## Trade and Commerce

# REPORT OF THE DEPUTY MINISTER.

To the Honourable

Sir R. J. CARTWRIGHT, G. C. M. G.,  
Minister of Trade and Commerce.

Sir,—The Sixth Annual Report of the Department needs no special explanation. The figures speak for themselves and show an unprecedented volume of trade, and consequently indicate an unusually prosperous condition of the country.

The total value of the imports during the year, \$143,323,053, is far in advance of any previous year since Confederation—the highest figure heretofore reached having been \$132,254,022 in 1883.

The exports, both home and foreign produce, exceed any previous year. The home produce, \$144,548,662, is nearly \$21,000,000 in advance of the highest figure heretofore reached, namely, in 1897—while the foreign produce, \$14,980,883, is nearly \$2,000,000 ahead of the highest previous figure in 1892.

The total trade, imports and exports, \$304,475,736, is some \$43,000,000, in advance of any previous record. An examination of the itemized statement No. 11 will show wherein the changes, as compared with last year, have occurred, and that in so far as regards imports there has been a general increase all along the line, no one article showing any very special advance; and that as regards exports, while there has been a falling off in one or two of the principal items, there have been marked increases in many others. Animals, living, show an increase of about one and three-quarter millions of dollars. The most marked increase, however, has been in grain and grain products, which show a total increase of twenty millions of dollars, of which three millions is Indian corn, which was placed on the free list under the tariff of April 23rd, 1897, and in order that there may be no misunderstanding respecting the large increase of this article as entered for home consumption, say six millions, it may be well to explain that all free goods are entered as for home consumption, but that the term in no way implies that they are actually consumed in the country; in this case, while there was over seven millions imported, there was also over five millions exported and accounted for as foreign produce. Fish and fish products show an increase of about one-half million of dollars. In gold and silver, the product of the mines there is about one and one-half millions; of lead ore, one-half million; with a total of metals, minerals, &c, exceeding four millions of dollars. The increase in cheese has exceeded three millions, in bacon and hams over two millions, with minor increases in provisions N.E.S. Wood pulp which is attracting considerable attention has increased to the extent of about one-half million dollars, and there have been increases of less importance in other wood and manufactures of, although the aggregate wood shows a decrease of something like three and one-half millions of dollars.

I would here take occasion to emphasize what the Department is endeavouring to keep constantly before the Canadian producers and exporters, that is, *the absolute*

*necessity of maintaining the high standard of quality* attained in home produce exported particularly such as *bacon and ham, butter and cheese*. In so far as the last item is concerned, Canada leads the world in the export thereof, and this preëminence has only been attained by strict attention to quality, and can only be maintained by still greater attention. The consumer has become educated up to a very keen discriminating taste; he knows what he wants, and he knows, too, that he can get it, if not from one country from some other that will recognize the importance of ministering to his wants. The same may be said with respect to our bacon and hams which have within the past two or three years achieved a reputation in the English market for their excellence; they, therefore, command corresponding prices, and in order to maintain such prices and to stimulate an increased demand the quality must be absolutely perfect. Any falling off will be the ruin of a trade now showing gratifying possibilities—too much care cannot be taken in the rearing of the hogs, the curing of the bacon and hams, and in the marketing thereof. The time has gone by when the English market will absorb in the shape of provisions anything that may be put upon it, which fact must be kept constantly in mind by those catering for it with the expectation of realizing top prices and preserving a well deserved reputation, always remembering that Canada has strong and worthy competitors who will take advantage of laxity on the part of producers and who will meet the demands of discriminating tastes.

A short statement is inserted showing the effects of the Preferential Tariff in favour of Great Britain and various other countries, which, however, did not come fully into force until after the close of the fiscal year now under review, the figures as far as they go are, however, of interest. Vide Page 565.

A revision of the Tariff always necessitates a revision of classification, and detracts from the value of comparative tables, items disappearing or new ones appearing while perhaps there may have been little real change—foot-notes have been inserted explanatory of the more important of such changes.

Commencing with July 1898, Monthly Reports of the Department have been issued with a view to an up-to-date presentation of trade figures, changes in tariffs, items of commercial interest, etc.

Since the close of the year under review important changes have taken place and steps been taken which will in the future be looked upon as milestones in the history of the progress of the country, such as the reduction of the rate of postage on letters transmitted by mail within Canada *from three cents per ounce or fraction of an ounce to two cents*, which rate applies also to letters addressed to the United States, and the reduction of the rate *to two cents per half ounce* on correspondence between Canada and:—

Another step taken—that of the appointment of a Joint High Commission by Great Britain (on behalf of Canada and Newfoundland) and the United States for the purpose of adjusting differences and misunderstanding existing in respect of the fisheries, boundaries, trade and other questions, which met first at Quebec, August 20th, 1898, subsequently adjourned to Washington where it re-assembled in November and adjourned in February 1899, to meet again August 2nd.

Following the precedent established last year of adding to the Report ascertained figures (unrevised) of the trade of the country up to the last possible moment before publication, there will be found immediately following, statements for the eight months of the fiscal year 1898-9, to the end of February, which though showing a falling off as compared with the like period in the year previous of nine millions in the exports of home produce, show an increase in imports, and in aggregate trade of nearly thirteen millions—thus indicating, unless there occurs unexpected disturbances and restrictions during the remaining four months of the year, a total volume of trade for this year equal to or probably exceeding that of the year 1897-8.

All of which is respectfully submitted.

W. G. PARMELEE,  
*Deputy Minister of Trade and Commerce.*

## COINAGE, WEIGHTS AND MEASURES.

To assist in arriving at a comprehensive understanding of the value of foreign currencies, weights and measures (as expressed in foreign trade returns, tariffs, &c.,) as compared with those of Canada, tables have been prepared as follows:—

As regards those of Canada, the law provides that the denominations of money in the currency of Canada shall be dollars, cents and mills, the cent being the one hundredth part of a dollar, and the mill one-tenth part of a cent.

That—The currency of Canada shall be such that the British sovereign (the pound sterling) of legal weight and fineness, shall be equal to four dollars eighty-six cents and two-thirds of a cent.

In like manner the law provides as respects weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce ( $437\frac{1}{2}$  grains) one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy, or 5,760 grains a pound troy.

As regards measures—that the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon containing ten standard pounds weight of distilled water weighed with the water and air at a temperature of sixty-two degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eighth part of the gallon, and that eight gallons shall be a bushel.

This gallon commonly known as the “Imperial Gallon,” contain 277·274 cubic inches, or 353·036 cylindrical inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

In many countries the Metric system of weights and measures has been adopted. A separate table of Canadian equivalents of these is given in order to avoid repetition, the word “Metric” being used in the general table in each case where the system is in vogue, as indicating a reference to that table.

The equivalent value of the monetary unit can only be given as respects those countries having a gold standard. Where silver is the standard, the value of the currency necessarily fluctuates correspondingly to the market value of silver billion, and were any attempt made to quote the value of such currency it would, under present circumstances, be misleading, therefore, the weight in decimal parts of an ounce with the fineness of the coin is given instead, which will enable any one to approximate the value of the currency according to the current value of fine bar silver. As an example, say fine bar silver at 75 cents an ounce, the Bolivian dollar weighs ·801 of an ounce, its fineness is ·900, therefore  $75 \times \cdot 801 = 60\cdot 075$  which  $\times \cdot 900 = 54\cdot 0675$ , or a small fraction over 54 cents, and the actual intrinsic value of the pure silver contained in the coin, to which should be added a reasonable allowance to cover the value of the alloy, the cost of the coinage, and in some instances exchange, the aggregate of which would be approximately the current value in Canadian currency of the dollar in question.

Unless carefully noted, the quotations as usually given of the current value per ounce of silver may be misconstrued and lead to misapprehensions, as it is sometimes quoted per ounce *fine*, and sometimes per ounce *standard*; thus for instance on a certain day the London quotation reads “fine silver per ounce standard 32 d.,” while on the same day it is quoted in New York “ $69\frac{1}{2}$  cents per ounce fine;” as 32 d. is equal to a fraction over  $64\frac{1}{2}$  cents, there would appear a difference of about  $4\frac{1}{2}$  cents per ounce between the two prices, the New York price appearing that much in excess of the other, were it not noticed that one is based upon *standard* fineness and the other upon absolute fineness, but by reducing the New York “fine” to London “standard” (of ·925 fine, or 444 grains fine to the ounce) the actual difference between the two quotations is found to be only about  $\frac{1}{2}$  of one cent per ounce, the London price being that much in excess of the New York.

## Trade and Commerce.

To reduce the value of *standard* or sterling silver when expressed in pence to *fine* expressed in cents, multiply the pence and decimal parts thereof by 2·192.

To find the *standard* or sterling value expressed in pence and decimal parts thereof when *fine* is expressed in cents multiply the cents by 0·4562.

\* Old weights and measures sometimes used. † The values in Chinese Imperial Customs Returns are always given in Haikwan taels, which are relatively in value equal to about 1.113 Shanghai taels. The tael is in reality not a standard of value (there is no such coin), but of weight, and when used in the sense of a value it only represents its weight in gold or silver, as the case may be, the real difficulty is to establish its exact equivalent in grains. Authorities differ greatly, as also does the practice in different sections of China. The Chinese are far from being inexact, and the probability is that there exists a standard, and a further probability that it is equal to 10 Japanese monmes, or 579.72 grains, which figures have been used in computing the value as above. It will be observed, however, that these figures fall short about 3.61 grains from the weight usual (say 14 oz. per tael) in dealing with the weights other than those of gold and silver. ‡ For many years the value of the peso in Chili has been 91.2 cents, but by the Resumption Act of Feb. 11, 1865, the value of the peso is made equal to 18 pence = 36.5 cents. § Usually reckoned same as Chinese Picul of 133½ lbs. ¶ This is long measure. †† Therefore by cloth measure 1 sun = 1.4916 in., 1 shaku = 14.916 in. and 1 jo = 149.6 in.

## CHINESE IMMIGRATION.

No. 68.—STATEMENT showing the TRANSACTIONS under the CHINESE IMMIGRATION ACT to the 30th June, 1898.

The Act went into force as respects arrivals by vessels sailing from ports in North America on the 20th day of August, 1885, and as respects arrivals by other vessels on the 1st day of January, 1886, *vide* 48-49 Victoria, chapter 71.

The Act as it appears in the Revised Statutes, chapter 67 (1886), is slightly changed from the original. There have been since then two amendments thereto, *viz.*, as per 50-51 Victoria, chapter 35 (1887), and 55-56 Victoria, chapter 25 (1892).

The administration of the Act was by Order in Council of 1st September, 1885, assigned to the Department of Customs and transferred to the Department of Trade and Commerce by Order in Council of the 13th of March, 1893.

The annual revenue, expenditure, &c., under the Act has been as follows :—

During the same period 9,504 Chinese have taken out certificates of leave or registered for leave up to 30th June, 1898, while a very large number have left the country without so registering, having no intention of returning, so that, for this latter reason, the exact number remaining in the country is uncertain.

### TREATIES AND CONVENTIONS.

#### (A.)—TREATY BETWEEN GREAT BRITAIN AND ETHIOPIA.

SIGNED BY THE EMPEROR MENELEK II, AND BY HER MAJESTY'S ENVOY, AT ADIS  
ABBABA, MAY 14, 1897.

[*Ratified by the Queen, July 28, 1897.*]

(English version.\*)

\* The Amharic version signed by King Menelek appeared in the left column of the original Treaty.

Her Majesty Victoria, by the grace of God, Queen of Great Britain and Ireland, Empress of India, and His Majesty Menelek II., by the grace of God, King of Kings of Ethiopia, being desirous of strengthening and rendering more effective and profitable the ancient friendship which has existed between their respective kingdoms;

Her Majesty Queen Victoria having appointed as her Special Envoy and Representative to His Majesty the Emperor Menelek II., James Rennell Rodd, Esq., Companion of the Most Distinguished Order of St. Michael and St. George, whose full powers have been found in due and proper form, and His Majesty the Emperor Menelek, negotiating in his own name as King of Kings of Ethiopia, they have agreed upon and do conclude the following Articles, which shall be binding on themselves, their heirs and successors:—

#### ARTICLE I.

The subjects of or persons protected by each of the Contracting Parties shall have full liberty to come and go and engage in commerce in the territories of the other, enjoying the protection of the Government within whose jurisdiction they are; but it is forbidden for armed bands from either side to cross the frontier of the other on any pretext whatever without previous authorization from the competent authorities.

#### ARTICLE II.

The frontiers of the British Protectorate on the Somali Coast recognized by the Emperor Menelek shall be determined subsequently by exchange of notes between James Rennell Rodd, Esq., as Representative of Her Majesty the Queen, and Ras Maconen, as Representative of His Majesty the Emperor Menelek, at Harrar. These notes shall be annexed to the present Treaty, of which they will form an integral part, so soon as they have received the approval of the High Contracting Parties, pending which the *status quo* shall be maintained.

#### ARTICLE III.

The caravan route between Zeyla and Harrar by way of Gildessa shall remain open throughout its whole extent to the commerce of both nations.

## ARTICLE IV.

His Majesty the Emperor of Ethiopia, on the one hand, accords to Great Britain and her Colonies, in respect of import duties and local taxation, every advantage which he may accord to the subjects of other nations.

On the other hand, all material destined exclusively for the service of the Ethiopian State shall, on application from His Majesty the Emperor, be allowed to pass through the port of Zeyla into Ethiopia free of duty.

## ARTICLE V.

The transit of fire-arms and ammunition destined for His Majesty the Emperor of Ethiopia through the territories depending on the Government of Her Britannic Majesty is authorized, subject to the conditions prescribed by the General Act of the Brussels Conference, signed the 2nd July, 1890.

## ARTICLE VI.

His Majesty the Emperor Menelek II., King of Kings of Ethiopia, engages himself towards the Government of Her Britannic Majesty to do all in his power to prevent the passage through his dominions of arms and ammunition to the Mahdists, whom he declares to be the enemies of his Empire.

The present Treaty shall come into force as soon as its ratification by Her Britannic Majesty shall have been notified to the Emperor of Ethiopia, but it is understood that the prescriptions of Article VI. shall be put into force from the date of its signature.

In faith of which His Majesty Menelek II., King of Kings of Ethiopia, in his own name, and James Rennell Rodd, Esq., on behalf of Her Majesty Victoria, Queen of Great Britain and Ireland, Empress of India, have signed the present Treaty, in duplicate, written in the English and Amharic languages identically, both texts being considered as official, and have thereto affixed their seals.

ADIS ABBABA, May 14, 1897.

YOUR MAJESTY,—

With reference to Article II. of the Treaty which we are to sign to-day, I am instructed by my Government, in the event of a possible occupation by Ethiopia of territories inhabited by tribes who have formerly accepted and enjoyed British protection in the districts excluded from the limits of the British Protectorate on the Somali Coast, as recognized by your Majesty, to bring to your knowledge the desire of Her Majesty the Queen to receive from your Majesty an assurance that it will be your special care that these tribes receive equitable treatment, and are thus no losers by this transfer of suzerainty.

In expressing the hope that your Majesty will enable me to give this assurance, I have, &c.

May this reach James Rennell Rodd.

PEACE BE UNTO YOU

With reference to the Treaty which we have written in the Amharic and English languages at Adis Abbaba, as I have no interpreter with me who understands the English language well enough to compare the English and Amharic version, if by any possibility in the future there should ever be found any misunderstanding between the Amharic and English versions in any of the Articles of this Treaty, let this translation, which is written in the French language, and which I inclose in this letter, be the witness between us, and if you accept this proposal, send me word of your acceptance by letter.

Dated 6th Genbot, 1889 (14th May, 1897).

*Mr. Rodd to the Emperor Menelek.*

ADIS ABBABA, May 14, 1897.

YOUR MAJESTY,—

I have the honour to acknowledge the receipt of your Majesty's letter inclosing the French translation of the Treaty which we are to sign this day in English and Amharic, and I agree, on behalf of my Government, to the proposal of your Majesty, that, in case a divergency of opinion should arise hereafter as to the correct interpretation to be given either to the English or Amharic text, the French translation, which has been agreed to on both sides as adequate, should be accepted as furnishing a solution of the matter under dispute.

In recording this assurance, I have, &c.

## ANNEX 3.

*Mr. Rodd to Ras Makunan.*

HARRAR, June 4, 1897 (28 Genbot, 1889).

PEACE BE UNTO YOU.

After friendly discussion with your Excellency, I have understood that His Majesty the Emperor of Ethiopia will recognize as frontier of the British Protectorate on the Somali Coast the line which, starting from the sea at the point fixed in the Agreement between Great Britain and France on the 9th February, 1888, opposite the wells of Hadou, follows the caravan-road, described in that Agreement, through Abbassouen till it reaches the hill of Somadou. From this point on the road the line is traced by the Saw mountains and the hill of Egu to Moga Medir; from Moga Medir it is traced by Eylinta Kaddo to Arran Arrhe, near the intersection of latitude  $44^{\circ}$  east of Greenwich with longitude  $9^{\circ}$  north. From this point a straight line is drawn to the intersection of  $47^{\circ}$  east of Greenwich with  $8^{\circ}$  north. From here the line will follow the frontier laid down in the Anglo-Italian Protocol of the 5th May, 1894, until it reaches the sea.

The tribes occupying either side of the line shall have the right to use the grazing-grounds on the other side, but during their migrations it is understood that they shall be subject to the jurisdiction of the territorial authority. Free access to the nearest wells is equally reserved to the tribes occupying either side of the line.

This understanding, in accordance with Article II. of the Treaty signed on the 14th May, 1897 (7th Genbot, 1889), by His Majesty the Emperor Menelek and Mr. Rennell Rodd, at Adis Abbaba, must be approved by the two High Contracting Parties.

I have, &amp;c.

(Signed)

RENNELL RODD.

*Ras Makunan to Mr. Rodd.*

(Translation.)

Sent from Ras Makunan, Governor of Harrar and its dependencies :

May this reach the Honourable Mr. Rennell Rodd, Envoy of the British Kingdom.

I inform you to-day that, after long friendly discussion, the boundary of the British Somali Protectorate upon which we have agreed is as follows:—

Starting from the sea-shore opposite the wells of Hadou (as on which the French and the English Governments agreed in February, 1888), it follows the caravan-road by Abbassouen till Mount Somadou; from Mount Somadou to Mount Saw; from Mount Saw to Mount Egu; from Mount Egu to Moga Medir; starting from Moga Medir, it goes in a direct line to Eylinta Kaddo and Arran Arrhe on  $44^{\circ}$  east of Greenwich and  $9^{\circ}$  north, and again in a direct line until  $47^{\circ}$  east and  $8^{\circ}$  north. After this the boundary follows the line on which the English and the Italians agreed on the 5th May, 1894, until the sea.

The subjects of both the Contracting Parties are at liberty to cross their frontiers and graze their cattle, but these people, in every place where they go, must obey the Governor of the country in which they are, and the wells which are in the neighbourhood shall remain open for the two parties.

These two letters on which we have agreed, according to Article II. of the Treaty of His Majesty the Emperor of Ethiopia and Mr. Rennell Rodd of the 7th Genbot, 1889 (14th May, 1897), the two Sovereigns having seen them, if they approve them, shall be sealed again (ratified).

Written at Harrar, the 28th Genbot, 1889 (4th June, 1897).

(Signed)

RAS MAKUNAN.

From Mr. Rennell Rodd, Special Envoy of Her Majesty Queen Victoria, to His Majesty Menelek II., by the grace of God, King of Kings of Ethiopia.

PEACE BE UNTO YOUR MAJESTY.

I have the honour to announce that The Queen, my gracious Sovereign, has been pleased to approve and ratify the Treaty which I had the honour to sign with your Majesty on the 14th May last.

Her Majesty has also been pleased to approve of the arrangement which, in accordance with the terms of Article II. of the Treaty, was agreed upon between Ras Makunan, as Representative of your Majesty, and myself by exchange of notes relative to the frontier of the British Protectorate in the Somali Coast; and it is presumed by Her Majesty's Government that your Majesty has also approved of it, as they have received no notification to the contrary.

The notes exchanged have accordingly been annexed to the Treaty which has received ratification, signifying Her Majesty's approval of all these documents.

I have now the honour to return herewith the copy of the Treaty intrusted to me by your Majesty, with its ratification in due form.

When I shall have received from your Majesty a letter signifying that this Treaty, thus ratified and approved, has come safely to your Majesty's hands, it will be made public by the Government of the Queen, that all her subjects may observe it and abide by it, and that it may strengthen the ties of friendship between our countries, and increase the feelings of esteem and good-will towards your Majesty which the reception of the British Mission in Ethiopia has awakened in my country.

I pray that your Majesty's life and health may long be preserved, and that your people may have peace and prosperity.

\* Includes exports Manitoba, only three months ended 30th June, 1871.

## EXPLANATIONS—STATEMENTS No. 7 AND 8.

In Statement No. 7, British Columbia and Manitoba are not included with the Dominion, until 1872. Prince Edward Island did not come into the Dominion until 1873, and is not included in Dominion Returns for Imports and Exports until 1874.

In order that the figures in Statement No. 7 should agree with Statements Nos. 3 and 4, Prince Edward Island is not included as part of Dominion from 1867 to 1874, but the figures for Prince Edward Island are included in Statement No. 8, as that Island was included in the Reciprocity Treaty of 1854 to 1866.

## ONTARIO AND QUEBEC.

The figures for Imports are Imports for Consumption.

The figures for Exports are Exports of Home Produce.

The estimated short reported at inland ports was calculated at 20 per cent on total exports home produce of all inland ports of Ontario and Quebec from 1850 to 1856—in 1856 at 13 per cent, in 1857 to 1869 at 12½ per cent, in 1870 to 1872 not known, from 1872 to 1887 10 per cent on total export home produce of Ontario, and on total export of home produce at certain ports of Quebec. Abercorn, Coaticook, Hemmingford, Mansonville, St. Armand, St. Johns, St. Hyacinthe, Sherbrooke and Stanstead were the ports on which calculation for Quebec was made last year.

## NOVA SCOTIA.

Imports for 1851 are only for dutiable goods, no returns printed for free list.

Exports for 1851 are for Port of Halifax only and do not mention whether "Home Produce" or not.

Returns for years 1852 to 1856 inclusive, do not state whether the imports are for home consumption or not, and do not state whether the exports are home or foreign produce.

No returns are given for 1857, the figures given being taken from an abstract printed in Supplementary Trade Returns in 1866—in *re* "Reciprocity Treaty."

No summary is given for imports and exports, 1861. They have been summarized and figures given agree with figures in above mentioned return.

In 1864 the returns specify that figures are total imports, amount entered for consumption not being given.

Returns for 1865 are only ones in which the amount entered for consumption is given separate from total imports.

It is evident that the imports and exports given in all these returns are the totals, for as an examination of the returns for the other provinces will show that large quantities of goods are imported there from Nova Scotia of a kind not produced in that province at that date.

## NEW BRUNSWICK.

The imports into New Brunswick are not for "home consumption" but the *total* imports, the values entered for home consumption from 1850 to 1867 not being given in returns.

The exports are the total exports, the home produce not being distinguished from foreign produce in the Abstract of Exports in returns for years 1850 to 1867.

## Trade and Commerce.

In 1868 the imports of free goods are not divided by countries. The total imports of "free goods" from all countries for the year ended 30th June, 1868, were \$2,477,646. In the following year the total imports of free goods were \$2,160,799 of which \$1,050,318 came from United States, being nearly one half. On this basis the imports of free goods in 1868 is estimated at \$1,200,000.

The exports of foreign produce are not divided by countries in returns from 1869 to 1882 inclusive. The total exports of foreign produce in these years were : 1869, \$739,623 ; 1870, \$900,035 ; 1871, \$893,564 and in 1872, \$979,726.

Imports of bullion 1873, \$10,707, from all countries not sub-divided.

### PRINCE EDWARD ISLAND.

The figures given for Prince Edward Island are taken from Appendix "O" published with the Journal of House of Assembly, 1864, being a statement giving the imports from and the exports to United States from that province for twenty years from 1844 to 1863, except the figures for the imports for the year 1863, which are taken from the regular yearly returns in the same appendix. In 1863 in one place the imports are given as £71,103 0s. 8d., and in the summary referred to as £84,771 18s. 10d. In order to ascertain which was correct the general statement for the year was summarized and it was found that neither of the amounts given correspond exactly with the summary of figures of the general annual return although the £71,103 0s. 8d. are so nearly correct that they have been used here.

In 1855 summary gives imports £43,241 17s. 10d., this includes £302 10s. 0d. value of imports from foreign countries other than United States. In same year the exports are given as £33,398 14s. 6d., which includes £1,137 11s. 2d. exported to foreign countries other than United States.

In 1856 the total given in returns is £52,373 9s. 6d. *currency*, which equals the figures given now £34,915 3s. 0d. *sterling*.
