assurance Society in the hands of the agents of the Equitable Life Assurance Society.

To Offset Newfoundland's Action

St. John's, Nfld., April 19.—(Special)—The French fishermen are trying to arrange a truce with the American fishermen in an effort to defeat the Newfoundland bill act now in force against both the French and American fishermen. The St. Pierre fishermen are planning to erect bait freezers to induce the Americans to make that place their headquarters, and to induce inhabitants of Newfoundland to smuggle quantities of bait to them.

Sir Louis Jette Very Ill.

Ottawa, April 19.—(Special)—The clerk of the privy council left tonight for Quebec to swear in Justice Routhier as lieutenant-governor in place of Sir Louis Jette, who is very ill.

USING FRENCH PORTS AS BASE

Admiral Rojestvensky's Cruisers Patrolling Waters Off Saigon

Chicago, April 19.—A special to the Daily News from Tokyo says: "At a conference of the Elder Statesmen and the principal cabinet ministers today, a strongly worded protest was sent to France regarding its frequent violations of neutrality in providing shelter for and rendering assistance to Russia's Baltic fleet at Madagascar and now at Kammah Bay. No answer has as yet been received from the French authorities."

Declares That France is Not Neutral and Intimates That Her Fleet May Attack Vessels in Hiding—Oyama Troops Trying to Cut Off Vladivostok from Harbin.

Chicago, April 19.—A special to the Daily News from Tokyo says: "At a conference of the Elder Statesmen and the principal cabinet ministers today, a strongly worded protest was sent to France regarding its frequent violations of neutrality in providing shelter for and rendering assistance to Russia's Baltic fleet at Madagascar and now at Kammah Bay. No answer has as yet been received from the French authorities."

JAPAN UTTERS PROTEST

London, April 19.—The British public is only beginning to realize how much depends upon the naval contest. Until Vice Admiral Rojestvensky's actual arrival in the Straits no Russian vessel was in a position to interfere with the efforts of the Russian squadron; but now that there is seen to be a growing likelihood of Vice Admiral Rojestvensky's departure before the latest struggle opens, it is an anxiety deepening.

Resident Engineer Named.

The board appointed H. G. Hunter, C. E., of the staff of Snow & Harbour, Boston, as resident engineer in charge of the works. He will reside on the scene of operations and the contractors will be paid on his certificate at the beginning of each month as the work progresses. The scale of payment is as follows: Eighty-five per cent of what is due each month, ten per cent of the total estimate at the end of five per cent six months after completion of the contracts.

LOCAL MEN DIVIDE THE WATER EXTENSION WORK

Water Board Recommends Nos. 1 and 2 Sections to McArthur & McVeey; Nos. 3 and 4 to B. Mooney & Sons—Reside Engineer Appointed—Contracts to Be Signed in Ten Days

B. Mooney & Sons and McArthur & McVeey have been awarded the contracts for the extension of the city water system to Loch Lomond. The water and sewerage board met Wednesday afternoon in council and by resolution recommended the council to award each of the four sections of the work to the lowest bidder in each—McArthur & McVeey for Nos. 1 and 2 sections for a total of \$80,640; B. Mooney & Sons for Nos. 3 and 4 sections for a total of \$104,024, making a grand total of \$184,664 for the whole work contracted for. This is some \$8,000 less than Engineer Barbour's estimate for the four sections and is some \$10,000 or more less than the lowest American firm, the Boylston Construction Co., tendered on the whole work.

To Sign Within 10 Days.

It may be mentioned that the contractors are required to sign the contracts within ten days of notification that the tenders have been accepted and to provide the necessary bonds. The understanding then is that the work is to begin as soon as weather conditions permit and it has always been the engineer's idea that work should be started by May 1st and completed by December 1st. It is figured that there will be employment some 600 men. A bond for \$15,000 is required in each of the sections. Nos. 1 and 2 are valued at \$100,000 in section 4.

LONDON, ONT., WOMAN BRUTALLY MURDERED

Tramp is Supposed to Be the Slayer—Demanded Money of His Victim and Then Beat Her to Death With a Club.

London, Ont., April 19.—(Special)—Miss Eliza Lowery was brutally murdered at an early hour this morning at the home of Benjamin Coville, a railway section employee, one mile north of Rodney, forty miles west of this city.

ATTEMPTS TO CUT OFF VLADIVOSTOK

Harbin, April 19.—There was a determined attempt on the night of April 17 to cut the railroad between Harbin and Vladivostok, a formidable body of Chinese bandits making an attack near the station of Inyapong, 100 miles east of Harbin. After a desperate fight, which lasted several hours, the bandits were driven off and dispersed.

NORTH SYDNEY GRANTS BONUS AND EXEMPTION TO PROPOSED COMPANY

North Sydney, N. S. W., April 19.—(Special)—At a meeting of the town council this afternoon it was decided to recommend the ratepayers the granting of a bonus of ten per cent on the cost of the proposed railway and a bonus of five per cent on the cost of the water supply works.

Negroes Lynch a Negro.

Memphis, Tenn., April 19.—A News Sentinel special from Marians (Ark.) says:—
"Enraged at the action of John Barnett, a negro, in shooting and killing Albert Walsfield, another negro, last Sunday because the latter circled the report that Barnett was a dangerous man, twenty other negroes were employed in a levee camp near Askew, have taken Barnett out and hanged him."

Jefferson Has Rallied.

West Palm Beach, Fla., April 19.—At 8 o'clock tonight Joseph Jefferson is said to be improving. Hopes of recovery are tentatively held, though he is still weak and his condition is critical.

THE SEMI-WEEKLY TELEGRAPH, ST. JOHN, N. B., SATURDAY, APRIL 22, 1905.

FROM ALL OVER NEW BRUNSWICK

FREDERICTON.

Fredricton, N. B., April 18.—(Special)—J. R. Price, general superintendent of I. C. R.; Thomas Williams, chief accountant and treasurer, and J. B. Lambkin, assistant general passenger agent, are at the Queen this evening. They will make a trip over the Fredericton-Loggieville section of the road tomorrow. Bishop Kingdon returned from a trip to St. John this morning. Post Office Inspector Colter is in the city. The University basketball team won the Fowler cup last evening at the Y. M. C. A. gymnasium by defeating the Trojans in a closely contested game; final score, 15 to 14. Major McNally, in response to a telegram from A. B. Cope, M. P. T., in retirement to William Adams, found dead at Sackville yesterday, placed the matter in the hands of Police Officer Rideout, who made inquiries about town as to who Adams was. The police records show that on November 23rd last a man giving his name as Wm. Adams and his home as Woodstock was seized with an epileptic fit at the Empire House, Queen street west, and that the proprietor of the house had placed Adams in charge of the police. Adams spent the night in the protection cell at the police station and left town next day, it is thought. It is said that Adams then found work at a place down river, and the next time he was seen here was a month ago. He then went to Arthur J. Ryan's drug store and got a prescription put up for him by the clerk, James Bradley. Some ten days ago he returned once more to Mr. Ryan's with an order from Mrs. F. C. Thompson, of the King's Daughters, to have the bottle refilled. Mr. Ryan made up the prescription. The prescription is a remedy for epileptic fits or for the nerves. It contains bromides, and in the forty-eight doses in the bottle there were sixty drops of arsenic, or more than enough to kill a man if all taken at once. When Adams got the bottle the second time it was the last seen of him here. Mayor McNally has learned that Adams was born and brought up at Woodstock, and has therefore about established the identity of the dead man. Mrs. Frank Gilbert's home at St. Mary's was the scene of a slight fire this morning. The blaze started from a spark from the chimney and burned a small hole in the roof. The water committee, at a meeting held yesterday afternoon, decided to recommend to the council the appointment of George Ebdy to the position of assistant to the water superintendent. Mr. Ebdy will be appointed at the May meeting of the city council for six months at the rate of \$300 per year. The announcement that a private hospital is to be established on Brunswick street is calling forth a strong protest from property owners and residents of that locality. They have petitioned the board of health,

asking in part that an order be made to prevent the creation of "a nuisance and continued menace to the health of a portion of the inhabitants of the city." Mrs. L. W. Sherman, Miss Stella Sherman, L. S. Sherman, Mrs. E. Byron Winslow and Miss E. Carrie Winslow were passengers to New York by this evening's train. Guy C. Dunn, chief engineer of the Grand Trunk Pacific office, has gone to Ottawa to remove his wife and family to this city. A canoeing party reached here today from Bangor (Me.). They came all the way in canoe. The distance was eighty miles, and the time fifteen hours. Fredericton, N. B., April 18.—Rev. J. J. Colter is reported as being seriously ill at his home on Saunders street, from pneumonia, and his condition is causing his friends much anxiety.

ROTHESAY

Rothsay, April 18.—The funeral of Howard Wetmore at Clifton was largely attended yesterday afternoon. The services were conducted by Rev. H. S. Wainwright, rector of Kingston parish, at All Saints church at Clifton and interment was in the cemetery adjoining. Mr. Wetmore's funeral was from the residence of his mother, Mrs. D. P. Wetmore, and many relatives and friends were among the mourners. Ormond and Stanley, brothers of the deceased, Donald Munro, of Woodstock, brother-in-law, and Adino Wetmore, Wright Flewelling and Calkin, of Springhill, were pall-bearers. The floral tributes were very handsome, among them being a present from Mr. and Mrs. Galt, Springhill; wreath from Donald Munro, Woodstock; anchor from J. W. Murray, manager Union Bank, Springhill; wreath from G. H. Allen, Montreal; a wreath from the Boys' Club, Springhill; wreath from John & Co., Halifax; and a handsome crescent from the employees of Robb & Co., and a similar offering from the officers of the Commercial Travelers' Association, of which Mr. Wetmore was a member. The death of Mrs. Thos. Parks at the advanced age of 81, while not unexpected, was yet a shock to those who had known and esteemed this lady for so many years. She had many near relatives in Rothsay and vicinity. Mrs. Daniel Pugsley, Mrs. H. Gilbert, Mrs. Hall and Mrs. William Pugsley are daughters of the deceased. The funeral will take place tomorrow from the residence of her son-in-law, Dr. Daniel Pugsley. Heavy winds for a day or two have kept huge cakes of ice moving between Kennebec Island and Ferry Point bridge and caused no little damage. The wharf, nearly completed recently by Contractor Appleby at Roberts' shore, has moved from its foundation and a portion of it at least was floating up river when last seen. This was not chanced as it was only partly belated. The location moreover is exposed to the full force of the southwest and north winds and only a wharf of extraordinary stability will be able to withstand the force of the ice driven by gales from these directions. Such predictions as these made by old residents when this location was spoken of first were unheeded and the fact that they have proven correct is likely to be a costly job for the contractor now and the government in the future. Geo. S. Pettinelli, mail driver between Rothsay and Clifton, received word from Ottawa today that his tender for the last four years' service was accepted. This was the tender to which some objection was made because of the increase over previous years last the department was in doubt as to whether the tender was an error and that because Mr. Pettinelli had done the work too cheaply if that was the reason why a proper sum should not be paid in the future and the contractor better en-

abled to attend to all the conditions of his agreement. Since Sunday the river has opened sufficiently at Clifton to enable the ferry to cross at times. The friends of the late Mr. Wetmore who drove from St. John to attend his funeral were able to cross direct from Flewelling's wharf to Clifton in the morning, but toward evening had to return via the ferry at Goudou Point. Some of the piers built at a large expense last year ago support landings for a Rothesay-Red Point steamship service, and allowed since to get into a tumble-down condition, have had the finishing touch administered to them by the ice shores this year and his brother is in charge of the river below the bridge, picking up the logs that go astray. The municipal council controls the ferry privilege at Goudou Point, the opportunity to show its authority is not lacking. The ferry regulations require some signal to be shown so that the ferryman can be called. As matters stand at present the council incurs Captain Pitt to ferry and the government gives David Waddell the subsidy. There are two views and no signal in the opinion of the other's signal and short lived gas poles have in consequence straggled the shore. This does not keep the belated farmer who arriving on the Goudou Point shore after dusk cannot signal for a row and of course, has to make the best arrangements he can with some resident near at hand. No one can doubt that the council has control of the signal. Why then should it not be exercised? Rothsay, April 19.—Senator Domville arrived home yesterday from Ottawa. Mrs. James Johnson, of Norton, is very ill at the residence of her nephew, Dr. W. B. McVey. She was en route to Boston when taken sick and from the nature of her illness, and her age, 80, but little hope is entertained of her recovery. Arthur, Mary, son of Arthur Marr, of Quispamsis, met with a serious accident in the city while leaving the service in Tabernacle church. His leg was badly injured and he was brought home for rest and treatment. A handsome launch arrived at the station yesterday on a flat car from Boston, the property of Dr. McVey, who purchased it from the United States government, whose use for it originally was to repair cables. The boat is 38 feet long and has a cabin 12 feet long, seven wide and six feet high. She is fitted with lavatories and has a cockpit six feet long. Dr. McVey is having all necessary repairs and alterations made here, and will equip his craft with an Etho alcohol engine of seven horse power which will propel the boat easily eight or more miles an hour. There will be seating capacity for 30 or 40 persons. The funeral of Mrs. Thomas Parks took place this afternoon from the residence of D. A. Pugsley, her son-in-law. The attendance was large, many friends coming

from the city and following the hearse in coaches to Fernhill. Service was held at the house and made more beautiful and impressive by the hymns sung by the choir of Rothesay Episcopal church. The floral offerings were beautiful and numerous, including among them tributes from Mr. and Mrs. R. W. Allen—Roses, carnations and stocks. Mrs. Donville—Cream roses. Mrs. George Gilbert and family—Lilies, roses, carnations and stocks. Mr. and Mrs. Harry Gilbert—Pink and white roses. Hon. William and Mrs. Pugsley—White carnations. Dr. and Mrs. D. A. Pugsley—Pink roses and white carnations. Mr. and Mrs. James M. Page and son—Wreath of ivy and red roses. Mr. and Mrs. Joseph Allison—Cros. Dr. and Mrs. McVey—Spray roses and carnations. Mrs. Henry Wilson, Mrs. James L. Dunn and family—Pink and white carnations. Mr. and Mrs. J. P. McIntyre—Bouquet of lilies, carnations and roses. Misses Hegn—Roses and carnations. Suburban commuters who are finding fault in advance with the summer train service on the Intercolonial will be interested in the statement of a railroad official who did not seem to think that the earth and the railroad upon it were made just for suburbanites. "If there isn't a train every hour there is a kick," he declared. "Last year there were eleven passenger trains into the city every day and as many out into the country. Now I'll wager that some of these suburban gentlemen (and ladies—one is as bad as the other) think they have a perfect right to go to town and out again as often as they please upon their "season," which only permits two passages daily. I know of people living at Rothsay and nearer the city who last summer made it a point to go out on the train every day to their dumper and tea, thus making six trips a day. Yes, and I have known them to go in at 6 a. m. out again on the Halifax for breakfast and in on the Sussex. If the conductors punched the season tickets daily suburban residents would not go back and forth so often." The last of the effects of Capt. and Mrs. Dakin, who moved to Ontario last fall, were disposed of by auction yesterday by J. Lee Flewelling. Andrew Kilpatrick, who has been visiting in the city most of the winter, has returned home. He bears his more than four-score years well and is healthier and more vigorous than many a younger man. J. Herbert Allen was in Clifton Saturday to pay a last tribute of respect to his deceased friend Mr. Wetmore. Mr. Allen is connected with the Standard Prospecting & Development Company, Montreal, and has among other things been chafing after and investigating traditions which seems to bear upon the location of Capt. Kidd's treasure. He had charts and maps of the Kennebec as one of the probable resorts of the famous pirate captain and upon one of the bold rocks upon its shores there was an arrow cut deep into the stone. To learn the location of this rock he saw Capt. Pitt, who says he knows all about it. Mr. Allen must have been impressed with his chances of at last locating the treasure for he promised to return in a fortnight to pursue the search. The gentleman who had the petition in hand asking a substantial subsidy from the

provincial government for a steam ferry between Clifton, Reed's Point and some central place on this side of the river, near J. Lee Flewelling's, have received their answer from the county member of the executive, who turns down the petition of 250 voters with the explanation that Kings county has drawn more than its share from the provincial exchequer for public services. At present the Maggie Miller draws a handsome subsidy and \$150 is allotted to the two scow ferries sought to be replaced by the much needed and demanded steam service. The importance of the country to be served and the traffic should have ensured the petition greater consideration. Years ago another government met the wishes of the people more generously and \$1,400 was granted as a bonus toward the building of the ferry steamer John C. Vall, which plied for ten years upon Kennebec waters between Goudou and Reed's Points. There was practically no summer tourists then and much of the business that now demands attention and accommodation was lacking. Summer hotels have been built with the hope that ferry conditions would be bettered and more would be in operation if the service asked for by the people was given assistance. The present efforts to get a steam ferry recalls those of the past when such men as "Boss" Wetmore and James Waddell tried to help transportation across the Kennebec. The former built a ferry steamer at considerable cost only to see it break in two one day in the middle of the river and sink. Then Mr. Waddell tried his hand at a steamer, building it in two parts, but the machinery refused duty and this boat never made a passage. But little better luck attended the horse ferry and all were replaced afterward by the clunks, sometimes slow, but certain speed ferries. The first of these was not broad and flat as they are today but tapering at both bow and stern like the gondolas in Mediterranean parts and from this peculiarly this well known point on the Kennebec derives its name. SALISBURY. Salisbury, April 17.—G. Allison Trites, book-keeper for H. C. Barnes, is being treated for appendicitis by Dr. E. Moore. The people of Salisbury were well ministered to yesterday. In the morning Rev. E. A. Allaby spoke in the Baptist church; in the afternoon the Episcopal people listened to Rev. Mr. Armstrong; in the evening the Methodists and Free Baptists were addressed by Rev. Mr. Gaskin and Rev. W. H. Perry. The special meetings being held in the Baptist church here by Rev. E. A. Allaby are being well attended and much interest is being shown. Rev. Isaac Howie's many friends will be glad to hear that he is so much improved that he is up around the house and is expected to occupy his pulpit in the Methodist church soon. Miss Annie L. Harper, one of Salisbury's most popular young ladies, will leave here Thursday to join her father and brother in North Dakota. The last few days have made a great change for the better in our roads and quite a number of the local jockeys are out with their flyers. A. C. McLawson, of the North American Insurance Company, spent Sunday at his home here. SUSSEX. Sussex, April 18.—The funeral of the late Mrs. Wm. S. Smith took place today. A short service was held at the house, then the body was taken to Hampton by the noon train for burial. Rev. Mr. Neales, of this place, and Rev. Mr. Cowie, of Hampton, conducted the services. Mr. and Mrs. James Paul, Mr. and Mrs. William Robertson, of St. John, were in town today attending the funeral of the late

Head-ache Most headaches are caused by the liver. This vital organ becomes torpid. No bile is excreted, bringing Constipation. This affects both stomach and kidneys. And they in turn, bring the headaches from which so many people suffer. Fruit-a-tives or Fruit Liver Tablets make dull, aching heads as clear as a bell. They act as a tonic on the liver, increase the flow of bile—prevent Constipation—prevent indigestion and Dyspepsia—and keep the kidneys strong and well. Try these famous fruit tablets, and see how much better you feel. Your druggist has them. 50¢ a box. FRUIT-A-TIVES, Limited, OTTAWA.

CHIPMAN. Chipman, April 15.—Miss Lenora Barton, nurse, of Boston, is visiting her sister, Mrs. Emery Branscombe. Eben Morrison is fitting up the front of his new building for a restaurant. Mrs. Susie Fraser is very ill, with little hope of recovery. Mrs. Cox, her sister, of Annapolis, is with her. The tour Sunday school convention have arranged to be in Chipman June 4 and 5. Mrs. M. D. Clarke entertained a number of young people very pleasantly at her home on Thursday night. James Durrah, son of Andrew Durrah, was thrown from a horse on Tuesday night and his collar bone was broken. Dr. Hay is attending him. Bruce Hay, son of Dr. Hay, is home from Rothsay school for his Easter vacation. Kings hall was comfortably filled with an appreciative audience on Wednesday night, when Rev. A. J. Preece, under the auspices of the I. O. G. T., gave a splendid temperance lecture. Mr. Preece is not only a speaker but an excellent vocal soloist, and when he sang, before speaking, he had completely captured the audience. Mrs. Brown sang a solo very sweetly, and the choir gave several choruses. At the close fourteen were initiated into the lodge, making seventy-five members in all. Mrs. Smith, Mrs. Wm. Robertson being daughter of the deceased. A meeting of the elders and managers of the Sussex Presbyterian church was held on Monday. The proposal of the house mission superintendent, Rev. James Ross, supply Millerstown, Annapolis and North with a student during the summer months was agreed to. It was, however, resolved that before definite action be taken the varied proposal be submitted to the 14 stream people at a meeting at the congregation to be held on Friday, April 21, at 7 p. m. H. A. White, J. A. Murray, W. McKay and E. Osbally were appointed committee from the Sussex church to attend this meeting. Mr. Watt and Mr. Benson, arrived steamer Virginia from England and have taken rooms at the Depot House. Miss Jennie Fowler arrived today from Parkdale, where she has spent a w sacred vacation. A little Sunlight Soap will clean your cut glass and other articles until they shine and sparkle. Sunlight Soap will wash other things, too. Clothes.

The Demand for MANITOBA FLOUR Has Been Steadily Increasing in the Maritime Provinces The People Find That it is More Profitable to Purchase Flour Made From Manitoba Wheat KEEWATIN "FIVE RISES" FLOUR Is the Best Flour Made From Manitoba Wheat It is Manufactured by the LAKE OF THE WOODS MILLING CO., LIMITED

OUR ENGAGING NEIGHBORS. Financial items in a day: Receiver of Bay State Gas issues H. H. Rogers for \$30,000,000...

restoring to American congregations but for the man's untold gold. The contribution to the mission fund may do much good.

AN OVERSIGHT. Some time ago the aldermen had much to say about an application they proposed to make to the Legislature for additional power which they said, was required before they could enforce the recommendations made by Messrs. Kerr, Clark and Wisley...

THE CLEANER AND MR. EMMERSON. The Frederick Gleaner, which was recently read out of the Liberal party by Hon. Mr. Emmerson, professes to regard as serious statements of the Toronto World and News that the Minister of Railways is soon to retire.

THE LOCH LOMOND EXTENSION. Citizens generally will no doubt be well pleased that the contract for the work of extending the water supply system to Loch Lomond are to be given to local contractors...

TELE COMMENT. Six hundred or 700 men will be needed for the Loch Lomond extension. It is probable that the contractors will advertise for local men, but for the deep trench work it is believed imported labor will be necessary.

SOUND DOCTRINE. Reading a Toronto Globe editorial on Ontario's electric railway policy one might readily believe the writer had enjoyed some experience with corporations like that which recently raised the "reputation" and "vested interests" cry at Frederickton. Says the Globe:

While it may not be well to maintain the distinction between expropriation by steam railways and electric railways, the clearest distinctions must be maintained between the expropriation of public thoroughfares and of private property.

Baron Hiyashi thinks Admiral Togo will reduce the Russian fleet by torpedo attack before he risks his battleships. The ambassador remembers the fearful risks accepted by Japanese torpedoes at Port Arthur.

A LETTER FROM SATAN. The current Harper's Weekly publishes a letter, signed by Satan, and purporting to be written by the devil, addressed to Mr. Rockefeller's gift of \$100,000 to the American Board of Foreign Missions of the Congregational church.

THE EQUITABLE MESS. (Boston Post.) In the Post predicted last Friday, the incoming bad blood in the Equitable Society is bringing the facts to light.

NEW BRUNSWICK'S NEED. (Frederick Gleaner.) There is no apparent reason why a portion of the immense stream of immigration pouring into the west—some of it passing through the province—should not be diverted to the St. John valley and to other parts of New Brunswick.

MANDALAY. (Rudyard Kipling.) By the old Moosleh Pagoda, lookin' eastward there a Burma girl a-settin' and I know she thinks o' me.

When the mist was on the rice-fields an' the sun was droppin' slow, She'd sit 'er little banjo an' she'd sing With 'er arm upon my shoulder an' 'er wee wee watch the steamers an' the bathin' plin' teak.

Ship me somewhere east of Suez, where there's a sea like the word 'where' For the temple-bells are callin' it's there that I want to be.

There are voices soft singin' I shall hear on early mornin' Gongs of gentle music singin' To me from the unknown shore.

"A MAN WITH AN AIM" Give me a man with an aim, whatever that aim may be, 't matter not to me, 't matter not to me.

HOCH, THE BIGAMIST, ON TRIAL FOR MURDER. Chicago, April 19—Johann Hoch, self-confessed bigamist, was placed on trial in the criminal court today for the murder of Mrs. Marie Walker-Hoch.

FOUR MEN BLOWN TO ATOMS BY GAS BUOY EXPLODING

Many Others Belonging to the Government Boat Scout Badly Injured—Only One Body Recovered, and Others Believed Torn to Shreds—Explosion Heard Thirteen Miles Away.

Ottawa, April 18.—(Special)—The minister of marine was advised tonight of an explosion of a gas buoy at Kingston which killed four men, only one of whom has been found. The explosion took place beside the government steamer Scout which had been charging three buoys with acetylene.

FRAUD ORDER ISSUED

Against the Uvero Plantation Companies

Deprives Them of the Use of the U. S. Mail Service—Bitter and Futile Fight Against Order—About \$2,000,000 Taken in Through Sales of Bonds.

(Boston Transcript, April 17.) Though they fought for their existence with all the means at their command, sending two attorneys and several officials to Washington to plead their cause before the assistant attorney general for the post office department, the Uvero Plantation Company of Boston and the Consolidated Uvero Plantation Company could not save themselves. The fraud order which they sought to prevent, and which will lead to a death blow to their business, has been issued by the post office department.

ENGINEER INSPECTS THE N. B. SOUTHERN

Commission Official Finds it Fairly Satisfactory—Superintendent Tells of Improvements.

The tour of inspection over the N. B. Southern was made Wednesday by George A. Mountain, chief engineer of the railway commission, accompanied by Superintendent F. J. McPeake.

TOGO WILL RELY ON TORPEDO BOATS AGAINST RUSSIANS

Baron Hayashi Says That Coast is Favorable for Night Attacks, and Their Fleet Will Destroy Rojstvensky's Fleet by Degrees—France Doesn't Think She is Favoring Czar's Squadron.

London, April 18.—Baron Hayashi, the Japanese minister to Great Britain, expressed the opinion to the Associated Press today that Admiral Togo would not give battle to Admiral Rojstvensky with his entire squadron but would continue the cautious tactics which characterized his attacks on the Port Arthur squadron, not because he feared defeat, but owing to his desire to inflict the greatest amount of damage on the Russians with the least loss to himself.

\$1,800 FIRE NEAR ST. STEPHEN

House of Thomas Laming on Outskirts of Town Destroyed—Insurance \$800—Funeral of Capt. McAllister.

St. Stephen, N. B., April 18.—(Special)—The dwelling and barn of Thomas Laming was destroyed by fire this afternoon. Being on the outskirts of the town, the water force was not available, and the fire department was unable to save the property. The loss was probably \$1,800, with \$800 insurance.

LOCAL AND PROVINCIAL

The annual convention of the N. B. Teachers' Association will meet in Fredericton High school at 2 p. m. next Monday. There will be an evening session at 8 o'clock. The executive committee will meet at 10 a. m.

The manager of the Seaman's Institute, on behalf of the Seaman's Mission Society, acknowledges with thanks the receipt of \$44.26 from Capt. Carey, per Mr. Fishwick, purser of the C. P. R. steamer Lake Erie, collection on the steamer.

The C. P. R. steamer Mount Temple, which arrived Tuesday with a large freight and 1,922 immigrants (the largest number yet brought here by any steamer this season) created a busy day at Sand Point.

Rev. A. J. Gollmer, for some years rector of the Anglican church at Sussex, is the new chaplain of the City Hospital in Derby (Eng.), the seat of the great racing meet. Rev. Mr. Gollmer, with his family, except one son, returned to the old country last month.

It is probable that Michael Kelly, of St. Martin's, lecturer of the Sons of Temperance, will be in St. John about May 10, and will deliver a number of addresses at public meetings in the city and at Lorneville. He will then go up the St. John River, then down to Charlotte county, visiting the divisions on those sections.

Mr. and Mrs. Thos. Dillon and family will take up their residence in St. John in the cemetery business there, and his services in building up the dairying industry in this province have been of considerable value. A few days ago a sinking case was dealt to him by Harvey Mitchell, L. C. Page and H. R. Tilley.

The steamer Majestic, of the Star line, left on her first trip of the season Tuesday, but broke down near McAlpine's, a few miles this side of Gagetown, which is forty-seven miles from Indian town. Her air pump broke, and the damage was serious enough to make further progress impossible. From Gagetown word was telephoned to the management, and late in the afternoon the tug James Holly left to tow the disabled boat down.

B. D. Branscombe, of Bathurst, was in the city Tuesday en route to Fredericton and the Grand Lake district where he will bid adieu to relatives and friends before leaving for Alberta where he will look over the prospects and possibly settle. Mr. Branscombe is a well known business man and one whose absence will be felt by the people of Bathurst, where he is much esteemed. Mrs. Branscombe will accompany her husband.

Sergt. J. Smith, of the garrison artillery, Quebec, is very successful in recruiting in Sussex for the garrison. He has been there but a few days, and on Tuesday sent the following to Quebec: Frederick Simpson, Richard Sney, and James Campbell. Last evening they were followed by Geo. F. Watson, Hugh T. Ross, Fred M. Crawford, and Geo. Seales.

Miss Martha Jardine, of Rexton, Kent county, arrived in the city Wednesday afternoon and will be a guest of Mrs. A. W. Petch, Dorchester street, during the Easter holidays.

W. K. Vanderbil, the New York millionaire, was at Grand Falls Saturday. He expressed his intention of hunting with Senator Dewey at Grand Falls in the autumn.

Announcement of the engagement of W. Z. Earle to Miss Isabelle Donville, is made.

D. Russell Jack is expected from England in the Lake Manitoba Saturday. Mrs. M. Case, Mrs. G. K. Kimball, Miss L. Kimball, Miss Hazel Hall and Miss Bridget left yesterday for Boston.

SENDER OF TRURO STANDS FOR THE BILL

Says Northwest School System is the Best in the Dominion—Other Speeches.

Ottawa, April 18.—(Special)—There were four speeches on the autonomy bill today. The first was from Mr. Laurence, of Colchester (N. S.). He made a very good speech in support of the bill, and commended those who had been stirring up religious strife on the school question.

Mr. Paquet (Conservative), Lislet, spoke against the amendment. He will vote for the bill.

Justice Darling looks with equanimity on the abolition of judges by the British Columbia judges. "We in England are not likely to follow suit," he said, "by retaining a custom more than two centuries old."

The deepest working coal mine in Great Britain is at Pentleton, Manchester. Here coal is now being got at a depth of 3,430 feet below the surface. The deepest mine in the world is in Belgium, coal being got at a depth of 3,773 feet below the surface.

Justice Darling looks with equanimity on the abolition of judges by the British Columbia judges. "We in England are not likely to follow suit," he said, "by retaining a custom more than two centuries old."

Ontario Accountants Sore at Whitney. Toronto, April 18.—The council of the Institute of Chartered Accountants of Ontario at a meeting held here passed a resolution protesting against the appointment of a United States accountant in the person of L. E. Torne, of Port Huron, (Mich.) to undertake the expert investigation of the public accounts of the province. The appointment, the resolution declared, was an unmerited imputation upon the professional capacity and impartiality of members of the institution.

One Good Turn Deserves Another. Help your neighbor and you will be helped. Nothing will do you more good than to help someone else. The more you help others, the more they will help you. This is the law of life. It is the law of success. It is the law of happiness. It is the law of God. It is the law of the universe. It is the law of the soul. It is the law of the body. It is the law of the mind. It is the law of the heart. It is the law of the hand. It is the law of the foot. It is the law of the eye. It is the law of the ear. It is the law of the nose. Wheeler's Botanic Bitters. Cures Biliousness, Headache, Constipation, Keeps the eyes bright and the skin clear. They cleanse and purify the system. At all dealers 35c.

ON THE RIVER. Steamer Beatrice Waring Now Towed in Disabled—Springfield Likely to Take Her Place. The steamer Beatrice Waring was towed into Indian town Wednesday in a disabled condition, she having broken down near Hammond about 10 o'clock Wednesday morning. The oceanic gear gave way, and though navigation was still possible, it was considered best to notify the management, and on receipt of the news the Waring was dispatched to tow the disabled vessel. She arrived at Indian town about 2 o'clock. It will probably be a week before the steamer will be in a position to resume the route, and in the meantime the Springfield may take her place. It is possible that by Saturday the latter will be ready. The May Queen will probably sail Saturday.

MORE PLACES THAN SERVANT GIRLS. Associated Charities Record for March is 16 to 3—The Busiest Month Yet. The monthly meeting of the Associated Charities was held Wednesday in the new rooms of the Relief and Aid Society, No. 71 Dock street. March was reported to be the busiest month since organization. There were 228 applications received; 25 desired relief, 42 employment, and 33 advice. Thirty were recommended to employers. There were 18 applications from ladies for maids, and three maids made application for positions. Twenty-five letters were written in homes visited. Relief was given in 19 cases, and twenty strangers were provided with a night's lodging. Work was found for ten applying for relief, and work was also found for 12 men, 28 women and two girls. Mrs. Hall, the secretary, made 50 visits during the month, and she is of the opinion that the evidence of poverty's pinch is not so discernible as in previous months. There are excellent prospects of a good working year and she believes business is generally good. North Smithfield (R.I.), is much interested in the proposition made by S. E. Aldrich to take away his interest in a house in that town. Mr. Aldrich owns absolutely five-eighths of his grand-father's homestead and proposes to divide and remove from the lot his share in the house and buildings.

very Family in the Province Will Want a Wall Chart the very latest map of the Maritime Provinces showing proposed route for the Grand Trunk Pacific through New Brunswick. 35 Cents to The Telegraph will bring one of these by return mail. lar price \$1.00.

probably grown more than any other variety for long distance shipment, came twenty-ninth in the four years' average. It is one of the best for this purpose, but we should like to see produce given a further trial.

How to Make a Small Flock Pay. We are practical, all-round farmers, not poultry raisers; but in the past ten years we have kept a flock of hens numbering from twenty to thirty, and have made a study to keep in view three essential factors: (1) economy of space, (2) economy of food, and (3) economy of labor.

Co-operative Experiments in Agriculture. The Ontario Agricultural and Experimental Station has issued a circular giving special information in relation to the co-operative work in agriculture for 1905. The special feature of this circular is that it has been prepared by the co-operative work for several years.

Short-horn Cattle. In his address before the Dominion Short-horn Cattle Association recently W. D. Platt, of Hamilton (Ont.) made the following points: Agriculturalists have learned that if they are to make a success of purely dairy farming, they must have a breed of cattle that will give a large quantity of milk.

Causes of Soft and Firm Bacon. The price for the bacon pig varies greatly according to the nature and kind of the pig, and is very largely due to the fact that the softness of the bacon depends on the condition of the pig at the time of slaughter.

Testing Seed Corn. For three years the farmers of the corn-growing districts of Canada have been advised to test their seed corn. This is a very important matter, and one that should be given the most careful attention.

Seeds. Big assortment of seeds of all kinds. Grass Seeds a specialty. Seed Oats, Barley, Clover, Corn, Peas. For Sale Low.
