Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

Manuscript Division,  
National Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Division des manuscrits,  
Archives nationales du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

TESTIMONIALS.  
OF  
JOHN RACEY, M.D. EDINBURGH.

---

*John Hutton Balfour, A.M., M.D., Professor of Medicine and Botany, and Dean of the Medical Faculty in the University of Edinburgh.*

UNIVERSITY OF EDINBURGH,  
13th November, 1862.

DR. JOHN RACEY was well known to me during his residence at this University, and I was led to form a very favourable opinion of his talents and medical acquirements. He made a distinguished appearance at his examinations, and was placed in the highest class of graduates in 1860.

I believe him to be a well-informed medical man, and to be thoroughly qualified for the practice of all departments of his profession.

J. H. BALFOUR, A.M., M.D.,  
*Professor of Medicine and Botany,*  
Dean of the Medical Faculty.

---

*William Henderson, M.D., Professor of Pathology in the University of Edinburgh.*

It gives me much pleasure to certify that Dr. JOHN RACEY was a very exemplary student during his attendance at this University, and that his success in the study of his profession has been such as to

warrant me in recommending him to the favourable consideration of those who may have to exercise the patronage of any medical appointment for which he may become a candidate.

WILLIAM HENDERSON, M.D.,  
*Professor of General Pathology,*  
 University of Edinburgh.

14th Nov., 1860.

*Joseph Lister, F.R.C.S., Professor of Surgery in the University of Glasgow.*

17, WOOLWICH PLACE,  
 GLASGOW, 14th Nov., 1860.

I was acquainted with Dr. RACEY during his dressership under Mr. Syme, in the Royal Infirmary of Edinburgh, and also when a member of my surgical class in that City, and in both cases had occasion to remark alike his intelligence and amiability, and his devoted application to professional study.

As he also bears an excellent moral character, I regard Dr. RACEY as a medical man of very high promise.

JOSEPH LISTER, F.R.S.,  
*Professor of Surgery,*  
 University of Glasgow.

*James A. Hunter, M.D., F.R.C.S. E., Surgeon to the Edinburgh New Town Dispensary.*

NEW TOWN DISPENSARY,  
 EDINBURGH, 13th Nov., 1860.

As I had numerous opportunities of judging of Dr. RACEY's attainments during the period that he acted as my pupil in visiting

the out-patients of this Institution, I have no hesitation in saying that I believe him to be fully qualified to hold any medical or surgical appointment. I was always well satisfied with the care, intelligence and knowledge of his profession which he displayed in regard to the cases that came under his treatment.

JAMES A. HUNTER, M.D., F.R.C.S.E.

*John Hughes Bennett, F.R.S.E., Professor of the Institutes of Medicine, and of Clinical Medicine in the University of Edinburgh. Physician to the Royal Infirmary, Edinburgh.*

EDINBURGH, 14th Nov., 1860.

I hereby certify that Dr. JOHN RACEY was a zealous student in this University, and took his degree of M.D. with great merit. I consider him fully qualified to practice his profession with honour to himself, and with advantage to the public.

J. HUGHES BENNETT.

*James Syme, F.R.S.E., Professor of Clinical Surgery in the University of Edinburgh. Surgeon to the Royal Infirmary, Edinburgh.*

2, RUTLAND STREET,

EDINBURGH, 12th April, 1861

I have great pleasure in expressing the very favourable opinion of Dr. RACEY's talents and professional acquirements, which I was led to entertain from my acquaintance with him during his residence here. He possesses all the qualities requisite for success in his profession.

JAMES SYME.

*R. Christison, M.D., Professor of Materia Medica in the University of Edinburgh.*

EDINBURGH, 13th Nov., 1860.

I certify that Dr. JOHN RACEY was a most diligent student when he attended the medical classes of the University of Edinburgh, that he made a superior appearance at his examinations prior to receiving the degree of Doctor of Medicine, and that he showed himself on these occasions to be both well acquainted with the fundamental sciences of medicine, and conversant with the details of medical and surgical practice. I am, therefore, persuaded that he is well qualified to enter on the practice of his profession, and deserves all confidence as a young physician.

A. CHRISTISON.

*Thomas Stewart Traill, M.D., Professor of Medical Jurisprudence in the University of Edinburgh*

EDINBURGH UNIVERSITY,

31st January, 1861.

MY DEAR SIR,

From your attention while one of my students, and your answers when under examination for our degree of M.D., I have no doubt of your qualification to practice our profession with credit yourself, and with advantage to society. With best wishes for your future success, I am, your sincere friend,

THOMAS STEWART TRAILL, M. D. & PR.

*David Gordon, M.D., Surgeon to the Royal Public Dispensary, Edinburgh.*

EDINBURGH ROYAL DISPENSARY,  
13th November, 1860.

I have much pleasure in certifying that Dr. RACEY was for some time connected with this Institution, where he enjoyed many opportunities of becoming acquainted with all the ordinary duties of general practice, and that he conducted himself in every way to my satisfaction.

DAVID GORDON, M.D.,  
*Surgeon.*

*James Y. Simpson, M.D., F.R.S.E. Professor of Midwifery, and the Diseases of Women and Children, in the University of Edinburgh:*

52. QUEEN STREET,  
EDINBURGH, 13th Nov., 1862.

Dr. JOHN RACEY was a very industrious and intelligent student at this University. He acquitted himself well at his examinations, and will doubtless prove to be a very useful and successful medical practitioner.

J. Y. SIMPSON.

*William Turner M.B., Lond. Senior Demonstrator of Anatomy, and Lecturer on Microscopical Anatomy in the University of Edinburgh:*

I have known Dr. JOHN RACEY for several years, and can speak with great confidence of the industry and general ability he displayed during the time he passed his medical studies in the University of Edinburgh. I am disposed to place a high estimate on his professional knowledge, for I had frequent opportunities of observing the dili-

---

gent manner in which he continuously applied himself to its acquisition.

WM. TURNER, M.B. LONDON,  
*Senior Demonstrator of Anatomy.*  
University of Edinburgh.

---

*J. Wasburton Begbie, M.D., Lecturer on the Principles and Practice of Medicine, and on Clinical Medicine in the Royal College of Surgeons Edinburgh. Physician to the Royal Infirmary, Edinburgh:*

Dr. JOHN RACEY was well known to me during the period of his studies in Edinburgh, and I have much pleasure in bearing testimony to the zeal and diligence with which these were prosecuted.

Dr. RACEY is understood to have passed his examinations for the degree of Doctor of Medicine with much credit and distinction. I can certify to the extent and accuracy of his professional information, and can with much confidence recommend him as in every way fully deserving the confidence of the public.

J. WASBURTON REGBIE, M.D.
