ENGLISH LABOR IS NOW AT WAR

Men Defy Their Leaders and Railway Strike Is Rapidly Spreading.

LARKIN IS POPULAR

Personal Devotion to Irish Labor Leader Makes Trouble For Union Executives.

[Canadian Press.]

London, Dec. 6. - Many of the 1,-200 employees of the Great Western Railway, who have been on strike since Wednesday, refused today to comply with the terms of the agreement for the settlement of the 'dispute drawn up yesterday by the trades union leaders at a conference with representatives of the board of

They point out that the conditions are too drastic. Besides proving that neither James, the engineer, who started the strike, by refusing to haul "tainted goods" which had been handled by strike-breakers in Dublin, nor Reynolds, his comrade, who left work in sympathy with him, shall be reemployed, the terms insist that all the men must express their regret and subscribe from 25 to 60 cents each to the Swindon hospital. The employers also refuse to pay them for the time they were on strike.

SITUATION IS SERIOUS.

The situation in the Great Western strike, despite the vigorous efforts of the officials of the National Union of Railwaymen, is significant.

The strike arose because two drivers refused to handle the Dublin traffic Their action was immediately repudiated by the union officials, who, when others came out, warned them that the strike was unconstitutional, dangerous, and would never be countenanced or supported by the union. The men have simply defied their own union. Effect of the Strike.

There is a general dislocation of Welsh traffic. The collieries are idle because no trucks can be obtained Perishable goods, particularly around Llanelly, are being held up. The docks closed. the Neath district are closing because

RUMOR OF ELEVATION INTERESTS LOCAL BAR

Story From Ottawa of Meredith accumulation, the last of which is being Brothers' Appointment Causes Comment Here.

A great deal of casion in legal circles this morning by the rumor from Ottawa, apparently based upon the best authority, that City Solicitor T. G. Meredith, of this city, was to be elevated to the position of justice

the Ontario court of appeal, Mr. T. G. Meredith. to succeed Hon. Richard M. Meredith, who is to beome chief justice of the province. The present chief justice, Sir William Ralph Meredith, is to be appointed next Lieutenant-Governor of Ontario,

to succeed Sir John Gibson, according to the story from the capital. Considerable credence was given the rumor by local men n touch with the situation, and the public announcement of the changes which will made at the next ression of paria-ment will be watched with interest.

Have No Excuse For structing firm, to necessary repairs. Two Freight Tariffs

Ottawa Dec. 6 .- Water competition is of the description of the comparatively small excuse for the radways charging lower freight rates if the east than in the west, declared M. K. Cowan, K.C., counsel for the Saskatchewan and Alberta Governments, at the western freight rates inquire at the western freight rates inquiry

His argument was that water transportation in the east only benefits those places on or quite near the water. Though the west has no facilities for water transportation, it has equal natural advantages in favor of low rates ural advantages in favor of low rates being charged, such as no grades, no curves or such features that mean heavy expense to railways. He again urged the board to take into consideration these facts, and fix new rates on the basis of cost of operation and density of traffic as the railways had prescribed in other rate cases.

'SMELLS" AGAIN PRESENT

Accumulations, Caused by Breakdown, Send Up Odors Unto Heaven.

Despite the attempt of Mayor C. M. tendent Walter C. Dodd, of the garbage department, to cover up the faults and defects of the incinerator plant, The This strike is symptomatic of the Advertiser's story on Thursday to the present labor temper. The men are resentful against their own leader to had been shut down on Tuesday and Wednesday, is cause something more has not been further borne out by an investigation done to help Dublin. Larkin's fiery made today by an Advertiser reporter. compaign, while despised by the more It was stated on Friday that the incinerator was shut down for a couple produced a widespread disaffection of hours on Tuesday and Wednesday, among the unskilled and semi-skilled while certain repairs were being made to the machinery, and that the collections of garbage were made as

usual and all of it destroyed.

Superintendent Dodd was quoted as tating that the stories that the plant was in bad shape and had been closed days, was absolutely wrong.

Stoppage of Thirty Hours. At the plant today The Advertises aw ample confirmation of its statements that the plant was giving trouble. One of the workmen employed there stated that the incinerator had been shut down Tuesday and Wednesday, while another told the reporter that the stoppage had been c more than 30 hours' duration, and during this time there had been no disposal of garbage. The stuff had been hauled in as usual, and the receiving room was piled high with the

Odor Exista Again.

The odor arising from this accumulation was, to put it mildly, not such as might emanate from a perfume factory, and was noticeable some distance from the destructor building. A fine line of smoke was drifting up from the nayor's pet smell factory, when the eporter have in sight, and to say at that time, at any rate, that there was no odor from the plant, would be absurd. Just how the hospital authoriies relish the aroma is a matter for

onjecture. The main trouble resulting, in the shut down, The Advertiser learned, resulted from the breaks in the big fan which provides the draft necessar" for the consumption of the garbage. Without this draft it is almost impossible to destroy the matter.

Firebox Doors Cracked. Another trouble lay with the firebox doors, all three of which are cracked and have had to be patched up by local mechanics. This, The Advertiser was told, was due to the absence of firebrick which has since been placed

in front of the doors. Ald. B. W. Bennett, chairman of the board of works, which has control of the system of garbage collection and destruction, states that The Adveriser's report of the shutdown was perfectly correct, and that no repairs for the incinerator are here, local contractors having received orders from Laurie & Lamb Company, the con-structing firm, to go ahead with the

dented Business.

RECORD OF LAST YEAR BEATEN

Extra Staffs Busy Meeting Demands of Thousands of Customers.

DOUBLE BUSINESS

General Optimism Hardly Stops at Mere Assurance of Increase.

London merchants in all lines of ousiness are unanimous in declaring that the local Christmas trade is better than in any previous year. Reports of hard times may come from other cities, but the people of London and district have enjoyed a prosperous year. Businessmen unite in saying that the increased business they have enjoyed through the year is still on the up-grade, and this year's Christmas trade so far has been greatly in ad-

vance of last year's. Extra staffs of salesmen and saleswomen are busy meeting the hundreds and thousands of Christmas customers from all parts of Western Ontario, as well as from London and vicinity, who annually do a great proportion of their Christmas shopping and Christmas

trading in London. Christmas decorations attract attention to beautiful window displays, and nowhere is the Christmas spirit of mingled excitement, pleasure and expectancy more evident than in the

Advertiser reporters called on representative dealers in leading lines of trade this morning, and everywhere they received the same assurance that the Christmas trade is all the dealers could desire.

Stock Moving Rapidly. Mr. Gordon Ingram, of Smallman & Ingram, informed The Advertiser that the Christmas trade was already considerably in excess of previous years, and the outlook is for a recordbreaking season. "Our stock of Christmas goods has begun moving rapidly, he said, "and sales have been most satisfactory. We are already ahead of last year's record, and there are no indications of a falling off in point of

sales." "Do purchasers show any apprehension as a result of the financial depression which is said to be imminent?" he was asked. "Well, no doubt some of them are

frightened, and are hoarding their money," he replied, "but the public generally are spending their money freely, and the outlook is bright."

Shop in Morning. "We cannot impress upon the people Exeter, Eng., Dec. 6.—Exeter jail was too strongly the many benefits accrutoday surrounded by militant suffra- ing from shopping early in the morngettes in anticipation of the removal ing," he added. GERMANY HOME OF GOVERNMENT

Old World and Not New Birthplace of Idea, Says A'd. Richter.

Would Have London Civic Administration Better Trained in Management.

The commission form of municipal government is usually regarded as one of the advances made by the new world, and it is generally supposed that in this Amer-

what is really an advanced development or outgrowth of commission government, has existed for years, and is quite common among the cities of Germany. There the mayor or burgomaster is not merely the nomin-

Ald, J. G. Richter. al chief magistrate or head of the city, but he is really the general manager of all the city's public utilities. The system approximates very closely to the experiment now being tried by the city of Westmount, adjoining Montreal.

Westmount's General Manager. Westmount has engaged a manager to whom is intrusted the carrying out of the policy laid down by the council. He will be, in brief, general manager of the city's business and the city's affairs. Just how Westmount will succeed in this innovation remains to be seen, but Ald. Richter states that a similar system gives entire success in German cities.

There the mayor is appointed by the city council or commission which is elected by the people. As long as he gives satisfaction he continues to hold office, and knowing that their tenure of office depends solely on their making good, German mayors give their full time and closest attention to the capable management of the business of their cities

College-Trained Mayors. Courses in municipal government are given in German schools and universities, and the graduate in these courses enters the field of municipal service by starting at the bottom in a minor office. He is gradually promoted up the ladder until he comes

to the office of mayor after serving in all the subordinate positions. Thus it is that no one is ever appointed to the position of burgomaster without having received a thorough training in municipal work, either in his own or some other city, for residents of other cities are sometimes selected if an equally efficient man is not available at home.

Directs All Business, As mayor, he directs all the business of the city just as he would the business of a large corporation of which e were general manager. He is paid an adequate salary, so that he can devote his entire time and attention

o civic work, and he is sure of his sition as long as he makes good. Ald. Richter observes that it cannot e predicted with certainty how such system would work out here, nor ADVOCATES IDEA HERE can anyone safely guess whether or ot Westmount will be satisfied with he work of the general manager appointed by that city.

Advocates Commission Form.

Ald. Richter is an enthusiastic adocate of the commission form of municipal government. He is satisfied, lowever, that the board of control system is a great improvement over mayor and council. But there is. he believes, a great need of electing men to the board of control and the mayor's office who are thoroughly experienced in city government, and have given complete satisfaction as

members of the council. It would be well, he believes, if an inwritten rule could be recognized by which candidates for the board control would be nominated from the council of the preceding year, and candidates for the mayoralty from retiring members of the board of con-

Two-Year Council Term. He would have aldermen elected for wo-vear terms, but their terms interapping, one half retiring each year, and the same procedure followed in electing the members of the board of control. In this way at least one half of the members of both the council and the board of control, in addition to the mayor, would be men of ex-perience, who had given satisfaction to the electors in previous terms of public office.

Ratio of Joint Salaries Now & Falls 60 Per Cent. on Electric Department.

BIG NEW CONVERTERS

Equipment for Street Railway Contract Ordered for \$20,-800-Many New Mains.

The water commission on Friday afternoon changed the salary scale of the joint officials of the water and electric departments, making the ratio 60 and 40 to be borne by the hydro and water departments respectively during the coming year. Com-missioner J. H. Chapman expressed some doubt as to whether the board was justified in passing such a resolution in view of its undecided status at present, but Chairman Philip Pocock replied that, in as much as the city council had virtually expressed the wish that the water commission should continue its executive powers in the interim, such a resolution was in place, and beginning with the present month the shares of the two department in paying the joint officials' salaries will be computed on that

Rev. W. R. McIntosh, on behalf of the Interchurch Athletic Union, asked the board to assist the athletic associations of the city by building public skating rinks for the use of hockey clubs. It was pointed out that the parks beard had no money available for the purpose, but the water commissioners readily offered free light and water for flooding the rinks, and the hockey clubs will be allowed to build them themselves in Queen's and Thames Parks if they care to do so. General Manager H. J. Glaubitz reported that the conchoid scale had been found in Springbank Park, and a thorough inspection of the park's trees is

being made \$20,800 For Machinery. The tender of the General Electric company for converting equipment required on account of the street rail-way contract for direct current was accepted at \$20,800. Four water-cooling transformers required for the system will also have to be purchased. Chairman Pocock stated that the de-

partment was financially in excellent shape, and notwithstanding the 14 per cent. reduction in water rates would have practically as large a revenue as Water Customers Increase. New water customers secured durng the year number 708, the largest number of new customers for any year

in the history of the department. The next best year for new customers was in 1905, when there were 563. General Manage that a systematic inspection of hydrants once a month had been New water mains, laid at ranged for. clude 1,000 feet of 18-inch pipe, 10,300 feet of 12-inch, 3,000 feet of 10-inch, 4,020 of eight inch, 14,790 of 6-inch, 1,996 of 4-inch, 625 of 2-inch, 570 of 1/2 -inch, and 1,490 of 1-inch pipe.

The waterworks department has now lose to 14,000 customers. Mr. Glaubitz reported that R. W. Simmie, formerly chief engineer at Springbank, had been appointed a caretaker of the Horton street substation at \$50 per

City Must Pay.

On the motion of Commissioner J. H. Chapman, the city will be asked to pay the bill for a 2½-inch water main laid to the incinerator and which the board of works declined to pay. The board decided to make no exception in the case of the city, as customers are required to pay for all piping more than two inches.

General Manager Glaubitz reported that hydro now has some 6,400 customers, one-half of whom formerly used oil, one-quarter gas and onequarter other electrical power. The city now has 104 power customers.

Salary for Commissioners. A communication was read from the hydro union giving notice of a motion Gentlemen,-Last winter I received to be voted upon at the annual meetcommissioners, besides any honorarium that they may receive, the sum of \$25,000 per year, to be borne by the municipalities using hydro. The \$25,000 will be divided among the three commissioners. Chairman Pocock will represent London at the meeting.

Mr. Glaubitz stated that the use of hydro-electric power in operating the Springbank pumping station had saved the city \$1,400 during the past year over the cost of operating the plant by steam and hydraulic power.

It was decided to pay \$600 premium yearly to the Employers' Liability Assurance Company to protect the department against public claims for death or injuries through accidents from hydro wires and equipment. The policy is not to protect the department from claims for injuries to its own employers, but from claims bought by citizens and others for injuries in accidents similar to the one which cost the life of young Herman

SUES COUNCILLORS

Writ Issued by Berlin Citizen in Connection With Server Deal.

[Special to The Advertiser.] Berlin, Dec. 5.-A writ was issued today against all the members of the city council by Mr. C. F. Watkin, acting on behalf of Mr. Ezra Kraft, ratepayer, for the sum of \$216.88, to be repaid the city treasury. This amount, it is alleged, was paid Alderman Hahn for his services as inspector of the construction of the trunk sewer. The sixteen councillors who are made defendants are prepared to stand behind the opinion of the city solicitors.

SEVENKEYS TO BALDBATE The New Sensational Comedy With a Laugh in Every Line Earl Derr Biggers

"Proceed," laughed Mr. Magee. "I'm you are not familiar with the important part such a picture plays in the success of a novel of today. The truth is, how-Don't curb yours. I beg of you."

"It's all right," said the other in a hurt tone. "Every word true. My name is Joseph Bland. My profession, until love entered my life, was that of haberdasher and outfitter. In the city of Reuton, 50 miles from here, I taught the Beau Brummels of the thoroughfares what was doing in London in the necktie line. I sold them coats with padded shoulders, and collars high and awelnspiring. I was happy, twisting a piece of silk over my hand to show them how it would look on their heaving bosoms. And then—she came."

Mr. Bland puffed on his cigar.

"Yes," he said, "Arabella sparkled on the horizon of my life. When I have been in a loudy of a novel of today. The truth is, however, that the noble art of fiction writing has come to lean more and more heavily on its illustrators. The mere words that go with the pictures grow less important every day. There are dozens of distinguished novelists in the dozens of distinguished novelists in the dozens of distinguished novelists in the country at this moment who might be haberdashers if it weren't for the long, lean, haughty ladies who are scattered statefully through their works."

Mr. Bland stirred uneasily.

"I can see you are at a loss to know what my search for seclusion and privacy has to do with all this," continued Mr. Magee. "I am an artist. For years I have drawn these lovely ladies who make fiction salable to the masses. Many a novelist owes his motor-car and his Don't curb yours, I beg of you." "It's all right," said the other in a hurt tone. "Every word true. My name is Joseph Bland. My profession, until love entered my life, was that of haberdasher and outfitter. In the city of Reuton, 50 miles from here, I taught the Beau Brummels of the thoroughfares what was doing in London in the necktie line. I sold them coats with padded shoulders, and collars high and aweinspiring. I was happy, twisting a piece of silk over my hand to show them how

Mr. Bland puffed on his cigar.

"Yes," he said, "Arabella sparkled on the horizon of my life. When I have been here in the quiet for about two centuries, maybe I can do justice to her beauty. I won't attempt to describe her now. I won't attempt to describe her how.

loved her—madly. She said I made a hit with her I spent on her the profits of my haberdashery. I whispered—marrimy haberdasnery. I wrispered—mark-age. She didn't scream. I had my wed-ding necktie picked out from the samples of a drummer from Troy." He paused and looked at Mr. Magee. "Have you ever stood, poised, on that brink?" he

"Never," replied Magee. "But go on.
Your story attracts me, strangely."
"From here on—the tear I spoke of. There flashed on the scene a man please. There hashed on the scene a man she had known and loved in Jersey City. I said flashed. He did—just that. A swell dresser—say, he had John Drew beat by two mauve neckties and a purple frock coat. I had a haberdashery back frock coat. I had a haberdashery back of me. No use. He out-dressed me. I saw that Arabella's love for me was wan-With his chamois-gloved hands that new guy fanned the ancient flame."

He paused. Emotion—or the smoke of

the cigar-choked him. the cigar—choked him.

"Let's make the short story shorter," he said. "She threw me down. In my haberdashery I thought it over. I was blue, bitter. I resolved on a dreadful step. In the night I wrote her a letter, carried it down to the box and posted it. Life without Arabella, said the letter, was Shakespeare with Hamlet left out. hinted at the river, carbolic acid, re-vers. Yes, I posted it. And then—" 'And then," urged Mr. Magee.

"And then," urged Mr. Magee.
Mr. Bland felt tenderly of the horseshoe pin in his purple tie.
"This is just between us," he said. "At that point the trouble began. It came from my being naturally a very man. I could have died—easy. The brave thing was to live. To go on, day after day, devoid of Arabella—say, that took courage. I wanted to try it. I'm a cour-

courage. I wanted to try it. I'm a courageous man, as I say."
"You seem so," Mr. Magee agreed.
"Lion-hearted," assented Mr. Bland. "I determined to show my nerve, and live. But there was my letter to Arabella. I feared she wouldn't appreciate my bravery women are dull sometimes. It came the door opening from the east verandah into the dining-room. So I came up here. I came here to be alone, to forgive and forget, to be forgot. And maybe to plan a new harborders.

Arabella at various times. I want to by Arabella at various times, I want to forget 'em. If I kept them on hand, I might look at them from time to time. My great courage might give way—you might find my body on the stairs. That's like them?" Why I hid them.

Mr. Magee laughed, and stretched ofrth

his hand. "Believe me," he said, "your touching confidence in me will not be betrayed. I congratulate you on your narrative power. You want my story. Why am I here? I am not sure that it is worthy to follow yours. But it has its good points—as I have thought it out." He went over to the table, and picked up a popular novel upon which his gaze had rested while the haberdasher spun his fabric of love and gloom. On the cover was a picture of a very dashing Do you see that girl?" he asked. "She

is beautiful, is she not? Even Arabella, in her most splendid moments, could get few points from her, I fancy. Perhaps

onderful power of Personal In-Auence, Magnetism, Fascination, Mind Control, call it what you will, can surely be acquired by everyone, no matter how unttractive or unsuccessful," says Mr. Elmer Ellsworth Knowles, author of

velopment of the book lays bare many tounding concerning simple though 6 controlling thoughts one may gain ship of those wh might remain quickly curately character and position dividual;

and habits with out drugs or medicines; even the complex subject of projecting thoughts (telepathy) is explained. Miss Josephine Davis, the popular stage favorite, whose portrait appears herewith, declares that Prof. pears herewith, declares that Prof. Knowles book opens the door to success, health and happiness to every mortal. no matter what his or her position in She believes that Prof. Knowles has discovered principles which, if universally adopted, will revolutionize the mental

status of the human race. The book, which is being distributed roadcast free of charge, is full of photographic reproductions showing how these unseen forces are being used all over the world, and how thousands upon thousands pave developed powers which they little dreamed they possessed. The free distribution of the 100,000 copies is being conducted by a large London institution, and a copy will be sent post free to anyone interested. No money need be sent, but those who wish to do so may inclose 5 cents (stamps of your own country) to cover postage, etc. All requests for the book should be addressed to National of Sciences, Free Distribution Dept., 843 D, No. 258 Westminster Bridge oad, London, S. E., England. Simply ay you would like a copy of "The Key o the Development of the Inner Forces,"

make fiction salable to the masses. Many a novelist owes his motor-car and his country house to my brush. Two months ago, I determined to give up illustration forever, and devote my time to painting. I tuned my back on the novelists. Can you imagine what happened?"

"My imagination's a little tired," apologized Mr. Bland.

"Never mind. I'll tell you. The leading authors whose work I had so long illustrated saw ruin staring them in the face. They came to me, on their knees, figuratively. They begged. They pleaded. They hid in the vestibule of my flat. I They hid in the vestibule of my flat. I should say, my studio. They even came up in my dumb-waiter, having bribed the janitor. They wouldn't take no for an answer. In order to escape them and their really pitiful pleadings, I had to flee. I happened to have a friend involved in the management of Baldpate volved in the management of Baldpate.

Volved in the management of baddpate Inn. I am not at liberty to give his name. He gave me a key. So here I am. I rely on you to keep my secret. If you perceive a novelist in the distance, lose no time in warning me."

Mr. Magee paused, chuckling inwardly.

Mr. Magee paused, chuckling inwardly. He stood looking down at the lovelorn haberdasher. The latter got to his feet, and solemnly took Magee's hand.

age is done." Other issues, he advised, had put the separation bylaw in the shade at the last election. well, you've got me beat a an," he said.

nile, old man, "You don't mean to say—" began the nurt Magee.
"Oh, that's all right," Mr. Bland asured him. "I believe every word of it. t's all as real as the haberdashery to me. I'll keep my eye peeled for novelists.
What gets me is, when you boil our two

ist clear out. The haberdasher looked Mr. Magee fully The haberdasher looked Mr. Magee fully in the eye, and the latter was startled by the hostility he saw in the other's face.

"The point is," safd Mr. Bland, "I don't want you here. Why? Maybe because you recall beautiful dames — on book covers—and in that way. Arabella. Maybe—but what's the use? I put it simply. I got to be alone — alone on Baldpate Mountain I won't put you out tenight—"

"I got to be alone — alone on Baldpate Mountain I won't put you out tenight—"

Buchanan is the electrical engineer.'

been in the hands of a committee for the greater part of a year, and there was apparently even nothing now to show that a saving would be affected by separation. He believed that at the time the measure was voted upon the people lacked complete information on the subject, and he thought that this should be furnished them, though admitting that there was apparently not much more in sight now than a year ago.

Graham-Moore Conference.

The mayor said that the finance committee had not had a chance to have a meeting, but said that he and Ald. Moore had got together, with the result that the bylaw was drawn up. The mayor's excuse was that the petition of the ratepayers could not be

Ald. Moore remarked that he had expected a report from the special waterworks committee, but as that body had not met until late Friday afternoon there was none forthcoming. "Why did it take three months to get

this report? I understand that the report has been in for a week. Why wasn't the committee called together before?" asked Ald. Richter. To which the mayor replied that there had been so many meetings that the spe-

cial committee had not had time for a session before. Dragged Into Weeks

"I've been pressing this matter for six weeks," declared Ald, Richter, "and I was told a month ago that it would be ready in a few days. But these few days have been dragged into weeks." "One would almost imagine that some one believed that the report was delayed for a purpose," insinuated his worship,

"but I can't see any reason for this." Ald. Moore said that he had had nothing to do with the selection of John M. Moore to make the appraisal of the waterworks plant, nor had he discussed the matter with Mr. Moore. "I can't see any reason for sending

this back to the people without trying it out," said Ald. B. W. Bennett. "It wasn't railroaded through last year, but was discussed in public by Mr. Beck, Mr. Pocock, and others, and your worship

When the vote came, Alds. Moore, Glass, Spittal, White, Johnston and Rose were for resbmitting the question, with Alds Richter and Bennett favoring a year's triai of the proposed arrangement before it should be thrown out. Committee Does Nothing

DEFINITION OF Cottles Receipts makes a lot of money on the side, giving expert advice on electrical matters."

"Mr. Van Cleve's appointment provided for the appointment of an electrical engineer under him," said Ald. Richter, who then went on to further show that London would never make a success of her street system until there was proper control of the streets.

"Is there any case on record where a permanent pavement has been opened to put down a water main?" asked the mayor.

Ald. Richter named Catharine street in West London.

The Mayor—On Harmony.

The mayor then said that the water commission was prepared to contest the statement that it had opened permanent pavements after being previously notified to have this work done beforehand. The mayor claimed that the water commission and the engineer was proper control of the streets.

LONDON, SATURDAY, DEC. 6.

HOME RULE WANTED.

The charge has continually been made by British Unionists against Mr. Asquith and his following that their home rule measure is a forced bargain with Mr. Redmond. With this stands in amusing contradiction the other charge that the parliament act was put through mainly to secure home

But this charge of compulsory home rule under Nationalist dictation sounds hollow enough to anyone who knows the history of the Gladstonian measures. Mr. Asquith stuck to the Grand Old Man through the darkest times, and if he has ever seemed to waver in his adherence to justice for Ireland, it was when, in the trough of Tory reaction and Chamberlainism. home rule seemed for the time to be ruled out of practical politics. A man who stood by Gladstone in the days of the great Liberal split is not likely to need compulsion to carry through a measure of common justice too long

That Mr. Asquith should be, however, even more concerned for electoral, social and economic reforms within his own island than for the consummation of Irish home rule in itself is natural to suppose of a thorough Englishman. But then again his considerable sympathy with Irish Nationalism is all the more enhanced by the conviction, shared now with every grants, which they will doubtless rethinking Briton, that Ireland must be cleared out of the path of John Bull's own future progress. All Englishmen the little towns, and undertaking are now home rulers in some degree; schemes that will require increased for an election on the question some- much more to complete them. another "movies" type. Her only offence was to spell out the signs that Trapper Swears to Avenge the Crime" flicker the letters. "The-Old-Trapper - Swears - to - Av - enge the-Crime," says the second variety of fan. And if one listens closely he can hear people disjointing the sentence in chorus all over the house. Perhaps that's why the makers are wise enough to let the "signs" run for almost a

minute. It is scarcely possible to say of the animated pictures that with all their what we mean

FREE FOOD.

"The policy I give you at this monent, the policy I believe every patriot in Canada ought to support, and the policy I believe to be the duty of the Government to immediately inaugurite, is a policy of absolutely free food -food free from customs duty."-Sir Wilfrid Laurier at Hamilton, Nov. 26,

THE FINANCIAL SITUATION.

Sir George Parish, editor of the ondon Statist, a leading financial paper of Great Britain, gave a hint of ne extent to which Canada has enterd the borrowing field, in his address at Toronto the other evening. During the last ten years we have borrowed for construction purposes in the Dominion no less than \$900,000,000, His uggestion that it was time for a halt was appropriate.

But the most important matter that arises in considering our financial status is the conduct of the Government. Its extravagance during its two years of power has been not only unprecedented, but alarming. The appropriations granted by parliament at its last session reached the enormous sum of \$250,000,000, or more than double what it was in the last year of the Liberal administration. And this, of course, does not include the thirtyive millions which Mr. Borden wanted contribute to the British admiralty. t may be admitted that this approoriation will not all be used this year. But then warnings come from Ottawa that additional expenditures will be called for at next session beyond anything in the past.

We were told a short time ago that Mr. White did not want to apply to European capitalists for any more noney. He has borrowed large sums already this year, and the rate of interest is going up. But he is surrounded by men with extravagant ideas. They want money, and he must provide it. The Minister of Militia has run up his bill to some fifteen millions, and if the military program he has foreshadowed is to be carried out his expenditure will increase. Then the Canadian Northern, and other railway corporations are out for Government ceive. The Department of Public Works is putting up buildings in all that is what makes Unionist proposals appropriations to begin them. and what absurd. Mr. Asquith voices the completion of rural delivery, and the opinion of the dominant partner in a establishment of a parcel post will subsidies; and it is safe to say that It is not clear from today's dis- their request will be granted-to some

Where is all the money to come ward Carson than he has professed from? It is true that the revenue of himself ready to make all along. As the Dominion is greater than it ever he says, the Government never had was. But it is not going to supply the any intention of humiliating Ulster wants of the Government, especially nor of taking away the paramount as it is now beginning to decrease. We control of the Imperial Parliament. are faced with a condition fraught Mr. Asquith awaits suggestions as to with danger. Unfortunately the averdetail which Unionists have all along age man scarcely realizes the heavy refused to make. "Many of those who go to Western Canada have no patriotism. When they arrive there is a great temptation for them to trade with the United States." Sir Alexander Lacoste is said to be the author of this statement. Why should not trading with the United States be made a pentitentiary offence and have done with it?

No matter what one hears of financial depression throughout Canada, the country's banks appear to have never th' street. been in a stronger position. The statements which are appearing at this time indicate that the banks have made considerable profits and have assured £15,000,000 was entirely lost, shareholders of dividends, as well as making substantial additions to the reserve funds

THE FOOD TAXES.

[Victoria Times.] There is said to be only one Canadian newspaper left that has the an accomplished fact. courage to defend taxes on food. We are almost sure the solitary one is not published in British Columbia. There is no one left here now with sufficient assurance to rise up and tell the workingman that high prices mean constant employment at high wages. A MAN EATS 54 TONS OF FOOD

[New York World.] An English scientist with a passion for statistics has been computing the amount of food that the average man eats in a lifetime. He asserts that in the process of attaining his three score years and ten he eats about fifty-four ons of solid foods and fifty-three tons of liquid.

He will have eaten 12,000 eggs, 400 bounds of cheese, about four tons of fish, and, could it have been all baked at once, a loaf of bread equal in size to an ordinary family hotel But think of the vegetables devour-Our scientist says a train three

miles long would be required to bring a life's supply to the average man. OUR MOTHERS' INFULENCE.

[Rochester Herald.] Most of us, when we feel our strongciously or unconsciously, recalling the virtues of our own mothers, and if the lay ever dawns when different types ters with the phosphorescent stopper. of women come to the front, types of women whose characters are trically opposed to the characters of our mothers, then man's reverence for

ORATORICAL TRICK.

[London Daily Chronicle.] Disraeli, whose eloquence Lord Curbelow that of Gladstone. tried hard to give his hearers the impression that he was not in the habit of preparing his speeches. Discussing Plunkett's oratory with Disraeli Lord Granville remarked that the Irish statesman hesitated so long for a word that he seemed to be on the point of

HADN'T SPOILED THE PAPER.

[Youth's Companion.] "Everything seems to be going wrong," sighed the poet. "I asked the maid at my lodgings this morning what had become of the paper that I'd left lying on my desk. 'Oh, sir,' she said, 'I thought it was waste paper and I threw it in British Government the waste paper basket.
"'No, I said, 'it wasn't waste paper.

hadn't written anything on it yet.' THE COST OF VICTORY.

[London Answers.] Fighting the forces of nature is an

expensive business, both in life and sive republic? The Panama Canal, which now joing the Atlantic to the Pacific Ocean, has cost thousands of men their lives, in addition to the £80,000,000 that it has cost to make. When this gigantic task was first undertaken by De Lesseps, for the French, he was told on all sides that he was attempting the im-. possible, and subsequent events seemed to show this to be the case.

Workmen died from fever like flies,

THE TREMULO

Oh, a lady may beg and a lady may plead Or a lady may argufy clear, Yet man will not hearken and man will not heed

The sound of her words in his ear, But where is the man who can still remain firm When the pleas and the arguments stop, And the lady refrains from mere words for a term

And pulls out the tremulo stop?

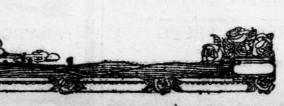

You know it—the quaver of voice and of lip, The moist and the tear-bedimmed eye, The half-suppressed sob which she almost lets slip And the broken and heart-rending sigh; Let the militant hammer and yammer and break

Let her bombard the king or the cop, The wise little woman makes no such mistake; SHE pulls out the tremulo stop!

Oh, man, you may win when she argues in style And you're stronger than she if she fights, And you may be as stone to her loveliest smile when she seeks for her way-or her rights;

But when her voice shakes and her eyelids grow wet Your mantle of power will drop.

And you'll give her whatever she wants, you can bet, When she pulls out the tremulo stop! -BERTON BRALEY.

THE VOICE OF THE PEOPLE

Praises Bishop Fallon.
To the Editor of The Advertiser:
The prelate "put one over" the politician, and othe latter replies the bishop has biceps. The public will be horrified to learn this, and one recalls the story of the present women who desired to to learn this, and one recalls the story of the peasant women who desired to make the Queen of Spain some stockings and were refused permission by a court functionary, who answered: "Please understand the Queen of Spain has no legs."

In the staff have not improved, but have gone back during the last ten years."

What is his authority for this statement? legs."
After reading Henri Bourassa's article

in Le Devoir, the French saying: "It is to laugh!" is apropos. Thoughtful men who have read the speeches of the two orators cannot help being impressed with the lofty patriotism and elevated views of the churchman, and many who are not his co-religionists will feel a thrill of satisfaction and draw a hopeful inspiration for the future from the ut-terances of the eloquent Irishman and terances of the elequent A. W. LE PATOUREL.

Woman Teachers' Salaries. To the Editor of The Advertiser: Not long ago the women teachers of

ondon presented a petition to the board of education asking that their maximum salary be increased, giving good and cogent reasons for making the request. have had no increase for years, h the cost of living has materially increased, and the course of lessons has become much more arduous than in the the greater part of the costly machin-

True, there are supervisors in art and but the greater part of this work alls on the grade teachers, who give ten and even twenty lessons in these subjects for one given by the supervisor. salaries." Does he infer that the more experienced teachers are void of ambition? How would the same rule apply in the medical profession? Does he public place more confidence in the skill of the newly-

gone back during the last ten years."
What is his authority for this statement?
If there are incompetent teachers on the staff, why not dispense with their services, and not use them as a deterrent of justice to the many faithful and valuable teachers who have made and are still helping to keep up the reputation of

The treatment received by the womer teachers from the board does not tend to encourage the good and noble efforts put forth by them in molding for good citizenship the young of our fair city. Yours

A WOMAN TEACHER.

All in the Family. To the Editor of The Advertiser:

Following precedent just established by His Worship Mayor Graham of turning out a workingman deputy returning officer regularly appointed by the council, and giving the day's work to his brother-in-law, who is now enjoying a salary of \$1,600 from the city, wouldn't it be a good plan to appoint all the school principals as D. R. O.'s for municipal elections? They are usually on Christmas holidays, under salary, of course, but the D. R. O.'s' fees would help some and perhaps be acceptable.

What has been a hard-earned little pick-up for some worthy workingman was too much for the worshipful mayor. to let escape—and as it is now all in the family anyway, it must be O. K. according to the mayor's way of think-A WORKER.

Child Had **Bronchitis**

Once people get acquainted with he wonderful control hase's Syrup of Linseed and Turpenine exerts over bronchitis, whooping ough, croup and colds it is not easy o persuade them that anything else is "just as good." This is why the mitators never get very far.

In 1902 Mrs. street, Trure, N. S. wrote as follows "From an infant one of my children was troubled with bronchitis, and the east cold would aggravate the We could not get anything to help him, and were often greatly alarmed. Hearing of Dr. Chase's Syrup of Linseed and Turpentine as a treatment for bronchitis, we used it, and are glad to state that it effected a complete cure. If any of the children take a cold or cough I give this medicine, and have never known it to fail to bring relief.

Mrs. Her now writes that she has since proven this medicine to be a cure for whooping cough, and would

What Women Are Doing

Almost-Human Dolls, That Come From Dear "Mother Kruse" In Far-Off Germany, Are the Sensation of the Christmas Season!

Some of Mother Kruse's Wonderful, Almost-Human Dolls, Which Are the Sensation of This Year's Christmas Toys.

"Mother Kruse" lives in the quaint German town of Bad Koesen, and is famous for the life-like dolls she manufactures. These at clad in carefully-made garments, which really fit, and their outer garments for winter wear are of real fur. "Mother Kruse" was very poor only a few years ago, but she is not so now, for she gets as much as \$200.00 for a single doll.

Cynthia Grey's Mail-Box

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn. No letters can be answered privately.]

Turkish Delight. Dear Miss Grey-Will you please give me a recipe for "Turkish Delight," and thank you very much.

A .- One ounce sheet gelatine, soaked several hours or overnight in half a cup of cold water. Take 1 pound (two cups) white sugar and half a cup of don't like to use peroxide because I cold water, put on to boil and when think it kills the roots.
boiling add gelatine and boil slowly 2. Could you give me the address boiling add gelatine and boil slowly and steadily for 20 minutes. Take off, add grated rind and juice of one lemon and one orange. Rinse a square cake tin with cold water, pour in candy and let stand overnight in a cool place. Cut in squares and roll in icing sugar.

Song For "Farmer's Wife."

Nicholas," asked for by "Farmer's will send me her address I shall forward one at once. I am indebted to "V. I. R.," "I. B.," "Artie," aged 11,

She Is Grateful.

Dear Miss Grey-I am very much pleased with response to question regarding song, "Too Late, Too Late," and certainly appreciate your column very much. I am inclosing stamped envelope for words and music of the song. Thanking your very much indeed. Sincerely yours, MRS. P. B.

A.—The song has been mailed you

Eccentric Is the Sant of These Plumes

Still another evidence of frenzied millinery fashions—as someone has pronounced the styles of this yearis shown in the arrangement of these coq plumes. One of them curls downward almost over the face of its wearer so that she has to peer around the oddly placed feather, when glancing toward the left. The coq plumes are white, and are posed against a toque of softly draped black velvet.

Hoods Sarsaparilla

Acts directly and peculiarly on the blood; purifies, enriches and revitalizes it, and in this way builds up the whole system. Take it.

There is no "just-as-good" medicine. Insist on having Hood's. Get it today.

The thanks are due our readers, who so kindly supplied copies.

Would a person require more than a common public school education to become a clerk in a drug store? Would you require to be able to read other than the English language? I am a good reader, but not very good at figures. I would like your advice on the subject. Honing to like your advice on the subject. Hoping to like your advice on the subject. Hoping to only the figure representing the age. It see your answers in print, I will thank you is not necessary to write "inches" or and remain. ANXIOUS.

Answer .- Gracious, friend, why don't ou ask the sporting editor about such things?

2. Yes; inquiry reveals the information that a drug clerk has to have his matriculation. A knowledge of Latin is necessary before he can enter a drug store.

BUSINESS GIRL'S DRESS.

The business girl who knows the value of little things in a presentable and attractive appearance, never appears at the office with shabby, unpolished boots, or with carelessly mancured hands. The concentrated gaze of the man who is dictating is very likely to fix itself on his stenographer's hand, poised over her notbook: or his lowered, absorbed gaze, to focus itself on her feet. He may or may not notice that the hand is exquisitely white and dainty, and the little boot irreproachably heat with no button missing; but let the hand show rough and ragged nails, or the boot show shabby and buttonless features, in nine cases out of ten his gaze is arrested, and a mental note against that employee is registered in his mind. Neatness should be the fetich of the girl work-

er: then economy, then wisdom in

buying, and finally all the attractive-

necs she can compass.

London Director Buys Guelph Club. The business discussed during the afternoon was decidedly routine. Director George H. O'Neill, of the London Club, sprung the only "bombshell," or near "bombshell," when he purchased the Guelph franchise from to put up \$700 as a bond to protect President W. A. Mahoney for \$2,500. There was no haggling over terms between these two gentlemen. Mr. o'Neill says to Mr. Mahoney, "What will you take for your franchise?" and Mr. Mahoney says he'll take \$5,000, and not a 'cint" less. "Done," says Mr. O'Neill, "sign this paper, and the franchise is mine," and Mr. Mahoney signed the paper, and that's all there was to it. It looked like a good bargain for somebody, and Mr. O'Neill until after the first of the year, when thinks he put one over on Mr. Mahoney it will be definitely known whether and Mr. Mahoney thinks he put one Erie and Youngstown will be taken in. over on Mr. O'Neill, so there you are. Afand Tom Nelson and Roy Brown, of ter this, however, all Canadian League Brantford. presidents will be elected for two

The league dealt with several other minor matters. The question of transferring the Guelph and Berlin franchises to Erie and Niagara Falls or Youngstown was only briefly discussed. The matter has been left over to deal with after the first of the year, Erie having been given until Jan. 1 to get into another league. However, the general opinion is that Guelph and Berlin will remain in the circuit, the league books showing that Berlin was only \$71 behind Hamilton in attendance receipts last season. This is considered good, as Berlin did not have the advantage of one holiday date at home.

To Get After Scorers.

The question of appointing a man to compile the scores and issue the averages twice a month was largely discussed. President Fitzgerald stated that the official scorers were to blame, and until the clubs themselves took action to make these scorers send in their reports on time, the league would surfer from not having the averages printed. President Stevely, of London, thought a man should be appointed, and if the scorers did not send in their reports he could compile the averages form the box scores in the newspapers. Several of the club owners objected to this. It was finally decided to compel the scorers to hand in their sheets to the secretary of the club after each game, and he would forward them to the league. The clubs would then be responsible, and if there is any delay in forwarding them, fines will be imposed on the offenders. President Fitzgerald will endeavor to get the averages out twice a month.

Committee to Settle Disputes. In future when disputes pertaining to games arise between two clubs or other matters crop up, necessitating the attendance of every club owner at the meeting, President Fitzgerald will pick out three of the club owners as a committee to deal with the question or questions. The expenses of these men will be paid by the league when they come to Toronto to meet, and their decisions will be final. President Fitzgerald has been empowered by the league to settle many of these cases himself without calling a meeting, and the committee will only be other matters crop up, necessitating

J. Lynch. National League officials
here stated today that the governor had assured them he would be pres-At the close of a pleasant evening ent. In addition to the election of a president the magnates will consider several other important matters be-

nind closed doors. The seventeen demands of the Baseball Players' Fraternity will be received and considered officially, with President-elect Tener in the

Each demand will be voted on. The league will be asked to instruct President Tener how to vote as a memb of the national baseball commission when the fraternity's demands come before the supreme court of baseball in Cincinnati in January. The American League already has empowered Ban Johnson to act, while the major leagues also will send a representative to the Cincinnati conference.

In passing on each of the fraternity's demands the National League magnates will be the first to discuss officially the status of the players. Another matter to be considered by the National League men is the new chair. drafting system orginated by Presi-

dent Ebbetts of the Brooklyn Club, innati in September.
The Ebbetts plan does away with the

ottery system of securing minor league players whose services have talent without drawing lots, while the two pennant winners, already strongly equipped, would be compelled to take what was left after fourteen clubs had sed the fine tooth comb.

Had we been satisfied to let the public do the "proving" --- we could have marketed the "Russel-Knight" in quantities twelve months ago.

But we preferred to prove it ourselves.

Thousands of dollars and months of time were spent in refining every detail of the Russell to a point where further improvement could not be foreseen.

The new Russell-Knight you buy today is a PROVEN productfree from every element of uncertainty encountered in the purchase of most new cars.

Former owners of other high-priced cars best appreciate the sterling merits of the Russell-Knight. Their letters are offered in evidence.

"Made up to a Standard, not down to a price"

Hull, Que., Nov. 25, 1913.

Russell Motor Car Co., Ltd., Gentlemen:

The "Six" I bought from you last spring is the ninth car that I have had, the last four being Russells, so I can speak freely from a few years' experience. The first Russell I had was a Model "R," exchanging that for "38," Both gave great satisfaction. My son is driving the '38" now. In this car I thought I had the last word in motors, but the "Six" is superior in every

The last Russells were about perfect, but this "Six" is a winner. We have taken numerous long tours, but have never had the slightest trouble. It is the most comfortable car I ever rode in and my friends all say the same, for it is easier riding than an electric and more comfort-The heating system is perfect.

The second last car, a "38," never had the engine opened all the time I drove it and the "Six" seems to more than equal that record. The engine runs better and quieter and each day it runs more smoothly. The car itself glides along without a shock. It is also very easy on tires and gasoline and so far as trouble goes, I don't know what the word means.

It is great to think that this beautiful car is produced in this country. In my estimation it out-classes any car made or imported into Canada today.

Very truly yours, (Name on Request.

Ridgetown, Ont., Nov. 8, 1913.

Russell Motor Car Co., Ltd., West Toronto.

I just saw your ad in the daily headed "Russell-Knight Now it is only the fortunate fellow who owns one that knows the real meaning of the word "Russell-Knight."

The pleasure and satisfaction I have had with the Knight-engine car bought from your Company two years ago is beyond descrip-

Furthermore, in these days of high price of gasoline, I can run twenty-six to thirty miles on a gallon of garoline, without additional equipment, and on any kind of dry roads by actual test. To some this would sound "inflating"-re the gasoline consumption described—but it is a fact by actual test, which I have found by proper adjustment of the carburetter.

Wishing you unbounded success. I remain

Yours truly,

(Name on Request.

EASTERN ASSOCIATION CLUB EAGER TO GET BILL BAKER

Pittsfield Club Wanted To Trade Three Players For St. Thomas Pitcher, But the Offer Was Refused-No Trades Pulled Off at League Meeting.

Would Like Bierbauer, Too.
Shaughnessy would also like to get
Louis Bierbauer or Eddle Linneborn from
the London club. President Stevely offered to trade him Rube Deneau for Dolan, but there was nothing doing. The other trades mentioned were along similar lines. spring he should be in the pink of condition.

"I'm the only guy in this league who will talk trade," said Frank Shaughnessy, of Ottawa, at the Canadian League meeting in Toronto yesterday, after he had made sundry futile efforts to pull off some kind of a deal with some of the other clubs. "I have been trying to pull a trade off for the last two years, but I haven't been dale to land one yet," he continued, Shaughnessy wanted to trade Dolan, his big first baseman, but none of the other club owners could see his proposition. Besides, the Ottawa man wanted too much in exchange for the first sacker.

wanted too much in exchange for the first sacker.

"Shag," Wants Kopp
Shaughnessy would like to get Kopp or Wilkinson from St. Thomas. He approached President C. O. Stanley, of the St. Thomas club, and tried to dicker for thomes Smykal for Kopp and Dolan for thomed Smykal for Kopp and Dolan for Wilkinson it was all off. The whole trouble with Shaughnessy is that he wants to palm off some of his lemons for real ball players. That is the secret why he has been unable to pull a trade. He couldn't pry Kopp and Wilkinson loose from the St. Thomas club in securior to make a deal. Mr. Stanley believes but the St. Thomas club has refused to make a deal. Mr. Stanley believes Bill will be one of the best players of the whole Ottawa ball team, and Stanley told him so.

Would Like Blerbauer, Too.

Would Like Blerbauer, Too.

Big O.H.A. Meeting Is Being Held Today

Financial Standing of Association Is Record One-Secretary Hewitt's Salary Is Boosted-Charles Farguharson Elected President.

[Canadian Press.]

meeting of the Ontario Hockey Association took place here this morning President H. E. Wettlaufer, of Berlin, who dent H. E. Wettlaufer, of Berlin, who now retires, after serving two years, in his farewell address to the association, referred to the exceptional financial standing of the O. H. A. with a cash balance of \$6,049.12, establishing a new record. The O. H. A. is probably one of the strongest and resulthing a matter, aport-

ord. The O. H. A. is probably one of the strongest and wealthlest amateur sporting organizations in America.

He took exception to the proposed amendments to the rules, providing that a rural player should be one residing in a 'village, police village or rural district.' Mr. Wettlaufer pointed out that if this were accepted it might work a great hardship to some of the competing clubs in each district. He also strongly opposed the proposal to extend the offside line from the goalkeeper from three feet to ten feet as the thin edge of the wedge. to ten feet as the thin edge of the wedge regarding offside play.

Chas. Farquharson, of Stratford, was

elected president The salary of the secretary, W. A. Hewitt, was fixed at \$750, instead of \$500. Amendments Nos. 1 and 2 were carried, providing respectively for the change of the names point and coverpoint to left defence and right defence, and for the possession of two sets of jerseys of unlike colors by each team so that in case of similarity one team may change.

a lengthy discussion the amendment providing that a player should not be offside when the puck

bounds off the goalkeeper ten feet out Toronto, Dec. 6 .- The 24th annual from the goal, instead of three feet, as formerly, was carried.

Amendment Carried. The amendment allowing players livng in police villages and villages the same privileges enjoyed by those in rural districts—the right to play with the O. H. A. team nearest to themwas accepted by the delegates, after 1:43 1-5.

On motion of Frank Nelson, second- Marshon, 3 Napier. Time 2:10 3-5.

M'CLARY HOCKEY CLUB HELD SMOKING CONCERT

Splendid Programme Provided in Aid of Manufacturers' League Hockey Team.

A very successful and interesting smoking concert was held on Friday evening in the foundry dining-room of the McClary Manufacturing Company, in aid of the newly-organized hockey elub. A large crowd attended and enjoyed an excellent program. Among those who took part were Messrs. G. Moreen, E. D. Lathan, F. Callard, F. Dowling and F. Crossley, soloists; B. Moulton, planist; Wm. Gibson, reader; J. Fiekling cornetist, Mr. C. McNamara entertained the audience with a

Canadian League Notes

shortstop, is laid up in St. Thomas at the present time with typhoid fever. Forgue seems to be the original hardluck guy of the Canadian League.

Knotty Lee claims he has signed up Frank Gurney, of the St. Thomas club. St. Thomas does not want Gurney next season, according to President Stanley, and when Lee heard about it he ost no time getting after the Detroit boy. Gurney is the best fielding first sacker in the league and will strengthen the Hamilton team.

The Hamilton club is still owned by Messrs. Lee, Robinson and Burns. President McCaffery, of Toronto, took an option on it, but let it expire. Eddie | Radium Holly will not manage the Kolts next Bell Oak

year, in that case. Bill Cristall, the Toronto pitcher, was around shaking hands with the Canadian Leaguers yesterday. Bill has landed a job as manager of the Adrian team in the South Michigan League. President Mahoney, of the Guelph Club, was negotiating with him, and would have signed him up had he not landed the South Michigan berth.

Tom Nelson hasn't a ward to say about the Brantford team's prospects next season, but Tom is not idle by any means. Brantford will be up there in the running next year with both feet, you can bank on that.

Marlin Kopp, of the St. Thomas G. N. team, is undoubtedly the fastest man J. In the league. In fact, there are few men in the big leagues who have anything on the St. Thomas left fielder when it comes to getting around the C

Reilly had walking typhoid fever immer, and was not in shape to Despite this, he won the majority of the games he worked in, and showed enough stuff to warrant any club keeping him. He contracted blood-poisoning in September and pitched a game in Tilbury in which he struck out 17 men and allowed only one hit, with his foot bandaged up. Rube Deneau, Eddic Wright and several other Canadian League players played against him that day and they several other Canadian League players played against him that day, and they say it was the gamest exhibition they ever saw. Reilly was laid up in Tilbury for three weeks after that. Since then he has been in St. Thomas and has gained 40 pounds since he came to the Canadian League. He just returned to his home in Massachusetts the other day, and he will be back next spring ready to pitch the best ball he ever pitched in his life. Reilly is a clean-living young fellow, and just the type that develops into a big leaguer.

Shaughnessy gave Shortstop Crowder, of the Ottawa club, his release Crowder had a chance to land a manager's berth o th, and Shaughnessy would not stand in his way.

McCLARY CARPETBALL LEAGUE.

Play during the past week has been of n interesting character, and the games have been very keenly contested, though in some cases scoring was on the low side. The Famous, by consistent play, further improved their position, and with six wins in seven games are going strongly. wins in seven games are going strongly. Perhaps the greatest interest centred in the meeting of the leading molding shop clubs, the Gladona and Marine, and when the leaders were beaten the winners felt very "fine and large." The euchre tournament is in an interesting position, with Scheldt fighting hard to maintain his lead. Present positions for the week ending Dec. 5:

M TIRED of my job. I'm tired of balant worked to death. My employers are heartless, and I see nothing to it but a daily grind, with no chance of anything better. Gee, I wish I could get another position!'

That is what a young man, who is a stenographer in the employ of a large corporation, said to me the other afternoon,

"Why don't you keep your eye on the Classified columns of the newspapers?" I said to him. "Or, better still, why don't you advertise in those columns for a position?"

"The Classified?" he said, wonderingly. "What do you mean?" I told him that I meant the Want Ads. "The Want Ads.! What are

Here is an instance (and I know of more) of a dissatisfied, disgruntled employee, working away his life in the service of employers whom he cordially dislikes and to whom he has never given and will never be able to give the kind of efficiency that is natural in the man who loves his

This young man is wishing for better things. He admitted that he does not read the advertising columns of newspapers, because he "believed that most advertising is a fake anyway and wasn't much use." He promised, however, before I left him, to read the "Help Wanted-Male" columns for a while and to answer any advertisements he might find there for the kind of service he is equipped to give.

Today, as I write this, there are four advertisements for stenographers in the "Help Wanted -Male" columns of one newspaper on my desk, to say nothing of a dozen or more advertisements for office assistants, salesmen, solicitors, etc. Here are at least four opportunities in one day for that young man to connect up with another position and perhaps a much better one than he now has.

Opportunity, notwithstanding that famous poem by Mr. Ingalls, comes more than once to the man who keeps his eye on the Want Ads.

The West Ad Min.

WANTS LARGER QUARTERS FOR INDUSTRIAL SCHOOL

Principal H. B. Beal Tells Members of the Board of Trade of Educational Needs -To Protect Retailers.

tion.

Principal H. B. Beal, principal of the cent. of our boys and girls who do not Industrial School, addressed the board enter our secondary schools. of trace Friday evening in the board rooms, city hall, on technical training and industrial education. The present quarters, while thought commodious by many of the citizens, are inadequate, and the increasing popularity or the institution necessitates a larger building, he declared.

Friday night's meeting was the first crowded the room, and the enthusiasm what may be expected in future, when industrial problems of the city are con-

The ultimate object of the Industrial School work, Mr. Beal declared, courses as taught in the Collegiate suitable for their needs, will have some other line of instruction to re-

Two-Fold Object.

"The day industrial classes for boys have a two-fold object," he said. finds factories with the work so indi-"First, to determine the industrial call-vidualized and specialized that an aping for which he is fitted by nature, the same time, it should aim to train him for citizenship. This will require! a strong academic course intimately and profoundly related to the prac-

"The object of the day course for girls is largely domestic. Its purpose is to prepare them in a broad way for Boughner, whose duty it will be to dethe duties of home-making. This will include a general education, giving special emphasis to the use of good English and the mathematics which they will require to use. The practical work in sewing, dressmaking, millinery, etc., is taken up by experts possessed of shop experience, which will insure an industrial as well as a domestic bearing.

'The thoughtful parent realizes th difficulty that confronts him when the time arrives for his child to choose an occupation in life. This is at once the opportunity and the duty of the day industrial classes. The instructors should be constantly on the alert to discover the calling for which the pu-

Vocational Education a Benefit. "Vocational education is not a boo nor a privilege. Upon the part of the child it is a birthright; upon the state it is an essential, inescapable obliga-

Quoting from the report on industrial education by Dr. John Seath, he stated that of the 456,000 pupils Inheld since the whirlwind membership rolled in the primary and secondary campaign, and the attendance that schools of Ontario, less than 25,000 schools of Ontario, less than 25,000 enter the collegiates. In spite of this, *************** displayed was a gratifying criterion of however, the curriculums are based on the needs and ambitions of these few, while the majority are not con-

"And here lies our ultimate aim." h "It is essential that the needs is to provide an educative system for of this dominating body be given amthe boy or girl who, failing to find the ple consideration, and the industrial question is the ablest solution." The speaker pointed out the change

father would teach a son a trade from A to Z had passed. The present day prentice learns only one thing. and second, having discovered this, to is not conducive to the making of an directly prepare him for a successful expert mechanic, the speaker asserted. career in that chosen occupation. At To be proficient it is necessary that he have a definite knowledge of all the complex details of the work.

Protection for Retailers. Among the business matters of the evening was the appointment of a committee composed of Messrs. R. H. Dowler, Joseph Hickey and W. vise a method for the formation of a branch for the protection of local retailers. The matter arose from the inroads made on the retail trade by outside transient traders, who are allowed to operate in the city for a time

To Have Smooth, White, Soft Skin All Winter

fFrom The Woman Beautiful.1 Does your skin chap or roughen easily block your skin chap or roughen easily Taylor was chairman, and interesting in this weather, or become unduly red or blotchy? Let me tell you a quick, easy way to overcome the trouble and keep your complexion beautifully white, smooth or the winter large tensor and set the winter large tensor. Taylor was chairman, and interesting and witty speeches were delivered by Rev. Dr. Flanders, C. M. Manning, W. G. Young, Mr. Taylor, G. M. Millar and John Eyans. and soft the winter long. Just get an discover the calling for which the pu-pil shows particular aptitude, and should advise the pupil and parent as should advise the pupil and parent as soon as it is discovered. Education can bestow no greater benefit upon the individual than first to assist in the discovery of his natural vocation in life, and then proceed to prepare him for that vocation in a broad and intelligent manner.

"Hitherto our educational system has done this for the small minority that enters the professions. Through our industrial schools we may now open the door of opportunity to the soon as it is discovered. Education arising, as you would cold cream. Upon arising, remove the coating with sudsy sunday evening the male chorus of the water, the war, through some peuliar attribute, flecks off the rough, discolored or blemished skin. The worn-out cutiele comes off just like dandruff on a diseased scalp, only in almost invisible particles. Mercolized wax simply hastens Nature's Mr. C. Hall, and an obligato solo by Mr. R. Lindsay. The male quartette will also sing.

College Appointments.

Sunday evening the male chorus of open the door of opportunity to the beautiful complexions, great majority who, by the fact of Some skins wrinkle easily in winter. their social position, are most in need There's an excellent remedy in a harmless wash lotion made by dissolving 1 oz. powdered saxolite in ½ pint witch hazel. "Equality of educational opportunithis will quickly eradicate every line.—ity must be extended to the 90 per Advt.

was decided to hold a boosters' banquet in the Masonic Temple at 6:15 on Dec. 12. A large attendance of businessmen is expected.

A plan is being arranged by Industrial Commissioner Philip to bring about the restoration of the American consulate in London. When arrangements are completed, the board will get into communication with the Secretary of State at Washington.

***** News of City Churches

Presentation to Choirmaster. A pleasant social hour was spent in he schoolroom of the Colborne Street Church last evening, at the conclusion of the weekly choir practice, when Mr.

and Mrs. Leslie H. Roberts were presented with a handsome leather chair. The presentation was made by James Ross, president of the choir, who expressed to Mr. and Mrs. Robert, in a in conditions as brought out during the last few years. The time when a of all the members. Mr. Roberts, who few well-chosen words, the good wishes! is organist and choirmaster, has just returned from his honeymoon. Rev. R. R. McKay Here.

Adelaide Street Baptist Church is o have a special preacher tomorrow morning in the person of Rev. R. R. McKay, field secretary of the B. F. M. B., Toronto. Mr. McKay is sure to receive a cordial welcome from his home church."

In the evening the pastor will deliver the second of his series of sermons on Bible problems; the title being "Is There Hope for the Impenitent Dead?" The monthly communion service will be held at the close. Union Bible Class Dinner.

A most satisfactory and enjoyable affair was the combined banquet of the Amity Young Ladies' Bible Class and the Alpha Men's Bible Class held at the First Methodist Church on Friday evening. The ladies had prepared a tempting spread, and over fifty partook of supper, and enjoyed the toast list which followed. Mr. Israel Taylor was chairman, and interesting G. Young, Mr. Taylor, G. M. Millar and

MARKET IS ACTIVE

Dec. May Since morning, the local market has assumed a brisker aspect, with a more Dec. decided activity felt in trading and prices May somewhat easier. Hay is selling steadily at \$12 to \$16. The minimum price is the lowest in some time. Straw is an average offering at

**Straw is an average offering at \$6 to \$8 50.

The price of eggs is still firm and high Vendors are obtaining 42c to 45c on the local square, while a few are said to obtain 50c per dozen. A decided increase in the offerings of butter was noticable today, and in consequence prices are somewhat easier. Fancy retail is selling for 30c per 1b.

Oats are slightly easier and are bringing \$1 to \$1 03. Wheat, as usual, is 85c to 86c per bu.

The live hog market is uncertain, and

The live hog market is uncertain, and ary, 5s 1½d. Flour—Winter patents, 28s buyers were non-committal as to the 6d. Hops (in London)—Pacific coast, buyers were non-committal as to the prices to be paid next Monday. This week's offering brought \$8, and this price or a little lower will, in all probability, be the prevailing price for the following week.

Dressed hogs are somewhat easier at \$11 to \$12. The milder weather is responsible for the change, and until a colder spell sets in prices for the porkers will be easier.

Potatoes are salling for 90c per bag.

Potatoes are selling for 90c per bag, The offering was a normal one, and the demand average. Other vegetables are as listed.

Dressed poultry is firmer, but prices 25s 9d. are not expected to change. Chickens are Spot, 31s 3d. bringing 14c to 15c per lb. Old fowl is

Prosperity Indicated.

Mr. Alexander Purdom, manager of the Purdom Hardware Company, stated that the class of goods which people were buying this year would seem to indicate greater prosperity than ever before.

There has been a steady demand for fancy articles, such as chafingdishes, coffee-strainers and the like,' he said. "Cutlery and other table accessories are also showing increased sales. Trade up to date has been on the whole very satisfactory, and considerably in excess of previous years. The weather, which appears to be affecting other lines of trade, has made no appreciable difference to the sale of commodities recognized as Christmas goods."

Will Beat Them All.

"This is the busiest season we have ver experienced," said Ronald Gray, of Gray's, Limited, discussing the holiday business with an Advertiser reporter this morning. "It came in with a rush and ever since we have been besieged with customers and prospective purchasers. Realizing that the Christmas trade would be a hummer, we stocked up to capacity, but because of the big selling of the past weeks we have frequently had to renew our stock. From the present outlook this season will beat them all, and I know that this feeling is general throughout the city."

Heavier Than Ever. That the Christmas trade is heavier this year than any other in his recollection, was the assertion of Joseph Hickey, manager of Grafton & Co., this morning. "Of course, Christmas means vast increase in business," he said. "This year has been a bumper one all through, and we anticipate a record holiday trade. We did not quite expect such a whirlwind selling, how-

Handling Record Crowds. A confirmation of the optimistic spirit prevalent among the merchants of the city was voiced by R. J. Young today, in speaking of the holiday trade. "London business is booming, he said, "and the merchants of the city are handling record crowds. We have felt the rush for some time, and with Christmas drawing nearer sales have increased in proportion. It is my opin-

ion that this season will lead all others

Buy Novel Presents.

in trade."

of H. Wolf & Sons, "and we expect a big rush during the next two weeks. This year people are buying for Christmas gifts novelty goods, such as smoking sets and stands, fancy chairs, smoking chairs, pictures, fancy vases and lamps, although such utilitarian things as kitchen cabinets are very much in demand, and we have already sold quite afew as Christmas gifts."

Better Class of Goods. "Our Christmas trade," said Mr. W. G. Young, jeweller, "so far shows a good advance on last year. People are demanding the better class of goods for Christmas gifts. Diamonds, watches, and jewelry of a fine quality we find to be greatly in demand." "People are buying a better class of furs this Christmas," said Mr. D. Ross, of Ross, Limited, "and the heavier furs are much in demand. Mink, the old favorite, still holds its leading place, and Persian lamb is fast becoming strongly in demand and probably will continue afavorite for some time to

"On account of the mild weather, the neavier garments have not been called for so much, but we expect a reverse of this situation as the season becomes more advanced.'

Substantial Incerase. "Our Christmas business so far shows a very substantial increase over that of last year." said R. H. Dowler, of R. H. and J. Dowler. "The Christmas rush is beginning with a strong tone, and we look for a continuance of a heavy holiday trade well into the

"Our Christmas trade is satisfactory this year," said C. H. Ward & Co. "The better lines of jewelry are chiefy in demand. Pendants, necklets, aveliers, and bracelet watches are extremely popular. People are also asking for chime clocks, mounted umorellas and parasols, Dresden china. nd other fine china goods. High-class necklets of pearls and brilliants are ar popular as anything, and diamends are very much called for, as usual.'

Business Is Doubled. "We are doing just twice the amount of business we did last Christmas," said C. L. Gray, of Mason & Risch. 'November is the month people buy pianos for Christmas gift, and our ousiness in November, 1913, was more than twice what it was in November, 1912. December is a busy month for the Victrola business, and our sales promise to be at least double what hey were last Christmas. People seem o have money to spend freely this Christmas, and Victor goods and recerds are in good demand as Christ-

ENGLISHMEN GATHER

Council Will Submit Question at the January

RATES AND REGULATIONS

Election.

Aldermen Will Have to Approve Any Increases After Five Years.

According to the decision of the city council at aspecial meeting Friday night the ratepayers will vote on the natural gas proposition at the municipal elections in January, their consent being necessary that the required pipes and belt line be laid.

The agrement betwen the City Gas Company, and the Southern Ontario Natural Gas Company, which operates the Tilbury field, and is constructing a pipe line, costing in excess of a million dollars, to supply St. Thomas, London, Brantford, and many other municipalities, is for 20 years, but the retail rates decided upon are for five years only.

They are as follows: 50 cents thousand during the months of May, June, July, August, September and October, and 45 cents per thousand up to 4,000 cubic feet, and after that 35 cents, during the other half of the year. From all these prices a reduction of five cents per thousand is made with prompt payments of accounts, thus practically giving 30-cent gas to al using more than 4,000 feet during the winter months, when the consumption is highest, the gas being largely used for fuel and cooking pur-

Must Ask Council Upon the expiration of the five-year erm, the company, if it desires to in-rease its rates, must have the city council's consent. If the proposed new rates are not then satisfactory, the council will be in a position to end the agreement, in which event the City Gas Company woul of the have to go back to its present artificial gas system.

Messrs. J. C. Duffield and Sir George
Gibbons, on behalf of the gas company, were present and explained a number were present and expedited a number of points for the benefit of the aldermen. The local company takes the gas from the supply company on a percentage basis, and according to Sir George Gibbons, stands to lose a great deal of money through its expenditure in put-ting in a distributing system, and the

at different points in the city if it does not sell a large quantity of gas. The main line will enter the city at Egerton and Ridout streets, and the belt line will be in a U shape from these two points. There is no guarantee as to the life of the field or the pressure of gas—such guarantee no natural gas company will "The Christmas trade this season company point to their expenditure more than a million dollars as ample evidence of their faith in the field. They

Judge Dismisses Trivial Charge Against London Township Man.

Squire Chittick dismissed a charge of theft against a London Township man this morning. The prisoner, who was arrested last week, was charged by a neighbor with stealing a bag of corn from a field. He was a man of high standing in the community, and the case aroused great interest. The trial occu-pled two sittings of the court, and was possessed of several features distinguishing it from ordinary trials. Three witnesses were called, one of whom testified this morning that the value of the corn alleged to have been stolen was ten cents. The highest estimate was fifty cents. At the first hearing one of the witnesses used decidedly poor judg-ment in appearing before the court after

sundry libations of "corn juice" which had a tendency to render his recollection of events somewhat hazy. As a and the trial was postponed until this

cil Marked by Presentation -Last Bylaws Pass.

The December session of the Middlesex County Council came to a close today, and the councillors have all departed. A happy even marked the last meeting. Warden A. K. Hodgins, who has announced his intention to retire from service on the council at the expiration of his present term as warden, was presented with a handsome gold watch and chain, accompanied by an Reeve Thomas Benstead read the address, and the presentation

A resolution was brought in by Reeve J. N. Currie, of Glencoe, seconded by Reeve Thomas Benstead, that the hydro commission be asked for estimates for a road between London and Glencoe connecting up Strathroy and any other towns. Three bylaws received their third

reading and were passed. One authorizing the borrowing of \$20,000 for current expenses, another authorizing Dorchester, and another appointing Edward McMartin trustee of the West Niscouri Continuation School.

Your Investment—the Qualities you want

I Your investment must be safe. It must yield as much income as possible and at the same time be SAFE. It is important, in order to meet any unexpected emergency, that you be able to turn your investment into cash quickly, either by sale or as security for a loan.

(We can offer you bonds combining these qualities—yielding 5% to 6% income.

DOMINION SECURITIES GRPORATION

26 KING ST EAST. TORONTO.

ESTABLISHED 1901. LONDON, ENG.

CANADA LIFE BLOG. MONTREAL. Mr. Tomb, representing the South-

ern Ontario Gas Company, addressed

the council, asking for a new bylaw

to be passed relative to the crossing

of some roads in North Dorchester by

pipe lines. It was moved by Reeve

Frank Boyes, seconded by A. H.

Banks, that the request be granted,

and a bylaw passed at this session. A

grant of \$20 was made to the Wo-men's Institute of West Middlesex.

A warm discussion arose over

Handouffs for Constables.

James Gumb, giving a list of all the county constables who were not pro-

rided with handcuffs, and asking that

they be supplied. Mr. Gumb addressed

the council on the subject, saying that

proper handcuffs were almost an ab-

solute necessity for a county constable,

especially when called upon to deal with a case of insanity. "Nothing brings an insane man to his senses

so quickly as having the handcuffs on,"

Reeve Henry Hardy was opposed to

buying handcuffs for these constables.

If they had the proper spirit they would provide handcuffs for them-

selves. If any handcuffs were to be

be deducted from the salaries of the

constables. After considerable discus-

sion the communication was filed

Hydro Commission Asked Io Furnish Figures on Two Proposed Lines.

WESTON JUDGMENT IN

Much Business at Friday's Session of Middlesex County Council.

As a result of two resolutions passed at Friday afternoon's session of the Middlesex county council, the hydro-electric power commission of Ontario will be petitioned to conduct surveys, supply estimates of cost of construction and maintenance on two electric radial lines within the county. One proposed line is from London to Stratford via St. Marys, and the other from London to Grand Bend.

Chairman Pocock Speaks. Chairman Philip Pocock addressed the council previous to the passing of the resolutions. His remarks were along similar lines to those of J. W. Purcell, assistant engineer of the hydro commission on Wednesday evening. The chairman of the water commission explained the procedure necessary to secure action by the commission in regard to having surveys made for proposed new radials. The commission if desired would un-

dertake the initial cost of construction and superintend the work. He urged united action by the council as a federation of the township councils in the matter of petitioning for data on any proposed radials.

Resolutions Introduced. Later in the afternoon a resolution as introduced by Deputy Reeve J. L. Robson, seconded by Deputy Reeve Thomas Clarke, as follows: "That this council ask the Ontario hydro commission for estimates on radial roads from London to Stratford, and from

London to Grand Bend." Reeve John McGugan, seconded Reeve John Morgan, supplemented the above resolution as follows: "That the hydro commission of Ontario be requested on behalf of the council of Middlesex to inquire into, examine, investigate and report upon the cost of constructing and operating an electric railway from the city of London to Grand Bend, on the shore of Lake Huron, passing through the municipalities of London, Lobo, East Williams, Ailsa Craig, Parkhill McGillivray and that portion of the county of Huron to Grand Bend, as provided for in section 3 of the hydro-electric rail-

way act of 1913." Both resolutions were adopted with very little discussion, the aim of both being merely to secure accurate information as to the cost of the undertakings, and the feasibility of the construction of the proposed lines.

Many Reports Received. The afternoon saw a number of reports and accounts passed upon. The report of H. C. McBride, architect on tions to the cost of the repairs to the of deadlock, and were taking the

IN DESERTION CASE

John Ford Signed Articles To Make Trip to Fort William.

[Special to The Advertiser.] Sarnia, Dec. 6 .- John Ford, a fire-

nan aboard the Acadian, was arrested last night and tried in police court today charged with deserting his boat. Ford signed articles for a trip to Fort William, where the boat was to distharge her cargo and lay up. Wednesday evening, and opened it will be remembered that the public on the following day.

Acadian went ashore at North Point and was released by the Reid Wrecking Company, and brought back to Sarnia, where she now is with a big hole in the bottom.

Ford claimed that the boat did not

go to Fort William and wanted to quit. He demanded his pay as well. The court decided to reserve judg-ment until better posted, and announced that he would remand the prisoner to jail until he had given the case full consideration, or else Ford preferred the other alternative of going back on the boat. Ford naturally chose the lesser evil.

HOW THIN PEOPLE CAN PUT ON FLESH

A NEW DISCOVERY.

Thin men and women—that big, hear-ty, filling dinner you ate last night. What became of all the fat-producing nourish-ment it contained? You haven't gained ment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over Your nutritive organs, your funcover. Your nutritive organs, your func-tions of assimilation, are sadly out of gear, and need reconstruction. Cut out the foolish foods and funny sawdust diets. Omit the flesh cream rub-ons. Cut out everything but the

meals you are eating now and eat with every one of them a single Sargol tablet. In two weeks note the difference. Five to eight good solid pounds of healthy, "stay there" fat should be the net result. Sargol charges your weak, stag-nant blood with millions of fresh new red blood corpuscles—gives the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, too, mixes with your food and prepares it for the blood in easily assimilated form. Thin blood in easily assimilated form. Thin people gain all the way from 10 to 25 pounds a month while taking Sargol, and the new flesh stays put. Sargol tablets are a scientific combination of six of the flesh-producing elements known to histry. They come 40 tablets to a package, are pleasant, harmless and inexpensive, and all druggists sell them subject to an absolute guarantee of reight increase or money back.

Cleveland Expert to Speak the banquet to be held on Dec.

ber of Commerce, will be the principal speaker. Along with several wellaims of the proposed bureau, and the addresses will be copiously illustrated with stereopticon slides. The idea of such a bureau has been tried out successfully in Winnipeg and other western cities, and Industrial

THE NEW PUBLIC

dvertiser Bureau of Public Health Information COMMENTS. ANSWERS. QUESTIONS. Conducted by Institute of Public Health. (The Public Health Faculty of Western University, London.)

Questions should be addressed "The New Public Health," care The Advertiser, London, Ont." Private questions accompanied by a stamped, self-addressed envelope, will receive private answers. Medical diagnosis or treatment for individual cases cannot be prescribed.

Question .- Explain the existence of smells good; after a full meal, roast-lected; they will all be given equal foul odors? If they mean no danger to life, why are they offensive?

NORMAL. Answer .- This is the most puzzling It seems to me that you must believe its presence; most of them grow either that foul odors are a sort of sign of way, but prefer oxygen. Most disease us avoid danger. You argue, if I understand you, that if a thing is not quire or at least, doesn't mind oxygen, dangerous, it will smell nice; if it is dangerous it will smell horrid; there- tetanus (lockjaw) germ cannot as fore, if a thing smells bad, it must be rule grow or produce its poisons if it dangerous! I presume then that any is put into a cut or puncture in the bad smell from rotting garbage, say, body by itself, because the oxygen death lurking there!

Let us see first if the rule holds. is agreeable to me.

The man who loves the country rejoices in the country smells—the city town-bird" dilates his nostrila and sniffs in gladly the smells of the city like very ancient boots; but to the ern parts of the continent. ae thete it suggests bright lights, soft smell spells danger, how is it that sauerkraut does not keep the German nation at the foot of the ladder instead of near the top?

You say these are not the smells you any question of the four may be se- demics, Rural Hygiene, etc. mean, but vile animal odors, odors of decomposition, etc. But the odors of most animals may be very agreeable as well as disagreeable to other animals, depending on association of ideas again. The goose doubtless hates the fox odor, although the fox loves the goose odor, but the colored man does vice-versa. Odors of decomposition likewise affect different people differently-a long-hung wild duck, just will delight the nose of gourmet and chase the unknowing one out of doors.

Here is another curiosity: nearly everyone thinks "ozone" is the breath of life, and will eagerly sniff up the sea-air—"so full of ozone." Yet most people dislike the odor of "chloride of lime," and prefer not to use it if possible just because of its odor. But the sea-odor usually ascribed to ozone of rotting seaweed; and the smell of printed in pamphlet form. Through the association of ideas, is really the smell of ozone—not of chlorine at all! Let us go further: if bad smells really indicate danger and really are intended eases frem which their children sufto act as warnings, why is the smell fered attacks. It was an original idea

ther, is the really poisonous constitu- don parents and others. ent of both coal gas and water gas (carbon monoxide) without any smell The foul odors of rotting garbage hurt no one—the absolutely odorlesa carbonic acid which sometimes accumulates in old wells will kill man after man without the slightest warn-Alcohol, perhaps the most used and most harmful poison that the human race suffers from on a large scale, has a very agreeable odor; chloroform and either, which have one immense service in relieving human suffering, are very disagreeable to most people. The germs that produce disease do not make half as bad smells as those that tain diseases are odors produced as a were of school age so far as the Colgeneral rule by harmless bacteria, at- legiate Institute was concerned. Pupils tacking the products of the disease, and in 17 public schools and 5 separate not by the disease itself. If your idea were correct, the worse the disease. the worse it ought to smell; which is, of course, entirely untrue. Certain people, especially physicians, have in different diseases, and I have known physicians who believed that they could recognize typhoid fever, smallpox, and diphtheria without examining the patient, by the smell alone. But it is not claimed at all that these odors are peculiarly vile-simply that they are characteristic.

Finally, it must be remembered that the same smell will be very agreeable at one time, very disagreeable at another, even to the same person: if you are hungry, even boiling cabbage

Nervous Energy

the human body. A few people have an abundance, but more have not Hence the necessity of con-

ease or worry there must be a reckoning, and trouble is sure to come. It may be headaches and weak, aching eyes; it may be nervous indigestion, or it may be merely lack of fatigue or helplessness. Of course, sooner or later exhaustion of nerves leads to prostration, paralysis or locomotor ataxia, but there is no need to let the trouble develop that

nerve cells the energy they have lost. It will take some effort on your part to give up worry and anxiety, but you should realize your serious condition.

ing turkey may be abominable!

Question .- Does bad ventilation assist disease germs? TORONTO.

ever, if these other germs are able to use the oxygen fast enough to give when he gets back from a "beastly summer and die out in winter. Exactly slow time" in the country. We hate the reverse is true; and the hot humid garlic: to the garlic-loving people, a Southern States are quite free of cerwhiff of garlic paints the most pleas- tain infectious diseases like scarlet urable home joys, and they naturally fever and diphtheria, that flourish in revel in it. Quickly Stops Worst Backache

Makes Kidney, Bladder Disorders and Rheumatic Pains Vanish.

If you suffer with backaching kidney trouble; have disagreeable bladder and urinary disorders, or are tortured with rheumatism, stiff joints and heart-wrenching pains, you will surprised how quickly and surely Croxone will relieve all such misery. It soaks right in through the walls membranes and linings, cleans out and strengthens the stopped up organs, neutralizes, dissolves, and makes the kidneys sift out and filter away the uric acid and poison from the blood, and leaves the kidney; and urinary organs, clean, strong, active and

healthy. It matters not how long you have suffered; how old you are, or what you have tried. It is practically impossible to take Croxone without results, for it starts to work the minute you take it. If you suffer with pains in the back

or sides; if you are nervous, tired and run down; bothered with urinary disorders, or have any signs of kidney, bladder troubles or rheumatism, don't spend another needless day suffering. Secure an original package of Crox one today, and prove for yourself right now, as thousands of others

your misery.
Croxone is inexpensive, and every

The People

Police Are Searching For Jack Krafcenko and Also Another Man.

[Canadian Press.] Winnipeg, Dec. 6.-Although three days have elapsed since the Bank of Montrea! at Plum Coulee was robbed and Manager Arnold killed, the desperadoes who perpetrated the crime have not yet been apprehended. The belief still persists that the men are hiding in Winnipeg or vicinity, and the search for Jack Krafcenko, suspected

by the police, is kept up. Officers of the morality department turneed out at 2 o'clock this morning and searched the recorts in Transcona ut found nothing.

Krafcenko has many friends in the city, who it is believed would conceal his presence. Another man is being ooked for by the police in connection with the affair.

HOW TO CONQUER RHEUMATISM AT YOUR OWN HOME

If you or any of your friends suffer from rheu-matism, kidney disorders or excess of urle acid

If you or any of your friends suffer from thematism, kidney disorders or excess of urle acid causing lameness, backache, muscular pains; stiff, painful, swollen joints, pain in the limbs and feet dimness of sight, itching skin or frequent neuralgic pains, I invite you to send for a generous Free Trial Treatment of my well-known, reliable Chronicure, with references and full particulars by mail. (This is no C. O. D. scheme.) No matter how many may have failed in your case, let me prove to you, free of cost, that rheumatism can be conquered. Chronicure succeeds where all else fails. Chronicure cleanses the blood and removes the cause. Also for a weakened, run-down condition of the system, you will find Chronicure a most satisfactory general tonic that makes you feel that life is worth living. Please tell your friends of this liberal offer, and send today for large free package, to MRS. M. SUMMERS, Box 12, Windsor, Ont.

GRAND OPERA AT GRAND PLEASES IN ALL POINTS

"Salome" Is a Success Both as Regards the Cast and Staging.

SHEEHAN'S FINE VOICE

A Strong Company Pre ents an English Adaptation of Massenet's Famous Work.

"Salome," Charles Swickard's Eng-Ash adaptation of Jules Massenet's presented at the Grand on Friday night by Mr. Joseph F. Sheehan and company, deservedly found favor with an audience not overly large, but keenly appreciative. A cast of entirely capable singers, fine costumes and scenery, and an excellent orchestra, made the production a success from every point of view. The orchestra, however excellent it undoubtedly was, played perhaps a trifle too loud for the audience to distinctly follow the words of some of the singers, all of whom were vocalists of a high order of merit.

A Fine Tenor.

Mr. Sheehan as John the Baptist highly delighted his hearers with one of the finest tenor voices ever heard in this city. Musical, full and powerful, yet clear and distinct, the audience followed with rare delight his every word. His impersonation of John lends to that New Testament character human and pleasing touches that make him more the man, though not necessarily less the prophet. The love that Salome instills in the heart of the prophet, and which finds expression in the dungeon scene, is portrayed with a nicety and finesse, that few actors can command. There is so is neither posing nor fanatical.

Mme. Antoinette Le Brun as Salome

Mlle. Lydia Sturtevant as Herodias, the queen, is versatile, in both her singing and her acting. Her mezzoflights of melody, both high and low. Wakes Herod Human.

tenor, as Herod, is entirely satisfactory, but his impersonation of that haughty monarch makes him out to be a fairly reasonable creature and quite a human being.

Mr. Harold J. Geiss, as Phanuel, also give good satisfaction with his fine deep basso voice. His makeup and impersonation is striking and impressionistic, but not too much so. Mr. Lawrence Wallace, as Vitellius, is all that could be asked for in the role of that heroic-looking young Roman. He moreover possesses one of the best, clearest and most pleasing voices in the caste.

Mr. Nelson J. Shanley, as the high Moon." priest, gives fair and adequate support in a somewhat minor part. The interpretive dancing of Mlle. Sophia Benucci is dainty, artistic and remarkable. She highly pleased her audience last evening with her serpentine artistry, and versatility of motion. Lithe, graceful and charming, her dancing is really ingenious.

A writer in the Daily Sketch humorously laments the fact that the shows him in the robes of a doctor of letters instead of in one of his famous parts, such as Mathias or Richard III. There seems much of sound sense

Mlle. Sofia Benucci, premier dancer in the beautiful musical spectacle, "Salome," at the Grand twice today.

London Amateurs To Present Bright Play

few actors can command. There is so much of the natural in Mr. Sheehan's John the Baptist that he appears to Kitty' at the Grand. The play is formazees. COMING PLAYS AT GRAND

Sheehan in "Salome."

It is safe to say that the production of "Salome," which is at the Grand again, twice today, 2:30 and 8:15, is by far the most pretentious offering ever taken on tour in this country. The cast of principals embraces a list of names, a half a dozen any of which are strong enough in ability and reputation to head a company of their own. First and foremost among these artists comes Joseph F. Sheehan, the greatest of American tenors, and supporting him are such artists of worldrenown as Madame Antoinette Le Brun, Mlle. Lydia Sturtevant, Mr. Charles Swickard, Mr. Harold Geis, Mr. Lawrence Wallace, Mr. William Young, Miss Grace Doxsie and others of like calibre.

The company carries its own special orchestra, under the direction of Chevallier Theodore Stearns, a pupil of Macenette. The premier dancer, Mlle. Sophia Benucci, is one of the greatest artists this country has ever seen, and has been specially engaged for this production.

Fanny's First Play.

The story of the play deals with Fanny O'Dowda, daughter of Count O'Dowda, a Chesterfieldian individual who clings to old-world ideas and believes that he has successfully im-The cast will be made up as fol- matic critics of London to be present thoroughly modern, not even touching upon any of his pet notions.

Upon the conclusion of Fanny's nights was consumed in getting a play, the critics come upon the stage working basis of the English-Ameri-They are in absolute ignorance as to the authorship of the comedy and Mr. Shaw gets a great deal of fun at the expense of the critics.

A Delightful Scene. Fanny has a delightful scene with Trotter, one of the critics. She is in great fear that her play has shocked "But," argues the critic, "half the young ladies in England spend their evenings making their elderly people." She doesn't mind in the least about shocking her father morally-in fact, thinks "that is all the young can do for the old to shock

them and keep them up-to-date." The players' list embraces the names of Eva Leonard Boyne, Carlyon, Katharine Pole, Dulce Musgrave, Jean Stirling, C. H. Croker-King, Sidney Paxton, Arnold Lucy, Claude Rains, Lewis, Sealy, Herbert Dancey, Spencer Geach, Ivan Campbell Walter Kingsford Gordon Ash. Vane Sutton-Vane, and George Carr.

"Fanny's First Play" is famous for its prologue and epilogue in which ed English actor-manager who is going the Machiavellan G. B. S. delivers his to make an ocean-to-ocean tour of satiric opinions of the dramatic re-

ENGLISH ETIQUETTE IN REHEARSING FOR PLAY

Is Much More Gentle and Mild Than Methods Adopted by American Stage

Managers.

The direct and biunt method of the American stage manager is proverbial. In moments of stress he is not the gentlest person in the universe and omplaints against his strenuous methods are often heard. The difference between the American style and the milder and more polite English pro-

cedure was demonstrated in rehears-

ing "Hop o' My Thumb." When the Drury Lane Company of America imported the "Hop" production from London it agreed that English directors would be necessary to secure the best results at rehearsals So the directors were imported. They were given the requisite number actors and actresses, chorus men and women and the stage of the Manhattan opera House. Also the Drury Lane liar with that.

What they were not supplied with slang for their technical stage terms. nights was consumed in getting a

"My good fellow, will you please assist us by being a bit more quiet?" from an English director to a stage hand, surprised the "grip" so that he let fall his hammer.

Gets on Nerves. The general politeness got into the tmosphere and the stage hands didn't know whether they were being oked or given orders. What they ere accustomed to hearing, punc tuated by "blankety-blanks," sounded as gentle as an invitation to tea. And the men with the lights had to do it over several times before they became accustomed to it.

"Lime-o, Chappie, Righto," sounded nore like a soda fountain drink than call for a certain spot light. whereas, "Amber," "Flood" or "Pur-ple" were distinct orders to the lamp men, they were in constant danger of getting the sequence mixed when each command was followed by that cheery

Then little Iris Hawkins as Hop had o climb a stage tree. The spikes that protruded as branches interfered with her progress. Down she came to the footlights—the American six little brothers standing in awe of such nerve-and thus addressed the direc-

"You know, I won't climb that tree and tear myself all to little pieces. It's horrid." Instead of being told to go where any sort of a tree would be welcome, Miss Hawkins was answered in this way by the English director: "Certainly, Miss Hawkins, the matter will be adjusted." And then and there the rehearcal was stopped to

rebuild the troublesome tree. LAST CHANCE TO HEAR CATHEDRAL CHOIR

Tonight, in the Auditorium, London public will have an opportunity for the last time, for probably some years to come, of hearing the Cathedral Choir. No music lover should miss this opportunity, and those who have already had the pleasure of hearing them are just as anxious to listen to them again. This is also a great chance for amateur singers, for studying these choralists they may be enabled to gain many useful hints not only in choir, but also in solo work. Mr. Spencer Johnston, their gifted director, is truly a great artist on the piano, and his interpretations of the various composers undoubtedly well worth the trouble of going to hear in itself. "This choir," says Mr. W. E. C. Workman, organist, etc., of one of the largest churches in Sarnia, "is unquestionably the best thing on the road as a musical or-

Achievements of The **London Conservatory** School of Elecution.

The School of Elocution, in conection with the London Conservatory, occupies today a foremost place amongst the schools of expression. This department of Conservatory work in under the direction of Miss Georgia M. Newbury, who came to London rather more than two years ago. Among other graduates of the Elocution School, Miss Jessie McIntosh, of Woodstock, is meeting with great success in her work. In addition to having a large teaching connection, her name is widely known throughout the district as a concert artist of great ability. There are others completing their senior work this year who no doubt will meet with equal success.

The aim of the Conservatory is to bring elocution, as a means of expression, up to the standard of the other fine arts, and with this object in view; it is striving to send out students who can not only entertain, but can also give a message by the rendition of a work full of pathos and human appeal.

PASSES IT UP.

Little Stories of Christmastide

Some Lights and Shadows of the Most Joyous Season of the Year, Caught by Advertiser Reporters.

THE LITTLE PHILOSOPHER [By Cynthia Grey.]

There is perhaps no other place in the city where the little inner tragedies of life occasioned by the high cost of living are more frequently revealed than down at the city market. Just at this season of the year, especially, when already the atmosphere of Christmas is in the air-when the market wagons are laden with rosy apples, plump fowl, and tubsful of tempting posies-when the shop windows on the square display most invitingly the oranges, cranberries, and other goodies which go so far towards making a Christmas feast—just now is it particularly trying to have to devote he contents of one's purse to the bare necessities, and to make every penny

extend to its absolute purchasing limit. To the little house-mother with numerous mouths to feed and only a small sum to cover many purchases, is the price of food-stuffs a momentous question. It was only this morning that an Advertiser reporter had the force of this statement impressed upon her most strongly, when a little wisp of a woman, with two boys of 8 or 10 years dragging at her heels, essayed to cross the busy market square just ahead of the reporter. The little mother's eyes were of a faded blue color, and her rather straggly hair was gathered into a tight little knob at the back of her head, while in his red, notoverly-clean hand, the older boy carried the basket which was to contain

their purchases.
"Say, Ma," said the littler chap sud-"can't we have a chicken to-The mother snatched at his arm as a wheel of a grocer's wagon almost ran over his foot. "Land sakes, child, look where you're goin'. Do you want to get killed?"

"No-o, Ma. But say, CAN'T we have chicken just for once? Ted Saunders says his folks has it every Sunday." "Ted Saunders' pa ain't been laid off sick for three weeks, Bobby," answered the mother, rather shortly.
"Oh, but the chicken'd be good for Pa, yuh know. The doctor sed so," eag-

erly persisted Bobby, "an' besides, it's my birthday tomorrow, Ma."
"Well, we'll see what they cost now I must get some of these turnips. They'll mash up with the potatoes an' make 'em go further-yes, 10 cents'

worth please" As his mother was waiting for her urchase to be measured, the little chap executed a funny little dance on the cobble-stones of the market cross-The Bread Man ing. "Oh, goody, goody, praps we're goin to have chicken tomorrow." The older boy, who had relinquished his eyes too wise for his years. "Say, kid, fergit it. We ain't millyunaires-not yet." "Well, I don't care. I'm jest sick can be of soup all the time an' nuthin' else," murmured Bobby. "Ma, are we goin' for the chicken now?" The mother looked rather doubtful. "Yuh know, you promised to ast the price. anyway," he continued hopefully.

"All right, we will," said the mother We'll ask that man over there" The reporter was not near enough to catch the price asked for one of the plump chickens, but that it was beyond the purse of the little woman was evidenced by the falling face of the child and the rather piteous look in the mother's eye. "Never mind, Bobby. Perhaps next Saturday they will be cheaper. An' now I'd better get a bit of beef an' we'll go back to Dad. See you take care of the turnips till we get the meat."

RATEPAYERS' VOTE FOUND UNNECESSARY

Under Old Act New Market Can Be Constructed on Council Bylaw.

Acting on the advice of the city solicitor, the market committee decided last night to put a bylaw through the council for the necessary expenditure for the new East End market, the bylaw to be ratified in the city of London bill next February. Under the old market act, was the advice of the solicitor, it is not necessary to submit a bylaw to the people. The necessary amount will be raised by the sale of debentures.

City Engineer W. N. Ashplant reported that Messrs. J. M. Moore, Bart-lett and Murray, and Mrs. Edwards were prepared to make gifts of certain areas of lands providing that the city would provide the necessary approaches and carry out the work on a permanent basis, which would justify the site for a branch market and enhance the value of surrounding

With the necessary approaches, there would be available approximately 130x107, giving 33,989 square feet. Another area of 130x65, owned by Mr. Murray would be available for purchase, the engineer reported, if increased extension room was deemed desirable at a later date. The engineer estimated the cost including cement sidewalks, new fences, etc., grading and gravelling, and covered market building, to be approximately

The committee will take no definite action until the engineer secures options in writing on the several properties that have been offered the city. Engineer Ashplant also submitted a eport on the central market, showing that it would cost \$19,740 to construct 9,400 square yards of concrete pavewas laid over for the next meeting.

MR. BONAR LAW. Unionist Chief.

talso, which ought to dominate, and which I think, now at last does dominate, the mind of the people of this country. (Cheers.)

The Division in the Party.
But before I speak on that subject think it right, at the annual meeting of our party, to speak to you for a little on one or two other subjects.

The first of these on which I shall speak is tariff reform. It is a subject on which I have made more speeches by far than on any other, and though am not a good judge, perhaps they have not been worse speeches than on other subjects. I know this at leastthat our policy on this question is plain straightforward and cannot be misunderstood. (Hear, hear.) I know also-for I never think there is any advantage in trying either to shut my own eyes to facts or to pretend that I do not see them-I know that on that question there is still some difference of opinion in our party. There is, on the one hand, a large number who are devoted to the whole policy of tariff reform, including the immediate imposition of agricultural duties. On the other, there are some who are onposed to any change in our fiscal system. Both these sections have recognized that, important as our fiscal system is, in comparison with other dangers by which we are now threatened, it sinks into insignificance, and each

In connection with the National | front to our common enemy is that | Unionist Conference, Mr. Bonar Law, each should abate something of its dressed a large meeting at Norwich. quence we do present a united front on this question. (Cheers.) I shall con-From the party point of view no tent myself, therefore, tonight with political party ever met under con- restating that argument. But from the national point opportunity for arguing the question. of view, so long as the Government I shall content myself with restating persist, or seem to persist," in their what our policy is, and what, if we Irish policy, the position is one of are in power in the next Parliament, d rger, which it is simply imppossible we intend to do. (Cheers.) We shall That is the subject not impose any new duties on any arwhich fills my mind to the exclusion ticles of food-(cheers)-but we shall impose a moderate tariff on foreign manufactured goods, a tariff not exceeding an average of 10 per cent., a scale of duties which is only something like a third of the reduced scale in the new American tariff, which Radical newspapers are constantly telling us is practically a free trade system. (Laughter.) In my belief duties such as these, apart from any other consideration, can be justified on the way or the other must be the same as strictest free trade principles by the mine. There must have been occasions needs of revenue. They can be justi- when people have come to you with fied on precisely the same ground as proposals for making your fortunes, that on which revenue tariffs have which, on the face of them, looked egg is bigger than the first. been imposed by free trade governments in India and in Egypt. We shall was your first step? You inquired also at the same time establish at once the principle of imperial preference. (Cheers.) We shall give to our about his character. (A Voice: "He on your hands I would recommend you ence. (Cheers.) We shall give to our self-governing dominions what at every conference for more than 25 ears they have unanimously asked have formally asked—we shall give them immediately a preference on all duties imposed in the United King-

Now, on this subject, I have only one thing more to say. I believe that farmers and agriculturists would be ustified in being hostile to that policy if ita stood alone. But it does not stand alone. I have already in the House of Commons, on behalf of our party, made this pledge, which I repeat tonight, that, apart altogether from the readjustment on general lines of local taxation—which is frequently required -(hear, hear),-apart from the readjustm int, at the same time that we impose tariff we shall take part of chair) said was "the greatest problem tinguished member no small service ever before. It must, however, althe revenue of that tariff and use it in coming before it tonight, and with in reducing the burdens of agriculture death"—the conduct of life.

The revenue of that tariff and use it which is presented to us from birth to in coming before it tonight, and with ways be borne in mind that charing approval of the Government's land see what they really mean and find out -(eheers),-in order to make sure that the farmer will at least be compensated, and more than compensated, for any additional price which, as the result of the tariff, he may by any dane talked to them like a father." possibility be called upon to pay. That is our policy, and I can say this with confidence, that it has already secured the support, the practically unanimous

lieve it will command the approval of the country. (Cheers.) Government's Land Campaign. The second of these subjects on which I shall speak to you is that which has been referred to by our chairman—the Government's land campaign. (Laughter.) It is in one respect unique (more laughter), perhaps in more than one respect. (Hear, hear.) It is said to be the policy of the united cabinet, but already two members of the Government, and not unimportant members—the Foreign Secretary and the Secretary for Indiahave said in effect that this is not now arise after the present policy of the Government has been carried out. section has recognized that the only (Laughter.) It is, therefore, the polway by which we can present a united | icy of the Chancellor of the Exchequer.

support, of our own party, and I be-

(Some booing.) I have a great deal to say about him. Don't waste your breath at present. (More laughter.) It is the policy of the Chancellor of the Exchequer, who has been sent out into the cold world alone to sink or swim with it as best he can. (Hear, hear.)

I happened, when speaking at New-

the Exchequer, and in consequence I (laughter) described my speech as a lits of the ostrich, that is precisely the Well, perhaps—I cannot tell in what I am going to say now, I shall render myself liable to the same con-he is done with it. (Hear, hear.) He demnation. (A Voice: "Never mind.") leaves it to be hatched by chance or Among those whom I am addressing into the past of your would-be bene-

Here are the clear-cut statements on their party policies of Hon. Winston Churchill, first lord of the admiralty, and Mr. Bonar Law, leader of the Unionists. Within a few days of one another last week, speaking before great audiences in language that could not be mistaken, they once more committed their respective parties in regard to the tremendous issues now before the British public. Home rule, national insurance, tariff reform, Lloyd George's land movement, are all dealt with in striking and vigorous fashion. Read these two powerful speeches and catch the point of view of the opposing political forces of the United Kingdom.

FIRST ADMIRALTY LORD RIDDLES ARGUMENTS OF THE UNIONIST CHIEF

London Liberals at the Alexandra Palace.

In his speech Mr. Churchill dealt with several aspects of the political international and military world, the situation, the leading points being as follows:

Home Rule.

One great party in the state has declared its resolve to proceed in the pursuit of certain political objects or permanent results. (Hear, hear.) to rebellion and civil war.

In our own party there are large numbers of men who very naturally ask nothing better than to put these loud and harsh associations to the proof . . . and find out whether they are mere braggarts and windbags or whether the red blood would really flow.

Without an abandonment of the principle for which we fight there should, if possible, be a settlement by consent, such as Mr. Redmond pleaded for . . . We also desire if it be possible that Protestant Ulster shall somehow or other be satisfied.

Armaments.

The nations are held and gripped in the thraldom of armaments on a scale which far surpasses what took place in the most ferocious and the most barbarous ages of the

So far as the Government is concerned there is no step which we can take which offers any prospect of an abatement of the international arrangements in armaments which we will not take and which we will not work for with all our might.

The Insurance Act. Mr. Bonar Law's policy is to return to the old voluntary system, which all parties had agreed had broken down and was hopelessly in-

To throw the new insurance law structure, so laboriously and wonderfully built up, into the melting pot, not know and who does not care.

all the dignity and responsibility and acter and integrity count in the power given him by his own career— market place among those merits as policy in relation to the rural labor— whether they are mere braggarts and wild base or whether the red blood During the course of his speech the first lord was subjected to interrupt-the ripe lessons of one who has will, at the end, seem a poor affair tions on the part of male suffragists, Peculiar Politics.

Mr. Churchill, who had a most enthusiastic reception when he rose to which we fight-there should, if posaudience since their last victorious general election, and he was very much indebted to his hon, friend, Mr. Alden, and to his colleagues, the leaders of London Liberalism, for the invitation which they had done him the honor to tender.

"The circumstances which comprise the political situation of today," the First Lord went on "are in several aspects peculiar and even unprecedented. Party organization has been caris abiding that I would fain ried to a higher level of thoroughness ernment, and not only her freedom and and efficiency on both sides in this her government, but also the power country than at any period we have to make that government a real suc-"He wished to speak of aspects of known. Mr. Churchill on Saturday, Nov. 15, duce full and effective solution to the addressed a great demonstration of great controversial questions of our

"You have in the political and domestic world, just as you have in the greatest preparation and facilities for disputation or for war, combined with broad and distinct under-current of feeling and conviction that violence would not produce good, ameliorative,

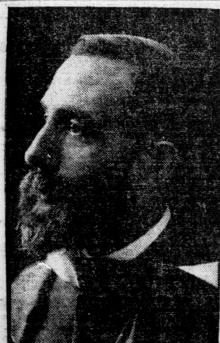

HON, WINSTON CHRCHILL.

One great party in the state has declared its resolve to proceed in pursuit of certain political objects, rebellion and civil war. ("Shame.") And language is used about the seduction of the army and the supervision of the consititution which in any other period of our history would have been regarded, and ought now to be regarded as hateful and monstrous. In our own party, on the other hand, there are large numbers of fully built up, into the melting pot, men who very naturally asked nothing is the opinion of a man who does better than to put these loud and harsh assertions to the proof, to take up the unheard-of challenge which has been would really flow. (Laughter.)

Home Rule Settlement.
"Well, underneath this move on both sides there is a strong realization that there ought, if possible, without an abandonment of the principle for question, so long involved in tragedy and storm, ought to cease to be the contending ground of English party politics. (Applause.) The Opposition ought not to think of getting into office by it and the Government will not think of staying in office by it, and then it should be settled, and settled now and settled for ever (hear. hear), that Nationalist Ireland should receive her freedom and her self-govtics without real earnestness will not United Kingdom and the Empire, of Continued on Page Eighteen.

Fifty Years of Splendid Service Is Record of Huron College

Cronyn, the first Bishop of Huron, was consecrated to his episcopal office, Oct. 28, 1857, he found that out of the 138 townships in the 13 counties constituting his diocese, there were not more than 30 supplied with the ministrations of the church. There was an average of only three clergymen to each entire county, or a total of only 40 in the entire diocese. In 1863 there were still 50 townships without the services of the church, and there was no supply ing received May 5, 1863. The first of clergy to fill the vacancies caused by deaths or removals in the settled 1864. Next Wednesday, Dec. 10, this missions. features of the jubilee year of 1913. The Collegiate Church was consecrated Oct. 18, 1864. The dedicatory address was given by Rt. Rev. Dr. Bedell, ascistant Bishop of Ohio. It was used as congregational meeting place for Anglicans residing in the north part of the city. Later the congregation moved to the Chapter House, and the chapel was closed and fell into disrepair. When the Chapter House cathelegiate Church of St. John the Evangelist was built. Material from the old Huron College chapel was used in the construction of the schoolroom of St. John's Church. This was during the principalship of Rev. R. G. Fewell, vho was chiefly responsible for the erection of St. John's Church.

manual labor of the students themselves, and the untiring zeal of Rev. Principal Waller, with whom the plan originated, a new college chapel has been built, forming a north wing of he college. It is a neat, beautiful and impressive little place of worship, with seating accommodation for about 75. The seating capacity of the floor is 60, and in addition an organ loft or small gallery at the end of the chapel will seat at least a dozen more. The total cost of the building is considerably upwards of \$2,100, and it has een entirely paid for. A pretty and interesting stained glass window in the miniature gallery was procured from the schoolroom of the old church of old St. Paul's, Woodstock. There are chairs from the old Hellmuth College and several other equally interesting pieces of furniture. A small vestry will be used in part as an office for the principal. Mrs. H. A. Boomer. who has been a devoted friend of the college, is donating a beautiful brass

TALENT TEAS.

Very successful was the Talent Tea held yesterday afternoon at the residence of Mrs. Harry T. Kingsmill, corner of Queen's and Park avenues, by ten members of the Lord Elgin Chapter, Daughters of the Empire, in aid of the Victorian Order of Nurses.

Home-made candies, bread and cakes, were on sale, rendered doubly tempting by the dainty manner which they were displayed. In the tearoom the glow from a fine pair of candlebra with crimson shades, festoons of ribbon, and the brilliance of poinsettas, formed a framing for a most attractive picture. Those assisting were: In the tea-room, Mesdames Bryden Campbell, A. Hunter Purdom, A. H. Heaman, R. M. Graham, and J. Johnson; bread and cake table Mesdames E. R. C. Struthers, Booth, and Tony Tillman; candy table, Miss Daisy Mason and Mrs. Tony Grant.

Much of the success of the undertaking was due to the ability and effort of Mrs. Kingsmill, who made a most gracious and kindly hostess.

The sale of fancy work, home-made cooking, etc., held yesterday under the auspices of the Women's Exchange, Y. W. C. A., was most successful, being largely attended. The object of the Exchange in connection with the "Y" work is to help working girls who wish to make a little extra money. Fancy and plain articles are made during the year and placed in the "exchange" show-case at the "Y" rooms, where they may be purchased at any time. Some extremely dainty articles were exhibited at yesterday's sale.

> tary principle. Voluntary System Useless. "The voluntary system could never

under the voluntary system, but the ress; and to return to it now, after all So much for him. His tale was told, that has been done in the last two years to build up the social structure which has been built tier upon tier so laboriously and so wonderfully, to throw the whole insurance world, with its 23,500 societies and thirteen and three-quarter millions of insured persons, to throw it all into the melting pot-that, I say, is the opinion of a man who does not know and of a man

who does not care to know. (Applause.) "This is the situation which Mr. Bonar Law would create for the millions of insured workers by a return to the voluntary system. What would happen to the employers' contribution? Who is to decide whether the employer wil pay or not? Is it the employer or is it the worker? Will not the employer who does not approve of insurance be able to refuse his contribution altogether? Will not the employer have a direct financial inducement to undercut his rivals by refusing to employ insured workmen? Will not every insured person be penalized in seeking employment by

Awkward Alternatives

employers' contribution amounts to nine millions a year, the whole of which is now being used in paying benefits to the working classes. Mr Bonar Law, by his voluntary system, would inevitably release the employer from the obligation to pay, and cieties would be deprived of nearly 'Work for all'-(laughter)-no Tory pay would have to be reduced to 5s ever said that. (Laughter.) Old age instead of 10s, maternity benefit to 15s, pensions—oh, dear, no! We must, said instead of 30s, invalidity to 2s 6d, instead of 5s a week, or in the third alternative the state would have to raise by taxation nine millions a year to make up a decit caused by Mr

Bonar Law's action. "I cannot think, gentlemen, that this s a very valuable political contribution to the discussion of the day. (Laughter.) . other side to it. Whenever, for their own good and for the good of the country as a whole, many millions of persons have to be asked to do certain unpleasant things, namely, to pay weekly contributions out of their small earnings, or to submit to a touch ment, but in the long run it can only be regarded as bad for them and for the nation and the state.'

Trade Boards' Extension.

Mr. Churchill next dealt with the question of labor in the land, and referred to the Government policy tity or quality. This is what it favor of a minimum wage for agricul-"The principle which we are follow

ing," the first lord remarked, principle already conceded by Parliahas to hurry off to Norwich and de- ment, practically without opposition, in the passage of the trade board act passing through the House of Commons obvious emotion. I mean the concen- home rule, and when he barked about the trade board act. (Cheers.) I look Ulster the whole company stood up back upon it with the same feelings of satisfaction that I do to the fact that great plans, and is, in fact, a passion 'Rule, Rebellion'—(laughter)—to an when I was home secretary I was able and of affairs. I have observed the for excellence. And if this exists old tune which we have heard before. licemen. (Cheers.) And now, when have moved to the admiralty, I have been able, in conjunction with our good with his bark at the insurance act. No friend and my right honorable friend, Dr. Macnamara, to increase the wages service of any country (applause), the of the dockyard workers and the wages hear.) That is one of the most plear ant recollections which I have preserved of what has now become. I am afraid, a rather long official spell.'

(Laughter and applause.) Finally, Mr. Churchill dwelt at some ngth on the Liberal land policy as it iffects the town, as enunciated by the hancellor of the Exchequer on behalf

of the Government. Attacks Monopoly.

"I see on the program of this meet the first lord concluded, "a refrence to a speech which I made some time ago at Dundee. And I there said, in trying to distinguish between the mission or Liberalism and the doctrines of Socialism, I drew this distinction: Socialism attacks wealth Liberalism attacks monopoly. (Hear, hear.) The land, which is fixed in geographical position, which is limited n extent, which is a vital necessity of life and industry, differs from all other forms of property and even other forms of monopoly (Hear, hear), and the key to Liberal thought on social questions and on the land question is found in the fact that we do not and cannot regard the land as if t were wholly or purely a private concern. (Applause,) We regard it rather as a trust from the state to be used in the interests of the nation at large, and certainly not to be used against the interests of the nation at large.

"That is the ancient principle which was established centuries ago in this country and maintained for long periods of time, which has dropped into desuctude in the intervening centuries, but which is confirmed thought and inquiry, and which will be revived by modern radical legislation We say that the conditions of land tenure must be capable of being brought continually into relation with the true needs of the state and of the community. That is the test by which we examine all these specious phrases of the magic of ownership and leasehold enfranchisement in which Conservative friends delight. Will they contribute to the advancing of a condition which will really secure for the and of the country that association with national interests which good

"The tendency which we seek to impart to legislation is clear. We do not expect to achieve at once everything that we adhere to, but the tendency we seek to impart is one that must ultimately and inevitably be fataland is intended deliberately to be fatal -to the maintenance of narrow individual private interests in land which and while we are marching on that demand, the whole-hearted, unswerving support of the Liberals of Lonlon." (Loud and prolonged cheers.)

DECLARES UNIONISTS WILL AHMS AGAINST THE GOVERNMEN

(Continued from Page Seventeen)

pensions. That was in 1909. The rewas £2,700.

But perhaps he meant the second year of their imposition. The revenue for the second year was £57,000. So far he has omitted to tell us how it was divided-(laughter and cheers) -how much of it was spent in Dreadnoughts, and how much was left over for old-age pensions. — (Laughter.) This was his first egg, and I think he would give something-and I am sure his party would give a great dealto have it decently buried.

The Insurance Act. The second of these eggs-and it was big enough—was the insurance act I don't believe that in the whole record of human folly you will find an example where a measure like this, are trying to prevent—to turn land ed on every point the lives of the cause of the smaller amount of labor whose audacity was only surpassed by their folly. And what is the result? The friendly societies set an example of thrift which was not equalled anywhere else in the world. And what is the position now? We have appointed and myself;—we have appointed a committee to study the act and the effect of it, and I say to you, from what knowledge I have been able to gain on the subject, that the position is far worse, probably, than any of you imagine. In my belief these great drifting and drifting rapidly, to insolvency.—Hear, hear.)

The Land Campaign.

Now we come to the land campaign. office. If the evils are such as they Lloyd George has left us no doubt he made an interesting discoverythat property in land has duties as well as rights. I agree with him-but I do not agree with his limitation. I think there is nothing on which I feel more strongly—that all property that all property owners have duties as well as rights—(cheers),—and if the does not apply to one class of property alone. - (Hear, hear.) It applies to all kinds of property, property even derived from the Stock Exchange-(laughter),—as well as property in

It is my belief that among the property owners of this country there is no class which to a greater extent than landowners does recognize their responsibilities, and does try to fulfil the duties of their position.—(Cheers.) That is not only my belief alone. papers for a quotation.) I have not got substance of it. In the House of Commons, in 1909 I think, he said this, or something almost exactly in these words-"There are, of course, good and bad landlords, but the good landlords are so overwhelmingly in the majority that they set the standard which even bad landlords have to follow." It that be the truth, or anything like the truth, surely-if the object of the Government were not to help a party, but to benefit the nation-surely what they would have done would have been to try to secure the co-operation of all classes interested in land, and not to direct the campaign against any class, and only when that co-operation was refused should they have stepped in and done what was necessary without it. Surely that was the proper method. Believe me that this is, and always will be, the best way of securing reform. Indeed, I can go further, and say this: Every real reform which ever benefited the nation has been on Ireland, on Great Britain, on the carried out first by the attempt are interested in it.

The Minimum Wage. The Government have gone for a tries I supported it. I knew all the party advantage or disadvantage, in economic objections against it, but face of such a problem as that, seems to me to count for nothing.

I take precisely the same view about ment have any proposals to make which this problem. Let us have—and surely will avert the horrors that I have tried it is the first essential—an inquiry on the spot, imperial and competent. Let us know the facts. Let us find out. so far as knowledge can inform us, what But though I say that I feel more strongly

much for Dreadnoughts as for old-age, the effect of a minimum wage would be,not on landlords or tenants, but on the laborers themselves.—(Hear, venue which came in in 1910-1911 hear.) It seems to me-I admit that on this subject I speak absolutely without the kind of knowledge which I value most, the kind which comes from practical experience; indeed, I am

probably almost as ignorant on the

subject as Mr. Lloyd George himself. -(Laughter.) But there is a difference -he likes ignorance. Perhaps it is an advantage to him,-for it enables him to speak much more freely than would be the case if he knew more about it I think that knowledge is essential. and that it is the first essential in this or in any other question. Is not is impossible that though you may fix the rate of the minimum wage you may actually diminish the amount of employment given to individuals? Is it of such wast importance, which touch- which today is arable into pasture, benation, was rushed through with such which would be required?-(Cheers.) haste, with such recklessness, and with That is what we want-an examinasuch ignorance.—(Cheers.) It was the tion into facts. If there were such an work of gamblers, and of gamblers examination it would command the respect of the whole community, and whatever legislation was necessary could go forward, not by means of eampaign against anybody, but with the goodwill of every man, woman, and child throughout the country .-

> The Ulster Problem. I have, I see, taken up more time

than I anticipated-(loud cries of "No,"

and "Go on")-with these subsidiary subjects, and I must therefore be friendly societies are many of them the dominating issue of the hour. I do not think that matters, because there is no change in the position since I spoke at Wallsend ten days ago, and It is an amazing performance. Here in any case I can only repeat in other we have a Government which is in words what I said then. If the Governpower. It has been eight years in ment really persist in obeying the office. If the evils are such as they orders of Mr. Redmond, Mr. Devlin now describe them, why did they not and I see by today's paper that Mr. remedy them long ago, instead of Dillon has added his—(laughter)—if only now beginning to talk about they obey these orders, then we are them? A land policy I can understand. face to face with national disaster, Land reform I can understand. But and perhaps national ruin. If they do land campaign!-why, and against persist, our duty as a party is clear, whom? (Laughter and cheers.) Mr. and I am sure that we shall fulfill that duty.-(Cheers.) I have said on behalf about that. It is against the wicked of the party-with the approval of the landlords. In one of his recent speeches party-that if the Governments attempts to coerce Ulster before they have received the sanction of the people, we shall support Ulster in her resistance. (There was a great outburst of cheering at this announcement, and after it had died down many sprang to their feet and started the singing of "Rule, Britannia," which was taken up duties are not fulfilled the rights are impaired and ought to be. But that given at its conclusion. It was some given at its conclusion. It was some minutes before Mr. Bonar Law could resume.) I am glad to receive the expression of your approval of what I have just said, but I ask you to think what it means.—(Hear, hear.) It involves a great deal. It involves something more than making speeches-(hear, hear),—and from we as a party will never go back.—(Renewed cheers.) I mean this-and long and very many months before I gave the speech at Blenheim I realized exwas Mr. Lloyd George's even until a few years ago. (Mr. Bonar Law stopped for a moment to look through his be bound in honor—(hear, hear)—to use every means, any means which it. I am sorry, but I can tell you the seem to us effective, to prevent British troops being used to shoot down British subjects. (Loud and prolonged cheers.)

Concrete Withstands The Severest Tests—

IN the San Francisco earthquake and the Ohio floods, concrete structures withstood the terrific tests of fire, water and vibration without damage.

Now, right in our very midst, comes a striking illustration of concrete's enormous power of resistance and durability.

This great concrete structure, built only to resist the pressure of grain from the inside, while filled almost to capacity with 55,000,000 pounds, or 27,500 tons of grain, has settled to an angle of 30 degrees from its original perpendicular position.

In the settling the walls were subjected not only to the terrific twisting strain of their own weight, but to the weight of thousands of tons of grain as well.

This structure still stands intact and examinations have failed to discover the slightest evidence of collapse.

Not One Dollar of Loss To Owners of Grain

THIS illustration of the ability of concrete to withstand the severest test, contains an important lesson not only for the farmer, but for business men, contractors, engineers and architects.

Think of the irreparable loss to the owners of the grain, had this elevator been built of some destructible materiala material that would have collapsed almost as soon as the settling commenced, and which would have entailed not only the loss of the building, but almost a total loss of its

We have published a number of books which contain the most complete information and beautiful illustrations of almost every use of Concrete (City and Farm Buildings, Roads and Pavements) for the farmer, builder, businessman, manufacturer and everyone interested in a material of such permanence and economy.

These books are free and you may have a copy for the asking—simply state what object you are interested in, on a post card, and send to

than ever that the plain, clear duty of the than ever that the plain, clear duty of the Government is to submit their proposals either at a general election or by means of a referendum—(hear, hear)—I do not care which they choose—to submit their propose—they choose—to submit their propose—they choose—they have been been because who posals to the judgment of the people, who alone are entitled to decide this question. (Cheers.)
The Change in Conditions.

hat there is not the least reason to fear

present position but for the sluggish imagination of our people. That is a great truth, and it explains the present situation. I said somewhere—I think it was in the House of Commons—that in my belief statesmanship really consists in imagination. It conargued, because I really do not think there are any arguments on the other side, but which has been discussed over and over again. I shall base my claim on this ground, and I think it is a claim which, on this ground alone, is absolutely un-answerable, and it is on the change in the conditions which have occurred since the you foresee have actually occurred. general election took place. You all know that the time of the general election, Mr. Redmond said there was no Ulster ques-

effect will be when the order is given to send British troops to Belfast Think of the effect on the army itself, to British Empire.—(Hear, hear.) It is a secure the co-operation of those who picture which, I confess, utterly apare interested in it. these, though I am a party man, and I suppose I may say that I have at minimum wage. I am not frightened by least as strong a personal interest in the word minimum wage, not in the the success of our party as any one least. In the case of sweated indus- of you—though I am a party man, the

repeat here tonight, that if the Govern-

They supported him in his land law. But now there is no section in Ulster which is more determined—there is, I believe, no ection which is so determined as Presbyterian to resist to the death this proposal.

The Meeting in Belfast. In our great cities the line of division among our people is very largely, unhappily, as I think, disputes between the Boers agitated, they drilled, they capital and labor. The conditions in Belfast in that respect are precisely the same as in the great towns of England and Scotland. Yet the dread of home rule is so utterly overwhelming that these things, which weigh so much everywhere else, have ceased to exist in Ulster When the Ulster movement first took place we were told by Radical speakers and by the whole Radical press that this was a movement which was engineered from above, that the democracy had nothing to do with it. Then they changed their tune suddenly. They said until the other day that it was only the Belfast mob which was doing it, and that the busion. Will even he say that today? Cries of "No.") He was not alone in olding that view. Mr. Asquith said pracnessmen of Belfast, who had something noiging that view. Mr. Asquith said practically the same thing. He was asked during his election campaign this question, "Will you be prepared to permit the soldiers of the crown to shoot down any of the Protestant minority if and when to lose, took no part in such disorderly proceedings. They have been answered. (Cheers.) The meeting in Belfast last week in the Ulster Hall, and the overof the Protestant minority if and when the latter should take up arms in defence of their present liberty?" And this is Mr. Asquith's answer: "We have not the least reason to fear that the contingency appre-hended will ever arise." Can he say now flow meeting in the Presbyterian Assembly Room, was, in my belief, the most striking event which has so far happened in this movement. That meeting consisted of practically the whole business community of Belfast. They are the very class which hate disorder, which that the contingency will not arise? And if he cannot, then that alters the whole condition, and makes it absolutely essential that the people, and not the Government, should decide the issue.

I know of nothing in the history of our country more remerkable than the absolute. knows that disorder injures their business, perhaps ruins their business. Yet that class unanimously showed an enthusiasm which equalled if not surpassed the enthusiasm of the workers in the shipyards, and they declared without a dissentient, voice that though they have counted the cost they will resist the bill, and will back up and obey the provisional government which is set up in Ulster. The property of the enthusiasm of the workers in the submit, will satisfie that make it. But the most astonishing item of all in his costume, was a lady's sealskin cape, which he workers in the most it. But the most item of all in his costume, was a lady's sealskin cape, which he wore about his shoulders, fastened at the neck by a fancy brooch, which also held together a bunch of a half a dozen daffodils."

| A white some in the most item of all in his costume, was a lady's sealskin cape, which he wore about his shoulders, fastened at the neck by a fancy brooch, which also held together a bunch of a half a dozen daffodils." country more remarkable than the abso-ute solidarity of the Protestant population of Ulster on the question. In all previous controversies before home rule they were divided. The Presbyterians in Ulster, the great bulk of them, supported Mr. Gladstone in disestablishing the Irish Church.

(Cheers.) Facts like these alter the facts before and not after blood has been whole situation

An Old Controversy. Let me enforce, if I may, the argument which I am now putting before you by an illustration from the action of another government, and of a Radical gov ernment. You remember Majuba and what followed. You remember that threatened: Mr. Gladstone paid no attention. They then took up arms and defeated the British army, and he at once yielded to their plea. Now this is an old controversy. I do not raise it for a moment either in condemnation or criticism of what took place then. I raise it because it is an exact analogy to the present position. Surely it would have been wiser for the Government then to have granted the claims, if they were just, before and not after our troops had been defeated. Mr. Gladstone knew-he well knew-that if he chose to use the forces of the British Empire he would at that time have had no difficulty in overcoming the resistance of the Boers. He refused to use that force. He said it would bring blood guiltiness upon him to use it. Why? I remember the controversy well, and this was his reason, I think the sole reason. He felt that since those men were willing in that cause to risk their lives the course he was pursu ing was not a right one.

WIH Not Submit Is not the position exactly the same in Ulster? In Ulster we know-and the Government know-that there are thous-

shed. (Cheers.) I said at Wallsend that n my belief the Government have before hem three possible alternatives. There are hree nominally but in reality there are only two. The responsibility for the present position rests not on the cabinet. It ests with one man-the Prime Minister -(hear, hear)—and it is a responsibility which he cannot avoid, which he canno even share, for he, and he alone, will be udged at the bar of public opinion no and at the bar of history hereafter.

Cheers.) I do not wish to be unfair to Mr. Asquith. I think I understand his difficulties, at least some of them. know how strong party ties are, and think what is happening shows us that they are perhaps too strong for the benefit of the nation with both parties. know what the strength of party ties is but in my belief Mr. Asquith has now only two possible courses open to him. He can, if he thinks it possible, try to arrange a settlement which will avert these evils. But if he fails, then, as a statesman, as, indeed, an honest man there is only one course open to him, and I am sure that he will take it, and that is to appeal to the people of this country. (Loud cheers.)

Mr. Bonar Law spoke an hour and five (Loud cheers.)

construction from deep water in

The Culebra Cut.

It was only after these various, yet

(Editor's Note.-This is the Second Part of Colonel Goethals' own story of the Panama Canal, which he built, and it tells of the wonderful work of preparations and of the great obstacles that were to be evercome. Two years were spent in the work of preparation alone, in building a plant and getting together the force and the machinery. And now, for the first time, the real story of those disastrous SLIDES and BREAKS is told, those tremendous upheavals of nature which increased the burden placed upon the shoulders of the great directing genius, but which never caused him to waver from his purpose to finish the work in the time that was sent for him to finish it. There has been no greater exhibition of endurance and sheer nerve in the history of the world than this calm, able man has given, fighting the forces of nature, directing his tremendous army of more than fifty thousand souls and pushing through every obstacle to great achievement.)

PART II.

BY COL. GEORGE WASHINGTON GOETHALS

Corps of Engineers, United States Army, Chairman and Chief Engineer, Isthmian Canal Commission.

Copyrighted, 1913, by the Newspaper Enterprise Association in the United States, Great Britain, France and Germany.) The first two and a half years of made to areas available for dumping Laws Framed.

American control on the canal zone grounds, were given to preparation. All energies were devoted during that time to ment was established with its necesrid the inthmus of disease by sanita- sary adjuncts of courts, police force, fire companies, customs and revenue tion, to recruiting and organizing a service, postoffices, public works and working force, and providing for it treasury. suitable houses, hotels, messes, kitized in the United States for the obchens, and an adequate food supply; to assembling the plant to do the work; to increasing the capacity of the existing railway system, and to establishing a system of civil government for the canal zone, which is a strip of land ten miles wide, five miles on either side of the centre of the canal, extending across the isthmus.

and the forces for their operation were Work of Sanitation. The work of sanitation included clearing lands, draining and filling pools and swamps for the extermination of the mosquito, the establishment of hospitals for the care of the sick and injured, and the quarantine. In addition, to secure and maintain better health conditions, municipal improvements were undertaken in the cities of Colon and Panama and the various settlements along the line of the canal, such as the construction of reservoirs, with mains and adjuncts, for furnishing wholesome and sufficient water, sewerage, pavements and a

system of roads. Buildings to the number of 2,009 were constructed, including office buildings, hospitals, hotels, messes, kitchens, shops, storehouses and living quarters. In addition to this, 1,536 buildings out of a total of 2,200 buildings turned over by the French were remodelled and repaired for use. Recruiting agencies were established in the United States, Europe and the West Indies.

Commissary Department. The commissary department of the Panama Railroad Company was enlarged until it became a great department store, supplying to the employees whatever was necessary for their comfort and convenience. Manufacturing, cold storage and laundry plants were established and turned out each day about 90 tons of ice, 14,000 loaves of rolls, 250 gallons of ice 1,000 pounds of roasted coffee and 7,500 pieces of laundry. Four to five refrigerator cars, loaded with meats, vegetables and such fruits as could be obtained, were sent out on the night freight to distant points, and every morning a supply train of about 16 cars, of which number six to eight were refrigerator cars, left Cristobal 4:30 to distribute food stuffs and faundry to the local commissaries along the line, where employees could make their purchases and where the hotels, messes and kitchens secured their

supplies for the day. The construction plant, consisting of steam shovels, locomotives, cars, unloaders, spreaders, track shifters, piledrivers, cranes, dredges, steamboats, tugs and barges, was purchased, for the most part "knocked down," and the shops for their erection and repair were constructed and enlarged. of the machinery was built from parts manufactured in the shops. The distance from the home market, with attendant vexatious delays in securing parts and material and the necessity for keeping the construction plant in the most efficient condition for economical operation, made it imperative that the shops be equipped to meet

every possible contingency. canacity of the Panama Railroad was increased by double tracking it throughout, except from Cristobal to Gatun and from Culebra to Paraiso. Yards were enlarged and connections

"Yes, in the flowery dells," he ex-

"Well, here I am in the flowery

"That's what we call these In Winchester Jail.

One after another we were divested of our clothes, given prison garments, and sent to bathe in tubs which might have been cleaner. Then our fingerprints were taken, after which the doctor gave us a hurried examination, and we were hustled along to our cells. The prison clothes were warm and heavy, and they needed to be, as there is no place where a perpetual chill eats to the bones more than it does in a cell, where everything is iron and stone. The first night I did not sleep, and I suffered fourteen successive nights of bone-breaking nightmare, till the time specified in the regulations was run out, and a mattress was allowed. The first week the food drove me to despair—it seemed to be nothing but oatmeal and skilly, the latter a dilution of the former. Occasionally there was a piece of suet pudding or a few potatoes. But the bread was good. This first diet lasted for a week. Then came diet B. For longer-term prisoners there yet remained diet C. These diets differed very little except that an occasional piece of meat was added to the noon-day meal-of potatoes, and an infrequent mixture called soup. Diet C brought with it tea in the morning and cocoa at night (or vice versa, don't remember which). I got out before I reached this diet. Altogether, such monotonous fare must be very hard on long-time prisoners. The morning and evening meals never varied-it was always skilly for breakfast and oatmeal for supper, both eat-en with nothing but salt. The prisoners, every day excepting Sunday, do ten hours' solitary labor in their cells. Some pick oakum, some sew coarse matting together—a few wax strings for the sewing. I was put at the latter task because I was lefthanded and eouldn't use the righthanded needle-pusher. To my surprise grew glad of the daily work; as sat there all alone drawing the strings

rapidly through the ball of wax, it gave more wings to time. Exercise.

Every morning at nair-past five w were routed out for an nour s walking exercise. Around and around we trunged on rings of circular stone; there were three of these rings, and the whole gave the enect of an enormous target. On the outer , ring warked nose who wanted to stretch their legs a bit, on the next, those who desired moderate exercise, and on the inner one, which ran around on an eminence, shurried reebiy the old, and the sick. Along the prison wall there limped a whiskered man wno nad something wrong with one or m, legs, for all the world like a crow cast out from the flock. And while we exercised, cirching around and around, three or four impassive guards stood over us, watching our every movement. One morning the full moon hung in the sky, a huge globe of sliver fire, suffused and brimming over with the light of the yet unrisen sun; and, every day, as we walked around and around, nocks of crows circled overhead and held their rendezvous on the roof of the prison. The second day I agerly scrutinized the books in my cell: they were a Bible, a book of church services, a worthless school history, which pretended to cover the story of all the past and present in a termination of a brutish fellow in few hundred pages, and a silly volume entitled .: "A Healthy Home and How to Make It" (or something like that). The Bible.

I tossed the others aside and took up approximately horizontal, settling nearly vertically. The weight of the or I'll lift you out of the parade by broken portion forces up and dis- your tin listener. That battering ram ogies; its powerful poetry, its idiomatic English, and the vigor of its phraseology impressed me as never before. In my cell was a slate and the stub of a pencil. I wrote three the upper part gradually settles and around and present you with a stove poems on this slate during my incarceration, and carried them out with me by memorizing them. While in Get jail I never saw a blow struck, but the harsh attitude of the guards toward the prisoners remained just as brutal. One always felt in them a malignant will toward evil. seemed, by the tone of their voices, ever to be trying to show just how despicable and worthless they thought us: there is such a thing as mental pilot had left long ago. A prominent brutality, and it cuts deeper than cor-Radical woman and magazine writer, poral punishment, its whip strikes through the soul. The prison itself was clean; there were no vermin, as there so often are in American county jails. The worst fault of the English prison lies in its mechanical regulations, and in it forcing religion down the throats of the imprisoned men-it

Christmas Shopping by Your Own Fireside

HAT is just what shopping from the "Ryrie" Gift Book means.

Wouldn't you like to sit down quietly at home some eveningjust like the ladies of an older day did-and have the choicest wares you could possibly imagine displayed before you? Wouldn't you like to sit there quietly, undisturbed by other influences, and pick out something for each of your friends; spending no more-no lessthan you intended; knowing you could not lose-could not be dissatisfied?

As you turn over the pages of our Gift Book you find displayed before you, as plainly as if you were in our store, hundreds of the best possible gifts, gathered from all corners of the world.

Both illustrations and descriptions are absolutely accurate, yet to prevent any possibility of dissatisfaction anything you order may be returned at our expense if it fails in any way to come up to your expectations.

A postcard will bring this Gift Book to you. Write to-day.

ENGLISH HAND-MADE LAGE

MADE BY THE COTTAGERS OF BUCKINGHAMSHIRE

This is the old-fashioned lace made on the cushion, and was first introduced into England by the Flemish Refugees. It is still made by the village women in their quaint old way. Our Laces were awarded the Gold Medal at the Festival of Empire and Imperial Exhibition, Crystal Palace, LONDON, ENGLAND, for general excellence of workmanship.

BUY some of this hand-made Pillow Lace, it lasts MANY times longer than machine made variety, and imparts an air of distinction to the possessor, at the same time supporting the village lace-makers, bringing them little comforts otherwise unobtainable on an agricultural man's wage. Write for descriptive little treatise, entitled "The Pride of North Bucks, containing 200 striking examples of the lace makers' art, and is sent post free to any part of the world. Lace for every purpose can be obtained, and within reach of the most modest purse. Collars, Fronts, Every sale, however small, is

Some Sound Facts About Bad Eggs, and Loss They Cost You

The Humble Hen Is the Most Efficient Transformer of Raw Material Into Finished Product That Farm Possesses.

Egg production has always been a even that will break the confirmed egg big business in Canada. Years ago, eater of his festive habits. Canada used to supply her own wants, at a price which compelled people to producing eggs. Wheat, golden dream buy all they needed, and then her an- of wealth to the farmers of the great nual export trade mounted up to west, is a money maker, or it ought somewhere around eleven millions of to be. Prices for that basic element of food still hang around within sight of

Just how big that growth has been is vested with the old-fashioned cradle, difficult to say, for Canada has very and threshed with the flail. But if it inadequate means for estimating the took one pound of wheat to produce volume of what is grown and consumed at home. But statistics do show that, fast as any increase in production wheat, for she would return to tion may have been, home demand and her owner a hundred per cent. and then home consumption have grown faster some, for his hospitality. still, for Canada no longer exports eggs, but is importing them, and to the tune of around thirteen millions der actual test, produced 20½ dozen of dozens annually at that. We are of eggs while eating 118.5 pounds of eating up all the eggs that can be ob- food. The eggs sold for \$7.18, and her tained from the farmers and poultry- owner estimated her food to cost him men, and furnishing besides profitable \$1.72, or about one and one-half cents of the farm employment to thousands of people in per pound. This food was not wheat, the farmer foreign lands.

A Great Demand. Like the proverbial puppy dog, the city dweller seems to have developed

an insatiable appetite for eggs. Noth-ing seems to break him of the pro-pound, she would have been a very pensity of eating eggs for breakfast, ham and eggs for dinner, and poached eggs for supper, or an omelette if he

High prices, steadily growing higher, hen can do when she gets the chance. are no deterrent. From the old export basis, six to eight cents per dozen, eggs have risen three, four, and at College, the winning hen was a white the present season of shortage seven Leghorn, with a record of 282 eggs in enough to be sold as stric and eight hundred per cent., and not one year. Still another laid 267, while The Canadian Countryman.

a Plymouth Rock, a breed not famous for egg laying specialties, but prized for all round, general utility, showed a record of sixty-one eggs in sixty-one

days.

Just hold an egg in your hand and contemplate it carefully. Weight by weight, it is the highest priced product of the farm. Sometimes the milkfed broiler will give it a hard run, but nothing else will. It is worth more than its weight in butter, and its production entails no milking, skimming churning, working, washing, or salting, nor the extreme sanitary handling which the making of good butter demands. It is a finished product, right at the zenith of its market value, as you look at it.

A Cheap Production. It is not only the most valuable, but the cheapest production of the farmyard. Dr. Jordan, of the New York Experimental Station, has made the calculation that the specific produc tiveness of the hen far surpasses that of the dairy cow. To illustrate this, he took the example of a hen of three Since that time there had been no the dollar mark, or very nearly the and a one-half pounds weight, with a decrease in egg production, but a same price which it commanded in the production of 200 eggs per year, as steady growth in the other direction. days when it was sown by hand, harand yielding annually 7,000 pounds of milk. In the case of the hen, the dry matter in the eggs, as compared with the actual dry matter in her own body, stood as one to five and one-half. In the case of the cow, the dry matter in her milk compared with their own weight as one against 100 per cent The humble hen is the most efficient transformer of raw material into finished product that we have on th

farm. The eggs only yard. Just mind you, but cracked and ground are worth their highest market value grain, green food, beets and grit. It All that the consumer asks is that he is safe to say that had the hen done too may get them just that way. He nothing more than pay for that kind is willing to pay twenty, thirty, and even forty per cent. more for them than he will for eggs as he does get the most of them. It ought to be worth while to try to do it.

profitable boarder. But to pay for her board at that price, and then give a premium of about five dollars and fifty According to the estimates of egg packers, only ten per cent. of the reeipts command the market price as strictly fresh." Only one egg out of every ten, received by wholesale houses, is good enough and fresh enough to be sold as strictly fresh.—

makers of

Owing to so many of the British Settlers who have moved to Western Canada writing us asking where they can get Molassine Meal, as they have been accustomed to using it in the Old Country, we have now arranged to bring this famous food to your door.

Every reputable food dealer in the West will soon be selling this food and able to supply all demands.

MOLASSINE MEAL

is a scientific combination of molasses and vegetable matter, specially treated and cooked by a patented process that nullifies the potash salts.

The success of Molassine Meal has been so great that many other sugar preparations have been put on the market which are purely and simply imitations and do not contain any antiseptic, digestive and worm-destroying properties.

Molassine Meal is the only safe way to feed molasses to livestock. Molassine Meal may be fed in large quantities to any animal all the year round to advantage and profit.

Molassine Meal is not only a good food in itself, but owing to its antiseptic properties, it keeps the stomach and blood of the animals fed regularly with it in a healthy condition, thus enabling them to derive the whole of the nutrition from other rations.

Molassine Meal prevents and eradicates worms and prevents colic. Molassine Meal, by keeping the stomach and blood in perfect health, enables the animal to avoid diseases, for the same reason that a healthy human being is able to resist all attacks of germ

Molassine Meal is guaranteed to contain no drugs, acids or medicaments of any kind.

Molassine Meal is the best all-year-round food known to science to-day for

HORSES CATTLE SHEEP PIGS POULTRY Molassine Meal is guaranteed by the makers to keep in good condition for any length of time.

handicapped, as much valuable produce would be destroyed by decay. Under such circumstances the cost of living register of the wholesale weekly prices than it has, and there would be little of all manner of farm produce, and hope of establishing outside markets. Because these several lines of industry are closely allied they are all grouped under a single branch of the Dominion Department of Agriculture, that of the

Dairy and Cold Storage Commissioner.

This branch, under Mr. J. A. Ruddick, has become a far-reaching organization, extending from the milking sheds and orchards, even to the great markets of the United Kingdom. Through the dairy division encourage ment is given farmers to increase the production of their herds, instructions are issued to teach the best methods of turning out fine butter and cheese. The fruit division seeks to enlighten growers on the condition of crops, to teach correct methods of production and marketing, and to establish confidence in the value of Canadian fruit. The cold storage service assists institutions that require refrigeration to erect proper warehouses; during warm months aid is given railways that carry fruit and dairy produce to maintain low temperatures in their cars; and help is provided to secure cool temperatures to export produce while on the ocean. The extension of markets division exercises a close supervision over the handling of perish-

TOOK SEVERE COLD.

Left A Terrible Hard Cough And A Nasty Tickling Sensation in The Throat.

A bad cough accompanied by that distressing, tickling sensation in the throat is most aggravating.

Dr. Wood's Norway Pine Syrup is rich in the lung healing virtues of the Norway pine tree, and for this reason it will stop that tickling in the throat which causes that dry hard cough that keeps you awake at night.

Mr. Sanford Roode, Antrim, N.S., writes.— Last fall I took a severe cold which left me with a terrible hard cough and a nasty tickling sensation in my throat. I tried many cough medicines, but they did not help me so I got a bottle of Dr. Wood's Norway Pine Syrup, and before I had used half of it the cough had left me, and the next one made a complete cure, and I will recommend it as the best-cough medicine on the market.

See that you get "Dr. Wood's" when you ask for it. Do not accept any imitation. The genuine is put up in a yellow wrapper, three pine trees the trade mark, price, 25 and 50c., and manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Without cold storage the dairying able farm produce in transit, and and fruit industries would be greatly as opportunity offers, transportation tandicapped as much valuable produce companies are advised of needed improvements in their equipment. Be-

BABY BOY

Mrs. Beck's Fondest Hopes Realized-Health, Happiness and Baby.

Upper Lahave, N. S., Can., - "I wish to thank you for the benefit I received by taking Lydia E. Pinkham's Vegeta-

ble Compound for female troubles from which I was a great sufferer, so that I was completely run down in health. Other medicine did not help me, but Lydia E. Pinkham's Vegeta-

ble Compound made me well and strong. I now have a big, hearty baby boy, and praise your medicine for the wonderful lot of good it has done me." - Mrs. ISRAEL BECK, JR., Upper Lahave, Lunenburg Co., N. S.,

The darkest days of husband and wife are when they come to look forward to a childless and lonely old age.

Many a wife has found herself incapable of motherhood owing to some derangement of the feminine system, often curable by the proper remedies.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

RAKNING AND ITCHING ECZEMA

Un Hands and Arms. Broke Out in Fine Rash. Had to Give Up Work. Could Not Rest. Cuticura Soap and Ointment Cured.

Lombardy, Ont. - "I had been suffering for two years with eczema on my hands and arms. At first my hand broke out in a fine rash with a burning and itching that was hard to bear. The itching and burning were so bad I had to scratch till my hands and arms bled and were so sore I could not

stand to put them in water. I also had to give up my work. Then it spread all over my arms. I could not rest at night as the bed clothes would irritate the eruption every time I would stir or move my hands.

"I tried two treatments giving each a fair trial but they failed to cure me. Then I naw the advertisement in the paper about Cuticura Soap and Ointment so I sent for a sample and I began to use them with very little faith, but to my surprise I found relief from the very first. I washed my hands in warm water with Cuticura Soap and dried them with a soft cloth, then I put the Cuticura Ointment on and bandaged them with soft cloth. I used two boxes of the Cuticura Ointment with the Cuticura p and used them steady for two months and they entirely cured me." (Signed)

Mrs. Helena E. McCall, May 17, 1913. A single cake of Cuticura Soap and box of Cuticura Ointment are often sufficient when all else has failed. Sold by druggists and dealers everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card Pott : Drug & Chem Corp., Dept. D, Boston, 1'. S. A.

SIR EDWARD GREY AND THE CRITICAL YEARS OF A MAN'S LIFE

THE TEST OF A MAN'S LIFE-PERSONAL AMBITION NOT ALL - LIFE MUST BE MADE TOLERABLE - STANDARD OF EXPECTATION HAS BEEN RAISED-TO GET AT THE BACK OF INDUSTRIAL UNREST

were the speakers at the Manchester meeting which, says the Manchester Guardian, was remarkable for its emotional intensity, and was attended mainly

Critical Years of Life.

Sir Edward Giey said that the most critical years of a man's life were those between 20 and 25. If a man was idle and wasted those years the probability was that he would not get into the stream of life at all What a man read and did and what habits he formed durdecided his future life. All men had neir home life and their recreationsmost important departments of life, necessarily contradictory, but not encoincident.

man who was not obliged to work his livelihood, after he had attended to those two things, obviously had an erormous surplus of time which he could and ought to devote to public work. Most men had to work for their livelihood mor or less. They, too, must give to publi work each according to his opportunities Without that nobody was really a citizen for citizenship consisted not in the possession of rights but in the performance of obligations and the rendering of ser-

What He is at the End of It. What matters most in a man's life, Sir What matters most in a man's life, Sir pass of these islands, and they have got Edward Grey continued, is not what he to learn that they are dependent upon has done in the way of success or failure, but what he is at the end of it. No doubt one class does affects his neighbors more his work has a great effect upon what he and more as the population increases and is, but the measure of the real success of the community is bound closer and closer a man is not whether he can point to this together. That, of course, has been felt or that great achievement but what he tremendously in municipal work, which is himself is as the result of his work. upon the motive from which people the great and obvious fields of public should work, and that, I think, has more work. We have in these days to solve a to do with what a man becomes than the problem which presses upon us with inactual work which he undertakes. The puts before people is the Christian spirit, not only to be but to seem tolerable to life is the man who has made people feel that his life has been regulated by a de-

Me those faults which impede public Personal Ambition Not Everything.

egotistical, something which prevents him from doing all those little things which impede public work, and make it difficult solved by people who get to understand for men to work with others.

itself in the sand or evaporate alto-Just to men at that time, when their aspirations are fresh and new, the Cavendish Association ought to appeal, first but increasing afterwards; by providing them with the results of the experience of other people who have done public work, and by giving them that start in life which will put them in the

main stream of public work and enable them in the fullest sense of the word to become useful citizens of the state

To Make Life Tolerable. The need of the state for public service (Sir Edward Grey said) is greater than ever, and will become increasingly Masses of men of different classes strike really for a trivial cause. What is lie opinion. great. We live in a very crowded counare packed together in the small compass of these islands, and they have got each other, and that what one man and already dealing with the problems of The Cavendish Association lays stress crowded communities, and that is one of creasing urgency, and it is how a crowd. The man who has been a real success in these who carry on our industrial work. I say not only "be" tolerable, but seem tolerable because the whole standard of sire to give service, and to do nothing expectation has been raised. It is no which fell below the moral standard which good pointing to the fact that things are he had set up for himself. That sort of much better than they were two or three motive it is which clears away from peogenerations ago. What would have does not seem tolerable to the present generation. We have had great prosperity

Personal ambition is a quite honorable lately in this country; there has undoubtactive. The desire for approval andedly been very great progress. But, I

The Stage Manager (to the brace of supers)-Now, you know what you've got to do in the third act? Remember, you both come on as Napoleon's army retreating from Moscow."

Sir Edward Grey and Lord Hugh Cecil praise is something which nobody should suppose, restlessness and discontent have despise. But a man should not stake been and are still a very marked feature consider the phenomena of spiritism and allowed everything upon those; otherwise, when of the community. Why? Not because the charlatans to have a monopoly of that also. his work fails to get recognition he is disappointed. He should have in himself than there was generations ago—I believe there is less—but because men's ing their existence, we should not now, I believe, have to depend upon such ing their existence, we should not now, I believe, have to depend upon such ing their existence, we should not now, I believe, have to depend upon such ing their existence, we should not now, I believe, have to depend upon such ing their existence, we should not now, I believe, have to depend upon such in the days of the Davenports and Foxes, to collate the facts, study them and find out what was in them, instead of deny-like the state of the days of the Davenports and Foxes. The days of the Davenports and Foxes, to collate the facts, study them and find out what was in them, instead of deny-like the days of the Davenports and Foxes. makes him independent of those things, expectations have been raised and the books as this forthcoming one of Miss Stead's for light. For evidently her something which makes his work not standard of what they think life ought

> That is something on which the Caven-lish Association lays stress. It appeals can, of all classes. Those who stand especially to young men who have more aside from public work are not going to stated to be the cause, when it is trivial, especially to young men who have more assection public work are not going to stated to be the cause, when it is trivial, understand either the nature of the problems or the way in which they may be praiseworthy aspirations. If they get no help, no stimulus, no guidance, no object, as the left on one side outside the main at what many people think and feel. providing them with work, small at

Industrial Unrest.

book will prove nothing. to be is higher than it was. These problems are only going to be Those are the very ones which might prove something. If she holds things back, how are we to tell whether these "communications" are from Mr. Stead's

stream, as spectators, and they will become, what people who are mere spectators of public affairs so often do become, cynical, critical, and therefore unhappy spectators. If people are to get their minds. That is a very difficult to understand these problems they must do it by public work.

Take the case, for instance, of indusrial unrest, added Sir Edward Grey. You are not going to find out the causes of industrial unrest from the newspapers or from political meetings or from mass meetings. You hear that tens or perhaps hundreds of thousands of men are out on strike for perhaps a trivial work, municipal work, social work, and cause; that it is the alleged cause. You so forth, can you get that understanding may be quite sure that tens or hundreds between different classes which is neces-

something at the back of his mind to find out, still more to express; and it is only indirectly by sharing in public work Depend upon it, concluded Sir Edward, the first thing for a man to do to get his own point of view understood is to begin by learning the point of view of others Only, I think, by being mixed up in public

"Some of the communications," she says, "are too intimate to be disclosed.

discarnate spirit, as she believes, or the phenomena of her own subjective

HAD THE FIRST SILO THAT WAS BUILT IN DOMINION

Twenty-five years ago silos were practically unknown in Canada and the United States. Today, without one, motive which the Cavendish Association ed industrial community is to make life a farm is incomplete. Your modern up-to-date agriculturist next to his barns probably considers his silo the most important of his buildings.

> To Middlerex belongs the honor of having the first silo in the Dominion. It was erected by Mr. Thos. B. Scott seemed tolerable to previous generations of Vanneck, in 1881, and he writes of the interesting incident as follows:

In 1880 I saw Dr. Bailey's book on Ensilage advertised in the Country Gentleman. It looked good. We knew a cow would give a full mess of milk on fresh, green grass, but she would not on dry hay. In 1881 I built the first silo in Canada. It was 32 feet long, 12 feet wide, and only 12 feet deep. With our present knowledge we can easily afford to laugh. This was a case of the blind leading the blind. The silo was boarded outside and in with matched boards, and the space filled with sawduct. A timber was sunk level with the floor five iron rods, 1½ inches, extended to the top of the silo. The rods cost \$21. The cutting-box was elevated to the height of a wagon, and the team hooked from wagon to horse-power. The corn went rapidly through the cutting-box, and was elevated with a big scoop-shovel. In four days we had it plumb full. Covered with 12-foot boards, double cut to slip inside, the corn settled. We put heavy scantling on the rods and screwed it down solid. Had force enough on rods to raise a barn. First thing next morning, however, was disappointment, as the ensilage had settled and left screws. \$21 gone; no good. It must be a continuous presure, and I had the remedy at hand loading it three feet thick with cordwood. This made everything solid No one had seen ensilage, but we were beginning to smell it. The corn was green, and, of course, developed a good deal of acid, still the odor was pleasant. Doubting, anxiously we opened the first silo. The news spread that T. B. Scott had opened his silo. We fed about three feet across the end, our surface was small, but the labor of handling boards and wood was large. How-ever, it pleased the stock, if it did get much ridicule from critics who smelled sauerkraut. Prosperous farmers suggested many improvements The elevator was not a success, cobs jumped off the carrier, and the

wind blew leaves all over the yard. The blower saves all this waste. The Cheapest Feed.

Do Public Work.

But what we want to get at if we are

o find the causes of unrest and discon-

ple's minds but what is at the back of

thing even for the individual who has

tent, is not what is in the front of peo

A very important improvement is the movable section of pipe attached to the mouth of the blower, reaching within a few feet of the bottom of the silo, and can be detached as required. This completely prevents the separation of lighter and heavier parts of the corn, and one man can distribute the corn evenly over the whole silo. We have fed ensilage continuously for 32 years, and with the present improvements we find ensilage to be the cheapest feed both in winter and summer, and the cheapest to store of any forage crop.

Many new forms of silos were built. The best of these was the tub silo, hooped with iron. When well built, and inclosed it is a good silo. but open it is not a success. Inclosed it will cost as much as a cement silo, and is not so satisfactory or durable. A cement silo properly built is a permanent improvement on a farm, and its cost adds to the

This Mother Found The Right Food For Her Baby Girl.

Mrs. Arthur Prince of Meaford, Ont .. writes, on Sept. 12th, 1911: "Some time ago, you were good enough to send me a sample of Neave's Food. Baby liked it so well and it agreed with her, so I am using it right along and think it is

excellent "I have a friend with a very delicate baby. She cannot nurse it and has tried six different foods, but it does not thrive at all-is always sick and troubled with indigestion. I strongly recommended your food. Will you please send her a sample ?"

Mrs. Prince wrote again on Sept. 27th, 1911: My friend's baby has grown wonderfully. I can scarcely credit it. Her next baby, which she expects in five months, will be fed on Neave's Food right from the start—she thinks it is so good."

Mothers and prospective mothers may obtain a free tin of Neave's Food and a valuable book "Hints About Baby" by writing Edwin Utley, 14 Front Street East, Toronto, who is the Agent for Canada. (Mention this paper.) Neave's Food is sold in 1 lb. air tight

tins by all Druggists in Canada.

real value of the farm. There have in the last twenty-five or thirty years been very many valuable imhe cement silo holds first place. If the stock farmer is justified in bor ditions, and he is, then the silo has first claim. The three most importo the exclusion of other crops. It your land is not in condition for these crops, make it so, and grow them. No country in the world wil give quicker or better returns for

provements in agriculture, but of all, rowing money to improve his contant stock crops are corn, roots and alfalfa. Grow these largely, not enterprise and energy than Western Ontario. "Cast thy bread upon the waters, and thou shalt receive it again" in not very many days. THOS. B. SCOTT, Vanneck, Ont. MINARD'S LINIMENT FOR SALE

ow a recognized fact under the name of hypnotism. But for generations after and Braid had performed, written and died, science refused to admit the plain facts. When people were thrown into the cataleptic state now frequently seen in every psychological laboratory, the scientists called it a trick Conserve Thirty years ago I read a book written by a Swedish physician on the ypnotic phenomena observed by Charcot in his Paris hospital. I asked a ne, able, well-educated physician what he thought of hypnotism. He thought I meant "hypnotics," which was his name for drugs which induce sleep. He knew nothing whatever of the phenomena of hypnotism as we understand the Business And yet Charcot had blistered a woman's back by hypnotism by means of postage stamp, and applied cantharides to the same back at the same time Science simply refused to look at hypnotism, and knew nothing of it for years after it was practiced by hundreds of charlatans. So science refused to Forces consider the phenomena of spiritism and allowed, and still in the main allows,

It will save time, travel and expense.

Call "Long Distance"-she will be glad to give you the rates to any point to which you might wish to talk. Save time and money.

THE BELL TELEPHONE CO. OF CANADA.

Making More Dollars Canada is "making" money. The Government has to print more dollars every year to meet the demands of business prosperity—but the dollar you make must have purchasing power if it adds to your health and comfort. For a Canadian dollar you can get one **BISCUITS**

and that means a hundred wholesome, nourishing breakfasts. If you add coffee, milk and cream, a deliciously nourishing Shredded Wheat breakfast should not cost over five cents. Shredded Wheat Biscuit is ready-cooked and ready-to-serve—a boon to busy housekeepers and growing children.

Always heat the Biscuit in oven to restore crispness. Two Shredded Wheat Biscuits with hot milk or cream will supply all the energy needed for a half day's work. Try Toasted Triscuit, the Shredded Wheat wafer, for luncheon, with butter, cheese or marmalade.
