CALGARY, FRIDAY, JULY 26, 1912

ELEVENTH YEAR—No. 126

CALGARY'S RATE GRIEVANCES ARE PRESENTED TO RAILWAY COMMISSION

FREIGHT RATES CAUSE WARM SESSION OF RAILWAY BOARD

Secretary Wilson of Calgary Board of Trade, Heckled; Retires in Confusion

Secretary McDonald of Gordon-Nail Company and William Georgeson Prove Tartars

"Malicious Discrimination" is Mr. Georgeson's Charge Against C. P. R.

Adding to the strong evidence of excessive rates charged western shippers and manufacturers, the Calgary Board of Trade yesterday submitted general data, and the Gordon-Nail Company offered specific instances to the Dominion Railway commission.

The commission, acting as spokesman for the commission, Commissioner D'Arcy Scott declared that the fact that western rates are higher than eastern rates already had been apparent to the commission.

"The litigation is now upon the merits of justifying these higher rates," said Mr. Scott. "They have until October 1 to do it. There is no immediate necessity for further evidence but we always give anyone a chance to present."

Among the strong points made by Mr. Anstie was that in addition to the rate of 23c per 100 pounds charged from the mountains to Winnipeg, the Canadian Pacific, the Grand Trunk and the Canadian Northern exact an extra tariff to points in Alberta, Saskatchewan, and Manitoba north of the divide.

Secretary Wilson Heckled. Edward Anderson, legal solicitor for the Dominion Railway, who had just finished heckling W. H. Wilson, the board secretary of the Board of Trade, who had presented a typewritten memorandum on the subject of the freight rates.

Mr. Wilson's painful experience came about when he presented the copy of the board of trade's arguments on excessive freight rates. As told in detail in the Morning Albertan, a number of citations were given in the name of cement and iron commodities showing the high rates in vogue in the west as compared with the east.

Mr. Wilson's argument was that the board of trade was not possessed of sufficient facts to say what kind of a lower rate would be fair. Among other things, it was stated that the board did not know what effect reduced freight rates might have upon roads which have been built in the Canadian Pacific.

Quotes Interview From The Albertan. Solicitor Anderson saw his opportunity and when the youthful secretary finished reading, he proceeded to question him, holding a copy of the Morning Albertan in his hands. Mr. Anderson turned to an interview with William Georgeson, in which practically the same ideas had been advanced.

Mr. Wilson does not pretend to a knowledge of freight rates and was soon hopelessly at sea. Protests from one of the members of the board of trade, one of whom asserted that Mr. Wilson did not know himself what he was talking about, finally brought the on-again debate to a close.

The incident had aroused the ire of Mr. Georgeson and when he came in with a complaint that the Canadian Pacific railway was discriminating against local wholesalers and jobbers.

"It was not my intention," said Mr. Wilson, "to make any charge against the Canadian Pacific, but I have been told that the board of trade is making a mistake in not pointing out the discrimination."

Mr. Wilson's argument was that the board of trade was not possessed of sufficient facts to say what kind of a lower rate would be fair. Among other things, it was stated that the board did not know what effect reduced freight rates might have upon roads which have been built in the Canadian Pacific.

HIGH LUMBER TARIFFS SUBJECT OF ATTACK AT HEARING

Lumbermen's Association Says Rates to Northern Prairie Provinces Are Unfair

Mountain Mills Must Pay Extra for Shipments Going North of C. P. R. Main Line

Railways Given Thirty Days to Answer Charges That Tariffs Are Unreasonable

The Dominion Railway Commission yesterday granted the Canadian Pacific Railway, the Grand Trunk Pacific, and the Canadian Northern thirty days in which to prepare an answer to lengthy charges filed yesterday by W. A. Anstie, representing the Mountain Lumber Manufacturers' association, the rate on lumber from the mountains to points in northern Alberta, Saskatchewan, and Manitoba are out of all proportion.

Mr. Anstie charged that not only are the lumber rates away above the coal rates, but that they are utterly inconsistent. The lumbermen's representative asserted that, if reduced rates on lumber are granted, corresponding reductions will be made in the wholesale price of mountain lumber.

Among the strong points made by Mr. Anstie was that in addition to the rate of 23c per 100 pounds charged from the mountains to Winnipeg, the Canadian Pacific, the Grand Trunk and the Canadian Northern exact an extra tariff to points in Alberta, Saskatchewan, and Manitoba north of the divide.

Mr. Anstie's argument was that the board of trade was not possessed of sufficient facts to say what kind of a lower rate would be fair. Among other things, it was stated that the board did not know what effect reduced freight rates might have upon roads which have been built in the Canadian Pacific.

RAILWAYS MUST STAND EXPENSE OF MOVING TOWN BUILDINGS

Far Reaching Order Handed Down by Railway Commission in Whitlaw Township Case

Canadian Pacific in Relocating Crow's Nest Pass Town Must Pay for Moving Buildings

Commission Holds It Favors the Railways Same Way and Shoe Now on Other Foot

Establishing the principle that when a railway moves a station, it must not only provide similar lots in the new town site to property owners in the old one, but also remove their residences and buildings or else compensate them for their loss, the Dominion Railway Commission yesterday issued an order far-reaching importance. The case involved a complaint of the residents of Whitlaw on the Crow's Nest Pass branch.

The railway is relocating the line between Seven Persons and Brass Lake, mile 15 to mile 53.1. Lethbridge sub-division, cutting down the grade from 1 per cent to 0.4 per cent.

Engineer J. E. Sullivan, of the Canadian Pacific, told the commissioners that the railway already has extended its line more than 1-1/2 miles longer than was necessary to keep the present towns of Whitlaw and Burdett on the new line, but found it impossible to reach the present station at Whitlaw on the same side of the coulee and maintain the new 0.4 per cent grade.

Accordingly, it has been decided to move the station to the other side of the coulee.

RAILWAY COMMISSION DISTRIBUTION CLAUSE IS CLOSELY WATCHED BY THE FARMERS

City to Pay for Fourth Street West Subway, Which Will Cost \$155,000

This Sum Includes \$45,000 for Damages to Robin Hood Milling Company

Commissioner Scott Pays High Compliment to Calgary for Enterprise in Subways

The United Farmers of Alberta are very much opposed to any infringement on the car distribution clause of the grain act, which they believe is the bulwark of safety between them and the grain dealers. They do not approve of the suggested interior elevator scheme which they say will mean additional expense on the producing grain grower. Secretary Fream yesterday gave out the following statement:

"Many people all over the country are anxious to find some solution of the car shortage problem. They all have a theory as to how it can be solved and the latest theory is 'interior storage.' Every time that some official has already stated that a proposition such as this is not feasible unless the grain is to go into the storage bins, a dreamer there for several months." The railways will not consent to a proposition which would mean having grain put into an elevator one day and ordered out the next.

Every time that some official has already stated that a proposition such as this is not feasible unless the grain is to go into the storage bins, a dreamer there for several months." The railways will not consent to a proposition which would mean having grain put into an elevator one day and ordered out the next.

DOMINION PROGRAM OF BUILDING WILL START TODAY

Government Contemplates Expenditure of Colossal Sums on Calgary

Ground Will be Broken This Morning on the New Immigration Building

When Expropriation Proceedings Are Settled, Work on Post Office to Commence

The working out of the Dominion government's big building program for Calgary will start tomorrow, or Saturday, when ground will be broken for the new immigration hall, at the northeast corner of Tenth avenue and First street east.

The Dominion officials are said to look with favor on the growth of Calgary, which has been of such remarkable character as to have attracted attention all over the world. The expenditures of the Dominion in this locality, according to the recent statement of Senator Lougheed, may in the course of several years aggregate a total of several millions of dollars.

The principal building which the government proposes making Calgary a present of is the new post office. It is stated that this structure will cost in excess of \$500,000 possibly much more. It will be on the site of the present post office building, at the corner of Eighth avenue and First street east, and which location, from the really point of view, constitutes the heart of the city.

Expropriation Proceedings. The government will expropriate seventy feet on Eighth avenue, just east of the present post office, and when this matter is taken care of will proceed at once with the building. The expropriation proceedings are in the hands of James Muir, solicitor, who is said to be arranging the preliminaries of the proceedings by which the valuable property will be transferred from the owners, Messrs. J. C. Neil and C. A. Wallace, to Mr. Jack Cannock, with or without their consent. In any event Messrs. Neil and Wallace are certain to receive a handsome price for their property, and the fixing of arbitrary value by the government appraisers in this neighborhood will be watched with interest.

The Customs Building. A third large structure in prospect, is the Dominion customs house, which will be built at the corner of Eleventh avenue and First street east, on the old Cordell property. This structure will cost in the neighborhood of \$250,000. Colonel Sam Hughes, minister of militia, is expected to arrive in the city in the course of a few days, and will probably make some decision in regard to the \$100,000 armory which the government proposes building for the soldiers of Calgary. There are two sites in prospect. The city has offered the government the old hospital

BRITISH FOREIGN RELATIONS CONDUCTED ON DEFINITELY SETTLED LINES

With Infinite Tact, British Premier Gives Clear and Forceful Exposition of Great Britain's International Relations; Special Friendships Cultivated With Cordiality

NO OCCASION FOR QUARRELLING WITH ANY NATION

Declares Relations With Germany Are Those of Mighty Good Will; Increased Armaments Merely for Security and All Powers Know Britain Has No Aggressive Ideas

Through Reuter's Ottawa Agency. LONDON, July 25.—Speaking in the house of commons today on the estimates for the committee on Imperial defence, Right Hon. H. H. Asquith, prime minister, made an important statement. Reviewing the composition and the work of the committee since the vote was last discussed in the house of commons, he said that the committee had, upon at least two occasions, the opportunity for showing the elasticity of its composition. Last year they had the pleasure of summoning the premiers of all the self-governing Dominions to their meeting and he did not think there ever was a more momentous occasion. The second occasion was when the Right Hon. R. L. Borden, premier of Canada, and his colleagues attended the meeting last week. He was glad to say that they would attend again next week and he hoped they would arrive at some satisfactory agreement.

Dealing with the work of the committee, he said there were four permanent sub-committees which were practically in constant session. The first was the home ports finance committee. It has sent the report of less than twenty-five delegates to the main committee with the approval of the admiralty and the war office, and to the work of a majority of these representatives effect had already been given. These representatives referred to the best means of arriving at all vulnerable points around our shore. The second committee was the over-seas committee which had to deal with large numbers of matters concerning the defence, not only of crown colonies, but the self-governing colonies, Egypt and India.

The third committee was appointed last year and he attached the greatest importance to it. It was a sub-committee for co-operation of mental action on the outbreak of war. It had already compiled a book which deftly assigned to each department the report for action under the head of war policy. The fourth sub-committee was called the Air committee. It dealt with all matters of aerial navigation, both military and naval. Other temporary sub-committees were constantly sitting to deal with various matters, among which he mentioned internal transportation, overseas transportation and wireless telegraphy throughout the empire. Mr. Asquith affirmed that this committee had no influence on policy and although it did not determine policy, its conclusions were necessarily governed by reference to our international relations.

In that respect, there had been since the government came into power, no change in policy of any sort or kind. He declared international relations were being conducted now as in the past decade, on perfectly settled and definite lines. "They had not shifted to the right or left during the whole time. What were they? We cultivated with great and growing cordiality on both sides our special international friendships. They had sown the seed of time, the test of bad as well as of good weather. He did not hesitate to say that many questions, which had arisen ten or fifteen years ago, might have been the cause of friction, possibly of ill-feeling and even of worse things, had smoothly yielded to mutual accommodation and perfect good will without trouble from one side or the other."

"Yet," he said, "remember what is sometimes forgotten by those criticizing our foreign policy, namely, that those powers with which these special relations exist are powers which, in various parts of the world, are brought into close and intimate contact with infinite possibilities of friction and possibly of an animosity if our relations were not happily what they are between ourselves and those great powers with which in Europe, in Asia, in Africa, our subjects are constantly brought into close relationship. The history of the past eight years is a history of mutual understanding, freedom from friction, and difficulty, and of growing cordiality. (Cheers.)

But when I say that the powers are brought into close and intimate contact with infinite possibilities of friction and possibly of an animosity if our relations were not happily what they are between ourselves and those great powers with which in Europe, in Asia, in Africa, our subjects are constantly brought into close relationship. The history of the past eight years is a history of mutual understanding, freedom from friction, and difficulty, and of growing cordiality. (Cheers.)

GREAT SALE OF REMNANTS AND ODDMENTS

One of the inevitable results of such a great upheaval of merchandise as last week's selling activity occasioned is the rapid accumulation of short lengths, odd lots, broken size assortments, etc., but good store-keeping does not permit these small lots to encumber shelves and counters a moment longer than is necessary, therefore this sale of REMNANTS AND ODDMENTS. It is our method of finally dispersing all incomplete assortments, your co-operation in helping us move the goods will prove profitable, for you save a FULL HALF and in countless instances MORE THAN HALF OF OUR USUAL PRICES. No matter what section of the store you visit you'll find exceptionally attractive values in seasonable merchandise; everything desirable for every home and personal want. Everything priced in a way to win the highest degree of public approval.

Household Linen Remnants

Remains of last week's sale rush ends, and oddments of pillow cotton, sheeting, glass cloth, roller crash, roller Turkish, longcloth, bleached and unbleached cottons, white and cream table linens, huckaback towelling, odd linen and both towels, etc., etc.; every length at absolutely HALF PRICE.

Odd Lines from Men's Furnishing Section

Men's English Natural Wool Underwear, 1-2 sleeves, very fine finish, unshrinkable, broken sizes. Regular \$2.50. To clear, suit \$1.25
Men's 2 Thread Egyptian Balbriggan Underwear, long or short sleeves, fine finish. Regular \$1.00 suit, to clear 65c
Men's Colored Silk Lisle Thread 1-2 Hose, in large assortment to choose from, seamless, fast dyes. Regular 50c pair. To clear, 4 pairs for \$1.00
Boys' Natural Balbriggan Underwear, long or short sleeves, fine finish. Regular 50c suit. To clear, suit 35c
Boys' Shirts, with turn down collar, in light, fancy shades, or black with white stripes. Regular 50c. To clear 33c
Boys' School Jerseys, in the best English worsted, in navy only, fast dyes; sizes 24 to 32. Regular \$1.15. To clear 85c
Men's English Flannelette Nightshirts, in neat stripes, very large and roomy, fast colors. Regular \$1.00. To clear 65c

Great Sale of Trunks, Suit Cases and Club Bags 33 1-3 off

Everybody can save money by buying their baggage at Pryce Jones (Canada) Ltd. Why? Because we buy direct from the best factories, we buy carloads at one time, thereby getting the very highest possible discount—to sell a carload per month we have to give excellent value in quality and price. We have both now to offer—our trunk business is growing so rapidly that we are beginning to sell our 2 carloads per month—the public have absolute faith in us for we have proven that quality and prices cannot be equalled, our discount 33 1-3 OFF MARKED PRICES.

Deep trunk, strong and stylish, very durable, large brass corners, clasps and knees, dowels and lock, solid fibre divided tray, straps outside, 34 inches, regular \$12.00. Special \$6.25
36 inch, regular \$13.00. Special \$6.75

Special Sale Blue Band Chinaware

We have a large and beautiful showing of fine china, blue band and gold coin lines. We propose to reduce these goods for 3 days only as follows:

50 dozen Cups and Saucers, regular \$3.60 doz. Special, doz. \$2.25
50 dozen Tea Plates, regular \$3.00 dozen. Special, doz. \$2.00
10 dozen Cake Plates, regular 50c each. Special, each 30c
50 dozen Cream Jugs, regular 50c each. Special, each 30c
20 dozen Slop Bowls, regular 50c each. Special, each 30c
10 dozen Egg Cups, regular \$1.80 dozen. Special, doz. \$1.00
3 dozen Covered Butter Dishes, regular \$1.85. Special \$1.00

Oddments in The Shoe Dept.

Oddments in Children's Ankle Pumps in tan calf, patent colt, or gun metal, size 2 1-2 to 5, pair 95c
Oddments in Child's Black or Chocolate buttoned or laced boots, size 3 to 7. Special, pair 95c
Oddments in Misses and Girls' "Classic" make of Ankle pumps, and oxfords in tan, calf, patent colt, gun metal, etc., size 11 to 2, pair \$1.95

Men's Derbys and Soft Felts, in black, seal brown, green, drab, etc. Prices 75c to \$3.00. All hats union made.

MYSTERY SURROUNDS THE DARDANELLES AFFAIR

Asserted That Attack Was Engineered by Turkish Officers for Purpose

London, July 24.—The mystery surrounding the reported attack upon the Dardanelles by Italian torpedo boats and their repulse, with the loss of two vessels and the damage of six others, coupled with the proclamation of the Sultan of Turkey exhorting the troops to remain loyal suggests the possibility that another revolution is brewing in Constantinople.

The Italian government denies knowledge of an attack by its torpedo boats upon the Dardanelles, and while independent dispatches confirm the fact that a cannonade of some description took place, all reports concerning an

Italian attack and of the damage inflicted upon the Italian torpedo boats come from official Turkish sources and are not confirmed by press dispatches.

The suggestion is made that the bombardment was engineered by the Turkish government as a means of influencing the Turks, by reminding them that the enemy was at the doors of the capital, thus counteracting a military revolution, and assisting in the solution of the political crisis.

Grave Situation Revealed.
Constantinople, July 24.—The grave nature of the government's difficulties is revealed in a proclamation of Tewfik Pasha as grand vizier, the proclamation reminds the troops of their oath of loyalty and referring to demands made by certain officers as contrary to the constitution and supreme rights of the khalfate, exhorts the army not to mix in politics, but to devote itself exclusively to the defence of the country.

The proclamation concludes by pointing out that the officers' treasonable attitude had encouraged the enemy to the extent "that the enemy dared last

night to approach the very gates of the capital. This should constitute a warning."

Officers Make Demands
The proclamation was provoked by a meeting of officers at the war office, which delegated Nazim Pasha and Hadi Pasha to submit to the sultan the officers' demands for the dissolution of the chamber of deputies and the appointment of Kiamil Pasha as grand vizier.

Press dispatches from the Dardanelles assert that after the Italian torpedo boats which attacked the entrance to the Dardanelles early this morning retired, 22 large and small war vessels were sighted from the straits steaming a southerly course. These dispatches add that five cruisers are still reported off the Dardanelles.

The government has decided to reduce the width of the free channel between the mine fields in the Dardanelles in order on the one hand to permit a continuance of navigation, and on the other to increase the defenses of the straits.

Italy Disavows Knowledge
Rome, July 24.—The Italian govern-

ment, according to a semi-official note issued today, knows nothing of the reported attack between a flotilla of Italian torpedo boat destroyers and the Turkish forts at the entrance to the Dardanelles, except that several Turkish torpedo boats left the straits to hunt for Italian warships, and that it is possible, therefore, the Italian destroyers engaged these vessels in battle.

The idea that the Italian destroyers would try to force the Dardanelles," the semi-official note says, "is ridiculous. If the Turkish forts bombarded the Italian warships it was probably a result of the panic now reigning in Turkey, or was a pretext of the government again to close the straits."

The Dardanelles, which are about 45 miles in length and from 1 1/4 to 4 miles in width, have been heavily mined for the protection from Italian warships. As the result of the closing of the Dardanelles early in the year, 500 steamships and sailing vessels were held in the Sea of Marmora for several weeks.

THREW SACK OF FLOUR AT BRITISH PREMIER

Dublin, July 24.—A suffragette threw a bag of flour at Premier Asquith in Town Hall Square during his recent visit here. It missed him, but coated dozens of men and women near him with white.

The suffragette was arrested and hustled away by the police as a precaution against violence from the crowd which is in an angry mood over the manner in which the Premier, who as Home Ruler's champion, is almost idolized here, has been pursued by the votes-for-women campaigners since he arrived in Ireland.

Home Ruler Ireland is wild with enthusiasm and the Orange districts are curious over the Premier's speech at the Theatre Royal. John Redmond, himself, both sides say, could not have been more aggressively or forcibly Nationalistic.

The Premier is almost an object of worship here. At Belfast the most violent threats are being made against him, and should he visit there it is more than likely that he would suffer actual rough-housing.

The anger felt here toward the suffragettes, who are alleged to have plotted to burn or blow up the Theatre Royal and who attempted to interrupt the Premier's speech there, is intensified from the fact that it is looked on as an attempt to sacrifice Irish interests to the votes-for-women campaign.

The attempt to throw a bag of flour at the suffragette into the Liffey River was entirely genuine and but for the vigor shown by the police the women would probably have lost their lives.

NO CATCH LINE.

GET MONSTER CATFISH

(Kansas City Cor., Chicago Inter Ocean)

After a disappearance of nearly two years from the Missouri river the big catfish which used to bring a harvest of fishermen have returned to the stream. Two of the largest ever seen

KAISER EXTENDS MILITARY POWER IN AUSTRIA

Vienna, July 24.—By the passing of the new army bill, which has been passed after a long period of delay, the Austro-Hungarian military power is extended to a new peak.

The new bill is a part of a general plan of military and naval preparation which is being hurried to perfection on the advice of Kaiser Wilhelm.

It provides for an increase of the army to 600,000 men, and for a corresponding increase in the navy. The bill also provides for a more efficient organization of the military forces, and for a more complete system of military training.

The passing of this bill is regarded as a significant step in the process of military rearmament in Austria.

FRIDAY, JULY 26, 1912

UNNEIGHBORLY AND UNCALLED FOR Yesterday the Herald went out of its way to take an unneighborly and uncalled for fling at the Albertan.

In yesterday's issue The Albertan commented on the speech of Winston Churchill in the House of Commons dealing with the supplementary naval estimates and in referring to the assertion of Mr. Churchill that England found great comfort in the attitude of Canada toward the question of Imperial defense we expressed the conviction that should danger ever confront the Mother Country from a serious foreign war, whatever measure of contribution to the defense of the Empire the government of the day had decided upon would be set aside and all the great resources of Canada would be thrown to the support of England.

Commenting upon Dr. Milligan's militarist sermon The Albertan did not oppose the view he expressed which was that to be secure, England must of necessity maintain a state of preparedness with regard to the status of her permanent military establishment, but simply took the position that utterances of the kind were out of place in the pulpit where it were better to spread the doctrine of peace than to advocate measures of preparation for the thing which all nations dread and deplore having intruded into their lives more than any other misfortune that can befall them.

No one is better acquainted with the truth of these statements than The Herald which merely went out of its way to be unneighborly. The Herald's comment could only emanate from a newspaper so narrow minded that it can look through a key-hole with both eyes at one time.

It began to be jeocularly known as 'the fourth estate.' Edmund Burke, the man whose 'Speech on Conciliation' is read in every high school, is generally given credit for the authorship of the expression.—Washington Post.

EDITORIAL NOTES

The air was literally filled with dollar bills for a time yesterday. The sun shone bright and warm—a little while.

One view with regard to a filtration plant for Calgary will not be protested. That is, that if we are to have one the people should not approve a bylaw to raise the money until they are given assurance that an expert in that line of business will be employed to prepare the plans and superintend the construction.

This must be a wonderful Canada of ours. Think of people wanting to come here in such numbers that the steamships are crowded to their limit and of every company running ships from Europe being obliged to stop booking passages—such a thing has never been heard of before. Surely it is Canada's century.

Who cares? We all know ice cream isn't good for us on Sunday.

It begins to appear that the announcement some time ago that the C.P.R. would build cruiser liners is not altogether groundless.

The prevailing sentiment appears to indicate that the winter fashions in municipal politics will be cut on a decided progressive bias.

It is announced that wheat cutting has started in the south. A little more of yesterday's sunshine please.

Back in Toronto they have a new professional sport: swatting flies. The city health officer is the referee and the youngsters of the town are the players.

That was a very witty and decidedly part reply of Citizen No. 1 to the remark of Citizen No. 2, that he hoped the sun would continue to shine and dry up the track for Barney Oldfield.

That was a very witty and decidedly part reply of Citizen No. 1 to the remark of Citizen No. 2, that he hoped the sun would continue to shine and dry up the track for Barney Oldfield.

RAILWAY-COMMISSION FAVORS AGREEMENT

(Continued from Page 1)

- 1. The city to construct two double tracks across the subway each 28 feet wide, where the spur tracks now are.
- 2. The city to construct footings for the bridges between the tracks.
- 3. The company to build any superstructure desirable for the operation and indemnify the city against damages.
- 4. The company to have the right to erect the superstructure to the south of Ninth Avenue with a clearance of fourteen feet.
- 5. The city to pay the company \$45,000 in lieu of all land damages.
- 6. The city to secure foundations for the present buildings.
- 7. Ten days' notice to remove the track during construction, one track to remain during construction.

Minor Details Only Unsettled. Most of these points are in favor except in minor details, one being with regard to how far the city shall go to secure the foundations of the present buildings.

Commissioner Scott created some amusement when he quoted from an anonymous letter sent to the commissioners urging them to locate the subway at Second street west. It said: 'No real estate agent, alderman or councillor is holding land in that vicinity, and that's why it should be put there.' Inasmuch as there is a subway at First street west, no attention is being given to the suggestion for the laughter it provoked.

One Speaker Against Plan. Appearing for the Pacific Garage company, as he said, and for a number of ratepayers, Mr. McLaughlin urged that the street be widened to the west of Fourth street west, on the ground that it would interfere with teaming, and also because of the heavy expense to the ratepayers.

After hearing all the arguments, Commissioner D'Arcy Scott said that the board would not enter any order in the case but when the final agreement is made, the board would refer to the commission, they would simply be approved. In conclusion, Commissioner Scott paid a high compliment to the city of Calgary.

"I am always impressed," he said, "with the up-to-date manner in which the question of subways is dealt with in this city. There is no city of its size where the grade of the city and railway crossings has been so well dealt with as in Calgary. There are too many accidents at level crossings, and the construction of subways should certainly be encouraged."

DISTRIBUTION CLAUSE IS CLOSELY WATCHED

(Continued from Page 1)

Ray and other points of that kind, the shortage will not be so apparent in the future. Last winter's car shortage shows us that it was not so much a lack of cars as it was of motor power, and with the new outlets provided for the grain, motor power will probably be forthcoming.

When this question of interior storage is only a question of the ground, if they want to help us, they will come out in the open and put the blame where it really belongs—on the railroads. The blame on the farmers and upon the car distribution clauses of the grain act. The amount of grain loaded over the platform is less than 95 per cent of the amount shipped, and of this quantity, easily 95 per cent is loaded within 24 hours. The railway companies will place cars at the elevators at the same time and take all the cars away next day fully loaded. Some elevator men claim that they can load a car in about two hours and all the farmers do it. They do not place the blame on the farmers and upon the car distribution clauses of the grain act. The amount of grain loaded over the platform is less than 95 per cent of the amount shipped, and of this quantity, easily 95 per cent is loaded within 24 hours. The railway companies will place cars at the elevators at the same time and take all the cars away next day fully loaded. Some people are so fond of plumes that they take along self-inflating hammocks and stay in the woods until nature has given them the rich, golden sheen of a summer sunset. After a man has grown a beard which would stand up and fight a disc harrow to the ropes, he will return home with a deep sense of satisfaction at the series of parallel ridges embossed by the vindictive mosquito.

Plumblers who sleep in a tent are seldom disturbed by anything except the inhuman habit of snoring in three colors or by the predatory pinch bug, which is liable to lend on a protruding toe just when everybody has dozed off.

Ideas of a Plain Man

By DR. FRANK CRANE

ALL progress is the accumulation of capital. Any man's force is in what has been laid up for him, by others or by himself. We usually think that only money, or things with money-value, is capital.

Dr. and Mrs. Slack, of Medicine Hat, are guests in the city.

Mr. and Mrs. Victor Ready of Medicine Hat are visiting in the city.

Mr. and Mrs. Geo. H. Bailey and Mrs. M. Mackay spent yesterday in Olds.

The Shamrock club will hold an informal dance tonight in Unity Hall at 10:45 p.m.

Mr. and Mrs. Jesse G. Anderson of Vancouver are visiting Mr. and Mrs. E. J. Young.

Miss Muriel and Dorothy Young are visiting in Regina with Mr. Young's sister, Mrs. Oswald Rothwell.

Miss Ella Little, Vancouver, is the guest of Mr. and Mrs. George C. Munro, 511 Twenty-second avenue west.

Miss Jessie MacDonald, Eighteenth avenue west, entertained a number of friends informally to meet her guest, Miss O'Hagan, of Lethbridge.

Picnic is Postponed.
The St. Paul's Presbyterian Sunday school's annual picnic, which was to have been held today, has been postponed indefinitely on account of the bad weather.

TEMPERANCE LECTURE FRIDAY
Capt. W. C. Dutton from Seattle will address a temperance meeting at the Young Men's Club on Friday evening. The public is invited, especially former Good Templars.

Captain Dutton is the international lecturer and organizer of the International Order of Good Templars.

CUPID'S KNOTS
MCDOWELL—WEEGAR.
A quiet wedding took place on July 21 at the home of Mr. and Mrs. John Poulson, 925 15th avenue west, when Pearl Marguerite, only daughter of the late Lindsay Weegar, was wedded to Robert T. McDowell of Mount View ranch. Rev. T. E. Marshall officiated.

The honeymoon will be spent at the coast, and on their return Mr. and Mrs. McDowell will reside on their ranch east of Alberta.

NICHOLS—NICHOLS.
An interesting double wedding took place at Hillhurst Presbyterian manse yesterday afternoon, when Arthur Nichols, of Calgary, and Miss Clara Bailey of London, Essex, England, were united in marriage by Rev. J. J. Gilmour of Richmond Park, South Edmonton, and Miss Minnie Nichols, of Whitfield Green, England, were also married.

Rev. Peter Walker performed the ceremonies.

The groomsmen were old friends and Miss Minnie Nichols was a sister of Arthur Nichols.

Mr. and Mrs. Nichols will live in Calgary, while Mr. and Mrs. George will reside in South Edmonton.

TURNED DOWN GIFT BY LAW
Moose Jaw, Sask., July 25.—Today the ratepayers voted on a bylaw to grant a free site to George White & Co., of London, Ontario. This they turned down by the decisive vote of 114 to 113. The bylaw required a two-thirds majority to carry. This is the second time the proposition has been before the people.

CONVICT WHO WOULD DIE SWALLOWED MUCH METAL
Geneva, July 24.—A convict who is undergoing a long sentence in the prison of Lebourg, Canton of Argovie, became tired of life recently and decided to hasten death by a curious method. He swallowed every piece of metal glass, etc., he could find in the court yard when the warders were not watching him. This continued for weeks, and the convict seemed to thrive, but the other day he was found writing in agony, and the doctor, to save the man's life performed an operation on him.

From the convict's stomach were extracted 147 nails of various sizes, 49 screws, 24 pieces of glass, 3 bits of lead, 22 brass heads of nails, 3 collar buttons and the broken blades of a knife and a chisel. The operation was a success, and the convict, who has changed his view concerning his departure from this world, will soon be well again.

B.C. Binning & Co
112 Eighth Avenue East

West End W. C. T. U.
The West End W. C. T. U. held an interesting meeting at the Parish hall of St. Stephen's church yesterday afternoon. Committees are gradually being formed so that the work can be carried out more effectively.

Mrs. Hastings has been appointed convener of the lower committee. Mrs. J. D. Chisholm of the good literature department. Anyone having magazines, books, or papers suitable for distribution, among invalids, if they would kind forward them to Mrs. J. D. Chisholm, 518a Eighth avenue west, the West End W. C. T. U. would deem it a great favor.

The workers are enthusiastically looking forward to a large number of members.

The executive will meet next Thursday at 8 p.m. at the home of the corresponding secretary, Mrs. S. G. Adams, 2017 Fifth street west.

Toronto Music College.
According to the arrangements of the Toronto College of Music in affiliation with the University of Toronto, Mr. T. C. Jeffers, Music Exam., held the musical examinations in the Sacred Heart Convent, F.C.S., Calgary, Alberta. The following results have been received this week:

PIANOFORTE.
Senior second year: First class honors, Miss Lang; honors, Miss Muldoon, Miss Ollivier, Miss Sinclair.
Primary: First class honors, Miss Dunbar; honors, Miss D. Pashak, Miss D. Pashak, Miss M. Cartwright.
Senior rudiments: First class honors, Miss Lang; honors, Miss F. Ollivier, Miss R. Muldoon, Miss K. Craig.

Calgary Men are Polite
Did you ever get into a Calgary street car between the hours of five and six o'clock? It is just at this time that the working men and the shopping women are all scurrying to catch the home car.

And haven't you noticed who stands up? It isn't the women of Calgary, if there is the least possible chance of a man giving up his seat.

"Calgary men are so polite," remarked a Toronto lady. "Indeed, in my home city everybody, man or woman who got the chance of a seat took it."

"Once I got into a Calgary street car," said another lady, "and it was filled with working men. There were no vacant seats and a foreigner arose and gave me his. I took it, fearing to offend the man by a refusal, but I had a queer feeling of guiltiness as I thought he had probably labored all day and was tired while I had just come from a visit to a friend's home and was feeling particularly refreshed."

A Winnipeg man remarked: "I noticed that the Calgary men observe the same unwritten rule about giving a seat to a woman as the men do in Winnipeg."

This small instance is but indicative of the consideration of the Western man toward women.

I wonder if it is just a woman's privilege of not having the "equal rights?"

Reasonably, a tired laborer certainly should keep his seat in a car rather than give it up to a woman who has probably spent a pleasant afternoon down town shopping, at the matinee, or at a tea room.

Of course a woman who has a baby in her arms or a small child hanging to her skirts will, by the unwritten law of civility of both man and woman, be given every assistance.

After all it is a little act of kindness, this street car seat episode. It is merely an incident, but a good life is but a series of mere incidents and small kindnesses, which, when estimated together make a world of happiness.

CLOTHES THAT SHOW THE CHARMS OF FEMALE FORM CAUSE OF MUCH CRIME
Milwaukee, July 25.—Charm-deceiving clothes cause crime, declares Judge Baskovick, Milwaukee Municipal Court, who has heard many recent cases which have involved well known men with young girls, and who have been forced to send to prison young men for crimes like that of the New York girl six days ago in a Milwaukee case.

He says when girls walk the streets as garbed as to give passers by more than a hazy impression of femininity, they are almost sure to be accosted, they cannot expect to escape offensive attention when in fact they actually invite such attention.

"These dresses," said the judge in commenting on the Julia Connor murder, who said he had been driven insane by beautifully made up women, "are an invitation to men to assault and seduce. These girls only irritate the elders, and I often sit and hear testimony on such cases and wish we could return to the days of the hoop skirt, when such displays of the form was unknown. I thoroughly believe, may be true, as the New York murderer declared, that he was led to his crime by the position inspired by modern modest clothing."

TO RESTORE THE STATUE OF MARCUS AURELIUS
Rome, July 24.—Every visitor to Rome will remember the famous equestrian statue of Marcus Aurelius on the square of the capitol. This historic monument has been found to be suffering from the infiltration of water, and a technical commission has advised to prompt repair. The municipal council voted the sum of \$900 for the careful restoration of the statue. In order to expedite the work it will be necessary temporarily to remove the philosophic emperor from his pedestal, and to transport the former into the Palazzo del Conservatori. Thus American summer tourists will find the Capitoline square denuded of its chief attraction. Close to it, however, another restoration, that of the splendid ceiling of the Church of Ara Coeli, commemorative of the victory over the 10,000 units of \$125 for a large bottle of 300,000 units. The bottles bear a stamp of the date of issue, and as the strength of the emanation diminishes by 50 per cent in four days immediate use is recommended.

ROMAN GAS CAR DRIVER IMAGINES HE IS BROKE
Rome, July 24.—A curious case of hypnotic suggestion is reported from Turin. For some days a chauffeur has been wandering round the streets and showing no visible means of support. On being questioned by the police he could give no details of his life before or after May 23. To all questions he replied: "He who has forbidden me to speak has crossed the ocean, and the police will never find him."

For the present the chauffeur, whose name is kept secret by the police, has been sent to an asylum, but physicians think that the case is one of hypnotic suggestion, and the cause a "refined" vengette.

BOND BETWEEN FRANCE AND BRITAIN, GAIN TO EMPIRE
London, July 24.—Appropos to the visit of the Canadian ministers to Paris, "The Daily Mail" declares that anything tending to improve relations between Canada and France is a gain to the empire. The visit will emphasize the fact that Britain and France have long ceased to be divided. French Canadians must see that in strengthening the defenses of the empire they are also pleasing France's security.

NEW HEAD MOFFAT ROAD
Denver, Colo., July 24.—Rumors that Hawley interests will dominate the future of the Denver, Northwestern & Pacific, known as the "MgRat Road," seem to have been generally accredited report that Newman Erb, the Hawley representative among the route conditions in conference here, has been named a joint receiver to protect Eastern non-holding interests.

Street Car Earnings Decrease
Regina, July 25.—Street car earnings for the week show a slight decrease.

CONVICT WHO WOULD DIE SWALLOWED MUCH METAL
Geneva, July 24.—A convict who is undergoing a long sentence in the prison of Lebourg, Canton of Argovie, became tired of life recently and decided to hasten death by a curious method. He swallowed every piece of metal glass, etc., he could find in the court yard when the warders were not watching him. This continued for weeks, and the convict seemed to thrive, but the other day he was found writing in agony, and the doctor, to save the man's life performed an operation on him.

From the convict's stomach were extracted 147 nails of various sizes, 49 screws, 24 pieces of glass, 3 bits of lead, 22 brass heads of nails, 3 collar buttons and the broken blades of a knife and a chisel. The operation was a success, and the convict, who has changed his view concerning his departure from this world, will soon be well again.

SOLVES VEXING PROBLEM OF WHEN WE ARE IN LOVE
New York Man Invents 'Erometer, Which He Says is Infallible Love Tester
Inventor Says Doubting Maiden Can Decide Vital Question By Wearing His Bracelet

New York, June 24.—Robert C. Auld, author and president of the Human Welfare league, things his newly invented "erometer" will solve the vexing problem of "when are we in love."

By the use of this machine, Mr. Auld says, the doubting young maiden may decide for herself the vital question simply by dining with or talking to the man who she thinks is her ideal.

Believes Affinity Theory
It was suggested to Mr. Auld that he had made his test purely a physical one and he was asked if love might not manifest itself in other ways.

"Assuredly," he replied. "The poets and romantics, with their theories of spiritual affinity, are repeating a world old truth. Love is a psychic matter, a concern of the soul. But as our souls dwell in our bodies on this earth, so psychic affection must manifest itself through physical attributes."

Other Symptoms of Love.
"Then a young person in love loses his appetite. Food seems a gross and material thing; he literally lives on dreams. He is absent minded and prone to frequent yawns during any work that he is doing. He grows pale and loses weight, but is not consciously weakened. He alternates fits of nervous, restless energy with spasms of dreary idleness."

He is not likely to suffer serious harm unless he is separated from his beloved for a long period. Then he may either pine away and die, or, in a fit of insanity, take his own life.

"It is not merely a poetic convention that people die of broken hearts. They continue to do so, even if the cause is seldom listed in the death certificate. And one has only to read the newspapers to realize that suicide for love's sake did not go out of fashion with Romeo and Juliet."

"G. THE

In the Dress Goods and Wash Goods Section

Try A Bottle Or Two Of This Sparkling, Vigorous Brew

IN the hot weather, when your throat is parched dry by the dust from the streets, and your body fagged out by the scorching heat, then it is that a bottle of Kuntz's Old German Lager is thrice welcome.

No ordinary lager is Kuntz's Old German. It is brewed by the expensive Old German Process at the giant Kuntz Breweries in Waterloo. The very finest Canadian barley, imported Bohemian hops, highest-grade yeast, and sparkling water from the famous Kuntz Springs—these are the ingredients.

AFTER the lager is brewed, it is aged in glass-enamelled steel tanks in spacious rooms where the air is artificially cooled and purified. Aged until the flavor is fully matured—a snappy, lively flavor that whets the edge of your appetite and makes you feel like tackling a good, big meal.

JUST try a bottle before lunch. And have a case sent home. Enjoy a bottle with your wife in the evening. And when friends drop in you'll be proud to treat them to such a high-class lager. On sale at the leading hotels, cafes, and liquor stores.

which preparations are made and comparatively little damage is done; freshets caused by heavy summer rains occur several times a season but the heavy waterfalls are carried away with only little damage.

This morning as the waters cleared away, a stricken community gazed aghast at the power of the elements. Heavy rocks have been lifted from almost solid beds and dropped into rivers while on all sides deep scars mark the surface of the earth where the crowding waters have made new courses for themselves.

The Turtle Creek Valley was visited by disastrous floods and the damage is enormous. Crops were blotted from the earth. Railroad traffic through a great territory is demoralized. With four connections into Uniontown, the Pennsylvania was unable to get passengers into the city early today.

It was in the coke regions that the fury of the storm seemed to have been spent. Uniontown, Dunbar, Lemont, Mount Braddock, Connellsville, all were inundated.

Montreal, July 25.—A grim chase of one Italian by another across the continent, the conclusion of which was a fatal shooting affray, was outlined in the evidence taken this morning at the inquest into the death of Salvatore Macaruso.

Try A Bottle Or Two Of This Sparkling, Vigorous Brew
IN the hot weather, when your throat is parched dry by the dust from the streets, and your body fagged out by the scorching heat, then it is that a bottle of Kuntz's Old German Lager is thrice welcome.

No ordinary lager is Kuntz's Old German. It is brewed by the expensive Old German Process at the giant Kuntz Breweries in Waterloo. The very finest Canadian barley, imported Bohemian hops, highest-grade yeast, and sparkling water from the famous Kuntz Springs—these are the ingredients.

AFTER the lager is brewed, it is aged in glass-enamelled steel tanks in spacious rooms where the air is artificially cooled and purified. Aged until the flavor is fully matured—a snappy, lively flavor that whets the edge of your appetite and makes you feel like tackling a good, big meal.

JUST try a bottle before lunch. And have a case sent home. Enjoy a bottle with your wife in the evening. And when friends drop in you'll be proud to treat them to such a high-class lager. On sale at the leading hotels, cafes, and liquor stores.

You expect something extra good when it bears the DAVIES label and you will not be disappointed when you get

DAVIES' (SPICED) MIXED PICKLES 15 cents.

As carefully prepared as they would be in your own kitchen—with the advantage that our expert chefs have the pick of Canada's best gardens.

Ask for this and other DAVIES' Table Delicacies at your grocer's.

THE WILLIAM DAVIES COMPANY LIMITED TORONTO

AMITY AND GOOD WILL FOR ALL, GERMANY IN PARTICULAR, KEY NOTE ASQUITH SPEECH

International Friendships Have Stood Test of Time and All Sorts of Weather and Questions Which Formerly Caused Ill Feeling Now Passed Off Smoothly

London, July 25.—Amity and good will for all, with Germany singled out for special mention, formed the keynote of a statement made by Premier Asquith in the House of Commons this afternoon in connection with his estimates of the committee on imperial defense.

In the interests of the empire as a whole, when special emphasis will be laid on the value of contributions by the overseas dominions. Premier Borden and his colleagues were guests last evening at a dinner of the imperial government, when the colonial secretary, Mr. Harcourt, president, and the Archbishop of Canterbury, with other prominent notables of the kingdom were among the fifty present.

NO GREAT TWINE SHORTAGE

So Say International Harvester and Saskatchewan Co-operative Elevator Heads

Regina, July 25.—W. P. Wells, head of the International Harvester Company here, is of the opinion that there will be no great shortage in binder twine. He says what shortage there is will be due to departmental stores who sell twine at low rates as an advertisement. Farmers do not put in orders with companies handling binder twine, and consequently they do not stock up.

CEMENT PLANT FOR HAT

City Gives Partial Tax Exemption to Get It; Also Free Gas Well

Medicine Hat, July 25.—The Canadian Cement Company's million dollar plant will locate here. Options have been secured on the Bennett property by Frank Jones, and he has wider for drills to be sent on at once so that the clay may be sampled. The agreement with the city is practically completed. The city gives the company a gas well. They purchase their own property, and their assessment for the first ten years is fifty thousand.

Splendid Ranch Lease In Southern Alberta For Sale!

Over a township of land with a 17-year lease yet to run. Stocked with 500 head of yearling and 2-year-old Clydes and Shires. Ranch property all fenced and equipped with good set of buildings. For further particulars apply to F. C. Lowes & Co. Exclusive Agents, Real Estate and Financial Brokers.

Buy Your FARM LANDS Direct From The OWNERS

Every day it becomes more and more evident that the safest investments in the world are in well selected farm lands, especially when those lands are within a reasonable distance of a large city and well served with railroads. The following are some of our best offerings:

Calgary Colonization Co. Ltd. Alberta Block, Calgary.

EASY MONEY SCHEME WAS NIPPED IN BUD

Sharper Advertised for Companion for Daughter; Made Applicants Pay Deposit

When Police Got Onto Game Through a Victim, Found He Had No Daughter

Niagara Falls, Ont., July 25.—A clever scheme to collect from \$5 to \$10 from each of a hundred women of this city and Niagara Falls, N.Y., was today nipped by Provincial Police Chief Mains. The scheme was exposed by a Buffalo woman whose name is for the present withheld. Several days ago a man registered at the hotel Clinton here as Harold Boyd. He advertised for a travelling companion for a daughter in the local and United States papers, and received some replies. Yesterday the Buffalo woman appeared and talked with Postmaster Phemister, who summoned Chief Mains. The latter stationed a man at the post office, and Boyd was taken into custody when he called for his mail. Some 100 letters were retained by the police. Boyd admitted that he had no daughter. His game was to obtain money from applicants as a deposit of good faith, and then skip out.

BANK PRESIDENT PLEASSED WITH WETASKIWIN

Sir Montague Says It Is a Most Ideal District For Agriculture

Gratified With the Crop Outlook; In West on Tour of Inspection

Wetaskiwin, July 24.—Sir Montague Allan, president of the Merchants Bank of Canada, has been visiting here all day inspecting the local branch. Speaking of conditions here he expressed himself as highly satisfied with conditions in this part of the country. The outlook for a good crop was especially gratifying to him, and he expects that this year there will be a bumper crop in this part of the country. As regards the Wetaskiwin district, Sir Montague is enthusiastic and thinks this is an ideal farming district.

CLOUDBURST INUNDATES A PENNSYLVANIA TOWN

Hundreds of Residents of Jeanette, Pa., Forced to Flee When Heavens Open

Jeanette, Pa., July 25.—A cloudburst flooded miles of territory between here and Gettysburg today. The townlands were quickly inundated and hundreds of persons were compelled to flee for their lives. Residences and business places were almost completely submerged in some districts, while the Manor Valley and the Turtle Creek railroads together with trolley service, were put out of commission. Over 2,000 persons, including many women and children, are marooned in Hills of Oxford park, where the annual outing of the employees of the Union Supply company from Westmoreland and Fayette counties was held. Two creeks in the vicinity of the park overflowed their banks, and before the pleasure seekers in the park could help themselves, had surrounded the hills. The water continued to come up to early noon and hundreds of people were rescued from the park had been found. Several families are homeless in Jeanette. The monetary loss will be heavy.

HISTORIC RELICS PLACED IN CANADIAN ARCHIVES

Ottawa, July 25.—The two historic stones commemorating the building of the Dufferin and Sappers bridges, which for three-quarters of a century have spanned the Rideau canal in the centre of Ottawa, were removed today to the archives under the supervision of David Ewart, dominion architect. The bridges which were built by British engineers under the supervision of Col. Bye, are being retained in connection with the construction of a public plaza facing the Chateau Laurier. The memorial will remain in the care of Dr. Doughty until the proposed statue to Col. Bye shall be erected. They will then be placed in the case of the memorial. The inscriptions on these stones are still quite visible, one stone bearing the coat of arms of the British Royal Engineers, and the other the words: "Colonel John Bye, commanding the engineers."

GAS EXPLOSION KILLS AND INJURES MINES

Wilkesbarre, July 25.—Two miners were killed and others injured, one fatally, by an explosion of gas today at the Hillman Slope of No. 1 colliery, operated by the Delaware & Hudson railway, at Plymouth. The dead are: John McGuire, Michael Morissey.

"The Beauty of a Beautiful City" "UPLANDS"

An Unusual Opportunity to Own a Homesite in the most Attractive Part of Victoria, B. C., Commanding Magnificent Views and Enjoying a Climate More Nearly Perfect from year's end to year's end, than any other Climate in North America.

It is generally admitted to be true that the climate peculiar to the Capital City of Victoria, British Columbia, and the portion of Southern Vancouver Island surrounding it for a radius of about 20 miles, is the most delightful, and most equable on the North American continent. In summer it is very rarely that the thermometer registers higher than 80 degrees and no matter how warm the day may be the night will always be refreshingly cool. In winter the average temperature is about 38 degrees above zero. Victoria experiences a very mild rainfall, about half what the mainland cities experience, averaging 26 to 28 inches annually and the total of bright sunshine runs as high as 2,000 hours to the year.

"Looking Out on Cadboro Bay from 'Uplands'"

"UPLANDS" CLIMATE IS THE MOST FAVORED OF ALL

"UPLANDS," because of its situation, is beautifully sheltered from the prevailing winds, making the climate there more temperate than that of Victoria and it is a fact well established that the rainfall at "Uplands" is even less than that of the city itself.

"UPLANDS" is a subdivision for residential purposes of the most beautiful district—comprising 465 acres—adjacent to Victoria. It lies between Oak Bay and Cadboro Bay and consists of natural park land in a succession of "benches" or gentle slopes, facing the waters of the Gulf of Georgia, overlooking Cadboro Bay to the north and Oak Bay to the south. It possesses more than three miles of splendid water front.

YOU WHO WANT A HOME THAT IS A HOME

Cannot find the equal of "Uplands" in Canada. Almost every lot commands a remarkable view of the sea, islands and mountains. Mt. Baker, with its eternal snows, shows an ever-changing and majestic cone, to the northeast; southward the long, uneven range of the great Olympics stretches. The slopes of "Uplands" form a succession of glades of magnificent oak and maple trees. Work on the municipal improvements in "Uplands" has been in progress for several months and much of it is complete. Beautiful homes are already in course of erection and the Royal Victoria Yacht Club, which will be located on "Uplands" property is now preparing a palatial and modern home and anchorage.

Mr. E. M. Tracksell, representing "Uplands, Ltd.," the company owning this residential subdivision is now in Calgary for a few days to meet those likely to be interested. Mr. Tracksell has come direct from "Uplands" itself and knows every foot of it. He has with him some really unusual illustrations of the beautiful home spot and he can also give some interesting information regarding the big project.

Call on Mr. Tracksell, July 27, 29, 30. You will find him at the office of:

MOXAM REALTY & CONSTRUCTION CO. LIMITED

SENATE LEADERS LINING UP ON WOOL TARIFF

Legislation Badly Mixed and the Introduction of Third Bill is Talked Of...
Washington, July 25.—Senate leaders today began lining up for the three day tariff fight which was expected to begin with the consideration of the wool bill. With both Republican and Democratic forces undecided on a plan, the situation appears unusually complicated.
The Democratic wool bill was to be taken up for amendment when the senate met. The introduction of the Cummins substitute yesterday has so mixed plans of the leaders that the introduction of the third bill was being talked of.

THE RHODES MEMORIAL

Unveiled by Earl Grey.
The great Rhodes Memorial, erected on Table Mountain, was unveiled last Friday in presence of a large gathering.
The Rhodes Memorial consists of a temple of grey granite with massive columns situated in the slopes of Table Mountain. The temple is approached by a series of terraces flanked by great sculptured lions, and in the foreground is a statue of "Physical Energy".

WILSON'S FLY PADS

TORONTO BONDS ARE DREG ON MONEY MARKET
London July 25.—Mayor Geary and the city treasurer of Toronto have been unable to dispose of the city's four percent bonds. It is understood that a certain London bank suggested about \$1 subject to market approval. The market however, refused positively to take a long dated loan at any price with the summer vacation close at hand.
The city has absorbed with difficulty 1,200,000 pounds sterling treasury bills at 4 1/2. Led by Consols, the general investment market is going from bad to worse and the state of congestion is without parallel in the financial history of London.

HORSEMEN RIDE AHEAD OF FLOOD; SAVE THOUSANDS BY THEIR WARNINGS

Brownsville, Pa., July 25.—Horsemen dashing frantically down the Red Stone valley today, often with water up to the saddle flaps, rode nine miles in time to save the lives of hundreds of persons at Smock, a mining village. Aside from the great quantity of water, due to the clogging, it was feared a huge reservoir was about to let go.
"To the hills, to the hills, the reservoir is breaking!"
The cry caused terror among the miners and within a few minutes ten thousand people were rushing through the muddy water to the hills. Soon the water rushed into the adjoining village, causing heavy damage. Tonight the miners and their families are jammed in a pouring rain on the hillsides, with no shelter except blankets and quilts. An unconfined rumour is to the effect that from six to ten miners were drowned before they could reach safety. When the alarm was spread, over 300 men were at work in the mine. According to the mine officials all were saved.
Although the reservoir held, the miners have refused to leave the hillsides. Communications throughout the Red Stone Valley is interrupted seriously, and few details of the devastation and reported loss of life can be secured.

JAPANESE EMPEROR'S CONDITION IMPROVED

Tokio, July 25.—The official bulletin issued at 8 a.m. on the condition of the emperor was more reassuring than that issued at eleven o'clock the previous evening. This morning's bulletin gave the temperature of the emperor as 98.7, pulse 104, respiration 32. Last night's bulletin read: Temperature 100.4, pulse over 100, irregular. Patient increasingly fatigued.
The physicians remained at the bedside throughout the night, as conditions were considered unfavorable. A minister of the household said today, however, that the emperor had slept fairly well. The acceleration of the pulse is regarded as serious, but not critical.

CARSTAIRS ACHIEVEMENTS IN MIXED FARMING

One Concern Will Market 400 Head of Hogs Before End of Season
Success in Breeding Pure Herefords; Interest in the New Municipalities Act
Carstairs, Alta., July 25.—Any person who is an exponent of mixed farming would be deeply gratified at visiting the farm of Simon Downie and sons, east of Carstairs. On this tract of land of a thousand acres in extent, there are four hundred hogs, big and little, and one hundred head of pure bred and grade Herefords, all in fine shape and doing remarkably well. To raise sufficient feed for this number, which represents the average quantity on hand the year round, some seven hundred acres has been broken out and is cropped to wheat, oats, barley and timothy. All grains are ground before being fed and in some cases are mixed with chopped green feed. The annual grain crop is something around twenty thousand bushels and practically all of it is fed on the place and at the present prices of live stock, good profits result. To facilitate the easy handling of these immense quantities of grain, a milling plant has been installed in one corner of the house which measures forty by one hundred feet, operated from an eight horse-power gasoline engine. A cutting box for green feed has also been installed; it is found that cattle do much better when the green feed is cut up into small lengths.

Hogs are Money Producers.
Hogs have been found great money producers and are kept in sufficient numbers to absorb what grain is raised. The very best of results are obtained from feeding ground oats and barley and cut six to eight weeks of heavy feeding are required to fit Mr. Parker for the market. No special breed appears to be favored over another, although the black ones predominate, but there are large numbers of white and red ones. All the feed goes into self feeders dry, and the pigs get what they want at all times. Water is piped from the tank to troughs to all parts of the lot, and the easy accessibility of feed and water helps them to maturity in double quick time.
The main feature of the farm, however, are the pure bred Herefords from Kansas, where they were prize winners. The present head of the herd is Drumsticks, 13152, a two year old bull purchased at the last Spring show in Calgary. He comes from the herd of Mr. J. H. Farsons of Chicago, who has had many years' experience with Herefords. This animal has been exhibited twice at Calgary and has captured prizes both times. The cows in this herd are as good as can be had, and with this foundation the producer must be all right and are expected to average heavy weights of good prices, one animal going to a British Columbia breeder. The present head of the herd is in excellent condition of the herd and is taken in consideration that they have had no stable whatever, running out all the time and having access only to some straw stacks. The Herefords are justly famous as rustlers and these go to prove it.

Mr. H. Farsons of Chicago, was in Carstairs last Thursday in the interests of the American Bond & Realty Journal, of which he is the manager. After driving out and looking over this district, he expressed himself as greatly impressed with the most favorable prospects for a good crop year. He said that such great progress been made in such a short time, and that in a few more years this would be one of the richest districts in Alberta. Conditions here are ideal for the mixed farmer as there is always an abundance of high class feed, and the weather is always favorable to the easy handling of live stock with all kinds.

Mr. Redmond, who recently took over the James barber shop and pool room, is having an addition built on his present quarters and will install another table.
New Municipalities Bill.
Considerable interest is being displayed in regard to the workings of the new municipalities bill, which was passed at the last meeting of the provincial legislature, and the question will probably come up for a vote in this district before the voters at a meeting will be held next Monday in the town hall, and some of the official speakers will be here for the occasion. Some seem to favor the adoption of this plan for local government as it will tend to concentrate the work of collecting taxes and their expenditure, although each district will have the same boundaries as heretofore.

ITALIAN WOMEN MAY JOIN THE MASONIC ORDER
Milan, July 27.—The recent admission of women to the Masonic Order of Italy has caused considerable discussion as to the relation of this step to the Italian women's movement. Signora Troise, the well-known author of Milan and a leading suffragist, declares that the matter is of very serious note, if for nothing else than that it "removes the eternal slander on woman that she is unable to keep a secret."

Twelve Thousand Miles of Steel Will Pour Passengers and Freight Into COQUITLAM

The Pacific Coast Operating Terminus of the Canadian Pacific Railway, and coming Industrial Centre of British Columbia, the Largest and Richest Province of Canada
Coquitlam is a Deep Water Port
And the Panama Canal is only a year or two away

Coquitlam is a Sub-City of Vancouver--the fastest growing large city in America.
Work has already begun on a hundred thousand dollar roundhouse in Coquitlam. This is the beginning of the most gigantic railway and industrial development that Canada ever saw.
Winnipeg, Regina, Moose Jaw, Saskatoon, Calgary, Edmonton--these and many others are children of the Iron Horse. During the past few years you have seen these grow from villages or small towns to great cities. The rich country surrounding them had lain dormant for centuries, but not until the toot of the locomotive was heard did they grow and prosper. Those who bought lots in any of these or dozens of other railway cities, when they were but struggling hamlets, are rich men today in every single case.

Besides being the Pacific operating terminus of the greatest railway in the world, Coquitlam is a deep, fresh water port on the highway of traffic between Western Canada and Europe via the Panama Canal. It is now conceded that most of the grain from the prairie provinces will go through Pacific Coast Ports. Do you realize what this means?--thousands of tons of freight both going in and out.
All the cities mentioned above, and every other city in western Canada, every town, every village and every farming community will pay tribute to Coquitlam. The Canadian Pacific's long arms will reach every place and pour its loads into this new Pacific coast port. If Winnipeg, Regina or Calgary grow and develop, it means that Coquitlam will grow and develop. Every increase in the population, every new town and city born on the prairies of British Columbia means but more freight, more industry, more population for Coquitlam. All these things will increase lot values, and the man or boy who makes an investment, however small, in Coquitlam while property is within his reach, will be on the road to freedom. In a few years he will be independent for life. We are the sole owners of the recognized townsite of Coquitlam--the place for the man with a small amount for investment, the man working for wages or salary, and who cannot afford to wait years for results, but wants QUICK profits.

Coquitlam is advancing with relentless momentum. The forces which are behind it cannot, will not--be stopped by government or man. Coquitlam will pull you if you hitch yourself up to it. A small investment will harness you up with Coquitlam. Then you will have the cheapest and best pull in the land--one that does not depend on somebody else's whims.
