MAY BE APPOINTED TO SUPREME COURT

Mr. LeBlanc Said to Be Stated
For King's Bench Division
of the Court.

There is a persistent report that Hon. A. E. White, a judge of the Appellate Division of the Supreme Court of New Brunswick, is about to retire because of ill-health. It will be remembered that he had a most serious attack while here attending a session of the court a few weeks ago, and previously he had been away from the province on an extended trip to Europe for the benefit of his health, but which unfortunately appears to have effected no permanent betterment.

In political circles the report persists that Arthur T. LeBlanc, esq., of Campbellton, will be appointed to the vacancy thus created on the Supreme Court Bench. Mr. LeBlanc may not be regarded as one of New Brunswick's foremost lawyers, but he has been in practice since 1908 and he is an Acadian and the Academics have been pressing upon him the appointment of a member of their race to the Supreme Court bench over since the death of the late Sir Pierre A. Landry, who was chief justice. It is expected that Mr. LeBlanc will go to the Appellate Division and Mr. LeBlanc will be appointed to the King's Bench Division—Gleaner.

"JOSH" COOLING'S ILLNESS WAS FATAL

Well Known Bivalve Character
Passed Away Last Friday
Night.

(Bivalve Paper.)

A. J. Cooling, familiar and genial character in Bivalve for the past fifteen years, died last Friday night following an illness of about three weeks. He was first taken down with the grippe shortly after New Year and this together with complications brought on by Bright's disease hastened his death. During practically all of his illness he was under nurses' care.

The funeral was held Tuesday afternoon under the direction of the Order of Eagles of Evesleigh, of which he was a member. Short services were held at Rev. B. D. Hanson's residence where Rev. B. D. Hanson read from the Scriptures and offered a prayer and G. H. Loxton read from the lodge ritual. Burial was made at Lakeside cemetery where Rev. B. D. Hanson conducted the committal service and Mr. Loxton took care of the lodge service. The pall bearers were William Doy, K. S. Johnson, William McIntosh, James Sosa, James McArthur, William O'Hara, Dennis Hogan and Clarence Green. A number of members of the Evesleigh lodge were present at the funeral.

Anthony Joshua Cooling was born in Falmouth, New Brunswick, Canada, in 1857 and at the time of his death had attained the age of 65 years. Not a great deal of information is available in regard to his early history until 1896 when he came to Osoyoos, Wisconsin, and for fifteen years followed the life of a woodsman in Wisconsin and the northern peninsula of Michigan. In 1906 came to the Range and for about a year was employed as a farm hand and volunteer in the camp of the Virginia & Rainy Lake company. The following year he entered the saloon business in Bivalve which he continued until the territory went dry. Since that time he has maintained living quarters in the rear of his building on Main street and was a familiar character on the streets during the summer months.

"Josh" as he was familiarly known, was always genial and pleasant and had a cheerful word for all. His outstanding characteristic was his size. He was six feet six inches tall and at the time of being taken down with his last illness weighed approximately 385 pounds. During the winter months he "hibernated" in his living quarters, coming out only on rare occasions for a movie show or when the bright sun was out. Suffering from weakness in the back and his

JUDGEMENT IN GASPE CASE

Ownership of a Lot of Land
Settled by Court
Judgement.

An interesting judgement has been handed down by the Superior Court at Percé, in the County of Gaspé, in which William Greaves was plaintiff and Remi Kennedy, of Douglastown, defendant.

Some forty years ago Lawrence Kennedy acquired a piece of land by location ticket from the Crown. Fifteen years ago the letters-patent were issued for this lot, reading as follows: "Letters-patent in favor of the legal representatives of 'Lawrence Kennedy'."

Since a number of years one Remi Kennedy who is not a relative of Lawrence Kennedy's had been in possession of this lot, and the plaintiff ordered him to give up possession, claiming that he, the plaintiff, was one of the legal representatives of the said Lawrence Kennedy, and that he was entitled to the lot.

The defendant, Remi Kennedy through his attorney set up that he was entitled to this lot, because he and his predecessors had had possession for over thirty years, and that the words "legal representatives" in the letters patent did not necessarily mean the legal descendants of the party who held the original location ticket, but meant all parties who had any right whatsoever under the civil law of the Province of Quebec to the lot in question.

The Court upheld the pretensions of Remi Kennedy, and declared that the plaintiff was not entitled to this lot, although he was one of the legal representatives of the original party who held the location ticket.

The plaintiff was represented by Mr. W. A. E. Flynn, of Percé, and Remi Kennedy represented by the Honorable John Hall Kelly.

to pack food in a sugar barrel strapped to his back by special straps and carry it for distances of three and four miles—fully able at all times to take the place of a pack horse. Josh's appetite was also in keeping with his stature and he consumed large amounts of meat with each meal.

One known relative, a sister, Mrs. Toronto and had been notified of his illness and death but was unable to get to him.

Josh's illness was attributed to over-exposure of his body and another sister, residing at Campbellton but whether they are now living is not known.

(The late Mr. Cooling had two brothers, Messrs. James and William Cooling of Falmouth and Dawsonville and two sisters Mrs. Smith of Glen Lake and Mrs. Greenfield of Toronto.)

IN MEMORIAM.

In loving memory of my dear father and mother who passed away April 7th, 1917 and March 27th, 1917. Dear is the graves where my parents are laid.

Sweet is their memory that never will fade.
Flowers may wither, leaves may die, But to forget my dear parents never will I.

Years have passed my heart still sore, As time goes on I miss them more; Their welcome smile, their loving face, Oh none can fill their vacant place.

There memory is as fresh to-day As in the hour they passed away. So oft at night the stars are shining, Or the lonely graves, over my darling father and mother.

One I love so much but could not save.

Inserted by their daughter, Mrs. Oliver Lawrence.

Coun. Belle-Ile and Solicitor
Car Appear in Favor
Of Same.

The three Campbellton bills, one of which gives authority for the issuing of \$235,000.00 for overdraft, water and sewerage extensions and permanent streets, were before the municipal committee of the Local Legislature last Wednesday morning.

H. A. Carr, Town Solicitor was heard in support of the bill. A plebiscite had been held on the question of debenture issue and the vote had been in favor. The civic election immediately following had been on the same issue and the entire ticket with one exception, which supported the issue, was returned. Ald. A. C. Belle-Ile also was heard in support.

It was decided to consider the bill in private session.

This week a delegation consisting of Messrs. Wm. Richards, A. A. Andrew, F. M. Anderson and C. A. Alexander are in Fredericton interviewing the government in reference to these bills. The Graphic understands that they are asking that before authority to issue bonds is given the property owners be permitted to vote on the question.

had to be poured with water themselves to prevent fire from catching their clothes. It was a spectacular sight. It is expected that new shops will be erected.

HEAVY LOSS AT UPPER CHARLO

Thos. Craig's House and Barns
Burned.

A most disastrous fire swept Upper Charlo, a thriving village twenty miles below Campbellton on the main line of the C. N. R. yesterday afternoon doing damage to the extent of \$30,000.

About four o'clock it was discovered that Mr. Thos. Craig's residence was on fire. A northwest gale was blowing and the whole roof was soon ablaze.

The embers were carried to the next neighbor, Harry McKenzie's property, a considerable distance away and that was soon blazing, the house, barns and sheds being completely destroyed.

From there the fire jumped to A. S. Arseneau's house, and this with the store adjoining was soon masses of flames.

The next building to go was the blacksmith shop at the roadside a considerable distance from the highway.

Other buildings caught fire but were saved by hard work. The hardest fight was made to save Mr. Robert Craig's residence and this was accomplished.

The losses are estimated as follows:—

Thos. Craig—House and sheds, household furniture saved, loss about \$3000, insurance \$1500.

Harry McKenzie—House, barns, outhouses destroyed. Lost all farm produce, implements, seed, nets, etc. Loss about \$7000.00. Some furniture saved. Insurance \$2000.00.

A. S. Arseneau—House and store destroyed, with nearly all contents, including a Komobile and a large general stock. Little household goods saved. Loss about \$20,000. Insurance about \$10,000.

Mr. LeBlanc—Blacksmith shop and tools. Loss about \$500.00. No insurance.

Mr. Arseneau was away from home so that his loss is hard to estimate. Many nearby families moved out all their household goods, and live stock were turned out into the fields.

Dr. Martin will be out of town for the month of April to take a post graduate course in New York. He will devote most of his time to the study of children's diseases.

CONGRATULATIONS.

Mr. and Mrs. James Hamilton of Dalhousie are receiving congratulations upon the arrival of a baby girl at the Soldiers' Memorial Hospital here. This little girl receives the trousseau given by the Ladies' Aid to the first child born in this institution.

NURSE THINKS NOTHING BETTER

Lydia E. Pinkham's Vegetable Compound Advised for all Women in Poor Health

Toronto, Ontario.—"I took Lydia E. Pinkham's Vegetable Compound for years and it is the only patent medicine I ever recommended. I am a nurse and if I find a woman in poor health I always tell her to take it. Although you know that doctors and nurses do not use patent medicines I must say that I think there is nothing better than your Vegetable Compound. When I first took it many years ago, I was so tired when I got up in the morning that I could not get out of bed. I was so weak I was too tired to sleep. My mother-in-law told me that Lydia E. Pinkham's Vegetable Compound was just what I wanted so I tried it and only took two bottles when I felt better. Since then I have found that there is nothing that makes me feel as well for it seems to build my system right up. I don't know any other medicine that has done so much for women."—Mrs. W. H. Farnham, 11 Westley Ave., Toronto, Ontario.

Women testify again and again that they have been helped by Lydia E. Pinkham's Vegetable Compound "after other medicines have failed." It has been tried for many years and not found wanting. If you are suffering from any of the various ailments which accompany female weakness try Lydia E. Pinkham's Vegetable Compound.

Melon-Growing in the Okanagan

There is a cer-
tain market-gard-
ener at Summer-
land, a little set-
tlement on the
shores of the
Okanagan Lake in
British Colum-
bia, who has made his
ten acres famous
for cantaloupes,
egg plants and
peppers. He has
five acres of can-
taloupes from
which last season
he shipped 1,200
crates averaging
\$3.00 gross per
crate.

They are grown
on the usual
"hill" system 5 x
8 ft. apart and
well watered and
fertilized. The
seed is sown in
the field in the
middle of April and
is transplanted
before being set out
in the field. It
is then ready to
fruit at the end of
August.

Mr. A. McLachlan in his winter lettuce
house, Summerland, B.C.

From 1/2 acre of early seedling-
cucumbers the grower makes at least
3 pickings in the season, taking
from 110-125 boxes at each picking.
These average a clear profit of 70
cents per box, the prices varying
from 60 cents up to \$2.00 accord-
ing to the market.

Another highly profitable line
followed by the same grower is early
lettuce under glass. Last Christmas
I saw one of the greenhouses (18 x
40) full of lettuce for the Christ-
mas trade around Summerland
alone, about \$150.00 of it and this
will command a sure and steady
market.—H. G. W.

his patient, to Campbellton, a dis-

Mr. A. McLachlan in his winter lettuce
house, Summerland, B.C.

From 1/2 acre of early seedling-
cucumbers the grower makes at least
3 pickings in the season, taking
from 110-125 boxes at each picking.
These average a clear profit of 70
cents per box, the prices varying
from 60 cents up to \$2.00 accord-
ing to the market.

Another highly profitable line
followed by the same grower is early
lettuce under glass. Last Christmas
I saw one of the greenhouses (18 x
40) full of lettuce for the Christ-
mas trade around Summerland
alone, about \$150.00 of it and this
will command a sure and steady
market.—H. G. W.

At an intellegent meeting of parties
interested in the Soldiers' Memorial
Hospital in Campbellton held in New
Richmond Centre on March 22nd, 1922,
John G. Fallow, chairman, called the
meeting to order and in a few well
chosen words announced that object of
the meeting was to receive a report of
the official opening of the hospital
on March 16th, 1922.

A full report of the opening as it
appeared in the Graphic was read by
Ormine Fallow as well as the names
of the fallen heroes who sleep in Flan-
der's field.

The names of parties furnishing
wards or rooms was read by George
Montgomery with many additional
facts which took his attention when
there. He described the site as one
of the most lovely that can be found
anywhere in the three counties along
the bay on account of pure air and
splendid view. The lofty Sugarloaf
the beautiful Restigouche and lovely
hills on the Quebec side, and the
Town of Campbellton at hand with
its many doctors and clergymen of so
many different denominations as well
as the Salvation Army, with every
other convenience which goes to make
one of the most desirable spots on the
bay.

The speaker continues: Of course
there is the usual amount of grum-
bling and fault-finding about that, as
well as about any other good thing.
In the first place there is graft,
misappropriation, moffness and so on.
That matter is so ridiculously
fimsy that it is not worth dealing
with. That party should be visited
by a missionary.

Next it should have been built in
Bonaventure, there is no need of two
hospitals in Campbellton.

Mr. Chairman, we read in the good
book that God made the world in six
days, then viewed his work and pro-
nounced it good, but nowadays we
have men who say practically, well
yes, fairly good, but we could do it
much better. Give us men and
money and we will build a dam across
the Straits of Belle-Ile that will turn
the cold current of the Arctic Ocean
and send it and its icebergs to dear
old Nova Scotia, and allow the warm
water of the Gulf Stream to flow into
the Gulf of St. Lawrence and into
the Bay Chaleur, causing a genial
balmy atmosphere that will bring
spring much earlier and fall much
later and do away with these cold,
stormy winters altogether and that
will greatly improve Gaspé and Bon-
aventure.

Now Mr. Chairman if the Divine
architect could not build a world to
please the people of Gaspé and Bon-
aventure, is it reasonable to expect
us to build a hospital to please the
same people.

So far as I know, Mr. Chairman,
the scheme to dam the Strait of Belle-
Ile was proposed by Dr. Pierre For-
tin when in command of the revenue
cutter "Belle Canadienne Beiny". A
clever man, he studied the conditions
of currents, etc., and when he re-
presented Clappe in the house of par-
liament, he brought the subject before
the house and met with the usual
amount of ridicule. That is around

no attempt is made to commence work.
It would have been the same with the
Memorial Hospital.

The managers had all kinds of dis-
couragement to contend with. "The
Wise men" shook their head and said
it couldn't be done. But they (the
managers), with a shrug replied that
maybe it could not, but we are the
men who will not say so till we have
tried.

So they buckled in with the trace of a
grin.

If they felt anxious or worry they
hid it.

They started to sing and they tackled
the thing.

That could not be done, and they
did it.

"And they did it well. It is a
triumph of architectural skill and a
credit to themselves and their lady
assistants.

Another objection is the reckless
expenditure of money. A building of
half the cost and furnished much
cheaper would have been just as good.
The patients would have recovered as
died just the same in a cheaper outfit.

Mr. Chairman, this argument has
no place in the realm of common
sense. Our boys did not give us a
cheap, shabby service at the front,
they gave us their best and many
have their all. Then why in the name
of goodness should we build a cheap
shabby monument to their memory.

And that is not all, it is a thank-
offering to Him who doth all things
blissful we enjoy. Then why should
it be cheap or shabby.

The first thankoffering we have any
account of were brought by Cain and
Abel. Abel brought his best and it
was accepted, Cain brought a cheap,
shabby offering and the result was dis-
astrous. This hospital is the best
that can be got up at the present time
and dedicated to His Glory with all
reverence and don't worry about it's
acceptance. "They never sought in

SPRING FASHION DISPLAY.

On last Thursday evening F. E. Shephard Co. held their annual Spring Fashion Display.

In a blaze of electric lights and appropriate settings several young ladies and children charmingly gowned gracefully walked about in the two great show windows.

The young ladies wore tweed and tailored suits, as well as the jaunty box styles and the three piece models. Elaborately trimmed with braid and embroidery. The fashionable chokers in ermine, fitch, mink and squirrel added the finishing touch to the smart costumes.

The caps and coats displayed were of the more dressy type, with the full wide sleeves, blouse back effects, and tuxedo fronts, including the "Bromleigh" coat, a smart English cut tailor made garment on mannish lines.

A great variety of dresses was displayed in canton crepe, tulle and serges, with an early showing of dainty organdies, volles and gingham, oriental embroideries, rich beaded and appliqued trimmings added distinction to these garments.

Skirt styles were shown in plaids, flannels and satins, with the novelty sport sweater models.

The all round display was lavish in color and varied in style, indicating the high class ready-to-wear garments and accessories stocked by F. E. Shephard & Co.

"MADEMOISELLE OF ARMENTIERES."

The "P.B.I." (Poor Bally Infantry), or "Mademoiselle of Armentieres" which will be seen here at the Opera House next Wednesday evening, is a play of war as seen through the eyes of a man who lived and served through the whole thing. The actors are men who draw from their past experience as they act. Their stage clothes are soiled with clay of the greatest stretch of stage in the history of drama. Passages of humor, pathos, courage and tragedy are characterized throughout.

But although it is a taste of the real thing, the entire play is a scream from beginning to end, describing and bringing before you every type of character which went to make up the Canadian army. There is Private Herbert Hawkins, the funny little cockney, The Jock, Duke and Percy, The "Dugout" staff officer. The important young sub, but out from 15. Hoshill with his "Brassie" and "Shine" and training sprouting. The chic Mademoiselles with their Estaminets, and every other peculiar type of character which the soldier has bumped up against some time or other in the army.

JACKIE COOGAN

The "KID" Himself In

Peck's Bad Boy

speaks his piece:—

Bein' bad don't hurt you. It's what comes afterwards that causes all the grief.

Generally it's your Ma that comes afterwards; and she sure does wave a wicked wand.

You wouldn't say bein' bad is a gift so much as a habit. It grows on you, like a soft spot in an apple.

So a cop ain't much different from the man who peddles apples on a barrow. They both make money by getting rid of bad habits.

But it's the barrow man who gets rid of his first. He seems ashamed of them, and puts them in the bottom of the bag.

Folks say I'm wicked and will go where all bad boys go.

Wen't they be pleased when they learn I'm in the movies!

But I'm in good company. Irvin S. Cobb is down here, too. He writes my subtitles. May-be you've heard of my friend Irv. He sometimes gets pieces in the paper—mostly when the regular editors are away on vacation.

That's all. Getta smash another window now.
