House in committee on Caie's bill to provide for the erection of fences around the Kouchibouguae Beaches.
Attorney General, Wedderburn and others thought it might interfere with shore rights etc. and it would not be well to pass it without some atterations.
In course of discussion the Secretary said that he hoped the House would not separate without considering the bill sent down from the Legislative Council affecting the Campobello Fishery matter, as he was a fraid that if it was left in its present state there would be blood shed. The Americans now come along and clear out the wiers set by our people in tront of their very doors on the shores.
Caie's bill was passed with an amendment.
Gough came in and asked to have his

Seventeen Millions and a Quarter. Of this, 65
Seventeen Millions and a Quarter. business, (December earnings estimated) reach Seventeen Millions and a Quarter. Of this, 65 per cent, is from Local business, and, it is stated. fully 55 per cent., or nearly Nine and a Half Millions, are net over operating expenses, An equal traffic on the Northern Pacific Road will pay a dividend of more than 91/2 per cent. on its total cost. With its great and unquestion advantages in distance, grades, climate and tributary fertile country, the Northern Pacific is assured of a vast and profitable business from he outset, with a large increase for the future.

The Value of Land Grants. The average price at which the twenty-six leading Land-gran Railroads have thus far sold their lands, is \$7.00 per acre—the highest average of any grant being \$13.98, and the lowest \$3.07. With few excep tions, the average selling price has steadily in-creased from year to year. The lands of the Northern Pacific Road are admitted, by all who have seen them, to be better and more salable than those of most other grants, but, sold at the general average of \$7.04 per ac:e, they will yield more than \$161,000 per mile of road—more than three times the possible cost of construction and equipment; or, at the lowest average of any grant (\$3 07), they will produce more than \$70, 000 per mile. These facts regarding Pacific lroad earninge, and the market value o Railroad Lands, as shown by actual sales ettlers, show the three-fold security of Northern Pacific Railroad Bonds. Construction. The road is now complete across Minnesota, (255 miles); work is progres

ng westward through Dakota, and 65 miles a under construction on the Pacific coast. In luding purchased lines, the Northern Pacific company now has under its management 575 iles of finished track. Contracts are let for the struction of 635 miles more, to be finished pefore the close of 1872. The 7 30 Gold Bonds. The first mortgage The 730 Gold Bonds. The first more age bonds of this company, which, after full investigation, we strongly recommend as a reliable and unusually profitable investment, and which now stand among the solid and favorite securities of the country, have the following leading features;

1. They are exempt from United States tax: the Principal and Interest are payable in gold the principal in 30 years, and the interest semiannually at the rate of 73-10 per cent. per annum, Denominations, from \$100 to \$:0,000, Present selling price-par and accrued interest United States currency at pres nt rate of 2. The bonds are a first and only Mertgag on the Road, its Equipments and Earnings, and also on a Laud Grant which on the completion of the Road will average 23,000 acres to each

3. They are at all times receivable at 10 per cent, premium (1.10), in payment or exchange for the Company's Land at market prices—a provision which practically gives the holder the power of foreclosure at will. 4. The proceeds of all sales of Land are re quired to be devoted by the Trustees of the bondholders, (Messrs. Jay Cooke and J. Edga nompson), as a Sinking Fund to the purchase and cancellation of the first mortgage bonds, or emporarily to the payments of interest thereon f necessary. Exchanging 5 20s. In view of the ability and fixed policy of the Government to call in its 5-20s and substitute a low-interest bond,— \$140,000,000 having been called in for cancel lation since September 1st—many holders of 5-20s are exchanging them for Northern Pa-cifics, thus adding to their principal the present premium on Government Bonds, and increasing their yearly interest income nearly one third, All marketable stocks and bonds will be received at current prices in exchange for Northern Pacific Seven-Thirties without ex-

oense to the investor.

A well assorted stock of

New York Sun for 1872. TO ALL WHO CAN READ.

The New York Weekly Sun Doubled

With the beginning of 1872, THE WEEKLY UN has been doubled in size. It now contains eight pages instead of four, making it equal in ensions to any other weekly secular journal published in this country. At the same time its price has not been increased. It will be furnished to subscribers at the uniform rate of one dollar a year for each copy. To this rate no exception will be made and no reduction will be possible, either to clubs or agents. Every ubscriber who sends a dollar will receive a copy for a year.

While THE WEEKLY Sun thus furnishes as much reading matter as other papers published at double or treble the price, it will contain new features which will add greatly to its interest and value as a family newspaper. Its inde-pendence of opinion, and its unqualified hostility to Tweedism and Grantism, and every MANTEL PIECES, form of public robbery, bribery, and corruption, will be maintained, while in point of political news its readers may rely upon always receiving nlargement enables us also to devote additional o print interesting stories and romances more reading, presenting the quaint and humorous aspects of life, and for useful information repecting not only what takes place in this metropolis and this country, but in all other parts of the world, we now have ample room. In its new form The Weekly Sun is the cheapest paper of its class in the United States: and we appeal to such of our readers as approve its ideas and objects, and find it interesting and valuable, not only to renew their own subscripions, but to recommend the paper to their friends and neighbors.

in the history of the country. We are on the eve of a most significant Presidential election. and political movements will for many months be watched with unusual interest. As a journal, free from the trammels of party, THE WEEKLY Sun will continue to uphold the principles of true republican government. Its readers are invited to sustain it in that work. The truth irrespective of party prejudice or official in-

fluence, will always be told in its columns. Terms of the Weekly Sun-A journal containing eight large pages, published every Wednesday morning—To all mail ubscribers, whether single or in clubs, one dollar a vear each, always in advance. DAILY SUN, by mail, 50 cents a month, or \$6

SEMI-WEEKLY SUN, by mail, \$2 a year. Address THE SUN, New York City,
