### Child Buried to Death.

Montreal, Feb. 11.—Fire, believed to have originated through an explosion in the furnace, at 745 Quebec avenue, early this morning, spread until three flats were badly damaged by fire and six more or less by water. All the occupants escaped, some in their night attire. The fire was not under control until two o'clock.

Waterloo, Que., Feb. 11.—The police authorities claim to have discovered an important clue and expect to make an arrest within the next 24 hours in connection with the murder of Henri Royer, whose body was found on the floor of his sleigh in his yard here yesterday.

Ottawa, Feb. 11.—Hon. James Murdock, minister of labor, has wired the unemployed workers' association of Halifax that "it would answer no good purpose to indulge in an unemployment parade."

### FUR PRICES.

The New York Auction Company, Inc., announces the following comparison of prices realized at its sale held Wednesday, as compared with September prices:

### START AGAIN THE SEARCH FOR AMBROSE SMALL

Toronto, Feb. 11.—The small mystery is again in the limelight. A warning telephoned the other day to a friend of the missing Toronto theatrical millionaire to cease his efforts to find Small, was followed yesterday by a letter to Gordon Grant, K. C., solicitor for the sisters of Small giving him a hint as to a source of information bearing on the mystery.

### THE DOLLAR TODAY.

New York, Feb. 11.—The Canadian dollar 4 1/2 per cent discount.

## Preparing to Free All Pre-Truce Prisoners

### FURTHER CONSIDERATION FOR THOSE TAKEN SINCE ARMISTICE

### Hold-up Without Casualties—Four More Battalions for Ulster—Premier Craig Threatens to Follow His Own Plan if Kidnapped Men Are Not Released—Conflicting Reports.

London, Feb. 11.—The colonial office announced today that pursuant to authority granted by the British cabinet steps were being taken to release the prisoners who were taken into custody for offenses committed in England from Irish political motives prior to the Irish truce.

The cases of post-truce offenders, as well as all cases in which the offenders were members of the British forces, will be subject to further and individual consideration, says the announcement.

### General Amnesty for Naval and Military

London, Feb. 11.—On behalf of the provincial government in Ireland, says the Exchange Telegraph Co., Michael Collins has issued an announcement creating general amnesty for all men of the naval, military and police services "by whom acts of hostility toward the Irish people were committed."

### More Troops for Belfast.

Belfast, Feb. 11.—Sir Jas. Craig, the Ulster premier, returned this morning from his visit to London, announcing that before leaving London he had been assured four additional battalions of troops would be sent to Belfast immediately.

Sir James said he had set no time limit on the British action to secure the release of the men taken in the recent raids. He said that in the event of failure of British authorities to secure the release of the kidnaped men he would carry out his own plans.

### Shooting occurred in the North Queen street area of Belfast this morning. Police reinforcements were sent to the scene.

### Conflicting Reports.

London, Feb. 11.—Conflicting reports are coming out of Ireland concerning the southern government's action toward the recent kidnapings. The whole machinery of the provisional government is being brought to bear to secure the release of these men, according to the Dublin correspondent of the Times, who says the raids are completely unprovoked and are being explored by every member of that government, especially by Michael Collins, its head.

Against this is a report from another source, ostensibly friendly to the provisional government, implying the belief that the Collins administration had forward knowledge of the raids, and could immediately procure the release of the prisoners.

Meanwhile the Ulstermen are still being held, their whereabouts, unknown and many people in Dublin are reported as convinced that they will not be liberated as long as the Gaelic football players arrested on January 15, and now in the Derry jail, are kept prisoners. Those taking this view infer that the matter surely will lead to further and probably greater trouble between the north and south.

Opinion in Belfast continues strongly against release of the Derry prisoners, who, it is insisted, all belong to the O. T. A. The circular suggests that a drive will be made in the Legislature against prohibition.

### ONTARIO DOCTORS AND LIQUOR LAW

### Questionnaire Being Prepared—A Drive Against Prohibition Suggested.

Toronto, Feb. 11.—A crystallization of opinion among 3,000 Ontario physicians on the subjects of prescriptions and prohibition will be brought about by a questionnaire now being prepared by a committee of the Ontario Medical Association.

### Questionnaire Being Prepared—A Drive Against Prohibition Suggested.

Toronto, Feb. 11.—The secretary of the Liberty League, Charles O'Donnell, has addressed a letter to the medical profession of Ontario appealing for funds to carry on the battle against the O. T. A. The circular suggests that a drive will be made in the Legislature against prohibition.

### FREEDOM FOR ALL SOVIET PRISONERS

Moscow, Feb. 11.—Accusations against all persons under arrest for political offenses in Russia must be made within a fortnight and within two months all persons under arrest must either be freed or turned over to the courts, unless special permission for further detention is received from the central executive committee itself.

### ALLEGE BEER WAS SERVED IN TEA POTS

Montreal, Feb. 11.—Alleging they had served beer in tea pots after the legal hour for closing of a licensed club, officers of the Quebec liquor commission yesterday secured the conviction of Jacob Horn, manager of the Continental Club. Chief Justice Decarie declared he believed the version of the officers rather than that of Horn and sentenced the latter to pay a fine of \$100 and costs or be jailed for a month.

While Mr. Edison seemingly forgot the day and its significance, there was no oversight on the part of the "Edison Pioneers," an organization of men employed by him since 1885. Members of this band of workmen had arranged for the annual luncheon in the storage battery building.

A wireless telephone had been installed in the hall and arose by Marie Rappold, grand opera star, who sang for the gathering, were sent broadcast. Messages of congratulations came in from all parts of the world.

### Importance of Sands

Miss Normand, according to Mr. Woolwine, was unable to aid anything to the police data concerning Edward F. Sands, former butler-secretary to Taylor, but apparently confirmed the district attorney's belief in the importance of locating him, for he later said "Sands is the man we must find."

Miss Normand was the second film actress of prominence to respond to a summons from Mr. Woolwine, the other being Mary Miles Minter, who was in the office of the official last Tuesday afternoon.

Miss Normand issued a statement to the press in which she said she could "not offer any solution whatever of the Taylor tragedy, and denied she was in love with Taylor or had quarreled with him.

Four detectives were in attendance at the district attorney's office at different periods during the examination of Miss Normand and Davis, and were reported to have started on missions early this morning.

### Trace of Sands

A man under surveillance at Fresno was found late yesterday afternoon by J. M. Cobb, a rancher, who lives on the banks of the San Joaquin river. Cobb told the sheriff the man had been there only a few days and that the shack in which he was living had been built only a few days. The shack was hidden in brush along the river bank. The man gave his name as Sands, according to Cobb, and answered the description of the missing former Taylor butler. A number of the late daily papers were in and around the shack, he said.

ROBBER BANDS TAKE CASH: FURS AND JEWELS

Shirt Manufacturer Gives Up \$900 Payroll, \$2,000 in Diamonds, \$5,700 Fur Hold-up.

(New York Times.) Three armed robbers held up Joseph Horowitz, president of Joseph Horowitz & Sons, shirt manufacturers, as he was entering one of the firm's factories at 142 Stockholff street, Brooklyn, yesterday afternoon, and after threatening to shoot him if he followed them, escaped in an automobile with a payroll of \$900, a diamond ring valued at \$1,000 and a diamond stick pin of the same value.

said: "Hello, Mr. Horowitz, I see you have the payroll with you." "You're mistaken," replied Mr. Horowitz as he hastened to the steps leading to his left on the fourth floor of the building, "this is only a newspaper." "We know what it contains," replied the spokesman. "Just put up your hands as high as you can if you don't want to be shot full of holes."

MARITIME PROVINCES HAVE STRONG CLAIM

(Moncton Transcript.) Premier Foster is right in his contention that, in the matter of railways, New Brunswick has not received from the Dominion government the consideration that other provinces have. He points out that the province has spent fully \$25,000,000 for the construction of lines within its boundaries, and has received no relief in this respect, while provinces running into the tens of millions.

vinces west of the Ottawa river, amounting to probably \$275,000,000, have been taken over by the Dominion. That is to say, that instead of being a direct liability on the province that backed the whole nine provinces, four of whom not only did not back these bonds, nor had they any say in the taking over of the liabilities. In the hurry of so-called war-time legislation, the thing was put over without due consideration.

NO FEMALE LABOR IN CHINESE CAFES

Sudbury Council Will Refuse Licenses to All Chinamen Employing Girls.

Sudbury, Ont., Feb. 11.—Following startling disclosures in Sudbury Police court, as a result of which three white girls, all under 20, and former employes of Chinese cafes, were sent to the Mercer Reformatory for six months, Sudbury Town Council unanimously passed a motion refusing licenses to Chinamen who employ female labor, either in their restaurants or lodging quarters.

There are twenty-five Chinese restaurants in Sudbury, all of which are affected as regards the removal of the stalls, and about a dozen as it applies to the employment of white female labor. A paragraph prohibiting Chinese renting rooms to white women was stricken from the resolution, but the chief of police was instructed to warn all cafe proprietors to exercise more care in the management of their lodging quarters.

RECENT WEDDINGS

Folkins-Hastam. A pretty wedding was solemnized at the home of Mrs. S. A. Henderson, Fair Vale (N. B.), when her niece, Miss Elizabeth E. Folkins, became the bride of Marshall E. Folkins, of Midland (N. B.). The ceremony was performed by the Rev. J. R. Shanklin, of Bellefleur station, in the presence of immediate relatives and friends.

RECENT DEATHS

He served overseas during the war on the western front, in Egypt, Serbia, Palestine and Mesopotamia. He was badly gassed and wounded. He leaves, besides his father, two brothers, Francis Kerr, of this city, and John, of Wimplog. Three sisters, Mary and Alice, at home, and Jessie, in Boston, also survive.

REFORESTATION SPREADING.

Conservation Commission Reports 31,944,000 Plantings Since 1908. (New York Times) The reforestation movement sponsored by the State Conservation Commission some years ago, is now receiving much serious consideration by many individuals as well as fish and game clubs and other organizations interested in conservation. Since 1908, the Conservation Commission and its predecessors, the Forestry Department, has been supplying trees to persons in the state desiring to plant them, at a normal cost, and the records of the commission show that since that time a total of 31,944,000 trees have been distributed from the state nurseries and planted in various reforestation operations.

JAMES A. ORR PASSES AWAY

Was Manager of Wallace-Hagenbeck Shows.

James A. Orr, one of the most prominent circus managers in the United States and who has spent more years in that form of amusement enterprise than the average man, died in this city yesterday afternoon. Mr. Orr was secretary-treasurer for the well-known Wallace-Hagenbeck shows of Baden, Indiana, which were recently amalgamated with a large combination of showmen. He had been in ill-health for several months, and last year went to a Rochester, Minn., sanitarium for six months' treatment, due to an injury caused by a bicycle which fell from a car roof. Not receiving permanent benefit he came to St. John, N. B., to spend his last days with his relatives, and yesterday he passed away at the home of his sister, Mrs. J. Miller of 47 Broad street. Mr. Orr was born in St. John, the son of Mr. and Mrs. John Orr, of 86 St.monds street. When a young man he left the city with a theatrical company and went on the stage in the United States. He had a splendid voice and remained in theatrical companies for some time, eventually branching into the circus business. He worked his way up from the bottom until he was placed in charge of entire shows. At the time of his death he was about sixty-five years of age. He is survived by his wife, Mrs. Grace Orr, by his aged father and mother, Mr. and Mrs. John Orr, by a sister, Mrs. James Miller, and by four brothers, William and Frederick of St. John, Charles of Brooklyn, (N. Y.), and John Orr of Cumberland county, (N. S.). He had been worshipful master of Lodge No. 11, A. F. and A. M., a member of Scottish Rite No. 241, and also a member of Alexar Temple, Knights of the Mystic Shrine, all of Montgomery, (Ala.). He was also a member of Lodge No. 47, Benevolent and Protective Order of Elks, of Saginaw, (Mich.). The funeral will take place from the home of his sister, Mrs. James Miller, 47 Broad street, at 2:30 o'clock on Sunday afternoon.

Delaney, who was granted a decree nullifying her marriage to Archibald Delaney on the ground of it being a bigamous marriage. Her action was not contested. The plaintiff said she went through the form of marriage to Delaney in February, 1917. She had known him several years before, but he went to Canada and she heard nothing more of him until 1916, when she saw him here with the Canadian forces. They were married and lived in Hastings. Soon after their marriage, however, he returned to Canada, with the understanding that she was to follow him there, but a year later she received a letter from him in which he said he had married an Indian girl on Bear Island, Nipissing, Ontario, in 1910, and that he had rejoined her and they were living happily together. He said he was under the impression that his marriage with the Indian girl was illegal, but had found it was not.

A farmer near Angers, France, killed a neighbor's child under particularly tragic circumstances. A small boy, who was playing with his brothers in the twilight, climbed a tree and there imitated the voice of a hoot owl. The farmer, hearing the sound, came out of the house with a gun and fired in the direction where he thought the bird's hoot came from. The bullet hit the boy in the face and lodged in his neck. All attempts to save his life were unavailing, the child dying the following day.

### PARENT BODY BACKS UP COVEY

Halifax Meeting Also Endorses His Housecleaning Policy.

Separating Opposing Factions in Cape Breton—Meeting in Connection with the Nova Scotia Investigation Next Week.

A. W. Covey, president of the Maritime Branch of the A. A. U. of C., arrived home this morning after a trip to Sydney, Glace Bay, New Glasgow and Halifax. He said conditions in Sydney were not too bad, but were not so good in Glace Bay. While there he appointed a commission to handle amateur sport in Cape Breton. U. Ross, K. C., and Donald Buckley will officiate in Sydney, and Stewart Macaulay and Matthew McAdam for Glace Bay. Two other appointments are pending, one for North Sydney and one for Sydney Mines. Amateur sport will be continued in Cape Breton in future in a more aggressive manner than previously. A separation will be made soon between professionals and amateurs by means of the affidavit, which will be made compulsory before a card is issued. The meeting in Glace Bay, Mr. Covey said, was large and enthusiastic.

He also held a meeting in Halifax, where it was unanimously agreed that his contemplated procedure was a proper one. Asked about conditions in Halifax, Mr. Covey said that there will be some athletes who will be unable to sign the affidavit. Regarding his authority to take such action, Mr. Covey said that he had written to the secretary of the parent body of the A. A. U. of C., N. H. Crow of Toronto, asking him to take the matter up with the executive to see if he was going too far. He has received a reply saying that he is within his rights to demand affidavits from every athlete. Questioned about the pending investigation of the thirteen Nova Scotia athletes, Mr. Covey said that a meeting in connection with this matter will be held early next week, when in all probability it will be decided to allow the affidavit method to deal with the situation.

### QUESTIONS ANSWERED

**Hydro Situation Reviewed and Municipal Distribution Contended For.**

(Contributed by The Hardware Clerks' Association.)  
It is about three months since the Hardware Clerks' Association first began its investigation as to the benefits of the city of St. John and the citizens generally might derive from the Hydro-electric developments at Musquash. At that time it was the general impression that there would be little, if any, reduction in the present rates. The result of the study of this question, and facts and figures published by the Hardware Clerks' Association, and later by the Citizens' Committee, have brought about remarkable changes in the attitude and hopes of the citizens. Municipal distribution as the only apparent hope of substantially reduced rates is generally favored, and the users of light and power are keenly alive to the great opportunity in St. John for reduced rates, and the possibilities of a large increase in new industries.

In the discussion of the question many objections have been raised by those opposed to municipal ownership, but these have been shown to be either inaccurate or misleading. The following are some of the arguments that have been advanced, and their answers.

**Q.—The cost to St. John of 1.2 cents per k. w. h. is a high rate?**  
Ans.—Many towns in Ontario pay a higher price, yet sell at less than half the present rate in St. John.

**Q.—The cost of 1.2 cents per k. w. h. is too high to attract power users.**  
Ans.—Windsor, paying 1.4 cents per k. w. h. sells to large power users, after a certain amount has been consumed, at 15 cents per k. w. h.

**Q.—The cost of distribution makes price high to consumer.**  
Ans.—Result of municipal distribution by 180 Ontario towns prove this to be an absolutely inaccurate statement. Steam standby necessary.

**Q.—Uncompleted facts and figures supplied by Herbert Phillips, M. E. I. C., and published in booklet form by Citizens' Committee prove that this is not the case.**  
Price of 1.2 cents per k. w. h. not guaranteed.

**Q.—Letter of N. B. Power Commission to the city, under date of Nov. 21, states that this is the maximum price.**  
Not enough power at Musquash.

**Q.—Results based on figures from the department of the interior, Ottawa, Consulting Engineer Holgate of Montreal, and General Mitchell, who has the plans, both engineers of high standing, were satisfied by these figures that the power is there, also the amount of power is guaranteed by the commission in his letter to the city of Nov. 22.**  
Owners of property in vicinity of hydro development can hold up operation.

**Q.—The N. B. Electric Power Act gives the commission the authority to expropriate any property without consent of owner, also the fact that injunction sought to prevent building of transmission lines over a certain property was refused.**  
Injunctions would prevent building of new distribution plant in city.

**Q.—Results in Toronto and other places proved beyond doubt that this would not be the case.**  
Taxes would be increased.

**Q.—All costs would be met by consumers of light and power, and not one dollar added to the taxes through municipal distribution.**  
City would suffer loss of power company's taxes.

**Q.—Their taxes for electric light and power division for year 1920 was \$8,260, saying to the city on street lighting alone, based on a fifty per cent reduction in rates, would be \$20,000 per annum.**  
City not able to secure money for building new system.

GOVERNMENT TO TAKE STERNEST INDIAN STEPS

Severe Measures to Suppress Civil Disobedience—Statement Issued.

(Associated Press Cable.) London, Feb. 11.—The India office has issued an official communication indicating that it was the intention of the government to adopt stern measures to suppress the campaign of civil disobedience in India. It adds that no government could discuss the demands contained in the recent manifesto of Mahatma K. Gandhi, the Indian Nationalist leader.

operation party in order to secure the elementary rights of free association, free speech and free press.

Civil Disobedience. It adds that the decision to adopt civil disobedience was finally accepted November 6 before the recent modifications relating to either the seditious meetings act or the criminal law amendment to the act by which Gandhi "unquestionably refers were issued. On the contrary, it asserts that the government was forced to take these measures because of the professed followers of Gandhi. Nevertheless the opinion of the Seditious Meetings Act had been strictly limited to a few districts in which there was risk of great disturbance to the peace.

The government, the communication continues, has taken every precaution possible to mitigate, where it is desirable, conditions of punishment, and to avoid any action which might have the appearance of vindictive severity. It declares that there is not a shadow of justification for the charge that the government's policy has been one of indiscriminate lawlessness and repression. Heatedly is made of the charge that the government's recent measures involved a departure from the policy that the government should not interfere in the activities of the non-co-operators so long as they remained non-violent in word and deed.

With reference to the proposed conferences, the communication says that while the government is asked to make concessions, there is no suggestion that any of the illegal activities of the non-co-operators other than hartals, picketing and civil disobedience, should cease. Further, it adds, Gandhi had made it apparent that the proposed round-table conferences would be called merely to register his decree.

Together with this communication, the India office issued a statement, embodying a message dated February 9, regarding a large procession of volunteers at Ujhani who were reported to have been planning to seize the municipal offices. The procession was dispersed by the use of truncheons. No firing was required. Brickbats were thrown at the district magistrate and at the armed guard by the crowds in the street and on the roofs of houses. Two of the ringleaders were jailed. Ujhani is on the district of Radaun, and is situated a short distance from Bareilly, where recently there was rioting in which two persons were killed and five wounded.

DISCUSS CALENDAR CHANGE. Supporters of Bill for 13-Month Year Meet in Washington.

Washington, Feb. 11.—A national convention of business, professional and scientific men to discuss calendar reform with a view to endorsement of a bill now pending in Congress to substitute in 1928, for the present time calendar one dividing the year into thirteen months of twenty-eight days each began here under the auspices of the Liberty Calendar Association of America.

In the proposed calendar the dates of every day in the week are definitely fixed for all time and yearly calendars are unnecessary. On 365-day years the odd day remaining becomes New Year Day, the first of the year to have no other designation, and is retained as a legal holiday. In Leap Year the additional day becomes Leap Year Day between the months of June and July as a legal holiday. The extra month is called Vera to include the Vernal Equinox and begin Spring. The week begins with Monday instead of Sunday. An estimated saving of \$25,000,000 a year now expended on calendars is an argument advanced by the association in support of the proposal.

EAGER RECRUIT OFFERS TO PAY PART OF TRAINING EXPENSES

Chicago, Feb. 11.—Joe Klugman, a second baseman who joined the Chicago Nationals late last season, has earned an early trip to the training camp of the Cubs. Klugman, who is wintering in Missouri, wrote President William Veech that he was anxious to make the trip with the first squad, which will be composed chiefly of pitchers and catchers. This squad is scheduled to depart for the Coast on Feb. 16. Klugman told the Cubs' President he was willing to pay his own expenses between the arrival of the two squads. Mr. Veech said he was so impressed with the ambition of the young second baseman that he advised him to be on hand to accompany the first squad at the expense of the club.

Science now shows why we may sometimes grow weak, thin and emaciated upon an abundance of food (lacking in Vitamins) while with a much smaller amount of food, rich in Vitamins, we may quickly take on good, firm flesh, increase in weight and make a remarkable gain in strength, energy and endurance, provided, of course, that our blood contains a sufficient amount of oxygenated organic iron to enable us to assimilate our food properly. Without organic iron, both food and Vitamins are absolutely useless as your body cannot change them into living cells and tissues unless you have plenty of organic iron in your blood from your lungs. This oxygenated organic iron enters your blood like fire enters with coal or wood and by so doing it creates tremendous power and energy. Without organic iron in your blood your food merely passes through your body without doing you any good. Therefore, it is specifically organic iron which is necessary. For centuries scientists tried in vain to produce organic iron, so that you may now obtain pure organic iron from any drug store under the name of "Nuxated Iron," which is ready for immediate absorption by the blood the moment it enters the system. If you desire greater benefits, energy, vigor and endurance we recommend that you take Nuxated Iron.

The champion worked slowly, and his blows appeared to have little effect during the early rounds. In these rounds Kansas appeared to have a little better of the exchanges. In the seventh round Leonard's blows were truer, and from then on he landed as he pleased and took few blows in return. In the eleventh round, following an interchange of body blows, Leonard caught the challenger on the point of the jaw with a left hook, and Kansas went down for a count of nine. Four rounds, the first four of the bout went to Kansas; the fifth and sixth went even, and the others, the champion's.

Two more are needed, and it was decided that all expenses in connection with them should be paid by the Society. Mrs. C. B. ## Policyholders of the Mutual Life of Canada Enjoy a Record Year of Financial Prosperity

### Unprecedented Profit Earnings

**Striking Statements from Addresses**

**Mr. Hume Cronyn, President:**  
"To one outside of insurance circles, there can be nothing more astounding than the resiliency inherent in a properly-managed Life Company. The ability of such a concern to function successfully during a world-wide convulsion is, doubtless, a most striking tribute to its solidity, but the rapidity with which it returns to prosperity in normal times is an almost happier spectacle."  
"From time to time we have evidence that the gospel of mutuality is being the insurance world into the higher path of an ideal system. The latest convert, The Provident Life and Trust, of Philadelphia, following the notable example of the Metropolitan, Prudential, Equitable and Home, has announced its intention of redeeming its stock of the Company's total policyholders one hundred and twenty millions of assets and over half a billion of business. This does this firmly established and well managed concern bear testimony to the strength of altruistic co-operation."

**Mr. R. O. McCulloch, 1st Vice-President:**  
"This Company has always had complete faith in our Great West and nothing in the present situation shakes our confidence in its tremendous agricultural possibilities and its ultimate progress and development. We recognize that the West is going through a period of adversity, but it will survive this setback as its people are industrious, stout-hearted and confident. We know that our agricultural prosperity is necessary for the growth and development of Canada and our policy, as far as we can follow it, consistent with the principle of safety, is to continue to invest in first mortgages on improved Western farms."

**Mr. C. M. Bowman, Chairman of the Executive:**  
"The bond purchases made during 1920 and 1921, many of them being of unusually long term and high interest yield and representing fully sixty per cent of the Company's total bond holdings, will be an important factor in connection with the return from invested funds for many years, thus enabling participating policyholders of the Mutual Life to look forward with confidence to the future."

**Mr. Charles Ruby, General Manager:**  
"No finer demonstration could be desired of the solid foundation upon which a well managed life insurance company rests, than this quick rebound from the financial strain occasioned by the late war and influenza epidemic. Nor could there well be a better augury in regard to dividends to policyholders in the coming years. While there may always be discussion on the general topic of whether the participating or the nonparticipating system in life insurance is the better plan for an applicant, the experienced holders of participating policies in the Mutual Life of Canada, at any rate, will have no difficulty in satisfactorily settling the question so far as they are concerned."  
"The most significant item in the annual reports of a life insurance Company doing business on the participating plan is not the amount of Surplus shown by the Balance Sheet but the Surplus Earnings for the year."

**1. Decrease in Expense Ratio**  
The percentage of the Total Income required for operating expenses was reduced from 20.45% in 1920 to 18.60% in 1921.

**2. Increase in Interest Earnings**  
The average rate of interest earned by the investments of the Company shows an increase from 6.41% in 1920 to 6.60% in 1921.

**3. Highly Favorable Mortality**  
The mortality rate of 1921 was the lightest experienced by the Company in recent years, being relatively 20% less than in 1920.

**Surplus Earnings of \$2,243,038, being \$46.47 per \$1,000 of Total Assets**

The combined effect of these three different factors in the Company's experience for 1921 was to increase the surplus earnings from \$38.67 per \$1,000 of assets to \$46.47 per \$1,000

**Salient Points from the 1921 Report**

"GOD'S CRUCIBLE"

from RALPH CONNOR'S  
Great Novel "THE FOREIGNER"

Directed By Henry MacRae  
Produced By Winnipeg Productions Incorporated  
Distributed By HODKINSON  
with Gaston Glass, Wilton Lackaye, Gladys Coburn, Robert T. Haines

A STRANGER'S  
SPLENDID STRUGGLE  
GOD'S CRUCIBLE tells the story of a young stranger within our gates who fought bravely to overcome the countless obstacles that confronted him, — and who won his fight.  
Sometimes the story is tragic, — grimly so; sometimes it is lightened by humor that cannot fail to bring a laugh; always it is fascinating, for it probes the human heart to its depths.  
The superlative direction of Henry MacRae plus a story which for action and appeal has never been surpassed and a true all-star cast make "God's Crucible" one of the biggest screen successes of this or any other season.  
Ralph Connor, which is the pen name of the Reverend Dr. C. W. Gordon, wrote a very large number of novels, prominent among them "The Sky Pilot," "Black Rock," "The Prospector," "Cameron of the Royal Mounted" and "The Foreigner."  
"The Foreigner" was made into a picture by Director MacRae under its new title, "God's Crucible."

# The France That Is—

Out from two thousand years of tempestuous history; from the tumult of countless wars—invasions, conquests, revolutions; from the confusion and weakness of a Feudal System, with its thousands of petty domains and contentious nobles; from the splendors of Charlemagne, the glories of Joan of Arc, Louis XIV, and Napoleon; from the deluge of Revolution, when "The Marseillaise" burst from the throats

of men who had been yoked with oxen in the fields; from the disaster of 1870 which cradled the new Republic; and, now, out of the ashes of the Greatest War in which two millions of her sons anointed her soil with their ardent blood, FRANCE—the France of Today—with soul unquenched, stands forth, erect, for all the world to know. Therefore we ask—

## What Does France Mean to the World Today?

### Fifty Years of the French Republic

What has happened since the disaster of Sedan?  
How did the Third French Republic rise from chaos?  
How was the huge indemnity to the Germans paid?  
What marvelous transformations have been wrought in fifty years?  
What does England think of the position of France in Europe?  
How many invasions has France suffered from Germany?

### France's Far-Flung Colonial Domain

By what romantic incident did the American Commodore, Decatur, lay the foundations for the French Colonial domain?  
How does France's African empire compare with that of Britain?  
How does France share in the problems of the Pacific?  
What French possessions are there on the coast of British India?

### France's Devastated Areas Yesterday and To-day

How many provinces of France were laid waste by the Germans? How many thousands of towns and villages were destroyed?  
What do the stupendous statistics of ruin mean to France?  
What progress has been made in reconstruction? How are Americans helping?

### Intimate Glimpses of French Life

Is our idea of gay French life in keeping with the facts? How does French life compare with American life?  
What is the French home like?  
This article contains wonderfully intimate pictures of family life; of the plays, the cabarets, etc.

### Paris As the World's Arbiter of Fashion

Why does everybody follow French fashions?  
How are art and psychology employed in making and selling beautiful gowns?

### Ties That Bind France and the United States

Why did France present the "Statue of Liberty" to the United States?  
What is the story of France's help in the American Revolution?  
How was nearly one-third of the territory of the U. S. acquired from France?  
What great monument has the French Government erected to America on the Coast of France?  
What has the United States done for France?

IS FRANCE a country stricken, mutilated, lying helpless and in ruins?

OR is she "strong, self-reliant, and valorous, once again the foremost and most powerful State on the European Continent"?

IS FRANCE a nation "rising from the ashes of humiliation, defiant," and bent upon the punishment of her foe?

OR a nation girding her strength only for reconstruction and self-defense, saying of the march of the invader upon her soil, "It must not be again"?

IS FRANCE a "somewhat effete country, which has outlived its vivid youth"—able, perhaps, "to produce novelists, dramatists, artists and adorable millinery—an agreeable resort for the pleasure-seeking tourist"?

OR a leader "in the vanward of Western civilization," strong in "the illuminating intelligence, the undaunted courage, the tireless industry of her people"—a nation with high ideals and unselfish purposes for the New Era of the World?

### The France of History Through Two Thousand Years

What did Julius Caesar have to do with the founding of France?  
How many forms of government has France survived?  
When was France at the peak of its power in Europe?  
When did an English King rule nearly half of France?  
What did Joan of Arc accomplish for France?  
Was Napoleon the greatest Emperor of France, in the extent of his realm?  
What new struggle is taking place in the body politic of France?

### The French Army and Navy As They Are To-day

How does the present French military man-power compare with her losses in the World War?  
In the event of a crisis how soon could the French army take the field?  
What are the comparative sizes of the French army and navy with those of other nations?  
What is the general direction of French naval aims?  
Why does France want more submarines?

### Explaining the Complexities of French Politics

What is back of the sudden changes in Government?  
How much is the French Parliament like the Congress of the United States?  
What can the President of France do?  
What are the powers of Senators and Deputies, and how are the members of both houses chosen?  
What are the duties of Ministers of the Cabinet?

### Men Who Are Making Modern France

Who are the great men produced by recent crises?  
What was the controlling War policy of "The Tiger"?  
How has Millerand's ambition been satisfied?  
What French statesman is "a composite likeness of Theodore Roosevelt and Elihu Root"?  
Of what French leader is it said that "no one could be as wicked as . . . looks"?

### The French Instinct for Art and Music

Who are the great French masters of art, and what has been the fundamental principle of their work?  
What does the world owe to France as a leader of musical progress?

### The SPECIAL "FRANCE NUMBER" of THE LITERARY DIGEST

The Literary Digest has gathered its wealth of facts from French, British and American sources, without partiality.

## A Wonderful Double-Page Map, in Colors, of French Possessions

which practically girdle the earth, showing that the sun never sets on French soil. The extent and wealth of these French possessions will astonish all Canadians who have not previously studied the subject. Three historical maps, also, show the Empire of Charlemagne (814) France at the death of Henry V. (1422) and the First Empire of Napoleon (1812).
