### "Beat It" Is Mauretania's Message to Mount Royal

### C.P.R. Liner Immediately Rushed Towards Montreal and Docks Safely—Thinks Cruiser Was After Cunarder.

[Canadian Press.]  
Montreal, Aug. 12.—"Beat It" was the terse advice given to the C. P. R. steamer Mount Royal from Antwerp for Montreal by the Cunarder Mauretania, when she was about 100 miles east of Cape Race. The Mount Royal reached here this morning.  
The operator on the Mount Royal, Walter Condon, received a message from an unknown vessel, asking the whereabouts of the Mauretania. He now thinks the question was asked by the German battleship Karlsruhe, because a moment or two afterward the Mauretania called the Mount Royal and flashed its message to Condon. The Mount Royal was then rushed towards port, and her officers think they missed the German cruiser owing to the fog.

### FEARFUL SLAUGHTER BEFORE FORTS OF LIEGE DESCRIBED BY GERMAN WHO ESCAPED

Regiment After Regiment Was Forced On by Officers as Soldiers Were Mown Down—Survivors Escaped Into Holland.

[Canadian Press.]  
New York, Aug. 12.—The New York Tribune publishes the following cable from the Maastricht correspondent of the London Standard:  
"Fugitives from the German army operating against Liege have given me details of the advance into Belgium and the attack on Liege from the invaders' point of view. They belonged to a detachment which was overpowered by Belgian cavalry, and fled into Holland to escape capture.  
"They were disarmed by the Dutch soon after they crossed the frontier, and I understand they intend to emigrate to America. They have had enough of campaigning and a country in which militarism is rampant. Here is the story of the march on Liege as related to me by the most intelligent one:  
"We went by train to Herbesthal, the last German town, the outskirts of which touch the frontier. We traveled in open goods trucks, and the journey was like a triumphal progress, everywhere acclaimed by the people. Old men came out to bless us, and women and girls passed alongside the train in stations, encouraging us with kind words and more substantial gifts of food and drink.  
"Took Road at Herbesthal.  
"At Herbesthal we took to the road and advanced into Belgian territory. On the frontier itself there was absolutely no resistance, though I believe a few stray shots were taken at our cavalry scouts, who preceded the main body.  
"After occupying the first Belgian town of Limburg, where locomotives and rolling stock were found, we continued our advance to Verviers, which was cleared of Belgian troops by our cavalry before our arrival. The inhabitants of Verviers watched our march into the town with terror, withdrawing into their houses and peeping (Continued on Page Nine.)

### HAMILTON TO GIVE BOTH MEN AND MONEY

Mayor Says Question of Donation to War Fund Will Be Taken Up.

[Canadian Press.]  
Hamilton, Aug. 12.—Mayor Allan said today that Hamilton would not lag behind any other city in Canada in sending men and money to help Britain, several hundred volunteers have already enlisted here, and the mayor stated that the city would at once take up the question of making a substantial cash donation. A liberal contribution will also be made by citizens to the hospital ship fund.

### THE IRONY OF FATE

German Torpedo Boat Hit Mine Laid by Kaiser's Ship and Sank.  
[Canadian Press.]  
London, Aug. 12.—9:30 a.m.—The Copenhagen correspondent of the Daily Mail says it is ascertained that the German torpedo-boat destroyer, which was reported to have been sunk by the explosion of one of her boilers off South Greenland on Aug. 5, really was destroyed by a mine laid by a German warship.  
The Russian commander of the fortress of Sveaburg, Finland, has ordered all the inhabitants of that place any place where they are to leave, as a result of a bombardment believed to be imminent.

### OUR MEN WILL BE THERE

The Advertiser has already made arrangements for representation with the Canadian contingent in the event it is ordered to the scene of hostilities. This newspaper will be represented with the London boys at the front, and in addition will have the services of an experienced staff military man and writer for the Canadians. Passports and transportation have already been secured for the latter in conjunction with the Toronto Star.

### GERMAN INVASION OF BRITAIN WOULD BE FOLLY, SAYS EXPERT

### Kaiser's Navy Would First Have to Win Fight in North Sea—Only Small Army Could Be Placed on Transports.

[Canadian Press.]  
New York, Aug. 12.—In a cable from London the New York World quotes Archibald H. Hurd, a naval expert, writing for the Daily Telegraph, as follows: "Whatever change has occurred in the last few days in the naval and military situation certainly does not weaken the arguments as to the impossibility of an invasion of England."  
"An invasion across the North Sea must be preceded by a battle in the North Sea and a German victory. Only a sailor can appreciate the obstacles in the way of such an adventure, carried out in the face of a superior naval force. It involves the enemy handicapping his fleet with large numbers of transports, crowded with soldiers."  
"TRANSPORTS MUST BE SMALL."  
"If small and of light draught, the transports could approach fairly close to the point of disembarkation; but even small vessels can carry only a few men. Should large transports be employed, large numbers of troops can be carried, but these vessels must keep well off shore during the progress of disembarkation, owing to the depth of water they would draw."  
"With every port on the English coast guarded by land and sea, it is difficult to perceive what object could be served by landing a few thousand German troops in a country which has over half a million men under arms."  
"ONLY LOCAL PANIC."  
"Such an adventure would not cause more than a temporary panic in the district directly affected, and this speedily would give place to a feeling of confidence that in a very short time the invaders would be shot down or captured."  
"Nevertheless, it is possible that such raids might be attempted, because many Germans believe that if one or more of them were successfully carried out and troops landed on the British coast a feeling of panic would be thereby created in this country, which would have an appreciable effect here and on the continent."

### BLACK KNIGHTS CELEBRATING HERE

2,500 Strong They Come From Western Ontario for Londonderry Anniversary.

### BIG TORONTO DELEGATION Well Over 800 From Queen City in Line, With Five Bands.

[Canadian Press.]  
Fully 2,500 Black Knights of Ireland from every part of Western Ontario were in London today for the annual demonstration by the Grand Black Chapter of Ontario West in commemoration of the relief of Derry in 1688.  
Toronto had by far the largest representation of any single city, numbering well over eight hundred, and including five bands. They came in on a special train over the Grand Trunk Railway shortly before noon, and marched to the corner of Dundas and Richmond streets, where they separated, going to various hotels for lunch.  
The bands with the Toronto preceptors were the Rising Star, the Klites, the Riverdale Bugle Band, Sir Edward Carson's Drum and Fife Band, and the West Toronto Drum and Fife Band.  
The St. Mary's Knights were the first to arrive, coming in at about ten o'clock with a detachment eighty strong. They were followed about 10:30 by the Wallaceburg and Windsor preceptors, numbering fifty or more.  
St. Thomas Men in Uniform.  
A special Pere Marquette train brought more than sixty from St. Thomas, their white uniforms appearing to great advantage. The St. Thomas drum and fife band accompanied the contingent, the march uptown being led by the eight-year-old son of J. C. Clark. The youngster's uniform was an exact replica on a small scale of his dad's, and he carried at his side a sword and scabbard of shining silver.  
It was just outside the station precincts that, in drawing his sword to salute, the lad broke the handle from the blade. For a moment it looked as though he was about to cry, but he gave way to their feelings, and he bit his lip and managed to keep back the tears. Later on, when his dad heard of the accident, he gladdened the boy's heart with the promise that a new sword should be purchased at the first opportunity.

### FRENCH DOMINATE ALSATIAN HEIGHTS

Hold Command of Line Running to Rear of Mulhausen—German Statement Denied.

[Canadian Press.]  
London, Aug. 12.—11 a.m.—The military position at Liege, Belgium, also along the Franco-German frontier of the opposing outposts where the engagements between the French invading force and the German defenders recently were fought, is explained in a dispatch from the French Foreign Minister, received here this morning. He says: "Our troops have kept the crests and spurs of the Vosges Mountains and they dominate the heights of Alsace."  
"A line between Thann (22 miles southwest of Kolmar, Alsace) and Altkirch (the first position occupied by the French army after its invasion of Alsace) is held by our armies. This line runs slightly to the rear of Mulhausen."  
"The French Government indignantly denies that there was any violation of German territory by the French army before the declaration of war."

### THE MINISTER OF FINANCE A BANK TRUSTEE

Simple Arrangement Between Ottawa and Bank of England to Help Shippers.

PAY IN GOLD AT OTTAWA

American Bankers Can Liquidate Liabilities Without Sending Money by Sea.

[Canadian Press.]  
Ottawa, Aug. 12.—The arrangement concluded between the Bank of England and the Canadian Minister of Finance was confirmed in an official statement by Hon. W. T. White today. Before the war broke out there were heavy shipments of gold from New York to London. The opening of hostilities stopped this, and exchange became very high. By the arrangement now completed, the Finance Minister becomes trustee for the Bank of England, and American bankers can forward their gold to Ottawa in place of London, in liquidation of their liabilities to the Bank of England. This will obviate extreme fluctuations, because it will also reduce the exchange rates. Likewise, interest on bonds due in London may be paid here.

### KAISER REPORTED SHOT IN THIGH

Rumor Comes From New York That Wireless Told the Tale.

[Special to The Advertiser.]  
New York, N. Y., Aug. 11.—A wireless message was picked up tonight that the Kaiser had been shot in the right thigh at Aix-la-Chapelle. The message said that the wound was not serious, but would require the Emperor to remain in bed for a week or ten days. It gave no further details.  
[Canadian Press.]  
Rio Janeiro, Aug. 12.—The Chamber today approved the declaration of a moratorium for 30 days. It may be continued, if necessary, for four months (Continued on Page Three.)

### The War Situation

A Dutch dispatch says a terrific cannonading was heard this morning from the direction of Tongres, north of Liege. It was yesterday reported that two divisions of German cavalry with artillery had arrived there.

Belgium was today again the scene of outpost fighting between Belgians, French and Germans.

The German commander at Liege denies the loss of 20,000 in his effort to take the forts there. He says they will be taken without the loss of a man as soon as German heavy artillery arrives. He asserts that "the Belgian force is numerically superior to ours." He intimates that the assaults were stopped by the Emperor's orders, to avoid needless sacrifice of life.

On the subject of Liege, the French Foreign Minister declares all the surrounding forts intact and that only a small force of Germans entered the town itself under cover of darkness. It had been pointed out previously that the defect of the Liege forts was the inability to see one fort from the next, although the fire of their guns crosses.

A Brussels dispatch says the bulk of the German army is leaving Liege and advancing toward the French frontier through the heart of Belgium.

The French Foreign Minister described the French position in Alsace as good, as the troops occupy the crests and passes of the Vosges Mountains.

Sveaburg, the great Russian fortress in Finland, awaits a bombardment or a battle, as the commander has ordered all civilians to leave there and also Helsinki.

Paris reports Montenegrin troops occupying Taraboch, overlooking Scutari, Albania, where severe fighting between Montenegro soldiers and Turks occurred during the Balkan war.

Considerable sums of English gold are to be deposited in Ottawa, Canada, to facilitate payments without running the risk of shipping money across the Atlantic.

### RAINBOW SAFE; BRITISH BOATS MAY BE SUNK

Naval Officer at Ottawa Has Fears for Safety of Algerine and Sheerwater in Pacific Waters.

[Canadian Press.]  
Ottawa, Aug. 12.—"The Rainbow is safe, but we are afraid the little fellows, Algerine, small cruiser, and Sheerwater, war sloop, are gone," was the statement of a naval official today, when shown the Canadian Press dispatches from San Francisco, telling of the sighting of the two German cruisers near there.

### GERMANS LEAVING LIEGE TO ADVANCE THROUGH BELGIUM

[Canadian Press.]  
Brussels, Aug. 12.—Via London, 11:20 a.m.—The German army is being detached from its position before Liege and is advancing through the heart of Belgium. The main body of the German cavalry is engaged in a forward movement all along the front of the allied armies.

### GENERAL BLAMES WOMEN FOR THE REPULSE AT LIEGE

That Emperor Did Not Sacrifice Life Unnecessarily Is Another Explanation by Gen. Von Stein.

[Canadian Press.]  
London, August 12.—9:10 a.m.—The correspondent of the Exchange Telegraph Company at Rome says that a dispatch from Berlin gives an official statement by General Von Stein regarding the siege of Liege. The German commander denies the loss of 20,000 men but does not give figures of his losses.  
A Few More Excuses  
He says that only a small number of German troops were engaged in order to mask the movements of the bulk of the army. The enemy's advance attacking force, he says, was completely annihilated, and while admitting that the forts remain intact, explains this by saying: "The Emperor did not wish to sacrifice life unnecessarily, but as soon as the heavy artillery arrives the forts will be taken without the loss of a man."  
Women in battle  
General Von Stein admits that the capture of the forts is a difficult problem because of the unfavorable ground about them and further because the population of the town, including the women, shot at the German troops from behind, firing indiscriminately, hitting the surgeons and the wounded. The German commander concludes with the remark that "it must not be forgotten that the Belgian force is numerically superior to ours."

# GERMAN FLEET BEING SAFELY HELD IN CHECK

## "Silent Victory" Opens North Sea Again to Shipping.

### GERMANS CLAIM VICTORY

#### Great Battle Expected Between Thionville and Liege.

### ROUMANIA JUMPS IN

#### Joins the Triple Alliance, and Will Invade Servia.

[Canadian Press.]

LONDON, August 12.—Two salient points emerge from the latest news of the great war. The first and most striking is what is described here as "the silent victory." This applies to the fact that the North sea, over which almost absolute silence has brooded so long, is now open to shipping without serious danger. The steamship service from Denmark to London, and from Newcastle to Norway are being resumed, while the steamship service between the Hook of Holland and Harwich have suffered no interruption.

### German Fleet in Check.

These facts in the opinion of the authorities here, imply that the German fleet for the time being is safely held in check.

The second point is that the French have been obliged to evacuate Mulhausen and occupy new positions outside the town.

According to German reports this was the first important battle of the campaign and the French, who had 55,000 men, suffered a serious check.

In Belgium, the position shows little change. A great battle is expected somewhere on the line between Thionville and Liege between the Germans, the French and Belgians. It is thought probably it will occur within a few days.

### Germans Occupy Tongres.

The Germans have occupied Tongres, and are reported to have captured a railway station, 20 miles from Liege. Outpost affairs of no great importance are reported at numerous frontier points of the many nations engaged in the war, but except in Belgium, no great battle is likely for some time to come, as the respective armies are still engaged behind these covering actions in the work of concentration on the frontiers.

### GARRANZO SECURES REINS IN MEXICO

#### Transfer of Government Is Under Way—Federal Troops Leave.

[Canadian Press.]

WASHINGTON, Aug. 12.—The peaceful transfer of the reins of government at Mexico City from the Carraljal administration to the Constitutionalists actually began today, according to official advices to the state department.

The Federal troops evacuated the capital, leaving the city in charge of municipal police, but it was understood he would leave the capital for Vera Cruz within the next 24 hours.

With the entry of the Constitutionalists forces in Mexico City, the question of recognition of the new government will confront Washington. There is every reason to believe that recognition will be withheld until there is an election, or a political convention at which some expression of the attitude of the people toward the new government can be obtained.

### Vila Causes Trouble.

Disquieting advices are again coming from reliable sources that General Vila will not march south with his men as ordered by Carranza, but will remain in the north and demand a convention of representatives of the army as agreed to in the Torreon conference. Should this be refused by Carranza, a new revolution in the north would not be surprising to many high officials here.

### Jap Vice-Consul Arrested.

The stationer of Secretary Bryan was today drawn by the Japanese Ambassador to a report which had reached him to the effect that the honorary Japanese Vice-Consul at Manzanillo, Amador, had been arrested by the Constitutionalists. Secretary Bryan promised to look into the case, and immediately sent a message of inquiry to American Consul Sillman.

### In the same message was an instruction to secure the safety of the 200 Japanese in the City of Mexico when the Constitutionalists occupy the capital.

### EX-BOY SCOUTS FORM NEW MILITARY BODY

#### Propose a Signalling and Ambulance Corps To Assist Local Guards.

MONTREAL, August 11.—The war has called forth a host of brave new military organizations in Montreal, formed entirely of ex-Boy Scouts. An application was made to the Minister of Militia today for a charter and organization.

A signalling and ambulance corps, to assist the local guards, or to take their places, should they be called to the front, is the object in forming the new company.

# EIGHTY THOUSAND CANADIANS WILL BE IN TODAY'S MUSTER

## Response From Volunteers in All Parts of the Dominion Is Most Satisfactory—Son of the Minister of Militia Among Them—Arrival of Battleship "Drake" Relieves Suspense.

[Special to The Advertiser.]

OTTAWA, Aug. 11.—Eighty thousand names are expected on the muster roll of volunteers which recruiting officers will forward tomorrow from all parts of the Dominion.

The minister of militia states that the response in most parts of the country has been satisfactory. Men of all ages and from every walk of life have responded to the call and a fine contingent should sail from the shores of Canada within a few weeks.

There has been an exceedingly large number of applications from Englishmen, Scotchmen and Irishmen, who have been in Canada for but a short time. A good many Servians, Russians and French have applied for the opportunity of carrying a rifle in the Canadian force. In most of the Canadian centres of population men who have had militia training have volunteered in large numbers.

It is believed that the force which goes to Quebec will do great execution for the four miles of targets which have been erected there to try them out, and that the twenty thousand who cross the salt water will give a good account of themselves on the field when confronted with an enemy.

Among the volunteers is Garnet Hughes, son of the minister of militia. It seems to be the fortune or fate of (Continued on Page Three.)

Canadian war ministers to contribute to the cause when Canada is called on for a force. It will be remembered that Sir Frederick Borden sent his only son with the first contingent, and the young man fell at Passendburg. Col. Hughes applied the same rule to his Canadians, and would not accept his service until the consent of the young man's wife had been given.

**Drake's Presence Reassuring.**  
The arrival of the powerful fighting ship Drake has brought considerable comfort to the Canadian authorities, who have been anxious about shipping on the Atlantic coast. With six efficient cruisers, including the Niobe, scouting the waters of the North Atlantic, it is hoped that the German cruisers in these waters may soon be picked up and the captains of ships relieved of the anxiety which has bothered them since the beginning of the war.

There is a good deal of curiosity as to where these German boats are getting their coal with which to keep

scouting. It is supposed that their supplies come from American ports in color and the German boats at sea. On the Pacific coast apparently the same thing is being done, for there have been no reports of the German boats taking coal in any American port on either coast.

**Col. Farquhar Has Command.**  
The military secretary of the Government is going to have a Canadian command. Col. Farquhar is an officer of the Coldstream Guards. He has accepted the command of the regiment which is being raised and paid for by Hamilton Gault, of Montreal, and R. Bennett, of Calgary. It is expected that this regiment will be ready to go with the Canadian division when it is placed on transports.

The fact that the Canadian cruiser Rainbow has been reported from Cape Verde, has relieved the minds of the Ottawa naval authorities. It is known that a second and more powerful German cruiser than the Leipzig has turned up on the Pacific coast of North America, and it was feared that this vessel might have surprised the Canadian boat. However, the Rainbow is known to be safe tonight.

There is said to be no foundation for the report that the Bank of England is to open a Canadian branch for the purpose of gathering gold. It would require an act of parliament before such a branch could be opened. Then, too, the Canadian banks and the Canadian Government have already pretty thoroughly attended to the task of gathering the Canadian gold into their strong boxes.

**To Mobilize Contingent.**  
Col. Hon. Sam Hughes, minister of militia, announced tonight that the first unit of the Canadian contingent for Europe will leave for Val Cartier about the middle of next week. The whole division, it is expected will be mobilized within two weeks. Recruiting is progressing apace, and Toronto, the minister stated, has furnished enough men for the whole contingent.

**Anonymous Contributions.**  
Following the offer of \$50,000 from an anonymous Montrealer, Col. Hughes tonight received a further offer of \$10,000 from another citizen, who wishes to remain unknown. The total enrollment of the city's corps for the first Canadian contingent has reached \$90, and by tomorrow night will probably total \$100. The Second and Twenty-Third Field Battalions, F. A. will retain their identity in the contingent.

### BELGIANS RE-TAKE LIEGE FORT

#### BRUSSELS, August 11.—10 p.m.—The following official announcement was made tonight.

The Germans have evacuated the Longdon fort at Liege, and it has been re-occupied by the Belgians. The Germans also appear to have retreated at other points.

The condition of the Belgian army is good. There was no fighting today.

### SERVIANS PENETRATE BOSNIA

#### LONDON, August 12.—4:05 a.m.—News received here from Athens says Servian troops are marching into the interior of Bosnia. They are at present before Sarajevo. The Servian legation here was the source of this information and it was added that the Montenegrins had been victorious in Dalmatia, capturing at the bayonet point the towns of Boudovon and Spetsovo.

### All the Japanese of Regina Would Enlist For Britain

[Canadian Press.]  
REGINA, August 11.—All the Japanese residents of Regina are eager to join in the defence of the British empire and have applied for enlistment in the Ninety-Fifth Regiment.

"We want to fight for Britain. A number of us have known active service in the Russo-Japanese war," said their spokesman.

### HEARS BRITAIN IS CLOSED TO FOREIGNERS

#### Secretary Bryan Prepare to Make Protest to British Foreign Office.

WASHINGTON, August 12.—Reports that Great Britain has forbidden the landing of all foreigners on her shores caused Secretary of State Bryan tonight to cable Ambassador Page instructions to investigate and, if he finds the reports true, to lodge an urgent protest with the British foreign office.

### C. S. LINES' OFFER MAY BE ACCEPTED

[Canadian Press.]  
MONTREAL, Aug. 11.—The acceptance of the merchant fleet of thirty-one vessels which the Canada Steamship Lines have offered to the Imperial Government for troop transport, or other purposes, is presaged in a cablegram received by James Carruthers, president of the company, from the Admiralty office this morning. The message asks for a list and the specifications of the steamers. This is being prepared by the company's officials.

The regular passenger services between Toronto, Prescott, Montreal, and the lower river, will not be interfered with, however.

# PRETTY GIRLS SOLD FLAGS FOR HOSPITAL SHIP

## Daughters of the Empire Holding Garden Party Tonight.

[By Special Leased Wire.]

PORT STANLEY, Aug. 11.—Parties of young girls, under the auspices of the Daughters of the Empire and as a result of a handsome donation towards the Canadian hospital ship.

Wednesday night a lawn social is to be held at Port Stanley to provide funds for the same purpose. Many tickets have been sold and it is expected that it will be a huge success.

A recruiting officer for the 30th Coy. of Canadian Field Artillery of Aylmer has come to Port Stanley and has his office in Mr. J. Taylor's office. So far, but one man has signed up. He is William Laroque, one of the best rifle shots in Port Stanley and a popular member of the local rifle club.

**Cleaned Up Jail.**  
A meeting of the council of Port Stanley, at which Reeve Connell presided, was held last evening. Many things were discussed, especially that of sanitation in the jail.

It was made known that the sanitary engineer had declared the county jail and town hall at Port Stanley very unclean. He advocated a good application of soap and hot water. Councillor Hough, who attends to morning an, hired a woman in the afternoon to clean up the jail.

A humorous incident occurred while the council was in session. A man who was making picnic baskets and who swore at them, he was brought before the council immediately. They could come to no conclusion as to what charge to lay, so they fined him \$3 and let him go.

As a result of many people stating that there are no means of resuscitating the drowned while in bathing, the authorities point out that there is a St. John's Ambulance Corps right on the beach. This corps practices all winter under the instruction of Mr. John S. Parkinson, and is always ready for service.

This was readily shown yesterday when Mr. Parkinson was on hand to take charge of the St. Thomas victims when they were brought in.

Mr. W. Oakley received a hearing in the St. Thomas court today, and because of his pleadings he was allowed to communicate with his brother in Cleveland to get funds for a lawyer, his trial was postponed from tomorrow morning until Monday morning next. The London boy who was his principal victim is being kept in touch with by the authorities.

**Excursion From Dutton.**  
A large excursion was run from Dutton to Port Stanley today which, although the rain threatened in the morning, was very well attended. The large crowds enjoyed the dining at the Casino in the afternoon, while others strolled along the board walk or went bathing.

Mr. Jas. Croden motored to London yesterday to spend a few days. Many cottagers and campers went to London today to see the ball game between the Tecumseh and the Detroit Tigers.

Miss Grady, of Chicago, is the guest of Mrs. P. Dooek at their cottage, Sunny Bank, Erie Road. Miss Grady is a week, returned home to London yesterday.

### Members of French Religious Orders To Don Uniforms

### ST. THOMAS IS SENDING 125 MEN

Muncey Indian East Physical Specimen in Contingent.

[Special to The Advertiser.]  
ST. THOMAS, Aug. 11.—At 6 o'clock Tuesday night, 125 men, from the city and county of Elgin, had been recruited for the overseas contingent for service in the present war.

Of this number, all passed the medical examination with the exception of three, who were sent back. Dr. Guest making it plain to the men that it was better to be eliminated here than be sent back from Quebec.

Arnold, an Indian, from Muncey and at present working as a fireman on the Pere Marquette Railway, proved to be the best subject, the doctor stating that he was the most perfect specimen of manhood he had ever examined.

**Russian Volunteers.**  
Among the volunteers were two Russians, one a Russo-Pole who was born on the Russo-Pole frontier, near the border of Austria, the other being a Russian, who had been in both countries. Both men were employed at the iron foundry.

Dr. Wilbur E. Honsinger, the local dentist, has offered his services as an army dental surgeon, to accompany the Canadian soldiers to Europe. The doctor at one time was quartermaster sergeant of the 25th Regiment, and should be qualified for such a position.

LONDON, WEDNESDAY, AUG. 12. TOO HIGH A PRICE. NATURALLY, the press of the United States discuss the war and its issues almost, if not as much, as those in Canada.

Another stubborn resistance, equally futile in the end, was that of Paris in 1870 against the German investment. The gay Parisians lived on rats and leather soup before they surrendered.

AN OLD-WORLD STATE. PECULIAR old monarchy is that of the Hapsburgs at Vienna and Buda-Pesth. It has carried on to the present time the tradition of the Holy Roman Empire of the Middle Ages.

There is no doubt that if such a policy could be adopted, it would be a comfortable thing for Canada for the immediate present. We would save much money, much worry, and probably many lives.

ITALY'S POSITION. WE HEAR that the German and Austrian governments are still trying to draw Italy into the war on their side. It is easy to guess the consideration that sway the mind of Italian statesmen.

SOCIAL SERVICE. THE congregation of St. Andrew's Church in this city a short time ago extended a unanimous call to the Rev. D. C. MacGregor, of Toronto, to become its pastor.

So far nobody has remarked that Liege refused to declare allegiance to the Kaiser. One hundred Anglican clergymen have declared their willingness to fight or pray. The church militant.

murder as many Frenchmen as he could. At one blow the Emperor of Germany caused more suffering and death, and did more injury to the whole world, including Germany, than the churches can undo in generations of honest, conscientious hard work, along the highest practical lines of social service.

FAMOUS SIEGES. THE defence of Liege is becoming one of the great events of history. It will recall to ancient and Victorian the glorious defence of Lucknow. Old people, some not so old, will remember the defence of Plevna by the Turks in 1877. All but the babes and sucklings keep in mind Mafeking, Kimberley and Ladysmith, the snags that stopped the Boer rush to the sea.

At Plevna, Osman Pasha held the Russians from July to December. The heroism of the besieged was not availed in the ultimate issue, except that when Osman capitulated through lack of provisions and ammunition, the Russians had won the city only at enormous cost of life.

It is figured that if the various war dispatches are correct 80,000 men fell as a result of the first week's operations. And just mere skirmishes at that.

THE BATTLESHIP. [Written Specially for the Advertiser. BY ERIC ROSS GOULDING.] During the course of a somewhat varied career, among other things I have been a soldier in the imperial army and, while serving with my regiment, I have attended defensive naval manoeuvres with the Mediterranean fleet. Opinions must naturally differ as to the feelings of those who have been under fire. For my own satisfaction I have analyzed as minutely as I can my own feelings during the moments when I first heard the hissing and whistling of passing bullets and the thunder of cannon. But from an actuator of warfare on land and an imaginative experience of war at sea, I can say this only: While one is awful, the other must be terrible. I cannot at present say anything further on the subject except to suggest that most of us may imagine, in a greater or lesser degree, the appalling hideousness of a sea fight.

Reflection is always possible; and from the "Arma Virumque" of the opening lines of Virgil's "Aeneid," through the Homeric epic, Dante's "Inferno" and Milton's "Paradise Lost," even through the tremendous Hindu-Aryan epic, the "Mahabharata," our ears are deafened by the clash and clang of arms. Strife of one kind or another is the predominant note. Goethe's "Faust," too, is not free from the idea of struggle, though it is of a subtler sort. It is strife, then, natural, or to translate it into the speech of modern science, is the struggle for existence, the supreme concern of life? Undoubtedly, if we make it so. No poet arises and sing of the real glories and achievements of peace? Shall no poet lift up his voice and tell us of the quiet beauty of measured language of the peopling of a vast continent and the spiritual and intellectual progress of a great nation; of the birth and growth of democracy; of the deeper understanding between man and man, the nobility of life and the sacredness of liberty; of the righteousness of peace and the wasting and wasteful crime of destruction? I wonder!

ULTIMATE GERMAN GOAL. [Evening Sun.] British colonies have long been described by German writers as the ultimate goal of German world policy. The school of which General Von Bernhardi is the most celebrated spokesman has again and again openly demonstrated that German belief that having disposed of Austria and France and thus gained military supremacy first in Germany, then in Europe, the Germans must look forward to "The next war," with England and for world supremacy.

THE LITTLE NATIONS. [Cleveland Plain Dealer.] There is both ludicrousness and pathos in Portugal's declaration that she will, if it becomes necessary, assist Great Britain in her war against Germany. Such a statement is ludicrous because there is no conceivable situation in which Portugal would be of service. It is pathetic in indicating the uncomfortable position of the little nations of Europe, which feel that their very existence depends on whatever outcome of the war in which they are not participants.

LET US NOT EXULT. [New York Times.] It would be unbecoming in us to exult over the disasters that may befall the disunited nations. Whatever may be our opinions, whatever our views, on questions of right or wrong, wherever we may place the blame and responsibility for the calamity of war, we cannot, we should not, rejoice over the defeat of one or exit or the triumph of another of these nations for whose people we entertain sentiments of disinterested friendship. It is sufficient to us that the progress of the war must be marked by such fearful suffering, that its end must leave conquerors and conquered alike effect of anything in that line on the face of the earth. You may not believe it, but a couple of days after we got news of the capture of the city, we were to lose and told me to take it over and leave it along the river about a mile distant. Well, sir—

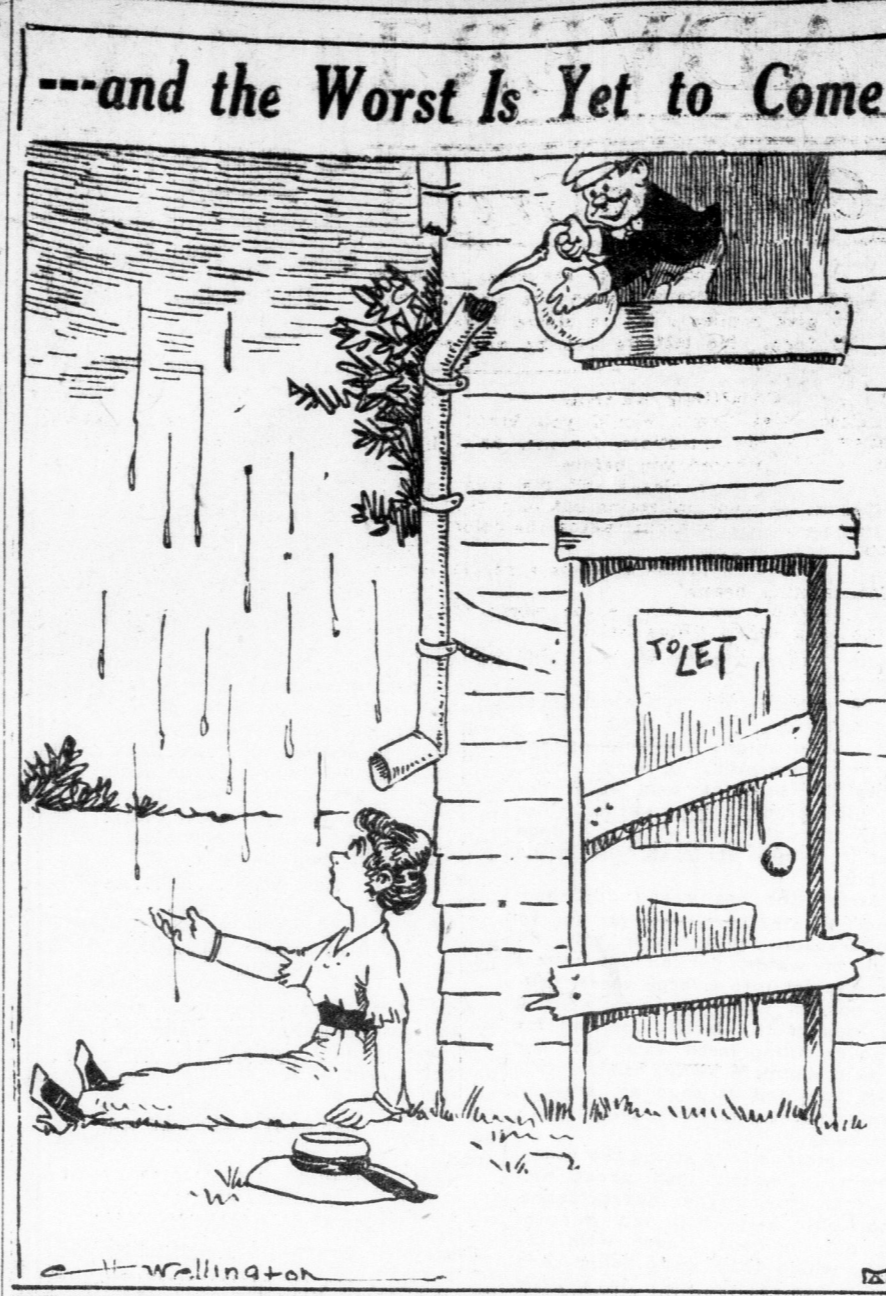

NOT A BIT STEALTHY. A thin-skirted girl in Bordeaux Wouldn't wear petticoats, oh, dear, no; She'd go out in the sun, And she'd say: "This is fun, But I hope that my ankles don't sneeze!" —Cincinnati Inquirer.

HEALTH NOTE. [Washington Post.] Although the summer is said to be good for the health, that doesn't make the young man who stays till midnight any more acceptable as a eugenic candidate.

VERY LITTLE USE. [Baltimore American.] "What's the use of a naval man's trying to put any feathers in his cap?" "Oh, much, if the plucking board gets em."

JUST HIS LUCK. [London Mail.] "You are not the boy who usually caddies for me?" "No, sir. I tossed up w' 'im for yer."

ONE WAY TO CHEER. [Detroit Free Press.] There'd be less gloom in this old world If you and I Would keep our banners lazily furled And waving in the sky. If we would do our best to smile, And grin when troubles come, And grin the place we fill the while, A least not be quite so glum.

FOOD FAMINE CRY. [Guelph Herald.] There is talk about a food famine. The ones who are "stocking their larders" are the ones who are creating the famine.

"THE DAY." [Stratford Beacon.] "Am Tag"—"The Day"—the toast the German naval officers have drunk daily for several years now professing a longing for combat with the battle-ships of Great Britain, has arrived.

The Battle of Blenheim. It was a summer's evening. Old Kaspar's work was done. And he before his cottage door. Was sitting in the sun; And by him sported on the green His little grandchild Wilhelmine.

"I find them in the garden. For there's many hereabout. And when I go to plow, The plovers turn them out. For many thousand men," said he, "Were slain in that great victory!"

"With fire and sword the country round. Was wasted far and wide. And many a childing mother then And new-born baby died. But things like that, you know, must be. After a famous victory."

"Great praise the Duke of Marlborough won. And our good Prince Eugene. 'Why, 'twas a very wicked thing," said little Wilhelmine. "Nay, nay, my little girl," quoth he, "It was a famous victory!"

"And everybody praised the duke. Who this great fight did win. 'But what good came of it at last?" Quoth little Peterkin. "Why, that I cannot tell," said he, "But 'twas a famous victory."

WASN'T FOREMAN AT ROME. [Kansas City Times.] The new foreman was a hustler. Nothing escaped his eagle eye, and whenever he saw a workman suffering from a tired feeling he quickly woke him up.

DOUBT GERMAN ARMY'S EFFICIENCY. For more than forty years Germany's military reputation has rested on the events of that war, just as that of France did on the record of the Napoleonic achievements. But of late years experts have openly doubted whether the German army has maintained the standard of efficiency it then possessed.

Ex-Queen of Servia Now Lives in a Paris Convent

Ex-Queen Natalie is spending her days of retirement in a Paris convent. It is in the guest-house of "The Solitude" that the Queen of Servia now lives. Here with a small suite for company, she devotes her time to different charitable works brought to her notice by the nuns. The guest mother, Mrs. Hettie, a tiny, frail old woman, comes in many times a day to see that all is as it should be. A photograph of King Milan stands on the chimney-piece in the saloon, and another of King Alexander and Queen Draga stands near the queen's chair.

Educated Trade. Queen Natalie is at home in the convent, for she was educated there and the loves every stick and stone in the place. Her father was married with the King of Servia did not prove a very happy one. The frightful tragedy happened so close to King Alexander, and his queen were murdered, she made her way to Paris, where she remained in "The Solitude" no other guests will be admitted. All the year round there are a great number of rooms in the convent-house, and it is always filled with visitors, old pupils of the convent for the most part, or women who, well-represented to their superior. Mrs. Hettie looks after their comfort and

OUR FOLKS' CORNER

Just a thought or two today for the business girl who may chance to be one of Our Folks, and a reader of this column—How much of WHAT what goes on inside of the WHAT DO YOU DO during business hours, TELL! you do reveal outside the office during free hours? Have you ever thought about the matter at all? Your employer's business may be a perfectly respectable one, conducted along lines that are absolutely honest, yet there may be many little details and transactions which you would not like discussed outside its four walls.

I once chanced to be in the office of a business college for a few minutes when the telephone rang. The teacher with whom I was conversing answered the call. I was a business man in this city asking for a stenographer from the school. "Send me one that can read her notes and take her mouth shut outside the office," was a very sensible way, too. Nine times out of ten you might relate little incidents of inner office life without harming your employers or his interests, but the tenth time it might be something of very grave import.

Two architects were once requested to submit estimates for a certain large building. The first man made his plans and had his stenographer write the specifications. Now, every stenographer knows, who has written specifications, they are tiresome in the extreme. This stenographer was busy at the time of the most of the day. Going home on the

London's Beauty Writers Weekly Selections from Noted Beauty Experts Writing for the English Press. Simple and Effective Methods. By Olga Amzell, Special Correspondent, London, Eng. Each week in this department I will endeavor, by careful clipping from the London papers, to keep you advised of the latest and best of the London beauty experts. Owing to the demand for such a serious consideration of beauty culture. Many of them now employ high salaried experts to advise and instruct in methods most recent for the hair, face and figure. I consider it my duty to bring you the best of these publications. Any of the ingredients mentioned could be obtained from Canadian chemists or druggists, so I am told. Look out for more hints next week. I shall endeavor to keep right up to date.

Good Shampoo Important. The hair should be allowed to breathe, and the greasy film around each strand must be removed with a good shampoo. Soaps should be tabooed. The very best soap for the purpose can be made by dissolving a teaspoonful of stearic acid granules in a cup of hot water. It stimulates the scalp to healthy action, and at the same time leaves the hair that soft, fluffy condition so much admired. Any druggist can supply you with an original packet of stearic acid, sufficient to make twenty-five or thirty shampoos.

Homemade Beauty. The very simplest things are often the most effective in making a woman beautiful. For instance, few people know that a dull or greasy complexion can be instantly brought to a pretty, youthful, natural bloom merely by the application of ordinary clematis dissolved in water. Moreover, the method is so simple and so effective that it is almost a certainty that the result will last all day long and require no powdering even under the most trying conditions indoors or out. If you have no clematis in the house get about an ounce from the druggist and add a little to the face. It is good for the skin and immediately produces that

A Flag Tag Day.

The Seventh Regiment Chapter, Imperial Order Daughters of the Empire, are arranging to hold a Flag Tag Day in London, on Saturday, August 22. The proceeds to be devoted towards the equipment of the Canadian Women's Hospital Ship. Thousands of tiny flags will be furnished the members and their friends, who will be stationed on the streets and in public places, and it is hoped that a goodly sum will thus be realized.

LONDON WOMEN WORK HAND IN HAND FOR HOSPITAL SHIP

Were Already United Before Receipt of Message From National Council President. It is, indeed, pleasant to see the manner in which the various women's organizations of Canada are working together for the equipment of the hospital ship to be sent to the British admiralty. In this city the Local Council of Women, the Imperial Order Daughters of the Empire, the Women's Canadian Club, the Red Cross Society, and the Soldiers' Wives League lost no time in uniting their efforts towards this object.

Since the receipt of the official message from Mrs. Torrington, president of the National Council of Women, by Mrs. Boomer, present time extension has been granted those endeavoring to raise money. Mrs. Torrington's message, as received through the national secretary, Mrs. Willoughby Cummings, reads: "Emergency call to women of Canada to raise \$100,000 by August 15 to equip hospital ship for presentation to Great Britain from Canadian women. We sincerely hope you will at once call emergency meeting of local council to devise plan and do your utmost to get whole membership to co-operate."

Just the other day I read a story of a young man who was employed as a very humble under-secretary in the offices of a big corporation. The president needed a secretary. Many important business secrets would be his to keep, and he must be a man through whom none of them would "leak," no matter what the provocation or temptation or circumstance. It was the policy of the corporation to promote to positions of trust men whom they had developed. They figured that they had a man who was "line" on such men, in addition to their being trained in the ways of the concern.

OLD SONGS AND POEMS

"M. A. B." sends the following verses requested some days ago by a reader: Three Leaves of Shamrock. When leaving my dear old Ireland, And in the month of June, The birds were sweetly singing, And all nature seemed in tune. An Irish girl accosted me, With a song that I never knew, And as she spoke those words to me, She bitterly did cry.

Three Leaves of Shamrock. An Irishman's shamrock grew, From his own darling sister and her blessing she gave. Take these to my brother, For I've got no one other, And these are the shamrocks from my dear old mother's grave.

The National Hymn. The suggestion that a hymn should be made to the original first line of the National Anthem—"God save our Lord King"—recalls some unavailing efforts to adapt the song to William the Fourth when he succeeded George the Fourth.

God save our noble King, William the Fourth we sing. But it had a short innings, and was succeeded by— God save our Gracious King, William, our noble King. Finally "William" was omitted altogether, its place being taken by "Long live" and thus came into existence the first two lines as they are sung today.

CANNING BEANS. Dear Miss Grey: Would you kindly answer a few questions for me, as I have not bothered you before. 1. Would you please tell me what a red string does in a can of beans? 2. Would you please give me a recipe for canning beans? 3. Would you tell me the words of the song called "Blue Bell"? 4. Am I big enough to go out alone at night?

Another method is to string the beans, boil them in water until they are tender in your own quart jars, add half-pint salt; boil ten minutes longer, put in cans; cover with the liquor in which they were boiled in a little seal. 4. You must do as you mother wishes.

REGARDING PALBEARERS. Dear Miss Grey:—I often think what marvelous patience you must have, to answer in your column. 1. If members of the church in which funeral is held, should they stand or kneel, or bow with the congregation? 2. If relative of the deceased, would they be excused the same as a mourner? 3. Can a municipal council have the funeral held in a hall? 4. Upon consulting legal advice I am told that it is necessary to have the consent of the majority.

Dear Miss Grey:—I am writing to you for a favor. Could you or any of your readers give me the words and music of the old, favorite song—"If Those Lips Could Only Speak"? "A Widow's Plea For Her Son," and also this song, "I don't know about the title or not, but the Prisoner There's the Mother of the Girl I Love."

It's a Bird Parrot & Co. Harold MacGrath's New Story. Copyright, The Bobbe-Merrill Company. He possessed the deep understanding of the kindly heart, and his one thought was Elsa's future happiness. As men of war, Warrington was an honorable man, honorable enough to run away rather than risk the danger of staying where Elsa was. He was no longer an old man, but there was that mistle, not printed in shifting sand, but upon the granite of recollection. Single he could go back to his world and pick up the threads again, but with a wife at his side, the Elsa would begin to miss the things she had so gloriously thrown away. The rift in the past, the broken horn, well-remembered, would usurp from the day when she would learn that the night before, "Paul" had written to her, "I love you."

CHAPTER XX. The Two Brothers. From port to port, sometimes not stepping off the boat at all, moody, restless and irascible, Warrington wended his way home. There was nothing surprising in the fact that he never inquired for mail. Who was there to write? The mother, and, alas! the obscure hotel, where he was not likely to meet any of his erstwhile fellow-passengers. The man of prodigious strength, of his home-going became more and more apparent as the days slipped by. Often he longed to go back to the jungles, to James, and there along the road he had tried a bit of luxury, but the years of economy and frugality had robbed him of the ability to enjoy it. He was going home to what surely there would be no welcome for him at his journey's end. He would return after the manner of prodigals in general, not spiritual, to find that he was not wanted. Of his own free will he had gone out of the lives.

DETROIT TIGERS PICKED UP THIS VICTORY YESTERDAY

Jennings' Junglers, With Cobb and Bush Missing, Perform at Tecumseh Park and Incidentally Trim Local Canadian Leaguers by a Score of 15 to 8.

[BY BERT PERRY.]

Five thousand or so London fans were disappointed, because Ty Cobb and Donnie Bush did not appear in the Detroit line-up against the local Canadian Leaguers at Tecumseh park yesterday, but it was just as well they did not.

Despite the one-sided superiority of the Tigers over the Leaguers, the fans seemed to enjoy it. The outfielders of both clubs had a busy day chasing around the lot. However, it is believed that the London outfield covered a little more ground than the Junglers.

The chief features of the afternoon were the home runs by Ray Whitcraft, the heavy-hitting get his star, and the home run by Hammond.

Whitcraft's hit was the most outlandish of the afternoon. He hit a home run over the fence, and the ball landed in the back yard of the residential end of the park.

Hammond's home run was the most spectacular. Whitcraft's hit was interesting because it was the first such a pile of runs in the first two frames.

Ben Beebe worked the first four innings against the big sluggers, and Ben was in trouble nearly all the time.

Four runs were rolled in off him in the second, and he was hit by a three-bagger by Kavanagh doing the trick.

Whitcraft's work a feature. Until the seventh inning, Whitcraft's home run was the only center of the London club could secure.

Ty Cobb's non-appearance in the game at Tecumseh Park yesterday afternoon was due to the fact that the noted star is suffering from a spike wound, sustained in Sunday's game against Boston.

Ty Cobb Signs For Three More Years With the Tigers

Sets at Rest Report That He Would Jump to Feds.—Does Not Get Increase in His Salary.

DETROIT, Mich., August 11.—Ty Cobb, prize center-fielder of the Detroit American League team, today set at rest reports that he intended jumping to the Federal League, by signing a contract to play three more years with the Tigers.

The contract under which Cobb is now playing contains this clause, but it will expire at the end of the present season.

When Cobb completes the three seasons for which he has just signed he will have played thirteen years with Detroit.

Ward was on the mound for the locals and heid the Saints safe all the way.

Wagner pitched three scattered hits, Sandham a southpaw, was given a try-out by Manager "Hedge" Craven, and was touched for eight hits for a total of fourteen bases. Sandham also walked six men.

This is the first time a Canadian League team has played here and the fans were well pleased with the showing of the locals.

Craven was the hitting feature of the game, he having a three and a two-hitter and scattered hits four times up. Kopp pulled a home run for the visitors in the eighth. Woodstock out-played St. Thomas in every department of the game, excepting on the path. Score:

In each league a sensational spurt by the clubs standing third and fourth might overturn the dope, but in the remaining 70 games this hardly is a probability.

In the National League New York is showing lamentable weakness, and if the Cubs possessed any real strength they would have a grand chance of winning.

But the Cubs are not strong—the men who have carried them so close to the top are broken by the strain.

It looks as if the Giants should rally soon and pull away steadily, as their pitching department is fresher and the team as a whole more coherent and is playing better ball.

One wonders, watching the Cubs, how they ever got up at all. They are playing wretched baseball, headless ball and without system.

That they have stolen fewer bases and sacrificed fewer times than any club in the league shows that they are following the O'Day idea of the old hit-and-run—just according to ball players is a joke in the modern game.

The Giants do not seem as strong as they were last year by 10 per cent. Pitching tells the tale; Tarsa's return to fine form has saved the Giants; the wonderful work of O'Day's pitchers has prevented the entire collapse of the Cubs.

In the American League it is a different story. The Athletics are in just as good position as they usually are at this time of the year.

The team is playing magnificent ball. Usually Mack does not get his reliable pitchers into good shape until August 1. This year they were ready on July 1 and have been coming fast.

Mack is nursing Bender and Plank for the finish, and has a lot of reserve power.

The struggle between Tinker's Feds and the Baltimore bunch is getting warmer. Tinker has been riding along on pitching and brilliant work on the bases.

Baltimore is the better club, taken 11 around, but was a long time recovering from its slump. It is playing great ball now, but the pitching is weak at times.

PETES PLAY BADLY AGAINST SENATORS

Shagmen Have Easy Time in Beating Blountmen Again.

BELTING WAS HAMMERED

Peterson Was Also Hit Hard, But Was Given Better Support.

PETERBORO, Aug. 11.—Ottawa took another hop at the expense of Peterboro. Belting was touched up for twelve hits and he was very good at all stages.

The Senators had little trouble winning, 10-3, as Peterson, although he looked like a chump, had all the luck with him and outside of the first and ninth innings he held the Petes. The hitting of the locals was very razzed, and Kelly threw away two runs. King pulled a home which caused some trouble, while Ottawa grabbed three runs after two were down and none in the second.

PHILLIES BEAT PIRATES

O'Toole Was Knocked Off the Rubber in Eighth Inning.

PHILADELPHIA, Pa., Aug. 11.—Philadelphia won today's game from Pittsburgh, 5 to 4, by hard hitting. In the eighth the home team drove O'Toole off the rubber by making four singles before a man was put out.

CALLLED IN SIXTH

Juniper Pluvius Broke Up the Giant-Card Contest With Letter in the Lead.

NEW YORK, Aug. 11.—St. Louis defeated New York today by a score of 2 to 2 in a game which was broken up by a thunderstorm as St. Louis went to bat in the sixth inning. A single by Miller drove in the visitors' winning run in the third. It was the first time this season that Mathewson had suffered two consecutive defeats.

Third Baseman Has Made His Peace With Manager Reising and Rejoins Club—Steiger and Dunn Will Be Today's Battery.

[BY BERT PERRY.]

Mike Mullin has finally made his peace with the London club management and he will appear in today's game in St. Thomas against the Saints.

Mike signified a willingness to jump back into the game yesterday afternoon with a talk with Manager Reising he left this morning with the team. Mike is anxious that the pennant come to London and he is going to do all he can to bring it here.

With him back the team should be greatly strengthened. Nelson has been playing a good game around third, but the game Mullin is capable of playing. Mike's hitting is also badly needed. Mullin always hits well in Ottawa and London and he is going to do all he can to bring it here.

There was a report around this city this morning to the effect that the London club was negotiating to purchase "Chase" and Reising, but it is now known that President Crawford, when questioned about it, said that it was news to him, and as far as he knew no effort was being made by the London club to get "Chase." The London club is however, scouting around to pick up a good twirler and one may be signed in a few days.

Deneau then took him out and took over the job, keeping the hits down to another hit. Morse, after starting twice yesterday, took up the game this morning and kept the hits well scattered.

Wretched Fielding by Hamilton Players Also Helped to Lose the Game.

HAMILTON, August 11.—The Beavers put it all over the Hamilton club today, beating them by the score of 9 to 1. Donohue was hammered hard, while his support was wretched. Bobby Auld pitched fine ball, and kept the local hits scattered. The eighth inning was the only time in which the Athletics were able to score.

With the Trotters and Pacers

Suslowood, 2:15 1/4, by Allenwood, 2:09 1/4, dam Susie J., 2:06 1/4, has been mated with Henry Setzer (4), 2:10 1/4. H. P. Pierce, of Stanstead, P. Q., Canada, has sold the stallion Del Coronado, 2:06 1/4, by McKimber, 2:11 1/4, to the Russians. Horace P. Murphy, speed secretary at Middletown, N. Y., has 150 eligible left after the third payment in his early-closing stakes at that point. Aquill, 2:08 1/4, Fred Taylor, 2:09 1/4, and Alice Arion, 2:21 1/4, in the stable of John McQuig, arrived at Peoria, Ill., recently from Muskogee, Okla. That roan mare Duchess, 2:05 1/4, in Lon McDonald's stable, is good enough to have a good pedigree, even if no one knows at present how she is bred. There is a strong probability that the new champion four-year-old trotter, Etawah, 2:04, will give another second off his record if the opportunity. James Carpenter worked Audrey Grey in 2:13 1/4 at Readville, Mass., a few days ago and expects to have her ready for the Buffalo meeting of the grand circuit. Fred Egan, trainer of Braden Direct, 2:01 1/2, etc., and George Foster, of Denver, the latter formerly of Village Farm, will open a public stable at Memphis next fall. The Autocrat (4), 2:13 1/4, is by The Initiator, 2:14, and out of Julia Mason, 2:13 1/2, by Major Mason, his dam being one of the good trotters of the half-mile tracks a dozen years ago. The pacing mare Zaida, 2:16 1/4, by The Peer, 2:15 1/2, racing of late in the Lake Erie circuit, has been sold by Minor & Hosking, of New Haven, Conn., to B. P. Tracey, of the same city. The stallion Accomac Morrill, 2:25 1/4, by Walker Morrill, 2:57, and the sire of a score or more standard performers, died recently, the property of Henry Faminova, of Leipsic, Del. He obtained his record 18 years ago at Dover, Del. P. M. Smith, of Ford City, Pa., 75 years old, who has been training and racing horses for the last 40 years, is still active and is training three in himself, one of which is Alameda Hal, 2:29 1/4. The pacing mare, Margot Hal, 2:04 1/4, by Argot Hal, 2:07 1/4, that raced so well for Lon McDonald last season and was nominated in a number of grand circuit events this season, broke a bone in her hip recently and has been shipped to her home in Tennessee. Secretary E. A. Tate received full entry lists for the Galveston, Ill., early-closers for Aug. 25-28. The top list is 19 for the 2:14 trot; 17 for the 2:20 pace, and nine each for the three-year-old trot, three-year-old and 2:07 paces. E. V. Gager, the oldest member of the New Jersey Road Drivers' Association, and one of the last survivors of the Monitor-Merritt naval battle, died at his home in Newark, N. J., recently, aged 82 years. One of his best lifetime winners was J. B., 2:19 1/4.

What's Biggest Baseball Improvement? The Umpiring, of Course!

By Hugh S. Fullerton. What, in your opinion, is the biggest improvement in baseball in the last decade? If you will think a moment you will reply that it is the umpiring. You will be correct. It has taken the Federal league to reveal to us by contrast what an improvement there has been in the major leagues, especially since the coming of the American league. The Federals are having much trouble with their umpires, and will continue to have it, unless President Gilmore adopts the tactics of B. B. Johnson and suppresses kicking and rowdiness. The same subject. But one by one they came around and now every club owner realizes Johnson was right. There are towns, of course, that are prejudiced against certain umpires. Billy Evans was hated in St. Louis until a fan nearly killed him with a pop bottle. Now he is an idol. Hank O'Day always hated to umpire in St. Louis, and perhaps because of that he had more trouble there than he did anywhere else. Bill Klem used to be a bad umpire in every game in which Chicago played, because the Cubs nagged at him at all times. Now he is one of the best. A FEW OF THE OLD HEADS WHO WEAR THE MASK AND KNOW IT'S EASIER TO UMPIRE IN THESE DAYS. Silk O'Loughlin. The umpiring in the major leagues has improved wonderfully since Johnson declared it his fixed principle to suppress all kicking and rowdiness. It is not the umpires are better men. Their work is better because they no longer are hampered and annoyed by the players. The worst umpiring of the old days usually resulted from umpires being "rattled" and harassed until they blundered worse and worse. I have seen even such men as Gaffney, Smid and O'Day, all magnificent umpires, so upset that they scarcely knew whether the play was at home or at first. Relieved of this strain and assured of support by the league, they improved immediately. In the old National league, when one faction or the other always was protesting some umpire, the work of the arbiters was poor. Ban Johnson was the pioneer in the discovery that the public does not like kicking, delays and squabbles. He drove John McGraw out of the American league by constant punishment for offences on the field, and the National league received him and permitted him to continue his tactics. Johnson's club owners did not agree with him entirely. He punished the Chicago club severely, and Fildes Jones thought, unjustly for their attacks on umpires. President Comiskey and Johnson quarreled bitterly over Veterans of many years declare that the umpiring is better only because of the changed attitude of players and public toward the umpires. Bob Emslie, Billy Evans, Jack Sheridan, Silk O'Loughlin, all great veterans of the windpuff, declare umpiring now is a downy couch compared with the old days.

Anna Bradford Paced a Mile in 2:05 1/4, Which Equals the Record for Three-Year-Old Fillies, Made by Miss De Forrest at Lexington, Ky., in 1911.

KALAMAZOO, Mich., Aug. 11.—With a world's record equalled and the track record broken, the Grand Circuit meeting opened auspiciously today at Recreation Park. In the first heat of the Horseman and Spirit of the Times Futurity for 3-year-old pacers, Anna Bradford paced a mile in 2:05 1/4, which equals the record for 3-year-old fillies made by Miss De Forrest at Lexington, Ky., in 1911. In the final heat of the 2:04 pace, Walter Cochato made the distance in 2:02 1/4. The former track record was 2:02 1/4, made by Minor Her in 1908. The 2:08 trot went four heats and was carried over until tomorrow. Maymack took the first two and looked to have the race won, but Omar won the third and fourth heats by splendid finishes in the stretch. YACHT RACE INDEFINITELY OFF

NEW YORK, Aug. 11.—In view of the grave conditions in Europe, the New York Yacht Club does not consider it proper for the races for the America's Cup to be held this October. G. A. The Athletics made five runs on one hit against the White Sox. If they maintained that gait all season figure how many runs they would score. Anyhow, we'd like to hear Germany Schaefer and Larry Lajoie argue this war thing.

One of the intercepted wireless dispatches was from the British cruiser Lancaster via Cape Race and addressed to the battleship Britannia, care of Halifax.

Any kind of violence against the civilian inhabitants was strictly prohibited, except when we were attacked. Then we had orders to shoot without hesitation in self-defence.

After a few hours the Belgians got over the first fright and fraternized with the invaders as far as possible with the difference in languages.

The retreating Belgians soon began to tear up the permanent way, so we had to take to the road again and march. The use of the railway to and beyond Verviers caused our sudden appearance before Liege.

Then we went through days of horror. I took part in the earlier attacks on the Belgians defending Liege, and though I am not a coward, the sights I witnessed and the wholesale slaughter of our men filled me with dread.

As we pressed forward, our ranks became thinner and thinner. Shells burst among us, killing and wounding, and such wounds were far worse than death itself, while the rifle fire of the Belgians mowed down our men in dozens, scores, hundreds!

Have you ever been under fire, ever pushed forward against the invisible enemy with comrades dropping either dead or mutilated all around you? Ever seen the effect of modern artillery trained on masses of human beings. Ever seen heaps of dead and heaps of wounded all mixed together. Ever heard the cries of fallen soldiers who were obliged to leave to their sufferings in order to continue the battle.

As Though in Sham Fight. We marched straight at the enemy's lines and toward the mouths of hostile artillery as if on manoeuvre in a field with sham opponents. It was not war as war should be conducted in this age with more destructive weapons.

After the first assaults, with their disastrous endings, the spirit of the attackers was broken. Deep depression followed the buoyant charge with which we marched into the enemy's country.

Then, when only a fraction of our regiment survived, we moved to a different part of the battlefield, while fresh troops were brought up to go through the same course of action.

PEOPLE OF BERLIN BLAME THE KAISER FOR PRESENT WAR

So-Called German Town of Canada in Sympathy With Britain.

Waves Over City Hall After Varying Instructions Had Been Given.

When the Advertiser representative approached leading and representative citizens this evening, with the object of obtaining their views on the Kaiser's attitude in the present conflict in Europe, with few exceptions, while freely expressing themselves they declined to have their names placed in print.

While Berlin is regarded as a German centre, if a canvass was taken of the city now, you would find it ninety per cent British," said one citizen.

Blames the Kaiser. Ex-Mayor Allen Huber, who said he could speak for the descendants of the Pennsylvania Germans who came to America from Germany two hundred years ago, expressed strong British views.

It might be added that one frequently hears the same reference to the Kaiser in the street here.

Our war is not with the Germans. We have no quarrel with them as a people. It's a war against the dominant spirit of militarism and egotism of the Kaiser," said Mr. Huber.

Sympathy With Britain. While there are many Canadians of German descent in Berlin, they freely express themselves in sympathy with Great Britain.

Engages With British Boat North of San Salvador—Damage Not Reported.

[Canadian Press.] BOSTON, Aug. 11.—A battle at sea between a British cruiser and a German cruiser, about 250 miles north of San Salvador, was reported by Captain Terjesen, of the Norwegian fruit steamer Lovland, which arrived tonight from Banes, Cuba.

The battle, he reported, occurred Thursday night, August 6, in approximately latitude 27 north, longitude 74 west, and heavy firing was in progress for half an hour.

NEWPORT, R.I., Aug. 11.—Reports that a British cruiser and three French warships were seen off the coast of Southern New England today were received here tonight. Their names could not be learned. The English vessel was sighted close to the Nantucket south shoals lightship. The position of the French warships was not given.

GERMAN WARSHIP FORCED TO FLEE IN THE ATLANTIC

Engagements have taken place principally along the line between Piermont and St. Trond, and half-way between Esnaemel and Gussenhaven. Engagements have also taken place near Tongres.

The German cavalry have everywhere been repulsed with loss. These engagements are regarded as a prelude to a German offensive movement to the north of Liege. It is thought that they may foreshadow more important fighting and a big battle in two or three days.

BELGIANS HAVE SITUATION IN HAND. TIRLEMONT, Belgium (Via London), Aug. 12.—12:25 a.m.—Fighting occurred near here Tuesday between German and Belgian cavalry. Seven Belgians were killed and a few wounded.

It is reported that 4,000 Germans are in the neighborhood of the town, but the Belgians seem to have the situation in hand and the town is perfectly calm. At 5 o'clock there was no sign of the enemy, except for an aeroplane, which flew over the station. A handful of Belgian soldiers fired at it, but without effect.

GERMANS TURNING TO THE NORTH. BRUSSELS (Via London), Aug. 12.—Ten thousand German cavalry with Gatling guns, and followed by infantry, are operating between Tongres and St. Trond. This seems to indicate a change in the German tactics and a turning movement to the north.

FORTS BRING DOWN GERMAN AEROPLANE. BRUSSELS (Via London), Aug. 12.—1:55 a.m.—The newspapers here announce that an aeroplane flying over Namur was brought down by the fire of the forts, and that two officers in

Tore Down Belgian Flag. "Nothing of the kind happened and we marched to the offices of the municipality and tore down the Belgian flag, which was replaced by a German flag amid the cheers of our men.

A German officer took over the administration of the town and began by requisitioning food and other supplies and various kinds of subsistence for the German troops.

Among the regulations enforced was one compelling the townspeople to be within doors by sunset, and not leave their houses before sunrise. They were forced to find quarters for our men and hand over the bread from the bakeries, which were kept working day and night.

Any kind of violence against the civilian inhabitants was strictly prohibited, except when we were attacked. Then we had orders to shoot without hesitation in self-defence.

WOMEN DEFENDED VILLAGE AGAINST GERMAN INVADERS

Used Boiling Water When Ammunition Ran Out—Disabled 2,000 Uhlans.

PARIS, Aug. 11.—Via London, 3:50 p.m.—According to a special newspaper dispatch the women workers in the Belgian national armory factory at Herstal defended their village against the German attack while the men were away serving in the army, the women, according to the correspondent, determined that the German troops should not take the factory.

When their ammunition was exhausted, the women barricaded themselves in the houses, from which they poured boiling water on the German soldiers in the street.

The correspondent says 2,000 Germans were disabled by wounds or scalds. Children and old men shared the coming of the British and on Friday the Belgian colors still floated from the factory building.

[Canadian Press.] OTTAWA, August 11.—Col. Hon. Sam Hughes, minister of militia, stated tonight he has received enough offers from American citizens in various parts of the United States to compose four companies to go to the front.

This is in addition to the offer received from Los Angeles, where there are 200 Britishers ready to fight.

[Canadian Press.] New York, Aug. 11.—Three New York detectives, who went to Europe to bring back persons indicted here, must return without their prisoners, a news item has been received from the United States in Paris by the state department in Washington. It was explained that extradition is suspended during war times.

UNSKILLED LABOR WILL BE AT PREMIUM

Immigration to United States Shows Big Falling Off.

[Canadian Press.] New York, August 12.—The falling off in average passengers from abroad last week as compared with the same week a year ago was 300,000, which, according to steamship agents and contractors, means a corresponding decrease in the supply for the labor market. Should the war continue any length of time, the impression prevails that unskilled labor will be at a premium for some time to come.

**SUGAR PRICES JUMP; SOAP FAMINE LIKELY**  
Starch, Flour and Oatmeal Also Advance—War Prices Already Felt Here.

War prices are already being felt in London. Yesterday sugar was advanced in price 50 cents per hundred pounds.

Local wholesalers strongly disclaim responsibility for the advance in price. They are obliged to make on sales to their customers the same advance that they say flour has made to them.

One wholesale man, in disclaiming any responsibility on the part of the wholesalers for the advance, pointed out that, although the Government had declared that it would not permit any dealers in provisions and food supplies to raise their prices, it had itself automatically raised the price of flour 50 cents a hundredweight above the prevailing price in purchasing at that advance 1,000,000 bags as a gift to the British government.

Oatmeal had advanced 35 cents on every 50 pounds, and is now \$2.90 a bag. Starch has advanced half a cent a pound. Some soap firms are refusing orders, and others are quoting advance prices.

**I. O. O. F. HOLDS ANNUAL SESSIONS IN TORONTO**  
Nearly 1,000 Delegates and Members Are Attending Convention.

[Special to The Advertiser.]  
TORONTO, August 11.—The annual sessions of the Independent Order of Oddfellows in annual convention this week in Toronto, have attracted, besides nearly one thousand delegates, a large attendance of members to witness and take part in the demonstrations.

Today the Grand Encampment opened proceedings in the new hall on College street. The officers and representatives present number about 150. The reports of the officials showed three new encampments, instituted during the year, and a net increase in membership recorded of 525, bringing the total up to \$18.

The department council of the Patriarch's Militant, the uniformed branch of the society, also convened. A steady increase in their ranks was reported.

The Rebekah assembly, the supervising body of the ladies' department, is also in session. Fifteen new lodges were instituted during the year. The total membership at the close of 1913 was 10,417. This branch of the society assists largely in the charitable and relief work of Oddfellowship in the province. The members have also taken extensively the Triple Link Aid, which works in connection with St. John's Ambulance Association of Great Britain, instructing in the best methods of rendering first aid to the sick and injured, whether in peace or war.

Tomorrow will be devoted to the meetings of the various committees, and on Thursday the Grand Lodge itself will convene.

Dorchester, Mossley, Gladstone, Avon, and Other Places Celebrated.

Merchants of Dorchester, Mossley, Harrietsville, Gladstone, Crompton, Avon, Nileston and Putnam held their annual picnic yesterday on the Gun Club grounds at Dorchester.

Clear skies, an immense crowd estimated at 2,500 people, and a complete program of sports made the picnic an enjoyable one which will go down in the history of the Merchants' Association as being one of the most successful picnics the association has ever held.

In the morning a ball game was played between Gladstone and Nileston, the former winning by a score of 7 to 0. A number of special events were held during the day and prizes were awarded to the winners.

A lady was presented to Mr. and Mrs. M. Hill, Nileston, for being the oldest married couple on the grounds. Mrs. Corriah, aged 87, received a bedspread for being the oldest woman at the picnic. The oldest man on the grounds, L. Johnson, aged 87, received a pair of shoes.

**FORWARD NAMES OF VOLUNTEERS**  
Lists of Men Enrolled for the Canadian Contingent Sent to Ottawa.

**6TH BATTERY OFFERS 150 Men From Seventh and Many From Special Corps Eager to Go.**

The names of all the members of local militia units who have volunteered for service in Canada's overseas contingent were forwarded to Ottawa last night, except in the case of the Army Service Corps, whose commanding officer, Major W. G. Coles, wired headquarters at the capital that the corps would be ready to serve as a unit at full war strength when called for.

The war establishment is 83 officers and men and, while this strength has not been reached as yet, Major Coles is confident that that number will be exceeded within the next few days.

**Battery May Go As Unit.**  
The list sent in by Major Wood Leonard, of the Sixth Field Battery, contained 115 names, and as this is only one short of war establishment, he feels that the battery stands a really good chance of being taken as a unit, in which case he and his fellow officers would retain their rating.

In addition to the names sent in, an additional list is being prepared, and already contains the names of more men who are prepared to serve and who have passed the medical examination. Tomorrow, Major Leonard will send the Minister of Militia that these additional men are available.

Two Hundred Men Volunteered.  
In all, nearly two hundred men of the regular volunteers, but nearly a quarter of that number were disqualified by the examining physician.

The list forwarded by Capt. E. V. Bunn, of the 10th Field Battery, contained only twelve names, but as the captain pointed out, this is the most exacting branch of the service, and therefore, physical, mental and otherwise, are concerned. In the first place, every man must be fit, in height and have a chest measurement of at least 36 inches. He must only have to be 5ft. 3in. in height and 33½in. in chest measurement.

Engineers Have Hard Tests.  
The German and British Governments have agreed to a highly technical, involving as it does knowledge of bridge building, water testing, distance calculation, etc. In spite of these facts, which are the most exacting branch of the service, 25 volunteered, sixteen falling to pass the medical test.

Hussars Join Battery.  
A number of the Hussars, however, signed on with the battery, two joined the Army Service Corps, four the Engineers, and two, who have been employed in the military police, joined the Army Medical Corps. The list sent in by the Hussars, which is the most exacting branch of the service, contained only three names.

Major Abel, the officer in command of "A" squadron of the Hussars, has offered himself for enlistment with the Hussars, and offers to lead the Hussars, which is under the command of Captain G. N. Weekes. The corps is prepared to send half-a-dozen men.

Number two section of the first company of the Hussars will send two officers and six non-commissioned officers and men, if all those whose names are on the list sent to Ottawa last night are accepted.

The Army Medical Corps list includes 30 nurses, of whom 15 are graduates of Victoria Hospital, and six doctors. The local branch of the corps, that have volunteered, but some of them are attached to the Fourteenth Field Ambulance, of Windsor, and others to the various regiments in the division as medical officers.

Many Doctors Volunteer.  
All the regimental doctors have volunteered.  
Captain Dr. A. E. Snell, commanding the A. M. C. in London, received notice last night that he would be sent to Ottawa to take the place of the late Major Abel, who was killed in action.

Meetings to wind up the business of last week's reunion were held by the band, badge and sports committees of the London Old Boys' Association in the Royal Bank building last night. The passing of accounts in committee was the chief item of business in each case.

**CONGENIAL WORK.**  
And Strength to Perform It.  
A person in good health is likely to have a genial disposition, ambition and enjoy work.

"Until recently," writes a Western girl, "I was a railroad stenographer, which means full work every day. I like many other girls alive in a large city, I lived at a boarding house. For breakfast was bread, greasy meat, soggy cakes, black coffee, etc. I used to feel sleepy and heavy in the mornings. My work seemed a terrible effort, and I thought the work was to blame—too also weak."

"As I thought the work was to blame, I had heard my father speak of a young fellow who went long distances in the cold on Grape-Nuts and cream and nothing more for breakfast. I concluded if it would tide him over a morning's heavy work, it might help me, so on my way home one night I bought a package and next morning I had Grape-Nuts and milk for breakfast."

"I stuck to Grape-Nuts, and in less than two weeks I noticed improvement. I remember I used to walk the twelve blocks to work and knew how good Grape-Nuts was for me. I was simply to live."

"As to my work—well, did you ever feel the delight of having congenial work and the strength to perform it? That's how I feel. I truly believe there's life and vigor in every grain of Grape-Nuts."

Named by Canadian Postum Co. Name given by "Read The Road to Windsor," in pigs. "There's a Reason," "Wellville," in pigs. "There's a Reason," "Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest."

When the returns from all wards are in the population will show an increase close to 1,000.

The news had been sent him officially from Ottawa, and its result should be announced in the easing of insurance and exchange on cargoes, with the result that the wheat, now held in Montreal harbor, should speedily start on its way to Liverpool.

In addition to this it will mean that for the present, at any rate, there will be little delay or difficulty in the sailing of passenger vessels from Montreal and Quebec.

**GERMAN EMPEROR HAS NEW VERSION OF LIEGE BATTLE**  
Says Belgians Were Put to Flight by Equal Number of His Troops, and Abandoned Arms.

BERLIN (via Copenhagen), Aug. 10, to London, Aug. 11.—2:20 p.m.—Emperor William today received James Gerard, the American ambassador, in the palace garden and conversed with him at length. The Emperor appeared to be in a serious mood, but contented. He spoke of the capture of Liege, where, he said, the German and Belgian troops were about equal numerically. The Belgians, he added, were behind fortifications, but the Germans charged with bayonets and destroyed everything. The Belgians were put to flight, abandoning arms in great numbers.

The German and British governments have requested the United States to intervene with the purpose of fixing a time for the merchantmen of the two countries to quit the ports of enemy countries.

The first list of losses in the fighting was published today. It contained 61 names. Many rumors are in circulation here. Among them are statements that Namur, Belgium, and Belfort, France, have been captured. There is no confirmation, but the reports are believed here to be true.

**BIRMINGHAM TOOK JUST TWO SHOTS TO END SUBMARINE**  
British Gunner Sank U 15 by Magnificent Aim, Both Projectiles Being Effective.

[Canadian Press.]  
EDINBURGH, Aug. 12.—The Scotsman today prints the story of an eye-witness of the naval battle between British cruisers and German submarines on the Dutch coast of the North Sea, in which the submarine U 15 was lost.

"The cruiser squadron on Sunday," the story runs, "suddenly became aware of the approach of the submarine flotilla. The enemy was submerged, only the periscopes showing above the surface of the water. The attitude of the British in the face of this attack was cool and the enemy was utterly misled when suddenly the Birmingham, steaming at full speed, fired the first shot. This shot was carefully aimed not at the submerged body of a submarine, but at the thin line of the periscope."

"The gunnery was superbly accurate and shattered the periscope. Thereupon the submarine, now blinded and unable to see the water in the immediate danger of self-destruction from collision with the cruisers above, dived to come to the surface, whereupon the Birmingham's gunner fired the second shot of the fight. This shot struck at the base of the conning tower, ripping the whole of the upper structure clean and the U 15 sank like a stone."

"The remainder of the submarine flotilla fled."
