Russian Ambassador Leaves Constantinople; Odessa Bombarded; Greece Is Likely To War Upon Turkey

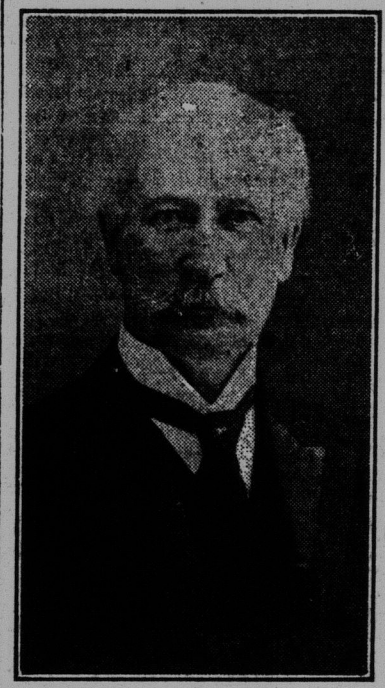

Germans Gave Up Just When Victory Was In Their Grasp

Belgians About to Retreat When, For Some Reason Unknown, The Enemy Retired

London, Oct. 30.—Telegraphing from northern France, under date of Thursday, the Times correspondent says: "A high officer of the Belgian army is authority for the statement that there was a time during the early part of last week, when the Germans, if they had sustained for a few hours longer their fierce assaults on the Belgian position, would have won a grand and decisive victory on the Yser."

Entry of Turkey Into The War Situation Main Event Of The Day

THE LATE ROBT. THOMSON

Flags at half-mast on the harbor shipping today are a silent token of the sense of loss felt by the people of St. John at the death of Robert Thomson, so long prominently identified with the shipping interests of the port, and all his life a generous hearted, honorable and worthy citizen.

Russia and Britain Both View the Situation Calmly --The Turks' Fleet More To Be Figured on Than the Army

London, Oct. 30.—The Russian ambassador at Constantinople has been withdrawn, according to official announcement made here today and, in consequence of the Turkish attacks on Russian ports, instructions have been sent Russian consuls in Turkey to leave the country.

Washington, Oct. 30.—Acting Secretary of State Lansing today announced receipt of a telegram from the American Charge D'Affaires at Petrograd, saying Odessa had been bombarded and some American property destroyed.

London, Oct. 30.—(10 a. m.)—Turkey's sensational entrance into the arena of the European conflict is the most striking incident of the last twelve hours. It seems a fateful coincidence that one of the famous German cruisers the taking over of which by Turkey led to the first friction between the Porte and the entente powers—Great Britain, France and Russia—should have been the instrument of hostility which makes war between Turkey and Russia inevitable.

Petrograd accepts the situation quietly and disclaims any idea of aggressive warfare against the Turks. Russia asserts her intention merely to protect Russian interests around the Black Sea from attack. It is interesting to note that the Russian press expresses the belief that the entry of Turkey into the field is of more injury to Great Britain than to Russia on account of Britain's trade routes to India and other points in the far east.

English newspapers take a generally philosophic view of Turkey's action and express the belief that, while the military situation will not be greatly changed, Turkey's entrance is deemed a calamity. Unless Bulgaria joins the entente of Turkey, an invasion of European Turkey by land is impracticable, according to British observers, and the warfare will be naval. The Turkish navy, assisted by the former German cruisers Goeben and Breslau, is considered here to be far more formidable than her army, which is said to be inefficiently equipped and poorly fed. It is felt in London that Greece will jump at the chance of again measuring swords with her ancient enemy, and with the two battleships recently purchased from the United States, she will be in a position to meet the Turkish ships on equal terms.

RUSSIAN CAPITAL EXCITED
Petrograd, Oct. 30.—A clamorous throng surrounded the Turkish embassy here last night, manifesting against Turkey. The people were restrained from violence by mounted gendarmes.

Earlier the same mob paraded the streets with bare heads, singing and shouting. They called the orchestras out of the hotels and demanded that they assist by playing the national anthem.

The excitement in Petrograd is the greatest since the declaration of war against Germany.

WHAT OF THE BALKANS
"There is keen interest here as to the attitude of the Balkan States. Bulgaria recently gave assurances that she would join the allies against the Turks if assured of some reward at the end of the conflict. Rumanian feeling is more than ever favorable to the allies.

"Public opinion here was surprised at Turkey's action, welcoming the opportunity presented to settle the eastern question once for all."

BRITAIN'S WARNING TO TURKEY
Constantinople, via London, Oct. 30.—In anticipation of the possible invasion of Egyptian territory, British Ambassador Halden, acting under instructions from his government, has plainly informed the grand vizier that if the Turks crossed the frontier it would mean war with the entente powers.

It is understood that the embassies of the allied powers, fearing a rupture, have already made the necessary arrangements for the departure of the diplomatic representatives.

BRITISH DESTROYER HIT; COMMANDER AND FOUR KILLED
London, Oct. 30.—The Daily Mail correspondent in France explains that the Dunkirk and Calais are to be of any use to the Germans, they must have the coast road unless they build a special road, because the coast road is the only one fit to bear the heavy guns with which they hope to bombard Dover. He adds: "The German naval gunners are doing better than the army gunners, having hit the torpedo boat destroyer Falson and killed her commander and four men."

Director of War Resigns
Washington, Oct. 30.—George E. Roberts, of Fort Dodge, Iowa, director of the mint has resigned.

GERMANS DESERT
London, Oct. 30.—A despatch to the Central News Agency from Amsterdam says it is reported that a hundred German soldiers have discarded their uniforms and crossed from Belgium into Dutch territory.

RATHER EARLY
London, Oct. 30.—A despatch to the Times from Berlin asserts that preparations are being made in the German capital for the public proclamation of the annexation of Belgium, which is mentioned officially as "the happy German reichland under the illustrious sceptre of Kaiser Wilhelm Von Belgium."

The Emperor's Work
Shanghai, Oct. 30.—Reports from Hong Kong give some details of the Emperor's operations at Penang. She entered the south channel there on Wednesday and found the Russian cruiser Jentchag anchored in the harbor repairing her machinery.

After torpedoing and sinking the cruiser the Emden left by the north channel, where she met the French destroyer, which she also sank.

Italy and Albania.
London, Oct. 30.—A despatch from Bucharest, Rumania, to the Times, says: "There are now six Italian warships at Avlona. The whole duty of enforcing the decisions of the conference of London in Albania will be entrusted to Italy as the sole neutral power among the signatories."

Gallant Action By Gurkhas
Britain's Indian Troops Blow Up German Ammunition Park
London, Oct. 30.—The Daily Mail correspondent in Paris describes how the Gurkhas (native Indian troops) blew up a German ammunition park, thus causing some of the German coast batteries to move to the rear. He says:—"All the efforts of the allies' artillery against these batteries had been unavailing and the Germans were causing severe losses when the air scouts located the ammunition stores seven miles behind the German lines."

"At night the Gurkha detachment embarked on gunboats which proceeded to the mouth of the Yser and after a long silent march, the Gurkhas reached the German stores guarded by six sentries."

"Six silent figures moved toward them, each carrying a long knife. Then a sound, like the croaking of a frog was heard, and the six sentries disappeared. "Soon afterward the general staff of the allies saw a great flash of light on the horizon, and heard a great explosion, followed by countless others, as the shells and shrapnel in their cases, exploded in all directions. The Gurkhas returned safely to the gunboats."

Outlook Bad For Enemy All Along The Line, Says Military Critic

Deadlock on Battle Front in France and Belgium Continues—Allies Confident of Checking Germans When They Renew Efforts to Take Channel Ports

Paris, Oct. 30.—The deadlock in the extended battle line in France and Belgium continues today, according to all the information that has been made available here regarding the great battle raging between the Germans and the allies.

The latest French official communication, briefer than ever, declares simply that there is no important news to report.

While the fighting appears to be somewhat more general, it is not so fierce or so continuous as was the case for the better part of two weeks after the battle line in the Northeast extended into Belgium along Yser and to the coast. Evidently both sides are recuperating as much as possible after the strain of these tremendous efforts and are strengthening their lines with the fresh troops brought up by reinforcing forces.

No one here doubts that the Germans will soon renew their efforts to take the channel ports, but there is every confidence that the allies, as heretofore, will check them in this objective.

General Berthaut, a French military critic, in summing up the situation today declares that the outlook for the Germans is bad all along the line.

RUSSIAN GUNBOAT IS SUNK BY TURK IN THE PORT OF ODESSA

Bordeaux, Oct. 30.—It was announced officially here today that two Turkish torpedo boat destroyers entered the port of Odessa, on the Black Sea, and sank a Russian gunboat. They also inflicted damage on the French liner Portugal.

London, Oct. 30.—A despatch to the Daily Mail from Petrograd declares that Odessa was also visited by Turkish warships. It says:—"Two Turkish destroyers fired shells at Odessa harbor, sinking a merchant ship. The Turks also bombarded Novorossysk, a seaport of Caucasus."

"Two Turkish officers landed at Theodosia on the southern coast of Crimea to demand the surrender of the port. The governor promptly imprisoned them."

GERMANS WHO CROSSED YSER ARE COMPELLED TO GO BACK AGAIN

Paris, Oct. 30.—(2.56 p.m.)—The French official announcement given out in Paris this afternoon says that the forces of the enemy which had passed the river Yser have been compelled to withdraw by reason of inundations of the low country, brought about by the Belgian army.

THE FINAL BLOW Rebel Maritz Beaten in Invasion of Cape Province

London, Oct. 30.—A Cape town despatch to Reuters says that Colonel Conrad Brits, who has been engaged in suppressing the rebellion started by Lieut-Col. Maritz in Northwest Cape Province, reports that the invasion of the cape has finally been broken.

MEMBERS OF QUEBEC CABINET IN HOME GUARDS

Quebec, Oct. 30.—In the ranks of the local Home Guard last night were two members of the Quebec cabinet, Hon. J. A. Taschereau and Hon. P. G. S. MacKenzie, while Hon. George M. Amyot, M. L. C., was also marching with the rank and file. During the course of the exercises Lieutenant Governor Sir Francis Langelle addressed the Guard, speaking both French and English and emphasizing the righteousness of the allies' cause.

WEATHER BULLETIN DEMANDS ARE HEAVY ON THE CANADIAN MILITARY HOSPITAL

London, Oct. 30.—The demands being made upon the Queen's Canadian Military Hospital are so great that the committee are anxious to extend the accommodation, or else to relieve the congestion by drafting the slightly wounded to convalescent homes. Some private homes offered for the latter purposes will be inspected and selections made for early use.

GERMAN BOMBS KILL WOMEN IN BETHUNE AND DUNKIRK

London, Oct. 30.—Two German aeroplanes on Wednesday dropped two bombs at Bethune, France, according to the correspondent of the Daily Mail in Northern France. The first failed to explode, but the second, which fell among market women, killed nineteen of them and injured forty others.

Two bombs were also dropped at Dunkirk on the same day from a Taube machine, 9,000 feet up in the air. A woman and child were killed and all the windows in the neighborhood were smashed. The women of the town are terrified.

ACTUAL FIGHTING BY THE GERMANS AND PORTUGUESE

London, Oct. 30.—A despatch from Lourenco, Marques, East Africa, which is now published by the German press, confirms the report of a German invasion of Portuguese West Africa and gives the following official details:—"A party of German cavalry, composed of twelve Europeans and twenty natives, crossed the southern border of Angola and arrived at the military post at Nauilua, saying they desired an interview with the commander. Soon afterwards they were about to retire without further explaining the reason for the visit, when a Portuguese officer placed his hand on the German officer's blade. The German troops thereupon raised their weapons but the Portuguese soldiers were beforehand, and fired on the party, killing three Germans."

Berlin, Oct. 30.—The alleged raid of German troops into Angola is declared officially to be a "hat lie forged in order to justify Portugal's participation in the European war."

Petrograd, Oct. 30.—The Gazzetta, which is now published by the German press at Czemtuchow, Russian Poland, prints the following proclamation which credits to Emperor William:—"Poles!—You, of course, remember once at night the bell of the Holy Swiatopolski monastery began to ring, without human aid, and when all the pious people understood that this great and important event had been signalled by a miracle."

"That event was my decision to wage war with Russia, and restore to Poland her saints and annex her most cultured land to Germany. I had a wonderful dream. To me appeared the Virgin Mary and commanded me to save her holy convent, which danger threatened."

"She gazed at me with tears and I proceeded to fulfill her divine behest. Know you this, Poles, and meet my troops like brothers, saviours. Know ye, Poles, that all who are with me will be liberally rewarded; that those against me will perish."

"With me are God and the Holy Virgin. She lifted the sword of Germany to succor Poland."

ANOTHER FRENCH STEAMER ASHORE
London, Oct. 30.—Lloyd's signal station on Catharine's Point reports that another French steamer, the Amiral Rigault De Genouilly, bound from Barry for Havre, is ashore off Cape Barfleur, seventeen miles east of Cherbourg, and needs assistance. The liner La Savoie has gone to help her.

SHOWERS AND CLEARING

Maritime—Fresh to strong southeasterly winds with rain; Saturday, fresh westerly winds, mild and clearing. New England—Fair and slightly cooler tonight. Saturday fair, moderate west winds.

ALL GOES WELL WITH RUSSIANS DESTROY TWO MORE VESSELS

General Trend of Operations Increasingly Favorable
ENEMY, THOUGH, ENERGETIC

Reinforcements For Germans Expected—Bulgarian General Has Given a Historic Sentence to War Literature

Petrograd (via London, Oct. 30.—General Maslof, military critic of the Novorossysk, in summing the war situation in the east says:—"Generally speaking the trend of the Russian military operations is becoming increasingly favorable. The battles raging along the front are unprecedented in bravery and stubbornness. Not only the Germans but the Austrians, despite their recent and again attempt to resume the offensive. At present, however, the Russians largely retain the initiative."

The Army Messenger announces that the Russian commander-in-chief has sanctioned the formation of Polish legions under Polish commanders. The legions are furnishing their own uniforms, but the Russian government will provide the arms, ammunition and commissariat. Proclamations have been expurgating the people to join the legions and expel the enemy."

London, Oct. 30.—A Times despatch from Bucharest Rumania dated Wednesday, says that the Russians, after beating the Austrians at Bojona, have re-occupied Cernowits, capital of the province of Bukovina.

London, Oct. 30.—A Petrograd special to Reuters says:—"In the recent fighting near Przemysl two generals reported to their commander, a Bulgarian general, Radko Dimitreff, who is leading the Russian army investing Przemysl, that they were unable to hold out owing to the overwhelming numbers of the enemy. General Dimitreff replied with an aphorism which will doubtless become historic. He said: "Don't count the enemy. Beat him."

Close the North Sea
London, Oct. 30.—The newspapers continue to urge upon the admiralty the desirability of the entire closing of the North Sea to prevent the alleged action of the Germans in sending out mine layers in the guise of peaceful, neutral trading vessels. The Times says:—"We refer again to the disquieting discovery of mines on the main route between Liverpool and America. There is an increasing conviction that this danger will continue to grow and that the only remedy is the closing of the North Sea to neutral maritime traffic."

The flags of neutrals have been persistently abused and we can take no risks with the fortune of the empire and the race at stake."

MODIFICATION OF THE DECLARATION OF LONDON
London, Oct. 30.—The Official Gazette today publishes the modifications in the Declaration of London, adopted by the government. The principal changes are that a neutral vessel with papers indicating that she is bound for a neutral destination, and which proceeds to an enemy's port, is liable to capture and condemnation on her return journey. Conditional contraband consigned to a neutral port will, in future, be liable to seizure where the ultimate destination is plainly the enemy.

WHY THE DELAY IN STARTING THE RECRUITING?

No Orders Received Yet and Several Days Are Likely To Elapse

What is the cause of delay in recruiting in St. John? How does it come that in other provinces in Canada enlistment is now in full swing...

It was a long suffering traveller on a little single-track railroad, and he complained bitterly about the lateness of the train and the irregularity of the service. The employe remonstrated in vigorous indignation, "I've been on this here line, sir," he began, "upwards of eight years, and "Have you, indeed?" interrupted the traveller, sympathetically. "At what station did you get on?"

'Tis The Dawn of a Brighter Day

when you come to us for your Glasses.

MARINE NOTES.
 The remount steamer Lakonia, of the Donaldson line, left Glasgow yesterday for this port.
 It is now expected that the first sailing of the Allan Line steamers to this port will be taken by the Hesperian on Dec. 11. The requisitioning by the Imperial government of the Scotian, Tunisian and Grampian has cancelled the sailing of the Scotian on Nov. 28.

HORSE-POWER.
 It is not everyone who knows the exact meaning of the term "horse-power" as applied to steam engines. The following is the explanation given by Professor Farey in a book on the steam engine:
 The machinery in the great breweries and distilleries of London was moved by horses, and the proprietors of those establishments, who were among the first to require Mr. Watt's engine, always inquired what number of horses an intended engine would replace.
 Consequently Mr. Watt made some experiments on the strong horses employed by the brewers of London, and found that a horse of that kind, walking at the rate of two and a half miles an hour, could draw 150 pounds avoirdupois, by means of a rope passing over a pulley, so as to raise up that weight, with vertical motion, at the rate of 220 feet a minute.
 This exertion of mechanical power is equal to raising 33,000 pounds—or 598 cubic feet of water—vertically through a space of one foot per minute; and Watt named it a "horse-power," and made it the measure of the power exerted by his steam engines. The horses used in this test were of unusual size and strength. The ordinary horse would scarcely be able to exert more than two-thirds of the horse-power thus defined.

Raincoats and Umbrellas Oil Clothing and Rubber Boots

This is the time of the year when every man needs a Raincoat. You can't afford to get wet and catch cold, and pay Doctor's Bills. We invite you to come and look over our assortment of Raincoats, and then you will realize that you need not spend all your money to get a coat that will stand against the wet element.

You see, it is just like this: We do a cash business. There is no reason why we should not give you the best value possible for your money.

Prices of Raincoats, \$5.00, \$6.00, \$7.00, \$8.00, \$8.50, \$10.00, \$12.00 and \$14.00; Caps to match, 75c. and \$1.00.

OPENINGS FOR CANADIAN TRADE
 France in Market for Many Supplies Which Can Come From Here.
 Ottawa, Oct. 29.—There are numerous good openings for Canadian trade with France, according to Hon. Philippe Roy, Canadian Trade Commissioner in Paris, who advises dealers and industrial leaders to go over there prepared to conclude transactions.
 There is a demand for steel rails, iron and beams for bridges to replace those destroyed, horseshoes, barbed wire, automobile spare parts, railway ties, building timber, canned goods, biscuits and sugar.
 Until further notice fresh meat of all kinds will be admitted into France free of duty.

Autumn in the Country
 (Collier's Weekly)
 It is about this time of year that the dwellers in the country and in the country towns have it all over those who live in cities. In the country one has assurance of a mighty change in the life of the earth and the passage of the seasons. Open fires now look good and there is a certain ripeness about the very dust of the road. A light gleaming through an unshaded window does not suggest a hot and odiferous lamp, but a desirable place to read and rest. Home itself is twice as dear as one comes toward it in the magic of autumnal twilight instead of the glare of a summer afternoon. It is well worth taking long walks or rides just for the pleasure of getting back a finding out what there is for supper. The harvest is getting in—not simply an abundance of things to eat, but a visible evidence of the guard that human labor and foresight can throw about the objects of its love, a pledge of man's conquest of the elements. Summer is gone, and it was very good with all its flowers, but there are the home days and much dearer to our hearts.

HER FURS ARE HELD IN BERLIN BY THE WAR

Spokane, Wash., Oct. 30.—If the combined efforts of the Spokane representative of the German consulate, the United States customs office and an American company are successful, Miss Ruth Winters, a Spokane vocalist and young society woman, will this winter wear furs which have been brought direct from Berlin through customs, customs houses and contraband peddlers.

Lacked in the value of the express company in Berlin is a large quantity of creation in furs, purchased for more than 1,000 marks by Miss Winters during a recent trip to Germany. The goods were left in storage with a Berlin furrier to await shipment this fall. Miss Winters is now appealing to every agency which might aid in extracting the price from the war zone and delivering the set to Spokane. According to the latest advice, the set probably will be held at the express office in Berlin until shipment can be made in safety.

The annual meeting of the Associated Charities was held last evening in the Board of Trade rooms, W. S. Fisher presiding. There was a large attendance and an interesting feature of the gathering was the activity of the ladies, many of whom were busy knitting socks for the soldiers while following the discussion of the society's work.

The treasurer's report showed receipts of \$1,106.18 and expenditures of \$689.92. The secretary reported having received 1,297 applications for relief, securing

English Linoleums in Four-yard Widths

Amland Bros., Ltd.
 19 Waterloo Street

Cream of Tartar

Many people use cream of tartar for quick baking. They value its superior qualities and will not knowingly accept substitutes made of alum or lime phosphates, such as are sometimes offered.

But even the most careful cannot always know. The high price of cream of tartar has led to efforts to substitute alum and phosphate of lime compounds which are vastly inferior and not as healthful to use.

The easiest way in which the housekeeper can be sure of quality and economy is by using Royal Baking Powder, which is made from pure cream of tartar.

Royal Baking Powder gives perfect results, is less trouble to use, and has not been advanced in price.

Anyone who has once become accustomed to using Royal Baking Powder never reverts to homemade mixtures or any other product for raising biscuit, griddle-cakes, doughnuts, or cake.

URGENT PROVISION FOR CHILDREN'S AID

Annual Meeting of Associated Charities—Ladies Knit Socks For Soldiers While Discussing Welfare Work

The annual meeting of the Associated Charities was held last evening in the Board of Trade rooms, W. S. Fisher presiding. There was a large attendance and an interesting feature of the gathering was the activity of the ladies, many of whom were busy knitting socks for the soldiers while following the discussion of the society's work.

The treasurer's report showed receipts of \$1,106.18 and expenditures of \$689.92. The secretary reported having received 1,297 applications for relief, securing

HIBERNIANS WALKED ONE HUNDRED MILES TO GET IN FIGHT FOR BRITAIN

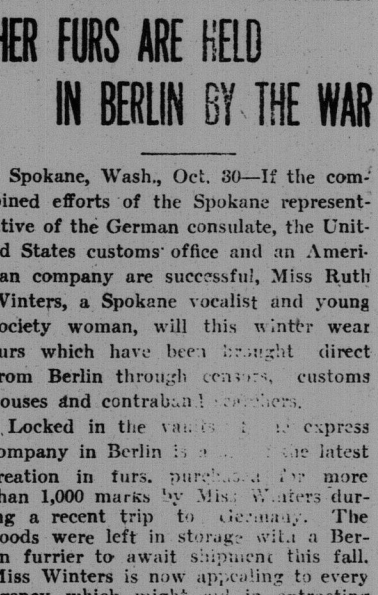

Montreal, Oct. 30.—John Doyle and James Mulvaney, two husky Irishmen from a lumber camp in northern Quebec, arrived in Montreal this week after a tramp of almost 100 miles, ready to start for the battle front at the earliest possible moment. They heard of the war only a few days ago, and, being recruits, they at once "biked" for the nearest port. They will be given an opportunity to join their regiments.

The Evening Times and Star

ST. JOHN, N. B., OCTOBER 30, 1914. The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

THE WAR NEWS The only result of the entry of Turkey into the war, as far as Britain, France and Russia are at present concerned, might be a weakening, or rather a less vigorous development of the offensive by Russia against Austria and East Prussia. If she were compelled to place armies in the field to oppose Turkey it would of course be a greater immediate tax upon her resources of men and equipment, and what is most urgently needed from the standpoint of the allies is that her operations in Galicia, Poland and East Prussia be pressed with ever increasing force, so that if possible Germany may be compelled to withdraw some of her troops from the western border, or may at least be prevented from strengthening her western army by withdrawing men and munitions from the east. So far as Turkey is concerned, Italy, Greece and the Balkan states cannot regard with indifference any warlike action on her part. Turkey's power was broken in the recent Balkan war, and neither her army nor her fleet can be regarded as formidable.

BUSINESS AS USUAL Addressing the Halifax board of trade on Tuesday evening Mr. F. B. McCurdy, M. P., who is president of the board, made "Business as Usual" the subject of an address in which he dwelt strongly upon the importance of making the very best of the situation in relation to industry and commerce as it exists in the provinces today. He pointed out that the war had not injured our great basic industry of agriculture, and while some industries would be disturbed by the war others would not, and it was of the utmost importance that a spirit of confidence prevail. The lands must be tilled and harvested, manufacturing must go on, and the demands of Canada and of foreign trade filled. It should be possible, Mr. McCurdy pointed out, to find new business opportunities in new markets. He urged strongly upon all the importance of not allowing the war to distract their attention to the injury of their business. On this point he said: "We have the battle of trade and commerce to engage our attention in business hours. We have the care of those left behind. We have the bills to pay. We have work to do, we should not allow ourselves to become unsettled and excited over war news. In business hours let us keep our hands to the plough of commerce."

Mr. McCurdy told of going into offices and factories in business hours and finding the principal and staff paying more attention to the war news than to business, and he urged strongly the policy of attending strictly to business in business hours, having sufficient optimism to believe that the final outcome of the war would be satisfactory, and that by diligent effort each could keep his own business going successfully. This is wise counsel. We must have confidence in the ability of those who are fighting our battles in Europe, to gain the victory; and those who remain at home can best contribute their share to that victory by keeping the wheels going and the conditions of trade and industry as near as possible to the normal.

One effect of the attack by Turkey upon Russian ports will be a decided growth of the war spirit in Russia, and a more vigorous determination to prosecute the war to the bitter end. A Petrograd despatch says that Russia will for the present be content to defend her own interests in the Black Sea against Turkish aggression, and go on with the task of defeating the armies of Austria and Germany.

All who have enjoyed "Happy Days" in the annual cruises of the Royal Kennebec Yacht Club on the St. John river and lakes for years past will sincerely mourn the death of former Commodore Thomson. He was the life of the fleet on many a delightful summer outing.

Despite all the noise and fury of the Standard, there has been nothing to prevent the provincial government from prolonging its sessions at any meeting long enough to attend to all the public business, which at the present time includes the reception of the report of the Royal Commission.

MR. ROBERT THOMSON. If Mr. Robert Thomson had cared to take a part in public affairs, the country at large would have heard much more about him than it has heard of the quiet, home-loving, kindly gentleman who never sought public honors; but who was in the best sense a good citizen, and who endeared himself personally to all in his wide circle of friends and acquaintances.

The firm of William Thomson & Company has long held a prominent position in the shipping world. Mr. Robert Thomson has been identified with it since it was organized forty-four years ago, and had been for some years in his father's office prior to that date, and previously had gained some experience in offices in Liverpool, England.

As a citizen of St. John Mr. Thomson, being of a retiring nature, never took an active part in public affairs; but he was for many years the Commodore of the Royal Kennebec Yacht Club, the successful growth of which was very largely due to his enthusiasm, and every one of whose members regarded the Commodore with feelings of genuine affection. Of a generous nature, Mr. Thomson contributed largely in a quiet way to many worthy causes.

His name, and that of the company of which he had long been the head, are inseparably associated with the shipping history of the port of St. John, not only during the period while wooden ships

were still numerous in our harbors, but during the later critical period of readjustment when iron replaced wood, and the steamers of the Battle Line of St. John carried the name to all quarters of the globe.

Those of his fellow citizens who knew Mr. Thomson intimately will especially mourn the loss of a valuable friend, and universal sympathy is felt for the members of his family.

Addressing the Halifax board of trade on Tuesday evening Mr. F. B. McCurdy, M. P., who is president of the board, made "Business as Usual" the subject of an address in which he dwelt strongly upon the importance of making the very best of the situation in relation to industry and commerce as it exists in the provinces today. WHITE HORSE SCOTCH WHISKY. "WON'T BITE" LIGHTER VEIN. Tempus Fugit! I placed my watch on a table; 'Twas wound to run till dawn; Next morning, when I looked for it— Wasn't going? Nay; 'twas gone!

Literally, Too. The conversation had turned to the many men who had met success. "There, for instance," said one man, pointing down the street, "was a man who began life in poverty, and now lives on the fat of the land."

"McFee looked. "Yes, I know him," he replied. "He's an agent for an anti-fat concern."

"If the Boat Rocks. "I'd come over and kiss you, only I'm afraid of upsetting the boat."

"Accomplishments Required. "Doctor," said the patient, "what's in this prescription?" "Never mind," was the reply. "The pharmacist will understand."

"But are you sure I can find a pharmacist who understands Latin, shorthand and drug business all at once?"

"Thursday, The Kaiser distributes 80,000 iron crosses. Friday, Great Britain declares pig iron contraband of war—Punch.

The Squire says his friend Brown prides himself on his neutrality—he doesn't care whether it is the English, French, Belgians or Russians who lick the Germans—Boston Journal.

"I was outspoken in my sentiments at the club this afternoon," said Mrs. Garrulous to her husband the other evening. "With a look of astonishment he replied: 'I can't believe it, my dear. Who outspoke you?'—National Monthly

long enough to satisfy yourself that it is a pure and clean and healthful as the bread you've been making. Its flavor, too, is delightfully appetizing and smacks of butternut. It is cheaper, all in all, to USE BUTTERNUT BREAD

NAVAL LOSSES COMPARED The Naval and Military Record of October 14 contained an interesting review of the naval achievements of the two sides in the great struggle. The war had entered its eleventh week, and, taking into consideration only events which had been officially announced and only ships which appear in navy lists in peace time, the comparison of losses was as follows:

Table with 2 columns: Ship Name, Tons. Cruisers: Aboukir (12,000), Cressy (12,000), Hogue (12,000). Light cruisers: Amphion (3,440), Pathfinder (2,940), Pegasus (2,135). Gunboats: Spedy (810), Zele (680). Destroyers: Stribanig (380), A. E. 1 (725). Total: 47,110.

Table with 2 columns: Ship Name, Tons. Battle cruisers: Goeben (23,000). Light cruisers: Breslau (4,550), Magdeburg (4,450), Mainz (4,350), Arndt (2,600), Zenta (2,300), Hela (2,040). Gunboats: Stove (650), Hedwig Von Wissman (199), Singtau (108), Vaterland (108). Destroyers: N. 187 (650), N. 126 (487). Torpedo boats: No. 19 (78), U. 15 (250). Total: 20,450.

Balance of tonnage in favor of the allies 8,340. It will thus be seen that, in spite of the severe blow dealt by Germany when she sank three cruisers on September 22, the balance was still against her; and if we take into account armed merchant vessels lost, it is still more so, as will be seen by the following comparison:

ARMED MERCHANTMEN LOST By Allies—Oceanic. By Germany—Kaiser Wilhelm der Grosse, Cap Trafalgar, Bethania, Spreewald, Soden, Ito, Rhein, Konigin Luise.

WHILE THREE OF THE VESSELS LOST BY THE ALLIES (the Japanese destroyer Shiratayu, submarine A. E. 1, and the Oceanic) have been lost through ordinary risks of navigation, every one of the German-Austrian casualties has been the result of their enemies' efforts—unless we except the Austrian torpedo-boat No. 19, which struck one of her own mines.

For the information of readers who may not have come across references to all the small craft mentioned in the list of German losses, it should be mentioned that the Mow was sunk by the Pegasus and the Astron in the harbor of Dares-Saleen, German East Africa; the Hedwig von Wissman (a lake gunboat), was captured on Lake Nyasa by a British vessel of similar type; and the Singtau and Vaterland were dispersed and interned at the Chinese port of Canton and Shanghai respectively.

The Soden, Ito, and Rhein were small vessels which were converted into gunboats for the defence of the Cameroon colony, now in the hands of the allies. The Soden was captured by the British and the other two were destroyed by the French gunboat Surprise.

WAR NOTES A German steamer which had been converted into a cruiser, was sunk yesterday in the Adriatic sea by British torpedo boats. Louis Wessels, naturalized British subject, head of the firm of Wessels, Kulenkam & Co., is to be expelled from Jamaica, on a charge of supplying war necessities to the German cruiser Karlsruhe. He was arrested by the British authorities.

The British naval flotilla are still harassing the Germans along the Belgian coast. The casualties of the British have been slight, but they have done splendid work in supporting the allied left.

TURKEY has come into the war against Russia and the latter country is now confronted by an army of 1,000,000 on her southern borders. Yesterday morning a Turkish cruiser bombarded Thessalonica, Crete, damaging much property. The Persian minister at Petrograd denies any knowledge of an alliance between Persia and Turkey.

MORNING NEWS OVER THE WIRES A dredge owned by the Bay State Dredging Company of Boston was sunk yesterday at St. Stephen in an accident while at work in the river there. The Teachers' Institute of Kings and Queens' counties opened yesterday at Sussex with 130 members enrolled. Addresses were given by Chief Supt. W. S. Carter, N. S. Fraser, president of the institute, and others. James Roberts, city marshal of Fredericton, was fined \$10 and costs there yesterday on a charge of assaulting

THE TORTURES OF RHEUMATISM

are always aggravated during damp, changeable weather and ordinary treatments are often useless.

Such conditions need the oil-foam in Scott's Emulsion to reduce the injurious acids and strengthen the organs to expel them.

Scott's Emulsion, with careful diet for one month, often relieves the lame muscles and stiffened joints and subdues the sharp, unbearable pains when other remedies have failed.

YOUR DRUGGIST HAS IT.

Sargent's Artistic Hardware

Whether you are building or remodeling, you can add to the attractiveness of your home by using "Sargent's Artistic Hardware." A fine house should be fitted with fine hardware; cheap goods are out of place in a dwelling of refinement and good taste.

It will pay you to investigate Sargent's Hardware. We will be glad to help you select proper designs and finishes.

Easy & Practical Home Dress Making Lessons

Prepared Especially for This Newspaper by Pictorial Review

A SOFT SILK FROCK.

for the trimming. This, of course, does not apply to the vest and collar, which are invariably of contrasting material, usually linen or silk.

To make the design shown here requires 5 1/2 yards of 36-inch or 34 yards of 44-inch silk. The back and front gores are laid on a lengthwise fold of the goods when cutting, also the back. Other parts of the pattern are arranged on a lengthwise thread of the silk. If necessary to piece to silk to add to its width, be sure to place seams where they will not show.

The model does not require a lining, so the front of the waist is first underlaid with a lengthwise thread of the fabric from the front edge to one inch inside of line of large "O" perforations; turn over on outside on large "O" perforations to form revers, tack upper edge to position; adjust vest to position underneath front, bringing corresponding small "o" perforations together and tack. Close shoulder seam. Turn under arabic edge of front and back on slot perforations, lap on sleeve to slot "o" perforations, notches even and stitch. Close under-arm and sleeve seams as notched. Gather lower edges of front, back and vest between double "o" perforations. Sew stay to lower edge of waist, centers even, small "o" perforation at under-arm seam.

Sew large collar to neck edge as notched, center-backs even. Sew stay collar to neck edge as notched, adjust to position, bringing single large "O" perforations in shield and in vest together.

Join gores of skirt as notched, leaving edges to left of center-front free about single large "O" perforation in front gore for opening. Pleat, creasing on lines of slot perforations, bring folded edges to corresponding lines of small "o" perforations; stitch and press to position. Sew to lower edge of waist over stay, centers even.

Slash front section of belt on small "o" perforations for a pocket. Join belt sections as notched, close back seam. Adjust to position.

Inserts of heavy lace set in to the revers sometimes take the place of embroidery in usually all that is required.

CUTTING GUIDE 5857

Pictorial Review pattern No. 5857. Sizes 32, 34, 36, 38, 40, 42, 44 and 46 inches bust. Price, 15 cents. Embroidery design No. 11742. Transfer pattern, 15 cents.

Patterns published in this series may be obtained by sending price of pattern in cash or stamps to The Evening Times Pattern Department, 23 Canterbury Street, St. John. As a rule it takes several days to write the number of the pattern plainly (2) to write their name and post office address clearly, and (3) to enclose the price.

Hints for the Cook

Baked Chops.
Make a dressing as for chicken and cover the bottom of baking pan. Put the chops on top, sprinkle with salt and almost cover with hot water. Bake until brown. Have some onion in the dressing.

Chicken Rolls.
Melt three tablespoons of butter, blend in three tablespoons of flour, add gradually one and a half cups of chicken stock; season to taste with pepper, salt and celery salt; stir until smooth of chopped chicken. Remove the soft crumbs from crisp rolls, fill with the prepared chicken, place in the oven until hot, and serve.

Maple Rolls.
Sift one and a half cups of flour, three level teaspoons baking powder and a teaspoon of salt together. Rub in three level teaspoons shortening and mix with a scant three-quarters cup of milk. Roll out one-eighth inch thick and spread with three-quarters cup of grated maple sugar. Roll up like a jelly and cut in slices, three-quarters inch thick. Bake quick and serve hot.

CLEANSE THE BLOOD AND AVOID DISEASE

When your blood is impure, weak, thin and debilitated, your system becomes susceptible to any or all diseases.

Put your blood in good condition. Hood's Sarsaparilla acts directly and peculiarly on the blood—it purifies, enriches and revitalizes it and builds up the whole system.

Hood's Sarsaparilla has stood the test of forty years. Get it today. It is sure to help you.

THREE CONCERTS IN AID OF THE BELGIAN RELIEF FUNDS

Three successful concerts were held last night about the city in aid of the Belgian Relief fund. Rev. Dr. Raymond presided at that held in St. Mary's school room in which a fine programme was given, those taking part being Mrs. Ferris, Messrs Guy, Potter and McCloskey, Artillerymen Rankine and Phillips, Miss Tilly Ross and Master Ross, Alex Campbell, St. Mary's Band and others. P. W. Wilbur was accompanist.

The concert in St. Stephen's was presided over by Rev. G. Dickie and those taking part were Misses G. Lovitt, Mary Gilchrist, Ermeline Climo, Kathleen Trueman, Pauline Biederman, Winnifred Patterson, E. Morrison, Catherine McArthur, Mary MacLaren, Marion Terry, Irene McQuade, S. Collins, G. Lovitt, Winnifred Ross and Irene Morrison; Mrs. Mont Jones, Mrs. James Gilchrist, Prof. Silas Casson, and Guy Taylor. Miss Pauline Baird, who directed an entertaining dramatic sketch was the recipient of a handsome bouquet of roses at the close.

In Carlton City Hall a large gathering was present at a Belgian Relief concert under the auspices of the Ladies' Aid Society of the Baptist Sunday school, with B. H. Parsons presiding. Those taking part were Misses M. E. Mullin, A. C. McHarg, Alice Schofield, Miss Murray, W. M. Campbell, C. H. Griffith, S. H. Matthews, Mrs. J. T. Dalton, Mrs. Murray Long, C. W. Skelton, Miss Pearl Wayne, Mrs. L. M. Curran, R. Palmer, G. Wolfe, Harry C. Dunlop and Rev. W. R. Robinson.

A simple method of making iron-work proof against rust is to heat it until it is almost red hot, and then brush over with linseed oil. This makes a varnish which unlike ordinary paint or enamel does not chip off.

Lumber Stealing Charged.

Frederick Riley was committed for trial yesterday afternoon by Magistrate Ritchie, on a charge of stealing lumber from George McKean. The prisoner was released on \$2,000 bail.

It is a good plan in during stockings to hold the darning wool for a minute or two over the spout of a kettle of boiling water. This shrinks the wool, and when the stockings are washed there is no fear of mended parts shrinking and so tearing away from surrounding parts so that the stockings last much longer.

Saturday Cash Specials at Daniel's

THE WINTER STEAMERS

(Montreal Mail)
 While war interferes to such an extent that the steamship companies hardly know what vessels they can rely on for passenger business a week ahead, several of the lines have already announced some of their winter sailings. It is evident that Halifax will lose the trade of the Canadian Pacific steamers, as the impress of Britain has been taken over by the British government and the Empress of Ireland was sunk last spring. So far as announced all of the Canadian Pacific passenger steamers will sail from St. John this winter. The White Star line yesterday announced that Halifax could again be their port of call for the winter and it is rumored though neither information nor denial is obtainable from the Canadian Northern Royal Line steamers Royal George and Royal Edward will return to Halifax this winter instead of continuing to call at St. John they did last year. The Allan Line says will go to St. John also.

(Halifax Echo)
 At the quarterly meeting of the board of trade in his report on the activities of the board since the last general meeting, March 17, the secretary had occasion to refer to the question of the winter mail service to Canada from Europe. Contrary to expectations there was no general discussion on this subject, the whole report being adopted without discussion. The section of the report, referring to the mail question said: "The delegation to Montreal and Ottawa composed of Deputy Mayor Powell representing the city; W. A. Black and A. E. Jones, with your secretary, representing the board, filed a lengthy report with the council on their return in May, and while not successful in accomplishing the corralling of the whole mail service to this port, they were successful in obtaining a promise from the postmaster-general that the slow boats used last year—in one instance not arriving over eleven knots an hour—would not be entertained, and a better and faster service would be aimed at. "Since that time, your council has discussed the matter a number of times, correspondence has been kept up with the government, and the board and railway departments have the assurance of one of the largest steamship companies that the port will be used by them during the coming winter. We have been unable, however, to procure from the government so far any statement regarding the service for the coming winter, claiming that on account of nearly all the larger boats used last winter for this purpose have been requisitioned by the imperial authorities for war purposes."

TRUGGLE FOR LIFE AT BOTTOM OF THE HARBOR; A NARROW ESCAPE
 Frank Miller, of 575 Main street, had narrow escape from drowning yesterday afternoon at the marine depot, West St. John, when he was carried off a scow and sank in forty-two feet of water, being plucked there for a few moments by a huge boulder. The man was assisting in unloading a scow of oak at the marine depot when a boulder rolled against him as the scow listed and both went into the water. The scow caught in his clothing and carried him to the bottom. Although breathless and almost unconscious he had the presence of mind to push the weight of his foot and struggle to the surface where willing hands lifted him from

IMPORTANT

There are two important facts to keep in mind about the coals delivered by this company. (1) Each is the very best of its kind that money can buy. (2) Before delivery every load is rescreened to remove all slack and dust.

You will appreciate this once you have tried Our Coal.

What To Do On Hallowe'en--The Latest Games For Boys And Girls

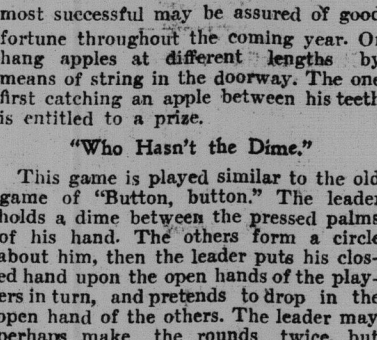

(By Adele Mendel)
 Hallowe'en of all days is the day most favored for entertaining. There are so many time-honored games and tests of fortunes to play on this occasion, that one need never be at a loss how to entertain their friends. Informally and innocently making reign supreme on the 31st of October.

Better Than Bobbing Apples

A capital game, which the boys and girls may find more interesting than the old bobbing the apple stunt is as follows: Write the fortunes for the boys on black paper with white ink, and the girls' fortunes on yellow paper with black ink. Roll them up very tightly and tie with narrow ribbons. Float the fortunes in a bowl of water, tinted with bluing and allow each guest three turns to secure a fortune by stabbing them with a hat pin. The fortunes must be read aloud when attained.

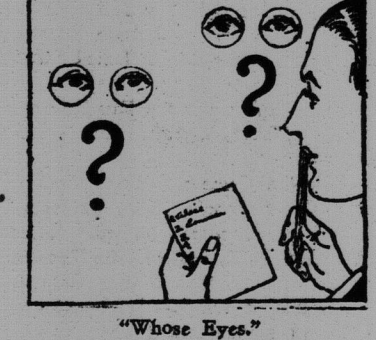

A Horseshoe Game
 Another diversion is to hang a gilded horseshoe or one made of paste board covered with gilded paper in the doorway. Allow each guest in turn three minutes to see who can toss the most apples through the horseshoe. The one most successful may be assured of good fortune throughout the coming year. Or hang apples at different lengths by means of string in the doorway. The one first catching an apple between his teeth is entitled to a prize.

"Who Hasn't the Dime?"

This game is played similar to the old game of "Burton, Burton." The leader holds a dime between the pressed palms of his hand. The others form a circle about him, then the leader puts his closed hand upon the open hands of the players in turn, and pretends to drop in the open hand of the others. The leader may perhaps make the rounds twice, but finally some player receives the dime. Then the leader asks to the first player and says "dime, dime, who hasn't the dime?" and that person must name someone whom he supposes hasn't it. This continues around the circle until each one has answered the question. The one who guesses the person who really has the dime becomes a "spook" and out of the circle. The one who held the coin becomes the leader and the game goes on. If no one is captured the game proceeds as before—the player who held the dime changing places with the

leader. The spooks can only join the circle again if they can get someone in the circle to speak with them, and then that one must change places with the spook.

"Whose Eyes?"

Hang a sheet in a doorway and in the sheet cut small holes at the proper spaces apart for persons to look through and at different heights from the floor. Have the players go behind the curtain and four of the players at a time stand behind the curtain while the others look through these holes. Then four others take their place until all have had a chance. Then the others change places with them, so that the guessers become the guessed. The holes are numbered 1, 2, 3, 4 in groups so that the answers may be written opposite the numbers.

GRAIN AND POTATOES.
 Seed Distribution from the Dominion Experimental Farm, 1914-1915.
 By instructions of the Minister of agriculture a distribution of superior sorts of grain and potatoes will be made during the coming winter and spring to Canadian farmers. The samples for general distribution will be made of spring wheat (about five pounds), white oats (about four pounds), barley (about five pounds), and field peas (about five pounds). These will be sent out from Ottawa. A distribution of potatoes (in three pound samples) will be carried on from several of the experimental farms. The Central Farm at Ottawa will supply only the provinces of Ontario and Quebec. All samples will be sent free by mail. Applicants must give particulars in regard to the soil on their farms, and some account of their experience with such kinds of grain (or potatoes) as they have grown, so that a promising sort for their conditions may be selected. Each application must be separate and must be signed by the applicant. Only one sample of grain and one of potatoes can be sent to each farm. In any other province should be addressed (postage prepaid) to the superintendent of the nearest branch experimental farm in that province. J. H. GRISDALE, Director, Dominion Experimental Farms.

LADIES! SECRET TO DARKEN GRAY HAIR
 Bring Back Its Color and Lustre With Grandma's Sage Tea Recipe

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss. While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

For Hallowe'en here's the evening gait and all necessary details to tango you thru in style.
 Suits \$30 and \$35.
 Tuxedo \$20.
 Silk waistcoats \$3.50 to \$7.50. Shirts, collars, ties, everything in the quality she will appreciate.
 Overcoats \$12 to \$40.

APPLE RECIPE
BIRD'S NEST PUDDING
 Core and pare eight apples; put into a deep, well-buttered pudding dish; fill centres with sugar and a little nutmeg; add one pint of water and bake until tender, but not soft. To two cups of flour add three teaspoonsful of baking powder, one of salt, one pint of milk and well-beaten yolks of four eggs; stir and fold in the whites of four eggs beaten dry. Pour over the apples and bake one hour, in moderate oven. Serve hot with any pudding sauce.

THERE'S lots of "big talk" in the papers these days about Clothes!

But!

When you read of "Men's Suits — the best of the best \$25, values today for \$9.98" or the "Perfection of Overcoats \$27.50 values today for \$10.49," just call it "Newspaper talk" and let it go at that for these values are on paper only!

While this Store is at the front in honest value giving, we do not indulge in exaggerated effusions.

We never allow any sort of misrepresentation.

In the meantime—consider our \$8.75, \$10.75, \$13.50 or \$15 Suits and our \$8.75, \$10.35 and \$17.25 Overcoats, the best values that you r money can buy anywhere!

SUDDEN DEATH OF ROBERT THOMSON

City Loses Prominent Citizen—Head of Big Shipping and Insurance Firm—Leader in Many Activities

Robert Thomson, head of the widely known firm of ship brokers and agents, William Thomson & Co., died very suddenly about 2 o'clock this morning, at his home in Mecklenburg street. He had apparently been in the best of health until early this morning, when he was seized with an attack of heart trouble. Physicians were called in, but within a short time he succumbed. It was pronounced that death was due to angina pectoris.

Although seventy-two years of age, Mr. Thomson was still the active head of the firm. He was at his office all day yesterday, and last night had received friends at his home. He went to bed apparently in good health. His demise will be a shock not only here in the city but throughout a wide district, for he was known far and wide through his business.

Robert Thomson was the oldest son of the late William Thomson, the founder of the well known firm. He was born in the city on June 8, 1842. After leaving school at the age of seventeen, he went to Liverpool, England, and there entered the office of Duncan & Kendall as junior clerk. He remained there until the spring of 1862, when he returned to St. John and entered his father's office, where he continued as clerk until his admission as partner in the business in 1870. On October of the same year he was married to Louisa Anne, daughter of the Rev. William Donald, pastor of St. Andrew's church. He had four children. William S., died in 1872. The others, surviving, are Percy W., of this city, Miss Mabel, at home, and Mrs. H. W. Clinch, of Folkestone, England. His wife, and one sister, Mrs. A. O. Cruikshank, also survive.

Mr. Thomson was a man of kindly, genial temperament, beloved in the family circle, held in high esteem by friends in private life and respected by business associates. For many years he was commodore of the Royal Kennebec Yacht Club and that organization enjoyed its proudest days under his beneficent leadership. The steam yacht he purchased as flagships for the club were a credit to the fleet. Though of a somewhat retiring disposition, Mr. Thomson was interested in many good works and the city is poorer by his death. For many years he was German imperial consul and it was with a feeling of regret that the catalysm of war made necessary the relinquishing of the office three months ago.

The business house which is well-known everywhere was established in 1848, by William Thomson. He at first acquired a few sailing vessels and then began a trade with the old countries. The business had increased immensely in 1870 when the son, Robert, and William C. Watson were taken into the firm. Six years later the partnership expired by limitation of time, whereupon a new partnership was formed between Mr. Thomson and son, but the firm name, William Thomson & Company, adopted in 1870 was still retained.

Upon the retirement of the elder Thomson in 1889, the management of affairs was assumed by the two sons, under whose directions it grew to greater proportions. This firm has had built some fourteen ships and barkas, three steel ships and nine steel ocean steamers. Their steamers constitute what is known as the Battle Line, being named after the ancient Grecian battles. The firm does a large amount of ship brokerage, and charges more than half of the large craft that load at the port of St. John. It is agent for the Allan Steamship Line, the North German Lloyd Line, the Hamburg-American and the Head Line.

More recently the firm also launched out in the insurance business. Mr. Thomson was a member of many orders and organizations. He was a director in the old Bank of New Brunswick, now amalgamated with the Bank of Nova Scotia and was interested in many businesses and ranked among the foremost business men of the dominion. By religion he was Presbyterian and in politics a Liberal.

TURKEY TAKES UP ARMS AND DECLARES WAR AGAINST RUSSIA; THE FIRST SEA LORD RETIRES

The two outstanding features of the great war are the entrance of Turkey into the struggle, as reported from Petrograd, and the retirement of Prince Louis of Battenburg as First Sea Lord of the British Admiralty. Ever since the war began the attitude of Turkey has been the subject of doubt. It has been reported a number of times that Turkey was on the verge of joining forces with Germany. It was even said that Germany had supplied the Ottoman government with large sums of money. Great Britain warned Turkey to keep off, and recent advices from Constantinople indicated that Turkey intended to maintain her neutrality.

Now comes word that a Turkish cruiser has bombarded the Russian seaport of Theodosia, in the Crimea, and that another Turkish cruiser has threatened the seaport of Novorossysk, on the Black Sea. Under stress of pressure by British warships, the German cruisers Goeben and Breslau, early in the war, took refuge at Constantinople. They were purchased by Turkey, but the German officers and crews were retained. Later they sailed forth, and a warning was issued by Russia that should the Russian warships meet these two cruisers they would open fire. The former German warships have proved a cause of irritation throughout the last few weeks to the Allies, and Great Britain asked the Ottoman government to remove the Germans from the vessels, but Turkey replied that this was a domestic question.

Meanwhile Turkey has been under surveillance by the Allies. Her action in the present attack on Russian seaports has not been explained, but it is possible that her injection into the war may bring to arms some of the Balkan States, which have up to the present remained quiescent. Rome, via London, Oct. 30, 1 a. m.—It is reported here that the German Crown Prince has been wounded while leading an attack on Verdun.

rumors nearer home than Brazil and ultimately better suited to German settlers. Denmark kindly promises Canada immunity because of the Monroe Doctrine, but, after all, a purely national declaration like the Monroe Doctrine is a far smaller scrap of paper than the solemn international treaty such a guaranteed neutrality of Belgium.

"Bernstorff is much more likely to be reflecting the real German intentions, wholly vain though they are." CELEBRITIES AND THEIR TOYS. H. G. Wells, a famous author, who has been telling how he plays at bricks and tin soldiers with his children, is not by any means the only adult celebrity who is fond of toys. Mme. Sarah Bernhardt once had a large doll that used to "sleep" in her own bedroom every night. This doll was used on the stage to represent a real baby, but Madame grew so fond of it that it has a place of honor in her own sleeping apartment.

G. K. Chesterton has a remarkable collection of Japanese dolls. For the use of these he has had constructed a beautiful little toy theatre, and occasionally he makes the dolls perform upon its stage after the fashion of marionettes. In Vienna a regular trade is done in elegantly dressed dolls that are purchased by society women. These dolls are carved by hand after models of well-known artists, and they often sell for as much as three guineas each. Their costumes are most beautifully made, and no two are alike in face and figure. Many of these handsome toys are exported to America, where they are sold by the wicker dolls which he had designed, and which were usually caricatures of notable people.

He who rises late must trot all day, and will scarcely overtake his business at night.—Dr. Fuller.

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! If Tongue is Coated Give "California Syrup of Figs"

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping. When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given. Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 20-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

DINNER FROM A SCRAP HEAP. A year or two ago I was chef in a country gentleman's household. The morning after my arrival I looked around the kitchen garden and in the dustbin that stood in the backyard. I saw a mixture of food that could have been made into a first-class dinner. In about four quarts of milk that had turned sour were swimming stale half loaves, drumsticks of fowls, old ham bones, cold boiled potatoes, trimmings of dough made for picnics, cracked eggs, some old codfish and some spoiled macaroni. Next day I found a second consignment, very similar, about to be carried away and thrown out. I stopped this lot, sorted it out, and, with the help of a little stock, half a dozen eggs, and a hare that had been shot on the estate, served a seven-course dinner for a family of ten that night, and the master of the house called me up and complimented me before the whole family on the best dinner they had for a year. Afterward his wife sent for me and told me that though pleased with the dinner, she feared I had been too extravagant, and said that her rule was not to allow more than \$1.75 a head in house-keeping. It was a severe shock to her to hear I had fed the family on the dinner of the cook that had left the day before, the cost being not more than eighteen cents a head.—National Food Magazine.

"Kicking about hard times is done by the men who don't advertise in the daily newspapers Bill Wise" Manufacturers who are interested in daily newspaper advertising for nationally distributed products can obtain the co-operation of The Telegraph and Times in arousing the interest of local dealers and in gathering data covering trade conditions in this city. The Red Cross

Why Canadian Society Should Be Supported—Some Striking Figures

In a booklet giving some reasons why the Canadian Red Cross Society should be supported, an article by Col. G. Sterling Ryerson, M. D., R. M. O., president of the society, gives some very interesting information. He said: "It may truly be said that never in the history of the world has there been such wholesale slaughter as is being perpetrated on the battle-lands of Europe. Estimating the combatants at 2,000,000, which is under the mark and not counting the Russian and Austrian forces at all, it can be said to such colossal armies have ever been before. Let us consider what are the probable casualties based on former modern wars.

"The Battle of Magenta was fought in 1859, the French lost 8 per cent. and the Austrians 8.2 per cent. At Solferino the figures are French 8.9 per cent., Austrians 10.3 per cent. In 1866 at Koenigsberg the Prussians lost 4 per cent., the Austrians 11 per cent. In 1870 at Metzenhausen the French lost 21 per cent., the Germans 13 per cent. At St. Privat, French 11 per cent., Germans 10 per cent. At the battle of Liao Yang, Japanese 15 per cent., Russians 9 per cent. In the late Balkan war 10 per cent. was seldom passed. It may, therefore, be safely said that the average of killed and wounded will be 7 per cent. of armies engaged, of whom 2 per cent. are killed outright. Therefore, based on these statistics, there will probably be 140,000 men killed and wounded, but it is probable that this estimate will be exceeded.

"Then comes the matter of sickness. Without going into detail I may say that the average disability in war is 20 per cent. This is sometimes greatly exceeded. The British invaded 78,077 during the South African war out of an army of 200,000 men. During that war there were 87,864 cases of typhoid, of which 19,454, or 22 per cent., were invalided and 8,022, or 13.9 per cent., died. The deaths from typhoid exceeded the total number killed in action. Fortunately typhoid inoculation will make typhoid ever rare among the British in this war, but I have no information as to what percentage of any of the Germans or the Allies have been inoculated. In confirmation of my statement regarding immunity let me say that inoculation was made compulsory in the American army of 90,000 men in 1911 and has practically abolished the disease. In 1913 there were only three cases and no deaths. Ninety-three per cent. of the British army in India has been inoculated.

Formerly about 600 men were lost annually. Last year there were only twenty deaths from typhoid in this army. "Allowing twenty per cent. as an average number of sick it would mean that in the next few months there would be 400,000 sick in the armies of Europe, but I do not wish to exaggerate, but this is a modest estimate."

Colonel Ryerson points out that 2,000 hospital beds were provided for by the

ARMY CHAPLAIN'S EXPERIENCES

In a letter from an army chaplain at the front which has been published in the London Morning Post he says: "I have been able to do a fair amount of spiritual work. It is remarkable how at such times as this men look for it. If ever human nature showed that at bottom the consciousness of God is in it, it is in times like this when men cannot tell what the day will bring. I have

What The Germans Thought

Held Poor Opinion of British Navy But Heligoland Fight Was An Eye-opener

A newspaper man who is particularly well informed with regard to naval affairs is Hector C. Bywater, who for some years was the Berlin correspondent of the Navy, the organ of the Navy League, and of the Naval and Military Record. In the latter paper not long ago he made some interesting remarks upon the German attitude towards the British navy. He first commented upon the exploit of the British submarine, E 9 in sinking the German destroyer S 126, and continued—

German papers recently to hand have contained allusions to the British navy which read somewhat strangely when contrasted with German press utterances on the same subject before the war. We are now given to understand that the enemy entertains a wholesome respect for our fleet. The events of the last two months appear to have convinced them that there may, after all, be something in the fighting traditions of the British sea service, which they had been assured by their "experts" were largely based on legend and myth.

A great change in the tone of their press comment set in after the fight of Heligoland. The consummate skill, dash, and courage which distinguished the conduct of that engagement obviously came as an eye-opener to the Germans. We may be sure that later events at sea, including the dual exploits of E 9 has deepened the same salutary impression. Even the prominent German papers now admit that the Fatherland must look to the land campaign both for its laurels and substantial successes, as the prospect at sea is not encouraging.

In a word, they are beginning to realize that the British fleet is a factor whose power had been grossly underrated, and it is clear from their guarded admissions that they have no great confidence in the ability of the German navy to fulfil its main avowed mission of protecting the commerce and the colonies of the Fatherland.

It may be remarked in passing that unless it does something and that very soon, the German navy will suffer a severe loss of prestige in Germany itself. German patriots, we may well imagine, are already beginning to ask themselves what return they are getting for the enormous expenditure on naval armaments during the last fourteen years. It is literally true that up to the present this great fleet has been utterly powerless to affect the course of the campaign in any direction whatever. It has, perhaps, prevented a hostile landing on the German coasts, but this elementary form of coast defence could have been equally well undertaken by small flotillas costing but a fraction of what the high sea fleet has cost. Indeed the reliance which has always been placed on shore batteries and mine fields proves that the navy was never intended for coast defence, in the narrow sense of that term.

Sooner or later the German public will demand some decisive action by the fleet. Whether the hands of the navy department could be forced by public opinion is another question, but the officers and men of the fleet cannot be feeling very happy in the knowledge that their comrades of the army are doing all the work while they remain absolutely idle.

One of the most widely held opinions in Germany before the war was that the British navy was a thoroughly effective institution. Time after time it has been the writer's duty to record in these columns statements by prominent Germans which showed how completely they believed this to be the case. To take the naval first, every type of vessel in the British navy, from super-Dreadnaught to submarine, was subjected to the most scathing criticism by German writers. Our ships were ill-designed, badly built, unstable and unseaworthy, owing principally to the absence of scientific methods in naval design and the decadence of the British workman. Our guns were of very inferior quality, inaccurate, and short-lived, while the very last issue of Nauticus, published in July, contained an article in which British gunnery methods were treated with supercilious contempt.

It was the personnel, however, which these critics professed to consider responsible for the alleged decline of British naval power. German writers, who were supposed to know the sentiments of German naval officers, were wont to assure us that British officers had a high respect for the personal character and professional attainments of the British naval officer. Such, however, was not the impression one gained from a perusal of German service literature, in which our officers were uniformly set down as lacking in that zeal for hard work and the purely professional side of their duties which were held to distinguish the German "secoffiziere."

As for the men, they were mercenaries who had taken to the sea because they were not much good for anything else. Drunkenness was rife among them, and insubordination frequent, with the result that discipline was at a low ebb, and the war training of the fleet suffered in consequence.

Much as we may smile at these views, the fact remains that they were commonly shared by the vast majority of intelligent Germans and, there is reason to believe, by many high naval authorities in Berlin. The prevalence of such opinions helps to explain the supreme confidence with which the Germans look forward to an encounter with Great Britain. They knew their fleet to be much smaller, but they really believed that the superior skill and devotion of their personnel, together with the incomparably finer ships they manned, would achieve victory in the teeth of heavy odds.

As we have said, Heligoland came as the first rude shock to this characteristic self-complacency. Other events followed, minor in themselves, but all pointing the same way. Meanwhile the British grip on German sea commerce has been brought home to the meanest intelligence in the Fatherland that the superior skill and devotion of their personnel, together with the incomparably finer ships they manned, would achieve victory in the teeth of heavy odds.

PLAYERS' NAVY CUT CIGARETTES. 10 FOR 10¢. THE IRON DUKE Flagship of Great Britain's Home Fleet. Includes image of a battleship and a pack of cigarettes.

Microbes in Your Scalp

Authorities say that a microbe causes baldness. If you are losing hair try our remedy at our risk.

Professor Unna, of Germany, and Dr. Sabouraud, of France, the great French Dermatologist, claim that a microbe causes baldness and their theory has been verified by eminent scientists. This microbe destroys the hair follicles, in time causing the scalp pores to close and the scalp to become abraded. Then, if it is not removed, nothing will revive the growth. If treated before this occurs, baldness may be overcome.

We know of nothing that has given such universal satisfaction in treating the scalp and hair as Rexall "93" Hair Tonic. It has been designed after long study to overcome the cause of falling hair as discovered by Prof. Unna, Dr. Sabouraud and other scalp and hair specialists, and we believe it will do more than anything else can to remove dandruff and stop falling hair; and if any human agency can promote a new growth of hair it will do that.

We want you to make us prove it. We will pay for a month's treatment of Rexall "93" Hair Tonic used during a trial, if you will use it according to directions. We are not thoroughly satisfied. When we will do this, you surely should not hesitate to at least try it.

Start the treatment today. Your next request will get your money back if you use it. Two sizes, 50¢ and \$1.00. You can buy Rexall "93" Hair Tonic in this community only at our store: The Rexall Stores 100 King, 478 Main, 599 Main.

The Rexall Store There is a Rexall Store in nearly every town and city in the United States and Great Britain. There is a different Rexall Store for nearly every ailment, and each especially designed for the particular ill for which it is recommended. The Rexall Stores are America's Greatest Drug Stores.

"SPIES, PLEASE!"

(By Peter McArthur)

Much as I love the Northern Spy apple, I have almost learned to hate it this fall. People seem to think that it is the only apple worth buying. All the Spies in this district were sold long before they were picked and it is probable that we shall not be able to fill all our orders for No. 1 Spies. The country is full of thousands of barrels of sound apples, but when people go to buy apples they primp their mouths into their primmed "prunes and prisms" expression and say: "Spies please!"

In trying to run a clearing house for apples there has been a tiresome sameness about my experiences. Both my correspondents and conversations with apple buyers are on the following plan: "Have you any apples to sell?" asks the prospective buyer. "Loads of them" I reply hopefully. "What kinds?" "Baldwins, Golden Russets, Tolman Sweets, Greenings, Ben Davis, Perwauwecs, and other varieties too numerous to mention."

Then the buyer purries up his mouth and says primly: "I'm awful sorry, but we don't want nuthin' but Spies." I have now reached such a pitch of irritation that when I get that answer I go out behind the barn where no one can hear me and make "bad medicine" until I have relieved my feelings. Or, my bright fellow citizens, there are other apples besides the Spies. It is certainly a noble apple, the king of all our fruits, and if I wanted to do justice I would invoke a

WINNING VICTORIA CROSS

What will not a sailor do? Sixty years ago, the London Tri-Bits recalls, the Russian fortress of Bomarsund, in the Baltic Sea, was being bombarded by an Anglo-French force. Suddenly a shell fired from the fortress fell on the deck of H. M. S. Hecla. In an instant a brave young mate sized it, and with fuse hissing between his hands, he flung it with a jerk overhead. That young mate—ultimately became Rear-Admiral Charles Davis Lucas, who died a few days ago, was immediately promoted Lieutenant and awarded the Victoria Cross, being the first to win that much-coveted decoration, although owing to three other officers being of senior rank, he was to receive it from Queen Victoria.

Many a gallant deed on land and sea has since that day, June, 21, 1854, been duly rewarded by the bestowal of the little Maltese Cross of bronze which bears the simple inscription "For Valour."

The Victoria Cross had its origin in the Crimean War and was primarily intended to be conferred upon junior commissioned officers and the rank and file. Neither rank, length of service, wounds, nor any circumstances whatsoever can qualify for this noble badge save a personal act of signal bravery performed in the presence of the enemy. The decoration was instituted by Queen Victoria in 1856, the Prince Consort being, it is said, its originator and the designer of the insignia of it.

Each Victoria Cross is made from bronze which once formed part of some Russian guns captured during the Crimean War, and although the metal itself is intrinsically worth only about fourpence halfpenny, some of them have been sold at sales for £100 and more. The winning of the Victoria Cross carries an annuity of £10, which may be increased to £20, payable quarterly to all except officers, but including those who have risen from the ranks.

REGULARITY

of the bowels is an absolute necessity for good health. Unless the waste matter from the food which collects there is got rid of at least once a day, it decays and poisons the whole body, causing biliousness, indigestion and sick headaches. Salts and other harsh mineral purgatives irritate the delicate lining of the bowels. Dr. Morse's Indian Root Pills—entirely vegetable—regulate the bowels effectively without weakening, sickening or griping. Use Dr. Morse's Indian Root Pills

A Bite on the Way Ragged Rogers—I haven't had a bite for nearly a week. I'm a weak, sympathetic lady. You poor man! Have patience a few weeks longer and you'll get frost-bitten.

missioned officers and the rank and file. Neither rank, length of service, wounds, nor any circumstances whatsoever can qualify for this noble badge save a personal act of signal bravery performed in the presence of the enemy. The decoration was instituted by Queen Victoria in 1856, the Prince Consort being, it is said, its originator and the designer of the insignia of it.

DR. CHASE IS NO STRANGER

In This Home—Receipt Book and Medicine Kept at Hand All the Time. There is no better safeguard against disease and suffering than a good constipating medicine. In the great majority of homes Dr. Chase's Kidney-Liver Pills are constantly kept at hand, because they quickly awaken the action of liver, kidneys and bowels, and cure the most common ills of life.

Mrs. Thos. Smith, Jamestown, Ont. writes: "Dr. Chase is no stranger in our home, for we have two of his Receipt Books in the house. My father and my husband's father each had one, and I have been familiar with it ever since I can remember. It was only natural that we should use the Kidney-Liver Pills and we found them so satisfactory in regulating the digestive system and curing the common ills of life that we have kept them on hand. Many a time these pills have saved me much suffering and prevented serious disease. We also keep the Ointment in the house all the time."

Hope always strengthens to the performance of duty, gives courage, and clears the judgment.—G. Macdonald.

SPORT NEWS OF A DAY; HOME AND ABROAD

WFLING
St. Peter's League
The Thistles blanked the Maples in St. Peter's Bowling League last night, four points to nothing. The score was 1296 to 1160. Joe Dever led an average of 92.

OTBALL
U. N. B. Score Big Victory
Formerly almost unbeatable Mt. A. football team, on their own ground, received a terrible trimming from U. N. B. squad yesterday afternoon. The Fredrickton boys piled up fifty-eight points to their opponents' one. Twenty-one points were scored in the first half. Injuries to Anglin and in previous games weakened the A. team greatly.

SOME SPEED DEMON, THIS MAN

Although the war cast him out of a chance to gain the world's hydro title James A. Fugh of Chicago set a new American record for speed boats up to twenty-nine miles. Pushing his big mahogany hydroplane to the limit, "Dynamic Jim" made an average of 55.67 miles an hour. The recognized world mark is 56.28 miles an hour, made by Maple Leaf IV in the second race for the Harmsworth trophy last year.

HE WAS ALWAYS ON TIME
But, Nevertheless, He Got Home an Hour Late to Dinner

"What quality is most essential to success in business?" This question was put to a man who started with nothing twenty years ago and is now worth several millions, all gained in the marts of trade.
"That is a poser," he replied, "though I might say ability and hit the mark—or honesty, or industry, or any other of the cardinal virtues. But what you refer to, I presume, concerns methods. In that case, I have the answer ready. It is No. 1 on my list of business maxims."

ANOTHER MANCHESTER LINER IN THE NEWS

The Spinner Changes Course and Makes For Queenstown, Instead of Montreal

London, Oct. 30.—The British steamer Manchester Spinner, bound from Manchester for Montreal, is now off the south coast of Ireland, shaping her course for Queenstown. The only reason given is that she desires to obtain medical assistance for two injured sailors. It is not stated how they were injured or whether the vessel is damaged.

A sister ship, the Manchester Commerce, was sunk by a mine off the north coast of Ireland on October 27. Reports reached a British seaport yesterday that an unknown steamer had encountered a mine off the Irish coast, and it is possible that this is the reason that the Manchester Spinner is returning to port.

LOCAL NEWS

WILL LIVE IN THE WEST

An interesting event took place at the home of Captain and Mrs. J. K. Howard, Gasperaux Station, on Wednesday, October 28, when their daughter, Charlotte M., was united in marriage to William FitzRoy Graham, formerly of Gasperaux, but now residing in the west. The ceremony was performed by the Rev. Mr. Belyea of Fredericton Junction, under an arch of evergreen and ferns, prettily decorated with autumn leaves and yellow chrysanthemums. The bride was becomingly attired in a gown of cream lace and was unattended; only immediate relatives were present. The wedding gifts were beautiful as well as useful. After partaking of a sumptuous wedding supper, the bride and groom left for a short hunting trip, and on their return will leave for their future home in Alberta, where the groom is engaged in the lumber business.

ARTHURS-LINTON

A pretty wedding took place at Baywater on Wednesday evening at the home of Mrs. Thomas Linton, when her daughter, Miss Alice Lavinia, became the bride of Mr. Arthur Linton of Kings county. The ceremony was performed by Rev. Craig Nichols. The bride, who was given away by her cousin, Harold Gibbon, looked very charming, dressed in white satin with hat to match. Miss Myrtle Currie had the honor. About 150 friends from the city and elsewhere were present at a reception held at the home of the bride's mother. Many beautiful presents were received, attesting to the popularity of the young people. Mr. and Mrs. Arthurs will reside at Land's End.

E. L. JEWETT DEAD

Pases Away Suddenly — Prominent in Lumbering and as Patron of Turf

Page 12—E. L. Jewett, Edward L. Jewett, prominent in the lumber business of this city for many years, died suddenly this morning at his home 18 Queen square after a brief illness. Mr. Jewett was taken ill with heart trouble, yesterday and passed away at twenty-five minutes to seven o'clock this morning. He was seventy years of age and was a native of Bangor, Maine, and came to St. John when about sixteen years of age and went into the lumber business with his uncle, E. D. Jewett. He retired from business a few years ago. Mr. Jewett had always taken a keen interest in horses and was well known as a horseman throughout the province. He had on many occasions acted as judge at horse races and at exhibitions and was on the committee for awarding prizes to the best horses at the exhibition held last month. Mr. Jewett also took a keen interest in the fire department and ever since he came to St. John, had been a close friend of the firemen of No. 1 engine house and had always assisted the corps in making decorations on festive occasions and did all in his power to assist them in their work. He was at the fire which called out the department only yesterday afternoon.

Mr. Jewett is survived by his wife, who was formerly Miss Bethia Balfour of St. John. He leaves one son, Leonard M., of this city, and two sisters, Mrs. Charles H. Sawyer of Bangor and Miss Mabel Jewett of East Hampden, Mass. The funeral will be held at 2:30 o'clock on Monday afternoon from his late residence.

MAY BE BUILDING TRADES COUNCIL FORMED

At a meeting held last evening in Oddfellows' Hall, Union street, William Saunders presiding, the master of the formation of a Building Trades' Council was discussed by several active factors in local unionism. No definite action was taken, but a committee was appointed to look into the matter. It is composed of G. T. Hennessy, Nicholas Donovan, J. McGowan, J. Hurley and J. L. Suprac. Should the council be organized, it will work in conjunction with the Trades and Labor Council, and will be a further step in the strengthening of union activities in St. John.

WIVES IN COURT TELL SAD TALES OF CRUEL ACTS OF HUSBANDS

James Smith Goes to Jail and There May Be Whipping—Another is Remanded

Two prisoners, charged with beating their wives, were before Magistrate Ritchie this morning, and pitiful tales of abuse while their husbands were under the influence of liquor, were told by each wife. "This state of affairs should not be allowed to go on," the magistrate said. "It is all from rum and we should make an example of some of the liquor sellers who are supplying them."

Mrs. Walter Cooper said she had seven children, the youngest of whom was only three weeks, while the eldest was not yet ten years of age. She said her husband came home last evening under the influence of liquor, accompanied by another man, who was drunk. She said he called her and charged her about the house so that she could not get her work done.

The prisoner said that what his wife said was not true. "Asked by the magistrate who the other man was, he replied that he did not know who he was. The prisoner was remanded."

Mrs. James Smith, of Exmouth street, said that her husband was drunk when he came home last evening and ill-treated her. She said he caught her by the throat, called her bad names and knocked her down. She said she was married to him for sixteen months, and that during the last twelve months she had not been given the life of a dog, and that he continually abused her nine-year-old son by her first husband.

James Cooke, who lives near, corroborated the statement of Mrs. Smith that her husband was drunk when he came home last evening and ill-treated her. She said he caught her by the throat, called her bad names and knocked her down. She said she was married to him for sixteen months, and that during the last twelve months she had not been given the life of a dog, and that he continually abused her nine-year-old son by her first husband.

RECOMMEND CHANGE IN HARBOR LIGHTS

Among other matters taken up by the council of the board of trade today was the question of a change in some of the lights in the harbor. The secretary reported that, following recommendations made by the pilots and others, and approved by the marine advisor of the board, the light-house board had been requested to change the light on the bell buoy from a fixed white light to an oscillating white light, and the light on the foul ground from an oscillating white light to an oscillating red.

USE THE WANT AD WAY

A report was submitted in connection with the pit prop committee, and an invitation from the Amherst Board of Trade to attend a manufacturers' meeting next month was accepted, and the secretary was instructed to attend, together with any other delegates who might be appointed.
