Provincial Elections Will Be Held in Early December

Sir James Whitney Says There is No Desire to Hasten Appeal to Electors—Will Save Expense of \$15,000 for Bye Elections—Re-organization of Cabinet.

W. H. HEARST WILL SUCCEED COCHRANE

Sir James Whitney has announced that in the near future the Ontario Legislative Assembly will dissolve and that a general election will be held during the early part of December.

The cabinet ministers held a long conference yesterday afternoon, and later the premier handed out the following statement:

We have decided to dissolve the house in the near future, and I give this notice now in order that there may be no suggestion that we desire to hurry the elections.

There are several other very important reasons for our decision—reasons of vital importance to the province—which I shall lay before the public in the course of a week or ten days, or perhaps earlier.

As was definitely forecasted in The World last week, W. H. Hearst of the Goo will succeed Hon. Mr. Cochrane.

Many changes in the cabinet are expected to follow. His Excellency, for some time has been slated for the bench. While the Laurier government was in power this change was quite improbable, but now that the Conservatives are in control both at Ottawa and in the local house, the improbable has become not only possible, but most likely.

Hon. W. J. Hanna, provincial secretary, has been mentioned for the office of attorney-general, and being the man who comes next in seniority to the present attorney-general, he will undoubtedly be given that portfolio.

The question arises who shall fill the office of provincial secretary. Hon. Mr. Mann has succeeded Hon. Mr. Foy. Two names have been mentioned for the office of secretary. They are Hon. T. B. Lucas and T. W. McCarthy.

Colonel Matheson retires. Hon. A. J. Matheson, it is reported, will retire in the near future, owing to his failing health.

Owing to Col. Matheson's long and excellent service in government affairs, the cabinet will probably be re-organized.

Who the next treasurer will be is not guessed at yet. The political parties are silent regarding this portfolio.

Writs for by-elections are to be issued to-day.

Nominations Oct. 25 and Elections Nov. 1—Hazen Will Probably Sit For St. John County.

OTTAWA, Oct. 11.—(Special.)—Writs will be issued to-morrow for ten by-elections in the constituencies represented by those members of the Borden government, who were elected on Sept. 21, and have been assigned portfolios.

Nothing has been determined as to the seats to be occupied by Messrs. Hazen, Cochrane, White and Rogers.

The probability is that Mr. Hazen will take the St. John's City constituency, and that Dr. John Daniel will wait for the senate.

It is also pretty well understood that Hon. Robert Rogers will sit for a Manitoba constituency, and will not move into Saskatchewan.

It is said that he has been offered the Winnipeg seat, now held by Alex. Haggart.

There is vacant senatorship in Manitoba since the death of Senator Chevier, and it might go to Mr. Hazen, who has been regarded as the French appointment, and Hon. A. Laroche, former member for Provencher, wants to get it.

The Ontario Situation

Questions about the standing of the parties in Ontario might almost be regarded as satirical.

There are nineteen Liberal seats (Mr. Truxer resigned one of them to be defeated in the federal election) and eighty-seven Conservative seats.

It depends a good deal on whether Sir James Whitney outlines a new and forward program whether any Liberal seats will be left.

If the Liberals had a leader who would come out for public ownership, for the extension of the government railway to Toronto and Niagara, and eventually to Ottawa and Windsor; for civil service reform, for educational re-organization, for tax reform, and for a lot of other things the people want, and Sir James Whitney has no use for, a lively opposition could be developed.

But it would have to get new leaders and a new organ, for Hon. A. G. MacKay and The Globe have as little use for advanced measures for the people, such as have been mentioned, as Sir James could be imagined to have.

And if Sir James should adopt a few of these measures there is not likely to be any opposition left.

The rumor that The Globe is going to supply Hon. Mr. MacKay with a temperance platform is very likely.

Having murdered the Ottawa dam, the organ might as well make away with the Ontario infant.

CONFESSED TO THE STABBING

But Claimed His Life Was Threatened—Trial of Arthur Sheridan for Murder of Ross Ford Near Orillia.

ORILLIA, Oct. 11.—(Special.)—The opening of the trial this morning before Sir John Boyd, of Arthur Sheridan of North Orillia, for the alleged murder of Ross Ford of the same town brought out a crowd that filled the large court rooms to the doors.

White, K.C., appeared as crown prosecutor, the prisoner being defended by T. C. Robbette, K.C., and J. T. Mulcahy. An hour was spent in panneling a jury. Ten were challenged by the defense and six by the crown.

Reid of Orillia was the first witness called and told of finding the body of Ross Ford on the road near Geo. Dur's house after midnight on August 10. There was a stain on the breast and beside the body was a large pool of blood. Later he noticed three cuts in the back of the coat behind the shoulder. There was no sign of any struggle on the roadway.

On the 11th he arrested the prisoner on a knife near Dur's gate at a place in the woods. The knife was found to be two-bladed, the large blade about three inches long. It had blood and sand on it. Cross examined by Mr. Robbette, he told of a confession made voluntarily by Sheridan to him as follows:

Made Voluntary Confession. "Orillia, On Wednesday, the 8th day of August, 1911, I was in dancin' at Dur's in North Orillia. Ross Ford sent Rodi, Thorburn into the house to tell me he wanted to see me. I went out to the gate. He said: 'What talk was going around?' I said I didn't know. He asked me to come down the road. He said that some fellow says that I am telling lies. I told him that I didn't know, that I never told lies about anybody. He said we would have to fight it out. I told him I did not want to fight. He said: 'I do not want to fight.' He said: 'I got up again and he hit me in the breast.' I think I stabbed him in the breast; I think I stabbed him in the breast first; I only stabbed him twice.

DIVERSE VIEWS ON TECHNICAL EDUCATION

Some Manufacturers Object That It Awakens Undue Pride of Intellect, But Majority Note Advance With Satisfaction—Tariff Commission Wanted.

Does technical education as it is conducted to-day, defeat its own aims? This was a point raised at yesterday afternoon's session of the Canadian Manufacturers' Association, and while its supporters were in the minority, still their contentions were listened to with interest.

Following the reading of the report on technical education, the discussion began, and nearly everybody in the room seemed inclined to voice his opinions on educational matters.

The majority of the speakers at first were unanimous in their praise of technical education as it is now being taught, but a somewhat original argument was introduced by E. G. Henderson of Windsor, who, while not disclaiming the value of technical education, was inclined to the opinion that even in public schools the trend of teaching at the present time is towards the university and professional life, rather than towards the practical and mercantile pursuits.

Mr. Henderson contended that in many cases pupils who attended technical schools were not getting the idea that it was undignified to toil with the hands, and that mental work was worth aiming for.

Overcrowding Professions. "The tendency of education to-day seems towards the professions," said Mr. Henderson. "It is just as important to educate young men to develop industry, to create something and to make things, as to become learned doctors or lawyers. There is too much use of the head and too little use of the hands."

George Meadows made it plain that "wearing a pair of black hands and a black face is no disgrace." He thought that progress on the gridiron was not half so important as progressiveness in industry, and that the latter is not more than their share of popular approval.

Exception was taken to Mr. Meadows' remark by another member, who said he had no admiration for the man or boy who attempted to emulate the Ethiopian, and who seemed to proud to march along the street in coming from work, looking as black and grimy as possible.

Value of Technical Education. The report of the technical education committee showed that the past year has been one of unusual activity. From one end of Canada to the other the value of technical education as a factor in promoting social and industrial welfare has been recognized, and the technical education commission every assistance possible in investigating the conditions in industrial establishments throughout the Dominion.

In seconding this report, which was read by George A. Howell, C. R. McCullough remarked that it was not his wish to see that Canadians may hope to hold their own in manufactures, but by the diffusion of technical education and the industry of the Dominion.

It was also mentioned that technical education in some provinces is now in the hands of the manufacturers of the province.

I. Y. Ellis deplored the fact that there is so much talk about the differences between capital and labor. "There is no difference," said he. "They are identical, and the manufacturer who does not understand the artisan that the artisan could do without the manufacturer."

Energy Wasted. F. J. Howell of Hamilton said there were thousands of boys in the public schools who were wasting their time, because they were not being taught to go to the university. These boys, on the other hand, would make excellent artisans, and a practical course of technical training would make them useful men in any community.

A suggestion was also made to provide technical education, just as is done at present by the universities.

Attention was drawn to the fact that the Turkish troops are now in possession of the city, having given splendid proof of their powers of resistance and endurance. Their numbers are small, and in addition to the great amount of work they have been compelled to do, they must guard against the danger of an attack by the enemy. It is believed, however, that the Turkish troops are thoroughly disheartened, as otherwise, being only one day's march from Tripoli and twice outnumbering the Italians, they might have attempted to recapture the place, or at least inflicted serious losses.

It is too late now for the Turks to do so, as the first section of the troops of the expedition have landed, and great preparations were made to welcome the Italian soldiers as the liberators of Tripoli from the Turkish yoke.

While the Turkish embassies deny the existence of slavery in Tripoli, for the reason—as they set forth—that the Ottoman empire was a signatory to the anti-slavery convention at Brussels, Italian officials declare that notwithstanding the denial, the fact remains that Tripoli up to two weeks ago was the only outlet of the great slave market of Central Africa. Slavery, they point out, had always in Africa its established seat, as it was allowed by the Koran and approved by usage. Its worst feature in Tripoli was that for

ITALIAN ARMY DIVISION WAS LANDED AT TRIPOLI

WELCOMED AS LIBERATORS From Turkish Yoke—No Intervention by Powers Until Italy's Dominion in Tripoli is Indisputable—Italy Will Not Be Catpaw to Germany, Notwithstanding Alliance.

ROME, Oct. 11.—The first division of the army of occupation arrived at Tripoli at noon to-day. The troops were landed safely without incident.

There is a feeling in official circles here that Turkey and her sympathizers, as well as those elements which are antagonistic to Italy, are doing everything possible to engender opposition among the powers to Italy's plans, and it is believed that certain reports which have been circulated anew chiefly to play on Anglo-German antagonism and the Italian desire to obtain the port and the Mediterranean against British supremacy.

All these rumors are discredited by the fact that Italy has no intention of obtaining this important strategic point from Italy now as base for operations in the Mediterranean against British supremacy.

Advices from Tripoli, sent by Rear-Admiral Borea d'Olmo, the governor, and Capt. Cagni, the commandant, say that the sailors, who are now in possession of the city, have given splendid proof of their powers of resistance and endurance. Their numbers are small, and in addition to the great amount of work they have been compelled to do, they must guard against the danger of an attack by the enemy. It is believed, however, that the Turkish troops are thoroughly disheartened, as otherwise, being only one day's march from Tripoli and twice outnumbering the Italians, they might have attempted to recapture the place, or at least inflicted serious losses.

HIS BUSINESS SUIT

WELCOMED TROOPS

TRIPOLI, Oct. 11.—The fast transports bearing a portion of the Italian expeditionary forces arrived here to-day. They were escorted by warships and accompanied by the hospital ship Regina d'Italia. The disembarkation of troops began immediately, the greatest enthusiasm prevailing.

The batteries of the fleet all thru the night shelled the surrounding country, which was swept by searchlights. Tripoli has nothing more to fear from Turkish attacks.

AGAIN THE CRY COMES FROM NORTH COUNTRY WANTS SHORTER ROAD TO LAW

Ontario to have at least one of its grievances put at rest—create a new judicial division and centre.

HAILESBURY, Oct. 11.—(Special.)—The north country demands a new deal. The people of New Ontario want the administration of justice re-centralized. They want the establishment of a new judicial district. They want an administrative centre that will be a centre, and they want it now. The north country wants something they have every right to, and should have. The situation in the north country is this:

Between North Bay and Latchford is a hundred miles of unsettled land, a land of unused rock and forest.

Between Enghart and Matheson which latter place marks the beginning of what is known as the new north is another stretch, excepting for the bustling town of Swastika, an unpeopled territory.

Between Latchford and Enghart is one of the most prosperous, one of the richest sections of Ontario. Along the railway between these points is a succession of thriving towns, as close together as in the most settled parts of rural Old Ontario. First Cobalt, and

NEED A RELIGION THAT APPEALS TO LOVELY

Many Methodist Delegates Look Wistfully Back to Old Camp Meeting Days, When Exhorters Raised Voices—Fraternity of Churches at Evening Session.

BY DR. QUILL.

The Ecumenical Conference has easily got the habit and is now a real "protracted meeting." As experienced fishermen they are even now beginning to draw the net. That men have had "the power" both to speak and hear is acknowledged. It is a great old camp meeting.

Conversions there will be, too. If higher criticism be of God, there will be souls "born again" to the light of modern scholarship. If God be still no respecter of persons, white or black, there will be both the prayers and tears of repentance for past sins of prejudice. And if church union be the work of the Spirit, there will be some "great and hardened sinners" of denominationalism who will sing: "Depth of mercy, can it be? Mercy still reserved for me?"

The afternoon session was spent in the discussion of the subject of the church and the city. Dr. Frank Mason North of New York, who has been 15 years secretary of the Church Extension Society of that great city, read the essay. He is another editor, having in charge a journal devoted to Christian citizenship. He has not read two sentences before we scent the feet of an expert on social problems.

"What means the city?" he asked in one of his early paragraphs. "The great church fathers did not deal with it. The problem, however, is one that presses itself upon all of us. The solution is yet to come. I believe, too, that the kingdom of heaven will come by way of the city. She is nothing less than an organized opportunity."

Damon and Pythias. Thus he went like a rhapsode. The whole church was crowded. A beautiful and pathetic sight was the entrance of the Damon and Pythias of Canadian evangelism to a seat in the gallery. They were the beloved Crossley and Hunter. How gently the zealous crusader, who is now but a shadow of himself, was assisted by his devoted brother! Quite a few paid a silent tribute to their love, which will be even unto death.

There is something worth noting in a listening audience, for it is not how men speak, but how they listen as well that is both interesting and characteristic. Sir Robert W. Perks likes the end of a family pew. He listens like a sentry on duty.

Dr. DuBois sits "among the boys." His face suggests a good critic. Dr. Edwin Dalton seems out of place in the congregation. One would expect to find men of his mould on the "wool-back" not far to the right of the Speaker.

Alderman Thomas Snape as an old magistrate listens like cold justice herself. Bishop Hoss from his front seat, tho he is absent to-day, seems to say, "What better to see 'The Pink Lady' than wish you had."

WAS ROTTEN TO THE VERY LAST

Laurier Government, After the Election, Sold for Paltry Sum, Valuable Power That City of Ottawa Needs—New Government May Upset the Deal.

OTTAWA, Oct. 11.—(Special.)—Victoria Island, close to the Chats Falls in the Ottawa River, thirty miles up from Ottawa, has been sold. Thereby is said to hang a tale, which is a sequel to the story of Hon. William Hart's control of part of the enormous water power at the Chats. The islands giving Mr. Hart's right to this power were alienated years ago by the Province of Ontario during the Liberal regime. It has since then very greatly increased in value. The falls are situated immediately above Fitzroy Harbor and extend from island to island across the river. The City of Ottawa has had an eye on this power, but the party control was found to be complete.

Victoria Island has been looked upon as a key to the power situation. It belonged to the crown. Mr. Hart, it is said, wanted the island in order to increase his grip on the power. The proposal was considered by the Liberal government after the election, and the island sold to Mr. O'Connor, fourteen acres, at \$100 per acre. This recommendation, which went to the Liberal council, has not yet been returned to the public works department. In the meantime Hon. F. D. Monk, the new minister, has given instructions that nothing be proceeded with until his return.

Hon. William Pugsley, in conversation with The World to-day, freely admitted that the island had been disposed of for the sum named. The property, he said, was of no use to the crown as an island. He denied that the sale carried power, privileges with it, but admitted that the possession of the island was an important step in controlling the falls power. What the new government will do with the sale remains to be seen.

MEMORIAL CHURCH WILL LOSE ITS IDENTITY

Walmer Road Baptist to Use It For Tutorial Work—Dr. Harris' Offer Accepted.

Net the most important matter dealt with at the meeting of the congregation of Walmer-road Baptist Church last night to discuss the gift of Rev. Dr. Elmore Harris to the church for a memorial to the late Ruth Shenstone Harris, was the decision to embark into a new field of endeavor by taking over Memorial Baptist church, at the corner of Tecumseh and Richmond streets, for institutional purposes, thereby enabling the congregation to assist in the down-town work, following the desire expressed at the last annual meeting.

The members of Memorial Church held a meeting on Sept. 27, and expressed their willingness to accept the gift of Walmer-road Church should take over their work, as the burden was so heavy on the congregation that the work could not reach its full development.

Joseph N. Shenstone and Rev. Dr. W. B. Macdonald of Ottawa were invited by B. Norton presented a resolution to the above effect.

The resolution was unanimously carried, and a committee composed of Chancellor McCrimmon, Rev. S. S. Bates, D.D., Frank Sanderson, Dr. J. Joseph N. Shenstone, Rev. Elmore Harris, D.D., E. C. Fox, Dr. G. D. Porter and Rev. W. B. Macdonald, will enter into negotiations for the immediate transfer of the church property to the new congregation.

A resolution was submitted expressing appreciation of Dr. Harris' gift, accepting the privileges of the church, and instructing the officers to proceed with the perfecting of plans, and giving them power to canvass the congregation at a suitable time. The resolution was unanimously carried.

The meeting will be held in the near future, when the plans of procedure will be discussed.

HAMILTON HAPPENINGS

COMPANY CTED AS TWO THEY OWNED THE STREET

Chairman of Railway Commission Hands a Few Joins to the G.T.R. at Hamilton.

HAMILTON, Oct. 11.—(Special.)—The most important matter of local interest to come before the Dominion Railway Commission, which sat here today in the city hall, was the city's application for an order restraining the Grand Trunk Railway Company from shutting cars on Ferguson-avenue.

Chairman Mabee suggested that the train crews be summoned to police court for negligence in that respect and made an order to allow the main case to stand over for thirty days.

The complaint of the city in regard to the unsatisfactory condition of the G. T. R. local station was withdrawn.

That their business had decreased to about one-third of what it was in 1928 and that they were gradually being forced out of business was the complaint lodged by the Clifton Sand and Gravel Co. with reference to the restoration of a "4 per cent" rate on their product by the Michigan Central Railway.

Called it Scandalous. Chairman Mabee described as scandalous the complaint of the city in regard to the unsatisfactory condition of the G. T. R. local station.

MEN WHO DON'T EXERCISE

Suffer From Indigestion, Headaches, Poor Appetite, Sleeplessness.

Nothing So Sure to "Set Up" a Man, Make Him Feel Brisk and Vigorous as Dr. Hamilton's Pills.

Lack of exercise and overwork were the causes that combined for almost half a century in the case of one of the best known citizens in Woodstock.

In his convincing letter, Mr. Stephens says: "A year ago I returned home after a long trip, completely worn out. I was so badly affected by chronic biliousness, so much overcome by constant headaches, dizziness, that I despaired of ever getting well. I was always tired and languid, had no energy and spirit, found it difficult to sleep for more than five hours. My appetite was so feeble that I ate next to nothing, and in consequence lost weight and strength, my eyes were pale and had dark rings under my eyes that made me look like a shadow.

"It was a blessing that I used Dr. Hamilton's Pills. In one week I felt like a new man. The feeling of weight and nausea in my stomach disappeared. My eyes looked brighter, color grew better, and best of all, I began to enjoy my meals. The dizziness, languor and feeling of depression passed away, and I fast regained my old-time vigor and spirits. To-day I am well-thriving and Dr. Hamilton's Pills.

"For health, strength, comfort and good spirits there is no medicine like Dr. Hamilton's Pills. Beware of substitutes, and don't let any dealer palm off some other pill on which he can make more money. Instead, insist on the box, or five boxes for \$1.00, by mail from The Catabrazona Company, Kingston, Ont.

thus the conduct of the Grand Valley Railway Company, in forcing a widow, Mrs. Florence Raugh of Dumfries, to go to the expense of appearing before the commission to ask for an order compelling the railway to fence its property adjoining that of the applicant. The company was ordered to construct the fence within thirty days, and for such day thereafter it will pay \$10 if the fence is not built.

Twenty-four cases in all were on the order paper to be heard by the commission. Several of these were laid over, and the sitting was finished about 6 o'clock this afternoon. The chairman and Commissioner D'Arcy Scott were the members who sat here.

Thomas Burrows, for many years well-known auctioneer here, died at his home, 74 North West-avenue, early this morning, after a brief illness from cold. He was 78 years old and came to this country from Ireland when fifteen years of age.

Killed by Falling Brick. David Peduzzi, a 32-year-old Italian, who resided at 3 North Sherman-avenue, was struck by a falling brick at the steel plant, where he was employed, last night and received injuries from which he died this morning in the City Hospital, where he was removed immediately after the accident.

A delegation of Anglicans from this city will attend the funeral of the Very Rev. Dean Houston in Niagara Falls to-morrow.

It was announced to-day that the condition of Tony Loftus, the Tiger scrimmage man, who was injured Monday at the steel plant, was considerably improved to-day.

NEEDS RELIGION THAT APPEALS TO LOWLY

Continued From Page 1.

"Hurry up now and say something," Bishop C. H. Phillips (colored) listens like a "bookworm" of an old variety. Dr. Carman usually has a "chip on his shoulder" which likely means that nobody dare touch the Canadian Methodist Church, especially its orthodox section.

Bishop C. S. Smith (colored) sits near the platform, as if to give "first aid" to anybody in need of a vocabulary. Mr. Burt is a stolid listener, like one who has heard much under the chimes of the Vatican.

Dr. Chown has a good ear, to wit, his reply on church union. Rev. William Warkinslaw of the Methodist Times listens with the same composure as he prays. Bishop Hendrix has an eye that a speaker locates in an audience.

Mr. N. W. Howell has set his meekly that it was no wonder that the audience called names when he rose to speak in his own Metropolitan church. Rev. E. W. Evans, James Lewis, the Welsh-Cambridge man, Dr. R. J. Cooke, the New York Doctor Subtilis, and Dr. James Mason, the Rochester Freedman, listen like three steaming tackettes.

Unknown to Wesley. But the essayist has got into close grips with his subject. "His Methodism is a program for the city? Yes, but it is not to be found in the polity of John Wesley. His dead hand cannot shake the living because he never knew city life. Methodism is alive to the needs of the day. She has a heart-to-heart word of men and women, leading in brotherhood and sisterhood, which the earth is not worthy." (Applause.)

Rev. George P. Eckman, D.D., New York, a popular pastor and well-known good reception. He spoke without notes on settlement work. He defined such to be a "humane invasion of black areas where injustice is rampant in life and work." "We must not forget the fact that it is often carried on by men who are not avowedly religious. Thoreau says that even God may have a respect under certain conditions for a sinner. The work is broader than that of our churches and missions. It would be fine thing if Methodism would travel incognito." (Applause.)

Approved Churchly Pride. Rev. W. Bradford, B.A., Ikkley, Eng., who has already taken part in discussions and is an authority on "Metho-dist Rules," gave the second ten-minute address. He said: "The church that will not allow the church buildings to be used for the good of the people, and the sentimental use of things that have long since outlived their time, should be reprobated as unholily unchristian." (Hear, hear.)

Three sturdy Britshers stood at the feet of the speaker. They were Rev. E. H. Scott, Rev. R. F. Bloomfield, Goble, Eng. But the first was declared preacher. This stock young man, in his short grey coat, is a coming man. That is, if he has not already landed before the "footlights." He is a most wholesome brother. In his creed there are wrong lines of sympathy and common sense.

After referring to Dr. J. A. Macdonald's well known reference to the "hopeless look upon the faces of the English crowd," which he characterized as being a fairly apt description, he said: "When I was a preacher in London I had the honor to belong to a municipal body. And I felt when I attended its meetings, that I was pursuing a sacred calling. I could do it in the same spirit as go to a prayer meeting." (Applause.)

Dr. J. G. Bickerton, Philadelphia, a ponderous brother, resembling the old Grover Cleveland, got the floor, but was very slow in making a start. It is indeed a test of breath to come in first in such an eager race. But his speech was just the kind, in its rare courage and originality, that ends all too soon. He said: "The citizens of the old world are one thing; those of the new, a much acuter condition. We have the mixed races to deal with."

Home Missions. "The time has come, he thundered, when our churches should attend more vigorously to the missionary problem at home. Let them stay down town in their congregations and elevate the community instead of passing on to the suburbs and praying for heathen lands." (Applause.)

Volley! Mr. President! Volley! and twelve overflow meetings could have had ardent speakers. "We after man had tried and tried again; but Rev. J. Oliver Park, Wexford, Ireland, the president, failed to see them. A bright and brave young business man got the nod to speak. It was Mr. H. H. White, Alexandria, La., a very black man, who made a run on his name. He pleaded with the church to share in the work of elevating the negro people. "It is a task," he said, earnestly, "too great for us to accomplish alone."

Dr. Scott Lidgett, London, is not yet weary of the "camp-meeting." He is enthusiastic and business personified. He protested against a cheap kind of charity, which patronizes the poor, "let us," he said with his clear ringing voice, "bring to our social settlements, all that is best in art and science, in culture and grace."

Dr. Robert Forbes, Philadelphia, an admirer of the Canadian hero, who have made good, and are now on the list of the world, declared their affection, and soiled the conference with a rare power. "I am a big man and an exceptionally virile soul."

"I have never gone back on the flag that waved over my cradle," he said, and cheered, "and I have never, on the other side, been asked to do it." (Hear! hear!)

Another of his clever passages was when he described the American, like himself, who usually gets to general conference, as one who has the "right" of life, liberty and the pursuit of office." (Laughter.)

Unwelcome Heathen. There was more than humor in his address. With fine scorn he told in picturesque language how the "good people" pray for God to save the heathen. And when he begins an answer their prayers by sending the forerunner to our land, schools and homes, they jump up and raise a hue and cry. "I have heard much about rich rascals. But in my time I have seen more rascals made poor by sin. They run with money. The principle of all charity is to help the poor to help themselves."

Mr. J. A. Patten, Chattanooga, Tenn., who looks the ideal man for the layman's movement, said: "Don't begin talking to industrial people by saying Jesus Christ was a carpenter. They repudiate this attitude of always stooping down to reach them." (Hear! hear!) He quotes the passage on "My money is myself." He got a fine reception and evidently deserves it.

COLETTY

The engagement is announced in Winnipeg, of Miss Dorothy Chapman, daughter of the retiring high commissioner of the Hudson Bay Co., and Mrs. C. C. Chipman, to Mr. Russell C. Col. Provencher, Rhode Island. Mr. Col. is a member of the very wealthy gun manufacturers, and is a brother-in-law of Ethel Barrymore, the actress.

Saving the Child. And last of all it was a woman, Mrs. Lucy Rider Meyer, Chicago. Those matronly women, who have consecrated themselves to the purification of the city! Here the galleries roared to get a good view of her frail, yet thrilling personage. She said: "We have heard to-day much about the fallen brother and sister, but what about the child?"

"The child," she repeated dramatically, "that did not ask to come to this sinful world. Not yet can it help itself."

Then she gave an incident from her story, where after a little girl had been bathed and clothed, was heard to utter in conversation the most blasphemous language. "Did you not see," she said, "this morning when we got on our knees after breakfast?"

There were many others who wanted to speak, but the hour of adjournment had come.

The Catholic ladies of Toronto are reminded that the first monthly meeting, since the holidays, of the E. E. B. (Sistering Nurses) Association will be held on Friday, Oct. 13, at 7 o'clock, in St. Michael's school, Bond-street. Dr. Kidd, administrator of the diocese, will address the members.

MR. MANTELL'S "RICHELIEU". Another crowded house at the Royal Alexandra last night deservedly applauded Mr. Mantell's presentation of "Richelieu". More than seventy years have elapsed since the play was written and given to the world. Its mechanism is artificial and much of its play-by-play melodramatic, but perhaps the actor all the more strictly. Mr. Mantell's "Richelieu" was entirely freed from that antipathy. It was strong and powerful and held the audience in the closest attention. Their silence at the critical moments was the best tribute Mr. Mantell could have received.

The Foundation of All Lord & Thomas Successes Experience, Information and Strategy

We have put into print, for the first time in our history, the chief reasons for our success.

This step has involved the revelation of secrets, long considered too valuable to print.

Our purpose here is to offer that book, and convince you that you should have it.

For forty years, for a thousand concerns, we have acted as selling advisers. These concerns, in most part, dominate their lines. They are managed by some of the ablest men whom the business world has developed.

In all of those thousand selling experiences there is no plan or problem, no mistake or success, with which we are not familiar.

Our business has been, in this vortex of experiment, to learn the right and the wrong. Then to pick from the right the one best way—the quickest, cheapest, most efficient way—to accomplish each selling purpose.

Our new book illustrates, by many examples, how much such a mine of experience means.

A good many advertisers guess at conditions. They act on unfounded assumptions.

We have found that our guesses—and we guess pretty well—are as often wrong as right.

So we now make a canvass from house to house, from store to store, from town to town, before we map out a campaign. We learn if people will buy, and why they will buy. We measure up trade conditions.

Our book points out how information has saved many situations. How many successes, otherwise inconceivable, have been won without risk. How many

errors, leading to disaster, have been avoided by it. Perhaps it will change your whole plan of procedure.

The largest rewards are not won by mere advertising. They are won by maneuvers—cheap, quick and decisive. The work of years is now done in a month. National distribution is accomplished at once. New products are made to earn profits immediately.

Substitution is fought and competition defeated by strategy rather than attack. The clever has supplanted the clumsy.

This new science in advertising—the Science of Strategy—is revealed for the first time in this new book.

These are the basis of all our famous successes—Experience, Information and Strategy. We employ them in each undertaking.

How we employ them, and with what results, are told in this book—the most valuable book ever written on advertising. From cover to cover it is filled with ideas adaptable to every business.

It will also give you a new conception of our prowess and our powers. That's why we send it out.

If you deal with selling problems, cut out this reminder; put it in your pocket. Then, when convenient, write us for the book.

DYNAMITING TRIAL BEGUN AT LOS ANGELES

James McNamara Will Be Tried First—Selecting the Jury—Case Adjudges Until Tomorrow.

LOS ANGELES, Cal., Oct. 11.—Today began the trial of the State of California to hold James E. and John J. McNamara responsible for the death

of 19 men in the explosion in the Los Angeles Times plant on Oct. 1, 1910. A severance of the case against the McNamaras, both of whom were indicted five months ago on 21 counts for murder, has been announced for the purpose of the prosecution. The formal request in court today to that effect before disclosing which of the two brothers it had elected to try first.

When court opened, District Attorney Fredericks declared that should the defence exercise its privilege of having the brothers tried separately, it would await the formal request in court to-day to that effect before disclosing which of the two brothers it had elected to try first.

District Attorney Fredericks read the indictment to the ventrums, pointing out the prisoner and explaining the case briefly, "so that the veniremen might know in a general way what it was about should they be called upon to become trial jurors."

Leconte Davis, for the defence, asked the usual questions concerning qualifications.

Court adjourned at 3:55 p.m., until 10 o'clock Friday morning, because of the legal holiday tomorrow.

In their questions to veniremen the defence sought to establish a mighty conflict between organized labor and capital.

Attorney Leconte Davis, examining jurors, headed straight for this point.

"Are you aware that there is a bitter warfare between capital and labor?" he asked H. Nelson, the first venireman examined.

"Yes," said Nelson. "And that most men have taken sides?" "Yes."

"Have you the opinion that labor unions as they exist are proper, or that they are inimical and a menace?" "To this prosecution objected because counsel is asking the opinion of the witness on evidence that may arise during the trial."

"He may answer," said Judge Bordwell, and Nelson said he was "not prejudiced."

Further questions were met by the assertion from Attorney W. J. Ford of the prosecution that "this is not a union case trial."

"Do you take The Los Angeles Times" and "Do you read the weekly page devoted to animadversions on labor" were other questions put by Nelson was still being questioned when court adjourned.

BID FOR WINNIPEG RAILWAY.

WINNIPEG, Oct. 11.—R. J. Mackenzie is authority for the statement that local capitalists, including Messrs. Muir, Beece and Mather of the Manitoba Power Company, allied with New York capital, have made a bid of \$300 a share for the purchase of the plant of the Winnipeg Street Railway Company. This is \$50 a share more than what Sir William Mackenzie asked for the property from the Lieutenant-Governor of Ontario and the Mayor of Toronto.

MRS. BRAMWELL BOOTH GIVEN HEARTY WELCOME

Pageantry Marked Reception to Salvation Army Leader at Massey Hall—Her Life of Sacrifice.

With Massey Hall filled to overflowing with officers, workers and friends, the twenty-ninth annual congress of the Salvation Army opened last night at eight o'clock, Mrs. Bramwell Booth, wife of the chief of staff and eldest son of General Booth, being central figure.

Mrs. Booth was warmly welcomed by the army officers representing Canada and the International field work. An impressive feature of the occasion was the entering of the army flag bearer, escorted by twelve other flag bearers, representing as many different countries in which the army is at work.

Overcome by Welcome. In responding to the addresses of welcome and the cheers of greeting, Mrs. Booth was visibly affected. She thanked God that she was a Salvation Army representative and a member of the Booth family. She brought many greetings from the old land. General

Booth was well and looking forward to a visit to Canada in the spring. In speaking of the work of the army and its progress, she told how General Booth on a trip to Rome fourteen years ago was refused a bed at the hotels in which to sleep. "On his last visit there this year," she said, "the largest public hall could not accommodate the people, and during the meeting one enthusiastic visitor told him he was ready to give 1000 pounds to extend the army work."

Red Cross of Palestine. She told of a conversation between an army officer in China and one of the Chinese government officials, during which the official was seeking to get acquainted with the work of the army. "The officer had told him something of the work he broke in saying, 'Oh, I see, it is the red cross of Geneva is the red cross and the red cross of the Salvation Army is the red cross of peace.'"

In addition to the pictures shown on a canvas of General Booth, chief of staff, Bramwell Booth, and the new headquarters of the women's social work in Great Britain, there were large attendance. E. Kirkland president of every province except two in the Dominion, and from the Lieutenant-Governor of Ontario and the Mayor of Toronto.

Mrs. Booth's Career. Just 23 years this month Mrs. Booth married Bramwell Booth, eldest son of General Booth, aged head of the Salvation Army, sacrificing a life of ease and luxury for one of Christian labor.

Mrs. Booth, as the wife of Bramwell Booth, has been a devoted wife and mother when the work of General Booth comes to an end, as it is practically conceded by the army. At present, she is in the woman's department of the work.

Four Hundred Delegates. Convention Rees, who has charge of the army work in Canada, was host at a breakfast given to the leading delegates at the Victoria Hotel, where a luncheon in Victoria House to the 400 delegates in attendance at the congress at which Mrs. Booth was present. The congress will be in session from time to time until October 17.

BEAUTY LECTURES CREATING INTEREST. There is a growing interest among the women of the city in the forthcoming beauty culture lectures of Dr. Felix Christian, Rue de Rivoli, Paris, whose achievements along these lines have been heralded in the foremost magazines and press of the country. He is the acknowledged master of his art, the author of the only recognized text book on beauty culture and facial blemishes and a scientist of international fame.

Prof. Christian has attended almost every court of Europe and has princess gifts awarded him by his titled admirers. His lectures will prove of inestimable value to everybody, regardless of her age, and no lady who values her personal appearance should fail to hear this exponent on beauty culture. The lectures will be in English, the professor speaking over eight languages fluently.

ATTORNEY-GENERAL OF N. S. HALIFAX, Oct. 11.—Honorable O. T. Daniels of Annapolis was today appointed attorney-general of Nova Scotia in succession to Honorable A. K. McLean and was sworn in at noon.

It is said there will be no opposition to Mr. Daniels' re-election in Annapolis.

THE GAMEST FISH. What luck? Where are you going? Everyone indeed seems to have been out to be going fishing. Amidst all the talk and yearning it seems however, to be pretty generally conceded that weight for weight, the black bass is the gamest fish to be found in Ontario waters. It is interesting also to note how unanimous is the opinion of the anglers as to the supremacy of Radnor Water as a beverage for a fishing trip.

"Nothing like it," they say. "It refreshes and invigorates. It mixes with anything."

HORSEMEN MAKE PROTEST AGAINST ORDER OF M.H.O.

Costly and Impracticable to Compel All Stables to Be Drained, Say Objectors.

A meeting of horse owners of the city was held last night in Occident Hall to protest against the new order of the medical health officer requiring stables to be drained. There was a large attendance. E. Kirkland president, and C. E. Sherlock was secretary pro tem.

Everyone present argued that the enforcement of such an order would entail a needless expense to the horse owners without bringing about any beneficial results.

Messrs. Caslor and Crittall opposed the scheme on the ground that the by-law covering it refers to "horses." These gentlemen have only one horse each and yet they have been notified to prepare plans for a stable sewer, just as if they owned several horses.

Ald. McEwen said he had not yet been notified, although he was a horse owner. He thought there should be no discrimination shown in the matter of serving these notices, whether the owner of the horse was a civic official or not. He also hinted that some of the aldermen often gave way to recommendations of heads of civic departments, without giving due consideration as to whether these recommendations were of benefit to the public.

The horse owners declared that the expense involved in the construction of these sewers would be unreasonable. One man, it is said, had to pay \$42 for opening a sewer from the city sewer to the street line.

The horsemen declare that the bedding of the horses becomes saturated, so that practically no sewage would ever be able to find its way out of the stable into the city sewer.

As regards the water-tight or air-tight manure box, also recommended by the medical health officer, Mr. Kirkland said that the most manure enclosed in such a way would cause combustion.

J. W. Dick Buried.

The remains of J. Walter Dick, who died from injuries sustained Saturday evening when he was struck by an unknown man at the corner of Toronto and King-streets, were laid to rest yesterday afternoon. The funeral service was held in St. Thomas' Church and Rev. C. Ennor Sharpe and Rev. F. Lewis officiated.

Mr. Dick was unmarried and lived with relatives at 304 Huron-street. He was a son of the late James Dick, Inspector of markets and fisheries. He held a position with the Hudson Bay Company for many years and for the past twenty years was connected with the civil service. He was at one time president of the Ontario Rugby and Football Union.

The pallbearers were: Edward Bayly, K.C.; J. W. Seymour Conroy, K.C.; Charles Evans, George Evans, Reginald Northcote, Roden Kingmill, Joseph Boomer and Davison Harman.

DOUBLE MURDER?

KINGSTON, Oct. 11.—(Special.)—Altho the penitentiary authorities say there is no truth in the report, Dennis Babcock, Sharbot Lake, is in the city endeavoring to probe a story to the effect that a prisoner in the penitentiary had confessed to a double murder, one of the victims being a son of Babcock. About eight years ago, Morris Babcock and a companion named James Martin, both young men living near Sharbot Lake, mysteriously disappeared, and as they were on a fishing trip it was believed they had been drowned. The story sent abroad was a term for manslaughter, had confessed to a double murder, stating that the bodies had been buried in a creek swamp. Babcock is having a lawyer take up the case.

PILES

Do not suffer another day with itching, bleeding, or protruding piles. Surgical operation required.

BIG ELECTRIC MERGER.

BRANTFORD, Oct. 11.—(Special.)—It is reported here that negotiations are now in progress in New York for the merger of the Grand Valley and Brantford street railway lines into a big system of electric roads to extend from Toronto to Detroit, and it is said the deal will be consummated with a number of American capitalists.

Witness Threatened.

Frank Tyndall did not know what had happened on the night of the murder. But previous to the murder, Sheridan had made up his mind to strike him with a knife, but whether it was in a jest he could not say. He really thought the prisoner intended to harm him.
