NEW MARKET WAS DISCUSSED

Building Committee Discuss the Project and May Make Some Changes.

Several Suggestions Thrown Out—Aldermen Will Report Back to the Council.

The new market for Chatham may be altogether different from the designs shown in the store windows of the city. Mayor Cowan, at the meeting of the building committee last night, favored wiping the front-piece off the plans and just building the shed and police station. The Mayor's idea was to have a lawn with flowers and seats where the old market building now stands.

Ald. Westman favored the Mayor's idea as far as cutting off the front of the market was concerned, but he preferred to fix up and leave the old building. He claimed that the Mayor's lawn or, as he humorously dubbed it, his worship's flower patch, would never be made to blossom like the rose.

Mayor Cowan said that some day, and it might not be in the far distant future, the society would want the whole of Harrison Hall, and the city would have to build a City Hall. If the front of the market were left vacant, this spot would make an excellent site for the required building. The suggestion met the favor of the committee and it was decided to recommend to the Council that the front be cut off.

Chairman King, the Mayor and Ald. Potter, Westman, Ainsworth and Edmondson were present. The estimates of the cost of the various buildings were gone over. The Rutley building was estimated to cost \$28,769.10, the Wilson building \$30,166.72, the Piper building \$29,360.05.

Mayor Cowan said that he understood that Mr. Piper hadn't been given a fair show. Ald. Edmondson said that he didn't know about Mr. Piper being in town and he had only had from Friday till Monday to get up his plans. Afterwards, he was given a week.

The material in the old market was estimated to cost \$934.20. The Mayor thought this a little low.

Ald. Ainsworth said he would rather give \$425 for bricks than \$2 for them standing in the building.

Ald. Potter—What makes the difference in the cost of the Wilson building and the Rutley building? Mr. Gonne—The Wilson building is a good deal longer and wider.

Ald. Potter—Shouldn't there have been a definite length?

Ald. Westman—The architects were all given the same length. Mayor Cowan—We've got to build a market. It is badly needed and the people voted for it. We're not bound to accept any plan and I'm not in favor of any of the plans submitted.

On the front part of the market some thousands of dollars are being spent on four butchers' stalls and offices upstairs that are not needed. The time is coming when we'll have to get out of Harrison Hall and then we'll have to build a City Hall. I would suggest that the old building be cleared away and the site made into a nice square, sodded and beautified with flower beds. The spot could be made attractive and reserved as a site for a City Hall. We can put up the market shed and police station for from \$12,000 to \$15,000. This we would save the 11-12 per cent. interest we would have to pay on the money invested.

Ald. Edmondson thought that the Mayor was looking too far into the future. The city of Woodstock now regretted that they hadn't built a larger market and they had the finest building in Ontario for the size of the place. Their building was a source of revenue.

Ald. Potter endorsed the Mayor's proposition. He had been in the present shed when it was raining and had to keep his umbrella up. He would hold up both hands for an up-to-date market building, but he didn't want anything so elaborate. He was opposed to competition with merchants in renting offices and meat markets. He didn't think it right and fair to those who had money invested. He believed in a first class market for the sale of produce. The meat business wouldn't be done in the centre of the city any more.

Ald. Westman was inclined to the Mayor's suggestion as to cutting off the front, but he opposed the lawn idea. He preferred to leave the old building and spend about \$2,000 in fixing it up. In its present dilapidated state it provided a revenue of \$500 per annum.

Ald. Ainsworth was not in favor of spoiling the building by taking the front off. The city had had the old market for the past 50 years, and for the next 50 they should have a respectable building. He didn't think there would be any trouble in renting the stalls.

Chairman James King agreed with the Mayor and Ald. Potter. He thought the cost of the front too great for the revenue. He didn't believe in putting the police station on the market square.

Ald. Westman—We're putting it there for economy's sake. He suggested that the committee visit the market.

Ald. Westman moved, seconded by Ald. Edmondson, that the plans of Mr. Rutley be approved of, subject to change, that the front section, including the offices and stalls, be dispensed with, and Mr. Rutley be asked to make a sketch of whatever alterations may be deemed necessary. Carried.

Ald. Potter said that he would like to second the motion, but he felt that the other architects should be given a chance.

Ald. Potter moved in amendment that the matter be left open for the three architects to compete for new plans for a market shed and police station, but he could get no second.

IN GOOD SPIRITS

Rumor of Mr. Bowyer's Serious Illness is Without Foundation—Will Visit City Shortly.

The report has been circulated in this city that Philip H. Bowyer, M. P. of Ridgeway, was seriously ill with pneumonia and in some danger, and many inquiries have been made. The Planter, this morning from anxious friends of the popular East Kent representative.

The Planter is pleased to be able to authoritatively deny the report. Mr. Bowyer, who has not been in the best of health since the death of his only son recently, is somewhat "played out" by the ardor of the strenuous campaign, but is otherwise in first class spirits. He expects to visit his friends in the Maple City in a few days.

TRUE SPIRIT

Mail and Empire Pays an Appropriate Editorial Tribute to James Clancy

To-day's Mail and Empire says editorially:

There are chivalrous men on both sides of politics. Mr. Clancy, who was defeated in West Kent, went over to the Liberal committee rooms and congratulated Mr. McCaig, his successful opponent. The Liberals gave three cheers for Mr. Clancy. On the other hand, Mr. D. C. Cameron, the Liberal who was defeated in Fort William, was the first to telegraph congratulations to Dr. Smellie, the victor. It is always best to take these things in a manly way.

HIS LEG WORTH \$10,000.

English Boy and His Father Being Wounded Farmers For Injuries.

Toronto, Jan. 31.—Eric Tolgate, aged 16, came to Canada from England last August to learn farming. He is a son of Stanley Tolgate, a clerk in Law Society Hall, London, England. He also claims to be a nephew of Admiral Rowley, commander of King Edward's royal yacht, Victoria.

When young Tolgate arrived in Toronto he was engaged by the sisters Heggler, Lizzie, Susan and Emily, who own and run a farm in Milliken township. He was to be paid \$6 a month and board.

On Sept. 30, while the corn was being cut, Tolgate got caught in the mower. The result was that his leg had to be amputated. He claims that it was a windy day, that Miss Lizzie had charge of the machine and was driving the horses with plow lines and that she did not pursue a straight course up and down the field. He was gathering the cut corn when he was run down by the machine.

He is suing for \$5,000 and his father asks for the same amount. Justice Tuetzel and a jury are hearing the case. The case will be finished this morning.

TAKES HIS OWN LIFE.

Young Dereham Farmer Shoots Himself in the Head.

Ingersoll, Jan. 31.—Yesterday morning Coroner Neff was called to Dereham where a young farmer, about 34 years of age, named William Quinn, committed suicide by sending a bullet from a revolver into his brain. The rash act was done at the home of his brother, Charles Quinn, at an early hour in the morning. Death was instantaneous, the bullet having entered the head just above the front of the right ear. The circumstances go to show how determined Wm. Quinn was to take his own life. For an hour previous to the firing of the fatal shot he and his brother Charles sat together, during which time William repeatedly threatened to take his life. He accomplished his purpose when his brother went out, leaving him alone.

The Lady and the Man.

Montreal, Jan. 31.—Short-sightedness on the part of the lady is not sufficient reason for breaking off a marriage after the bans are published. Especially is this so when the lady has worn glasses for years. This was the reason Justice Archibald yesterday gave judgment in favor of Miss Anna Fiehe in her suit for breach of promise against Damase Limoges. She had sued for \$10,000 and she admitted having promised to marry the young lady and having had the bans published. He had discovered a couple of days before the marriage that she was short-sighted, although she had always worn glasses since he first knew her. His reasons were not good enough for either the lady or the court.

CABINET IS TENACIOUS

Ross and His Government Still Hang On to Office.

Resignation of Defeated Ministry May Be Delayed Several Days Yet—Clearing Out What They Consider 'Unimportant' Documents, Delays Prompt Response to the Will of the People—Twelve Sandfield Macdonald Appointments.

Toronto, Jan. 31.—Whatever else may be said of the defeated Ross Cabinet, it does not possess the virtue of resignation. There was no news for the press after yesterday's Council meeting. Hon. J. M. Gibson, who has gone to Baltimore to consult Dr. William Osler, and Hon. F. E. A. Eventurel, were the only absentees. Mr. Eventurel's absence is not explained.

When the ministers came out of the inner room where they have been wont to hold converse with their chief, they were unusually cheerful. Mr. Mackay carried an armful of orders-in-council, a portion of the accumulated work of his department. He said he was clearing up these matters as rapidly as possible, but he gave no intimation of when he would have a clear table for his successor.

Several Days Yet.

From what could be gathered, it may take several days yet before the Premier will hand his resignation to the Lieutenant-Governor. The Cabinet will meet every day until the business is cleared away for the new Government.

There was considerable activity about the buildings during the afternoon, when a staff of men were busy unpacking and delivering to the Provincial Secretary's Department a large number of letter files. The only explanation offered was that the new Provincial Secretary had inaugurated a new system of filing documents and had found that new files were necessary. In another quarter it was hinted that the files were required for all the departments and that the old cabinets and drawers were being ransacked and all important documents re-fyled, the unimportant papers being consigned to the waste basket.

Due to Clearing Out Process.

The delay of the Government in vacating the building may be due as much to this clearing-out process as to the desire to close up all matters and leave a clean slate for the coming Government. A clerk in one of the departments expressed the opinion that the pending matters could just as well be left for the consideration of the new Government as the deputies had kept the routine well up to date during the time the ministers were busy in their constituencies.

There are twelve civil servants at the Parliament buildings who were appointed by the John Sandfield Macdonald Government. They are: J. F. C. Usher of the Registrar's Department; C. H. Sproule, Provincial Auditor; G. B. Kirkpatrick, head of the Survey Department; D. G. Ross and R. H. Brown, Crown Lands Department; F. J. Glackmeyer, Sergeant-at-Arms; A. H. Sydere, Assistant Clerk of the House, all appointed in 1897; J. P. Edwards, Public Works Department, appointed in 1898; K. Tully of the same Department, and Col. Delamere, Postmaster, appointed in 1899; Edwin Johnston of the Provincial Secretary's Department, and P. Simser of the Prisons Department, appointed in 1870.

CONSPIRACY CHARGE FAILS.

Magistrate Parker Finds There Was Not Sufficient Corroborative Evidence.

Pickering, Jan. 31.—The whole countryside came in to hear the conclusion of the Brown affair before George Parker, J.P., in the Town Hall yesterday.

Mr. Robinette opened the case by reviewing the evidence as presented. He argued that the evidence did not convict. Drunkenness was no excuse. Because these accused were Liberals was no plea.

Crown Attorney Farewell, in a full treatment of the case, tried to show that drunkenness was the important element in the case when we consider how and for what purpose it occurred. He had Brown's sworn evidence that he did not bribe. As for conspiracy it was not necessary that the parties got together to agree to work a game on Brown. The peculiar features were that the charges were all made at the same time for the same purpose and published as soon as possible. He quoted the statutes liberally to show that probability played a leading part in the case. The fact that Palmer had overheard Vanstone say that they had got even with the Gamey affair showed the game that was being played.

Magistrate Parker, in summing up, placed the leading facts clearly before the court in a manner which showed some judicial turn of mind and held that not enough corroborative evidence was given to warrant a committal. He, therefore, had to discharge the men, Squires, Vanstone, Law and Stanley, on the charges of conspiracy. The remaining charges were not pressed, it being agreed that no civil actions would ensue.

NO SHENANIGAN.

Some very good Conservatives, points out the Hamilton Spectator, may be tempted to go in for retaining some of the machinery by which the Ross government has been able to defy public opinion and hang on to office in spite of the adverse vote of the people. Among this machinery are the numbered ballot and the Mowat gerrymander.

The numbered ballot is a farce. A few years ago it was made "safe" by compelling the returning officers to swear they wouldn't tell. The effect of that in a great many cases was to add cheerful perjury to the D.R.O.'s other partisan accomplishments. The information always "leaked out," and the licenses and other rewards for good party work were distributed accordingly.

No matter what the temptation to retain the numbered ballot as a sort of tit-for-tat possibility, it must go. Ontario elections must be conducted honestly and honorably.

The working of the infamous gerrymander inflicted upon Ontario by the late Sir Oliver Mowat has been seen in the fact that during the past two years Ross has been able to hang on to power and legislate for the people while he lacked 7,000 of being as good as Whitney in the popular vote. The Mowat gerrymander was much worse than the Sir John Macdonald gerrymander. The latter observed the "sacredness" of the township boundary, while Sir Oliver cut townships into two.

There need be no hurry about wiping out that gerrymander. Any time during the next four years will do. But there must be no trace of it on the map of Ontario when the next elections come on, four years hence.

Ontario must have honest government, by honest men, elected by honest methods.

TRUST THE PEOPLE.

One of the most apparent influences from the provincial election returns is that the Liberal convention held in Massey Hall did not carry a constituency for the Ross Government. It is a question if Mr. Whitney benefited to the extent of one constituency from the Conservative convention.

A party convention is effective only when it is so timed as to give party leaders a chance to prove the worth of their resolutions. It was a pitiable conception of the intelligence of the people of Ontario which assumed that the Ross Government was any better the day after the convention than it was the day before. The great body of the electorate was not led into any such palpable error. It held and rightly held that if the Ross Government had been actuated by honest motives it would not have waited until a few weeks before the elections to tie itself up to good resolutions.

The Conservatives went to unnecessary pains to counteract the supposed effect of "the great Liberal convention." For them as well as for the party which has gone down to defeat, there is a lesson in the election returns. That lesson is to trust the people.

The people are strong in their devotion to principle and indifferent in their regard for details of administration. They will not be turned from consideration of principles of government by the weak devices of party organizers, party speakers and party organs. Elections are not won and lost in campaigns. They are won and lost in the records which the respective parties make for themselves in open battle for public rights.

In the campaign which has just closed, false noises, Jesuitical appeals and misrepresentations of all kinds were piled up in defence of the Ross Government. The clear insight of the people penetrated this chaos of deceit, brought forth the real issue, and pronounced judgment on it. The lesson of it all is that the party which is right can afford to trust the people. The party which is wrong will do well to beware of the people.—Toronto World.

Sir Wilfrid Laurier, at Ottawa, made a personal appeal to his friends to vote for the Ross Government. Not many of them seem to have heeded what he said. He broke an old Liberal rule that kept federal and provincial politics separate, and got himself a share of Mr. Ross' friends' humiliation.

WHY DOES

A BABY CRY?

Because it is either hungry or in pain. Properly nourished it will usually grow up right and be comfortable—that's the principal thing for a baby. If its food lacks strength and nourishment add Scott's Emulsion at feeding time. A few drops will show surprising results. If a baby is plump it is reasonably safe. Scott's Emulsion makes babies plump.

GRIP'S GREATEST FOE.

A Scientific Method of Mastering The Grip.

MAKE A MEMO.

Make a memo of the fact that there is only one safe and certain way to deal with Mr. Grip. Soak him. Do it with Stuart's Catarrh Tablets. You say: "What has Calarrh to do with Grip?" Why, Grip is Catarrh, nothing else. Catarrh attacks in numberless different forms. One of its worst forms is Grip. Grip's greatest foe is Stuart's Catarrh Tablets, because Stuart's Catarrh Tablets are rare and do to Grip the greatest damage of any remedy or medicine you can take. They are much superior to quinine or any of the old unscientific methods of dealing with the disease, because quinine is quackery, and Stuart's Catarrh Tablets are rare and simple scientific combination of germicidal and tonic ingredients, which have a positive specific effect upon every form of catarrhal inflammation in the body—including Grip. Grip is a fatal disease. Not so much in its own particular symptoms, though these are bad enough, but because of the fact that the after effects are so lingering and dangerous. Grip pulls you down, so you feel weak and miserable for months. The only tonic that will build you up is Stuart's Catarrh Tablets. Grip weakens the heart, kidneys and lungs. Thousands of deaths from Heart Disease, Bright's Disease, Pneumonia, Consumption, are directly due to the weakening results of the Grip. The only medicine that will prevent the Grip from developing into these direful diseases is Stuart's Tablets. Stuart's Catarrh Tablets succeed in curing, and in preventing the dangerous after-effects of the Grip, for one great and sufficient reason: They are not a general tonic remedy. They are a scientific specific for just this one form of disease. Catarrhal inflammation of the mucous membranes. They are a curative, not a palliative. Beware of the deadly grip of the Grip. Fight it off with Stuart's Catarrh Tablets. Sold at all druggists at 50 cents a box.

UNCLE TOM'S CABIN.

Al. W. Martin's grand superb spectacular revival of that everlasting old play, "Uncle Tom's Cabin," which will be seen at the Grand on Friday for matinee and night, promises to be a theatrical treat in every sense of the word. The company this year is bigger, better and brighter than ever and numbers over fifty people, among which are twenty negroes from the Sunny South, who have been especially engaged to fill out the many pretty pictures of the play and present their famous songs, dances and plantation "Shines." So thorough and pleasing has been the production under the management of Mr. Martin that the press, public and pulpit have unanimously sung its praise, and thousands upon thousands have attended. It requires two 70 foot cars to transport the special scenery. Thirty head of horses, ponies, donkeys, burros, bloodhounds, log cabin, and other numerous novelties to make it the largest production of "Uncle Tom's Cabin" ever attempted by anyone. The street parade will start from the theatre at 12 o'clock noon.

Special prices, 25, 35 and 50 cents.

MEISTER SINGERS' TRIUMPH.

They make a great hit at their first concert in Toronto.

The Meister Singers, who made their first appearance in Toronto at Massey Hall on Thanksgiving night, charmed and delighted their audience as well as the critics. The Toronto World in speaking of them says:

"The magnificent musical resonant chiming of the quartette voices in the excellent selection they rendered was the finest thing of the kind ever heard in Toronto. The delicacy of the tone, the light and shade, the refinement of expression in the pianissimo passages, and the sustaining power in forte, and the subtleties in crescendo and diminuendo effects combined to render the performance one of extraordinary beauty. Every number was encored, and the Glee Singers good naturedly responded. It was difficult to choose among the selections, individual tastes differing. The date for the Chatham Grand is Thursday, Feb. 2nd."

"Pint Judy Pint."

Point Judith, Rhode Island, is known to the natives of that neighborhood as "Pint Judy Pint." Once upon a time, the story goes, an old sea captain of Nantucket or thereabouts took his wife with him upon a voyage along the coast and, being enveloped in a fog, he made her look out. After awhile the woman piped out, "Land!" "Whar away?" bellowed her lord. "Whar over there, just the other side of all those ropes," she answered excitedly. "Tother side o' addesticks!" roared the captain. "Can't you tell me in straight talk whar away?" Now it happened that the captain's wife was unacquainted with nautical terms, and while she could do many useful things she could no more have boxed the compass than she could have flown. So the captain shouted to her, "Pint Judy, pint!" Then Judy "pinted," and the shore she had discovered and indicated was ever afterward known as Pint Judy Pint.

Judgment (H.) on appeal by defendant from the judgment of the senior judge of the County Court of York, dated 10th November, 1904, directing payment to plaintiffs of \$400.08 and costs, and dismissing defendants' counter-claim, in an action for the recovery of \$400 deposited by the plaintiff with the defendant corporation in lieu of bond. The plaintiff, a manufacturer of Toronto, in 1897 sold to defendants certain electrical machinery, which was also installed. At this time plaintiff gave defendants the bond of a guarantee company to guarantee the performance by plaintiff, subject to the approval of a competent official of defendant corporation, of work. On the 29th December, 1907, defendants agreed with plaintiff to retain \$400, the amount which is the subject of the action, as a deposit, in lieu of bond, and paid plaintiff the further sum of \$1,275 on account of balance. The defendants alleged that the armatures in the machinery, which were guaranteed by this deposit, burned out, whereby they suffered serious loss. Appeal dismissed with costs. E. E. A. HAVE YOU HEARTBURN?

It's quite common with people whose digestion is poor. Immediate relief follows the use of Nerviline. Stomach is strengthened, digestion is made perfect, lasting cure results in every case. Use Nerviline Nervine once and you'll never be without it because every type of stomach disorder is conquered by a few doses. One 25c bottle of Nerviline always convinces. Sold everywhere for the past fifty years.

C.P.R. Cars Now 1200.

Vancouver, Jan. 30.—It is reported that negotiations for the purchase of the Esquimalt and Nanaimo Railway from James Dunsmuir by the C.P.R. have been completed. The railway runs from Victoria to Wellington on Vancouver Island, and is about 75 miles in length.

HOW TO GET CONSUMPTION.

Ninety per cent of the "lungers" contract consumption by allowing power of resistance to fall so low that a favorable condition for the development of the bacilli is provided. In a healthy system consumption can't take root. But where there is weakness and debility, there you find tuberculosis. For developing strength and building up the weak, nothing equals Ferronine. It makes the blood nutritious and the nerves enduring. The way it converts food into nutriment, the appetite it gives is surprising. Just what the man verging on consumption needs, that's Ferronine. If tired and weak don't put off. Fifty cents buys a box of fifty tablets at all dealers.

Quite a Difference.

A BILIOUS HEADACHE.

Is one of the meanest things in the world. To prevent biliousness use Dr. Hamilton's Pills, which keep the system clean and pure, regulate the bowels, give tone to kidneys and liver. You'll never have a headache, but you will have vigorous, bracing health by taking Dr. Hamilton's Pills, 25c. per box or five boxes for one dollar.

A FRIEND OF PEACE.

New Katsushika prevented War Between Russia and Japan.

General Kuropatkin as Minister of War, approved the present war between Russia and Japan and exerted all of his influence in favor of peace, says A. Maurice Low in the January-March Forum. This is the second time Kuropatkin has advocated peace when Russia clamored for war. The following historical incident, the absolute accuracy of which I can vouch for and which has never before been published, is interesting at this time:

In 1885 the Penjdeh incident—the attempt of Russia to encroach upon the frontier of Afghanistan, which brought the Afghans and the Russians into armed collision—came perilously close to involving Great Britain and Russia in war. So imminent apparently were hostilities that Parliament granted an emergency credit, the reserves were called out and the fleet was mobilized. After some weeks of intense anxiety a diplomatic settlement was effected.

Some years later General Kuropatkin said to a high placed British official: "You English accuse me of being Anglophobe and advocating war with England. Do you know that I alone prevented war over the Penjdeh incident? Well, it is a fact. The Czar sent for me and informed me that in a few days war would be declared and that I was to take command of the force which was to invade Afghanistan. I expressed my sense of the honor, but urged him not to undertake the enterprise. He manifested surprise and asked my reasons. I told him that the force available in Central Asia for a forward movement amounted only to 45,000 men and that we should have to deal with from 7,000,000 to 10,000,000 of Afghans, a warlike people trained to fighting, and that back of them were 300,000 British and native troops. At first my statement was not believed, but when I brought forward the facts to prove its accuracy the impossibility of the undertaking was realized and the thought of war was abandoned."

When Russia forced war upon the Japanese she did it with the confident belief that she held her foe at her mercy and that a few months would see the terms of peace dictated in Tokyo. The resources of Japan, her fighting capacity and her superior advantages in waging war near her base were either unknown or regarded with such utter contempt that they were not taken into account. The Japanese realized the titanic nature of the struggle and warned against it, but the odds were bent upon war and could listen to neither reason nor argument.

The New Speaker.

Mr. R. F. Sutherland, M.P., for North Essex, has been selected by the Government as the Speaker of the House of Commons.

When John Ruskin, the English author and critic, was in his prime he took an account of stock and wrote to a friend as follows: "As for things that have influenced me, I believe hard work, love of justice and of beauty, good nature and great vanity have done all of me that was worth doing. I've had my heart broken, aged ago, when I was a boy—then mended, cracked, beaten in, kicked about old corridors and finally, I think, flattened fairly out. I've picked up what education I've got in an irregular way—and it's very little. I suppose that on the whole as little has been got into me as under any circumstances was probable. It is true, had my father made me his clerk I might have been in a fair way of becoming a respectable political economist in the manner of Ricardo or Mill, but granting liberty and power of traveling and working as I chose, I suppose everything I've come to have been about as wrong as wrong could be. I ought not to have written a word."

With this frank confession for an example no one need be ashamed to own up wrongheadedness, mistakes and all that. The world is what we make it, and it makes all there is of us worth crowing over.

New Niagara Hike Trade.
A clever game which is worked at Niagara during the winter months by shrewd merchants is described in an article by Mr. Broughton Brandenburgh in Harper's Weekly. Shanties are built on the ice about halfway to the shore on the exact boundary line between the United States and Canada and occupied by traders.

Canadian license to a full line of Rich and Elegant Materials are enabled to offer their Evening Attire at greatly reduced prices. The officers of neither country disturb them, because they would first be compelled to prove jurisdiction. This would be impossible, for by the time the courts got around to it it would be spring, and both the ice and the shanties would be gone.

COLD CURE

King's Oldest Subject.

King Edward VII., in the fourth year of his reign, has sent his greetings to a subject of his royal great-grandfather.

When George III. died, Mrs. Barbara Lewington, of Mattingley Green, near Winchester, Hampshire, was nearly twenty years old.

Though born on December 5, 1800, she is today alive, and keeps fairly well. She has been practically confined to her bed for ten years, and her hearing is deficient, but she understands well that His Majesty has expressed his interest in her great age, and has sent a gracious message hoping that she will continue to retain her faculties.

Mrs. Lewington has lived in the same house for seventy-six years. She has had twelve children, of whom three are living, at the age of eighty-two, seventy-seven, and sixty-one, respectively.

Modern science has overcome the handicap of bad teeth, quick eating and scanty saliva. It has provided Dodd's Dyspepsia Tablets, the greatest help to the stomach ever discovered. They contain the necessary ingredients for digestion, to put it in brief they digest the food while the stomach rests and recuperates. That they are an easy and natural cure for all stomach ailments anybody who has used them will tell you. Louis M. Bourdeau, of St. Louis, N. B., says:

"I recommend anyone who suffers from Dyspepsia to use Dodd's Dyspepsia Tablets. I had it badly, and the doctors I consulted did me no good. Three boxes of Dodd's Kidney Pills cured me completely."

On a certain occasion Henry Ward Beecher's church was crowded to the doors. But Beecher unexpectedly had been called out of town, and in his place in the pulpit there sat a bearded, black clad youth—a youth who is today one of the most powerful preachers in America. But this youth, fresh from college, was unknown then, and the great congregation had come to hear Beecher and not him. Consequently as soon as he arose and announced that he was to preach in Beecher's place the people began to drift out. First one went, then two, then a half dozen, and the young man stood watching this dispersal from the pulpit. It was a trying moment, and yet there sat on his youthful face a smile singularly composed. Out the people tiptoed, and he waited, saying nothing, for almost five minutes. Then he said, as if in explanation of his silence, "We will not begin this public worship until the chaff blows off."

That Love sometimes cures disease is a fact that has recently been called to the attention of the public by a prominent physician and college professor. In some nervous diseases of women, such as hysteria, this physician gives instances where women were put in a pleasant frame of mind, were made happy by falling in love, and in consequence were cured of their nervous troubles—the weak nervous system toned and stimulated by little Dr. Cupid—became strong and vigorous, almost without their knowledge. Many a woman is nervous and irritable, feels dragged down and worn out, for no reason that she can think of. She may be ever so much in love, but Dr. Cupid fails to cure her. In ninety-nine per cent. of these cases it is the womanly organism which requires attention; the weak back, dizzy spells and black circles about the eyes, are only symptoms. Go to the source of the trouble and correct the irregularities, the drains on the womanly system and the other symptoms disappear. So sure is it that the World's Dispensary Medical Association, proprietors of Dr. Pierce's Favorite Prescription, that they offer a \$500 reward for women who cannot be cured of leucorrhea, female weakness, prostration, or falling of the womb. All they ask is a fair and reasonable trial of their means of cure. Dr. Pierce's Pleasant Pellets clear the complexion and sweeten the breath, they cleanse and regulate the stomach, liver and bowels and produce permanent benefit and do not react on the system. One is a gentle laxative.

"The Common Sense Medical Adviser" is sent free, paper-bound, for 31 one-cent stamps to pay customers and mailing only. Send 50 stamps for cloth-bound copy. Address, World's Dispensary, Buffalo, N.Y.

SUNLIGHT SOAP

We have used "Sunlight Soap," and we want to tell you that it is the best soap made, that's why we are writing. We found out that the Sunlight way is the best way to wash with "Sunlight Soap." At first we used to wash with Sunlight Soap in the old way as we did with common soap, but after we washed according to directions printed on the package, we would never wash the old way again. We first soap the articles, leave them to soak and then rub out lightly on the wash board. Not much to do and it makes the clothes white as snow.

Mr. O. Duke, of Olinda, is among the farmers trying to buy seed corn.

SIR JAMES WATSON'S OPINION.

He says that the commonest of all disorders, and one from which few escape is Catarrh. Sir James firmly believes in local treatment, which is best supplied by "Catarrhazone." No case of Catarrh can exist where Catarrhazone is used; it is a miracle worker, relieves almost instantly and cures after other remedies fail. Other treatments can't reach the diseased parts like Catarrhazone because it goes to the source of the trouble along with the air you breathe. Catarrhazone is free from cocaine, it leaves no bad after-effects, it is simply nature's own cure. Accept no substitute for Catarrhazone which alone can cure Catarrh.

MARKS BROS.

Marks Bros. entertained a large crowd at the Grand last evening with "The Young Wife," a very interesting production. The company is having great success during their stay in Chatham and are greeted every night with bumper houses. They are especially good this year and show a good class of entertaining plays.

To-night the company presents Under Two Flags, a well known play which is always popular as played by this company.

On Wednesday afternoon a matinee will be given, when a prize will be given away.

CARNIVAL EN MASQUE

The skating carnival, fancy dress and en masque at the non com's rink Friday night will be a winner. The prizes, which may be seen in Thornton & Douglas' window, are very creditable indeed and include a handsome brass bedroom clock, a gold watch, engraved to suit; choice of any hat in the store, watch fob, engraved to suit; and for the children, pair of gloves and a sweater. All competitors must be masked. The admission has been placed at 50c or season tickets and 10c. Twenty-fourth Regiment Band in attendance.

A TALENTED GIRL

"The Isle of Spice" possesses a triple local interest for Torontonians. The libretto and lyrics are by Allen Lowe, a former Toronto newspaper man who was well known in this city in the early eighties. Secondly, the most important member of the family contingent is Miss Alice Yorke (Coody Hill), a Toronto girl, who has worked herself from the ranks to the prima donna role. How well she fills it was amply attested last night by the large audience, whose members view with each other in showering well-deserved applause upon her. Lastly, the production is controlled by Mr. Bert C. Whitney, of Detroit, who, as a lessee of the Princess Theatre, is largely to be thanked for the excellent theatrical fare which Toronto has been supplied with during the present and previous seasons. —Mail and Empire, Toronto.

Miss Hill is a sister of Miss H. Edythe Hill, contralto and choir leader of the Park St. Methodist Church.

OLD RESIDENT GONE

West Lorne, Jan. 26.—There passed away at his late residence, 10th concession, Dunwich, early this morning, Charles Meteer, aged 74 years, who was a long illness with Bright's Disease, borne with Christian fortitude. He was born in the County of Dawn, Ireland, and came to this country when quite young. In religion deceased was a Methodist, and in politics a staunch Conservative. He leaves to mourn his loss an aged widow and six children, John of State, Pa., Sinclair, at home, Charles and Anthony of Eagle, Mrs. Fillmore of Dunwich, and Mrs. John Liddy of Chatham.

The funeral will take place on Saturday, a short service being held at the house at 2 p. m., after which the remains will be interred in the Love cemetery. On Sunday next at 2.30 p. m. Rev. W. J. Ashton will conduct a memorial service in the Townline Methodist church. — St. Thomas Times.

Mrs. John Liddy, of this city, attended the funeral at West Lorne on Sunday. She returned to the city yesterday.

Death of Col. Guillet

Windsor, Ont., Jan. 29.—Col. James C. Guillet, of Windsor, died last evening at 9.30 o'clock, at his residence on Ouellette Ave., as the result of a complication of diseases, whose beginnings were discovered four or five years ago. The colonel's health failed rapidly as winter came on, and in December last he was obliged to resign his position as city treasurer of Windsor.

Col. Guillet was born in Sandwich 59 years ago. He lived the whole of his life in that place and in Windsor. For a number of years he was accountant at Hinchman's wholesale drug house in Detroit, but eleven years ago he resigned his position to become city treasurer of Windsor.

At the time of the Fenian raid he was a member of the volunteers, and five years ago he received a medal in recognition of his services at that time. In 1885 he joined the 21st Fusiliers as major, and for five years was commanding officer of the regiment.

Deceased married Miss Eliza Weaver, who died about four weeks ago. He is survived by four children—Dr. Harry Guillet, former Mayor of Pontiac; Mrs. Van Hook, of Pittsburgh, Pa.; Mrs. Wm. McColl, of Windsor, and Miss Nellie Guillet.

CARD OF THANKS

Heart and
Sleeplessness.

How many women are troubled with a weak heart? How many lie, night after night, trying to sleep, and can't? Perhaps you are one of them? If so, read what Mrs. Herkimer says. It may save you years of suffering if you take her advice.

"I am now enjoying the best of health, after having used Milburn's Heart and Nerve Pills. I was troubled with a weak heart, and was afraid to draw a long breath, for the pain it would cause me. I could not sleep at night, and it was impossible for me to walk ten yards without resting myself. I cannot speak too highly of your Heart and Nerve Pills; they are the greatest pill I have ever used, and can recommend them to all sufferers."

The price of Milburn's Heart and Nerve Pills is 50 cents per box, or 8 boxes for \$1.25. For sale by all dealers, or mailed direct on receipt of price.

THE MODERN BATTLE.

Directed From a Desk Many Miles
From the Scene of Hostilities.

Today circumstances place a commander completely out of sight of his army. He is usually located at least ten or fifteen miles from the firing line and in many instances is even farther away. He sits in a room whence radiate telephone and telegraph lines to the remotest portions of the field, placing him in instantaneous communication with his principal subordinates.

The famous painting of Napoleon at Austerlitz represents in the popular eye a commanding general directing a great battle. But it belongs to the warfare of the past. The artist who aspires to depict the direction of a modern battle must show a man seated at a table on which is spread a huge map dotted with little flags indicating the location of the opposing forces with an ordinary desk telephone at his elbow. In an adjoining room is a switchboard, where sit alert operators ready to connect the commander with any of the field headquarters. From this room also comes the steady clicking of a score of telegraph instruments busily receiving and sending messages.

But for the military uniforms of the messengers and the going and coming of staff officers the man at the table might be a stock operator directing, through his brokers, a deal in steel or railroad securities. Even the stenographer at his elbow is not lacking, but sits quietly taking messages under dictation to be transmitted presently by telegraph. Other officers copy these messages and file them away after putting them under a time recording stamp to show the hour they were sent, so that afterward delinquencies may be located and responsibilities fixed.

Thus, apart from the excitement and horrors of the battlefield, a general sits at a desk and calmly directs the battle. He hears that this attack has been repulsed, that re-enforcements are needed here, that ammunition is running low there, that this division has been cut into pieces, that those troops have been two days without food, and so on, along his forty miles of front, and takes his measures accordingly.—Thomas F. Millard in Scribner's.

New York's Great Canal.

ARMY engineering experts declare that the great canal in the state of New York will be of enormous military value in time of war. "The uses to which the canal may be put in the event of war," says Colonel Thomas W. Symons, who is in charge, "have not been sufficiently understood. For instance, torpedo boats, gunboats and all the smaller auxiliary craft of the navy may be taken from the ocean to the lakes or from the lakes to the ocean through the ditch. The tremendous quantities of supplies that would have to be moved before, during and after war could also be transported through the same channel at a great saving of expense over the cost of transport by rail."

Chorus Girls and the Peacocks.

An epidemic of matrimony with chorus girls has broken out again in the British peacocks. Three young lords and a marquess are depicting the stages of the same theater. Contrary to the recent announcement by the solicitor of another peer that as soon as he had married an American heiress his debts would be paid, these theatrical alliances can have no financial motive. Yet the chorus girl marriages seem to turn out as well as those arranged on purely business principles, and marriages out of their own circle keep the British peacocks more virile than the continental nobility, with their interminable quarrels.

Protected Cruisers.

The London Engineer is of the opinion that protector light armored naval vessels are of little use. On this point it says that the changes now going on with English ships in commission are of a drastic nature, and they are attributed to Admiral Fisher, who is understood to hold the theory that protected cruisers and such craft are of no use today and that the British squadrons should be armored. It is certainly the common sense view. They cannot fight, and they cannot run away, and it is a matter of considerable congratulation that the authorities seem at last to have determined to have our fleet war fleets.

The Old Constellation.

The frigate Constellation, the oldest ship in the American navy, after having been thoroughly overhauled and made taut and trim again, was recommissioned at the New York navy yard, in Brooklyn. Launched in 1797, the historic ship has had a memorable career, and those who have examined her in her refitted condition express the opinion that she is good for another hundred years. Her active days are probably over, however, and it is as a receiving ship at Newport that she will still play an honorable part in the American navy, to which she is an inspiration.

Kept His Wit.

A man hopelessly lost in the bush in South Australia, after wandering about for four days, came across the telegraph line between Adelaide and Port Darwin. He had not the strength to go farther, but managed to break the wire. He then made himself as comfortable as possible and waited. The telegraph repairers were sent along the line, and they came to the wanderer in time to save his life.

One Came Out After The Other.

Suffered with Boils for Six
Months.

Mr. Elie Braizeau, Meadowsdale
Station, Ont., tells of his ex-
perience with Boils and
Burdock Blood Bitters.

He says:—"In the Spring of 1899 I was continually troubled with boils—one coming after another for about six months. I suffered terribly, and was in a very bad condition. In August I got a bottle of Burdock Blood Bitters, and began to feel better after taking it. I kept on until I had used five bottles, and can truthfully say that I was cured, and have remained so ever since. I have not had the least sign of a boil."

There is nothing like Burdock Blood Bitters for bad blood, boils, pimples, dyspepsia, indigestion, or any trouble arising from the Stomach, Liver, Bowels or Blood.

Indiana's Nose Breathing.

An English scientist thinks it unnecessary that children should be taught to breathe through the nostrils only and maintains that they cannot do so under the stress of active exertion. London Hospital thinks otherwise. Among the North American aborigines at a time when they were capable of extraordinary physical exertion the precept "to shut your mouth" was enforced upon the young by the most severe discipline.

Catlin founded upon his experiences among the American tribes a curious book upon the subject. After depicting open mouthed men and boys in every variety of ugliness and stupidity, he says that he refrains from giving illustrations of the fairer sex and would only remind them, while counseling them to be careful about closure of the mouth at night, that "idiots asleep cannot be angels awake."

The scientist declares that not all nostrils are sufficiently wide to permit of breathing being conducted through them to the exclusion of the mouth, but it is certain that nothing would tend more than breathing through them to promote their development.

Life is a constant struggle between regret for the past and hope for the future.

MAKES MEN SOUND AND STRONG

Detroit Specialist Making Men's
Diseases a Specialty for Years,

Your Own Home.

You May Pay When You are Cured.
A Detroit Specialist who has 14 diplomas and certificates from medical colleges and state boards of medical examiners, and who has a vast experience in doctoring diseases of men, is positive he can cure a great many so called incurable cases.

DR. S. GOLDBERG.

The possessor of 14 diplomas and certificates, who wants no money that he does not earn. In order to convince patients that he has the ability to do as he says, Dr. Goldberg will accept your case for treatment, and you need not pay one penny until a complete cure has been made; he wants to hear from patients who have been unable to get cured, as he guarantees a positive cure for all chronic, nervous, blood and skin diseases, which he accepts for treatment. He not only cures the condition itself, but likewise all the complications, such as rheumatism, bladder or kidney troubles, blood poison, physical and nervous debility, lack of vitality, stomach trouble, etc. The doctor realizes that it is one thing to make claims and another thing to back them up; so he has made it a rule not to ask for money unless he cures you, and when you are cured, he feels sure that you will willingly pay him a small fee. It seems, therefore, that it is to the best interests of everyone who suffers to write the doctor confidentially and lay your case before him, which will receive careful attention, and a correct diagnosis of your case will be made free of charge; if you have lost faith with him, as you have everything to gain and nothing to lose, you must remember that one penny need be paid until you are cured. All medicines for patients are prepared in his own laboratory to meet the requirements of each individual case. He will send a booklet on the subject, which contains the 14 diplomas and certificates, entirely free. Address him simply Dr. S. Goldberg, 288 Woodward Ave., Room 417, Detroit, Michigan. Medicines for Canadian patients sent from Windsor, Ont., consequently there is no duty to be paid.

BIRTHDAYS IN JAPAN.

All the Girls Celebrate in February. All the Boys in May.

The Japanese have a queer way of celebrating birthdays. Instead of a party in June for little Tama and a party in September for little O-Tatsu and a party in December for little Ume there's a party in February in honor of all the little girls and one in May for all little boys. In February every little girl receives from all her grownup relatives and friends gifts of dolls, and besides these dolls her mother takes out of the closet many of the dolls she had when she was a child and some even older dolls that the little girl's grandmother had when she was a little tot, and I dare say there are dolls that belonged to the little girl's great-grandmother, and even her great-great-grandmother, quaint dolls in faded clothes of a hundred years and more ago, carefully handed down from mother to daughter ever since. I saw one old doll, about six inches tall, dressed as a daimio, or great lord of bygone times, in gorgeous brocade robes, covered with steel armor of little overlapping plates, just as beautifully made as if for a real warrior. He wore a tiny helmet and carried two tiny swords not as large as matches. You could draw the swords out of their scabbards just like real ones, and they were as sharp as they could be. Well for about a week all Japan is one grand dolls' tea party. And then the festival is over, and all the best dolls, even the presents to the little girl, are put carefully away, never to be even looked at for a whole year. I don't see how the little Japanese girls can bear that part of it.

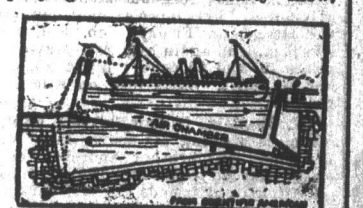

Then at the 1st of May comes the boys' festival—the fish festival, it is called. Every family that's lucky enough to have a boy puts up a flag pole in the doorway, or perhaps several families combine to use the same pole and have it a bigger, handsomer one than one family could afford. On the top of the pole is a gilt ball or else a basket with something bright and tinselly in it. And flying from the pole in the brisk spring wind is a whole string of carp made of oiled paper or cloth painted in bright colors and anywhere from five to fifteen feet long. Each fish belongs to some particular boy, and the carp is chosen because it is a big, strong fish and not only can swim against the most rapid currents, but in its eagerness to get upstream will leap straight up waterfalls. The gold ball means a treasure, which the carp, leaping and struggling, buffeted by the wind, is forever trying to reach. And the whole thing means that the boy when he's a man will have to battle his way as the sturdy carp struggles up the river. The fishes look so very pretty and gay, flying over his house, and the boy gets so many treats at fish festival time that he can't think he minds even if the carp is a nice little jolly lecture on ambition.—St. Nicholas.

TILTING LOCK CHAMBER.

Transfers Ship From One Level to Another Without Towing.

A peculiar form of canal lock, says The Scientific American, has been invented by Charles H. Carter, of Paris, who hopes by means of this device to raise or lower a ship of any size from the upper level to the lower, or vice versa, without losing a drop of water.

The invention, as the two accompanying illustrations clearly show,

comprises essentially a lock chamber (C) permanently in communication with the water (D) of the lower level. It will be observed that the bottom of this chamber is formed with two inclines of unequal length, so that the highest point will lie nearer the upper level (E) to permit the raising and lowering of the vessel. At this highest point, a ridge, as it were, is formed, which constitutes the fulcrum for a floating chamber mounted to rock on the shaft (B).

This floating chamber is constructed with double walls, constituting an air chamber, and comprises in itself a water compartment, the ends of which are closed by gates G and H. At the bottom of the air chamber a track is laid, on which a weight (M) is mounted to travel. The weight (M) is connected by means of a cable passing over a pulley with a float (L).

In order to tilt the floating chamber down to the lower level the weight (M) is caused to travel in the direction of the lower level, whereupon the corresponding end of the floating chamber descends. When the lower level has been reached the gates (H) are opened, and the vessel continues on its journey. In order to raise a vessel from the lower to the upper level it is obvious that the reverse operation must be gone through.

Dorothy's Idea.

Little Dorothy—Oh, mother, what a pretty dress! Do wear it to-night. Mother—No, dearie, not to-night. This is to wear when ladies and gentlemen come to dinner. Little Dorothy—Oh, but, mother, can't we pretend just for once that dad is a gentleman?—Judy.

Kaiser's Gift to Orphans.

The Kaiser was so pleased over shooting a fine stag at Rominten, in Germany, the other day that he gave \$6,000 for the orphans and widows of the foresters, and had his two beaters to dinner with him, placing one on each side of him.

REASON No 9 WHY YOU SHOULD USE

Red Rose Tea

Because it is accepted as a standard of quality.

Red Rose Tea can be found in the sample room of nearly every tea firm in Canada. It is used as a standard of quality by which they judge their own teas.

A large London, Eng. Tea firm recently asked their correspondents in Montreal to send them samples of the best brand of tea sold in this country—they sent Red Rose.

This is a very high tribute to Red Rose Tea. If you will try the tea you will feel like endorsing this tribute.

Sound to Come.

London, Jan. 30.—(C.A.P.)—John Dillon, M.P. (Irish Nationalist), speaking at Thurles, Ireland, said he would vote against the opening of British ports to Canadian cattle, but he feared it would come about since Mr. Chamberlain and the Unionist party had declared in favor of it, and it had the support of the Radicals also.

Expansion Is Costly.

Washington, Jan. 30.—The United States Naval Appropriation Bill was reported Saturday by Chairman Foss of the House Committee on Naval Affairs. The bill carries an appropriation of \$100,070,079, while the estimates aggregated \$119,699,638. The appropriation last year was \$2,564,939 less.

The mother who would be horrified at the thought of letting her daughter wander away to a strange country without guide or counsel, yet permits her to enter that unknown land of womanhood without counsel or caution. Then, in utter ignorance, the maiden meets physical problems whose solution will affect her whole future life. Dr. Pierce's Favorite Prescription has been named a "God-send to women." It corrects irregularities and imparts such vigorous vitality to the delicate womanly organs, as fits them for their important functions. Many a nervous, hysterical, peevish girl has been changed to a happy young woman after the use of "Favorite Prescription" has established the sound health of the organs peculiarly feminine.

Every woman should own a copy of the People's Common Sense Medical Adviser, sent free on receipt of 31 one-cent stamps to pay expense of mailing and customs. The same book of 1008 pages in substantial cloth for 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

CIVIL ENGINEER'S FALL

Russell Barrett Found Unconscious On Toronto Sidewalk.

Fellow Sleeper in York Street Lodging House Saw Him Disappear Through Window of Attic and Policeman Picked Him Up—Lived Only Two Hours—Son of Customs Collector At Windsor and Steady Young Man.

Toronto, Jan. 30.—Under circumstances that are at least strange at 5:30 yesterday morning Russell E. Barrett, young civil engineer, and recent S.P.S. graduate from Amherstburg, either fell or threw himself from the third story window at 222 York street, receiving injuries from which he died in the Emergency Hospital two hours later. At first it was thought he might have been the victim of foul play, but investigation by the police and press tended to discount that theory, though by no means accounting for the fatality. Barrett was on his way to Windsor from Pembroke and reached the city on Saturday evening.

Retrieved the Friends.

Evidently he missed connections and to his desire to do a charitable act five strange "Poles" came probably he traced his death. He was at the station at midnight when a party of five Poles, who had bought tickets for Buffalo, were turned out of the waiting room. They were friendless and unable to speak English. Barrett, from his survey work in the backwoods, evidently sympathized with the men and inquired of the station policeman where lodging for the night could be found and he was directed to Jos. Kazel's on York street.

At Kazel's After Midnight.

Mrs. Kazel says they arrived shortly after midnight. Barrett asked for accommodation for his proteges, who were left standing outside, and arranged that they be given beds for \$1. He beckoned them in and was about to leave when the lateness of the hour evidently struck him. The reception room at Kazel's is not inviting, and as Barrett has been used to roughing it he asked if he could get a double bed. Mrs. Kazel said it could be arranged, and he paid a quarter and was shown upstairs.

The Fall to Death.

The room assigned to him was in the attic. It contained a bed and a cot. The bed was stretched crossways at the front part, close to the wall and window. The cot was slung along the south wall and with a table and chair almost filled the room. The cot was already occupied by Fred Hetherington, who, it seems, is also a civil engineer in hard luck, and who comes from Montreal. Hetherington says Barrett complained of feeling restless and unwell when he awoke at 4 o'clock. Hetherington fell asleep again and was awakened by the crash of breaking glass, and just saw Barrett's legs as he disappeared through the window.

His Skull Fractured.

P. C. Martin and Hackman McCarron, who were on York street nearby, heard a crash and saw something falling. At first they thought it was a rush of snow from the roof. Instead it was the unfortunate Barrett. He was removed to the Emergency Hospital, where he died two hours afterwards.

At the Emergency the medical examination showed that deceased had received a bad wound on the back of the head on the right side, which probably fractured the skull. There was also a discolored swelling over the left eye. This, however, could have been caused by the blow in the back of the head. There were also a couple of abrasions on the knees, which it is thought were occasioned by striking on the wires when falling.

Relative's At A Loss.

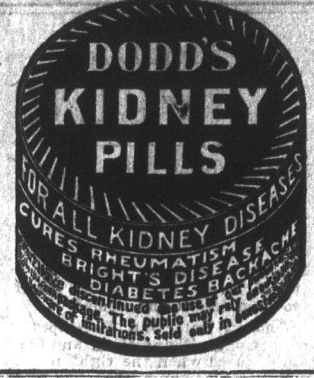

His father, M. Barrett, who is customs collector at Amherstburg, accompanied by John A. Auld, M.P. P. for South Essex, and J. H. Rodd, Amherstburg, County Crown Attorney, and uncle of deceased, arrived in the city last night, but could throw no light on the affair.

Russell Barrett was 26 years of age. Two years ago he graduated from the Toronto School of Practical Science and was subsequently in the employ of Morrison Bros., engineers and surveyors, Pembroke. Last summer he received a Government appointment as first assistant, section 4, Georgian Bay and Ottawa River survey. He was in Pembroke on Thursday last. The victim was thoroughly steady and of temperate habits, and an unfortunate accident is the only explanation. The young man's father is very willing that an inquest be held, and Coroner Atkins will open an inquiry at Millar's at 4 p.m. to-day. The body will be taken to Amherstburg to-night.

Tea Salesman Takes Life.

Toronto, Jan. 30.—The suicide who was found by P. C. Tinsley in High Park with a bullet hole in the roof of his mouth on Saturday, has been identified as Sydney Parton, a tea salesman, who came out from England about fourteen months ago. Parton had no friends in this country. He boarded on Dovercourt road and got his mail at 507 Yonge street. He has a wife and other relatives in England, but their address is not known yet.

Parton traveled through the country with a horse and rig selling tea. Recently he got into financial difficulties and his horses were taken from him. He wrote to his brother in England for money and received a letter about two weeks ago, in which his brother said he could not give him further assistance. Deceased was over 50 years of age and had seen better days.

run into by a street car, near the corner of Charles and King streets. He was crossing from the north side of King street and was struck by the corner of the car vestibule and thrown under the car. The wheels passed over his foot and crushed it so badly that it had to be taken off at the City Hospital. He was reported to be doing well last evening. At one time he was the town engineer, Dundas, but of late has been engaged on the Grand Trunk Pacific, and had lately returned from Montreal.

Lived Only a Short Time.

Napanee, Jan. 30.—Alex. Breckenridge, a farmer, living three miles from town, was killed Saturday afternoon when returning home, by his team running away and striking the Grand Trunk large stone bridge. Breckenridge was pitched against the stone abutment and had his head badly crushed. He only lived a short time.

Toboggan Hits Tree—Girl Dying.

Toronto, Jan. 30.—While a party of young people were coasting on the hill near the Isolation Hospital late Saturday evening, one of the sleighs ran into a tree on the hill and upset, injuring 14-year-old Annie Waring so seriously that there is little hope of her recovery.

The girl was thrown against the tree, and when picked up she was unconscious. She was quickly removed to the General Hospital, where an examination proved that she was suffering from concussion of the brain. There were also several bruises on her body.

The girl has not regained consciousness since the accident, and her case is considered very serious. She lives at 131 Sackville street and is employed at the Christie-Brown Biscuit Factory.

Three Children Burned.

New York, Jan. 30.—James Saxton, 5 years old, Margaret Saxton, 3 years old, and John Saxton, 1 year and three months old, were burned to death in a fire in an apartment house in Westchester avenue Saturday night. They were the children of Mr. and Mrs. Lewis Saxton.

Met Awful Deaths.

New York, Jan. 30.—Shut in the steam room of a Russian bath house in Hester street, Abraham Pasternak and Peter Roos, tailors, living in Norfolk street, were scalded to death yesterday before their plight was realized by the attendants. Evidence that both had made frenzied efforts to attract attention was afforded by cuts and bruises on the bodies and by blood-stained scratches in the plaster of the wall.

With All on Board.

New York, Jan. 30.—The wreck of the steam lighter Clarence, which disappeared during the storm of Wednesday, was found Saturday, lying sunk in the ship channel off the Brooklyn shore with part of a mast showing above water. The crew of seven men are believed to be in the wreck.

HE FOUND IT

Just As Recommended.

"I bought a fifty cent package of Pyramid Pile Cure from my druggist and have used two dollar packages since. I find them just as you recommended them to be. I have not felt the least sign of piles since using your remedy three months ago. If you want to use my name you may do so, as I feel like a new man. I now have no trouble with the dreadful, aggravated disease."

"I meant to write you sooner, but thought I would wait until I was cured. I thank you for your wonderful Pile Cure. I was a great sufferer from piles." Fred. Deary, R. F. D. 4, New Brunswick, N. J.

Seldom, I ever, is there any doubt about the effect produced by the use of Pyramid Pile Cure, as is shown by the experience given above. The proprietors of this remedy have thousands of similar letters on file, and surely no better proof of the merit of the preparation could be asked; when it is borne in mind that these letters are wholly unaltered, there is certainly cause for pride in the remedy.

Pyramid Pile Cure is sold by druggists for fifty cents a package, and if you haven't it he will get it for you if asked to do so. Accept no substitutes, and remember there is no other remedy "just as good." Every one is urged to write Pyramid Drug Co., Marshall, Mich., for their little book describing the causes and cure of piles, as it affords much useful information and is sent free for the asking.

One must occasionally be miserable to fully appreciate happiness.

It takes a woman of nerve to declare she has no social pretensions.

MONEY RAILROADED AWAY.

C.N.R. to Amount of \$3,000,000 Guaranteed by Manitoba Assembly.

Winnipeg, Jan. 30.—The Manitoba Legislature probably established a record for quick despatch of important business Saturday, when the Government's measure to guarantee C.N.R. bonds for 189 miles of new road within the province at \$10,000 per mile, was put through all readings, while another bill to guarantee bonds to the extent of a million on the new C.N.R. terminals at Winnipeg, passed its first and second readings and the committee stage.

Premier Roblin said this expedition was rendered necessary to permit of prorogation on Tuesday next, and the measures did not require extended discussion, as their principle was the same as in the previous C.N.R. legislation, namely, that the Government guarantee bonds in exchange for mortgages on branch lines and the practical control of rates.

Hon. C. J. Mickle, leader of the Opposition, protested against the scandalous manner in which the Government rushed through measures involving a capital sum of nearly \$3,000,000, and declared that the Government was going back on its declared policy of public ownership, in that it did not contract for and operate the terminals itself.

10,000 RUSSIANS FELL

Japanese Fiercely Bombarded
the Whole Russian Line.

Gen. Oka Captured 900 Russian Prisoners
at Chienchiapao and Lay Waste to
the Russian Line.

Gen. Oka's Headquarters, Jan. 31.—
Saturday afternoon the Japanese
began a fierce bombardment with
artillery and musketry along the whole
line. The firing was kept up until
midnight, and was resumed at dawn
Sunday, continuing until noon. The
Russian reply was feeble. A move-
ment of the Japanese left wing, for
the purpose of surrounding and cut-
ting off the Russians in the neighbor-
hood of Pokowai, is progressing
slowly, as the resistance is stub-
born. Should the Russian force be
cut off it will result in leaving Gen.
Kurapatkin's right flank unprotected.

Two divisions of Japanese troops
attacked Pehowski and drove four
divisions of the Russians across the
Hun River. Six hundred Russians
were making a stand across the
river. One Russian division made
several attacks on Pehowski to the
east, but was driven back with the
loss of over 4,000. The Japanese
bombarded the entire Russian line.
The Russian reply was feeble, showing
little activity.

The casualties during the fighting
at Chienchiapao and Heikowai are
estimated at five thousand on the
side of the Japanese and ten thou-
sand on the Russian side.

Thousands Were Killed.

St. Petersburg, Jan. 31.—General
Kurapatkin's attempt to break
through the Japanese left wing and
outflank Field Marshal Oyama's po-
sition on the Shasha River seems to
have failed. Field Marshal Oyama
appears to have answered the Rus-
sian advance with a counter offen-
sive movement, but no great dispo-
sition was shown to carry the war
into the territory held by the Rus-
sians.

At the War Office the chief blame
for the failure of the movement is
laid to a sudden drop of the ther-
mometer to 20 degrees below zero,
with a high wind, which drifted the
snow and rendered it hazardous to
expose the troops to camping in the
open plain, and also impeded trans-
portation.

The operation entrusted to the sec-
ond army, under Gen. Grippenberg,
was the capture of Sandepas, which
once in Russian hands, would serve
as a pivot for a flanking movement
against Field Marshal Oyama, but
Sandepas proved too hard a nut to
crack, and the Japanese, taking ad-
vantage of the check of the Rus-
sians, assumed the offensive on the
Hun River, as well as along the
railroad and the Great Mandarin
road. The Russians, however, appear
to have been successful in repulsing
all the Japanese attacks. General
Grippenberg did not press the at-
tempt to storm Sandepas.

Owing to the failure of the advance
and the enormous penetration of modern
projectiles, the capture of the outer
line of trenches on Thursday entailed
heavy casualties, some thousands
on both sides being killed or wound-
ed. The news of this defeat is espe-
cially hard for the Government, the
popular idea continues to be that
the advance was undertaken to di-
vert attention from the events in
European Russia.

Kurapatkin's Aim.

Russian Headquarters, Hun Moun-
tain, Sunday, Jan. 29.—(Delayed in
transmission.)—The object of General
Kurapatkin's latest offensive move-
ment was to capture the important
position at Sandepas, on the left
bank of the Hun River, west of
Schall River, and thereby outflank
the Japanese front the Shasha River
and enable the Russian army to un-
dertake a general advance.

At Sandepas the Japanese occupied
a strongly fortified position, com-
manding the triangle formed by the
confluence of the Hun River and the
Shasha River. The Japanese had
excavated there a fort of a permanent
type with triple earthworks and
trenches extending in a southeasterly
direction. Several villages to the
northwest were also strongly fort-
ified. The positions were held by
twelve battalions of Japanese partly
drawn from Gen. Nogai's army and
partly reserves. The Russians cap-
tured the first line of entrenchments,
but were unable to maintain their
position on the outskirts of San-
depas in the face of fierce cannonad-
ing. The fighting was transferred
westward. The Japanese counter at-
tacked with a brigade of infantry en-
deavoring to envelop the Russians,
but the cavalry protecting the Rus-
sian flank drove back the Japanese
with heavy loss.

A counter attack on the villages
captured by the Russians at the
outset of the fight was also beaten
off, but at the cost to the Russians
of several thousand killed or wound-
ed, including General Mischenko,
who was wounded in the knee. The
heaviest sufferers were the newly ar-
rived brigade of riflemen. The offi-
cial report of the casualties in the
fighting at Hounchiapao and Hugi-
do, Jan. 25 and Jan. 26, says they were
45 officers and 1,030 men. A hun-
dred Japanese prisoners have arrived
here. They belonged to the division
before Port Arthur. The Russian
are suffering from the cold, which is
increasing.

CURE WAS QUICK

AND PERMANENT

Dodd's Kidney Pills Soon Drove
Away Rheumatism and
Dropsy

Case of a Windsor Man Who Suf-
fered Two Years Before He Dis-
covered the Right Remedy.

Windsor, Ont., Jan. 30.—(Special)—
How quickly Rheumatism and Dropsy
can be cured when the right medicine
is used is shown in the case of Mr.
John McDonald, a retired farmer
living at 120 Langlois Avenue here.

Mr. McDonald says:

"For two years I was troubled
with Rheumatism and Dropsy. My
legs were terribly swollen, and
though I tried many medicines not-
thing gave me any relief till I tried
Dodd's Kidney Pills. Two boxes of
them cured me so completely that
I have had no return of the disease in
years."

Rheumatism and Dropsy are caused
by the poisons disordered Kidneys
fail to strain out of the blood. Cure
the Kidneys with Dodd's Kidney Pills
and the cured Kidneys will remove
the cause of the Rheumatism or
Dropsy. Without cause there can be
no disease.

Look at the fun the Public Library
Board has electing their chairman.

Our first batch of spring poetry
has arrived even before the bear saw
its shadow.

To-morrow night is the night pro-
vided by Statute, when the Library
Board should meet and elect their
chairman.

It should be understood that the
ladies who remove their hats at the
Methodist church have a special dis-
position for Easter Sunday.

I am afraid that that special hat
removal rule at the Methodist church
will keep many a busy mother away
from church because she won't have
time to do her hair.

Dr. T. L. McKitchie, of McKay's
Corners, was in the city yesterday.

He says that my friend, J. M. Pike,
did great work for P. H. Bowyer
at Ridgetown.

That victory of P. H. Bowyer's in
East Kent made some of my good
old Conservative friends glad. Why,
there were men in Howard Township
who are sixty years of age and for
years time didn't lose their vote.
Don't you think they ought to feel
good?

Dear Satellite.—Accept this little
bunch of After-the-Deluge poetry for
your column, but keep me dark, as
I have no desire to become a jour-
nalist.

Yours, etc.,
SHORTFELLOW.

I'd like to publish the rhyme en-
closed but I'm afraid I don't
know you for the darkness, but I
object to being the victim. Your
ambition, Shortfellow, is very com-
mendable.

HER CONFESSION.

Wife (during the spell)—I only mar-
ried you to spite Tom Brown.

Husband—I'm glad I know it. I
was under the impression it was be-
cause you had a grudge against me.

LEGAL NOTE.

Stated in the exact terms of an
Osgoode Hall report, the results read:

FRESH WATER FOR THE BAR-
NACLES.

Barnacles, it is said, are more ef-
fectively removed by sailing the ship
into fresh water. What a clean hull
Ontario Liberalism will have after
a season in Opposition. The result
is what we are after, and we there-
fore, refuse to complain or quarrel
over the method. "The iron hand"
might have done it, but we have no
objection to the fresh water cure.

HOPES FOR EVERYBODY

THERE SEEMS TO BE NO CASE
SO BAD THAT ANTI-PILL CAN-
NOT CURE IT. A STRONG
CLAIM, BUT WELL SUPPORTED.

Just recently a physician in
London, Nebraska, has made a dis-
covery which is exciting the interest
and wonder of the medical profession
all over the world.

Dr. Leonard began on the theory
that the poisons sent through the
system by the rotting and fermenta-
tion of undigested food were the
prime cause of nearly every disease.

He set to work to discover, if pos-
sible, a remedy that would stimulate
and heal the mucous membrane lin-
ing of the stomach and bowels, fill
the system with normal, healthy action,
perfect digestion would be restored.

He succeeded, and his prescription
he called Anti-Pill. The proof that
his work was well done is found
in the long list of remarkable cures
made by Anti-Pill.

Anti-Pill is 50c a bottle, at all

BRITONS ARE INCENSED

Foreign Office Demands Inquiry
Into Warsaw Outrage.

Ambassador Harding Has Been In-
structed to Demand an Inquiry
into the Outrage.

London, Jan. 31.—Reports of con-
tinued acts of hostility to Great
Britain and citizens of this country
in Russia are causing considerable
perplexity and anxiety in official
circles here. At the Foreign Office
there is evident apprehension of an-
other popular anti-Russian suburb
have been started, but Mucukain,
is no doubt that full satisfaction
will be given for the Warsaw affair.
The newspapers are unanimous in
condemnation of Russia and attrib-
ute all incidents to anti-British sen-
timent.

At the Foreign Office yesterday it
was intimated that the accumu-
lative evidence of hostility, which,
either accidental or intentional, are
causing much apprehension, and it
will be necessary for the Russian
Government to give full and prompt
explanation, or otherwise popular
sentiment in the United Kingdom
might create a serious situation. It
was pointed out that while the in-
jured Pro-Consul at Warsaw, Mucukain,
is merely an interpreter and
native clerk in the Consulate, that
it would be necessary to prove that
the affair was not the result of the
publication of the objectionable no-
tices concerning which Ambassador
Harding already has protested offi-
cially.

The following communication was
issued by the Foreign Office last
night: "Information has been re-
ceived from the British Consul-General
at Warsaw that he and Mucukain,
the Pro-Consul, were attacked by
soldiers on Jan. 28. Murray (the
Consul-General) is not believed to
have been injured, but Mucukain,
who is a Russian subject, was
wounded by sword cuts, and is in an
hospital. Representations were at
once made by Ambassador Harding to
the Russian Government, which
demanded that the Governor-Gen-
eral at Warsaw should take strict in-
quiry into the incident. His Mas-
ter's Ambassador also sent Colonel
Napier, the military attaché, to
Warsaw to report on the subject."

180 Dead At Warsaw.

St. Petersburg, Jan. 31.—Yester-
day passed in perfect quiet. The re-
port that a bomb was thrown at the
Governor-General's residence is un-
founded. Mucukain has been trans-
ferred from St. Petersburg and Mos-
cow to Warsaw, Lodz and Libau,
where a state of siege has been pro-
claimed.

In the rioting at Warsaw on Sun-
day, at least 180 persons were killed
or wounded. The strike continues
unabated, and business is paralyzed.
However, the crisis has passed, and
there is great apprehension
now here with regard to what the
night may bring forth, especially if
the attempt to disable the lighting
system should be successful. The
Warsaw demonstrators evidently are
in an ugly mood.

The public command administered
to the Deputy Chief of Police, Rod-
noff, of Moscow, on account of the
posting of the anti-British telegram
has been delivered, and in Govern-
ment circles it is thought to be
severe enough to satisfy British opin-
ion.

Cent Approves Message.

St. Petersburg, Jan. 31.—In an in-
terview, Grand Duke Vladimir says:
"The shooting by the troops was
not planned by anybody, it was done
under the ordinary laws of the Em-
pire after the police had failed in
their efforts to stop the procession."

With extraordinary emphasis he
added:

"The military did their duty only,
and they will do it again if neces-
sary."

"It is a mistake to assert, as the
foreign press does, that the mob had
no warning. The regulation warning
given the mob by three blasts of the
bugles in Russia equivalent to the
reading of the riot act, was given."

"The people of Russia are abso-
lutely unfit for a constitution, and
there will be none given. The Em-
peror is unshakably resolute on that
point."

The Emperor has been much
grieved by the recent episode, but
he recognizes and admits the neces-
sity thereof, and has expressed his
determination to resist all revolu-
tionary demands.

"He is determined to grant all
proper reforms, but they will come
by his own will."

Death For a Prince.

Paris, Jan. 31.—The police early
yesterday discovered a supposed
bomb with a tube attached, contain-
ing a lighted fuse, in front of the
house of Prince Troubesky, an at-
tache of the Russian Embassy here.
The policemen extinguished the fuse
and informed the authorities, who
are investigating the affair.

A meeting was held last night in
the Rivoli Vauxhall, to protest
against Russian autocracy. During
the exit of the audience into the Av-
enue de la Republique, a bomb was
thrown into the ranks of the group
of police and Republican Guards,
in which stood Prefet-Lepine and
other high officials. Five persons
were wounded.

Canadian For Brazil.

Toronto, Jan. 31.—Prof. J. W.
Hart, a graduate of the G.A.O., and
who in 1903 was appointed head of
the dairy department in Illinois Uni-
versity, has been appointed director
of the College of Agriculture in the
State of Sao Paulo, Brazil, for five
years, at a salary of \$4,000 a year
and expenses, increasing to \$5,000.
H. A. Morgan, B.S.A., also a gradu-
ate, has been appointed director of
the State agricultural experiment
station of Tennessee.

MEN'S OVERCOATS

This is the time to buy Winter Overcoats.
First because you are sure to have several months of
good service out of it, and again because you get a de-
cisive reduction in the price. Then an Overcoat is always
good for two years' service at least, particularly
if it's a T. & D. Coat.

Run over these reductions then come and see the
coats, that's the only way to understand what they mean.

\$20.00 Reduced to \$13.50.

15.00 " 10.00.

10.00 " 6.95.

8.00 " 6.00.

5.00 " 3.00.
