

DENIALS MADE BY MEMBERS OF ONTARIO GOVT

Declare There Was No "Saw-off" Between Drury Gov't and Conservatives.

TO PREVENT ANY EVIDENCE

Being Taken in Timber Enquiry That Would Hurt the Conservative Party.

Toronto, Sept. 7.—Straight denials were made before Justice Riddell and Latchford here today by Premier E. C. Drury, Attorney-General W. B. C. Roney, Hon. Manning Doherty, Minister of Agriculture, Hon. Peter Smith, Provincial Treasurer, and J. M. McEvoy, K. C. of London, that there was any truth in an insinuation made in an editorial in the Toronto Evening Telegram on August 26 that there had been a "saw-off" between the Drury Government and the Conservatives in the Legislature, with a view to preventing evidence being produced in the timber enquiry that would hurt the Conservatives, and that it was as a result of this "saw-off" that Mr. McEvoy's services, as a counsel for the Government in the timber probe, were dispensed with.

Accuser Witness.

John R. Robinson, editor of the Evening Telegram, also was a witness and he claimed that he had written and published the editorial in question in good faith, and in the public interest. It was based on things he had heard and on his own sizing up of the situation, he said, and that was why he had demanded that J. M. McEvoy be put in the witness box to tell what he knew about the matter.

Mr. Robinson refused to disclose any source of information on which he had based the editorial, but he took responsibility for the editorial. In publishing the editorial, insinuating that there had been a "saw-off," he was honestly desiring to find out if there was any evidence which should have been brought before the commission. Mr. Robinson was asked if, after considerable evidence had been heard, Mr. Justice Riddell, of the Royal Commission investigating the timber limit matters, remarked: "If there is a word of truth in the editorial, the editor deserves the thanks of the public. If there is no word of truth in it, then it is a matter for him to consider what course he has to take for the future."

DISCOVER NEW KIND OF FIREWORKS

The Alcoholic Brand Revealed as Famous Resort Burns—Fire Beats Out Inspectors

A traveller from one of the Upper St. John River towns tells the Standard a story of a new brand of pyrotechnics that relegates the St. John-Exhibition fireworks to the shades of oblivion. It was discovered while a fire was recently destroying a popular resort in the province. Crowds had gathered, he said, to watch the burning of the structure. The building burned much in the same old way that buildings burn when enveloped in settling flame. The fire finally reached the basement, pried into secret caverns and things began to happen. "Pop! whiz! Bang!" Suddenly it seemed an artillery charge had let loose. Great volumes of smoke rolled skyward and as its members began to unfold then shot forth sparks of variegated hue. All the colors of the rainbow were represented. The crowd ducked for cover, fearing an arsenal was about to explode, and it was a case of "safety first."

A chemist, trained and schooled in qualitative analysis, was standing near. To his trained eye the colors of the rainbow now shooting from the other's confines meant something. The aroma from the burning mass meant more. "Alcohol" was all he said. Rumor has it that the particular fire destroyed a large portion of a stock of alcoholic beverages, the original consignment of which was valued at \$40,000. Sleuths of the Prohibitionist law had been tipped off as to its arrival and had made diligent search to locate the consignment. They were in the town to make another search the next day but the flames had beat them to it, discovered the secret hide and "lapped up" the liquors. The official acknowledges their defeat, but admit enjoying the alcoholic fireworks which they described as "more beautiful than shooting stars on a summer night."

EMPERESS OF BRITAIN MAKES QUICK TRIP

As Oil Burner C. P. O. S. Liner Proves a Revelation to Captain Griffith.

Quebec, Sept. 7.—(By Canadian Press)—The maiden trip of the C. P. O. S. "Empress of Britain" as an oil burner, which was successfully completed on her arrival here today, marked the passage through the St. Lawrence route of the first oil burning passenger vessel. The fact that it cost an amount equal to the original sum expended for her construction to recondition her as an oil burner lent additional interest to her initial voyage with the new equipment.

The trip from Liverpool to Quebec required just five days, 22 hours and 20 minutes, or an average speed of 13 knots 5/8, and Captain Griffith, as well as the officers of the vessel, were all unanimous in approving the oil burning system. They said it was simply a revelation. A total of 1,250 passengers were carried by the Empress, including 297 first class, 234 second class and 701 third class.

GOSSIP AROUND THE MARKETS

U. S. Motor Trade.

Approximately 7,000,000 passenger automobiles and about 200,000 motor trucks were produced in the United States in the six months ended June 30 last. While it is practically certain that this rate of production will not be maintained during the balance of the year, output of passenger cars for the full 12 months of 1920 should nearly equal the previous high water mark of 1,740,792 cars in 1917 and motor truck output may exceed the previous high record of 216,364 in 1919.

Predicts 75 Cent Gasoline.

Seventy-five cent gasoline is a possibility within two years, says Prof. C. F. Mosbury, of the Case School of Applied Science, Cleveland. He declares that intensive investigations in all parts of the world have demonstrated that there no longer exist adequate quantities of pure gasoline hydrocarbons, and that the future welfare of the motor industry depends on invention of a motor engine capable of economical transmission of power directly from crude petroleum or a light efficient storage battery.

American Bank Resources.

The Comptroller of Currency of the United States states that resources of national banks June 30, 1920, aggregated \$22,196,737,000, an increase over same period last year of \$1,207,187,000. National bank deposits on June 30, 1920, amounted to \$17,155,431,000, an increase since same date last year of \$1,230,650,000. Reserve banks furnish 86 1/2 per cent of all money borrowed by national banks on bills payable and rediscounts.

Quebec Rails' Better Showing.

The annual report of Quebec Railways, Light, Heat & Power Company is likely to be made public towards the end of this week, following a meeting at the end of last week of the directors. While very little surplus is likely to be shown for the year, this will be a big advance over last year when there was a deficit of some \$65,000.

Gold Mining Costs Cut.

The Kirkland Lake gold costs have been cut until today the cost of mining, rolling and administration in comparison with one ton of ore is \$6.21. This is extremely low, and with mill-heads averaging around \$12 a good margin of profit is being made. The mill has been producing about one hundred tons daily, or two-thirds of its capacity, and the monthly output with the premium on New York funds runs about \$40,000, and nearly half of this is profit.

Winnipeg to Build Houses.

A \$200,000 bond issue has been authorized at Winnipeg by the City Council on which to raise sufficient money to further the civic housing scheme. Approximately 100 houses can be built on this amount, it is claimed. The bond issue will be twenty-year bonds bearing 6 per cent interest. The bonds will be placed as security with the provincial government for the borrowing of \$200,000 of Victory bonds in the possession of the government.

MARRY ALIENS BUT KEEP NATIONALITY

Washington, Sept. 7.—The National Women's Party pointed out today that the ratification of the nineteenth amendment, giving women the right to vote does not complete their emancipation. They pointed out that women, unlike men, still lose their citizenship when they marry an alien, in spite of their enfranchisement. There is at present pending before the House Immigration Committee a bill permitting a woman to marry an alien, and at the same time retain her American citizenship, it was said. When Congress returns in December, suffrage leaders expect to make a special fight on this measure as part of their legislative programme.

Lawrence, Mass., Sept. 7.—All local textile plants, with the exception of the four mills here of the American Wollen Company and the Pacific Mills plant works plant resumed operations today, after the annual vacation period, approximately 20,000 operatives starting work. The American Wollen Company will resume in part next Monday, and the Pacific Print Works will run in full on that day.

MILK PROBE IN TORONTO THURSDAY

Ottawa, Sept. 7.—All three members of the board of commerce will leave tomorrow night for Toronto where on Thursday they will commence an investigation into the milk situation and decide whether they will enforce their orders to the milk and cream producers prohibiting them from charging the winter price for milk as from Sept. 1. In other years the winter price has gone into effect on October 1st, but this year the milk producers claimed that pastures were poor and it was necessary for them to feed their cattle concentrated milk feeds earlier in the year.

8.15—Grandstand Attractions Repeated.
9.15—Wonderful Display of Fire Works.

The numerous showers followed by a heavy downpour of rain yesterday afternoon and night caused thousands of intending visitors to the Exhibition to remain indoors, with the result that the attendance of 21,350 on Monday dropped down to 5,422. If the weather had been fine this number would undoubtedly have been more than doubled, but as can be seen by the figures above showing the daily attendance for the five former years, the numbers on Tuesday was always small. Wednesday, Thursday and Friday appear to be the large days of the fair and on only one day in the past five shows was the attendance larger than that of last Monday, this being on the Thursday of 1910 when the total paid admissions numbered 22,318. In this year the total attendance for the seven days was 85,086, with that of 1912 being a close second with 82,133, however, the Association expect that these records will be broken this year.

Between the Showers

Between light showers yesterday afternoon it was managed to have the free vaudeville performance take place in front of the grand stand, and horses and cattle were being judged and paraded on the grounds. Shortly after four o'clock the rain came down heavy and the visitors to the show deserted the midway and hastened to shelter in the different buildings. Last night owing to the weather the fire works display had to be cancelled, but even if the outdoor attractions were poorly attended the visitors were pleased in roaming through the buildings looking at the different booths and enjoying the band concert.

All that is now wanted for the remainder of the week is fine weather and the fair as far as attendance is concerned will undoubtedly break all previous records. The attendance for the three days has totalled 36,837 which is by far the largest of any first three days in the history of the Association.

An Official Visit

Yesterday afternoon an official visit was paid to the Public Welfare Department by Lieut. Governor Pugsley and Mrs. Pugsley, accompanied by Colonel Alex. McMillan. They were met by Mayor Schofield, and escorted through the Department by Hon. Dr. W. F. Roberts and Mrs. Roberts, Mrs. Schofield, Mrs. G. A. Kuhring, Dr. William Warwick, Colonel and Mrs. Murray MacLaren, R. T. Hayes, and Mrs. Hayes, Judge Forbes and Mrs. Gertrude Hasbrouck. A description of booths visited follows:

St. John Ambulance Association—At the St. John Ambulance Association booth in charge of the president, Colonel Murray MacLaren, C. M. G., demonstrations are given by the V. A. D's and by Boy Scouts and Cadets. Several cases needing attention have had first aid rendered. Yesterday two patients were cared for. A number of names have been taken of those who wish to join First Aid or Home Nursing Classes.

Dr. Farris is in charge of the booth allotted to the Society for the Prevention of Tuberculosis. Here demonstrations of X-Ray plates are displayed and a model of a lung shown. Attention is directed to the Red Cross Booth in charge of Mrs. G. A. Kuhring by a series of paintings showing the main activities of the Society. Miss Ethel Jarvis Provincial Secretary is at the booth to greet out of town visitors or members.

A number of new members have been added since the booth was opened. Mrs. Rankine of Woodstock was present yesterday. At the booth of "Little Mothers," a life sized doll is bathed scientifically and dressed, the demonstration being given by Girl Guides. The booth is in charge of the Victorian Order of Nurses, Guides Marjorie Lake and Ethel Matthews.

Oral Prophylaxis

This is the booth in which dental nasal and throat conditions receive attention. Dr. J. M. Magee is in charge.

The Free Kindergartens have a miniature playground fitted up. This Association has also a centre in the Y. M. C. A. Hut. Yesterday the Centennial children gave their drills and games in front of the Hut. Today the Union Playgroups pupils will show what they have learned. A creditable exhibit of the handwork done at the grounds is shown.

The Social Hygiene Booth in

ducing a surplus of eggs of a low quality which were a drag on the home market and could not be sold elsewhere. Through co-operation and the scientific raising and selling of eggs, the Island is today the largest egg-producing province of the Dominion, and Island eggs can most readily be bought in carload quantities. The flocks and profits of the farmers have been doubling and in 1916 the Island farmers sold one million dozen eggs and twenty-five tons of poultry raised at twenty-five millions of dollars.

Illuminating charts of the different standards used in the grading of eggs, and a model of a poultry farm, including station, and distributing centre under ideal conditions, do much to add to the attractiveness of this exhibit.

Entomological Branch.

The Dominion Entomological Branch of the Dominion Department of Agriculture, from Annapolis Royal, has sent an interesting exhibit which they are showing in conjunction with the department's branch at Fredericton. It consists of a collection of the destructive insects which prey on the potatoes and fruits of the country and the beneficial results to be obtained by the use of insect sprays.

In the spraying of potatoes the department shows the result of spraying with Bordeaux mixture. Of two plots of one hundred hills each, the one which was sprayed yielded just double the quantity of potatoes, and all of a better and larger grade, than the unsprayed plot.

The use of several new sprays developed by government experts is strongly advocated, both because of its cheapness as compared with the common sprays now in use and because of the better results obtained.

The Apple Exhibit.

Judging of the apples and fruits at the show was completed yesterday by Mr. C. Vroom. The crop, he declared, was a credit to the province for there was not a single poor exhibit on the ground. The box of apples, barrel, baskets for shipment and baskets for show and table decorations taken by F. E. and H. G. Smith all took first prize and were splendid examples of fruit and fruit packing.

Among the smaller displays a plate of Alexanders entered by the same growers took first prize. It was a splendid plate and won much favorable comment. H. E. Buzz, of Tupperville, and A. R. Graham, of Gray's Mills, N. B., were the winners in the collections of plums and general fruits.

Mr. Vroom goes from here to judge at the New England fruit show at Hartford, Conn.

The Dairy Classes.

In the dairy classes the Ayrshire Holsteins, Brown Swisses and Jerseys produced some fine stock. In the Hopskins Harding Bros. of Wolford N. B. and Dickie Bros. of Truro, N. S. divided the honors with Harding Bros. taking the female championship and female sweepstakes, while the other firm took the male prizes. The bulls in the two herds were unusually fine animals, here to judge in the Ayrshires A. McRae, of

The Salt That Savors

Windsor Table Salt

Charlottetown, P. E. I., took many prizes. The Jolly herd from Waterloo, Que. and the Libby stock from Stanstead, Que., took everything in the Brown Swisses. In Jerseys Quebec captured the prizes also, the exhibitor being Holden and Sons, of Freeburg.

The Aberdeen Angus breed had only one exhibitor, Thorne Bros., of Highfield, P. E. I. Mr. J. W. Clark completed his work on the poultry entries yesterday. The main point of competition was the utility classes, the Harrod Rocks being pretty well represented. In the grain on exhibition, among the especially good entries are those of McIntyre Bros. of Sussex, red and white wheats, Lemour cats, timothy seed, rough buckwheat, and those of A. Bazanov, of Hampton, N. S., in peas and yellow corn.

Canadian Fairbanks Morse Co.

One of the most comprehensive exhibits in the Machinery Hall at the Exhibition is that of the Canadian Fairbanks Morse Co., Ltd. Hundreds have visited this exhibit during the past three days, and all have been amazed at the wonderful machinery in operation there.

One of the features of the exhibit is the farm lighting plant. This outfit provides electricity for lighting the various farm buildings, and also for operating the pump, washing machines and all the other implements around the farm. The machine is made in all capacities and is capable of lighting either a country home, or a large municipal plant.

Another machine that is exciting great interest is a new type of internal combustion engine. There are practically no working parts and it is a semi-diesel type of oil engine. It is operated by low grades of crude oil or fuel oil and is about the nearest approach to a steam engine yet perfected. This machine supplies all the power used to run the different machinery in the Machinery Hall.

In addition to these there are also on exhibition a full line of Canadian Fairbanks products, including marine

METAL WORKERS IN ULTIMATUM

Have Given Employers in Rome Five Days in Which to Meet Their Demands.

Rome, Sept. 7.—The employers in metal factories, which have been seized by workmen in the present contest over conditions in this industry, have been given five days in which to comply with the workmen's demands, according to a resolution passed by the Socialist members of the General Confederation of Labor. Should the employers fail to yield, a rapid movement toward general nationalization is threatened. So far the manufacturers are persisting in their position not to enter into direct negotiations with the workers before the latter evacuate the factories.

MEETING TOMORROW.

The men and women electors of the city and county of St. John in favor of Hon. Rupert W. Wigmore, Minister of Customs and Inland Revenue, will assemble in the Seaman's Institute hall, Prince William street tomorrow evening at eight o'clock for the election of ward and parish chairmen, also for organization.

engines, pumps, generators, dynamos and scales. An idea of the number of people that have visited the exhibit so far may be gained from the number that have been weighed on the latest type of springless dial scale, that is being shown. It is estimated that over 4,000 people have been weighed correctly on this scale during the past two days.

There will be a convention of the Maritime Provinces representatives of the Canadian Fairbanks Morse Co., Ltd., in the company's offices this afternoon.

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. OUR FINE NEW STORE ON GERMAIN STREET

With Direct Connections to Our King Street Store

The Carpenters, Painters, Electricians have all done their part—we are now ready to take over this fine new store, with its big floor space, its large display windows and an abundance of daylight.

To commemorate this great occasion in a fitting way, we start off today with three great sales of a very unusual nature.

A Sale Unusual of Men's Winter Overcoats

Yes! Of course it's an unusual time to place Winter Overcoats on sale, but then this is an unusual opportunity we have to offer.

Winter Overcoats for the coming season are actually 20 p.c. to 30 p.c. higher than they were last season.

Last year many of our Winter Overcoats were very late in arriving—over five hundred coats were received in the month of February, after the season's business was over.

We knew then that overcoats would be greatly advanced in price for this season, and so decided to hold these late shipments for just such a sale as this.

The Regular Prices quoted below are what these overcoats would have been marked had they arrived in time for last season's selling—so that the savings shown by these comparative prices are really much less than the true saving as compared with prices this season when the new winter stocks are opened up.

The prices are:

\$30 Winter Overcoats	\$24.65
35 Winter Overcoats	28.95
40 Winter Overcoats	34.60
50 Winter Overcoats	42.95
60 Winter Overcoats	53.10

And many other prices, too.
MELTONS—Fancy Brushed Wools, Scotch Tweeds and others.

STYLES—Ulsters, Belters, Slip-ons, Form-Fitting, Chesterfields and Young Men's Ulsterettes.

Anticipate your Winter Overcoat buying by a couple of months and make a substantial saving of \$10 to \$25 on the new season prices.

Sale starts today at one o'clock and will continue all this week.

Parcel Checking At Bankers' Booth

Messrs. J. M. Robinson & Sons Make Effort to Add to Comfort of Exhibition Visitors.

One of the most original ideas at the Exhibition, and one that has already received favorable comment, is the booth supplied by J. M. Robinson & Sons for the convenience of the public and particularly their out-of-town friends. This booth is furnished to serve as a rest room and as a meeting place for those who desire to meet friends somewhere in the building. It is on the upper floor at the south end of the main building. Parcel checks will be given free to anyone not wishing to carry purchases with them. Ladies and children are particularly invited to drop in and rest while seeing the Big Show. There is nothing exhibited, as J. M. Robinson & Sons are investment bankers and they have taken this opportunity of keeping before the public that degree of service which will be found in all dealings with them.

For books and shoes, shop at Bassons, 141-15 Charlotte street; no benches.

Predicts Bigger Wigmore Lead

Albert County Resident Says Riding Will Increase His Majority.

J. L. Peck, M. L. A. of Albert county, declares emphatically that Hon. Mr. Wigmore will receive a larger majority in the present election than he did in 1917. Mr. Peck has been in close touch with all parts of the county and is in a position to speak with authority on the feeling of the electors on this matter. "The great majority," he said, "are not in favor of opposition to the minister at this time. Even those who are opposed politically to the government feel that it is useless now to contest the return of Mr. Wigmore, and make no secret of their belief that it is a political mistake to do so. They argue that it is no time to place party ahead of country. The minister has given evidence of his interest in the constituency and why oppose him in a by-election," they ask.

Mr. Peck called attention to the names on the nomination paper of Hon. Mr. Wigmore and pointed out some of the more prominent Liberal workers, who were for the time being willing to sink party for the good of the constituency. "Watch Albert," said Mr. Peck, "and you will see her roll up a big majority for the Minister of Customs and Inland Revenue."

WEDDINGS.

Long-Haslett.

Many friends will read with pleasure of the marriage of Miss Sadie M. daughter of Mr. and Mrs. Wm. J. Haslett of Whitehead, Kings Co., to J. Percy Long of Moncton, formerly of Milkish, Kings Co. The marriage took place in St. Paul's Anglican Church, Whitehead, at 4 o'clock Monday afternoon Sept. 6th by Rev. Henry Waterton, rector of Kingston, in the presence of relatives and friends. They were unattended. Mrs. Waterton presided at the organ, with Joseph W. Long and Ernest H. Haslett acting as ushers. The church was beautifully decorated for the occasion by friends. The bride, who was given away by her father, wore a beautiful gown of white satin and georgette and carried a bouquet of cream roses.

Following the ceremony, a reception was held at the home of the bride and a family luncheon served. The bride and bridegroom were the recipients of many beautiful presents. The groom's present to the bride was a cape stole of tange Canadian wool. Mr. and Mrs. Long, after a short honeymoon to Halifax and other Nova Scotia towns, will reside at Moncton, where the groom is employed.

Kingston Dalton. A wedding of interest took place in St. Peter's church yesterday morning, when Rev. James Woods, C.S.S.R., who was celebrant at mass, united in marriage Miss Helen Beatrice Dalton, daughter of Mrs. and the late William J. Dalton, and Augustus Joseph Kinsella, son of Mr. and Mrs. A. Kinsella, 165 Paradise row. The bride was given away by her father, Dr. James Dalton. She was attended by Miss Holland, of St. Martins. The groom was supported by his brother, John Kinsella. Following the ceremony a dainty wedding breakfast was served at the home of the bride's mother in Main street, after which Mr. and Mrs. Kinsella left for honeymoon trip to Boston and New York. Returning they will reside at 389 Main street.

Cosman Shea. A pretty wedding took place in the Cathedral of the Immaculate Conception yesterday morning at 5.30 o'clock, when Rev. W. M. Duke united in marriage with nuptial vows, Mary Gertrude, daughter of Mrs. Margaret Shea, and J. Wesley Cosman, both of this city. The attendants were Miss Jennie Logan and Joseph E. Danohar. After the ceremony, Mr. and Mrs. Cosman left on a trip through Nova Scotia and on their return they will reside in this city.

Morrissey-Carvell. Chatham, N. B., Sept. 7.—St. Michael's Cathedral was the scene of an interesting event this morning when, at nine o'clock, Miss Annie Kathryn, eldest daughter of Mr. and Mrs. H. H. Carvell, of Chatham, and Thomas Gregory Morrissey, of Sydney, son of Mr. and Mrs. J. Morrissey, St. John, were united in marriage by Rev. Mr. O'Keefe. The bride wore a becoming suit of navy blue with white fox furs and black picture hat, and carried a bridal bouquet of roses. She was attended by her sister, Miss Gladys Carvell, who wore a navy blue suit and black fox furs, and carried a bouquet of pink and white carnations. The groom was assisted by his brother, John Morrissey, of St. John. A reception and wedding breakfast was served at the home of the bride after the ceremony to the relatives and immediate friends.

New Regulations Governing Pilots

New District Limit is Musquash Light, Eight Miles from Partridge Island.

The new regulations governing the pilots at the port of St. John, the system having recently been taken over by the Dominion Government, have been made public. The new district limit is Musquash light, eight miles from Partridge Island. The new charges are: Steamers, \$3 a foot draught, both inward and outward, with additional charge of \$2 a foot if pilot is required to go down the bay. Sailing vessels, \$2 a foot draught inward and \$1.50 a foot outward with additional charge of \$2 a foot if pilot has to go down the bay. Charges for mooring shall be \$5 for vessels less than 1,000 tons, over that tonnage \$10. Fees are to be paid through the collector of customs.

All pilots under seventy years of age are to be re-examined. In future when a pilot reaches sixty-five he will have to undergo an examination, and if still considered competent he will receive a license from year to year until he reaches seventy.

The receipts shall be placed in what will be known as the St. John pilotage fund. An amount from this will be set aside as a superannuation fund. Seventy per cent. of the balance each month shall be distributed equally amongst the pilots, but no pilot shall receive a sum in any month, including the amount set aside for his superannuation greater than \$300. If at the end of the year there is a credit balance in the fund it shall be divided amongst the pilots up to \$200 a month. The pilots are placed under the orders of the harbor master regarding the mooring and unmooring of vessels.

The house was prettily decorated for the occasion with cut flowers, pot-plants and evergreens. The bride, who is one of Chatham's most popular young ladies, received numerous valued and useful gifts, including checks, silverware, cut glass, etc. The groom is a former member of the Bank of Montreal staff here, and popular with a large circle of Miramichi friends. Mr. and Mrs. Morrissey left this afternoon on a trip to Montreal, Toronto and other Canadian centres. The out-of-town guests included Mr. and Mrs. Morrissey, of St. John; Mr. and Mrs. Harry McDonald, and Miss McEnroe, of Shediac; William Kingston, Bathurst; Mr. and Mrs. Jas. McMurray, Newcastle.

Campbell-Starr

A wedding of interest in two provinces will take place today when Miss Margaret Alynne Starr, eldest daughter of Mr. and Mrs. Frank P. Starr, of St. John, will be married to Major Clinton Campbell, M.C., son of Mr. and Mrs. G. Douglas Campbell, of Weymouth, N. S. The ceremony will take place at twelve-thirty at St. Barnab's church. Rev. Archdeacon Crowfoot, rector of St. Paul's church, officiating. Miss Ruth Starr, the bride's sister, will be a bridesmaid, while Dugald Campbell, of Weymouth, brother of the groom, will be best man. Ushers will be Peniston Starr, brother of the bride, and Cedric Alward, a cousin.

The guests will number about thirty. Many beautiful gifts were received. The bride and groom will leave for a trip through Nova Scotia before they will reside at Weymouth, N. S. Major Dugald Campbell, M.C., went overseas with the 85th and saw active service. Miss Starr is a valued member of the I. O. D. E., and is very popular socially. Both have large circle of friends, who will join in wishing them every happiness.

Mrs. G. Douglas Campbell and Miss Florence Campbell, the groom's mother and sister, are in St. John to attend the wedding. They are guests of Mr. and Mrs. Alfred Morrissey, 38 Hazen street.

COMPROMISE WITH MUSICIANS' UNION

Theatrical Managers' Association Make An Offer Hoping to End Strike in Ottawa

Ottawa, Sept. 7.—A compromise of \$43 per week for sideman and \$37.50 for orchestra leaders is two of Ottawa's vaudeville theatres have been offered to the members of the Musicians' Union by the Theatrical Managers' Association, and the latest offer of the employers will be taken up for decision at a meeting of the union tomorrow night. In addition to the offer, as affecting the two vaudeville playhouses, a full and complete schedule covering all of the theatres has, it is understood, been submitted.

OBITUARY.

Myron Percy Long. Collins, Sept. 6.—The friends of Mr. and Mrs. Percy E. Long, were shocked to hear of the death of their only child, Myron Percy, a bright little boy four years old. He was only ill a few hours and died about midnight August 30. The funeral was held on Wednesday, September 1. The service was conducted by Rev. Mr. Young. The children of the mission band, of which the little boy was a life member, took part in the service. Besides a beautiful wreath from the parents, there were flowers from the Orange Lodge, Mrs. G. Gambin and family, Mrs. Toomey, Miss Mercer and others. The interment took place in the cemetery at Upper Springfield.

All Fat People Easily Reduce. The world owes a debt of gratitude to the author of the now famous Marmola Prescription, and it is well more indebted for the reduction of this harmless, effective obesity remedy to tablet form. They are so convenient to take, and so pleasant to candy. One after each meal and at bedtime will quickly reduce your weight, two, three or four pounds a week, and leave no evil effects such as loose, flabby skin and unightly wrinkles. Just go on eating what you like—leave exercise to the athletes—take your little Marmola tablets and you will be your natural self. Cleared in your mind and trim again. Marmola Prescription Tablets may now be obtained at all drug stores, or by writing direct to the Marmola Co., 67 Garfield Building, Detroit, Mich., and their reasonable price—two dollars for a good size box—leaves no excuse for dieting or violent exercise or the reduction of the overfat body to normal proportions.

ARE PRICES COMING DOWN?

Competent judges of affairs express the belief that the upward trend of prices, which has for so long a time been so much in evidence, has about reached its zenith, and that from now on some decline may be expected. If this belief should turn out to be well founded, it will be a source of much joy to the hard-pressed consumer, whose hope will naturally be that the sooner the decline comes, and the more pronounced it is, the better. While such a hope is but natural, it must be pointed out that a too rapid decline in prices would mean a market collapse which would be a grave matter for business and would produce consequences so serious as to reach all classes of society and the consumer himself would not escape from them. A gradual recession will bring about the desired end, namely, the restoration of normal conditions of living, and at the same time will restrict readjustment losses to a minimum.

The Commerce Monthly, published by the National Bank of Commerce of New York, attributes the dullness which prevails in United States wholesale markets partly to seasonal influences, but adds, "To a far greater extent, however, it is the result of a widespread realization, which has at last become general throughout the business community, that the present downward price movement is not a temporary tendency, but a decline toward a new level applicable to post-war conditions, a level which can be found only by cautious experimentation in the market. It is possible that in some commodities, this new level has already been reached."

The Federal Reserve Board of the United States has noted in reports received by it an "important downward tendency" in prices of all commodities with the exception of food. This tendency it does not attribute to any one cause but to a number of complex factors. It draws attention, however, to the pronounced checking of speculation which has taken place, to a slight though definite increase in efficiency, and to a curtailment of extravagant expenditure and unnecessary borrowing.

Factors which, in the opinion of the Federal Reserve Board, will contribute to the work of readjustment are improved transportation services and a higher efficiency of labor in industrial production. It is not to be expected, however, that the drop in raw materials will be reflected at once in the level of retail prices, especially in view of the fact that capital charges remain high and the great advances made in the wages of labor have so far been maintained. The reduced cost of materials and the higher efficiency of labor are relied upon as ensuring a downward movement in retail prices, but the authority quoted does not encourage the expectation that this movement will be very marked before the spring of 1921, purchases for the autumn and winter trade having been made at the high price level. The conclusion seems to be that lower prices are on the way, and will before long be within reach of the retail buyer, and the fact that the movement is deliberate rather than drastic should be a matter for self-congratulation rather than for complaint.

It is to be noted that the turn in prices which is now taking place is not due to any of the numerous attempts which have been made by governments or government bodies in the direction of price regulation and price control. These efforts have been productive of little good and of much harm. Mr. J. S. McKinnon, president of the Canadian Manufacturers' Association, in speaking before the Toronto Exhibition directed to a day or two ago, made a quite reasonable plea for relief from commissions and investigations which hamper and embarrass industry at a moment when industrial stability is a first requisite. Sir George Foster seems to have coupled a half-hearted and unconvincing defence of the investigation with a frank avowal of the futility of attempting to reduce the cost of living by Government action. In stating that conditions had been due to world influences, the war, and the loss of millions of men from productive activities, Sir George, while breaking no new ground, proved the uselessness of the attempts which have been made to regulate prices in this country. Had these views been made the basis of administrative action, much mischief might have been averted.

CONCERNING WORK.

In giving a brief message to the bishops, while in attendance at the recent Lambeth conference, King George said: "I am convinced that a great opportunity lies before the church today if she will identify herself with the social as well as the spiritual life of the people, and set

herself to serve as an interpreter and mediator, bringing lofty ideals and spirituality into close touch with the practical needs of the workaday world." There is no greater need today than doing just what His Majesty expressed in the closing sentence, "bringing lofty ideals and spirituality into close touch with the practical needs of the workaday world." Such a statement is quite in harmony with memorable words once spoken by Dr. Griffith Jones: "It seems to me that no work in this world is really worth doing except the work which has a great dream at its heart."

Commenting on this, the London Free Press says that we are running into many dangers today in the matter of vision and work. We all know the ever-increasing force that organized labor is becoming, and so long as that force operates along sane and safe lines we welcome it. We welcome all the rights and freedom that labor should have. The right to work; the right to a living wage as compensation for work; the right to educate children, to home comforts and many other needs. But what right has labor to stop the whole machinery of a country, and bring untold misery on a nation at the call of a few men? What right have a few longshoremen of New York to dictate to Great Britain how she will run the empire? When labor becomes lawless she is selling her birthright for a mess of pottage and losing the respect of the citizens of the country.

Another danger with labor today is in the spirit in which work is being done. Unconsciously there is growing an attitude of mind which looks upon work as a necessary evil. Something that has to be tolerated and endured in order to make a living. The spirit today is to make the greatest amount of wealth on the least amount of work. If this spirit is allowed to grow it will not only lead us to economic but also to moral ruin, and the unthinking part of labor will not realize it until the day of ruin has arrived. It is therefore essential that the leaders of men be of such nobility of character, of such sane judgment, and of such courage in action, that they will grasp the truth regarding the social and economic needs of our day, and give a right place to ideals and visions and their relation to work and wages.

THE TORONTO GLOBE AGAIN.

The Toronto Globe, which is standing with one foot in the tent of Mr. Crear and the other in the tent of Mr. King, has discovered a new reason for denouncing Mr. Meighen, says the Ottawa Journal. The reason is that somebody in the Globe office has made the disturbing discovery that the Honorable Bob Rogers is a sort of Rasputin behind the Meighen throne, and that the new Premier is as but clay for a sinister power on behalf of the terrible Tories. "The proof? Well, isn't Bob Rogers a Tory? And wasn't he at Ottawa—for a while—with Meighen? And isn't Rogers 'generally credited' with giving Meighen his start? Moreover—this is the overwhelming proof—'nothing has been heard of Mr. Rogers lately'; which shows that he is satisfied 'that Premier Meighen will continue to do what he is told.' The poor old Globe! It is often hard pressed for justification of its political acrobatics, but this latest is enough to make George Brown turn in his honored grave. For Arthur Meighen, first as the protégé and then the tool of Bob Rogers, is just about the limit, for there is probably no leader in public life who has stood or who stands so firmly upon his own feet.

Employing printers in England have given notice to the national working printers' organization that unless the striking compositors at Liverpool and Manchester return to work at once a general lockout will be started in a fortnight. Events in many trades in Great Britain are moving towards having a test of strength on a large scale between employer and employee. Where this does take place, the charges on the striking unions will be heavily increased and at the same time their revenues will be reduced. The losses in money will be large on both sides; but they may be the price of a peace that nothing else seems calculated to bring.

Mayor Hylan, of New York, cabled Lloyd George not to disgrace "our war aims" by permitting Mayor MacSwiney to starve to death. As we recall it, says the Mail and Empire, Mayor Hylan's war aims were identical with William Randolph Hearst's, and the difference between them and the war aims of Hindenburg were too slight to be apparent to the naked eye.

The answer to pleas of sympathy for the much-advertised MacSwiney is a reference to the unadvised widows

WHAT OTHERS SAY

Enough As It Is.
(Calgary Herald.)
Someone asked the Premier of Newfoundland if the island colony did not want to join Canada to which he replied that if Canada wished to join Newfoundland well and good, but nothing doing in the other direction. Probably it is just as well. Inclusion of Newfoundland in the Dominion would make our problems, already numerous enough, even more complex.

A Startling Change.
(Edmonton Journal.)
In Winnipeg, where a company controls the street railway, the fares were yesterday placed on a level with those in Edmonton by order of the utility board of that province. The Free Press recently pointed out that while in 1919 the Winnipeg system had the largest gross income in its history, it was not so for shareholders, after paying operating expenses, interest charges, taxes, etc. was practically nil. Before the war the owners thought to have a gold mine and presently had. No other enterprise in the country illustrates more startlingly the changes that the past six years have wrought.

The Mob at Thorold.
(Kingston Whig.)
The action of the Thorold mob was a blot upon the fair name of Canada, and although it did not take a life, all the elements of an outrage upon justice were present. The scales had been tipped ever so slightly by personal antipathy against the victim, there is not the slightest doubt that he would have met with doom shift. We don't want mob law in this country and everything that tends to bring our regularly constituted courts and laws into disrepute should be frowned upon. It is just a question whether or not this whole affair is not a symptom of the corruption through which we have been passing during the past two years. There has been altogether too much criticism of our governments and institutions, on the part of political organizers, irresponsible hirelings often who failed to appreciate fully the direct and indirect consequences of their utterances.

The Overall Campaign.
(Louisville Courier-Journal.)
The overall club accomplished nothing whatever. A few of them got as far as street parades in which prominent business men, and in some cases chorus girls who did not object to becoming prominent, appeared and were interviewed. In many instances the clubs boasted a large prospective membership, which did not actually materialize. In the meantime there has been an increase of saving bank accounts, and an increase in the number of checking accounts, in many States. The man who shouts that he will wear overalls rather than buy a "pepper and salt" suit of clothes, at what he regards as three prices doesn't get anywhere, or lead others in any direction for any considerable distance. The man who progresses is the man who says, commencing with himself: I shall dress prettily, and live pleasantly, but I shall save part of my earnings to that end, exercising judgment and foresight in providing myself with the necessaries of life and such of the luxuries as my purse permits.

A BIT OF VERSE.
LADDIE.
Laddie, little laddie, come with me over the hills,
Where blossom the white May lilies,
And the dogwood and daffodils;
For the spirit of Spring is calling to
Our spirits that love to roam
Over the hills of home, laddie,
Over the hills of home.

Laddie! Laddie! Laddie! Somewhere in France you sleep
Somewhere 'neath alien flowers and alien winds that weep,
Bravely you marched to battle, nobly your life laid down,
You unto death were faithful, laddie yours is the victor's crown.

Laddie! Laddie! Laddie! How dim is the sunshine grown,
As Mother and I together speak softly in tender tones,
And the lips that quiver and falter have ever a single theme,
As we list for your dear old whistle, laddie, over the hills of dream.

Laddie, beloved laddie! How soon should we cease to weep,
Could we glance through the golden gateway, whose keys the angels keep!
Yet love, our love that is deathless, can follow you where you roam,
Over the hills of God, laddie, the beautiful hills of home.
—Lilian Leveridge.

THE LAUGH LINE

The Wrong Person!
A very junior officer was trying his first case. "Seven days confined to camp," he snipped. "Peg pardon, sir," whispered the company sergeant-major. "You mustn't give a sentence like that. You—" All right, then fourteen days," retorted the sub. But, sir," pleaded the sergeant-major, "it's not—'Arf-a-mo', mister, interposed the Tommy. "Don't check 'em again or 'ell g'te me twenty-one." "E sn't a horse!"—"E's a hauntioner!"

"Epidemic" Defined.
The schoolmaster asked his class if any of them could tell him what an epidemic was. "No answer."
"Well, I will tell you. An epidemic is anything that spreads. Now, what is an epidemic?"
"Jam, sir!" shouted the class, in chorus.

The Reformed Reformer.
No more of pleading, no more angry storming.
No nagging of my sisters and my brothers;
I am reformed, I have sworn off reforming.
—Others.
I'm very busy working out my own salvation.
A happy and crown I'm almost sure to get me.
If only the reforming organization will let me!

Benny's Note Book

There was a guessing contest at Mommy Simmins' party story, the object being to see who could guess the nearest how many beans there was in a big glass bottle, which everybody got a guess every time they bawled a coin's worth of anything, the prize being 2 tickets for the movies, and this afternoon Mommy Simmins counted the beans and Pa's Stankines slay cousin Persey won the 2 tickets, and he was setting on his front steps and me and Skinny Martin made up a plot to try to get him to give us the tickets by telling him the world was coming to a end, me starting it by saying, Say, Persey, did you hear the news, its a darn shame you won't be able to use the tickets and it?

Wy, wy wont I, wat news? sed Persey.
Gosh, didnt you hear, the world is coming to a end rite after supper today and you wont get a chance to use your tickets, sed Skinny Martin.

Aw, go on, sed Persey, and I sed, Go on nothing, its in the paper, I goss you havent saw this evening's paper yet, have you?
No, sed Persey, and Skinny sed, O, that explains wy you didnt know about it, and I sed, G, it certeny is too bad its coming to a end jest in time to keep you from using those tickets, Persey, you can give one to me and one to Benny if you want.

Gosh, Persey, if it was only going to come to a end tomorrow instead of today you could at least use those tickets, but now you cant, O well, if you want you can give me one and give Skinny one, if you want.

Well wat good will they do you eny more than they will me? sed Persey. Being a harder question than wat we expected, and me and Skinny got a little ways off to see if we could think up an answer.

Whch we couldent, and Persey used the tickets himself after supper, taking Mary Watkins.

SCARF PINS
Are really part of the tie. The idea is to make the scarf better looking—to get a more pleasing effect. That's why the well dressed man wears a scarf pin and has a number of them. He selects his tie for the day, then puts in the proper pin—and has that clean cut appearance that marks the man of good taste and good character.
We have a good variety of scarf pins in the latest styles and the desired good quality.

A Satisfactory Purchase
What a satisfaction there is in buying diamonds of a reputable concern that deals only in quality merchandise and whose guarantee and advice may be depended upon absolutely.
Diamonds that enhance in value as the years roll by must be of the highest grade, perfectly cut—and rightly bought. Stones of ordinary quality are not rare and will not attain any great value at any time.
Invest in diamonds now. Let us show you some gems that will prove a wise purchase, and demonstrate new ways of mounting them that will materially enhance their attractiveness.

WHY BE AFRAID OF GOOD FOOD?

Eat What You Like Best. It Follows It With a Stuart's Dyspepsia Tablet

When the stomach stours or becomes gassy, with heartburn, it needs the

alkaline effect to offset the acid condition. This you get from one or two Stuart's Dyspepsia Tablets. Relief is usually very prompt. The regular use of these tablets after meals gives the stomach and small intestine substantial help to digest food, and you will then be held incense to eat baked beans, fried eggs, sausage, buckwheat cakes and many other things you thought would make your stomach miserable. Get a 60 cent box of Stuart's Dyspepsia Tablets at any drug store and you will then eat whatever you like and be fortified against the acid, sour stomach due to indigestion or dyspepsia.

AMERICAN BOY SCOUTS EXPECT GREAT BENEFIT

"Jamboree" Delegation to London Learn Lessons in International Affairs.

(Copyright, 1920, by Cross-Atlantic News Service.)
By COLIN H. LIVINGSTONE.
London, Sept. 7.—Primarily the visit of our Jamboree delegation to Great Britain, France and Belgium is of transcendent importance in the building up in the boys of a leadership that will make them competent to understand and act prudently in connection with all international affairs when they come to take their places as leaders of our citizens, as they undoubtedly will. They are meeting with boys and men from every nation that counts for anything in the world's affairs and are forming friendships that will have a transcendent influence in broadening their viewpoint on the fundamentals of their life work, be it at home or in the service of their country abroad.

SUMMIT OF MT. SNOWDON SOLD

(Copyright, 1920, by Daily Mail)
London, Sept. 7.—The summit of Mount Snowdon, Wales, has been sold to Mr. Jones, tenant of the Hafody-Llan farm, for \$36,250. It includes the ground rent of the Summit Hotel and several hundreds of acres of grazing land on Nant Gwynant side from the summit to the base. The land was formerly part of Sir E. Watkin's Hafody-Llan estate, where Mr. Gladstone was a guest many years ago. The statesman addressed a political meeting of 3,000 people near the summit of Snowdon in September, 1892. The estate was afterwards owned by Lieut. Colonel Worsey-Taylor who has just sold it.

PREMIER HUGHES NOT AT CONFERENCE

Political Situation at Home Too Delicate to Permit His Going to Geneva.

London, Sept. 7.—(Canadian Associated Press)—A Sydney cable to the Evening News says Premier Hughes is not attending the Geneva Financial Conference between the Allies, the political situation at home being too delicate, the government having had two narrow escapes within a fortnight. Other Sydney advices report considerable discussion concerning the reduction of the Australian naval expenditure, and the whole defence scheme is in the melting pot until the ministry makes up its mind what the country can afford.

EARTHQUAKE BRINGS PISA HOUSES DOWN

Italian Villages Shaken Severely and Deaths Are Reported.
Florence, Sept. 7.—An earthquake occurred here this morning. It caused some damage in Pisa, and in the neighborhood of Spezia, Viareggio, Massarosa, Avezano and Vignola. Houses collapsed with some loss of life. At Colemanidia there was one death and victims also were reported in the Garfagnana Valley.

Just Misses Him.
The purchase of two ex-army mules certainly lived things up in a certain stable. The men were used to horses, but the newcomers called for a different sort of treatment. The boss went into the yard one morning and found a man trying to harness up a mule. The animal obviously disliked the idea. After looking on for some time the boss asked: "Does the mule ever kick you, Bill?"
"No, sir," replied Bill, keeping a wary eye on the animal; "but he often kicks where I've just been."

VISITOR TELLS HOW TANLAC RESTORED HER

After Suffering from Stomach Trouble for Over Twenty Years Mrs. Fred Marsh is Again Well and Happy.

"When I think of all the suffering I went through with for nearly a quarter of a century, it just seems almost too good to be true that I am once more enjoying such splendid health."
This remarkable statement was made a few days ago by Mrs. Fred W. Marsh, of Yakima, Washington, while visiting her sister-in-law in Rothesay, N. B., a thriving little town just out from St. John. Mrs. Marsh lives at 307 South Seventh Avenue in Yakima and is the wife of a well-known business man of that city.
"Ever since I was a girl," continued Mrs. Marsh, "I had suffered from stomach troubles, and at times had such acute attacks of indigestion that I would almost have welcomed death rather than go through the agony. When these spells came on me I had pains and cramps that were almost unbearable and the gas on my stomach was awful. There was a tight feeling across my chest and I was so choked up I just had to gasp for breath. The pains were worse at night than during the day and often I had to get out of bed and walk the floor before I could get any relief. I lost my appetite and to tell the truth I was almost afraid to eat."
"Sometimes I had violent headaches that lasted for half a day and frequently I had sudden attacks of dizziness and became almost deathly sick at my stomach. I was often in such misery that I could not get to sleep until the early hours of the morning and of course when I got up I was worn completely out to start the day off with. This is how I suffered for nearly twenty-five long years, and I had been disappointed so many times that it just seemed there was no use ever trying any more to get any better."
"But one day in Yakima, an old friend of mine advised me to try Tanlac and I am so glad I took it. I improved in every way and in a short time was eating things I had not been able to touch in years. I felt so much better and stronger that I decided to visit my sister-in-law in New Brunswick and when I got over here, I found they were selling Tanlac here, too, and I was so glad for I wanted to keep on taking it. In all I have taken four bottles, and now I am feeling perfectly well in every respect."
"The gas and pains have all disappeared and my stomach never gives me any trouble at all. The headaches and dizzy spells have left me and I sleep soundly every night. I feel just fine and wish I could tell everybody personally what Tanlac has meant to me."
Tanlac is sold in St. John by Ross Drug Co. and F. W. Munro under the personal direction of a special Tanlac representative.—Adv.

Here Is the Situation

For a long time New Brunswick has been deprived of Cabinet representation. The extent to which this Province has suffered by this condition is probably not realized by one in a hundred of our population. Perhaps more than any other Province in Canada New Brunswick requires someone in the councils of the Government who will always be on hand to present our just claims and to uphold our interests.

Now the opportunity is offered through the appointment of R. W. Wigmore to the portfolio of Customs in the reorganized government. And it becomes the duty of the people of New Brunswick, as confined for the present to the electors of St. John-Albert, to see that Hon. Mr. Wigmore is returned with such an overwhelming majority as will justify him in speaking for this Province with the fullest possible authority.

A group of malcontents, discredited by their own party and at loggerheads with their Provincial leader, have placed in the field in opposition to Hon. Mr. Wigmore a man who in the election of 1917 was literally snowed under, who has been forced into this fight against his will, and who, it is said, is already talking of backing down. There is no possibility whatever of his success, and he and those who are pulling the wool over his eyes, realize this perfectly well.

The issue today is the size of the majority to be given Hon. Mr. Wigmore, for, on the assumption that he will certainly prove a strong winner, some may be induced to stay away from the polls and thus lessen the support which he should be able to display to his colleagues in Ottawa.

CARL MAYS NOT AT CLEVELAND

New York Management Knew "Spitballer" from Hon. Ray Chapman.
New York, Sept. 7.—Carl Mays, York American League pitcher (tore the ball) which resulted in the death of Hon. Ray Chapman of the Cleveland team, did not accompany the Yanks when they left York tonight on their western tour. Col. T. L. Huston, one of the club's armstrong fans, says Mays would be with the team during the which opens in Cleveland. But that he would rejoin the Detroit.
"We are not taking Mays to Cleveland," said Colonel Huston. "because we think there is danger trouble, but out of respect to the fans of the people there. We want to offend them. It is a matter of sentiment."

CANADIAN CHAMP WAS ELIMINATED

Roslyn, N. Y., Sept. 7.—C. P. Montreal, Canadian amateur champion, was eliminated from the race for United States amateur golf championship in the play at the Englewood Club course here today. He was defeated by Robert A. G. Chicago, nine and seven. Grier was almost hopeless after the 13 holes, for he was then five. Gardner went out in 35 in the noon round, then took two in one a birdie, before the match was out the tournament. He needed four par to tie the match, but to usual five.
S. David Herron, Pittsburgh holder, defeated Peter Harmon, York, after an uphill battle that to the thirty-ninth hole.
Francis Oulmet.
Francis Oulmet, former open amateur champion; Bobby Jones, the youthful prodigy; Sweetser, Yale inter-collegiate champion, and P. J. Wright, jr., the Massachusetts champion, also their matches.
Chick Evans and Fred Wright, the hopes of their many followers, excellent cards that broke re Evans' card of seventy-two was that has ever been turned in in their competition on the Englewood course and has been called of the club's professional.
Wright went out in his afternoon in 34, a record which equaled by him, last week, in a competition with the team senting Canada.
The winners are paired for the second round tomorrow.

THE STANDARD'S SPORTING SECTION

Cricket Match Ended In Draw

Philadelphia, Sept. 7.—The two day cricket match between the Incongruous team of England, and the Merion Cricket Club ended today at Harford in a draw. The local eleven scored 153 runs in their first innings. The visitors declared their first innings closed when they had accumulated 217 runs for a total of six wickets. Merion had scored 93 runs for five wickets when Stumps were drawn for the second innings.

CARL MAYS NOT AT CLEVELAND

New York Management Keeps "Spiballer" from Home of Ray Chapman.
New York, Sept. 7.—Carl Mays, New York American League pitcher, who threw the ball which resulted in the death of Ray Chapman, of the Cleveland team, did not accompany the Yankees when they left New York tonight for Cleveland, Thursday, but that he would rejoin the club in Detroit.

"We are not taking Mays to Cleveland," said Colonel Houston, "not because we think there is danger of any trouble, but out of respect to the folks of the people there. We don't want to offend them. It is largely a matter of sentiment."

CANADIAN CHAMP WAS ELIMINATED

Roslyn, N. Y., Sept. 7.—C. P. Grier, Montreal, Canadian amateur golfer, who was eliminated from the race for the United States amateur golf championship in the play at the Engineers' Country Club course here today. He was defeated by Robert A. Gardner, Chicago, nine and seven. Grier's battle was almost hopeless after the first 15 holes, for he was ten five down. Gardner went out in 35 in the afternoon round, then took two threes, one a birdie, before the match ended. He told Grier that this afternoon's stretch represented the best golf he had ever played.

Scotland Won.
Thomas A. Armour, Scotland, who holds the amateur championship of France, won on the home green from George Hoffer, Philadelphia. Hoffer, starting his second round three down to Armour, made a sensational fight, with four birdies in five successive holes, but failed to square the match on the home green, through a hoodoo, which he says has followed throughout the tournament. He needed a par four to tie the match, but took his usual five.

David Herron, Pittsburgh, titleholder, defeated the Harvard New York, after an uphill battle that went to the thirty-ninth hole.
Francis Quimet.
Francis Quimet, former open and amateur champion; Bobby Jones, Atlanta, Ga., the youthful prodigy; J. V. Sweetzer, Yale, inter-collegiate champion; and F. J. Wright, Jr., the young Massachusetts champion, also won their matches.

Chick Evans and Fred Wright raised the hopes of their many followers by excellent cards that broke records. Evans' card of seventy-two was the best that has ever been turned in in inter-competition on the English course and has been equalled on the club's professional.
Wright went out in his afternoon round in 34, a record which was equalled by Quimet, last week, in four ball competition with the team representing Canada.

The winners are paired for the second round tomorrow.

LORD MAYOR OF CORK RESTLESS AND FEVERISH

Lloyd George's Suggestion for Release of Mr. MacSwiney Not Regarded Favorably in London.
London, Sept. 7.—(By the Associated Press.)—Lord Mayor MacSwiney of Cork, passed a rather restless and feverish evening in Brixton jail, but otherwise his condition, due to his prolonged hunger strike, was unchanged.
Premier Lloyd George's suggestion for the release of Mr. MacSwiney and other hunger strikers, conditional on a guarantee of the cessation of murders of policemen in Ireland, seems not to be regarded either here or in Dublin as providing any practical issue for the breaking of the deadlock between the Government and the dissident Irishmen, although the belief prevails in some quarters that it may be accepted as an indication of slight yielding on the part of the Premier from his previous unshakable attitude.

Dublin, Sept. 7.—Sir Walter R. Nugent is reported to have resigned from the magistracy and also to have given up his post as Deputy Lieutenant of West Meath County, because he considered the government's policy in Ireland intolerable.

The Money Won By Jack Dempsey

Received \$55,000 for Fighting Three Rounds—Total Receipts \$134,904.
Benton Harbor, Mich., Sept. 7.—Jack Dempsey, world's heavyweight champion, received \$55,000 for battering Billy Miske, the St. Paul challenger, to defeat in the third round of their scheduled ten-round bout here, yesterday, according to a statement of the receipts given out today by Floyd Fitzsimmons, promoter of the contest. The total attendance of the Labor Day battle was 11,348, and the total receipts were \$134,904, including State and war tax.

According to the articles of the agreement, Dempsey was guaranteed \$55,000, with a privilege of accepting fifty per cent. of the receipts. Miske fought on a straight guarantee of \$25,000.
The judging began in the evening, and it drew a large gallery of interested spectators.
Charles H. Hopton, of New York City, one of the best known authorities on dogs on the continent, is the judge. He speaks enthusiastically of the show so far. "You can quote me," he told The Standard, "as saying that the pointers' puppies class at the show is the best class that I have ever seen. Britannia's Pride, winners English setters bitch, is undoubtedly one of the best English setters in the country and could hold her own in any New York show, while the foxhounds winner is equal to anything on this continent."

PENNANT RACES BECOME CLOSER

Lead of "Cincis" and "Indians" Cut to the Hair-Breadth Margin Tuesday.
New York, Sept. 7.—The Major League pennant races became closer today, when the lead of both the Cincinnati Nationals and the Cleveland Americans was cut to hair breadth margin of a half game.

While both leaders were resting, the Brooklynns won two games from Philadelphia, and the New York Americans' victory over the Athletics put them in second place, a full game ahead of Chicago, which lost to Detroit. The New York Giants also had a day of rest, when rain prevented the playing of a double header with Boston. The Giants are two-and-a-half games behind Cincinnati.

THE TWELFTH ANNUAL DOG SHOW BEST IN CLUB'S HISTORY

The New Brunswick Kennel Club Has 240 High Bred Dogs on Exhibition in Armory—Judge Speaks Highly of Classes—Pointers Among Best He Has Ever Judged.
Hartford, Conn., Sept. 7.—Three of the four favorites on today's Grand Circuit card at Charter Oak Park were defeated, one of them for the first time this season and Tommie Murphy furnished two of the upsets.

In the 2:05 trot Footsue Toies, unbeaten on big line tracks, was forced to accept third money, being topped in the summary by Dr. Nick, the winner, and Selka, Dr. Nick's great speed on the way home brought him from the rear as the half mile post was passed to the front at the wire in each heat.

Red Russell took his second race of the season in the 2:10 trot, defeating the favorite, Lady Wilgo twice in the stretch.
Favonia and Boralina hit her up in three thrilling heats, the latter taking the first but losing the next two to Edman's Mount. The third heat was particularly close, the fans being divided as to the winners, who many thought it a dead heat. The race recalled the Great St. Frisco-Mabel track battle in 1916. The only favorite to come through was Margaret Dillon, undefeated pacer of the season and she won only after a three heat battle with Esther R. and Peter Elliott.

Munroe Won in First
Munroe's Mount took the first heat by a head from Esther R. and broke in the stretch in the second. Peter Elliott won a close finish from Murphy's pacer. In the third heat, Munroe took Margaret Dillon to the front and held a comfortable lead all the way around.

Because of the heavy rain of last night, the track was in poor condition at starting time and the majority of the drivers did not want to race. The events were started at four o'clock and sensational time was made, especially in the second heat of the colts race, which was won by Favonia in 2:11 1/2.

TO FIGHT TWELVE ROUNDS SEPT. 23
Mike O'Dowd and Ted "Kid" Lewis Sign Articles for No-Decision Affair.
New York, Sept. 7.—Articles were signed here today for a 12-round bout in the Jersey City ball park on Sept. 23, between Mike O'Dowd, former middle-weight champion of the world, and Ted "Kid" Lewis, welter-weight champion of Europe. The fight will be a no-decision affair. The men are guaranteed a purse of \$25,000, which they will split by an agreement to be reached later. Both men will weigh in at 155 pounds, ringside.

THE YACHT RACE
What promises to be an interesting yacht race off Rye Beach Saturday was spoiled by the very light wind, and at times the yachts were becalmed. The Catalina, Ian, Flane and Anita did not finish. The Osage finished first, Smoke, second; Savitar, third; and Grace M. fourth.

SUGGEST PLANS FOR THE WELFARE OF PRISONERS

Penological Committee of Social Service League Believe Time Ripe for Fundamental Changes.
Toronto, Sept. 7.—Some measure of public management in the conduct of Federal penitentiaries through the medium of advisory or visiting committees was one of the chief recommendations made at a meeting of the Dominion Penological Committee of the Social Service Council of Canada held today at the offices in Confederation Life Building. The committee had under consideration a report of a visit made to Kingston penitentiary by one of its members, John Kidman, who had been permitted to go over the institution both as a newspaper man and as honorary secretary of the Canadian Prisoners' Welfare Association, Montreal. In general the report showed that, while it was admitted there had been irregularities in the administration and that conditions in the hospital had not been satisfactory up to a recent date, new appointments had resulted in important improvements.

Make Lot More Tolerable
Having received an adopted the report, the committee placed on record its appreciation of the steps which have recently been taken to improve the administration of the institution, to render more tolerable the lot of the inmates, particularly in regard to the sick.
"At the same time," the committee added, "the time is ripe for certain fundamental changes in the penitentiary system. The government should place sufficient money in its estimates for the provision of new buildings, or for the obliteration of existing buildings, so that a system of segregation as between old and new offenders may be introduced."

Another recommendation of the committee was that the industrial system should be so extended as to render unnecessary any stone pile or unproductive work, and that it should include productive activity established by government to render support and aid to a prisoner's family, or to deposit to his credit on release.

PAPERS LEAD THE MONTREAL MARKET IN CLIMBING HIGHER

Spanish Common Hit 118 1/2 With Preferred Reaching 128, Losing Two Later.

Montreal, Sept. 7.—The paper stocks continued leaders of the market today with the Spanish Rivers and Brompton most prominent. The group was strong, most of the issues showing material net gains.

Spanish common was most active, and price touched 118 1/2, while the close at 117 represented a gain of a point. The preferred made a maximum gain of 3 1/2 points at 128, but lost two points of the advance in the close at 126. Abitibi advanced two points to 89 and closed at 79. Laurentine moved up 2 1/2 points to 118, and netted a point at 116 1/2 at the close. Brompton moved up a point to 73 in early trading, but closed unchanged at 72. Rioridon common sold again at 200, but its preferred added 1 1/2 points at 24, and Wagsnamack reached 135 and reacted to 132 1/2, a net gain of the fraction.

NEW YORK EXPECTS MUCH FRENCH GOLD TO MEET WAR BILLS

Increase on Mexican Petroleum and Gold Rumors Features Today.

New York, Sept. 7.—Developments and general advices over the long holiday were favorably interpreted by the speculative element, judging from the early course of today's stock market. Dealings were active, but there was little to justify reports of any pronounced increase of public interest.

Publication of the terms of the new French loan, which constitute the largest financial undertaking of the year, the better statements of the federal reserve and clearing house banks, and an increase in the dividend on Mexican Petroleum were among the propelling forces of the day.

Rumors of Big Payments
Announcement of the French negotiations confirmed rumors of payment at maturity of the \$500,000,000 Anglo-French war flotation. This will be accompanied by imports for the French account of a large amount of gold, some of which is already in transit.

Far from neglecting this prospect, however, exchange in London and Paris was heavy, the French rate breaking sharply. The rates to Belgium, Spain and Germany also reacted, while remittances to Argentina were most adversely affected by unfavorable trade conditions.

Call Loans, 7 Per Cent
The local money market was fairly easy, most of the day's call loans, being made at seven per cent, with an advance to eight per cent at the close.

More time money was available for three months a few loans running into the next year. Industrials and specialties were mainly higher at the outset and during the intermediate period, oils, steels and equipments advancing later. Last week's demand for rails fell off perceptibly and selling for profits cancelled many advances at the irregular close. Sales amounted to 600,000 shares. Railroad issues were again the most stable features of the bond market, the Liberty group and international easing from best quotations. Total sales, per value, aggregated \$9,400,000. Old United States bonds were unchanged on call.

FRENCH GOLD TO ENSURE NEW LOAN

One Hundred Million Dollars Will be Placed on U. S. Market.

Paris, Sept. 7.—An official note issued today confirms the announcement made of the arrangements made to meet the Anglo-French loan floated in the United States, maturing October 15 next. The note sets forth that France's half of the loan is being covered, to the extent of \$100,000,000 by "transfers of gold of certain importances" and by exchange which the French treasury has obtained, and the remaining \$100,000,000 by a loan on the American market.

FROST AND RAIN HURT WEST. GRAIN

Moore Jaw, Sept. 7.—Reports from the district are to the effect that it is estimated that some of the late crops may have suffered damage, but not to any serious extent. Most of the grain in the district has passed the danger stage.

U.S. TO SHOW NAVAL POWER WITH MANOEUVERS IN PACIFIC

Administration to Follow Roosevelt's Course in Reminding Japan of Fleet's Strength — General Crozier Describes America's Position in Interview.

(Copyright, 1920, by Public Ledger) Washington, Sept. 7.—Although the United States is engaged at the present time in diplomatic negotiations which tend to stabilize the complicated American-Japanese relations, it is not the intention of this government to neglect any advantage that may be gained by furthering the purpose of the Wilson administration...

Two Factors. Two factors entered into the situation today to show that the United States is determined to press its rights. First, authoritative reports from Japan that the mass of the people there are opposed to the military policy, although upholding the necessity of maintaining the present relations with her neighbor across the Pacific.

Officials of this government, who are anxious to stabilize the present relations with Japan, acknowledge Japan will endeavor to obtain a settlement as advantageous as possible, but feel that they have a trump card in their pocket against Japan's policy of aggression in Siberia because of the domestic front against the military party.

Opposition in Japan. Front-hand reports which have reached Washington show that the Japanese military expedition in Siberia is unpopular with the Japanese masses, newspapers representing every shade of public opinion are attacking the military authorities for keeping Japanese troops on Russian soil. The continued presence of Japanese soldiers in Siberia is usually characterized by the semi-militarist as representing the desire of the military to "save their face" by giving a demonstration of their importance and power in national affairs.

Measures Served as Pretext. The Kinko war office has furnished a pretext for continued intervention in Siberia, and public sentiment as far as the retaliatory measures that have been taken in the occupation of northern Siberia are concerned, seems to be with the war office.

It is no secret in Japan that the continued presence of Japanese soldiers in Siberia is unpopular with the Japanese themselves. Representatives are said to be frequent, and there have been several instances when the soldiers refused to carry out the orders of their officers.

The outstanding fact in the Siberian expedition, so far as the Japanese critics themselves are concerned, is the fact that the representations of the continuance do not explain, are unsatisfactory to the Japanese people and the press, and indicate that the Japanese war office does not know how to retire gracefully from Siberia as the situation exists today.

Correspondence of Theodore Roosevelt made public since his death shows his purpose when he took the American fleet around the world. In one of these letters he relates a conversation that he had with Admiral von Tirpitz, in which he told the German sea lord his (Roosevelt's) primary object in the cruise around the world had been as an object lesson to Japan and that its effect had been most salutary to American-Japanese relations.

An indication of the position which the United States is endeavoring to take in an interview with Major General Wm. L. Crozier in the Tokio press. General Crozier, formerly chief of ordnance and as a member of the general staff, undoubtedly conversed with the position of this government, after assuring the Japanese that this country had no desire for war, touched on the California situation and near the end of the interview with Major General Wm. L. Crozier in the Tokio press.

Gifts to Women Who Use Jiffy Jell. Jiffy-Jell users should write to the makers for a list of aluminum molds. Molds, spoons and measuring cups are supplied to users free. Jiffy-Jell is the one dessert which has the fruit flavor in vials. A bottle of condensed fruit-juice essence comes in the package. So a Jiffy-Jell dessert is a real fruit-flavored. The flavor is not artificial. The sweetening is sugar, not saccharin. Women who once try it will always get it. Your grocer has the flavors. Try pineapple and loganberry first.

TERENCE WILL GO THROUGH TO HELP IRELAND

Such is the View of Wife of Lord Mayor of Cork

London, Sept. 7.—Mrs. MacSwiney speaking to the Associated Press with composure and a rather defiant backward toss of the head, declared this morning: "Yes, I am positive he will see his task through. Of course, it is only his conviction he is fighting for, and I am fully reconciled to hearing of his death. His battle is mine, for it is I who look on myself when I married him three years ago while he was in England under a deportation order. Our lives since then have been mainly spent in opposing his husband's arrest or waiting to be punished through his release from prison. Thus, the role I now am playing is one to which I have long been accustomed."

THE WEATHER.

Toronto, Sept. 7.—Except for a few showers in Manitoba, the weather today has been fine and moderately warm. From Eastern Ontario to the Maritime Provinces it has been unsettled and showery.

TRUE BILL ON BOTH COUNTS Brought in Hampton Court

Six Young St. John Men to Stand Trial for Manslaughter, and by Wantonly or Furious Driving a Motor Vehicle or Other Misconduct Caused Bodily Harm.

A true bill on both counts in the indictment, that of manslaughter, and by wantonly or furiously driving a motor vehicle or other misconduct causing bodily harm, was brought in by the grand jury on the opening of the Kings County Circuit Court at Hampton yesterday against Harold Beverley, Jack Wilkinson, Charles Ross, John Kennedy, John Dean and Allen Currie, the six young men involved in the tragic automobile accident at Beaufort on the 29th of last April, which resulted in the death of seven year old Virginia Garret.

The Jurors. The judge instructed the sheriff to call forty more men for the petty jury.

NO WORD FROM HON. MR. MEIGHEN

Preparations for the Election Battle Are Proceeding Rapidly While Waiting.

Unchanged in any way as to the election status in St. John-Albert. The Hon. Mr. Wigmore, the government candidate, is still awaiting word from Ottawa as to the exact date of the appearance here of his leader, the Hon. Arthur Meighen, premier of Canada, and his colleagues, the Hon. C. C. Bantyne, the minister of marine and fisheries.

So far no public meetings have been announced by either candidate, but preparations are well advanced, it is understood, on the programme for the short battle.

Dr. Emery, the Liberal candidate, has not made any statement of policy yet, but the views of the Hon. Mr. Wigmore on the issues of the dominion and his policy for the city of St. John have been stated on many occasions.

The judge instructed the sheriff to call forty more men for the petty jury.

AROUND THE CITY

BRITISH MAILED. The British mails close at 4 p.m. on Friday, Sept. 10, for the S. S. Minnedosa from Quebec.

BOARD OF HEALTH. On account of the fact that several members of the board were engaged at the Exhibition, the regular meeting of the Board of Health, scheduled for yesterday afternoon, was postponed until Friday afternoon.

NO MEETING HELD. There was no meeting of the W. C. T. U. held yesterday, as members were engaged at the booth, which the union has charge of at the Provincial Exhibition.

LATE ARRESTS. Only two arrests for drunkenness were made by the police last night. So far the officers report little disturbance in the city, despite the fact that thousands of people are arriving and leaving the city daily.

PLEASED WITH VISIT. W. R. Serrin, of Halifax, who is located as superintendent at the Beaufort regatta Monday, left for his home last night. He states that he is pleased with his visit and the attention accorded him by Commissioners Thornton, Frink, White and many others.

THE S. P. C. A. A meeting of the S. P. C. A. will be held today in rooms of the Association, at which the mayor and representatives of the Board of Health will meet with members of the society to consider the future of the work in the interests of sick, suffering or ill-used animals.

ATTENDED TORONTO FAIR. Edward Walsh returned yesterday to St. John from a ten days' trip to Toronto where he visited the Exhibition. Mr. Walsh states that the big Toronto show is a very fine one, and speaking particularly of the performance given by a number of beautiful trained horses.

ENJOYED FLIGHT. J. B. Jones, Jr., was among the first of the residents of this city to enjoy a flight in the bi-plane performing here in connection with the exhibition. The machine took off from Quinlan's field with the pilot and passenger aboard, and circling the city a fine view of the city and surrounding country was obtained. Mr. Jones expressed himself afterwards as quite pleased with the scenery from 1,000 feet in the air.

NURSING SISTER WOODS VERY ILL

Her many friends in St. John and vicinity will be sorry to learn of the serious illness of Nursing Sister Margaret Woods, niece of H. W. Woods, post office inspector, at the military hospital, Esquimaux, B. C. Word to this effect was received by her sister, Mrs. McKinney, wife of James McKinney, of the staff of the barracks in the Canadian House, and has caused much distress among relatives and friends. Miss Woods made a notable record in the war. She went overseas with a McGill unit and served in No. 3 Hospital, Boulogne, for nearly two years. After that she served in several casualty clearing stations near the front. She was one of those chosen to accompany the Canadian troops in their victorious march into Bonn, Germany when the war was won. Some little time ago she was sent to hospital for appendicitis, in a hospital in St. Anne Bellevue, but had quite recovered. She was then asked to go to Esquimaux to take charge of the operating room in the military hospital.

English Company Reach Quebec

Walter Golding, manager of the Imperial Theatre, received a telegram last night from Quebec, informing him that the 'Maid of the Mountains' Company had arrived there from England. This is a company of seventy-five performers and has played to a big business in the Daley Theatre, London, Eng., for the past five years. It has come to Canada and the United States to play in the Trans-Continental Theatre and will commence their trans-continental tour immediately. A start will, perhaps, be made in Halifax, and St. John will be favored on the last three days of the month. The company will then make its way westward, playing at the larger cities until it reaches Vancouver and Victoria, and then it will start on its return east, playing through the United States, starting at San Francisco, Cal.

Other large companies are coming from England, and while this has arrived at Quebec, just as soon as the steamships start on their trips to St. John, this city will prove the starting point for the productions, these placing the Loyalist city more prominently on the theatrical map.

CANADIAN AVIATION SEAPLANE STATION FOR NEW BRUNSWICK

Captain J. A. Le Roye of Canadian Aviation Board, Picks on Navy Island as Suitable Place — Expects at Least Five of Machines Here Before Next Season.

Capt. J. A. Le Roye, of the Canadian Aviation Board, Ottawa, was in the city yesterday. The object of his visit was for the purpose of inspecting the neighborhood of the harbor, in order to find a suitable site for Canadian Aviation Sea-plane station in New Brunswick. Capt. Le Roye called on the mayor in the afternoon, and accompanied by His Worship and Commissioner Jones, drove to Indiantown. The harbor there did not impress Capt. Le Roye as suitable for his purpose. The party then drove to the west side and a beautiful view of the harbor was obtained from the vicinity of the Tower. From there the neighborhood of Courtenay Bay seemed a most suitable site; but after a closer inspection, it did not appear to the captain as being adaptable to his purposes. Later in the afternoon the party enjoyed a sail on the Tag Nereid, in charge of Captain McKinney, from whom considerable valuable information was had regarding the action of the tides, as well as general

non-coast information. Going up the harbor by North Wharf, the attention of Capt. Le Roye was attracted by Navy Island, and the harbor was inspected in that direction. A full inspection of the island was made, after which he expressed himself as entirely pleased with this site. It seemed the most likely to meet all his requirements and to be the best possible site for the craft arriving and departing from this province in the course of their trans-Atlantic flights. Capt. Le Roye said that when the regular schedule is arranged that there would be several sea-planes for this port. Before next season he expected that there would be at least five or six of these machines on the wing. He said that the other port of call in the Maritime Provinces. At the conclusion of his inspection, Capt. Le Roye thanked the mayor and commissioner most profusely for the courtesies extended and the information imparted. Capt. Le Roye left on the Montreal train last evening for Ottawa.

THE VACCINATION DAYS FOR CHILDREN

Parents should remember that now the schools in the city have opened that the free vaccination clinic for school children is only available on Monday, Wednesday and Friday afternoons from 2.30 to 4.30 o'clock. Dr. Mabel Hanington, who is in charge of the clinic, is also medical inspector of schools, and her duties in that capacity make it impossible for her to be at the clinic more often. In spite of the fact that the clinic has been open for weeks, and ample opportunity was given to parents in children vaccinated in time for the opening of the seventh, nevertheless, the clinic was swarmed with children yesterday; but, of course, they were unable to be vaccinated.

HAVE CHILDREN ATTENDED TO

The month being the gateway to the body, both for food and respiration, requires the attention of mothers for babies and small children especially. Do we realize that 85 per cent. of the cases of all contagious diseases enter the system through the oral (mouth) cavity? Then let us have healthier babies and children by having the teeth, tonsils and adenoids attended to. Mothers can have examinations for these ailments conducted by the Board of Health. The results of the examinations shall be forwarded to the parents and the Medical Officer for schools, which will facilitate loss of time for the inspection of months at the public schools.

Have Warm Spot For Canadians

Report received by Board of Trade from President Duncan of Export Association of Canada.

Australian and New Zealand have a warm spot for Canada in their hearts, according to President Duncan, of the Export Association of Canada, who has recently completed an extended tour of these countries. He complains in a report received from him by the Board of Trade, that Canada sends but few lines of manufactures to New Zealand, while the United States is gradually increasing its lines. At present Canada is exporting to New Zealand about forty-four principal items of manufacture, while Great Britain has 305 on her list, with the U. S. A. numbering 181. Among the articles which he suggests Canada might export to New Zealand are chocolates, tobacco, cigarettes, hosiery, butter and cheese, cots, telephone accessories, electric batteries, electric lamps, sewing machines, butter paper, toilet preparations, motor bicycles, tricycles, coxos and checkmats, hats and caps, ribbons and crepes, cotton piece goods, axes, hatchets and tools, generators and motors, gas, oil and air engines, glass bottles, motor bodies, materials, etc.

New Zealand firms say that they are pleased upon by at least six U. S. travellers per month, while Canada sends about one per month. Mr. Duncan says that Canadians are of little good without samples. He also says that Australians are looking forward to Canadian manufacturers replacing goods now being imported from other countries outside the empire. Incidentally the people of the Port of Sydney, Australia, are proud of their port and want the outside world to hold the same view. Mr. Duncan drops the following pointer to visiting Canadians.

"Arriving in Australia at the Port of Sydney, there is a precaution Canadians should take on entering, which at once ensures being taken into their good books. On the label of one's coat two labels should be placed, one reading 'Magnificent,' the other 'Beautiful.' It also saves one answering the question asked by every second person: 'What do you think of our harbor?' The question is certainly justified."

SULTRY TEMPERATURE. The temperature last night was quite sultry after the day's downpour.

Imperial Theatre Packed With Visitors

That visitors consider the big and handsome Imperial Theatre one of the sights of St. John and to enjoy its music one of the delights of a trip here, is certainly evidenced by the immense crowds thronging the King Square resort day and night since the exhibition started. The programme now showing is one of two bumper bills selected for Exhibition visitors. Anita Stewart in the famous old racecourse play "In Old Kentucky" is a most enthralling seven-reel picture and the orchestra plays it up with a specially-written score. Tomorrow Charlie Ray will be the feature in a comedy entitled "Paris Green." Shows at 2 o'clock, 3.30, 7 and 8.30. Admission for the matinee 10c. for kiddies and 15c. for adults. Night 15c. and 25c.

La Tour Flour Booth A Strong Favorite With Visitors To The Fair

At once pleasing and instructive, especially to the housewife, the pretty booth of the Fowler Milling Co., Ltd., is eliciting many favorable comments from visitors to fair, and should be visited by all who realize the importance of knowing just how to select the right flour to make the best bread. Much taste has been displayed in the booth decorations, and bags and barrels of La Tour Flour are attractively arranged, with large display cards which tell tersely the many strong points of La Tour Flour, so much a favorite, not only for bread, but for cakes and pastry of every description.

The firm's manager, Mr. A. L. Fowler, and members of his staff are in attendance, and will be pleased to answer all and any questions. Novel moments are presented to callers at the La Tour Flour Booth which should be visited by all who are privileged to attend the exhibition and who can be assured of a most cordial welcome by the millers of La Tour Flour.
