THERE IS NO CHINESE SITUATION

Li Hung Chang Will Remain in Canton Until Allied Troops Have Defeated Prince Tuan's Forces in Peking.

Then He Will Co-operate with Prince Ching, Yung Lu and Other Pro-Foreign Viceroy—Chinese Daily Driving in the Allies at Tien Tsin.

London, July 13.—The scanty cable despatches received to-day add nothing to the knowledge in London of the Chinese situation. It is stated positively from Canton that Li Hung Chang will remain there until the allied troops have defeated Prince Tuan's forces, and will then go north to lead his powerful aid in arranging the terms of peace, co-operating with Prince Ching, Yung Lu and the other pro-foreign viceroys.

Li Will Stay in Canton. For the present Li Hung Chang considers that as he can best control and direct the viceroys from Canton and also keep in check the turbulent province of Kwang Tung. All the foreigners and missionaries have evacuated Wen Chau, and have arrived at Ning Po.

Large bodies of Boers appeared at Wen Chau, and threatened to exterminate the foreigners and Christians. They also distributed banners, badges and inflammatory and foreign appeals.

Driving in the Allies. The Tien Tsin correspondent of The Express, telegraphing under date of July 9, asserts that the Chinese are daily driving in the allies. They have mounted six guns, and the correspondent, twelve fresh guns in advantageous positions, with which they are sweeping the streets of the foreign settlement, the incessant fire rendering position after position quite untenable.

Shanghai Captured Six Guns. The Daily Mail's St. Petersburg correspondent says that in the last six hours' battle outside of Tien Tsin the Cosacks captured six Krupp guns and killed a number of fleeing Boers. The Chinese lost 800 killed, including Gen. Kek.

Nieh Si Cheng Defeats Rebels Near Peking and They Recognized the Authority of Prince Ching and Gen. Yang Lu.

Brussels, July 13.—M. de Faberun, Minister of Foreign Affairs, has received a telegram from M. de Castler de Marchiennes, secretary of the Belgian Legation at Peking, dated at Shanghai, stating on the 10th inst. a Chinese source, the Chinese faithful to Gen. Nieh Si Cheng had defeated the rebels near Peking and that they recognized the authority of Prince Ching and Gen. Yung Lu, who strive to defend the Boers.

Chinese Hate the Russians. Governor of Moukden Ordered That the Railroad in Manchuria Be Handed Over to the Chinese.

Petersburg, July 13.—The latest official advice received here regarding the spread of the revolutionary movements in Manchuria add but little material information. On June 24 an edict on the Emperor's behalf ordered the Chinese troops to unite with the Boers.

Subsequently the Governor of Moukden informed the chief engineers that the railroad line must be handed over to the Chinese, and that all Russians must presently leave Manchuria. The engineers' protest and urge that the governor ask for the assistance of the Russians at Port Arthur to subdue the Boers and not allow the Chinese troops to be continued to mass, until the risks culminated in the murders and attacks on the railroad and towns already reported.

Little Room For Hope. That the Legations Have Survived the Terror of the Bombardment of July 7.

London, July 13.—A telegram at the office of the Chinese Imperial Maritime Customs in London from the governor of Shantung is identical with United States Consul Goodnow's report of the bombardment of the legations July 7. The officials here regard the despatch as leaving little room to hope the legations have survived.

LI IS ASKED FOR HELP. Received an Imperial Edict Calling for Troops to Put Down Prince Tuan.

Beijing, July 13.—According to a semi-official source from Canton, dated Thursday, July 12, Li Hung Chang on July 6 received a written imperial edict, dated June 17, and sent overnight, in which all the Governors were urged to dispatch troops with the utmost speed to help against the rebels, among whom Prince Tuan was clearly indicated.

Acting on this edict, which is said to be undoubtedly genuine, Li Hung Chang is sending some thousands of troops to Peking and the other Governors are promptly doing the same.

FOREIGN OFFICE HAS NO NEWS. Her Majesty's Government Unable to Communicate with the British Naval Officers in China.

London, July 13.—In the House of Commons the Parliamentary Secretary of the Foreign Office, Mr. William St. John Brodric, said that little news had been received from China. Her Majesty's Government had been unable to communicate with the British naval officers in China, as the land lines between Chefoo and Shanghai had been cut. A despatch purporting to have been sent from the Emperor of China to Her Majesty's Government was received yesterday, but the secretary said he was unable to promise to make its contents known.

Russians Advancing on Peking. Moscow, July 13.—It is reported from Vladivostok that Gen. Linvich, with a large army corps and a complete artillery brigade, is advancing on Peking. The Russians place great faith in Gen. Linvich, who is an officer of great experience and a skilful tactician. The troops he

A PRETTY GOOD PROSPECT

Contracts Made For All the Freight the Great Northern Can Carry This Year.

HAWKESBURY BRIDGE WELL ON

And the Road is Expected to Be Ready for Traffic by Middle of August.

Montreal, July 13.—(Special.)—"We have already made contracts for all the freight we will be able to carry during the present year."

This very encouraging statement was made today by Col. James McLaughlin, New York, one of the directors of the Great Northern, who has just made a tour of the road, including an inspection of the Hawkesbury Bridge, where the piers are all completed, and three of the seven spans of superstructure are in position; and the colonel said that the road from Quebec to Hawkesbury will be all trenched, ballasted and fenced by the middle of August, and that, in anticipation of a heavy traffic, 800 cars have already been ordered. The elevator which the company are building at Quebec will likewise be finished before the bridge, and will have a capacity of 3,000,000 bushels.

Altho the colonel would not say it is understood that work will be begun soon on the Joliette branch, thus bringing the Great Northern into the city of Montreal, over the projected 800,000 bridge over the Back River, which has just been authorized by the Federal Parliament.

BATES TOOK PARIS BREW.

An Affiliated Painter of London Became Tired of His Trouble.

London, July 13.—William Bates, a painter, aged about 60 years, and residing at 40 Wilson-avenue, London West, attempted suicide this morning by taking Paris Brew. Bates had been in ill-health for some time, and when this morning he notified his wife of his intention to end his life, she became alarmed and notified a neighbor. Bates was discovered in the back shed with a package of Paris Brew. He had evidently partaken of one of the contents of the package, and was found on the ground. He was taken to the hospital, and after some time he recovered. He is now recovering, but further rest apparently is necessary.

Boers Open Heavy Fire.

At daybreak yesterday the Boers opened a heavy fire on the British camp, and continued to do so until 10 o'clock, when they retired.

A Hot Fight.

Nearly every man was either killed or wounded. A Maxim gun was brought into action early in the day. The fire was hot and the men were forced to retire. A sergeant, aided by seven volunteers, saved the day. There was a continuous fire all along the line. The Boers were driven back to the position occupied by the British.

A Terrible Affair.

An officer and fifteen men attempted to charge the Boers, but they were killed. The Boers were practically surrounded, but they kept up a steady fire unavailingly, until a weary nightfall, when their ammunition gave out.

Boers Employing Armed Natives.

The latest arrival from the scene states that at the time of his escape the men were taking a good position under cover and with fixed bayonets were awaiting the approach of the Boers. It is understood upon good authority that the Boers have employed armed natives. Two of the natives leaped from cover when a small party from the Lincolnshire Regiment stepped up and demanded their surrender. A soldier stepped forward and shot both of the natives dead. The Boers succeeded in making his escape had an encounter with an armed native. It is feared that the losses of the British were around thirty of the British soldiers, according to all accounts, a great force is being assembled to prevent further progress of the Boers.

Grebler Had Four Guns.

Commander Grebler, who commanded the federal at Nitira's Nek, had four guns.

CLERY'S FORCE MOVES EAST

And Will Clear the Transvaal of Boers From Standerton to Heidelberg—Only One Linger.

Witpoort, Standerton, July 12.—Clery's column, which has moved eastward, is now camped here. During the march the mounted infantry engaged 200 Boers, shooting 100 of them. It is anticipated that this movement will clear the country from Standerton to Heidelberg, as the troops found but one remaining laager, from which the Boers retired surreptitiously.

ARE BOTH OF THEM DEAD?

Sir Alfred Milner Wires That Lieut. Young and Pte. Wynyard Are Believed to Be Dead.

Ottawa, July 13.—(Special.)—The following cable was received from Sir Alfred Milner, at the British Department today: "Lieut. Young, July 10th Report to report that Lieut. Young of 1st Bt. Mounted Rifles, slightly wounded at Witpoort, July 8, and Pte. W. Wynyard, 1st Bt. Mounted Rifles, missing since May 6, believed to be dead."

FURTHER DETAILS OF DISASTER TO SCOTS GREYS ON WEDNESDAY

Nearly Every Man Was Either Killed or Wounded in the Fighting Before Their Ammunition Gave Out—Boers Employed Armed Natives.

London, July 14.—Lord Roberts has sent nothing further concerning the Nitira's Nek affair. Pretoria despatches, however, show that the Lincolnshires lost half of their officers, including Col. Roberts, who was wounded and taken prisoner. Staff officers continue to arrive at the camp, but few further details can be gathered. The British fought stubbornly until nightfall, when the cavalry turned their horses loose. The Boer ranks of the engagement placed the British casualties at over 200.

Boers Were Killed and Helmeted.

In the Durpoort affair, mentioned in Lord Roberts' despatch, the men in the front rank of the Boers were killed and helmeted, and the Dragons passed them unsuspectingly, under the impression that they were Hussars. The mistake was not discovered until the Boers opened a heavy fire when the Dragons were within 400 yards.

Devot Has 10,000 Men.

British prisoners who have escaped to Kroonstad report that Gen. Devot's force of 10,000 men, with ten guns, expects to be met by Gen. Clements and Lieut. Paquet, have taken up a strong position on the Joliette branch, thus bringing the Great Northern into the city of Montreal, over the projected 800,000 bridge over the Back River, which has just been authorized by the Federal Parliament.

THE LINCOLNSHIRE DISASTER.

Further Details Show That a Great Many Were Killed or Wounded.

Pretoria, July 13.—The Star publishes further details of the disaster to the Lincolnshires on Wednesday. It appears that five companies were ordered Tuesday to proceed to the Durpoort. They were met by three companies, with two guns, took a position, and camped for the night, leaving two companies on a plain south of the Durpoort. The Boers were in a position, and camped for the night, leaving two companies on a plain south of the Durpoort.

NEWS GOSSIP FROM OTTAWA

Date of Prorogation of the House All Depends On the Action of the Senate Now.

OPERATORS WANT MORE WAGES

Special Clerks, Newly Appointed. Claim That The Two Classes Live in Ottawa on Their Salaries.

Ottawa, July 13.—(Special.)—Mr. Casey (West Block) will ask the Government what it knows about the Pacific cable scheme to-morrow morning.

Canada Atlantic Operators. The success of the I.C.R. telegraph operators in their strike for better pay and shorter hours has stirred up a desire for emulation on the part of telegraphers elsewhere, and it is stated that the C.A.T. telegraphers are meditating a strike on similar lines. It is expected, however, that a demand will be made till after harvest, when the great amount of traffic may give them better chances of succeeding. The C.A.T. telegraphers belong to the International Union of Telegraphers, and would have ample support all over the country.

New Clerks Are Kicking.

The fifty or more clerks brought to Ottawa to inaugurate the new statistical branch of the Customs Department are not satisfied with their treatment. They claim that the cost of living is higher than in the places where they were previously stationed, and besides they were promised an increase of salary if they came to Ottawa. The increase has not come yet, and even salaries have not been paid yet, and the new branch has been going over two weeks. Not only in this branch but also among all the civil servants there is much discontent, because there is not money available to pay them.

Date of Prorogation. It is now believed that Parliament will not prorogue till next Tuesday, July 17. If the Senate stands out on its amendments to the Election Act the end may not be reached till next Friday.

Some of the Liberal members would have tonight, but will still be promised to be on hand on Monday.

A Rush Expected To-day. Much business is expected to be rushed to-morrow, but still there are many estimates yet to be scrutinized, and to-night is the critical criterion. Such items will be pretty thoroughly discussed. The speaker's amendments to the Election Act may arouse a discussion in the Commons, and in this hot weather tempers are apt to be lowered, and discussion may run wild. The best opinion seems to be that Wednesday is the nearest date for the break-up.

There is no doubt that the Government expected an easier passage through the House of Commons. Mr. Wilfrid Laurier held Lord Strathcona that Saturday would see the final, yet Ministers somehow do not seem to be in a hurry to get the bill through. The man who would the position of the Government.

Mr. Fielding said that the claims to which Mr. Foster referred in Nova Scotia were not referred to any arbitrator.

Want Clute, Q.C., as a Judge. A petition signed by the members of the Belleville bar has been received at the Department of Justice, praying for the appointment of Mr. C. Clute, Q.C., to the vacancy in the High Court Bench. The Government, however, wants to keep Mr. Clute as conciliator for labor troubles, after having accepted an advisory strike. The man who would the position of the Government.

Places for Politicians. Mr. Bergeron replied that the Government desired to appoint three new judges in order to give places to three political friends. He complained of the present system of legal administration, and pleaded for a redistribution of the judges, holding that the Government would do away with the need of additional judges.

A Realist Cry. Many Liberals are crying out for a desire of raising a cry against the Senate and of trying to show that the Senate, being in majority Conservative, was working against the French-Canadians. It was the real cry again in a different form, but it took Bourne and Moore in its train.

Why Sir Wilfrid Refused. Mr. Fielding said that the claims to which Mr. Foster referred in Nova Scotia were not referred to any arbitrator.

SENATE'S BRAINS AT WORK

Making Alterations in the Election Law. Which the Commons Will Slightly Retract to Accept.

Ottawa, July 13.—(Special.)—The Senate was very much in evidence to-day. Hon. Mr. Mills announced that the Senate would sit twice on Saturday.

The senators devoted their energies to the Election Act all day, holding three sessions and making much progress.

Did He Think of China? Sir Mackenzie Bowell thought of China when he moved to extend the protection for voters beyond soldiers in South Africa, by adding "or any other who waged against Her Majesty's Majesty."

Hon. Mr. Mills did not like this and suggested that the clause should be altered so as to make it "man or woman, whether in Canada or abroad."

Questions of P.E.I. In the afternoon Senator Ferguson drew attention to the peculiar circumstances of Prince Edward Island, and moved a number of amendments, moved and voted down in the Commons.

More questions were asked about the amendments and declared the majority in the Commons would never accept them, because they had already been rejected.

On separate votes, Senator Ferguson's amendments were carried. The penalty of imprisonment was put at 180 and one month's imprisonment as a minimum and the maximum at 180 and three months' imprisonment. Both were made imperative.

More Amendments. In the evening the Elections Bill, with amendments already voted, went to committee and the clauses that had been made to it were reviewed.

Sir Mackenzie Bowell moved that the provisions relating to the deputy returning officer removing his name from the list should be amended by adding the words "destroy the same." This carried.

Sir Mackenzie moved additional clauses, aiming to overcome the residential clauses of the Ontario Act and to allow voters who may move in the same city or town, so long as they are still residents, to retain their votes. This carried.

The committee reported progress and got leave to sit again. A message from the Commons was read, refusing to concur in the Senate amendment to the Quebec Judges Act. The Senate adjourned on Saturday at 11 a.m.

SCHEME IMPORTED FROM ENGLAND. Will Go in Canada From the Rush of Applications

SENT TO MILITIA DEPARTMENT. Yet Horden is Fettered and Going Back on the Terms of His Speech of June 25.

The scheme, imported from England, of forming rifle clubs of civilians, unconnected with the militia, has been received in Canada with enthusiasm. The Militia Department is overwhelmed with applications for Governmental authorization of such rifle clubs.

But so far a definite policy in regard to them has not been declared upon. On Monday, June 25, in the House of Commons, an interesting debate was held upon this very topic. The following extracts from Horden of that date will be of interest to our readers.

The Minister of Militia and Defence: "The Militia and Defence: The most important one to be learned from the war in South Africa, is the importance of teaching not only the volunteers, but every body who is willing to learn the use of the rifle."

The Minister of Militia and Defence: "We have already done a great deal in Canada in that regard. We have appropriated money in Parliament for the encouragement of rifle clubs, and we have now a Government rifle club in every town and village in the Dominion."

AMONG CANNIBALS.

Interesting Discoveries in Central Africa by Mr. J. H. Moore Just Back in London.

London Mail: The problem of how the apple got into the dumping bins into the significance of the "jelly-fish," the crustaceans and the Tanganyika, but Mr. J. H. Moore, who has just come back from Central Africa, believes he has discovered how the fish from the sea got into the lake in the middle of the continent.

Mr. Moore is one of the young men at the Royal College of Science, South Kensington. He was leader of an expedition, largely subsidized by the Royal Geographical Society, and after a year's march of over 2000 miles from the Zambesi to Uganda he has come back with hundreds of specimens and several important additions to the knowledge of Central Africa.

He has encountered cannibals, volcanoes and glaciers, and solved a long-puzzled problem, "Stitch," in the Ruwenzori Mountains, or Mountains of the Moon, at a height of about 16,000 feet. The mountains are covered with ice to a depth of hundreds of feet, for the snow melts in the day and freezes at night.

Mr. Moore and the 20 Ujiji boys who accompanied him lived on goats during the ascent and descent, driving the goats and killing them when food was wanted. The Ujiji boys were so struck with the phenomenon of ice that they tried to carry bits down to Ujiji. The tropical sun nearly boiled the ice on the way.

Between Tanganyika and Lake Albert Edward is a lake called Kivu. The water in this lake is very hot, and it is said to be the only lake in the world in which the water is so hot. Mr. Moore was accompanied by Mr. Malcolm P. F. Patterson, a geologist, and a party of 20 Ujiji boys.

It was between this lake and Kivu that the cannibals were first seen. They were light-colored men, more like Arabs than the negroes, and ate their own kind. They were very fierce, and Mr. Moore never had to fight them.

The primary object of the expedition was to find out the source of the Nile, and to see whether the Nile and the Congo were connected. Mr. Moore believes that the Nile and the Congo are connected, and that the Nile is the source of the Congo.

When Tanganyika was left behind, it is not clear in the centre of Africa, the jelly-fish and crustaceans of the Nile and the Congo are found. They have been there many thousands of years, for the Nile and the Congo are found below the chink level.

ACCIDENT TO THE CORSIKIAN. Cyclist Blew Out Last Evening at Cobourg—Passengers Forwarded by Rail.

Cobourg, Ont., July 13.—The R. & O. Navigation Company's steamer Corsikian, on her downward trip, blew out her cylinder at 8.30 this evening, and will be detained until considerable repairs are made.

PT. HATTON IN ENGLAND. Kingdon, July 13.—Yesterday afternoon the parents of Pte. James Hatton, first contingent, received from him a cablegram announcing his arrival in England. He has been invalided home, and will start for Canada with the next batch of men.

Robbers Will Plead Guilty. Quebec, July 13.—McCarty and Mori-mo, the Danville bank burglars, now in jail here, have written to District Magistrate Milver, of Sherbrooke, to say that they want a special plea of guilty to the charge of robbing the bank. They express the opinion that it is useless for them to wait longer in jail, without sentence, as it will count nothing on the term which will surely be awarded them.

PRAYER MEETINGS ALL DAY.

Christian Endeavor Delegates Held a Pilgrimage to Wesley's Chapel in London.

London, July 13.—The World's Christian Endeavor Convention opened to-day with a general pilgrimage to Wesley's Chapel, where prayer meetings were held hour after hour.

The delay in the arrival of 700 American Christian Endeavorers necessitated alterations in the elaborate program for the Sunday services. In the meantime the Christians everywhere from the United States are everywhere prominent.

Roddick, A.M.S., G.G.H.S., transferred to the medical reserve of officers, June 3, 1900.

BAPTIST YOUNG PEOPLE. Great Gathering in the Music Hall at Cincinnati—Toronto Delegates Present.

Cincinnati, O., July 13.—The Music Hall, with a seating capacity of 5000, was packed to-day at the second session of the Tenth International Assembly of the Baptist Young People's Union. A banner series, illustrative of polygott missions in America, included an address by Field Secretary H. L. McGowan, of New York, on "Our Opportunity and Obligation."

The following officers were elected: President, John H. Chapman, Illinois; Secretary, W. E. L. Smith, Virginia; Recording Secretary, H. W. Reed, Wisconsin; Treasurer, Frank Moody, Wisconsin.

Among those elected members of the Board of Managers were: W. E. L. Smith, Ontario; recording secretary, H. W. Reed, Wisconsin; treasurer, Frank Moody, Wisconsin; and Charles Eaton of Ontario.

HAD NO NEWS OF PEARY. Philadelphia, July 13.—The bark Catcum, Capt. Smith, from Iqviut, Greenland, arrived here to-day with a cargo of sealion. The bark was expected to bring tidings from Lieut. Peary, who is in the Arctic regions in quest of the North Pole, but there was no news of him.

Superstitious people can blame the calendar for anything that did not go right yesterday. It was Friday, a day with a bad name for luck, but worse than that, the day of the month was the 13th. Thirteen and Friday is an awful combination and all the black cats stayed at home in preparation to go out and raking their fortune.

Friday is the second time Friday has been the 13th of the month this year. Good Friday fell on the 13th of April. But Friday on which the 13th is to happen this year.

TRADERS KILLED AND ROASTED

Some Had to Watch the Hopsible Feast, Knowing They Would Be Next.

Victoria, B.C., July 13.—From New Britain comes a horrible story of cannibalism, which occurred about six weeks ago, when a party of traders were captured, clubbed to death, roasted and eaten by Kanakas of the coast.

Some of the prisoners were compelled to witness the terrible fate of their comrades while tied to trees waiting their own turn to furnish the Kanakas with their gasty feast.

The steamer Mowera, which has just arrived from the colonies, brings details of the affair from Sydney. The correspondent who reported the tragedy described it as the worst case of cannibalism he had seen. Details were given in letters to Sydney via Samoa, to which port they were carried by the German cruiser Sea Adler.

The letters were from the New Britain correspondent of Nelson & Robertson of Sydney, captured by the Mowera.

The scene of the tragedy was the same in which a German naval officer was recently killed by a native. The writer says: "A party of bushmen, nearly all white, the number not known, and from Cape Orford, have been murdered and eaten by Kanakas on the coast. The party had been trading with the natives, and when they got to land the canoes they were fired upon and sunk. Many were then killed and their bodies carried ashore."

"Several men were captured alive and dragged to the scene of the feast their bodies were provided. They were clubbed to death and roasted and eaten. Some were kept alive until they had seen their fellow-victims eaten."

News of the Mowera. "The tribe," says the correspondent, "is one of the most notorious in the islands for cannibalism. They are not head hunters in the Solomon Islands, but do so. The first step is to kill for food solely."

"The German Government has taken steps to teach these people a wholesome lesson. The villages are to be destroyed and burned."

Matrimony 4000 Years Ago. In a little town Oxyrhynchus, in Egypt, a young man, who is now in the New York Press, has discovered a new method of matrimony. He has discovered a new method of matrimony. He has discovered a new method of matrimony.

U. S. OFFICIALS DEPRESSED. They, Too, Have Come to the Conclusion That All the Foreigners in Pekin Are Dead.

Washington, July 13.—A short cablegram received at the State Department to-day from Consul-General Goodnow at Shanghai announcing the beginning of the hostilities on the legations at Pekin, terribly depressed the officials here. All along they have supposed that the various communications received from Chinese sources in Shanghai have been preparing the way for the announcement of the extermination of the foreign ministers, and their wives, children, attaches, dependents and guards.

The Consul-General's message, it is understood, is a repetition of the latest reports from Shanghai, but the State Department has come to place a high estimate upon Mr. Goodnow's advice. It does not believe that he is so much to be depended upon as he is supposed to be.

THE INVULNERABLE HEROES.

Preparations Made at Quebec to Give Them a Right Warm Reception.

Quebec, July 13.—A committee has been appointed to coordinate the reception of the 28 invulnerable heroes from Seneca Falls, who are to arrive here to-morrow morning on the 88. Parliam. In any of the men are too ill to go into these quarters they will be sent to the Military Hospital, where they will receive every care and attention.

At a quarter past three o'clock this afternoon a public meeting of the citizens was held at the City Hall. It was a very representative one. The Mayor, Mr. A. T. Truogay, occupied the chair. The object of the meeting was for the purpose of considering the best manner of receiving the invulnerable heroes. A committee was appointed to coordinate the reception.

Breakfast on the Steamer. It was decided that on the arrival of the steamer, a tender will await the heroes and take them on board, where breakfast will be provided for them, and after receiving a welcome from the Mayor and other dignitaries, they will proceed to the Reception Committee, the steamer will convey them to the Queen's Wharf, where the disembarkation will be made precisely at 8.30 a.m.

The R.C.A. and B.C.R.I., together with the State Band, will await their arrival, and together with the local militia, will escort the invulnerable sons of Canada to the Citadel. An address of welcome will be read by the Mayor. Vehicles will be in attendance to convey to the Citadel the men who are unable to march in the procession. The officers and men of the ships in port are to be invited to participate in the demonstration. The men of the R.C.A. who reached the town from Dawson City this morning will parade in their Yukon uniforms.

Pte. Kennedy Did Not Sail. London, July 13.—In addition to the names called on Tuesday, the following Canadian soldiers, invalided from South Africa, are on board the S.S. Pretoria, which should reach Quebec to-morrow: PTE. MICHAEL J. MCCARTHY, 4th Regiment, Canadian Artillery, New Brunswick, G. Company.

PTE. A. H. TAYLOR, 43rd Ottawa Company, PTE. R. H. BREA, Nelson Rifle Company, PTE. CRANDALL CREIGHTON, 74th Battalion, G. Company.

PTE. H. HARVEY, Royal Canadian Regiment of Infantry, F. Company. SERGT. F. W. ACKHURST, Hamilton Beaver Company, B. Company.

In the first cable the name of Pte. James Kennedy of the Quebec's Own, who was wounded at Paardeberg, was given, but the War Office now announces that he did not sail.

France Follows the U.S. Paris, July 13.—The Chinese Minister here has communicated to M. Delcasse, the Minister of Foreign Affairs, an important document dated June 25. To this Mr. Delcasse has replied that since the Chinese Government had the means to communicate with its representatives abroad it should guarantee communications between foreign powers and their representatives at Pekin, and he has therefore charged the Chinese Minister to deliver a telegram to M. Michon, the French Minister to China.

Italian Contingent. Rome, July 13.—A contingent of troops for China will leave Naples July 18. According to the Tribuna a second contingent, which, like the first, will be composed of two battalions, will be sent. The expedition army corps will thus be raised to 5000 men.

GOLD-WATER CURE FOR LOVE.

Spanish Bismarck of Lima Springs Bitter, Leaves-Sick Lasses to Their Senses.

From The British Medical Record, in a recent number of The Sigilo Medico, Dr. Martinez Segura gives an account of a spring in Spain, the water of which, according to him, has the property of curing the pangs of distended love. This wonderful water is situated at Alcala, and is held in great repute for hysteria and nervousness of all kinds. It is reported that the waters of the spring are so pure that they are used for medicinal purposes.

WHY GOLDEN STAR IS WEAK

Official Figures Regarding Athabasca's Mill Run for June—Saved \$58 For Each Ton.

AROUND FRANKLYN CAMP, B.C.

Latest From Texas re Van Andam—Up the North Fork of the Kettle River, B.C.

The reason for the weakness in Golden Star, which has declined to below seven

cents, was found in a street rumor to the effect that the directors of the company

had contemplated the sale of the property placed with the Jewcker for an additional

stamp to be added to the company's mill.

This rumor is not true. The World investigated the case yesterday and was

informed by the company's president that when the management placed the order for

the stamps (delivered to be in 30 days) the Railway Navigation Company undertook

to transport the machinery from that place to Mine Centre at any time, then,

however, the water in Rainy Lake seriously impeded navigation. One of the

navigation company's steamers has run ashore, and its bar Passage boats cannot

get further up the Rainy River than a point 40 miles below Fort Frances, and

even if it were to get to the mouth of the lake, the water is so shallow that

the boats would be again blocked at the mouth of the lake, where the water is also very

low. The Golden Star president stated to the World yesterday the result of this

state of affairs is that the expense of taking the stamps to the mine to-day would

be greater than their original cost. For this reason the management has requested

the people to delay the furnishing of the stamps.

A heavy series of rains in the Rainy Lake basin would probably amend the

situation, and if no such solution occurs the company would take in their new

machinery over the ice.

Van Andam Looking Well. Report just received from Vancouver says

Van Andam has been struck on the forehead level on the Copper Queen.

Cornell is looking well and lots of ore on the road pile ready for the mill.

Evidently the mine is prospering and the water is spreading fast and favorably

over the ice.

Official Report of Athabasca Manager. Messrs. Hall & Murray have just received

the following official statement as to the Athabasca mill run for June, with

the following figures:

Period of run 20 days, 9 hours. Number of tons milled, 475. Value of concentrates recovered, \$91,078.

Total value recovered, \$27,047.80. Value of mill ton of ore milled, \$45.00. Value of concentrate per ton of ore, \$12.46.

Total value recovered, \$58.84. Percentage of recovery in mill 86.6 per cent.

Yours truly, (Signed), Nelson Fell.

In the above account has been taken of the values in the tailings, which are considerable, and being saved by the treatment by the cyanide plant, which it is proposed to install immediately.

The Slater Natural Shape

One of the twelve shapes in which "The Slater Shoe" is built. Modelled on the lines of a perfectly natural foot, consequently one of the most comfortable and comely shapes of the day.

An extra thickness from ball of foot to toe gives ample room for joints.

There's breadth in this shoe conforming to the breadth of the foot.

Made in six widths, dependable leather, black and popular shades.

Every pair Goodyear welted with makers' name and price stamped on the sole in a plate form, \$3.50 and \$5.00.

This is a guarantee of value and a protection against extortionate profits.

The Slater Natural Shape

One of the twelve shapes in which "The Slater Shoe" is built. Modelled on the lines of a perfectly natural foot, consequently one of the most comfortable and comely shapes of the day.

An extra thickness from ball of foot to toe gives ample room for joints.

There's breadth in this shoe conforming to the breadth of the foot.

Made in six widths, dependable leather, black and popular shades.

Every pair Goodyear welted with makers' name and price stamped on the sole in a plate form, \$3.50 and \$5.00.

This is a guarantee of value and a protection against extortionate profits.

PROMINENT CHIRURGEY AND DISPENSARY "OZONE"

REV. DR. CHOWN, President Toronto Methodist Conference.

REV. DR. PARKER, Past President Toronto Methodist Conference.

REV. DR. FAWCETT, Founder of the "Fawcett" Scholarship in Victoria University.

Positive Statements from the Most Reputable People in Canada, Proving Conclusively the Superiority of the New System of Treatment Over All Others—Can the Public Ask More?—Do They Expect More?

The proof of the marvellous curative properties contained in Powley's Liquid Ozone continues to come in from almost every section of the city. People in all walks of life are giving the most convincing testimony in favor of the new treatment, and proving conclusively that its power over disease is truly remarkable.

REV. DR. CHOWN, President Methodist Conference, Prizes Ozone Highly.

REV. W. R. PARKER, D.D., Praises the Excellent Curative Properties of Ozone.

REV. DR. FAWCETT, Strongly Commends Ozone, and Believes It an Excellent Remedy for Stomach Troubles.

Mrs. Chown Gives Additional Testimony, Recommending the New Treatment for Bronchial Troubles.

GEN. CHOWN, Toronto. Gentlemen,—Mrs. Chown has found Ozone of great benefit for many ailments in our family, and praises it very highly.

REV. DR. CHOWN, President Methodist Conference, Prizes Ozone Highly.

REV. W. R. PARKER, D.D., Praises the Excellent Curative Properties of Ozone.

REV. DR. FAWCETT, Strongly Commends Ozone, and Believes It an Excellent Remedy for Stomach Troubles.

Mrs. Chown Gives Additional Testimony, Recommending the New Treatment for Bronchial Troubles.

GEN. CHOWN, Toronto. Gentlemen,—I have much pleasure in testifying to the curative qualities of Ozone. Since using it I have had NO RETURN OF BRONCHITIS, which had been seriously troubling me, having had four attacks. I consider that for inflammation of any kind Ozone HAS NO EQUAL.
