NEWCASTLE, N. B.

NEWCASTLE WINS 2 SHUT-OUT GAMES

The Newcastle Base Ball Team has struck its stride. Last Tuesday evening they were entertained at Loggieville by the Loggieville team and defeated them by the score of 9 to 0. The locals played a fast, tight and errorless game, and Craig's work in the box was of such a character that it was impossible to find an error in his whole evening's performance. He struck out 7 men, walked none and allowed no one to reach first base. He had splendid support by both in and outfield, and the team as a whole are entitled to congratulations on this their second game of the season.

On Friday evening last, they journeyed to Douglastown, this time to take the measure of the team who defeated them on Victoria Day in Newcastle. Taking their measure was right, as they blanked them in the whole 5 innings, winning by the score of 9-0.

Craig was in the box for the locals and again excelled himself. He was as tight as a drum during the whole game, but when it came to the pinches, he sure tightened up like a clam.

Murray on third played a swell game, and Sullivan behind the bat let nothing get by him. Melrose played a star game at second as did the other members of both in and outfield. The Newcastle team are now forging ahead in the league race for the pennant and the other teams to keep up with them will have to go some. Fandom is following their team by the hundreds, which is a good omen and will assist in keeping up the interest and "pep" of the players.

STANDING OF THE LEAGUE

	WON	LOST	P.P.
Newcastle	2	0	1,000
Chatham	3	1	.750
Nelson	2	1	.667
Douglastown	0	2	.000
Loggieville	0	3	.000

The Victoria Day game between Newcastle and Douglastown, at Newcastle is not included in the above standing, as it was played as an Exhibition game, at the request of the manager and captain of the Douglastown team. The request was made on account of Douglastown not being able to secure the services of their star pitcher, who was unable to take his place.

Tonight the locals are entertaining the Loggieville team in the Farrell Field, and Douglastown are across the river at Nelson, where they will try to mix the north side dust with that of the south.

"OVER THE HILL" TO BE SHOWN HERE

The theme which evoked from King Lear his immortal plaint, "How sharper than a serpent's tooth it is to have a thankless child!" and which caused Absalom to break the heart of his aged father, David, King of Israel, has been used by William Fox for his greatest photoplay, "Over the Hill," which will be seen at Empress Wednesday and Thursday.

There has been so much said in the magazines and Newspapers all over the country about the sensational run of "Over the Hill" in New York for the past year, that it seems almost superfluous to dwell at length on its merits. Suffice to say that the superb film drama was made by William Fox from two of Will Carleton's celebrated "Farm Ballads," and has for its theme the divine love of a mother. Harry Millard directed the picture and Paul H. Sloane made the scenario.

While the story is one that is calculated to rest, by its strength of sentiment, the heart of the most jaded and calloused playgoer, it has nevertheless many lighter moments when the risibilities are tickled by some of the most delightful comedy ever flashed upon the screen.

MORRISSY BRIDGE BADLY DAMAGED

The steamer Canadian Squatter crashed into the span of the costly Morrissy Bridge containing the draw about 6:30 o'clock Sunday evening and damaged the bridge to such an extent that it is impossible to be used at present to cross the Miramichi River. Several narrow escapes were experienced by pedestrians crossing the bridge at the time. The steamer is said to have escaped [with practically no serious damage.

Shortly after 6 o'clock the steamer Canadian Squatter, which is 1,000 tons net register, was seen to be approaching the draw bridge to proceed up the Miramichi to Burchill's wharf to load a cargo of deals. She whistled for the opening of the draw bridge but Larry Coughlan, the bridge tender, was at home eating his supper.

He at once commanded a horse and carriage and hastened to the bridge. When he arrived there he discovered that the steamer was nearing the bridge and he realized that a disaster was imminent. Seeing that he did not have sufficient time to open the draw he warned every person on the bridge to run for their lives.

Meanwhile the steamer had been approaching steadily and had by this time almost reached the bridge. Mr. Coughlan saw that nothing could avoid a collision and he jumped clear of the draw span just a few seconds before the big freighter crashed into it. The horse and carriage which had brought Mr. Coughlan to the scene did not have time to turn on the bridge but had to hasten right across.

Several children, who were watching the approach of the steamer, had narrow escapes. The force of the impact drove the draw open for forty feet, threw the draw off its pivot and tilted it at an angle of thirty five degrees, broke several of the iron girders and badly twisted several others. The entire span containing the draw is almost a complete wreck.

The steamer, it was said by eye witnesses, hit the bridge directly bow on. They declared that the crew of the steamer had dropped the anchor, which did not appear to hold, and the engines of the vessel were reversed before the accident occurred, but the momentum of the freighter carried it forward. As soon as possible after the accident the steamer was backed from the bridge and she anchored a short distance down the stream. As far as could be learned the steamer escaped practically undamaged.

The accident caused tremendous excitement and large crowds flocked to the scene to see the results of the collision. The accident has cut off traffic between Newcastle and Nelson and other parts of the surrounding country. Enterprising boatmen are running a kind of ferry between this town and the other side of the river. The only methods of crossing the river in this section of the country are by way of Chatham and the ferry there and by train from Derby Junction.

A peculiar feature of the accident was the fact that the telephone cable across the bridge was not broken by the accident and communication can still be carried on with neighboring sections on the opposite side of the river. The exact cause of the accident is not yet known.

SUPREME COURT AT NEWCASTLE

In the Supreme Court here, true bills were found against Henry Swim and Fred Beek charged with theft. Loek, on being arraigned, pleaded guilty, and was sentenced to six months in the county jail. The case against Swim was stood over until December sitting of the court, as there is some doubt as to his sanity. Swim is charged with misappropriating taxes collected by him in Blissfield parish. He was allowed out on bail.

The court adjourned sine die.

HARKINS ACADEMY ITEMS OF INTEREST

GEORGE STOTHART, Editor

Many young high school boys and girls went picnicking on the 24th, and thoroughly enjoyed themselves in spite of the fact that the tea, which was steeped by the boys, was smoked and parboiled by the fire of green wood.

The high-school boys of the Tuxis basketball team which went to Campbellton last Friday are now back at their studies.

The comic section of the Newspaper draws the eye of the High School pupils as well as that of the Kindergarten as was shown by the fact that no less than 3 funny papers were to be seen in the room one day last week.

De Omnibus Rebus
Several rooms report poor attendance.

Discipline squads continue to be successful as is shown by the good marching order.

Miss Dunnett's Dept. has held the

Shield for attendance for some time.

Last Thursday afternoon a young Mr. Duan of Grade 3 developed a toothache and part of the medicinal equipment of the Academy was called into play. The medicine proved satisfactory as the young man afterwards reported.

The Academy's lawn is advancing rapidly and it is hoped that the boys will be able to take down their (low board) fence before long.

Personals

Helen McKenzie of Grade 3 is missing from her class.

Brander Craig has been detained at home for some time.

Frank Park has not returned as yet to his class Grade 6.

Ar. Allen Grade 5, has returned to his studies after a short illness.

The school will miss three of its brightest in the persons of Jean, Viola and Harold Melanson. Jean of Grade 7 and Harold and Viola of Grade 4. The Melanson family having moved to Sackville.

WHAT CAUSES HEADACHES?

"Fruit-a-tives" Prevents Auto-intoxication

Auto-intoxication means self-poisoning. Many people suffer from partial Constipation or insufficient action of the bowels. Waste matter which should pass out of the body every day, remains and poisons the blood.

As a result, there is Headaches, Indigestion, disturbed Stomach, Pain in the Back, Rheumatism and Eczema and other skin diseases.

"Fruit-a-tives" will always relieve Auto-intoxication as these tablets, made from fruit juices, act gently on the bowels, kidneys and skin and keep the blood pure and rich.

Railway News in Brief

Moose Jaw.—Work will be commenced in the next few weeks on the new Dominion Express Company building which will be immediately west of the Canadian Pacific office building and north of the present express and baggage building.

It is expected that within the next few weeks the old station will be torn down and the work of excavating for the subway approach to the tracks will be continued.

Winnipeg.—Among the travellers on the Canadian Pacific eastbound train which passed through Winnipeg a few days ago was little Doris Blissett, nine years old, on her way from her home in Vancouver to England. She travelled quite unaccompanied and sailed from St. John on the Canadian Pacific liner Montcalm to attend school in England. Children travelling on Canadian Pacific trains and liners are special looked after by officials and stewardesses.

Galt.—A new modern joint station for the Erie and Northern and Grand River Railways is assured for Galt in the immediate future.

M. W. Kirkwood, General Manager of the two lines, was in Montreal last week and as a result of his trip he has now received the signed appropriation covering the money necessary for the new station.

The location of course will be in the vicinity of the present temporary equipment on Main street. It is anticipated that the plans will be in readiness soon and contracts for the new building let immediately.

Smiths Falls.—During the past ten weeks instruction in the emergency treatment of accidents has been given to the employees of the C.P.R. here, and also to the wives and daughters of employees and the ladies of the town in general. The instruction was given by the company's first aid instructor for the St. John's Ambulance Association. The people deeply appreciated the privilege extended by the management in allowing them the services of their instructor. Dr. Gray was assisted by the general secretary of the C.P.R. First Aid department in holding examinations of the classes. Dr. Gray expressed great satisfaction with the general knowledge displayed by the students.

Ottawa.—There are in Canada at least 37,000 square miles of peat bogs, with deposits from five to ten feet deep, and it is estimated that each square mile contains on an average the equivalent of 430,000 tons of coal. The Council for Scientific and Industrial Research at Ottawa after considering the problem of making Canada's fuel consumption less dependent upon the United States, in 1919 the Dominion and Ontario Governments to appoint jointly a peat commission, which carried on extensive experimental development work at the Alfred peat bog, on the Montreal-Ottawa line of the C.P.R. The product was sold at profitable prices in competition with coal, and it is expected that a flourishing peat industry will eventually be founded.

Winnipeg.—Western Canada recently welcomed the first contingent of its 1922 army of settlers from Europe and the United States when 350 persons—men, women and children—arrived at the Canadian Pacific and Union depots. Immigration officials state that the influx for the season definitely is "on."

All these settlers will go on the land in Manitoba and the western provinces. The new arrivals, for the most part, are family parties with effects or money, or both, and their intention is to farm on the prairies and not to migrate to the cities.

Manitoba's share of these settlers was a farmer group of 111 persons who expect to locate on farms. Family groups composed this party almost entirely. Additional parties were bound for Saskatchewan, Alberta and British Columbia.

A party of 50 immigrants arrived from Roscoe, Minnesota, and was accompanied by 9 cars of effects. All are bound for the western provinces. Hazel Dell, Saskatchewan, was the destination of 6 of the cars, one went to Melrose, Saskatchewan, one to Clyde, Alberta, and one to Cadworth, Saskatchewan. Passengers from the steamship Tunisian, numbering 178, arrived in Winnipeg over the Canadian Pacific Railway.

CAMP SUSSEX OPENS JUNE 28

Extensive Courses in Different Branches of Training—650 Men Under Canvas

The militia camp at Sussex will commence June 28th and last till July 6th. Arrangements are now in progress in getting the camp ready and it is expected about 650 men will be present, and extensive courses in the different branches of training will be given. The camp will be in charge of a Camp Commandant, who will be assisted by a G. S. O., a Senior Engineer Officer, a Signal Instructor, a Supply Officer, a Medical Officer, a Paymaster, a Cavalry Instructor and two Infantry Instructors. The names of the officers and instructors will be announced at a later date.

The following units will comprise the camp: 8th Princess Louise Hussars, New Brunswick Dragoons, 1st Brighton Field Co., and the 16th Infantry Brigade, composed of the Carleton Light Infantry, the Cork Regiment, the North Shore Regiment and the New Brunswick Rangers.

Owing to the limited funds available for training purposes this year the plan is to keep the officers and non-commissioned officers together as much as possible, with the view that the organization will have competent instructors for training and will be ready to carry on when more funds are available.

A Good Medicine For The Baby

Nothing can equal Baby's Own Tablets as a medicine for little ones. They are a laxative, mild but thorough in action, and never fail to relieve constipation, colic, colds and simple fevers. Once a mother has used them she will use nothing else. Concerning them Mrs. Saluste Pelletier, St. Damas des Aulaines, Quebec, writes:—"I always keep a box of Baby's Own Tablets in the house. They are the best medicine I know of for little ones and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Citizens of Newcastle Take Notice

The yearly tax bills are now being distributed and it is pleasing to note that whereas different towns and cities have increased their tax rate, our rate has been reduced by 5%. In order that we may continue to reduce our tax rate at the end of this year, it behoves every conscientious ratepayer to make an earnest effort to pay up their taxes during the year. We would particularly ask that everyone possible take advantage of the 5% discount which is given on taxes payable on or before June 6th and thus enable the town to take care of heavy payments which have to be made the first part of June. These payments include Bond interest, School appropriations, Sinking Fund and large payments covering supplies for sewerage extension.

A review of our Town Book for the past year shows that our financial position is being strengthened each year, and let us by a deeper interest in town affairs and whole hearted co-operation of our citizens, maintain that position, and despite the trying period through which we are passing, pay up our assessments and thus maintain our public institutions and equipment.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. GREAT PITCHING
For the sixth time in the history of the game a baseball player has pitched complete shutout, allowing his opponents no hits, no runs and no men to bases. No-hit games have been pitched much more frequently, where bases on balls have been given, or where errors have occurred. But to young Charles Robertson, late of Minneapolis, and now of Chicago in the American League, has come the rare glory of facing only

twenty seven men in the game, the smallest possible number in a full contest. Six of the twenty-seven fanned the air. Robertson's teammates gave him perfect support. There is no beating such a combination. Walter Johnson had pitched a dozen years, all of them brilliantly before he scored a no-hit game. Many another great pitcher has gone through season after season, winning high percentages, without touching this mark. The chances are that Robertson will not repeat this extraordinary performance. And then, again, he may, for there is nothing so uncertain as the base ball game.

SPONGING ON THE EDITOR

(By Geo. E. Wray)

There is but one thing that the average country newspaper publisher has to sell—advertising space—and the extent and volume of sales determine the degree of his prosperity.

Nevertheless, there are schemes galore, by persons who are amply able to pay for this valuable service to secure from these publishers all the free publicity that ingenious and clever advertising managers can get.

It seldom occurs to them that this is a course that has absolutely nothing to recommend it to any person possessed of ordinary good sense. In nearly all other lines of business it is the expected thing to pay for service or goods in coin of the realm. But, apparently, it is "fine business" to sponge on the editor and printer; and the one who puts over the most clever scheme and gets the greatest amount of free space is rewarded by increased salary and higher reputation as an advertising man.

The Port Washington (Wis.) Star puts it this way:

There is a manufacturing concern in Ohio, whose rating is over a million dollars and whose ability to pay its advertising bills is unquestioned. But does this concern adhere to a policy of paying cash for such service? Not so one can notice it! Its community welfare department, strives for and secures a huge volume of free advertising, not by ordinary and direct methods but through the medium of some camouflaged movement or lecture, with a high-sounding name and alleged altruistic aim.

The real aim of these highly paid advertising experts is to obtain the greatest possible volume of free advertising, and they get a surprising amount from publishers. Accompanying his brazen sponging upon publishers is often found an amazing effrontery which invites local merchants to join in raids upon the only thing that publishers have to sell—space in their advertising columns.

Never to our knowledge, has a line of paid advertising for this manufacturer appeared in these columns. Yet this paper was recently asked by a local merchant and a good customer to print free announcement of a lecture that had for its secret purpose the increase of the annual business of the Ohio manufacturer. Of course the local merchant may not have perceived the fact, but its African poll was there hidden, just the same. This is a clever scheme to get free space, and in many cases publishers of country papers feel under compulsion to grant it because a local merchant asked it. The brain that fashioned this raid on country publishers is bright enough to evolve a dignified and equally defective advertising campaign of which the beneficiary need not be ashamed, and one which ought to be paid for.

A parallel case would be for local publishers (having a secret and personally profitable object to gain) to announce a camouflaged community conference, with all printing office employees invited, and a lecturer engaged, and, as a preliminary, call upon local merchants to provide free for the only thing they have to sell—goods—for the personal benefit of the publishers. Can you imagine merchants yielding to such a demand under any sort of pressure?

AUTOMOBILES AND FOREST FIRES

In many parts of this continent it is found that automobile registrations and forest fires are increasing about proportionately. A great many people are touring about the country, seeking out places away and, unfortunately through carelessness with fire, some of them misuse and destroy the forests. There is no desire on the part of forest authorities to bar citizens from the forests, but there is no reason why forest fires should follow in the wake of the automobile. All that is needed is that every tourist who camps for the night or stops at noon to boil his kettle in the woods should personally see to it that his fire is dead out before he leaves it. Those who go into the woods for either business or pleasure see the value of the forests and should catch the enthusiasm for the conservation and proper utilization of this great Canadian resource.

ONE CAUSE OF FOREST FIRES

Practical experience is what counts in all walks of life, and nothing is more true with regard to fire prevention. "A burnt child dreads the fire" is as true today as it was in olden times, but the average citizen has not been burnt and it is to make him realize his responsibility not only to himself, but to his family, his neighbor, and the community at large that our efforts should be directed.—Deputy Fire Marshal, G. F. Lewis, Ontario.

"WAY DOWN EAST"

Based on Wm. A. Brady's famous play by Lottie Blair Parker and Joseph Grismer.

A simple and old-fashioned story of plain people embracing the four seasons.

A story of loves—Man and woman, mother and baby.

A great bell tolling humanity.

A story of laughter, quaint absurdities—springing, gay barn dances, sleigh bells a-jingling.

In the end, amazing scenes. March storm, ice break-up. Anna and David are carried with blinding mass of ice down the roaring river.

Wherever this picture has been shown, pandemonium break loose, audiences cheer and yell with delight, their unfeigned approval.

Will be shown two days.

Retailers Favor Tax, But Don't Want To Collect It

Winnipeg, May 25.—"We believe in the sales tax provided they do not ask the retailers to collect it," declared J. A. Bandfield, Dominion President of the Retail Merchants Association of Canada, here yesterday.

"We don't want to be tax collectors," he added. "We are quite willing to assume our share of the burden, but we don't want to be placed in the position of having to sell a tax in addition to selling our merchandise. With the tax collected from the source, through the manufacturer or the importer, and passed on to the wholesaler, the retailer and the consumer, it would be all right."

TO-DAY

in medicines, as in every other necessity, the public is satisfied with nothing but the best! This explains the ever-increasing demand for Zam-Buk. Not only is this great balm the best household remedy to-day, but it is also the most economical.

Zam-Buk's superiority is due to the fact that it is all medicine, containing none of the coarse animal fats or harsh mineral drugs found in ordinary ointments. Again, the medicinal properties are so highly concentrated that they contain the maximum amount of healing, soothing and antiseptic power, so that a little of this balm goes a long way.

Another reason why Zam-Buk is most economical. It will keep indefinitely and retain to the last its strength and purity. Best for skin diseases and injuries, blood-poisoning and piles. All dealers, 50c. box.

DO WOMEN WORK AS HARD AS MEN?

Yes. And They Must Keep Well and Strong

Two Interesting Letters

Toronto, Ontario.—"When my husband was called back to England in 1914 I took Lydia E. Pinkham's Vegetable Compound to strengthen me so I could work. I had a trouble that used to make me weak, but I am able to do my work now and am perfectly satisfied with your medicine. I still get it at the chemist's and I strongly recommend it to anybody I hear of suffering as I did. You may publish this if you wish."
—Mrs. E. HORNLOWER, 899 Yonge St., Toronto, Ontario.

I Did Not Feel Like Working

"I was in a general run-down condition with a weak back and a tired feeling so that I did not feel like working. My mother was taking Lydia E. Pinkham's Vegetable Compound and recommended it to me, so I have taken it and my back is better and I am now able to do my work. I recommend the Vegetable Compound to my neighbors and you may publish my letter."—Mrs. JOSEPHAT A. GAZINA, Box 47, Carbon, Alberta.
Lydia E. Pinkham's Vegetable Compound should be taken when you first notice such symptoms as nervousness, backache, weakness and irregularity. It will help you and prevent more serious trouble. Give it a fair trial.

New York Man Gives Ball Trophy

Mr. Clay Adams, A Newcastle Boy, A "Dyed-in-the-Wool" Base Ball Fan, Kindly Donates a Beautiful Silver Cup to the Miramichi Base Ball League, After Reading the Local Newspapers.

In last week's issue of the Union Advocate, a letter appeared over the Signature of a Base Ball Has Been, in which a suggestion was thrown out, that it might encourage the local players if some interested base-ball fan would donate a trophy for the season's play, and as a result the following letter has been received from Mr. Clay Adams, by Mr. Don S. Creaghan, which is self-explanatory, and which goes to prove that our town and its interests are carefully watched by her former sons and daughters through the medium of our local newspapers.

New York, June 3, 1922

Dear Don:

I have something in mind which may or may not meet with the approval of yourself and the powers that be. Besides I doubt if you are a real ball "fan," but if not, possibly Clare McCabe (no knock at his age) may refresh your memory with the "battles" of the past.

You've, no doubt, had, recalled, many a time, the intense rivalry which used to exist between Chatham and Newcastle, in my young days, when a game of Baseball was at stake between the two towns. You were only a kid then, but Clare, or perhaps better, Andy, and Rodge Lawlor, will be able to relate to you the many stirring incidents attending a game between the "Corn-Killers" and Chatham.

The home papers, in announcing recently a "Miramichi Baseball League," bring back to memory those good old days, I refer to. The names of McLellan, Bell, Harry Graham, Percy Lindon, Bill Ferguson, The Murphys, Paddy Keating and Bill Powers, were household words with the "ball fans" of Newcastle, not so long ago at that, while further back Dan McQuarrie, Tim McGinnis, Bob Traier, and Rodge Lawlor, were among others, whose "records" on the old Farrell ball field, were the

envy of the junior players of those days. Glancing over the make-up of the present day Newcastle "nine" I fail to recall an old time name—"McCabe," is about the only familiar one, and it makes one think and wonder as to just what has become of all the old boys.

I doubt if the same pep and enthusiasm exists at the games of today as compared to those of years ago, and with this thought in mind, and just for old times sake, it occurred to me that I might in a small way suggest something which might encourage the players and somewhat help revive the spirit of the "Corn-Killers" of 1895-96-97.

In those days we fought for the glory of the town—and many a stiff and hard battle, sometimes not without much bloodshed, was waged throughout an afternoon, before a ninth inning rally put either Chatham or Newcastle in the "soup."

What I want to get before you now is that you appear before Rodge, and offer, as coming from an old time "Corn-Killer" a silver cup as a prize trophy to the winning team of this year's league race, or if those in charge of affairs, prefer, to make it a prize to the winner of two or three successive years—provided, of course they feel confident of the league remaining intact for other seasons to come. If you think well of my scheme and can get the approval of the others to accept same as a "trophy" write me at once and I'll send a Cup along by express, with printed card stating what it is intended for. You might, upon receipt, stick it in one of your show windows in Newcastle and Chatham for a day or so, and in that way, stimulate keener interest in the great game of base ball, of which yours truly is still a very ardent fan. Love to all.

Sincerely,
CLAY ADAMS

Lingering Weakness Following Disease

Due to the Fact That the Blood has Become Thin and Watery.

In almost every case the victims of influenza, fevers and contagious troubles, are left weak, ailing and despondent after the disease itself has disappeared. They do not pick up strength as they ought, and remain tired, listless and discouraged. The only reason for this is that the blood has been impoverished by the ravage of the disease through which the victim has passed. Strength and full activity will not return until the blood has been restored to its normal condition. The blood can be enriched and purified quickly and surely by Dr. Williams' Pink Pills. To enrich the blood and strengthen the nerves is the whole mission of these pills, and thousands have found them beneficial after disease had left them weak and run down. Among those who have proved the value of these pills in cases of this kind is Mr. Charles A. Turner, light-keeper, Thrum Cap light station, N. S., who says:—"In Jan. 1917, I took a severe cold which I neglected until it developed into pneumonia, which confined me to bed for some weeks. When I was able to get up and sit around the house, I found that I was not regaining my usual strength; in fact, I seemed to be growing weaker and was reduced almost to a skeleton. I took an emulsion, but it did not help me. Then one day a friend who came to see me said, 'Here's some Dr. Williams' Pink Pills; just the thing to get you on your feet again.' I took them and then for six boxes more and soon could see that they were helping me. By the time the last box was empty I was doing my usual work and feeling fine, and, I had gained in weight. My health has since continued good, and I give the credit to Dr. Williams' Pink Pills. You can get these pills through any dealer or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co. Brockville, Ont.

A PROTEST TO THE PROPOSED TAX ON CHEQUES

Ottawa, June —A delegation from the Montreal stock exchange this morning interviewed Hon. W. S. Fielding, Minister of Finance, in regard to the proposed tax on cheques. The interview was in private. The tax was opposed on the ground that it would bear heavily on brokers who find it necessary to issue many large cheques. Alternative proposals were made by members of the delegation.

The delegates were introduced by Herbert Marler, Liberal member for St. Lawrence St. George, Montreal. Just before the delegation from Montreal arrived, the Minister received a delegation representing the Toronto stock exchange. It is understood that representations were made on similar lines to those of the Montreal delegation.

TRINITY MEMORIAL CHURCH TO BE BUILT

(Gazette, Montreal, May 19th 1922)

The Corporation of Trinity Parish, of which Rev. Canon John S. Almond, D.C.L., C.M.G. C.B.E. is rector, have entered upon the most important and significant stage of their great work of building in Notre Dame de Grace the New Trinity Church, designed to be a permanent memorial, of a national character, in the most useful of all forms, to the tens of thousands of young men, the pure gold of Canadian manhood, who made the supreme sacrifice in the Great War which saved civilization from perishing.

The group of buildings to be erected for this purpose will be situated between Marlowe and Northcliffe avenues, south of Sherbrooke street, in the rapidly growing section of Notre Dame de Grace. Population in all great cities tends to move westward, and Montreal has, during continuous and steady expansion for many years been a conspicuous illustration of that rule. Notre Dame de Grace is destined to be the chief residential district of the metropolitan area, and in spite of temporary depression, real estate not only remains steady, but shows considerable activity, which will increase rapidly as conditions improve. All this was forecasted long in advance by Trinity Corporation, when the decision to remove from the old location on St. Denis street and Place Viger Square was reached some years ago. "Old Trinity" did a very large and extensive work for many years when Montreal was comparatively small and growing slowly. A loyal and devoted congregation of several hundred families looked to it as their church home, and its influence among the masses of English-speaking people in the east end of the city was remarkable, bringing all sections of the people within scope of its splendid usefulness. But, however valuable that work was, it became obvious that it could not long continue from the original headquarters. Men with a conviction that greater things were in store for the church and parish, ably led by a rector who knows Montreal and realizes the future in store for it as few of its citizens do, decided that a new and much greater church, was necessary, if the traditions of continuous social service built up by the parish during several decades were to be continued and maintained. "Old Trinity," therefore, effected an amalgamation with the Church of the Good Shepherd, corner of Sherbrooke and Claremont avenues, with the understanding, solidly uniting both congregations, that their new church which would be built a few blocks west of the Church of the Good Shepherd, would be known as Trinity Memorial Church, standing for generations to come as a witness to the desire to commemorate, in the most useful of all ways, the determination, courage and ultimate success of devoted men who risked and gave all they had that British and Canadian institutions might continue to make their indispensable contribution to the advance of civilization.

Those who would like to have their own glorious dead permanently remembered in this way, on their own particular anniversaries, should send names, regimental numbers, army units and other necessary information to be recorded in the Memorial Church Book of Remembrance, accompanied by whatever subscription to the building fund they can afford to give, to Rev. Canon John M. Almond, D. C. L., C. M. G. Trinity Memorial Church, Claremont Avenue Notre Dame de Grace, Montreal.

CARD OF THANKS

Mr. and Mrs. James D. Lyons and family wish to most heartily thank all of the many friends who were so kind and helpful to them during the illness, and at the death of their daughter, Miss Jessie.

MIRAMICHI HOSPITAL

At the general Annual Meeting of the Board of Trustees of Miramichi Hospital on Monday, June 5th, the following Trustees were re-elected: Mr. F. M. Tweedie, Mr. Joseph McKnight, Mr. J. R. Lawlor, and Mr. Lawrence Doyle. The present officers were re-elected President, Mr. G. F. Burchill; Vice-president, Mr. F. M. Tweedie; Secretary, Mr. J. R. Lawlor; Treasurer, Mr. E. McCurdy.

OBITUARY

MR WILLIAM WRIGHT

William Wright, one of Newcastle's best known residents, passed away early Tuesday morning after an illness extending over several months. In younger days Mr. Wright was a well known stevedore and millman, and later a fishery guardian on the Miramichi, but for the last few years he had lived a retired life.

He leaves a widow, three sons, James of Newcastle; William, Boston and Raymond, Montreal; also two daughters, Janet (Mrs. Hugh A. Quilty); Newcastle and Laura (Mrs. John O'Reilly) of New York.

MISS JESSIE LYON

Miss Jessie M. Lyon, Millerton, after a lingering illness, died Tuesday. She was a daughter of Mr. and Mrs. James D. Lyons, and very prominent in social work in the community, especially in connection with the Baptist church, Sons of Temperance and Rebekah Lodges, and also the Women's Institute, of which body she was secretary. For many years she was employed as assistant in the office of the Miller Extract Works, Millerton, and on the death of the manager, W. G. Thurber, about a year ago, Miss Lyon was appointed to succeed him. The strain however was too much for her and about three months ago she suffered a nervous breakdown. Besides her parents, she is survived by one brother, Walter, Millerton, and two sisters, Boulah (Mrs. Wm. O'Donnell) Bathurst, and Florence, at home.

IN A BAD FIX

Having helped his mother plant the seeds and place at the end of each row the pictured envelopes showing here a radish, there a beet and so on, little Edwin was quite distressed when he went out next day and found that the rainstorm had washed the envelopes off into the mud.

"Never mind, dear," comforted his mother. "It doesn't really matter."

"But, mamma," said the child, greatly worried, "how will the little seeds know what to be when they come up?"

OPPOSED TO THE UNIVERSITY PLAN

That the proposed establishment of one central university in the Maritime Provinces, under the Carnegie Fund, at Halifax, would result in the deplorable effect of leaving no institution of higher learning in New Brunswick and was, therefore, a plan which could not be viewed with complacency by the people of the Province, was the opinion voiced by Sir Douglas Hazen, Chief Justice of New Brunswick, speaking at the U. N. B. Club in St. John, N. B.

Sir Douglas said the plan had grown out of reports submitted by experts from the United States who, after spending a few hours in the Maritime Provinces had hazarded reports on the educational requirements of the three provinces. The reports, he said were erroneous in many respects.

The proposed scheme, Sir Douglas said, was a retrograde one as it would destroy the wealth of tradition that had grown up with the University of New Brunswick founded as it had been by the Loyalists. Sir Douglas expressed the hope that the friends of the University would rally to its support by exposing the fallacy of the proposed scheme.

A Toast To Laughter

At a dinner in Boston not long ago the following toast was given: "Here's to laughter, the sunshine of the soul, the happiness of the heart, the leaven of youth, the echo of innocence, the treasure of the humble, the wealth of the poor, the bead in the cup of pleasure! Without it humor would be dumb, wit would wither, dimples would disappear and smiles would shrivel. It dispels dejection, banishes the blues and mangles melancholy, for it is the foe of woe, the destroyer of depression, the birth cry of mirth and the swan song of sadness."

The Talking Loaf

Maxim Gorky has an interesting fable entitled "The Talking Loaf" Although Robinson's Butter-Nut Bread can't speak, its whole appearance is an eloquent invitation to eat.

---And after you've tasted it you'll be glad you accepted the invitation for it is as good as it looks. Wrapped at the ovens to keep it clean to your table.

Butter-Nut Bread
From Robinson's Kitchens

AN APPRECIATION

By Hon. Robert L. Bofingbrook

Mr. Griffith's film version of "Way Down East" shows again what genius can do with common clay. Besides being the greatest entertainment and holding the greatest thrill ever shown in the world's theatrical history, it is a sermon that has ever been preached. In his hands, this that some of us have been pleased to call old-fashioned, has become a great epic—the epic of a woman's soul.

Just as inspired composers sometimes have taken simple street tunes and glorified them into symphonies of grandeur and power so the golden alchemy has transformed this sturdy play.

The greatest works of realism have been done by idealists with vision, for the idealists sees beyond the cook stoves and scars of life, into the soul. And so, Mr. Griffith, essentially a poet, has looked through the hearth fires of a charming old household of New England, into the heart of the world.

There are those who will see "Way Down East" and be content to snicker at Hi Holler and the Village Constable; to cry at the piteous scene where Anna baptizes her dying child; to grasp when the fainting girl is rescued by her lover on the brink of the falls. Others may enjoy the glitter of the gowns in the society scenes.

But the wise men and women will see that the thrills and laughs of the play are but windows through which Mr. Griffith has looked into the soul of universal woman. For into every woman's heart has come the tragedy of disillusion. Every woman has felt the straining battle of seduction in one form or another, the hot, alluring breaths of deceit. Every woman has sobbed over the clay feet of her fallen god.

From the beginning of history, through all the ages, man's most beautiful dream—most sought after, most desired—has been woman. And through all these ages it was more through passion than the better desires.

Even the saints of past history fought bloody battles; worked, dreamed, struggled, through their love for women, not satisfied with one or two or three. These almighty men demanded hundreds—every variety of beauty—dainty little girls in their 'teens; blondes from the Northlands; strange, slant-eyed brunettes from the Southlands. Mighty wars, broken nations, wrecked civilization over the Helen-of-Trois and Cleopatras.

Why does every girl have to battle against love? And doesn't the same battle go on to-day, though changed and modified? Is not every woman still pursued? Why? What is the great mystery of love?

FINE RESULTS ARE OBTAINED BY 3 IN FAMILY

Halifax Woman Says She
Gained 12 Pounds, And
that Her Husband and
Little Girl Were Entirely
Relieved by Taking
Tanlac.

"Since I was helped so much by
Tanlac my husband and little girl
have taken it with splendid results,"
said Mrs. Robert L. Allen, 56 D. E.
St., Halifax, N. S.

"For years I had such bad indiges-
tion that sometimes even milk and
toast hurt me. I never could eat fat
nor fried food. My liver was out of
order too, and I couldn't do a bit of
my housework. I was nervous and
dull, taking no interest in anything.

"After trying all kinds of medicine
with no results, I got a bottle of
Tanlac and I declare it helped me
from the first few doses. I have
gained twelve pounds and can easily
do all my work. We all think Tanlac
is just wonderful."

Tanlac is sold by all good druggists

CLOSER CHECK ON

FOREST FIRES
It is always of considerable value
to know how fires originate, as such
a study makes possible the application
of preventive measures. For a con-
siderable number of years past it has
been necessary to designate the
cause of a large percentage of fires
as "unknown fires. Last season,
however, shows a considerable reduc-
tion which may be taken as an indi-
cation of material improvement in
the attention given to study of fires.

RADIO 'AN ALLY

The spread of radio has led many
to ask whether the system is destined
to supersede the newspaper in
course of time. There is nothing, so
far, to indicate that it can so dis-
charge the functions of the press as
to enable any considerable number
of people to dispense with daily pa-
pers. At best, the broadcasting sta-
tion can transmit only a bulletin
service. It might send out a de-
tailed report of some event of super-
normal importance, but on such occa-
sions it would have to sacrifice other
news. The advertisements, which are
an indispensable part of the modern
newspaper, would not be reproduced
at all. The newspapers of the world,
instead of fearing radio as a rival,
are welcoming it as an ally,
and are preparing to conscript it
for their own use.

Got No Sleep

But now the neuritis has gone,
the pains have ceased, the nervous
system is restored and the writer
of this letter pays a grateful tribute
to the medicine which made him well.

Mr. John Woodward, P.T.O.,
Lucan, Ont., writes:

"It gives me much pleasure to recom-
mend Dr. Chase's medicine, especially
the Nerve Food. I was a sufferer from
neuritis for several years, and tried all
kinds of remedies, yet never seemed to
get any better. At last my nerves and
whole system seemed to give way
through not being able to get any rest
or sleep at night for pain, which mostly
used to take me in all parts of the limbs
and feet. My nerves would twitch till
my whole body would seem to jerk right
up as I lay in bed. Almost at the
point of despair, I decided I would get
Dr. Chase's Nerve Food, which I did,
and after taking twenty boxes I believe
myself almost normal again. I also keep
a box of Dr. Chase's Kidney-Liver Pills
on hand, and for the past year I seem
to enjoy my usual health."

TRIBUTE TO DEAD

German Writes of American Cem-
etry in France.

Spot Where More Than 21,400 of the
Bravest of Our Land Are Buried,
Is Field of White.

Paul Block, Paris correspondent of
the Berliner Tageblatt, was recently a
sympathetic observer of the destruc-
tion wrought by his countrymen in
northern France, and sent to his pa-
per a detailed report of his trip
through the devastated region. Of a
certain point in his journey he writes:
The guide relates in a matter-of-
fact way that of the 131 villages which
he covers in his trip some eighty have
been utterly destroyed. This part of
the journey, from Clermont-en-Argonne
to Bourreilles, has all been wrecked
by the war, but the worst came after
we reached Varennes. From there to
Verdun it is a desert—over which the
horsemen of the Apocalypse have
swept.

At only one point is there any evi-
dence of restoration, and this has be-
come one of the sights of the region.
I mean the American cemetery at
Romagne below Montfaucon. When-
ever the Americans take anything up
they do it in a wholesale way. Al-
though we had come solely to see
ruins, we could not pass this cem-
etry without a visit. It is the only
one of its kind.

On a gently rising hill purchased
outright for this purpose are buried
the 21,400 Americans, who fell during
the fighting around Montfaucon. Some
kilometers before we reached this
point we noted little white signboards
along the road directing us to this
significant graveyard. For many of the
relatives of the fallen cross the sea
in order to visit the last resting place
of those dear to them.

But when you come within half a
mile of the point you need no further
guidance. An apparently limitless
field of white suddenly greets the vis-
ion in the distance. This is the effect
of the 21,400 tombstones of equal size
shining in the sunlight. There are
crosses for protestants and Catholics,
and stars for Jews, ranged closely side
by side, at the heads of 21,400 uni-
form, well-kept graves. They all lie
there, the officers in the middle. A
great star of foliage plants separates
the world of the dead from the world
of the living. High above the graves
flutters the Stars and Stripes. Sad,
indeed, as is the thought that a whole
army of vigorous young boys here
slumber in death, this cemetery has
nothing gloomy about it. It is a bright
and cheerful burial place.

And the army of the dead has its
commander. An American officer and
his staff reside in the group of tidy
houses opposite the entrance, to guard
the resting place of their dead coun-
trymen. One of them came forward
and greeted us, a cheerful, young man
with a wholesome ruddy countenance.
What had induced him to exile himself
here in this solitude? High pay? A
sense of duty? Love for France?
The last suggestion is not very plaus-
ible, for he does not know a single
word of French. In any case, his
nerves must be sound, else he could
not live here day after day, hour after
hour, guarding these 21,400 graves,
without going mad.

Comment Not Needed.

I see that Dr. Schussler, who has
had access to documents relating to
the quarrel between Bismarck and
the ex-Kaiser, has published in Ger-
many a new political study entitled
"The Fall of Bismarck," writes a cor-
respondent. But surely no addition
is needed to Bismarck's own words
to "Dr. Moritz Busch, on the day of
his resignation: "I thought he would
be thankful if I were to remain with
him for a few years, but I find that
on the contrary, he is simply longing
with his whole heart to be rid of me,
in order that he may govern alone—
with his own genius—and be able to
cover himself with glory. He does
not want the old Mentor any longer,
but only docile tools. But I cannot
make genuflections, nor crouch under
the table like a dog."

New Anesthetic.

A coal tar chemical for the elimina-
tion of all pain in dental surgery is
announced. This new chemical is
liquid in form, is applied on a pellet
of cotton to the gum or mucous mem-
brane surrounding the tooth to be an-
esthetized or into a cavity prior to
excavation where a tooth is to be filled
or treated. It produces complete lo-
cal anesthesia in from two to eight
minutes, and eliminates all feeling for
from one to six hours. Dr. Klein has
extracted teeth and pulps painlessly
by the use of this chemical. Its ef-
fect is entirely local, so it may be ap-
plied with perfect safety, regardless
of the patient's age or general phys-
ical condition. It leaves no disagree-
able after-effect.

China's Air Mail Service.

China, with the reputation of the
most backward of nations, is operat-
ing a regular airplane mail service

cels in addition to first-class mail.

A splendid lecture on the Development of the Harbor of New York was also heard very distinctly.

FOREST FIRES AND FURS
The question of forest fires has just been approached from a new angle. The trapper is the latest individual to add his testimony to the damage forest fires do to the great fur industry. The fact is forest fires injure every Canadian interest and benefit not one. Such being the case and as 99 per cent of all forest fires are started by human agency, is it not foolish and criminal that we allow fires to ravage our forests?

Germany Must Accept Conditions Before She Can Get Loan

The Committee of International Bankers in session at Paris has served notice on Germany that further consideration of a billion dollar loan to the German Government is virtually out of the question until Germany accepts in full the conditions of ultimatum of the Reparations Commission which expires May 31st, and also gives adequate guarantees that inflation of Germany's currency will be stopped immediately. The committee then decided to adjourn until today (Wednesday) to await the decision of Germany.

The conclusion of the bankers was arrived at during the meeting which was attended by Earl Bergmann as representative of Germany. Bergmann immediately telephoned the decision of the bankers to Berlin.

In reparations circles the view is advanced that the action of the financiers probably will result in complete acceptance by Germany of all their conditions. It was further stated that acquiescence by Germany in the reparations commission's conditions probably would be productive of a loan of more than a billion dollars, since the bankers have determined that a large loan could be arranged under those circumstances. The financiers completed their inquiry into the state of Germany's finance and it was explained that they had reached a point where Germany's guarantees must be forthcoming before the committee could discuss the details of loan, the security for it and many other points.

The bankers are taking advantage of their adjournment till today (Wednesday) to get in touch with their respective countries. The European members of the committee returned to their homes but all were expected to find out to what extent each of their respective countries will absorb a German loan so that they will be ready to report at today's meeting.
