WATERDOWN

Address to Miss Ruby Church

To Miss Ruby Church:

Dear Friend and Fellow-worker.

Representing the membership of the Waterdown Methodist church we have assembled here to-night on a mission of mingled joy and sadness. We have heard strange rumor of late as to the contemplated removal of one whom we had almost come to look upon as a necessary part of our organization as a church, one who could almost always be counted upon to fill the position of pianist or leader of song at Church or Sunday School, League or Concert with a grace and efficiency which left nothing to be desired, in fact a Jewel, a Ruby of the finest quality.

To hear that such a part of our organization was to be suddenly removed from us, or had even considered saying "Yes" to such a proposition, comes almost like a shock of discord in some grand selection of music, and we have feelings akin to pain—This our sadness.

Being a christian people, and as such mindful of the rights and needs of others, we rejoice that we have had the pleasure and profit of your companionship and help in the days of the past. We have certainly appreciated the earnest spirit of helpfulness you have shown while living among us.

We shall miss you in many ways, as a worker, a musician, a friend. We rejoice also to know that your efforts will not cease, but that in a neighboring sphere you will continue to cheer and assist with voice of melody and soul of song those with whom you mingle. In your new home we believe you will prove to your life partner "A guardian Angel o'er his life presiding, doubling his pleasures and his cares dividing."

On behalf of our church and its varied activities we ask you to accept a slight token of our gratitude for past services so cheerfully acceptably rendered. Our best wishes accompany you and we believe—

"If solid happiness we prize

Within our breast the Jewel lies
And they are fools who roam;

The world has nothing to bestow;
From our own selves our joy must flow,

And that dear hut, our home."

In your roll as home-maker we sincerely hope you may be abundantly successful and that your songs may never cease. May we hope that sometimes you may find it convenient to drop in at our meeting, or at our firesides, and assure you of always finding a hearty welcome there.

Mrs. Albert Slater has returned after spending a couple of month's visit with relatives with relatives in Cranbrook, P. C.

The Ladies' Aid Society of the Methodist church held a very enjoyable afternoon tea at the home of Mrs. A. M. Slater on Wednesday of this week. A book guessing contest afforded an interesting and amusing entertainment in which Mrs. J. F. Vance won the first prize and Mrs. E. Douglas the booby prize.

NOTICE

Young men, old men, boys and those interested in sports for Waterdown for the coming year, come out to the meeting on Monday evening, in the Bell House, and help form a club.

Village Council Meeting

The village council met Monday Feb. 14th at 8 p. m. Members all present. The minutes of the previous meeting were read and adopted.

Communications were read from the Bee-keeper's Association of Wentworth, the Johnson Oil Refining Co. Provincial Board of Health and from the Hydro Electric Co.

On motion of councillors Crooker and Dale the council will finance the High school until the taxes are available next fall.

On motion of councillors Dougherty and Atkins the report of the auditors was accepted and the auditors paid their salaries.

On motion of councillors Crooker and Dale the council agreed to purchase 50 feet of 20 inch tile for the dump on Mill street on the premises of Mr. D. S. Atkins who promises to allow the residents to dump their refuse there.

A By-law was passed requiring all dogs and bitches to wear tags. The owners must certify to the number of dogs or bitches kept and must purchase a tag for each at a nominal charge of 15 cents.

The following bills and accounts were passed and ordered paid.

To Jas. E. Eager Estate for coal oil and fire shovel for council chambers, 45c.

To High school loan for Jan. and Feb. \$550.

To Royal Bank to retire Debenture and interest for Hydro, \$401.19.

To Greene Bros. for repairing lamp at Bell House, \$2.50.

To John Smiley for corporation work, \$7.

To Henry Slater for lumber and Scantling for walk at new Public school, \$53.64.

To S. Weaver for corp. work, \$1.50

To R. Sparks for auditing, \$15.

To J. J. Green for auditing, \$15.

To the Clerk to defray expenses of deputation to Toronto re school \$25.

To Hydro Electric, power bill for Dec. \$22.76; 48 street lamps \$41.08 200 billing forms 36c.

To Corporation of Waterdown to retire Debenture and interest \$401.19

To Morden Bros. auto hire 2 trips to Burlington and cartage, \$4.50.

To Jas. E. Eager estate for screw nails, etc. \$2.04.

To John A. Eynes for material and labor re electric service to new Public school, \$218.58.

To Karl Carson, work for Hydro \$12.

To H. Nicol, Hydro work, \$13.80

To G. Johnston for removing Hydro pole, \$1.

On motion of councillor Dale and Crooker a by-law was passed refunding to Henry Slater \$28.22 over charge on business assessment.

On motion the council adjourned to Monday, Feb. 14th.

J. C. MEDLAR,
Village Clerk

Greenville

Mr. Hall has moved into the house he purchased from Mrs. O'Regan.

Mr. Wm. Nicholson of Jordan is visiting at his brother's, Mr. Geo. Nicholson.

Mr. Jake Smith of Tilsonburg spent a few days here with friends.

Mips Lizzie Green spent the week end with friends in Dundas.

Locals

Mrs. Peter Neff and Mrs. Baird visited friends in Vineland on Thursday.

Mr. and Mrs. W. G. Spence and son spent the week end with friends in Hamilton.

Mrs. Frank Johnston, who has been very ill for some time, is not progressing very favorably.

The Bishop of Niagara will conduct a Confirmation service in Grace Church, Monday, Mar. 14th at 8 p.m.

Master Byron Cummins, who has been quite ill with scarlet fever, is able to be up again and is improving nicely.

Mr. P. Carson has returned home from Rochester, N. Y. after spending a month with his son and other relatives.

Mr. H. A. Drummond has leased the stone mill on Mill street and will shortly open a flour and feed business.

The Weaver chair stores will open a store in Waterdown about the first of March. They have leased the old Drug store property on Dundas street and will fit it up at once for the new business.

Millgrove

Rev. Albright and Mr. D. C. Flatt attended the district meeting in Hamilton on Thursday.

Miss Muriel Hounsome of Cope-town is visiting in the village.

Mrs. Chas. Cummins has returned from visiting her sister in Toronto.

Mr. Geo. Denholm has purchased a home in the village.

Mr. Geo. Shelton has purchased the property owned by Mrs. William Shelton in the village.

Mr. Orlando is moving back to his farm on the town-line this spring.

Mrs. E. W. Tufgar has purchased a home in the village.

The concert given by the Delta Alpha class was a decided success.

The women of our neighborhood are busy making quilts for the Deaconess' Home in Hamilton.

Anniversary services will be held here on Sunday, Feb. 20th.

There was a young man whose name was Albright,
Just because he could cook thought he was alright,
By fate one day a Miss Wright he did meet,
And shyly he looked as he walked down the street.

Albright is a minister do you see,
Miss Wright is a teacher of A. B. C.
So together they decided the sights to behold,
Of Ice Cream parlors and shady nooks untold;
But dance halls with their music they declare
All well meaning young people should beware.

As on life's journey this young couple do start,
May they have the blessing of every kind heart,
Here's hoping they will enjoy that grand old scene
Of a sunset from a west window as only it's to be seen.

Into a Crockery Teapot

Put a teaspoonful of the genuine

"SALADA"

for every TWO cups. Pour on freshly BOILING water and let it stand for five minutes. THE RESULT will be the most perfect flavoured tea you ever taste!

OUR BOYS' AND GIRLS' CORNER

By Aunt June

DEDICATED TO EVERY BOY AND GIRL IN CANADA

Registered According to the Copyright Act

Dundalk, Ont.
Dear Aunt June:—I have been reading your Boys' and Girls' page and I would like very much to join your Helpers' League of Service. There are a great many things I do to try and help our King and Country, which everybody should do. Some of the things I do are to help mother with her work, such as bake milk, the cows, carry in water and wood, get the meats, look after the fowl and when I have got all the work down, I crochet. I am fourteen years of age and would like very much to receive a badge.

ANNE ABBOTT.
Dear Aunt June:—You are one of the first helpers for a long time who has used the expression "to help our King and Country." I am glad you look upon help in this way, that is from the view of helping your country. I am glad you like to do crochet work. You must have a very happy busy life with all the many other things you do. I hope you will wear your badge.

R. R. No. 2, Lanark, Ont.
Dear Aunt June:—I have been reading the boys' and girls' letters for some time and thought I should like to be a Helper. We are having a lovely winter for sleigh-riding and going to concerts here. I live a mile from Middleville, which is a small village. I go to school. I am in the senior third class and eleven years old. My teacher is Miss Craig. I like her fine. For pets I have a black and white pup which will do some tricks, a black and white kitten and a black horse called Roy. He is very quiet. I have two brothers but no sisters. I help my mother to do the work, wash the dishes, sweep the floor, bring wood and water, milk, if necessary, and other things. I don't see your pledge published this week so I can't sign it. I would like to get a badge. I will close, wishing your club success.

CARRIE.
Dear Aunt June:—I am glad you are enjoying the winter with plenty of sleigh-riding. I see you also have a teacher whom you like at school. That is splendid. You seem to love the colors of black and white in your pets. I would like to see the kitten and the horse. I am glad indeed to welcome you as a true Helper and to send you a badge.

Hamprey, Ont.
Dear Aunt June:—I live on a farm. I do the chores. I milk one cow, feed the pigs and hens and sheep. I get in the wood and cedar. I raked all the hay last year off three farms and stored it in hay and oats. I am eleven years old and I am in the third book, and I do home work at night. I clean out the stables. I wish to receive your badge. I think I will close for this time. From your friend,
RICHARD CRONIN.

Dear Richard:—I am very glad to welcome another boy to our League of Helpers. You are quite a farmer judging by the number of duties you undertake. I am sure you have earned a badge.

Holyrod, Ont.
Dear Aunt June:—I wish to join

THIS LOVELY WHITE BRUSH AND COMB FREE TO GIRLS

HOMER-WARREN CO., Dept. 114, Toronto.

PLEDGE FOR HELPERS.

"Do a little kindness to someone every day. Scatter rays of sunshine all along the way."

I pledge myself in the service of my King and Country to do my best in my daily work, whenever it may be, to help others whenever possible, and to endeavor in every way to make myself a good citizen.

Name.....
Age.....
Address.....
Date.....

your Club and I have signed the pledge. I am also enclosing a stamp for my badge which I hope I may receive soon. I am ten years of age and I attend a country school. I am in the senior second class. After I come from school in the evenings I help my mother all I can. Later I will write and give you a more definite description of my daily work. I will now close, hoping to see my letter in print and also wishing your Club every success.

PEGGY.
Dear Peggy:—I shall look out for your letters with the account of your daily work. I hope you will tell me something about your school. I am very pleased to welcome you into our League of Helpers and hope you will like your badge.

Ceylon, Ont.
Dear Aunt June:—I would like to join your League. Please send me a badge. I am eleven years old and go to school every day, and when I come home at night I get in the wood and water and I sometimes wash the dishes, and sweep the floors for mother and mind the baby. I have three brothers and two sisters. My baby sister is two years old. I hope I get my badge. I must close now.

JIMMIE LAUGHLIN.
Dear Jimmie:—What a useful boy you are to be able to wash dishes for mother and look after baby sister! You did not tell me very much about her. I wonder if she is dark or fair. I am sure she would love her big brother. There must be a lot of helping to do in your house with four boys and two girls, but it is very lovely to be one of a big family, isn't it, Jimmy? I hope you will wear your badge to show that you are a true Helper.

Brachburg, Ont.
Dear Aunt June:—I would like to join your League. Please send me a badge. I am ten years old and am in the senior third class. I like our teacher. Her name is Miss Dougherty. For pets I have a dog. I can drive him around. I have three big cats and a wee kitten. It will play with a string. One of the old cats weighs twelve pounds. I am sending a three-cent stamp for my badge. I wash dishes and sweep the floors and other house work. I have two sisters older than myself and one brother younger.

ISABEL COWIE.
Dear Isabel:—What a scrappy little piece of news you gave me about your dog. Is he a big dog, is he a terrier or hound, and what does he look like? I wonder if he can do any tricks. I always like to hear about pets and would like to see the wee kitten. I am so glad you like your teacher. School is so much happier when the teacher is a real good friend with the pupils. Perhaps you will tell me more about your school one day. I hope you will like your badge.

London, Ont.
Dear Aunt June:—I, like others, wish to join the League. I go to school every day as my parents wish me to get a good education. I come home from school I cut wood and sometimes carry water for my mother. During last summer holidays I plowed two fields of about five acres each. I have two brothers and two sisters. I do not know how much in stamps to send so I will send four cents worth. I hope to receive my badge safely.

RALPH CLIFFORD.
Dear Ralph:—You will see you have

arrived in the very good company of three other boys. As I have said before, I am always glad to welcome boys into our page. Plowing two five-acre fields certainly sounds like helping. I expect you like this work very much. Most boys I have met on farms love to plow. Tell me about your brothers and sisters some day when you write. I would like to know if they are Helpers, too. Any boy who helps his mother deserves a Helper's badge. Of course, every real boy should help his mother whether he has a badge or not, but I want to give a badge to every boy in Canada who tells me he does his best for those at home.

R. R. No. 3, Clistor Centre, Ont.
Dear Aunt June:—I am going to call you Aunt June just for fun. I call most everybody Aunt. I am thirteen years old and am going to try my entrance exam in summer holidays. I can do most everything on the farm but plow. I have a Broncho pony which I ride. I think a great deal of it. Here's hoping I may receive my badge.

EDWARD McDONNELL.
Dear Edward:—I have been Aunt to so many hundreds of boys and girls through the League of Helpers that I am very pleased to have yet another one call me Aunt. I have some really, truly nephews and nieces of my own and the youngest one is only two years old. The oldest one is just nine months younger than Aunt June. Now, don't you think that it is very funny for an Aunt to have a nephew almost her own age? There, I have given you some news about myself. Your letter reads as though you are a very useful boy about the farm. I would like to see your Broncho pony. I am sure you must love him. Wouldn't it be splendid if every boy could have a pony to ride. You are very fortunate to have such a pet.

Paisley, Ont.
Dear Aunt June:—I wish to join your League of Helpers with the other boys and girls. I go to school every day. When I come home I help get the supper, and after supper I help wash the dishes, sweep the floor, and put the little ones to bed. I sometimes help to milk, but when papa is at home he milks in my stead, and I help mama and Amy in the house. I am going to tell you about our school. The trustees got new seats and new blackboard. They also painted the walls, ceiling, wainscoting, etc. Our teacher's name is Miss Clements. I am eleven years old and am in the junior fourth class. I have two-and-a-half miles to go to school. Please find enclosed a three-cent stamp for a badge. Hoping to see my letter in print. I will close.

M. JEAN McKENZIE.
Dear Jean:—You are a true Helper by all your deeds of kindness. I always love to hear from boys or girls who help their little brothers and sisters. How very interesting for you to have the school done up! You must be proud of the clean walls and new seats. It is just like going to an entirely new school. I wish you every success with your lessons and your service. You shall have a badge.

Otter Lake, Que.
Dear Aunt June:—I am a little girl nine years old. I would like to join your Club. I go to school every day, first with my cousin in school. We are both in the high grade. I help my mother all I can. I have four sisters and one brother. My brother is five years old. His name is George. Would you please tell me what I have to do to get a badge? I will close wishing Aunt June and all the members a happy New Year.

ANNIE MAY MOORE.
Dear Annie:—I shall be very pleased to welcome you into our League of Helpers. A little girl who helps mother all she can must be a

Rheumatic Pains

Are relieved in a few days by taking 30 drops of Mother Seigel's Syrup for rheumatism and on resting. It dissolves the lime and acid accumulation in the muscles and joints so these deposits can be expelled, thus relieving pain and soreness. Seigel's Syrup, also known as "Extract of Roots," contains no dope nor other strong drugs to kill or mask the pain of rheumatism or lumbago, it removes the cause. 50c. a bottle at drug sts.

When you think of TORONTO always think of THE WALKER HOUSE

It is the Personal Service Plan and more than the walk-in service. It is a plan that is always ready to the hand of an emergency. It is a plan that is always ready to the hand of an emergency. It is a plan that is always ready to the hand of an emergency.

MONTH OLD BABY HADSKIN TROUBLE

On Face and Hands. Itched and Burned. Cuticura Heals.

"My baby was only a month old when her face and hands started to get red and scaly. The eczema started in the form of water blisters and itched and burned. She was so cross and fretful she could not sleep."

"This lasted nine months when I tried Cuticura Soap and Ointment, and I used three cakes of Soap with two boxes of Ointment when she was healed." (Signed) Mrs. Oscar Pallen, Amherstburg, Ontario, May 7, 1918.

Cuticura Soap, Ointment and Talcum are all you need for all toilet uses. Bathe with Soap, soothe with Ointment, dust with Talcum. Soap 25c, Ointment 25 and 50c. Sold throughout the Dominion. Canadian Dept. of Trade, Limited, St. Paul St., Montreal. 1918 Cuticura Soap shaves without lather.

member of Our Helpers' League and wear the badge. If you will write me another letter, tell me of the things you do at home, and enclose three-cent stamps to post your badge. I will send it to you by return.

Wyevale, Ont.
Dear Aunt June:—As I saw my other letter in the paper and saw what other boys and girls told of their pets and what they are doing, I am going to do the same. I have a lovely big black cat, and he is so fat and always so shiny. I call him "Darkey." I wash the dishes nearly always and sometimes I milk some of the cows there. I have four sisters and one brother. I am the baby of the family. I will close now. I am your every day friend, Hootus.

P. S.—I am sending a verse for your nice little corner:
Seven little niggers chopping up sticks,
One chopped himself and then there were six,
Six little niggers at a Beehive,
A humble bee stung one, and then there were five,
Five little niggers walking on the shore,
One tumbled in, and then there were four,
Four little niggers sitting on a tree,
A branch fell on one and then there were three,
Three little niggers out to the Zoo,
A bear cuddled one, and then there were two,
Two little niggers sitting in the sun,
One frizzled up and then there was but one,
One little nigger living all alone,
He got married and raised seven of his own.

I am glad to hear from you again, Hootus, with so much news. I think by now you must know that I am particularly fond of a black pussy cat. A black cat is supposed to bring luck. Is it not?
You see I have published your little verse. The game you sent in I shall print in our corner next week. I am glad to hear you are one of a big family, as I am sure you will not be lonely.
Look for more letters next week.
Yours Lovingly,
AUNT JUNE.

CLEAR NORTH LANDS.

World Reduce Unemployment and Improve Farms. One means of solving the problem of unemployment is for the Government of Canada to begin the long-overdue task of preparing its bush lands for settlement in the clay belts of the north. Owing to summer frosts, farming of northern clay lands has largely been a waste of time and money. Only by clearing whole areas will this barrier to settlement ever be overcome. Farming under present conditions, whereby each settler clears a small patch, is putting the cart before the horse, and is wholly unwarranted. At least 65 per cent. of each lot in carefully selected townships should be cleared by means of large gangs living in community camps. Herein lies one solution of unemployment, now awaiting before us daily in the breadlines of the cities. Work could thus be provided, particularly in the fall and winter months, as well as during special periods of unemployment. This policy of extended land-clearing should not be simply an emergency measure, but should engage the attention of the Federal and local Governments the whole year round. Should any of the workers at these community camps wish to remain on some of the cleared lots they could be sold to them on easy terms. For the next 20, 30, yes, and for 60 years, land-clearing in preparation for future settlement should be an urgent and essential department of every Government in the Dominion. The big industrial plants of the Dominion, as well as the Government, can assist in this great undertaking. Every large industry should apply for a whole township or more in the bush lands. Land-clearing might be made a business department of many Canadian enterprises employing great numbers of workers. Instead of "laying-off" men when a pinch comes, they could establish large land-clearing camps and homestead by proxy. In this way an outlet would be provided for a considerable percentage of the able-bodied employes now turned into the streets. If as ably handled as other departments of the business, the land-clearing department would undoubtedly prove remunerative. Lumber, ties and pulp will always find a ready market in Canada as well as in the bordering States. The farmers, too, can take a very real part in this permanent policy for relieving unemployment. Let thousands of individual farmers apply for bush lots of 160 acres each in the clay lands. All applications should be localized in townships most suitable for future settlement. At convenient centres in such townships the Governments should provide comfortable and attractive community camps.

A house of 6 or 7 rooms at once or in a month's time. Convenience if possible. B. Batchelor, Druggist

To Rent

In the Village of Waterdown on west side of Main street next to Dr. McGregors. A comfortable concrete cottage, 6 rooms, verandah, hard and soft water, garden fruit trees and chicken house. This house will be vacant Feb. 16th. Apply to Robt. Science, Waterdown.

For Sale

1 Sliding Couch, good as new. 1 Singer Sewing Machine and 1 Set of Scales. Apply at Review Office.

For Sale

Clean Sweet Clover Seed, white blossom. Apply to C. Eaton, Carlisle. Phone 15-13.

Farm hands should be hired by the year. Instead of being turned adrift when the busy season is over, to congregate in the towns and cities, they could go north for a short period to help in clearing the bush lots of their employers. They would not, of course, be asked to live in shacks on the individual lots. They would reside at the nearest community camp, and share in all its social activities.

There need be no elaborate preparation for this work. Men in charge of a practical bush foreman could be sent north at once with warm clothing, tents and small portable sawmills. A suitable site for a community camp could be selected in the centre of each township opened, and the necessary buildings erected. The work of felling trees, cutting ties, pulpwood and other lumber could be started immediately.

Because of existing conditions of settlement many men, even among the unemployed, are naturally loath to face the hardships involved. The writer is of the opinion that this prejudice can largely be overcome when the men are well clothed and housed in fully equipped community camps. Why spend so much on able-bodied men in the cities, when an equal expenditure in well-organized efforts would provide stimulating employment to many thousands in the healthier environment of the north. Well-fed men in comfortable community camps, not the bread lines of the cities, is the solution.

Let Canada for all time abandon the foolish policy of homesteading her bush clay lands by individuals, working separately against unequal barriers. Rather let her undertake now a great permanent land clearing policy by using large gangs of unemployed men, living in community camps, supplied with every facility for education and entertainment—the movies not excepted.—Alfred Fitzpatrick, Principal Frontier College.

Old Hats Exported.

Thousands of hats discarded by English women are exported every year to Brazil, where they are eagerly bought by the Indians. The feathers and other ornaments on the hats are taken by the men, and the bare straw shapes given to their women-folk.

Getting Together.

A youth named Beer was arrested the other day for breaking into a public-house. The magistrate decided that the proper place for him was the jug.—London Punch.

Doctors in Holland are experimenting with radium water as a medicinal beverage.

DANGER POINT PAST AND TRADE IS PICKING UP

WORST OF DEPRESSION OVER,
SAYS ECONOMIST, STOCKS RE-
DUCED AND MERCHANTS
GAIN CONFIDENCE.

The danger point in the industrial depression has been safely passed, and conditions may be expected to improve from now on, George E. Roberts, vice-president of the National City Bank of New York and noted economist, declared in an interview: "It is fair to say that the worst of the industrial depression is over," he said. "Before January 1 there was a general feeling of uncertainty, even alarm. The people didn't know how much worse conditions were going to be. There was almost a total cessation of buying by retailers. The situation has now noticeably improved, stocks have been reduced, merchants are more confident, and there is a general resumption of buying."

Gradual Process.

"While keeping in mind the fact that we are now on the road to normal industrial conditions, it would be unwise to assume that all our factories will reopen over night."

"I hardly look for a full state of employment and general prosperity until the industrial situation is more generally balanced. Some products have experienced a great fall in value; others have been only slightly reduced. Many retail prices have not come down to conform with wholesale prices."

Farmers Hard Hit.

"Farmers generally have taken a big shrinkage in the value of their products and owe a great deal of money. They will not buy at a normal rate until their debts are reduced and other prices are down to correspond with their own. And the farmers constitute 48 per cent. of the population."

"The speed with which the present depression is entirely effected will be in just the ratio that everyone realizes the necessity of getting prices down to a common level."

"As regards wage earners, their contention that they will not accept reductions in prices of their labor until the cost of living comes down simply amounts to clinging to a fallacy. It is the commodities in which the cost of labor is a large factor that are holding up the general decline."

A WOMAN'S RIGHT TO GOOD HEALTH

MOST TROUBLES AFFLICHTING
WOMEN ARE DUE TO POOR
BLOOD.

To every woman belongs the right to enjoy a healthy, active life; yet nine out of ten suffer from some form of bloodlessness. That is why one sees on every side pale, thin cheeks, dull eyes and drooping figures—sure signs of headaches, weak backs, aching limbs and uncertain health. All weak women should win the right to be well by refreshing their weary bodies with the new, rich, red blood that promptly transforms them into healthy, attractive women. The new, red, blood is supplied by Dr. Williams' Pink Pills, which reaches every organ and every nerve in the body. Through the use of these pills thousands of women have found benefit when suffering from anaemia, indigestion, general weakness and those ailments from which women alone suffer. Among the many women who tell of the good Dr. Williams' Pink Pills have done them is Mrs. L. Hicks, Round Hill, N. S., who says: "I became very much run down in health; my blood seemed weak and watery, my strength failed, and I was so easily tired that my work was a burden. I had often read of Dr. Williams' Pink Pills and decided to try them, and I can truly say that after using three boxes I found myself gaining, and under a further use of the pills all my old-time energy and vitality was restored. Out of my own experience I can strongly recommend this medicine. You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont."

During the year 1918 the latter exported from Canada amounted to 4,926,154 lbs.; value, \$2,000,467. During the 12 months ended March 31 last the export amounted to 17,612,805 lbs.; value, \$9,844,259.

EYES TESTED FREE

DON'T BE A GLOOMY GUS

We think it is up to every business man—and who is not a business man in good old Canada?—to strike a hopeful keynote in his advertising.

We say this to our local men of business, to our farmers, too, and to every man who sells what he has, even if all he has is his daily labor.

Because there has been a slump on the price of this, that or the other commodity, it is the poorest reason in the world for talking hard times. Pessimism never won anything. Gloom is a thing of the grave; it is not for the living man with a future before him.

The times may have been bad for a lot of us for some months past, but as everything changes, going from one extreme to the other and striking normality in between, we all know that there are good times ahead—and not very far ahead either if we all put the best foot forward and the best smile to the front.

The man who recovers first from the gloom of his bad business, or poor wages, or whatever it was that hit him, is the man who is going to have the most prosperity in the better times that are on their way just as sure as the sun comes up and out of the east every morning. He is going to have the most prosperity because his efforts will stretch over a large period than the fellow who slouches gloomily until the good times are so apparent that they hit him in the nose.

Therefore, we say to the business man who advertises: Put optimism in your ads. To the farmer and other workers, whose tongues are their ads, we say: "Talk good times; they're coming and soon."

IRISH COBBLER IS THE FAVORITE POTATO

TEST OF POTATOES SHOW OUT-
STANDING ADVANTAGES OF
THIS VARIETY.

During the past four years the Commission of Conservation has been conducting illustration work in Dundas county, Ontario. One branch of the work has been that in connection with 16 farms chosen for the purpose of illustrating improved methods of farming. Among the lines of work followed have been variety tests of farm crops. The results of the tests with potatoes are very valuable. During the seasons of 1917-18-19, the Irish Cobbler and Green Mountain varieties were grown side by side and during 1920 the Dooley variety was grown in addition to these. The Irish Cobbler is now unmistakably the favorite variety in the county. Each year since they were first tried on these farms the farmers conducting the illustration work have not been able to meet the demand from the neighbors' seed.

The Irish Cobbler has given the highest average yield, has been freer from rot than any of the other varieties tried, and is an excellent table potato. One of the farmers conducting the test reports: "The Dooleys and Green Mountains yielded 27 bushels each from the bag planted, while the Irish Cobblers yielded 40 bushels from the same amount of seed." Another writes: "The Dooleys and Green Mountains rotted badly and the Irish Cobblers were about all we had to fall back upon." Another says in his report: "The Cobblers are still our favorites as regards both yield and freedom from rot."

Seed grown in New Brunswick has been tried out along with home-grown seed. In most instances the New Brunswick seed gave higher yields but in some cases where the home-grown seed had been carefully selected there was little if any difference.

Varieties of proven merit should be chosen, the seed should be taken from high yielding hills and only the smooth tubers free from scab and rot used for planting. Attention to these matters will certainly mean increased yields and greater profits.—F. C. Nunnick

MARKETS AT A GLANCE.

Prices on several lines in the steel market are lowered this week in local warehouses. Sheets have declined slightly in order to clear out present stocks. Buying is still restricted, however, and stocks are very light. Trade in the non-ferrous metals is quiet with tin declining and copper unchanged, but weak. Lead prices are erratic but are expected to firm up shortly. In the manufactured articles copper products have shown some decline though there is still a big spread between ingot and sheet prices, says Hardware and Metal. Price changes this week are a little less numerous. Declines are noted in copper wash boilers, tea kettles, tea and coffee pots of copper, and rivets. Some lines of brass goods have also declined, including excutcheon pins, some lines of compression goods and valves, cotton waste, cotton and canvas goods, including gloves, mitts, twines and web straps. Fuel oil is reduced as well as sheets and plates, wire, wrenches, lace leather, wrapping paper, lead solders, linseed oil. Grindstones have advanced. Paints and varnish are moving better this week. Business in general is assuming a better tone with sorting up orders coming forward in fairly good volume. Orders for later delivery are still backward.

Is Your Nose Plugged? Have You Catarrh?

If Subject to Colds, Here is
Real Good Advice.

Don't load your stomach with cough syrup. Send healing medication through the nostrils—send it into the passages that are subject to colds and catarrh. Easy to do this with Catarrh-zone. Easy to do this with Catarrh-zone. Even to the lungs goes the healing vapor of Catarrh-zone—through the bronchial tubes, nose and air passages—everywhere a trace of disease remains will Catarrh-zone follow. You'll not have colds, nor will you suffer from sniffles, bronchitis, or throat trouble if Catarrh-zone is used. Get it today! Beware of dangerous substitutes meant to deceive you for genuine Catarrh-zone. Large size, two months' treatment, cost \$1.00; small size, 5¢; sample size, 25¢; all dealers or The Catarrh-zone Co., Kingston, Canada.

The Sunday School Lesson

THE WISE AND THE FOOLISH
VIRGINS.

Lesson—Matt. 25: 1-13.

Golden Text—"Watch therefore, for ye know not the day nor the hour" (Matt. 25: 13).

Historical Setting.

Time—April, A. D. 30. Place—Mount of Olives.

The Lesson Text.

1 Then shall the kingdom of heaven be likened unto ten virgins, who took their lamps, and went forth to meet the bridegroom.

2 And five of them were foolish, and five were wise.

3 For the foolish, when they took their lamps, took no oil with them:

4 but the wise took oil in their vessels with their lamps.

5 Now while the bridegroom tarried, they all slumbered and slept.

6 But at midnight there is a cry, Behold, the bridegroom! Come ye forth to meet him.

7 Then all those virgins arose, and trimmed their lamps.

8 And the foolish said unto the wise, Give us of your oil; for our lamps are gone out.

9 But the wise answered, saying, Peradventure there will not be enough for us and you; go ye rather to them that sell, and buy for yourselves.

10 And while they went away to buy, the bridegroom came; and they that were ready went in with him to the marriage feast; and the door was shut.

11 Afterward came also the other virgins, saying, Lord, Lord, open to us.

12 But he answered and said, Verily I say unto you, I know you not.

13 Watch therefore, for ye know not the day nor the hour.

Comments.

Verse 1. In most of the kingdom parables the present tense is used because dealing with the after life. There is no especial significance attached to the number 10. Asiatic cities were utterly dark on dark nights. One who went forth was required to carry a light. Processions such as this are still features of eastern weddings.

Verse 2. That which made the difference between the two was the prudence forethought on the part of the wise and the lack of preparation on the part of the foolish.

Verse 3. The foolish had oil in their lamps when they started, but their oil failed and their light went out, and they did not renew it. Many impulsive Christians are like this.

Verse 4. The wise seemed to have considered as uncertain the time when the bridegroom would make his appearance. The main point was to be ready for all possible contingencies. We know not when the Lord may come, but it makes little difference if we are prepared for His coming.

Verse 5. Bear wise and foolish, they all "slumbered and slept." This indicates our ignorance as to the time of the coming of Christ.

Verse 6. Figuratively, midnight represents the time of the second coming and the resurrection of the dead.

Verse 7. Of course, the lamps had been burning all the time the virgins had been waiting, in order that they might be ready at the interesting moment.

Verse 8. In the presence of judgment and the final test comes the revelation of preparedness and unpreparedness. Hasty and delayed efforts toward adjustment are not encouraged by this parable.

Verse 9. The wise gave the best possible advice, but it was too late for the foolish to comply with it.

Verse 10. The foolish waited in unpreparedness.

Verse 11. It is probable that the foolish came without oil, hoping for admission and looking for mercy. Their plight was their own fault.

Verse 12. Christ knows those who are worthy to be known.

Verse 13. In every important sense the Son of man is coming to us every hour of the day. But the time of His final coming nobody knows. Every true Christian lives so as to be ready at any time.

Illustrated Truth.

The most valuable things in the

Uncle John's Ash

SAY JACK, DID YOU
EVER SEE A DOLLAR
BILL THAT HAD NO
FRIENDS.

world are the intangible ones which can not be borrowed or loaned (v. 9).

Illustration.—At the beginning of the college year, young Singleton attached himself to one of the best students in his class and claimed him for a roommate. "What did you do that for?" one of his friends asked. "Jordan isn't one of your sort. You can't count on him for any larks." "No," Singleton rejoined, with a wink, "but he's the kind that always has full notes of the lectures, and they are easy to read." Singleton had his larks, and he copied his roommate's notes, but he couldn't borrow Jordan's well-trained brain. When it came to a practical test, he was a failure.

Topics for Research and Discussion.

1. The Wise and Foolish Virgins (vs. 1-4). 1. Where was Jesus when he taught this parable? 2. How did ancient Asiatic cities contrast with our cities as to lighting? 3. Can you describe an Oriental wedding procession? 4. What was the chief difference between the wise virgins and the foolish? 5. How do the foolish virgins compare with excitable, impulsive Christians? 6. How did the wise virgins show their wisdom?

II. Preparation and Readiness (vs. 5-9). 7. What is the bearing of this parable upon the time of Christ's coming? 8. What great duty will reveal preparedness or the lack of it? 9. If men knew that next week would come the final judgment, how would they act, meanwhile? 10. Why should knowledge of an immediate judgment make any difference in conduct?

III. Reward and Punishment (vs. 10-13). 11. Which is the greater incentive to right living, desire for reward or fear of punishment? 12. What bearing has this parable upon waiting till death approaches before repenting? 13. How should all Christians live?

WOOL MARKET REPORT.

While Canadian mills are still buying for immediate needs, there is evidence of a broadening of their demand. There also seems to be more action to the wool market in general, in sympathy with the better ton to other business. Quotations for Canadian wools are unchanged, as follows:

Fine Western, 27c; fine medium Western, 25c; medium Western, 25c and 26c; low medium, 21c and 23c; low quarter Western, 17c and 18c; clothing wools, 20c and 23c; Eastern, 28c; Eastern, 28c.

Football exacted a toll of twelve deaths during the 1920 season. Seven of the victims were members of high school elevens.

Lena Von M. Zesch, of San Francisco, is the first woman to practice dentistry in Alaska. Virginia has more than 225,000 wage-earning women.

Those Having Sick Animals SHOULD USE

THE MAELSTROM

By FRANK FROEST.
Late Superintendent of the Criminal Investigation Department of Scotland Yard.

Menzies went away with his bundle of documents to have them typed, indexed, and put in order so that he could lay his hand on any one needed at a moment's notice. He was in for a busy day.

Two advertisements he drafted in the sanctuary of his own office. One was to check Hallett's own account of the evening before, and to identify, if possible, the street in which the checks had been forced on him.

£1 REWARD.—The taxicab driver who on the evening of _____ drove a fare from the West East to 34, Linstone Terrace Garden, Kensington, will receive the above reward on communicating with the Public Carriage Office, New Scotland Yard, S. W.

The other ran differently, and seemed to give him more trouble. Several sheets of note paper he wasted, and discontentedly surveyed his final effort.

If Richard Errol, last heard of at Columbia, Ohio, U. S. A., will communicate—

He crushed the sheet up, flung it in the waste paper basket, and lifted a speaking tube. "Any newspaper men there, Green? Right. Tell 'em I'll see 'em in half an hour. Send me up a typist."

The newspaper press, if deftly handled, may be a potent factor in the detection of crime. Moreover, the ubiquitous reporter is not to be evaded for long by the cleverest detective living. The wisest course is to meet him with fair words—to guide his pen where there is a danger of his writing too much, and put him on his honor on occasion. Many a promising case has been spoiled by tactless treatment of a reporter at a wrong moment.

Menzies dictated an account of the murder in which he said just as much as he wanted to say and not a word more. The conclusion ran—

"The stepson of the deceased gentleman, a Mr. Richard Errol, left England for the United States many years ago, and his present whereabouts is unknown. The people are in order that certain points in connection with his father's career should be cleared up."

The chief detective inspector knew that the simple paragraph would throw into the search for Errol the energies and organization of every great newspaper—an aid he did not despise. It was not intended as an official statement. The criminal investigation department does not issue bulletins officially. It was an act of courtesy, and incidentally a stroke of policy to maintain the good will of the press. The reporters might paraphrase it as they would.

He received the newspaper men pleasantly, parried their chaff and too adroit questions with unruffled good humor, and told them little anecdotes which had not the slightest bearing on the murder of Grey-Stratton.

They read the typewritten sheets he handed them greedily, and cross-examined him as mercilessly as ever he had been cross-examined at the Old Bailey. A clerk brought a card to him and he read it without a change of countenance.

"In a minute," he said to the waiting clerk, and put the card in his

waistcoat pocket. "Well, gentlemen, you know as much as I do now. If there's anything else you want to know, just drop in and see me when you like. Good morning."

They accepted their dismissal, and he took another glance at the card. It read:

MISS LUCY OLNEY.

And underneath written in pencil: Peggy Grey-Stratton.

CHAPTER V.

Mr. William Smith.

The early evening papers were on the streets before Jimmie Hallett rose, and the inevitable reporters had established a blockade of his hotel. He cursed them while he shaved. It seemed that the notoriety which he had left New York to escape had followed him to England.

As an old newspaper hand himself, he had little taste to be served up again all hot and spiced for the delectation of a morbidly hungry public.

He surveyed a salver full of cards that had been brought up to him with a scowl. Vivid recollections came to him of the way in which he had himself dealt in "personal sketches" and "personal statements" on big stories, and he began to conceive a certain fellow feeling for his long forgotten victims. But his chin grew dogged.

"I'll see 'em starve before I'll talk. Go away and tell 'em I'm dead."

The liveried functionary who had brought the cards gave as near an approach to a grin as his dignity permitted. "Yes, sir," he said quietly; "They'll not believe it, sir."

Hallett swung his eyes sideways to the man, and his hand slipped to his trouser pocket. It was no use getting angry.

"Say, what are you getting out of 'his'?" he demanded. "It's all right. You needn't answer." A banknote crackled between his fingers. "If you can clear out the gang below this is yours. It's more than they'll give you."

"Very good, sir. There'll be no harm in telling them you're in a very critical condition, sir I suppose."

"Not in the least. If they've any beads of compassion they won't worry a dying man. It will save 'em off for a while, perhaps."

As a matter of fact, beyond a mild headache and some stiffness he felt scarcely a trace of the attentions of his overnight assailant. He was uncertain whether that was a tribute to the skill of the divisional surgeon or to the hardness of his skull. He inwardly congratulated himself that the injury was not a particularly noticeable disfigurement. Indeed, a skilful brushing of the hair almost hid it.

He descended to breakfast with an appetite that of itself was proof that his general health remained unaffected, and, discovering that there was a back entrance to the hotel, decided to make use of it least some pertinacious reporter might still be lingering in the reception hall.

He wanted to know something of what the police were doing, and a visit to Scotland Yard seemed the best way of finding out. In the background of his thoughts there was perhaps less concern that a murderer should be brought to justice than cur-

iously in regard to the lady of the fog.

There is a way mostly used by tradesmen at the Pall Mall Hotel which leads through a narrow alley for fifty yards on to the Embankment. Through this Hallett sauntered. He was half way through when a tap on the shoulder caused him to wheel. He confronted a slim built, sallow faced man, of lank moustache and burning black eyes.

"Pardon," he said. "Your name is Hallett?" He spoke slyly and the extremely correct pronunciation of his words seemed to show that he was neither English nor American.

"Well?" demanded Hallett shortly. He feared that he had been run down by a reporter after all.

"You were at the place where this man was killed yesterday—eh?" The man shook a newspaper under his face.

"Well?" said Hallett again. He had resumed his walk but the other was keeping pace with him. A hand caught at his arm. The burning black eyes were within three inches of his face. "You know who killed him, eh?" The English had become a little less correct under stress of some excitement. "You have not told the police yet. You will not tell them?"

Hallett shook himself free angrily. "Look here, my man," he said. "I don't propose to answer your questions, so you can put that in your pipe and smoke it. Now get." He clenched his fists.

The foreigner's hand dropped to his pocket. He did not remove it, but pressed something hard through the cloth against the young man's ribs. "You are hasty, Mr. Hallett," he remonstrated. "You don't know what it is you say—what you're up against. This is a pistol you can feel—he pressed it close—and unless you listen quietly I shall keep you dead. Understand?"

(To be continued.)

STORMY WEATHER HARD ON BABY

The stormy, blustery weather which we have during February and March is extremely hard on children. Conditions make it necessary for the mother to keep them in the house. They are often confined to overheated, badly ventilated rooms and catch cold which rack their whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will not fail to break up colds and keep the health of the baby in good condition all the brighter days come along. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams medicine Co., Brockville, Ont.

IMPORTANCE OF THE MAPLE SUGAR CROP.

Maple sugar and maple syrup are two products which are capable of much greater development in Canada. There is a market for all that can be produced, and maple products are legally protected to an unusual extent.

Nature supplies the raw material, in the sap of the maple tree, and as the run occurs at a time when other farm work is not pressing, much more attention might be given to securing this crop. The sap from the maple trees is one of nature's endowments to the Canadian farmer and one from which a considerable addition to his income may be secured with little effort.

The Publications Branch of the Department of Agriculture, Ottawa, has issued a revised edition of the bulletin "The Maple Sugar Industry in Canada," which will be sent on request.

UNAUTHORIZED USE OF NAME OF DOMINION EXPRESS COMPANY.

Persons unknown are reported to be soliciting subscriptions for advertising space in a magazine representing it as being issued by or in the interest of the Dominion Express Company or its employees.

Upon being interviewed the management of the company stated they had no knowledge of the magazine or its promoters and that any representations connecting the name of the Dominion Express Company with such an undertaking were unauthorized.

Paris has a theatre exclusively for women.

CANADA'S SHARE TO PAY PENSIONS

SIR. GEORGE PERLEY TO ATTEND REPARATIONS MEETING IN LONDON.

Sir George Perley, for Canada and the High Commissioners of the other Dominions will, it is understood, represent their respective countries in connection with the Downing Street conference regarding German reparations, to be held on February 28. Canada has of course a direct interest in the decision reached at Paris regarding reparations, as she looks to her share of the sums received from Germany to help pay her pension liabilities. The High Commissioners will, however, probably act only in a consultative capacity, as they did in connection with the Spa conference. The stipulated twelve per cent. tax on Germany exports will help to equalize German competition with Canadian manufacturers, as in the last analysis the tax must be added to the selling price of the goods and will thus effect some of the advantage gained by the depreciation of the German mark.

URÆMIA FOLLOWS KIDNEY DISEASE

Dreadful peril lurks in kidney weakness.

Insidiously it develops into Bright's Disease and Uræmic poisoning. Through the system it sweeps with fatal effect, causing drowsy, gout, gravel and jaundice.

Many remedies contain alcohol. In consequence they inflame the disease to further fury.

A proper remedy will soothe and heal the kidneys, give them strength, and nourish them back to health.

Such a remedy is Dr. Hamilton's Pills, which are composed of simple vegetable extracts and juices that are absorbed at once by the kidneys.

Dr. Hamilton's Pills heal and cure the diseased tissue, restore healthy action, and delay congestion and inflammation.

Proof is abundant, and here is quoted the experience of Mr. Patrick McDonald of 235 Kent Street, Ottawa.

"My back ached from morning till night. Every bit of work I did made me weak and worn. I couldn't stoop or lift without getting dizzy. My tongue was furred and my appetite poor. My head ached continually, and I had severe urinary disorders. My kidneys were in the worst possible state. I heard of the wonderful Dr. Hamilton's Pills, and proved them just the medicine I needed. Why, I felt better in a week, and after using these pills for a month or two at regular intervals I was completely restored."

Dr. Hamilton's Pills give complete relief because they act directly on the diseased tissues of the kidneys. Get the genuine in yellow boxes, 25c per box, or five boxes for \$1.00, at all dealers. Refuse a substitute.

Milner's Worm Powders act so thoroughly that stomach and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are tonic and health-giving in their effects.

Resembling an electric fan but operated through gears by a press it is a device invented for keeping printers' rollers cool in hot weather.

A Power of Its Own.—Dr. Thomas' Electric Oil has a subtle power of its own. All who have it know this and keep it by them as the most valuable treatment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

FINANCIER SOUNDS OPTIMISTIC NOTE

PRESIDENT'S HOPEFUL WORDS AT MEETING OF MONTREAL BOARD OF TRADE.

An optimistic note was sounded by Mr. George Sumner, the veteran president of the Montreal Board of Trade, at the annual meeting, when Mr. Sumner gave his valedictory.

"The outlook at the present moment," said Mr. Sumner in his address, "is possibly not as bright as usual at this season. Nevertheless, my feeling is that we ought not to be discouraged, for from information which has come into my possession recently, merchants are quite hopeful of the future. Moreover, we had splendid crops last year, cotton mills have plenty of orders and in many other lines there is not lacking evidence of an early return to normal conditions. The present is a time for caution, hard work, increased production, and an unshakable confidence in this Canada of ours. We have done well in the past. We are of all things Canadians, and, as Canadians, we must and will succeed."

ONE WOMAN'S EXPERIENCE

Of Interest to Childless Women.

Toronto, Ontario. "I suffered for a long time from a female weakness, inflammation, and a terrible backache caused by that condition. One day one of your booklets was left at my door, and I read how other women with troubles like mine had been made well, so I got a bottle of Lydia E. Pinkham's Vegetable Compound and a package of Sanative Wash, and it helped me wonderfully, and I now have the finest little baby boy that any mother could want. I want to recommend Lydia E. Pinkham's Vegetable Compound to any woman who has female troubles."—Mrs. JOSEPH LA BELLA, 773 Shaw Street, Toronto, Ontario, Canada.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong, and this good old fashioned root and herb remedy contains no narcotics or harmful drugs.

In 1918 the milk and cream exported from Canada had a value of \$5,862,976. During the 12 months ended March 31 last the value of these exports was \$19,216,861.

Cook's Cotton Root Compound.

A safe, reliable, non-toxic remedy for all cases of hemorrhoids, piles, itching, burning, smarting, and all other ailments of the rectum. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet on request. THE COOK MEDICINE CO., TORONTO, ONT. (Incorporated in Canada.)

An inventor has connected a pair of globular floats that support a person in water with a double crank which, when revolved, draws a user forward.

MURINE Night and Morning. Has Clean, Healthy Eyes, Itchy, Smart or Irritated. For YOUR EYES Granulated. Often, Soothes, Refreshes, and Relieves. At all Druggists and Opticians. Write for Free Eye Book. Sent by mail on receipt of price.

The Massachusetts Minimum Wage board has handed down a decision granting seamstresses a minimum wage of \$16.40 per week. This is at the rate of 37 cents an hour, fixed on basis of 42 hours' employment weekly.

WOOD'S PHOSPHORINE. The Great English Preparation. Tones and invigorates the whole nervous system, makes new blood in old veins. Used for Nervous Debility, Mental and Physical. Dependency, Loss of Energy, Impairment of the Heart, Failing Memory. Price 25c per bottle for \$5. Sold by all druggists, or mailed in plain package on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT.

The annual salary for fully certified teachers in the elementary schools in London is \$800 for men and \$700 for women.

Milner's Liniment For Dandruff.

A woman's fondest hope is to stay young. She often resorts to paints, powders and cosmetics to hide her years. Some women pay large sums to so-called "Beauty Doctors" in the belief that money will buy youth. Others wear girdling dresses, thinking they can fool the world about their age. But no one is deceived. The more you try to hide your age, the more it shows.

There is but one thing that holds old age back, and that is health. Sickness and weakness bring old age early in life. Dr. Pierce's Favorite Prescription is a building-up medicine for women. It makes them healthy and strong when they suffer from women's troubles. It keeps them looking young by keeping them well. It is a woman's tonic for the frail, the delicate and those who are nervous, dizzy and who have backache and "dragging down." Some women took it years ago and have felt younger and well ever since. Doctor Pierce's Favorite Prescription is altogether vegetable and without a particle of alcohol. It is safe to take. Try it now, in tablet or liquid form at all druggists, or send ten cents for trial package of the tablets to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., or branch in Bridgeburg, Ont.

How Many Dishes Can You Make With Ham

Duff's Horse Shoe Brand Sugar Cured Ham is the basis for many savory dishes. Baked, boiled, broiled or fried—served hot or cold—it is delicious.

It is juicy, tender, easily sliced and delightfully flavored. Duff's Special Cure by carefully preserving the natural juices of the meat insures this. It must be tasted to appreciate its appetizing goodness.

Your butcher and grocer have it or can get it from us—to-day.

Church Membership

To the Members of Grace Church.
Dear Brethren:

Our Bishop will visit us for Confirmation soon. A great part of your work in Lent is to increase our numbers. The church is like every organization on earth. There must be growth. New members! and every member, new and old, a communicant on Easter Day. Our Forward Movement is showing results. There is marked improvement in Sunday School, Choir and Church attendance. "Forward be our watchword." At this time no longer attach gloomy ideas to Lent. There is gloom and and there is sadness in our lives. Some of both in the Bible. But in the Bible as well as in the lives of thousands of rejoicing christians joy and gladness counter balance ten to one in glorious volume. Regarding Lent, an athlete preparing for a race frets not because his food must be curtailed. So ye christian athletes with this Lenten fast and prayer let us make with real satisfaction a concerted attack upon the forces of evil, and with thrilling joy in penitential faith scale the heights of Heaven. With trumpet tones in golden notes in sanguine hope, your Rector sounds sounds forth the old hymn.

"Christian, dost thou see them on the holy ground,
How the hosts of evil prowl and prowl around?
Christian, up and smite them counting gain but loss;
Smite them by the merit of the Holy Cross."

Here we have a definite plan. Let there be a gathering of new members and a regathering of old members at the foot of the Cross on Good Friday and around the Holy Table on Easter Day. I would be glad to know of any of our nominal church members, or of any who belong to no church, who desire confirmation.

Yours faithfully,
H. J. Leake

An Indigestion Caver.

A beaver in a trap was experimentally placed at work on a tree twelve feet long and two feet six inches thick just as the town clock sounded the hour of noon. The beaver began by marking the tree a foot above the ground. That done, he attacked the wood. He worked hard, alternating his labor with dips in his bathing pond. He bathed and labored alternately, then he ate his supper of bread and carrots, which the keeper had brought him, and paddled about in his pond until half-past five o'clock. Ten minutes later, when only one inch of the tree's diameter remained intact, he bore upon his work and the tree fell. Before it fell the beaver ran as men run when they have fired a blast. Then as the tree lay on the ground he portioned it out mentally and began to gnaw. He worked at intervals all night, cut the log into three parts, rolled two of the portions into the water, and reserved the other third for his permanent shelter. The work done, he took a bath.

ADVICE TO GIRLS

BY MISS ROSALIND

Registered According to the Copyright Act.

Miss Rosalind welcomes letters from young women asking for advice on any subject. All you have to do is to address your letter to

MISS ROSALIND,

34 King William St. Hamilton, Ont.

Dear Folks:

Please don't scold if your answers are not in print as soon as you would like to see them. I'm simply swamped with letters; and I am answering them strictly in turn. Every letter will appear as soon as I can come to it, so don't give up hoping just because it is not in this week.

Our column is growing at an amazing rate, and most of the letters are splendid. I am more than delighted at the helpful response you have given this department and sincerely hope every reader may be benefited and inspired to carry on.

ROSALIND.

Dear Rosalind:

I am a girl twenty years of age, and thought I would ask your advice. I have a boy friend I think a great deal of, we have been friends for five months. Sometimes he is awfully friendly. Then again he don't come to see me at all and I get some other friend. Then he comes right back again friendlier than ever. Please advise me if I should drop him altogether or what is best to do.

Is it any harm when your friend brings you home to stop at your own gate and talk for awhile?

What age should a girl marry? FAN.

Dear Fan:

Don't bother with the fields fellow. That is don't take him seriously. Treat all your friends the same, don't single one out for special attention. It is quite all right to talk for a few minutes before saying good-night.

It depends on circumstances. I think twenty-four about right. ROSALIND.

Dear Miss Rosalind: Hoping you would advise a poor lonely boy in losing his only friend.

I have kept company with a nice young girl and love her dearly, of late she has been keeping company with other boys. What shall I do, try to forget her or again seek her company? Also after taking a girl to a dance is it right for her to come home with some one else; also is it right to kiss a girl good-night. Is it right to hug a girl before engaged. Hoping this misses the waste basket.

THE LONELY WOLF.

Dear Lonely Wolf:

There are good fish in the sea yet and by the same token there are other girls on the prairie besides the one who has gone back on you. Look around.

I'd like to see myself taking that girl to another dance, that's all.

It is not right to kiss a girl good-night.

Nor is it right to hug her.

Write again, Wolf. I know you are lonely and I know you are very young.

ROSALIND.

Dear Rosalind:

I have read your letters every week and find them interesting and helpful. I live in the country about twelve miles from the city and find it lonesome during the winter months as there are few young people living near.

I would like to get some girl friend but have always been rather backward when meeting new friends. Please advise me what to do. Thanking you in advance.

BUNNY.

Dear Bunny:

You know my favorite recipe against loneliness. It is read and study and write and read some more. When you meet new people try to be just yourself; natural and friendly as you like people to be to you. Put yourself in another person's place and see how you would act.

ROSALIND.

Dear Miss Rosalind:

Seeing your letters to girls in the paper I would like to ask your advice.

I am a young girl 16 years old and I go out with young gentlemen.

I have been going with a young man about 18 years old. He stopped going with me quite suddenly which

HOW the north wind does blow!
I think it will snow,
Drifting deep over hillside and dale;
Tomorrow with Dan,
I'll build a snow man,
So what do I care for the gale?

Sing Dan and three other boys. Upper side down, on coat; upper side down, on coat; upper side down, in sky; upper side down, in sky.

hurt my feelings. I think quite a lot of him and want to know if it would be proper to try and renew his friendship? He is what you would call a high-flyer, if you will excuse my language and is now going with a girl friend of mine. When I'm home I am all out of sorts and often lose my temper. Dear Miss Rosalind what will I do? Will I try to forget him? Sincerely,

PASSION.

My Dear Girl: I sure would forget him and all like him. You could be such a sweet little friend and have such good times with a bunch of jolly girls.

Why make yourself bad-tempered and old and cranky and blue by thinking about boys? Again I say—Forget it!

ROSALIND.

Dear Rosalind:

As I have been reading the Advice to Girls, I thought perhaps you could help me out of some of my troubles.

I have a black fur collar on my coat and it is very warm, but the black comes off on my face.

Could you please tell me something I could do with it. I have not had the collar on long. Do you think it will come off in time? Yours truly,

IRENE.

Dear Irene:

That is one of the penalties we

must suffer for wanting nice furs. Black comes off them all. A furrier told me the other day that ermine is the dirtiest of them all. However, it is not all dirt, more likely dye. The only thing to do is always wear a white scarf or large silk handkerchief between your skin and the fur.

ROSALIND.

Dear Rosalind:

I think that your Advice to Girls is very, very interesting and I would like very much to have you answer a few questions from me (I am 19 years old).

I have well mostly always a drowsy feeling. My back feels tired, and I don't sleep well at night, but I do in the day time, just when I don't want to. Do you think this is kidney trouble?

2. My complexion is rather muddy. What would be good to bleach my complexion and make it clear?

3. Do you think it proper for a girl to kiss a boy? Supposing she likes him; and do you think it makes him think more or less of her? I thank you kindly,

HENRIETTA.

Dear Henrietta:

I'm sorry the letter could not be published on the date you expected. It just had to wait its turn for there were about a hundred ahead of you.

I am inclined to think your trouble is constipation and liver trouble. Your liver is overworked trying to absorb impurities that the body is discarding. Try drinking two glasses of water between each meal, one before breakfast and one before going to bed. That may seem a lot, but your system is demanding quarts of water. Walk briskly as often and as far as you can every day, and take at least three good hot scrubby baths a week.

I'm not a doctor, my dear, but hope I may do you a little bit of good. Write me again, so that I will know if there is any improvement.

ROSALIND.

My Dear Miss Rosalind:

Seeing your letters of Advice to Girls in the paper I thought I would take advantage of it and ask a very great favor:

I am not a girl but would be very glad to hear from any lonely girl of about my own age (23) as I am pretty lonely myself sometimes. I will answer any letters received with pleasure.

ERN.

Dear Ern:

Your name shall be forwarded to every good correspondent, boy or girl, who sends me a stamped, self-addressed envelope. I hope heaps of readers avail themselves of this way of helping some one and increasing their own store of knowledge by the art of letter writing.

ROSALIND.

Dear Rosalind: We are four girl friends, who are, at present, away from the care and protection of our parents.

We are perplexed by a number of puzzling questions. Would you so oblige us as to answer them?

1. At what age should a girl be before she marries?

2. Is frequent kissing an evil habit?

3. Should a school girl keep company with a school boy or any boy?

4. If a boy invites a girl to attend a festival with him, some length of time before the event takes place and leaves you to consider, should the girl wait till the boy mentions it a second time before she gives him her decision?

5. If a boy accompanies a girl to

her home and they chat at the gate or door, which should be the first to mention departing?

Sincerely hoping that this will be published, we remain,

CHUMS.

Dear Chums:

Letters must be short this week, or will answer your queries as numbered:

1. The age varies, not before twenty-four if she values her health and happiness.

2. Most decidedly if general.

3. No.

4. Any invitation should be answered one way or the other as soon as possible after it has been given. As soon as the girl knows her answer she should give it without further discussion.

5. The girl. She talks a minute and then says good-night.

Dear Miss Rosalind:

It is with pleasure that I have kept in close contact with your Advice to Girls. I think you a real sensible motherly woman. While in my perplexity I want to ask you a favor, I am 29 years old and a very nice gentleman of my own age insists on our being engaged, and he insists on being a policeman, still as he cares now for no other job, while I hate the very name of police. But think a lot of the same man. Please advise me what to do. Should we part? You understand it means a serious subject to both of us. Also he inclines somewhat jealous toward me at times.

Also I have a dear lady friend, who is young and is admired greatly by all the young fellows. But does not care for any of them and does not care to offend them. In what way could she tell them her desires and not offend. Hoping and trusting that few lines won't rob any one else more worthy of advice than I, and hoping to see this letter in print.

BROWN EYED BEAUTY.

My Dear Girl:

If you love the man well enough to marry him, you surely can love his job. Help him make the best of it and rise to be the biggest man in his profession.

By being very friendly and nice to them all, but showing no preference and accepting no invitations except general ones, possibly where you are included also.

I am always delighted to hear from the prairie. Thanks for your appreciation.

ROSALIND.

Dear Rosalind:

As others are asking advice, I also have taken the advantage. Should a young girl thank her boy friend when he takes her home at night after a concert or the rink, etc. when saying good-night?

Is it right to speak to boys you do not know when they yell at you first on the street?

I am acquainted with a young man whom I admire very much. He does not seem to know this or at least does not pay any more attention to me than is necessary. What is the best thing to do?

Thanking you in advance for your advice,

GOLDEN LOCKS.

Dear Golden Locks:

You cannot force friendship and admiration. It will come if you are worthy—and old enough.

By all means thank your friends for any kindness. How else will they know you enjoyed their effort to give you pleasure?

I wouldn't bother about the kind of boy who forgets everything he ever learned about common decency and politeness when he "yells" at a strange girl in the street.

ROSALIND.

ADVICE FOR BACK-ACHE.

When scooping turts, when lifting and bending causes distress that's the time to rub in lots of "Nerviline". Usually a couple of applications brings grateful relief. No ointment more soothing, more certain to kill muscular, rheumatic, or sciatic pains.

Thousands of homes rely on good Old Nerviline for cramps, colic, dysentery, and external muscular pains. Large 55-cent bottles for sale everywhere.

Minard's Liniment For Burns, Etc.

Cause of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to be relieved except through a rare preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has given relief to a generation of asthmatic victims of this scourge of the bronchial tubes. It is sold everywhere.

Cambridge University, in London has refused to admit women to full membership in the university on equal terms with the men. Most of the other English universities, including Oxford, already have granted full membership to women.

It Will Prevent Ulcerated Throat.—At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to take it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

Minard's Liniment for sale everywhere.

A Great Book
and it's Free!

PRACTICALLY every farmer to-day recognizes the benefits and money-saving possibilities of Concrete on the farm. This book illustrates the great variety of farm uses for Concrete, and gives simple and accurate directions for its use.

From barn floor to fence posts, from well cover to silo, Concrete has proven its right to be called "the ideal building material." It is weather-proof, water-tight, vermin-proof, rust-proof, permanent and sanitary.

150,000 farmers have read this book—everyone of them values it highly. You should send for your copy now.

Ask for Canada Portland Cement, the uniformly reliable brand. It can be secured from more than 2,000 dealers throughout Canada. If your dealer cannot supply you, write our nearest sales office.

WATERDOWN,

ONTARIO

A Patriotic Indian.

Chief Joseph Davies of the Brunswick House Band of Ojibway Indians, and several of his tribe, who enlisted in 1916 with the 227th (Men of the North) Battalion, were among the returned soldiers who arrived home from France by the Olympic.

Chief Davies was granted by the military authorities the unique privilege of wearing upon his uniform throughout active service his official Indian chief's insignia.

On his arrival at Chapleau a welcome was extended by Indian Agent T. J. Godfrey and a large deputation of members of the tribe. A pathetic scene of the chief's homecoming is that two of his children have recently died of the "flu."

The chief's wife, traveling more than thirty miles by canoe, having to break the ice in many places, got through, bringing with her one dead child and one seriously ill with the epidemic, arrived in Chapleau too late to save the life of the second child, who died shortly after admission to the hospital.

Indians Died from "Flu."

Five thousand Indians succumbed to the epidemic of the "flu" during the fall and winter of 1918 is the statement of the deputy superintendent general of Indian affairs.

Salmon Fishing.

Fishing for salmon is prohibited at the present time in nearly all the rivers of Alaska and altogether in the southeastern part of the territory. Meanwhile the fishery goes on, but it is marine fishery. The salmon are caught on their feeding grounds out at sea with purse seines, gill nets, floating traps and fish lines. Trolling for salmon is great sport and is particularly fine off the straits of San Juan de Fuca.

Our Wheat.

Canada's most important cereal crop is wheat. It covers 26 per cent. of the land in crops, and forms 25 per cent. of the value of all crops. Saskatchewan alone has more than half of the wheat acreage of the Dominion. Yield, 1919, 182,260,400 bushels; value, \$360,573,000.

Exhibition Trains.

An exchange of exhibition trains for showing in one country the products of another is a recent trade-extension project that is attracting attention in Canada. The Canadian National Railways have arranged for the transportation of exhibits of French goods through Canada, and Canadian manufacturers will be able to secure a similar exhibition of their goods on a train that will be taken through the principal cities of France.

WAR CAUSED FRICTION

AMERICANS LEARN ABOUT FEELING IN CANADA.

They Have Been Investigating in the Dominion to Find Out Why We Do Not Admire Them as Much as They Admire Themselves—Some Sane Conclusions Reached Regarding International Relations.

WILLIAM S. McNUTT in Collier's has an article on "As the Canadians See Us." He got started on the article by meeting a business man who told him that the Canadians were boycotting American goods so he interviewed New Yorkers who had business dealings with Canada. One of them told him that the United States in 1919 did business with all the countries of South America to the value of \$969,276,505, and the balance of trade was \$167,473,303 against the United States. With Canada, in 1919, the United States did business to the value of \$1,282,667,849, and the balance of trade was in favor of the United States to the amount of \$344,768,213. The United States sells more goods to Canada than to any other country in the world except Great Britain. These facts impressed Mr. McNutt, and he interviewed others.

He met a travel agent, just back from Canada, who said the Canadians hated the Americans, and that he had had a terrible time. Another traveler, on being told of this, exclaimed: "I know just what happened. He went over to Canada, and started in to tell all over again how America won the war. I'd bet anything that's what got him in wrong, and I wish they'd hang him before he got back! It's fellows like him who have made it hard for all of us in Canada. Americans go up there and blab around about how Americans won the war, and naturally the Canadians, who were in the war for more than four years, hear it and get sore at all Americans."

Mr. McNutt decided to come over to Canada and see what the state of feeling is, and he visited Toronto, Ottawa, and Montreal. He finds that nearly all Canadians have been made weary of the boastfulness and spread-eaglesism shown in American movie films in Canadian picture houses; that they resent the abuse directed against Great Britain in certain American newspapers; that there is no boycott of American goods, although there is a campaign under way urging people to buy made-in-Canada goods. Every Canadian he met resents the fact that the Canadian dollar is rated away below par in the American market—he hates to lose the exchange, feels it to be a dead loss, and in some way or other an injustice. In England people are familiar with the fluctuations of exchange; in Canada people are not, and as they are buying American goods all the time this discount on their own money is a constant annoyance.

The conclusion at which Mr. McNutt arrives is that the friendship between Canada and the United States will long out-last the friction. He thus advises Canadians: "Be a little patient with the seeming boastfulness of the Americans as expressed in the movies and in some periodicals and newspapers. Perhaps, after all the individual Yankee is not as vain-glorious and susceptible to flattery as some of the American movie, periodical, and newspaper writers may think. At least remember that most of the flamboyant conversation was meant for family ears only, and believe that it is as embarrassing to the majority of Americans as it is annoying to the majority of Canadians. Remember also that in our dark days during the Civil War the American dollar was worth only 40 cents in Canada, and that it did not get back to par until 1879." All of which advice is good. He advises Americans to remember that Canada has gone through a terrible ordeal, and that it is necessary to strengthen justice with a little gratitude.

Ontario School Statistics.

According to the Minister of Education's report for 1918 the attendance during the year was 561,865, divided: Public, 457,616; Separate, 70,048; High schools and collegiate institutes, 29,097; continuation schools, 5,104. There are 6,103 Public Schools, with 11,274 teachers; 548 Separate schools or collegiate institutes, with 1,051 teachers; 137 continuation schools, with 241 teachers. The Public school attendance averaged 295,652, an increase of 3,047. Separate schools attendance was 46,519, an increase of 722. The total expenditure for school purposes was \$16,855,431, an average of \$6.35 per head for the total population.

Lived on a "Pharm."

"I want some intelligent men as hospital orderlies," announced Lieut. W. H. "Any pharmacists in the company?" A flaxen-haired individual shuffled forward. "Ye gods," said the lieutenant, "are you a pharmacist?" "Sure as you are a pharmacist," was the indignant response. "Vy ay bane work on pharm all me life."

EAGER'S WATERDOWN

We have just finished Stock Taking and find we have too much stock in some lines. Also a lot of odd lines in stock which must be cleared out at greatly reduced prices.
