WILSON'S PEACE TERMS.

It may be frankly admitted that the speeches and letters of President Wilson read a good deal better on this side of the border since the United States entered the war than they did before that circumstance.

For the convenience of Brantford visitors, and as usual, there'll be a great crowd of them there, a special train will leave the Market St. station (G. T. R.) at 1:10 p.m. on Wednesday, and Colborne St. depot at 1:15. Special returns will be made. The Dufferin Rifles band will be in attendance.

Farewell To Mr. And Mrs. Unger

The home of Mr. Fred Unger was the scene of a pleasant gathering last evening when the officials and employees of the Board of Works Department met to present their departing comrade with a slight token of their esteem. The party arrived un-heralded and Mr. Unger was presented with a gold watch and chain, while Mrs. Unger received a leather rocking chair and a pedestal. The presentation was made by Mr. Hugh Howie and the following address read by Major T. H. Jones:

Brantford, Sept. 27th, 1918
Mr. Fred Unger, Superintendent of Streets and Sewers, of the City of Brantford. Dear Mr. Unger—Your friends of the Works Department of the City of Brantford, on the eve of your retirement from the service of the City desire to express their regret at the severance of the pleasant ties which have bound us together in the past.

Entering the employment of the city some fifteen years ago, you have by your industry, integrity and ability risen step by step to your present position, and at all times have retained the confidence of your fellow employees.

We ask you to accept this watch and in the hope that as time rolls by it may remind you of your old associates. We feel sure that the success which you have achieved in the past will continue with you in your new fields as a contractor. We also ask Mrs. Unger to accept this chair and pedestal and wish you and your family continued happiness and prosperity.

Signed on behalf of the Works Department of the City of Brantford: And J. Quinlan, Jno. Anguish, Alex. Richardson, Wm. Carruthers. The evening was spent in music and recitations, after which refreshments were served by Mrs. Unger.

SITUATION

By Courier Leased Wire
New York, Sept. 28.—The Associated Press this morning issued the following:

Bulgaria has virtually sued for peace, following the utter defeat of her armies in Macedonia.

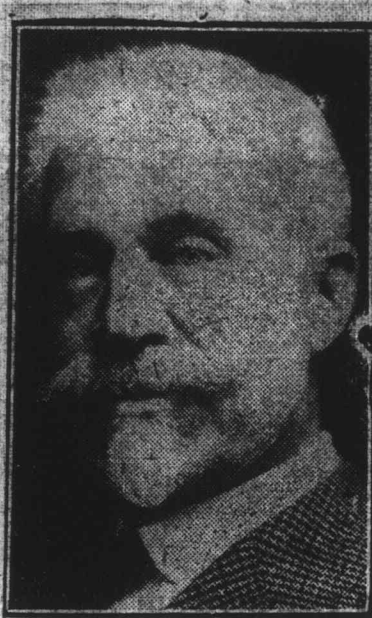

First reports of the proposals looking to an armistice between the Bulgarians and the Entente Allied armies indicate that Premier Malingoff of Bulgaria acted on his own initiative in thus admitting defeat and paving the way for his nation to get out of the war. Later advices stated that the armistice proposals had aroused opposition and appeared to reflect a situation bordering on revolution in Bulgaria.

Last reports reaching this country by way of Copenhagen, state that the ministerial bloc in the Bulgarian Parliament was responsible for the move, which may mean that the absolute away of King Ferdinand has been broken and that the people of the country are behind the demand that Bulgaria surrender before the Allied troops invade her territory further. Serbian cavalry has been reported within fifteen miles of the Bulgarian frontier.

This sensational development opens up a new phase of the war. If Bulgaria makes peace with the Allies her example, it is probable, will be promptly followed by Turkey whose army in Palestine has been destroyed and has little hope, apparently, of further help from Germany in the extremity of her peril.

Thus the iron ring about Austria-Hungary will be reconstituted. Rumania seething with revolt against the German conqueror, seem almost ready to begin warfare, once more, recent reports from that country stating that the situation there is most threatening to the Central Powers.

With the Allies once more on the southern frontier of Austria, the smouldering brands of revolution in the Magyar provinces of the dual empire may burst into flame.

WALTER J. BARR
Half-Century in Business
President of the Goldsmith's Stock Co., of Toronto, who celebrated his Jubilee in business on Friday last.

There are in fact a world of possibilities in the situation that developed yesterday in the Near East. American forces attacking on the Argonne forest, northwest of Verdun appear to be approaching the main German defences in that direction. After their rapid advance on the first day of the battle they slowed down almost all along the line of attack yesterday, and while progress was made, it did not take the appearance of a victorious sweep that marked the opening of the battle on Thursday morning.

West of the Argonne forest, in the Champagne sector, the French have reached the village of Somme-Py, on a very important line of railroad, which supplies the German forces further west. General Gouraud has advanced his line everywhere in this sector.

No Law Compelled Us— Our Service Demanded it

We Did it Because We Believed You Needed This Safeguard

IN MANY big cities on this continent the Medical Health Department compels, by law, every dairy to pasteurize milk. Scientific tests have proved that public health needs this safeguard. In Brantford there is no such legislation. Yet you can enjoy the satisfaction of knowing your milk supply is safeguarded—completely and scientifically.

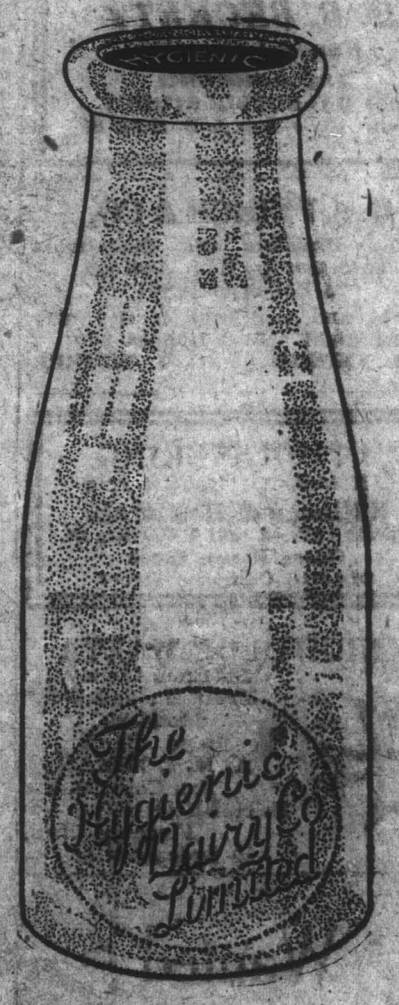

For here in the Hygienic Dairy we have every equipment a modern up-to-date dairy needs. For the last five years we have been pasteurizing milk. We believed in it. We considered it vitally necessary to the safety and goodness of the milk we were selling. We installed this costly equipment, went to this extra expense and trouble, in order to safeguard Brantford's milk supply.

That is the aim of Hygienic Dairy Service—to supply you with milk that is rich and pure, fresh and safe—always.

Therefore we bottle Hygienic Dairy milk. And we sterilize every bottle before use—we are the only dairy in Brantford that takes this extra precaution.

This is the milk you should be getting every day.

And in these cool weather days you should use lots of it—as a beverage and as a food. Use more of it in your cooking. Get an extra supply for the kiddies—for morning cereal, in place of tea or coffee, as an "in-between-meals" drink.
