## ROARIN GAME IN FULL BLAST

Players from Manitoba and Saskatchewan Curling --Fourth Annual Bospiel Opens at Regina

Curlers are here from many places to attend the Bospiel which is now in full swing at the curling rink and the auditorium, which has been requisitioned for the greatspiel.  
Most of the curlers arrived by Monday evening when the annual meeting of the Saskatchewan branch of the R.C.C.C. was held in the dining room of the Wascana hotel. About 45 rinks were entered. Owing to the absence of the president of the association, vice-president Rosborough occupied the chair. Secretary B. B. Ferguson read the minutes of the last meeting which were approved.  
Mayor Smith, who was present in a neat speech welcomed the curlers to the city, and in doing so referred to the spirit of friendliness and sociability which the game engendered amongst those who took part. He trusted the visitors would get a fair share of the prizes as well as enjoy themselves while in the city.  
Mr. Carson, of Winnipeg, who was present with a rink, also spoke, after which the draw was proceeded with.  
The competitions and prizes for the Bospiel this year are as follows:  
Grand Challenge  
First prize—Silver cup, value \$250, and four gold watches, value \$100, presented by Whitmore Bros., of Regina.  
Second prize—Four brass gong chiming, value \$80, presented by the City of Regina.  
Third prize—Four eight day mantle clocks, value \$60, presented by the City of Regina.  
Fourth prize—Four gentlemen's gold watch chains, value \$40, presented by the Branch.  
Saskatchewan Cup  
First prize—Silver cup, value \$125, and four diamond set curling stone pins, value \$100, presented by His Honor, Lieut.-Governor Forges.  
Second prize—Four gold watches, value \$80, presented by the branch.  
Third prize—Four solid gold curling stone chains, value \$30.  
Fourth prize—Four sets military hair brushes, value \$20.  
Drewry Cup  
First prize—Silver cup, value \$150, and four gold watches, value \$100,

## HOSPITAL AID'S MEETING

Finances Show Good Balance--Officers Elected for Ensuing Year

The annual meeting of the Women's Hospital Aid Society was held on Saturday afternoon in the basement of St. Paul's church. The president, Mrs. Bole, submitted her report as follows:  
To the ladies of the Hospital aid, Regina:  
One year ago you did me the honor of electing me president of this society. I take this opportunity to thank you for the honor you then conferred upon me, as I retire to the position of president of such a useful and splendid organization.  
The year of work opened by the ladies catering to the Bospiel, the proceeds of which netted \$75. I regret to say that our next venture was not a success. I refer to the contract with the Chicago Luceum Bureau for concerts, on which we lost considerable. A hall was given in April, which was a great success, both from a social and financial standpoint, resulting in a surplus of

## Preserve Battle Fields

Officers Elected for Ensuing Year

about \$150 after all expenses had been paid. This was followed by a successful china shower, completed our efforts in securing a great many useful and beautiful pieces of China for use in the hospital.  
The principal expenditure of the year was in connection with the erection of a laundry building at a cost of \$500. It has proven a most satisfactory way of handling the laundry obviating the difficulties under which we formerly operated.  
In retiring I wish to thank the officers, the executive and the different committees for the hearty manner in which they have co-operated with me in the work of the aid, and sincerely hope and believe that it will be continued with the devotion that such a worthy cause demands.  
(Sgd.) A. A. BOLE.  
The report of the treasurer was very satisfactory, showing a balance on the right side of \$324.01. After the adoption of the reports, the election of officers was then proceeded with, and resulted as follows:  
Hon. Pres.—Madame Forget.  
Pres.—Mrs. A. G. Snyder.  
1st Vice Pres.—Mrs. McIlree.  
2nd Vice Pres.—Mrs. P. McARA.  
Secretary—Mrs. A. D. Millar.  
Treasurer—Mrs. J. F. Reynolds.  
Purchasing Committee—Mesdames: T. J. Bennett, W. Gee and F. N. Darke.  
Executive—Mesdames Abbott, H. Acaster, T. J. Bennett, J. F. Bole, Hodgkins, Darke, Gee, Dods, Malcolm King, H. C. Lawson, W. F. Kerr, W. Mollard, J. S. McCannell,

## Government to Discuss SEED DISTRIBUTION

Provincial Ministers go to Ottawa to Talk Over the Scheme--Dominion May Finance and Province Distribute

Hon. J. A. Calder and Hon. W. R. Motherwell leave for Ottawa today to discuss with the Dominion government the question of supplying and distributing seed wheat to the needy farmers of this province. This matter has been referred to the local government by the federal authorities, and on Saturday, Wes. Spiers, colonization agent, and W. D. Scott, superintendent of immigration, Ottawa, were in the city and met Mr. Motherwell by appointment to talk over the preliminary features of the undertaking, which Mr. Motherwell told the West, he regards as the biggest scheme the government has had to face. Nothing has been agreed to so far, but there is a probability that the Dominion government will be asked to finance the project and the local government will be asked to assume the responsibility of distribution of the grain. Both governments expect to be able to make a definite announcement in a couple of weeks. It is anticipated that there is sufficient wheat at present in the province to supply the demands, but the most of the good seed oats have been shipped to the head of the lakes and it will be necessary to re-ship them back. This is without doubt an important matter and one which affects the farming interests of the country very vitally, and it is hoped that the solution of the question will be reached at an early date.

**LADIES' Tweed Coats**  
AT SWEEPING REDUCTIONS  
Three-quarter and full length Tweed Coats—about one hundred of them—have been cut in price until they are a marvel of cheapness. Our Coats, this year, have the most satisfying style and quality, and the ones left to be sold now are all new, well tailored, up-to-date Coats in every way.  
\$ 9.00 Tweed Coats at \$ 6.50

**R. H. Williams & Sons, Limited**  
THE GLASGOW HOUSE The Store That Serves You Best

**WHY YOU SHOULD USE "Young Tom" WASHING POWDER**  
BECAUSE—"Young Tom" will soften the hardest water.  
BECAUSE—A solution made from two teaspoons full of "Young Tom" contains as much dirt-dissolving strength as a solution made from twice the quantity of any other soap powder.  
BECAUSE—By putting a solution of "Young Tom" in a tub of water and placing ordinary washing in the tub over night to soak, there is no need of using a wash-board next morning. Simply boil the clothes in fresh water having in it another solution of "Young Tom," then, after "soaking" them thoroughly, hang them out to dry.  
**WHY NOT USE "YOUNG TOM?"** For Sale by all Dealers  
Manufactured only by THE YOUNG-THOMAS SOAP CO., LTD., REGINA CANADA.

**WHEAT WILL SOON SOAR**  
Every Indication that Dollar Prices Will Prevail—Glut of Feed Grades is Over.  
Farmers who are holding wheat in the four upper grades will profit immensely when the spring opens for the market will reach a record price according to the present outlook, and there is no hope for a larger visible supply. The information was given The West a few days ago by one of the leading grain exporters of the province, and he is of the opinion that holders will make a big clean up. Even the feed grades have gone up considerably during the last week and the market has become quite keen all round. There is really a scarcity of wheat for consumption and the mills must have all there is in sight and they will pay the price. The government is making a big mistake in not procuring what is needed to supply the farmers, and they must supply them in many districts, and the more they pay the greater the obligation upon those who are dependent upon them for their spring seed.  
The money situation, as far as the wheat is concerned, is much improved, and the market will not slump again as it did early in the winter. The congestion of feed wheat which practically glutted the grain channels has eased off through eastern consumption, and the whole situation has very much improved.  
**MARTIN NOMINATED**  
W. M. Martin Chosen by Liberals to Contest Regina for House of Commons.  
At a meeting of the Liberals of the Regina constituency held in the city hall yesterday, W. M. Martin, barrister of the firm of Balfour, Martin & Casey, was nominated as Liberal standard bearer for the next campaign. The constituency is a large one, being 124 miles long, from north to south, and about 50 miles wide. While Mr. Martin is a comparatively new timer, yet he has been here long enough to be taken up by the

### The Protection of the Wild

Cy. Warman Before the Canadian Club at Toronto.

Cy. Warman, the noted American poet, writer of Indian tales, lover of nature, etc., etc., addressed the Toronto Canadian Club at luncheon last Monday on "The protection of the wild," and in his charming manner made a strong plea for the Indian, as well as the wild animals and forests.

Mr. Warman has studied Canada's side of the lumber question too, as his statements showed.

He said: "Fortunately for the people of the republic, eastern states are beginning to protect game. The forest, fish and game of Maine yield a rich revenue to the state. Half a million, men, women and children visit Maine annually, leaving fifteen million dollars each year.

"They go to Maine because the forests are full of wild life and because one may fish and shoot from early autumn to the end of the year for \$15. I am told that ten years ago no deer were to be seen in western Connecticut. Today as a result of a few years' protection, you can pick up the fresh trail of the wild deer forty-five minutes from Broadway.

"For you of Canada, this wind that put out the wild life of the American west, is not an ill wind, for it has enhanced the value of your wilderness and at the same time it has taught you, if so, a valuable lesson—to hold what you have.

"But first of all you must save the shelter. The forest is the natural home of big game. Destroy your forests and your game will go, your rivers will dry up, your fish will die, and desolation will brood over this land that God made most fair.

"The preservation of the forest need entail no expense to the state. There are forests in Switzerland that have been cut over 400 years, and the annual revenue increases as the years go by. The old saying that you cannot have your cake and eat it does not hold good here. By scientific lumbering you cut out the old trees and encourage the young ones. It would be almost as foolish to let your forests go to waste uncut, as to allow them to be lumbered wastefully. Mark them, and reap the rich reward, but work them up in Canada.

"If an American manufacturer wants to work up your raw material compel him to come across. The idea used to prevail that the big plant came to Canada for cheap labor. This

is not so today. The International Harvester Company pays precisely the same scale of wages in Hamilton as it does in Chicago, and still saves 30 cents on the first cost of producing a certain machine in Canada. Whatever the answer to this it is certainly no reflection on Canadian workmen. Speaking now as a Canadian to Canadians (I'm at least a half-breed) I say let Americans and American capital come and assist in turning to account the rich resources of the Dominion, and in developing your country, but let them do their developing above the boundary.

"Certainly it is good business to cut and market your merchantable lumber, but the cutting should be done intelligently, and all brush and debris burned as the cutting proceeds which reduces the danger of forest fires, and leaves the soil fit for new growth. No acre of forest should be a meadow leaving only the stumps. Uncle Sam is cutting on hundred billion feet of lumber annually and growing 35 billion feet to fill the gap. Thirty years at this pace will clear his land.

"Broadly, there are two kinds of land in Ontario—land fit for settlement and land fit for forests. All you have to do is to spy out, survey and separate these lands, and they will all yield rich returns. The crown forests of Saxony yield \$4.50 per acre per year despite extravagant semi-military management. Ontario should have at least fifty million acres of forests and game reserves. Some of those should be game havens like Algonquin, some open to the sportsmen as Temagami.

"Up in the northwest corner of Thunder Bay, north of lake Nipigon, south of lake Joseph, and east of the Rainy River district, lies a great stretch of wilderness, which should be set aside immediately as a forest and game preserve.

"And when you have established these forest reserves, try to attract some of the millions that are spent in Maine.

Mr. Warman is a strong advocate of reduction of the hunting license for deer. He would make it \$15 in Canada as in Maine, so as to induce American sportsmen to come over. He also condemned dogs in deer hunting, as a means of driving the deer too far north.

Mr. Warman was cheered loudly as he concluded with "Canada, the World's Happy Hunting Ground."

### NAVIGATING LONG LAKE

Natural Transportation Facilities Utilised by Wm. Pearson Who Had Successful Season With Steamboat

It is a matter of general knowledge that Last Mountain Lake has within recent years been of increasing use as a means of transportation. It affords a natural highway through a very important section of central Saskatchewan, running practically straight north and south, and extending some sixty miles from the northern limit of Craven to its northern boundary at Watertown. The lake stretches as a barrier across the main line of traffic. All the established routes in western Canada run east and west and the railroads have all had to go around this body of water. The Grand Trunk Pacific runs to the north of it, the Canadian Pacific to the south. Last Mountain Lake, stretching between the two, running in practically a straight line, affords a natural highway the value of which was never utilised until quite recently. Some attempt was made three or four years ago to establish communication by boat to various points, but it was not until the Wm. Pearson Co., Ltd. undertook the work that any serious endeavor was to utilise this waterway as a means of communication.

Two years ago they placed on it the steamer "Welcome" and a number of small barges. The company established lumber yards at Arlington Beach and Watertown, and also a receiving yard at McKillop's Landing, at the southern end of the lake. The increasing business demanded improved facilities, and this year they rebuilt their steamer from stem to stern—enlarged its beam, lengthened and equipped her with the finest machines obtainable. The work of rebuilding and repowering the steamer took the greater part of last winter, and nearly all summer and it was not until August that the new boat now named the "Qu'Appelle," was ready to undertake her season's work.

The Qu'Appelle made her trial trip on the 5th and 6th of August. Some needed adjustments to the machinery which were found necessary were made on the 7th and 8th, and it was not until the 18th that she commenced running on schedule. In the interval between that and the close of navigation she missed only two trips those of Aug. 30, and 31, and Sep-

tember 2 and 3. Four times, the trip was not fully completed. On August 14, the Qu'Appelle had to shelter under the headland of Wilkie's Bay all night, and on the 17th stress of weather drove her into the Big arm. On September 8th, she lay at Arlington Beach all night, completing her trip early next morning, and returning the same day. On October 1st she lay at Port Hymen the whole night during a bad storm. Thus out of thirty-six scheduled trips the Qu'Appelle, completed thirty-four.—The Sentinel, Crank.

### Locomotor Ataxia Cured

Locomotor ataxia is a disease of the spinal cord, characterized by peculiar disturbances of the gait, and difficulty in governing the motion of the legs. As the disease progresses there is a total inability to walk. One of the earliest signs is a tired feeling particularly noted in the knees and ankles. Often a numb feeling is associated with it. As the disease is of slow growth, some cases covering a period of years, the increase and intensity of the symptoms is not noticed, but its progress is constant and gradually approaches a total lack of feeling in the legs, causing a wobbling gait and entire inability to govern the steps. As it grows the patient loses control over the bowels and water. A further symptom is the sensation of a pressure at the waist, as the upper part of the spinal cord becomes affected.

Locomotor ataxia is stubborn in yielding to treatment, and before the discovery of Dr. Williams' Pink Pills was considered incurable. However, that this disease can be cured by Dr. Williams' Pink Pills for Pale People. The length of treatment required depends upon the stage at which it was commenced. It is dangerous to delay taking the pills after the presence of the disease is recognised, although this medicine has wrought cures in many cases of long standing.

We give the following statement of Mr. Henry Furrer, a well known resident of Delta, Ont., in proof of the claims that Dr. Williams' Pink Pills will cure this most dreaded of diseases. Mr. Furrer says: "I am deeply grateful that I am able to write you and let you know the great benefit I have derived from the use of Dr. Williams' Pink Pills. Some years ago while working on the Grand Trunk Railway, I injured my back in lifting a heavy weight. Gradually the trouble grew worse and I was taken to the hospital at Brockville. The treatment there seemed to help me and after some weeks I returned to work. I was only at work a few

days when the trouble returned worse than before. Again I went to the hospital, blisters were applied to my spine, but without avail. The doctors told me I had locomotor ataxia, and that there was no help for me as I would never be able to use my legs again. I returned home in the belief that I would always be a helpless cripple, and that death could only bring relief. I gradually got worse and worse. There was absolutely no feeling in my legs. I lost control of both bowels and bladder, and suffered great torture from a girdling pain about the waist. I was in fact a complete wreck and could scarcely sleep at night. Finally a friend asked me, if I ever tried Dr. Williams' Pink Pills, and on my saying no, he got me a supply and I began to use them. It was quite a while before I got any benefit, and finally relief began to come. The pains about the waist ceased. I slept better and my appetite was better. Then the feeling began to return gradually to my legs, and then I was able to stand alone. As time went on the improvement continued, and I was at last able to go about with the use of a cane, and I could get in and out of a buggy without assistance. I scarcely hope to be the vigorous man I once was, but only those who suffered as I did can imagine the gratitude I feel for what Dr. Williams' Pink Pills have done for me. I strongly and sincerely advise similar sufferers to give this medicine a fair trial."

You can procure Dr. Williams' Pink Pills from any medicine dealer at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### WOULD BURN POST OFFICE

Timely Discovery of Fire Saves Buildings and Lives at Caron

Caron, Sask., Jan. 12.—An attempt was made last night by some unknown persons to burn the post office building, in which two young ladies resided overhead. Entrance was attempted by the back window, but falling here, the front window was opened, paper placed on the floor and coal oil poured over this and the floor. The fire burned across the new box partition going through the floor and was by some means extinguished, otherwise, the Saskatchewan Trading Co., Merchants Hotel, Bank of Hamilton, Haldin's Restaurant, Caron Mercantile store and other buildings would have undoubtedly been destroyed also. Such an outrage has creat-

ed great excitement, but, as yet there is no clue to the perpetrator. The Lake of the Woods Milling Co.'s office was also broken into, evidently by the same parties.

Trial Catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by the Regina Pharmacy Stores.

Wapella, Jan. 10.—A small house occupied by John Hazelwood, blacksmith, was entirely destroyed by fire last night. Mr. and Mrs. Hazelwood were out at the time, and the fire was not noticed until too late to save the building, but most of the contents were taken out.

## Local and General

Hon. F. W. G. Haultain spent Saturday and Sunday at Qu'Appelle and Wolsley.

A Bell of the Lansdowne, returned yesterday from spending several days in Winnipeg.

Jno. Knox, inspector for the Dominion Express Co., was in the city Monday.

It is rumored that the government will erect a new jail at Regina during the coming summer.

The hotel at Nokomis owned by B. A. Sca was totally destroyed by fire on Monday morning.

The Racine Sattley Company have made arrangements for opening a branch office in Regina.

The McCarthy Supply Co., are putting on a red tag sale. See their advertisement elsewhere in this issue for startling reductions in prices.

A concert comprising vocal and instrumental items will be given in the city hall on Thursday evening under the auspices of St. Chad's Hostel.

E. W. Seeley and wife have taken a trip to Toronto, Ottawa and Montreal. They expect to be absent about four weeks.

The Trades and Labor Council will hold a meeting on Saturday evening at which the officers for the year will be elected.

A Leap Year social under the auspices of St. Mary's Ladies' Aid, will be held on the 21st inst. in the reception rooms of St. Mary's Presbytery.

J. T. Mutrie, formerly of Regina, was married last Wednesday to Miss Isabel Bethune, a former teacher of Regina schools. Mr. and Mrs. Mutrie will make their home at Vernon.

The city council will take over the Victoria hospital after February 1st. A commissioner in the person of G. M. Baird of Indian Head has been appointed to manage the hospital at a salary of \$75 per month.

A bill will be introduced at the present session of parliament to provide for the issuing of scrip to each volunteer who enlisted for South Africa from Manitoba, Saskatchewan and Alberta.

J. A. Goth, who has been absent from the city since October returned home Monday. He spent some time in Ontario and in New York state. While away Mr. Goth disposed of some Regina property.

Baptie and Bellefeuille gave a very interesting exhibition of speed, fancy and trick skating at the auditorium rink on Saturday night. A large crowd was in attendance.

A number of local Knights of Columbus left on Friday last for Edmonton where they participated in degree work. The party returned to the city Tuesday having had a most enjoyable trip.

The Regina Flour Mill Co., are advertising in this issue a new coal which they are handling. There are no screenings or fine coal in what they sell as they use those parts for their engines at the mill.

A motor boat designed by Mr. F. Hewitt and built by the Regina Machine & Iron Works is on display in the windows of the Trading Co. It is well designed and built and reflects great credit on those who had it in hand.

The Canadian Courier is authority for the statement that every week some British judge dismisses a prisoner on the plea that he "has promised to go to Canada." This throws a side light on the origin of the editorial staff of the Regina Leader.—Regina Standard.

D. S. McKenzie deputy minister of education for Alberta and D. P. McGill, deputy minister of education for Saskatchewan, left last Thursday evening for Winnipeg to attend a conference regarding the new school books for the three western provinces.

It is believed that the C.N.R. will extend their railroad from Regina to Medicine Hat during the coming summer. The people of Medicine Hat have been assured that part of the \$15,000,000 secured in England by Mackenzie & Mann, will be expended for that purpose.

Mr. A. Lewis, late manager of the King's Hotel, was the recipient of a handsome leather trunk from the members of the Elk's Club last Friday evening. He was also dined at the Wascana hotel by the members of the R.N.W.M.P. lodge A.F. & A.M., the same evening.

The Bell Telephone Co., are now changing their system here so as to provide that their patrons will not have to ring up central. Under the new arrangements which are to be made all that will be necessary will be to lift the receiver. The arrangements for this new feature it is expected will be completed in about three weeks.

Victor Dane a young fellow from Wolsley was brought here on Thursday evening last and taken to the hospital in Wright Bros. ambulance. The little fellow was standing near his father who was chopping wood, when the axe glanced and cut the knee cap of one of his son's legs. The wound was very painful.

The trial of Samuel Pryor on the charge of murdering Rosie Mohr will take place at Wolsley before Chief Justice Newlands, on Wednesday, January 22. The trial will not like by last more than a day. Levi Thompson will prosecute, while F. W. G. Haultain will defend the prisoner.—Wolsley News.

The new invention of a Toronto furrier is certainly a great thing—looks like a muff and can be used as such; fold a little flap over one end and it is a tea cosy, unbutton the middle and it becomes a chair cushion, wrong side out with both ends tucked, it is a sofa pillow; rolled up tight with the fur inside it makes a first class football, and after a season's wear it makes an ideal bed for a dog.—Ex.

Max Heppner, of Montreal, was in the city last week, a guest at the Lansdowne. Mr. Heppner came west as a representative of Baron Hirsch, and visited the colony at Hirsch, Sask., named after the well known Hebrew philanthropist. While at the colony, Mr. Heppner discussed the matter of seed wheat, and there is no doubt that if the government does not provide seed for the needy Jews, the good old baron will again come to their relief.

It apparently pays the farmer to store his poor wheat in the granary before he sells. N. E. Cribb at the time of threshing put his poorest car of wheat in the granary and held it until last week. When this wheat was threshed, about twenty-five per cent of it was green kernels, soft.

When it was loaded all the green kernels had colored and hardened, and it graded two grades better than wheat of the same field shipped at the time of threshing. Besides the difference in price on those two grades and the better prices when sold, Mr. Cribb has gained thirty cents per bushel on that car. The gain is twice as much as what some farmers sold their wheat for at the elevator. This is only one instance of many that have come to our notice lately.—Heward Chronicle.

Drink and the gang drinks with you; swear off and you go it alone, for the bar room bum who drinks your rum has a querulous taste of his own. Feast and your friends are many, fast and they cut you dead; they'll not get mad if you treat them bad so long as their stomachs are fed. Steal if you get a million, for then you can furnish bail; its the limit thief who gets out on leave

Dr. Henderson, pastor of the Dominion Methodist church, in the course of his sermon tonight took a few raps at Ottawa's high society. "There are

two classes of people in this country who are not civilized," said Dr. Henderson. "The barbarian Indians in the west, who live like groundhogs or chipmunks, and the extreme society people, who live like bumblebees or butterflies. The best society of Ottawa does not have its name appearing in the society columns of the newspapers."

Dr. Henderson declared that it was outside of the preacher's province to denounce those who danced or went to the theatre, but those who devoted their time to such amusements were usually the least educated in their heads and brains.

The scenic and electrical effects used in this city by Manager Walker's attractions speak well for all concerned. The lighting effect in the first scene of Raffles last Friday evening deserves special mention. On the rise of the curtain a round of applause showed that the people of Regina appreciate a good thing when they see it. Cripple Creek Co., are said to be as well off, if possible, better equipped than the Dominion Stock Co.

St. Chad's hostel has issued a magazine, the first number appearing this week. It will appear quarterly, and its name is to be "St. Chad's." Its purpose, we presume, from the first leading article is: "With no claim to literary style or effort 'St. Chad's' will from time to time bring before its readers the story of a portion of the missionary effort now finding an outlet among the many thousand settlers in the Canadian Northwest."

We regret, for the sake of Regina, to find the following paragraph, referring to the arrival in Regina of the Rev. C. R. Litterer and party, appearing in the issue: "The house was unfinished when the party arrived. For two weeks the warden and students camped in unfinished rooms, finding ingress and egress through an unglazed bedroom window, reached by a somewhat primitive rickety ladder. The first meal at the hostel was spread upon a few rough boards placed over some empty cement barrels in the yard. Still inconveniences and discomforts were nothing new to the warden, and his students entered wholeheartedly into the situation, and worked with good will in getting the house ready for occupation."

It may sound like pioneering all right, but we fancy that it is real news to the most of the Regina people, who, we are sure, were so pleased to see the opening of such an institution in Regina that they would gladly have made it more pleasant for the party had they any knowledge of what has been written.

Discovery of gold by Wabeta, a full-blooded Ute, "At Cripple Creek."

On Saturday January 18th there will be another of Manager C. P. Walker's attractions in our city. The great western play, "At Cripple Creek" is the evening bill. In the afternoon a matinee of "The Fatal Wedding." Cripple Creek is a simple story of western life the scene being laid in Colorado in the early eighties.

The caste is one of the strongest that will visit Regina this season, having for leading man the celebrated Ernest Fisher, supported by a company of 14 people.

Two cars of scenery and electrical effects are carried, the first arrives on Friday so that a prompt and effective performance is ensured both afternoon and evening.

Two classes of people in this country who are not civilized," said Dr. Henderson. The caste is one of the strongest that will visit Regina this season, having for leading man the celebrated Ernest Fisher, supported by a company of 14 people.

Two cars of scenery and electrical effects are carried, the first arrives on Friday so that a prompt and effective performance is ensured both afternoon and evening.

Two classes of people in this country who are not civilized," said Dr. Henderson. "The barbarian Indians in the west, who live like groundhogs or chipmunks, and the extreme society people, who live like bumblebees or butterflies. The best society of Ottawa does not have its name appearing in the society columns of the newspapers."

Dr. Henderson declared that it was outside of the preacher's province to denounce those who danced or went to the theatre, but those who devoted their time to such amusements were usually the least educated in their heads and brains.

The scenic and electrical effects used in this city by Manager Walker's attractions speak well for all concerned. The lighting effect in the first scene of Raffles last Friday evening deserves special mention. On the rise of the curtain a round of applause showed that the people of Regina appreciate a good thing when they see it. Cripple Creek Co., are said to be as well off, if possible, better equipped than the Dominion Stock Co.

St. Chad's hostel has issued a magazine, the first number appearing this week. It will appear quarterly, and its name is to be "St. Chad's." Its purpose, we presume, from the first leading article is: "With no claim to literary style or effort 'St. Chad's' will from time to time bring before its readers the story of a portion of the missionary effort now finding an outlet among the many thousand settlers in the Canadian Northwest."

We regret, for the sake of Regina, to find the following paragraph, referring to the arrival in Regina of the Rev. C. R. Litterer and party, appearing in the issue: "The house was unfinished when the party arrived. For two weeks the warden and students camped in unfinished rooms, finding ingress and egress through an unglazed bedroom window, reached by a somewhat primitive rickety ladder. The first meal at the hostel was spread upon a few rough boards placed over some empty cement barrels in the yard. Still inconveniences and discomforts were nothing new to the warden, and his students entered wholeheartedly into the situation, and worked with good will in getting the house ready for occupation."

It may sound like pioneering all right, but we fancy that it is real news to the most of the Regina people, who, we are sure, were so pleased to see the opening of such an institution in Regina that they would gladly have made it more pleasant for the party had they any knowledge of what has been written.

Discovery of gold by Wabeta, a full-blooded Ute, "At Cripple Creek."

On Saturday January 18th there will be another of Manager C. P. Walker's attractions in our city. The great western play, "At Cripple Creek" is the evening bill. In the afternoon a matinee of "The Fatal Wedding." Cripple Creek is a simple story of western life the scene being laid in Colorado in the early eighties.

The caste is one of the strongest that will visit Regina this season, having for leading man the celebrated Ernest Fisher, supported by a company of 14 people.
