SMART styles in suits for young men.—SWIFT'S

THERE was rain on St. Swithin's day. How about that forty day stunt. Will it hold good in war times or will the duration of the period be increased like the price of some things "on account of the war."

In renewing his subscription to the Guide-Advocate, C. P. Vanauken, of Hackensack, N. J., says—"I would indeed feel a loss if my Guide did not arrive every Monday morning."

FOR Notices in the "Local Happenings" of meetings where money is collected or an admission fee charged the advertising rate is ten cents per line. Other meetings 5 cents per line with a minimum of 25c.

No one is worrying much now about the price of potatoes. Nearly every householder has a little patch of his own about ready for use. With favorable weather the crop will be a large one in this district.

MR. JAMES STYLES an old and respected resident of Brooke and Watford died at his home on Warwick street on Thursday morning, in his 83rd year. The funeral will be held on Saturday at 3.30 to Mt. Carmel cemetery.

SPORT shirts, bathing suits, motor caps.—SWIFT'S July Bargains.

THE entire Watford staff of rural route couriers have been re-engaged for another term of office which speaks well for the efficient and faithful service rendered by each of the couriers. Their many friends congratulate them.

In spite of the fact that laborers are attracted to the city from the country, the former is not entirely a paradise. Toronto has nearly 50 charitable institutions to look after those who cannot look after themselves. There is small, if any, need for this in the country.

LAMBTON'S 149 I.O.D.E., assisted by the Q. P. Club, made a tag collection on Saturday last, "French flag day." Some of the young ladies were out very early in the morning, despite the inclement weather. Their endeavors were well rewarded, \$117.50 being the result of the count when night came. This amount, less expenses, was forwarded to headquarters early in the week.

LOOK at the price tags.—SWIFT'S July Bargains.

FARMERS in the district seem satisfied with the crop prospects. The backward crops have grown with leaps and bounds lately. The hay crop is large and only requires some dry, warm weather to cure and save it. Potatoes and other root crops were never so promising. Nearly all grain fields are in fine shape, and with warm weather from now on, with an occasional shower, a bounteous yield will be certain.

THE results of the Entrance examinations will be found in another column. The showing this year is very good, 72 per cent. of those who tried being successful. In Watford 36 out of the 41 who wrote passed, 12 taking honors. Miss Blanche Stapleford came head in the East Lambton Inspectorate, making 563 marks or 87 per cent. Mr. Shirapnell, principal of the Watford school, sent up 12 candidates, all of whom passed, eleven of them taking honors. This is an exceedingly satisfactory showing and a credit to the principal and their school.

COUNTY CROWN ATTORNEY F. W. Wilson has recently prepared and issued a pamphlet for the use of County Constables. It contains many useful suggestions for the guidance of the county constabulary and will undoubtedly be of great benefit to them in the discharge of their duty. Some points are made clear that were heretofore somewhat hazy, especially to men new to the work of preserving the peace and detecting violations of law and order. The pamphlet also contains a list of fees to which constables are entitled and the names of the constables of the county.

THE regular meeting of the Women's Institute was held at the home of Mrs. Jos. Fulcher on Wednesday evening, July 11th, President presiding, 13 members present. Meeting opened by singing the Maple Leaf. The Institute decided to send a donation in aid of the French Red Cross. Miss Kathleen Connors recited a patriotic piece very nicely. A nice piano duet was played by Misses Margaret Cameron and Ila Cook. Mrs. (Rev.) Connors gave a reading on work, taking as her subject a Scripture verse, St. John 3:4 which was very much appreciated by all. A vote of thanks was given to all those who took part in the program. Meeting closed by singing the National Anthem.

**Dodds-Sullivan**  
The marriage was solemnized at the Church of Our Lady of Mercy, Sarnia, on Monday morning, July 16th, of Mr. Leo Dodds, son of Mr. George Dodds, Watford, to Miss Veronica Sullivan, a well-known Sarnia young lady. The happy young couple left on the Detroit boat for Detroit and other points. The groom, who has resided in Sarnia for some years, is well known there, having been a member of the Sarnia hockey team for years as a defence player and attained considerable prominence in sporting circles, having also played baseball in the Sarnia City League. Mr. and Mrs. Dodds will reside in Sarnia, the groom being a clerk in the Peter Clark grocery store.

## WARWICK.

Mr. and Mrs. Morrison, of Mooretown, spent the week end with Mr. and Mrs. Russell Rivers.

Miss Alice McGregor, Main Road, has returned from a visit in London, at the home of Miss Hart.

Divine service will be held in St. Paul's Church, Wisterych, next Sunday, July 22nd, at 7.30 p. m.

There is great growth in the grain fields this year. Last week Orville Jones, lot 10, 4th line S.E.R., pulled some barley that measured five feet two inches.

All notices of meetings or other coming events published among the township items are charged for at the rate of 5c. per line, minimum 25c. Send money with the order.

Mr. C. R. Williams, accompanied by his granddaughter, Miss Evelyn Smith, returned to his home on the Main Road on Thursday. Mr. Williams had been in London for a week's treatment from a specialist concerning his eyesight.

Dr. and Mrs. W. McLean Thomas, and little son, Billie, of Medicine Hat, called on several Warwick relatives over Sunday. Having just completed a trip through the western States, they are now on their way back to Alberta.

The Woman's Patriotic League held their usual meeting at the home of Mrs. Fergusson, Egmont Road. The meeting was very well attended and quite a lot of work was done. It was decided to hold a garden party in the near future, of which due notice will be given. The donation amounted to \$18.00.

The regular meeting of the 4th line East Wiling Workers was held Thursday afternoon, July 13th, at the home of Mrs. Henry Williamson with an attendance of thirty-two. Two bales were packed ready for shipment, one to Hyman Hall, London, containing a parcel of old linen, and 31 pyjamas, \$54.25, and one to Mrs. McPhedran, Toronto, containing 29 pairs socks, \$29.00 making a total of \$83.25. The next meeting will be held at Mrs. George Williamson on July 26th.

The passenger traffic between Sarnia and Pt. Huron has fallen off over 40 per cent, since the new immigration law went into effect.

## ENTRANCE EXAMINATION RESULTS

East Lambton Inspectorate

227 candidates wrote and of these 165 were successful. The examination papers were very reasonable and the majority of candidates seemed to be better prepared than usual, hence 72 per cent were successful, which is the best record in many years. The majority of those who were unsuccessful, failed to get the total of 390 marks required. Those who obtained a total of seventy-five per cent or over have passed with honors. The names are given in order of merit at each examination centre. Blanche Stapleford of Watford Public School is highest in East Lambton Inspectorate with a total of 563 or 87 per cent.

Certificates will be sent to the successful candidates, and a statement of marks obtained, to those who failed.

In addition to those whose names appear below some twenty-five pupils, who passed an Easter Test Examination, will be granted entrance certificates by the Education Department when they present proper documents showing that they have worked three months at farm labour.

## Lower School Exams

### FIRST FORM

Successful candidates of the First Form of the Lower School in the late June examinations in order of merit. Required standing for "pass" is 40 per cent. in each subject, 60 per cent. of aggregate, and 75 per cent. of aggregate for "honors." "Conditioned" students are not successful but will be allowed to enter the Second Form and take supplemental examinations in October. The aggregate is 1200.

Honors—(Mamie Moir, Orville Fuller) 984, Helen Hamilton 915.

Pass—Elen Baron, Marguerite Annett, Norman Tremouth, Alice Miller, Agnes McDougall, Eva Richardson, Grant James, Ellen Lucas, Mary Gault.

Conditioned students in subjects indicated—Gladys McDougall, Arithmetic and Latin; Pearl McGregor, Arithmetic and Latin; Gordon Miller, Latin; Leo McManus, Writing; Harold Roche, Art and Latin; Alvin Styles, Art and Literature.

### SECOND FORM

Successful candidates in the late June examinations of the Ontario Department of Education, 100 per cent. on the "recommended" list and 70 per cent. of the total number of candidates were successful. Fifty per cent. of the non-recommended candidates or three out of six were successful. Of twenty candidates fourteen were successful in full and Miss Sadie Howden obtained "honors." The required standing is 40 per cent. on each subject and 60 per cent. of the aggregate for "pass" and 75 per cent. of aggregate for "honors."

Pass—John C. Bruce, Florence Cooke, Sadie McEachern, Margaret Cameron, Bessie Forster, Jean McManus, George Chambers, Sadie Howden, Ada Minelli, Ila Cook, Theresa Logan, Marjorie Ramsey, Mabel J. Logan, Marjorie Swift.

It is worthy of note that nearly twice as many passed the Departmental Examinations in June as passed the Easter Examinations of the staff for "farm labor" candidates. Also seven of these students spent but one year in the Second Form.

### THE Methodist Garden Party

The weather man did not hand out very favorable conditions for the Methodist garden party and on account of wet weather it was postponed from Tuesday to Friday evening. Supper was served on the lawn of Wm. Doan from six o'clock until as late as anyone wished to eat. Strawberries and cream, cake, etc., were served in abundance and enjoyed by all present, the refreshments provided being choice and appetizing.

The new pastor, Rev. A. C. Tiffin, presided, and introduced a program of music and addresses that was attentively listened to and much enjoyed.

Addresses were given by Revs. Sawers, Forster, Connors and Fortner. Vocal music was supplied by Mrs. P. McGregor and Miss Clark, of Brooke, and Miss S. Clark, of Watford; recitations by Mrs. Letherland; a violin and piano duet by Misses Kinnell and Moir, and a piano duet by Misses Bambridge and McKecker.

Proceeds, including booth sales, \$90, which is deemed satisfactory considering the unsettled state of the weather.

## BROOKE

Miss Verna Bambridge, Watford, has been engaged as teacher for S. S. No. 5. A social afternoon in connection with the annual meeting of the Tipperary Red Cross will be held at Mrs. J. Steadman's on July 24th. A silver collection will be taken up. Everybody welcome.

## PERSONAL

## WOMAN HAD NERVOUS TROUBLE

Lydia E. Pinkham's Vegetable Compound Helped Her.

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I have also had my oldest girl take it and it did her lots of good. I keep it in the house all the time and recommend it."—Mrs. DEWITT SINCEBAUGH, West Danby, N. Y.

Sleeplessness, nervousness, irritability, headache, dizziness, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound. This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

#### NOTE AND COMMENT

Toronto Star:—The passengers on the Lusitania were not granted time to decide by means of a referendum whether they would take part in the war or not.

The counting of the gold in the United States assay offices' New York city, was completed last week. The total was \$765,000,000. This is believed to be the largest accumulation of gold ever stored in one place in the history of the world. Prior to the war the greatest total at any time in the assay office in New York was \$80,000,000.

Rev. W. E. Millson, pastor of Grace Methodist church, St. Thomas, in order to become better acquainted with the railway men and to get a better understanding of the conditions under which the men have to work, has made one round trip over the Wabash Railway in the capacity of fireman, and may decide to continue the trips during his holidays.

Springfield Republican:—The Canadian French have remained strangely indifferent to the possible fate of France, perhaps the most reasonable explanation being that the French-speaking Canadians had come to regard modern France as forsaken by God because of its treatment of the church. But other considerations, probably, have an effect such as the Canadian French political aspiration to control the Dominion and the rival nationalistic hopes of domination through race, language and religion. The Canadian French seem rather parochial in their conception of world affairs, for the effect on Canada of the downfall of Britain and France would be far-reaching, whether English or French control were established in the Dominion.

#### Lambton Farms Wanted

The eighth list of farms for sale in Lambton County will be published by the Lambton County Publicity Association on the 4th of August, 1917. Farms that appeared in the last list will reappear in the forthcoming list if request be sent to the Secretary before above date and present price of farm stated. These lists will have wide circulation at the Canadian National Exposition, Toronto, and other places of concourse.

Those who have farms for sale will please send a full description, the price, and post office address of owner, to the undersigned, in order that the parties enquiring may be brought into personal touch with those who have land to sell.

There will be no charge or commission of any kind, and the parties furnishing descriptions are not bound in any way. Give details as to situation, lot numbers and concession, acreage, roads, improvements, soil, distance from churches and schools, towns, railways, telephone service, etc., etc., that would be of interest to prospective purchasers at a distance.

When sale of farm takes place please notify the Secretary so that it may be struck off the list. Parties offering large farms, suitable for fruit growing, would do well to offer them in lots of 15 to 50 acres. The Publicity Association exists for the purpose of advertising Lambton County and for no other purpose. It consists largely of the members of the County Council and the expense of the advertising is paid by the County.

The information is wanted for the purpose of placing a list of farms in the hands of those who wish to buy, and who have written to the Secretary in answer to general advertisements and descriptions of Lambton which have been published in various newspapers in Canada, the United States and Britain.

The description may be sent by mail to R. STIRRETT, Petrolia, Secretary of the Publicity Association, not later than Saturday, August 4th, 1917.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly talking to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. #### Military Orders For Conservation of Food Supplies

In order to reduce the amount of waste foodstuffs by the military commands special orders were issued Thursday which lay down rules for economy in the issue of rations and the conservation of food.

The attention of all concerned is directed to the necessity for the elimination of the waste and the following instructions are ordered to be rigidly enforced:

Potatoes, meat, bread, bones, grease and all unprepared food of any kind must not be put in the swill cans or incinerators.

Before any refuse from the messes, cookhouses or other buildings is allowed to go into the swill cans it must pass through the cookhouse and be inspected by the quartermaster or the quartermaster-sergeant.

Fat must be reduced twice weekly. All plates, mess tins, cutlery and cooking utensils are to be washed in specified places.

#### TO SAVE BREAD.

Bread must be cut up by the authorized bread-cutting machine and issued to the men in half slices.

Stock pots must be kept going continuously, so that soup can be issued to the units every other day.

Cooks must not accumulate in the cookhouse any commodities surplus to the days requirements.

No stock of any food commodities in excess of the following day's requirements (except in the case of double issue) to be carried by quartermaster. Any surplus now accumulated must be returned at once to the supply depot of the A. S. C.

Seaweeds obtain their nourishment from the water in which they grow, not from the ground in which they are rooted.

Then He Woke Up.  
"That man Howler has a prodigious imagination."  
"Not little Howler."  
"Yep. He told me he ate a cheese sandwich the other night and then dreamed that Saturn and Jupiter offered him either Mars or Venus."  
"Which did he choose?"  
"He says he tossed up the comet for the choice—head or tail."—Cleveland Plain Dealer.

#### Before Her Makeup.

Papa—That young man of yours comes very frequently.  
Daughter—He never comes in the morning.  
Papa (getting his innings)—I wish he would. If he could see you at that time he would never come again.

#### Kitchen Matches Safe.

Insurance Agent (at home)—Wife, you must make daughter receive her young man in the kitchen after this.  
"Why, the ideal! He's about to propose to her."  
"I know it, and parlor matches are dangerous, you know."

#### Explaining His Nerve.

"No, I have never experienced that feeling of dread which attacks a man when on his way to visit the dentist's."

"How do you avoid it?"  
"I have the dentist visit me."—Cleveland Plain Dealer.

#### Desirable.

"Would you advise me to study French before going to Paris?"  
"Yes," replied Miss Cayenne. "It may not help you to be understood, but it makes an impression on Americans who may be listening."—Washington Star.

#### Undying.

She—You say you love with all your heart.  
He—With all my heart!  
She—And you would die for me?  
He—Hardly. You see, mine is a sort of undying love!—Young's Magazine.

#### Illumination.

Mrs. Topfloor—Our grocer gave twelve eggs for a quarter yesterday, all candied.

Mrs. Nextdoor—Indeed! We get fourteen at the market, all electric lighted.—New York Sun.

#### Modest.

"They say there is a fool in every family. Do you think so?"  
"Well, I hardly like to say. You see, I'm the only member of the family."—Lippincott's.

#### A Nod in Passing.

Murrayhill—They say fortune raps on every man's door at some time.

Broadway—Well, she hasn't so much as called me up on the telephone!—Smart Set.

#### Our Eyeglasses.

The suggestion for the use of lenses for the cure of eye defects was made by Roger Bacon, the great scientist of the thirteenth century. Doctor Langdon Down, speaking at a meeting of the Psychological Society recently, made this interesting statement, but added that the making of the spectacles was carried out by certain Italians. The scientific physicians of those days however advised their patients not to have them because they did not know the true theory upon which they were based.

#### The Cedars of Lebanon.

It is believed that only about four hundred of the famous cedars of Lebanon remain, and they have been enclosed by a stone wall, necessary to protect the smaller trees from the ever-hungry mountain goat. The cedars stand on a small plateau at an elevation of slightly over six thousand feet. A winding road from Bshreh leads up the slope to the ancient trees.

## THE BOXER INDEMNITY

### SHADOW OF DEBT HANGS OVER CHINESE REPUBLIC.

Conditions in the Far East Have  
Changed Greatly Since League  
Was Formed for the Purpose of  
Extirminating the Foreigners—  
Nations May Decide to Remit  
Part of Enormous Fine.

THE Boxer indemnity is one  
of those things which the  
newspaper reader all over  
the world takes very much  
for granted. He has been accus-  
tomed to see articles, news items,  
and editorial comment upon it in his  
daily paper for fifteen years and  
more. He may not have made any  
study of it, or any inquiry as to how  
it came about; but from what he  
reads about it, plunging, every now  
and again, into the midst of things,  
he notes, with feelings of satisfac-  
tion or regret, or even of complete  
indifference, certain facts regarding  
its estate. He learns that the pay-  
ments due to this country or that  
country are in arrears; that this  
country or that country is seriously  
contemplating the possibility of re-  
mitting a part or the whole of its  
share; that some part of it has been  
remitted; that the whole thing is fast  
coming to be regarded, in certain  
responsible quarters, as an anomaly,  
considering the changes that have, in  
recent times, taken place in China;  
and that the China on which this in-  
demnity was imposed, as the due re-  
ward for the outrages of the Boxer  
rising of 1900, bears no resemblance,  
in status or intent, to the China of  
1917, doing its best to put its own  
house in order, and succeeding quite  
creditably in achieving its purpose.

During the last few weeks the  
Boxer indemnity has, once again,  
found a place in the political sun. It  
was stated as being one of the in-  
ducements put forward to China by  
the Allies to break with Germany,  
that, if China would take such a  
course, the Allies' share of the Boxer  
indemnity would be remitted to her;  
whilst China's willingness to break  
with Germany was said to be consid-  
erably augmented by the fact that  
such a course would necessarily lead  
to her repudiation of her debt to  
Germany in this connection. After  
all, it is not difficult to understand  
that China would be glad to be well  
rid of the whole sorry business, for  
many other reasons besides the relief  
which it would afford her financially.

The existence of the obligation,  
stretching on as it does to the year  
1941, is a constant reminder of a  
condition which all that is best in  
China would be glad to forget, and  
to see the whole country well be-  
yond.

The rise of the Boxer movement,  
now more than twenty years ago,  
had for its object nothing less than  
the extirpation of the foreigner, and  
the rehabilitation of China in all the

dignity and splendor of that ancient  
isolation which she enjoyed before  
the coming of the "barbarian." When  
the prefect of Shantung, how-  
ever, began to gather round him  
that curious crowd, inspired by mo-  
tives, half religious, half political,  
which afterwards developed into a  
great movement, the rising was no  
doubt regarded as no more import-  
ant than the many similar risings  
which had taken place, in different  
parts of China, during many years.  
But the I 'he ch'uan, that is, "the  
righteous league of fists," or the  
Boxers, as the Europeans came to  
call them, had a way of persisting  
and growing worse all the time. The  
small flame of 1896 was fanned by  
many winds. It was a time when the  
foreigner was making himself spec-  
tacularly aggressive in China, demands  
for concessions were becoming in-  
sistent, and a lamentable tendency  
was being displayed amongst the  
Powers to wrangle amongst them-  
selves over Chinese property. The  
righteous league grew and prospered,  
and outrages on the lives and prop-  
erty of westerners became more fre-  
quent, until, at last, in 1900, when  
the country was ravaged by famine  
and the troubles at the Court at  
Peking had reached an acute stage,  
an anti-missionary rising developed  
throughout the country. The Dow-  
ager Empress, who, all along, had  
given the movement her secret sup-  
port, who had, indeed, with consen-  
sate statecraft, transformed what  
promised at one time to be a revolu-  
tionary movement into an anti-for-  
eign movement, openly sided with  
the league. By her famous coup  
d'etat of September 20, 1898, she  
had succeeded in making the young  
Emperor a virtual prisoner, had  
compelled him to restore the regency  
and put an end to the reforms which,  
at that time, were everywhere pend-  
ing. The reactionary tide continued  
to rise steadily throughout the year  
1899, and the murder of a mission-  
ary in Shantung, early in 1900,  
clearly indicated the direction in  
which matters were moving. Four  
months, from January to April, were  
consumed in negotiations, and  
meanwhile the righteous leagues,  
displaying banners with the device,  
"Extirminate the foreigners and  
save the dynasty," set out on a  
grand march through China, pillag-  
ing in all directions, destroying rail-  
ways, and murdering missionaries  
and native Christians. On the 20th  
of June, after many other outrages,  
the foreign legations at Peking were  
invested. The story of the two  
months' siege which they sustained,  
and of the relief which was ulti-  
mately brought by an allied force;  
of the siege of Peking, its capture,  
and the flight of the Court, is well  
known. As the result of the great  
settlement which ultimately follow-  
ed, an indemnity of 450,000,000  
taels was imposed on China, and pay-  
ments were required to be completed  
within fifty years. It is this debt,  
the Boxer indemnity, which China is  
still paying.

Hard and soft corns both yield to  
Holloway's Corn Cure, which is entirely  
safe to use, and certain and satisfactory  
in its action.

## HUNGRY OUTLOOK FOR HUNS.

### Germans Warned to Tighten Their Belts and Starve Gracefully.

A despatch from Geneva, Switzer-  
land, via London, says that the food  
situation in Germany may grow  
worse, but it scarcely can become  
better. This is scarcely the out-  
standing feature of Germany's great  
problem.

The German people as yet are not  
starving, and they have yet provis-  
ions in adequate quantities to sup-  
port life, while in the case of further  
decreases in available supplies there  
is still the institution of compulsory  
"soup kitchens," the most economi-  
cal method of making all foodstuffs  
go as far as possible, to stand be-  
tween Germany and any forced ter-  
mination to the war through an ab-  
solute lack of food.

Life for the civilian population of  
Germany on the present scanty al-  
lowance of food, however, is far  
from pleasant, though the German  
newspapers are fond of referring to  
conditions last winter as exceptional.  
They also say that the short rations  
are due largely, to bad harvests and  
like to intimate that normal crops of  
grain and potatoes in the coming  
summer may end the principal food  
difficulties.

Very little help, Adolph von Ba-  
tcocki, president of the Food Regula-  
tion Board, stated in a recent ad-  
dress, can be expected from outside  
sources in the future. Neighboring  
countries, he said, being under the  
steadily increasing pressure of the  
British sea control, would have little  
or nothing available for export to  
Germany this year, and the Germans  
must pull in their belts a notch  
tighter and reconcile themselves to  
holding out on present allowances.

### Bread From Unground Grain.

One reason advanced for the high  
cost of food abroad is the shortage  
in manual labor due to the war. An  
ingenious method of dispensing with  
a large part of this, hitherto consid-  
ered necessary before the grain in  
the field can appear in the form of  
bread upon the table, has been in-  
vented in Italy.

According to Agricoltura Toscana,  
an excellent bread, not only highly  
nutritious, but delicious in flavor and  
appetizing of taste, is furnished by  
the municipal ovens of Bergame  
from wheat which has never been  
milled.

It is important that the grain  
should be of good quality and free  
from foreign material. It is first  
carefully washed and sifted and then  
placed in tepid water to soak for a  
period of from forty-eight to sixty  
hours, according to the degree of  
hardness. At the end of this time it  
has become "vitalized," i.e., it has  
begun to germinate, and has there-  
fore become quite soft and tender  
and has undergone profound chemi-  
cal modifications.

When the proper degree of vitali-  
zation has been attained the grain is  
fed directly into a kneading machine,  
where it is triturated and kneaded  
till it is ready to be molded into  
loaves. It is then allowed to ferment  
or "rise" for the proper length of  
time, whereupon it is placed in the  
baker's oven.

The bread is gray in color, and  
being made of the whole grain is  
much richer in food value than  
bread from flour, containing a high  
percentage of mineral salts, lecithin  
and vegetable pepsin. There is  
a saving not only in manual labor,  
but in wastage, so that a given  
weight of grain yields a consider-  
able larger number of loaves when  
unground than when converted into  
flour. Another advantage is that  
there is less risk of adulteration than  
when flour is used.

### German Peace Terms.

The New Republic vouches for the  
accuracy of the German peace  
terms as printed in the Journal de  
Geneve as follows: "Evacuation of  
France, except the mining district  
of Briey, in exchange for a channel  
port (Calais or Dunkirk) and an in-  
demnity of 15,000,000 francs; res-  
toration of Belgium except that  
Belgium is not to be allowed to have  
a national army, permanent German  
garrisons in Namur, Liege, and Ant-  
werp, control of Belgian railroads  
and ports, and favorable treatment in  
an economic treaty. We are able to  
say that the source of this informa-  
tion is reliable, and that the Journal  
de Geneve is substantially cor-  
rect in its statements, though they  
are incomplete. The German Gov-  
ernment is not yet prepared to re-  
nounce conquest, and the refusal to  
reveal her terms last January was  
due to knowledge on Germany's part  
that a statement of them would con-  
solidate belligerent and neutral  
opinion against her. Her hope was  
to secure a conference, detach im-  
perial Russia, and then extort these  
conquests from the isolated western  
powers. That is why the conference  
Germany proposed was impossible,  
and why President Wilson's request  
for an announcement of German  
policy was so gruffly rejected."

Internal parasites in the shape of  
worms in the stomach and bowels of  
children sap their vitality and retard  
physical development. They keep the  
child in a constant state of unrest and,  
if not attended to, endanger life. The  
child can be spared much suffering and  
the mother much anxiety by the best  
worm remedy that can be got, Miller's  
Worm Powders, which are sure death to  
worms in any shape.

## A PROMINENT NURSE SPEAKS.

### Many Nurses in Canada and Else- where Say the Same.

Chatham, Ont.—"Being a nurse I  
have had occasion to use Dr. Pierce's  
Favorite Prescription quite a lot. I  
always recommend it to my patients  
and it has been a wonderful help to  
many of them. I never knew of a  
case where it failed. I have a patient  
who is using it now and she is doing  
fine since taking it. I have taken it  
myself and got the very best re-  
sults. I consider it the best medicine  
there is to-day for women who are ailing."  
—Mrs. EDITH MOORE, 30 Dege St.,  
Chatham, Ont.

### THAT WEAK BACK

Accompanied by pain here and there—  
extreme nervousness—drowsiness—may  
be faint spells, chills or spasms—all are  
signals of distress for a woman. She may  
be growing from girlhood into womanhood  
—passing from womanhood to mother-  
hood—or later suffering during middle  
life, which leaves so many wrecks of  
women. At any or all of these periods  
of a woman's life she should take a tonic  
and nerve prescribed for just such cases  
by a physician of vast experience in the  
diseases from which women suffer.

Dr. Pierce's Favorite Prescription has  
successfully treated more cases in the past  
50 years than any other known remedy.  
It can now be had in sugar-coated tablet  
form as well as in the liquid. Sold by  
medicine dealers or trial box by mail on  
receipt of 50 cents in stamps. Dr.  
Pierce, Invalids' Hotel, Buffalo, N. Y.

**There is an Enormous Waste of Food in Canada**

Hitherto our chief food problem has been, not how to get enough to eat, but how to increase the surplus we have to sell. We never worried as a people over the possibility of going hungry, but we gave considerable thought to the work of satisfying the hunger of others. It was not our stomachs we were thinking about, but our pocketbooks. In no other country on earth was food more abundant in proportion to mouths than in Canada; and it was upon our sales of food that the country depended for its ready money. In normal times before the war the bulk of our exports was the products of the soil. The people on the land were the mainstay of our export trade.

All this abundance of food fostered waste. And with respect to this crime—for it is nothing less—all the people on this continent are about equally guilty. An estimate of the measure of guilt of the people of the United States has been made by Mr. Herbert C. Hoover, Food Director—a new office called into existence by war conditions just as is the office of Food Controller in Canada, to which Hon. W. J. Hanna has been appointed.

According to the estimate made by Mr. Hoover, the people of the United States each year are wasting food to the value of a billion dollars—a tremendous sum which staggers the imagination, but which, if distributed is equal to ten dollars a year for each man woman and child, or a waste of fifty dollars a year for an ordinary family. If waste at like rate is going on here, what is Canada's annual loss? In round numbers the population of the United States is one hundred million; the food waste is one billion dollars; Canada's population is eight millions; and the "rule of three" gives a waste of eighty millions, which is equal to one third of the revenue of the Government of the Dominion. That is a big leak, and if Mr. Hanna can plug it up he will do great service. And if any man in Canada can Mr. Hanna is the man.

**Bacon Broiling on Dock Side**

A great food waste scandal is disclosed by the fact that at Victoria Docks, London, many hundreds of large casks of hams and bacon are broiling on the quay-side in hot June sunshine, instead of being instantly placed in cold storage or put on the market.

A Daily Express representative, who visited the docks on Thursday, was taken by an official to the scene. The official said: "It is a crying shame, the talk of the docks. Sailors ask why they should risk their lives in bringing food from New York if it is to be left lying about the quay. One would imagine that the country had more bacon than it knew what to do with, and yet the high prices are attributed by profiteers to the shortage. I have a shrewd idea which of the great provision firms this bacon is meant for, but I suppose these names must not be mentioned. These cases are worth anything from £20 to £30 each, and, altogether, I should say the cargo may be valued at £10,000 or £15,000 as prices stand at present."

"The bacon is chiefly Armour's mild cured, representing all parts of the pig, and Wright's Crown Brand shoulders. It has lain here for three or four days already, and looks like remaining for an indefinite period. Nobody seems to care what becomes of it. The cold storage is said to be full, and the bacon must wait until room can be found for it. If it remains here it will not help to put prices down. What puzzles and enrages the workmen here is that since there is not enough cold storage accommodation mild cured bacon is left here instead of being put on the market and distributed to consumers."

"Look at it, see how the moisture oozes through the packages and streams about the quay. Here are several cases that have burst, and flies blow freely on the hams. Surely it would be better to let them go at 6d a pound. The rule in the summer weather is to rush bacon at once into cold storage. Room can generally be found for it somewhere, but this cargo might have been consigned to nobody in particular for all the interest anyone takes in it. I don't know what a food scandal is if this is not one."

The dockers disposed of the idea that labour was not available to remove the bacon. Man after man stated that scores seek work in vain at Victoria Docks every morning. "When they tell me there is no work," said one man, "and I pass that bacon on my way out the sight of it makes my mouth water and my blood boil. If it lies there much longer the smell of it may knock me down."

Hard and soft corns both yield to Holloway's Corn Cure, which is entirely safe to use, and certain and satisfactory in its action.

Some Changes in Motor Car Laws

A change has been made in the restriction as to the age of the person who may drive a car. A person under 18 could not drive under the old law. Now a person over 16 and under 18 may drive if licensed after examination as the regular chauffeurs. It was formerly the law that a motorist on approaching a horse or horse driven vehicles, outside cities and towns, must slow down to seven miles an hour. Now a fifteen mile gate is allowed. Horses are not so easily frightened as in the early days of the motor. With regard to funeral processions an important change has been made. Motorists were required under the old law, when meeting or overtaking a funeral procession, outside of cities, to stop or turn into an intersecting highway. Now, the motorist has to stop or turn off only on "meeting" a procession, and not "overtaking" a procession.

There is a change with reference to the lights on motor vehicles. Until the law was altered a motor could carry on its front one lighted lamp at night. Now there must be two lighted lamps on front, and a motorcycle must have one lamp in front and an extra lamp for the side car. The use of searchlights has been prohibited for years. Some cars abandoned these lights and carried revolving lights. These lights have now been ordered out of use.

A great many farmers in South Kent had their beans so badly damaged by the recent rains that they had to be plowed up and replanted. In the fertile bean tracts, in the southern parts of the county, the losses were particularly severe, and one man is known to have lost no less than 75 acres.

Melbourne citizens are agreeable and enterprising. As a result they have conquered the dust nuisance in a very satisfactory and inexpensive manner. Each property owner on the leading street bought enough oil and hired an Indian with a watering can to sprinkle the proportion of street allotted to him in front of his premises, and it only cost from two to three dollars apiece for a thorough good job.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly tending to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials.

Trade was quiet, but with a light run of fresh cattle offering. Following yesterday's heavy run and good buying packers were not too busy on the market today, but with enough activity to hold prices just about steady. Anything extra choice was firm.  
There was a good strong calf market, but lambs were easier and 50c to \$1 lower than last week. Sheep steady.  
There was but a light run of hogs, but packers' quotations were 50c lower.

**To Get Rid of Ants**

Powdered borax scattered where they frequent will, it is said, exterminate both red and black ants, but it must be used persistently. Do not sweep up right after, but let it remain until they disappear, sprinkling anew if necessary. A little powdered sugar mixed with the borax would cause them to eat it more readily. Peru balsam, 1 ounce to a gallon of water, used as a wash, will keep them off furniture. A quick way to exterminate them is to saturate a sponge with sweetened water and place in their haunts. It will soon be covered with ants, when dropping sponge into boiling water will end them. Or grease a plate with lard and set where they can get at it; when covered with them invert over a fire, when lard and ants will disappear.

The death of Mrs. Brown, beloved wife  
 of Dr. J. E. Brown, took place at their  
 residence, 10 Carlton-st., Toronto, on  
 Tuesday, July 10th, after a long and try-  
 ing illness from that dreaded and incur-  
 able disease known as pernicious ana-  
 mia. Mrs. Brown, before her marriage,  
 was Miss Maggie Eason, daughter of the  
 late William and Margaret Eason of  
 Stratford. She was born and educated  
 in that city, taking her second A. certifi-  
 cate from the Collegiate Institute. She  
 attended the Normal School in Toronto  
 and afterwards taught school for three  
 and a half years in Falstaff Ward. She  
 was a young lady full of energy and am-  
 bition and for years was a member of  
 the Knox church and ever ready to help  
 in the work of that church and Sunday  
 school. After her marriage to Dr. Brown  
 they located in Arkona, Ontario, where  
 the doctor practised for years. Later  
 they moved to Toronto where they could  
 educate their son and only child, Dr. W.  
 Eason Brown, who is now an officer in  
 the Canadian Army Medical Corps at the  
 front. Mrs. Brown has many friends in  
 Arkona, who will be sorry to hear of her  
 death and extend their sympathy to the  
 husband and son as well as her imme-  
 diate relatives in this city. Interment  
 was made at Stratford on July 12th.

 slight exertion, or under the least ex-  
 citement, it means that she is suffering  
 from anaemia—thin watery blood. Head-  
 ache and backache frequently accom-  
 pany this condition, and nervousness is  
 often present.

The remedy for this condition is to  
 build up the blood, and for this purpose  
 there is no medicine can equal Dr. Wil-  
 liams' Pink Pills. They build up and  
 renew the blood, bring brightness to the  
 eyes, color to the cheeks, and a general  
 feeling of renewed health and energy.  
 The only other treatment needed is  
 plenty of sunlight, moderate exercise and  
 good, plain food. The girl or woman  
 who gives this treatment a fair trial will  
 soon find herself enjoying perfect health.

You can get Dr. Williams' Pink Pills  
 from any dealer in medicine, or by mail  
 post paid at 50 cents a box or six boxes  
 for \$2.50 from The Dr. Williams' Medi-  
 cine Co., Brockville, Ont.

**Battle of the Boyne Celebration at  
 Forest**

Forest, July 12.—East and West Lamb-  
 ton, backed up by West Middlesex de-  
 legations of the L.O.L., celebrated "The  
 Glorious Twelfth" in Forest today.  
 More than 1,000 Orangemen were in  
 line, and a crowd of more than 4,000  
 people was attracted to town to witness  
 the annual celebration.

Weather conditions were good, con-  
 sidering the past few days. The after-  
 noon was fine, and although the con-  
 dition of the ground interfered with the  
 program of sports which had been  
 arranged, the ball game between Forest  
 and Strathroy was some compensation.  
 It was a fast, clean exhibition, and Forest  
 won out on the big end of a 5 to 4 score.

At 1.30 the parade was marshaled,  
 under the direction of James Gillard,  
 parade marshal, of Forest. Headed by  
 the Forest Band and the file and drum  
 bands of the different lodges, the Orange-  
 men paraded to Exhibition Park, where  
 the speeches were delivered.

James McKeown, county master of  
 East Lambton, was chairman, and an  
 address of welcome was read by Reeve  
 Hector Patterson, of Forest. The speak-  
 ers were Robert Hackett, of Sarnia,  
 county master of West Lambton; W. J.  
 Brock, Strathroy, county master of West  
 Middlesex; Dr. Martin, M.P.P., Alvin-  
 ston; Rev. Dr. Knowles, Petrolia; Rev.  
 William Brooks, Point Edward; Rev.  
 E. C. Harding, Ravenswood; Richard  
 LeSeuer, Sarnia; and R. J. McCormick,  
 ex-M.P.P., Warwick.

During the day the Red Cross conduct-  
 ed a tag day, and more than \$140 was  
 realized in this way by the local women.

The lodges which attended the local  
 celebration were: Strathroy 537, Sar-  
 nia Union 280, Beatty Lodge, Sarnia,  
 514, Sarnia Reserve 571, Bridgen 916,  
 Star of the West 195, Brock 746, Purple  
 Star 536, Jura 819, Watford 505, Johnson  
 (Brooke Township) 831, Arkona 2336,  
 Forest 830, Pioneer (Warwick) 576,  
 Point Edward 1910, Warwick Union 1029,  
 L.O.B.A., Sarnia, 155, Orange Young  
 Britons, Sarnia, Nos. 306 and 347, and  
 Petrolia, 1096.

As an example of the boldness of black-  
 birds, a Sarnia citizen reports that one of  
 them, which had a nest in a tree close  
 by, flew down, and picking the hat from  
 his young son's head, flew up into the  
 tree, where the hat became lodged in  
 the branches, it being necessary to  
 climb the tree to secure the hat.

The Strathroy plant of the Dominion  
 Cannery was burnt to the ground on  
 Friday night with a loss placed at \$175,  
 000. Nothing was saved except the  
 boiler house. A hot box on the machin-  
 ery is supposed to have caused the fire.

Soft, Clear, Smooth Skin Comes With The Use Of "FRUIT-A-TIVES".

NORAH WATSON  
86 Drayton Ave., Toronto,  
Nov. 10th, 1915.

A beautiful complexion is a handsome woman's chief glory and the envy of her less fortunate rivals. Yet a soft, clear skin—glowing with health—is only the natural result of pure blood.

"I was troubled for a considerable time with a very unpleasant, disfiguring rash, which covered my face and for which I used applications and remedies without relief. After using 'Fruit-a-tives' for one week, the rash is completely gone. I am deeply thankful for the relief and in the future, I will not be without 'Fruit-a-tives'."

## NATURAL HISTORY.

Wherein is Related a Tale of a Farmer and a Possum.

### PLAYS DEAD WHILE HANGING.

Only Way to Kill Him Is to Beat Him to a Jelly—One the Soldiers Let Go. Prose and Poetry Tell a Lot About the Animal That Bluffs.

By M. QUAD.  
[Copyright, 1910, by Associated Literary Press.]

A possum he lived in a tree,  
And a jolly old fellow was he,  
Took life as he found it,  
And walked all around it,  
Which is the best way, don't you see?

WHAT is called the Virginia possum is found in almost every middle and southern state, but while the farmer often catches sight of foxes, coons and woodchucks he seldom gets a squint at a possum. The animal hardly ever moves out by day, and at night he is very sly. He makes his nest in a hollow tree, hollow log or among the roots of a tree, and he hides it well. He is a poor runner and not much of a fighter, though if he once gets his teeth into a dog he will hang on until killed. It is owing to this grip of his jaws

"BUT POSSUM HE PLAYED."

that the fox, the coon and the "chuck" give him half the path when they meet at night. Any one of them can roll him over, but so tough is his hide that they might chew on him for an hour without hurting him.

Near by lived the good Farmer Dwight, And the possum he went every night. He went looking for scraps, And he thought that perhaps With the dog he'd get up a fight.

The possum does not wander far from his lair. This is because he is like no other animal in his eating. He will eat berries, young rabbits, birds, eggs, roots, fowls, vegetables of all sorts, scraps from the table, mice, bugs and almost everything else you can think of. He can therefore get his living around any farm. If living near a marsh he will feed on crabs and frogs. If there are snakes on a farm he will thin them out. A fight often takes place between a possum and a black snake, but the former is always the winner. It is said that the bite of a rattlesnake will not poison him. In gathering fruit from a tree the possum hangs to a limb by his tail and uses his forefeet to gather with. He can eat more persimmons than any three colored men, but when it comes to the watermelon he doesn't care for it.

He'd pick up a chick now and then Or strangle a goslin or hen. He was never the best, And he ate it with zest Before he'd returned to his den.

The two oddest things about the possum is the way he uses his tail to hang by and his "playing dead" when attacked and overcome. If the farmer clubs one to death, or thinks he does, the animal will remain quiet for hours and then get up and walk off. To actually kill him with a club he must be beaten to a jelly. He has a hide on him like a bull, and he has few nerves to feel pain. A bulldog may worry one for an hour after he is supposed to be dead, and he will come to life again and make for his tree.

There were nights in the full of the moon When he was mistook for a coon, And the dog made him hump Around bushes and stump And got out of that pretty soon.

Naturalists used to assert that when the mother possum had a litter of five the old man turned to and ate up three of them so as to keep the number down where all could make a good living. This has been found to be incorrect. As soon as the house is full of children papa takes his departure and finds another boarding house for himself. They may live or die, but it's nothing to him. It is only at such times that if he meets another daddy possum he will get up a row without the least excuse. He's used about it, you see; thinks two in the family enough.

Every 10c Packet of WILSON'S FLY PADS WILL KILL MORE FLIES THAN \$8.00 WORTH OF ANY STICKY FLY CATCHER

Clean to handle. Sold by all Drug-gists, Grocers and General Stores.

Three times he was caught in a trap And over the head got a rap, But possum he played, And living he stayed. And winked as he woke from his nap. In the New York zoo several years ago a possum was struck fifteen times with a baseball bat in the hands of a strong man. He went dead, and a man was set to watch him. He was watched for ten hours, but as he stayed dead the watcher went away for half an hour. Upon his return—no possum! The next day the animal was as lively as if he had not been clubbed. During the civil war some Union soldiers captured a possum in

Virginia and let him curl his tail over a limb. He was closely guarded for three days and was still "all there" when the boys let him go.

At length 'twas the farmer who said: "That possum shall sleep with the dead. I'll catch him once more. And, b'gosh and galore, His blood I truly will shed!"

When a fox or coon finds he is discovered at his little game and is chased by the dog two or three times he pulls up stakes and hunts a new neighborhood. Not so with the possum. When he finds a good thing he hangs right on, and the result is that his wife looks for him to come home some morning and he does not show up.

He has eaten of ducklets full ten, And his goslins are gone from the pen. He has sucked scores of eggs And then used his legs To tote himself homeward again.

At the Cincinnati zoo they put a basket containing six dozen eggs into the cage of the possum. He was willing and went at it. They thought he might suck the whole seventy-two, but he was no hog, and he stopped at fifty. The hole he made in the shell was no larger than a darning needle, and not a shell was broken. Just how much eggoggs a possum can drink is not known, but about a gallon would probably do for him.

By thunder, I'll stand it no more, But dabble my hands in his gore! I've sworn it and said That I'd have him dead, And to life he shall come nevermore!

The stupidity of the possum is shown in the fact that he can be easily trapped. He is not looking for anything of the kind, and it is said that he cannot scent a steel trap like the fox or wolf. A trap set anywhere around the henhouse will eventually get him. And next morning the captive was there, And the ax the old man did prepare. One look he just gave him, And then he did shave him And cut him in two, I declare!

## WHY not give your lad the same training?

"When I was a growing lad, and came upon many words in my reading that I did not understand, my mother, instead of giving me the definition when I applied to her, uniformly sent me to the dictionary to learn it, and in this way I gradually learned many things besides the meaning of the individual word in question—among other things, how to use a dictionary, and the great pleasure and advantage there might be in the use of the dictionary. Afterwards, when I went to the village school, my chief diversion, after lessons were learned and before they were recited, was in turning over the pages of the 'Unabridged' of those days. Now the most modern Unabridged—THE NEW INTERNATIONAL—gives me a pleasure of the same sort. So far as my knowledge extends, it is at present the best of the one-volume dictionaries, and quite sufficient for all ordinary uses. Even those who possess the splendid Dictionaries in general volumes will find it a great convenience to have this, which is so compact, so full, and so trustworthy as to leave, in almost cases, little to be desired."—Albert S. Cook, Ph.D., LL.D., Professor of the English Language and Literature, Yale Univ. April 23, 1911.

**Asthma No Longer Dreaded.**—The  
dread of renewed attacks from asthma  
has no hold upon those who have learned  
to rely upon Dr. J. D. Kellogg's Asthma  
Remedy. So safe do they feel that com-  
plete reliance is placed on this true  
specific with the certainty that it will al-  
ways do all that its makers claim. If  
you have not learned how safe you are  
with this preparation at hand get it to-  
day and know for yourself.

For washing a baby's clothes, use a  
white soap; then rinse them thoroughly.  
Pink and blue bath towels are a great  
comfort to the mother and small babies.  
Children's stockings can be catstitched  
instead of being regularly darned.  
Any heavy cloth pieces can be utilized

A Power of its Own.—Dr. Thomas'  
Electric Oil has a subtle power of its  
own that other oils cannot pretend to,  
though there are many pretenders. All  
who have used it know this and keep  
it by them as the most valuable liniment  
available. Its uses are innumerable it  
has been praised as the leading liniment  
for man and beast.

**A VICTORIAN ROMANCE.**

Strange Story Recalled by Death of  
British Baron.

The death of Sir George Chet-  
wynd at Monte Carlo recalls the  
most famous love story of the Vic-  
torian era. Chetwynd was one of  
the famous figures of the turf and  
polo set and appeared in a famous  
turf cause celebre when he brought  
a libel action against Lord Durham  
for a speech at the Gimcrack Club  
in which the peer criticized the run-  
ning of Sir George's horse Fullerton  
in the racing season of 1887.

The Jockey Club refused to inves-  
tigate the matter and Sir George  
brought an action against Lord Dur-  
ham for £100,000 damages.

The case was brought before  
three arbitrators, James Lowther,  
M.P.; the Earl of March, and Prince  
Solykoff. Though the graver  
charges of pulling were found by the  
arbitrators to be unfounded, there  
were such unsatisfactory conditions  
about the running of the Baronet's  
horses that they awarded him only a  
farthing damages and ordered each  
side to pay its own costs.

Sir George took this as a slur  
upon him and resigned from the  
Jockey Club. His jockey was sub-  
sequently warned off the turf.

Sir George's turf career had a  
romance. He was married in 1870  
to the Marchioness of Hastings, who  
died in 1907. This lady, whose  
beauty and form led to her being  
called "the pocket Venus," was the  
only daughter of the second Mar-  
quis of Anglesey. They called her  
lady bird in the days when Queen  
Alexandra was a young bride.

Lady Florence Paget, as she then  
was, was engaged to marry Henry  
Chaplin. She drove with him one  
morning to a well known West End  
shop to buy part of her trousseau.  
She was passionately attached to the  
wild Marquis of Hastings, and she  
left the West End shop by a different  
door, leaving Chaplin behind. She  
met the Marquis outside and married  
him.

Three years later a dramatic re-  
venge came. Chaplin won the Derby  
with Hermit, a rank outsider, at 66  
to 1, and the Marquis of Hastings  
went a cropper and lost so heavily  
on the race that he was ruined.  
Shortly afterward he committed sui-  
cide at the age of 26. "Judge not  
that ye be not judged," says the  
text on his tombstone at Kensal  
Green Cemetery.

Three years afterward his widow  
married Sir George Chetwynd. They  
had a son and two daughters.

The story of the Marquis of Hast-  
ings' ruin on Derby Day and his sub-  
sequent suicide after marrying  
Chaplin's fiancée has been the basis  
of more than one melodrama in  
Drury Lane that has later been seen  
in America. Chaplin is now a Vis-  
count and is still alive at the age of  
74. Chetwynd was 68.

**Curious Extinct Animal.**

The Ambylypoda was one of the most  
curious of the extinct species of mam-  
mal. They were the size of the eleph-  
ant and had five toes on each foot  
ending in hoofs instead of nails. Re-  
mains of these have been found in  
England, but the best specimens have  
come from North America.

**A British Way.**  
Jerome J. Jerome, the English  
author, writes of addressing an  
audience of British soldiers return-  
ed from the front, when he paid cer-  
tain compliments to the enemy's  
valor. His auditors applauded. If  
he had said the same things to a  
meeting of civilians, he writes, he  
would have been hissed and booed  
from the stage. The Britisher in  
khaki feels an obligation, often the  
legacy of former experience on the  
playing field, to give the enemy, the  
opponent, credit where credit is due  
him. Frequently it may be noted  
that the spectator is more bitter or  
blindly partisan than the player  
who wears his colors. In his official  
report after the Jutland battle, it  
will be recalled, Admiral Jellicoe  
paid the enemy an unusually warm  
compliment for his bravery at one  
point in the conflict.

Organize your housework and you  
can do it without feeling "run" by it.

the tub after bathing. This makes the  
work lighter for the housekeeper.

 Communications were received from the Indian Department asking the council to pay half the cost of fixing the hill on the south boundary of Kettle Point Reserve, and that the council repair and extend the ditch on the road between the Stoney Point Reserve and lot 50 L. R. W. Concession and prevent damage to the lands of James White for which the Department would pay half the cost. Both proposals agreed to. Council will not grant a four inch tile to ratepayers for an outlet across or along the public highway unless application has first been made to the council and the tile laid under the direction of the commissioner of the division.  
 GRO. SUTHERLAND, Clerk.

## SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any one of these troubles may prove deadly if not promptly treated. During the summer the mothers' best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Doctor Williams' Medicine Co., Brockville, Ont.

## Another English Letter

Mrs. W. E. Parker, Warwick, received the following interesting letter from her nephew, Allan W. Edwards, who is with the Army Medical Corps in Kent, England:—  
 C. A. M. C. Depot,  
 Westenhanger, Kent.  
 c/o Army P. O., London Eng.  
 June 16th, 1917.  
 DEAR AUNT SARAH:—It is now a good while since I received a parcel of maple sugar from you and I owe an apology in not answering or acknowledging it sooner. But my intentions were of the very best and to tell you the truth I started a letter to you on two different occasions. But it is a hard job to write letters when the evenings are long and the weather pleasant, and we surely have had beautiful weather for the past couple of months.  
 Well I am just back from Scotland and London a few days after having about as enjoyable a holiday as I ever had. I never was used so good in all my life before and despite the hospitality of the Scotch it is one thing to come over as a visitor from Canada and quite another thing to come over as a member of the Canadian army. Nothing was too good for us and our money was absolutely

worthless as far as being able to spend it in Scotland was concerned. They simply would not allow it.  
 We had a real good time I am a truly going back again if I am at all fortunate. However I told mother all about it in a letter which is going out on this mail so you can read it and I will tell you something else.

Everything is beautifully green here now and Kent county really looks like its old popular name "The Garden of England." But as far as that goes it seems to be pretty much all garden as I saw it while on pass and there isn't much to choose. But the Highlands aren't much of a garden, nor are the hills and bleak moors of Cumberland County.  
 I suppose you have heard all about the air raid at Folkestone some three weeks ago last night. I know you have because it appeared in the papers here with all details and I know it was in the papers in Canada because I got a letter dated about two days after air raid which mentioned the air raid. So I figure I can take the liberty to mention it.

Where I happened to be that night the aeroplanes passed directly over my head and I counted in all seventeen two days before the reports were in the paper. Fortunately they didn't drop a bomb close enough to me to hurt as the nearest one was about four hundred yards away. They passed over Folkestone leaving a trail of death and disaster which they seem to take a fiendish delight in, on Friday night May the twenty-fifth about six twenty. Their murder was practically all women and children, the blood of which will stain the name of Germany for years to come.

On Wednesday, two nights before the raid I was down at Folkestone and at the same time about six twenty to six thirty, I wasn't thirty yards away from the place of the most brutal murder anyone can picture. A bomb dropped there just two days later about six twenty p. m., which snuffed out the lives of thirty people all of which were women old and young, as well as children with the exception of one man.

The second night after the raid I was down town and I stood in awe and looked at the same street in the same place. The streets had been cleaned and the pavements scrubbed but the stains of human blood as it was split in pools were still there and will be until they are worn off. It wasn't red it was just a dark mark, marking where each unfortunate victims fell, a living representation of German Kultur and all that it stands for.

Things like these should tell a man whether it is his war or not. Then again as I daresay you know I was up in London this past week and by a strange coincidence I stood on Liverpool Street Monday noon at or very near the spot where the Germans hit on Wednesday noon. There again it was a case of women and children, mostly children and although I left London on Monday night and have not seen it since still I daresay the same stains remain there to cry out to all the world.

Now in conclusion, you do not need to criticize as they are alive to it and alive to it well.

I haven't got across to France as yet but I am still hoping. Am feeling the very best, that is when it isn't so soon after leave, for camp life is a fine awayner to the grim realities after a ten days leave.

Sincerely, ALLAN W. EDWARDS.

 and Kodaks

DO YOU TAKE PICTURES? WELL, IF YOU DON'T YOU ARE MISSING LOTS OF FUN.  
 COME IN AND GET A NEW KODAK AND LEARN TO DO PHOTOGRAPHY. WE WILL "SHOW YOU HOW."  
 AND THEN WHEN YOU NEED "DEVELOPERS," PLATES, FILMS OR PHOTO SUPPLIES OF ANY KIND, WE CAN ALWAYS FURNISH THEM.  
 DEAL WITH US; YOU CAN RELY ON WHAT YOU BUY.
