## ADVERTISEMENTS.

### CROWN LAND OFFICE.

THE following amended Regulations, under the Labour Act, 12 Victoria, Chap. 4, are published for the information of the Commissioners and all others concerned.  
ROBT. D. WILMOT, Sur. Gen.

### Regulations for the Disposal of Crown Lands for the Labour on Roads.

Under the Act 12 Victoria, Chap. 4.

1. No land shall be sold under the above Act for less than three shillings per acre.
2. No land shall be sold to any person who is already the owner of other land; nor to any person who claims any land purchased from the Crown, for which the whole, or part of the purchase money has been paid, but no grant has yet issued.
3. No person shall be permitted, directly or indirectly to purchase under the above Act any more than one to one lot of land; and such lot shall in no case contain more than 100 acres, payable by labour.
4. Petitions for the purchase of land, payable by labour, shall be in the form shown in the Appendix, and shall be considered in Council only between the 1st day of March and the 1st day of June in each year; and all approvals of such petitions shall be announced in the Royal Gazette.
5. Every person whose petition is approved, shall, within three months after the publication of such approval, personally occupy the land so approved to him, and shall also, within the same period, make improvements thereon to the value of at least £10 currency.
6. No applicant shall be permitted to commence any labour in payment for land, until the approval of his petition shall have been announced in the Royal Gazette, nor until the land so approved shall have been duly surveyed, and also occupied and improved as provided by the 5th Regulation; and satisfactory evidence of such survey, occupation, and improvement, must be furnished to the Commissioner, before any work is laid out for the applicant.
7. All work under these Regulations shall be done at such time and place as may be directed by the Commissioner for the District, and the work to be done in each successive year by an applicant, shall not be of less value (including the fee to the Commissioner) than one fourth of the purchase money of his land, until the whole be paid.
8. The Commissioner shall be allowed a remuneration or fee of five per cent. of the purchase money of land sold under these Regulations, which shall be paid by the purchaser, on approval of his work, according to the value of the labour then performed, and it shall be credited as part of the purchase money.
9. Every applicant shall, on or before the 15th day of November next after the approval of his petition, furnish to the Commissioner of his District a certificate, or other satisfactory evidence, that he has occupied and improved his lot as provided by the 5th Regulation, and that the same has been duly surveyed.
10. Any person failing to produce within the prescribed time, the said proof of occupation, improvement, and survey, shall be considered to have abandoned his application, and the approval shall be forthwith cancelled, unless upon sufficient cause shown by him, the Lieutenant Governor in Council shall extend the period for such occupation, improvement and survey.
11. No approval shall continue in force longer than two years from its date, unless the applicant shall sooner have paid by labour, and Commission, at least one fourth of the purchase money.
12. Every Commissioner shall, on or before the 15th day of December in each year, make a return to the Provincial Secretary, showing the details of all labour performed under these Regulations, as well as all fees received during the preceding year, within his District; and also a list of all approved applicants in his District who have not furnished the evidence of survey, occupation, and improvement of the lots approved to them respectively.
13. If any applicant under the foregoing Act, shall remove, or suffer to be removed from his land, any timber, logs, or other lumber, before he shall have complied with all the conditions necessary to entitle him to a grant, the sale to him shall be cancelled, the timber, &c. seized and forfeited to the use of the Province; and he shall thereafter be excluded from any benefit under the said Act.
14. If any applicant for land under the said Act, shall be guilty of any misrepresentation, deception, or fraud, in his transactions with the Government, he shall not be entitled to participate in the provisions of the said Act, and any approval for land to him shall be cancelled.

15. In all cases where approvals shall be cancelled under these Regulations, no allowance will be made for any improvements on the lots so approved.

16. No person shall be entitled to a grant under these Regulations, unless within five years after approval of his petition he shall prove to the satisfaction of the Government, that he has paid the full amount of purchase money by labour and commission; that he is then residing upon the lot approved to him and has continued to do so for the last twelve months; and that he has cleared and cultivated not less than ten acres of the said land.

17. The Government reserves the right of granting licenses for the cutting of logs and timber on all lots of land sold under the above Act, after they have been surveyed and improved to the value of not less than £10, until the first day of May next following such survey and improvement.

18. All sales under the above Act shall be cancelled at the expiration of five years from the date of approval, unless the proofs hereby required be sooner furnished to the Government.

19. All petitions, heretofore approved under the foregoing Act are also hereby declared subject to the foregoing Regulations.

SANDWICH ISLANDS.  
We have dates from Honolulu to the 23d of March.

The king has called the Legislature to meet on the eighth of April.

The census returns of the Islands have been published. The population is 71,019, of whom 37,079 are males and 2,118 are foreigners.

### FROM CALIFORNIA.

The steamer Star of the West has arrived at New York with two weeks later from California.

The Star of the West brings 618 passengers, \$1,116,947 on freight, besides \$890,000 in the hands of passengers.

A summary of California news furnishes the following:—  
The incidents for the last two weeks are neither numerous nor startling.

The newspapers give encouraging accounts of the mining operations.  
Business continues to improve and the general opinion is that the state was never in a more prosperous condition. Sufficient breadstuffs will be raised this season to supply the entire state.

The suit of Thora and others vs. the City of San Francisco has been decided by the Supreme Court of the state in favour of the plaintiffs, and confirming their rights to all the city lands, valued at several millions of dollars.

Col. H. P. Watkins, recently convicted of filibustering, has been sentenced by Judge Hoffman to pay a fine of \$1500. Major Emery, who pleaded guilty to a similar offence, was also sentenced to pay a like fine.

The sloop of war Portsmouth sailed from San Diego on 4th of April for the Gulf of California, to look after the filibusters.  
Walker and his band have evacuated Lower California and are gone—no one knows where, but perhaps to Texas. They drove off 300 or 400 head of cattle belonging to the rancheros of Lower California.

Diggings which pay \$3 and \$4 a day have been discovered on Russian River, about forty miles northwest of Sonoma.  
On the morning of the 15th the steamer Secretary, which left San Francisco at 10 o'clock for Matambula, burst her boilers while crossing Table Bay, causing death and destruction in every direction.

The news from Mexico is of a highly interesting nature. Santa Anna had blockaded Acapulco, and the government troops and those of the revolutionary party are busily engaged in fighting.

### EARLY VEGETABLES.

Hardy vegetables may be planted as early in April as the ground will answer to work. Radishes, lettuce, cabbages, turnips, potatoes, peas, &c., for early use, may be planted on warm soils almost as soon as the frost is out. If very severe cold occurs after the plants are up, some straw or hem-ock boughs may be spread over them, which will be a sufficient protection, and may be readily removed when no longer wanted.

The best early varieties of peas are the Prince Albert, Early Kent, Early June, (or Washington), and the Cedo Nulli. The latter is a dwarf variety, requiring but little space, is prolific, and comes to maturity in about as short a time as the Prince Albert. The Early Kent is very popular in this neighbourhood, where it has been raised for a few seasons.

A good mode of raising early potatoes is to sprout the tubers in warm horse dung.—They may be placed in layers with the manure either on the ground or in a box or crate. If the potatoes, when packed for sprouting, laid on small pieces of tough sods, the grass side downwards, they may be planted with the sods, without breaking the sprouts or roots which will greatly facilitate their growth.—They should not be started too much before planting, as it is difficult to prevent the sprouts from being bruised or injured, if they are much more than an inch long. If planted very early, they should be put on a warm and rather dry soil, to avoid the liability of their rotting, if the weather is moist and cool.

There are several kinds of early potatoes, but no one kind has a universal preference.—There is much confusion in regard to the names of varieties. Sometimes several varieties are confounded under one name, but a more common difficulty is this:—that most of several names to one variety. There are several kinds, differing considerably in appearance and quality, which pass under the name of Early June. Some are round, others oblong; some yellow inside, others white. A kind introduced from England, and there known as Shaw's Early or Early Shaws, is very variously called by those names, as well Early June, Mountain June, Fort potato, &c. The true sort is white, both inside and out, roundish in form, tending to become oblong on rich soil, or when it reaches an unusual size. It is one of the best kinds within our acquaintance.—There are but few earlier kinds, and those few are poor yielders, and not superior to the Shaws in quality. They frequently grow to a size fit for eating in eight weeks from the

time of planting. When cooked before they are ripe, or while growing, their quality is superior to most kinds in the same stage. They are hardy, yield well, and keep well.—Maine paper.

### THE GREEK CHURCH.

The following notice of the Greek Church, which we find in "Spencer's Travels in European Turkey," will be read with more than ordinary interest at this important crisis.—The writer observes:—

"It is well known that the Greek Church, or as it is more generally termed, Oriental, arrogates to itself the title of being the only true and primitive church of Christ and differs from the Roman Catholic on certain theological questions, particularly in denying the Supremacy of the Pope, and also that he is the successor of St. Peter. We will however, leave these theological questions to be settled by the divines of each, and proceed to review those abuses in the discipline of the Oriental Church, which so glaringly obtrude themselves upon the attention of the traveller, and which prove that the Greeks are the same credulous people as they were in the days of the great apostle St. Paul, when he denounced their idolatry and superstitions.

"Among the long catalogue of abuses, there is none productive of more fatal results to the well being of society than the confessional—Equally open to censure is the avowed traffic, carried on by the clergy, in the sale of absolution.—Every crime has its price, from murder down to petty larceny, rising in proportion to the rank and wealth of the offender. Divorce is a dreadful source of corruption, even in the best ordered countries, when not restrained by the laws of a wise administration, but here, at the intercession of a husband or wife who is able to pay the clergy, the sacred tie of marriage is dissolved on the slightest pretence, and without a trial.

"Happily for the pockets of the poorer classes the expenses attending the ordinary services of the church are regulated by a Government tariff; but this does not include the superstitious ceremonies so peculiar to the Greek church, which ignorance and a designing, rapacious priesthood have perpetuated among the credulous multitude, and from long usage have become a part of religion itself.

"We will merely allude to a few of the most flagrant—the sale of amulets, relics, the exorcism of maniacs and idiots, the bewitching, those afflicted with the evil eye, the demagogue, &c., &c.—for all of which money is demanded. The prayers of the priest are also sought and paid for, to cure diseases in cattle, to preserve silk worms, to prevent the blight in corn and fruit trees; and if they fail it is not supposed to be the fault of the clergy, but the want of faith in those that purchased them! Then comes the blessing of the sea, the rivers, fountains, and springs by throwing little wooden crosses into them— to mention the unnumbered uses to which holy water is applied, all forming a source of profit.—Extreme unction, which must be performed by seven priests, and excommunication is entirely in the hands of a higher clergy and brings them a large income.

"Excommunication, so much dreaded by the Greeks, is not often inflicted, for a man once condemned by the anathema of his church, is expelled from society in this world and damned to all eternity in the next until when the threat is held out by those who have the power to execute it, the desired effect is certain to be produced upon a weak mind—the extortion of money.

"Fasting is considered in the Oriental church as one of the most important duties of a Christian; and so numerous are the days prescribed, that there are only a hundred and thirty in the year free from the obligation.—As for the vigils, they are without end. The long abstinence from nutritious food, particularly during the Lent, in addition to the unfavorable effect it has upon the health of the people, renders them morose, gloomy, and irritable; indeed it has been proved that more murders have been committed during Lent than at any other season of the year. These fasts are always succeeded by festivals then the number of holidays, the midnight masses, the endless processions to the shrines of some favourite saint, all tend to licentiousness, idleness, drinking, and carousing, in short, to the destruction of the morals and industry of the people.

"Again, the gross ignorance of the inferior clergy, not only in theology, but in the common rudiments of education, the dissolute habits of too many of the higher ecclesiastics, and the infamous practices carried on in the monasteries have become household words throughout all Greece; but what does this signify to a class who hold the power of confessing and absolving each other, and who, as they will, appear immaculate in the opinion of the ignorant multitude.

"The fanatic hatred of the followers of the Oriental Church against the Roman Catholics and the poor Jews, exceeds all bounds.—Protestants are somewhat in favour, not from any similarity in faith, but because they are

### THE IRISH GIRL'S STRATAGEM.

An amusing instance of Hibernian simplicity has afforded us the following little story, told us by a friend, in whose words we give it:—

"Molly, our housemaid, is a model one who handles the broomstick like a scepter and a sympathy for soap-suds that amounts to a passion. She is a bustling, busy, rosy-cheeked, bright-eyed, blundering Hibernian, who hovers about our book-shelves, making war upon our best papers, in the shape of damaged and unrighted corners.

"One day she entered our library in a confused and uncertain manner, quite different from her usual way. She stood at the door, with a lattice between her thumb and finger, which she held out at arm's length, as if she had a gunpowder plot in her grasp. In answer to our inquiries as to business, she answered:—

"An' it please yer honour, I'm a poor girl, an' I hain't much learnin', an' ye see, please yer honour, Paddy O'Reilly, an' the better than him doesn't brattle in ould Ireland, has been writin' me a lether— a love lether, please yer honour; an'—an'—"

"We guessed her embarrassment, and offered to relieve it by reading it to her. Still she hesitated, while she twisted a bit of raw cotton between her fingers.

"Sure," she resumed, "an' that's just what I want, but it isn't a gentleman like yerself that would be likin' to know or the secrets between us, an' so, here she twisted the cotton quite purposely if it'll only please yer honour, while yer tradin' it, so that ye need not hear it yourself, ye'll list put this bit of cotton in yer ears an' stop up yer hearing, an' this the secrets'll be unbeknown to ye!"

"We hadn't the heart to refuse her and with the gravest face possible, complied with her request; but often since, we have laughed heartily, as we related the incident.—N. Y. Journal.

Railroad to Miramichi.—We hope that the Northern members, will insist next winter, that the Railroad from Shediac to Miramichi, shall be commenced next Spring at the latest.

The survey has already been made by Mr. Jackson, the route is entirely level. There has been no contract, however, entered into for the building. Mr. J. promises to make a contract after the Shediac and St. John lines are done, upon the same basis. Now as there are lots of revenues pouring into the chest, and as our line will not (according to our belief) be completed before 1857, why should we stand still and await the convenience of any one man or set of men? There are plenty of people in the United States who will be willing to build our short lines, and as we shall have lots of money coming in this year, we say to the people in the North insist upon your members taking hold of Railroads independently of Mr. Jackson, or any body else. Mr. J. seems to have as much as he can attend to already with us. Let us also take into consideration the branch line leading to Cajiao. If we do not use the public money upon public works, they will be squandered as usual.—Morning News.

# Arrival of the "Europa."

Great Battle on the Danube.

New York, May 19. The Europa arrived at 1 o'clock. Flour declined 64; Corn 28. Markets steady. Arrivals of foreign breadstuffs large, little speculation and trade generally steady, with no quotable change in prices from previous reports.

Consols closed 87 1/2 to 87 1/4. Pitched battle on the 18th and 19th. Omar Pasha 60,000 Turks and Russians under Gen. Liders. Russians retreated behind Czwarvona with loss of many guns, baggage, military chests, &c.

Up to 23d Silistria undamaged amidst continued attacks. Greek insurgents beaten in every quarter, almost whole Grecian coast blockaded by allies.

Allied fleets had bombarded Sulina. No details.

Napier's fleet quiet near Stockholm. Much excitement caused by the reported capture of French brig by American privateer Grapo Shot. A British steamer sent in pursuit.

## By Telegraph.

New York, May 23. The Steamship Franklin arrived at Sandy Hook, New York, at 10 1/2 o'clock a. m. on Monday.

Liverpool dates are to the 10th May, no special war news. Consols rose to 88 in consequence of the Chancellor of the Exchequer's Budget, announcing that the National Loan will be raised for War purposes.

Paris Bourse rose on report that Denmark and Sweden joined the Western Powers.

Austria has presented fresh terms to Russia, if declined she will join English and French.

Reported that Russian Fleet sailed from Helsingfors May 5th, when Admiral Napier signalled Allied Fleets to prepare for Sea immediately.

Corn unchanged. Floor, extensive demand with advance of 1/2. Corn advanced 1s. London. Money market easier. Arctic not arrived out.

## ODESSA.

on the Black Sea, which has been bombarded by Admiral Dundas, contains a population of about 90,000. It is the emporium of the South of Russia, and is built on cliffs rising above the sea and forming an amphitheatre around the bay; it is fortified according to the modern principles of defence, and the citadel, on the east side of the town, commanding the port. "The port is formed by two large moles, one of which is regularly defended by a parapet with embrasures for the cannon, the anchorage in the bay is good, and the water so deep that vessels of the first class lie within reach of the shore."

## EMIGRATION TO BRITISH AMERICA.

We are glad to find that the emigration from Ireland begins to be more extensively carried out to British America than it has hitherto been. Until very lately New York was the great point of attraction to which every Irish farmer and peasant bent his course, now Quebec appears to be gaining the preference, and we hear that several ships are fitting out in Queenstown for the conveyance of emigrants to different parts of our North American colonies. It is true that, for several years past, emigration has been going on from Ireland to these localities, but we think it will be found that more than three-fourths of the Irish emigrants betook themselves to the United States. They all flock to New York, under the impression that they had there a better chance of getting immediate work; but they will find that at present labour is as much in demand in every part of British America as it is in the United States, probably more so; consequently, no doubt, in some measure, on the formation of the railroads now in progress throughout the dominion, and wherever the communication is thus opened up cultivation is sure to follow. The three several provinces of Canada, Nova Scotia, and New Brunswick, in our opinion, offer every advantage which they could desire to those emigrants who are either not inclined, or have not the means to seek a new home at the antipodes. Waste and unoccupied land is as yet abundant in these provinces; and from the well known fertility of the soil, is certain to reward the skill and labour of those who cultivate it. In wheat especially, Canada is known to be most productive; and recent events show that it is advisable to encourage its cultivation in our own colonies, where it will be beyond the control of an enemy and the contingencies of war. The cultivation of wheat is known to have increased in Canada within the last three or four years, and the colonists now see how much it is to their advantage to encourage it, as they are certain to find a ready and profitable market for as much as they can export. We see, in the increased number of emigrants now turning their attention to the British colonies, instead of to the United States, the most promising prospects to the colonies, and we have little hesitation in saying that, before many years elapse, they will be among the most valuable possessions of the British Crown.—Shipping Gazette.

## Trial of Major Wyse.

At the trial of Major Wyse, yesterday, the Port Warden, several insurance Office inspectors, and a host of nautical men were called for the defence, and they all agreed in declaring the Falcon to be an unseaworthy vessel. She was classed as A. 3 on some of the insurance office books, while on others she was struck out altogether.—ib.

## BY AUTHORITY.

By His Excellency Sir Edmund Walker Head, Bart., Lieutenant Governor and [L.S.] Commander in Chief of the Province of New Brunswick, &c. &c.

## EDMUND HEAD.

## A PROCLAMATION.

WHEREAS the General Assembly of this Province stands prorogued to Monday the twenty second day of May instant, I have thought fit to dissolve the said General Assembly, and the same is hereby accordingly dissolved; whereof all persons whom it may concern will take due notice.

And I have further thought fit to order and direct that Writs for calling a new General Assembly be forthwith issued in due form, returnable on Monday, the thirtieth day of July next.

Given under my Hand and Seal, at Fredericton, the nineteenth day of May, in the year of our Lord one thousand eight hundred and fifty four, and in the seventeenth year of Her Majesty's said Majesty's reign.

By His Excellency's Command. J. R. PARTELOW.

THE ELECTIONS—are now creating considerable excitement, and the contest is likely to be a severe one in this City and County. Requisitions, numerous signed, are, we understand, being got up to Mr. Partelow, and to Messrs. Simonds, Ritchie, Tilley and McLean. The talk at the corners is, that Tilley will go in for the City by an unanimous vote—that Harding will beat any opponent yet spoken of—that Partelow will head the Poll for the County; McLean and Ritchie next, and that the tie for the fourth man will be between Wilmot, Simonds, and Godard. This is only talk, however.—[Courier.]

STOCKS.—We hear that some shares of Commercial Bank Stock changed hands this week at 12 1/2 per cent. premium, and some Suspension Bridge Stock at par.—ib.

We are gratified to notice among the Admiralty promotions the name of Mr. Wm. F. Huyghue, of this City, who has been serving as Clerk in the Impregnable flag ship, at Devonport, for some years back. He has now been promoted to be a Paymaster, and appointed to the Alger. He is a son of Samuel F. Huyghue Esq., of the Ordnance Department at this station, and served some years in the Imperial Customs at this port.—ib.

We learn from many reliable authorities that our prognostications last Autumn on the subject of the Lumber Trade, are, notwithstanding the high current prices, on the point of being too generally fulfilled. The unprecedented high prices paid for supplies and labour have absorbed the greater part of the profits of the operatives; while on account of the number of instances in which the farmers carried away their hay and oats for consumption in the woods, their stock at home have been left to perish. To add to this calamity, the Freshet in the St. John River and its tributaries has risen to a pitch which already has swept away vast quantities of boom poles, logs, and timber, in indiscriminate masses to the sea. Some of the property thus floated off will be found at Indian Town, some will be secured at the Fredericton Booms, but much more will never be seen by its rightful owners.—Fred. Reporter.

It is said that the New Brunswick Delegates on the Fishery question, will be the Hon. Messrs. Chandler and Hazen, both members of the Legislative Council.—ib.

The present Freshet is the highest which we have had at Fredericton in the last twenty years.—ib.

It is currently reported that another Episcopal Church will shortly be erected in the City of Fredericton, and we have little doubt of the correctness of the statement, as the individuals associated for the purpose are able as well as willing to effect their praiseworthy object.—ib.

The nominations made by the Orangenemen of this County in prospect of the approaching election are,—Charles Fisher, James S. Berk, W. H. Needham, and Thomas Pickard, Esquires. The Card of the latter, gentleman will be found in this paper, as will also that of Mr. Kerr.

We are also informed by the Head Quarters, that Mr. John Hen, of Prince William, is a candidate; and we neglected to mention before, that Mr. John H. Reed has announced himself—his policy being that of sustaining Agriculture, and the destruction of "Beas and Wolves." We ardently trust that the ravenous animals alluded to will ever find a formidable opponent in Mr. R.—ib.

The Fisheries.—We learn on good authority that the convention of Commissioners from each of the North American Colonies will be held this summer at Montreal, and not at New York, as has been stated. We hope the American Government will have something good to offer to the Colonies in return for the valuable fisheries which our neighbours are so anxious to obtain, but for our part we cannot see that this Province has much to gain at present by giving up the fisheries, as we have now plenty of business, prosperous times and, everything that could be desired. A few years ago, this was not the case, the Province was depressed and anxious to obtain reciprocity with the United States on any terms, but as they were then so very indifferent about giving any concessions to the British Government, for the valuable privileges wanted by them, we think we are getting along very well indeed without their assistance, and perhaps had better just hold on to our fisheries in the meantime unless they are willing to meet the

views of the British Government on fair and equitable terms of reciprocity in Registry of Ships, Coasting Trade, and Duties.—St. John Courier.

## LIST OF CANDIDATES.

John McAdam, A. H. Gilmour, J. G. Stevens, James Brown, James Boyd, J. W. Chandler, G. J. Thompson, Jas. Wetmore, Isaac Knight, Wm. Meloney.

In our next, we trust we will be able to complete the list.

DISSOLUTION OF THE ASSEMBLY.—His Excellency the Lieut. Governor, has issued a Proclamation bearing date 19th May, dissolving the General Assembly. The Writs for a new Assembly are returnable on Monday the third of July next. The High Sheriff of Charlotte has received the Writ, which with the days of nomination and declaration will be published in our next number. We understand that the NOMINATION will take place on the 17th JUNE, the ELECTION on the 24th, and the DECLARATION of Members elected on the 1st JULY.

CANVASSING—the work goes bravely on. The desire for Parliamentary distinction is a plant that appears to thrive well in Charlotte County. There will be no lack of "good men and true" to select from, as may be seen from the list which we publish under our editorial head. It cannot be that parties offer themselves as Representatives, merely for the paltry emolument of fifteen shillings a day, or the small patronage which lies in their gift, for as has been observed "where it secures a single friend it makes a dozen enemies." Besides much of the patronage hitherto enjoyed by the Representatives will soon be out of their hands—that is if the people only desire it, by adopting Municipal Corporations as they will then have the bye Road money granted to the Council in gross to be expended as they may deem proper.

After all that has been said with respect to these Bye Road Grants, we can scarcely credit their being so important aid at elections; it is but a poor compliment to pay any independent freeholder to say that he was bought over by a paltry by road grant. There will be, no doubt, for the next few weeks, considerable shaking of hands, and kind enquiries for "the family, and admiring the fine children, &c.;" this is now as it has been from time immemorial a common custom—and our view of the matter is, that those who find fault with the Candidates, for so doing, would perhaps be quite as likely to follow the "good old custom" themselves.

In another column we have inserted Mr. J. G. Stevens' card to the Electors. In our opinion, it is one, which would reflect credit upon any Candidate. He has given his views *in extenso*, and we feel warranted in saying, freely and honestly. He has a large and respectfully signed Requisition, which is an evidence that he has been called out by that portion of the constituency, who know and appreciate his abilities and integrity.

Mr. Gilmour's and Mr. Chandler's Cards, came too late for publication this week.

A proclamation issued by His Excellency the Lieut. Governor directs that the 31st day of May inst., be kept as a day of humiliation and prayer for the success of Her Majesty's Arms in the present war, the prosperity of the British Empire, and a safe and lasting peace." In accordance with this arrangement the Lord Bishop of Fredericton has prescribed a form of prayer, and corresponding services to be used in the Churches and chapels of the Church of England in this Province.

The proclamation was read from the Pulpits of the various Churches in this Town on Sabbath last—and notice given that Divine Service would be held on the 31st, and the day observed as one of humiliation and prayer.

THE WOODSTOCK JOURNAL.—We have received the first number of a paper bearing the above title; it is a respectable paper, neatly printed, and if we may judge from its editorials in the first number, will be a credit to provincial literature. The Journal published by Mr. W. R. Melville, formerly one of the proprietors of our old friend the "Sentinel." We wish our new contemporary success.

We are pleased to learn that Lewis M. Wilkins the newly appointed Provincial Secretary of Nova Scotia, has in the contest

consequent upon his acceptance of office, gained his Election in the Township of Windsor by a majority of 130 votes over his opponent Mr. McLatchey.

We learn by telegraph from St. John, that the dams at the Union Point Mills, and a large quantity of lumber both manufactured and unmanufactured were carried away by the freshet on Sunday night last. Large quantities of clapboards and other lumber came through the Falls, supposed to be from milling establishments up the River.

INFANTICIDE, we regret to observe is becoming frequent in the city of St. John. No less than three cases occurred last week, in three consecutive days, Saturday, and Sunday and Monday; making four instances of this horrible crime within a fortnight. It speaks but little for the morals of a community, where such abominable deeds are committed in their midst.

THE ANGLICAN MAGAZINE for May, was received during the week. It contains a well executed lithograph map of the Baltic Sea and countries adjoining—Fashion plate &c., and the reading matter as usual is both interesting and instructive. We have taken occasion in previous numbers, to notice this excellent provincial work, and again recommend it as a thoroughly British, and well conducted periodical.

## THE WARD CASE.

There still continues to be the most intense excitement throughout Kentucky in consequence of the verdict rendered in the Ward case. The keeper of a hardware store, in the region of Louisville, has sold out all his knives and pistols. Old men say that for twenty years there has been nothing like the excitement now raging in the State. Every one regards it necessary to take the law into his own hands, because no one has any faith in courts and juries.

## TO THE ELECTORS OF THE COUNTY OF CHARLOTTE.

GENTLEMEN.—You will in a short time be called upon to exercise your responsible privilege of electing Members to serve you in the ensuing House of Assembly.

At the solicitation of many influential and respectable persons in different parts of this County, and in obedience to a numerously signed Requisition, from its freeholders, I offer myself as a Candidate for your suffrages.

In doing so I sincerely desire to be more impressed with the responsibility devolving on every Member of Legislature, rather than with the honour connected with the station.

Gentlemen Freeholders of the County of Charlotte.

There surely has never been a period in the history of our Province such as the present one, so urgently calling for an honest, energetic and liberal policy—for Members having not only the will, but the ability to introduce and carry through in Legislature the many reformatory movements pressed on us by the necessities of the day. We live in an age of progress and it is the midst of the advancing genius and onward legislation of other countries, New Brunswick cannot, and ought not, to be left an exception to this prevailing spirit of the age, and to those beneficial measures which throughout the civilized world must be now taken in hand and cannot be pushed off to future generations.

There certainly then exists a powerful motive for the exercise of a calm and thoughtful consideration, as to what persons are best fitted to advance with prudence, and direct the current which cannot be stayed.

Gentlemen Electors, and well wishers of your Country,

It is not to be confessed with deep regret, that hitherto in many cases, the requirements of a good Legislator, and the talents and capacity of the Candidate, have not been much taken into consideration? and in the midst of the many influences at work before and at the election, has not the truth been, that, instead of the Candidate being elected by the free and unfeared choice of the people, he has often in a manner elected himself? Is it then to be wondered at that so much of self seeking and self interest has taken the place of a healthy and onward legislation, which might and would doubtless be productive of so much good to our rich but much neglected Province.

Gentlemen Electors,

Much depends on sound and wholesome legislation; let not the coming opportunity pass unimproved. Send men who will be not merely Members of Assembly, but Representatives of your interests, who are able with energy and ability to advocate, and with honesty and integrity of purpose to carry through such measures as will advance our Country's good; men who will strive to bring to light and practical working our yet neglected resources; men who will raise the Agriculture of our Province and uphold it as the main pillar of our Country's pride and profit, and hold out laudable encouragement to the hard working farmer; men who will be sensibly and actively awake to the unexampled treasures of our Province, who will give a stimulus to our vast Fisheries, and aid the deserving fisherman in his pious pursuits; men who will desire to place within the reach of the poorest child of our country, the means of a fair and practical education; men who will look to a proper and adequate remuneration being given to our Jurymen in their services to their country; men who will encourage a healthy emigration, that settlements of hard working and well inclined people may occupy and improve our too much monopolized Wilderness lands; men who will have a care for the Poor Man amidst his many contending difficulties, and remove the taxation for the hard earned necessities of life; men who will not be over lavish of that which is not their own; but judiciously expend the revenue of the Province, that all may directly reap the benefit of that which is indirectly taken from them.

Such I desire to see carried into effect; and if elected, will use my influence to have done.

INDEPENDENT ELECTORS.—At the Hustings I trust I may have an opportunity more fully to express my views and principles. I come out on no particular interest, I have formed no league or combination, nor do I intend to do so. I desire if elected, to be so by the free voice of a free people; your interests are identical with my own, your defeat will be shared by myself, your success will be mine; and should any other candidate than myself have your preference, then stand steady for such a one, that you may secure his services, and if your free and prudent selection, then I should feel bound to help

JAS. G. STEVENS, St. Stephen May 22, 1854.

THE Charlotte County Agricultural Society, has imported from Vermont, in the United States, a pure bred

MORGAN STUB HORSE of the Burbank or Woodbury Morgan Stock, for the improvement of the breed of Horses in Charlotte County, the superior qualities of the Morgan race of Horses are well known and fully appreciated, and from the great care taken in the selection of this Hor. a. he can be confidently recommended for those excellent peculiarities inherent in the race—docility of temper, great endurance, and a noble and generous spirit.

His grand sire was the wonderful Barb or Walker or Woodbury Morgan horse—His great grand sire, the king of all sires, was the first Morgan horse ever known—His dam, the Lady Clinton, was purchased on Long Island, in 1843, by J. Johnson, at great expense, for the sole purpose of breeding, and brought to this County. Her sire was that astounding bottomed horse, the American Eclipse, which challenged the world in 1828.

A RACE FOR \$20,000, on the Union Course, Long Island; then and there beating Sir Henry and all other powerful stallions. The dam of Morgan Caesar was sired by the unrivaled, imported and original English horse, Quicksilver, whose superior has never been brought from England. He was formerly owned by Gen. Bellows, of Walslop, N. H. The grand dam of Morgan Caesar was sired by that noted, imported and true-bred English horse, Old Traveller.

The Horse will stand this Season, at the following places for the services of Mares, viz: At William Simpson's Waveig, on Mondays, from 9 o'clock a. m. to 4 p. m. At Wharton's in St. Patrick, on Wednesdays in each week, from 9 o'clock a. m. to 4 p. m.

On Tuesdays, Thursdays, Fridays and Saturdays, at Mr. Edward De Wolfe's stable in St. Andrews.

To the Independent Electors of Charlotte GENLEMEN. The Subscriber begs to inform the Freeholders of the County, that he offers himself as a Candidate at the approaching Election, and solicits their suffrages in his favour. At the hustings he will give his views as to the policy he would support should he be so fortunate as to become the object of their choice. In the meantime, he will state for their information, that he is distinctly opposed to the surrender of the Initiation of Money Grants to the Executive and will go for Protection and a Bounty on Fish.

Perhaps it would not be amiss to state as briefly as possible his views respecting the state of the Province. I am fully impressed with the belief that, to continue our present state of trade, the duties on imports should be reduced so as to encourage the productive labour within the Province, by employing their labour instead of foreign labour, while at the same time, a proper allowance should be made for such articles as the country could neither produce nor manufacture. I will also devote my energies to encourage Railroads and other public works, which will be the means of opening our fine Province. I hope, Gentlemen, at all events you will go to the Polls free and unbiased, and elect honest, independent, and talented men as your Representatives; you have Candidates enough to choose from, I am, Gentlemen, Your obedient servant, JOHN CARSON, May 17th, 1854.

**ON THE Philosophy of Marriage and the Secret Influences of Youth and Maturity.**

With fifty Coloured Engravings on Steel. In a Sealed Envelope, price 2s 6d sterling. SELF-PRESERVATION: an Analytical Investigation of the Physiology and Functions of Marriage, in all the bearings in which that important subject affects the health and happiness of man, with its disqualifications, and impediments, tracing their origin to the effects of juvenile solitary habits, youthful excess, tropical climates, or close study; followed by practical remarks, founded on twenty years experience in the treatment of impotence, nervous debility, local weakness, spermatorrhoea, syphilis, and all diseases of the urinary and generative system. Illustrated by fifty Coloured Engravings on the anatomy of the reproductive organs and their relative conditions in health and disease. By SAMUEL LA'MERT, M. D., No. 37, Bedford-square, London, Doctor of Medicine, Matriculated Member of the University of Edinburgh, Honorary Member of the London Hospital Medical Society, Licentiate of Apothecaries' Hall, London, &c. The essential object of this treatise is to point out, the fearful consequences resulting from certain habits, irregularities and excesses, which have produced more misery in youth, degeneration in manhood, and premature decay at all stages of life, than perhaps any other class of disease known to modern pathologists. Its object is particularly recommended to persons entertaining secret doubts of their physical condition, and who are conscious of having hazarded the health, happiness and privileges to which every human being is entitled.—The contents embrace the origin, effects, prevention and treatment of the deplorable catalogue of maladies connected with nervous debility, exhaustion of the vital energies, prostration of mental and physical capacity local and general weakness, acute and chronic spermatorrhoea, and their endless modifications. The treatment adopted is founded on experience gained in the most celebrated schools of medicine, both by the most eminent practitioners, and in Great Britain and in Continental Europe. Every peculiarity relating to the physiology, pathology, and general treatment of the diseases incidental to the generative system is clearly explained, and the means of immediate relief and ultimate cure described in detail. The professional reputation of Dr. La'Mert, who has taken the most distinguished medical and academic honours, at home and abroad, is in itself a sufficient guarantee that those who may place themselves under his care will, in every instance meet with that delicate consideration and inviolable secrecy which are so requisite in the treatment of these cases. CAUTION.—In consequence of the extensive sale of this work, which has now attained its sixteenth edition, several spurious and imperfect copies are in circulation.—The genuine edition can be had only from the Author or his advertised agents. The work may be had in St. John of N. Chubb & Co., price 2s. 6d. stg.; Halifax, Messrs. Morton & Co.; Quebec, at the Gazette Office; Montreal, Mr. Dawson, bookseller. Dec. 14, 1853—6

**Now Publishing By JOHN TALLIS & CO OF LONDON**

THE LIFE AND TIMES OF THE LATE Duke of Wellington; By Lieut. Col. Williams; (a Companion in Arms, of His Grace.) Comprising the Campaigns and Battle-Fields of Wellington and his Comrades, the Political Life of the Duke and his Contemporaries, and a detailed account of England's Battles by Sea and Land, from the commencement of the Great French Revolution to the present time, interspersed with Anecdotes, Personal Incidents, and Adventures, etc. ADDRESS. The earthly career of Arthur Duke Wellington has closed; one of the greatest men of the nineteenth century, the foremost military commander of any age has paid the debt of nature. The time has not arrived for giving to the world a History of the Great Captain—the Events of his Life and Time—a life marked by patriotism, probity and honour, and events the greatest which have ever agitated the civilized world, and whose influence will be felt upon society till the end of time. Such a work must appeal to the best and proudest feelings in the heart of every Briton—the glory of his country, the honour of its name and position among the nations—his own existence as a freeman, are recorded and engraven in the annals of the "well-fought fields," and the deadly imminent breaches, the immortal battles and the glorious sieges in which Wellington and his Companions in-arms gathered undying laurels, placed their country's honour and renown on the highest pinnacle of fame and glory, and tore the Victor's wreath from the brows of heroes decorated with the trophies of Italy, Egypt, and Germany. To supply such a desideratum in English literature, the publishers of The Life and Times of the Duke of Wellington have determined to produce a work which shall present to the reader, not only the dry details which a mere biographical sketch would afford, but a comprehensive work, embracing the contemporaneous history of the period; exhibiting the circumstances which brought about the great events in which the Duke and his contemporaries were engaged, and giving to the reader a connected narrative of the lives and actions of the Warriors and Statesmen of the nineteenth century; and thus form the part of one who was a companion in arms of the great hero, and participated with him in many a well fought field. In order to carry out their views, the Publishers have determined that the work shall be profusely illustrated by Portraits of the Warriors and Statesmen of the last half century who have shed a lustre upon the history of their country; also representations of the most important engagements by sea and land from the period of 1780 till 1852; so that the work, when finished, shall form an Illustrated Gallery of the Naval and Military Exploits of England. It has been well said, "Character is the true strength of nations; true glory their best inheritance." When the time shall come that the British heart no longer thrill at the names of Cressy, Poitiers, Agincourt, Blenheim, Ramilies, Oudenard, Malplaque; of Talavera, Salamanca, Tououse, Waterloo—the last hour of the British Empire will be struck. The promotion and elevation of national spirit and feeling is therefore the duty and interest of every true and loyal son of England. May Heaven inspire the hearts of every one of us with that spirit and feeling. Conditions of Publication.—The work will be issued on the 1st and 15th of every month, in Parts at 1s. 3d, and Divisions handsomely bound at 9s. 4d, printed on Imperial 8vo double columns, each part will be embellished by two highly finished steel Engravings, and will contain 32 pages of letter press. A beautiful steel Engraving, 15 by 10 inches, the storming of Seringapatam, the first victory in which the late Duke of Wellington was engaged in India, to every subscriber to the work. GEO. GAY, Agent. March 23, 1853.
