Guelph Soldiers Give Orators a Lively Time at Anti-Conscription Meeting.

Special to The Toronto World.

Guelph, May 31.-One of the most ning in the trades and labor hall, under the auspices of the Socialist-Demo-cratic party. The meeting was called for the purpose of opposing conscription and, as was anticipated, the hall was filled to the doors. The 64th Battery, about 75 in number, marched to the meeting in a body and occupied the first seats, and the returned soldiers were well represented. It was rumored during the day that the soldiers would make trouble if any of the speakers made any seditious atterances, and their presence at the meeting no doubt had an effect on the speakers, as they spoke in fair moderation, giving their reasons for opposing conscription. M. A. Farley was chairman, and the speakers were: Messrs, Lowe Cunningham of this city and Mervin Smith of Kitchener. The former got a fairly good hearing, althohis was frequently interrupted by soldiers and others with pertinent questions, which he failed to answer satisfactorily. The audience was not so generous with Smith, however. He had a stormy time of it at the close of his address when the soldiers surrounded him and insisted that he sing "God Save the King," and after a great seem contended to the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, would long be entwined with the Stars of the Union Jack, which, he hoped, was defended to the Union Jack, which, he hoped, wan the first seats, and the returned soldiers were well represented. * WAR SUMMARY *

THE DAY'S EVENTS REVIEWED

HEROIC figure emerges from the generally nameless records of the war in the person of Gabriele D'Annunzio, the poet, who inspired the Italian soldiers by word and deed the other day in a terrific and terrible hand-to-hand struggle with the Austrians, before San Giovanni. The enemy was striving to recapture this village on the Carso Plateau, but his storming forces suffered annihilation. Bad weather kept down the activity on the rest of the Julian front. The Italians, however, scored a consider able success in Albania over irregular troops of the enemy on the upper reaches of the Osum River, and they occupied and retained four Albanian reaches of the Osum River, and they occupied and retained four Albanian villages. They attacked the irregulars, drove them back, and defeated the attempts of regular troops to dislodge them. The Albanian expedition, in a sense, now forms the right wing of the Italian army. Italy has thrust out an immense pincers on the Julian and Albanian fronts, and she has begun slowly to close them. Till the Italians reach Laibach, the fighting will keep heavy, it is expected. Beyond that point the road lies open to Vienna.

Only periodical outbursts of artillery fire from both sides broke the lull on the British front in France yesterday. R. T. Small, an American correspondent, reported yesterday in a despatch that both sides are confining their infantry activity these days to raids and minor local attacks, undertaken mainly to ascertain the other's movements and intentions. The villages. They attacked the irregulars, drove them back, and defeated the

undertaken mainly to ascertain the other's movements and intentions. The Germans appear to have a premonition of their doom, for they seem daily to grow more nervous and worried. They are alert as cats in watching the British, they set off guns at the slightest nocturnal alarm, they uselessly projected many defensive barrage curtains in front of the British positions, and some of their airplanes take desperate chances in flying over the line in endeavors to keep in touch with any important movement. The German Government has concentrated all its propaganda against the British. It overlooks even the United States in its wrath and it fills the air with its Anglophobe wireless messages.

According to the version of the kaiser's speeches to his troops at Douai and Tournai the other day, received in the British trenches from interception of the German wireless reports, the kaiser told the German soldiers to take no British soldiers prisoners and, if they could not help themselves and did take some, to treat them with contumely. German officers have issued similar orders to their men before this, but, it seems, the kaiser has taken on his shoulders the ignominy of inciting his men to massacre. He probably desires, besides making the German troops more ferocious, to draw rom the British commander-in-chief a retaliatory order for the purpose of using it to terrify his cowed soldiery into not surrendering.

Outside of the monotonous infantry battling by night, and the even more monotonous artillery battling by day in the Champagne, the French have little news to report. General Nivelle has pinned the enemy down to a dangerous position and he has evidently pried the Germans off their pivot there, or done some equally dangerous thing to them, consequently they have to give battle to avoid disaster and in giving battle they are bringing disaster on themselves. There are only three exits from France into Belgium, the valleys of the Scarpe, the Scheldt, and the Oise. The line of these rivers forms the so-called Hindenburg line. Down the valleys the Germans advanced to the destruction of France, up these valleys they must retreat into Belgium. The surprise wrought the enemy by the allies was the compelling of him to give battle on the ground which he was anxious to evacuate. It has, as Bonar Law Says, brought victory in sight.

The enemy is now caught at the entrances to the narrow funnels thru which he must withdraw, and to do so with two million men and 10,000 guns would be for the German army to commit suicide. The British and the French have therefore compelled battle and when they defeat the enemy and drive him from his present lines, as they have already demonstrated their capability of doing, he will suffer irreparable disaster as he hoped, withdraws into Belgium. The so-called Hindenburg line is really the line of Vauban, once drawn by him to protect northwestern France. It existed before anyone ever thought of Von Hindenburg. The British army in its retreat from Mons, passed down one of the natural entrances to France.

These men represent different British political opinions, including factions with a small following and not over-enthusiastic for prosecuting the war. These delegates will show the Russian people that Britain has nothing to hide; they will inform them how Britain was driven into the devastating war, and they will throw additional light on Germany's manoeuvres at this juncture to distort the predatory objects she had in forcing war on her peaceful neighbors.

Effort Will Be Made to Compel Express Companies to Improve Service.

Many matters of interest to the merchants of the district were discussed at the last meeting of the season of the Earlscourt Business Men's Association, held in Earlscourt school, Dufferin street, last evening. President John Waishe occupied the chair.

The need for a postal station for the St. Clair-Oakwood section was discussed. I. Cowan pointing out that the rapid development of the Earlscourt district calls for immediate action by the postal sythorities towards providing better postal facilities. "The mails for the business section are not delivered until the morning is well advanced," said Mr. Cowan. "and the side streets are delivered first."

G. T. Williams thought that Earlscourt residents were entitled to the same consideration as those residing in other districts. It was resolved to write the postmaster of Toronto requesting that a postal station be established in the Earlscourt district at the earliest opportunity, and pointing out the enormous growth of the Earlscourt-Oakwood section in recent years.

growth of the Earlscourt-Oakwood section in recent years.

Telephone Charges.
The matter of excessive charges for telephone installation outside the city limits immediately north of St. Clair avenue was next discussed. It was claimed that the excessive rates quoted for telephone service prohibit storekeepers and residents availing themselves of the service. A member stated that \$75 a year was quoted him recently, altho his neighbor just inside the city limits was paying less than one-half.

T. G. Smithbone suggested that the members residing in the township needing the service circulate a petition for signatures to be presented to the Bell Telephone Company requesting city rates.

Station to residents in the new free delivery zone created by the Dominion Railway Board, dating from May 1, was the cause of much complaint.

Dr. Clyde Robertson suggested that the association take the matter up with the express companies, and failing to receive satisfaction, bring the matter to the attention of the Dominion Railway Board, thru H. A. Newman, B.A.

The chairman pointed out that Mrs. Cordery, who keeps a small grocery store in the district, and whose husband was killed in action, was compelled to

Street Cleaning.

It was decided to write commissioner Witson of the street cleaning department requesting equitable treatment in the matter of street cleaning in Earlscourt.

The meeting endorsed the aution of the central council of ratepayers in the matter of the appointment of a food controller.

STONING OF TRAINS

Report on Incidents in Quebec Minimizes Seriousness of the Situation.

By a Staff Reporter.

Ottawa, May 31.—That soldiers used insulting language and boys replied with stones is the finding of a court of enquiry into the charge that troop trains carrying soldiers bound overseas were stoned at stations in the Province of Quebec. The report was tabled in the house of commons today. The court consisted of Lt.-Col. Wigle, of Windsor, Lt.-Col. Ostell and Major Barclay, of Montreal. The re-port finds that there is no direct evidence of stone throwing, but expresses a belief that there is a foundation for the rumors that a few stones were thrown at Riviere du Loup some time in Oct., 1916. by a number of youths gathered on the station platform. The report states that the stones were thrown in retaliation for insulting re-marks made to them by members of the 132nd Battalion who were passing thru the town.

Another Instance. The court also finds there is some evidence that trains carrying part of the 217th Battalion, men of the army service comps and army medical corps were stoned at Mont Joli on the sixth of April. The distrubance in this case was attributed to remarks made by the soldiers in regard to Quebec's slackness. It was also claimed that some of the soldiers were under the influence of liquor. The court found that some of the men detrained and began asking some of the young men why they were not in khaki. The replies were not satisfactory, and it is claimed that some of the men were in sulted. A group of youths hurled

stones in retaliation as the train pulled

"It appears clear to the court says the report, "that there was no hostility or ill-feeling on the part of any class of citizens in Quebec toward returned soldiers or any other soldiers, nor does there appear to bave been any maltreatment of reeurned soldiers by any class of citizens. Some soldiers obtained liquor without any restrictions, some of very inferior quality, and being under its influence they caused some minor disturbances, the blame for which cannot be placed upon the citizens of Quebec." The court expresses the opinion that the sale of liquor to soldiers in the City of Quebec should be discon-

OFFICERS ELECTED

Ontario Medical Association Holds Thirty-Seventh Annual Conference.

Adoption of resolutions embodying suggestions that the Dominion Government take action to stamp out venereal diseases and feeble-mindedness in Canada, the appointment of a committee with a view of obtaining elimination as far as possible of German methods in the treatment of this disease and the election of officer featured yesterday's meeting of the junction with its thirty-seventh annual conference in the mining build-

ing, College street. After several addresses on the subject had been delivered, a committee was appointed to obtain blood teste military and civil populations and to draw up a report showing that German treatment could be replaced by other methods. The committee wil hold a meeting in the fall.

Addresses were delivered last night by Dr. A. Schuyler Clark of New York on "The Value of the Wasserman Reaction in the Diagnosis and Treatment of Syphilis," and Prof. William Sharp of New York on "Recent Advances in the Operative Treatment of Intracranial Conditions. But, suppose Sir Wilfrid can bring no satisfactory assurance from Quebec, and declines to enter a coalition government; what will happen? There might be, and would probably have to be, a general election, but an election is the last thing the great majority of the members of parliament desire. Each party frankly fears the result of an appeal to the people. Hence, there is every reason to believe that, falling to make terms with Sir Wilfrid Laurier, Sir Lomer Gouin and Quebec, the prime minister might attempt to detach from the Liberal leader a number of his supporters from Ontario and the west, who are favorable to conscription, and in this way form a sort of coalition government. It is even said that some Liberals have been approached along this line, possibly without the knowledge of the prime minister. Thus, it is rumored that A. K. The conscription bill will not be introduced until the negotiations between Sir Robert Borden and Sir Wilfrid Laurier are broken off. If the negotiations come to nought, some Liberals may come over to the Conservative party and join the government, or the government may be forced to the country. For the moment 4t can only be said that negotiations are sill on that the leaders are in close touch and a coalition may be the result. What the terms of the coalition will be and what cabinet reorganization will be involved are details left for future consideration. No report was presented, Mr. Bishop merely remarking, "This will establish a precedent, and therefore I decline to take the matter up." It was resolved to send this doubtful report on to the board in answer to their request. Trustee W. O. McTaggart, who maintained he had been "bulldozed," said, in asking for an explanation regarding Mr. Bishop's action, he was only asking for his rights as a representative of the people of Toronto. "I am entitled to have Mr. Bishop's reason why Mr. Breend should not be employed by the board," he said. Mr. McTaggart was supported by Trustees Mrs. Courtice and F. P. A letter was received from a solicitwere derived from land values and covered all local services, leaving buildings, improvements, business and incomes free from all local taxation. He said the taxes in Toronto still remained an amazing conglomeration, corresponding to no known principle of political economy, nor adapting themselves to the most elementary conceptions of equity and public interest. He did not believe in an increment tax, but in a decrement tax. It was unfair to burden the man who extended his buildings, gave employment and circulated money, just because he was making a success of business. The property which lay idle and unimproved was what should be taxed.

The pictures start with the arrival of the reinforcements from England and follow the campaign step by step to the advance which drove the Huns into retreating from the line they had held intact since the Battle of the Marne. And it shows the awful trail of desolation left by the enemy.

It should be noted that there is no un-necessary display of dead and wounded in this new picture. It was decided by the editors of the film in England that the public should be spared unnecessary gruesomeness. Action, courage, tragedy and triumph are shown without the details of human mutilation and pictures of the bodies of the dead.

Canada is intimately associated with the war, not only in taking part military fashion, but in the production and distribution of food, in which the whole world has an interest. The thrift, the economy, the foresight of the whole world is needed at present to rescue friend and foe alike from the great peril of famine. Germany, like a blind Samson would drag down the world in her ruthless despair. The food supplies are scant, but in Canada it is not of scarcity. out of what can be gained from the acarcity that most are thinking. It is different elsewhere. In Belgium and other parts of Europe the people are dying for want of food. Even in the old country the warning note has been

ounded. A letter from a young lady at The King's proclamation was read in hurch last Sunday about bread econonly, so we've been having a great time

all week making calculations about how ch bread we eat. Most of us only eat 714 slices of bread per day—the ra-tion being nine slices. We don't use sugar except what is put in cooking, and the ration is 6 teaspoonfuls. So you see we are economizing all right. Today speaking in golf terms-I'm three slices up and six to go."

The spirit that lies behind this attiture is what may be relied upon to bring the empire thru the great tribulation, but we should have more of it in Canada and a fuller realization of what is needed, both in action and in restraint, to make us worthy of the fellowship of the entente alliance.

Gen. White Will Try to Enrol His Majesty's Subjects.

New York, May 31.—A campaign to enlist some of the estimated 800,000 British subjects in this country was begun today, when offices for the "British Recruiting Mission" were engaged here. Actual recruiting will not be started, however, until Brigadier-General W. A. White, head of the mission, outlines its objects in a statement which is expected on Monday. The mission includes seven officers, besides General White. They have been here looking over the situation. Whether the mission will establish recruiting stations in other cities of the United States will depend on the success achieved here, it was said.

BRITAIN WILL GROW ALL WHEAT NEEDED

Next Year Will See Wonderful Development in Agriculture.

London, May 31.-In an address in London today Rowland E. Prothero, president of the board of agriculture said that under a plan devised by the government, the success of which he believed to be assured, Great Britain would grow sufficient wheat in 1918 for all the needs of the population, with a liberal supply left over for livestock.

Mr. Prothero said this depended upor the solution of agricultural problems facing the country, but if these were disposed of "even if we started with nothing in hand and not a grain of corn brought into this country, we would still be able, at the normal rate, which, roughly, are what we require."

Dr. David does not hope that peace will result directly from the Stockholm movement. The utmost he expects is that the conference will lay a basis for a peace movement on which peace lovers in all countries can unite. Questioned as to the fate of the reform movement, Dr. David asserted that reform was sure to come, but did not specify as to whether the change would be effected during or after the war. the war.

ANOTHER INDEPENDENT PARTY

Brantford, May 30.—At an enthusiastic meeting of labor men, attended by some 150 representatives of local unions, it was this evening decided to form an independent labor party in this city. Rev. W. E. Gilroy, of Hamilton Congregational Church, formerly a local pastor, gave an address in which he urged, the workingmen to get together to send representatives to the lawmaking bodies. A strong committee was appointed to carry out the work of organization with J. Rose as chairman.

The British offensive on the Arras front, involving some of the severest fighting of the war, naturally has resulted in a large increase in casual-ties over the inactive winter season. Casualties for the last few months have not been received, but in February the total reported was only 1243 officers and 17,135 men. The casualties recorded in the first three months of the Somme drive were 207,169 officers and men. In August. of last year, the second month of the Somme battle, the casualties were

Braves Have One-Run Margin When Wetness Arrives -All the Stars Present.

Toronto had hig loague reelings yester-It was Big League day at the did not live up to Big League expecta-tions. The weather man again showed that he was a busher. The Boston Braves and the St. Louis Browns were on the job and played big league ball, but rain came along after the teams had provided an excellent entertainment for six hunings and put on the finishing touches. The Braves were one run up, to 3, when the wetness arrived.

The sun shone merrily in the morning, but it clouded up and threatened rain at every minute around the noon hour. It continued this way and kept the attendance down However, close to five thousand fans crossed the bay and they were rewarded by seeing many big league stard and a real ball game for six innings. Of course the Boston Braves were the Toronto favorites. Dick Rudolph and Eddie Fitzbatrick, Leafs of other day, are with the Braves and this gave the Braves the pull with the local fans. Only two of the real stars failed to put in an appearance. Shortstop Lavan, of the 3t, Louis club, was spiked a couple of days ago and was unable to make the trip. Hank Gowdy, catcher of the Braves, was an absentee. the job and played big league ball.

trip. Hank Gowdy, catcher of the Braves, was an absentee, itudelph and Fitzpatrick were there. Eddie played second for the Braves. Rabbit Maranville, of world series fame, held down the short field job for the winners. Johnly Evers, he of the nervous disposition, did some coaching for the Braves. Boston used their regulars, as did the Browns. George Sister, Ty Cobb's greatest rival, was at the first corner for St. Louis and he looks every bit the part of a hustling player.

Louis and he looks every bit the part of a hustling player.

The Browns gave, a smart military drill before the game and carry their own army drill instructor. The Braves are not up on the military stuff.

It was a smart game of ball that the visitors provided. They pulled off four double plays to enthus things and there was enough of the good solid poking to please anylady. The pitching could have been better, but it was a battle between southpaws. St. Louis sent Earl Hamilton to the mound and the Braves used Allen.

riamilton to the mound and the Braves used Allen.

Eddie Fitzpatrick was one of the big men with the willow. He collected two hits in as many tries. Shotten, the Brown's left fielder, dropped a home run into the right field bleachers. Tragressor, Marsuns and Johnson kept Fitzpatrick. Company with two hits each.

The Braves were first to bat and got eway with a jump, putting over a run. Twombly, the former Baltimore outfielder, banged to deep centre for two bases. Maranville lifted to left and Wilholt walked. Sherwood Magee flied to right and Twombly beat the return home. Kenetchy walked and Smith rolled out. It didn't take the Browns long to even it up. With the count two and two on him Shetten hit one into the bleachers. It didn't take the shows and two on him Shetten hit one into the bleachers. Fuzzatrick came up for his first try to start the second and he got a great hand. Me replied with a hit, but nobody was able to boost him around. The Browns showed in front in their half. Cubn Marsans doubled to centre. Paulette sterificed and Johnson singled to count marsans. Johnson stole second and went on to third when Tragressor threw into centre field. Hale and Hamilton struck out.

centre field. Hale and Hamiston struck out.

It was tied again in the third, when the Braves scored one run. Without doubled down the left field foul line. Mage's single scored him. Konetchy beat out a hit to second, Smith lift to Austin, who tagged Magee on the line and threw to first for a double play.

The Braves scored their last pair of runs in the sixth. With one down. Pitzpestick came thru with his second hit. Tragressor doubled, but Fitz was held at third. Allen hit to Paulette and the throw to the platte was too late to get Ritzpatrick. The Braves then pulled the squeeze play. Twombly laying down a nice bunt and Tragressor scored.

The Browns got one in their balf of the sixth. Austin doubled to deep centre and rode frome on Jacobson's single. Rain arrived just as the third man was castled out. The umpires waited the regulation half-hour and then called it off.

Western City notes.—Amby Glynn played a grand game at short for St. Francis, besides having two hits. His partner, Morrissey, had a three base clout. Doyle, Church, Smith and Swaine had two hits apiece on Saturday. When they start to tell you about good infelders, tell them to watch Garnett of Hillcrests. He is full of pepp, in the game all the time and covers an acre of ground. Saturday he beat out a grounder to short, stole second and third, and made home on Hennessy's bunt. Ed. Scott pitched good ball after relieving Judge in the third, striking out 3 men in 4 innings. Ed. McKeown is the same old reliable with a world of speed and cool as a cucumber at all times. Kennedy of Moose had a homer, a manmoth drive to right field. Hack Davis and Tom Moxon had two solid clouts apiece, each one scoring two runs with their second hits. Lucky Luxton covers a lot of ground at short for Moose, and he can throw them out from a mile back. Saturday at the bat he flied out five times.

Wychwood were only able to get one hit off Len Biddell in five innings, and struck out 11 men. With decent support the scores should have been much closer. Burr Maxwell has gathered together a nice team, in fact the four teams are good. The fans are in for some good games this summer.

The swarthy native of Woonsocket, R.I. who has weathered twenty-one years of life in the big show, is still thrilling fans, surprising prophets and reviving the love for the game in Toronto, where Nap cavorts around second with that same rhythm that marked his long, varied career in that greater realm where he soon expects to send some of his charges in quest of fame and fortune.

Few critics are willing is admit Lajoie is thru as a player. Still fewer are ready to question his ability to lead a team. He has already worked wonders with the Maple Leafs, and his presence on the ball field has done much to inspire his faithful band to greater deeds and convince Barrow that he is still the attractions.

Nap was forty-one years old last September. For efficient service in the major leagues only Pop Anson and Hans Wagner can approach his record. He has never been a burden to any manager. He has always showed contentment, regardless of the position of his team in the standings, and he was never known to have incurred the enmity of the fans or umpires to any extent that has lasted more than a moment.

Lajoie went to Philadelphia from Fall River of the New England League in the month of August, 1395. The Phillies, then managed by Billy Shettsline, paid \$1200 for Phil Geer—Lajoie was thrown in for good measure. Unheraided, Lajoie was placed in right field, and made good at once.

The next year he was an acknowledged star. Lajoie remained with the Phillies until 1901. when he jumped to Connie Mack's Athletics. Larry played wonderful ball for the Athletics, but the next year John I. Rogers won a court decision, and Lajoie had to stay out of the jurisdiction of Pennsylvania courts until the trouble between the National and American Leagues was settled.

Mack sent him to Cleveland, and he was the star player of the Naps for a long term of years. When Mack sold Eddie Collins to the White Sox, in December, 1914, he brought Lajoie back to Philadelphia. Larry played good ball in 1915 and 1916, altho he was not as agile as he used to be. Realizing that he was slowing up, he asked Connie Mack at the close of last season for permission to negotiate with a minor league club as manager.

SANDS OF PLEASURE **WON FROM CHRISTIE**

Red Sox Win Handily-Pitts- Initial Victory for George M Hendrie in Feature Event

Montreal, May 31.—The outstanding feature at the Dorval Jockey Club meeting this afternoon was the running of the Dorval Selling Stake, with an added value of \$1000, while the next of importance was the Quebec Handicap, which was fashioned for Canadian-bred horses. Marking the initial victory of George M. Hendrie at Dorval, Sands of Pleasure won the Dorval Selling Stakes by a good margin from Christie, which was the public choice, while the handicap furnished a local winner. When the break came in the selling stake event, Fairy Legend was hustled to the front and made the pace for the greater part of the trip of a mile, Sands of Pleasure, which was under restraint in the early stages, trailing off the pace and running well back of the others, with Christie behind him, the latter being shuffled back at the start. Not until the far turn did Jeffcott make any effort to improve his position with Sands of Pleasure. As the field swung out of the back stretch, he called on his mount and soon had him in a contending position, while at the same time Merimee made his run with Christie.

PLAYS, PICTURES AND MUSIC

THE ROBINS PLAYERS.

In Edward Sheldon's play of "Ro-mance," with which E. H. Robins and the Robins Players will inaugurate the sixth week at the Alexandra, one of the prettiest stories ever told on the stage will be seen in the love episode of the Rev. Thomas Armstrong and Mile. Margarita Cavallini, the noted opera singer of former years. The stage and costuming will be correct

"MASQUE OF LIFE."

"The Masque of Life," which will be the offering at the Grand Opera House all next week, proves what wonderful things can be accomplished when there is a real story in a spectacular production. Too many motion pictures, which claim fame because of their spectacular bigness, have so little in the way of real story that they fail to hold the public. In this film there is a vital human story running thru the entire seven reels.

HIS MAJESTY'S.

Pauline Frederick, the screen's greatest emotional actress, will be seen for the remainder of the week at His Majesty's in one of her most recent motion picture successes, "Her Better Self," in which she enacts the role of a beautiful society butterfly in love with a serious and hard-working young doctor. The great gulf which separates their social positions and makes it almost imp sable for them to marry is bridged only by the girl's devotion and willingness to sacrifice her bampored position in the world for life with the man she loves. The picture shows how all ends happily without this sacrifice, and reveals Miss Frederick in a beautiful character portrayal.

STAR THEATRE.

That funny Jewish comedian. Sam Bachman, assisted by Lew White, will appear all next week at the Star Theatre. Bachman is a clever impersonator and is also assisted in funmaking by James Francis. Max Hyman, a Toronto boy; Ned Woodley, Flossie Everett, Bessie Crandall and Lenore Luther are other stars of the Smile Girls Company. ile Girls Company.

"THE DEEMSTER" AT STRAND.

There is no let-up in the popular enthusiasm for "The Deemster," the film version of Hall Caine's great masterpiece, which, with Derwent Hall Caine in the principal part, is being presented all this week at the Strand Theatre. A special musical program is rendered each day by the famous Strand Orchestra, and the vocal selections of Mr. John T. Fiddes are very highly appreciated. highly appreciated.

HELICONIAN CLUB ELECTS OF

MAY PASS RESOLUTION FAVORING UNION LABEL

The business meetings of the national council of women, who are meeting in Winnipeg, begin today. The sessions will be held in the university building, and interspersed with the business will be many delightful functions, notably a luncheon at the Royal Alexandra Hotel, given by the Women's Canadian Club, at which Mrs. F. H. Torrington, president of the national council, and Plumptre, honorary secretary,

will be the speakers.

One of the resolutions which will be brought forward and for which the Medicine Hat council will stand sponsor, states that as a guarantee of good condition and fair wages for employes, the national council of women of Canada undertakes to have the union label on all printed matter.

Not for the hapless and anguished lovers of End Caine's drawing is the happiness. I wedded bliss. Tragedy is ever impending over them. Derwent Hall Caine's impersonation of Dan Myirea is a veritable triumph, while it is not too much to say of the while it is not too much to say of the photoplay that much of it is sublime

MERITTON FREIGHT WRECK.

The Grand Trunk train from Buffalo, due in Toronto at 10.30 last night, was over two hours late in arriving at the Union station, owing to a freight wreck in the Merritton yeards. A coal train from Fort Erie, coming down a heavy grade with the engine out of control, struck an eastbound freight train at 5.46 yesterday afternoon.

Both engines were badly damaged and several cars were derasted, blocking both main line tracks, but no injuries to the crew of either train were reported. Passenger traific, in order to get around the wreck, had to detour via Port Robinson.

Is Able to Provide Many Pleasures for Canadian Wounded at Ramsgate.

The following is an extract from an interesting letter recently received by a Toromo friend of the writer, Rev. Capt. E. L. Hooper, chaplain to Granville Special Canadian Hospital Rams-

"Many wounded soldiers returning

to Canada will testify to the work I am endeavoring to do for the lads from Canada when in this great hospital undergoing treatment. Let me briefly state some of the things I have been able to do for the last nine o ten months. First, there are the cigarets which I carry round in my haversack daily, ready to give a smoke to those who are without them. For the bed patients whose appetites need fruit, oysters, etc. For those who are about I have arranged for moving pictures free for all, whereas the patients used to be charged 2d admission. For the crippled patients I have motor bus drives, taking parties of 25 at a time for a two-hours' drive and stopping for tea at Minster before returning to the hospital. On boxing day I took a party of 80 men to Canterbury to was that of Mrs. Bexton of Halifax, who spoke on navy conditions. Canada, said Mrs. Bexton, has done surprisingly well in raising recruits for the Royal Naval Canadian Volunteer Reserve, about 5000 young Canadians having gone thru the depot ship to join the service overseas. Many of the R.K.C.V.R. are also kept in the patrol fleet and too much praise cannot be given the volunteers for the way in which they have taken hold and adapted themselves to the living and discipline. There are now about 130 boys between 13 and 17 in this service, and this is practically the nucleus of a Royal Canadian Navy. In addition over 100 boys are now being trained at the naval college to take their place as officers of the navy.

Mrs. Bexton also told the Daughters see the cathedral, and afterwards gave vian mensters of some reptilian species more thousands will no doubt be benewe have read how they crawled and the by the practical service I am able to render them. While I am an Anglican chaplain, I treat all men alike. I never ask about denomina tion; they are men-who have done their gallant bit—and I am a father to them all, and they are my sons."

WHEAT GOES DOWN ON CROP PROSPECTS

New Grain Comes Along Well, Forcing Values Lower

Chicago, May 31.—Optimistic crop reports and the northward spread of the harvest gave a decided down swing to the wheat market today. Prices closed insettled, 31/2c to 9c net lower, with July at \$1.94 and September at \$1.80. Corn finished 11/2c to 3%c off, and oats at a decline of 1%c to 1%c. In provisions, the outcome ranged from a setback of 17c to a rise of 25c.

All advices, both from government and private sources, showed notable improvement of winter wheat and an excellent outlook for the spring crop. Assertions were current that Texas and Oklahoma have the finest crops ever seen in those states, and it was said harvesting would begin near Ardmore, Oklahoma, tomorrow. Encouraging messages were also at hand regarding Kansas. As to spring wheat, heavy rains over the entire northwest were said to have ensured big yields, conditions in the Dakotas and Minnesota being represented as similar to those of 1915, when the result was a banner crop.

Hedging against purchases of new wheat appeared to be responsible for at least some of the selling. In this connection, it was said that the crop was heading as far north as Kansas, Missouriand southern Indiana. Corn prices fell sharply after an early bulge. The break was associated with word from the seaboard that a neutral government was trying to re-sell 400,000 bushels of corn new at Atlantic ports. Talk of too much rain and too little warmth had much to do with the temporary initial strength of the market.

Oats were governed chiefly by the acoutlook for the spring crop. Assertions

market.

Oats were governed chiefly by the action of corn. Field advices were uniformly promising.

Irregularity characterized the provision market. Pork and ribs received support on account of higher quotations on hogs, but lard was sold. Liverpool reported the lard market there as weak and the supply for the present supply.

Comparing the statement with the last one issued last year it is shown that costs have advanced from \$4.51 per ton to \$4.97. Costs, however, in the third quarter last year ran as high as \$4.93. The average grade of ore treated has fallen slightly from \$10.62 to \$10.43.

Dividend requirements for the four monthly periods amount to \$240,000 which leaves a surplus of some \$40,000.

It must be remembered that during the first couple of months many delays occurred in the matter of repairs and installation of machinery while in March the power shortage proved a serious handicap.

The following notes found in the memorandum are important:

Ore and bullion production during the period has been maintained. Exploration and development work has not progressed as rapidly as had been expected on, account of the serious shortage of labor in the camp.

The 800 and 900 foot levels of No. 5 shaft are being opened up and drifting on No. 5 vein confirms the results obtained by diamond drill holes which showed widths of from 6 to 23 feet of high grade milling ore.

Earnings Twenty-Six Per Cent. on Common Stock - Issued.

Montreal, May 31.-Dominion Steel Corporation's profits in the recordbreaking year ended March 21 last represented earnings at the rate of 26.71 per cent. on the corporation's \$32,097,000 common stock, according to the official figures issued this afternoon against 9.39 per cent, earned in 1915-16, previously the best year in the corporation's history.

After paying off a year's dividend arrears on the subsidiary Dominion

arrears on the subsidiary Dominion Iron and Steel Company's preferred stock and making a distribution of 1 per cent. on the corporation's common stock in the final quarter of the mon stock in the final quarter of the year, there remained from the year's earnings a net surplus of \$7.900.188, or equivalent to \$24.60 a share on the common stock, to be added to the profit and loss balance. This balance thus rose to \$11,937,577, and in place of carrying it all forward in that form the directors decided to appropriate \$3,000.000 as a special reserve to provide for construction expenditures and war tax for the past year, tures and war tax for the past year, and also another sum of \$2,899,395 to he applied as a write-off against an old halance of \$2,899.395 carried among assets as discount on bonds sold. These two appropriations, taking close to six million dollars, still left the corporation with a balance at credit of profit and loss of \$6,038,182, against \$4,027,789 a year ago, while the gross combined surplus of the corporation and its constituent sub-sidiaries stands at \$7,596.892, an in-crease of \$2,000,793 within the year. Net earnings, after deducting all manufacturing, selling and adminis-trative expenses and also after provision for amortization of munitions plant and equipment and business

1,000 aside for this purpose. Interest s,503 charges for the year were \$1,230,203, and it is noted in this connection that charge for interest excess terest.

March 31 of that year. In that exhibit net profits of \$86,009 were shown. The business of the company increased to such an extent that the profits of the year ending March 31, this year, were \$108,882, being \$22,000 in excess of the 15-month period preceding and \$87,582 greater than those of the preceding

welve months. After payment of dividends on the preference stock of \$45,000, the company showed earnings at the rate of 9.73 per cent. on the common stock, but \$15,000 was transferred to the real estate and plant reserve, and after this deduction earnings on the common

were 7.44 per cent.

The balance carried forward on
April 1. 1916, was \$29,792, but a conservative policy in the matter of dividends in the past year of prosperity permits of this amount being more than doubled, and the carrying forward into the current year is \$65.174. With this year's addition of \$15,000 the real estate and plant reserve account has been increased to \$28.974. count has been increased to \$38,974.

As compared with the best year prior to the war, 1912-13, the increase was \$3,255,817, or approximate-19 180 per cent. Allowances for depreciation, sinking funds, etc., at \$1,859,595 were some \$667,000 higher than what had previously been set charges for the year were \$1,230,203, and it is noted in this connection that for the first time there was no charge for interest except bond interest.

PACIFIC BURT ANNUAL.

The Pacific Burt Company, Limited, one of a group of enterprises the annual statements of which have reflectioned the general business prosperity and exceptional administration, has just issued its balance sheet for the twelve months ending March 31 last, Early in 1916 the company changed its accounting period, and its previous statement was for fifteen months ending March 31 last, Early March 31 of that year. In that exhibit

much of its early rise was ascribed to short covering to avoid the added penalty. Among the other very active and temporarily strong stocks were the sugars, at gross gains of three to nine points; to-baccos, two to four; oils and leathers, one to almost three, and shippings at equal gains. Fertilizers shared in the upswing for a time with the paper stocks, American Woolen, Gas and local tractions, Distillers Securities and Industrial Alcohol, the latter holding about half its 5½-point rise. Metals recorded no appreciable move at any time, and rails presented no notable features. Lehigh Valley made only slight response to the thirty per cent. cash and thirty per cent. stock dividends declared by the coal sales company. Total sales of stocks amounted to 1,090,000 shares.

Bonds were steady, internationals inclining to moderate irregularity. Total sales, par value, aggregated \$2,725,000.

United States coupon and registered 2's declined a quarter per cent. on call.
