THIRTY years' observation of Castoria with the patronage of millions of persons, permits us to speak of it without guessing. It is unquestionably the best remedy for Infants and Children the world has ever known. It is harmless. Children like it. It gives them health. It will save their lives. In it Mothers have something which is absolutely safe and practically perfect as a child's medicine.

Castoria destroys Worms Castoria allays Feverishness. Castoria prevents vomiting Sour Curd. Castoria cures Diarrhea and Wind Colic. Castoria relieves Teething Troubles. Castoria cures Constipation and Flatulency.

Castoria neutralizes the effects of carbonic acid gas or poisonous air. Castoria does not contain morphine, opium, or any other narcotic Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep.

Castoria is put up in one-size bottles only. It is not sold in bulk. Don't allow any one to sell you anything else on the plea or promise that it is "just as good" and "will answer every purpose." See that you get C-A-S-T-O-R-I-A.

CONTINENTAL FAME.

A country that can boast of a Niagars Falle, a Rever St. Lawrence, and a transcontinental railway three thousand miles long may fairly be said to have fame. A wonderful newspaper success added to these would add to the country's greatness in the eyee of the world just as a winning oarsman or yacht or cicket feam would do it. This is why so wast a number of people feel a pride in the amazing success of the Family Herald and Weekly Star of Montreal, a paper great in itself, and that adds unche every way to its country's greatness. Those who have not seen the Family Herald of Montreal have missed one of the sights of Canada, and those who are not subscribers to it may well be considered unfortunate, as its publishers have been obliged to refuse to accept from the system and step of the sights of Canada, and those who are not subscribers to it may well be considered unfortunate, as its publishers have been obliged to refuse to accept for the side of the sights of Canada, and those who are not subscribers to it may well be considered unfortunate, as its publishers have been obliged to refuse to accept for the side of the sights of Canada, and those who are not subscribers to it may well be considered unfortunate, as its publishers have been obliged to refuse to accept for the side of the sights of Canada, and those who are not subscribers to it may well be considered unfortunate, as its publishers have been obliged to refuse to accept the side of the sights of Canada, and those who are not subscribers to it may well be considered unfortunate, as its publishers and prometed and procured a procured a considered unfortunate, as its publishers and procured a considered unfortunate, as

Rockport is but a small hamlet, but it has achieved a wide reputation owing to the fact that it is situated in the very lieat of the far-famed Thousand Islands, and for this reason attracts during the summer months hundreds of pleasure seekers. Among the residents of the village none is better known than Wilson A. Rost. During the summer months he follows the occupation of an carsman, and none knows better than he the hauats of the gamey bass and pickerel. In the winter and spring months Mr. Rot follows the occupation of trapping and this pursuit requires one to be out in all sorts of weather, and in the water frequently at a time of the year when the

in all sorts of weather, and in the water frequently at a time of the year when the water is noue too warm. As a result of a wetting Mr. Root took a severe cold which developed into la grippe, which took such a firm hold upon his system that for a time he was unable to leave the house. His kidneys became affected, and he suffered from severe pains across the back. There was a feeling of continuous tirtchess, which no amount of rest or sleep seemed to relieve. The appetite was fickle, and there was an indisposition to exertion or work. A number of remedies were tried, one after the other, but without any beneficial results. At this juncture a friend strongly advised that Dr. Williams' Pink Pills be given a trial. They had cured thousands of others, and why not he? Acting on his friend's suggestion Mr. Root procured a single box of the Pink Pills, and before all were used felt an improvement. This encouraged him to persevere with the treatment, and after the use of a few more boxes of the Pink Pills, and before all were used felt an improvement.
