Annual Convention.

Leeds County W.C.T.U. Met in St. Paul's Presbyterian Church on Wednesday Last.

Wednesday last was a red letter day in the history of the W. C. T. U. in Athens and surrounding country. The Leeds County Christian Temperance Union held their annual convention in St. Paul's Presbyterian church. The three sessions were fully taken up with valuable discussions, which proved of value to the delegates present. The valuable work that this christian organization has undertaken is bearing forth abundant fruit.

The representation was good, covering the county of Leeds, and numbered about thirty delegates. The reception of the delegates who were present was cordial and the members of Athens W. C. T. U. vied with each other in extending to all the glad hand of welcome, and, as all present said, "They would not soon forget the kind way they were used and the attentions paid them while here."

The convention was the means of many Athenians finding out for the first time the noble and self-sacrificing work carried on by this christian society. The results for good of the convention cannot be estimated. The executive meeting of the officers and delegates was held on Tuesday evening at the residence of Miss Stone, the secretary.

Wednesday morning, the convention proper, commenced at 9.30, and was called to order by the President, Mrs. Clifford, of Brockville. The roll call of officers, etc., was answered by the officers, 20 delegates, and 8 superintendents. The department reports were by far the most interesting subjects presented at this session. There were sixteen departments to be heard from and all had most encouraging papers on the work done during the year. Mrs. Mackie who had charge of the work in connection with the lumbering industry, stated that \$38.80 by the unions for the support of the two missionaries in the camps, and 12 contour bags, 1 box of clothing and 40 lbs of literature. Mrs. W. H. Dowsley, of Brockville, gave the following items in connection with her department—railroad work and literature. 11 station boxes were maintained and that there were 1273 pages of literature distributed.

The following were appointed a committee on work and resolutions:—Messdames Elliot, Newell, Lehigh, Britton, and Miss Marshall.

Flower Mission—317 bouquets distributed with scripture texts attached, \$7.70 expended, 1 doz. oranges, 1 plant 17 qts. canned fruit, 4 pecks fresh fruit 2 jars marmalade, 1 bush potatoes besides several families assisted with clothing and food.

Miss Giles presented an excellent report on the flower mission. The Brockville Y's leading in this work, all of which reports were duly heard and adopted.

The election of officers of the union for the current year followed the discussion on the report and resulted as follows:—

President — Mrs. M. Dowsley, Brockville.
1st Vice-President — Mrs. B. O. Britton, Gananoque.
2nd Vice-President — Mrs. Clifford, Brockville.
Corresponding secretary — Mrs. C. C. Slack, Athens.
Treasurer — Mrs. W. Johnson, Athens.
Auditor — Mrs. J. H. McLaughlin, Athens.

The following were appointed superintendents of departments:—

Scientific Temperance Instruction — Mrs. Elliot, Athens.
The Press — Miss Boyd, Brockville.
County Fairs — Mrs. Judson, Lyn.
Soldiers and Sailors — Mrs. Davis, Gananoque.
Social Purity and Mothers' Meetings — Mrs. C. C. Slack, Athens.
Railroad work and Literature — Mrs. W. H. Dowsley, Brockville.
Flower Mission, Juvenile and Y Work — Miss Lillie Cole, Brockville.
Narcotics — Mrs. F. Lehigh, Brockville.

Evangelistic Work — Mrs. G. M. Beach, Lyn.

Lumbermen — Mrs. V. L. Mackie, Lake Elvida.

Woman's Journal — Mrs. J. Karley, Brockville.

Sabbath Observance — Mrs. M. White, Brockville.

Parlor meetings — Miss Laura Deacon, Brockville.

Systematic Giving — Mrs. B. O. Britton, Gananoque.

Franchise — Mrs. D. C. Cowan, Gananoque.

Temperance in Sabbath Schools — Mrs. F. H. Clifford, Brockville.

The afternoon session opened with prayer and scripture reading. The Cor. Secretary reported that the following unions were now in operation in the county:—Lansdowne, Lyn, Brockville Y's, Athens, Gananoque, Brockville W's, and Lake Elvida Woman's band, also a junior Y. had been organized in Brockville with a membership of nearly forty five, \$400.00 was raised for the work, 18 meetings held and 16 copies of the Woman's Journal subscribed for. The total county membership is 123 with 14 honorary members of which two had gone to their reward during the year. There was an excellent Band of Hope. The finances were found to be on the right side of the ledger. Excellent papers were given on "Narcotics" by Mrs. F. Lehigh, on "The Duties of Superintendents" by Mrs. Britton, and a Parliamentary drill on the "Franchise" by Miss Stone. After appointing Superintendents for the various departments and other minor items of business, the meeting adjourned until 7.30 p.m.

The evening session was rather different in its make up to the preceding ones and took the form more of an entertainment than a session. After devotional exercises led by Rev. Simmons, Mrs. Wm. Johnston gave a paper an address of "Welcome." Space would not permit a verbatim report, but suffice it to say that it was one of the best delivered at the convention and Mrs. Johnston was the right one to deliver it to make it effective. It was certainly original and deserves praise. To Miss F. Dowsley was given the rather difficult task of replying which she did with grace and ease in a very becoming manner. After a beautiful hymn entitled, "Abide With Me," by the Misses Wiltse, Mrs. Clifford gave a spirited address giving the progress of the movement from its inception to the present. It is certainly a record to be proud of. The next number was given by Miss Shields, who sang a lullaby, "Dreamland," and as usual was heartily encored. The reciting by Miss Nina Code, of Brockville, of "Jennie" was well done. Mrs. Karley of Brockville read another splendid paper on "Narcotics," and was followed by Athens favorite singer, Mrs. S. C. A. Lamb, in a beautiful song entitled, "In His Steps." Miss Coad of Brockville, who read a paper on "The Pledge," showed that she was conversant with her subject by the able arguments presented for her hearers' consumption. Miss Shields gave a second number entitled "I Heard the Voice of Jesus say," which was well received. "The Priceless Gift" a pretty song was exceedingly well rendered by Miss Nina Coad, accompanied by Miss Storey on the organ. Rev. Mr. Simmons on behalf of the resident ministers, gave a stirring address, which had a good deal of weight with his hearers. Mr. Simmons is a young man who has excellent natural abilities and who will rapidly rise to the front. Mrs. A. E. Donovan proved an exceedingly sympathetic accompanist on the organ. The usual formula was then observed in closing the meeting. Thus closed one of the most successful gatherings ever held here.

NOTES.
The delegates will not soon forget their visit to Athens.

The following were some of the delegates present and where they were billeted:—Mrs. B. O. Britton, Gananoque, at Mrs. Elliott's; Mrs. Wiltse, Gananoque, at Miss Derbyshire's; Mrs. M. Dowsley and Mrs. W. H. Dowsley, Brockville, at Mrs. Mott's; Mrs. F. Lehigh at Mrs. Stone's; Mrs. J. Karley and Mrs. J. Cole, at Mrs. (Dr.) Giles'; Mrs. Judson and Mrs. Newell, at Mrs. A. Blanchard's; Mrs. Clifford, at Mrs. I. C. Algire's; Miss Gertrude and Miss Nina Coad, at Mrs. Wilson's; Miss F. Dowsley, at Mrs. H. H. Arnold's; Miss L. McKenzie, at Mrs. A. W. Blanchard's; Miss B. McCopdy and Miss T. Storey, at Mrs. B. Arnold's; Miss B. Gates and Miss M. Baker, at Mrs. C. C. Slack's.

BROCKVILLE CUTTING SCHOOL

IN ORDER to meet the demand for first-class cutters, which is steadily increasing, I have opened up in connection with my tailoring establishment a Cutting School, to be known as the Brockville Cutting School where the latest up-to-date systems of cutting will be taught, also instructions on the practical work of the tailor shop, which is most essential for a young man to become a first-class cutter, and which will enable him to command a salary of from One Thousand Dollars to Fifteen Hundred Dollars per year in this country and from Fifteen Hundred Dollars to Two Thousand Five Hundred Dollars per year in the United States. This is a rare chance for young men to fit themselves for a lucrative position in a short time. Persons attending this school will receive a thorough training in everything connected with Garment Cutting, and after graduating are competent of filling a position as custom cutter at once.

Pupils will be taught individually and may commence their instructions at any time convenient to themselves.

For all information, see catalogue, which will be mailed to you upon application.
Yours truly,
M. J. KEHOE

The Coming of Gillian: A Pretty Irish Romance.

Again fair shines the sun, and loomed in the treacherous blue sky, and more or less damp and parboiled from steamy "waterproofs" and mackintoshes the young men and maidens arise; and Lady Damer, who doubtably gives the order to march forward to Glenmalur at their best speed.

Watch them with a fire of jealous anguish in her dark innocent eyes, with an agony of suppressed misery in her childish, white face so piteously lit up in this keen, new torture of a woman's pain.

Deane was tired out, and Lady Damer wished to take her home. "Pray don't apologise," George says, a little stiffly, raising his hat as he comes to the back of the car.

HOW TO BE HAPPY EVEN THOUGH MARRIED. (By Dorothy Dix.)

- The problem of how to be happy, though married, is one of the burning questions whose interest cannot waver with the seasons. Those who are already married, and those who are about to marry, remedy this want by the matrimonial system, be sure cure of the ills of domestic life and a preventive of divorce.

will accept a seat, then; thank you, Miss Deane, who touches hers. He comes around to her side of the car, and tucks the rug in carefully beneath her feet, and beside her dress; and twice as he does so his unglued hands touch hers.

And at the touch of the warm, strong right hand the girl's soul wakes into the passion of a woman's life; the very pulses of her heart tremble in an ecstasy of mingled anguish and delight.

"You are all right and comfortable, I hope?" he asks, and Captain Lacy answers for her, rather curtly: "Oh, don't do that!" he says, with his frank, good-tempered laugh.

And he raises his hat again, and is turning away, when Gillian, and is in an excited, unsteady voice, "If you don't allow us to drive you home, Mr. Archer, I will not take the car."

"Oh, don't do that!" he says, with his frank, good-tempered laugh. "I will do it!" Gillian says, a little abruptly.

"Good night, my dear child," Lady Damer says, kissing her forehead, and once more detaining her, with her lips at Gillian's ear. "Don't you mind anything?" she asks with a mysterious, rosy smile.

"I am not at all," she says, with a shrill note of the fiddles, the beat of the dancers' feet, and the tremendous thumping of the hoofs on the dancing-boards in the barn, with the shouts—

"It's an awful nuisance," he says, more earnestly than he usually says anything, "but unless you go home on an Irish jaunting-car, Miss Deane, I don't know how you can go."

"I shall be delighted to go home on an Irish jaunting-car, if I have never seen one. It is difficult to sit on."

"Yes, and easy to fall off of," Captain Lacy says, briefly. "But that is tipsy, as I guessed he would say. I cannot take Donnelly, the coachman, as he is only the large barouche; they did not send the phaeton from Mount Ossory.

TO BE ADMITTED FREE.

It is hereby ordered, that Canadian cattle may be imported into the United States for exhibition purposes at the International Live Stock Exhibition from November 30th to December 7th, 1901, at Chicago, Ill., without being subjected to the tuberculin test; provided, that they must be accompanied by a certificate issued by a Canadian official veterinarian, stating that such cattle are free from contagious and infectious diseases; and provided further, that they must be returned immediately to Canada at the close of the Exposition. All Canadian cattle, sheep and swine intended for this exposition must be shipped directly to the exposition grounds and not unloaded in any public stock yards. (Signed), J. H. BRIGHAM, Acting Secretary.

YOU NEEDN'T.

You needn't keep on feeling distressed after eating, nor belching, nor experiencing nausea between meals.

In other words, you needn't keep on being dyspeptic, and you certainly shouldn't. Hood's Sarsaparilla cures dyspepsia; it strengthens and tones the stomach, perfects digestion, creates a normal appetite and builds up the whole system.

AN EXCELLENT MOVEMENT.

"I would advocate the renting of a large room, on the ground floor, which would at all times be open to the public. In cold weather it should be well heated, and at night should be well lighted. It should be supplied with tables, chairs, papers, and if possible, magazines. It should be a place where men of all classes, old and young could resort to in the evening; where they could talk louder than in a whisper; and where they could enjoy a quiet smoke if they desired, and where they could meet their companions and associates, and talk over the affairs of the day, discuss social and municipal questions, and in fact spend their evening in comfort."—Smith's Falls News.

The above are practically the words of Rev. J. T. Pitcher, as spoken in a sermon preached in the Methodist church, Smith's Falls, recently. The idea is one which the Reporter gave prominence to some months ago, and one which we heartily endorse. Such a place would prove an attraction and it would become a popular resort to the young men about town who have no place to go in the evening and who cannot content themselves after their hard day's work by remaining shut up in their boarding houses. It would prove an attraction for the married man, who after his day's toil likes to meet his fellow workman, and with him chat over the affairs of the world, political and social, discuss the latest inventions, and get new ideas on things in general. It would prove an attraction to the man who spends his evenings standing on the street corners simply because he has no where else to spend them.

Of course the question will at once be asked, how is such a place to be established, and once established how maintained? It cannot be maintained without considerable expense and where is the money to come from? To this we reply that maintenance must depend on voluntary contributions. Occasionally an entertainment could be gotten up to help pay the rent but voluntary contribution of those of our citizens who are able to contribute would have to be depended upon.

The subject is one worthy the serious discussion of our churches, and one which the Reporter would like to see taken up and discussed. Occasionally, say once or twice a month, some of our professional and business men could be induced to give a talk on some of the leading topics of the day, and there might be arranged a free concert at which some of our local singers would consent to appear.

Then again if thought possible, there could be a refreshment stand run in connection with the hall where hot tea and coffee would be sold in cold weather and ice cream and soft drinks in warm weather. But these details are an after thought. The question is, can such a proposition be carried out and the best answer is, let us try and see. It is to be hoped that Rev. Mr. Pitcher will not let the matter drop, but endeavor to interest his fellow clergymen in the scheme. If necessary a meeting of our citizens should be called to talk the matter over.

OUR CAPTAIN, SECRETARY AND TREASURER.

We have among our students here, A Jude, I will describe; He's captain of our foot ball team, And treasurer besides.

This captain is a corker, boys, In tossing up the ball, And in playing tennis, I need not say, He opens the eyes of all.

He takes the cake, with boxing gloves, They all can tell you that; So then should we not all feel proud, To serve a dude like that?

When in the game he plays full-back, And knocks them high and low; I tell you friends this captain of ours, Was never found too slow!

He also has a charming voice, So darlings do not fail; To attend our annual concert here If you want to go home pale.

This captain is a bright young chap, His head will show you this; So may he ever with us dwell, Or we might go amiss.

WESTERN CANADA.

ITS TERRITORY NOT EXCELLED IN THE WORLD FOR PRODUCTIVENESS.

Westward the star of empire takes its way," is a saying that finds its latest illustration in Canada. Winnipeg declares with united voices that this bustling, progressive, typically western empire that is to be, "The Chicago of Canada," is one of the favorite titles given to the city by loyal Winnipeggers and there is good reason to believe that Winnipeg will largely justify the hopes that are entertained concerning it. Indeed, it is doing so already. It is the natural metropolis of a great territory of inexhaustible fertility. It is not only the greatest grain market in Canada, but one of the greatest in the world. At present the grain storage capacity of western Canada, of which Winnipeg is the most important point, is 22,000,000 bushels. The daily milling capacity of Winnipeg is about 11,000 barrels, while its ex-

port of grain is already enormous and is increasing every year. The Ontario miller is no longer supreme, as in the old days, nor does Toronto any longer set the standard for the grades of wheat. This is now done through the Winnipeg grain exchange, a body of men second to none in business ability, enterprise, pluck and sagacity. This year's wheat crop which has just been harvested is unusually fine in quality, and is variously estimated at from 40,000,000 to 50,000,000 bushels, a crop which will make the whole of western Canada prosperous, without taking into account the large yield of hay and oats, the former being a spot cash product the year round at a good price.

Western Canada contains a territory that can be beaten nowhere in productiveness and general desirability. In deed, Canadians themselves know very little about these growing and prosperous provinces of Manitoba, Assiniboia, Alberta and British Columbia, and still less about the unorganized territories lying just north of them, namely Saskatchewan, with an area of 114,000 square miles; Athabaska, with an area of 198,300 square miles; Mackenzie with an area of 565,000 square miles, and Keewatin, with an area of 756,000 square miles. The popular notion that these territories are semi-arctic in temperature is absurdly erroneous. A great part of their area would make finer wheat lands than any now known besides being rich in minerals and admirably adapted for cattle raising on account of the fine quality and abundance of the grass.

WILL USE VOTING MACHINES.

Kingston City council has decided to adopt the McDonald voting machine for the municipal elections in January next. The machine consists of an oblong wooden box constructed somewhat in the shape of the grain elevators on the harbor front. Along either side and near the top of the box are a number of pigeon-like holes with swinging doors. These openings are just large enough to admit a small steel ball a trifle larger than a marble. Each hole represents a candidate, whose name and portrait appears above the opening. Two balls cannot be put into one hole. The voter having cast his ballot steps from the machine and the deputy returning officer draws a slide, causing the balls to drop to the bottom, and in their descent to register on a small counter similar to a cyclometer, there being one of these counters for each opening, so that each candidate's vote is counted separately. It is impossible to "stuff" the machine, for the reason that the balls would be possible for to squeeze two balls into the one opening only one would register and the other would block the machine, which could not be used again until the second ball was removed.

A rental of \$5 each is paid for the machines. The inventor of the machine is an old Kingston boy, now a resident of Winnipeg, and it is claimed that in an election in that city when the machines were used, all the reports were in ten minutes after the polls were closed.

The photographs of H. R. H. The Duke and Duchess of Cornwall and York are now ready. The pictures show an excellent resemblance to Their Royal Highnesses and are finished in an up to date manner. They are sold at the very low rate of 10 cents each. Send in your order early. For sale at the Reporter Office.

Useful Old Calendars.

It has been discovered that it would be possible to use the same calendars every 20 years, when the dates of the months fall on the same days of the week, thereby avoiding the expense of five almanacs for the present century. But here is something even better than that: Those persons who might be able to get hold of calendars for the twelfth century would find the days and dates coincident with the present century. Again, those with a frugal mind who have preserved the almanacs of the nineteenth century will avoid an outlay for calendars of the century commencing Jan. 1, 2201, as the dates for the 100 years following will be like those of the last century.

Knew What to Tell.

There is a story in the Boston Transcript about old black Joan, a mammy of the good old kind, who was warned at a critical period in the family fortunes not to tell all she knew to the smaller children. "Huh!" said Joan scornfully. "Tink I dunner how to talk to 'dat blessed chile, dat it' Cely? De Lawd knows"—and up in pious protest went the pupils of Joan's eyes, and out went two broad and floury palms from the span of dough—"de Lawd 'Amighty knows I 'ae dat keerful wat I say to dat it' honey sweet, hly white lamb er Cawd dat I ain't naber yit tole her one single word ob trut."

Turn About in Order.

"There is an unusual amount of safe cracking at present," remarked the observant boarder. "There is," replied the cross-eyed boarder. "Safe cracking should be made unsafe."

How They Answer.

How to say "no" is a thing to be learned by every young girl of today. The slangy girl really is bad with her "Nip!" But the honey girl's worse with her "Nigh!"

The marriage was opposed by the young artist's mother and Mr. Coghlan's sister, Rose Coghlan, but the lovers were obdurate. After one year of married life there was a divorce. Most of Miss Beveridge's life has been spent in London, New York and California.

From Foes to Friends.

During a charge of the Dublin Fusiliers in the South African war an Irish lad stumbled into a scone and almost on top of a hiding Boer. He was so close that he managed to run him through the shoulder with his bayonet at the same time as the Boer fired his rifle from his hip. They both fell wounded, one on top of the other, and lay there while the battle swept on beyond them. All at

AS HE HANDED IT OVER.

once the Irishman heard a suspicious gurgling sound. It was not the death rattle of his opponent, but came from the tin water bottle that the Boer was applying to his lips. The Irishman, who was not badly wounded, touched the Boer on his elbow. "My friend," he said, "could you spare me a little of that?" "Certainly," said the Boer in good English, and handed it over.

It contained something stronger than water and the man from Dublin smacked his lips. The bottle passed to and fro several times and they began to grow talkative. They helped tie up each other's wounds and were discussing their families, avoiding the painful subject of the war, when a bearer company searching the battlefield found them.

Torpid Liver

Is sometimes responsible for difficult digestion, that is, DYSPEPSIA.

When it is, What headaches, dizziness, constipation, What fits of despondency, What fears of imaginary evils, conduce with the distress after eating, the sourness of the stomach, the bad taste in the mouth, and so forth, to make the life of the sufferer scarcely worth living!

Dyspepsia resulted from torpid liver in the case of Mrs. Jones, 2320 N. 15th St., Philadelphia, Pa., who was a great sufferer. Her statement made in her 77th year is that she was completely cured of it and all its attendant aches and pains, as others have been, by a faithful use of

Hood's Sarsaparilla

That acts on all the digestive organs, cures dyspepsia, and gives permanent vigor and tone to the whole system.

The practical side of science is reflected in

A monthly publication of inestimable value to the student of every day scientific problems, the mechanic, the industrial expert, the manufacturer, the inventor—in fact, to every wide-awake person who hopes to better his condition by using his brains. The inventor, especially, will find in The Patent Record a guide, philosopher and friend. Nothing of importance escapes the vigilant eyes of its corps of expert editors. Everything is presented in clean, concise fashion, so that the busiest may take time to read and comprehend. The scientific and industrial progress of the age is accurately mirrored in the columns of The Patent Record, and it is the only publication in the country that prints the official news of the U. S. Patent Office and the latest developments in the field of invention without fear or favor.

—The Rev. J. C. Sycamore, M. A., of Brockville, will conduct anniversary services in the Baptist church next Lord's Day, morning and evening, and will also deliver a popular address on the following evening. Free will offering. The public are cordially invited to attend.

—It's amusing, says an exchange, to see the frantic efforts of certain persons in trying to run enterprises without the aid of a newspaper. Hand bills are gotten, up placards displayed, and walking advertisements utilized, but all with very little effect. One little two-line notice and longer ones in proportion, in a live newspaper are worth more in bringing before the people what is being done in any particular line than all the handbills or fence notices you could post in a week. People expect to learn from a newspaper what is going on, and if any local enterprise, show, lecture etc., is not mentioned in the paper, the majority of readers think it is not worth mentioning and they decline to patronize it. The time has gone by when the enterprise which depends upon the people for support can afford to ignore the newspaper.

—The Rev. W. W. Giles, of Sammit N. Y., the pastor of the First Baptist church there, who is at present at Charleston, will occupy the Methodist pulpit on Sabbath evening, Oct. 20th, and will preach on the subject, "The Philosophy of the Fool" based on the text: "The Fool hath said in his heart there is no God." Mr. Giles will also preach a sermon for men at the evening services on Oct. 27th, on the subject "The supernatural sense in man revived by Jesus Christ, based on our Lord's interview with Nathaniel; Text—John 1: 13, "And he saith unto him; Verily, Verily, I say unto you, Hereafter ye shall see Heaven open, and the angels of God ascending and descending on the Son of Man." The point will be that every man has a supernatural sense entirely above and apart from the economic faculties of reason, memory and imagination, etc., and that it is the mission of Jesus to reopen it. These sermons should prove of practical value to all. The sermon to men should be very largely attended. All are cordially invited.

TO SEE THE DUKE.

Athens was completely deserted yesterday afternoon, owing to the large number of our residents taking in the cheap rate excursion to Brockville, to see the Duke and Duchess of Cornwall and York there.

The B. & W. capacity for accommodating the large crowd was taxed to its utmost, but by dispatching two trains out ward from Brockville succeeded in conveying all to their homes.

Brockville, from early morning until late at night, was the centre of a vast concourse of eager people anxious to see the Duke and Duchess. At some points on the line of procession it was impossible to move, so numerous were the people.

The time set for the arrival of the magnificent steam ship Kingston at Brockville was 6 p.m., but it was not until 6.30 that the boat whistled. To the observers at the wharf, the vessel was one mass of light from top to bottom. The 41st regiment with the cabs and band were all in readiness for the disembarkation. When the Duke and Duchess made their appearance it was the signal for the large number of people to cheer vociferously and the band to strike up the well known anthem, "God Save the King." The Governor-General and Countess of Minto rode ahead of the royal carriage, and Sir Wilfrid and Lady Laurier followed behind. The mounted soldiers, half of which went ahead of the ducal carriage while the remainder followed directly behind. The carriages were driven directly to the G.T.R. station where the royal party boarded their private car, the Cornwall, for Cardinal where the train halted till 10 p.m. today.

The decoration along the line of procession, in some cases was worthy of admiration while in others it was very poor. The lighting of the streets was very dim, making it very hard for the expectant people to view the royal visitors.

CANADA'S HEARTY GREETING.

The enthusiastic greeting Canada is extending to the Duke and Duchess of York reminds elderly readers of the ovation extended to King Edward the Seventh, then the Prince of Wales, in 1860. There are the triumphal arches, the great and cheering multitudes, the decorated buildings, the illuminated addresses of welcome, which make plain the loyalty of the Dominion to Great Britain and her affectionate devotion to the monarch who direct her destinies. As the probable successor of his father to the imperial throne, the Duke of Cornwall embarks on which he will some day exercise jurisdiction.

Americans, as a general rule are pleased to note the warmth of the welcome to the illustrious visitors. In come to the ill-fated Canada sympathized with them and deplored the assassination of President McKinley as keenly as themselves, while the English-speaking race the world over received the shocking announcement with painful emotions. But, Canada is not the neighbor, in an especial sense, their blow as no other people beyond the borders did. Therefore their hearty out to us to-day coupled with the result in the betterment of everything calculated to promote our peace and prosperity.

The cordiality of the reception to the Duke and Duchess is proof that the Canadians were never more strongly attached to Great Britain than at this very hour. Evidently there is no desire to dissolve the allegiance to the mother country, and even in Quebec, where one would look, if anywhere for disaffection, there is absolutely no sign of it. If the King of England has adherents any more loyal than those who compose the Dominion mankind is in ignorance of their whereabouts.

CRYING BABIES.

The Cry of an Infant is Nature's Signal of Distress. Babies weep cry unless there is some very good reason for it. The cry of a baby is nature's warning signal that there is something wrong. Every mother ought to get to work immediately to find out what that something wrong may be.

THINGS WOMAN MOST DESIRES.

Marie Corelli Tells the World What These Chiefly Are. We hear a great deal nowadays of strife and competition between the sexes, but surely there should be no

strife between two halves of a perfect whole. Man is king, as woman is queen, and to do good work in the world the two must rule harmoniously together.

THE DUTY OF TALKING

It is a positive duty on the part of everyone composing a gathering met for the avowed purpose of sociability to talk. There is no heavier despotism than that which weighs upon the mind of the hostess when, after calling her friends together for a pleasant evening, and having seen them seated comfortably, she sits down upon her that they are all resolved to glare at each other in obstinate silence.

A Frying Situation. Her situation is extremely difficult. It hardly becomes her to do all the talking herself, and yet if she once allows herself to succumb and once permits that deep, dark, ineffable silence to settle down over the company, it is doubtful whether she will be able to rally. It is probable, if she be of the nervous temperament rather than the phlegmatic, that in the effort to avert what she feels to be a dread and imminent catastrophe, her cheeks will flush, her hands tremble, and her utterances wax decidedly flighty. The day after an ordeal of this kind she will be limp, the victim of a double-yed melancholy.

The Contagion of Terror. Nothing spreads with such lightning-like rapidity as fear. Shyness, self-consciousness, otherwise fear, manifested by one person, will attach itself to fifty others in the twinkling of an eye. If not swiftly arrested it will speedily develop panic. The quick-witted man or woman who, seeing the approach of the latter, has courage to launch forth an irrelevantly funny anecdote or a keen witicism, is a benefactor to society, for once united in a hearty laugh each individual will feel ease, temporarily, at any rate, restored.

It is rather difficult for him now to understand that with better education woman has higher aims, and that instead of crouching at his feet she wishes to walk at his side, the free companion of his thoughts, the inspirer of his noblest aims, the defender of his honor and his most faithful friend on this side of heaven.

A Muff Novelty.

And so, if you would be a welcome guest in every drawing-room, remember that a fluent talker is first favorite with every hostess. Talk! Don't mourn because you cannot talk learnedly or wisely. Talk anyhow! Do your part to keep the ball of conversation in motion; when it is tossed to you don't allow it to become quiescent. Handle it as tactfully and gracefully as may be, and send it along with a good impetus. Talk on any subject within bounds, give the range of human interests; all lives are circles, and somewhere or other the arc of yours will be found to touch mine.

The Art of Conversation. The art of agreeably and tactfully disagreeing with people should be mastered by everyone. If someone says to you, "Horrid, rainy weather, isn't it?" and you reply, "Oh, horrid!" the conversation terminated at that point. "If you say, cheerfully, 'Well, really, do you know, I think it might be worse,' the way is open for further questions and answers."

WISER AND OTHERWISE. She—So you don't like these Wagner concert? He—Well, they have one redeeming feature. They're so loud you can't hear the man next to you whistling his accompaniment.

No degree of knowledge attainable by man is able to set him above the United States.—Johnson. Hoax—I suppose if Ireland ever gets Home Rule she will want to annex the United States. Hoax—Well, that wouldn't make much of a change in our rulers.

Next in importance to freedom and justice is popular education with out which neither justice nor freedom can be permanently maintained.—Garfield. Nell—I wonder what the fashion in sleeves will be this winter. Belle—I don't know, but they're bound to be either too tight or too loose.

He's great who can do what he wishes; he is wise who wishes to do what he can.—Hiland. Autumn sunsets are most gorgeous. Bits of ever-changing flame. It is that the naked branches. Make the heavens blush for shame? SOZODONT Tooth Powder 25c

SUNDRIDGE ECHO INTERVIEWED HIM

William Doeg, a Farmer of Grey County, Has a Word to Say Regarding Dodd's Kidney Pills.

The Local Paper Publishes a Column About His Case—Worst Form of Rheumatism—Dodd's Kidney Pills Have Proven a Blessing to Him.

Sundridge, Ont., Oct. 7.—(Special.)—The Echo of this place has published a signed statement which cannot fail to interest all who understand the value of the word Rheumatism from personal experience. A representative of that paper interviewed Mr. William Doeg, a well-known farmer in Strong Township, who was cured of Rheumatism by Dodd's Kidney Pills this spring, and he gave out the following statement for publication: "For four years I suffered excruciating torture, during which time I was scarcely an hour free from pain. The trouble commenced in my back, but soon remained stationary for months, and so intense was the pain that I could not sit down or take rest, but had to sit night and day in a chair. I would have been glad to have other parts of my body, and when in my knees, disabled me from walking, confining me constantly to my room. I was treated by several doctors and also tried many medicines, without receiving any benefit. Almost in despair I feared I would never again experience the pleasure of being free from pain."

Early this spring my attention was called to some remarkable cures of Rheumatism effected by Dodd's Kidney Pills, procured a box and soon found they were doing me good, so I kept on, until now I can say I am a new man, entirely free from pain and have continued to have kept woman in my daily duties on the farm and feel strong and able to work. I verily believe this great change was effected by Dodd's Kidney Pills, and I think it my duty to make this statement public for the benefit of all afflicted as I was."

To Cure a Hard Corn.

A glycerine poultice softens a hard corn as well as being used off in layers without pain. To apply steep a piece of lime in glycerine, lay it on the corn, put a piece of oiled silk over the bandage. If this is put on every night after washing and allowed to remain on till morning, and the corn protected during the day, it will soon be cured.

The Lesson of Health

From L'Soreles, Sorel, Que. Among the multitude of ailments that afflict humanity there are few that cause more acute misery than indigestion or dyspepsia, as it is variously called. Both young and old are susceptible to its attacks, and every lifetime throughout the country are numbered by tens of thousands. Among the disagreeable symptoms which accompany dyspepsia and indigestion are: flatulence, belching, weight, uneasiness and a heavy feeling in the stomach after eating, a feeling of weariness, sick headache, and dizziness, jaundice, the stomach, offensive breath, irritability, etc. Ordinary medicines will not cure dyspepsia. They may relieve its symptoms temporarily, but the trouble always returns, and each time in an intensified form. Dr. Williams' Pink Pills is the only medicine which will thoroughly and effectively cure dyspepsia, and it does so by restoring the system to its normal condition, and each time in an intensified form. Better Let the Corn Mature. American Agriculturist: The claim that early cutting of corn results in a much better fodder is not so easily substantiated. Careful tests show that the digestibility of corn decreases less than any other plant as maturity approaches. While there is more fibre at the advanced stage, the digestibility of the total digestible matter is 25 to 40 per cent. greater than at silking time. While early cut fodder may be a little more palatable and consequently desirable for young stock and animals fed to the limit, the bulk of the fodder crop should be allowed to become fairly well matured before it is cut.

Minard's Liniment Relieves Neuralgia. Oo! An old soldier who had served his twenty-one years was discharged at Portsmouth. He went to the station with his wife and children and demanded three half-fare tickets for his three youngsters. "How old are they?" asked the booking clerk, suspiciously. "Elvin years, all ay thim. They're triplets," answered the soldier. "Fine youngsters," said the clerk, "where were they born?" "Patrick was born in Cairo, Bridget was born in Bombay and Mickey was born in Madras," was the proud reply.

FALL TOPICS OF THE FARM.

Buffalo People Want Our Good Butter.

OUTLOOK FOR HOGS AND SHEEP. J. T. Beam, of Black Creek, this summer changed his cheese factory to a creamery. "I did this," he said to the Sun, "because of the splendid market American summer visitors at Niagara Falls, Fort Erie, and other places near by afford for fine creamery butter. I sold my butter to these people retail at 25c to 30c. Yes, if Buffalo people were open, I could find there, but on a much larger scale, just as good a market as I now find in the Canadian towns that profit in summer from the overflow from Buffalo. Some people in that city would gladly give 40c for really gilt-edged butter they were sure of. Some same applies to fruit."

Why Mutton is Cheap. Erick Bros., of Buffalo, in their circular of the 25th, also refer to the depression in the mutton industry in the United States. The supply of lambs in Chicago has, they say, been enormous, and they cannot understand how it is that in Buffalo prices have been held up as well as they have done in the face of such extremely low values in the far West. The outlook, they say, is very uncertain, and they advise buyers to be particularly careful about common thin and lumpy lambs. Notwithstanding this depression, Erick Bros. sold on Wednesday last a load of strictly fat Canada lambs averaging 91 pounds, belonging to J. C. Clancy, of Carleton Place. They also handled a load of Canada lambs in the same week for George Dorrance, of Seaford, averaging 86 pounds, at \$3.50, and a load for Charles Shaffer, of Fordwich, averaging 86 pounds, for \$3.40, and a lot for Robert Trench, of Midway, averaging 82 pounds, at \$3.35. Erick Bros. hold the same opinion which is expressed in the interviews given with American Sheep Breeders, given elsewhere, in saying that the high prices of hogs and cattle will help to increase the consumptive demand of sheep and lambs. This should tend to bring prices up later on.

How About Hogs? And now, how about hogs? An Ottawa letter, in an interview with the Journal, expresses the opinion that hogs will be higher rather than lower. He bases this statement on the fact that there is a general scarcity of marketable hogs in this country, while the demand for bacon in England continues active. This opinion is further sustained by a recent cablegram which says that not only hogs but cattle and sheep as well have declined in England during the past year. This decline in prices in England follows a decline the year previous. Hogs, it will be noticed, too, remain at a very high price in the United States, the record price of \$7.07 1-2 having been paid for a good stock price there ran up to \$7.50 to \$7.60.

Blood.

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor.

There is nothing else to live on or by. When strength is full and spirits high, we are refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood.

This is health. When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood, is food, to keep the blood rich. When it fails, take Scott's Emulsion of Cod Liver Oil. It sets the whole body going again—man and woman and child.

If you have not tried it, send for free sample, its agreeable taste will surprise you. SCOTT & BOWNE, Chemists Toronto, 9c and 15c—11 druggists.

A Lucky Pin Cushion. A lucky pin cushion is the latest thing in gifts for a child, says the London Graphic. The pin cushion is heart-shaped, and made in pale blue silk with a four-leaved shamrock worked in the centre in moss green. The initials of the infant are embroidered on the opposite side. The cushion is edged with a ruche of narrow blue satin ribbon, and wider ribbons, embroidered with shamrocks, are used to suspend it from the baby's basket.

Deafness Cannot be Cured. By local applications; they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it swells and closes, so that nothing can enter or issue from the ear. Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; unless cases of deafness are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Hall's Family Pills are the best. 64c

—The apple crop in Ontario is estimated to be only about a quarter of the average crop.

—Mr. E. Mackie, after a long visit up west, returned home on Saturday evening last.

—Mr. Geo. Haskins, of Delta, has the sympathy of the whole community in the loss of his wife in Chicago.

—Mrs. Harvey Wing left Saturday for Boston where she will pay a visit to relatives and friends.

—Ross Warren, of Elgin, has accepted a position in the local agency of the Bank of Toronto.—Recorder.

—Miss Grace Rappell returned Tuesday evening last from an extended visit with Trenton and Belleville friends.

—Mr. Wm. Taplin, after a residence of six years in Boston, Mass., is home on a visit to his parents here, Mr. and Mrs. S. A. Taplin.

—Mr. Harry Blanchard has returned after representing the East Leeds Teacher's Association, and reports having had a good time.

—Many of the harvesters have returned from Manitoba and with one or two exceptions report that they had no trouble in obtaining work.

The full list or prize winners of the Franklin fair, are in our hands and will be published next week. The copy was received too late for insertion this week.

—Lost—Between Dr. Purvis' and Judson's grocery on Friday last, a gold stick pin with pearl top. Finder will confer a favor by leaving at the Reporter office.

A house dance will be held at Soperton in the near future. The committee in charge are sparing no pains to have it one of the social events of the season.

—Among those in attendance at the Ontario Normal College at Hamilton from this county are noticed: Misses V. B. and L. B. Rabb, of Lombardy, and Mr. J. E. Loucks, Frankville.

—The W.M.S. held a well attended meeting on Friday last at the residence of Mrs. W. Wiltsie. The report of the delegate to the convention at Almonte was very satisfactory, and a hearty vote of thanks was tendered Mrs. I. C. Alguire, the speaker, on the excellent paper she had read.

—Mr. E. A. Oliver, assistant manager of the Queen City Oil Co., Ottawa, paid our town a flying visit on Saturday last. Mr. Oliver states that business has never been so good in the history of the company as it is at the present time. Their system of delivering their well known brands of coal oil by tank wagon is much appreciated by the trade in Athens and elsewhere a large trade is done in this manner.

—There are at present 56 inmates in the House of Industry and all in pretty good health.

—Dr. and Mrs. Post returned home last week after a delightful honeymoon trip up west.

—Mr. Geo. Taplin and wife, Greenbush, returned last week after a visit to the Pan-American.

—Miss Laura Mott, of North Augusta after paying a visit to her sister, Mrs. S. H. McBratney, has returned home.

—Potato digging at the House of Industry is just completed, and are an average crop—not many rotten. Corn is a first-class crop.

—The Bishop of Ontario will pay a visit to Athens tomorrow. Service will be held in the Episcopal church at 7.00 p.m. All are cordially invited to attend.

—CHANGE IN TIME-TABLE.—On another page in this week's issue will be found an advertisement of the B. & W. corrected time table, which went into operation on Monday.

—DIED.—At the House of Industry, on the 6th inst., Abraham Rickey, in the 67th year of his age, of consumption. He was committed from the township of Oxford, on the 14th of June last. His remains were taken by his friends to Merrickville for interment.

—Poultry prices will likely run high this winter in Canada, as a Liverpool buyer has a depot in Toronto and appointed a manager with instructions to purchase 2,000,000 birds. Another poultry enterprise will purchase fowl in large quantities, to be kept in cold storage until shipped in the spring.

—Fob chains for watches will undoubtedly will be more worn than previously, since an attachment has been invented which does away with the former insecurity of this style. The chain is reinforced by a straight-line chain, which passes through the ring of the chain to the buttonhole. In the case of women's watches the chain can be fastened to the buckle of the belt.

—Ontario's cheese in defeating all competitors at the Pan-American has again shown itself to be the real thing. Ontario can hold this supremacy as long as honest cheese is made by Ontario men. Any farmer or maker who willfully or carelessly allows or supplies an inferior product is hurting all his neighbors and in the long run himself.

—Rev. L. A. Betts narrowly escaped being killed at the G. T. R. crossing at Brockville on Tuesday last week. The International Limited was standing at the depot when a light engine passed over the crossing. In the bustle of cars, etc., Mr. Betts did not observe it and was walking directly in front of the engine, when the gateman seeing his danger called him to halt. Being quite deaf he failed to heed the warning. Just then Mr. Parker locomotive foreman, took in the situation, and by a quick move pulled the reverend gentleman back in time to save his life. It was a very close shave.

—Mr. Geo. F. Donnelly, of Rochester, N. Y., has joined the Tribune's staff, as foreman of the mechanical department. Until last August Mr. Donnelly was manager of the Athens Reporter office, which position he successfully filled for ten years. He will remove his family to Cardinal in a short time, and will likely become a permanent resident.—Cardinal jottings in St. Lawrence News.—"Don's" many friends here join the Reporter in wishing him and his estimable family a full share of the success of this life.

—The Canadian census will show when all the returns are in to be not less than 5,500,000. This statement comes from good authority and is based upon the information that has come in since the issuing of the first official bulletin in August. The estimates given then of the population was 5,335,000. It was plainly indicated in the bulletin that estimates were used where complete returns were not available. These estimates seem to have been considerably under the mark and it is pleasant to know that the final announcement will bring our population up to 5,500,000. The increase in Ontario over 1891 will be about 75,000 instead of 50,000. But it is Quebec that will show the biggest gain over the figure given out in August.

—Kempville merchants are right up-to-date, and each one is apparently right after the trade, and that in the right way, viz: advertising what they have for sale. The Advance of that town is compelled from time to time to meet the demand of its advertisers. This is surely an indication that advertising pays and when it pays in a place like Kempville surely Athens merchants should do likewise. Some merchants imagine that advertisements are not read, but still the fact remains that the most prosperous business men of every place are spending more money today in advertising than ever before. It may be interesting to some to know that the Ladies' Home Journal outside book cover costs \$4,000.00 an issue—\$48,000.00 a year—and yet the proprietors of that Journal never have any difficulty in getting some firm to take it. If every merchant would advertise judiciously and to the extent he should Athens merchants would double their trade.

—Screen doors are giving way to storm doors.

—Rev. McDonald, of Ormond, visited friends in town last week.

—This is the season of year when the coal dealers and the stove merchants wear a happy smile.

—The Bell Telephone Co's. men are this week in town repairing and otherwise fixing the line.

—Miss Cora Wiltsie attended the East Leeds Teachers' Convention held in Brockville last Thursday and Friday.

—Died at Los Angeles, Cal., on the 8th inst., Alberta Mallory, wife of Mr. Alex. Wilson, of Buffalo centre, Iowa, formerly of Leeds County.

—"Jack Frost" has made his unwelcome appearance once more. Quite a large amount of damage was done to the vegetable crop last week.

—The improvements to the livery barns of Dr. Peat are now completed and judging from the good class of work done the job will be permanent.

—The Reeve, Clerk and assessor selected jurors from this municipality to serve on the county court cases for 1902 on Thursday evening last.

—Municipal matters here are very quiet—no names have as yet been mentioned in connection with the council, as desirous of running for municipal honors.

—We understand the town constable is on the track of a number of truants, who, if they persist in absenting themselves from school, will have to suffer the consequences, as the Truancy Act will be put into operation.

—The annual anniversary services in connection with St. Paul's Presbyterian church take place Sunday, Oct. 27 and 28 Rev. Mr. Curry, of Perth, will have charge. The services should prove interesting and instructive. A cordial invitation is extended to all to be present.

—In another column the ad. of the Athens Lumber Yard, Plating Mill, Grain Warehouse, etc., may be found. The firm needs no further recommendation as the quality of their goods is such as to make them increase their output materially.

—A HUMANE PATER—One reads so frequently of the paternal boot as applied to the young sutor that it is a pleasure to chronicle the more humane method adopted by a wealthy Glasgow merchant for choking off a 'follower' of his daughter. The girl was very young, so was the follower, but nevertheless he called formally on the object of his affections. The merchant and his wife entered the room, the latter bearing a glass of milk and a huge slice of bread spread with butter and jam. "Now, dear, run away to bed," said the kindly mother to her daughter; "it's time that all good girls were to bed." Then the Glasgow merchant addressed the astonished young man; "Now, youngster there, you drink that glass of milk and take that slice of bread and jam to eat on the road home, and hurry for your mother must be anxious at your being out so late by yourself." The young man didn't call again.

—Mr. and Mrs. W. A. Plunkett, of San Francisco Cal., arrived in town this morning and will spend a week or ten days visiting friends in this section. The young couple are on their honeymoon. They were married recently in San Francisco, the bride being Miss Danskin, a popular young lady of that city. Mr. Plunkett is an old Brockville boy who has seen much of the world since he left here about ten years ago. He is employed as second assistant engineer on the U. S. transport, Hancock, the largest of the fleet engaged in carrying troops between San Francisco and the Philippines. Mr. and Mrs. Plunkett came east by way of Chicago and Buffalo and will rejoin the Hancock at New York.—Times. Mr. and Mrs. Plunkett are now visiting Mr. and Mrs. Ed. McLean here. Mr. Plunkett is a brother of Mrs. McLean. The Reporter extends to the happy pair best wishes for a long and prosperous wedded life. They left this morning for New York, having expressed their appreciation of Canadian hospitality.

—After 1901 the following provisions are to be observed respecting the High School Entrance examinations in literature.—1. Exclusive of the quotation question, each paper will consist of a passage from the prescribed selections; (b) the other questions on one or more passages from the rest of the reader; and 2. The maximum of marks for (a) will be 25, and for the quotations, 10, the other marks being assigned to the questions in the rest of the paper. That is to say, out of a total of 150 marks, 25 will be given to question based on the literature selections, 10 on memorizing and 125 for questions in the fourth reader, other than those prescribed, and we print herewith. Literature selections, Fourth Ontario reader, 1902; XV. Clouds, Rains and Rivers; XIX. The death of the flowers; XXXIII. The skylark; XXXIX. A Psalm of life; L. The Prairies; LI. The Heroes of the Long Sault; LII. Scene from "Ivanhoe"; LXXI. The Heritage; LXXIV. The Song of the Pilgrims; LXXIX. The Capture of Quebec; LXXXII. The Ocean; LXXXV. Marston and Douglas; XC. Mercy.
