## LATE ROBT. REID LAID AT REST

### Funeral Took Place Today to Woodland Cemetery After Impressive Services.

### CANON DANN'S PRAISE

**Spoke in the Highest Terms of the Sterling Qualities of the Deceased —Beautiful Floral Offerings.**

Most impressive were the funeral services of Mr. Robert Reid, late commissioner of the Transcontinental Railway, who died very suddenly on Saturday evening last in Maine.

Rev. Precentor Dann, rector of St. Paul's Catbedral, and an old personal friend of Mr. Reid, conducted the services.

He spoke briefly, referring to the tragic death of his friend, and of Mr. Reid's many most estimable qualities.

The services were simple in character and most impressive.

A large number of personal friends of the deceased came from long distances to pay their last respects to his memory.

Hundreds of others sent in their regrets by wire, and letter, and spoke of the deep personal loss they suffered in his death.

London's prominent citizens were represented, Mr. Reid having been connected with the business and political interests of the city for many years.

**Flags at Half-Mast.**

The flags were flying at half-mast on the Government buildings out of respect to the man who had done much for his country.

A number of Mr. Reid's former colleagues in Ottawa were present at the funeral, including Hon. Geo. P. Graham, minister of railways and canals; Commissioners McIsaac and Young; H. Macpherson, assistant chief engineer of the Transcontental, Ottawa; R. F. Uniacke, Ottawa; M. J. Haney, Toronto; J. O'Gorman, Toronto, and many others.

**Sir Wilfrid's Condolences.**

Sir Wilfrid Laurier met the train on its return from Portland with the body, and personally paid his respects to the bereaved family, and he also sent a letter of condolence.

Hon. Rodolphe Lemieux, Senator Frost, Hon. W. L. Mackenzie King, and a host of members of parliament sent their regrets by letter and by wire, there being literally hundreds of them received.

A very large concourse followed the remains to Woodland Cemetery, where the interment took place

**The Floral Offerings.**

The floral offerings were magnificent. They included a beautiful broken column, sent by Mr. Reid's colleagues on the Transcontinental commission, a large wreath by the staff, a large pillow by the Thistle Club, of which Mr. Reid was formerly a very active member, wreath from Rowell, Wilkey, Reid, Wood & Gibson, Toronto; wreath from James Fogarty and family, Montreal; from Dr. and Mrs. O'Connor, Montreal; Geo. C. Gibbons, K. C., C. H. Ivey, Mr. and Mrs. R. K. Cowan, Mr. and Mrs. Mortimer, Robert Wallace, the family, and a large number of others.

The pallbearers were his two colleagues on the commission, Mr. Colin McIsaac and Mr. C. A. Young, and four brothers, Mr. George M. Reid, and Mr. Ed. Reid, of London, Mr. Jas. Reid and Mr. Thomas Reid, of Toronto.

The body arrived from Portland this morning at 3:40 on the private car Victoria.

It was accompanied by the family of the deceased, Mr. Geo. M. Reid, London, and Mr. Thomas Reid, of Toronto, and Mr. McIsaacs, of the Transcontinental commission.

## GOT BRITISH FLAGS

**Montreal Fire Chief Insisted Upon Them Being in Hall.**

Montreal, Aug. 25. — Fire Chief Tremblay, head of the Montreal fire brigade, returned today from Grand Rapids, Mich., where the international convention of fire engineers was in session. In an interview here he stated what had taken place when he called the meeting to task for not displaying any British flags in the decorations.

"This is the second day of the convention," said Chief Tremblay, "and the decorations are exclusively American. I did not say anything yesterday because I thought the local committee had been too busy serving and making comfortable their guests to notice the omission. But this is the second day, and I think in justice to the representatives from Canada—and we number fifteen—a British flag should be displayed. If it is only one I shall be satisfied."

The speech of the chief appealed to the delegates in the hall, who applauded him generously.

In the afternoon British flags were conspicuously displayed.

## REVOLUTION IN MEXICO

**Situation Along the Northern Border Is Causing Anxiety.**

Washington, Aug. 25.—The United States and the Mexican Governments are watching anxiously the political situation along the northern border of Mexica, where there have been signs of an impending revolution against the administration of President Diaz. So far the movement has not gained as much headway as that of last summer, which spread over several states before it was checked by the Government troops. The present situation, however, contains all the elements of danger, and if not checked there may be a serious revolt against the Mexican Government.

**CHICAGO'S POPULATION.**

Chicago, Aug. 25.—Two and one-half millions' population for Chicago is the estimate made by the compilers of the new city directory which will be out this week. The figures given are 2,157,600, based on the 768,000 names in the directory. The increase over last year is estimated at 33,600.

## AUTOMOBILE FIRE ENGINES COMING

### So Says Chief Aitken Who Has Returned From the Grand Rapids Convention.

### LADDER DRILL IN DETROIT

**Many Features Which Impressed Themselves on the Head of the London Department.**

Fire Chief Aitken has returned from the fire chiefs' convention at Grand Rapids, and reports that it was a most profitable gathering.

"There were over 500 fire chiefs in attendance, and the papers read were exceedingly fine," said the chief. "We had some practical demonstrations of a very high order.

"One of the most interesting features was the demonstration of automobile fire engines, and I am of the opinion that these engines will be a feature of modern fire-fighting. The engine went three miles and return, made four turns, stretched 250 feet of hose and had a stream from an inch and one-eighth hose on the fire in six and one-quarter minutes."

**The Auto Engines.**

"The engines are from 600 to 800 gallons a minute capacity, and are very useful in outlying districts. The fire chief of Lansing, Mich., stated that he had used one for a year, and it had given uniform satisfaction, taking all kinds of roads without trouble.

"One of the most interesting features I witnessed was the Pompere ladder drill in Detroit. This drill is to make the firemen proficient in rescuing people from tall buildings, and teaches them the best and surest methods of operation. This drill is given twice a week and in addition the men are given a physical culture drill, and kept in first-class condition at all times.

**Aerial Trucks.**

"We saw some very fine aerial trucks in operation. The best one I saw was an American make, in which two men raised 75 feet of ladder in 17½ seconds.

"When we talk of fire protection we should look at Lansing, Mich. The city has only 40,000 population, but it has an automobile fire engine, an auto for the chief, four chemical combination wagons, two aerial trucks, a large one and a smaller truck, besides hose wagons and good pressure.

"It was a good convention, and the fire chiefs expressed themselves as delighted with it.

"As our president said, the real fireman is the man who has no apparatus. We were told to make the best of it with whatever apparatus we had."

## FARMERS WIN FROM POWER COMMISSION

### One Gets $850 and Another $1,611 as Result of Arbitration.

Hamilton, Aug. 25. — Arbitrator Gage's decision in the trouble between the farmers and the hydro-electric commission, has resulted in a dead win for the farmers. W. Smith gets $850 and W. A. Lovett $1,611. These are away in excess of what the commission offered but the exact figures are being withheld by the principals. There are several more claims for adjustment.

## MIDNIGHT FLIGHT STARTLES HAMILTON

### Mysterious Airship Seen Crossing the Beach at High Speed.

Hamilton, Aug. 25.—An airship that has attained a flight of about a mile at times has been seen crossing the beach here several times lately. The usual times of flight is between midnight and day and beach residents have stayed up to watch it. It displays lights and at times attains a startling speed, estimated at about 60 miles an hour, as it has distanced autos which followed its course several times.

## HON. GEO. P. GRAHAM IS IN LONDON TODAY

### Pays a Warm Tribute to the Worth of Late Robert Reid.

Hon. George P. Graham, minister of railways, is in the city attending the funeral of the late Robert Reid, member of the Transcontinental commission.

When interviewed by The Advertiser, he had little to say, save that he was in London attending the funeral.

"I regret very much the death of Robert Reid," said Mr. Graham. "I could scarcely believe it when I heard it. I sincerely regret his death. His place will be hard to fill.

"I returned from the old country a few days ago, and have been resting at home for a few days. There is little doing."

**Brakeman Injured.**

A Sarnia brakeman was thrown from the top of the van on G. T. R. train No. 94, at Wyoming last evening, his arm being broken in two places so that the bones pierced his muscles and protruded. He was also badly cut about the face, and after being attended by a physician, was taken to his home.

HON GEORGE P. GRAHAM,
Minister of Railways, Who Is in London.

## BABY SMOTHERED WHILE LYING IN ITS BUGGY

### Tragic Death of Infant Son of Mr. and Mrs. P. H. Scott, of 781 Richmond St.

Mr. and Mrs. P. H. Scott, of 781 Richmond street, lost their little 5-months-old son yesterday noon in a very sudden and tragic manner.

The baby had been left in its buggy on the verandah, while its parents went into the house for a short time. When its mother returned, the infant was lying on its face quite dead. Dr. Thompson was hurriedly summoned, but was unable to do anything.

It is conjectured that the infant in some way managed to turn itself on its face, and was unable to turn back again, and smothered to death before anyone knew of its danger. The parents of the child were just inside the house, and never very far away from it, but they heard no crying which would have warned them. The whole household is prostrated with grief at the sad occurrence.

The funeral will take place on Thursday afternoon.

## BURGLARS OPERATE WITH A WAGON

### Back It Up to Premises Robbed To Carry Off the Loot.

Toronto, Aug. 25.—Backing a wagon up against the side door, shopbreakers entered the premises of Bower Downes, Broadview avenue and Danforth street, early this morning, and swept the store clear of everything. They got in over the fanlight, which had been left open by some painters, and worked for some time without being disturbed. They took clothing of every kind from garters to hats. This is the second store in the neighborhood that has been entered that way and had stuff carried away in a wagon.

## TODAY WAS A SCORCHER NINETY-TWO IN SHADE

### Second Warmest Day of the Year—Sunday, August 8, Holds the Record.

According to the local weather bureau the the temperature today is 92 in the shade.

This is a trifle warm, even for August, and demonstrates that London is in the banana belt.

There has been one hotter day this year, and that was on Sunday, Aug. 8, when the thermometer went to 93. At 8 o'clock this morning it was 71, and since that time it has been getting hotter.

Thunderstorms are promised, and this may reduce the temperature to the point where people begin to live.

## LADY TRADED HORSES THEN TRADED BACK

### Exercise of Woman's Privilege to Change Her Mind May Mean Trouble.

A rather curious mix-up over a horse deal occurred the other day, and may possibly end in the courts.

A certain lady residing on the Wellington road outside the city limits, attempted to improve her circumstances by trading a horse that she owned for one that she fancied more, which was the property of a band of horse-traders.

When the trade was completed the lady in question found that she had received anything but the best of the bargain. Being a woman, she held to her woman's privilege of changing her mind, and so one night she took back the horse she had which she had now ceased to fancy, and re-traded it, unknown to the other parties.

When in the morning they came to their barn and found the horse that they had flattered themselves was theirs no more calmly munching hay in the stable, it dawned upon them what had happened, and taking the unhappy animal, whom nobody seemed to love, they tied it to the lady's gate post, and then proceeded to town and consulted a lawyer.

What the upshot will be is yet to be seen.

**A BRISK BLAZE.**

Toronto, Aug. 25.—A brisk blaze at the Rubber Tire Wheel Company's premises, Adelaide street west, early today, did about $2,000 damage. Almost the entire raw material, stock and dozens of tires were destroyed. The building, a brick one, is owned by J. H. & W. W. Barrett. Both building and stock were insured.

## WATER PRESSURE WAS VERY POOR

### Reservoir Shut Off to Secure a Supply for Fire Purposes Last Night.

### COMPRESSOR WAS SMALL

**When Larger One Is Secured the Horton Street Wells Will Supply Plenty of Water.**

The water pressure last evening was very poor.

At the Central Fire Station it registered from 9 to 10 pounds. In the north end of the city there was little or no water in some sections, and in other portions of the city the results were equally as bad.

The cause of this was the demand for water for lawn services, and also the fact that the commissioners had ordered that water be pumped directly from the springs and wells in order to preserve the supply in the reservoir, to be held in case of fire.

**Supply Insufficient.**

As last evening was very warm and close, the demand for water was great, and the limited supply furnished by the city was soon found insufficient to meet the needs of the people.

At the present time only about 600,000 gallons per day is being obtained from the Horton street wells owing to the fact that the air compressor now in use is not sufficiently large to pump a million gallons.

The commissioners have been endeavoring to obtain a compressor of larger capacity, and have located one which may be installed within a short time. This will pump a million gallons easily enough, and place the city in a position to evade the dry spell of September and October.

**No Cause for Alarm.**

According to the statement of Engineer Moore, there is no cause for alarm. When the demand for water is normal, there is sufficient to meet the needs of the city, but when the demand is abnormal, the reservoir must be allowed to fill up at nights to protect the city in case of fire. There was good pressure after the lawn services were cut off last evening, and plenty of water for all purposes.

**The Lawn Services.**

"We did intend cutting off the lawn services altogether, and at the last meeting of the commissioners this was decided upon," said Engineer Moore. "However, I thought that with care we would be in a position to allow lawn services to be used when we were getting considerable water from the artesian wells. Some evenings when the demand is very great the lawn services will be unsatisfactory, but we will be able to get through all right."

**Water From the Wells.**

As usual the wells are delivering their quota of water without trouble, 2½ inches of water going over the weir. This represents the capacity, not of the wells, but of the air compressor.

The reservoir at Springbank is practically full.

## LONDON MAN HAD VERY NARROW ESCAPE

### Bullet Went Through the Hat of Mr. H. B. Keene at Port Stanley.

(By Our Own Man.)

Port Stanley, Aug. 24.—Mr. H. B. Keene of London, had a remarkably close call from instant death while hunting near the Port yesterday. He is spending the summer at Willow Beach, and in company with Mr. Robert Miller, of London, who is stopping at "The Lone Elm," went yesterday on a shooting expedition. While on the Lake road, some distance from the village, Mr. Miller's rifle was suddenly discharged, the bullet passing through Mr. Keene's hat, an inch or so from his head.

## SMOKE CONSUMERS APPEAR POPULAR

**Quite a Number of Firms Are Installing Them.**

Ald. Ferguson states that several firms are putting in smoke consumers, and that he expects to give a practical demonstration within a reasonable time of the practical benefit of these consumers.

"I have several promises from leading citizens that they will install the apparatus," said Ald. Ferguson. "Hunt Bros., C. R. Somerville and Hon. Adam Beck have agreed to put them in, and Gorman & Eckert have had one in for some time. It has proved of great value to the last-named firm, and I am confident that others will find it equally as beneficial."

## VERY DRY IN ALABAMA

**Legislature Passes at Least Ten Prohibition Measures.**

Montgomery, Ala., Aug. 25.—The special session of the Alabama Legislature, which adjourned after 22 working days, accomplished the chief purpose for which it was called, by passing drastic prohibition laws, and capping the laws by submitting to the people an amendment to the constitution, prohibiting the sale or manufacture of intoxicants in Alabama.

The election will be held the last week in November. At least ten prohibition measures were passed. Under the new laws a person may not have liquors anywhere but in his home. Keeping liquors at places is made prima facie evidence that they are for sale. Prosecutions are to be made before chancellors, and not juries and state attorneys, and sheriffs may be impeached for failure to execute the laws.

Foreign corporations may not do business of any kind in Alabama if it is shown that they sell or manufacture liquors in other states.

## EMERY SHELLEY TO BE RELEASED

### No Evidence Whatever to Connect Him With Killing of Michael Hall.

Toronto, Aug. 24.—Emery Shelley, the 16-year-old boy held at the Simcoe jail on suspicion of having caused the death of Michael Hall, a blind farmer near Walsh, is to be liberated.

Neither the local police of the district nor the provincial detectives have been able to obtain any evidence which could connect the lad definitely with the crime.

Even the charge of criminal negligence, which it was rumored would be placed against the boy as a result of his firearm escapades, will not be pressed, according to authoritative source of information.

## ACCIDENT ROLL FOR THE MONTH OF JULY

### Three Hundred and Fifty-Eight Workmen Hurt, of Whom One Hundred Died.

[Special to The Advertiser.]

Ottawa, Aug. 25.—During July, 358 workmen suffered from accident in Canada. One hundred died, and 258 were seriously injured. Seventy of the accidents occurred in the metal trades; fifty-five among farmers; fifty-four among railway men; thirty among builders, and twenty-nine among miners.

During July there were fifteen industrial disputes in Canada, involving 4,338 employees, who lost a hundred and eighteen thousand working days. The chief disputes were the strike at Sydney, and the strike of carpenters at Edmonton.

## BUILDING PERMITS SHOW INCREASE FOR AUGUST

### Total for the Month Will Be Double Those of a Year Ago.

Building permits continue to be in demand and August will be far ahead of the corresponding month last year

Up to date there have been 52 permits taken out, for a total value of $53,642.

With nearly a week yet to run, it is more than probable that the total will be almost double those of August, 1908.

In that month there were 18 permits for a total of $38,000.

"We are quite busy with permits," said City Engineer Graydon. "The demand for them is considerable for this time of year."

## ROYAL RIFLES WON

**The First Team Makes Fine Showing at Rockliffe Ranges.**

Rockliffe Rifle Ranges, Aug. 25.—The D. R. A. meet had nice, clear weather for the shooting today. The wind was strong, but fairly steady. In the Caron Cup for teams of five men in the aggregates of the Tyro, Bankers, McDougall and Dominion matches at 500 and 600 yards only the first team of the Eighth Royal Rifles won the cup and $20, with a score of 606 points. The second team of the same regiment was second with a score of 597 and won $10.

## THE FIRE CHIEFS

**Provincial Association to Hold First Annual Meeting at Toronto.**

Hamilton, Aug. 25.—A meeting of the newly-organized fire chiefs' association of Ontario will be held at Toronto during exposition week and every chief in the province will be asked to attend. The organization will be similar to the International Association and it is expected it will be beneficial to these chiefs who are unable to get to the big association. The International Association meets at Syracuse next year and the following year it will likely meet at Montreal, the first time it has ever been held in Canada.

**OFF FOR JAPAN.**

Seattle, Wash., Aug. 25.—The Wisconsin baseball party of sixteen men arrived last night on its way to Japan to play with the Keio University team. The men will sail Aug. 31.

## WALTER COOPER FOUND GUILTY

### He Admitted a Charge of Theft Laid Against Him by Local Photographer.

### THE DOG TAXES POUR IN

**P. M. Love Has a Collecting Bureau Beaten a City Block at This Class of Work.**

There were quite a number of delinquents booked to appear at the police court this morning, but despite that fact they were disposed of in short order.

There was a difference of opinion in the Fox family recently, and as a result Jacob Fox appeared, charged with using abusive language to his father.

After some consideration, however, the case was dismissed with a warning supplied gratis.

Walter Cooper, who is charged with two offences of theft, one of a photographic lens from Mr. Ed Saunders, and the other of a gold watch from Mr. French, was found guilty on both counts, and remanded a week for sentence.

Archie Clair, charged with being drunk, and a second charge of having indecent pictures in his possession, also appeared. The first charge was dismissed, but the second was upheld, and he was fined $3 or seven days. He decided to pay the fine.

Joseph Wenner, who was charged with having a vicious dog running at large, was another man to answer to his name this morning. The dog was ordered to be destroyed, and the case was then dismissed.

**The Dog Tax.**

Non-payment of the dog tax was once again a fruitful source of revenue. Ten persons appeared, charged with this offence. Three of these cases were adjourned, but the remainder each paid $1 and costs.

David Haskett, for being drunk and disorderly, was fined five dollars or ten days. Days were more plentiful than dollars with Haskett, so he decided that he could afford to spend a few in the hospitable shades of Castle Carter.

Fred Lyons was another victim of his own thirst, and Fred being an old offender, and having added disorderliness to his other failings, was given $10 or 21 days. He took the latter alternative.

George Venner was charged with being drunk, but being a stranger to the court, his case was dismissed.

**Mary, Quite Contrary.**

Mary Verner was drunk, but as it was not Mary's first appearnce, his worship did not think it a case for leniency, so she was given the conventional $10 or 21 days.

Mary Sproule, a sister in distress, met the same fate. They both took the days as the cheapest way of getting out of the difficulty.

Annie Jones appeared as a vagrant. She was remanded a week.

F. Matheson and Charles Armstrong, two first offenders, who were charged with being drunk, were allowed to go.

## BOYS HAD BIG TIME AT SWIMMING POOL

### Over 400 of the "Hope of the Nation" Take in the Last Day.

There was a busy day at the swimming pool this morning when it was open to the boys of the city for the last time. There were over 400 youngsters on the scene before the baths were opened. The greater part of the morning was given over to the competitions. It was arduous to say nothing of being damp work for those in charge. The effort to clear the bath for the different events was to say the least of it amusing. No sooner was one dripping youngster dragged out than half a dozen others would splash in. Efforts at discipline were resorted to, but when bereft of even the historic fig leaf, there is very little to differentiate one small urchin from another. At last some sort of order was arrived at, and the contests commenced, and the way the youngsters performed in the water reflects great credit on their instructor, Prof. Butterworth.

In the two length swimming race, there were forty contestants the winners being: 1, Leigh; 2, Kirk; 3, Davis. The one length swimming contest produced about 60 contestants, and of course had to be run in heats.

The winners of the final event were: 1, Hooper; 2, Hutchinson; 3, Brill.

The neat diving contest was participated in by 75 boys, and was judged by Prof. Butterworth. The contest was very close, the following being the winners: 1, Geo. Scott; 2, Hooper; 3, Davis.

Prof. Butterworth acted as starter, and Mr. Acheson Irwin and Sheriff Cameron as judges.

There were quite a number of citizens present among whom were Dr. H. Arnott, Rev. J. E. Perdue, Mr. A. T. Essery, ex-Ald. Armstrong and others.

After the contest was over, Mr. Yeo the proprietor, of the bath, provided handfuls of coppers for the youngsters to dive for, and some of them made quite a profitable thing of it.

## LORD ELLIOTT SUICIDES

**Had Acted Strangely Since His Return From Egypt.**

London, Aug. 25. — An inquest was held today into the death yesterday of Lord Elliot, eldest son of the Earl of St. Germans, who was found dead at Port Eliot, the family residence, from a gunshot wound. The verdict was that the young man committed suicide. He had acted strangely since his recent return from Egypt. Lord Elliot was born in 1885.

**ALMA'S NEW PRINCIPAL.**

Brantford, Aug. 24. — Miss Ella Bowes, of this city, has been offered, and is expected to accept, the lady principalship at Alma College, St. Thomas, and will also teach English, at the institution. She is highly qualified for such a post, and in this city has had wide experience as a teacher.

## QUAKE SHAKES ENTIRE PROVINCE

### Siena, Italy, Set Reeling by Great Seismic Disturbances.

### MANY HOUSES WRECKED

**Immense Damage Done in Italy by an Earthquake, But Small Loss of Life.**

Sieno, Italy, Aug. 25.—A heavy earthquake was felt throughout the province of Siena at 1:29 a.m. today. Practically all the houses in San Lorenzo were destroyed or badly damaged. Many persons were injured.

The quake was felt most severely within a radius of twenty miles from Siena. Considerable damage was done in Buonconvento. Several houses collapsed and one person was killed. Several persons were injured in Montenoni. A number of houses were also damaged and masonry fell into the streets.

The shock was recorded in Piombino on the coast about fifty miles southwest of Siena, at 1:25 a.m. and there was a repetition five minutes later. The people fled from their homes in terror, but no damage has been reported.

Siena itself escaped with a severe shaking.

The people were badly frightened, however, and rushed into the streets, where they wandered about in a state of semi-panic until they were assured that the quakes were over.

Siena province has an area of 1,476 square miles, and a population of 233,000. The city of Siena is at an altitude of 1,000 feet and counts 30,000 inhabitatnts. San Lorenzo, Buonconvento, Monterino and Piombino are villages, with populations ranging from 1,000 to 4,000.

## VIGILANCE BAND FOR MONTREAL JEWS

### A Prominent Hebrew Merchant Proposes to Meet Force With Force.

Montreal, Aug. 25.—There is a diversion of opinion among the Jewish citizens of Montreal. Mr. Rosenberger, of the Eagle Publishing Company, heads one side, while numerous prominent Jewish merchants are on the other. Mr. Rosenberger and his supporters have come to the conclusion that conditions here are such that they must organize to protect themselves.

"I am organizing a band of 500 men to act as a vigilance committee," said Mr. Rosenberger. "Our motto is: 'Loyal to Great Britain and defence of our own nation.'

"The trouble of Monday was but the climax to a long series of insults which French-Canadians have put upon our race. Wherever we go young rowdies cry at us. Our women and children are insulted, and our old men, who believe in following the customs of their fathers, are attacked.

"On Fletcher's Field and Lafontaine Park there have been many cases of respectable Jews being attacked. Still the police do nothing. They are French, and think it a great joke. There is never talk of bettering this condition of affairs at the city hall, because the French are in power there. We must take the matter into our own hands and unite against these French-Canadian toughs.

"We are not a fighting people, but we can defend ourselves if we must. Already 150 young men have joined my corps. I myself will lead them. Five hundred volunteers will easily be raised. We will fight with the Britishers' own weapons, our fists, and it will not be long before the cowardly insulters of the helpless will be silenced. Our band will be divided up into sections of twenty, to watch the streets continually, and Lafontaine Park on Saturday afternoon will be very heavily patrolled."

A Mr. Cohen, who had been conversing with other leading merchants, said: "I would be very sorry to see any vigilance committee of any kind formed to look after Jewish interests in Montreal, where we are under the British flag, the symbol of justice, liberty and freedom. The majority of responsible, influential Jews in this city will never countenance Mr. Rosenberger's move. I prefer to believe that the attacks on Jews do not indicate any feeling of hatred between the French people and ourselves, but are perpetrated by a few irresponsible rowdies."

## A $500,000 COMPANY FOR MAPLE CITY

### A New Enterprise Floated the Other Day—Gathering of the Foresters.

[Special to The Advertiser.]

Chatham, Aug. 24.—A new company, with a capital of half a million dollars, was floated the other day, to be named the Gray-Campbell Company, with its headquarters in Moose Jaw, Sask. Manson Campbell, of the Manson Campbell Company, Limited, and Robt. Gray, of Wm. Gray, Sons & Co., Limited, will be the heads of the new concern, the object of which will be to handle the business of both the above-named companies in Saskatchewan, etc.

Mr. and Mrs. George James, of Toronto, who are well known here, are in the city.

John Wood, a brakeman on the C., W. and L. E., sustained scalp wounds and bruises yesterday through being thrown from a car at Charing Cross.

J. A. Griffith, of 41 Emma street, was all smiles yesterday—it's a girl.

The wrong man was brought up in police court yesterday in regard to an information filed against a Wabash train for blocking a crossing. The information was incorrectly served against Conductor Wesley Savage, instead of his brother, J. B. Savage, of Windsor. Accordingly Wesley was dismissed and J. B. will have to appear.

At the council meeting on Monday evening Ald. Brackin moved that the franchise of the gas company be declared forfeited, as they had not supplied purified gas in the terms thereof. The resolution was withdrawn upon the company's solicitor, J. G Kerr, announcing that they would have a new proposition to submit to the next meeting of the council. A bylaw was passed imposing a license fee of $50 (and $5 for a transfer) on every laundry in the city. Some considerable discussion took place.

John Urquhart, of Winnipeg, an old Chathamite, is spending a holiday here.

**Welcome to Foresters.**

The city presented an extraordinarily festive appearance yesterday on the occasion of the gathering of nearly 500 delegates for the assembling of the High Court of Ontario of the Independent Order of Foresters. The Hotel Sanita is the headquarters at present and all the city hotels deserve credit for accommodating the visitors so well as they have done. It is considered that when the formal elections take place today the Rev. Dean Davis, of London, will be unanimously elected H. C. R.

The present session is the 32nd annual one of the order, and they convened in the I. O. O. F. auditorium yesterday at 10 o'clock. Throughout the day the possessors of automobiles in Chatham generously placed their machines at the disposal of the visitors. In the evening a band concert took place in the park, followed by a most enjoyable dance in the armories. It is considered that in the elections today the office of H. V. C. R. may fall to Bro. G. W. Wands, D. S. C. R., of Chatham.

Miss Gertrude Kendall, of Richmond street, who was taken ill on Saturday last, is progressing favorably.

## STORM DESTROYS PART OF CROPS

Baldur, Man., Aug. 24. — A severe wind, hail and rain storm occurred north of Baldur last evening, beginning at Grund and ending at Greenway, sweeping all the standing crop, and breaking windows on the north and west sides of the houses.

Ash Creek rose five feet and the surrounding fields were flooded.

Several teams of horses ran away, being stampeded by the fury of the storm.

## STR. COLLINGWOOD RAMMED, SUNK

### A Canadian Freighter Goes to Bottom Off Fort Wayne.

### THE CREW MAKE ESCAPE

**Steering Gear Out of Order Said to Have Caused the Accident.**

Detroit, Aug. 25.—The freight steamer Collingwood, owned by the Farrar Transportation Company, of Collingwood, Ont., was struck by the steamer George L. Craig, in the river channel off Fort Wayne, about 7:45 o'clock last night, and sank about 10 minutes later. The crew of 22 men, part of whom were in their berths at the time of the collision, escaped in small boats. The steamer is lying in about 25 feet of water with the forecastle and after-cabin just above the surface of the water.

This is the second accident that the Craig has been in this season, she having sunk the steamer Cadillac at the Soo about three weeks ago.

The Collingwood is of 3,285 gross tons and is 380 feet long. Immediately after the collision the Craig floated on down the river with a damaged prow. The damage did not extend far enough below the water line to allow the hold to fill faster than the pumps could remove the water.

Capt. Frank Bassett, of the Collingwood, claims that the stearing machinery of the Craig got out of order and the wheelsman could not direct the vessel away from the Collingwood.

"I was proceeding up the river and signalled for the starboard side," said Bassett. "The Craig also signalled for the starboard and I answered for the starboard again. I thought we would get past when the Craig suddenly came obliquely at us and struck a glancing blow just abaft the middle. As soon as we struck I headed the boat for the American shore in the effort to beach it before she went down."

**Struck Small Dock.**

As the Collingwood neared shore, the outline of the beach, because of its low character, could not be plainly seen and the steamer struck the small dock near Fort Wayne, knocking off a portion of the east end. The engine was reversed, and pulled the boat out into the river about 300 feet, where she filled and settled to the bottom.

The Craig was proceeding only at a fair rate of speed or the Collingwood would have been damaged worse.

The Collingwood was practically a new boat, having been built in 1907. She was proceeding from Lorain, O., to Fort William, Ont., with a cargo of soft coal.

The Craig is 370 feet long, 50 feet beam, and is of 3,762 gross tons. She was built in 1903 and is owned by the Monroe Transportation Company, of which John I. Adams, of Detroit, is president.

The noise produced by the collision was like a cannon, and hundreds of people living on the American shore thought at first that something had blown up at the fort. Several young men who arrived on the scene stripped off their clothes, and plunging into the black waters of the river, swam out to the ship to perform any service they could.

The Craig was not badly damaged and on reaching Smith's coal dock, near River Rouge, dropped anchor. The boat was in no danger of sinking last night, and it was thought that by keeping the pumps going she would stay afloat until preparations could be made for repairs.

## LATE R. M. HANNON

**Funeral Was Held Yesterday to Mount Pleasant Cemetery.**

The funeral of Mr. Robert M. Hannon, of Edmonton, who died in Victoria Hospital, was held yesterday afternoon at 2:30 from the residence of Rev. F. E. Malott, 709 Colborne street, to the Mount Pleasant Cemetery.

The service was conducted by Rev. James Kennedy, assisted by Rev. W. C. Beer, of this city, and Rev. A. L. Russell, of Lambeth.

The pallbearers were Messrs. J. H. Chapman, A. Screaton, J. B. Smallman, Charles Glass, J. R. Chapman and W. F. Berry.

The late Mr. Hannon was on a visit to his parents, Rev. Dr. and Mrs. Hannon when he was taken ill from the results of a fever, contracted during surveying operations near Edmonton. Mr. Hannon was an honor graduate of Toronto University, and a graduate of the Regina Normal School, and at the time of his death held the position of Government selector and surveyor of roads.

## HIGH TYPE OF MAN

**He Lived in America Thousands of Years Ago, Says Explorer.**

Port Townsend, Wash., Aug. 24.—News is brought by the United States revenue cutter Tahoma, which reached Puget Sound today after steaming around the world, from Baltimore, that a party of ethnologists, headed by Dr. Waldemar Yochelson, a noted Russian explorer, encountered at the Island of Attul in the Aleutian archipelago, has discovered skulls and relics that would establish the records of population of northwestern North America during prehistoric ages.

Dr. Yochelson said that thousands of years ago the highest type of humanity in the new world existed in the north.

## KING HARRIMAN TALKS OF PLANS

### Says He Is Going for Development of Lines Tributary to His.

New York, Aug. 24.—E. H. Harriman arrived from Europe today.

To the newspaper men Mr. Harriman said that the statement which he gave out before he left for Europe was applicable now.

The railroad man declared that his raising of the Union Pacific and Southern Pacific dividends had now been justified before the public. He had nothing in mind at present, he said, in regard to a segregation of Union Pacific assets, extra dividends or speculation. The funds that were at his disposal were to be used in the developing of territory tributary to the Harriman roads, and in opening up new territory.

"It is reported," said one of the questioners, "that you and your friends have bought the Vanderbilt holdings in the New York Central."

"I would not tell you if I had," replied the little man with just the semblance of a smile playing around the corners of his mouth. "That was a quick one, wasn't it?" he said.

"I was afraid that when I got home," Mr. Harriman went on, "that I would have to deal altogether with officeholders instead of stockholders—they are enacting so many new laws."

"Do you refer to the corporation tax?"

"Yes, that's one. I think that every new law ought to be enacted to take the place of some old one. Every one creates new officeholders, and the Government is getting bigger and bigger."

Mr. Harriman reverted to the subject of segregation of Union Pacific assets.

"There is nothing in mind," he said, "about segregation, extra dividends or speculation. The only thing in my mind is the development and improvment of the lines we have under charge and to take advantage of the prosperity, which will enable this to be done more thoroughly or I should say, more quickly, than it otherwise could be done."

"Do you mean that you are going to put further money into the development of your roads" was asked.

"The money," replied Mr. Harriman, "is going into the development of the tributaries to the road, and the development of new territories. The lines may not pay for a while, but we are going to devote our time and attention to such development work as we think will be for the best interest of all."

## THE HIGH COURT A. O. F. GATHERED AT SARNIA

### The Annual Convention Opened at the Tunnel City on Tuesday.

Sarnia, Aug. 24. — High court officers and delegates from all parts of Canada, to the number of about one hundred and fifty, arrived in town during yesterday and last night, to attend the convention of the high court of the Ancient Order of Foresters, which commenced its sessions at 9 o'clock this morning.

The streets, stores and homes have been prettily decorated for the occasion with flags and bunting, and the town presents a gala day appearance.

At the close of the afternoon's session a grand street parade was given by the visiting Foresters and local lodges of the A. O. F., headed by the Sarnia Concert Band.

Immediately after the procession the Foresters and their hosts were conveyed by special electric service to the popular resort, Lake Huron Park, beautifully situated on the shores of Lake Huron, some three miles to the north of the town.

During the evening the visitors were entertained by the local lodges of the A. O. F. at a banquet held in the large and commodious pavilion at Lake Huron Park.

## RATE-MAKING POWER

**A Permanent Injunction Against the Interstate Commerce Commission.**

Chicago, Aug. 24.—Manufacturers and producers generally of the territory lying between Buffalo, Pittsburg and Parkersburg on the east, and the Mississipi River on the west, are regarded as the greatest beneficiaries by the majority decision of the United States circuit court today permanetly enjoining the interstate commerce commission from enforcing its seaboard and Missouri River through rate in the famous Missouri River rate case.

The opinion of Judges Grosscup and Kohlsaat (Judge Baker dissenting) if sustained by the supreme court of the United States, will greatly curtail the power of the commission over transportation rates, restricting it to a sort of police court adjudication of specific cases of alleged discrimination. The ratemaking power remains in the hands of the railroads.

The Missouri River cities which would have profited had the commission's order been allowed to go into effect will be benefited by the court's ruling in the Denver rate case, in which a temporary restraining order was issued today.

This case and the Missouri River case are similar in principle, the Denver case concerning the commission's order of a new and reduced through rate between Chicago and St. Louis to Denver.

## An Opportunity to Buy Silk

### 85c Black Peau de Soie at 65c Yard

740 yards should make brisk selling for a day or two at least, at this price. This lot was a little clearing line our buyer picked up from a manufacturer when in France. 740 yards seems quite a number, but if measured by the value, the quantity is insignificant, as a saving of 20c a yard on an 85c Plain Black Peau de Soie Silk is not an everyday occurrence, but a chance that might not come your way in many seasons. Some Silks are not a bargain at any price, but we wish to emphasize that this is a Silk that we recommended for lasting and satisfactory wear, and the value is the kind that plainly demonstrates the buying power of this store. 20 inches wide, Black Silk, suitable for dresses, skirts, waists or coats, 85c quality, 740 yards. # SPANISH GENERALS ARE SLOW TO MOVE

## An Army of Thirty Thousand Hurriedly Concentrated, Now Lies Idle.

Melilla, Morocco, Aug. 25. — The present situation of the army of 35,000 men sent over to Africa by Spain to advance against the Moors, is causing widespread and great discontent.

Owing to the lack of proper transport for water and supplies, as well as for strategical reasons, any advance is impossible for a fortnight or more. The commanding generals seem in no hurry to move.

Spain made every effort quickly to concentrate this army, and now that her soldiers are here they are cooped up in unhealthy camps, and if they do not move soon, they probably will be decimated by an outbreak of disease.

The soldiers are discontented at the delay, officers and soldiers alike detest the conditions, and are anxious to return home.

## NO CLASH AT THE DEFENSE CONFERENCE

London, Aug. 25. — Premier Morris, prior to sailing for Newfoundland, said that the imperial defence conference had been a wonderful success. It would be regarded by the historian as the most effective step taken in our day to preserve the peace of the world by maintaining England mistress of the seas. During the conference there had not been a discordant note.

"Every British colony was anxious to share the burdens and responsibility of the empire, and contribute to a central fund for the maintenance of the whole family. They do not want their lives, trade and liberty any longer to be protected by the British 'tar' and soldier without contributing to the maintenance of both by sharing in the work of both."

### OFF TO MONGOLIA.

Toronto, Aug. 24. — Miss Grace Fortham, connected with the East End Mission, in this city, left last night for Northern Mongolia, where she will become a missionary. She will go first to Japan and thence will travel by water and rail, by ox cart to reach her destination in the isolated region of the Lena River, in the extreme northern para of Mongolia. Here she will join Mr. and Mrs. Thomas Hindle, who went from this mission last winter.

### OTTAWA.

SCULPTURAL COMPETITION OF DESIGNS FOR TWO MONUMENTS.

1. Competitive designs are invited for two monuments, one to the memory of the late Honorable George Brown, and the other to the memory of the late Honorable Thomas D'Arcy McGee.

2. Each monument is not when completed and in position, to cost more than ten thousand dollars, including pedestal from the level of the ground.

3. The competition is open only to artists resident in Canada, and artists of Canadian birth residing elsewhere.

4. The site will be at a point in the government property at Ottawa, to be hereafter decided.

5. Designs shall be in the form of sketch-models, in plaster, made at a uniform scale of one and one-half inches to the foot. A description of the design shall accompany each model. No name, motto or other distinctive device is to be attached to the models or description. The competitor shall send his name in a sealed envelope without distinctive mark thereon.

6. The author of the best designs will be awarded the commission on the work, the second best $500, and the third best $300.

7. The models and all communications regarding this matter shall be addressed to

Advisory Art Council,
Care of Department of Public Works,
Ottawa, Canada.

The designs must be delivered before the 1st day of February, 1910. They will be kept from public view until the reward has been made. All expenses of delivering the sketch-models and accompanying descriptions shall be paid by the competitors. Sketch-models will, after the award at the expense of the department, be returned upon the request of competitors, but at the risk of the competitors.

Notice of the award will be sent to each competitor.

The award will only be binding provided the successful competitor is prepared to furnish satisfactory evidence, with security, if demanded, that he can execute the work for the sum mentioned above.

By order,
NAPOLEON TESSIER.
Secretary.
Department of Public Works,
Ottawa, August 17, 1909.
Newspapers will not be paid for this advertisement if they insert it without authority from the department. 54c

# THE I.O.F. HIGH COURT AT THE MAPLE CITY

## Probable That Rev. Dean Davis Will Be Elected High Chief Ranger.

Chatham, Aug. 24. — At the 32nd annual meeting of the high court of Western Ontario, Independent Order of Foresters, which was opened here at 10 o'clock this morning by Robert H. Foster, H. C. R., of Hamilton, there are about four hundred and fifty delegates present, forty being from the Hamilton district, and much interest is being taken in the business that is to come forward. The local Foresters and the citizens of Chatham have arranged a delightful programme of entertainment for the delegates.

The reports of the chief executive officers are in printed pamphlet form. Robt. H. Foster, H.C.R., reports that 940 members joined in this high court jurisdiction during the year, 102 candidates were rejected, and 104 members died. For the best presentation of the ritualistic work, the guard of honor of Court Oronhyatekha of Hamilton was awarded by the H. C. R., the first prize of $50; Dresden, second prize, and Sarnia third prize.

The high secretary, Dr. W. A. Henderson, Sarnia, reported 326 courts with a membership of 19,479. His report is principally in tabulated form, and is prepared with great care and accuracy. The high treasurer, William McAndrew, Hamilton, reported $8,100 54 on hand, with no outstanding liabilities. The high chief ranger and the auditors spoke very highly of his year's work.

Harry T. Drope, Hamilton, was mentioned in the reports for his creditable work as D. S. C. R. and organizer for the Hamilton district.

The election of officers will take place tomorrow afternoon. In all probability the Very Rev. Dean Davis, London, will be the next high chief ranger by acclamation. There is a hot election contest on for the office of high treasurer. The present incumbent is being opposed by John H. Hambly, of London.

Several delegates are trying for the position of high auditor, among whom is E. O. Zimmerman, Hamilton. It is expected that J. W. Sheppard, Cayuga, will be re-elected as one of the auditors, but at this moment it would be impossible to guess who will be the other. George W. Wands, Chatham, will be the high vice-chief ranger.

Hamilton is likely to get the next meeting of the high court in 1910. Mayor McLaren forwarded an invitation, which was read this morning. The delegates are circulating nicely printed invitations and urging their acceptance of the invitation. Hamilton is well represented on the standing committees. John Peebles is chairman of the finance committee; C. C. Baird, chairman of appeals and petitions; George O. Elder, a member of the state of the order committee; E. O. Zimmerman, the next place of meeting; H. E. Elmer, railway certificates; Charles Tregenza and David Binney, mileage and per diem, and H. T. Drope, press committee.

The supreme chief ranger, Elliott G. Stevenson, will be in attendance or Wednesday.

Mayor Westman, G. W. Sulman, M. P. P., and A. B. McCoig, M. P., delivered addresses of welcome this afternoon, after which the delegates were taken in autos around the city. This was followed by the high court degrees.

In the evening there was a parade and a band concert in Tecumseh Park, after which a grand ball was held in the armories.

A well-contested ball game, between Highgate and Kent Mills, ended in favor of the Chatham boys yesterday afternoon by 3 to 1.

## MISSIONARY SHIP LOST

Boston, Aug. 24. — The loss of the missionary steamer, Hiram Bingham, and the death of her master, Captain Alfred C. Walkup, were reported in a cablegram from Sydney, N. S., which was received by the American board of commissioners for foreign missions, today. The cablegram gave no details of the disaster, and did not state when or where it occurred.

The Hiram Bingham sailed from San Francisco on Nov. 10, 1908, and after visiting Honolulu, proceeded to the Gilbert Islands. She was last heard from on March 25, when she was at Ocean Island, one of the Gilbert group.

## THE OWEN SOUND HOTELS APPEAL

### Another Effort to Quash the Local Option Bylaw Is Being Made.

Toronto, Aug. 25. — Acting for W. H. Sinclair, of Owen Sound, J. B. Mackenzie will ask at Osgoode Hall for a declaration that the bylaw to repeal the local option bylaw in Owen Sound was not submitted on valid grounds, and also for a declaration that the local option bylaw itself was not valid because it was submitted on a public holiday. Such a ground would not hold under the present act, but Mr. Mackenzie says that the present act was not in force at the time the local option vote was taken in Owen Sound. As to the bylaw repealing local option, it was defeated and local option continued, hence Mr. Sinclair's present action, which is to begin in the form of a writ.

## CRUSHED TO DEATH UNDER PILE OF LOGS

### Little Girl Meets Tragic Fate on Farm Near Listowel.

Listowel, Aug. 25. — Little Edna Kopas, the 5-year-old daughter of Mr. Peter Kopas, a well known farmer of this district, was crushed to death yesterday beneath a pile of logs. With other children of the family she was playing on the logs when they became dislodged in some manner and she was caught and carried down to her death.

### TORONTO GAMBLING CASES.

Toronto, Aug. 24.—In the police court this afternoon H. McCarten, of Queen's street east, and George Hall, were acquitted on charges of keeping gaming houses. While James Greenwood, of 1340 Queen street east, was convicted on a similar charge, as in the case of all the others convicted, a reserved case was granted Greenwood.

### A TORONTO BLAZE.

Toronto, Aug. 24. — Fire of unknown origin tonight did damage to the extent of $4,000 to $5,000 in the clothing store of Geo. W. Crosby, 167 King street. The loss is covered by insurance.

## FOSTER RIGHT FOR ONCE.

The available reports of Mr. Foster' speech at Halifax last night do not indicate that he has changed front on the question of defence. He renewed his plea for Canadian-built ships and a Canadian fleet, as consistent with the ideal of one navy for the Empire. Even Mr. Foster's art in equivocation could not refine away his clear-cut statement in the House of Commons five months ago. There could be no more convincing argument for the policy which Canada intends to pursue. Yet today several prominent newspapers are denouncing the spirit and letter of the resolution unanimously approved by the House of Commons, and endeavoring to create a party issue. The Winnipeg Telegram, for instance, says the resolution "did not begin to represent all that the Conservative members wanted, but it did represent all that they could get." It professes to believe that the Opposition "sanctioned an expression of opinion which only partially met their views" for the sake of unanimity. The resolution, adds the Telegram, "did not preclude the direct contribution of battleships," and it goes on to advocate a centralized navy.

All this is an utter perversion of Mr. Foster's declaration, as the official spokesman of the Opposition. He pointed out that Canada was not in a position to build Dreadnoughts, and could only supply them by means of an annual fixed contribution of money to the British Government. He went on to say:

"The first and greatest objection which I have to a fixed money contribution is that it bears the aspect of hiring somebody else to do what we ourselves ought to do; as though a man, the father of a family, in lusty health and strength, should pay his neighbor something per month for looking after the welfare and safety of his home, instead of doing that duty himself. That seems to me, when you work it out, to be a basic objection to that form of aid. It goes further than that. Suppose you contribute this year your sum, and next year your equal sum, and thereafter year by year. After ten or twelve, or twenty or thirty years, you will have paid out an immense amount of money. You will have been protected in the meantime; but in Canada itself there will be no roots struck, there will be no residue left, there will be no preparation of the soil, or beginning of the growth of the product. Yet some time or other, as true as we live to be a people with a population constantly increasing, we must actually have in this country a naval force of our own for coast and home defence."

Nothing could be clearer and more cogent. It is an absolute affirmation of the policy of local naval development, as a contribution to imperial defence. It is vain for any Canadian newspapers to endeavor to make party capital of an issue upon which above all others there should be unanimity. The Opposition in a moment of wisdom placed itself fairly and squarely upon record, and stands irrevocably pledged to the ideal which the Government is now about to translate into actual achievement.

## GERMAN-CANADIAN TRADE RELATIONS.

An organization known as the German-Canadian Economic Association has been formed in Germany with the object of ending the commercial friction between Germany and Canada, beginning twelve years ago. The quarrel was not of Canada's seeking. Germany invited it by attempting to punish the Dominion for giving favors to the Mother Country. The surtax with which Canada retaliated was an act of national self-respect. The Dominion Government has all along been willing to do its part towards effecting a reconciliation in so far as is consistent with the British preference. Any overtures which the Berlin Government may make looking to an ending of the differences will be received at Ottawa in the proper spirit.

The efforts of the association will be directed in the first place towards improving the conditions under which trade between the two countries is at present carried on. It will also endeavor to develop and direct into new paths the business relations of the two peoples. Already the association has been instrumental in bringing German and Canadian business houses into closer relations, its efforts receiving encouragement from such important transportation interests as the Canadian Pacific Railway Company and the Hamburg-American steamship line, besides large banking concerns. The association, which is headed by a member of the Reichstag as president, includes in its membership representatives of many prominent business houses, manufacturers, economic bodies, importers and exporters, and invites the co-operation of both Canadian and German businessmen and commercial bodies.

The restoration of friendly commercial relations would be of benefit to both countries. In 1907, Germany imported agricultural implements of the value of $5,750,000; animal products, $76,000,000; butter, $20,000,000; cheese, $7,000,000; eggs, $37,000,000; apples, $7,500,000; asbestos, $1,250,000; bran, $37,500,000; breadstuffs, $189,500,000; fish, $16,000,000; hides, skins and furs, $78,000,000; leather, $13,500,000; oil cake, $23,500,000; seeds, $11,250,000, and wool, $64,600,000. Of these vast imports Canada contributed only $2,080,000 worth, made up as follows: Wheat, bran, etc., $620,000; fish, lobsters, etc., $135,000; agricultural implements, $800,000; seeds, $270,000 and lumber, $280,000. German products to the value of $8,163,047 found a market in Canada last year, but since the surtax was imposed ten years ago there has been no increase in the imports from the German Empire. The new movement may be taken as evidence that the shoe is pinching.

## BONUS TO IRISH LANDLORDS.

The Irish land bill was subjected to a good deal of criticism in the committee stage in the House of Commons. Perhaps the most contentious clause is that dealing with the bonus payable to landlords on advances for enabling the purchase of holdings to be effected. The object of the bonus has been neatly explained as being "to bridge over the gap between the price the tenant can afford to pay and the price at which the owner can afford to sell." Under the land act of 1903 the payment was fixed at a uniform rate of 12 per cent. The present bill proposes to substitute for that fixed percentage a sliding scale based upon the number of years' purchase represented by the advance. Where the number is under 17 the bonus will be 16 per cent, and it diminishes as the number of years increases, until at purchases between 24 and 25 years it becomes 3 per cent, while it vanishes entirely in the case of 25 years' purchase.

The Unionists contend that the effect of this proposal would be to lead to a demand on the part of landlords for higher prices, and consequently produce an inevitable and immediate cessation of land purchase. On the other hand, the Nationalists hold that graduation is infinitely preferable to a fixed rate, but they consider that the Government's scale reduces the bonus below what is reasonable.

Replying for the Government, Chief Secretary Birrell said that although the proposed scale might not be perfect in every particular, the burden which it imposed upon the taxpayer was quite heavy enough. The bonus he described as "the very pulse of the machine." There can be no doubt that the time has come to accelerate land purchase, and the Government feels satisfied that a graduated bonus ought to have a far better result than the old one. Unionists sneer at the measure as "a treasury protection bill"; but the fact that it assumes millions upon millions of responsibility for not a penny of which the treasury is at present responsible shows how utterly lacking in support is that contention. It is not a question with the Government of a million more or less, but of a righteous and proper system of working out the proposals. It was a leap in the dark, Mr. Birrell declared, to say what the bonus on land purcaase would be in the future, but the amount could be limited and need not excite alarm.

---

Will the Ottawa Opposition back water on the navy question?

---

The airship is still as delicate as a watch. It will be a long time before it will be necessary to throw the British navy on the junk-pile.

---

Winnipeg is honored by the meeting of the British Association. British scientists have led the world in the discovery of first principles and have perhaps done more in the last century to improve the lot of mankind than even British statesmen.

---

The story that the Dominion Government had abandoned its efforts to secure cheaper cable rates is officially denied. However, it was worth columns of space to Opposition newspapers at a season when real news is dull.

---

The woman suffrage movement in the United States as in England is entering upon a new stage, through an alliance with wealth and "society." It has found an ardent disciple in Mrs. Oliver H. P. Belmont, one of the leaders of fashion. In Great Britain, the militant suffragettes are nearly all women of means and social position, and this counts for a great deal, especially in the old land where each class tries to take its tone from the one just above it.

### HER HOPE.
[Tit-Bits.]

"This play in its intensity," said the go-out-between-the-acts young man, "fairly takes my breath away."

"I only wished it would!" gloomily remarked the lady in the next seat.

### EULOGY OF THE BUDGET.
[Herbert Samuel, M.P., at Hull.]

This budget is not only a great scheme of finance, it is the expression and the instrument of the Liberal policy of social reform; it is a vital part of the great policy which is the chief work in politics of our day and generation. There is marching a great upward movement of the people—a movement for social reform. The masses are not content to go on living in drudgery, without happiness and without hope, with an untaught childhood, with precarious employment, and with old age threatening destitution. There is a conscious, deliberate, and a very healthy movement of the people not only here but throughout the civilized world, towards better conditions. Let us, too, share in the good things of life and in the great things of life. (Cheers). There are many of the wealthy classes, moved by religious and other motives, anxious to support this claim. In the slow but steady upward march this budget now before the nation is a stage. It is there, and has its great signification—(hear, hear)—and it is a chief claim upon your support." (Loud cheers).

### ENCOURAGING.
[Figaro.]

"Tell me, frankly, sir, what do you think of my daughter's voice?"

"Well, madam, I think she may have a brilliant future in water-color painting."

### QUICK REPLY.
[Chicago News.]

Jack—"Reginald was sorely in need of a summer suit, so he sent a distress message to his tailor 'C. Q. D.'"

Eva—"And did he get a reply?"

Jack—"Yes, C. O. D."

### IN THE SIDESHOW.
[Tit-Bits.]

Wild Man—Yes, the two midgets are going to be married. He calls her his peach, and she calls him the apple of her eye.

Glass Eater—H'm! I suppose they will soon be a dwarf pear.

### MATRIMONIAL RULE.
[Baltimore Labor Leader.]

No girl should marry a man until she knows all about him—then she won't want to marry him.

### SUCCESSFUL.
[Baltimore American.]

"I started out on the theory that the world had an opening for me, and I went to find it."

"Did you find it?"

"Oh, yes, I'm in a hole."

### KEEPING HIM GUESSING.
[Mobile Register.]

Tim—"Would you scream if I kissed you?"

Tessie—"I suppose you flatter yourself that I'd be speechless with joy!"

### LAST HOPE.
[Meggendorfer Blaetter.]

Mistress—"You can throw it out of pot doing on the corner shelf, cook."

Cook—"It belongs to a man who worked here four years ago."

Mistress—"You can throw it out of the window."

Cook—"Please not, mistress; it is all I have to remember him by."

### VALUABLE INFORMATION.
[Fliegende Blaetter.]

A—"I used a word in speaking to my wife which offended her sorely a week ago. She has not spoken a syllable to me since."

B—"Would you mind tell me what it was?"

### AN AWFUL REVENGE.
[Meggendorfer Blaetter.]

"Why do you play before the jail for an hour every day. The prisoners don't give you anything."

Hurdygurdist—"I only play for one of them. He has a grudge against the jailer and he paid me thirty days in advance before he went in."

### THE DIFFICULTY.
[Chicago News.]

"Oh, dear!" sighed her husband's wife. "I can't find a pin anywhere. I wonder where all the pins go to, anyway?"

"That's a difficult question to answer," replied his wife's husband, "because they are always pointed in one direction and headed another."

### THE ONLY WAY.
[Boston Transcript.]

"We all make blunders. I thought once I was a square peg when I was really a rund one."

"How did you find out your mistake?"

"I got into a hole!"

### STUCK.
[Chicago News.]

Gunner—"Why in the world to the fellows around this club allude to old Foggman as 'Mr. Automobile'? He's not swift, is he?"

Guyer—"Just the opposite. It's a polite way of calling him old 'Stick in the Mud.'"

### PHYSICAL EXERCISE.
[Ottawa Journal.]

The time will come when systematic physical exercise will be as much a part of school hours in all civilized nations as book learning.

### ANYTHING TO AMUSE.
[Fliegende Blaetter.]

Fat Man—What! Are you going to let the small boy shave me?

Barber—Let the boy have his fun for once. It's his birthday, sir.

### GOOD FOR THE LAWYERS.
[Detroit News.]

Thaw spent $200,000 to save his neck by proving that he was crazy, and now he is spending an equal amount to prove that he is sane. Meanwhile the public is supporting him in an asylum, and the lawyers are fattening on the estate.

### BARGAIN GOODS.
[Lowell Courier-Citizen.]

The new battleship Maine is to be laid up in dry dock for $500,000 in repairs. A battleship wears about as well as a 90-cent parasol.

### LOST CONTROL.
[Puck.]

"Did Jones lose control of his auto?"

"Completely; the cook uses it all the time."

### A MISTAKE OF JUDGMENT.
[Judge.]

Tenderfoot—"It's my intention to be a cowboy."

Cow-puncher—"Come out ter be a cowboy, eh? Well, I reckon you'd make a better milkmaid."

### PAT'S APPRECIATION.
[Philadelphia Inquirer.]

An artist had finished a landscape; on looking up, he beheld an Irish navvy gazing at his canvas. "Well," said the artist, familiarly, 'do you suppose you could make a picture like that?"

The Irishman mopped his forehead a moment. "Sure, a man c'n do anything if he's druv to ut," he replied.

## INTERNATIONAL CUP GOES TO CANADIANS

**Second International Cricket Match Is Won by Dominion Players.**

Montreal, Aug. 24.—Canada won the annual international cricket match completed here this afternoon by 143 runs. The match was scheduled for a three-day affair, but the low scoring of the two innings enabled the game to be finished in good time on the second day and most of the United States players left for their homes this evening.

Going to the wicket first, Canada put together 156 runs for their first inning, responded to by the American side with 85. Going in a second time the Canadians compiled 194 and the United States 122. The result is a win for the Canada as stated above.

**A Big Lead.**

Going into the second day's play with a comfortable lead, the Canadians soon became acquainted with the bowling of the opposing side, and though wickets fell for somewhat low scores at the outset, Wallace, Heygate and Ackland by free batting and hard hitting, carried the score over the century mark.

Heygate contributed the feature score of the whole match, a finely played 55. Barber, the captain of the Canadian side, hit freely for 33, and the side was eventually retired for 194.

**The First Wicket.**

The Americans lost their first wicket for eight runs, but with J. L. Evans and G. Bottomley batting things went rather better. Two wickets fell for 27 and three for 36. The biggest stand of the inning occurred before the fall of the fourth wicket, when 36 runs were put on. Finally Evans was caught by Evans off Baber's bowling for 42, which was the highest individual score made in the whole match by an American batsman.

W. M. Fellows, with 20, was the next highest contributor in the same inning.

## KETCHELL RAPIDLY LOSING STANDING

**Has Been Living Free and Rumor Says He Is in Worse Shape Than Ever.**

New York, Aug. 24.—That Stanley Ketchell is running grave chances of losing his reputation as a first-class pugilist is a growing impression among sporting men who are receiving inside information from California regarding the behavior of the Michigan lion and his erratic manager, Willus Britt. It appears that Ketchell has done no training since he whipped Jack O'Brien in Philadelphia last May, that he was in poor physical condition when he failed to stop Papke in twenty rounds and has been living at a high rate ever since.

It is admitted that Promoter Coffroth and Jack Johnson have been urging Ketchell to back out of the Langford bout at the Fairmount Club, Johnson informed Ketchell several days ago that he was foolish to risk defeat with Langford when he had a chance to share big receipts resulting from the mill with Johnson at Colma on Oct. 12.

Owen Moran has called off his proposed bout in England with Jem Driscoll and says he will come back to America ready to meet all comers in the feather and lightweight classes. An offer of a $15,000 purse was set aside for Moran and Driscoll who were signed for a twenty-round mill some time ago, but it appears that when they found it impossible to get more money this offer was withdrawn. Driscoll will return here in October.

## PLAYED THIRTEEN ROUNDS

**And Game Was Called for Darkness, With Greys and Royals Tied.**

Montreal, Aug. 24.—Providence and Montreal battled for thirteen innings today until darkness stopped the game with the score 3 to 3. Smith was taken out after he forced in two runs in the seventh, and Barry was batted out in the eighth. Two runs were scored after Barberich went in, while Wicker held Providence hitless till after two were out in the thirteenth. Score:

## BLERIOT REDUCES CURTISS' RECORD

**Goes Around Rheims Track in 31 1-5 Seconds Less Than American.**

Rheims, Aug. 25.—About 7 o'clock last evening Bleriot took out his 80-horsepower monoplane, and did a round of the course, six miles, in 8:04 2-5, averaging 74,318 kilometers, or nearly 46½ miles an hour.

It must be remembered in making computations that the aeroplane is only credited with travelling the actual distance of the track, about six miles, but it really covers considerably more, especially in rounding the four corners.

Curtiss made the distance yesterday in 8:35 3-5, so that Bleriot beat him by half an hour.

These 31 1-5 minutes cut from Curtiss' record pleases the French spectators mightily, but it is safe to say that Curtiss has not yet shown his highest speed. Previous to this the Frenchmen had been elated over the fact that French machines only faced the high winds during the President's visit, although it was only common sense for the Wright machine people not to take any chances with their biplanes, three of which hold the best time records in the speed race, so that they have no reason to try again until some one has beaten these times.

## TURF RESULTS

Fourth Race—Nimbus 4 to 5, Beaucoup 7 to 10, Norbitt out.

Fifth Race—Donald MacDonald 12 to 1, Fort Johnson 4 to 1, The Squire even.

Sixth Race—Ten Paces 3 to 1, Top Notch 5 to 2, Dixie Dixon 4 to 5.

## BARRY HAD BEST OF JACK BURNS

**No Decision, But Winner Was Easily the Better in Tame Bout.**

Los Angeles, Aug. 25.—Jim Barry had the best of a tame ten-round fight with Jack Burns at the Pacific Athletic Club Arena last night. No decision was given from the ring.

Barry sent Burns to the floor in both the second and the sixth rounds, with right swings, and at times showed flashes of his former speed, but for the most part the rounds were devoid of anything like good or rapid fighting, and were replete with clinches and foot-racing.

In the tenth Barry went after his man, and had him in distress at the end of the fight.

Before the fight started the winner was publicly promised a fight with Jack Johnson, heavyweight champion, in this city at some date during the latter part of September.

The decision of the sporting writers the morning papers today will determine which of the two will fight Johnson Barry probably will be chosen.

# The Man From the West

BY EVERETT GREEN,

Author of "The Marriage of Marcia," "Lady Elizabeth and the Juggernaut," etc.

Val grinned; he felt sympathy with this lad, and with the fashion in which he bracketed his last two words together.

"Well, we'll think of it," he said. "Mebbe there'll be some spare boodle out yonder for you to rope in. I might do worse than take you along. We'll think of all that later, when I've seen what you're worth this next little show."

"Tell me what I've got to do," cried Bosh, his eyes all aglow, "and see if I won't do it for all I'm worth."

"All right; it may be you'll only have to sit tight and watch. The way things pan out we've yet to see. I suppose you've not heard that there's a chap over here come to see if he can't prove that he's Lord Cotswold, and oust our friend from his snug little berth?"

The lad's face was at once all eagerness and excitement.

"I say, though! I thought it was all bunkum when some fellow in Basset Hatch said that there was a runaway son of the old man who might turn up any day. You don't mean he's come! I say, what a chouse!"

"Oh, so the whisper is getting about already, is it? I wonder, now, who started that. Well, it's just here, sonny. There was an elder son who ran away to America years ago and died—that seems to be known and proved. What isn't so clear (by what I make out) is whether he died unmarried, or whether he left a son, who would, of course, be Lord Cotswold, provided the marriage was lawful."

"Oh, I say, and do you think——"

"I don't think anything at present, except that the fellow who has come over professing to be Anthony Gaskell is a good many kinds of a skunk. It was his car that pitched Cotswold into Kingdom Come for all he cared—and I'm of opinion that he was in it himself. That's what I want you for so particular. I'm on the trail of this would-be my lord. I'm goin' to nose him down and take stock of him. You'll know if he was in the car that day; you say you saw some fellow rampin' round over them punctured tyres——"

"Of course I did. I gave a good look at all of them. There was the driver, looking pretty sick at the tyres; there was a bearded fellow swearing like a trooper; and there was a female, all muffled up like a guy—same as they always are—but she'd got her veil pushed away and I saw her face all right. I'd know any of those three again."

"Well, it's this way; I know the name of Anthony Gaskell. I've run up against that fellow somewhere, but I can't just say where and when. That's what I want to remember. And when I set eyes on his face I'll know double quick time. I don't forget faces—and I can always place 'em. Names stick in my head fast enough, but I may disremember just where I've come across them. When I see this Anthony Gaskell, mebbe I'll be able to size the matter up on sight. It's mighty likely I'll know something about him that may serve Cotswold's turn. There's queer things that goes on in most countries, and mine don't take any back seat at that sort of show."

Bosh was hugely excited.

"I say—what a thing it'll be—if he should be Lord Cotswold. Couldn't anything be done? If a fellow's father has run away and behaved like a——"

"It don't matter a blamed cent what he is, nor what he's done, if only he's got the blood in him—lawfully, of course. That's the beauty of your British aristocracy. And it hasn't worked so badly—that I'll admit. But it'll be a nasty thing if this fellow is going to turn Cotswold into Maurice Gaskell again, and get the Chase and all it holds for himself. And I'm just about to prospect around some, and see if there's not mebbe some spoke as I can put in his wheel."

"I say, Val, do you think you could? You don't mean that you'd put a bullet into him, as you did into his tyres."

"No, sonny, that's not my idea of playin' the game. He may have deserved a bullet some time in his career but that's not my business anyhow. I don't say as I shall find any way to get in a spoke, but there's no knowing. I've an idea that if things were as he professes, he'd not have made that shark Lawley, his advocate. A fellow may be big on bluffs; but if he's got the law at his back he don't need to bluff. He goes to some superior firm of sharkies, and they put the business through differentlike. It may be just ignorance; but this fellow has chosen queer ways of goin' to work and queer tools to work with."

Bosh heard all that Val had to tell of the matter, and was burning with excitement and zeal. He and Hilda had quite settled in their own minds that Mary was to be Lady Cotswold, and that some discovery was to be made which should place a fortune within her reach also. It would be a great downfall of their hopes and airy castles if their friend were to be ousted from title and estates, and become a simple country gentleman once again, as in his grandfather's time. Bosh devoutly pinned his faith to Val. The man from the west would manage to best this Anthony Gaskell. He had his nose on the trail—and he would discover some secret flaw, which should discomfit the claimant and turn the tables and bring honor and glory to all concerned in the unmasking of a scoundrel.

"All right, sonny, keep your hair on," was Val's advice, as Bosh gave utterance to some of these sentiments. "We'll queer his pitch for him if it's to be done, and I rather guess that same will be managed somehow; but we won't count our chickens till we've hatched 'em out all safe."

On reaching the London terminus Val drove straight to the Hotel Cecil, and gave his orders there with an air of cool authority which Bosh admired immensely. The grandeur of the place, its bustle and hubbub, seemed in no wise to disconcert him. He was a rather notable figure, and drew the regard of many persons to him. Dressed well, yet with an ease that was somewhat unconventional he looked, with his long, lean frame and clean-shaven brown face, like a traveller from distant lands. The curious intonation of his voice and his perfect imperturbability added to this impression, and Bosh felt a reflected glory in his own person as he noted the alacrity of the hotel servants to do the bidding of this new guest.

"Take me for a railway king or mebbe a pork prince," spoke Val, with a grin, as they reached their rooms—a suite of two smallish bedrooms, opening into a central sittingroom, with much gilding and many mirrors to its plenishings. "By Jing, this is a fine sort of place for learning the set of one's back hair. I'll get acquainted with my own profile if I stop here long enough. Now, we'll just have a wash and brush up and a snack of lunch, and then, when I've interviewed the porter we'll go out again together, you and I, and have a bit of a squint around at Cadogan Mansions, and see what they look like."

As they sallied out together an hour later, Val took up the word once more on the same subject.

"Seems like it's a furnished flat he's got there. Lots of your fine folks let their burrows to Americans at the season's end. He'd scarcely take an unfurnished place himself. We'll just go and prospect round, sonny, and see what we can nose out."

Flats these buildings plainly were. Many of them were already shut up and empty, but a fair proportion were still in occupation. Smart motors and carriages stood at the entrance doors of many. Val and his companion walked carelessly past the block, Val's eyes taking stock of everything, and in particular of that entrance to the flat where Anthony Gaskell had taken up his present abode.

"Shall I go and ask the porter if he's anywhere around?" asked Bosh. "You see, I'm only a boy—not like a caller. I could make out that I'd been sent round to inquire something."

"Wal, that's not a bad notion. Scoot along and find out what you can of his habits and doings; I'll not be far away. Don't be too almighty inquisitive, but just friendlylike and chatty."

Bosh nodded and slipped away, and was absent perhaps ten minutes; he came back eager and flushed.

"He's out motoring, but he'll be back almost any time now; comes in for a late lunch generally. Yes, he's taken the flat furnished; he's got his wife with him; they bought the motor of the people here, and they're out a great deal. If we watch, we'll see him come back. Is that what you want?"

"Yes; but I'll not be too near about. I don't wish my gentleman to spot me yet awhile. My eyes are pretty good ones. I'll keep my distance. You can be a bit nearer, to make sure if it's the man you saw with the flattened tyres. That'll almost do for the first day's prospecting. Still, I'll get a squint at him if I can. You keep your ears open, sonny, for any orders he may give his motor man about the evenin'—savvy?"

Already a motor car was swinging round the corner. Bosh walked quickly along the pavement, and was level with the entrance when it drew up. After the occupants had passed in, he wheeled round and joined Val almost at a run.

"It was he—it was he! And they're dining at the Savoy tonight, and going to the theetre afterwards. I heard them talking to each other and the man. I say Val, what is it?"

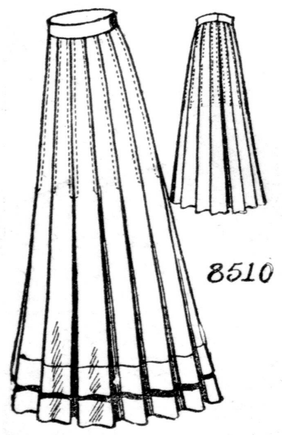

Something in Val's face caused this query. The man from the west smote his hand upon his thigh.

"Geewillikins, my son, but that's just what I'm going to ascertain for myself."

To Be Continued.

# AN ATTACK ON SPEAKER CANNON

## Is Charged by a Congressman With Concocting Serious Conspiracy.

## PLOTTED WITH ALDRICH

### Intention Was to Control All National Legislation and Defeat Tariff Reform.

New York, Aug. 24.—The most sensational attack ever made by responsible authority upon a public man in the United States in modern times is contained in an open letter addressed to Speaker Joseph G. Cannon by Representative Charles N. Fowler, of Elizabeth, N. J.

Representative Fowler boldly charges the existence of a conspiracy between the Speaker of the House and Senator Nelson W. Aldrich, of Rhode Island, for the purpose of controlling all important national legislation and of defeating both tariff reform and currency reform.

For several years the New Jersey Congressman was chairman of the house committee on banking and currency. At the close of the recent special session Speaker Cannon declined to reappoint Mr. Fowler to that important chairmanship. Such action is almost unprecedented.

Despairing of securing what he believes is necessary legislation for the reform of the currency and banking laws of the country as long as the house is under the control of the present rules as interpreted by Speaker Cannon, Mr. Fowler announced himself a candidate for Speaker at the opening of the special session. He explains that he did this, not in the expectation of being elected, but solely for the purpose of bringing squarely before the people the issue of genuine currency and banking reform as distinguished from the legislative program on that question agreed to by Aldrich and Cannon. This conduct made Mr. Fowler an "insurgent" in eyes of "Uncle Joe."

Referring to his course in that respect Representative Fowler says in his letter to the Speaker:

"Do you suppose, sir, that I did not appreciate fully the probable consequence of my act when I undertook to play my part in securing this reform? Do you suppose that I was not aware of your ignorance, prejudice, inordinate conceit, favoritism, putrid preferences, and that like all such characters possessing absolute power, malice is the mainspring of your every action under such circumstances?"

### His Pleas Were in Vain.

After reciting from the official records the Speaker's support of unsound money measures in Congress up to the present time, Mr. Fowler reminded Mr. Cannon of the latter's opposition to remedial legislation proposed by the New Jersey man to avert the panic of 1907. He reminds him of how he was pleaded with to permit consideration of the bill prepared by Fowler with the assistance of fifteen of the greatest bankers in the country, and recites this:

"You literally hooted the idea of a panic and inquired: 'What does this howling in Wall street amount to? The country don't care what happens to those speculators. Everything's all right out West and around Danville. The country don't need any legislation. Then I don't take any stock in your asset currency."

Mr. Fowler adds: "As usual, your ignorance and prejudice were all sufficient then. But the panic came, as every man who had any intelligence upon the subject knew it would.

"Now, sir, mark this—the bill prepared by these representative bankers, which met only with your sneers and contempt, and known as the 'Bankers' bill,' provided for about $250,000,000 of credit currency called in that bill 'National Bank Guaranteed Credit Notes.'

"If that bill had been upon the statute books when the pressure came there would have been no general suspension of banks throughout the country, no general breaking down of the exchanges, as all the banks could have more than met the demands for currency.'"

### Losses Laid to Suspensions.

"I am sure that all trustworthy authorities will say that at least one-half, and possibly two-thirds, of all the losses of the crisis of 1907, direct and indirect, were due to the fact that there was a general suspension of bank payments and complete breaking down of our exchanges; that the public confidence was so shocked as to destroy completely normal conditions for many months.

"This is your record upon our financial and currency legislation. I challenge you to find a single living man with so rotten a one. It is a record of ignorance or political cowardice or a disgraceful hybrid of the two. And yet, sir, you assume to dictate the financial and currency legislation of a civilized country."

After accusing Speaker Cannon of deliberately conspiring with Senator Aldrich to pack the conference committee on the tariff bill against the House bill, Mr. Fowler adds:

"I have gone into these details to lay bare your miserable, contemptible, false pretences and to expose your duplicity, treachery and perfidy to that legislative body over which you preside, whose bill you were bound to defend and not destroy.

### Asks About Conspiracy.

"Is it possible that you, the Republican Speaker of the House of Representatives, and Senator Aldrich, chairman of the finance committee of the Senate, entered into a conspiracy to secure the adoption of the Senate bill in general and the highest rates in both bills throughout for the purpose of discrediting the President by repudiating his pledges and the platform of the Republican party?

"Taking all the facts as they appear in the case, from start to finish, a lawyer, an intelligent criminal lawyer, would say that it looked like a conspiracy. You seem to have measured the conditions with accuracy and to have calculated the distances to the various points of agreement carefully, and you seemed to be almost upon the point of consummating your undertaking when the great unknown factor became the determining force.

"Though this scheme failed, it exhibits 'Cannonism' in its highest and most perfect development.

"I challenge you to cite in all our political history a more dishonorable and disreputable piece of business unless, perchance, you cite something in your own career of which the people are not yet advised."

Outlining a programme by which the House could rid itself of one-man power, Representative Fowler closes his letter thus:

"These pledges have become necessary because of your assumption and abuse of power by which you and your confederates have already brought the Republican party almost to certain defeat, possibly disruption and destruction, unless 'Cannonism,' with all its corrupting, degrading and paralyzing influences, is torn up root and branch. The Republican party will not brook nor condone your contemptible trickery and traitorous treachery, your disgusting favoritism and vengeful malice, your brutal despotism and daringly desperate methods.

"If the Republican party wins the next Congressional election, it will only be upon the grave of 'Cannonism.'"

## A TARDY REWARD

### After Sixty Years Frenchman Becomes Officer of the Legion.

Paris, Aug. 25.—An old man of 88 Guillaume Rolland has just been made an officer of the Legion of Honor for a deed of heroism upon the battlefield which he performed 60 years ago. It was in Algiers. Rolland was a bugler in the Chasseurs d'Orleans when Ab-del Kader thinned the French ranks after one of the most desperate battles in France's history. His regiment was charged. The Arabs rushed over it like a cyclone over a cornfield. Only 80 men were left. Again they charged, and left but fifteen standing. A third charge, and Rolland with his bugle stood alone.

Brought before Ab-del Kader he was questioned. There were still some hundred Frenchmen left upon the battlefield, and Ab-del Kader knew that they would fight to the bitter end. He questioned the lad. "Is there no tune you blow," he said, "which makes your countrymen give up the battle?"

"Yes," replied Rolland. "Then blow it, or your life is forfeit," answered Ab-del Kader.

Rolland was about to throw down his bugle and bid them take his life, when a sudden notion, half heroic, half born of the impertinence of the Parisian street boy, caught him. He smiled, stepped out, put the bugle to his lips, and, as loudly as he could, blew the charge. It turned the tide of battle.

Later in the day Rolland was told by his captors as they hurried him away with them in their flight that the French had after all been victors, and eight months later, when he was released from his captivity, the Cross of the Legion of Honor was his reward. A few months afterwards he had left the army and became postman in his native village of Lacami. This week the old man has exchanged his red ribbon for the rosette, and when he dies he will receive full military honors.

## STRATFORD SUED.

Toronto, Aug. 24. — A suit by a farmer of Downie Township against the city of Stratford for alleged pollution of the River Avon, which flows through his farm, was renewed at Osgoode Hall this morning. The suit was entered two years ago, but was adjourned to give the city time to make such improvements as would secure freedom from the alleged pollution by thecity's sewage. It is now asked that the city be restrained from further pollution. The case will come up in fall court later.

## NEW FOREST PEST.

Toronto, Aug. 24. — The provincial department of woods and forests is taking steps to stamp out a new pest which has attacked spruce forests.

## HE ENJOYS HIS MEALS NOW

### For He Keeps a "Little Digester" Handy.

Mr. Glassco, of Toronto, wrote us on May 13 last:

The Coleman Medicine Company,
509 Church Sreet, Toronto:

Dear Sirs,—I wish you would send me another box of your "Little Digesters." All the members of my family have been using them and have obtained the most satisfactory results.

I congratulate you on your success in putting up a tablet for the cure of indigestion. I suffered for years and tried everything that was recommended to me. Nothing gave me relief, until I was persuaded to try "Little Digesters." Now I never suffer from indigestion. I enjoy my meals and am not afraid to eat, because I know a "Little Digester" after each meal will digest my food.

I recommend them to all my friends who suffer from indigestion and would further say that you may publish the above if you wish. I know there are thousands of people suffering from indigestion who will be glad to know there is a safe and sure cure for them. Yours very truly,

(Signed) E. S. GLASSCO.

"Little Digesters" cost 25 cents at your druggists or by mail from Coleman Medicine Company, Toronto.

# It Leaves the Skin Tingling With Health

There is a wonderful difference in soaps. Have you ever noticed how one kind leaves the skin soft and white while another may leave it red and rough?

Both soaps looked alike, perhaps. But the difference was in the material. Let us tell you what we put into *Infants' Delight*, then decide if you can continue with common soap.

Ceylon is an island in the Indian Ocean, and from there we bring pure cocoanut oil 12,000 miles to our factory. Then we go to France for vegetable oil, and often pay double what we might pay. But our oil is pure enough for your table.

These oils are doubly boiled and then milled by our own special process, after which they fall like flakes of snow into enormous bins.

Then they are crushed under a weight of 30 tons to press out the moisture. Next they pass through granite rollers and come out in miles of silky ribbons. Finally they are dried eight times and then stamped into cakes.

Could you imagine a more delightful soap than this? It lathers into a rich, creamy foam. It wears as thin as a wafer. It leaves the skin as soft as velvet and as smooth as satin. It is the very utmost in perfect soap.

The perfume is the delicate scent of the roses. We pay $100 a pound for pure Otto of Roses, but it requires 3,000 pounds of rose leaves to make a single ounce. The fragrance is simply exquisite—it brings the breath of a million flowers. Use a single cake and learn how delightful it really is—it costs no more than the common, so why not have the best?

### How to Massage

Shave some *Infants' Delight* into a tub of hot water and let it dissolve. Then immerse your body and remain in the water several minutes. Lather the body thoroughly with *Infants' Delight*—rub it right into the skin, for it is so pure it will only nourish and soothe. Massage well with the finger tips and the palms of the hands and you will find a most pleasant sensation after the bath is finished.

## AFTER AN AIRSHIP TO CARRY CANNON

### Day That Germany Reaches This Goal, Race for Naval Supremacy Will End.

Berlin, Aug. 25.—The day on which Germany discovers an efficient type of aerial cruiser the naval rivalry between herself and England will cease. She will abandon the building of Dreadnoughts, and will concentrate on the construction of aerial battleships.

At the present moment, however, neither the Zeppelin, Gross, nor Parseval has attained that degree of perfection which would permit of its type being multiplied indefinitely. Whether the Schuette airship the latest on the stocks and the most formidable rival of the Zeppelin, will fulfill the expectations of its designer and builder and triumphantly surpass all others is a question for the future to decide.

**No Armed Airships Now.**

Today the chief problem confronting German aerial students is to find a dirigible airship that will be able to render effective military service—that is to say, to be able to attack and defend herself against an enemy. To send a ship into the air unarmed and provided with no suitable means of offense or defense is simply to invite the destruction of a valuable national asset. One hears all sorts of absurd rumors about armored Zeppelin cruisers, whose 'decks" are said to be bristling with guns which can be fired not alone horizontally, but perpendicularly. Some writers in this respect have allowed their imagination to run riot, overlooking the fact that guns and shells are at present made of steel, and not of aluminum like the hull of Zeppelin's ships. What would happen to an aerial cruiser with guns mounted on her platform tower, now used, as in the case of the Zeppelin, for observation purposes? It does not need much scientific knowledge to see that she would be top-heavy, and would in all likelihood turn turtle in the air.

The Zeppelin, until something better is found to replace her, stands for the accepted model of an aerial warship. It belongs to the nation and is jealously guarded. Unlike the Parseval, no Zeppelin has as yet been sold to a foreign power. The Zeppelin company, in the prosperity of which every German feels himself directly interested, has its working headquarters at Manzell on Lake Constance, half a mile or so from the floating dock which invariably shelters one of the completed cruisers. At Friedrichshaven itself under the direction of the German Government, a large area of land has been reserved for aerial experiments It is eminently adapted for the purpose, for on the water side a thick wood screens it alike from hostile wind and prying observation. This is one of the training schools for the German corps of aerostats and one of the old Zeppelins is used as a school ship.

Experiments have been made with a view of fitting the newest dirigible with light, quick-firing Krupp guns, but it has hardly been a success, for the additional weight of guns and ammunition, at the moment, can only be compensated for by the lessening of crew or fuel or both, diminishing in either case her usefulness as an engine of war.

## DETECTIVES IN RAID

### Dressed in Rags, Are Taken for Robbers and Are Arrested.

Paris, Aug. 24.—Two detectives dressed in rags, have made a sensational arrest in Paris.

Information had been lodged with the police that clandestine betting went on in a restaurant. The two detectives, one of them carrying a large guitar, stood outside the building. Both had good voices, and they collected quite a lot of money from people who went in and out to bet or be paid their winnings.

At a moment, when, through the open door of the restaurant, they had seen the proprietor collecting betting papers and putting money in a bag to be handed over to an agent who was waiting for it, the detectives made a rush and secured the restaurant keeper, the money and the papers.

The keeper shouted for help, and two policemen entered and arrested the detectives, who had some difficulty in proving their identity, because the uniformed officers would not let them put their hands into their pockets—fearing that there were revolvers there.

Eventually each "vagrant" was shut in a cupboard in turn, and was then permitted to hand out his police card of identity. Both were then released, and everybody in the restaurant was taken to the police station, charged with illicit betting.

## DIAMONDS VANISH

### Thieves Make a Big Haul From a Victoria Store.

Victoria, B. C., Aug. 24. — Diamond rings and jewelry to the value of $4,500 were stolen from C. E. Redfern's jewelry store here, being missed on Friday night, shortly before placing the stock in the safe. The principal item of the loot is a pair of diamond earrings, valued at $1,250. The other jewelry stolen was from a tray, and consists of rings with small and large diamonds. Mrs. Walk, who assists in putting the jewelry away, was the first to notice the disappearance, and on reporting it to the owner, notified the police, and strenuous efforts were made to hush up the affair.

## PEONAGE CHARGE TO BE INVESTIGATED

### U. S. Government Orders an Inquiry Into Conditions at Pressed Steel Car Plant.

Pittsburg Aug. 25.—An official investigation of the McKees' Rocks plant of the Pressed Steel Car Company will begin today. From the department of justice at Washington United States District Attorney John H. Jordan late today received orders to move at once on the plant in investigation of the charges of peonage which have been made against President Frank N. Tostoot, of the car company, in conjunction with Samuel Cohen, of the employment bureau.

Word was passed to the mounted state troopers in charge at McKees Rocks last evening, that it was expected that conditions inside the mills would be the same tomorrow morning as they were last night—that men might neither be permitted to enter or to leave during the night.

There was much excitement when the attorneys admitted that early yesterday morning they discovered an attempt to wreck a train at three different points along a railroad leading to McKees Rocks. It was the line over which the special of four cars bearing the additional company of state troopers was to come, and these tracks having been cut at three points led to the belief that it was the intention to wreck the train on its arrival here at daybreak. So careful were the railroad people that they at once gave orders for the train to make a detour, and it was sent into Pittsburg over a line entirely apart over that which it had been booked to come. The strike leaders say that the tracks had been tampered with by some enemy of the strikers to throw discredit on them.

Insurance to the amount of $4,000,000 has been placed on the Pressed Steel Car Company's works here. The placing of this great blanket of insurance is considered as an indication that the company expects trouble.

A systematic search of the houses of the strikers for weapons was begun in McKees Rocks today. The deputy-sheriffs assisted the constables in their search and there were many clashes and not a few arrests made. Sixty-six strikers were given a hearing on a charge of carrying concealed weapons, and 44 were lodged in the county jail or released for a court hearing on bail.

### BILLY SUNDAY HURT.

Laporte, Ind., Aug. 24.—An automobile containing "Billy" Sunday, the evangelist and former baseball star, and his wife, turned turtle today, throwing the couple into a ditch. Mrs. Sunday was seriously injured, but her husband escaped with minor bruises. Sunday was running at high speed, and in attempting to dash by another machine, the two autos hubbed, with the result that the evangelist's car was badly wrecked.

## CONDEMNED WORE VEIL

### French Murderer Guillotined in a Bizarre Costume.

London, Aug. 24. — When Duchemin, the man who was guillotined in Paris the other day for murdering his mother, stepped from the prison van which brought him to the guillotine, he was barefooted, and a black veil covered his face, for the Code Napoleon provides that parricides must appear in this guise at their execution.

Before the revolution a female parricide was burned or hanged; a male parricide had his right hand cut off and then was broken alive on the wheel. His body was afterwards burned, and the ashes scattered to the winds. Under the revolution parricides were treated like other murderers, but the authors of the Code Napoleon considered the ordinary method of execution insufficient, and introduced a black veil, bare feet, and reading of the sentence. They also reinstituted the chopping off of the right hand, which was abolished again in 1832, when the code was revised.

## TO CURE "LAZY" DISEASE

### Treat Bug First, Patient Next, Dr. Stiles Tells Physicians.

Washington, D. C., Aug. 25.—If you want to treat the "lazy" disease successfully you must treat the parasite first and the patient second. Get rid of the "bug," and then turn your attention to the person affected by it.

This is the advice given to physicians by Dr. Charles Wardell Stiles, chief of the division of zoology, hygienic laboratory, public health and marine hospital service, in today's issue of the bulletin of that service. He shows the mistake of treating the patient first and afterwards the parasite.

For several years Dr. Stiles has devoted practically all of his attention to investigating the hook worm disease in the Southern States, where it is said to be prevalent. It is said the disease produces profound anaemia in those affected, causing an inability to perform work, and resulting in many instances in slow death.

Dr. Stiles says the hook worm disease may attack persons in any walk of life, but that it is among the poorer classes it oftenest is found.

Consequently, he says, the average patient cannot afford to lose several days' wages to undergo treatment. It is, therefore, he says, frequently expedient to conduct the treatment Saturday evening and Sunday morning.

"Notwithstanding that primarily we are to treat the parasite, not the patient," says Dr. Stiles, "it should be remembered that if too great a quantity of thymol is absorbed by the patient the result may be disastrous.

"The patient's family should be warned not to permit the patient under any circumstances to have on the Sunday during which the treatment is given any food or drink containing alcohol, fats or oil. Patent medicines should be avoided because of the alcohol many of them contain, and even milk and butter should be forbidden."

Dr. Stiles cites a case of serious thymol poisoning following the taking of a copious drink of milk the day thymol was taken.

## THE MEN MAY DRESS IN THE GAY COLORS

### Tailors in Convention at London Say Varying of Costume Is Needed.

Paris, Aug. 25.—Delegates from France, Spain, Belgium, Russia, India, Austria, Holland and New Zealand, as well as Great Britain, are discussing the expediency of more color in men's clothes at the conference of the International Union of Foremen Tailors now being held in London.

Mr. Thornton, the chairman, declares the cultivation of more variety in the costumes worn by men was sadly needed. He said:

"There is not enough originality or diversity of style, and as a matter of fact the male fashions of our time seem to be narrowing down to the universal wear of the monotonous lounge suit. That for pure utilitarian purposes this costume has its advantages is undeniable, but surely no one can deny that there are other styles of costume that more fittingly adorn the human form divine than the sack-like envelope that is sold by some of our enterprising London outfitters at about 10 shillings 6 pence.

"The garments for which subdued and artistic colors might be introduced are the more formal costumes of frock coat, morning suit and evening dress. I suggest as suitable shades for these costumes plum color, dark green, dark blue and a rich tint of brown.

"The waistcoat would be colored harmoniously with the coat. I should suggest for them a material such as was used in the case of an order for 40 waistcoats recently given by a Russian grand duke in this country. They were made of a heavy mixture of woven silk rather resembling the brocade that used to be worn in the eighteenth century.

"I am strongly in favor of the adoption in the case of all costumes of breeches in place of trousers. Trousers are hideous garments which conceal the graceful outlines of the leg. They are the bane of the sculptor and artist, and testimony is borne to their ugliness by the fact that at court functions, when everyone is expected to look his best, the wearing of breeches is imperative.

"The question of hats is one of great difficulty, but an improvement could be brought about by the more general adoption of the white top hat which the King has popularized for racing purposes, and the wearing of brown and green bowler hats, with due regard to the wearer's complexion and the color of the rest of his dress, would increase the artistic effect of his costume."

### TORONTO WILL FIGHT.

Toronto, Aug. 24.—The writ for an injunction restraining the City of Toronto from completing the sale of part of Ashbridge Marsh to the National Iron Works Company was served on the city today. The city will fight the case through.

## MYSTERIOUS EXPLOSION

### The Hotel Olympic at Elmira, N. Y., Completely Destroyed.

Elmira, N. Y., Aug. 24.—The police are investigating the origin of an explosion which destroyed the Olympic Hotel on West Water street, in this city, and caused the death of Mrs. E. W. Roby this morning. A policeman on his rounds tried the doors of the hotel just before the explosion and found them locked as usual. He had proceeded only half a block when there was a terrific report and the rear portion of the building was blown into the Chemung River. An instant later a sheet of flame swept from all of the windows on the second and third floors. The hotel was a roaring furnace by the time the firemen arrived. and was completely burned out.

Mrs. Roby was not in the hotel. She was sleeping on the second floor of a frame building adjoining the hotel. The force of the explosion tore a hole 12 feet long and 20 inches wide through the ceiling of her room near her bed and the shock threw her from the bed on the floor. She had been suffering from heart trouble, and the shock killed her.

The fire is believed to be of incendiary origin, but the nature of the explosion cannot be ascertained.

No one was in the hotel at the time of the explosion, the proprietor having locked the doors and left at 1 a.m.

## CHAMPION OF PURITY

### Father Ducey, Noted American Priest, Dead at New York.

New York, Aug. 24.—Thomas J. Ducey, founder and pastor of St. Leo's Catholic Church, and one of the noteworthy clergymen of the country, died Sunday in his country home in St. James, L. I.

"Father Tom," as he was known affectionately among rich and poor, had been failing for three months, but until recently insisted on attending to his pastoral duties. He knew on Saturday night that death was approaching, and before the end came left a farewell greeting to his flock.

Father Ducey hobnobbed with the rich, but said of them:

"The luxuries of the wealthy and the pitiful condition of the masses today form a topic which occupies the minds of all thinking people. While millionaires increase their millions, these unfortunate people are improperly clothed and poorly fed. There are more places of refuge for an outcast or fallen woman than there are for good, honest, respectable women."

From the pulpit Father Ducey raised his voice for political purity, fought the Tweed ring in its day, assailed Tammany Hall and struck at the trusts. Archbishop Corrigan censured him for attending the sessions of the Lexow investigation, when testimony as to vile conditions was given.

Father Ducey wrote a spirited reply, in which he said:

"The honest Catholic layman who would blush to go to such an assemblage must, I think, be strangely constituted mentally, morally and physically. For years I have felt that you should be, next to the Holy Father now reigning, the greatest factor for good in the whole Catholic world. Unfortunately, I am forced to say that here in New York the greatest power in the world for good and humanity and the Catholic Church has been thrown to the winds and we are now reaping the whirlwind."

Father Ducey was born in Lismore, Ireland, Feb. 4, 1843. He was brought to this country at the age of five by his widowed mother.

### WELCOME TO STRATHCONA.

Winnipeg, Aug. 24.—Lord Strathcona was given a splendid welcome tonight by Winnipeg. He was met at the train by the Military School cadets, brass bands, and all the Scotch and fraternal societies of the city There was a big torchlight procession, and Lord Strathcona was escorted to Government House.

### MOTHER SAVES SON.

Kingston, Aug. 24. — Unable to swim a stroke herself, Mrs. C. I. Baltic, wife of an employe of the Royal Military College, last night leaped into sixteen feet of water to rescue her 2-year-old son, Charlie, who was sinking for the last time.

The lad fell off the R. M. C. wharf and his mother, who lives close by becoming informed, rushed to the wharf, and, without a second, leaped off with her clothes all on She seized her child and managed to keep both him and herself afloat for a few seconds longer.

Mrs. Manning, a neighbor, saved both lives by extending a long pike pole, which Mrs. Baltic grasped. The boy is all right today, but Mrs. Baltic, who is in a delicate condition of health, is suffering from shock.

## SURE TO ASK

### The Kind of Coffee When Postum Is Well-Made.

"Three great coffee drinkers were my old school friend and her two daughters.

"They were always complaining and taking medicine, I determined to give them Postum instead of coffee when they visited me, so without saying anything to them about it, I made a big pot of Postum the first morning using four heaping spoonfuls to the pint of water and let it boil twenty minutes, stirring down occasionally.

"Before the meal was half over, each one passed up her cup to be refilled, remarking how fine the coffee was. The mother asked for a third cup and inquired as to the brand of coffee I used. I didn't answer her question just then, for I had heard her say a while before that she didn't like Postum unless it was more than half old-fashioned coffee.

"After breakfast I told her that the coffee she liked so well at breakfast was pure Postum and the reason she liked it was because it was properly made, that is, it was boiled long enough tob ring out the flavor.

"I have been brought up from a nervous, wretched invalid, to a fine condition of physical health by leaving off coffee and using Postum.

"I am doing all I can to help the world out of coffee slavery to Postum freedom, and have earned the gratitude of many, many friends." Read "The Road to Wellville," in packages. "There's a Reason."

| Washington | 32 | 82 | .281 |

(Special to The Advertiser.)

Detroit, Aug. 25.—Playing like the team that has twice captured the honors in the American League races, Detroit yesterday placed itself on even terms with Philadelphia, by humbling the Mackmen in a grueling battle, the score being 7 to 6.

With the Athletics in possession of what seemed a ponderous advantage—four runs—the Tigers began one of their old-time rallies, that ended only when the Champions had forged to the lead.

To the huge weekday crowd, numbering close to 10,000 intensely excited fans, each realizing the importance of the series between the clubs, Philadelphia's advantage secured in the opening innings seemed insurmountable. It was with all the more glee, therefore, that the victory snatched from the visitors was received by the fans.

**Game a Whirlwind.**

Philadelphia proved a worthy foe in the first of three struggles scheduled for Bennett Park. Probably not before this season have two teams fought so desperately to land victorious. The game belonged to either team until the last man had been retired.

With one down in the ninth inning, the Athletics made a determined effort to seize the contest. They filled the bases with the heavy end of their batting list coming up. With men on second and third, Manager Jennings pulled Summers from the mound and sent Donovan in.

**A Tight Box.**

The first man to face the Smiler was "Eddie" Collins, the hardest hitter in the American League. To pass him was taking a risk, for there were other heavy batters following, but Donovan took the chance and walked Collins. The bases were filled and Baker up. Donovan struck him out. Davis followed and he was forced to fly to Crawford. And thus ended the hard-fought duel.

**Donovan to Rescue.**

When Jennings replaced Summers with Donovan he made his strategic move. Philadelphia had found no difficulty in connecting with the "Big Chief" and he was found for an even dozen hits. Had not "Bill" condescended kindly to extricate his teammates from the alarming situation the final score would undoubtedly have read differently.

**Krause Knocked Out.**

And Summers was not alone compelled to leave the box. Krause, Mack's star twirler, who had been kept in reserve and fasting for over a week in preparation for the Tiger feast, shared a similar fate, It differed from Summers' only in that it came earlier. After Detroit had worked the marvel for four runs in the seventh inning, he was ingloriously derricked and Dygert took his place. It was the severest beating the Californian has received during his big league career. No crowd welcomed his exit more warmly than did that at Bennett Park yesterday.

**Cobb Makes It Possible.**

Dygert proved to be just what was needed to check the Bengals. There were two out when he went to the mound; Delehanty was on second. The twirler fanned Moriarty, preventing any further damage. In the following round he was found for one hit, but he tightened up quickly and retired the side without a tally.

To Tyrus Cobb goes the lion's share of the credit for turning defeat into victory. It was an error by the Georgian in the opening inning that permitted Philadelphia its first score, but Cobb made amends for the offense in later periods of the game.

**What Tyrus Did.**

His single in the fourth inning was eventually converted into the Detroit's first run. With the count 5 and 3 in the Athletics' favor in the seventh inning, Cobb doubled and Stanage and Bush crossed the plate, evening it up. Crawford beat out a hit to first a moment later and Ty came all the way from second with the tally that put the Champions in the lead.

**WASHINGTON FOR FIELDER JONES.**

Portland, Ore., Aug. 24.—Fielder Jones today intimated that he had secured, or would soon secure a controlling interest in the Washington club. Jones denied that he had made an offer to the Boston National League team. He added tersely: "I would not have it."

"Are you the master of this house?" asked a stranger, addressing the young married man. "No," said the young man with a deep sigh. "My wife has just put the master in the cradle."

## COVERPOINT JOLTS

The Tigers are commencing to show some of their fighting spirit, and are certainly not quitting against the Athletics. With Summers, Donovan and Mullin in good shape, they will about take the measure of the Philadelphia bunch for two out of the three games. Mr. Krause got a fine walloping yesterday. It is going to be a great series and no mistake.

* * *

We have heard nothing from Mr. Johnsing, nor from Jim Jeffries, the Boy Blacksmith, lately. This is the off-season in theatricals, and as soon as there is a noise in the box office look out for more cheating on the fight proposition.

* * *

The noise of the football player is being heard in the land, and it will not be many days until the chasers of the pigskin are getting ready for the fray. It is about time the locals were doing something in that line if they intend to get in the game this season.

* * *

Those Pirates are now but four games ahead of the hustling Cubs, and anything is liable to happen. The Giants are going fast right now, and are likely to cause some trouble to both teams. It is going to be a merry race. There are still five or six weeks in which to win or lose the flag.

* * *

London, Aug. 23.

Sporting Editor, London Advertiser,

Dear Sir—A bet B that the Greys would defeat St. Johns, on condition that Earley did not pitch for the Greys. The game is under protest on account of two East End players playing for the Greys. Please tell me who wins the bet. Yours truly,

BILL.

As we rarely decide bets in this column, we hesitate to give an opinion on this question. However, it seems to us that A wins the bet. There was a stipulation that Earley should not play, but no statement as to any other players. B may have had in his mind that the Greys were to play their regular team, but that was not conditioned, so we cannot see anything else but that A is entitled to the wager. We do not want any more bets to decide, as it causes some trouble.

**THE VILLAGE CATCHER.**

(From the Omaha World-Herald.)

Behind the erstwhile willow tree
The village catcher squats.
A cross and hostile man is he,
With fingers tied in knots
Festooned about two mammoth palms
As big as corner lots.

His neck is short and thick and red;
His face is black with tan.
He tears his muzzle from his head
And kicks whene'er he can,
And shakes his fist at all the world,
For he fears not any man.

The merchant kings with eager grins
Come flocking by the score
To see him rake the wide ones in
And wave his arms and roar.
And hear his pungent chaff, which flies
Like sparks from the furnace door.

He goes one Sunday to the park
And sits among the boys
Upon the bench, with visage dark
And loud, infernal noise.
And when the umpire dodges rocks
It makes his heart rejoice.

Broiling, rejoicing, thundering,
On through the game he goes
Each inning sees some reason new
To rise upon his toes
And put it o'er the other crew
By means each player knows.

Thanks, thanks to thee, my worthy friend,
For the lesson thou hast taught,
Turn loose your tongue to join the strife
When the battles must be fought,
Hot air will do as much in life
As muscle, nerve and thought.

New York, Aug 24. — New York and Pittsburg divided a double-header today, the home team's victory being a 4 to 3 score, and the visitors winning 11 to 3. In both games the Pittsburgs hit the ball hard, Raymond getting a particularly severe drubbing.

**Fast and Furious.**

Pittsburg probably would have taken both the games but for the fine relief work of Mathewson in the ninth inning of the first contest. This game had a sensational finish. The visitors entered the ninth three runs behind. Wagner hit the ball into the left field bleachers for a home run, and Miller, Abstein and Wilson followed with singles, netting another tally. Mathewson relieved Wiltse, with no one out and two men on the bases, and halted the scoring. Gibson hit into a double play and Hyatt, batting for Leever, struck out.

**Willis Knocked Out.**

Willis, who started to pitch for Pittsburg, lasted only one inning. New York getting three runs on Doyle's triple, Seymour's sacrifice fly, bases on balls to McCormick and Devlin and Bridwell's double. The winning run was scored in the eighth inning on Seymour's two-bagger and McCormick's single, Leever then being the Pittsburg pitcher.

In the second game Pittsburg batted Raymond almost at will, six of their eleven hits being long ones.

**SOUTHPAW FOR THE PIRATES.**

Dallas, Texas, Aug. 24.—Pitcher Eugene Moore, of the Dallas club, of the Texas League, leaves tomorrow for New York join the Pittsburg Club of the National League, to whom he was sold some weeks ago. President Gardner, of the Dallas club, today received another message from the Pittsburg management asking when Moore could report and if he could not be sent along at once. Pittsburg needs a good left-handed pitcher badly, and Moore is believed to be just what is needed.

## IS THIS DIS DE BAR ONCE OF THE ROLLERS

### A Fat New York Priestess With Mystic Cult Much Like Ann's.

Detroit, Aug. 25.—Followers of the strange career of that fat but magnetic priestess of the occult, Ann O'Delia Dis De Bar, who has charmed many men and served in many prisons, will perhaps be interested in a story from New York that a woman much resembling her has turned up there as the founder of a new cult. She is aided, too, by a young man she calls David, whose description is like that of David McKay, the enthusiastic leader of the Windsor Flying Rollers, with whom the priestess eloped two or three years ago, when things became unpleasant in the Flying Roller colony.

Her new departure, a mystic faith, is even more startling than the several others that she has led in her time. It is to furnish that long-sought elixir of life by which its devotees may live forever. There are just 144,000 people in the world who are eligible to membership in it, and its leader has begun to gather them around her by the insertion of advertisements in the New York papers, asking their presence at her meetings.

Thirteen women and four men attended her first meeting, according to a writer in a New York newspaper. On a throne under an artificial rubber plant, they found a large woman dressed in silk robes, who in a speech informed the flock that the cardinal dogma of the faith was that any who followed its teaching might live forever.

"If I told you how old I am, you would not believe me," she is reported to have said. "But I am not so old as a few persons with whom I broke bread not long since. One of those was 500 years old and another 1,000. Live as we tell you to live and you will live forever. David will now speak to you."

David appeared to be a man of a little over 30, dark, with a flowing tie. He had just been spending ten years in India in meditation, the priestess said. He advised every one present to spend their waking hours thinking over and over again, "I cannot die," and to retire into seclusion every noon and evening for meditation.

If the woman who seemed to be high priestess of the places and who ordered every one around, even the liveried servants, who pulled colored silks over the windows to spread a dim religious light through the rooms, was Ann O'Delia Dis De Bar, she was indeed old as priestesses go, for she is over 60. She was nearly that old when she got David Livingstone McKay, the Flying Roller, to elope with her from Windsor. That young man was a Scotch minister when at 21 he forsook his own faith and enthusiastically took up that of the Flying Rollers. Then a Mrs. Morgan, who was thought to be none other than Dis De Bar, came to the colony and soon got to be queen of it. There was trouble though and she and McKay disappeared.

That was not the first time she had run away with a man after one of her occult religions had been wrecked. A few years before she had been driven from New Orleans, taking with her that time a man known as Theodore Jackson. They went to England and in London were arrested for introducing an immoral religion. She was sentenced to seven years in prison, but was released at the earliest possible time because of exemplary conduct.

## WRONGED HUSBAND KEPT LONG VIGIL

### Waits at Hamilton Postoffice in Hope of Meeting Eloping Couple.

Hamilton, Aug. 25.—From 9 o'clock in the morning until 7 in the evening a well-dressed man, apparently well to do and about 36 years of age, waited outside of the Hamilton postoffice yesterday. Eagerly he scanned the face of every woman that passed, which caused many to stop and remark at the undue scrutiny they were being subjected to by the stranger.

Heedless of their evident resentment, he waited at the door leading to the main office, and continued his eager search. Faithfully he watched every face that entered. Dinner and supper time came and passed, but he did not leave his post.

As the evening wore on a constable passing by on his beat was approached by the stranger with the salutation: "I guess you think it funny to see me hanging around here all day, don't you?"

The officer replied that he did not.

"Well," said the stranger, "I'll tell you why I am waiting."

Here is the story told by the man:

Some years ago he married a beautiful woman in Utica, N. Y., from where he had come. Their happiness was unbroken until recently, when another man began to pay attention to his wife. She was spoken to about it, and pledged her faithfulness to her husband, who believed her. But the blow fell five weeks ago, when she ran away with the other man in company with her 4-year-old child, who is a little blue-eyed, golden-haired fellow, the pride of the father's heart. At the time of the elopement the little fellow clung to her, and with his little chubby arms around her neck and his big blue eyes looking up in her face, cried piteously for his father.

The husband coming home one night learned of the flight of his wife and was heartbroken. She left no word where she had gone. The weeks rolled by, seeming like years, until word was received by him from his mother, who informed him that his wife had written to her from Hamilton, Ont., saying the man she had run away with had left her and she believed he had gone to Brantford.

In her letters to her mother, the wife gave no address in this city, but requested to have her letters forwarded to the postoffice, general delivery.

The husband immediately left for this city. Up to a late hour last night he had not found his wife. The man showed the constable a letter from the Utica chief of police, substantiating his story and which solicited the aid of the chief of police in every city to enable him to find his wife.

He also informed the constable that as soon as he had found her he was going to Brantford to find the man with whom she had eloped, and he intimated a likelihood of making application to the chief of police here to help him in the search.

## PORT STANLEY ITEMS

The residents of Erie Rest went in for a good time last night, the scene of their activities being on the splendid beach in front of the cottages.

Stacks of wood in pyramid form had been arranged earlier in the day and as the shades of night drew on and the moon in all its glory shed its light over the peaceful waters of the lake, the fires were lit and disclosed the faces of hundreds of happy folks gathered around to enjoy a social hour and partake of such delicacies as toasted marshmellows, sweet corn, etc. Everybody seemed happy and all contributed towards making the evening a splendid success. Many visitors from other beaches were present, and all enjoyed themselves.

A great deal of credit should be given to Mr. Chas. Keene and Mrs. Arthur Little, through whose efforts the pleasant evening was arranged, and to Messrs. Thos. Rowe, John Graham, E. L. Marlatt and Chas. Keene, who ably assisted them.

## LABOR MEN AND LABOR INTERESTS

### Address Delivered by Mr. W. R. Trotter Last Night in St. George's Hall.

### TO ABOLISH THE SENATE

**Bar Out Asiatics—The Stand of Labor and the Immigration Question—Other Matters Discussed.**

Mr. W. R. Trotter, who for the past two years has represented the Canadian Trades and Labor Congress in Great Britain, with reference to the immigration question, to do away with indiscriminate immigration through false reports of conditions existing in Canada, spoke at some length last night before an appreciative audience in St. George's Hall, on the subject, "The Trades and Labor Congress, Its Work and Its Aims."

**The Immigration Question.**

"The immigration question is only one of the many interests of the Trades and Labor Congress," said the speaker in introducing his remarks, "and we must not let it overshadow the other interests. The Trades and Labor Congress, at its next convention in Quebec, will celebrate its 25th anniversary, and every year the congress becomes more comprehensive. We have delegates in our convention from Cape Breton to Vancouver. This means a heavy drain on the different local councils.

"The Trades Congress is not a craft organization; the craft is only an incident. The congress is the legislative head of the labor interests of Canada. New affiliations have been coming in in a most encouraging manner. Last year over 7,000 new applications were made.

"We have today 25 international units in the Trades Congress, where four years ago we had only eleven. So you see that the labor interests are in favor of this movement.

"There are still some local unions that have not been included, and so we have to go to the local affiliations direct, instead of meeting them through their international unions. And today there are 50,000 members in unions paying their affiliation dues, while those indirectly affiliated mean 100,000 more.

"Parliament takes the records of this congress as a basis of what the workers really want.

"We are hoping that in time to come we won't need even this, for we will send our own representatives to speak for us direct, instead of suffering from that particular sort of hypnotism which leads the worker to send the employer, whom his union is organized to fight, to Parliament, to legislate for him, and for the next four years grumble because they got what they voted for.

"The congress, at its session, outlines a series of principles. The first of these is free compulsory education. It seems a reasonable measure, but the trouble is that it becomes a partisan matter, and so, as in Manitoba, it is thrown out. This is an especially important matter in Canada. We are bringing into the country thousands of people who cannot read in their own tongue. And so it seems a strange thing that any government should stand against this. They form a drawback to the community. They vote, but they cannot vote intelligently. These people settle in groups, and so will control a constituency. They are hopeless in this generation, of course, but with free compulsory education the second generation may be saved.

"Matters are complicated, too, by the fact that these illiterate classes have all large families, and so will control a large section of the population.

**The Working Day.**

"The second principle is a legal working day, and eight hours of labor. If you reduce your hours you are going to increase your pay. While, if you demand a higher wage, you will find that costs will increase.

"It has been the experience of the labor union that where the hours are reduced the wage remains the same. In the case of the International Typographical Union, which changed from nine to eight hours, there was an increase, rather than a decrease of wages.

"The third section is the Government inspection of all industries.

**The Factory Inspectors.**

"If these factory inspectors could exist despite the change of government it would be all right. But as long as it means a certain amount of jobs for a certain number of party heelers, it will not be found very effective. If they were appointed by examination, and were sure of their occupation, they could administer the factory law.

"There should be abolition of the contract system on Government work. We want this paid out to day labor, so that the system of graft may be obviated.

"We want a minimum living wage. "If we had a minimum living wage, adjusted to the cost of living, many people would have an increase.

**Public Ownership.**

"Public ownership of all utilities is another platform. This would be a fine thing, provided the public owned the Government, and that it wasn't merely a tool for the capitalist.

"The seventh plank in the congress' platform is tax reform—lessening taxation on industry and increasing it on land value.

"The land of the world ought to belong to the people who have to live on it. When you are born you land on property that belongs to somebody else. If you could emigrate from the world you could force these people to terms, but you can't.

**Abolish the Senate.**

"The eighth platform is the abolition of the Dominion senate. This, I think, you will agree with. I do not need to speak at length about it.

"The exclusion of Asiatics we also favor. If these men come in here of their own volition to work with us, recognizing our own standards, we would have no quarrel with them. But we object because they were brought here in shiploads for economic reasons of lowering our standards of living.

"If these people demanded a minimum living wage, they would not be brought here.

**Child Labor.**

"Child labor should be prevented, and if it cannot be done in any other way the factories should be picketed till you discover what the age of those employed is.

"If the workers were as well organized as the manufacturers, we would have a different state of affairs in short order.

"Regarding the question of emigration, we are not opposed to legitimate emigration. The country demands it, we cannot people the country as it needs. The birth rate statistics show this, but these should be selected with discrimination, and not exploited by persons whose interests are not those of Canada.

**The Actual Conditions.**

"Our propaganda over in England did show up these societies that posed as philanthropic institutions, and showed the actual conditions that exist. Of the 104,000 immigrants who came to Canada in 1907, only 4,200 signed as agriculturists, while 15,000 signed as skilled craftsmen, and 60,000 as laborers, which means that the Salvation Army are only transplanting men from one labor market to another.

"The operations of these societies in effect militate against the labor classes. They keep alive those who are crowded below the poverty line and hence prevent the solution that would otherwise necessarily come. Our efforts are to get at the root causes of these evils, and meet them as they should be met."

Mr. W. Dickson presided at the meeting, and at its close Mr. H. B. Archer spoke in appreciation of Mr. Trotter's lucid explanation of the work and aims of the congress.

## A U. S. VICE-CONSUL ROUGHLY HANDLED

### Attempted Assassination at Cartagena Result of Anti-American Feeling.

New Orleans, Aug. 25.—Steamship passengers, arriving from Colombia, report the attempted assassination and serious wounding by two Colombians of William B. McMasters, of New York, United States vice-consul at Cartagena. The attack was the outgrowth of anti-American feeling there.

McMasters was at his home in Cartagena on the evening of July 24, when Lara Cendoba, editor of an anti-American newspaper in Cartagena, accompanied by a friend, broke in on him. Both were armed with knives and revolvers. McMasters put up a brave defence, but was badly wounded in a dozen places and left for dead. A bullet grazed his forehead, and he was stabbed in the head and abdomen. It is hoped, despite the severity of the wounds, that McMaster will recover. His assailants were not arrested until the next day. They are both in prison.

An official account of the outrage has been sent to the state department at Washington, and it is understood that the United States legation in Bogota has demanded satisfaction.

## MAHDIST REVOLT IS ON IN YEMEN

### Turkish Troops Are Marching to Hodeida—British and Italian Warships Called.

Rome, Aug. 25.—A semi-official note says that the Mahdist movement in Yemen, Southwestern Arabia, has taken on an acute revolutionary character, the revolutionists indulging in massacre and pillage.

Turkish troops are now marching to Hodeida, a seaport on the Red Sea. It is stated that the governor has telegraphed to Constantinople, urgently requesting reinforcements. Pending their arrival he will ask for the assistance of the British and Italian warships in the Red Sea.

At the request of the under-secretary of the foreign office, the Italian minister of marine has dispatched the gunboat Volturno from Aden to protect Italian interests.

## SPEER CASE HAS A STARTLING TURN

### Buffalo Gossips Now Say That Politician Was Taken Home a Dead Man.

Buffalo, N. Y., Aug. 24. — "Victor Speer was killed by a blow on the head from a heavy cane in the hands of one of the most prominent merchants of Buffalo during a fight over the merchant's wife, with whom Speer was madly infatuated, and who was deeply enamored of Speer—their flirtation having become a matter of gossip in their social circle.

"The fight took place in the bar of the Mansion House, a road-house in Williamsburg, a suburb of Buffalo, to which Speer and the woman had gone on the night of June 16, in Speer's automobile, not knowing themselves closely followed by the raging husband. After Speer was struck down and lay dead on the barroom floor the woman in the case was hustled away by her husband. Speer's body was sent home lifeless to his horror-stricken wife, and money was liberally applied to hush up the tragedy.

"But somebody leaked, and the story —or some versions of it—got into outside papers, and the fat was soon in the fire. Now the men interested are pouring out money and effort to confuse investigators, mystify the public and to endeavor to make it appear that Speer either killed himself by poison or over-indulgence in drink, or died from natural ills—or perhaps went home and died from the strain of the fight.

"But when the case gets to the grand jury the terrible truth of the killing, the bribery, and the scandal, besmirching two families, will all be told, and Mrs. Speer will be a grief-stricken woman for life by the revelation of her husband's career, her rival will be forever disgraced, and a merchant prince will leave Buffalo by way of the electric chair."

In substance, this is the latest sensational story told in connection with Victor Speer's death. District Attorney Dudley is now at work gathering evidence to submit to the grand jury. And money will not avail to call him off.

## MANITOBA SHORT OF HARVESTERS

### Needs Ten Thousand to Help Garner the Crops and Gets 2,000.

Winnipeg, Aug. 25.—An officer of the Provincial Government is authority for the statement today that this province is in urgent need of about ten thousand harvesters, and is facing a serious situation. He said that of all the men who have come west only two thousand have remained here, and gives instances of how certain districts are handicapped by lack of sufficient help. Out on the Hartney branch 500 men were asked for, but only a dozen could be sent. Grandview asked for 130, and received only twenty. Minto and Southwestern Manitoba are in equally bad condition and several thousand acres are lying unstooked there. The Government has arranged with the railroads to give a cent a mile rate to men from the city who will go out to the fields.

Out around Radisson, Sask., women and children are working in the fields, as men have not been available, and the crops are very heavy.

Mr. F. Cook, Ottawa, representative of the London Times, arrived here today, after a tour of the west. He states that the consensus of opinion throughout the country is that the wheat yield this year will be between one hundred and fifteen million and one hundred and twenty million bushels. Mr. Cook has just returned from Seattle, and in discussing the fair there he said: "Considering the fact that thousands of Canadians and British people are visiting the fair, it is somewhat galling to observe the complete absence of the British flag from the exposition. Nowhere on the grounds can there be seen a single flag of Britain, with the exception of one on the Canadian pavilion."

A heavy hailstorm passed over Baldur section last night, and did considerable damage there, at Marlapolis and Glenboro.

**A Chorus of Sixty.**

Besides a particularly attractive chorus to the number of 60, Victor Moore will have the following excellent players to support him in "The Talk of New York," at the Grand Opera House Aug. 27: George J. O'Donnell, Charlotte Gray, William A. Williams, May Phelps, Jo Smith Marba, Charlotte Lambert, John Conroy, Lulu Wells, Arthur V. Gibson, Sadie Livermore, Emma Littlefield, Arthur Thornton, Al. McGarry, and Helene De Guinon. This is the original New York cast.

**"Paid In Full."**

The special engagement of "Paid in Full" at the Grand Opera House Saturday, Aug. 28, is attracting a great deal of attention. Everybody will wish to see this absorbingly entertaining play acted by the selected cast. Of course, everybody knows that "Paid in Full" is a great play. Those who have not seen it are aware of its fame. Those who have seen it are its most enthusiastic advocates.

## HAY SCARCITY BECOMING SERIOUS

### Demand Is Increasing Daily, But the Supply Is Falling Off.

### OATS ARE ALSO SCARCE

**But Buyers Must Have Them and Must Pay Any Price That Is Asked—Market Quotations.**

The scarcity of hay on the local market is becoming a very serious matter now. The demand is increasing daily, but instead of the supply increasing on the small amount that has been offered in the past few weeks, there is a steady falling off. This morning there were only four or five loads, and these all of poor quality. Despite this fact, however, they sold at from $12 50 to $14, the majority going at the latter figure.

When these loads, that would formerly have had to go begging for a buyer, can command such prices, it is evident that the demand has reached a very critical stage.

**Oats Are Scarce.**

Oats, too, are somewhat in the same condition. There were only a couple of loads offered today, which sold at $1 50 and $1 52, a very good price for new oats, and at that one of these loads had been ordered long ahead. The time has come now when those needing hay and oats need it badly, as their supply is practically exhausted, and it will have to be procured from somewhere. If it cannot be had on the local market, it will have to be sought elsewhere.

The market, save for these few loads, practically did not exist this morning.

Other prices remain as follows:

**Grain.**

| | | | |
|---|---|---|---|
| New wheat, per bu | $ 95 | to | $ 95 |

## COFFEE.

**NEW YORK.**

New York, August 24.—The market for coffee futures opened steady at an advance of 5 points to a decline of 5 points, but only July showed a decline, and while the French market was unchanged to ¼c, lower prices here ruled generally steady on a scattering demand, which may have reflected the steadiness of Brazilian markets in face of the biggest receipts on record. The market closed steady, net unchanged to 5 points higher. More than half of the business consisted of switches, the aggregate being 32,500 bags, including September at 5.35; December at 5.30; March at 5.35; May at 5.40, and July at 5.40 to 5.45. Spot quiet; Rio, No. 1, 7¼c to 7½c; Santos, No. 4, 8½ to 9; mild, quiet; Cordova, 8½ to 12.

Barley—New barley for first shipment at 55c outside.

Buckwheat—No. 2, 70c to 75c.

Rye—New stock is offered at 70c.

Manitoba Flour—Quotations at Toronto are: First patents, $5 80; second patents, $5 30; strong bakers, $5 10; for export of 90 per cent patents, 31s Glasgow freights.

Toronto Flour—New winter wheat patents at $4 15 to $4 20 in buyers' bags, on track, Toronto. New wheat flour for export, $3 95 to $4, outside in buyer's sacks.

Millfeed—Manitoba bran, $21 to $21 50 per ton. Shorts, $23 to $24 on track, Toronto. Ontario bran, $22; shorts, $24, on track Toronto.

## LEATHER.

**TORONTO.**

Toronto, Aug. 24.—There is a splendid demand for goods from all parts of the country. Some buying has been based upon the expectation that the removal of the American duty on hides would cause an advance in leather prices here, but as yet this effect has not been produced.

Wholesale prices in Toronto rule at present as follows:

Spanish sole (for jobbing), No. 1, 27c to 29c; No. 2, 26c to 28c; Spanish sole (for manufacturing), No. 1, 26c to 27c; No. 2, 25c to 26c; No. 3, 23c to 24c.

Oak sole, No. 1, 30c to 32c; No. 2, 27c to 29c; No. 1, oak sole bends, 43c to 45c.

No. 1 slaughter sole, heavy, 29c to 30c; medium, 28c to 29c; light, 28c to 29c.

Harness leather—No. 1 U. O., 36c to 37c; rejected O. U., 35c to 36c; No. 2 U. O., 33c to 34c.

Hemlock Country Harness—No. 1, 30c to 31c; No. 2, 27c to 28c; No. 3, 26c to 28c.

Upper, heavy, 45c to 49c; light and medium, 50c to 55c; grained, 17c to 18c; kip skins, French, 75c to $1; veal kips, Canadian, 65c to 75c; hemlock calf, 65c to 75c; imitation French, 75c to 80c; French calf, $1 19 to $1 45.

Splits—Light and medium, 25c to 26c; heavy, 25c to 26c; junior, 21c to 22c.

Enamel cow, per foot, 20c to 25c, pebble grain, 13c to 16c; buff, 15c to 18c; colored buff, 17c to 19c.

New York, Aug. 25.—Wall street, 10 a.m. —Americans in London steady, about parity.

London settlement continues and concludes tomorrow.

Serious hurricane in west, and moving northwest.

President Stickney declares rebating exists among common carriers.

Steel bars advanced by Cambria Steel.

Big buying orders developing in steel business.

London market generally heavy, and inclined to sell off.

Steel companies generally complain of insufficient cars retarding deliveries.

Twelve industrials advanced .17.

Twenty active rails declined .02.

New York, Aug. 25. — Noon — The practical annihilation of all the recent rumors concerning the Union Pacific is at the bottom of the market. As far as we can make out nothing has been stated justifying the recent action of the Harriman shares, and realizing on that account is likely to continue. There is nothing really wrong with the market. Selling has its origin mostly with people who felt that Harriman would make a definite announcement concerning Union Pacific plans. Big bear interests may take advantage of the renewed weakness to again pound the market, but it is not honeycombed with weakly-margined accounts, as it was a week ago.

## HARRIMAN STOCKS THE STORM CENTRE

### A Furious Attack by the Bears Causes a Slump in Many Stocks.

New York, Aug. 25. — The stock market opened weak today on unfavorable interpretations of the reports of Mr. Harriman's health, and disappointment over his interview, in which he indicated it to be his policy to securely maintain present dividends and extend the properties, rather than to increase immediately the returns to stockholders. The Harriman railroads, New York Central, Erie and Reading, were conspicuously weak, with declines of a point or more.

The initial sale of Union Pacific was 6,500 shares at 208, at 207 3-8, as compared to a closing price of 209 5-8 last night. The opening decline in Southern Pacific was more moderate, the first sale being at 132 3-4 to 132 1-2, a decrease of 1 1-2 points from last night's closing. The general list followed the tendency of the leaders, and trading was large, but without excitement. After the opening declines the market steadied somewhat, and there were rallies in several of the representative stocks.

Before the end of the first hour weakness was shown by the Harriman stocks, and Union Pacific sold 3 3-8 below yesterday's close, the preferred stock 2 5-8 and Southern Pacific 2. Reading was sold extensively at a decline of over 2 points. In the group of specialties the most marked recession was in General Electric, which sold off 2 1-2; despite the fact that the business of the first hour was limited the volume of trading was in excess of 300,000 shares.

The inability of the bulls to bring about a rally when the selling stopped encouraged the bears to attack prices furiously again. The Harriman stocks, New York Central and Reading, were the storm centres. Union Pacific slumped over 5 points to 204 1-2, the preferred 3 1-8. New York Central 3 1-2, Reading 3 1-4, Southern Pacific 3, Consolidated Gas 2 3-4, and Northern Pacific, Louisville and N., Erie, St. Paul and United States Steel, 2 or more. Bonds were heavy.

## W. C. T. U. PREPARING FOR WESTERN FAIR

### Friends Who Are Willing to Co-Operate Should Phone or Write Mrs. Ashplant.

The Woman's Christian Temperance Union held its regular session in the lecture hall of the public library on Tuesday. There was a fair attendance of members present and Mrs. Ashplant presided.

The idea of a woman's building was favorably discussed and seems to be almost a necessity in the city. As such it appeals already to other societies and if the secretaries of these will put themselves in communication with Mrs. Ashplant or Mrs. Heaman it will greatly facilitate arrangements.

The greater part of the time was occupied with arrangements for the work of fair week, and the public at large take little interest in that until, as guests, they partake of the good things provided. Then they all appreciate results.

Kind friends who are willing to help the good cause, please phone or write to Mrs. Ashplant, 466 King street.

## LOTS ARE LINGERING BY THE LAKESIDE

### Though Quite a Number Have Left for Home, Sweet Home —The Roster.

Port Stanley, Aug. 24.—Miss Ethel Osborne, of London, has returned home after a very pleasant three-weeks' visit with her aunt, Mrs. T. J. Hanafin, at The Rambler Cottage, Willow Beach.

Mrs. T. J. Hanafin, of The Rambler Cottage, Willow Beach, leaves for London today to visit her sister-in-law, Mrs. J. Osborne, 452 Grey street.

Miss Nellie Young, of London, is the guest of Mrs. J. E. Young, at Take It Easy Cottage, Willow Beach.

The summer visitors are rapidly departing from Port Stanley, but still a number remain, among whom will be found on Erie Bank property the following:

**They Linger Longer.**

Aberfeldy Cottage, Erie Bank Beach—Mr. and Mrs. A. J. Miller and daughter Llewellyn, of New York City; Mrs. R. Miller, the Misses Minnie, Theresa, Edith and Master George Miller; the Misses Agnes, Sara and Mamie Leakey, all of St. Thomas.

Ayr Cottage, Erie Bank Beach—Mr. Walter Percival, Mrs. Percival and daughter Helen, Mr. and Mrs. Haslett and family, all of London.

Arran Cottage, Erie Bank Beach—Rev. W. J. Mortimore, Mrs. Mortimore and family; Mrs. Mortimore, sen., the Misses Minnie and Edna Mortimore, of London.

Crofts Cottage, Erie Bank Beach—Mrs. George A. Moore and family, Mrs. Cannom, of London, Mr. W. J. Laing, merchant, Muncey Station; Mrs. Laing and children, Mr. and Mrs. Janes, Burwell road, and Mrs. John M. Clark, of Muncey road, are camping in Erie Bank Grave.

Mr. and Mrs. Alford, of London, have been spending the week-end with the Rev. W. J. Mortimore, Arran Cottage, Erie Bank Beach.

Messrs. Fred Tennant and Lea Law, of Ingersoll, have pitched their tent in Erie Bank Grove.

Mr. George A. Moore, of Crofts' Cottage, is expected back from the Pacific Coast on Saturday next, after an absence of four months.

## HAULTAIN'S PROPOSAL

**Suggests That Western Provinces Build Railway to Hudson Bay.**

Montreal, Que., Aug. 25. — F. W. G. Haultain, the former premier of the Northwest Territories, who is in the city, expressed the belief that the construction of a railway to Hudson Bay, if left to federal authorities, would never be accomplished for many years, and in the meantime would be made to serve for political purposes in the west. The interests of the east, he pointed out, were against the building of the road, and the work would be done much more quickly if taken in hand by the western provinces.

## EAST END FIREMEN MET WITH ACCIDENT

### Straps Broke While They Were Running to Blaze Last Night.

The firemen from No. 2 station had a narrow escape from injury when on a run to the Central station at 8:45 last evening, when the yoke straps and traces broke, one horse breaking loose from the heavy chemical and hose wagon while on the full gallop down the pavement near Waterloo street.

There were five men on the wagon at the time, and the driver was unable to stop until the horses had gone over a hundred feet.

Luckily the driver was able to keep the horses together, for had the outfit swerved into the curbing the result would have been most serious.

A small bolt snapping was the cause of the trouble.

The firemen were delayed for about three minutes, one of the men using his belt to replace the yoke strap.

## OFFICIALS HERE

**Party of G. T. R.'s Big Men Were in the City Today.**

A party of Grand Trunk officials, including Third Vice-President Fitz-Hugh, Superintendent Gillen, Chief Engineer Kelly, and Mr. Coleman, superintendent of the car department, were in the city this morning, and made an inspection of the car shops and the East End yards.

The party was taken through by the local officials, and everything was found to be in first-class shape.

The officials are well satisfied with conditions and state that times show an improvement all over Canada.

Nothing was said with regard to track elevation in this city, and the improvements appear to be a matter to be dealt with in the distant future.

**EAST END NOTES.**

Miss Mattie T. Richards, graduate nurse of New York, and her sister, Miss Flossie, of St. Marys, were the guests of Mrs. W. J. Tate, 784 Dufferin avenue, during the past week.

## P. M. LOVE HAD NO JURISDICTION IN MATTER

### Chief Justice Falconbridge Reverses a Local Theatre Decision.

At Osgoode Hall: Chief Justice Falconbridge has granted without costs, a motion for prohibition to the police magistrate at London, in the matter of Swanwick and Kotinsky, a case which was heard by him in chambers at London. Mr. W. R. Meredith appeared for Swanwick, who was convicted under the masters and servants act, and Mr. J. M. McEvoy, for Kotinsky, the complainant in the police court.

His lordship is in accord with the opinion held by a judge in a case quoted that there was no jurisdiction to order payment of wages coming due after the dismissal of the servant.

Kotinsky, it will be remembered, who appeared in Swanwick's theatre, sued his employer some time ago in the local police court for $29 wages, and judgment was given in his favor. An effort was later made to reverse this decision in the higher courts, but in the meantime Kotinsky had gone to the States, and Mr. McEvoy, who had acted as his lawyer, refused to accept service for his appearance. Such was the chaotic condition of affairs that is at last set at rest by Chief Justice Falconbridge's decision.

## Personal Mention

Mr. Ed Dunsmore, of London, is visiting in Stratford.

Mr. Jack Weir, of San Bernardino, Cal., is visiting his aunt, Mrs. Wm. Weir, Horton street.

Miss Ethel Pugh, of Rectory street, has returned from a pleasant week's visit with friends in Port Stanley.

Mrs. and Miss Kirk, of 388 William street, have returned from a three weeks' visit to Berlin, Galt and St. Marys.

Mr. and Mrs. J. F. Maine, of Askin street, are in Chatham today attending the wedding of Miss Mae Wanless to Mr. T. Stephenson.

Mr. Robert Davis, of Ambler, Pa., and his son, Dr. H. C. Davis, of Paterson, N. J., are visiting at the home of Mr. E. J. MacRobert, 507 Queen's avenue.

Mrs. John A. Hager and son, who have been on a visit of two months to her parents, Mr. and Mrs. A. Templeton, left for her home in Marquette, Mich., yesterday.

Thos. W. Logan, manager of Bennett's, has returned from a trip to Montreal, Quebec and other eastern points. While away he visited all the Bennett houses in the east.

Hamilton Times: Mr. and Mrs. Jas. McKenzie, of London, are here on their wedding trip. They were married yesterday, the bride being Miss Ella Harding. They leave this evening for Montreal and other eastern points.

Hamilton Times: Miss Grace G. Leasure, of Clearfield, Pa., is the guest of Mrs. E. James and family, of East avenue, at the Beach. Mr. and Mrs. Alfred J. Vernon, of London, are also guests of Mrs. James, the latter's mother.

**Fire Station All Right.**

Mayor Stevely visited the new fire hall today on the Hamilton road, and declares that it is well kept. "It is a credit to the city," said his worship.

## MOST TRADES BUSY IN THE FOREST CITY

### Labor Gazette's Correspondent Reports Things Going Ahead During July.

The London correspondent of the Labor Gazette says:

Bricklayers, carpenters, lathers, plasterers and painters were all busy. Plumbers reported trade fal. Stonecutters and builders' laborers were busy in July.

Ion moulders were busy, and iron workers at the rolling mills very busy. Machinists reported trade very good. Metal polishers and stove mounters were busy.

Car builders were busier than at any other time this year. Coopers were busy.

Printers and pressmen reported trade good, and everybody working. Lithographers were busy.

Journeymen tailors reported work slack. Garment workers were busy. Boot and shoe workers were rushed.

Cigarmakers were fairly well engaged.

Taners and curriers were very busy.

Railroad train crews had an exceptionally good month, a large number of special trains were run. Teamsters reported a lot of work on hand.

Unskilled laborers are all working at present, but prospects are not very good for the fall.

## LATE LOCAL ITEMS

—The barber shops of the city will be closed on Labor Day.

—Owing to anniversary services at Zion Sunday there will be no regular service on Sunday evening at Siloam Church.

—Walter Cooper, the young Englishman, who appeared in the police court today, is no relation of Messrs. Frank and Arthur Cooper, the well-known photographers.

Mrs. Ellen Marr, widow of the late Alexander Marr, died this morning at the old homestead, lot 21, con. 3 of London Township.

The funeral will take place on Friday afternoon at 2:30 p.m., to the Pond Mills Cemetery.

**Hospital Trust.**

A meeting of the Victoria Hospital trust will be held at the city hall on Thursday, Aug. 26, at 3 o'clock. The business includes the receiving of tenders and awarding of contracts for supplies.

**Stove Exploded.**

The explosion of a gasoline stove in the rear of the store of Mr. G. E. Dowdell, 99 Wellington road, last evening about 8:10, set fire to the building. The brigade was summoned, but the fire was extinguished before they arrived. There was no damage.

**Men Are Improving.**

The condition of Mr. W. C. Barnett and "Colonel" Feely, both of whom were injured in the collision in the Grand Trunk and Pere Marquette yards Monday night, is much improved this morning, and hopes are entertained that they will recover. They spent a good night, and are resting easy today.

**A Mean Act.**

The corn field and potato patch belonging to Mr. Frank Shepherd was stripped at Port Stanley on Monday night, and the damage done is fixed at $200. Mr. Shepherd entered a complaint to Chief McIntyre, of the Port and an investigation is under way. It is probable that some arrests will follow.

**Two Big Picnics.**

The grocers' picnic at Springbank drew a large crowd this afternoon, all the early cars being filled to capacity. The Veterans are also picnicking at Springbank. About 100 of them are in line, headed by the Seventh Regiment Band. Both are holding programmes of sports, and there is to be a band concert as well. It is expected that fully 5,000 people will be at Springbank.

**Child's Sudden Death.**

The death took place at 5:30 last evening at Port Stanley of Doran McGregor Daly, the young son of Mr. and Mrs. Fred W. Daly, of 378 Ontario street, London. The boy had been ill from whooping cough, and becoming worse yesterday, his death occurred as stated. He was 2 years and 5 months old. The body has been brought to London for burial. It was only last week that Mrs. Daly's mother, the late Mrs. Dickson, passed away.

**Mr. Lockhart in England.**

Mr. John Coates Lockhart, formerly of London, is rapidly going up the ladder of fame in London, England. He is now a member of a splendid opera company, and has lately been appearing as Mark in "The Wreckers," a three-act opera by Ethel Smyth, the book of which was written by H. B. Brewster. The part affords Mr. Lockhart full opportunity to display his magnificent voice to advantage in "The Afternoon Theatre," a first-class house. The English papers speak highly of him, his stage name being Mr. John Coates.

## IRISHMEN IN KILTS AT NOTABLE MEETING

### The Thirteenth Oireachtas of the Gaelic League Described—Big Industrial Display.

Dublin, Aug. 23.—The thirteenth oireachtas of the Gaelic League closed after several successful sessions. Large contingents of enthusiasts in the language revival movement from all parts of Ireland were in Dublin to participate in the competitions in connection with the oireachtas.

The presence of enthusiastic Gaels from the provinces, tended to give a decided impetus to the work of the Gaelic League in Dublin. A striking feature of the proceedings was the appearance of a large number of leaguers wearing the Irish kilt.

The oireachtas opened with a children's fete, which proved a distinct success. About 200 children, dressed in clothes of Irish manufacture, speaking their mother tongue, and led by two Irish pipers wearing the ancient Irish kilts and playing Gaelic airs, presented an edifying spectacle to all interested in the resuscitation of Ireland's language and pastimes. These children, whose ages ranged from 4 to 14 years, delighted everybody by their exposition of the intricate art of Irish dancing.

Great interest was manifested in Irish manufactured goods exhibited. The exhibits formed an encouraging display of the amount of work already accomplished in connection with the fostering of home industries.

Industrial firms in the city and country displayed specimens of their art metal work, antique pattern jewelry, hurling and football balls, bicycles, books, boots and shoes, bread, bricks, church furniture, confectionery, embroidery, enamel work, gloves, hosiery, inlaid woodwork, leather work, women's hats, lace, medals, brooches, needlework, plaster work, polishes, pastry, pipes, rugs and mats, stained glass, sculpture, soaps, statuary, silver plate, tobacco, umbrellas, woollens, tweeds, and dozens of other articles used in everyday life. All of which are manufactured by Irish hands.

Awards were made to writers of the best articles on the following subjects in the literary competions:

Essay—How the New University Can Best Serve the Interests of Ireland and the Irish Language.

Essay—How to Give Expression to Modern Ideas by Means of Irish Literature and Drama.

Short Story—Irish novel of at least 50,000 words; a middle or old Irish story of episode turned into modern Irish.

Irish Stories—Dealing with life in Ireland at the present day.

History of Ireland—Dealing with the conditions and life of the people up to the end of the sixteenth century.

Three-Act Drama—In Irish.

Original Poem or Song.

Original Irish Melody—Arranged to Irish words, original or selected.

Best Irish Words—To suit two melodies from Petrie's collection.

Irish National Anthem—With English and Irish words.

At the conclusion of the announcement of the awards, Dr. Douglas Hyde delivered a brief address in Irish, stating that the oireachtas this year exceeded its predecessors in importance. The Gaelic League continued to forge ahead, he said. It had this year put an Irish opera—and a good Irish opera—on the stage.

He had met no one, he said, whether hostile to the Gaelic League or sympathetic, who had not said it was doing excellent work. He announced that a great meeting, at which representatives from every part of Ireland would be present, would be held in Dublin on the third Sunday in September to consider the question of Irish in the national university. The country would not be satisfied until Irish was made an essential subject from the beginning of the university course.

The oireachtas presented two new Gaelic operas in the course of the week, "Eithne," written by the Rev. J. O'Kelly, summerhill College, Sligo, and "Deirdre," by Thomas Hayes. "Deidre" was produced last night, and proved to be the most interesting event in connection with the oireachtas.

The orieachtas has led people to take a live interest in the great Gaelic movement. In this regard a particular element is that of the drama, and a better or more effective method of interesting, if not, indeed, of educating, a people can hardly be conceived.

## CORRESPONDENCE.

### In Victoria Park.

To the Editor of The Advertiser:

On passing through Victoria Park yesterday after morning service at the church, in company with my wife, we went up to look at a very uncommon flowering shrub opposite the greenhouse. Desirous to know if the flower emitted any smell, I put forward my hand very gently to it (that was all), when the foreman in charge of the park yelled out with a coarse vulgar, stentorian voice almost audible at the other side of the park, "Keep your hands off that plant. You ought to have more common sense than touch a plant like that."

Now, remember, there was no placard on the plant requesting the public to keep their hands off. Had I been asked in a gentlemanly way not to touch the plant, there would have been no offence whatever. Afterwards I was approached by a gentleman from the Southern States, who introduced himself to me, and who stated that he heard the insulting remarks made to me, and that a short time previous he had the same dose given to him by the same man. He was most indignant at the uncourteous manner in which he had been addressed, and said that he could not carry back with him over the lines a very favorable impression of the respect and courtesy shown either to citizens or strangers by those in charge of this park. Those in authority ought to see that this coarse vulgarity should not be tolerated, as it is damaging to the good reputation of our city. Yours truly,

H. H. WALLACE,
594 Talbot Street.

London, Aug. 23.

### THE BRITISH BUDGET.

To the Editor of The Advertiser:

The recent remarkable budget of Mr. Lloyd-George and the series of eloquent speeches delivered by his colleagues in support of that measure, which has caused no little commotion within the halls of Westminster, and as a piece of drastic legislation has aroused the antagonism of the gilded chamber as an infringment of their vested rights, awaken interest in the career of the man who has risen from actual poverty to the pinnacle of power and within one step of the premiership, the greatest prize within the gift of the British people.

A false impression seems to prevail that high birth and social position are the only credentials that will open the portals to high place and power in Great Britain, but which is completely at variance with at least two members of the local British Cabinet. I refer to the present chancellor and the president of the local government board, John Burns. That these two men are attempting to ameliorate as far as they are able the bad conditions which are prevalent in Great Britain is apparent in attempting to strike at the root of the social disease, and those of us who are inclined to view things in a cynical light must consider that protection is not the only panacea to cure all the existing evils in the old country. The causes lie far deeper, to be removed not only by the genius of the present ministry but by the people themselves.

With over-congestion, drink, opulent wealth and extreme poverty and the present stagnation in trade with resultant unemployment, the present cabinet have a task before them that will demand their best statesmanship, and so long as Great Britain contains men of the calibre of the present occupants of the treasury benches the much-talked-of decadence will remain a myth, for although the body politic might be suffering from inertia, yet the heart is sound.

The present cabinet comprises all the elements to do the greatest good to the greatest number, and from the Premier down to the lion whelp of the ministry, Mr. Churchill, are imbued with the true spirit of democracy in helping the weak and discouraged, and that the grey of brindled dawn is breaking is emphasized by the optimistic utterances of some of its members. Besieged by the shrieking sisterhood and beset by German war scares, harrassed by embarrassing questions on naval expenditure, its legislation blocked by the lords, the present cabinet still occupy the Olympian heights, every ready to discourse on anything from literature to financial statistics. The elevation of the chancellor and his colleague to their present high position, prove that there is a tide in the affairs of men which taken at the flood leads on to fortune, and it must be a source of envy to more fortunate members of the House, who, reared in the lap of luxury, have to listen to the fiery eloquence of the former struggling Welsh lawyer or the bluntness of the English mechanic.

In climbing ambition's ladder they have not lost their heads in the clouds, nor scorn their less fortunate fellows, but labor on in their efforts to fulfill the mission they are charged with in breaking down the barriers of ignorance and want. Pursuing the even tenor of their way, advocating Liberalism, not lunacy, the present ship of state, though buffeted by harsh winds, rides triumphant, and with the first glimmerings of day announce the coming sun.
