# Armies Seven Spend a Quiet 3 Months

**Reconnoitering Parties in Constant Touch, but Losses Are Unimportant—Clash on Friday Last Ended in a Russian Reverse.**

Fusan, July 25.—The past three months with both armies has been the quietest period of the entire war. There have been no engagements at the front, the only encounters being those of reconnoitering expeditions sent out by both armies with a small total of losses.

The Russian and Japanese lines are seven miles apart. The Russians maintain a screen of cavalry outposts, some miles in front of their trenches to guard attacks. Reconnoitering forces from both sides traverse the neutral zone, frequently feeling the strength of the others at the front and making a small weekly list of killed, wounded and captured.

The fight reported on Friday was the first of mention which has occurred east of the railway. Two Russian reconnoitering forces approached the Japanese line, one about twenty miles, the other seventy miles east of the railway. The first contingent consisted of two squadrons of cavalry, the second of two battalions of infantry. Both retired after brief encounters.

Russians Lose 100.

The Japanese sustained no losses, but those of the Russians are supposed to have been nearly 100.

In the first encounter the Russian cavalry, with its front ranks of thousands of men, advanced upon the Japanese line until it came under fire, when it retired to the south and then to the east. The Japanese fired 40 rounds with a captured Russian battery, but the Russian line was not broken. The Japanese following them for ten miles.

# Horse, Wagon and Driver Somersault Over Fence and Down Hill; Unhurt

**Trolley Bumped Into Blind Equine at Dundas-Street Bridge and the Animal Reaches Railway Tracks After a Most Surprising Flight Thru Space.**

After having his wagon jolted by a street car while crossing over Dundas-street bridge, causing horse, wagon, driver and all to plunge thru the railing at the eastern end of the bridge, a horse and wagon fell over a 20-foot embankment, dashed thru a second fence and finally on the railway tracks below, where a most surprising flight thru space.

Mills was returning from a business tour of the Junction, and was driving in his light sewing machine delivery wagon. He was crossing the bridge on the back of the wagon. The light horse was driven forcibly against the horse, just at a time when the latter was facing the wooden rail which commences at the end of the bridge. At the point the iron railing of the bridge spreads out, making a wide approach. The wooden railing along the edge of the road guarding the embankment commences where the iron rail stops and sweeps inward until it reaches the normal width of the road. Into the "V" where the two fences join, the horse and wagon fell, and when the car bumped the wagon he lost his head.

Mr. Mills rose and found the horse scrambling up to its feet. He linked his legs to the wagon and started down the track to the nearest gate.

Making his way home he put some liniment on his finger and stabilized the horse. He said that it might be afraid of the cars for a few days, but he thought it would be all right after a night. He felt a little tired.

The spot is coming to be known as the Horse's Leap. It seems impossible to jump a horse over a five-foot fence near this spot and managed to carry a wagon over without doing any damage.

# WATCH PUBLIC LEGISLATION DUTY OF MUNICIPALITIES

**Annual Meeting of Canadian Union Begins—Provincial Organizations Are Advocated.**

Winnipeg, July 25.—(Special.)—The convention of the Union of Canadian Municipalities opened today with a large attendance from the east, Manitoba and the Territories. Mayor Uquhart of Toronto, in the absence of Mayor Laporte of Montreal, president of the union, occupied the chair.

Mayor Thomas Sharpe welcomed the delegates to Winnipeg. In the course of his address he showed how municipal government is growing in importance, and intelligent citizens are taking a keen interest in its administration. He emphasized the necessity of municipalities using vigilance in watching all classes of legislation, whether provincial or federal. He pointed out that the meeting would be the most beneficial to Winnipeg at the present time, as she has some important municipal problems to solve.

Aid. Couture of Montreal responded on behalf of the convention, expressing regret that Mayor Laporte was unable to attend. Montreal, however, he added, shows her interest in the convention by sending the largest delegation.

In closing, he congratulated Mayor Sharpe upon the handsome appearance of Winnipeg.

The president's address was given by Mayor Uquhart, who referred to the battle in the house of commons over the Toronto & Hamilton Railway two years ago in which Montreal came forward to fight for the rights of the city. There should be provincial union in such provinces, meeting annually, and appointing delegates to the convention of the Union of Canadian Municipalities. Provincial organization could look after legislation in provincial assemblies, while the Dominion union could watch the interests of municipalities in the House of Commons. The annual report of the secretary-treasurer was read by W. D. Lightfoot. The union, he said, has had a history of continued success since its formation. There are now over 150 members, comprising practically all the leading municipalities of Canada. The principal event of the year is the formation of the Dominion telephone committee, which had been the means of throwing a flood of light on the telephone situation in Ottawa and Montreal, resulting in the passage of a bill for a corporation act.

# Determination to Block Government Business Carried So Far That 27 Private Bills Are Sent Over for a Year.

London, July 25.—The members of the opposition in the house of commons, practically led by John Redmond, the Nationalist leader, who was the mainspring of the recent defeat of the government yesterday (Tuesday) inaugurated their threatened plan of making government business impossible, and in pursuance of which they managed to keep the house in stormy session until 3 o'clock this morning. Mr. Redmond, maintaining a constant recourse to closure as the only means of advancing business. Supporters of the government, warned by the recent disaster, loyally stood by Mr. Redmond, maintaining a majoriety in the neighborhood of 60.

One phase of Mr. Redmond's obstructive tactics is likely to arise next session. It consisted in blocking private bills for enterprises promoted at vast expense by municipalities and commercial companies for public works, such as roads and tramways. More than 27 such bills were blocked yesterday, the effect being to delay their operation for a whole year.

# MODERATE INDEMNITY ONLY AND PEACE TRULY WANTED

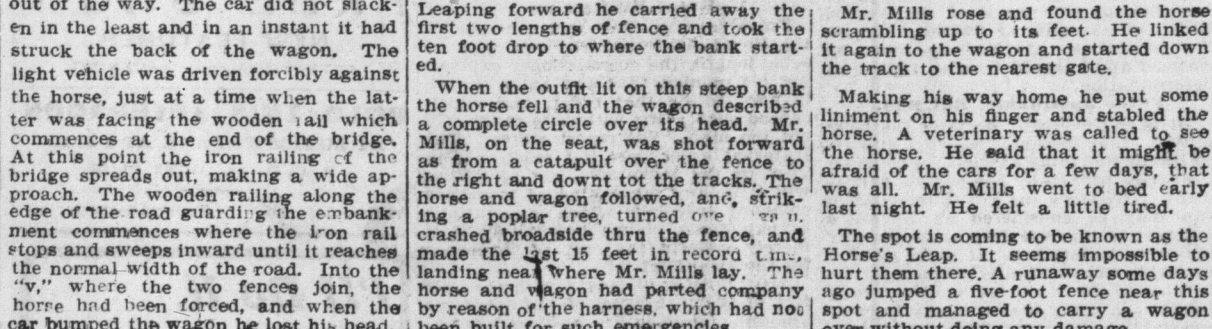

**Spokesman of Japanese Plenipotentiaries Says War Must End for Humanity's Sake.**

New York, July 25.—That Japan will demand an indemnity from Russia in the negotiations for peace, and that the war will be declared at an end, at the conclusion of the negotiations at Portsmouth, N.H., next month, is the belief of Baron Komura, head of the Japanese peace mission, as voiced by Ainar Sato, official spokesman for the baron. The party arrived here today.

Mr. Sato, in an interview to-night, said: "I am confident that peace will be successfully negotiated by the appointed delegations. The Japanese will be guided by moderation, and no excessive demands will be made, but the sentiment in Japan and Russia is for peace, and in the interests of humanity and propriety there must be peace."

The cost to Japan, however, has been great. The war is costing Japan one million dollars a day, and there is a feeling that there ought to be an indemnity.

Asked as to the probability of an armistice, Mr. Sato said that that probably would be among the first questions the plenipotentiaries would consider. Based on previous treaty negotiations, Japan will make the demands for Russia's consideration, he said. The peace terms were formulated by the emperor of Japan and his council.

He was sitting in the rear of the car, and was returning to the front of the car, when he had gone a block, found Mr. Fischer and was stopped in front of Dr. Walker's office, and the doctor was called to his assistance within five minutes, but his life was extinct.

**St. Thomas News Handed, Accepted as Well-Founded.**

St. Thomas, July 25.—(Special.)—There is a persistent and apparently well-founded rumor in local railway circles at present to the effect that the Canadian Pacific has secured complete control of the Pere Marquette, and, in fact, the entire C. H. & D. system.

It is known that the C.P.R. has been looking for a better entrance into Buffalo and for a line into Chicago, and the acquisition of the C. H. & D. and P. M. systems would give this, besides furnishing a line thru other much-desired territory.

His effort was made too late. The hind wheels of the wagon remained upon the tracks and were caught by the engine as the train swept past.

When he started down the steep hill that leads to the crossing, the reins, he endeavored to avert his team and himself from the approaching death.

"Captain, Arlington: Will you see carried out until further orders that the boat trip is so arranged that it will leave Bay-street wharf at 7.30 each evening, calling at Ward's Island wharf on her way to Fisherman's Island and call also at Ward's wharf on her return journey.

Such are the orders which it is said, owing to a request from Ald. McBride, were conveyed to Capt. Porter, who is in charge of the city's free service for bathers.

There is a second letter which the captain also received from Mr. Williams: "Complaint is being made that you omitted to call at Ward's on your return after the 7.30 trip. I find you were very short of coal and I am sure therefore you should have called. In future you must have a small percentage over your exact complement before omitting to call on your return. I shall have to put someone to count you in."
