## INSURANCE BILL IS FINALLY PASSED

### Only Clause Relating to Tax on Unlicensed Contracts Is Withheld for Debate To-day—It May Be Illegal.

OTTAWA, May 16.—(Special.)—Rapid speed was made in the commons with the insurance bill on Saturday and in committee all of the 192 clauses, except that relating to the 15 per cent. tax, were passed. This contentious matter will be taken up on Monday.

During the day Mr. Fielding announced the government's intention to create a sinking fund. R. L. Borden opposed the appointment of a minister of labor as unnecessary. Hon. A. B. Aylesworth, edged into a corner, finally admitted that the government had received certain representations from British Columbia as to race track gambling.

Prior to taking up the insurance bill Mr. Fielding introduced a resolution declaring it expedient that in Canada, effected in any unlicensed company, the person effecting such shall pay to the minister of finance a sum equal to the consolidated revenue fund a total of 15 per cent. of the total net cost of the insurance so effected.

Mr. Fielding said the resolution would gauge the temper of the house. Upon the clause on which was based the resolution there was much difference of opinion, but it would accept the judgment of the house.

Law is Evaded.  
He pointed out that the object of the Canadian law was that when licensed companies comply with the law unlicensed companies should not be allowed to do business without restriction. However, the machinery for this was defective and it was evaded by entering into contracts outside the company.

The clause was designed to raise the question. In its original form, parties who came into Canada to do insurance would be considered as doing insurance. Property owners, however, had resisted this proposal on the ground that they would be at the mercy of the insurance combine. A compromise was effected and the plan of proposing a reasonable tax was proposed.

Mr. Fielding said that New England mutuals and individual underwriters did much business in Canada. The former, by sprinklers, and other forms of protection, greatly reduced risks and by a system of rebates greatly reduced the cost of insurance.

The tax, he said, would be not on the nominal, but the net rate. One manufacturer feared that his premiums would thereby be increased from \$400 to \$900. It would only be increased to \$500.

Mr. Haggart doubted if parliament had the power to impose such a tax, and this doubt was expressed by several of the speakers.

To Have a Sinking Fund.  
Speedy progress was then made with the bill in committee. In the afternoon, all of the 192 clauses had carried except that relating to the tax. The bill was accordingly reported.

The commons then went into committee on Hon. Mr. Fielding's resolution to authorize the government to float a loan amounting to fifty millions. The minister of finance said that obligations were maturing and they requested funds to meet these. To meet the 1888 loan of six and a half million pounds, \$20,874,000 was requested, \$17,750,000 for the 1884 4 per cent. loan, and \$3,124,000 for the 1890 4 per cent. loan, altogether about \$26,000,000.

Mr. Fielding added that it was the intention of the government to establish a sinking fund for the purpose of the bill was allowed to stand for third reading, and Sir Wilfrid Laurier moved the second reading of the bill.

## THE WEATHER AND THE CROPS.

Never was there a more persistent lot of disconcerting weather in the spring than this year. For two months and more the predominant characteristic of the weather has been absence of sunshine, the almost certainty of cloud and rain, and the continuation day after day of these conditions. "It will turn to-morrow, surely," said the hopeful man, but it didn't.

According to the experts one of the well-known marks of weather is that predominating characteristics of a season tend to continue rather than to change to the opposite; in other words, if we have a wet spring it is still going to be wet, and if things run in the direction of a dry season, why it will run in that way.

This is not saying a great deal, but still it is a well-known fact and those interested in the weather sometimes govern themselves by it.

The farm and fruit lands in this province have been soaked time after time this spring and only where tile or natural drainage existed have there been any favorable conditions for getting in the crops; nevertheless, a fair amount of seeding has been done and all is not discouraging to the farmer. In the matter of grass seeds, we don't think that for years has there been such a fine catch of clover, both in the fields that were older. The timothy meadows are not so distinct in their promise of a good yield as the clover, but certainly the one bright spot in the outlook these days is the promise of a great clover yield.

What goes with this is the splendid pasture now springing up in all the meadows and the certainty, therefore, of abundance of grass for the summer and hay for the winter feed of cattle.

It is too early yet to say what will be the effect of this long continued spell of discouraging weather on the ordinary field grains, but the hope is that the season will yet change and in the next two or three days the farmer who has not yet completed his seeding will be enabled to do so by the presence of sunshine and drying winds.

More and more it is being forced into the mind of the Ontario farmer that tile drainage is his one best investment. And another thing that seems to be coming home to most farmers is that our spring is in many years a very short season and must be taken advantage of by fall preparation of the ground, by good seed, and by the very best implements that will do the greatest amount of work in the very shortest time.

Work your land in the fall all you can; drain your land wherever you can; and get your seeds in in the bright days of spring with the best possible implements.

## AN EARTHQUAKE FELT THROUGHOUT THE WEST

### Manitoba, Saskatchewan and Alberta Feel Shocks on Saturday Night Sufficient to Shake Buildings.

"Slight earthquake shock felt at 9.30 o'clock last night."  
This official despatch was received from Qu'Appelle, Saskatchewan, the Observatory last night. Beyond this intimation the weather experts had no intimation of earth tremor, which, according to advices received, extended all the way from Winnipeg to Lethbridge, Alberta. The seismograph wasn't examined yesterday, being Sunday, but will tell its tale this morning.

"Most unusual" was the comment last night of Director R. F. Suptart. "I can't remember ever having heard of such a disturbance in that region before."

WINNIPEG, May 16.—(Special.)—Earthquake shocks starting from the west were felt all about the Canadian prairie west at about 10.20 central time Saturday evening, in most places rattling dishes, banging doors and shaking windows, while at several points people were driven in alarm out of doors.

At Wolsley, the well of the electric light plant caved in just before the shock was felt and the town was plunged in darkness.

Other places report cracked plaster, but that appears to be the sum of the damage done.

The shock was very light in this city, but was distinctly felt in the city of Lethbridge, and from there the disturbance was noted at scattered points for a thousand miles west across the prairie.

Shocks appear to have been most severe in the heavy "Gumbo" country of Saskatchewan, along the main line of the Canadian Pacific, but were felt as far north as Prince Rupert.

It is the first time in known history that earthquake shocks have visited the Red River or Saskatchewan valleys, and Prof. Adams, Ph. D., of Manitoba University, said to-night that they might never recur.

He attributes the disturbance as a wave, or echo of serious earthquakes in southern America or the central Pacific, and holds that the vibration thus caused has followed the coast of the Pacific coming out in the Canadian prairie.

He points out that the last earthquake on record was noticed at first in the observations of the observatory at Lethbridge and it was some weeks before it was known that the disturbance actually took place in the northern part of the province in Northern Saskatchewan. He thus thinks that presently information will come to hand of a very considerable upheaval in the southern part of the Pacific, or in the vicinity of the Pacific.

Practical Foundation a Safeguard.  
Prof. Allen is reassuring regarding the future, so far as the prairie is concerned. There is no possibility of such a thing, he is known that great earthquakes occur where the earth layers run down towards the center at seventy, eighty or ninety degrees. These sometimes slip against each other causing subterranean shocks which are now known to have been the case at San Francisco.

On the prairie where rock layers are horizontal and people will be reassured to know that it is quite possible the prairie country may never again get such a jar.

REGINA—Felt at 9.15 for one minute, shaking buildings. Slighter shock at 1 a.m. Sunday.

SASKATCHEWAN—DELORAIN and VIRDEN, Man.—Two distinct earthquakes felt at 10.20 p.m. Vibration of several seconds duration at about ten degrees apart. Tremor sufficient to rattle windows and dishes.

MOOSEJAW, Sask.—Slight shock about 10.15 p.m., affecting the whole town. Station Agent Trenouth, in bed at the time, states he felt the bed move and noticed the building shake. Dishes rattled and lamps were set swinging, particularly in upper stories. Considerable consternation prevailed.

PRICE ALBERT, Sask.—Shock noticed about 9.20, mountain time, but very slight, being apparent only in upper floors of frame buildings.

MAPLE CREEK, Sask.—Distinct shock lasting twenty seconds. Shook all buildings in town.

QU'APPELLE, Sask.—While no damage reported, shock sufficient to open doors, rattle dishes, and in some cases crack plaster. Second shock felt about midnight.

WOLSLEY, Sask.—Shortly before the shock was felt the well of the electric light works caved in and lights went out. No other damage.

CREELMAN, Sask.—Shock lasted 20 seconds. The freight sheds some articles were thrown down.

LLOYDMINSTER, Sask.—No shock felt here.

INDIAN HEAD, Sask.—Two distinct earthquake shocks, lasting about 15 seconds. The first shock a mere tremor, but second sufficiently severe to move contents of houses and stores. Buildings moved perceptibly.

MOOSE JAW, Sask.—Decided shock, lasting about thirty seconds. No damage accompanied it, but buildings shook.

## CROWDED OUT THOMPSON GETS LICENSE FROM NELSON ESTATE

### Price \$22,000 With Bar Fixtures, and Chevit Estate Pays \$8000 for Electric Wiring Put in by Former Proprietors of Rossin House.

The differences over the possession of the Rossin House that was, have been ended and hand over the license for a consideration placed at from \$25,000 to \$40,000. It was possession of the license that saved them from an utter rout, and the license commissioners, it is said, could tell a pretty story of duty seen and duty done had they a mind to in regard to the awarding of this same license.

However, the settlement came about after a conference at the Queen's Hotel, which lasted from 8 o'clock Saturday evening until the small hours of yesterday morning. Capt. Nelson represents the interests of Nelson Bros., Jas. C. Chevit those of the Rossin House Hotel Company, and Sam Thompson and Charles Millar the new owners.

Assisted by six lawyers, the tangles of the Rossin House estate were finally settled. Altho on three different occasions the disputants put their heads together to break up the conference in disorder, calm counsel wisely prevailed.

The Nelsons, altho themselves lucky to reach the settlement they did, they had allowed themselves to be placed in the predicament of tenancy regulations and the Chevit estate were in a position to stop the sale of furniture advertised for to-morrow.

It is understood the terms of settlement are as follows: The Nelson settlement against the Chevit estate to be discontinued, the Chevit to pay for the electric wiring and plant which the Nelsons put in three years ago at a cost of \$8000, the new lessees to purchase the license and bar fixtures at \$22,000, possession to be given the new lessees on Saturday next, the Nelsons continuing the bar until then, the new lessees to have the privilege of putting their men in this morning to do the necessary measurements for new carpets and other necessary requirements and to purchase anything among the many valuable articles to be sold, is the mahogany royal chair, under the coat of arms, in which King Edward VII. received during his visit in 1882.

The Rossin House, which passed into the hands of the new owners on Saturday, will be re-opened as the "Prince George."

## Child Marriage Of Royal Import

ADDH ABEBA, Abyssinia, May 16.—Prince Lidj Jessau, aged 12 years, grandson of King Menelik and heir apparent to the throne, was married to-day to Princess Romalie, aged 7, the granddaughter of the late Emperor John and niece of Empress Taitou.

The marriage is of great importance politically, as it unites the two dynasties and the families of powerful chiefs.

## HOLD UP OF A TRAIN FOLLOWED BY WRECK

### Six Bandits, After Looting Mail Car Send Engine Running Wild Into Stalled Coaches.

SPOKANE, Wash., May 16.—Following the hold-up of a Great Northern passenger train by six bandits between Colbert and Mead last night, twelve persons were injured when the locomotive and the mail car, cut off from the rest of the train, ran wild after the bandits had rifled the mail and looted the passengers. The conductor saw the wild cars backing down the track at 25 miles an hour, and he and another trainman placed a tie on the track to arrest their flight, but the cars, the partly stopped by this means, plunged into the coaches, throwing passengers from their seats and cutting them with glass from broken windows. A trainman, nervous to the task, sprang aboard the locomotive as the collision occurred and shut off the steam, stopping the train.

When the train reached Colbert late last night, some switching had to be done. Two men sprang into the cab and thrusting a revolver against the engineer and fireman, ordered the train to stop. The mail cars were cut off from the rest of the train by four other robbers who cut the telegraph wires and thrusting a revolver against the engineer and fireman, ordered the train to stop. The mail cars were cut off from the rest of the train by four other robbers who cut the telegraph wires and thrusting a revolver against the engineer and fireman, ordered the train to stop.

## GAS WAS LEFT ON

### John Carron, Coachman, Found Dead in His Bed.

John Carron, aged 80, a coachman employed by E. A. Maher, was found dead in bed Sunday morning in his room at the Sherbourne House. He had been asphyxiated by illuminating gas, which escaped from a jet in the room. Dr. E. Herbert Adams, Queen and Bond-streets, was called. He pronounced life extinct. There will be no inquest.

## HON. S. FISHER'S ELECTION SAFE BY JUDICIAL ERROR.

MONTREAL, May 16.—(Special.)—Judge Lynch having signed the order at Knowlton in the election petition against Hon. Sydney Fisher, instead of the chief place of the county, the petition was thrown out Saturday by Judge Demers.

## JOS. CHAMBERLAIN'S HEALTH

### His Condition is Said to Have Become Very Serious.

NEW YORK, May 16.—The Herald's London correspondent cables: "While many will regret to learn, as I have it from a direct source, that there has been a marked falling off lately in the physical condition of Joseph Chamberlain."

For some time now his name has been carefully kept out of the papers by his family and friends. The reason is that he now walks with greater difficulty, and there are moments when he suffers from loss of memory. Not long ago he mentioned to his wife that John Bright was coming to dinner. She took it as a matter of course, and a few minutes laughingly told him what he had said. He assured her she must have been dreaming, for he had a vivid recollection of Bright's funeral, which he then described with characteristic touches. He is not believed to have grasped the significance of the budget, though it is quite likely that a short message to the public on the subject may soon be signed by him. His return to England for the summer is still expected by Austen Chamberlain, who writes constantly to his father, to whom he is devotedly attached.

## CARRIED BIG BYLAWS

### Owen Sounders Sanction \$125,000 For Filtration Plant.

OWEN SOUND, May 16.—(Special.)—Little interest was shown in the results of the vote on four bylaws voted upon by the property owners here yesterday.

Two were defeated and two carried. The former were to raise \$7000 to remodel the interior of the old town hall building, and \$3500 to erect an isolation hospital. The majorities against were 125 and 135 respectively.

The expenditure of \$125,000, to take in part of the Sydenham River, construct a sedimentation basin and a filtration plant, adding a million gallons daily to the supply, was endorsed by a majority of 50. The extension of the electric light plant by an expenditure of \$30,000 was also ratified, the majority being 38.

29TH YEAR

## NO SUBMISSION CONCERN BILL

### Premier Whitney Indicates There Will Be Fight in Courts Over Federal Attempt to Invade Provincial Jurisdiction.

Sir James Whitney is NOT going to meekly submit to the Commons power bill, which passed the Dominion Senate on Saturday. Speaking to The World on Saturday he made the following statement:

If the newspapers are correct the position assumed by Sir Wilfrid Laurier is, indeed, an extraordinary one. It is true, he admits our right to oppose the Ontario and Michigan power bill; and perhaps this is a good time for me to say that THERE WILL BE NO SUBMISSION ON OUR PART TO ANY ATTEMPT TO TAKE PROVINCIAL PROPERTY.

But his reported attitude with reference to our action on the Canada Life legislation and the waterways treaty seems almost incredible. I would rather, therefore, wait until I see Hansard and secure his actual words.

"Was S. H. Blake's visit significant in this connection?" Sir James was asked.

"S. H. Blake was up in connection with legal matters," replied the premier, "and consulted with Mr. Foy, and Mr. Foy subsequently dropped in to talk things over with me."

"What action will the government take on this alleged invasion of provincial rights?"

"No steps have yet been decided upon and, accordingly, we have nothing now to say."

The World learned later that in view of Mr. Blake's previous connection with several important cases before the privy council his advice will be sought on this occasion.

ROYAL GARDEN PARTY OFF

Many Will Be Disappointed—Two Reasons Advanced.

LONDON, May 16.—King Edward having returned from the Commonwealth tour, the dates have been definitely fixed for the customary two days of the royal garden party, the first is set for Friday, June 11, the second for Thursday, June 24.

But there will be no garden party at Windsor Castle this summer and great is the disappointment and regret of the fact. Those garden parties were becoming a feature of King Edward's reign. They enabled a vast number of his subjects to bask for an afternoon in the sunshine of royal favor.

Two reasons are given in court circles for the King's decision to give no garden party this year. One is the recent vote of the House of Commons in the radical press and in parliament last year because the members of the house of commons who voted in disapproval of the King's visit to the czar were omitted from the invitation list. The second reason is that many of the guests last year developed a severe case of influenza, with devastating results, not knowing that the plate was supplied by the caterer, Joseph Lyons, and didn't realize that the King's visit to the czar was also taken in bunches from the caterer, and some guests were seen filling handkerchiefs with cake and sweets to take home to their families.

CADET SHOT AT RANGES

First Day Out, Clothing Caught Trigger and Bullet Pierced Brain.

HALIFAX, N.S., May 16.—(Special.)—By the accidental discharge of his rifle, a cadet from the Dartmouth High School, was instantly killed on the ranges at Bedford, a few miles from Halifax, on Saturday afternoon.

The lad, with a number of friends, had been out on the ranges for rifle practice. It was McKenzie's first attempt at rifle shooting, and while waiting for his turn to fire, he stood leaning on his rifle. The rifle was cocked, and the trigger, catching his clothing, snapped down, the bullet crashing thru the lad's brain.

A FORGER'S SUICIDE

Told to Settle Up by 6 P.M., Takes Strife.

PRINCE ALBERT, Sask., May 16.—(Special.)—J. W. Currie committed suicide Saturday afternoon at the Prince Albert Hotel, by taking strychnine.

He had passed forged cheques to the amount of \$25,000 in the city which had a cheque for \$10 notified Currie to settle before 6 p.m. When the time arrived he was dead. His family is well-to-do.

ONLY MARRIED POLICEMAN ASSIGNED TO CONEY ISLAND.

NEW YORK, May 16.—Greater New York's greatest summer ground, Coney Island, was formally opened for the season yesterday. The mercury climbed as high as 74 in the city, enough to make a trip to Coney Island a real pleasure.

An "all married" squad of policemen assigned to the resort by Police Commissioner Bingham, who has deemed it a judicious move to dispense the frivolous youngsters who have heretofore patrolled Coney Island in the summer.

A COSTLY ORDER.

NEW YORK, May 16.—The public service commission has ordered the installation of side doors in all cars of the subway express trains. The new equipment will call for an expenditure of approximately \$2,000,000.

Toronto Back in Second Place Newark Wins Only Sunday Game

Philadelphia Americans Defeat Chicago, 1 to 0 in Thirteen Innings—Providence Plays Toronto To-Day.

Smiling Ben Houser, with a mighty wallop of the right field bleachers in the sixth inning Saturday, turned a defeat into victory, as his heroic score of three runs, two hits and eight innings of a majority of one, or enough to win another victory.

Over 500 fans turned out in the somewhat inclement weather to see the last of the Skeeter series and they were well repaid, for they saw Kelley's men come from behind to win the game that had been theirs three out of four on the series from the Philadelphia club.

Moeller singled, going to Frisco, the pan of a clean steal home. Hannigan then knocked out a clean homer to left field, and the result being he slipped and fell when he should have waited for the sphere could be returned to the pitcher.

At Philadelphia—Chicago defeated Philadelphia, 3 to 0. The game was a battle between the two clubs, with the home team leading in the ninth inning.

At Toronto—Philadelphia defeated Toronto, 1 to 0. The game was a close one, with the home team leading in the ninth inning.

## BLOOR STREET VIADUCT.

With an extended Toronto the matter of the construction of a viaduct connecting Bloor-street and Danforth-avenue becomes more than ever an absolute necessity. Until the existing gap between east and west is bridged, the growth of the city cannot proceed equably nor can the congestion in the down town sections be satisfactorily relieved. The northeast district contains the finest and most salubrious sites that can be found and all that is needed to open it up is the provision of the important artery of traffic, which the connection of Bloor-street and Danforth-avenue can alone make.

This viaduct is another of the improvements which are advantageous in themselves and certain to bring an immediate return. Its first result will be a rapid increase in building over what is at present a neglected district. What is the prospect of an early extension of the city boundary north of Danforth-avenue affords another reason for accelerating its construction. The need for it has already been admitted and every day is becoming more urgent if the city is to develop in the way that will best meet the requirements of a great business and residential centre. The city council unanimously agreed to Alderman Foster's motion for reports on the cost and they should be obtained in time to allow of a bylaw being submitted at next election.

## DO IT NOW.

Only one objection to the completion of the sea-wall has any apparent weight, that which depreciates the increase to the city debt. But a large debt does not necessarily mean an objectionable burden, provided the objects for which the debt is incurred are in themselves proper and calculated to result in benefit to the city and the citizens. Still less do profit earning undertakings involve any additional burden, nor is the money borrowed for their acquisition or construction debt in the sense applied to expenditures which yield no return to the city, though even in the latter case great advantage may be gained through improvements in the public health, in the amenity of the city and in the services upon which the comfort and convenience of the community so materially depend.

By proceeding now with the completion of the sea-wall the city will only do at once what must be done in any case, and that at an early date. The methods hitherto employed to protect the water front have produced no real benefit. The city has been engaged in a task which, unless undertaken differently, is likely to be as useless as that of Penelope. She, indeed, undid by night what she wove by day, while winter storms destroyed the worthless barriers that had been the summer's work. There can be no satisfaction in continuing the process of throwing good money after bad. It is far wiser and cheaper in the long run to tackle the situation straightly and let the citizens of to-day enjoy the advantages which a well-kept water front ensures.

## NINETEENTH CENTURY LITERATURE.

William Winter has just concluded a series of articles covering his memories of the literary men, artists, actors, and others prominent in the intellectual world in which he had moved. The close of his record is synchronous with the death of Swinburne, who should have been laureate when Tennyson was laid in Westminster. Mr. Winter's reminiscences indicate that the great period of intellectual activity in England in the nineteenth century was paralleled by a similar one in New England, the literary output of the United States during the Victorian era being practically confined to the northeast corner and New York. The giants of that generation on both sides of the Atlantic have now all passed away. Tennyson, Dickens, Thackeray, Browning, have no successors. Nor have Hawthorne, Emerson, Longfellow nor Whitman.

William Winter is exceedingly censorious about the last mentioned. He regards him as a stupid creature, and cannot understand how anyone can find anything worthy of appreciation in the "good grey poet." Tennyson once met two American girls and began to talk about Whitman. They looked politely vague and had no knowledge of the subject. Turning away, the laureate remarked to a friend, "Only one poet in America and those girls never heard of him!" Tennyson was probably a better judge of Whitman's poetic value than Mr. Winter, clever and interesting though the American critic undoubtedly is.

The present dearth of any pre-eminent poetry, or indeed of any other kind of literary work of notable quality, constantly raises the question as to whether any more is to be looked for. There was a time in the history of Israel of which it is recorded: "The word of the Lord was precious in those days; there was no open vision. Perhaps there were no poets of their generation to whom the gift of open vision could be more truly attributed than Tennyson and Whitman. They dwell

in a world unified by the Divine consciousness. The poet is essentially a seer, a maker, and the present age is so deeply concerned with the things that are visible and transient, that no encouragement exists for the singers of the unseen and permanent. When the next great poet comes he will not be content with the things that pass away, but will once more yield himself to the high powers that control human destiny, and will not fear to see life as one who bears an immortal part in it. Whitman may not be so stupid a creature as Mr. Winter thinks, and humankind will be glad again to meet some of the "Great Companions."

## FEDERAL AND PROVINCIAL POWERS.

Sir Wilfrid Laurier expressed himself with unusual acerbity over what he described as the interference of the Ontario Government with the waterways issue and incidentally the Canada Life Bill. The premier in the discussion of international questions is given as a rule to broader views, and consciousness of the weakness of his position evidently prompted his criticism of Sir James Whitney's action. It would very likely be agreeable to the federal government to find its policies immune from provincial protest, but it would be very much against the general interest of the Dominion for a rule of this nature to be put in force. Sir Wilfrid Laurier indeed destroyed the whole point of his animadversion when he admitted that Mr. Gibbons had instructions while the negotiations were under way to confer with the Government of Ontario, and that he did so. Surely under such circumstances the provincial government as charged with the protection of the interests of Ontario had a perfect right to intimate its opposition to acceptance of the rider to the treaty added by the United States Senate which so seriously modified the

Whitney would have been derelict in his official duty had he failed to protest against ratification of the amendment regarding the division of the water flow of St. Mary's River.

The federal premier's plea that Sir James Whitney and his ministers should have offered their opinions individually and not as a government cannot stand examination and The World will be surprised if Sir Wilfrid Laurier on further reflection continues to maintain it. There appears to be no valid objection, either on constitutional grounds or for reasons of expediency, why a province exercising absolute control over its internal resources should not through its government submit and urge considerations showing or tending to show that its rights are threatened or may be improperly restricted. Had Sir James Whitney interfered or attempted to interfere directly during the negotiations, the federal premier would have been right in objecting, since his government are charged with the duty of attending to the Dominion's external affairs, but nothing of the kind was done or tried. All that the provincial government did was to intimate its strong objection to the acceptance of a modification adopted by the United States Senate at the instance of the State of Michigan, whose interference through its representatives in that body, so far from being resented, achieved its object. Under the Canadian constitution its provinces cannot make their influence felt in that way, but there is no barrier to any one or more of them making known their views to the federal government. Mr. Borden, too, made the further important point that the Ontario Government, in the matter of the waterways treaty, was justified in its action, since the treaty called for legislation, which must be enacted by the various provinces whose rights come into question. This dispute and the trouble over the Ontario and Michigan Power Bill releases the whole issue of provincial rights and the provinces ought to make common cause in resisting federal encroachment on their jurisdiction, powers and privileges.

## FIRE IN THEATRE

Queen of Wurttemberg in Audience—Panic Averted.

STUTTGART, May 16.—The audience at the Court Theatre Saturday night were thrown into a panic during the course of a performance of Das Rheingold. The Queen of Wurttemberg was present, but exercised great self-control.

A curtain caught fire, but the singers continued their roles, in an effort to keep the audience from becoming alarmed. Loud cries of fire, however, caused a general rush for the doors. A catastrophe was prevented thru the excellent arrangement of the house, and the fire was extinguished without much loss.

Rossini House Sale.

Charles Cottenden & Co., 575 West Queen-street, have received instructions to sell on Tuesday next at 10 a.m. the entire contents of the Rossini House, the Nelson Brothers having been ordered by the courts to vacate the hotel. The hotel is full of first-class furniture, and as the auctioneers have instructions to sell everything without reserve, it can easily be understood that there will be some bargains. It will be one of the largest furniture sales ever conducted in Canada.

## INSURANCE BILL PASSED

Continued From Page 1.

bill to create a fully organized department of labor with a responsible minister in charge. He considered that the present department of labor which was created nine years ago, had proved an eminently successful experiment in creating the better relations between the wage earners and the wage payers.

An Unsuccessful Official.

In committee on the bill, Mr. Borden said he could not understand the necessity of having seventeen ministers. In the United States, with a population of 80,000,000, they had only nine cabinet ministers. This government had already added two ministers to the cabinet since it came into power.

Sir Wilfrid Laurier said the system here was really different from that of the United States, where responsibility for legislation rested with the senate and the house of representatives.

The amendment to the exchequer court act which gives the crown the right to appeal to provincial court but does not give the same right to the subject, was opposed by Mr. Borden, Mr. Doherty and others, but Mr. Aylesworth refused to yield, and the bill was carried.

When the bill to amend the criminal code was under review as to race track gambling, Mr. Borden read telegrams which he had received from the British Columbia Methodist conference urging action and saying that American gamblers were finding their way into the country. He asked if the government had received any representations from British Columbia.

A dead silence eventually. Mr. Aylesworth said he had not heard Mr. Borden express his views on the question.

Mr. Borden countered that he was merely enquiring if the government had had representations.

Mr. Aylesworth wants to know.

Mr. Aylesworth then replied in the affirmative, but said he would like to have the views of the house on the matter.

Mr. Borden said that if conditions were as represented action should be taken at once. The question should have been referred to a special committee to deal with. Some action seemed to him necessary.

Hon. R. F. Sutherland moved an amendment to the transmission of electricity of more than 50,000 volts unless on a fenced roadway 50 feet wide to be \$10,000.

He said the penalty had been suggested by recent accidents in Western Ontario. Mr. Aylesworth suggested that another stand over, and Mr. Sutherland withdrew it.

The penalty for kidnapping was increased from seven to twenty-five years, and the bill passed.

The house then went into supply and recess shortly before midnight.

## WEATHER MAY SAVE \$25,000

Admittance Pays Big Part in Branch of Promise Suit.

CHICAGO, May 16.—An affidavit of Henry J. Cox, in charge of the Chicago office of the weather bureau, was presented to Judge Wells yesterday by Attorney Sydney Stein in support of a motion that the court set aside a verdict of \$25,000 given by a jury in Judge Wells' court a few weeks ago to Miss Mary Mattes, 2900 Cottage street, against Hugh Crabbe.

Attorney Stein asked that the verdict be set aside, alleging that Miss Mattes did not testify to the truth in an important matter.

Miss Mattes testified that she went to a flat at 2905 Michigan avenue with Crabbe on the evening of Oct. 20, 1906, in order to get out of the rain and at Crabbe's suggestion, Attorney Stein said, I have here an affidavit from Prof. Cox showing that there was no rain on that evening or on any other Saturday evening in October, 1906.

The affidavit of Prof. Cox was then read. No decision was given on the motion.

## LOBSTER FISHERS REBEL

Want \$1 Cwt. More Than Packers Will Pay.

LOUISBURG, N. S., May 16.—(Special.)—Trouble between the lobster fishermen has culminated in the closing of several of the largest canning factories. The fishermen are demanding \$3.25 per cwt., and packers will not pay more than \$2.25, for which price the men will not work.

The Fishermen's Union at Lunenburg has telegraphed J. W. Maddin, M.P., at Ottawa, to use his influence in securing a state service to that port, enabling them to export their live lobsters. The small ones they will catch themselves.

The outlook is not bright for the fishermen, who are blaming the government for allowing a few packers a monopoly of the canning trade.

## VETOS INTERINSURANCE BILL

JEFFERSON CITY, Mo., May 16.—Gov. Hadley has vetoed the inter insurance bill, a measure which has met stubborn opposition because of its effect upon Missouri corporations which were subject to the license laws of the state.

He stated that it would allow foreign companies by indemnifying each other, to avoid the supervision of the general insurance laws of the state.

## Thirty Hurt in Wreck.

KANSAS CITY, Mo., May 16.—Between 30 and 40 persons were injured, some of them probably fatally, by the wreck of Chicago and Alton train No. 14, near Odessa, Mo., Saturday morning.

Penna's Clean Record.

Reports of the passenger traffic on the \$2,000,000 mile of the Pennsylvania system disclose the remarkable record of 141,839,543 passengers carried during 1908 without a single one killed as a result of a train accident.

Theodore Roosevelt is now resting at Gen. McMillan's ranch in British East Africa. He will resume his shooting expeditions from the ranch house as a base to-day.

## WIND LIFTED SIDEWALK CAUSED WOMAN'S DEATH

Mrs. Richard Swain, Oil Springs, Ont., Was Killed in Peculiar Manner.

OIL SPRINGS, Ont., May 13.—Mrs. Richard Swain, a resident of Oil City, was almost instantly killed, and her body blown into the air by a gust of wind which struck her while she was walking on a sidewalk on the street into a deep ditch on the opposite side.

The ladies were carried with it, the sidewalk striking Mrs. Swain on the head and crushing her skull. Miss Truan was not seriously injured.

## NORTHCLIFFE'S BIG PURCHASE

Said to Be After the Reid Lands in Newfoundland.

SYDNEY, N.S., May 16.—J. Hammerly, a London financier, who has just returned from a trip to Newfoundland, to-day discussed the negotiations being conducted between Lord Northcliffe and the Reid Newfoundland Company looking to the transfer of the Newfoundland interests of the letter company to the former.

Should the bargain be completed, he said, it would make Lord Northcliffe the largest land owner in the world. Lord Northcliffe's present holdings in Newfoundland amount to about 3000 square miles. The Reid areas are larger, comprising lands in different parts of the island. The railway lands include a strip a mile wide, the whole length of the Reid Newfoundland line, or something over five hundred miles.

The Reids want to sell out their Newfoundland interests, not, however, because these interests are unremunerative, but because they do not wish to take up their residence permanently in the colony.

## Court Upholds Gambling Debt.

PARIS, May 16.—A local court has upheld the validity of a gambling debt. The case was that of George D. Morgan, an American, who lost \$2000 in a Paris gambling club. He gave a cheque in payment of the amount, but allowed the paper to go to protest.

## MORSE'S UNKNOWN ENEMIES

Working to Keep Him From Being Admitted to Bail.

NEW YORK, May 16.—An assertion that "there seems to be an unknown power somewhere working against Morse's release" was made by City Magistrate Crane in an open letter which he issued to the press advocating the admission of Charles W. Morse to bail. Mr. Morse is now in the Tombs prison awaiting a hearing on his appeal to the United States Circuit Court of Appeals from his conviction of violating the national banking law. Magistrate Crane quoted Justice Gray of the United States Supreme Court as saying in another case that the statutes of the U. S. have been framed upon the theory that a person accused of a crime shall not, until he has finally been adjudged guilty in a court of law, be absolutely compelled to undergo imprisonment or punishment, but may be admitted to bail after conviction pending a writ of error.

In conclusion the magistrate asks where is the "unknown power" to which he refers as operating against Morse's release.

## KILLS MOTHER AND SELF

When Rebuked For His Intemperance Murderous Passion Was Roused.

SOUTH BEND, Ind., May 16.—Charles Rapp, who had considerable local fame as a baseball pitcher, Saturday night killed his mother and then committed suicide.

Rapp, according to the police, had been drinking, and when the mother pleaded with him to leave off liquor he grabbed a hammer and after beating her on the head stabbed her with a butcher knife, which he snatched from a table. When his mother fell, Rapp gashed his throat with the same knife.

The police found Rapp still conscious. At the hospital he stated he had intended to kill the entire family.

## RUSSIA'S "ROBIN HOOD" SLAIN

Savitzky, Who Robbed Wealthy to Aid Poor, is Killed by Police.

MOHILEV, Russia, May 16.—The noted robber chieftain Savitzky, the "Robin Hood" of the Russian revolution, has been killed by members of the Rural Guard. With three members of his band Savitzky was surrounded by the guard two days ago in a neighboring village, and after a fight that lasted for four hours, all four were killed. One member of the guard lost his life in the encounter. Savitzky, who was a high school student when he took to brigandage, has been the terror of the police of the provinces of Tchernigov and Mohilev for several years, but he was a source of amusement to the rest of Russia on account of his darsdevil exploits. He delighted in playing fantastic tricks on the police. It was his custom to rob only the rich, and he distributed his spoils among the peasantry with a lavish hand. He finally was betrayed by a member of his band.

FROM ALL PARTS OF ONTARIO NOMINATIONS ARE POURING IN

Offer of The World to Give Away \$15,000 in Prizes Has Brought Out a Large List of Candidates--What the Contest Means.

That cities, towns and villages in all parts of Ontario are replying to The World's big contest announcement by sending in nominations, is one of the many evidences of the wide interest which this undertaking has caused. It must be that in nearly every home throughout the province the subject is being discussed and that all who have read of the contest realize its magnitude and importance.

Many Well-Known Candidates. Although the nominations have only been open a few days, all the large departmental stores in Toronto, various fraternal orders and private individuals, have sent in candidates, and when the list is published in a few days it will cause no end of interest, and it will contain names of persons well known in many walks of life.

Among the places that responded with one or more candidates, according to the population, are the following: In addition to Toronto: Wingham, Berlin, Brantford, London, Oshawa, Owen Sound, Lindsay, Bowmanville, North Bay, Brockville, Phillipsville, Fenelon Falls, Ottawa, Kingston, Balsam, Newmarket, Scarborough, Barrie, Midland, Bolton, Cobourg and several other smaller places.

A Record List. In many of the communities are popular young women who have an extensive circle of friends, or young men with a large number of enthusiastic supporters. In other hands, however, there are quite a few persons who appear constantly in the public eye, in the world of sport, of

business and in professional careers. So short is any race stands the most general in character that has ever been published by a Canadian paper in connection with any contest. It is not to be wondered at that the candidates should be so numerous, when it is remembered that The World in this contest is offering over fifty prizes, the principal one of which is a house and lot in Toronto valued at \$4000. This property has been secured by the paper from a well-known real estate agent of the city, and will bear inspection by anyone who understands the value of a home. That some one is going to be richer next autumn by \$4000 is evident from the number of contestants who have entered in the city. It is seldom in life that so large a plain is offered, but the greatness of the contest warrants The World in giving this liberal award to the winner of the first grand prize.

An Easy Win For Someone. The public must also bear in mind with respect to this prize, that there is also \$100 given at the close of the contest to the person who nominates the winner of this grand prize. In addition to these, such awards as two splendid automobiles, a motor boat, a trip to Europe, a vacation trip to Muskoka, diamond rings and many other prizes are awaiting those who work and are successful. These total up to the handsome amount of \$10,000.

The one thing that The World desires to impress upon the mind of all readers at the present time is the necessity of sending in nominations. The nominations have a short time yet to run, but the man who gets a large number of votes, and who shows of winning, and likewise in the contest the ones who get their nomination blanks in early and begin to pile up votes are the ones who are going to come in for a share of the \$10,000.

Watch each edition of the paper for announcements, for each day will contain news that will interest you and your friends.

GREAT SALE OF MUSIC FOR PLAYERS and piano players. A thousand and favored small descriptions, ranging from 10 cents to \$1. It was essential, he declared, that the public should get in the habit of contributing to the great cause. One of the most important problems in dealing with the disease, he said, was improving the social condition of the poor.

"Three things remain to be done," said Dr. Osler. "The first is to keep the public awake, the second to arouse more money and the third to arouse the interest of more men and women, because the campaign is one no longer entirely for the doctors.

"Whether tuberculosis will be finally eradicated is even a question. It is a foe that is very deeply entrenched in the human race. Very hard it will be to eradicate completely, but when we think of what has been done in one generation, how the mortality in many places has been reduced more than 100 per cent., indeed, in some places, and so long as we are fighting with hope the victory is in sight."

Speaker Cannon, in a characteristic talk, aroused the audience to laughter when, turning, he said: "Dr. Osler, I have reached the age of 61, and I shake my fist at your face, Dr. Osler, I have reached the age of 61, and I shake my fist at your face, Dr. Osler, I have reached the age of 61, and I shake my fist at your face."

## 14 Housefurnishing Depts. Combined in One

### NO. 14—ORIENTAL RUGS

WE have left Oriental Rugs to the last in this series, not because it is least important, but because it forms a fitting climax to the 14 chapters of our Housefurnishing story.

Rich travelers, often from America, think to save money by bargaining for Oriental Rugs in the streets and bazaars of Constantinople and Smyrna. Vain delusion. Turks, Jews, Armenians and Greeks combine to confuse the tourist's ideas of value. He is safer in New York in the hands of a reputable store, even though he pay the middleman's expenses and the high New York profit.

If Canadians could realize it, Oriental Rugs can be bought here cheaper than any place in America. Our tariff is not nearly as high as that of the United States. Our profits and expenses bear no comparison to those of the New York stores. We are familiar with every phase of the trade in eastern carpets. There is a great deal of humbug in the selling of Oriental Rugs in some cities.

We have set ourselves to the treating of this Rug business in a plain, open, honest way. Our prices are marked in straight figures. We'll refund the full price of any rug if on delivery it fails to measure up to every claim we made for it—or if the customer feels dissatisfied with his purchase for any reason whatsoever.

We are now showing a very choice selection of Turkish and Persian Rugs, being especially strong on Tabriz Carpets. We have also a new bale of genuine

antique Kazaks, remarkable for their splendid condition and their unusual weight.

We might mention particularly also several exceptionally large Bokharas, the characteristic copper brown tones being lustrous to a noteworthy degree. We are confident that colors, size and weaves cannot be matched in Bokharas throughout Canada.

Also some antique Persians, with evidence of centuries of use, yet with the dyes but mellowed with age.

Kirmanshahs, Shirazes, Shirvans, Guendjes, Serendhs, and a few rare antique Mongolian carpets which, by the way, connoisseurs have much admired—all these and many more are gathered here.

Prices run from mats at \$7.50 to great room rugs at \$1000.

New shipments to show on Tuesday.

## Housefurnishing is the Sole Business on Two Whole Floors of This Store

HOW many of our readers are planning to furnish this season? How many home makers are hanging their cranes and setting up their household gods?

This store stands ready to serve each and every one of them. There are helps and suggestions and economies here for everybody.

## Louis Fourteenth Mirrors

Copied from the old palaces in Paris. Made up by a firm in the States. We have had a shipment in our picture department and have sold a good many. We want to clear the remainder, and we'll reduce prices 25 per cent.

They are made with gilt frames, with rococo scrolls and wreaths, in the purest style of Louis period (a few of them date from the Empire.) Delightfully quaint old-fashioned prints have been set in the panels above the mirror. They look just like the quaint, old-time pictures one remembers on grandmother's cabinet desk, or on a mirror just like these, perhaps. Ever so many people are using these Louis mirrors in their drawing-rooms nowadays. No wonder—they are as decorative as can be.

Regular prices range from \$6.50 to \$50.00.

On sale in the Picture Gallery, top floor, 25 per cent. less than marked prices.

Canned Corn or Peas, 3 tins 25c.

## Clearing Soiled \$3.90 to \$6 Blankets at \$2.98

WHEN we think that one trip to the laundry would put these blankets on a par with the newest, freshest blankets in the stock it seems quite a sacrifice for principle. But as soon as blankets get matted in this store, out they go. Somebody else can send them to the laundry. We are too busy to handle goods twice.

About 40 pairs in all, White Wool Blankets, slightly soiled in display, but perfect in every way, and of our best qualities. Regular prices \$3.90 to \$6.00 per pair. Tuesday \$2.98.

(No mail or phone orders.)

## A Remarkable Sale of Ladies' Tailored Suits Tuesday

\$40, \$45, \$60, \$65 and \$75 Styles to Be Cleared at \$35 Each in the Cloak Department on Tuesday

THESE suits embody some of the finest examples of manly tailoring we have in the store. They were made in Canada after models from New York. In the metropolis they would be offered at considerably more than we marked them. To-morrow we sell them at a figure which means quite a saving on the cheapest of them, and a clear economy of 30 and 40 dollars on those which will reward the first comers.

We have decided to reduce these suits now before sizes become broken further, and make a clear sweep of over forty high-grade suits.

The materials comprise diagonal worsteds, satin cloths, fine checked and striped worsteds, chiffon Panama, Ottoman cords and coating serges.

Navy, green, black, brown, indigo, smoke, taupe, mustard and the new greys.

Coats long and medium, trimmed with buttons or strappings. Sizes 34 to 40 in the lot. Regular prices \$40, \$45, \$50, \$65 and \$75. To clear Tuesday, \$35.00.

## Coats for Race Week

AUTO Coats, Silk Coats, Dust Coats, Cream Serge Coats—Coats of all the kinds for fashionable Spring occasions, be it a motoring party or the races at the Woodbine.

White, Cream and Tan Rep Coats, \$4.95.

Pongee Silk Coats, natural shade, \$35.00.

Black and White Shepherd's Check Coats, \$18.50.

Tan Chiffon Panama Coats, cream and champagne shades, \$12.50.

Black Taffeta Silk Coats, \$16.50.

Grey Serge Coats, \$17.50.

## Girls' Confirmation Dresses

In the Girls' Section of the Cloak Department, which is at the James-street corner, you will find a most extensive display of Girls' and Misses' Coats and Dresses, in a large assortment of styles and materials, at extremely moderate prices. Amongst the collection are some New York models of fine white lawns and soft mercerized muslin, some trimmed with lace and lace medallions, others with fine embroidery. Prices are \$5.00, \$6.00, \$7.00, \$8.00 and \$10.00. Sizes 10, 12 and 14 years.

Also some of fine net, made in princess style, trimmed with lace insertions and Valenciennes lace. Sizes 10, 12 and 14 years. Tuesday \$6.50.

## Silk and Net Waists

## At \$15.00 a Black Cheviot Suit To Fit Any Man

WHEN you try on one of these black cheviot suits at \$15.00 you will be a Simpson enthusiast right straight. You couldn't want a nicer Sunday suit. The goods are of a soft medium rough texture, and of a rich beautiful black. Coat cut in the three-button sack—nothing extreme about it. A good sensible, genteel suit, well-tailored and particularly well-shaped at the neck and shoulders. It compares with custom suits with a margin of ten dollars to go against. It is a particularly well-finished suit. At the price any man who wants a suit for best would go far before he found its equal. We have American suits at \$20.00 with cheviot inferior in quality to these at \$15.00. We concentrate our resources on our \$15.00 suits, and this is one of the best values of the lot.

Men's Fine All-wool Imported Black English Cheviot Suits, a soft finished rich black material of unquestionable quality; warranted fast color and of medium weight, suitable for dress or business wear; made up in single and double-breasted style of the latest design, lined with fine mohair (twill serge lining), shrank duck haircloth and canvas interlinings; every detail of workmanship carefully looked after; nicely finished and tailored, in perfect fitting style. Special value, \$15.00.

## Working Men's Shirts

Work Shirts for all trades—full and roomy—a few for example:

Black Drill, the strongest wearing material made, wears like iron, double stitched seams, collar attached, 15 to 17, \$1.00.

Black and White Striped Drill, with a moleskin finish, yoked shoulders, collar and pocket, 75c.

Imported English Striped Oxford, with reversible collar and pocket, guaranteed fast washing colors, at 75c.

American Made Black Sateen Shirts, splendid quality, collar attached, easily be sold for more. Our price 50c.

TWO SPECIAL REDUCTIONS FOR TUESDAY'S SELLING: 1000 English Oxford Shirts, in a large variety of stripes and colors, with collar attached and cuffs, 14 to 18. Regular 75c. Tuesday 50c. 500 English Ceylon Flannel Shirts, reversible collar and pocket, a variety of stripes and colors, size 14 to 17. Regular \$1.00 and \$1.25. Tuesday 50c.

## Silk and Lisle Gloves

THREE lines especially worth the telling. You will gladly pay double the price for these gloves later on, when summer is here and everybody wants them. We have marked them for early selling.

They come from Germany, where fabric gloves seem to be made best. Take our advice and buy a pair or two at these early prices:

300 pairs of Women's 20-Inch Mousquetaire Plain Tan, Black and White Lisle Thread Gloves, dome fastener, fine even thread, 5 1/2 to 7 1/2. Special price for early buyers, 50c.

Women's 22-In. Real Silk Gloves, elastic, close fitting Jersey wrist, and real double-tipped fingers, best of finish, black only, sizes 5 1/2 to 7 1/2. 240 pairs to go. Special price for early buyers, 68c.

Women's Elbow Length Plain Lisle Thread Gloves, 2 dome fasteners, fine close qualities, perfect fitting, black and white, 5 1/2 to 7 1/2. 150 pairs only. Special price 20c.

## 50 Underpriced Watches

A \$5.50 Silver Time-piece for \$2.95. DON'T think it is not a good watch, either. Seven jewel bearings, if it does sell at \$2.95. Popular 16 size—the size carried by the average man.

50 only, 16 size, open face, solid silver case, fitted with a nickel damascene, 7-jeweled movement, with compensated balance, guaranteed to be accurate timekeepers, and finished in every respect as good as any 7-jeweled American watch. Regular \$5.50. Tuesday, \$2.95.
