# MORE AT WORK IN MARITIME

### Increased Employment in Sugar Refineries and Lumber Mills Reported for May.

Ottawa, June 20.—The report for the employment services of Canada shows an increase in employment of six per cent for the week ending May 14. During that week 3,322 firms reported total working force of 61,857 as against 61,083 for the previous week. The most noticeable gain occurred in the lumber, sugar, biscuit, candy, transportation and building industries. Contractions were found in textiles, electric power production and musical instruments. Marked reductions were shown in the iron and steel industries. The maritime district showed only a small favorable balance, occasioned mainly by increases in sugar refineries and lumber mills. Partially offsetting these gains were losses in coal mining, and to a lesser degree in textiles.

# DOMINION CREDIT EXCHANGE

Montreal, June 20.—The Dominion Credit Exchange, an organization of business men, with representatives from Halifax to Vancouver, is holding its tenth annual convention here after a brief meeting for business today. The delegates were entertained by a drive around the mountain, following by an excursion on the river. Officers for the ensuing year will be elected tomorrow.

Sir Donald states that as soon as he is sufficiently restored in health he intends with lady MacMaster to take another holiday trip to Canada.

### Outlines What Each Part of the Empire May Expect to Get from Germany.

# PREMIER MEIGHEN MAKES FIRST REPLY

### Tells Premier What He Regards as Chief Problems Conference Has to Consider.

London, June 20.—(By Grattan O'Leary, Canadian Press staff correspondent)—In the opening address of the Premiers' conference today David Lloyd George, British Prime Minister, gave a lengthy and complete review of the foreign policy for Great Britain during the year. The governments of the various dominions have been kept fully informed of the various steps taken, and today the British Prime Minister reviewed the details of all the action and policies; explaining the stand taken by Great Britain at the Spa, and the reasons underlying it, as well as the position of the British Government in respect to Poland and Silesia.

# REPARATIONS.

He also dealt with the question of reparations, outlining his conclusions and indicating the amounts likely to be accruing to the various parts of the Empire. He expressed the conviction that the amount of the indemnity fixed was not beyond Germany's capacity to pay.

# Hon. Mr. Meighen.

Right Hon. Arthur Meighen, representing the senior dominion, was the first speaker on the programme, after Lloyd George. Mr. Meighen confined himself merely to a preliminary statement of his understanding of the scope and functions of the conference. He would not, he said, deal with subjects of the Japanese alliance, the Prime Minister said that the British Government were desirous of ascertaining the views of the dominions and approached the subject with a perfectly open mind.

THE NAVAL DEFENSE QUESTION

It is in no sense a matter for surprise—in fact it is almost natural—that the views of the Premiers of Australia and New Zealand differ considerably from those of the Premier of Canada on the matter of naval defence.

As the Pacific coast of Canada is just as vulnerable as the coasts of Australia and New Zealand, we would not unreasonably think that a policy which is satisfactory to one, would be equally satisfactory to the other.

Australasia and Canada however, are not quite so similarly situated as would appear to be the case. The people of the former, for instance, have resolutely set their faces against the entrance into their country of either the yellow or black races.

As part of the British Empire, Canada would be bound by the treaty, the condition of which is that Britain and Japan shall stand by one another if either is attacked.

**WAS RUN OVER BY SHIP, LIVES TO TELL STORY**  
 Relates Sensations While Passing Through This Experience.  
**SUCTION HELD HIM CLOSE TO VESSEL**  
 Did Not Realize When He Reached Surface—Clung to Buoy Until Picked Up.  
 Many men have been run over by a wagon or a carriage and survived; some men have been run over by a motor car and lived to tell the tale, and one man, at least, has been run over by a man-of-war. That is what happened to Harry C. Johnson when he fell from the jibboom of the U. S. S. Annapolis.  
 "The next thing I remember after falling," he says in the Wide World Magazine, "is striking the water on my back with my hands and feet in the air. The great curving cutter, striking me on the top of the head, rolled over me and passed on. Up to that time I had had literally no time to think. Opening my eyes under the water, I found myself directly beneath the ship, half on my back and half on my side with that black hull above me moving at express-train speed.  
 Tried to Swim Clear.  
 "My first thought was to swim clear. In spite of my efforts, however, the suction drew me back against the ship, from the bottom of which I quickly bobbed off like a cork.  
 For what seemed hours I lay beneath the ship, striving to escape the powerful suction. All the time the wings of the propeller, drawing nearer and nearer, and the thumping of the propeller shaft, turning over and over in the shaft alley, drummed in my ears and considerably increased my apprehensions. At last I reached the stern and was sucked helplessly toward that whirling propeller. My body wrenched from head to toe. Everything grew black before my eyes, and I felt myself going down—down—down—down!  
 Wanted to Breathe.  
 "Hitherto I had not thought of breathing. Now the effort to hold my breath and the desire to exhale maddened me, and I tore at the water frantically in a desperate effort to reach the surface. My vision cleared somewhat, but my bursting lungs seemed to lose all their power, and I exhaled. A million bubbles rolled over my face and eyes off the way to the surface. I did not dare to inhale. I held my breath through sheer will power, but it was torture. But there is a limit even to will power, and at length almost involuntarily I inhaled deeply. Instead of the choking salt water, a rush of sweet, fresh air filled my lungs. I opened my eyes, afraid that I was suffering from a delusion. My head was above the water!  
 "After the first shock of the blow from the propeller, my wounds did not bother me; in fact, but for a dull ache I should not have known that I was injured. Having breathed my fill of air, I glanced about me. Straight ahead, about a hundred yards away, floated a copper life buoy—one of those big affairs, lighted up with phosphorus, that are carried by all men-of-war. Being a good swimmer, I immediately set out for it. When I got to it I was quite exhausted, owing to the shock and to the amount of blood that I had lost. But I clung desperately to the life buoy until I was picked up by one of the lifeboats that had set out from the ship shortly after I had fallen overboard."

**ITALIANS STAGE PISTOL BATTLE**  
 One Pair Overtook Two Others Unseen and Suddenly Opened Fusilade.  
 New York, June 20.—Two young Italians strolled slowly through Delancy street between the Bowery and Christie street at 11:20 last night, their demure giving no hint that they could have expected trouble. They were walking east. As they reached the middle of the block two other men fell into line behind them. No one noticed from where the second pair came. The two behind quickened their steps until they were almost upon the first two.  
 Pursuers Open Fire.  
 Then two pistols cracked. Before the playing in the street could scatter, or women could get up from the doorsteps of tenements or men could duck from windows the air seemed to be filled with bullets. The two men in front whirled toward their assailants. As they did so, one dropped dead with a bullet through his eye. The other clutched his side, staggered, reeled into a doorway and collapsed, badly wounded. So far as those in the neighborhood noticed, neither of the two young men was armed or had time to defend himself in any way.  
 The pair who had crept so stealthily after them until they were within certain range, fired wildly despite the nearness of their victims. Each emptied his weapon.  
 Women Are Shot.  
 In the doorway of 16 Delancy street sat Mrs. Anna Waxman with her two daughters, Nina, 27 years old, and Bertha, 18. The three women came into the line of the fusillade and had no chance to move.  
 Screams told the hundreds who came pouring from the tenements that the women were hurt. At first they thought all three had been injured, but examination showed that Bertha occupied while a bullet had buried itself in one of Mrs. Waxman's legs, and Nina had been similarly wounded.  
 One Is Arrested.  
 Policemen of the Clinton street station ran up in time to see a man running as hard as he could go toward the Bowery, apparently having wound up after making sure his fire had been effective. The man was seized with a pistol still in his hand, his barrel hot.  
 Fearing that the excited mob which was growing every moment, his ranks swept with hysterical excitement, might attack their prisoner, the police rushed him to the Clinton street station without stopping to learn his name.  
 Ambulancemen were called to take the wounded man and the two women to nearby hospitals. Reserves came from Clinton street station in a few minutes to drive back the hundreds who were choking the block, that a squad of detectives might pursue their investigation.

**CANADIAN WINS**  
 Montreal, June 20.—Canada triumphed over all other competitors at the 18th annual exhibition of the American Peony Society, which closed last night in Boston. With thousands of a lovely specimen of the French variety in competition, the best that the professional peonies growers of the United States could produce, Harry A. Norford, an amateur, Ayer's Cliff, Que., won the first prize for the best bloom in the show with a lovely specimen of the French variety.

**Some More Truths.**  
**WOULD** you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.  
 Would you use a grown-up's remedy for your baby's ills? Certainly not. Remedies are prepared according to the work **THEY** have to do.  
 All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little 'babe.  
 All the mother-love that lies within your heart cries out to you: Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, toothbrush or sponge.

## Marguerite Goes Shopping

Certainly I went to the circus. I'm sorry for people who are too old in mind or in years not to want to see the elephants and laugh at the clown's nonsense. Such beautiful horses there were, too, and so many clever performers on horseback, wire and trapeze. One must have to keep a steady head and be very fit to judge distances so well and to do feats of balancing or of strength.

The tent was warm and so I was glad I had gone out Monday morning to purchase one of these nice ducks skirts which are shown in the window of Messrs. F. A. Byrnes & Co. on Charlotte street. They are very reasonable, don't tell anyone but I only paid \$1.15 for mine. Ridiculously cheap, wasn't it? I have two smart patch pockets and are exceedingly well cut. One can never have too many white skirts for the summer, especially now, when so many people wear them with brilliant sweaters.

My skirt cost me so little that I treated myself to a very pretty set of collars and cuffs from the next window where there is, on sale, wonderful bargains in neckwear. Colored embroidery in wool and mercerized threads are featured here, and some of the vestees in silk or pique, will come in very useful to add a finishing touch to a cloth suit. Tuxedo fronts are fashionable but chilly.

### MADE A GOOD HAUL.

Philadelphia, June 20.—Four masked auto bandits held up Fred Myers, a runner for the Mutual Trust Co., here today and seized a bag containing between five thousand and ten thousand dollars.

The runner fled after the fleeing bandits, who escaped.

### Mrs. James H. Kelly.

Mrs. James H. Kelly died yesterday at her home, 214 Brussels street after a short illness. The deceased, who was a daughter of the late Matthew and Ruth Garrett, is survived by her husband, two sons, William J. of Fredericton, and Robert H. of this city. Two daughters also survive, Mrs. W. Williams, of this city, and Miss Ruth at home. The funeral will take place at the late home, Wednesday afternoon at 2:30 o'clock.

## Demonstration of Physical Culture

Parents and Friends Enjoyed Work of Department of Witansted School.

Under the direction of Miss Littlefield of the Y. W. C. A., the physical culture department of Witansted School held a demonstration of the year's work in the Recreational Centre, Kingston street, yesterday morning. The event was largely attended by parents and friends of the school. Eighteen of the total enrollment of twenty-seven were on the floor, and in the blue and white uniforms of the class looked especially attractive. The programme included a wand drill, floor work, club swinging, basketball and doge ball and marching. A French dance in costume concluded the exercises. Miss Perry was accompanist.

The cup presented to the school for the best all round improvement during the year will be awarded by Miss Littlefield on Wednesday afternoon when the presentation of all the prizes will be made. Miss Littlefield has also from the Witansted Class five girls who are ready to enter the swimming competition for the bronze medal given by the Royal Life-Saving Society. These are: Eleanor Day, Viola MacAvity, Margaret Hayes, Lois Fairweather, Marion Curran. Miss Littlefield, who holds the three medals presented by the society, is the only person in St. John so equipped and is unable to examine her own pupils, but expects to have an examiner here later in the season.

In the Afternoon

Speaking with an excellent accent and entering heartily into the spirit of song and play, an interesting French programme was given by pupils of Miss Littlefield. The proceeds of the afternoon are to be given to the Emma Pliske Memorial Fund. Miss Louise Knight was accompanist.

The plays were greatly enjoyed by parents and friends present, and the quiet folk songs sung in a delightful manner.

The young performers' appreciation of the amusing incidents in the plays added much to the pleasure of the audience. Miss Lawson has received much praise for the way in which her pupils have acquitted themselves.

On Wednesday in the Recreational Centre the final distribution of prizes takes place.

## A BACHELOR GIRL REFLECTIONS OF

By HELEN ROWLAND  
Copyright, 1921, by The Wheeler Newspaper Syndicate.

Many a man has all his plans made to be married, and doesn't know it—because the girl hasn't told him yet.

A popular clergyman has taken half the joy out of life, by announcing that the short skirts are perfectly proper, modest, and sensible. Good gracious! Can't a girl be a "miss" if she wants to?

A widow may hold her second husband up to Hoyte, by inspiring him with an ambition to live up to the "perfections" of her first; but a divorcee can get the same effect with hers, by inspiring him with a wholesome dread of repeating the errors of her first.

The "villain" in the old-fashioned melodrama is the one who is doing his worst to force the girl to marry him; in the modern play he is the one who is doing his best to prevent her from marrying him.

A man doesn't mind what his wife says to him—it's the things she says AT him, to other people, that make him write and thirst for freedom.

Al! Where is the good, old-fashioned man, who worked for his money, paid for what he got, married for love, kept his hair cut, walked to his office, kissed his wife every morning, took the baby out on Sunday afternoons, and kept on wearing his clothes until they were worn out?

Solomon never got half the credit he deserved for being able to please a thousand women, without once facing a suit for breach-of-promise or having to pay alimony.

A woman must be either happily married or awfully pained, when she ceases to feel a thrill of expectation at the tinkle of the telephone bell or the magic sound of the postman's whistle.

What makes most men dizzy, these days, is the high altitude of the skirts accompanied by the corresponding low brain-pressure.

## Imperial Got the Big Crowd Too

With Conway Tearle and Larry Semon as the Star Attractions—Again Today.

Even a jaded picture reviewer could not pass anything but a favorable criticism on "Society Snobs," the latest Selznick picture, directed by Hobart Henley, which was seen last evening at the Imperial to circus-day crowds. Very evidently no expense was spared in making this production a replica of the wealthiest circles of society. Entertainments are shown with an attention to correct detail seldom equaled.

Conway Tearle, the English star, who is starred in "Society Snobs," enacts the role of a waiter, with his usual dignity and naturalness. He achieves the difficult feat of keeping the interest and respect of the audience in spite of the moral employment which he is engaged. One need never fear being bored when going to see a picture in which Mr. Tearle appears; he can carry his audience along with him to the last scene. The plot is engrossing, and as the hero has so many obstacles to overcome before reaching the desired goal, there is not a dragging moment during the whole performance.

The Imperial's bill was not without a broad dash of comedy, to wit, Larry Semon, that acrobatic clown, in his latest scream, "The Rent Collector." For hilarity in great chunks and in every Bayer package are directions to be repeated today.

For Wednesday and Thursday the Imperial has another splendid line-up. Dorothy Dalton in "Half An Hour and One Day," a very fine bill, which is to be repeated today.

## Peggy Called Liar

By Joyce's Lawyer  
Wrecked An Army Officer's Life—Her War Record.

Chicago, June 19.—Peggy Joyce, beautiful show girl, was branded as "an infamous liar" in court.

Alfred Austrian, attorney for J. Stanley Joyce, her third millionaire husband, answered her argument for \$16,000 a month alimony.

"Give this woman the alimony she asks and it will be a message to the women of the country that crookedness pays," Austrian told Judge Crook-bath.

"Who is this Peggy that has asked your honor to grant her \$10,000 a month alimony," asked Austrian.

"The first we hear of her was when she was a telephone operator in Denver. It was then she ensnared Everett Archibald, a hard-working salesman, and then separated from him so she could marry more money.

"She lived with him three months and then disappeared. The next he heard from her was this message sent eighteen months later:

"Get a divorce—I found a live wire."

"Next she married Sherburne Hopkins and then separated from him so she could marry more money.

"My client had one fault—he believed in the honesty of all women. He believed that this woman respected her marriage vows—now he knows better."

"She attacked his war record. What kind of a record did she have?"

"This siren ensnared a lieutenant in New York, caused him to become heavily involved financially and wrecked his life. That's her war record."

## Red Cross Ladies Appeal To Rotary

After Which Members Learn from Leslie Desmond How Spectacles Are Made.

The usual weekly luncheon of the Rotary Club took place yesterday. The special speaker of the day was Rotarian Leslie Desmond, who gave a most interesting and instructive address on "The Making of a Pair of Spectacles." A subject such as this is naturally quite largely scientific and technical, but Mr. Desmond was most successful in so presenting his subject as to make it easily understandable by all present.

A feature of the proceedings was the attendance of a delegation from the Red Cross Society, consisting of Mrs. G. A. Kuhring and Mrs. Frank White. The latter lady briefly introduced themselves and explained who and what they were and their object in coming. Mrs. Kuhring then took up the story, explained the various phases of activity engaged in by the Red Cross, and asked for the fraternal help and assistance of the club in carrying on the work. The matter was later referred to the executive committee for consideration. Louis LeLacheur was elected to membership.

## RECIPES.

- Pineapple Syrup.**  
3 cups sugar.  
3 cups grated pineapple.  
1 cup water.  
1 egg white.
- Put sugar and water into preserving kettle, stir until sugar is dissolved, then beat the white of egg until light and add to the sugar and water, put over slow fire. Boil and skim until thick. The latter lady briefly introduced themselves and explained who and what they were and their object in coming. Mrs. Kuhring then took up the story, explained the various phases of activity engaged in by the Red Cross, and asked for the fraternal help and assistance of the club in carrying on the work. The matter was later referred to the executive committee for consideration. Louis LeLacheur was elected to membership.
- Cinnamon Wheels.**  
2 cups sifted flour.  
2 teaspoons baking powder.  
1 teaspoon salt.  
1 teaspoon cinnamon.  
1 tablespoon shortening.  
1 tablespoon melted butter or margarine.  
3 cups milk.
- Sift the flour, baking powder and salt into bowl; add the shortening and rub in the flour. Add the cold milk slowly, just enough to hold together. Place on floured board, roll out one-third inch thick; brush with the melted butter or margarine and sprinkle with the brown sugar and cinnamon; roll the same as jelly roll and cut into one-inch pieces.
- Place on bake pan (cut side down) which has been well brushed with lard or butter and bake 20 to 25 minutes in a moderate oven. Remove from pan at once.
- Escalloped Lamb.**  
Cold boiled or roast lamb cut into thin slices.  
2 cups bread crumbs.  
2 tablespoons onion juice.  
1/2 teaspoon salt.  
Dash pepper.  
1 tablespoon drippings.

## Latest In Wool And Silk Sweaters

New York, June 20.—As the warm weather season advances, retail shops are giving more and more attention to the vogue for sweaters, which seems unwaning. The summer craze to the shore and mountain resorts, together with week-end excursions and their attendant demands for sports wear has given an added impetus to the sweater departments with the result that new arrivals are seen daily.

### Sleeveless Sweaters.

One model is sleeveless, and as scarves and skirts agree this season this sweater shows the same tendency and agrees with the scarf which is placed suggestively near. It has a white background and is loosely woven stripes of various widths making a deep over tieing at the center with a wide band, and also outlines the collar and short sleeves. Little cords at either side are arranged to hold the fullness.

Another colorful model stresses American beauty and white. This is a slip-over number and knitted in heavier, closer order than the scarf sweater. The neck is cut square at the front and outlined with a band of gay color which also forms the collar. Bands of the American beauty woven with white appear at the bust and again at the hips. This model shows a preference for short sleeves, as do several others in the collection.

### Silk and Wool.

Unusual treatment is accorded a sweater combining silk and wool. The sweater proper is developed in white wool, the lower section being fastened of silk, with diamond shaped designs standing out distinctly. The lower edge is finished with yellow lace-work edge, which also outlines the collar and short sleeves. Little cords at either side are arranged to hold the fullness.

Also attracting the eye is a slip-on model of wool, gay orange underneath and white on top. The front describes a deep over tieing at the center with a wide band of white, and also outlines the collar and short sleeves. Little cords at either side are arranged to hold the fullness.

A simulated yoke effect is given a sweater of orange wool plaited at the shoulder, back and front with gray, the same being repeated at the hip sections. This model can be fastened high at the throat, and the collar is so ribbed as to give an appearance of pleating.

## Have You A "Twenty Pay Life Policy?"

A true story of a Canada Life Policy issued over forty years ago.

A Policy on your life may do much that you intend to do—if you live. It may pay off the mortgage, supply food and clothing for your family, keep the children at school and prevent a forced sale of your other property.

It may be all that is left of your life work—to keep you in comfort in your old age.

But—your Policy must be large enough.

**The Twenty Payment Life**

Our new up-to-date policy provides—

- That premiums will come in 20 years.
- That dividends will be paid during the 20 years and afterwards.
- That if you should be totally and permanently disabled before age 60, all premiums will be cancelled, and a monthly income paid to you.
- That such monthly payments will not be deducted from the policy at your death.
- That after 3 years you may take a Cash Value, or receive a paid-up policy or pledge the policy as security for a loan.
- That the policy cannot lapse while a cash value exists; that the policy is indispensible after one year, that you may reside or travel in any part of the world or engage in any occupation without affecting your insurance.

(There are many other valuable privileges.)

### An Immediate Estate

The great advantage over any other form of investment is that a small percentage paid yearly creates immediately an estate of \$5,000, \$10,000 or more.

These active, progressive years of life in which you are earning the most money are the years in which premiums can be most easily met.

Twenty years is a convenient period and premiums are so small that lengths of time are moderate and easy to handle.

Do not delay this important matter. Ask for particulars today.

At age 30 he secured his \$5,000 Twenty Pay Life Policy.

At age 35 he received his first Dividend, which was added to the Policy.

At age 50 he received notice that his Policy, with 20 years Dividends, was fully paid for.

At age 60 his Policy, still earning Dividends, helped him to finance the purchase of a new home.

At age 70 he withdrew the Cash Value for his own personal use. He received a Cash Value of \$4140 in return for his \$2830 Life charges for 40 years. For many years of his life he had been protected by insurance of \$5,000 and Dividends.

CHARLES B. GADDON.

Chas. B. Gaddon, president of British Columbia Lumber Co., Ltd., who has been offering an issue of half million dollars through the Montreal investment of J. Spencer Rogers & Co. The proceeds from this issue, it is understood, will be used for development of the company's largest pine timber tract in the Lillooet district of British Columbia, where they own an area consisting of 19,000 acres.

The company can utilize the Pacific Coast for shipment of its lumber from coast to coast, which will enable them to place their products in eastern markets at a much less expense than rail rates allow. Illustrating the importance of this, the Canadian Lumberman is significant.

The Canadian Deep Waterways and Power Association reports that scheme is now underway by which British Columbia will be brought to Toronto at the cost of \$10 per thousand feet less than the cost by rail. At the present time, one man is bringing two 2000 tons of lumber from British Columbia to the Pacific, Panama Canal and Lawrence to Montreal for \$20 a thousand feet board measure, or a total dollar loss than the cost if it were brought by rail. This same man estimates that he can bring the lumber to Toronto, if he can secure necessary barges, at from \$10 to \$15 per thousand feet less than it would cost by rail. If the St. Lawrence were deepened the large ships could come from British Columbia at a saving from Toronto.

Mr. Gaddon is also president of the Gaddon Lumber Co., Montreal.

**SPEAKING OF WIVES.**

"No gentleman's home is complete without them," avowed King Solomon.

"They are fast becoming a prime necessity in my profession," declared the famous divorce lawyer.

"But for them, my search for honest man would not have been worth the trouble," confided Dickens.

"When it comes to losing their heads over a man, the wives are every time," mused Henry VIII.

"As a religious obligation they are unexcused," contended the M. Mon.

"I am for them, with or without gustations," asserted Julius Caesar.

"It is my experience that they are the salt of the earth," observed I. J. S.

"Give me wives, dead or alive," marked Bluebeard.

"Wives—ah, yes, some day I shall write a book about them," volunteered H. G. Wells—Life.

Steel of Canada in 2,450 Share Day Continues Steady Collapse.

Montreal, June 20.—Sentiment, which at the week-end had been optimistic, changed today as increased liquidation made its appearance on the local stock exchange, and at the end of the day's trading only one issue in the general list was able to show a net gain in price, that issue being Howard Smith, which advanced one point over the week-end, close to 71 with 70 bid for stock at the close and none offered.

The day's largest loss was made by Steel of Canada, which declined to a new low level, for some time at 42 1/2, on a turnover of 2,450 shares. While the supply cleaned up, 43 was bid for more stock with no offers under 42.

Steel Company of Canada Issue An Official Denial of Report Circulated.

Montreal, June 20.—Denial that the Steel Company of Canada will reduce its dividend was made by telegram from Hamilton by President R. Riordan this morning.

The telegram, which was received by financial interests allied with the company here also stated that no cut had even been considered by the board of directors.

A despatch from Hamilton last night credited Cyrus A. Birge, a director of the Steel Company of Canada, with suggesting that a cut in the dividend will be made.

## Wheat Market

Winnipeg, Man., June 20.—The local grain market was very quiet today, with prices sagging to some extent through lack of support rather than from any pressure of offerings. After opening lower July wheat dropped to \$1.22 3/8 and October to \$1.35. Some reaction was recorded later and the market closed 5/8 to 2 1/4 cents lower.

A scarcity of offerings was responsible for an extremely dull session in cash wheat. The demand was good and the premiums increased.

Cash oats were much in the same position as wheat, and the spreads were somewhat higher. Close: Wheat—July, \$1.74 3/8; October, \$1.86.

Oats—July, 46 1/2; October, 45 1/2.

Cash prices: Wheat, No. 1 Northern, 1.85 3/8; No. 2 Northern, 1.83 7/8; No. 3 Northern, 1.77 7/8; No. 4, 1.67 1/8.

Track Manitoba, Saskatchewan and Alberta, 1.74 3/8.

Oats—No. 2, c.w., 47 3/4; No. 3, c.w., 43 3/8; extra No. 1 feed, 43 3/8; No. 1 feed, 41 1/2; No. 2 feed, 40 1/2; track, 40 1/2.

CHICAGO

Chicago, July 19.—Wheat, July, 1.27 1/8; September, 1.30.

## STOCKS DRIVEN TO LOWEST FOR TWENTY YEARS

Wave of Liquidation Works Havoc With the Best Wall Street Securities.

### INVESTMENT RAILS ARE HIT HARDEST

Canadian Pacific Down to 101, the Lowest Quotation in Twenty Years.

New York, June 20.—Another wave of liquidation swept the stock market today. Many important shares were driven to lowest quotations for five to twenty years.

The decline was more embracing and violent than any movement since the week, being accompanied by a turnover of 1,235,000 shares. Confident operations of the short interest contributed to the demoralization.

Investment rails figured conspicuously. Canadian Pacific extended last Saturday's break of five points with an additional loss of four points to 101, its minimum quotation since 1901.

Other gilt-edged rails, notably Union Pacific and Reading and Norfolk and Western, together with a score of junior or re-organized issues, forfeited one to four points.

Greatest weakness was manifested, however, by steel railway equipments, oils, motors, shippings, tobaccos and the food group. Sears Roebuck, May Department Stores and Famous Players helped to swell the reaction which culminated with an other break in Mexican Petroleum.

United States Steel made its lowest of five years in the final dealings falling to 71, a loss of 3 1/2 points.

Call money opened at 5 1/2 per cent but eased to five toward the close. Time rates were quotably unchanged, but offerings were scarce.

Foreign exchange were mixed. British, French, Belgian and German rates eased, but Dutch, Italian, Swiss, Scandinavian and Central European bills held firm to strong.

Liberty bonds and most foreign war notations were not materially affected by the weakness of stocks, but domestic rails especially convertible bonds, were heavy. Total sales, 1 1/2 value, aggregated \$12,450,000.

## IN THE PUBLIC EYE

HON. P. J. PARADIS

Hon. Philippe Jacques Paradis, Quebec, Que., president of Asbestos Manufacturing Co. Ltd., whose factory is situated at Lacine and offices at Montreal, began his business career with W. R. Johnston and Company, Toronto, and subsequently engaged as a merchant in asbestos products.

He established present business in 1912. Mr. Paradis was president of the Canadian Club during 1915-1916; member legislative council, Province of Quebec, since 1916, and chief Liberal organizer since 1908. During the war he was president Victoria Loan committee, Quebec district and president Canadian Patriotic Fund.

His interests include real estate, stocks, bonds, oil, motors, shippings, tobaccos and the food group. Sears Roebuck, May Department Stores and Famous Players helped to swell the reaction which culminated with an other break in Mexican Petroleum.

United States Steel made its lowest of five years in the final dealings falling to 71, a loss of 3 1/2 points. Call money opened at 5 1/2 per cent but eased to five toward the close.

The German Foreign Minister Makes Facetious Comment on Capitol "Tennis."

SEES THE HUMOR IN "PEACE" DEBATE

Works Hard Every Day—Regarded as Sane and Safe Man for His Job.

Berlin, June 20.—When shall we have peace with America? Baron Rosen, the German Foreign Minister, asked your correspondent yesterday.

I had been asked this identical question by the janitor of the Foreign Office, by Count Bernstorff, by Dr. Pfeiffer, the new power behind the republic, and, in fact, by every German at the first meeting, but Baron Rosen alone betrayed a sense of humor.

### AROUND THE CITY

#### ST. JOHN (STONE) CHURCH

A meeting of the congregation will be held in the school house this evening at 8 o'clock to nominate a Rector to succeed the Rev. Canon Kahrins, who recently resigned.

#### NOTIFIED OF WAGE CUT

Local lumber interests have notified the scowmen that the rate of wages will be \$4.50 for a nine hour day instead of \$5.00. They say the cut is necessary owing to conditions in the lumber industry.

#### PAY DAY AT CITY HALL

A total of \$12,372.65 was disbursed yesterday at City Hall for the fortnightly payroll. The amounts paid were as follows: Market, \$221.70; sundry, \$1,518.49; ferry, \$1,853.50; officials, \$2,222.56; police, \$2,222.56; fire and salvage corps, \$2,765.83.

#### EXPRESSED DISSATISFACTION

Considerable dissatisfaction was expressed by the crowd yesterday at the lack of a proper crossing at the foot of Waterloo and Brussels streets. Two narrow plank ferries, one on each side, crossing that was provided for the crowd who wished to get over the dug up section of the street car tracks.

#### ARRESTS

Matthew Tobin was given in charge by Detective J. B. McMahon, of the Sells-Floto detective force for transportation to the United States. Albert Sullivan was arrested on a warrant by Detective Biddecombe and Donahue yesterday afternoon on a charge of carrying a serious offense against a fifteen-year-old girl. Two drunks were arrested during the afternoon.

#### POLICE OFFICERS DINE

The fifteen of the cops who did duty on the circus grounds yesterday were the guests of the Sells-Floto people at the ten hour dinner. They were very appreciative of the big employees tents along with the acrobats, bareback riders, clowns, and others. The officers said it was the first circus that had ever so remembered them, and that the meal they were served was a rattling good one.

#### MISSING SINCE FRIDAY

George Barnett, a ten-year-old boy, is missing from his home at 38 Saint Andrews street, and his father, E. Barnett, is very anxious about him. He left home on Friday morning about 10 o'clock with a No. 3 auto coach, brown pants and a coat dyed blue with plaids on each side, and a belt. His hair is cut short. Mr. Barnett asks that anybody having word of him send him notice.

#### RETURN FROM VACATION

Policeman Story returned to duty yesterday, after spending his two weeks' vacation in Boston and New York. The officer reports the weather being experienced in the States as present as very warm. Work, he said, was still slack in the States, although considerable building was going on. Sugar, he says, is selling in Boston groceries for from 5 to 7 cents a pound. One store is selling it for three, if groceries are included in the order.

#### WHO WILL RESPOND?

Retained soldiers who are patients at the County Hospital would be greatly benefited if the States at the view of the surrounding country and of the harbor if a few binoculars were available. It was suggested that there are probably a considerable number of people here who would be willing to present glasses to the institution if they knew that the patients would thereby be enabled more pleasantly to while away the long hours of illness. Donations should be sent to Dr. Parris.

#### TO PAINT BRIDGE

A. R. Wetmore, provincial engineer, was in the city yesterday morning on his way to inspect some bridges in Charlotte county. While here he inspected the highway bridge across the reversing falls, which will be painted in the near future. The contract has been granted to the Dominion Bridge Company for the removal of the old paint by sand blast and the placing of three new coats on the structure, which will cost only \$900 more than one coat would have cost in 1918. The company will use for the sand blast work the big air compressor which they are now using on the erection of the new C. P. R. bridge across the falls and which will give 100 pounds pressure on each nozzle. The Shields, of the Bridge Inspection department, has been appointed by Mr. Wetmore to do the inspection work while the painting is in progress.

### Sells-Floto Circus Made Good In City

#### Circus Acts of Class Entertained Two Large Audiences.

Oh! You Circus Day. It was here yesterday, and it was an ideal day for the Sells-Floto display of circus talent. Advance notices of the big show had the public keyed up to something beyond the average in circusdom, and the large audiences at the two performances were not disappointed. In quantity and quality it leaves nothing to be desired. It covers all departments and its many new, unique features are worthy of the heavy patronage it received.

#### "Poodles" a Wonder

"Poodles" Hannaford was the big top liner, and he was some "liner." But he was not alone, as there were other features sharing the honors with the Hippodrome clown, "Peggy," in his burlesque riding, set the crowd in an uproar which continued for the duration of the act. The work of the Hannafords was a revelation to local circus-goers, as the like of it has never before been presented in this city.

#### Other Features

There was Beatrice, the human top, who tied herself into a double bow knot and twirled unceasingly like some wild dervish. Then there was Victoria, the genius of the aerial wire, who thrilled the old-timers. Another thrill was presented by Alfredo, the mid-air triple somersault.

Herberta Beeson, known as Pavlova of the slack wire, is a feature that ranks with Poodles Hannaford. She dances all the different steps on the slack wire with an ease and dexterity that is surprising. She runs, leaps, balances, turns somersaults, does cake-walk, one-step and all other dances with ease and in perfect time with the excellent band that furnished music for the two hours' performance.

#### Other Attractions

Other numbers worthy of mention are the Hobson and Hodgini troupe; aerial troupe supporting the Codons, Nelsons, Luckeys, Sweeneys, Newtons, Rowlands, Hamiltons, La Perrier and the Lindseys who display stalling Lovely Victoria and romping Bertie Beeson; sensational acts featuring the Steiners, the Hamlets, the Street Barlow, the LaFleur, the Otawaga and the Deine troupe, and aerial, acrobatic comedy, animal equilibristic, gymnastic acts by the dozen. The street parade, which took place at 10.30, was a splendid spectacle and a credit to the management. The horses were all fat and healthy-looking, the costumes made of costly materials and very pleasing to the eye. The display of animals was much beyond the average, the cages all being kept in last year's pack of sardines, which thousands watched the parade and pronounced it the best ever.

### Sardine Fishing Quite Inactive

#### Only One Factory in Operation on This Side of the Border.

J. F. Calder, of Grand Manan, Fisheries Inspector for the Bay of Fundy, was in town yesterday. He reported a good run of codfish in the bay and pollock fairly plentiful. Owing to the prevailing market conditions, he stated that practically no sardine fishing was being done this season. Connor Bros., at Black's Harbor, have the only factory operating on this side of the line, and there is only one sardine factory operating on the Maine coast, although four more are opening at Lubec this week.

Much activity is being displayed in last year's pack of sardines, which are moving rapidly, though the packers are disposing of them at a considerable loss to ease their stocks for this year's pack.

#### More Profits Expected

Owing to the readjustment in wages, raw material, etc., this season is expected to be a much more profitable one than last. There is a reduction of thirty-three per cent. in cotton seed oil alone. The serious depression which has existed in the sardine market, and the lack of a market for smoked herring, has caused many of the Grand Manan fishermen to refrain from putting up their wares this season.

Mr. Calder said that while salmon fishing in the bay is good, a light run is being experienced in the harbor, and up all the rivers. This he ascribed to the low water prevailing through lack of freshets, inducing the salmon to prefer the bay to their usual spawning grounds up stream.

### CIRCUS PERFORMER KICKED BY HORSE

Miss Marie Bridgford, one of the aerial performers with the Sells-Floto show, received painful injuries yesterday morning as the big street parade was forming up at Haymarket Square. "Sunrise," a spirited cream-colored horse which was much admired in the ring later in the day, became restive and suddenly kicked out, striking Miss Bridgford, who was riding her white mount Robin. The young lady received the blow just below the knee and was taken to the Park drug store, where she was treated by Dr. James McCourt. She was unable to take part in the parade, or in either of yesterday's performances.

### TEACHERS ENTERTAINED

Teachers of the Free Kindergarten were entertained at the home of Miss Lou Estey, at Westfield, Saturday afternoon, enjoying picnic tea in the lawn.

### FILED TODAY

The city assessment book has been sent to the bindery and will be filed today, Chairman Olive of the assessors stated yesterday.

### City Billed For \$1,000 Damages

#### Charles Donald Claims This Amount as Result of Explosion at Newman Brook.

A bill for \$1,000 damages claimed to have been done to the house of Charles Donald, Adelaide Road, by the explosion at the Newman Brook work some weeks ago, was received and read at the committee meeting of the common council yesterday morning and referred to the commissioner of water and sewerage and the city solicitor for a report.

A notice from the provincial government that the amount uncalled for by the city under the provisions of the housing act, has been cancelled was read and referred to the housing board for a report.

A communication from J. A. Barry, that a carload of the Londonderry pipe, offered the city some time ago, was here and offering it to the city was read. The sizes in the carload were \$16.12 inch. Commissioner Jones said he was in favor of purchasing. The matter was left to the commissioner of water and sewerage and the city engineer to bring in a report.

On motion of Commissioner Prink the C. N. R. were given authority to make some borings on Lombard street, the street to be used not more than five days.

### Free Fight On Brussels Street

#### Several Men Engaged in Head Pounding Early This Morning—All Make Getaway.

About 1.45 o'clock this morning there was a fight on Brussels street that caused some excitement, and the reason that some person was not seriously injured was a mystery, for it is reported that bottles and stones were used freely. Some of the men engaged in the fight were quite badly injured, but other than black eyes and slight scalp wounds they were enabled to get away from the scene before the police arrived. It is reported that a number of men were engaged in the fight which was a free for all, and while it lasted only about five minutes there was something doing every minute. The coast was clear when the police arrived and accordingly no arrests were made.

### Special Meeting St. John Presbytery

#### Accepts Resignation of Pastors at Harvey and Plaster Rock Handed Into Presbytery.

A special meeting of the St. John Presbytery was held at St. Andrew's church Monday afternoon, to act upon the resignation of Rev. J. F. McKay, of Harvey, who has received a call from Moncton, N. B. He has accepted the call and the Presbytery at yesterday's meeting granted his resignation to take effect on June 30.

Mr. S. B. Hunter, M.L.A., testified, on behalf of the Harvey congregation, to the good work Mr. McKay had done and to the great sorrow of the people at losing him. Rev. Dr. Sully, of the Westchester, was appointed moderator of the session at Harvey. Rev. William Swan, Plaster Rock, tendered his resignation of the charge which was accepted, to take effect at the end of the month.

### Explosive Laws Must Be Obeyed

#### Fine of \$200 for Unlawful Keeping of Dynamite Imposed in Magistrate's Court

A fine of \$200 for unlawfully keeping a quantity of dynamite in a shed on Adelaide street on April 20 was imposed by Magistrate George Moses in the police court yesterday. The action was brought at the instance of the Federal Government, which was represented in the case by Dr. F. R. Taylor, K.C., who stated that as the defendant had pleaded guilty, and had been ignorant of the regulations, there was no desire to prosecute. The action to press the charge.

Dr. A. E. MacIntyre, chief explosive chemist, explained that the action under an order-in-council of March 6, 1920, which dealt with the keeping of explosives in other places than in factories and magazines. Any explosive, whether or kept under the supervision of Dr. MacIntyre and his staff, who have power to regulate the manufacture, storage, management and transport by rail (except by rail ways). The rules and regulations governing the use of dynamite and other explosives are now very strict, and anyone violating them will be prosecuted immediately. He advised all those handling explosives to apply to Ottawa for the order-in-council governing the use as an excuse of the law would not in future be taken as any excuse.

Five drunks were brought in for a "once over" and then sent back to the cooler. Three bottles of lemon were found on one of them.

Thomas Evans, charged by the board of health with remaining in the street after dark, was fined \$5. He said he had no place else to go and it rained out of the house would have no home. Dr. J. Roy Campbell, K.C., appeared for the defence of health. The accused was fined for non-compliance with the board's regulations and proscribed to evacuate.

### Three Year Old Lad Started for Circus

#### Became Lost and Was Cared for by Police Till Parents Arrive.

Little three-year-old Walter Chase of Lombard street, decided it was up to him to give the circus the "once over" yesterday afternoon, so driving bravely out from home he followed the crowd on their way to the big show. It was not until the little chap had reached Haymarket Square that he realized he was lost. A friendly cop took him in tow, however, and brought him to the police station. Walter was not at all abashed by his new surroundings, and after having a chat with the deskman and patrolman, decided to have a nap. He laid down on the officer's cot and was asleep in a sound sleep when his parents arrived to take him home at about eight o'clock in the evening.

### PERSONALS

Mr. and Mrs. Aubrey Schofield of Montreal, were among the out of town relatives at the wedding of Miss Agnes E. Barron and Mr. John Russell Crockett, which took place at the First Presbyterian church, London, Ont., recently.

Mr. and Mrs. H. P. Timmerman of Montreal, will leave towards the end of the month for Duck Cove, N. B. Their son, Mr. Everett Timmerman, who received his B. Sc. degree from McGill this year, is already occupying their cottage at Duck Cove.

### HONOR GUARD GENERAL

Ottawa, June 20.—On the even of his departure for Ottawa, His Excellency the Duke of Devonshire, in his capacity as chief scout of the Boy Scouts' Association for Canada, attended a meeting of the Canadian General Council and was presented with an album illustrative of scouting activities throughout Canada.

### Well Baby Clinic To Be Established

#### Will Be Under Direction of Victorian Order of Nurses and Valuable Assistants.

It is proposed to open shortly in East St. John a Well Baby Clinic under the direction of the Victorian Order of Nurses, assisted by Mrs. Arthur Burditt and Miss Eleanor Burditt. Excellent Child Welfare work has been done in East St. John. This clinic is another step forward in the improvement of health and in the spread of knowledge regarding the latest methods of caring for infants.

### Working For a Community Centre

#### Matter Strongly Advocated by Mrs. John McAvity at Y. W. C. A. Directors' Meeting.

In her address at the regular meeting of the Y. W. C. A. board of directors yesterday, Mrs. John McAvity, president, advocated strongly the necessity of working for a community centre in St. John where all women's societies could be housed.

The physical culture secretary reported much activity in that department. The C. G. I. T. Camp list is filled with twenty more girls in readiness to go. Three tents are necessary if any more girls are to be taken, and if provided, those who are most in need of the tenting will be enabled to have the vacation in the country.

A very busy month was reported by the "Travelers' Aid" Department. This is the first report received since the joining of this work with the immigration department. Among the cases assisted was a young Spanish girl, who has been in New Brunswick two years and has not learned English, yet, although speaking French. Young children and aged persons have been helped and several large families are being cared for.

In detail the report stated: Train and boats met 322; persons brought to transient home 91; assisted at depot, 123; employment found for 14; and William Shaw was gathered in for lying and lurking in C. N. R. passenger coach. One protectionist was also taken under cover for the night in the central police station.
