RECIPROCITY TO BE TESTED
BY BY-ELECTION IN N. YORK

Contest Expected to Take
Place Within Six Weeks—
Voters' Lists Being Pre-
pared—Aylesworth's Re-
tirement Liable to Open
Another Constituency Also.

HUGH GUTHRIE SLATED
FOR CABINET POSITION?

OTTAWA, March 21.—(Special).—A
by-election in the constituency of
North York, at present represented by
Sir A. B. Aylesworth, will take place
before the close of the present session,
and it was reported to-night that or-
ders have been sent to Mr. Parmelee,
the King's printer, to get the voters'
lists for this riding out immediately.
This will be the first test on the recip-
rocity issue, and as the minister of
justice definitely decided not to seek
re-election, but to retire from active
political warfare, the contest will be
waged on the fair ground of both can-
didates being without the prestige of
a cabinet position. The determination
of the government to make a test case
on the reciprocity agreement, coupled
with Sir Allen Aylesworth's desire to
be relieved immediately of the duties of
his portfolio, which his deafness has
made irksome of late, is responsible
for the riding being opened.

Who Will Bury the Corpse?

OTTAWA, March 21.—(Special).—Another day in the house,
part of it taken up with reciprocity. And what is the net result, as
far as that question is concerned? That reciprocity is already, or
fast becoming a corpse. To be touched, if touched at all, with the
sanitary gloves of the undertaker. From the day it came into the
house it has been of the nature of an intrusion—something thrown
over the wall into the midst of the representatives of the people.
What is to be done with it? Is it a good enough slogan to go
to the country with? Hardly. Or, if it is to be taken to the country, then
certainly, the sooner the better, as far as the government is con-
cerned. So the talk about an early dissolution turns on how best
to handle the unsavory topic, and the public, who may be the final
inquest. If the United States Congress would only bury it, so much
the better for the Liberals. And this is what Liberals are praying for.
The parliamentary situation to-night shapes up at all
all. In the direction of drifting along for a month or more, with a
temporary vote of supplies, and then trusting to some exigency that
will delay anything like serious treatment of the question.
Rather a most un-Canadian situation—that the Canadian Parlia-
ment should spend time on a question that the congress of the United
States should finally settle without regard to Canadian opinion. Par-
liament is developing less and less interest in a question that at its
best is so far a very academic issue, as well as unsavory.
The question got into the house this afternoon on the motion to
go into supply, when Mr. Middleton of Grey read The Globe's article
concerned. So the talk about an early dissolution turns on how best
to handle the unsavory topic, and the public, who may be the final
inquest. If the United States Congress would only bury it, so much
the better for the Liberals. And this is what Liberals are praying for.

FIRE FIGHTING AUTO
POWERFUL BUT SPEEDY

It Carries Chemical Tank and
Complete Outfit—Toronto to
Follow West's Lead.

An auto chemical hose wagon similar
to the three which Chief Thompson has
asked the city to provide for the pur-
chase of in the estimates of the fire
department, at about \$8000 each, this
year, arrived in the city yesterday and
received a try-out. It has been con-
structed for the use of the fire de-
partment in the new western city of
Prince Rupert, and it has been demon-
strated for the benefits of the heads
of the fire departments of a number of
Ontario cities. This afternoon it will
start on its way to the growing city
of the west.

CITY BAR RECEIPTS
EXEMPT FROM TAX TO \$60

Consideration is Given the Larger
License Fees—Fear Single
Tax Wedge.

At the night session of the legisla-
ture, Hon. W. J. Hanna announced that
the government had decided to make
the exemption from the 5 per cent. tax
on bar receipts \$60 in cities and \$50 in
towns and other municipalities.
H. C. Lackner, North Waterloo, as-
serted that the exemption being raised
to \$60, favored the amount to be made
general throughout the province.
Hon. W. J. Hanna replied that such
an action would mean that nothing
would be collected outside of the
cities, and in the cities \$60 was made
the limit because the city licenses were
much higher than in the towns.
A. E. Tripp (Con.) Ottawa West,
moved the second reading of his bill
to give municipalities the power to
raise the matter of assessing land at a
higher rate than buildings. The policy
was becoming more popular from year
to year and was having a marvellous
effect in stimulating the growth of the
western cities, who had applied this
method of assessment. The petitions
presented in favor of this proposal af-
forded evidence that there was a pub-
lic desire for the privilege.
Hon. G. MacKay said that he be-
lieved the bill was worthy of support.
Sir James Whitney opposed the bill
as being the thin edge of the single
tax.

Would Be Exciting Contest.

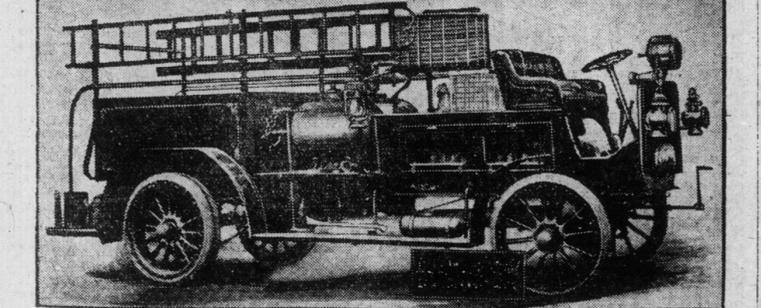

Should this happen, the riding of
South Wellington would be opened up
and a pretty fight ensue, as it is a
mixed manufacturing farming con-
stituency, Guthrie being its chief
town, with its thriving industries and
a splendid farming and stock raising
country. In addition, North York
should also provide an exciting con-
test. Aylesworth found a haven there
in 1906, after his defeat in Durham at
the general elections of the preceding
year, being returned at a by-election
by 44, less than half the majority roll-
ed up for Sir William Mulock the pre-
vious year. At the election of 1908
Aylesworth's majority dropped to 390.
The reported decision of Sir Wilfrid
Laurier to bring on the by-election
before the close of the session is re-
garded by the opposition as a desper-
ate attempt to secure an endorsement
at the polls of the reciprocity policy,
and in the case of victory the govern-
ment would press upon parliament the
necessity of endorsing the proposals
on the ground that in a test election
the government was upheld.

Massive, But Speedy.

The truck is a massive affair of steel
built through, making 7 tons of dead
weight that require an 80-horse-power
engine to propel. The engine is a 6-
cylinder, and capable of driving the
big bulk of fire-fighting apparatus
along a level stretch at 40 miles an
hour. This high power also gives the
machine the ability to climb hills in a
manner calculated to make a healthy
horses look sick.
Combined with this high speed is a
friction brake that instantly binds the
double back wheels and stops the
truck while the team would be think-
ing about it. These and many other
advantages are pointed out by the
chiefs, who are all enthusiastic about
the metal monster. They claim that
with the advent of these machines
there will be no more tired horses; that
every man will be available at a fire,
no man needing to stay and watch
frisky horses, no horses will have to
be hitched, and no smell of the equines
will annoy the fire-fighters about the
fire halls. On the contrary, however,
all the fire boys are a little suspicious
of the fatal breakdown, and some of
them don't quite like the little allow-
ance made on the side step for them to
dress on the midnight call. Still, one
and all feel that sooner or later this
motor fire truck and engine must come
to stay, which is not a pleasant
thought to many, as the spirited
"nags" of the department are on every
body's mind.

May Be Within Six Weeks.

The linking up of the intentions of
the government to-night has caused a
stir in the opposition camp, and they
are actively preparing for the fray.
The fact that the election lists are being
printed right away, coupled with the
well-known desire of Sir Alan
Aylesworth to don out at the earliest
possible moment, is taken by the Con-
servatives as a sure sign that the pre-
mier intended to surmise the election of
the proper moment without warning.
There has been much activity on the
part of the Liberals in North York re-
cently, and only a short time ago
Aylesworth addressed a mass meeting.
It is expected that the election will
take place within the next six weeks.

AUTO CHEMICAL AND HOSE WAGON.
Although this massive steel fire-fighter weighs seven tons, it can burst to a blaze at 40 miles an hour. With its
chemical tank, hose and extinguisher it can deal with an ordinary fire single-handed. It carries 10 men and
costs \$8000. Toronto may soon have three in service.

PULP LIMITS IN
QUE. FOR HEARST?

N. Y. Publisher Said to Prefer
That Province, Because He
Would Have to Main-
tain a Factory in Ontario

QUEBEC, March 21.—Recently a
newspaper item appeared in
The Pulp and Paper Magazine,
to the effect that for several
months past many owners of timber
limits in Quebec Province had been
approached by representatives of the
Hearst interests, who stated that they
are authorized to buy a large tract of
forest capable of supplying a 400-ton
mill. It was further said that in some
cases options were secured by these
representatives, and after that
no more was heard of the agent.
As a result of these manoeuvres the
suggestion was made that the prom-
ised newspaper should be dropped.

Floating Dock for Toronto

OTTAWA, March 21.—(Special).—The
long-delayed floating dock
for Toronto is about to
materialize. The World is cred-
ibly informed to-night that
the Polson Iron Works Com-
pany will shortly commence the
construction of a floating dock
near the foot of Sherbourne-
street, which will have sufficient
capacity to accommodate the
largest vessels in Lake Ontario.
Application has been made to
the Dominion Government for a
subsidy, the engineers of the
public works department have
approved of the plans, and it is
understood the minister has re-
ported favorably upon the ap-
plication. The entire work is
expected to cost about \$700,000.

CANADIANS NOT
WANTED ON STAFF

Extraordinary Story of Radical
Changes in Militia Organi-
zation—Men Who
Would Be Superseded.

KINGSTON, March 21.—(Special).—
Important announcements have just
been made in military circles which
go to show that the militia depart-
ment has decided to accept General French's
recommendations for reorganization of
the military forces of the Dominion.
Pending the arrival of officers of the
Imperial army, arrangements have
been made temporarily for the follow-
ing changes:
Col. Thos. Benson, Ottawa, will be
transferred to Kingston, to command
a division here.
Col. T. D. R. Hemming, in command
here, will be appointed A. A. G. at Tor-
onto, the D.O.C.'s having been de-
parted with Major L. W. Shannon of
London will come to Kingston as D. A.
A.G., to replace Lt.-Col. D. D. Young,
retired. Lt.-Col. Burdall, commanding
the Royal Canadian Horse Artillery,
will go to Quebec to take the place of
Lt.-Col. English, who will become A. A.
G. at Montreal. Col. J. A. G. Pagan
will return to Kingston from Halifax
as A. A. G.
It is understood that all staff officers
of the militia heretofore appointed, must
be graduates of the staff colleges of
England. This will preclude Canadians
from any of these positions.
It is reported that officers coming
out from England may take the places
of Col. Drury, Halifax; Col. Roy, Mon-
real; Gen. Cotton, Toronto; Col. Men-
dham, Ottawa. The adjutant-general,
Colonel Leeseard, so it is reported, may
be retired, and a war office official
may take his place.
It is also reported that an officer of
the Scots Guards had been selected for
this post.

TWO LADS DROWNED

Had Driven Wagon into River to
WATERLOO, March 21.—Jeremiah
Langlois, aged 18, and Stanley Laboue,
aged 7, sons of parents residing above
Walkerville, were drowned off the
Canadian shore late this afternoon.
Mrs. Laboue, the mother of the little
boy, saw them go down.
At the close of the day's work on
the river road, young Langlois drove
the wagon into the river to give the
horses a drink. The substitute had
been hanging on the back. Suddenly the
horses were caught in the current and
swam around. The boys lost their
heads and jumped into the river and
disappeared.

TEST OF PUBLIC OPINION

On Arbitration Proposal of Taft and
Sir Edward Grey.

LONDON, March 21.—The lord mayor
offers to head a movement to secure
an national expression of public opinion
on arbitration, as proposed by Pres-
ident Taft and Sir Edward Grey.
It is understood that the government
has abandoned its idea of getting the
treaty passed before the coronation,
and will adjourn parliament during the
month of June, so that legislative
struggles will not interfere with the
coronation festivities. In the mean-
time tentative proposals for the set-
tlement of the constitutional difficulty
by compromise continue to come from
the Unionist speakers and press.

TRIED THRICE FOR MURDER.

MONTREAL, March 21.—Having
survived the ordeal of being thrice
tried for murder the brothers William
and Almo Houle, the Valleyfield farm-
ers who were arrested nearly two
years ago on suspicion of having mur-
dered their brother-in-law, Domin-
ic Pelletier, were today acquitted by
the jury after 20 minutes' deliberation.

CARRIAGE FACTORY BURNED.

MONTREAL, March 21.—Fire entirely
gutted the Lariviere Carriage Fac-
tory on St. Antoine-st. shortly after
midnight this morning. The building
was a wooden structure, and varnish,
oil and paint helped the flames con-
siderably.

A Specious Proposal

(Canadian Associated Press
Cable).
LONDON, March 21.—The
Newcastle Chronicle says anent
arbitration: "If we withdraw
our forces it would not be long
before the United States an-
nexed every inch of territory
from Alaska to Winnipeg. It
is not improbable that the next
move of American diplomacy
will be the offering of some
concession like the free passage
of warships thru the Panama
Canal as a recognition of the
cession of Vancouver Island,
Alberta, British Columbia, the
Yukon, Saskatchewan, Manito-
ba and Ontario. Despite the
disclaimer we need be in no
doubt as to the desire of the
United States to see the entire
west belt of Western Canada
under the Stars and Stripes, so
that the territory from Chicago
right up to Alaska would be
under the jurisdiction of Wash-
ington."

MORE YONGE-STREET DEALS.

Prices for real estate holdings on
Yonge-street continue to advance. It
was announced yesterday that the pro-
perties at numbers 99 and 101, at pre-
sent occupied by the Ontario Diamond
Co., Scherer's Restaurant and the
Gem Music Store, had been turned over
at \$6000 per foot. The total frontage is
about 37 feet. The purchaser is an
English syndicate, and it is understood
that the property was acquired as an
investment.

NEW SPRING HATS FOR MEN.

There are a num-
ber of new blocks
in men's hats for
this spring. In fact
it might be said
that the entire out-
put of the English
hats is some-
thing considerably different from that
of last season. The Dineen Company,
who are so Canadian agents for Henry
Heath of London, and Dunlop of New
York, announce that the entire new
stock is now on sale.

TIME NOT RIPE
FOR WOMEN'S
SUFFRAGE

Leaders in Legislature Await
More Definite Assurance
That Measure Has Public
Sentiment Behind It—Ten
Years Will Not Bring Af-
firmative Answer, Says
Premier Whitney.

Woman's suffrage occupied the at-
tention of the Ontario Legislature
yesterday afternoon. Representative mem-
bers of the various women's enfran-
chisement associations and other ladies
thronged the Speaker's gallery. The
other galleries were also filled by visi-
tors, who listened with close attention
to the speeches.
The introduction of the bill by Al-
lan Studholme (Labor, East Hamilton)
was not taken seriously by a number
of the members, who, after indulging
in bantering remarks, and a certain
amount of ironical applause, betook
themselves to the corridors. Sir James
Whitney and Hon. A. G. MacKay
gave the mover of the bill a respectful
hearing, as was also the case with
about half the other members of the
house. Hon. Dr. Reaume, Hon. James
S. Duff and Hon. J. S. Hendrie were
absent, representing the Ontario Cab-
inet at the funeral of the late D. E.
Tochard, caterer at the Parliament
Buildings.
In opening the discussion on his bill
to grant women's suffrage, Mr. Stud-
holme said the subject was as impor-
tant as the subject of reciprocity,
which had occupied the attention of
the government for the past two weeks.
The question was: "Are women fit
to vote?" Men seemed to have a habit
of saying "no," and it was an insult
to Canadian women. With their splen-
did intelligence and magnificent edu-
cation they were just as capable to vote
as any man at present sitting in the
legislature.
"Petitcoat Government."
"Some of the members have asked
me if I wanted to live under petitcoat
government," said Mr. Studholme.
"Well, as a child I lived under the pet-
ticoat government of the best mother
that ever was."
"In England I lived under the pet-
ticoat government of the best Queen
that ever was. I am still under petticoat
government of the best Queen that
ever was, and I have got the best
mother-in-law in the world. So why
shouldn't I like petitcoat govern-
ment?"
Mr. Studholme read a number of
extracts from yellow-colored woman's
suffrage campaign literature. In con-
clusion he exclaimed: "Nothing that
can be done can stop the progress of
women. You might as well try to dam
Niagara with an open slide. Why
because women have come to the po-
sition where they demand this privi-
lege, and they will get it."
Proudford Has Hopes.
W. Proudford (Liberal, Centre "Hun-
don") said that from the manner in
which the bill had been received he
did not expect that it would receive
favorable treatment, but he hoped
that the day would soon come when
some government would carry a bill
thru the legislature. (Applause by
Hon. A. G. MacKay.)
Every member of the house looked
up with reverence to womanhood. It
was that feeling which caused many
men to object to woman suffrage.
The Premier had said that woman's
suffrage meant a social revolution, but
it would be a safe reform in the hands
of the intelligent women of this coun-
try.

Do Women Want It?

A. E. Donovan (Con.), Brockville,
argued that it had been in the best in-
terest of society that women be not
allowed to vote and the legislature
should wait until they were absolutely
sure that the bulk of the women of the
province wanted the franchise. It was
his firm belief that the intelligent
mass of women had no desire to mix
up in the animosity of politics.
R. J. McCormick (Lib.), East Lambton,
whose Irish wit and accent are
richly appreciated, was applauded un-
til the whole auditorium echoed, when
he rose to his feet. He confessed that
he didn't have very much to say that
was going to please the ladies in the
galleries, but he simply had to say
something, because all the members of
his household were women, and they
would go for him if he didn't take some

Twenty Boy Scouts from Canada to attend the Coronation of King George V.

The above announcement, made in this week's number of THE CANADIAN CENTURY, is by far the biggest project ever launched by any Canadian publication in the interest of the Boy Scout movement.

The Canadian Century has always encouraged and supported the Boy Scout movement, but now intends to give it the biggest "boost" in its history.

WHAT THIS MAGAZINE WILL DO.

It has made all arrangements to send a party consisting of twenty of the most popular and energetic Boy Scouts, chosen from all parts of Canada, to attend the Coronation ceremonies to be held in London in June.

This party will be under the care of a well-known and responsible Scout leader, who has had years of experience in handling and taking care of boys.

TRIPS ARE ABSOLUTELY FREE.

No expense, no trouble, no worry for the boys or their parents.

Everything will be looked after, all details taken care of, and all expense paid by The Canadian Century.

From the time a Scout leaves home, no matter where he lives, until he returns, every penny of expense will be paid by

THE CANADIAN CENTURY

This offer is open to every Boy Scout in Canada. It's the chance of a lifetime for any boy. READ FULL ANNOUNCEMENT IN THIS WEEK'S NUMBER OF THE CANADIAN CENTURY FOR ALL PARTICULARS REGARDING THIS GREAT OFFER.

Every Boy Scout in Canada has the opportunity to become a member of this party. If you want to go on this trip just fill out the blank opposite and send to The Boy Scout Editor of the Canadian Century, and full information will be supplied you.

SIDE LIGHTS.

Robert Johnston of Hamilton was in town yesterday, and, according to the reports Mr. Johnston brings, the Hamilton bowlers are as enthusiastic over the big C. E. A. tournament as the Toronto bowlers are. Mr. Johnston entered a team from the Home Furnishers' Company, and states that three other business men teams will come down with the Hamilton Bowling and Athletic Club aggregation, while Fred Cooper's Brunswick team are all picked out, and, altogether, a dozen teams will shoot in the tournament from the Mountain City.

The captains' teams that are organizing are reminded that the 9:15 p.m. shift for five-man teams is rapidly filling up, and only a few more teams can be accommodated at that hour. The others will have to arrange to bowl at 7 o'clock. Secretary Chestnut states that the entries this year will positively close on March 22, and that no post entries will be accepted, as there are already enough entries assured to make the tournament the best in the history of the association.

The tournament committee have arranged to have special official scores and foul line judges, the same as was done at last year's tourney, which can be improved upon. Everything will be in a prompt manner, and the officers in charge will not stand for any shenanigans on the part of teams or individuals.

Bowlers are reminded that the loaded ball is barred by the C. E. A. rules, and no loaded balls will be permitted to be used in the tournament.

All information in regard to the tournament may be obtained from Secretary Ben Loonard, 109 Lord Welles, 112 St. James street.

Manager Eddie Sutherland of the Atheneum Club yesterday received from John G. Floss of Buffalo the checks for the prize money won by the Toronto bowlers at the N. E. A. tournament. The following are the winners, and they may receive their checks by calling at the Atheneum Club: F. Phipps, singles, \$5; A. Sutherland, singles, \$5; T. F. Ryan, singles, \$5; J. Christensen, singles, \$5; Sutherland, singles, \$5; Phipps, doubles, \$22; Anglin and Turpin, doubles, \$15.

WEDNESDAY MORNING, MARCH 22.

SETTLE NORTHERN ONTARIO.

Nothing appears likely to have been done by the legislature to further the settlement of Northern Ontario when the house adjourns to-morrow, as it probably will be prorogued on Monday. But the legislature is unlikely to do anything at any session. The matter concerns the government and the departments involved.

There is a division of interests, as we hinted yesterday, which does not amount to a conflict, but has the effect of tying up all effort for improvement in the situation. The crown lands are under Hon. Frank Cochrane, and he has been actively and energetically initiating and carrying out plans for the development of the north.

Then Hon. J. O. Reame has control of roads and bridges. We believe he might do a little more without being accused of allowing Northern Ontario to monopolize him.

Immigration is under Hon. James Duff, but it looks as if he were sitting on it rather than carrying it on his shoulder. The colonization department does a lot of things, but it does not coolidge. It does not get the farmlands settled up.

The T. & N. O. Railway is doing all that a railway should do, but it was commenced as a re-education scheme which might cost money. The road is paying for itself, but not by colonization. Under its control are the town sites, and this is a feature which makes the railway a necessary part of any settlement policy.

One of the difficulties appears to be the divided administration which we have just indicated. We believe any of the ministers alone could handle the situation better than it does now. We are sure Hon. Frank Cochrane could make the settlement of Northern Ontario go. If he were given a free hand, and these various departments consolidated under him for the northern district.

We respectfully submit that Sir Jas. Whitney has a problem here for consideration.

THE CITY'S OFFER.

Generosity has marked the dealing of the city council with the Toronto Electric Light Company. No business man not directly interested but has testified to the advantageous character of the terms offered to the company's shareholders.

Mr. Hugh Blain represents a section of the shareholders who appear to have bought stock at the top of the market. He proclaims the council's offer of \$125 as "the biggest robbery ever committed by other than professional robbers," by which, of course, Mr. Blain intends to designate certain stock-brokers, perhaps those who sold him stock at the top of the market. The really interesting point about Mr. Blain's remarks is the fact that he regards the "robbery" as already committed. This can only mean that he has agreed to accept the terms of the offer, and forego his money.

The offer is to remain open for three weeks, but good business men such as Mr. Blain will be sure to close the deal as soon as possible, once they have decided upon it. There may be many good chances of investment in three weeks. And as we view it, \$125 is a good fat price for T. E. L. stock.

KAISER AND FARMER.

Among the German emperor's multifarious activities he has not neglected to include agriculture. That, perhaps, was not generally known until the recent meeting of the German Agricultural Council in Berlin, when he appeared in person and read a paper on the subject of the cultivation of waste lands. In the course of his address the Kaiser referred to his own work as a practical farmer at his estate of Pommerschen, on the shore of Frische-Haft in East Prussia. At the date when he acquired it, the land, he explained, was in an utterly neglected condition, and the first undertaking was to reclaim about four hundred acres of uncultivable turf, which was often under water. Adroit persuasion was needed to overcome the objections of the keeper of the privy purse and to get the sum needed to try the experiment. The bogland was successfully drained and reclaimed and now brings in a considerable yield.

The Kaiser's appearance was highly successful and his address was enlivened by frequent humorous asides and revealed real enthusiasm. Stress was laid, not merely on the material gain which, at a cost of 75,000 marks, had increased the yearly return to 12,000 marks, but on the encouragement afforded to farming neighbors similarly to redeem waste lands. Through the speaker kept steadily in view the advisability of assisting the movement that has for its object Germany's independence of the outer world in the

matter of agricultural produce. This is desired largely to solve the dead-end problem without sacrificing the principle of agricultural protection. The moor and waste lands in Germany have been estimated at about 400 square miles and considerable progress has already been made in their reclamation.

CITY ELECTRIC COMMISSION.

"Why," asks The Globe, "should the hydro-electric commission appoint a member to a commission that will spend the money of the people of Toronto? Are the electors incapable of self-government?" One is tempted to reply that electors who ask such foolish questions as this are not very capable.

But it is part of the editorial policy of The Globe, while professing to serve the hydro-electric policy, at the same time to stir up all the doubts and difficulties and discontents it is able to for the hindrance of the project.

The suggestion behind the question is that the hydro-electric commission is some foreign body, whose interests are hostile to those of Toronto, and that it can have no right to interfere in the city situation.

The Globe knows very well that the hydro-electric commission was created by Toronto and a number of other municipalities for the purpose of directing and conserving their joint interests. Its organization was carried out by the government on a strictly non-partisan basis, the principle of which has been carefully observed by Hon. Mr. Beck and the other commissioners. The commission represents, in fact, the delegated authority of the municipalities, and has no power to act without the consent of the municipalities. But the authority it represents is also a joint authority, not of one municipality and another separately, but of all of them collectively.

When Toronto, therefore, undertakes to appoint a commission to manage the light and power business which has heretofore been under the management of the city, and therefore directly in touch with the commission, it is clear that to preserve the direct relation, it is desirable that the delegated authority of the city in the hydro-electric commission should not be closely assimilated with the delegated authority of the city in the local commission.

Canada, following the British tradition, has never deemed the United States method of electing every official of the country a wise one.

We do not elect our judges nor our postmasters, and the appointment of a member of the city commission by the hydro-electric commission is in line with precedent. The hydro-electric commissioners are themselves all elected men, but appointed again by an elective authority, and they represent municipal interests which are co-operative with the city.

The United States in one great exception has adopted the elective-apointive principle. The Globe might ask if the people of the United States are incapable of self-government because they do not elect a president. They elect members of an electoral college, who in turn elect a president. It is all very well to say this is a matter of form, but circumstances might easily arise which would necessitate the appointment of a president by the electoral college, apart from the previously recognized choice of the party returned to power.

The Globe's question in itself is scarcely worth attention, but for the fact that the principle of selection by elected bodies is involved and we believe this to be a much more British, a much more practical and a very much more successful method of getting the fittest man for the job, than the method of direct election with all its wire-pulling, its partisan heat, its dependence on trifling and local issues, and all the other hindrances which at present contribute to our elective inefficiency.

BUYING DEAR AND SELLING CHEAP.

In another of its labored articles The Globe resumes its diabolical attempt to demonstrate that reciprocity will compel the middleman "to reduce his prices to the consumers if he pays the farmer more for produce." Incidentally, the free trade organ sneers at Professor Leacock, who occupies the chair of political economy in McGill, because he has dared to declare the proposition beyond his comprehension. Hitherto it has been accepted as self-evident that under normal conditions an advance in the cost of raw material or less promptly by an increase in the prices charged the consumer. This, The Globe appears to argue, is a delusion. The way to make profits is to raise the cost of production and reduce selling prices.

In its advocacy of free trade for Canada The Globe has made much of the existence of trade trusts and com-

R. J. FLEMING REMINISCENT

Old Times Recalled at Parliament Methodist Church Redmon.
A delightful evening was spent at a reunion of the old members and friends of Parliament Street Methodist Church last night. Invitations had been sent to as many names as could be secured, and the church was in consequence packed to the doors.

R. J. Fleming was in the chair, and gave an interesting address on the history of the church, tracing it down from its beginning, the training he received at the little church, Rev. Dr. Rose, who was pastor of the church 28 years ago, also spoke. The beginning of the meeting by the ladies of the church. A program of music and reading added much to the evening's enjoyment.

Lawson v. Dalton—W. H. Irving, for plaintiff. At. Cameron, for defendant. Motion by plaintiff for a better affidavit on production by defendant. Judgment: The defendants object to have the judgment of the plaintiff examined except at Delhi, where the business is being carried on, and where plaintiff resides. The reasons given in this case are sufficient. The plaintiff is undertaking that the information so obtained shall not be used in any way prejudicial to their business. This can only be required if the inspection is made by any one except the plaintiff and his solicitor. If they afterward attempted to disclose the affairs of the company the defendants would be obliged to seek an injunction. The plaintiff being, as he at least alleges, a partner, cannot be obliged to give such an undertaking as a condition of access to the books. The order will go as above. Costs in case.

Great Northern Elevator Co. v. Manitoba Assurance Co.—R. McKay, K.C., for defendant. P. McCarthy, for plaintiffs. Motion by defendants for an order striking out the last four paragraphs of reply as embarrassing, and amending the judgment. These paragraphs are in substance equivalent to a statement of claim in an action to have the award set aside, or to a judgment of defence in an action by the insurance company to have the award declared binding on plaintiffs. The fifth paragraph must be amended. Instances should be given of matters alleged in sixth paragraph if intended to be relied on at the trial. The seventh paragraph must also be amended. The eighth paragraph must stand or fall with the consent of the plaintiff, therefore, as they stand when amended, it will stand also. The reply should be amended or particulars given as indicated. BROKEN-DOWN NERVES

HOPELESS CONDITION CURED BY "FRUIT-A-TIVES"

MILFORD HAVEN, Ont., Aug. 20, 1910.—"I was a complete invalid three years ago, with stomach trouble, constipation and broken-down nerves. I could not sleep at night, my doctor did me very little good. I was almost helpless until I began to take 'Fruit-a-tives' in small doses. I have taken about three dozen boxes in all, and thank God, to-day I am well and strong, able to do my own work—and have a half a month's rest and six children in a hall."

"I would not be without 'Fruit-a-tives' in the house, and I can highly recommend them to anyone suffering as I did."

MRS. D. GUINEY.
Nervousness is not a disease in itself, but is the result of some of the vital organs becoming diseased. In Mrs. Guiney's case her nervous condition was caused by her very weak stomach and torpid liver. 'Fruit-a-tives' strengthened her stomach—helped digestion—made the liver active—and cured constipation. Then her nerves became well.

If your nerves are "all unstrung," take 'Fruit-a-tives' in a box, 6 for \$2.50, or trial size 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

The proper action of the nerves, so important to the well-being of the heart, depends entirely upon the general condition of the nervous system. If there be nerve derangement of any kind, it is bound to produce heart derangement.

In Milburn's Heart and Nerve Pills is combined a treatment that will cure all forms of nervous disorders, as well as act on the heart itself, and in this is the secret of their success in curing so many cases of heart and nerve trouble.

Milburn's Heart and Nerve Pills are 50c per box, or 3 for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

A NOTABLE ENGAGEMENT.

It is seldom that the people of Toronto have an opportunity to hear such a magnificent artist as Charles W. Clarke, and the fact that he has been engaged to sing the baritone solos in "The Redemption," which is to be given at Massey Hall on April 25, by the Toronto Festival Chorus, under the direction of Dr. F. H. Torrington, will give added interest to the occasion.

Interesting Admission of Representative of American Milling Firm at Fort William.

OTTAWA, March 21.—The hearing of evidence with regard to the contentious clauses in the Canada Grain Bill was commenced by the special committee of the senate to-day.

They denied absolutely that their firms had ever indulged in the mixing of grain at Fort William and Port Arthur, and that concern would be seriously handicapped if it could not own terminals, and letters were received from Davidson, Black & Mulhead of Port William, objecting to their elevators, which were really wheat hospitals, coming under this section.

PLAN OF PRESTON EAST DOME VEINS

PRESTON EAST DOME HAS REMARKABLE SHOWING

Finest Grade of Free Gold in Porcupine Found—Vein of Exceptional Width.

PORCUPINE CITY, Mar. 18.—(From Our Man Up North)—Stringers of quartz running thru the schist on the Preston East Dome claim, known as

No. 13182, just south of the Dome mines, have been blown out and four feet down solid quartz to the width of five feet, in one vein, came in, producing the finest grade of free gold in the quarter and schist that has yet come from any portion of the camp.

The gold has been exhibited here, but the location was kept a secret for the time till those interested secured more stock. To-day Porcupine is extremely interested in the new find.

The rock presents a good appearance of the serpentine, decomposed and soft, with twisting stringers of blue quartz running thru the schist. Wherever the gold appears in the quartz on the side of the rock, it runs thru to the opposite side in the stringers.

Stringers of quartz are strewn over the schist on the surface for a distance of 20 feet, and there is every indication that the lead, when the schist capping is removed, runs to the width of the 20 feet. It undoubtedly is the widest lead so far located on the Preston East Dome.

Manager Thorne is at the front this week. The existence of veins in this quarter of the company's holdings was unknown to him as he had no opportunity to inspect the claims.

If the new vein should open up the 30 feet in width with solid quartz coming in under the schist capping, and carry any depth at all with the elaborate showings made, the vein would be a world-beater in value.

SOMETHING DOING SOON IN CROWN CHARTERED

Diamond Drilling Proves Up Property in No Mean Manner
Stock Issue Probable.

PORCUPINE CITY, Mar. 18.—(From Our Man Up North)—Diamond drilling on the Crown Chartered's North Tiedale properties is about finished, and unofficially it is announced that the showings are most promising at the 200-foot. Several holes have been put down at various intervals along the big vein, and within a few days it is said the company will announce the results of the work. Messrs. Heenan and Hefferman have been on the ground for several days getting in touch with the work and the new finds at depth, and it is said that very soon now a block of the stock will be put out.

The Crown Chartered Company was organized over a year ago and since the future intentions of the company at that time, for the company preferred to go ahead with the development of the property, meaning by this, the vein, which has been out for over a year the work has been proceeding quietly and now there is every evidence that the public will soon be given a chance to participate.

Messrs. Hefferman and Heenan have made no announcements as to the future intentions of the company, but from the character of the visiting delegations to the mine this week the public may look for something soon. —Chas. Fox.

Rapid Progress Made On Porcupine Railway

Steel Laid Within Sight of the Frederickhouse—Roads in Bad Condition.

Rapid progress is being made on the extension of the T. and N. O. into the Porcupine gold camp. The last report of the superintendent of construction, received at the offices of the T. and N. O. commission yesterday, stated that the grading had been completed as far as milepost seven. This leaves only three-quarters of a mile to be done before Frederickhouse River is reached.

The roads into the camp have been put in poor condition by the "warm weather" and the heavy teams, which has been done, which has cut up the highways. The railway commission report that 101 men and 60 horses are now being employed in construction work.

Lakeview Townsite Centre of Big Work

Seven Acres Reserved for Railway Station—Location Possesses Many Advantages.

PORCUPINE CITY, Mar. 18.—(From Our Man Up North)—That the Lakeview Townsite is to be the coming centre of the big work of the district is evidenced more and more each day as work progresses. The railway commission have reserved seven acres of right-of-way at the station which is to be utilized for station and yard work. Extra track facilities will be put in, and all the goods and machinery for the big Tiedale mines will come from this point to be unloaded.

The station grounds are located in a beautiful spot about 15 rods to the east of the Lakeview townsite, and on a slight elevation where the drainage towards Burroughs Lake is most excellent.

Already Messrs. McDougall and Galbraith have had many enquiries relative to lots in the new townsite. Surveyors Routley, Summers & Malcolmson finished taking levels of the grounds to-day, and the privilege of having the public have in the new location. —Chas. Fox.

CURTAILING SUNDAY WORK

United States Postal Officials to Be Given a Rest.

WASHINGTON, March 21.—Sunday work in postoffices throughout the country is to be discontinued so far as consistent with the facilitation of the transmission of the mail.

It is not proposed to close important postoffices entirely on Sundays. Mails will be received and despatched as heretofore, and arrangements will be made for a limited delivery thru the general delivery windows and the distribution of mail boxes will be continued. Special delivery letters will be delivered, and patrons of any office will be given the privilege of having their mail delivered on Sundays by depositing the required fee for special delivery service.

May Form New Cabinet.

ROME, March 21.—From all quarters Giovanni Giolitti, who was premier in 1901, is being urged to form a new cabinet. Although he has not yet officially undertaken the task, he has begun to sound the different groups of politicians with a view possibly to organizing a ministry, which would include Extremists and even Socialists.

G.N.R. LINE TO PORCUPINE OFFICIALLY CONFIRMED

Whether All-Rail or Otherwise Not Settled—Engineers' Report Ready.

As was intimated in The World yesterday, the C. N. R. has announced its intention of opening up a line to Porcupine, which will be in operation this year but has not definitely decided whether to build a railroad or an alternate rail and lake route. C. N. R. engineers have gone over the ground from their terminal at a point 15 miles north of Gowanda Junction, and their report is in the hands of the company and will be taken up at the next meeting of the directors.

The distance from Gowanda Junction to Porcupine by the present road route is approximately 80 miles, but the engineers' survey makes the contemplated route much shorter.

An alternative route would embody the rushing to completion of that part of the road between a point 15 miles northwest of Gowanda Junction, the present end of the C. N. R., and Minisquirana Lake, a distance of 36 miles from where it would branch off to Matagami, a distance of 10 miles. Here a water route would be taken thru a chain of navigable lakes, with the exception of about two miles near the beginning of Lake Matagami. This would be covered by a portage for the present. This chain of lakes extend to within eight miles of Porcupine, which distance could be conveniently covered by a wagon route until the business would warrant building a rail line.

"SUCKERS" GOT MONEY BACK

Enormous Correspondence of "Matrimonial Bureau."

LONDON, March 21.—All mail received at the postoffice for the Mesdames Gall of Piccadilly-street, famous because of the matrimonial bureau episode, is being sent back to the "suckers" from whom it was received. This statement was made to-day by Inspector Campbell of the postoffice.

The inspector asked the postmaster to hold all mail ordered for the women, and requested that it be turned over to his department. This was done for the first day, and in the meantime the women in action were communicated with, and they agreed to have the mail returned to the people who sent it.

Since the matter came to light, the postoffice has been able to get some idea of the size of the correspondence carried on. Many letters have been received for them daily, and at times as many as thirty in one batch would come in. They were from all over the States.

MANY SETTLERS GO WEST

Sixteen Hundred Left on C. P. R. Special Last Night.

Sixteen hundred settlers left the Union Station in three sections of the C.P.R. special last night, bound for Winnipeg and points west. The first section had nine cars, all Pullmans; the second had 11 first-class coaches and the third 11 colonist cars.

This is the third excursion the Canadian Pacific has had this year.

"The Private Secretary," the funniest of all farce comedies, with an all-star English cast, will be seen at the Princess Theatre the first three nights of next week, with a Wednesday matinee. The advance sale of seats opens to-morrow morning at 9 o'clock at the box office.

India Currency Bill Affects Silver Market

Day of Purchases of Reserve Silver for India Further Removed.

Samuel Montagu & Co. write under date March 8: At the meeting of the Indian Legislative Council in Calcutta on March 7, a government bill was introduced to raise the currency reserve investments from 12 to 14 crores of rupees with the object of investing the additional 2 crores in British government securities. A rumor to this effect reached London on the 3rd instant, and caused a slight setback in the price of silver. Had it not been that the demand for China at this moment was quite good, the fall would doubtless have been much more accentuated. As a matter of fact, China not only absorbed the normal supplies, but also the fairly free sales made by the Indian bazaars in consequence of the announcement.

The importance of the news in relation to silver does not lie in the mere fact that when the bill becomes law the necessity for the purchase of sufficient silver at some future date to coin 2 crores of rupees is removed. Its bearing on the speculative holdings must also be considered, such an increase in the ratio of the fiduciary to the ordinary circulation postulates to a still later date the prospect of purchases of silver for Indian coinage, and to a like degree defers the hope of development plant on the Matagami River is being rushed to completion and it is said that power will be delivered in June.

CONTRACTS OF \$8,000,000

Awarded by C. N. R. For Western Construction This Year.

WINNIPEG, March 21.—Contracts to-day were awarded by the Canadian Northern Railway Co. amounting to \$8,000,000, for the grading to be done on the main line and new branch lines which the company is having constructed in the west this year. The following are the contracts in detail:—Cowan Construction Company—209 miles on main line from Edmonton toward Yellowhead Pass; 200 miles from Alaskan to Calgary, on the Maryfield extension; 90 miles from Redfield to Moosejaw and Maryfield extension; 35 miles on Jack Fish extension, from North Battleford toward the Peace River country; 80 miles from Shellbrook to Battleford.

Northern Construction Company—100 miles from Red Deer to Calgary, on the main line from Vancouver toward Rockies.

LOTS OF MACHINERY IN PLACE IN PORCUPINE

Frank C. Armstrong, Back From Camp, Discusses Progress Made—Hollinger Looking Well.

NEW YORK, March 21.—Frank C. Armstrong has just returned to New York after a 2 weeks' trip of inspection of the Porcupine gold fields in Northern Ontario. Mr. Armstrong says: "The Hollinger Mine is looking exceptionally well. There is 1370 feet of drifting on the 100-foot level, the vein for the distance running from 5 to 8 feet in width. On the 200-foot level, the vein is exposed for a width of 10 feet, in a drift which has just been started from a winze sunk on the vein to the entire distance. The equipment for the thirty stamp mill is largely under ground, and concrete work and mill foundations are going along rapidly.

"The machinery for the forty stamp mill on the Deeme Mine is practically all on the ground, and work on the mill site is actively progressing. The properties of the Tiedale Gold Mining Co., Ltd., are looking well and ten feet of quartz has been cut by the diamond drill at a depth of 50 feet, 100 feet north of No. 1 shaft. Their No. 2 main shaft is now down 85 feet in the country rock. The compressor plant is installed and all supplies necessary to operate the Tiedale and Armstrong-Booth properties to Sept. 1 are now on the ground. The 2000-horse-power development plant on the Matagami River is being rushed to completion and it is said that power will be delivered in June."

BELL TO SOUND WARNING

Street Railway Hopes to Lessen Accidents to Pedestrians.

The Toronto Railway Company are experimenting with a device which, it is hoped, will minimize the accidents caused by people walking behind one car in front of another. It consists of a short arm placed on the devil-strip side of the car, which comes into contact with the other car and makes an electrical connection which causes a gong to ring on the rear end of the car, thus giving warning to the person attempting to cross. The device is the invention of A. D. Bentley.

REASONS WHY--TEN MEN WHO NEVER WON and NEVER WILL!

- 1—The Hind-sighted Man—NEVER sees opportunity until it is passed.
 - 2—The Neck-boneless Man—ALWAYS has to ask somebodys advice.
 - 3—The "Only" Honest Man—MUST have the control. No one else honest enough.
 - 4—The Spendthrift—NEVER has anything to invest.
 - 5—The Suspicious Man—ALWAYS afraid somebody will rob him.
 - 6—The Conceited Man—KNOWS where all the best things are without being told.
 - 7—The Modern Shylock—BELIEVES in nothing but the "pound of flesh" mortgage.
 - 8—The Narrow-gauged Man—REFUSES to listen to anything "out of his line."
 - 9—The Unfortunate Man—HAS a friend who invested and lost.
 - 10—The Fool—THINKS a thing worthless or it wouldn't be offered to him.
- These men never get ahead. They simply can't—they are afraid. But the world is peopled with other kinds as well, and we want to hear from those who would consider and investigate propositions that pay more than 6 per cent., 10 per cent. or 20 per cent. and may pay safely 100 to 1000 per cent. in a year. Did the Gugenheims, J. Pierpont Morgan, John D. Rockefeller or any other of the very rich men make their money from three, six or ten per cent. interest? No, they have made fortunes by borrowing and paying off times a much higher rate of interest.

LONDON SCHOOL OFFICIALS INDIGNANT AT CHARGES

Inspector Also Denies That He Told Mrs. Thornley of Immorality in Clubs.

LONDON, March 21.—The charge of Mrs. May R. Thornley of the W.C.T.U. U. made to the ministerial alliance yesterday, that immorality existed in the city schools, and that drinking, gambling and immorality was carried on in the young men's clubs, met with a storm of denial to-day.

"I would not be afraid to challenge anyone to find anything immoral going on in our schools," stated George S. Weir, truancy officer, this afternoon. "I do not believe there is anything in these reports of immoral conditions. The Dirty Advocate some time ago was full of stories such as the ministers heard yesterday. It seems to me some of the women must have been reading that."

"I suppose," continued the truancy officer, who day by day goes in and out among the schools and the pupils, "that there are some boys, and perhaps girls, too, who are a little bit in their immorality is spread, as absolutely wrong. I feel sure of that."

"The trouble comes in when the boys and girls have to leave school early and work together. The schools themselves I know are free from all just suspicion of immorality."

After an hour's experience in the city schools, C. B. Edwards, public school inspector, states his belief that the conditions are not at all as pictured. Only once in a long while, he said, there will be an instance of a boy writing an obscene word or using it in speech. As far as I know that is the worst that has ever obtained."

Inspector Galpin said to-day that he did not think that Mrs. Thornley had been reported correctly when it was reported, had told her that there were immoral goings on in the local clubs. "I do not tell the W.C.T.U. or any other club, that there is anything in the young men's clubs, met with a storm of denial to-day."

JOINT RAILWAY BOARD

For Questions Affecting Junction of Federal and Provincial Charters.

OTTAWA, March 21.—During the discussion in the railway committee of the commons this morning, when consideration was resumed of Dr. Rankin's bill respecting the Western Central Railway Company, more particularly as to its entrance to the City of Toronto, Hon. George P. Graham stated that the federal and provincial governments proposed to name a joint commission, composed of one member of the federal and one member of the Ontario Railway Board, to deal with all questions concerning the junction of Dominion and provincial charters. This body could be trusted to deal with all such questions as connection with the trunk system in Toronto.

He thought that if all the protecting clauses inserted in the H. W. & G. Bill were included in this bill, the city would be amply protected. These clauses would provide: (1) For the control of local traffic; (2) For stopping places within city limits; (3) For connection with the tubes; (4) That all lines must run under or over streets, and (5) in the event of the city engineer and the engineer of the company being unable to agree, that the point in dispute be referred to the railway board.

The suggestion of the minister of railways was agreed to, and the bill reported without the representatives of Toronto, Controller Ward, Ald. Mazuire and City Solicitor Johnston, being heard.

ARE YOU A VEGETARIAN?

If So, Here's an Opportunity to Mingle With Your Brethren.

To-morrow evening, at 261 Yonge-street, a preliminary meeting will be held of those interested in the formation of a vegetarian society in the city. Several efforts have been made in the past, but hitherto without result. Now, however, a vegetarian restaurant has been established, it is believed that a society to promote the adoption of health food can be made a success. All who are interested in the question are invited to attend.

The Sale of Colonial Drapery Fabrics

The Simpson Store holds the monopoly of these goods in this city, and we are confident that they are well ahead of all others. For use where continued exposure to the rays of the sun is unavoidable, Colonial Fabrics alone stand the test. Most of them are printed with super-lizarine colors, which are the result of exhaustive experiments by a staff of European and American chemists employed by the manufacturers of Colonial Drapery Fabrics. They are thoroughly washed after printing, and will hang all through our Canadian summer, and not grow anaemic-looking.

We would be pleased to have you see how cleverly Colonial Drapery Fabrics are made. An exhibition of eleven large copper cylinders used in the development of a single design, together with a printing from each roller, and several photographic illustrations, is being made on our Fourth Floor. The demonstration is supplemented by a special display of Colonial Drapery Fabrics, which have never been equaled for artistic merit.

Colonial Fabrics are not expensive. The prices range from 15c to 75c per yard.

We are going to offer a Special Inducement to try these beautiful furnishings, because we know by past experience that once used, always used. On Thursday we will sell 2000 yards Versailles Chintz, one of the most beautiful of these materials, at two-thirds regular value. Versailles Chintz, regular 35c yard, Thursday 24
