TOWN ELECTION CALLED OFF

Council Meets in Special Session And Rescinds Former Motion.

A special meeting of the Town Council was held at 11 o'clock this morning. The Worshipful Mayor McKay presiding. Present: COUN. PATTERSON, ST. JOHN, WALLACE, CHAMBERLAIN, WYERS, and CHAMBERLAIN. A few minutes later and took their seats.

Mr. Mayor called the meeting to order and explained that the meeting was called to deal with the matter in Council. Wallace and Chamberlain's dismissal.

The reading of the minutes of the previous meeting was dispensed with. COUN. PATTERSON moved the following resolution:

Whereas upon investigation this Town Council find that Councillor W. H. Wallace representing Ward 1 in this Council, while acting as such councillor has been guilty of the following irregularities:

(Resolution published on page 2.)

And whereas it has further been brought to the attention of this Town Council that A. Ferguson, Chamberlain, has during his term of office, and while acting as such councillor been guilty of the following irregularities:

(As previously published.)

It is resolved that in the opinion of this Council the two said councillors should resign their seats in the Council.

COUN. PATTERSON asked if this was done according to law.

The Town Solicitor answered that the above resolution was only an expression of opinion, did not give any sanction to the resignation of the councillors mentioned and was in fact void.

The motion carried 6-2. Mayor McKay voting nay.

TOWN ELECTRICIAN BADLY INJURED

Collided With Train at Chapel Crossing on Monday Night.

Town Electrician H. G. V. Farrer, met with a severe accident Monday evening and that he escaped death is considered miraculous.

Mr. Farrer, who drives a Ford roadster, had previously installed a new siren on his engine which he was trying out. He left the Power House and ran up Prince William Street, carrying his speed slow to fast, and listening intently to ascertain whether the new siren was functioning properly.

Approaching the Chapel crossing at a fairly lively clip he did not see the local approaching, he said he ran into the train, striking it between the tender and the baggage car. The auto was very badly broken up and Mr. Farrer pinned under the wreck. Willing hands helped him out and he was rushed to the hospital where his wounds were attended to.

Fortunately he suffered no broken bones, but was cut and bruised so badly that he suffered considerable pain, but Hiram says he will be around again in a few days.

The local was a little late Monday evening and Mr. Farrer did not anticipate coming into contact with her.

PRETTY MIXUP IN TOWN AFFAIRS

Hasty Action of Council in Dismissing Councillors Not Legal.

It now appears that the five members of the Town Council who so expeditiously proceeded, at a recent meeting of the Town Council to dismiss COUN. WALLACE and CHAMBERLAIN, without first obtaining the advice of the Town Solicitor, acted so hastily and may have to rescind the motion as passed, or defend a law suit.

The Graphic also understands that the Town Solicitor cannot uphold the action of the Council in thus proceeding so hastily and we confidently anticipate that steps will be taken shortly to remedy matters. It is very probable that the election called so hastily to fill the vacancies will also be called off and further time taken to look into the matter.

COUN. WALLACE and CHAMBERLAIN have engaged George Gilbert Esq., of Bathurst to look after their interests, and a lively legal battle will likely be the outcome.

The following letter has been received by His Worship Mayor McKay and the Town Clerk:

Bathurst, N. B., August 17th, 1921.

To the Mayor of the Town of Campbellton,
Campbellton, N. B.

Dear Sir:

I am retained by Alderman William H. Wallace, elected for Ward 1 in town of Campbellton, and by Alderman Alexander F. Chamberlain, elected for Ward 2 in town of Campbellton, to give you notice that unless you immediately rescind the proposed election which you have called, to fill vacancies in said Council for said two wards, by reason of the alleged expulsion of the above named Aldermen from the Council, by a portion of the Town Council that proceedings will be taken, not only against the Town, but against the Aldermen responsible for improperly dismissing these Aldermen from the Council. As the facts are stated to me the action of the Council is absolutely ultra vires and any election which may be held cannot elect other Aldermen as the Council is now complete. I might point out that if Aldermen should be elected when a full board exists, and such newly elected Aldermen take part in meetings, the meetings and proceedings thereof would not be valid. In addition to action of a public nature, these Aldermen will claim substantial damages from the members of your board who took part in these proceedings.

Yours very truly,

(Sgd.) GEORGE GILBERT, Solicitor for Aldermen William H. Wallace and Alexander F. Chamberlain.

The action of the Town Council will be awaited with interest by the ratepayers.

(Since the above was written, the Council has acted as reported in another column.)

MEDAL WINNERS ARE ANNOUNCED

Miss G. R. Wyers Carries Honors in Restigouche County.

Winners of the medals for 1921 annually presented by the Lieutenant-Governor to the leaders in the various counties at the High School Entrance Examinations were announced Wednesday morning by the Chief Superintendent of Education.

The leader in the competition throughout the province is Miss Mildred O'Brien, of St. John, Miss Irene Card of Dorchester, being second and Lloyd Grass, of St. George, third.

The complete list of winners, showing eleven of the fourteen winners to be young ladies, with the name of the school written, follows:

Albert—Ernest Godard—Elgin Superior.

Carleton—Isobel Mair, Woodstock Grammar.

Charlotte—Lloyd Grass—St. George Superior.

Gloucester—Barbara Sealy Branch Bathurst Grammar.

Kent—Helen Boyce—Rexton Superior.

Kings—Raymond Proctor—Sussex Grammar.

Madawaska—Regina Theriault—St. Basil Superior.

Northumberland—Norine Harquail—Chatham Grammar.

Queens—Lucille Bridges—Gagetown Grammar.

Restigouche—Geraldine Roxana Wyers—Campbellton Grammar.

St. John—Mildred O'Brien—St. Peter's School, St. John.

Victoria—Arnold James Burgess—Grand Falls Superior.

Westmorland—Irene Alice Card—Dorchester Superior.

York—Kathleen F. Baird—Fredericton Grammar.

The explanation given at the Education Office of there being no winner shown for Sunbury County was that there was no competition in that county.

MAKING PLANS FOR WINTER

Lumbermen Will Cut Some Lumber On Restigouche This Season.

Plans for the erection of a better, more efficient mill to replace the one recently destroyed by fire are being made by the Richards Lumber Company, who expect to proceed with the construction of the new mill as soon as possible.

Although practically no lumber has been shipped from this port by water this year, with the exception of shingles and laths, there are no indications at present of the mills closing down.

It is understood that the crews which will go into the woods this coming winter will be considerably reduced in number in comparison with recent years but plans are being made to carry on some operations, although the curtailment will be great even when compared with last year's small cut.

JUDGMENT RENDERED

Judgment has just been rendered by the Privy Council in the case of the Bathurst Salmon Club against Duchaine, and the judgment of the Supreme Court of Canada has been reversed. The facts are as follows:

In 1891, one Blais was the owner of a piece of land bordering on to the Miramichi river which is a non-navigable stream. Opposite this piece of land, there is a narrow pool, which is one of the best pools on the Miramichi river. Lord Mount Stephen acquired "his" fishing rights" but made no mention of any part of the bed of the river or of the river bank. Later on, Lord Mount Stephen sold these fishing rights to the Bathurst Salmon Club. Blais sold the land year this pool to one Duchaine. After Duchaine had bought the land he commenced fishing in this pool. The club then sued Duchaine claiming that they owned the fishing rights. Duchaine contested the action claiming that the fishing rights were transferred to him by the club. The Supreme Court of Canada reversed the judgment of the Court of Appeal. Judge Pelletier of the Court of Appeal was however of the opinion that the fishing rights constituted a right of ownership or of property. The Supreme Court of Canada reversed the judgment of the Court of Appeal by two against three. Justice Bigham, Brodeur and Anglin being of the opinion that the transfer of fishing rights purely and simply gave to the transferee a right of usufruct only and seeing that all usufructs terminate at the death of the usufructuary that in this case the fishing rights in question at the death of Lord Mount Stephen would revert to the owner of the land that is to say rights of the Club in virtue of the decision of the Supreme Court of Canada. The Privy Council has just rendered judgment reversing the decision of the Supreme Court and has declared that the Bathurst Salmon Club is the absolute owner of the fishing rights in question and that the rights will still continue to exist even after the death of Lord Mount Stephen.

The Club was represented by the Honorable John Hall Kelly, K. C., and by Mr. Charles Lamont, K. C. and Duchaine was represented by Mr. Charles Anglin, K. C. and Mr. Louis St. Laurent, K. C. of the firm of Gallop & St. Laurent Matayer and Devlin of Quebec.

OBITUARY

Joseph LeBlanc.

The community was greatly grieved to learn on Sunday of the death of Joseph LeBlanc, which occurred that morning at the Hotel Dieu Hospital.

The deceased who was in his forty-fifth year was a highly respected citizen and up until the time of his illness, which has covered a long period, was employed upon the C. N. R. as a carpenter.

On Saturday morning he was removed from his home on Victoria St., to the Hotel Dieu Hospital to undergo an operation, which operation was performed shortly after his entry, but his condition was such as to cause grave anxiety as to the operation, though it was his only hope for recovery.

Campbellton, N. B., August 18th, 1921.

During our absence, and after our regular editorial page, as prepared by us, had been printed, a party interested in the controversy now going on between members of the town council, prepared and induced our foreman to insert on page one of our last issue under the heading "Editorial" certain paragraphs which in fairness to the Council we must not allow to go uncorrected.

The Graphic has always contended that His Worship and the majority of the present council have endeavored to conscientiously fulfill their duties. That they have made mistakes they themselves will admit, but on the whole they have endeavored to give the town good service.

So far as Coun. Chamberlin is concerned he certainly is disqualified as an incorporation act clearly states so. It is all the more to be regretted that he endeavored to cover up the matter by having some other party collect the money and hand it over to him. But the sad feature of this is that although all this happened early last spring, it was only discovered after Coun. Chamberlin had fallen out with certain of his colleagues.

The statement that "Coun. St. Onge had sold and is selling hundreds of dollars worth of hay and other real estate to the town at high prices" is equally wrong. Coun. St. Onge has sold to the town less than fifty dollars worth of oats at a price lower than any other merchant offered at that time. But did he sell for any reasonable price an amendment to the Incorporation Act says that any councillor may sell goods to the town.

"The people know that the trumped up charges are little more than a well planned conspiracy to oust Wallace from civic life."

This is perhaps the most objectionable paragraph and we regret its publication in our columns. In passing we may say that many people who have read the charges are of the opinion that they are not "trumped up" but must contain an element of truth or Coun. Wallace has an excellent case of libel against some person or persons. It is Coun. Wallace's duty to stir himself and convince his friends that the charges are not true.

WILL PAY PART.

Ratepayers of the town will be glad to learn that the abutters on streets upon which permanent sidewalks have been laid will be called upon to pay a portion of the cost of such works. The Graphic was so informed by His Worship early this week. This is another progressive step, and means that much more money will be available for this class of work in future years.

ACTION NEEDED.

Very serious charges have been made over the signature of five councillors against Coun. Wallace and a resolution as follows was passed on motion of Coun. Belle-Isle, at the last meeting of the Council.

"As this Council is fully satisfied that Mr. W. H. Wallace is disqualified to sit as a member of this Board for the following reasons—

1st—Because he was in arrears for his water rates at the time of his election from ward one, to the extent of one hundred and fifty-nine dollars, which arrears have increased to this date to the amount of two hundred and thirty-six dollars and twenty cents, and which still remain unpaid.

2nd—On the ground that the said W. H. Wallace has taken without any permission for his own use and contracts quantities of gravel from the town's gravel pit, some of this gravel having been used in the Anselme Francoeur's foundation, also in Thos. Collin's basement and the Geo. Dunn contract.

3rd—On the ground that the said W. H. Wallace has received profits on work done for the town by his own men, such as work done by them in the park, the said W. H. Wallace paying some of these men at the rate of 30c per hour while he was charging to the town the time of said-men at the rate of 40c per hour, thus realizing a profit of 10c per hour on each man's time, the same proceeds on the part of the said W. H. Wallace having been followed in the removing of the two small barns on the Yorton property, Councillor Wallace charging to the town the sum of thirty-six dollars for the use of his jacks and tools to remove the above mentioned barns, thus drawing a salary for said jacks and tools.

4th—That the said W. H. Wallace while Chairman of the Public Property and Streets Committee has been in the habit of ordering goods for said department on his own authority from

several merchants, contrary to our by-laws and the rules and regulations of this Council.

5th.—That the said W. H. Wallace has even engaged an Engineer to take street and sidewalk levels without consulting or getting the authority from this Council.

6th.—That the said W. H. Wallace without the Council's authority loaned himself some twenty-two bags of cement belonging to the town, to be used on his own contracts at the Anselme Francoeur foundation, all the above contrary to our Incorporation Act and By-laws.

Be it therefore resolved that this Council declare the said W. H. Wallace disqualified and his seat as Councillor from ward one vacant.

These contain a number of serious charges which cannot be answered by Coun. Wallace in a general way. He must get down to brass tacks and clearly state his side of the case and be prepared to substantiate his statements with evidence if he expects the ratepayers to vindicate him.

The Graphic in the past has, while not holding Coun. Wallace blameless, stood out for a square deal. In the charges as signed by the five Councillors, Councillor Wallace has the necessary statement upon which to work. It is up to him to get busy.

At the meantime we think that it would be the best for all concerned if Coun. Wallace would refrain from running in Ward I. in the approaching election.

SHOT STRANGER IN MISTAKE FOR WIFE

Saw Girl on Park Bench and Killed Her, Then Committed Suicide.

Philadelphia, Pa., August 12.—Mistaking a young woman sitting on a bench in Elmwood Park, Norristown, for his wife, James Bosely shot her, and inflicted a wound which may prove fatal. He then committed suicide.

The victim, Mrs. Mary Quaiser, who is 19 years old, is in a critical condition with a bullet wound in the head. Bosely, who is 23 years old, and lives in Conshohocken separated from his wife by three weeks ago. A note found in the dead man's pocket asked that he and his wife be buried together.

Mrs. Quaiser, whose husband is in Texas, was sitting on a bench along the main driveway in Elmwood Park with Gerald Vincent Marshall, 13 years old, of Norristown. On an adjoining bench were Mr. and Mrs. Hurst, relatives of Marshall.

They had not been there long when Bosely, whom they did not know, walked up the boulevard. He stopped in front of the bench on which the Hursts were seated, looked at the occupants and retreated.

Going to the other bench, only a few feet away, he gave one glance and, drawing a revolver from his pocket, fired one shot at the woman. He then put the revolver to his head and fired one more. He fell where he stood.

Marshall ran in terror while the Hursts were too dumfounded to act. A few minutes afterward two men in an automobile took Bosely and Mrs. Quaiser to the hospital.

WHEN USING WILSON'S FLY PADS

There is only one way to kill all the Flies

This is it—Drench the room as much as possible, then the flies, when one of the blinds is open, place the Wilson's Fly Pad on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. See illustration below.

Put the plates away out of the reach of children until opened in another room.

The right way to use Wilson's Fly Pads

A WORD TO THOSE WHO INTEND TO BUILD

WHY AND WHEN THE SERVICES OF AN ARCHITECT ARE REQUIRED.

Why an Architect is Required?

An owner must have information as to what he actually desires before he can "buy-out" his own building to the best advantage.

An Architect should know whether or not a property will meet your requirements for design, distribution, economic layout and so forth.

He is able to present data which will enable you to make intelligent decisions as to type of construction and arrangement which will serve you best.

His knowledge enables him to proceed for the proper planning of "traffic" through the department of "apartments" (whether in a factory or a house), the economic location of plant, the minimizing of the necessary expenditures, the artistic appearance of the building, and many other matters.

There is much detail work in obtaining prices and the letting of contracts. An owner requires expert advice and service in these things.

The Architect provides this service. When construction is under way and the owner's interest should be considered in the day to day questions which come up. The Architect is the owner's representative on the works.

Lovers of peace who have buildings standing to the sky, if for no other reason than to increase their commercial value. An Architect is trained to clothe utility with beauty.

Building is a very complex "manufacturing process." It involves many trades and interests. These, if left to their own devices, do not consider their own tasks in relation to the whole as carefully as they should.

An Architect guides these interests into a proper relationship.

Now an Architect Works.

By means of preliminary consultations, rough sketches and approximate estimates, the requirements of the building are brought to light. In the architect's drafting room and office the problems are solved. All possible solutions should be discussed with the owner. A definite solution is then prepared in the form of working drawings and specifications, which show exactly and in detail what contractors will be required to furnish.

This gives a definite basis upon which prices are secured. The Architect obtains these prices from various contractors, and places them before the owner with any comment his experience leads him to offer.

When the contractors are decided upon, the Architect relieves the owner of the detail work of closing contracts, and sees that they are properly protected.

Constantly during construction, detailed instructions and drawings are supplied to supplement and interpret the working drawings and specifications upon which contracts are based.

The supervision of an Architect is general in its character. It is more that of a director who co-ordinates the work than that of a policeman. The architect and continuous supervision is desired, arrangements for the employment of a clerk of works should be made.

The owner is protected against risk of loss or over-paying for work by fact that the architect's certificate of the certificate of the Architect, who is experienced in such matters, and is in accordance with conditions. The Architect keeps account of changes and substitutions, and safeguards the owner in these things.

The Selection of an Architect.

An Architect influences the spending of an owner's money. It follows that the Architect is honest and worthy of confidence, and that he has commercial, educational, experience, a knowledge of planning and design from both the economic and artistic standpoints, and that he has a "professional" standing.

To employ professional service on the basis of the amount of the fee is the best practice of choosing for cheaper rather than quality. No work is more likely to be done with a "cheap" price for a small fee, often means more loss in costly errors, unnecessary construction and so forth, than the entire cost of competent service.

Usually it is better for an owner to cooperate with his chosen Architect in careful consideration of all existing projects, alternative schemes and data, than it is to be limited to selection of a few designs submitted by men who are often not directly in touch with the requirements.

Plans for buildings, except of smaller types, are not kept in "stock." Each building requires special consideration and study, and this is not very thorough if given for nothing.

After he is chosen.

Trust your Architect and value his opinion. If you cannot do this, don't choose him.

Make your requirements and resources clear. He isn't a mind reader, and he needs to know these things in order to serve you well.

Discuss the question of his fee with him. It avoids misunderstandings.

Remember that no first plan was ever the best one. It is easier to alter plans than to change bricks and mortar. Time spent in getting your plan right is well spent. Therefore it is to the owner's advantage if he intends to start operations on any building in the spring, to choose and employ his Architect in the fall, thereby giving the owner the benefit of the largest part of the winter in which to have his Architect work out in detail his plans and have all details settled by early spring so as to take full advantage of the building season.

An Architect can get good work out of a poor mechanic or make a dishonest man build a good building. It is not always wise to accept the lowest tender. Your Architect's advice is useful in selecting your contractor.

Remember the value the "word owner" can't expect to get more than you pay for.

Dartmouth Man Says He Found Relief After Years of Suffering By Taking Tanlac.

Tanlac is a...
"For four long years I suffered beyond words with the worst kind of stomach trouble, but thanks to Tanlac, I am now a well man and can enjoy three good square meals a day," said Robert Langille, who lives on Tulip St., Dartmouth, N.S.

"I couldn't eat a thing but what would sour and ferment on my stomach and I would blow up with gas until I would almost suffocate. I lost all desire for food and was really afraid to eat because of what I would suffer afterwards. I was constipated and had dull throbbing headaches. For hours at night I would roll and toss from one side of the bed to the other, and when I got up in the morning I just felt all in and unfit for my day's work."

"After taking only a few bottles of Tanlac all my ailments have disappeared and I am feeling as well as I ever did in my life. My appetite is splendid and I can eat things that I haven't dared touch for years and never suffer the least bit from sourness, gas or indigestion. I am no longer bothered with constipation or headaches and I sleep so well at night that I get up in the mornings feeling just grand." Tanlac is sold in Campbellton by THOMAS WYMAN, Druggist, and by leading druggists everywhere.

EDITOR'S MAIL.

Campbellton, N. B., August 9th, 1921.

Editor of The Graphic, Town.

Dear Sir:

At the Council meeting held on Monday evening, last, I was allowed to point out that our Incorporation Act says that it is illegal for the Council to take Contracts or do Private work. All Councilors and any contractors were very right, they promised me that I would be given a chance to lay the concrete in front of the Post Office and other private work, both the Mayor and Councilor Duncan said they had forgotten the Law, and the very next day they put an outside man to work on the job. He has been paid at the rate of \$135.00 for two weeks' work, standing around. I claim all Councilors are disqualified and all the work is illegal. It is all very well to try and deprive other men at the Board of their just rights, and when men are getting due credit for what they have done. Town Workmen that pay taxes should be given a chance to live. Watch the next vote! We can judge and are not blind.

Yours truly,
Wm. McKay.

THROUGH RAIL SERVICE ATLANTIC TO PACIFIC.

Canadian National Railways Furnish Connections With Famous "Continental Limited" Out Of Montreal.

The finest train service to the Pacific Coast is afforded by the Canadian National-Grand Trunk "Continental Limited" daily, and by the Maritime Express daily except Sunday. Leaving at 9:00 P. M. daily from Bonaventure Station, Montreal.

The route of this finely equipped all steel train to the coast is via Ottawa, North Bay, Cochrane and via the Transcontinental to Winnipeg and the Grand Trunk Pacific to Saskatoon and Edmonton and via Canadian National railways to Vancouver—the finest of scenic routes through the Rockies and over the smoothest roadbed.

From Maritime points there is connection by Ocean Limited with the City of Montreal arriving in Montreal at 7:40 affords the most direct connection, but passengers by the Ocean Limited will have the advantage of a day spent in Montreal. The Maritime arriving at Levis at 1:50 P. M. affords connection with train No. 11 leaving Quebec daily for Cochrane at 5:00 P. M. This train makes connection at Cochrane with the Continental Limited, so it will be seen there is really a choice of two distinct routes.

There is also the through service to the Pacific coast by train leaving Toronto daily at 10:30 P. M. via Sudbury, Port Arthur, Port William and Winnipeg. Connection for this is made by the Ocean Limited to Montreal, and the Grand Trunk International Limited to Toronto.

Particulars of these splendid rail services to the west will be explained by all C. N. R. ticket agents, and folders and illustrated matter may be obtained by application to any of the City Ticket Offices or by writing the General Passenger Department, Montreal, N. B., July 24-57.

"THE FAIR."
The Memorial Hospital Fair will be held on Sept. 20th, 25th and 30th and donations of plain and fancy sewing or knitting will be most gratefully accepted by the Sales Committee of which Mrs. D. G. Gellan is convener. These articles in making this Fair a greater success than any yet held.

CONCERT.
A grand concert will be held in aid of the Soldiers' Memorial Hospital, at the Opera House, Dalhousie, on Thursday, Aug. 26th, at 8 p.m. Tickets 50 and 75 cents.

DUCK SEASON LATER.
Duck shooting and the shooting for breast, geese, wild fowl and large game commences on September 15 in New Brunswick and not on September 1. Changes in the date on which shooting commences have been made of recent years and, in consequence, some doubt has arisen in the minds of sportsmen as to which is the legal date.

MUST BUY FROM BOARD.
The New Brunswick Board of Liquor Vendors have recently sent circular letters to all retail vendors in the province threatening them with cancellation of their licenses if they purchased liquors from other than the official source. This action was taken because an almost unbelievable situation existed under which at least one of the holders of the old wholesale licenses in St. John were carrying on soliciting and shipping orders in the same way they did before the Commission were supposed to commence functioning.

TO WOMEN OF MIDDLE AGE
This Woman's Letter Tells You How To Pass The Crisis Safely.

Lacelle, P.Q.—"During the Change of Life I felt so weak and run down I could hardly do my work. The perspiration would pour over my face so that I couldn't see what I was doing. We live on a farm, so there is lots to do, but many who felt as I did would have been in bed. I took Lydia E. Pinkham's Vegetable Compound and it did me a world of good. I tried other remedies but I put Vegetable Compound ahead of them all, and I tell every one I know how much good it has done me."
If warning symptoms as sense of depression, hot flashes, headaches, dizziness, dread of impending evil, palpitation in the ear, palpitation of the heart, sparks before the eyes, constipation, variable appetite, weakness and dizziness should befall you by middle aged women, and you are weary through this crisis as it did Mrs. Brown.

You are invited to write for free advice. No other medicine has been so successful in relieving women's suffering as has Lydia E. Pinkham's Vegetable Compound. Women may receive free and helpful advice by writing the Lydia E. Pinkham Medicine Co., Lynn, Mass.

PROBATE COURT, COUNTY OF RESTIGOUCHE.

To the next of kin and creditors of George Patrick Carroll, late of the Town of Campbellton, in the County of Restigouche, C. N. R. Brakeman, deceased, and all others whom it may concern.
The administrator of the above deceased intestate, having filed his accounts in this Court, and asked to have the same passed and allowed, you are hereby cited to attend, if you so desire, at the passing of same, at a Court of Probate to be held in and for the County of Restigouche at my office, in the Bank of Nova Scotia Building, at the corner of Water and Andrew Streets, in the Town of Campbellton, in the County of Restigouche and Province of New Brunswick, on Tuesday the twenty-third day of August, A. D. 1921, at the hour of eleven o'clock in the forenoon, when the said accounts will be passed upon and order for distribution made.
Given under my hand this 28th day of July, A. D. 1921.

PROVINCIAL BANK HAD BANNER YEAR

Annual Statement Shows Gratifying Results For Past Year.

The annual meeting of the shareholders of the Provincial Bank of Canada took place at the head office recently. The annual financial report covering the fiscal year which came to an end June 30, last, was presented and approved. The call report, however, gives a more definite idea of what was done by the institution during the year.

Profits of the bank in the twelve months amounted to \$425,648, after deducting charges of management, interest due depositors, and full provision for losses and doubtful debts. This compares with profits of \$333,832 in the previous fiscal year. After adding in the premium from new stock \$200,000, and previous year's balance forward, a total of \$664,115 was shown. Appropriations included dividends \$264,024 against \$158,927 the previous year; war tax on circulation \$29,114 against \$29,931; first payment on subscription to l'Universite de Montreal, \$5,000; pension fund \$25,000 against \$45,000; and reserve \$300,000 against \$100,000, the latter charge including the \$20,000 received from premium on new stock. These deductions left a balance to be carried forward into the current year of \$40,077 against \$38,467 reported a year ago.

Profit and loss account compares as follows:

| | 1921 | 1920 |
|-----------------|-----------|-----------|
| Profits | \$425,648 | \$333,832 |
| Prev. balance | 28,467 | 44,683 |
| Item, new stock | 200,000 | 9,750 |
| Balance | \$664,115 | \$388,265 |
| Dividends | 264,024 | 158,927 |
| War tax | 29,114 | 29,931 |
| Bank purchase | 5,000 | 5,000 |
| University sub. | 5,000 | 45,000 |
| Pension fund | 25,000 | 45,000 |
| Reserve | 300,000 | 100,000 |
| Balance forward | \$40,077 | \$38,467 |

The balance sheet shows that the bank finished the year in strong position, quick assets amounting to \$28,336,000, of which cash resources amount to \$10,145, while Dominion Government, British and municipal securities amount to \$12,060,000, and call and short loans in Canada to \$6,239,000. Capital now amounts to \$3,000,000, while rest accounts now amount to \$1,400,000, or nearly 50 per cent of the capital paid up.

Demand deposits are shown at \$5,325,943, up from \$5,115,699; savings deposits \$29,572,373, up from \$25,475,736. Total assets at the end of the year were \$46,629,743, a gain from \$39,077,524 at the end of the previous year.

Leading items in the balance sheet compare as follows:

| | 1921 | 1920 |
|---------------------------|--------------|--------------|
| Demand depos. | \$5,325,943 | \$5,115,699 |
| Sav. Deposits | 29,572,373 | 25,475,736 |
| Bal. due Govt. | 3,177,503 | 2,473,926 |
| Note circ. | 2,666,363 | 2,246,878 |
| Capital | 3,000,000 | 2,000,000 |
| Res. fund | 1,400,000 | 1,110,000 |
| Total liab. | \$45,629,743 | \$39,077,524 |
| Dom. Gov. notes | 3,623,628 | 2,847,198 |
| Dom. and Prov. securities | 4,302,194 | 2,692,134 |

SHOWER OF FROGS FELL IN MADRID DURING THUNDERSTORM

Madrid, Aug. 11.—During a thunderstorm in Gibraltar a shower of frogs fell on the North front. Thousands of these small hopping creatures, unusual at the Rock, may be seen in the bridges, and have aroused much curiosity.

Seven years ago a similar phenomenon occurred, and later a shower of sand covering everything with a pink deposit.

CARELESS FISHERMEN MAY COMPEL DRASTIC LAWS

Serious consideration is being given by the administrators of the forest reserves in the various provinces to a scheme for curbing the gross carelessness of camping parties in needlessly starting forest fires. The job of extinguishing timber conflagrations arising from the fires set by campers and cigarette smokers has caused the public treasury such a sum of money that some means of curbing the evil will have to be devised.

Already the province of New Brunswick is considering the classification of its woodland area with a view to prohibiting the entry of fishermen and others who may employ camp fires or drop lighted tobacco and matches. Such a regulation might work a hardship on many sportsmen, but as a class fishermen, hunters and campers generally would have only themselves to thank for whatever penalties might be imposed upon them in the interest of forest protection. To leave the camp fire burning has been shown to over and over again to have vicious possibilities. The value of the forest resource is such that not an acre of timber can be burned without the people as a whole paying a serious penalty.—Canadian Forestry Assoc.

"I object to my tenants throwing fatwars at me," said a landlord at Bow Street Court. The general untruth has made some people very touchy.

OUR VISIT TO THE GREAT WEST

Press Party See Sights Of Canada from Victoria to East

Victoria, B. C., June 11.—We arrived in this beautiful city this afternoon after a most delightful sail by the steamer Princess Charlotte from Vancouver. The sail is a little over eighty miles and is very picturesque, being in sight of land all the way and at times so near the coast that you might almost throw a stone ashore.

Shortly after leaving Vancouver harbor the large sea gulls congregated about the steamer, flying just over and to the rear swooping down to the water, circling about and coming very near to the steamer deck. Much to the amusement of all. These gulls are beautiful, and show no fear of man, coming almost to the deck before they swoop off. Their head-like eyes and beautiful plumage were the admiration of all bird lovers.

As our steamer was sailing along the coast of the province, the sea was calm and the sun was shining brightly. The birds were flying about the ship, and the water was so blue that it seemed almost to be a part of the sky. The land was so green and so fertile that it seemed almost to be a part of the sea.

was assigned me on the steamer, proceeded to have a look about the business section.

Victoria is, speaking of Western cities one of the oldest. Many of its buildings along the waterfront are of historic value. Its main business thoroughfares however are wide and well kept, with fine buildings. One thing which I particularly noticed was that business is carried along at a very leisurely pace, but everyone seemed just as happy and contented as if rushing at top speed. The stores were all well supplied with goods, and the variety and quality so far as I could judge was up to the mark.

It was the residential districts which gave every evidence of English tastes. The beautiful homes placed on large lots, with beautiful shrubbery and flowers, the whole enclosed in a neat hedge. This seemed to be the prevailing style and there were so many of them that the idea of immense wealth was suggested, when one knows what the average easterner pays for a 25x100 building lot in the western cities.

The educational institutions, churches and public buildings of every nature were in keeping with this beautiful city.

After dinner at the Empress towers were provided to convey the press party to the Dominion Government Observatory.

This is seven miles from the city and is situated at the top of Little Sanich Mountain. This splendid monument of scientific achievement is under the direction of Dr. J. S. Plaskett, one of the most scholarly exponents of astronomy.

The site for the observatory was selected by the Government because of Victoria's unequalled climate, and its low range of temperature. It commands one of the finest views on the Pacific Coast.

The telescope housed herein is the second largest in the world, and the mechanism which moves the building and the great instrument, elaborate and intricate though it is, can be worked merely by the pressure of electric buttons. Every day in the week until five o'clock the observatory is open to visitors, and on Saturday at 7:30 p.m. the heavens may be viewed through the telescope, and an explanatory lecture is given by Dr. Plaskett. Our party had the pleasure of seeing the moon at close quarters.

The ride out to the Observatory was through a beautiful fruit raising section and many of our party who stopped at the strawberry farms were treated to boxes of delicious ripe berries.

Here as in all the western cities miles and miles of roads are paved and one can ride for hour over perfect auto road.

The climb in autos to the top of the mountain upon which the observatory is located was quite exciting. Our auto was one of the first to make the ascent, and when we found our car to return we found it was a case of the first shall be last, as the entire road leading to the top was blocked, well down. But we got back to the Empress in good time and after a most enjoyable ride in the balmy air of the Pacific coast.

When I returned to the hotel I found a school friend had been looking for me. This was P. S. Fleming, son of the late J. S. Fleming, I. C. E. station master at Newcastle for so many years. Mr. Fleming has been a resident of British Columbia for the past twenty-five years and has grown up with the country. He is one of the big men of Victoria today, and is known by all. He assured me that he and his car were at my disposal for the morning, and insisted on a personally conducted tour of the points of interest surrounding Victoria, the said tour to commence at 8:30 daylight saving time, sharp.

Shortly after our return from our evening drive, the orchestra in the ball room tuned up and dancing was enjoyed until 12 o'clock.

Sunday Morning.

In order to fulfill my promise it

was necessary for me to arise early and have breakfast. It was a beautiful morning, and after a light breakfast as I had a few minutes to spare I wandered out into the beautiful rose garden at the side of the hotel. The roses were in bud, and flowers of many varieties were in bloom. The birds of many kinds were flitting about, singing their sweet songs and tending to their duties in the care of their young. It was indeed a rare, peaceful, sunny morning.

At the appointed time we were off for an auto trip. We were informed that the famous Butchart Gardens were to be our first stop. However the drive on was a most enjoyable one. The paved road ran through tuck and fru' farms which had every appearance of prosperity. It was a strawberry time and even though it was Sunday in riding, there were pickers in some places, no doubt gathering a few boxes for the home table.

These Butchart gardens are located in the excavations made when the gypsum was quarried and converted into cement. As the rock was quarried and crushed into powder great ugly excavations were made here in the heavily wooded country on the coast near Butchart Inlet. But Mr. and Mrs. Butchart had an eye for the beautiful as well as for cement-making and soon they began in a small way to transform the landscape into dreams of floral beauty. A beautiful bucolic was built in a nook in the forest surrounded by gardens of the most beautiful flowers, winding paths, rustic arbors covered with wisteria in different colors, a pretty lake, brooks of water, etc., etc., words fail to describe the beauty of it all.

The party were allowed to visit this lovely spot, also to wander and admire the rooms of this charming home,

furnished with such exquisite taste, the color scheme in each room being carried out with such effectiveness that the effect of the whole was most harmonious. Added to these restful and magnificent rooms was a newly installed pipe organ operated by electricity from which the party were privileged to hear some very fine music. This beautiful home though a private residence is opened five days each week for visitors, so the Press Party felt that a great privilege had come to them in being allowed the freedom of this home and floral surroundings. One lady remarked "I never expected to see anything more like paradise than this until I really reach Heaven."

Every member of the party was loath to leave and were very grateful to Mr. and Mrs. Butchart for allowing them to see how beautifully the idea of transforming the old limestone quarries into these sunken gardens and other beauty spots had been carried out.

One editor put it nicely when he said "a sermon in every bush an inspiration and a divine influence at every turn of the road or pathway and in every flower."

But we must leave it as our time is limited. The return to the city was made through other towns and farming districts, all looking as prosperous as it was possible to look. At 1:30 we were again at the Empress looking for our dinner, and then to pack our grip and board the steamer on the first lap of our eastern journey.

I shall always remember my visit to Victoria, the smell of the roses, and other flowers; the sight of the bay and the harbor; the bright sun-light gleaming upon distant snow-capped mountains; the beautiful homes and the broad Pacific stretching away to the far shores of another country.

HOW YOU CAN TELL GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

There is only one Aspirin, that marked with the "Bayer Cross"—all other tablets are only imitations. Genuine "Bayer Tablets of Aspirin" have been recommended by physicians since their first use, and are used by millions of people in all parts of the world.

Gold, Philadelphia, London, Munich. Handy tin boxes of 12 tablets—also larger "Bayer" packages, can be had at all drug stores. Made in Canada. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Germany.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

IMPERIAL Polarine MOTOR OILS

You Save Every Way—

Quality maintains economy. No matter how much you pay "per gallon" for other lubricating oils you get more lubrication "per dollar" when you buy Imperial Polarine Motor Oils.

MORE mileage from every gallon of fuel and quart of oil; uninterrupted service from your car; slower depreciation; fewer repair bills and no lubrication trouble; just about sums up the savings and satisfaction enjoyed by users of Imperial Polarine Motor Oils.

The uniform high quality of Imperial Polarine Motor Oils, wherever you buy them, insures you more miles of correct motor lubrication for your dollar than you can obtain in any other way. Quality does maintain economy.

Our Chart of Recommendations shows the grade of Imperial Polarine Oils required to correctly lubricate your car. Use this grade exclusively and you will get the years of service and satisfaction which you have a right to expect from your car. Consult our Chart at your dealer's or write to 56 Church Street, Toronto, for a copy of "Automotive Lubrication," which contains the complete Chart and other useful information.

IMPERIAL OIL LIMITED
Branches in all Cities

FOR A CLEAN EFFICIENT MOTOR.

Not even Imperial Polarine Motor Oils will lubricate properly if mixed with grit and dirt. Your crank case should be thoroughly cleaned every thousand miles or less. Dealers displaying the sign to the left will clean your crank case in an expert and workman-like manner. Such dealers use Imperial Flushing Oil, the modern scientific cleaning agent. Employ crank-case service regularly and you will save hundreds of dollars every year.
