GERMANS DESPERATE; SACRIFICE THOUSANDS, BUT BRITISH ARE FIRM

Attack After Attack at Ypres All To No Avail

Slaughter of Enemy Does Not Deter Them From Trying Again and Again Till Plain is Charnel House—Khaki Line, Reinforced, is Stronger Than Before

London, May 15.—A Times despatch from Pas De Calais says: The German offensive against Ypres has assumed a phase which may very properly be described as desperate. Countered in the great assault of last Saturday, the Germans have not ceased to hurl attack after attack across the fields in front of the town. Each new attack seems more reckless than the predecessors.

On Tuesday the slaughter of Monday was repeated in almost every particular. Several distinct attacks were made, each carried out by infantry advancing in close formation. Powerful artillery fire as before had been expended to prepare the ground.

In each case the result was exceedingly disastrous for the Germans. They lost masses of men to machine guns and rifle fire and failed of the only achievement which could ever justify such expenditure, the cleavage on a large scale of the British line of defense.

The German infantry displayed great courage, the courage of despair perhaps. They fought bitterly as men ordered to strike with out sparing. There were signs of very considerably exhausted Germans, but it is scarcely doubted that new attacks may now be expected. These new attacks have even less prospect of success.

The plain before Ypres is a charnel house of German dead. The British line as reset and reinforced is stronger than before. Not even the reckless despair which threw thousands of men away in half an hour can prevail.

FRENCH AGAIN ADVANCE

Paris, May 15, 2.30 p.m.—The French War Office this afternoon reported: "There have been no changes in the situation since last evening in the sector to the north of Arras. Here fighting continues under the conditions set forth in our last communication. We have progressed 500 yards in the direction of Souchez. In this sector there have been violent artillery exchanges."

AT GRIPS WITH RUSSIAN CENTRE

Petrograd, May 15.—Although General Mackensen's Austro-German army has come to grips with the Russian centre on a line paralleling the San River in Galicia, no fears are felt here over the possible loss of Przemyel. Despatches from Lvov (Lemberg), state that the Russians have taken up positions of great strength on the heights of the San, where they have mustered an enormous quantity of artillery and erected strong defensive works. Both in Galicia and in Southern Poland, where the Russians retired to strategic territory east of stiffened with reinforcements.

Field Marshal von Hindenburg is reported to be hurrying German troops to Bukovina, where the Austrians are in retreat from the Bistritza river to the Romanian frontier over a line nearly 100 miles long.

The battle of Shavli, in Coudand, Russia, continues without any result.

Italians and urging the re-establishment of the calm and moral discipline so necessary in this grave moment. It also urges despatch, irrespective of parties, to co-operate with the authorities in a patriotic effort to restore tranquillity. The message was received with enthusiasm. Intern all.

London, May 15.—A Reuter despatch from Capetown filed Friday says: "Immense crowds thronged the streets tonight singing 'Rule Britannia.' Troops found great difficulty in preventing disorders. It was announced that the government had decided to intern all aliens of enemy nationality and also to protect naturalized aliens or those who have applied for naturalization."

General Botha has issued to the people of the Union of South Africa, from Windhoek, capital of German South Africa, a message deploring the anti-German riots, which he characterizes as unworthy of a strong and civilized people, however great the provocation.

London, May 15.—A Johannesburg despatch to the Reuter Telegram Company says: "The situation here for the last 36 hours has been extremely serious, mobbing the work of destroying every German or apparently German property which previously had been only partly wrecked. Police and troops have been called in from all directions, however, and now have command of the situation."

A SERIES OF CHARGES

In the police court this morning Arthur McDonald was remanded on charges of drunkenness, interfering with the police, using obscene and profane language, and assaulting Mrs. Charles Perrin. He was held by the magistrate that he was liable to a long term in jail.

HAD GOOD TIME

At the close of the performance of the Ebony Swells last evening the entire company, still in full regalia, adjourned to the Brown Betty tea rooms for supper and a dance. It proved a very merry affair.

TEN DAYS BEFORE THE REPLY COMES FROM GERMANY

American Note Probably Was Presented Today

BERLIN TO MAKE NEXT MOVE

Paper in German Capital Now Blames United States For Sinking of the Lusitania, Asserting Americans Used to Ensure Safe Carriage of Ammunition

Washington, May 15.—Washington today awaited official word from U. S. Ambassador Gerard at Berlin, that he had received the United States note. Although the note had been delayed in transmission, it is believed to have reached Berlin and probably will be presented to the German minister of foreign affairs today.

Germany is expected to make the next move in the diplomatic negotiations and it is expected that he will give the matter immediate consideration and send her reply in about ten days.

Puts Blame On United States

Amsterdam, May 15.—All the blame for the sinking of the Lusitania is placed upon the United States government by the Berlin Vossische Zeitung, Thursday, which argues that the liner took no care to avoid danger, but continued her perilous voyage.

The newspaper asserts that it was the American passengers on board who were to ensure that 8,000 cases of ammunition in her hold would not be touched and that, naturally, this was concealed from passengers of that nationality. The paper says the American government is responsible for the concealment of this danger and that it is the duty of American citizens in order to obtain the conveyance of contraband.

ANXIOUS ABOUT STEAMER WITH NURSES ABOARD

One Nova Scotia Girl on the Transylvania, Now Nearing the War Zone

Montreal, May 15.—On the Anchor line steamer Transylvania, now nearing the war zone, on her voyage to Liverpool, there are twenty-two Canadian nurses. They are not connected with any nursing organization or under the patronage of the government.

They volunteered to help perform Canada's share of the great war task. Details from England indicate that there is great anxiety as to the safety of the 900 passengers. The vessel is in Liverpool tomorrow morning.

Eleven of the nurses are from Quebec province, nine from Ontario, one from Nova Scotia, and one from Newfoundland. The latter two are Miss Elizabeth Ross, of New Glasgow, N. S., and Miss Maise Parsons, St. John's, Nfld.

Another New Brunswick Soldier Dies For the Right

Charles A. Gough of Chatham received a telegram from Ottawa this morning announcing that his son, Fred, had died from wounds. Fred enlisted with Major Anderson in Moncton last August and was an artificer in the 8th Field Battery. He is survived by his parents and one sister, Mrs. F. McKee of Bathurst.

Bombardier J. A. McLeane of Sydney, C. B., Second Field Artillery Brigade is named in the latest list of wounded.

HALIFAX SOLDIER WOUNDED

Halifax, May 15.—A private cable brings word that J. E. Almon, son of the late Dr. Thomas Almon, of Halifax, who enlisted in the Princess Pats, has been wounded at the front, and is now in the Sheffield Hospital. His injuries are slight. Mr. Almon left Halifax about three years ago for Edmonton, in which city he was residing when he enlisted.

CANADIAN'S ARM SHATTERED; DUM-DUM BULLET DID IT

Montreal, May 15.—Five wounded soldiers of the Princess Patricia Regiment, have arrived in Montreal. One of them, Private Holmes Account, who is staying with his cousin, Brian Ward, manager of Molson's Bank, has a badly injured right arm, which indicates that the Germans have been using dum-dum bullets.

The other injured men are from Toronto, Private Thomas Longford lost the sight of his left eye from a bursting shrapnel shell, and Private George Motley lost his right eye from the same cause. Lance Corporal Scott and Private Chapman, were awarded an account of sickness.

Private Account crushed his wound in the fighting around Ypres, where the Princess Pats have been in the thick of it. The German bullet hit him in the right forearm, shattering the bone in such a way as could not have been done by the ordinary bullet of civilized warfare. X-Ray photographs of the wound have been taken and they are said to bear out the contention that dum-dum bullets were used.

Two Sackville Men.

A telegram from "Jock" Wiggins, son of Dr. C. F. and Mrs. Wiggins of Sackville, who is at the front in France or Belgium, stated that he was ill from the fumes gas used by the Germans. It is hardly likely that he is seriously ill, as he is promoted full particulars later.

A telegram announced that Don Fisher, brother of F. A. and Morris Fisher, of Sackville, was about to leave England for France. He has been in the cavalry all winter but the telegram stated they had been disappointed.

FINE OF \$40 FOR SUNDAY SAVING

Raw Recruit To Trained Soldier

A Word About Our Friends Of The 26th

A FINE BODY OF MEN

Months of Army Life and Instruction Have Worked Great Change in Individual and Regiment—Something of the Soldier's Life

There goes the 26th! How familiar has that cry become to the people of St. John during the last few months, as they have seen, day after day, the men of the battalion parading past in various formations, in squads, companies or battalion order. The last few months have been days of bonding on the changeless drill, the daily routine, the minutiae of its nature. What wonder, then, that they are eagerly waiting for the order to depart, to be transported across the broad Atlantic to scenes of more stirring action!

St. John will miss them when they go, for the sight of the men in uniform about the streets has become practically a part of the life of the city. And when the depths of ocean stretch between, and they are playing a more active part in the empire's struggle, a thousand homes will watch for news of their doings, and from all parts of the province, attention will be focused upon their little sphere, content that when the hour arrives they will obey the call of duty as nobly as those gallant Canadians now in the thick of the din here and there, doing, for the honor and glory of the motherland and home.

A Transformation

What a change has come over these husky, stalwart young fellows in the last few months! Remember how "green" how "unsoldierly" they looked when first they were in the uniform. Now behold them march along with steady, measured tread, heads thrown back, shoulders erect, and a thousand moving as one man! Training! You say—yes, training! But not a few days of it, nor yet a few weeks, but for several months all day long, from 9 a.m. to 4.30 p.m., and sometimes longer, the instructor has had them in hand, and this is the product of his work—appearance, efficiency and fitness!

SOLDIER OF THE 26TH WEDS

A very pretty wedding took place on Wednesday when Rev. E. B. Hooper united in marriage Miss Jennie Gallant, of Alberton, P. E. I., and Walter Price, of Grand Falls. The bride was attended by her sister, Miss Mary Gallant, and the groom was supported by his brother, Eldrie. Following the ceremony the bridal party repaired to the home of Walter McCloskey, Waterloo street, where a bounteous wedding feast awaited them. The groom is a popular member of the 26th Battalion.

GERMANS' FAST LOSSENING GRIP ON HER POSSESSIONS

Southwest Africa was annexed by the Germans on Aug. 7, 1884, when they raised their flag on Luderitz Bay. It will be remembered that Germany, owing to the many dissensions that had marked her own petty states prior to the somewhat forcible union that they had been forced into by Bismarck, came into the field of colonization very late. This is the reason that her "piece in the sun" was poor in comparison with much smaller nations, such as Belgium and Holland. Southwest Africa is largely land that has laid waste in development between desert and agricultural land, neither one nor the other in any real sense. Like all the German colonies it was run at a loss, for the Germans insisted on putting in a policeman and a drill sergeant into each colony and making them supreme. The receipts from the colony in 1913 were only \$4,022,000, and the expenditure \$10,750,000. However, the colony was progressing.

One of the striking features of the colony was the rising there of twelve years ago under the Herero chief, who followed the celebrated Hendrik Witbooi, a kind of Cato of the west. It took the Germans relatively longer to suppress the rising than it took to put out the costly Zulu uprising.

Windhoek, the capital, is over one hundred miles in the interior from the coast, and even a longer distance from the eastern frontier, so that the advance of General Botha has been markedly successful. Waldfisch Bay, near to the German port of the colony, and six or seven islands along the whole coastline, are British. The fact has always ranked in the German breast.

This conquest of the big African colony by the forces of the African union brings out still more clearly the important fact that almost all the German overseas possessions have now fallen into the hands of the British. It is not even a question of the Allies working in conjunction, except in the case of Kiau Chou. This is the part next, of course to the absolute bottling up of the German fleet, the second largest fleet in the wide world, too, which would shine as a wonderful exploit were it not for the great work on land that it

also being done by a people who nine months ago had an army so small as to be described by the German emperor as "despicable." The whole of the German possessions, most of which have already fallen into British hands, have an area of about one-third of all Canada, namely 1,134,000 square miles, and a population of over twice that of the dominion, 15,000,000, but they are mostly blacks. It is a curious comment on the nation that rattled the sabre so often for "a place in the sun."

No Bug is snug in any rug, no flea is safe in sheltering, if worried with these, just kill with ease the entire lot with "Keating." Keating's Powder kills bugs. Sold in this city, 10c, 25c, 35c, 15

Rose A. Weiss, late of Upper Hanover, Pa., in her will gives her husband, Benedict Weiss, the use of all her money so long as he prospers and takes good care

of it, but adds that "if he takes unto himself a wife or spends any of the money in any way for his relations, my children shall and must collect all the money with five per cent interest from the day of my death."

The loser of an election bet in Baltimore had to wheel the winner several miles in a wheelbarrow, with the provision that every time the man stopped to rest five inches were to be cut off the legs of his trousers. He stopped four times.

CANADA'S TASK

A recruiting campaign is to be carried on in the province of New Brunswick. More men are needed in the ranks of Canada's army. No time should be lost in getting them in training for the very serious work that must be done before Germany is conquered.

There will be no more German-Americans. The order, "Choose ye whom ye will serve," has gone forth in the ultimatum of President Wilson.

A BRIGHTER OUTLOOK

The disgrace and fall of the Conservative ministry in Manitoba, following recent political events in New Brunswick and British Columbia, affords ground for the hope that torpor in Canada, with its attendant political evils, including extravagance, gross misuse of patronage and wholesale graft, will soon be thrown in every province, and the Dominion as a whole.

FIRST CROP REPORT OF PRESENT SEASON

Ottawa, May 11—The census and statistics office issued today, in the form of a press bulletin, the first crop report of the present season. It deals with the area and condition of the fall wheat crop, the condition of hay and clover meadows at the close of the winter, and the progress of spring seeding up to the end of April.

Owing to the mild winter and the favorable conditions which prevailed during the critical months of March and April, the fall wheat crop reported as being exceptionally good on April 30. In Ontario, where 1,048,000 acres were sown as estimated last fall, not more than 65 p. c. is reported as winter killed, and in Alberta, with 280,000 acres estimated as sown, the proportion winter killed

only 62 p. c. These proportions are lower than in any previous year on record for Alberta. Last year the percentage winter killed was 19 in Ontario and 15.6 in Alberta. In Ontario the area winter killed amounted this year to 71,000 acres, and in Alberta to 14,900 acres. These figures, deducted from the areas sown, leave 977,000 acres in Ontario and 215,100 acres in Alberta as the areas under fall wheat to be harvested. With 10,900 acres in Manitoba, 4,100 acres in Saskatchewan and 6,000 acres in British Columbia, the total area under fall wheat to be harvested this year amounts to 1,028,000 acres, as compared with 978,000 acres, the area harvested in 1914.

Whilst therefore, as previously reported, the area sown to wheat last fall was 9 per cent. more than the area sown in the fall of 1913, the increased area to be harvested, owing to the small area winter killed, amounts to 24 p. c. Not less satisfactory is the general condition on April 30, which measured by the standard of 100, as representing a full crop, is 89 in Ontario, as compared with 81 last

Comfort and Cure For Baby's Skin Troubles

Dr. Chase's Ointment Cured When Baby's Body Was Covered With Distressing Eczema

If every mother could try Dr. Chase's Ointment for the chafing, skin irritation and resulting eczema, which torture so many babies, what a blessing it would be for the little ones.

This letter will give you an idea of what a wonderful work this Ointment is doing in the way of bringing comfort to children who are so unfortunate as to contract eczema. It is so easy for this trouble to develop from chafing or irritation caused by the clothing and so difficult to get it cured, that Dr. Chase's Ointment is appreciated when once its healing qualities are known.

Mr. M. L. Duesel, Postmaster, Duganville, N. B., writes "I believe it is my duty to recommend Dr. Chase's Ointment as a cure for eczema. My baby was seized with eczema and his face and arms were covered with the terrible disease. After trying all sorts of ointments the disease continued to spread until I lost, Bates & Co., Limited, Toronto.

WOMEN'S WEAKNESS AND HEALTH PERILS

Anemia Comes So Gradually That the Victim Scarcely Realizes the Hold the Trouble Has Upon Her Until Almost in Decline

Woman's work is more wearing than man's because it lasts almost every waking hour. There is no eight or nine hour day for the breadwinner's wife, and often she toils under the greatest difficulty because her strength is below what it should be. The woman who is in doors all day is very often careless about what she eats and does not keep her blood up to the mark. It becomes thin and poor, which makes her weak, headachy, tired, breathless and liable to pains in the back and sides, the scourge of her sex.

New blood will do wonders for the woman who is tired out, who aches all over when she rises in the morning, who feels unaccountably depressed, who can gain new blood now, and drive away the pains and aches and tiredness if she will take Dr. Williams' Pink Pills. They have worked marvels for other women and will do the same for you if you are weak, tired, depressed or suffering from backaches or sideaches. Mrs. Elmer C. Taylor, Calgary, Alta., says: "I was so run down with anemia that I could scarcely walk without aid. I was not able to leave the house. I had no color, no appetite, and was constantly troubled with headaches, dizzy spells and a general disinclination to move about or do anything. My friends did not think I would get better and even the doctor was apprehensive. I was constantly taking medicine, but it did not do me a particle of good. One day a friend asked me if I had tried Dr. Williams' Pink Pills, and I decided to do so almost as a forlorn hope. After I had used a few boxes there was a decided change for the better. My appetite began to return, and I was taking the change was so noticeable. As I continued the Pills my color came back, I could eat my meals regularly, the headaches and dizzy spells ceased, I gained in weight and took a new interest in life. My cure being complete, I have told many sickly women and girls what Dr. Williams' Pink Pills did for me and urged them to take them and shall continue to do so, knowing what a splendid medicine they are."

Every weak and ailing woman who will follow Mrs. Taylor's example and give Dr. Williams' Pink Pills a fair trial will find new health and strength through their use. Sold by all medicine dealers or sent by mail at 50 cents a box in advance. Write for literature to Dr. Williams' Medicine Co., Brockville, Ont.

About Colds

A cold is one of the most common ailments. Most people do not take ordinary precautions to guard against it. It is communicable, and readily passed from one person to another.

At first, a little sore throat, especially in children, should be taken seriously. Measles and whooping cough generally begin like head colds. Diphtheria and scarlet fever are often "just a little sore throat" at the beginning.

Every weak and ailing woman who will follow Mrs. Taylor's example and give Dr. Williams' Pink Pills a fair trial will find new health and strength through their use. Sold by all medicine dealers or sent by mail at 50 cents a box in advance. Write for literature to Dr. Williams' Medicine Co., Brockville, Ont.

The Man In The Street

Join in the Clean-up Movement.

Don't allow your reading of the war news to interfere with cleaning up the back-yard.

It's positively certain that it hasn't interfered with the women of the house in their house-cleaning endeavors.

Spotting Notes

Digby Courtenay:—There are a large number of our citizens out trout fishing this week. It is impossible to get a full list for publication.

They were all probably trying to avoid the disfigurement of housecleaning, but it is satisfactory to know that women with out the names the paper could be published.

Nearly time for the half-holidays to start!

Partaking of Revival

Would our staff of special "detectives" change a violation, if instead of a "Mutt and Jeff" it was a "Billie Sunday" that was sold as ice cream on the Sabbath?

We've never tried a "Billie Sunday" but presume it's of a sulphur-sour flavor.

Predilection soldier writes from front: "It was hell let those taking Hill 60!" Again the veracity of Sherman is sustained.

And incidentally, they probably fought like 60, but they also got the hill.

News note says that Geraldine Farrar, opera star, will get \$2 a minute through her engagement in motion pictures. Suppose this may induce alcohol-polliticians to turn their attention from army-supplies-purchasing - to the screen?

St. John housewives are finding it difficult to get mads to go to their suburban homes for the summer. Something like Hon. "Bob" Rogers and his cabinet colleagues—hard to get them to go to the country.

Wise John!

(Kirkland notes in Woodstock Press)—John Slater had a wood splinting Wednesday. Quite a number attended.

Safety First

In reading the news despatches from across the border, with statements that this or that man thinks the States should fight, people in St. John should remember that many who were the loudest in their patriotic talk before the war have suffered an impediment in their speech and pocket, since August 1. It may be the same in the States.

April seems to have left a few show-ers for May.

And now the civic officials are to form a union. Good business! Here's hoping the tax collectors all join and then retire to go on strike.

They say a well-known temperance man registered a mild protest against the use of his name by the ministers. Everybody knows he is not ashamed of his principles; surely it was not because he objected to the imputation that he did not know anything about mixed drinks.

Every hot meal we eat these days should be a reminder that the boys of the 89th need those field kitchens, and will need them more next winter.

A conservative provincial friendship should be regarded as a poor risk by an insurance company.

Those Germans certainly have a keen sense of humor; the murder of a baby is good for a real hearty laugh any day.

In the editor's mail the other day he found a contribution headed "Diana vs. Dash." He paused for a moment, uncertain whether it belonged with the court news or among the prize fights. But a little more careful scrutiny showed that it was only the account of a quiet but pretty wedding. Hostilities must have commenced early in that case.

In Other Days

Local amateurs certainly have improved since the days when the only notice one morning paper paid to a performance was the remark "Last evening a dramatic performance was given in aid of the deaf and dumb institution; the chief regret of the audience was that the production was not given by those for whose benefit it was presented."

NO CUT IN FUND ALLOWANCE FOR THOSE WHO WORK

Misapprehension of Some Who Draw From Patriotic Fund in St. John is Removed—Encourage Saving

There has been a mistaken idea among some of the soldiers' families who have been receiving contributions from the Patriotic Fund as to the basis on which the grants are made. A large number of the wives or mothers of soldiers who have been accustomed in the past to add to the family earnings by their own work because they feared that the extra revenue would be taken as an excuse for cutting down their grant.

This idea is entirely opposed to the principles under which the local committee is working. They are anxious to see the families as prosperous as possible and want to see them in receipt of not only enough money to pay their current bills but to save some money if possible. They point out that the time will come when the war will be over and the soldiers discharged and the pay and grants will cease. When the men come home it may take some time for all of them to find work and resume the earning of their living in the ordinary way.

The committee would like to see the families prepared to meet this situation with some money in the bank to tide the family over and for this reason they are encouraging those who stay at home to open savings accounts in the banks and put by as much as they can. With this idea in view they would like to encourage the home staying members of the family to earn as much for themselves as they can and the assurance has been given that no grants will be lessened because of extra money earned by members of the family.

FAREWELL PRESENTATION

Between sixty and seventy friends of Miss Amy B. Sanson gathered last evening at the home of Mr. and Mrs. A. E. Nicolson, Chesley street, to honor her prior to her departure for the west, where she will join her brothers. A pleasant time was had and best wishes were extended to Miss Sanson. BOARD OF HEALTH GIVES \$300 FOR CLEAN-UP WORK

M. W. Doherty Offers Use of Four Scaws For Carrying Refuse Out to Sea

Many matters of public interest pertaining to health and sanitation were dealt with at a special meeting of the board of health yesterday afternoon, Manning W. Doherty presiding. A vote of \$300 was made to aid in the Clean-Up Day activities, and the board decided to co-operate with the Safety Department in lending whatever assistance is possible in the movement. Mr. Doherty volunteered the services of four scaws for the day or days, to carry to sea the refuse taken from about the city.

Seven inspectors were appointed to inspect the various premises about the city and Fairville John G. Cliffe, James McKinney, James Morrell, H. T. Walsh, J. H. Baisley, H. J. McElroy, and J. E. Raines. They will begin their duties next week, making a thorough round of the city.

Twelve people were refused permission to keep cows in the city. The board this year is issuing its own special tags for milk-dealers, instead of allowing them to supply them. The tags are made of metal, and are issued on the renewal of license to the dealers.

DEATH OF BABY.

The "Dixie No Tuft"

Stands pre-eminent as the scene of comfort and cleanliness. It has all the good points of the ordinary felt mattress—distinctive qualities which places it head and shoulders above anything else on the market.

The above cut illustrates its construction, and a glance at it will convince you of the truth of our statements. The absence of tufts does away with the hard spots, which tufting inevitably produces, and with the depressions at every tuft which are gathering places for dust, dirt and germs. Our space is too limited to describe in detail why the Dixie has twenty-five per cent. more elasticity than the tufted type, why it keeps the appearance after other mattresses have spread and sagged out of shape.

But if you will write or phone us for circular which fully describes all these points, or, better still, call and let us show you samples, we will feel sure that your next mattress purchase, and all future ones, will bear the "Dixie" trade mark.

FEWER PLAYS FOR ST. JOHN THIS SEASON

Companies Cannot Get Bookings East of Here

LOCAL STAGE PLANS

Amateurs Score Again; Leila Hughes in New York; New Irish Players' Piece

Theatre goes in St. John may be wondering why some good shows of the better type are not visiting St. John this season. In past years we had visits from some of the better companies who first-class productions, but this year the war had turned the attention of American managers and producers from the lower Canadian provinces, at least this is the reason given by some of those "higher up" while others who would come this way, bringing clever companies and pieces, cannot get bookings east of here. A season of musical stock about to be started in Halifax, Moncton has pictures so has Amherst; where else, then can a company get bookings above the maritime province route? It naturally follows that though several engagements could be had in the city, they were unable to secure dates east of this city and on that account it was not profitable for them to make a jump here.

This is that the mid-summer season will probably be unprecedented on the local stage. There is one bright feature still sending out a glimmering of hope—Mr. McKay has booked the well known "Chocolate Soldiers" for a week's stay in June. It should be very well received in St. John. The Metropolitan Opera House will return to the city for the week of May 24 and the week following, with a change of policy in the programme and, very likely, new faces in the company. A summer season of musical stock by a talented company is the plan intended at present.

A new play entitled "The Baron," by Martha Morton, has been placed in rehearsal by the Shuberts and will shortly be produced out of town with George Nash in the title role. The play is described as a comedy of modern life, one act of which is in the Tannery Room in the Hotel Kalkreuth.

Edward Abeles, of "Brewster's Millions" will play the lead role in the new play "Last Laugh," a new comedy by Charles Goddard and Paul Dickey, authors of "The Ghost Breaker" and "The Misleading Lady."

The Amateurs St. John should be proud of the talent of some of their members. The general public calls "amateurs." Two presentations this week, "Young Mrs. Winthrop," by St. John, and "The Jew and the Minstrel Show" by the Ebony Swells, were enthusiastically received—both were decided successes. Those taking part deserve the highest praise for their talented portrayals. There were some hits in the programme, but beyond the others, whose recognized ability was at once apparent and who, though tempted by the money, were of character of touch and technique to their exacting, which would place them above their colleagues.

Arnold Daly, whose revival of "You Never Can Tell," at the Garrick Theatre in New York, has proven successful, has revived Shaw's military comedy, "Arms and the Man," at the Park Theatre. Mr. Daly plays the role of Bluntschli. The cast includes George Glidden, Stanley Darr, Montague Love, Charles Laiter, Anne Sutherland, Doris Mitchell and Frank Marloff.

The first production of "Shanwalla," Lady Gregory's new three-act play, took place at the Abbey Theatre, Dublin, a fortnight ago, and was cordially received. "Shanwalla" is the name of a race-horse, and the plot centres round attempts to "dope" the animal. James Brogan, caught in an attempt to doctor the horse's food by Bride Scarry, wife of a stableman, murders her, and contrives to throw suspicion on her husband. The feature of the play is the supernatural protection afforded to Scarry by his dead wife, saving him from intrigue by Brogan, and finally making the murderer confess his crime. Her influence is exerted through the agency of a blind beggar. The play is impressive and powerful, both as drama and in its relation to the supernatural. There is a strong scene in the second act where Brogan tries to tempt Scarry to "dope" Shanwalla by suggesting that an intrigue existed between Scarry's wife and his master, and that the latter was the murderer. The spirit of his wife appears to Scarry while he is asleep and saves him from the trap and appears also in the third act to dictate the blind beggar's actions.

"The Road to Yesterday," the romantic play by Miss Dix and the late Mrs. Sutherland, that had its prosperous day in the United States several years ago, is about to be tried in the English provinces with a view to ultimate transfer to London. Another and more recent American play, "The Argyle Case," the "detective-piece" that Robert Hilliard acted on this side of the Atlantic, is soon to pass to the London stage, with Fred Terry and Julia Neilson in the chief parts.

George Arliss, who has been appearing in "Diarmid" for the past few seasons, will be seen next year in a new play by Louis N. Parker, entitled "The Aristocrat." He will again be under the direction of George C. Tyler, who lately re-entered the producing field with Kinw & Erlanger. Mr. and Mrs. Arliss sailed recently for England where he will spend the summer. He will return to New York to begin rehearsals in September.

Marry Late In Life; Your Children Will Be Famous?

Casper L. Redfield, of Chicago, Thinks at Least That Children of Old Men Have Best Chance to Achieve Greatness

"For I'm not so old, and I'm not so plain, as you think I am. I've got a few more years left, and I'm quite prepared to marry again."

Sings the doddering old Lord Chancellor in "Iolanthe," and now he has science, in the shape of a brochure by Casper L. Redfield of Chicago, coming out strongly on his side and declaring in effect, that the children of such a marriage would probably surpass their fathers both intellectually and in the mark they would make in the world.

"Great men, and how they are produced," is the title of a pamphlet, the author of which is Casper L. Redfield of Chicago. It is a pamphlet, a list of 571 great men, including 360 individual birthranks (many being given of parents), and 168 birthranks which include two or more generations, the intermediate dates being unknown. Of the former the average birthrank is 40.7 years and of the latter, 40.9 years.

Some Seemingly Exceptions. His list falls to include many of the world's greatest men, but is rather an average collection of prominent men, both greater and lesser. It is a strange fact that of the six lowest birthranks in his list, five are those of the five greatest leaders in history included in the list: Alexander the Great (36), Napoleon Bonaparte (39), Charlemagne (37), Frederick the Great (24), and Mohammed (25). The fifth is of Hans Christian Andersen (29).

However, Mr. Redfield's contention is not the child of a young father may not become great.

"Great men," he says, "are sometimes sons of young, or comparatively young parents. There are many cases of that kind in the accompanying list. My offer is not based on the assumption that the son of young parents may not be great, or that the eldest of a series of brothers may not be the best. It is based on the theory that intellectual superiority can neither be produced nor maintained when generations succeed each other rapidly."

The "Recapitulation" Explained. In this connection, reference to the genealogy of the five men named above shows that the father of Alexander the Great was 61 years old, while the two previous generations covered between a period of ninety years; that the birthrank of Charlemagne's father was forty; that those of the generations preceding Frederick the Great were 81 and 87 respectively; while that of Mohammed's father was forty-six years or over, and that his grandfather was the son of a very old man. The birth-ranks of Napoleon's predecessors apparently, are unknown.

Referring to his offer of \$100 for the instance of a very great man produced from breeding as rapid as three generations to the century, he defines a "very great man" as one of the 200 or 800 most prominent men in history.

Must Be Some Delay. "I have said that no one of these extraordinary men was produced by normal breeding on the specific thing of time between generations," he says, "in other words, I have said that every one of them—without any exception whatever—was produced by successive generations using abnormally long time. If there is any exception to be found my money can be taken from me."

Several tables are given in the pamphlet, one of which is designed to show the probable chances of a man becoming great, according to his birthrank. The logic is a little difficult to grasp, but Mr. Redfield works out to his own satisfaction that if his chance to the son of a twenty-four-year-old parent is represented by one, that of the son of a man of over sixty is represented by 51.8.

Summing up Mr. Redfield says: "A general statement of my position is: '1.—Rapid breeding inevitably and necessarily leads to the production of inferior stock, no matter what the original stock may be. '2.—Slow breeding is an essential to the production of superior stock, and when properly used, inferior stock can be transformed into superior stock in about 100 years, and into eminent men in less than 200 years.'"

CHAS. FROHMAN DIED POOR MAN

Never Made a Contract And Never Had a Lawsuit

AN ASSOCIATE'S TRIBUTE

Paid Millions of Dollars to Stars and Authors Without Scratch of a Pen—A Lusitania Victim

New York, May 15.—For thirty-seven years intimate friend and business associate of Charles Frohman, Alf Hayman, general manager of Mr. Frohman's theatrical enterprises, last night for the first time talked for publication about his chief, who perished on board the Lusitania.

Mr. Hayman knew Mr. Frohman as intimately as any living man. He paid a glowing tribute to the theatrical manager whose death has caused widespread sorrow.

Mr. Hayman also contradicted exaggerated reports that have spread about that Mr. Frohman died very wealthy. "He was comparatively a poor man," said Mr. Hayman. Mr. Frohman, with so many enterprises, however, placed his capital and energies always with the theatre.

As Mr. Frohman left no will application for administration papers will be made today by Daniel Frohman, and in a few days Mr. Hayman and John D. Williams, business manager, probably will be in a position to make an accurate statement of the future course of the business. Until then all accounts of what will be done are mere speculation, Mr. Hayman said.

Mr. Hayman's appreciation of Mr. Frohman is set forth in Philadelphia thirty-seven years ago. He was treasurer of the Philadelphia Actors' Association, and was the first president of the Actors' Union of America, and was the first to pay big salaries, and the first to allow his children, as he loved to call them, unlimited amounts for stage gowns, and permitted them to have them made wherever they pleased.

He was the first to inaugurate big sliding scale royalties for authors, and had the same terms for all, claiming it as a matter of course that a play that could earn big money he was entitled to his share of the receipts, and the more the play earned the more the author was entitled to.

Nothing Commercial. "C. F. knew absolutely nothing about the value of money, and cared nothing about it. He was never written about a man than the articles by numerous writers who always love to write about the commercialism in the theatre (and who never take the trouble to investigate) accusing C. F. of commercialism."

"An adverse critic, never bothered him or the actress. He cared absolutely nothing what might be said about him. He produced a many a play, he knew would fail, because he had given his word to the author he would produce it."

"No man, woman or child ever saw him angry, or heard him raise his voice. I never knew him to have an enemy. I never heard him speak of any one."

"C. F. always was delighted, when a play made a success, no matter by whom produced. He would never make a contract with any of his stars. If I would represent him I could say to me, 'No, I won't do it. I want them to be in a position so that if they ever become dissatisfied they know they are free to leave me.'"

"He has paid millions of dollars to authors without the scratch of a pen, and never had a dispute or a lawsuit with them or with anybody over a business transaction."

Died Comparatively Poor. "C. F. died a comparatively poor man. He never wanted money. When upbraided on this point he would say: 'If when I die I can do so with the love and respect of all my stars, all my associates, all my employees and my creditors, then I will have lived in vain.'"

"His greatest delight was the morning wires he would receive each morning on his arrival at the office from his stars. He never failed to have daily communication with them."

"It is doubtful if any man in the theatrical business ever lived who gave away as much money to charity as C. F. When he had an application of any kind from a professional who said he or she was in want he would insist on sending something, and he would never let anyone know, not even his wife, who the recipient would be."

"I said to him one day: 'Do you know you are not doing right in sending money to all the people who write and tell you they are in hard luck, because they may be imposing on you?' His reply was: 'There may be some that are imposing, but I know there are others in want, so I can't afford to make a mistake.'"

Two of the worst penmen I think I've ever known are C. F. and James M. Barry. They always corresponded longhand. C. F. would send for me and ask me if I could make out what he was writing him, and Barry used to write me to ask if he couldn't get it. He was a typewriter, as no human being could read his writing."

THE COMMUTERS' POSITION

Jerome S. McWade, a member of the New Haven and Hartford Commuters' Association, said in his Stamford office today that the common people must protect themselves. Otherwise they will be squeezed flat between the officials and the workmen. We'll be like the two Americans in Paris.

"Once, in Paris, in the Bois, I noticed a tremendous disturbance, and directed my chauffeur to hurry to the scene. "We found two Americans and two cabbies rioting terribly. We inquired into the affair and learned that the cabbies had bumped their cabs. After the bump they had wrangled, from wrangling they had turned to abuse, and finally one cabby had said: "If you don't shut up I'll whack your customer over the head with my whip!"

"You hit my customer," retorted the second cabby, "and I'll hit yours."

"Then the first cabby had given the second cabby a good cut, and the second cabby had cut the first's customer in return, and that was what the row was all about."—St. Louis Globe-Democrat.

Geraldine Farrar and Frank Keenan; Former Gets \$2 a Minute

NOTES OF THE STUDIO

"The Crisis" on the Screen; Pickford Family Reunion; Gossip of Film-plays and Players

Geraldine Farrar, world-famous star of the Metropolitan Opera House, has accepted an engagement to appear on the motion picture screen for the Jesse L. Lasky Company. The engagement of Miss Farrar is one of the most important acquisitions to be made by a film company and probably calls for a salary larger than ever paid to an actress for the period concerned. It is said that the amount paid will aggregate about \$2 a minute for the time that Miss Farrar is actually before the camera.

The engagement between the Lasky Company and Miss Farrar covers a period of several seasons. This season Miss Farrar will spend eight weeks working for the Lasky Company, and it is assumed that during this period she will work in France, or possibly four, vehicles. No announcement has yet been made as to the plays that will be chosen for Miss Farrar. Her name connects the names of Belasco's "Madame Butterfly" with Miss Farrar's screen debut.

Marguerite Snow, who has within the past year leaped into wide popularity by reason of her work in "The Million Dollar Mystery," has been signed by Fred J. Balshofer, head of the Quality Pictures Corporation, to play the leading role opposite Francis Bushman in the feature production which will be released once every six weeks on the Metropolitan screen debut.

Thirty years ago, when "Dan" Mason was making the original production of "Paddy Bad Boy," he gave Harry Kelly, then a small boy on the variety stage, his first opportunity to play a real part. The two, Dan Mason, character actor and producer, and Harry Kelly, the clever boy, were then associated in a series of plays for two or three years, but later drifted apart. After thirty years, Dan Mason and Harry Kelly, now the comely his of "Watch Your Step," have met again in the moving picture world, both being engaged on Cannon comedies, to be released on the United States.

Joseph Kaufman, director and leading man with the Lubin Company, has received a special assignment from the studio last week while Kaufman was filming "Shannon." The assignment was to direct a sensational fight in the studio last week while Kaufman was filming "Shannon." The fight was intended for a scene in the picture, and both players agreed to meet plenty of realism. They did.

Richard Travers, leading man with Essanay, just formed a baseball team of the best all-around athletes in fiction, comedy, horror, pathos and sensible racing among the sports in which he has prominently engaged.

Chester Conine, the Mr. "Supplington" of Keystone pictures, is the proud possessor of a pair of comedy shoes that were used by Dan Rice, the famous circus clown of a generation ago. He uses them occasionally in a picture, "just for good luck."

That distinguished character actor, Frank Keenan, is at last taking his turn before the screen. In a few weeks he takes his departure for California to act the leading part in a feature screen play to be produced by the New York Motion Picture Company. The play has been specially written to feature Mr. Keenan, who will pose for another big picture as soon as the first is completed. He will not return to New York until the middle of August.

A screen adaptation of "The Crisis," Winston Churchill's famous novel, is one of the "Red Seal" plays promised for early release by the Selig Company. The production will be made at the Selig Los Angeles studios, but an extra session of a thousand candles, hundreds of extras will be seen in the picture.

Another name remembered from the list of "six best sellers" among the novels, and now promised as a forthcoming Selig "Red Seal" drama, is "The House of a Thousand Candles." Work has already started on this production at the Coast studios with Harry Metcalf in the leading role.

"To 'Fanchon the Cricket,' a Famous Player attaches an unusual interest because of the fact that it not only presents Mary Pickford, the idol of the screen, in the title-role, but that the supporting cast also includes Lottie and Jack Pickford, sister and brother of the popular star. This is the first time since the Pickfords have been appearing on the screen that all three have been together in a single subject."

BOTH NEEDED A REST. Harry Maynard used to be a member of the house of representatives until the voters of his district laid him prostrate on the ground, and put upon his recumbent form the marks of many iron boots, thus effectively retiring him to private life. The last time he was in the national capital he was explaining in a peculiar manner that an extra session of congress would not be necessary. Congress reminded him, he said, of a pianola of which he had heard years ago was preparing to go on his vacation, and was unfolding his plans to his neighbor in the next apartment.

"We will be gone a long time," he said, "and we are thinking about taking our pianola with us."

"I would," replied the neighbor. "The Lord knows it needs a vacation."—Popular Magazine.

MOMENTOUS BATTLES IN BOTH EAST AND WEST French Forge Ahead While British Keep Enemy Busy - Russians Forced Back But Take Situation Calmly

London, May 14.—The belligerents on both the east and west battlefronts are engaged in most momentous battles. The French, who already have gained possession of what was thought to be impregnable German positions to the north of Arras, are reported to be continuing their victorious advance, while the British are asserted to be holding a large force of Germans in their front and repulsing all German attempts to reach Ypres, which has proved the graveyard of so many thousands of men since the opposing lines were established there last autumn.

The Germans claim to have made a slight advance, but with the battle ebullient and flowing, this is not considered serious in military quarters here. Along toward the coast, the Belgian army has repulsed an attempt of the Germans to regain the bridge-head which the forces of King Albert established on the right bank of the Yser Canal, while down in the Westre another French army is pushing its offensive, and claims to have gained possession of the whole of the forest of La Prete, which would be a step nearer in the Allies' aim to force the Germans to evacuate St. Mihiel.

The Austro-Germans, after their lightning-like rush through Western Galicia, have now reached a line running due north and south to the west of Premysl, while the other armies, emerging from the Carpathians, are pressing the Russian flank. Even up in Poland it is asserted that the victory of the Teutonic allies in the south has had the effect of forcing the Russians to fall back.

Russians concentrated on shorter front. Petrograd, however, continues to take the situation calmly, and, although admitting that the Russian army has been forced back by overwhelming numbers and has lost heavily in the retirement, says the Russians are now concentrating on a new line and preparing for another big battle.

Until this battle is decided the British military critics are withholding their comment. It is pointed out by some of them, however, that more than once the Russians have been driven back but that they always recovered and made the victors regret their penetration into Russian territory.

Down in southeastern Galicia and in Bukovina, according to Russian accounts, the Austrian army, which has not the assistance of the Germans, is in full retreat and being harried by Russian cavalry. The Russians also claim to have obtained the advantage over the German raiders in the Baltic province of Courland and to have taken 1,000 prisoners near Shavli.

There are no official reports from the Dardanelles, but unofficial news is to the effect that the Allies are slowly advancing, despite the obstinate resistance of the Turks against the heights commanding Krithia, on the one hand and Killid Bahr and Maldoz, on the other.

DEALING WITH GERMANS IN ENGLAND

London, May 14, 11.15 p.m.—The riots which occurred earlier in the week have given place to condemnation by public men of the German emperor and his advisers, who are charged with the responsibility for the actions which have so far caused the war.

A resolution in this sense was moved at a public meeting in Chelsea tonight by Lord Charles Bessborough, and was seconded by Lord Robert Cecil. It was unanimously passed.

Lord Bessborough urged that all German property in the British empire be confiscated, and that all rich Germans, whether naturalized or not, be interned until British prisoners in Germany are treated as honorable prisoners of war.

Lord Cecil said he had been told that Emperor William did not approve of what had been done, but the speaker declared that if the German emperor disapproved, and allowed these things to go on, he was ten times more guilty and must be punished; this must be one condition of any peace.

Lord Bessborough, British secretary of state for the colonies, speaking at a meeting on the waterfront tonight, said that Germany "stood at the bar of the world's naked and unshamed conscience, simulating humanity, but in fact a reversion to pre-historic barbarism."

London, May 14, 11.35 p. m.—The police throughout the country have been busy all day gathering subjects of hostile countries of a military age and despatching them to be placed aboard many hundreds of voluntarily surrendered and were sent off in batches, 500 going to South End, to be fitted up for that purpose. The only difficulty the authorities are faced with is the finding rooms, as the goodness with which the government came to its decision following the riots, gave no time to prepare.

As all subjects of enemy countries have been registered since the commencement of the war, and have been compelled to report periodically to the police, there is no difficulty in locating them. Some, however, with large businesses, must be given time to arrange their affairs.

In most cases the business has been transferred to Britishers or neutrals, but some alien business men closed their premises immediately. One result of this was felt in the East End of London, where the majority of the small barbers are Germans, the people this morning finding themselves deprived of their usual supply.

A greater task will be that of arranging for the repatriation of women and children and men over the military age. Many of the latter have resided in England a life-time and have no other home, and are pleading as an alternative to be interned with the younger men.

Although the country has been calmed by the government's decision to deal with aliens, considerable sporadic anti-German rioting occurred. In some parts of London tonight, Peckham, Nunhead and Tottenham among them, a number of German shops were attacked.

Serious disturbances also are reported from Rotherham and North Shields among other places. By night the streets were crowded with thousands of rioters who were carrying away provisions of all kinds from the looted shops. At North Shields many shops were attacked, but there was no looting.

organized for defence and behind this forest a trench of the second line. "We have found on the ground in this vicinity 400 Germans who were killed. "More to the south we have continued the clearing of the slopes east and south-east of Notre Dame de Lorette. "We have taken additional houses at Neuville-St. Vaast. "According to the testimony of prisoners our artillery has inflicted extremely heavy losses on the enemy. "The number of officers made prisoners since Sunday is about 100. The German guns number eight heavy guns. In addition we have taken 100 machine guns and bomb-throwers. "The Germans made an attack upon us this morning at the wood of Allly. They obtained a momentary footing on our first line, but were forced back by a counter-attack. We captured about 100 prisoners. "The day has been quiet on the other parts of the front."

Teutons Checked Permanently. Petrograd, May 14.—The Russians have fallen back upon strong strategic positions along the River San, which runs north and south through Central Galicia. They now regard the German advance through West Galicia as having been checked permanently.

The arrival of fresh Russian troops, which successfully engaged the German hanks, has relieved pressure upon the Russian centre. These attacks on the German wings, in which the Russian cavalry has been supported effectively by mountain artillery, have been prosecuted with unusual fierceness.

The activity noted in the last few days along the centre of the Polish front, in the vicinity of Skiernewice and Rawa, is said to have been due to Russian initiative, with the object of holding the Germans in their position and preventing utilization of these forces elsewhere.

The retreat of the Russians at the point in view of the rolling back of the Russian right flank. This wing rests on the lower Wislola at Dombic, 20 miles due east of Tarnow; it is strongly entrenched.

With the checking of the German advance and the Carpathians, there are already indications of a new Austro-German offensive against the Russian left, in the direction of Stry and Ustok. Evidence of this is seen in the transfer of German troops eastward through Lupkow. In view of this new activity, the Russians attach great importance to their recent successes further east, in the Trans-Dniester country, where they occupy a 46 mile front between Obertyn and Cernowitz.

To the north the Russians have been able to hold the Germans on a line between Mitau and Krimo and have driven them out of Rogala, midway between Kovno and Rostena. The grain elevators at Libau are said to have been captured before the German occupation of that town.

FUTURE COURSE WAS PLAIN Sitting in front of the clubhouse at High Point the other night after a day's successful fishing on the Barnegat, Charles E. Hewitt of Burlington, reflectively remarked that he couldn't quite reconcile himself to golf, when the conversation turned to that particular game.

"Some time ago," said Mr. Hewitt, in explaining his position, "a preacher remarked that he would like to see a caddy, the good man hit the trail for the links and led up for a drive-off. At the first swing he missed the ball by about six yards. At the next swing he got a little nearer, but was still too far

FEWER PLAYS FOR ST. JOHN THIS SEASON

Price Webber The following from the "Budget of Madison, Me.": "Our old time friend and showman, H. Price Webber, was in town with the Boston Comedie Company on Saturday and Tuesday evening and was greeted with a good house on each occasion. For over thirty years Mr. Webber has visited us annually and on each occasion has fulfilled all his promises and given more plays. All are interested in his droll personality on the stage and his warm friendships off the stage, and though he is getting along in years, we hope to have him return many more seasons. Mr. Webber is on his way up river and will play in Madison and Bangor this week going from there to Canada where he will spend a number of weeks in Quebec where he draws large houses. Finally the troupe will work their way down through Vermont and

back to Boston later in the season. Mr. Webber is an Englishman by birth, coming to America about forty years ago and soon after going into the show business. In this he has had the able assistance of his wife who was a Cornville girl and whose histrionic ability has always been of the best.

Word comes from Washington that "The Man Who Forgot," a novel of Washington life, written by James Hay, Jr., son of the chairman of the Military Affairs Committee of the House of Representatives, is to be dramatized for production next season. The book, though primarily a romance of Washington life, contains remarkable arguments in behalf of nation-wide prohibition, which are being seized upon by the various temperance organizations of the United States. In this connection, a high and new newspaper. One of the characters in the story makes the positive statement that the drinking of even one glass of beer reduces a man's efficiency eight per cent. Now, when the Washington newspapermen meet in the National Press Club, their favorite greeting one to another is: "Let us go back to the bar and reduce our efficiency eight per cent."

BILLY SUNDAY ETIQUETTE (Literary Digest). Observing the success of the Billy Sunday methods in the matter of conversion, Puck tries to suggest that the attempt be made to apply the same methods to other church ceremonies and activities, proposing the following formula:

MRS. WILLIAMS' LONG SICKNESS Yields to Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.—"I suffered for fourteen years from organic inflammation, I was a weakling, my nerves pained and irregularly. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing-down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sanative Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.

"If these lines will be of any benefit to you I have my permission to publish them." Mrs. SARA WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female illness we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubts that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass., for advice. Four letters will be opened, read and answered by a woman, and held in strict confidence.

RAW RECRUIT TO TRAINED SOLDIER

(Continued from page 1.) There stands a chap who comes from the family of a well known merchant; beside him in line is one who was a bookkeeper, with a good position, or perhaps a coal-tycoon, a stevedore, a clerk, a lawyer's son—all now on the same democratic level, the private's rank in the army of the king—all bound to one another by the common bonds of regimental loyalty, patriotism and the fraternal desire to further the cause of England in her righteous war.

Baby's Eczema Cured by Zam-Buk

Mrs. Elgin Cossett, Joggin Bridge, N.S., says: "When my little daughter was five months old a rash broke out on her face and body. I called in a doctor, who stated that it was eczema, and treated her for it. His treatment, however, did not bring any relief, and the child got worse. I then tried a great many salves and so-called eczema cures, but nothing proved of any benefit. The sores continued to spread, and became one large mass. One day a friend advised me to give Zam-Buk a trial. I did not have much faith in Zam-Buk working a cure, but as there could be no harm in trying it, I obtained a supply.

be found in almost every Canadian battalion, but the vast majority of those formed for the second or third contingents are young Canucks who have had little, if any, previous experience in military activities. This is that his first few days in uniform are hours of enchantment and wonderment to the recruit—all is of interest about him, and he is bewildered with the whirl of events from reveille to lights out. Few of the lads who have been wearing the uniform of the king for the last few months have been accustomed through life to rising at dawn, or, as it has been during the winter, before dawn. That is probably the "toughest" part of the "rookie's" experience, but once he has washed and gotten the scales of slumber off his eyelids in a brisk physical drill which follows for half an hour, he is feeling like a fighting cock, ready for anything, especially breakfast, and when the "cook-house door" sounds out in the clear morning air, the sight of strapping healthy lads causing their rations of porridge, bacon, beans or whatever "mess" the cook has prepared, to disappear like magic, would make Rockefeller for all his millions, green with envy.

THE BIG LOCAL EVENT FOR LOYALIST DAY, MAY 18

Although it has not seemed fitted or possible to recognize Loyalist Day in St. John this year by a visit from some noted speaker, a social or historical reunion or other special event still the day is to be marked in a most suitable way by a children's patriotic entertainment being arranged by the Women's Canadian Club in the Imperial Theatre. The public has shown keen interest in the teaching of music in the schools. They will now have a chance to observe the results already reached, for the choruses to be given on Tuesday next are chiefly from the schools. A large attendance will encourage the work. This is the only public gathering arranged for the day, and at 4.45, when the programme begins, the theatre should be filled. Tickets are to be had at Messrs. Nelson & Co's and Misses Ritchie & Gray's, King Street, as well as at the Imperial Theatre Store, the prices being fifteen cents for adults and ten cents for children.

MAUDE ADAMS WEEPS; DENIES SHE MARRIED

Grieving for Frohman, Actress Gives Performance—Says He Was Not Her Husband. Kansas City, Mo., May 13.—Maude Adams, who is playing here, collapsed when she learned of Chas. Frohman's death in the Lusitania disaster. Preparations were made to call off the performance, but before that was done, she revived and was persuaded to go on. Few of the audience knew the cause of the delay. In the first act of Quality Street she appeared with eyes still puffed and tear-stained, and her voice broke repeatedly in the opening scenes. As the play progressed, however, she mastered her emotions and played the heart free, coquettish flirt in the last two acts with dash and abandon. At the close she refused to see any one and drove to her private car. Through her manager, W. G. Newman, Miss Adams denied rumors that she was married to Mr. Frohman. "Of course," Mr. Newman said, "a warm affection had sprung up between them during the years they had been associated with each other, and the fact that neither had ever married no doubt gave rise to the absurd reports."

abroad—to have had a "whack" at the Kaiser's hordes, and then, when the day is won, to seek the welcome awaiting them from those they've left behind and whose battles they've been fighting.

Have You Considered?

Did you ever think, you who have uttered condemnation of the soldiers because of the actions of a few that in those passing ranks which march evenly now along the street, there are heroes in the making? Did you ever contemplate that these odd thousand lads have made a telling sacrifice if they parted with the comforts of home alone, aside from other considerations? Did you ever consider that these same young men will be in the heat and din of battle, and when they emerge, this face now smiling at some friend across the street, or that had now smartly nodding to his mother glancing down at him from the windows of their home, or that young chap now passing all but unnoticed in the host who has bid farewell to folks at home some weeks ago to be ready to leave with the rest, or this or that young soldier in the different ranks, may never again respond to earthly regimental roll call? You, perhaps call into use various epithets against these soldier lads, consider these, and know that when next you see that body of men, those faces may be missing from the ranks, and the gaps may signify little unbedecked graves in some eventful field in Flanders France or Belgium.

A Change of Scene

For the First Time in the History of Our Dominion "MADE-IN-CANADA" Becomes a Hall Mark

Will Canada Accept the Vast Trade Lost By Germany and Austria?

(Prepared by E. A. BAKER, of the Baker Advertising Agency, Limited, 12-20 Wellington Street East, Toronto.)

INEVITABLY the next few months will see vast and far-reaching changes in the commerce of Canada. There will be decided changes in the stocks of Canadian merchants. New accounts will be opened by manufacturers who have heretofore striven in vain against foreign competition.

All this because at a single stroke, literally over-night, the vast trade with Canada of Germany and Austria, to say nothing of other combatants in the European war, is wiped out.

CANADA HAS ALL IN HER FAVOR

SOMEbody is going to get this business. England is alert for it. The United States wants it. Canada has the first choice. Here we know our people; we know the needs; we have the sales organizations; we have the factories; we have the workers; we have the market.

Also we have in our favor that newborn spirit of patriotism among Canadian purchasers that leads a man or woman to demand "Made-in-Canada" goods. The words "Imported" and "Direct From Europe" have lost their savour. Today "Made-in-Canada" sounds with a new ring—the ring of Necessity as well as of patriotism, and as a consequence, for the first time in the history of our Dominion, "Made-in-Canada" becomes a Hall Mark.

We do not presume to advise any manufacturer technically as to how the new lines are to be made. We believe this part of the proposition presents little difficulty to the manufacturer—certainly no unmountable difficulties. What we do emphasize is that now is the time to stop theorizing, and ACT.

Unless the Canadian manufacturer and merchant accept this opportunity NOW, it will be snatched up by more enterprising concerns, who are already training their guns on our market.

READ THE OPINION OF AN AMERICAN TRADE INVESTIGATOR

"TWO months ago I realized that we wanted the Canadian market. Today the Canadian market wants us. True, we must still fight for it, but our greatest problem—German and French competition—was solved almost overnight, and through no effort of our own. . . . Canada imports nearly seven hundred million dollars' worth of goods. . . . Right here is a great field for the American manufacturer. . . . The American manufacturer, once established here, will give all comers, even after the war is over, a stiff fight to take the market away from him."

"There is no reason in the world why an American manufacturer cannot go into Canada now and practically sweep the market in his line." So says an American trade investigator. He investigated the Canadian market, but not the Canadian manufacturer, who furnishes one very substantial reason why the United States cannot grab our trade.

The limitless forces of Initiative and Advertising enter vitally into the situation. Canadian manufacturers must use their initiative NOW and go after the market with greater vigor than they ever before exercised—they must study Canada's import statistics, and make the sternest possible bid to supply the demand.

THE TIME HAS COME FOR ACTION

REACH out for the markets with the mighty force of Advertising. Tell your story far and wide. Canada wants to know which are the right lines to buy, under the new condition. Faced with the necessity of choosing new brands to replace the imported products, and fired with the patriotic impulse to encourage "Made-in-Canada" merchandise, they await your message, eager to respond.

Advertising in the daily newspapers will reach them in their buying mood. Make it plain to them that by purchasing what you have to offer they are not only supporting Canada, and the Empire, but they are getting as good quality and better value than the imported articles they heretofore bought. The people won't know these facts unless you tell them—and that is what advertising does.

Advertising in Canada today will "pull" better than ever before. The time is opportune to strike. Strike with a will.

Why He Was Careful.
A man who believed in pedestrianism coaxed a friend to accompany him on a little jaunt. Every time they crossed the road his friend looked first one way and then the other and refused to budge if there came to be a motor car in sight.
"Is all well enough to be careful?" said the pedestrian, "but you seem to have let automobiles get on your nerves."
"The good reason to be careful," answered his friend, "The insurance policy I carry is void if I get run over by one."

BRIGHT, SNAPPY BILLS AT THE GEM TODAY; NEXT WEEK

The week-end show at the Gem afforded pleasure yesterday, and its repetition today should give equal satisfaction. For the Monday and Tuesday bill next week, a special Lubin two part feature has been booked, 'The Trappers' Revenge,' a story of the far northwest in pioneer days, with a romantic tale of love and daring in the wilderness surrounding a fur-trading post. In addition there will be a joy comedy besides the Pathe News Weekly, which will present current events in motion. The latest styles in spring hats are given for the benefit of women patrons.

'Fake Doctor' in the serial 'The Perils of Pauline' will be shown. All told, next week's bill at the Gem should be well received.

MORE MEN NEEDED

London, May 15.—Richard Reid, the agent-general for Ontario, says his visit to the front raised Canadians in his estimate higher than ever, but he was also impressed with the urgent need of still more men and more munitions of war.

NOW HAVE \$2,200.

At a meeting of Brunswick Chapter, I. O. O. F., it was announced that \$2,200 had been subscribed towards the equipping of a new Brunswick ward for Dr. MacLaren's hospital at Etaples, France. The chapter decided to close the list by May 19, when it is hoped all donations will be in so that the amount may be forwarded to Dr. MacLaren at once. Cards bearing the names of the different beds donated will be on exhibition next week at Townsend's music store, King street, and a cordial invitation is extended to all who care to see them.

The chapter has also prepared a large case for the same hospital. Some time ago an old Indian in the west broke his axe handle and a farmer, taking pity on him, fitted the tool with a new one and from his own supply. Then, notice that the axe was dull. The old man decided to add to his kindness by sharpening it, and asked the Indian to turn the grindstone.

"Well, what is it?" wondering asked the farmer, noticing that the Indian persisted in waiting there after the job was done. "Is there anything else you want?"

"Yes, sir," was the prompt rejoinder of the Indian. "You no pay me."

"Not pay you?" exclaimed the farmer, with a perplexed expression. "Not pay you for what?"

"For turning the grindstone," calmly replied the chief. "Twenty-five cents."

NATIONALS WIN FROM MAINE STATE

Unexpected By Themselves, Win By Nine To Eight

OLD TIME LOCAL SPORT

Baseball, Horse Races and Other Events of 1887—Nationals Take Two Games From Socials on Latters' Diamond

On Saturday, June 11, 1887, the baseball fans saw a great baseball match between the Nationals and the Maine State College. The result of the game was a most pleasant surprise to the home fans. Previous to the event betting had been strongly in favor of the Maine team, and although the friends of the Nationals had anticipated an interesting game, they had not ventured to hope for a victory. At the very first, however, it was apparent that they could equal the visitors with the bat and could hold their own on the field and the result was that they won by 9 to 8.

In the first inning, the M. C. team went to bat and McNally, their center fielder, managed to throw around the bases. Mason was caught between the legs, Rodgers was thrown out at second and Elwell knocked a hot one to Milligan, retiring the side. The Nationals failed to score.

In the second inning Page and Bird, first and third basemen for the visitors, popped flies. Bell, who covered first for the home team, muffed his chance, but Milligan, at second, retired the second batter. Blackington, right fielder for the visitors, struck out and Page was caught stealing second. Again the Nationals failed to score although they succeeded in getting DeForest as far as second, where he slipped off as was touched out.

Andrews, pitcher for the visitors, opened the third inning for the Maine team by striking out. Vote knocked out a fly to Bell and Mason struck to White. The Nationals went in one, two, three order. Neither team scored until the sixth, when the locals jumped into the lead by getting two runs. Kennedy led off with a base hit. Robinson placed a ball safe in the outfield and Kennedy moved up to third. Bell sent another ball after Robinson's and Kennedy scored, but Robinson was out. Bird, Bell was retired on an infield grounder hit by White. Milligan sent a long fly into right field and White scored. DeForest hit to centre field and Milligan took second. O'Shaughnessy retired the side by fanning.

Robinson was discarded in the seventh inning when the visitors took kindly to his offerings and whaled in seven runs. Rodgers tapped the ball in front of the plate. A wild throw to Bell assisted the wily catcher to reach the second bag. Elwell, s.a., struck a grounder which was fumbled by every man who had anything to do with it and Rodgers scored, while Elwell went to third. Page

and Bird hit hot grounders with which nobody meddled and Blackington took a base on balls. Andrews contributed a grounder. Mason sent a ball to White which was well fielded, but was muffed by the third baseman. During that brief, but disastrous, inning, it looked as if the game had been put on ice, but in their half of the inning the Nationals began to get revenge and in the following two scored seven runs.

The summary of the game follows: Two base hits: Bell, Page, Rodgers. First base on balls—Nationals, 1; Maine, 4; first base on errors—Nationals, 5; Maine, 5; struck out, by Robinson, 4; by Andrews, 6; wild pitch, Robinson, 1; by Andrews, 1; balls called, on Robinson, 51, on Andrews, 32; left on bases, Nationals, 9, Maine, 3. Time of game, 1 hour, 30 minutes. Umpire, Morton L. Harrison.

Visitors Win This One

Monday afternoon, June 13, the local fans saw another good game between the same two teams. The score ended 9 to 2 in favor of the visitors from Maine. The locals made their two runs in the last of the fourth inning. The first man at bat was Robinson. He drove a liner out to centre field and reached first in safety. Bell followed with a drive to the left field fence and Robinson reached third, Bell taking second. White went out on a liner to the pitcher. Milligan then drove a beauty into left field, scoring both Robinson and Bell. DeForest failed to reach first and O'Shaughnessy struck out.

The pitchers scored in the second inning. Vose, their second baseman, drove out a three bagger and scored on a wild pitch. They added two more to their list in the sixth, two wild throws, a base on balls and a hit doing the trick. The locals had three rattling fine double plays to their credit and they fielded exceptionally well.

and he should have been entered on the 18th, as the other horses. After considerable handying and reclamation Morris was declared eligible and thereupon Manbrino Molly, Butcher Boy, the Dean and Thunders were withdrawn from the three minute, 2.50 and 2.40 classes. S. T. Golding exhibited the beautiful stallion Rampart, whose trotting was well worth witnessing. John E. Kelly's Colonel paced a mile in 2:42.

The three minute class was won by Duchs, owned by D. W. Belyes, in three straight heats. Time 2:35, 2:35, 2:46. Phil Morris was second. Duchs also won the 2.40 class with Phil Morris second.

Nationals and Socials

In Halifax, on Monday, July 25, the Nationals of this city defeated the Socials by a score of 9 to 8. Up to the seventh inning the game was a most exciting one, the Nationals falling to score and the home team making only one run. In that inning, however, the Nationals batted in four runs and in the sixth they sent five more men across the plate. In the eighth the Halifax team made things lively when they sent six runners across the plate. Both pitchers were hit hard in the last stages, though Robinson, St. John twirler, pitched the better game, having ten strike outs to his credit. Features of the game were the batting of Robinson and Milligan, and a fine double play by Milligan and Bell. Whitteer was well behind the bat.

On the following day St. John again had reason to be proud of her representatives for they again administered defeat to the Socials by a score of 8 to 6. During the year St. John emerged victoriously in cricket, and horse racing, saying nothing about baseball.

Among them was the body of a beautiful young woman, whose wedding ring showed that she had been married only two days before the Lusitania sailed. Letters found on her body indicated that her maiden name was Anna Hill, and that she resided at No. 18 Parkman ave., Toronto. Several of the bodies were identified among them those of Commander J. GERMAN VIEW OF THE AMERICAN POSITION

Amsterdam, May 14, via London, 6:22 p. m.—The Cologne Volks Zeitung, commenting upon expressions of American opinion concerning the sinking of the Lusitania, says: "Americans are very prone to criticize without any expectation that such fighting with words will make any great impression on those whom they denounce. They feel relieved when they have given frank expression of their irritation. In America, however, war is not unpopular, because it requires many sacrifices and destroys business. "There is no need, however, to apprehend that America will join the war against us, but it may be taken for granted that the wave of anti-German hatred will continue to mount still higher. We deplore, but we cannot prevent it. Anti-German feeling is a product of agitation. It slowly mounted and will also slowly subside."

GERMAN INSULT ANGERED CHILE

Republic Sent Ultimatum to Kaiser, Giving Five Days For Answer—Trouble Over Sinking of Dresden

New York, May 15.—A London cable to the Times says: "German diplomacy has blundered into a situation which may provoke in South America a crisis almost as acute as, though different in kind from, that caused in the United States by the sinking of the Lusitania. Diplomatic secrecy has been strictly maintained pending the severance of diplomatic relations between the two countries concerned in the exchange of communications, but it is based on excellent authority that these latter have taken such a tone that the severance of diplomatic relations between the two countries concerned is considered highly probable. "The incident began with Chile's acceptance of the British apology for the violation of her neutrality by the sinking of the Dresden in territorial waters. Chile responded by what was practically an ultimatum, to the effect that Germany must withdraw her expressions and apologize for her flagrant breach of international amenities or Chile would take such action as best appeared to it to decide upon the course she will pursue."

GERMANS RESENT BEING "SLANDERED" OVER LUSTANIA

Say Abuse is England's Only Defence Against Menace of Submarines—Recognize That World is Against Germany

London, May 15.—The Germans profess to be very indignant over the "slandering remarks" concerning their conduct of the war which are made in English newspapers in connection with the sinking of the Lusitania. The Frankfurter Zeitung devoted a leading article, printed in prominent type, on Sunday last, to "English Slandering." "There is no longer any doubt," it wrote, "that Germany's enemy has been overcome by the rage of impotency." On second thoughts, however, it declines to believe that the men who arrogate to themselves the right to speak and slander in the name of the English people really express the feelings of the whole nation, "the great tide of which is fighting as an honorable opponent against our army."

SUBMARINE BESTED BY A BRITISH TUG

Latter Was Towing French Bark up Channel When Attacked—Tried to Ram Pirate

London, May 15.—The following statement is issued by the Official Press Bureau: "The secretary of the Admiralty announced that on April 8 the tug Homer was towing the French bark General de Sonis up the Channel, when off the Isle of Wight, a German submarine appeared and hailed the master of the Homer, Captain Gibson, ordering him to surrender and displaying a flag signal to that effect at the same time. "Capt. Gibson paid no attention to the order, but awaiting his opportunity slipped the tow rope attaching the tug to the bark and steered straight for the submarine under a shower of bullets from the enemy's machine guns. The Homer rebounded the submarine's attack by three feet and then steered for the Owers Lightship (17 miles east of the Isle of Wight), pursued by the enemy, who fired a torpedo which passed close to the tug. After a chase of half an hour the submarine gave up the pursuit. "Capt. Gibson brought the Homer to Bournemouth, Isle of Wight, with seven bullet holes in the vessel. The General de Sonis arrived at Dungeness under sail."

AN HONORED SON OF NEW BRUNSWICK

Sir Frederick Williams-Taylor, general manager of the Bank of Montreal, who was given an honorary degree on Thursday by the University of New Brunswick, is one of that province's most distinguished sons, says the Montreal Journal of Commerce. He was born at Moncton, N. B., in 1863, and educated in the province. Sir Frederick joined the Bank of Montreal as a lad of fifteen and worked his way up by sheer ability to his present position. After an experience, which included many important branches in Canada, he was sent to Chicago, and from there, in 1903, to London, England. He returned to Canada as general manager about two years ago. As a young man, Sir Frederick was a noted amateur athlete, especially in skating, rowing and tennis. He stroked the famous Wanders' four-oared crew of Halifax in 1888. Sir Frederick still takes a keen interest in all out-door sports as well as in every worthy movement. He is a member of the Montreal Home Guard and turns out for drill as regularly as the youngest bank clerk in his employ.
