**SCHOOL TEACHERS IN ANNUAL SESSION.**

Charlotte Co., Teachers Unite With St. John and Moncton

President Lord in His Opening Address Approves Strongly of What Has Been Done for Manual Training

A united meeting of the St. John and Charlotte Counties Teachers' Institute opened this morning in the assembly room in the High School, and was very largely attended. The joint meeting was presided over by J. St. John, principal of the Superior School at Fairville, and president of the St. John Institute, assisted by M. H. H. as secretary. Up to noon 122 had enrolled, and it is expected that there will be a considerable addition to this number this afternoon.

Prior to the joint meeting the Charlotte County teachers met with the St. John teachers in the assembly room. They were addressed briefly by Inspector Carter and Mr. Vroom of St. Stephen on school matters. Shortly after 12 o'clock the Charlotte County teachers met with the St. John teachers in the assembly room. The president of the institute, Mr. Lord, addressed the gathering. His introductory remarks he referred to the invitation sent to the Charlotte County teachers, and the pleasure it gave him not only on his own behalf but on the part of the St. John teachers as a body to welcome the visitors from Charlotte County. He hoped the visit would not only be a pleasant one, but that it would prove of much profit to all.

Mr. Lord went on to say that he thought the time was opportune to mention very important subjects, one of which was the manual training. He said that the teachers should do for the child, he considered that, aside from the text books, there was much more to be expected from the teacher if proper results were to be expected. He then told briefly what some celebrated men had done by useless study and application to their chosen work, and suggested that it would be better for the children if they were brought face to face with such examples. Referring to manual training he thought it most excellent, and was well pleased that the system was being introduced in the schools of the province. He said that the boys and girls realize that they are to be the citizens tomorrow, and bring to their understanding the realization of their responsibility and develop the best that is in them. Text books would not do this, and as a result the teachers had to do their part. Mrs. Lord next referred to the benefits to be derived from reading and told of his success in Fairville where his scholars subscribed for ten magazines. He closed by advising the teachers to make the school attractive, a place at which the boys and girls would desire to spend their time.

Mr. Vroom, of St. Stephen, then called the attention of the institute to the arrangements made for housing them. Dr. G. U. Hay read a letter from Mrs. J. L. Vanwart, of Fredericton, in reference to the institute. Referring to the history of the movement, and giving the reasons for the change. This morning first was discussed at the North Sydney meeting last year and had come up at other meetings also. Miss Carmichael was very much opposed to the idea of founding a second society for the home work, pointing out that as other societies carried on both branches of the work, there was no need of starting such a second society.

In an excellent speech, this resolution was seconded by Mrs. J. H. Thomson. She related how she had seen the two branches of the work carried on by the same society in Colorado and other parts of the United States. Mrs. Morrison suggested that the society be silent prayer, and that the prayer be offered by the president. Mrs. McLean of Springhill, spoke about the great possibilities of mission work in the Northwest. Sixty-five new stations were opened during the last year. She was strongly in favor of the society extending their work to the home mission field. One of their chief aims should be to keep this Canada of ours Christian from ocean to ocean.

**W. F. M. S. MAY BE SIMPLY W. M. S.**

Important Amendment to the Constitution of the Society Proposed This Morning—An Interesting Discussion

Mrs. Melrose, of St. John, said that there was no need of giving arguments in favor of home missions. All were heartily in favor of this work. Experience, she said, shows that the ladies can be interested quicker in the home work.

Mrs. Dennison said that the home mission work is already being done through the channels of the church. Those opposed to the change, however, like herself, would help on the re-organization of the society if the new principle is adopted.

Mrs. Campbell, of Truro, one of the leaders in the new movement, said there was no ill-will in the church. The ideal was only one mission society from British Columbia to the east.

Mrs. Mulholland, of St. John, said that the work can be profitably united. She proposed that the society be re-organized so that auxiliary fairs, a clause in the constitution allowing contributions to the home work, and that the diploma be given to the members of the society.

Mrs. Ross, of Carleton, spoke about the need of home work here in this province. There was an interesting meeting of the W. F. M. S. this morning and there was considerable discussion among the members. The hymn, "Jesus Christ's People," was sung. Then after prayer and scripture reading by Mrs. Miss Ross, the meeting opened for business.

The question of amending the constitution with relation to the number of delegates, which came up at yesterday afternoon's meeting, caused quite a discussion. Mrs. Carter was in favor of the resolution, and Mrs. Charles Blackwood of Halifax, treasurer, 120 being present.

It was moved, seconded and passed by a large vote of 104-19 that the treasurers of the auxiliaries be in future delegates to the annual meeting. This was opposed by Mrs. Carmichael on the ground that the meetings are already too large and that this resolution would about double the number of members.

It was further resolved that the president of the auxiliaries will have the right to send substitutes in case of their not being able to be present. This was lost as the vote stood 76-24, a two-thirds vote being required for a change in the constitution.

Mrs. Morrison suggested that the society be silent prayer, and that the prayer be offered by the president. Mrs. McLean of Springhill, spoke about the great possibilities of mission work in the Northwest. Sixty-five new stations were opened during the last year. She was strongly in favor of the society extending their work to the home mission field. One of their chief aims should be to keep this Canada of ours Christian from ocean to ocean.

**CUBA WORKING AGAINST U. S.**

Gives Italy and Britain Special Trade Privileges

Which are Denied Uncle Sam—Hard Problem for the New Secretary of State to Solve

NEW YORK, Oct. 12.—A Washington dispatch to the Tribune says that Secretary Root at the outset of his career as the head of the state department has a hard nut to crack in determining the United States government's attitude toward the treaty-making powers of Cuba. The question is forced to the front in connection with the Anglo-Cuban commercial convention now pending in the Cuban congress, which contains clauses regarded as jeopardizing American interests. The problem, it now appears, is complicated through the fact that Cuba already has a treaty in effect with Italy which contains a favored nation clause and grants practically the same privilege to Italy that Great Britain would gain by the pending treaty.

The Italian treaty, which has hitherto escaped the attention of the state department, was ratified May 1, 1904 and is effective for 10 years, and there is no way for the United States to get around it specifically in commerce and navigation, colonization and immigration. Cuba's treaty with Italy specifically regards the kingdom as a most favored nation and gives to Italy great advantage that the United States may acquire in the future. The treaty goes to the length of restraining in ten different articles that Italy shall enjoy "the most favored nation" treatment.

The opposition to the British treaty is based on the belief that the granting of "most favored nation" treatment to Russia and Great Britain as Great Britain would menace the United States commercial interests in Cuba. Similar comprehensive advantages, it is reported, might be gained by Germany and France and the division of commerce among the powers that would leave only a small share to the United States.

**CANADIAN WARSHIPS IN PORT**

The first section of Commander Spain's white squadron arrived in port yesterday from Eastport, Me., and anchored off Sand Point. The first ship to enter the harbor was the Curlew, Captain Pratt, which, as usual, was met, trim and shining from waterline to truck. After some slight manoeuvres the anchor was dropped and the cruiser Canada, Capt. Knowlton, and she dropped anchor about five hundred yards further down the harbor.

The Curlew is an old and welcome visitor to this port, while the Canada, which was equally welcome, made her first appearance in port yesterday. She looks the part of a warship and is reported to be much interested by many people on the docks. She carries enough guns to bring to time any person engaged in illegal fishing, and is otherwise equipped with the latest marine laws. The Canada is equipped with the Marconi system and was in communication with Cape Sable nearly the entire voyage from Eastport to St. John. The messages could also be read at Partridge Island station.

**KINGS COUNTY MAN ACQUITTED OF FRAUD.**

(Special to the Star.)

HAMPSON, Oct. 12.—In the case of Traak vs. Moore, in the Kings County court, was resumed this morning at 10 o'clock, when Mr. J. J. Jones, on behalf of plaintiff, asked the judge to submit five questions to the jury touching the signing of the contract and the alleged fraud together with the losses if any which plaintiff sustained. He also asked that the jury be directed that all evidence to any countermand of the contract is withdrawn from their consideration.

His honor then reviewed the facts as adduced in evidence and applied to them the law relating to contracts and fraud in securing them. He asked the jury to decide these questions—Was the contract entered into as alleged by the plaintiff, and if so was it because of fraudulent inducements or representations made by the defendant? If necessary to say: (1) If the contract was entered into as alleged, did the defendant countermand? (2) Did he countermand as soon as he discovered the alleged fraud? (3) What damages, if any, were sustained by plaintiff between the time of receiving the order and its countermand? (4) What damages, if any, were sustained by plaintiff after the countermand? (5) What damages, if any, were sustained by plaintiff after the countermand?

The jury returned a verdict for defendant, answering the last series of questions with "Yes" as to countermand, and "No" as to damages.

The court then adjourned to Thursday, November 30.

**ANOTHER SUIT CASE MYSTERY.**

Dismembered Body Found in New York.

Head Wrapped in a Newspaper, Limbs in a Suit Case and Trunk in a Closet.

NEW YORK, Oct. 12.—The finding of a man's head in front of 415 East Eighteenth street today led to the discovery of a murder committed probably last night at 149 Third Avenue. The body was wrapped in a white and blue shirt and the Sunday supplement of a German newspaper.

Soon after the head was found a man told the police he believed a murder case address last night and that the body had been cut in a suit case and the trunk of the body was found in the closet.

Fred Bauer, a German, was seen early today coming from a room on the third floor at 149 Third Ave., where he had been every morning last night to attend to any details that had escaped the mother.

The blind woman had placed the kettle on the gas stove last night when the sleeve of her dress coming in contact with the burning gas, became ignited. She cried out in pain as the fire spread over her clothing and fought the flames desperately.

Through it all Mrs. Vierer in her chair weaved and rocked and hummed a tune faintly. The cries of her daughter were without avail.

When her daughter returned from her day's work, Mrs. Harvey lay dying on the floor.

**KOREAN PROTECTORATE IS JAPAN'S DESIGN.**

SEOUL, Oct. 12.—Japanese minister Hayashi started for Tokyo today for the purpose of consulting the government on a great trading company as Great Britain would menace the United States commercial interests in Cuba. He is reported to be much interested in maintaining the preferential position which officials of the administration will definitely decide the political future of Korea. The Japanese are anxious to obtain a grip on affairs before the return of representatives of Russia and the diplomatic business of Korea, together with the absence of British and Italian ministers on a vacation, and that the diplomatic business of Korea will be handled altogether in Tokyo. The Emperor and the court of course are much worried over the present turn of affairs, more especially when they are their national representation in Seoul, and the recent departure of foreign ministers at Seoul, the last vestige of their vanishing independence.

**BRITISH WARSHIP ASHORE AND IN DANGER.**

GIBRALTAR, Oct. 12.—The British repair ship, Assistance, is ashore in Tetuan Bay, Morocco. Warships, and lighters have gone from here to her aid. A heavy gale endangered the position of the vessel.

The Assistance is a single screw vessel of 5,600 tons displacement. She is fitted with a foundry machine and carries a crew of 283 men and mounts ten 3-pounders and five quick-firing guns.

**PROMINENT NEW YORKER SUICIDES**

NEW YORK, Oct. 12.—Armitage Mathews, secretary of the county Republican committee, committed suicide this morning by jumping from a window of his residence. Mathews was under indictment, charged with looting an estate of which he had charge.

A change of venue had been denied in Mathews' case, and he was to have been placed on trial today in the criminal branch of the supreme court. The charge against Mathews grew out of the wrecking of the Federal bank and the plundering of the Weissel estate by David Rothschild, president of the bank.

His death occurred this morning at his residence, 190 Waterloo street, of Jas. A. Belyea after a lengthy illness. The funeral will be held on Saturday.

Mr. Belyea was a son of the late Jas. Belyea of Queens Co. He married a daughter of the late John M. Wasson of Prince William, York Co., N. B. Deceased was in the sixty-seventh year of his age.

Frank Corr of Brussels street, a boy playing on the second High School playground had his leg broken while playing in a game with St. Peter's team on the Victoria grounds this morning.

**WELL KNOWN MONCTON MAN DEAD**

(Special to the Star.)

MONCTON, N. B., Oct. 12.—Alex. Girvan, formerly a well known merchant in Moncton, but later employed in the Intercolonial railway audit office, died this morning after a series of paralytic strokes. The deceased had been in a critical condition for some time. About six years ago, during the Sydney boom, he removed to North Sydney and started business there, returning to Moncton last year. It is thought his health was shattered by a family bereavement while in Sydney. He was 62 years of age and a native of Galloway, Kent County.

**DAUGHTER, BLIND, BURNED TO DEATH**

While Deaf Mother Sat in Next Room, Unknowing.

Shocking Tragedy in Chicago—Blind Victim's Dress Caught Fire From the Flame of a Gas Stove.

CHICAGO, Ill., Oct. 12.—A blind woman was burned to death in her kitchen last night while her deaf old mother sat placidly rocking in an adjoining room, hearing nothing of the dying daughter's cries of agony. The blind victim was Mrs. Francis Harvey, a widow forty-one years old. The mother is Mrs. Vierer, 81 years old. With them lived Mrs. Harvey's 21 years old daughter Emma, who works in a downtown store and has supported the family of three.

The daughter reached home just as Mrs. Harvey was dying.

Mrs. Harvey had been blind from childhood but she knew the house by heart and had been accustomed to doing the cooking. Her daughter placed things where she could find them and was at hand every morning last night to attend to any details that had escaped the mother.

The blind woman had placed the kettle on the gas stove last night when the sleeve of her dress coming in contact with the burning gas, became ignited. She cried out in pain as the fire spread over her clothing and fought the flames desperately.

Through it all Mrs. Vierer in her chair weaved and rocked and hummed a tune faintly. The cries of her daughter were without avail.

When her daughter returned from her day's work, Mrs. Harvey lay dying on the floor.

The performance of the Gay Matinee Girl last night gave good satisfaction and pleased everybody. John E. Flynn, M. E. Hart, O. H. Cushing, D. C. The vaudeville was of the highest order and good. The costumes worn by the ladies were exquisite. The music was delightful. This company will play three nights at the Opera House, Oct. 16, 17 and 18.

Several rural clergymen at a diocesan conference at Carlisle, Eng., recently stated that the reason churches were kept locked up on week days was to prevent the sheep coming in. One remarked, with some bitterness, that he kept his church open till some sheep came in and carried off his offertory box.

The opening play will be the thrilling, sensational drama of the Russian exile system, entitled "The Prisoner," correctly costumed by the Hayden Costume Co. of Boston. In the cast are two St. John favorites, Miss Sue Van Dusen, who was with Mr. Harkins' company last season, and Miss Edith Davis, who will be remembered by St. John theatre goers for her fine performance in Sweet Clover.

### HARVARD TECH WON'T UNITE

BOSTON, Oct. 11.—The effort to bring about a merger between Harvard University and the Massachusetts Institute of Technology has proved unsuccessful, and tonight a meeting of the corporation of the latter institution voted to discharge the conference committee from further duty and to withdraw from further consideration of the matter.

### A WORK OF ART.

Of all the works of art in the St. John gallery of the management the repairs to the plank sidewalk on Albert street, Indiantown, are the most precious. It is doubtful if any city or village in the land boasts as fine an example of progressiveness. For a long time the sidewalk has needed replacing. The planks, over a score of years old, needed to be removed and an asphalt walk laid. They were full of holes and protruding splines—a menace to the safety of old folks and children particularly. Instead of relaying the walk, however, pieces of board were bevelled and actually nailed on top of the worn planks, making the way all the more treacherous. It is now a regular trap for the unwary. Albert street is a much-used thoroughfare; it is the chief passage way to Metcalf and Victoria streets where hundreds of taxpayers live, and such idiotic economy as this just mentioned is indignantly resented. Aid. Holder should be able, they think, to have a new walk laid.

### A CHOICE PROGRAMME.

Yesterday Manager Gleason received from a prominent citizen a request to Handmaster Haskell of the Irish Guards Band, asking that Handel's Largo be one of the numbers on the evening programme. This will be handed to Mr. Haskell whenever he arrives here. There was a steady demand for seats for the concert yesterday afternoon. Orders were received by mail and telegram from St. Stephen, Woodstock, Sussex, Hampton, Fredericton and elsewhere, and in these places parties to attend the concert are being arranged. Special rates will be given by the railways to all parties of ten or more. The sale of seats is fast in the afternoon and as the time is getting short it is likely that there will be a rush today. Entending purchasers should not delay too long or the best seats will all be taken. The risk is being put in shape and will be warm and comfortable next Monday evening.

pated to the extent of about \$25,000 in

MUNICIPAL OWNERSHIP.  
Several instances have been quoted  
in these columns of the successful op-  
eration of the "public ownership of  
public utilities" policy, but none more  
striking or more convincing of the value  
of that system under honest manage-  
ment than a recent report sent to the  
United States government by its consul  
at Freiburg, Germany, which is appar-  
ently the most advanced city in Europe  
if not in the world, in this regard.

Freiburg is a railroad centre of about  
70,000 inhabitants in the grand duchy  
of Baden, and it appears that this city  
has pursued the policy of municipal  
ownership for many years and has gone  
into it more extensively perhaps than  
any other town of continental Europe.  
It controls the street railroads, the gas,  
electric light and water plants, the  
theatre, slaughter house, pawnshop,  
savings bank, schools, cemetery, and  
even building lots, forests, vineyards  
and a daily newspaper, all these being  
managed not necessarily for profit but  
for the benefit of the inhabitants. The  
results, as described in the report, are  
illuminating.

Nearly every department not only  
pays expenses but shows a good profit.  
For instance the total receipts from  
electricity were \$55,451; disbursements,  
\$32,603; surplus, \$22,848. For illumina-  
ting gas the total receipts were \$302,009,  
and the disbursements \$238,423.

The garbage is disposed of by the  
city. The receipts in this department  
for 1904 amounted to \$12,744. The ex-  
penses for management were \$4,400. The  
sewage of Freiburg is conducted to  
"Rieselfelder," a few miles away, which  
are under cultivation. Among the re-  
ceipts were \$12,800 from agricultural  
products; milk, \$11,252; manure, \$1,973;  
sale of cattle, \$11,300, etc.

The city orchestra plays at operas  
and plays four or five times each week  
for seven months of the year. From  
May to September concerts are given  
at the city park. At the opera house  
the regular price of admission varies  
from 2-3 cents to 25 cents, with a re-  
duction for season tickets. The total  
receipts of the theatre amounted to  
\$93,877, of which the treasury paid \$21,  
604. The theatre is not made self-sup-  
porting, but is considered a necessary  
element for educating the people. The  
city would as soon think of managing  
its schools at a profit as to manage a  
theatre at a profit.

In addition to all these enterprises  
Freiburg conducts for the benefit of its  
poor a "Volkskuche" or "people's  
kitchen," the receipts of which during  
1904 amounted to \$7,818. A large share  
of the amount was for little things, viz:  
Buns, at 400 cent each; soup, at 15  
cents a bowl; coffee, at 12 cents per  
cup; supper, at 45 and 55 cents; dinner,  
at 45 and 74 cents.

CHANGE AND DECAY.  
Though Sir William Mulock, whose  
retirement is definitely announced to-  
day, is to be succeeded in the Laurier  
cabinet by A. B. Aylesworth, a man of  
ability and good repute, the result of  
the change will be the further weak-  
ening of the government.

For Mulock has undoubtedly been a  
good administrator and, though brist-  
lingly partisan in the matter of appoint-  
ments and dismissals, has on the whole  
managed the Canadian postal service  
successfully. Perhaps Mr. Aylesworth  
has the qualities to carry on the work,  
but he is not going to be postmaster  
general, at least not for any length of  
time. He is destined for the portfolio  
of justice, where he will certainly be  
no improvement on Mr. Fitzpatrick.

While there is no other man in the cab-  
inet or on the Liberal side of the house  
who can take Mulock's place without  
decreasing the government's strength,  
so the process of weakening goes on  
as it has done for the past half-dozen  
years. The Laurier cabinet today is  
pitifully decadent, compared with the  
ministry of 1896. Look at Emerson  
in Blair's place; Hyman where Tarte  
sat; Prefontaine in Sir Louis Davies'  
shoes; Oliver doing Sirton's work. And  
now Mulock has gone, the man who  
was looked upon as the possible suc-  
cessor to Sir Wilfrid. Of that Liberal  
cabinet of 1896 there are only four now  
in active service—Laurier, Fielding,  
Fisher and Sir Fred Borden. Cart-  
wright and Scott are still holding on,  
but are fit for nothing except to draw  
their salaries.

PRINCE LOUIS'S RECEPTION.  
If the city of St. John wants to  
please the British Admiral-Prince who  
is soon to pay us a visit it will make  
the arrangements for his reception as  
simple and unpretentious as is com-  
patible with dignity and propriety.

The poor man has been slobbered  
over and put up as an attraction to  
draw crowds, like a museum freak,  
all over Canada until he is sick  
and tired of it. Let him be entertained  
with the one idea of giving him a good  
time; cut out the public ordeals as  
much as possible and let him taste, as  
so many less distinguished have done  
to their joy, of St. John's best hospi-  
tality and he will remember this great  
winter port long after he has gladly  
forgotten the rest of his Canadian trip.  
And don't forget the man behind the  
gun.

"All the afternoon papers yesterday  
had the opportunity of quoting, if they  
wished to do so, the statement of an  
ex-convict that Fred Higgins had told  
him while in Dorchester penitentiary  
that he had killed young Doherty. Only  
one paper thought such a story from  
such a source worthy of any attention.  
But one paper hunted up the picture of  
Higgins, featured the story with "sca-  
red headlines," and sent out its newsboys  
to about the story on the streets. That  
is yellow journalism."—The Times.

This is the Times' gracious way  
of admitting to its readers that it was  
again beaten by this paper on a very  
interesting bit of news which was pub-  
lished exclusively by the Star on Tues-  
day evening. And, by the way, the  
Times' elder brother and pattern, the  
Telegraph, considered such a story  
from such a source worthy of sufficient  
attention to induce it to copy it from  
the Star, in slightly condensed form,  
and republish it under conspicuous  
headlines the following day.

It is an awful thing for a man to be  
confronted in any way with the New  
Brunswick Highway act. The other  
day in a municipal election at Sall-  
bury there were four candidates, all  
liberals. The one who has perhaps  
strongest of the lot had the misfortune  
to be a highway act commissioner.  
That was enough. He was left at the  
foot of the poll. The people could not  
separate him from the road act.—Sun.

A GOOD WORD.  
(Harper's Weekly.)  
In the South it was customary for  
slaves who could neither read nor  
write to ask some member of their  
master's family to do their correspond-  
ence.

One morning Aunt Chloe approached  
her young miss and requested her to  
write a love letter to Uncle Billy, an  
aged suitor.  
"What shall I say, Aunt Chloe?"  
the young lady enquired.  
"I'll write Miss Annie! Write it just  
as you see it, or write to one of your  
own beaux; but I think notwithstand-  
ing it is or might be pretty word. Jes put  
that in some'sers."

Miss Helen Gould has given a sub-  
stantial reward to Roy Irving Dixon,  
the nine-year-old lad who saved a  
Denver street car from destruction last  
year. The boy will begin study at Goodwill farm  
school, and Miss Gould will furnish  
the money for his expenses there and  
at some university, which he will at-  
tend after finishing preparatory  
courses. The boy flagged a train with  
a red handkerchief just as it was about  
to run into a rockslide.

She—Is he a good reader?  
He—Every time I see him he's read-  
ing the Bible.

TRUE.  
Grace—I saw you give a book to  
Maggie—but you're foolish to trust her  
with it. She never returns a book.  
Edith—She won't keep that one. It's  
a diary.

THE BLIGHTED BOYHOOD OF PA-  
TRICK.  
I wish I knew what my pa knew  
When he was just as old as me;  
He'd read the Bible through and  
through.  
And when it comes to workin'—gee!  
Why, he says that when he was ten  
He hardly ever thought of play.  
But took his place beside the men  
And did what they did every day.  
He drove his father's team to town  
And hauled the grit home from the  
mill.  
And the evening he'd set down  
And learn his lessons and keep still.  
It makes me sorry for poor pa,  
To think that he was treated so;  
Sometimes it almost seems that ma  
Don't get more than half believe him,  
though.

But once when he was tellin' me  
About the fun he never had  
And how he worked, I thought that she  
Would cry, because she looked so sad.  
And then she said she wished that  
they'd  
Or let him see his oats before  
He got growed up, and pa he staid  
Upstairs that night, and kicked the  
door.  
Last summer, down at grandpa's, where  
They used to make pa work so hard,  
They told me how he'd slip and  
around the place, and in the yard  
There was a tree, where grandpa said  
He used to practice circus tricks,  
All day till it was time for bed.  
It seemed as though they'd six old  
ones.  
Around there always ratin' Ned—  
But grandpa come and put his hand  
Down kind of softly on my head  
And said that I would understand—  
He winked at grandpa as he smiled—  
Some day, when I would have a child.

NO CHANCE.  
(Detroit Tribune.)  
A young lady, whose beauty is equal  
to her bluntness in conversation, was  
visiting at a house where other guests  
were assembled, among them the eld-  
est son of a rich manufacturer. The  
talk turned on matrimonial squabbles.  
The eligible party:  
"I hold that the correct thing for a  
husband is to begin as he intends to  
go on. Say that the question is one  
of smoking. Almost immediately I  
would show my intentions by lighting  
a cigar and setting the question for-  
ever."  
"And I would knock the thing out  
of your mouth," cried the imperious  
beauty.  
"Do you know," rejoined the young  
man, "I don't think you would be  
there."

Sight is priceless. You can preserve it at small cost if you get your glasses at D. Boyaner's, Graduate Optician, 81 Main street. Jas. Barnes, M. P. of Buctouche is at the Royal. Mr. Barnes had returned to say concerning his reported senatorial aspirations. In the meantime he is going ahead with the development of the natural resources of the country and will confine his attention chiefly to coal. A special meeting of the Epworth League of Carmarthen Street Methodist Church was held last evening in connection with the anniversary services. There was a large attendance, and the meeting was an enjoyable one. A short programme was carried out, consisting of a duet by Miss Mabel Kane and Mrs. Thos. Marshall, a reading by Miss Fox. Rev. Thos. Thence delivered a short address on Religion in the Home. A love feast will be held on Friday, marking the close of the anniversary services. The decorations in Waterbury & King's window, King street, are attracting a great deal of attention. In one, the Dorothy Dodd shoe is shown with an attractive background of Chinese lanterns, the lights alternately glowing and dying out. A miniature of the Slater shoe factory in Montreal is shown in the other, and the same electrical effects are produced. The designs and decorations are the work of one of the younger members of the firm, whose artistic ability in this line has been shown on several previous occasions. B. Doucet of Richibucto arrived in the city yesterday accompanied by Mrs. Doucet, who was taken to the hospital for surgical treatment. Dr. Bourque, who has been attending Mrs. Doucet at Richibucto, also came with them, and will consult with Dr. MacLaren regarding the case. William Ryan, formerly employed at the L. C. R. freight sheds, died yesterday afternoon. He had been ill for the past year. The deceased was a brother of the late John Ryan, who kept a livery stable on King square. The surviving sisters are Mrs. Millet and Miss Maggie Ryan of this city. C. W. E. McIntyre of McIntyre & Cousens, Ltd., accompanied by Emilio Feriot of Pellenz and Cte. Cognac, France, left Monday morning for up river. While away they will visit Fredericton, Woodstock, St. Leonard, Edmundston and Claire. They will be back Friday. The probate of Harold Spragg of the north and as a minor was to be seen last evening in the United depot, where a fine moose of 80 lbs. formed the centre of an admiring group. The animal was shot yesterday on the Moose River, near Clair. Spragg used only one shell to bring him down, as the bullet pierced his heart. The moose measured 46 inches across, and had 23 points. A meeting of the board of trustees and board of management of the Young Men's Christian Association will be held in the office of the president, L. D. Tiller, this afternoon at 4 o'clock to consider a proposition from the international committee re-appointment of secretary to the St. John association who will assist in organizing and completing arrangements in regard to the new building. Wireless messages have been received at the Marconi station at Partridge Island for several days past, but none have been sent. When the government cruiser Canada was at Eastport and for some time after she left there she was in communication with Cape Sable. The message sent was very distinctly heard at the Partridge Island station. M. Taylor, who is in charge of the construction of the station, says the work will be completed within a week. Word was received from Loch Lomond yesterday morning of a fire on the St. John's road near Willow Grove, by which a dairy cow lost his barn, ten sheep, a pig, farming implements and a lot of hay and oats. The fire occurred about four o'clock Tuesday afternoon, and Mr. Conlon does not know how it originated. He had been threshing oats near the barn, and had only left the immediate vicinity for a few moments when he discovered the building in flames. The loss is estimated to be over \$1,000. Annie M. Crockett, Oswald S. Crockett, J. Douglas Black, Henry McLeod, Frederick; Robert D. Wilnot, of Oranocote; George W. Fowler, of Sussex; Geo. J. Colter, of Kennebec, and Robert Maxwell, of St. John, are seeking incorporation as "The Gleaner, Limited." The object is to acquire the plant, property and business of Annie M. Crockett, wife of James H. Crockett, and carry on the same. The capital stock is to be \$20,000, divided into shares of \$10 each. Messrs. O. S. Crockett, McLeod, Fowler, Colter and Maxwell will be the provisional directors. The annual meeting of the L. C. R. Employees' Relief and Insurance Association was held in Moncton yesterday. A NEW VERSION.

One afternoon, during ex-Ambassador Choate's recent return to this country, the waves were unpleasantly high, and the ship was rolling a bit, to the discomfort of some passengers. Mr. Choate remarked: "It is better to have lunched and lost than never to have lunched at all."

SIR WM. MULOCK ADMITS RESIGNATION.

Get Out of Politics—A. B. Aylesworth His Successor

OTTAWA, Oct. 11.—Sir William Mulock acknowledged to your correspondent late this afternoon the truth of the rumors, which have been current in Toronto and Ottawa for some days, of his immediate intention to retire from the ministry. Indeed the formal documents in the hands of the first minister and only requires to be submitted to his excellency on his return from Winnipeg on Monday to become effective. The postmaster general was working away at a mass of documents when your correspondent entered the minister's room. At first he was disposed to say nothing about his prospective retirement from the ministry, but the imperative orders of the postmaster general was asked. "You are," Sir William replied. "It will be a great wrench for me to leave the halls of parliament, where I have spent so many years, especially in my may, but there is no help for it. It would be absurd for me to retire from the cabinet and to remain in parliament as matters now are. Possibly my absence as an ordinary member of the house could be much lighter than as minister, but the temptation to work would still be there, and I am therefore getting away from political life for all time."

LOVE LAUGHS AT LOCKSMITHS

Real Old Time Romance Has Been Enacted at Ottawa—How Lovable Won His Bride.

OTTAWA, Oct. 10.—A bride was recovered by means of a search warrant in the hands of a police officer last night. Wilfred Laramie and Eugene Gravel, aged seventeen, both of Ottawa, on Saturday night presented themselves at the manse of St. John's Lutheran Church and were married by Rev. Chas. Leves. The young woman's people had forbidden the match and when Mrs. Laramie went home after the ceremony for her clothes and announced that she had just been married her grandfather, Geoffrey Gravel, of 207 Water street, locked her in her bedroom. The young woman's street clothes were removed and Wilfred Laramie written in vain for the return of his bride. He knocked at the door and Geoffrey Gravel told him to go away as his granddaughter was under age and her parents did not recognize the ceremony as legal. All day Sunday Laramie was without sight of his wife. Monday he stated his case to a lawyer, who swore out a search warrant and with Officer Campbell they went to 207 Water street. They obtained an entrance and Laramie's missing bride, attired in her night dress, rushed into the arms of her young husband. The Gravel family attempted a rescue by force but Officer Campbell held them off, while Mr. and Mrs. Laramie fled down the street. They were pursued and though some stones were thrown after them they got away safely and are now safe in the bride's angry relatives. Laramie is a respectable young bricklayer, twenty-two years of age. The young woman is a very pretty girl.

ANAESTHETICS FOR THE DYING

PHILADELPHIA, Oct. 11.—The transportation of cattle was discussed at today's meeting of the American Humane Association, in annual session here. The subject was brought before the convention in a paper read by James M. Brown, president of the Toledo Humane Society. Miss Anne S. Hall, of Cincinnati, started the convention by proposing the adoption of a resolution favoring legislation the administration of anaesthetics to persons dying in agony. Miss Hall said that there were often incidents in a line of railway wrecks when trainmen and passengers were so injured that their lives could not possibly be saved. In such cases Miss Hall thought it ought to be permissible to administer anaesthetics to relieve their sufferings. She also favored the use of anaesthetics when persons were dying of incurable diseases in which they suffered agony. After a discussion the resolution was ruled out.

Did you ever have your range grates burn out? If you did you will know what that means in common ranges—it means plumbers, delay, muss and big bills—because common ranges are built that way. As range grates must some time burn out you are certain to have that kind of trouble if yours is a common range. If you have the Pandora you won't have any trouble, because you can take out the old grates and put in the new ones in ten minutes, and a ten cent piece for a screw-driver does it easier in the Pandora than a whole kit of plumbers' tools will do it in common ranges. WEDDING TRIP HAD TO BE POSTPONED.

The wedding of Justus B. Lake to Miss Lottie Seeley took place last evening at the home of Rev. H. D. Marr, who performed the ceremony. The bride who is a daughter of Mrs. Wm. Seeley, of 137 Watson street, was attended by Miss Ethel Tweede, and T. Seeley, a brother of the bride, supported the groom.

The ceremony was witnessed by a large number of friends and relatives. Mr. and Mrs. Lake will reside in future at 341 Union street. The two weeks' wedding trip which was planned to begin last night was postponed until tonight on account of Mr. Lake being required as a witness in the case of DeForest vs. Finlay, in which George S. DeForest & Sons had recovered a judgment in the city court against F. Finlay, a grocery business at the corner of Pitt street and Elliott Row. Mr. Lake's business relations with Mr. Finlay thus necessitated his appearance in court yesterday.

Mr. Lake was quite indignant this morning when he read the article in the Telegraph quoting him as saying the wedding would have to be put off on account of the trial. Mr. Lake said he was misquoted and because a two weeks' trip from the city had to be postponed there was not intention of postponing his wedding which took place last night as arranged.
