BRITISH TAKE PRIZES NEAR EPEHY FRENCH WIN BATTLE AT LAFFAUX

BRITISH LINE NOW ADVANCED NEAR VERMAND

Successful Local Operation is Carried Out North of Epehy.

COUNTER BEATEN

Machine Gun Fire Repulses Attempts to Gain Gouzeaucourt Posts.

London, Sept. 11.—The British in local operations have further advanced their line north of Epehy and in the neighborhood of Vermand, west of St. Quentin, according to Field Marshal Haig's communication, issued tonight. The text of the communication follows: "We carried out a successful local operation early this morning north of Epehy, advancing our line in this locality and capturing a number of prisoners. Some progress has been made by our troops during the day on the southern portion of the battlefield in the neighborhood of Vermand. "An attack attempted by enemy troops against one of our posts west of Gouzeaucourt was repulsed by machine gun fire.

"Local fighting also has taken place northwest of Hulleuch and south of La Bassee Canal, as the result of which we captured a few prisoners and established posts in the enemy's former position. "The hostile artillery has developed considerable activity this evening in the Havrinourt Wood sector."

SUBMARINE CAUGHT IN ATTACK ON SHIP

U-Boat Sunk Off Marseilles by French Trawler, Saving British Vessel.

Paris, Sept. 11.—The exploit of a French trawler, the Automne, which succeeded in destroying a submarine which was attacking a British steamer in the Mediterranean, is described in a despatch to The Mail from Toulon. The trawler was patrolling the Mediterranean when it received a wireless call from the British vessel which was attacking a British steamer in the Mediterranean, is described in a despatch to The Mail from Toulon. The trawler was patrolling the Mediterranean when it received a wireless call from the British vessel which was attacking a British steamer in the Mediterranean, is described in a despatch to The Mail from Toulon.

STAND ON HINDENBURG LINE TO BE TEMPORARY

German Air Burning La Fere and Removing Everything From Douai and Aviation Centres.

Paris, Sept. 11.—That the Germans do not intend more than a temporary stand on the Hindenburg line is inferred from the fact that they are burning La Fere and are removing everything from the Douai arsenal and the aviation centres at La Brayelle and Lecelles, near St. Armand. The last named airfield is that from which the Gothas have flown to London.

ALL COUNTER-ATTACKS REPULSED BY FRENCH

Six Attempts to Reach Positions Near Laffaux Are Beaten Off. Paris, Sept. 11.—German counter-attacks around Laffaux were repulsed by the French today, according to the war office announcement tonight. The statement says: "A German counter-attack southeast of Roupuy (near St. Quentin) was repulsed. "In the region of Laffaux and Celles-sur-Aisne six enemy attempts to reach our positions were repulsed."

STATE-OWNED RAILWAY PLAN BEING HELD UP AT OTTAWA

Reorganization of C. N. R. and Consolidation of All Government Lines Will Not Take Place for Some Time.

By a Staff Reporter. Ottawa, Sept. 11.—The reorganization of the Canadian Northern and reorganize with the proposed consolidation into one system, under one management, of all the state-owned railways of Canada will not take place for some time at least. No order-in-council to that effect has been passed; but various members of the government talked quite freely today on the subject. One of them, who is in a position to know, said that it would only be a short time until the government took over the Grand Trunk and the Grand Trunk Pacific railways. He, therefore, thought it would be best to wait until the Grand Trunk lines had been acquired, and then appoint a board to manage all the railways in possession of the government.

"If we appoint a board of directors now for the Canadian Northern," he said, "that board will have to be reorganized to some extent as soon as the Grand Trunk and the Grand Trunk Pacific are included in the national system of railways. It would, therefore, be better to make one of the three directors now in office, in regard to Mr. Hanna as a most competent official and have no doubt the result will be well marked with him in charge."

No Harm in Waiting. Another minister, concurred in this view up to a certain point. He said that negotiations were now going on by cable with the Grand Trunk management, and he was hopeful that an agreement would be reached within a short time. He saw no harm in waiting, say for a month, if by that time the deal for acquisition of the Grand Trunk had not been consummated. He said that the government should proceed to reorganize the Canadian Northern directorate and place under its control the National Transcontinental, the Intercolonial and all the other roads owned by the government.

Still another member of the government was even more guarded. He admitted that there would be some delay in appointing the new directors, but denied that the reorganization and consolidation of the government railways were to be postponed until the Grand Trunk lines were acquired. He said the delay was due to the fact that the government wanted to get the best available men to manage the national system. So much depended upon their selection that the greatest care should be exercised.

It seems to be understood that some change has occurred in the railway situation since the delivery of the prime minister's speech at the Toronto Exhibition. The Grand Trunk management since then has a disposition to reopen negotiations. The plan now is for the government to take over the Grand Trunk and pay an annual rental in perpetuity to the Grand Trunk Railway Company. The amount of this rental is a subject over which the negotiations are being conducted.

Some critics of the government are saying that all this is camouflage. They assert that influences are being brought to head off government ownership and operation. They point to the squabble over the chairmanship of the board which is dividing the government. Hon. Frank Cochrane says he was promised the chairmanship. There is also a sharp division of sentiment over the proposal to make the minister of railways and canals a member of the board. Some of his colleagues were quoted today as saying that while he had no objection to Dr. Cochrane's being on the board, the minister of finance instead of the minister of railways should be the member of the government to serve on the board. B. B. Cahill, Liberal member for Pontiac, and railway critic for the opposition, is quoted as saying that the government should not have pursued a line of having a million dollar railway without having first decided how they were going to run it.

ALLIES MOVE ON DESPITE STORMS

French Gains Outflank St. Quentin and Threaten St. Gobain Massif.

MANY ENEMY RAIDS

Germany Try Hard to Find What Foch Will Do Next.

Paris, Sept. 11.—Bad weather continues over the battlefield, hampering the operations from Rheims to Ypres. Nevertheless the allies have kept moving in the teeth of the storm and despite the stiff German resistance, and today are at several points appreciably nearer the Hindenburg line. The French have made notably useful gains, as the result of which they outflank St. Quentin from the south and threaten the St. Gobain massif from the rear. Numerous raids are reported to have been made by the enemy in Champagne, the Argonne forest, the Woivre, Lorraine and Alsace, which indicates that he is trying extremely hard to find out what Marshal Foch is going to do next. It is evident that he realizes that Foch, with the ever-growing American reserves behind him, is able to strike at several points simultaneously, or in quick succession.

FRESH GERMAN TROOPS USED FOR DEFENSIVE

Hindenburg Line is Held by Men Who Have Not Appeared in Fighting So Far.

With the British Army in France, Sept. 11.—There are indications that when the retreating Germans reach the Hindenburg line they will pass through the same corps and divisions, to whom the defenses have been entrusted. In such tactics is found one of the principal reasons why the German "bobby" traps have been encountered. They had once been withdrawn because the men were temporarily exhausted. There is evidence that the Hindenburg line is already being manned by troops who have not appeared in the fighting so far.

GERMANS URGE BRITISH TO GO ON ATTACKING

Also to Take as Many Prisoners as Possible, and Thus End War Quickly.

London, Sept. 11.—The effect of the continuous fighting upon the German troops is plainly shown by the cases of prisoners from the second gas division. The men first captured from the regiment Franz were distinctly pleased during the fire intervals, and after further fighting prisoners have been taken from the regiment Alexander and regiment Augusta, who have not only exhibited the greatest pleasure at being captured, but actually urged the British to go on attacking and take as many Germans as possible so as to end the war quickly. Then as each fresh batch of prisoners arrived at the cages the Germans previously captured cheered the British success.

U. S. GETS TWO-THIRDS OF WORLD'S PIG TIN

Washington, Sept. 11.—Two-thirds of the pig tin supply of the world is to be received by the United States under a pooling arrangement made at a recent conference in London between representatives of this country, Great Britain, France and Italy. This was announced by the war industries board, which said that all shipments of pig tin and tin ores to this country would be consigned to the American Iron and Steel Institute, which will distribute it at regular prices. Quotations of pig tin already have fallen 140 a pound.

FORMER EMPRESS OF RUSSIA AND 4 DAUGHTERS MURDERED

AMERICAN REINFORCEMENTS LAND AT ARCHANGEL TO ASSIST ALLIES

United States Soldiers to Participate in Campaign for Re-establishing Order in Northern Russia.

Washington, Sept. 11.—American troops have landed at Archangel to assist the other allied forces there in their campaign to re-establish order in northern Russia. This announcement was authorized tonight by General March, chief of staff.

MILK MEN WON'T PAY PRICE SET BY FARMERS

Refuse to Give More Than Amount Paid Last Winter for Eight-Gallon Cans.

Toronto milk dealers won't pay \$2.80 a can for milk. They so decided at a meeting held in Foresters' Hall last night, at which nearly every milkman in Toronto was present. All they will pay is \$2.50 a can, delivered, the same as they paid last winter.

FIVE LOSE LIVES IN HOTEL FIRE

More Dead Are Thought to Be in Ruins of Iroquois Falls Building.

BODIES RECOVERED

Two Are Children, and It is Believed Parents Perished in Attempt at Rescue.

Iroquois Falls, Sept. 11.—Five known dead and probably several others whose bodies are still in the ruins is the death list of a disastrous fire which entirely gutted the Iroquois Falls Hotel here early yesterday morning. The bodies of Frank Martin and James Lester, his wife and two young children, have been recovered, and gangs of citizens are searching the ruins for the remains of others whose bodies may be still there. The outbreak was discovered about 4:20, and the local fire brigade were soon on the scene. By this time all the guests had been aroused, and had made their escape, except Martin, who was thought to be out of town. Mr. and Mrs. Lester were among those who got out safely, but it is believed that they were attempting to save their children, who may have been overlooked, or some valuables. In any event they never returned.

TWO KILLED, ONE HURT AT BEAMSWIDE CAMP

Machines Collide and Occupants Are Burned to Death in Wreckage.

Beamside, Sept. 11.—Second Lieut. R. L. Jacks of Los Angeles, California, and Cadet James Bousfield of McGregor, Manitoba, were killed and Cadet F. Fuller, a passenger, was injured in an accident at the aviation camp at 11 o'clock this morning. The machines were a short distance in the air when they struck and fell to the ground in flames. The victims were so badly burned that identification was impossible until the list of cadets had been checked off. The R.A.F. first aid rushed to the scene of the accident, but could only render aid to Fuller, who was unconscious as the result of severe burns. How the collision occurred is a mystery, as there was no wind blowing and the air was clear.

LITTLE AIR WORK DONE.

Owing to Bad Weather British Machines Limit Activity to Reconnaissance.

London, Sept. 11.—The communication on aerial operations tonight says: "Owing to continued heavy rain, storms on Sept. 10, aerial observation was very difficult. In spite of a very high wind some work was accomplished during the fire intervals, which occurred from time to time. Several reconnaissances were carried out by our machines, and some photographs were taken. One of our airplanes failed to return."

FRENCH HARVEST CROPS IN RECOVERED REGIONS

Allies Have Already Reaped Thirty-five Thousand Acres.

Paris, Sept. 11.—The harvest in the evacuated regions along the Aisne, begun by the French armies on Sept. 3 is now almost completed, according to information furnished by Premier Clemenceau to the budget committee of the chamber. Two armies reaped 35,000 acres and there remain 6000 acres with crops still standing. More than 8000 men have been employed as well as 11,000 horses.

LATEST INSTRUMENT OF FRIGHTFULNESS

With the American Army in France, Sept. 11.—The latest instrument of German frightfulness in the way of gas is a small shell containing phosphorus, which is projected by a rifle. According to French investigators, the combination of pumice, stone with the gas which the phosphore remains in the vicinity where the shell bursts.

TO RECORD OUTRAGES

Paris, Sept. 11.—The French Government has resolved to confide to an international committee on which all the entente powers will be represented, the task of authenticating all violations of the law of nations which the Germans have been guilty of on the western front, says The Echo de Paris.

Bolsheviks Attacked Late Emperor's Family and Killed Them All, But Dowager Empress is Safe.

London, Thursday, Sept. 12.—The Daily Express claims to have unquestionable information that the former empress of Russia and her four daughters have been murdered by Bolsheviki.

The paper prints the following: "The Express understands from a source which is beyond doubt that the empress of Russia and her four daughters have been murdered by Bolsheviki. The whole immediate family of the late czar has thus been exterminated."

"It is further understood that the dowager empress, who with her daughter and son-in-law, the Duke of Oldenburg, has been staying at Yalta, was recently attacked by red guards, who sought to kill all three. Sailors of the Black Sea fleet intervened and fought the red guards. "For a full fortnight the fight continued, until the red guards were beaten. It is now understood that the dowager empress is safe. "The four daughters of the former Emperor and Empress of Russia are: Grand Duchess Olga, born in 1895; Grand Duchess Tatiana, born in 1897; Grand Duchess Marie, born in 1899, and Grand Duchess Anastasia, born in 1901. "The former Empress Alexandra was born Princess Alix of Hesse, in 1872. "Recent Rome advices reported that the Pope had taken steps to assist out of Russia the former empress and her four daughters, who had made pressing appeals for their liberation. "A later despatch from London reported the assassination of Alexandra and her daughters, but this rumor was doubted in Spain, where King Alfonso had taken steps to obtain their transfer to Madrid, where preparations were being made for their reception."

GERMANS DESTROY SOISSONS CHURCHES

Systematic Demolition of Architectural Masterpieces by Distant Gunfire Proceeds.

With the French Army in France, Sept. 11.—Since their defeat by General Mangin, the Germans have undertaken the destruction of the architectural masterpieces of Soissons. With the same method as they have previously employed in burning or blowing up every structure in the regions out of which they have been driven, they are proceeding with the demolition of churches and other edifices in this town, rich in specimens of the best work of the architects of the thirteenth century.

The cathedral of St. Gervais is now the principal target. Enormous breaches have been made in the splendid facade; the upper gallery is three-quarters destroyed, while the lower gallery has been wrecked. The statues fall one by one from the tower. "The ancient abbey of St. Jean-Vaast, in which Thomas a Becket spent several years, is also gradually crumbling. Both towers have been decapitated, while the facade has been pierced in many places; the vault of the facade has fallen in and the rich ornamentation of the left tower has disappeared, with the exception of the statues of two saints that remain facing the enemy."

GERMAN WOMEN SERVE AS MILITARY AVIATORS

American Airmen Discover Sex of Enemy Pilot Brought Down.

With the American Army in France, Sept. 11.—That the Germans are using women as military aviators is indicated in a report that in a machine recently brought down by the Americans the pilot, who was killed, was a woman. "The captain of the company of the 167th infantry says the pilot of a machine recently brought down near Serzy, Aug. 28, by Lieut. Miller Thompson of the American air force, was a woman. "The discoverer of the sex of the aviator was made, the German pilot, when his men saw the enemy pilot and her co-pilot."

ANNUAL ASSEMBLY OF GREAT PRIORY

C. H. Collins of Toronto is Again Elected to Office of Grand Master.

TRIBUTES TO DEAD

Delegates Welcomed to Belleville by Mayor, Who Praises War-Work of Order.

Belleville, Sept. 11.—The thirty-fifth annual assembly of the Sovereign Great Priory of Canada opened in this city today with a large attendance of delegates.

The grand master's allocution was opened with a historical reference to the fifth anniversary of the founding of the Templar order, referred to the capture of the Holy City by the British forces under General Allenby, detailed his official activities, and paid eloquent tribute to the late P. G. Masters, L. B. Archibald, W. Whorpe and John Ross Robertson.

At this evening's session, at the request of the Supreme Grand Master of the Red Cross was conferred by Geoffrey De St. Aldemar, Precaproy and the Templar Order by Cyril Precaproy, both of Toronto.

This afternoon the delegates and lady visitors were taken for motor trip to the great Michawik Aviation Camp.

The following officers were elected by ballot: Grand master, C. H. Collins, Toronto; grand constable, E. A. Shaw, Kingston; grand chancellor, P. S. Gordon, Toronto; grand secretary, F. Mansell, Toronto; grand chaplain, C. A. Woodside, Brantford.

GRAIN EXCHANGE OFFICERS.

Elected for ensuing year at Annual Meeting in Winnipeg.

Winnipeg, Sept. 11.—The annual meeting of the Winnipeg Grain Exchange was convened at three o'clock this afternoon and the following officers were elected for the ensuing year: President, Fred Ellis; vice-president, J. E. Botterill; secretary-treasurer, Dr. Robert Magill.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

In the lull between battles, the British yesterday were busy with their preparations for the next effort by capturing some of the ridge positions north of Ephey and by slight advances in the region of Ypres. The operations at Ephey are creating a salient from which the British may threaten either the Cambrai or the Valenciennes salient. The operations at Ephey are about Verdun and also increasing the pressure from points closer to St. Quentin. On the French front the battle continues fiercely about the plateau and each of these attempts failed to reach the French lines.

Even though the weather is bad, it does not prevent the allies from moving up their heavy guns for an assault on the Hindenburg or any other line, but rather it interferes with the German intelligence service and serves to keep it in ignorance of the allied concentrations. The German air force, the outclassed, yet can do a certain amount of scouting in fair weather; but bad weather prevents them from going out over the battlefield. The allies will therefore be able to effect not only surprise concentrations of guns against selected sectors, but also surprise concentrations of men as well. Thus the present rains are facilitating the allied campaign in assisting them to prepare a surprise. It is this consideration among others that is increasing the manifest uneasiness of the German general staff.

The enemy is not certain about the intentions of the Allies, and he therefore is carrying out marches from the Champagne to Alsace in search of information. Foch has his front organized for the launch of an offensive at almost any point, and the reorganization of the American forces is believed, is a nearly complete, will permit of offensive blows at many points. The enemy is anxious to guard against surprise. Foch may be trusted to strike him where least expected. For this reason it is a barren subject to prophesy where he is going to launch his next attack.

Von Hindenburg and Von Ludendorff quite well aware of the German inability to hold the Hindenburg line under a determined allied attack, and are making dis-

SHOT WOMAN DEAD THEN KILLED HIMSELF

Calgary, Alta., Sept. 11.—Because Bessie Munroe, aged 24, did not return his affection for her, Jack Livingstone, an employe of the Union Milk Company, shot and killed the girl in front of her home on East 5th avenue at noon today. Livingstone then turned the revolver on himself and committed suicide.

ALLIED WOMEN SOLID IN AIDING WAR SERVICE

Courage of French Women Impresses Executive Committee of Congress.

Paris, Sept. 11.—The executive committee of the congress of women of the allied nations, emphasizing the solidarity of the women co-operators in the services in the various countries. The message reads: "The word must be held till the end, to remain united behind the armies and to alleviate the burdens of the soldiers and comfort them. The courage of the French women shows us the way we must follow to hasten the hour of victory."

SIBERIAN FRONT MOVES FOUR THOUSAND MILES

Vladivostok, Sept. 11.—The Siberian front has disappeared overnight. It has moved 4000 miles to the westward. The communication has been completely established between Vladivostok and Irkutsk. Czechoslovak forces have broken through from Lake Baikal in the direction of Tobolsk under Capt. Galda, while Gen. Semenov's Cossacks, supported by Czechoslovak troops, have approached the Trans-Baikalian capital from the Onon River.

The Bolshevik forces, seemingly overpowered by the presence of allied troops, have scattered. Some of them have gone in the direction of Flakhta and others are supposed to be fleeing southward by way of the Amur Railway.

Military officials say it would not be surprising to find that the Bolsheviks had broken into non-combatant groups intent only on seeking amnesty from the entente allies.

VICTORY IMPOSSIBLE IN MODERN WARFARE

Amsterdam, Sept. 11.—Following closely on the statement published in Vienna on Sept. 8, in which Taita Pasha, the Turkish minister of finance, who said, "It is an absolute impossibility to consider it impossible."

COMMITTED ON SERIOUS CHARGE.

Chatham, Sept. 11.—On a charge of assaulting a five-year-old girl, a man, a course of five-year-old boy of that town was committed for trial in the county police court this afternoon.

HIT BY ENGINE.

Coal Wagon Damaged and Its Load Scattered.

John McIlroy, who drives a team for G. M. Gibb, M.C., a returned man in the coal and lumber business at Barton, met with a mishap at 11 o'clock Wednesday morning at the Lansdowne and Boyce avenues. The coal wagon was driving a wagon loaded with coal and as he passed the gates, which were being raised, the wagon was shunting caught the rear of his wagon and the coal all over the street, a slight shake up McIlroy sustained no injuries.

Leaside

BANK AT LEASIDE.

A branch bank is to be opened at Leaside.

OPENING NEW STREET.

The city is cutting a new street (between Merton and Belmont streets) and the new street will go through to Eglinton avenue and will be a boon to residents in that section.

COMPLAIN OF SPEEDING.

Residents of Merton street complain of the speeding of cars between Yonge street and Leaside.

WILLIE KAY PROGRESSING.

Willie Kay, 137 Merton street, the 11-year-old boy who was knocked down and badly injured by a seven passenger touring car on Saturday in Leaside, is progressing as well as can be expected. The boy's father, Pte. John Kay, C.E.F., is in the firing line in France.

WANT SPECIAL LICENSE.

Councillor Wilkinson, of Leaside, is away on vacation. The drivers of jitney buses and motor cars plying between Yonge street (Parham avenue) and Leaside intend to make application to the Leaside Council for a special license. The matter will be discussed on the return of the councillor.

PARTY REACHES CITY FROM OVERSEAS DUTY

Sixteen officers and one private arrived in Toronto yesterday afternoon from military service overseas. They came via New York City. Toronto men: Lieut.-Col. A. E. Inge of the Bank of Nova Scotia; Major J. A. Frost, 119 Jamieson avenue; Lieut. H. F. Hopkins, son of Dr. E. Borg, Leaside; S. W. Clement, London; Col. A. Reid, Pte. J. P. Taylor, St. Catharines; Lieut. A. S. Malcolmson, Toronto; Major H. L. Roberts, Ottawa; Lieut.-Col. J. P. Holmes, Caledonia; Major A. McFall, Kincaid; Lieut. A. M. McCrimmon, Belleville; Lieut. J. C. Carroll, Edmononton; Nursing Sister A. Stover, Edmononton; Capt. G. L. McDonnell, Mimico; Capt. J. C. Gault.

YORK COUNTY AND SUBURBS

Earlscourt

FAVOR COMMITTEE TO DECIDE ISSUE

Feeling in Earlscourt Regarding Proposed Memorial Hall to Soldiers.

WANTED INFORMATION

Mrs. Cohen Asks Question She Tried to Put to Last Meeting.

The local feeling in Earlscourt regarding the B.I.A. Memorial Hall, about which there is so much excitement, seems in favor of the appointment of a people's committee as suggested by Ald. Brook-Sykes at last Wednesday night's meeting at Dufferin Street School. Mrs. Cohen is holding off until the question of the two halls is settled one way or the other as she feels that if both halls are erected they will be called upon to dig down for a double subscription.

ARRANGE POULTRY SHOW.

More Attention to Be Given Production, Say Officers at Meeting.

The monthly meeting of the Danforth Poultry Association was held in Playter's Hall, Danforth avenue, recently. D. K. Crook, president, occupied the chair. The arrangements for the forthcoming annual show, to be held at the Danforth Poultry Club, are being given more attention to. The show will be held in the class for eggs. The show will be held in the Danforth Poultry Club, 1215 Danforth avenue, on Dec. 12, 13 and 14. William Rowe was appointed show secretary with power to select his own assistants. The executive committee will act as show committee.

KITCHEN GARDEN PROFITABLE.

Hundred Dollars Return From 92 Outlay in East End.

Walter Brown has a 60 x 120 foot garden at his home on 160 Kensington avenue which is giving excellent results. He planted 75 cents worth of seed potatoes some months ago. Today his potato patch has yielded at least four hundred dollars. He has a bag and a half of tomatoes, from three four plants, and has met with equal success with his other crops. He says that a little garden is a profitable business of food upon a two-dollar outlay.

Riverdale

BROADVIEW FALL FAIR ENTRIES ARE NUMEROUS

A meeting of the Broadview Y.M.C.A. Fall Fair board of directors was held last evening with H. J. Walker occupying the chair. The secretary reported that there were more entries this year than in any previous year. The public schools were more closely in entries, and it was deemed advisable to hold the entry list open until Sept. 17. The advertising manager reported very considerable co-operation among the public schools in the picture playing on the mountain it would be necessary to copy the entries this year. The secretary reported that there were more entries this year than in any previous year. The public schools were more closely in entries, and it was deemed advisable to hold the entry list open until Sept. 17. The advertising manager reported very considerable co-operation among the public schools in the picture playing on the mountain it would be necessary to copy the entries this year.

RHODES AVENUE PRESBYTERIANS.

A special pre-communion service was held last evening in Rhodes Avenue Presbyterian Church, when a large congregation was received. Twenty new members were received, Rev. H. A. Berlin, minister, officiated.

WATER FOR BARTON A PRESSING PROBLEM

Controllers Will Try to Draw Up an Agreement Satisfactory to Both Parties.

Hamilton, Sept. 11.—Tomorrow morning the board of control will turn its attention to the pressing problem of relieving the water famine in Barton. It will be all time to come. With the assistance of the city solicitor, the board will attempt to draw up an agreement which will be satisfactory to both parties. The proclamation of 1902, the city is called upon to supply water to Barton residents within 200 yards of the city limits. There is nothing to compel the city to provide the township proper. As pointed out by the city solicitor, the city would have no jurisdiction over the township.

TRANSFER OF COLLEGE AS SOLDIERS' SCHOOL

Winnipeg, Sept. 11.—It is stated today that Manitoba Provincial Treasurer Hon. Charles Brown and Dr. E. M. Blake, M.P., are laying before the Ontario authorities an extensive plan for the transfer of the Agricultural College in St. Vital to the federal government as a training school for soldiers.

MONTHS OF TERROR DISTRACT RUSSIA

Petrograd and Moscow Pass Thru Mad Attempt of Bolsheviki.

MAY BURN CAPITAL

Wholesale Executions of Soviet Opponents Take Place.

Stockholm, Sept. 10.—July and August were months of horror which never will be forgotten by persons who watched Russia's two great cities—Petrograd and Moscow—pass thru the mad attempt of the Bolsheviki to shoot or imprison all persons who disagree with their wild efforts to control crumbling European Russia. September probably will be worse, for the opposition parties are gaining strength thru desperation. The lives of every non-Bolsheviki are unsafe, and everywhere in Russia self-defense is forcing unwilling belligerents to take up arms against the ruthless persecution of the so-called bourgeois. The Bolsheviki minister of war, evidently is determined that his dictatorship of the proletariat shall not repeat the history of the former provisional government, and fall thru being too merciful.

TO DESTROY MOSCOW.

Trotzky has said in speeches that Moscow will be reduced to ashes before the end of the year. Yaroslavl, a town on the Volga, 160 miles north-east of Moscow, was burned for resisting Bolsheviki domination, and the village of Novy Yaroslavl, 110 miles north of Yaroslavl, is reported to have suffered the same fate.

HESSIE'S PRINCE WANTS CROWN OF FINLAND

London, Sept. 11.—Prince Frederick Charles of Hesse has declared his willingness to receive the crown of Finland, says a dispatch to the Exchange Telegraph Company from Copenhagen today. The prince is now visiting Finland, accompanied by a strong guard, and has been engaged in conferences with split leaders in the different cities he has passed through. The Finnish landtag is summoned to meet on Sept. 24 for the election of a king.

KAISER SENDS THANKS TO GERMAN FARMERS

London, Sept. 11.—Emperor William has telegraphed expressions of his thanks and confidence in the agricultural workers of Germany for the work they are carrying out for Germany in the war, according to a despatch to the Central News from Berlin. The despatch, which is addressed to the German Agricultural Union, expresses the unshakable confidence in the history of the Fatherland to what is due to the agricultural population, "no less than to our brave sons in the field" in a struggle "such as the history of the world never before has known." He alluded to the fact that the best experts under the Emperor's command are "with the help of God, victoriously defending their agricultural future, and fixing far from their holy ground."

BIG FUNERAL FOR VICTIMS.

Experts Will Test Cable Which Caused Disaster at Nanshan.

NO ATTORNEYS NEEDED TO PLEAD FOR ALIENS

Many cases have been noted of men ordered to report to the colors or apprehended under the M.S.A., who have grounds for leave of absence, because of alien nationality under the War Times Elections Act, employing the services of attorneys or other third parties, states Toronto military leader.

SPOT CASH AND FULL VALUE FOR ANY KIND OF VICTORY BONDS

WHITE & CO.

INDIAN FOUND DEAD ON BRANT RESERVE

Head Was in a Pool of Blood, But No Motive for Crime is Known.

Brantford, Sept. 11.—The body of David Lickers, an Indian about 50 years of age, was found late yesterday afternoon about 15 yards from his own door, on the reserve near Six Nations Corner, with marks indicating violence. Coroner Dr. Hicks was summoned, and with the Indian constable, P. J. Atkins, brought the body to Brantford, where an inquest held tonight. No motive for the act and no suspicious persons are known.

DOUBLE THE YIELD OF SPRING WHEAT

Premier Hearst, at Ottawa Exhibition, Speaks of Production in Ontario.

Ottawa, Sept. 11.—Premier Hearst, in an informative address at the directors luncheon of the Central Canada Exhibition today, revealed some of the remarkable results of greater production in Ontario, one of the most striking instances being that in spring wheat alone the production had been 8,000,000 bushels compared with 4,000,000 bushels in 1917. He spoke of the increase in field crops, hog production and live stock breeding, devoting most of his time to praising the farmers for what they had accomplished. He alluded to the fact that the Ontario Government desired the movement to go ahead as fast as possible in the production of a surplus in the staple in conjunction with the municipal governments.

TRANSPORT TORPEDOED; AMERICANS RESCUED

London, Sept. 11.—A troopship with 2,800 American soldiers on board, has been torpedoed. All hands were saved. The troopship was headed for England. In order to save time, instead of launching the boat, the men clambered down ropes to destroyers, which swarmed around the stricken vessel and came alongside.

WATER FOR BARTON A PRESSING PROBLEM

Controllers Will Try to Draw Up an Agreement Satisfactory to Both Parties.

Hamilton, Sept. 11.—Tomorrow morning the board of control will turn its attention to the pressing problem of relieving the water famine in Barton. It will be all time to come. With the assistance of the city solicitor, the board will attempt to draw up an agreement which will be satisfactory to both parties.

TRANSFER OF COLLEGE AS SOLDIERS' SCHOOL

Winnipeg, Sept. 11.—It is stated today that Manitoba Provincial Treasurer Hon. Charles Brown and Dr. E. M. Blake, M.P., are laying before the Ontario authorities an extensive plan for the transfer of the Agricultural College in St. Vital to the federal government as a training school for soldiers.

Men! With Fall Top Coats the Buying Topic of the Hour

Men! Sweater Coats

They're Classed as "Seconds" Because in Most Cases Cotton Has Been Used in the Trimming Instead of Wool on an All-Wool Coat--Hence Today's Special Price, \$3.45

You'll readily see that such imperfections will not interfere with the wearing qualities. Certainly, it's a first-class opportunity to purchase the warm, comfortable kind at an unusual price. They're in jumbo, plain cardigan or fancy stitch, with storm or plain shawl collar; some are made of fine wool and cotton mixture, and in the lot are shades of grey, maroon, slate or brown. Sizes 38 to 44. Special, today, \$3.45.

Men's Sweater Coats of wool and cotton, in plain cardigan or jumbo stitch, with shawl or storm collar, and two pockets, in plain shades of maroon, tan, brown, navy and grey or black and myrtle, black and cardinal; some in small check patterns of grey and cardinal. Sizes 38 to 44 in the lot, but not all sizes in each color. Priced at \$5.50.

Men's Sweater Coats, in same style as above, but all-wool, in grey, brown, fawn and maroon, or in royal with grey bar on collar, front and pockets. Sizes 38 to 44. Priced at \$8.50.

Men's Hand-finished Sweater Coats, shawl collar and reinforced across shoulders, armholes and pockets, in fawn, brown or maroon. Sizes 38 to 44. Each, \$12.00.

Boys' Sweater Coats, of cotton and wool mixture, with either storm or shawl collar, in grey, brown, navy, cardinal or grey, with royal, brown with fawn, or grey with brown trim. Sizes 26 to 34. Each, \$2.50.

Boys' Sweaters and Sweater Coats. The former in most cases have storm collars, and the latter with double cuffs and high roll collar; included are plain shades of grey, brown, navy, maroon or black, with orange, navy with cardinal, or grey with maroon trimmings. Sizes 26 to 34. Each, \$3.50.

—Main Floor, Centre.

Along Comes This Selection of What is New in Cloth and Style to Make Choosing Easy

Featuring "pepper and salt" shadings, plain light and dark greys, greens and basket patterns. Slip-ons, form-fitters with belts, and Chesterfields. Most of them are in tune with the conservation spirit of the times--not to any extreme, but just enough to be in good taste and unaffected. They're of a weight plenty heavy enough to ward off a good imitation of winter's chills, so often met with in the Fall. Make it a point to see them.

Priced From \$16.50 to \$27.50

Those at \$16.50 are top coats of dark grey or black cheviot, in single-breasted fly front style, in a length that just falls below knees; back is shaped slightly to the form. Lapels are medium length. Sizes 35 to 44. Price, \$16.50.

Chesterfields for men of conservative taste are in great variety, in dark, medium and Oxford shades of grey, of soft cheviot coatings, lined with twill serge or rich satin. All sizes, 36 to 46. At prices ranging from \$20.00 to \$30.00.

Probably you may prefer a tweed effect, these in many weaves, rough finishes, and smoother finishes. They are shown in fancy mixed patterns, overplaids and striped effects. Greys are popular in either the dark or medium shades, while fawn and greenish tints find much favor, especially among younger men. The prevailing styles are the loose slip-on Chesterfield, the form-fitting models and belt-ers. Some are lined throughout, others quarter or half lined. Sizes 34 to 44. Prices, \$18.00 to \$27.50.

Tweed Top Coats, rubberized for rainy weather, in slip-on styles or trench style, with belt all round, in many shades, plain patterns, fancy mixtures and plaids. Sizes 34 to 46. Prices, \$12.50 to \$23.50.

Ship Ahoy!

Special Display of Sailor Suits and Navy Blue Reefer Coats--Winter Weight Clothing for Boys

The sailor is a well-known figure in the city these days. With the completing of the big sailors' week campaign, it is natural there should be increased interest in the sailor costume for boys. EATON'S have arranged a special display of such clothing, and invite a visit of inspection today. Made from dark blue navy cheviot serge, in smooth or rough finish. These boys' sailor suits are exactly the same as the style worn by the British navy. The suit consists of a jumper blouse and long or short pants. The sailor collar is detachable, and is trimmed with white braid. There is a flannel or white drill vest to suit, and also a black tie. The finishing touch is provided by the large fancy metal whistle attached to a white cord. Altogether, a very smart little Jack Tar suit. Obtainable in sizes for 3 to 9 years. Long pant suits, \$15.00 and \$16.00; short pant suits, \$13.50 and \$14.50.

This is the coat a boy would like. Smart navy blue cheviot reefers, in fall weight, double-breasted style, with shapely lapels and loose-fitting box back. The emblem on the sleeve and the brass-finished "Anchor" buttons give the coat quite an important appearance. Side vent at back and strong, durable body linings. Sizes to suit 3 to 10 years. Price, \$7.50.

Another popular kind for the boys' winter weight reefers in dark blue nap cloth, double-breasted style that buttons close to the neck. Two-piece belt at the back. This coat has brass-finished buttons, with G.R. and crown. Carefully finished with red flannel linings. Offered in sizes from 3 to 10 years. Price, \$11.00.

—Main Floor, Queen St.

Men! Save on Hats and Caps

Felt Hats for Fall at \$1.39; Golf Caps at 45c

If a hat fits well--looks well--becomes the wearer, and is obtained at the right price, what more could be desired for complete satisfaction? Try one of these on before buying yours for fall--they're a favorite type with a great many men! They're of fur felt, in crease crown style, with choice of welted or bound edges. In grey, brown, navy, pearl, black, and some in green. Sizes 6 3/8 to 7 1/2. Cannot take phone or mail orders, the quantity being limited. Only one hat to a customer. Special, today, each, \$1.39.

Golf Caps! A clearance of factory overmakes and broken lines, with four or eight-piece tops. In grey, brown and fawn. Sizes 6 3/8 to 7 1/2. Special, today, each, 45c.

THE T. EATON CO LIMITED

LITTLE MORE NEED TO PREACH GARDENS

Show at Armories Tells Story of Toronto's War-Time Productions.

ARMORIES BUSY PLACE

Some Fine Specimens of Vegetables Are Now on View.

Judging by the war gardens show now in progress at the armories, Toronto citizens need no longer be told to get back to the land. Some of the finest specimens of vegetables ever shown on the continent are now on view, every one of which was grown in the city area or suburbs. Early yesterday things began to put on a bustling appearance in the great open space of the armories. Carpenters were putting up booths, others were placing tables and allotting space to prospective exhibitors. Men and women were hurrying about with baskets containing vegetables and flowers, and still others were arranging exhibits already on hand. Entries are coming in briskly, and by this afternoon it is expected that

the business of the war time show will be in full blast. Some Big Potatoes. Simply amazing in size and general appearance are some of the wonderful "Cobbler" potatoes grown in Parkdale gardens. A tomato exhibited is as large as a small melon. Cabbage, onions, squash, beets, Brussels sprouts, corn, carrots, beans--all are in the collection. A collection grown by H. S. Balson, 3 Liberty street, had specimens of almost every vegetable grown. A basket of beautiful potatoes noticed was arranged with parsley, the collection laid out upon a white linen napkin. Quite unusual is the exhibit of tuberosus-rooted begonias shown by Mrs. Pitom of 34 Edgewood avenue. The blooms are in gorgeous rose, delicate yellow, sun-kissed shades and white. Some single specimens are bearded. The exhibits are arranged according to their growth in one of the five districts into which the city is divided. In addition to the exhibits of amateur gardeners there are splendid displays by Sir Henry Pellatt, Sir John Eaton, the Steele, Briggs Co. and Mrs. A. B. Ormsby, which are for display purposes and not for competition. The girl guides, women's institutes and farmerettes are to have part in making the show a success. Demonstrations in canning and drying fruit and vegetables, lectures on gardening and exhibits of gardening utensils are among the attractions offered by this wonderful three days' wartime show. The organizers are the Toronto Organization of Resources Committee, Toronto Horticultural Society, Rotary Club and Vacant Lots Cultivation Association.

COURTS

BIGAMY CHARGE FALLS; WOMAN GIVEN FREEDOM

Harriet Hayhorn Not Guilty, Jury Agrees Without Leaving Courtroom. At the recommendation of Judge Winchester: In the general sessions yesterday afternoon, the jury, without leaving the court, found Harriet Hayhorn not guilty on the charge of bigamy. It was alleged that she went through the form of marriage with Robert John Boyd in February this year knowing her husband was living at the time. William Hayhorn, the lawful husband, stated that they were married in September, 1891, and he had deserted her two years later and that he had been living with another woman. For the past eight or nine years he had not heard from his wife or seen her. T. C. Robinson, K.C., who appeared for accused, read from the criminal code, and pointed out that a party could not be guilty of bigamy, unless he or she knew that the husband or wife was alive during the past seven years, and therefore the crown had not proved the case. "The crown has to prove that this woman knew her husband was alive

during the past seven years, and the crown has not done so," said R. Carlisle of the morality department, stated that the proceedings had been instituted as the result of the receipt of an anonymous letter. GUILTY OF ESCAPING FROM JAIL IS PLEA. Before Judge Winchester and a jury in the court of general sessions, C. Barker, R. Hutchinson, and W. Hutchinson appeared on the charge of escaping from the Jail Farm, together with several others, and resisting with force an official in the discharge of his duties. All three pleaded guilty to the charge of escaping, but the two Hutchinsons were found not guilty of the second charge, and C. Barker guilty. They were remanded for sentence. Barker owned up to the fact that he together with another prisoner engineered the whole affair. He wore a sergeant's uniform, and a blue wounded stripe. He also owned up to the effect that he had served time for desertion, and had been rearrested and sentenced on the charge of illegally wearing a uniform. He had served in the American army and deserted from that in 1914, and joined the C. E. F. MUST SERVE HIS TERM. J. Mulhall Goes Back to the Jail Farm With No Added Time. J. Mulhall, who appeared in the general sessions court yesterday afternoon on the charge of escaping from the Jail farm last June, where he was serving a term of three years less a day, was sentenced by Judge

Winchester to complete his term. Mulhall had already done ten months, but said he was sick and had had enough of it. His honor was inclined to deal leniently with him, and said he would not add anything to his original sentence. GUILTY OF THEFT. Matthew Cohen pleaded guilty in the sessions yesterday to stealing the shears, the property of Sam Cutler. He was fined \$10 by Judge Winchester. CHANGING NAMES. By a deed poll at Osgoode Hall, Louis Sidney Schneider, a British subject, and who has seen service at the front, has changed his name to Louis Sidney, Herman Mutchensacker of Orillia, has also by deed poll changed his name to Herbert Moore Baker. RETURN TRUE BILLS. True bills were returned yesterday by the grand jury impeached at the court of general sessions, before Judge Winchester, in the following cases: Robert John Boyd, bigamy and forgery, and Harriet Hayhorn, bigamy. TIME FOR SETTLEMENT. Wm. James Dunn Remanded on Charge of False Pretenses. Wm. James Dunn who appeared in the court of general sessions yesterday, before Judge Winchester, on the charge of false pretenses, was remanded until today. The charge was laid by Morris Joel, who stated he gave Dunn \$600 for financing the Simcoe Brand Syrup Co., and Dunn gave a motor car as security, but

Joel alleges he never received it. The remand was given so that some amicable settlement might be arrived at. EXECUTIVE SATISFIED WITH BONUSES GIVEN. Postal Clerks Acknowledge Debt to Letter Carriers for Persistence. The executive of the Postal Clerks Association is understood to be quite satisfied with the bonus recently ordered by the government. It was stated yesterday, however, that the debt of the employees generally to the patience, pluck and persistence of the letter carriers in their fight for improved wages and conditions was universally acknowledged, and had proved an inestimable help to the employees of all grades and systems in the civil service. There are now 245 temporary clerks in the Toronto postoffice, and of this number many are women. These have recently received an increase of \$250 a year. The six chief clerks of the postoffice receive \$2200 a year, 12 IA clerks receive \$1880 a year, and 12 IB clerks get \$1700. Bonuses have been awarded alone to those receiving less than \$1600 a year. ANTIPODEAN PREMIERS. Word has been received by Mayor Church that Premier Massey of New Zealand and probably Premier Hughes of Australia will be in the city next Monday.

NEWS OF LABOR

FAIR RENT OFFICER IS NOW TALKED OF

Labor Men Approve Idea and Believe System Would Work Well. Many labor men are of the opinion that there should be a fair rents officer. Walter Brown, business agent of the boot and shoe workers' union, agreed with the idea. "We have already instituted the institution of a fair wages officer," he said. "We might equally well have a fair rents officer with full power to adjust all matters affecting rentals of houses and flats." "I certainly advocate such an institution," replied James Stevenson. "The way some of the landlords are fleecing the people is among the wonders of the moment. A fair wages officer could decide as to the rentals on the basis of comfort and other qualifications." "Yes," said Walter Brown, "he could formulate a basis of rentals adjustment, having an eye to the location of the property, the conveniences within and the general appearance without. His most important duty would be to bring the owner to time when occasion might arise."

WANT CONTROLLER TO HANDLE FUEL

Central Ratepayers Would Have One Man Appointed for City.

SUGGEST COMMISSIONER

Daniel Chisholm Named at Meeting to Take Over Work.

The appointment of a local fuel controller, who would give his entire time to the position, was recommended by the Central Ratepayers' Association at a meeting in the city hall last night. D. Chisholm, the property commissioner, was recommended as the best man available, in view of his past experience, and he should be relieved of all his other duties so as to be able to give his entire time to the fuel problem. He should have an office at the city hall and a staff large enough to deal adequately with what threatens to become a serious matter.

The unfair distribution of coal would cause a lot of trouble this winter, said Peter Hamer, and would be one of the reasons that would make for unrest in the community, leading to riots and other disturbances. Aid. Honeyford suggested the establishment of a civil coal office at the city hall, and Dan Chisholm, the property commissioner, should be relieved of all his other duties and placed in charge. "It was all very well to appoint a fuel controller, but what would such an official do to relieve the situation?" asked Delegate G. A. Brown. He doubted if he could do anything practical with winter almost here. Delegate Geo. Shields did not think there were many cases of coal hoarding in the city. One way to relieve the threatened famine would be to close up all clubs and discontinue their coal.

ASK FOR REDUCTION IN ASSESSMENTS

Already exempted from taxes on an assessment of \$139,596, the Toronto Conservatory of Music is asking for further exemption on \$41,200, the assessed value of a student's rooming house on Orde street. The assessment department, however, claims this part of the college is assessable because it is not part of the educational institution.

The old folks' home on Cecil street is appealing against an assessment of \$300, and Delegates Shields and G. A. Brown are also in the property at 77 Clarendon avenue being assessed at \$59,137.

A. G. Strathy & Co. appeal against an assessment of \$11,550 on 44 Russell Hill road, and Toronto University claim exemption from an assessment of \$8,497 on the property in the estate of A. H. Campbell in Queen's Park.

VETERANS' CLUBHOUSE IS ALMOST COMPLETE

West Toronto G. W. V. A. club house on Concord avenue, near Bloor, is practically complete. G. V. Gustar, secretary of this branch, stated that thru the patriotic spirit of the former owner the entire property had been sold to the branch for less than the worth of the land alone. The premises will be occupied within the next few weeks.

OBJECT TO WOOD YARD.

Residents of Essex street and Penrith street appeared before the board of control yesterday to protest against the storage of firewood for six months in a lot in the rear of the houses on the latter street. Besides the danger from fire, it would depreciate the property, was claimed. The controllers decided to withhold the permit and to secure for the applicant a storage place on city property in the neighborhood.

CANADIAN HEADQUARTERS.

William H. Johnson, president of the International Union of Machinists, will visit Toronto on Wednesday, Sept. 25, to make to form a Canadian headquarters of the union. There are 14,000 members in the Dominion and 240,000 in North America.

The Back Aches

Possibly you do not realize that this indicates derangement of the kidneys. Neglect usually means the development of Bright's disease. You know how dreadfully painful and fatal that is.

There is quick relief for the kidneys in the use of Dr. Chase's Kidney-Liver Pills. This medicine is known in the great majority of homes as the greatest of regulators.

SAVE GASOLINE! SAVE MONEY! HASTEN VICTORY!

Place Patriotism before Pleasure. Canada's 250,000 motor car owners will render a great national service by cutting out Sunday motoring for pleasure. In requesting that this be done the fuel controller has asked nothing unreasonable. Let us embrace the opportunity to place hundreds of thousands of gallons of gasoline weekly at the service of the allies. It is badly needed "over there" and on the money side will save as much as \$150,000 on a single Sunday. What better opportunity have we at home to serve? Let every motor car owner rise to the occasion.

TORONTO'S BIG LIST OF SOLDIERS KILLED

Toronto officers and men who have been listed in the casualties since the start of the present British advance now total nearly 1700. Of these over 275 have been killed in action or have died of wounds, 22 are missing and 1300 have been wounded.

Flight Lieut. J. L. Gover, formerly a student at the University Schools, is reported missing since Sept. 4. He is a son of E. P. Gover, 49 Madison avenue. The aviator, 20 years of age, graduated from the Royal Military College in 1917 and went on overseas duty last September.

Capt. M. T. Morgan of 156 St. George street is reported in private quarters to have been wounded by gunshot in the leg and jaws. His wife, who is in England, has cabled to Toronto that he is doing well, considering his wounds. Prior to his overseas with the 134th Highland Battalion from Toronto he was connected with the firm of Home, Smith & Co.

Lieut. Roger Morcoy, who was a student in Toronto at St. Andrew's College at the time of his enlistment in the 15th Battalion, was killed in action in France on Aug. 30 while serving with a Canadian machine gun section. He was the only child of E. Gus Porter, K.C., M.P. for West Hastings, Ont.

Lieut. Samuel M. Jamieson, 238 Gilmour avenue, is reported to have received gunshot wounds in the thigh and hand. He was in the Bank of Toronto while in Toronto.

Lieut. Thomas E. Phillips has received gunshot wounds in the right shoulder and is now in a hospital in London, Eng. He was formerly acting in the College and Yonge branch of the Bank of Commerce. He went overseas with the 134th Highland Battalion.

The parents of Pte. John McDowell, 589 Roxton road, have just received official intimation that their son was killed in action on Aug. 23. Pte. McDowell was 23 years of age. He joined the 53rd Battalion early in 1915, going overseas three years ago this month, and entered the trenches the following May. He was twice wounded, but as soon as recovered returned to the firing-line. Some time ago he was awarded the Croix de Guerre, which is his letter to be mailed to his parents from giving details of why this distinction had been conferred upon him. Before enlisting, Pte. McDowell was employed in the railway department of the Methodist Book Room. He was a native of Belfast, Ireland, and two brothers-in-law, residents of Toronto, are also in the Canadian army overseas.

Lieut. Henry R. Day, of the 44th (Winnipeg) Battalion, is reported admitted to Red Cross Hospital, Leamington, with gunshot wound in the leg. He is a brother of James E. Day, barrister, and Dr. Arthur Day, dentist, Toronto, and son of T. J. Day of Guelph. Lieut. Day was manager of the Royal Bank at Prince Albert, and left the bank to go back to Dryden, Ontario, where he has been engaged to assist in the recruiting of the 141st Battalion, the Rainy River Bull Moose. When this battalion was broken up overseas, he was transferred to the 44th Battalion. Another brother, Driver Frank L. Day, is serving in France.

ABNORMAL CONDITIONS CAUSE HOUSE SHORTAGE

The housing problem furnished a live topic for discussion at a meeting of the Central Ratepayers' Association at the city hall last night. The debate was precipitated by the introduction and passage of a resolution opposing the idea of city or state providing homes for the individual, and expressing the opinion that the present demand for housing is brought about by abnormal conditions, which would right themselves after the war. The vice-president of the association, George Shields, in the course of his remarks, brought joy to the owners of houses when he said that contrary to prevailing opinion the rents at present charged in Toronto were not excessive; on the contrary, when everything was taken into consideration they were too low to be profitable. Mr. Shields also suggested that houses built and occupied by owners should receive special consideration in the matter of assessment.

TUBERCULOSIS PATIENTS. Soldiers Coming From England Will Have Leave Canceled as Safeguard.

Soldier patients suffering from tuberculosis transferred from England by hospital ships to hospitals in Canada did not get granted leave of absence from the hospital in which they are first placed until they have been carefully examined, announces Toronto health officer. "First leave may be granted to such men only in cases not likely to suffer in health therefrom nor to be a menace to others while on leave."

SOLDIERS' FAMILIES HERE.

Large numbers of soldiers' wives and families returned home last night on a special Grand Trunk train from the Front. About 10 were Torontonians, while the rest continued to their respective homes.

CAUGHT BY POLICE WHEN STARTING CAR

Charged with the theft of a motor car, Russell McKenzie (17), of 17 Pearce avenue, and Fred Ormsby (17), 218 Close avenue, were arrested last night by Policeman Bettington (425), of Court street station.

TRADES UNIONISM ON INCREASE IN CANADA

Trades unionism in Canada, said Jan. Z. Gunn last night, addressing the regular session of the Trades Union of the Labor Temple, had declined during 1914-1915, but had increased during the past two years, its membership having increased by 100,000 in that time. The employers, he said, were recognizing the fact that the trades unions had the endorsement of economics, sciences and had still an even greater moral basis. It had the same right to organize as the state— to protect the worker against injustice. Employers were at last realizing that co-operation with trades unionism had a stabilizing influence upon industry generally.

Other speakers at the meeting were E. W. O'Dell, of Boston, general organizer for the Boot and Shoe Workers' Union in Canada, and T. Stevenson, both of whom championed the cause of labor organization. E. J. Flannery, general organizer for the American Federation in Canada, was present, and 47 new members were initiated.

SEPTEMBER IN ALGONQUIN PARK.

September is one of the most delightful months of the year in the Algonquin Park. The Algonquin Park offers attractions that are not found in other districts. It is situated at an altitude of 2000 feet above the level of the sea, assuring visitors of pure bracing air that refreshes body and mind. A few days here is better than ounces of tonics, and saves the doctor's bills. The territory is also easy of access. Via the Grand Trunk, 200 miles north of Toronto and 170 miles west of Ottawa. The "Highland Inn," a charming and lavishly furnished most comfortable accommodation at reasonable rates. Descriptive literature telling you all about it, from any Grand Trunk agent, or write Miss A. Landis, manager, Highland Inn, Algonquin Park, Ontario.

MORE WAR GARDENS RUN BY CHILDREN

Sixteen thousand eight hundred public school children's war gardens plots were cultivated this summer, according to an announcement made at the initial meeting for the term of the management committee of the board of education yesterday afternoon. This was a phenomenal increase of 10,000 plots as compared with last year, and was regarded as an impressive demonstration of the patriotic sentiment of the children. A committee on school war gardens, of which Mrs. Couric is president, was approved at the holding of school children's war garden exhibition in each of the seven inspection districts of the board of education. Chief Inspector Cowley was to recommend an acting inspector for the holding of the holding in the holding of leave for that period. Inspector Rogers, on account of his continued health, Principal Powell of Huron street school was the first choice of the committee for acting inspector. Mrs. Couric asked that the question of the early appointment of a woman inspector should be kept in view.

TELEPHONE OPERATORS TO CONTINUE DEMANDS

Two hundred and fifty telephone operators, at their union session held last night at the Labor Temple, decided to continue the fight for fair wages and better conditions. It was stated at the meeting that the company was inducing its newest girls to attend the union meetings and report verbally upon them the following morning. Seventy-five new members were initiated, and the meeting was addressed by E. W. O'Dell, of Boston, general organizer in Canada for the Boot and Shoe Workers' Union.

RETURNED SOLDIER SUDDENLY OVERCOME

W. H. Lindsay, a returned soldier, living at 109 Oak street, was overcome by the effects of shell shock early yesterday morning and died in the hospital in which he was being treated. Lindsay was on his way to the hospital. Lindsay, who worked for the Imperial Munitions Company as a motor driver, took ill in the General Hospital several times, and was greatly improved when he left the institution this summer.

HELP BLUE CROSS FUND.

The Postal Patriotic Association of Toronto has voted \$50 to the Blue Cross fund, which is used for the benefit of the horses of the war area.

MOTORISTS ARE URGED TO CONSERVE GASOLINE

Fuel Controller Appeals to All Car Owners to Observe Request.

The Canadian fuel controller has appealed to automobile owners to eliminate all unnecessary use of their cars and to discontinue Sunday motoring until further notice. The request is similar to that made by the United States fuel controller a few days ago for the same reason—to prevent depletion of gasoline supplies. It is estimated by the United States fuel administrator, in a statement appearing in the official bulletin of the United States, that the request, if properly observed, will effect the desired conservation of a few hundred million gallons of gasoline.

LODGES MOVEMENT IS ON FOOT FOR JUVENILE BRANCH

Speaking to a reporter for The World, P. J. Gilber, provincial grand master, M.U. I.O.O.F., stated that a movement is now on foot to inaugurate a juvenile branch in connection with the order. So far the order has had no branch in this line, and it is thought that a juvenile branch will fill a long felt want, especially as there have been many inquiries concerning same. A committee has been formed and is now busy receiving various reports from the many lodges, and they will report back at the next district meeting. The order in the Toronto district now has about 14,000 strong, of which number 400 responded to the call. To date 50 have made the supreme sacrifice. Preparations for the annual meeting are now being pushed forward.

CARPETBALL MATCH.

Lodge London, S.O.E.B.S., met last night in Albert Hall, Broadway ave., the chair being taken by A. Burley, president. One application for membership was received, which will be dealt with at the next meeting. Following the business a carpetball match was played between the league between Lodges Cambridge and London resulting in a win for Cambridge by two points.

PRESENT PEARL PIN.

At last night's meeting of Lady Alexandra Lodge, No. 2325, M. U. I. O. O. F., in the S. O. E. Hall, presided over by Sister (Miss) Armstrong, N.G., a presentation of a pearl pin was made by Sister (Mrs.) MacKay, P.G.M., in recognition of her services in connection with the membership campaign. The presentation was made by E. P. Gilbert, P.G.M. During the evening several candidates were initiated into the order.

TO SEND MORE PARCELS.

Lodge St. Albans, S.O.E.B.S., Plans Series of Entertainments for Purpose. The regular meeting of Lodge St. Albans, No. 76, S.O.E.B.S., was held last evening in the S. O. E. Hall, presided over by J. Jones, president. Arrangements were made for the holding of a series of entertainments during the fall and winter, for the purpose of raising money to send more parcels to those members now overseas. The members, thanking the lodge for the parcels that have been sent them.

Lodge Adopts a Prisoner Who is Held in Germany

White Heather Camp, D. of S., at their meeting last night in the Temple Building, extended a welcome to Mrs. Percy, president of Queen Mary Camp, Guelph; Mrs. Harland, and Mrs. Roy, also members of the camp. Several of the officers and members of the camp were present. A fraternal visit, including Mrs. Moncrief, president; Mrs. Wilson and Mrs. Hines, was made. The evening was presided over by Mrs. Mutch, president, and following the business a program was given by the members and visitors.

TRANSACT BUSINESS.

The regular meeting of Property Rehearsal Lodge, No. 141, I.O.O.F., was held last evening in the Oddfellows' Hall, when, despite the inclement weather, there was a large attendance. The meeting was presided over by Mrs. A. Leake, N.G., and Mrs. Armstrong, V.G., and considerable business relating to the welfare of the lodge was transacted.

GENEROUS DONATIONS.

The Postal Patriotic Association, a society which embraces all branches of the postal service, has voted \$100 to the Sailors' Week campaign, \$100 to the Italian Red Cross, and \$25 a month to the prisoners of war bread fund.

Face Peeling Easy—Blonde or Brunette

"The blonde complexion fades early, because her skin is so thin and delicate, and fine," says Mrs. Lina Cavalleri. "The brunettes, on the other hand, have a skin that is thicker and less a tendency to an early appearance." The blonde complexion fades early, because her skin is so thin and delicate, and fine," says Mrs. Lina Cavalleri. "The brunettes, on the other hand, have a skin that is thicker and less a tendency to an early appearance."

WRIGLEY'S

"Heavy, heavy hangs over your head."
"O, I know what it is, daddy! You hold it too close and I smell it—it's WRIGLEY'S!"
"Righto, sonny—give your appetite and digestion a treat, while you tickle your sweet tooth."

PLAYS PICTURES AND MUSIC.

"Have a Heart." The seat sale opens this morning for Henry W. Savage's bright offering, "Have a Heart," the musical comedy girlie whirl, which will be the attraction at the new Princess Theatre next week, with a fine cast and lavish production. Book and lyrics are by Guy Bolton and P. G. Woodhouse, and music by Jerome Kern.

At the Hippodrome.

Diminutive Mary Miles Minter, dainty Paths star, will headline the new Hippodrome next week in the newest Paths release, "The Eyes of Julia Deep." It tells the simple story of the strong love of a shop-girl and the wonderful result it achieved in regenerating the character of her sweetheart. The four Fujiyama Japanese are remarkably clever athletes and jugglers who provide a whirlwind exhibition. Arthur Levine and company, in "A Trip to the North Pole," have a clever comedy play with many amusing situations. "Australian Stan," Stanley through a larist in a variety of ways, meanwhile keeping up a running-fire of amusing chatter. Jessie Quinn and company, in a new and highly entertaining playlet, Harry and Edith West, in bright songs, dances, and chatter; Quinn and Depex in a bright singing and dancing act, and feature comedy pictures complete the bill.

Gayety.

"The Best Show in Town," opens a week's engagement at the theatre next Monday matinee and will be seen twice daily during the week. The production is entirely new this year and nothing but the title has been retained from last season. Star.

Everything new and up to the minute, the new "Midnight Maidens," with the two whirlwinds, Geo. Hibbe and Helen Spencer and a company of all-star entertainers will be the attraction at the Star Theatre commencing next Monday matinee.

Nazimova Coming to Regent.

For the first time in the history of motion pictures in Toronto, Mme. Alla Nazimova, the world-celebrated actress, will appear next week in "Toys of Fate" at the Regent Theatre. This announcement will be welcomed by theatregoers in all parts of the city and in bringing her, the Regent starts upon its year of big stars.

Emily Stevens at Strand.

For today, tomorrow and Saturday the feature at the Strand Theatre will be "A Man's World," a Metro production of unusual strength, starring wonderful Emily Stevens. The photoplay is a brilliant and satisfying drama, it discusses vital human problems. Emily Stevens has a role which gives her an admirable opportunity for displaying her high emotional talents.

Clara Kimball Young at Madison.

Clara Kimball Young has exactly one of those roles which suit her to perfection in "The Reason Why," by Elinor Glyn, which will be shown at the Madison Theatre today, tomorrow and Saturday. The photoplay is a strong romance of gay and "rapid" European

Will be seen in a character study, "The Crisis." Other big features complete the bill.

Contrary to expectations the board of control yesterday did not deal with the fuel question. It will be taken up later this week. The situation seems to get more serious as the winter approaches. The fuel commissioner, Dan Chisholm, whose resignation is before the board, advises people to buy anything that will burn, while on the other hand, coal dealers say they have no coal on hand, can't say when they expect any and have not caught up with orders placed last spring. But what the controllers can do to relieve the situation by at present clouded in doubt. However, they can talk in a reminiscent strain of the hardships of last winter and their apparent neglect to make any move so far to prevent a repetition of them this year.

BOARD OF CONTROL LEFT FUEL QUESTION.

Contrary to expectations the board of control yesterday did not deal with the fuel question. It will be taken up later this week. The situation seems to get more serious as the winter approaches. The fuel commissioner, Dan Chisholm, whose resignation is before the board, advises people to buy anything that will burn, while on the other hand, coal dealers say they have no coal on hand, can't say when they expect any and have not caught up with orders placed last spring. But what the controllers can do to relieve the situation by at present clouded in doubt. However, they can talk in a reminiscent strain of the hardships of last winter and their apparent neglect to make any move so far to prevent a repetition of them this year.

CONTINUE CLOSING IN ON HINDENBURG LINE

British troops in France, Sept. 11.—British troops today gained a footing in Pezère and Epéby, on the railroad between Roisel and Marœuil. In general, the British are continuing to close in on the Hindenburg line by a series of small actions and manoeuvres. The lines in the northern part of the battle zone have now been advanced thru the Village of Tressault, 3 1/2 miles southwest of Marœuil, to the eastern edge of the place where the troops are actually in the old British trenches facing the Hindenburg line.

DEEP PROBLEMS FOR THE SYNOD

Archbishop Matheson Gives Opening Address at Yesterday's Session.

NEED OF CO-OPERATION

Door of Church Open Wider Today Than It Ever Was.

The Challenges to the Church in the Present Crisis, was the topic of the opening address by Archbishop Matheson of Winnipeg at the Anglican Synod, which opened in St. James' Parish Hall yesterday.

After welcoming the visiting bishops from the United States and referring briefly to the losses the synod had incurred by the death of several members since its last meeting, Archbishop Matheson said there were two deep problems before the synod to be fully discussed.

The revision of the prayer book was inaugurated in 1911, said the speaker, and the first book was completed in 1915 and sanctioned by the bishops, was put out for the use of the church in Canada.

Speaking about the war, he thanked God for the many brave hearts Canada had given to the cause of liberty, and while giving thanks for the tide had turned in favor of the allies he condemned strongly any premature peace.

Judges Give Opinions of Nuxated Iron

AS A TONIC, STRENGTH AND BLOOD BUILDER

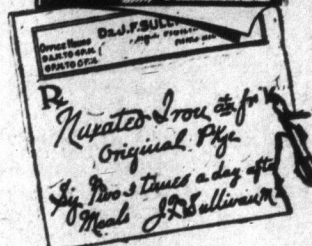

It Helps Put Vim and Renewed Energy into the Veins of the Weak, Run-down, Infirm and Aged—Often Increases Their Strength in Two Weeks' Time.

Dr. Samuel S. Yoder, Statesman, Jurist and for 18 years a practicing physician, formerly Surgeon Major in the Army and Commander in Chief of the Veteran Union.

"Nuxated Iron restores, revivifies and rehabilitates the system. To the man of 70 as I am it is just as certain, just as efficacious, as to the youth in his teens."

Dr. G. W. Atkinson, United States Judge of the Court of Claims of Washington, D.C., former Governor of West Virginia, Member of Congress and United States District Attorney, says: "I recommend Nuxated Iron to persons who in the stress of physical or mental labor have permitted their nervous system to become debilitated, the body exhausted or the nerves run-down. It has restored my appetite and my vitality. I feel that I have dropped off the burden of months of toil in the few weeks that I have been following the very simple directions for the use of Nuxated Iron."

Manufacturers' Note.—Nuxated Iron which is prescribed and recommended by physicians and which has been used by Judges Yoder, Chambers and Atkinson with such surprising results is not a secret remedy but one which is well-known to druggists everywhere. Unlike the odd inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by all good druggists.

SIR EDWARD KEMP REACHES TORONTO

Minister of Canadian Overseas Forces Brings Glimmering Account.

SLOGAN "ON TO BERLIN"

Men at Front Are in Fine Fettle and Morale is Good.

Sir Edward Kemp, minister of the Canadian overseas forces, his back from England and the Canadian front, more confident than ever in the gallant Dominion troops, and equally sure of a fast-approaching allied victory.

"On to Berlin, is our slogan," said Sir Edward when seen yesterday, immediately on his arrival. "The Canadians had a most difficult task, to penetrate the Hindenburg line, but they did it. They were the first to go through the Hindenburg line and over the Hindenburg switch. When I left, they were fighting away up there. Were they cheerful? Yes. The casualties had been filled by reinforcements, and their morale could not have been better."

Sir Edward stated that he did not hesitate in the slightest in coming home for three or four weeks so that the progress in organizing Canada's overseas forces, both in England and France.

"Everybody is doing his best, the best of good feeling prevails, and co-ordination is complete. Shortly before I sailed for home," he continued, "General Sir Arthur Currie said to me, 'I view the whole situation with a great deal of optimism.'"

English Wives Arrive. Sir Edward said that a thousand women and children, wives and families of Canadians married in England, came over on the ship. "Young, cheerful, courageous women, all of them. They were on their way to join their men here. One woman was on her way to the front with other women, who was not familiar with our magnificent distances. She told me that she would drop off at Halifax to see relative. We did not land at Halifax, and I remarked that Halifax was a great distance away. However, these women would make fine settlements. We did go on the land, Canada's future would be their future, and they were satisfied."

Foiled the Germans. Sir Edward, in discussing the situation at the front, told of an incident in the earlier fighting when the Canadians completely foiled the Germans as to their position.

In order to camouflage our movements a few units were sent to the north, near the Belgian front. The impression given to the foe was that the entire Canadian corps was going north. Then, Nos. 1 and 2 casualty stations were moved north. The Germans saw all this. Imagine their astonishment, therefore, when they found the Canadians in the fighting in the Amiens sector. The Germans were captured there and were amazed to find our boys sixty-five miles farther behind than they had expected to find them.

"When I went to France I expected to meet the Canadians there; but, instead, they were moving quietly to the east of Arras, 40 miles north. Part of the corps was going into action."

Asked as to the troops' interest in politics, Sir Edward smilingly replied: "I never heard what my officers are, politically." Sir Edward will remain home about a month before returning to his duties abroad.

A number of employees interviewed at the union station stated that the Brotherhood was not well represented in Toronto, and that for this reason the strike was ineffective.

The facts, so far as they are known, are: Firstly, that the Canadian Brotherhood is a fully-accredited labor union organization, referring back to the Trades and Labor Congress of Canada, whereas the other union of Dominion Express Company employees has no affiliation with this congress.

The Dominion Express Co is alleged to have organized the unauthorized body and to have induced its officials to sign an agreement opposed in principle to the Canadian Brotherhood's demands.

The relative membership of the two unions is such that although 80 per cent. of the Toronto and other members of the Canadian Brotherhood may have gone out, the company still has large reserves of labor to draw upon from the unaccredited union.

Mr. Vetter stated yesterday that the company had favored the unaccredited labor body as a counter-movement to the increasingly strong forces of labor-unionism within the ranks of its employees. The company's general manager stated that there was little disturbance of the usual routine outside of Ottawa and Montreal.

WANT INCREASED GRANT. A per diem grant of \$1.25 a day and the dating back of the civic grant made last April to July, 1917, were two requests made yesterday to the board of control by the Toronto Hospital for incurables. The social service commission will be consulted by the authorities before anything is done.

An Associated Press Photo

TO every home there comes a time when every thought, every hope, every prayer for the future centres on the recovery of one loved one. In that hour of anguish, every means to recovery is sought—the highest medical skill, trained nurses, costly treatment. Does the price matter?

It may be so great as to stagger the imagination—a sum beyond the possible.

But does anyone ask, "Can we do it?" Money or no money, they do it. And somehow they pay.

It may mean doing without things they think they need. It may mean privations, sacrifices, hardships. They make unbelievable savings, they achieve the impossible, but they get the money to pay.

To-day in this critical period of our nationhood, there is imperative need for MONEY—vast sums of money. Only one way now remains to obtain it.

The nation must save, every community, every family, every individual Canadian must save.

Published under the Authority of The Minister of Finance of Canada.

OBJECTION IS TAKEN TO THIS GARAGE SITE

The proposed erection of a garage on Lancaster avenue brought a swarm of protests about the heads of the members of the board of control yesterday. The work is already commenced and a lawsuit is before the court.

"I Need Hardly Say"

how thankful I was to get out alive, and fully made up my mind that I would write and tell you how useful Dr. Chase's Ointment was. I writes a survivor of the Gallipoli Peninsula campaign. "We found that it afforded instant relief from poison from shrubs and bushes, and got to using it for all manner of minor wounds and grazes."

WILL FIGHT INCREASED RATES.

Board of Control Agrees to Take a Hand in the Matter.

DRUG CLERK FINED THEN REARRESTED

When he appeared in the police court yesterday to face a charge of breach of the Ontario Temperance Act, Morris Peterman, a drug clerk in a Dundas street store, was fined \$800. After the fine was imposed the young man was again taken into custody on a charge of perjury.

SOLDIERS' INSURANCE.

An effort will be made by the board of control on Thursday to settle the vexed question of soldiers' insurance. There is difference of opinion as to whether next of kin living outside the city should receive the money.

SPECIAL SERVICES FOR LATE OFFICER

Solemn high mass of requiem was sung in St. Michael's Cathedral yesterday morning for the repose of the soul of the late Capt. William Kennedy Commins, D.S.O., M.C., killed in action at Le Quesnel, France, Aug. 9, 1918. The celebrant was Rev. Father O'Brien and a large choir assisted.

WANT TWO STREETS CLOSED.

British Acetones Limited Applied to Board of Control.

The British Acetones Limited, thru J. P. Gault, asked the board for permission to close, for the duration of the war, two streets, Trinity and Mill, so as to be better able to protect its plant from danger. The company is owned by the British Government, and is therefore exempt from taxation.

WILLS PROBATED

Robert Walton Doyno, who died at his home, 121 Woodstock road, Oxford, England, Aug. 1916, left an estate valued at \$90,447, and Mrs. Gertrude Irene Hope Doyno, Oxford, England, widow, who is sole beneficiary and executrix, has applied for ancillary probate of the will. The Ontario estate consists of 71 shares Britannia, valued at \$4,410, and 140 Crown Reserve valued at \$65.

DRUG CLERK FINED THEN REARRESTED

THURSDAY MORNING, SEPT. 12.

"On to Berlin!"

All the war critics are now coming round to the view that the World has consistently supported since last spring. It will do no harm to repeat the simple theory on which that view was based, and this is it: The Germans knew that the United States troops would give the allies a preponderance in numbers in 1918 and that they must therefore obtain a military decision in 1918. It being certain that they would make their attempt, it was imperative that they should be held. The first, the chief and the essential step to be taken by the allies to hold them was to unify the allied command and mobilize the brains of the allied armies. These brains were seen to be located chiefly in the skulls of General Foch and General Sir Henry Wilson. It was certain that when these two got together in a unified command, any effort the Hun might make would be stopped. If it were stopped the German power was necessarily broken.

The principles of war, or indeed of politics, or economics, or any other systematic activity, are always very simple, and nearly all the mistakes are made by artificially complicating what is naturally simple. Foch and Wilson have stuck to the simplicities and the Hun power is broken.

The next question is whether the Germans will be given time to recuperate. Foch has already answered this. They will not. They are themselves aware of it and are busy constructing defense lines behind the notorious Hindenburg line which is already shattered and must be abandoned. The next blow, as we have said already, must not be expected to be a frontal attack on that line. A costly movement of this kind is not to be expected when a more effective one is possible involving much less loss. The enemy sees this also, and like the old coon is already willing to come down, the last report being that Douai was being evacuated. This means that Cambrai is also doomed. The Australians yesterday were in sight of St. Quentin. La Fere is still more nearly in the hands of the French. Leon is directly threatened.

The Germans fear a flank attack. It seemed reasonable to expect this big stroke at the north end of the line, but the break in the weather which has occurred has probably made this unlikely. The flat lands of the north are not good fighting ground when the rainy season has begun, and it appears to have set in early. There will be more good weather, undoubtedly, but men like Foch and Wilson do not take chances, and they always have alternative plans. It would not be wise to begin a flank attack on the north which the weather might interfere with, particularly when there is another flank equally inviting.

Sir Edward Kemp's jubilant "On to Berlin" yesterday may reveal more than would be officially admitted, and in this connection it may be noted again that the shortest way to Berlin is from the south. Incidentally that is where the bulk of the United States troops has been assembled. And at one point they are only 18 miles from the Rhine.

The respect and regard which the allies will possess for United States troops are going to be considerably augmented before the snow flies, and they stand remarkably high already. Canadians, British, French, have done good work this year, and there is an opportunity now for the strong, keen men from over the border to do something equally famous before the campaign is over. In fact they may pull off something that will make it seem as if the campaign were merely beginning.

Some of our friends cannot get it into their heads that the German armies are beaten and broken. But they are. They are even in mutiny. They might recuperate if given time, but they are not going to get time. They would be foolish of the allied generals to give them time. Instead we expect General Pershing will give them Hall Columbia!

No doubt Sir Edward Kemp had good reasons for shouting "On to Berlin!" So say all of us.

That Poisoned Ring Story.

That story of phenol poisoning of the rubber rings for fruit jars by German agents is probably German, all right, but the poison is in the story and not on the rubber rings. Phenol is a form of carbolic acid, and a little carbolic acid in a weak solution would be an excellent thing to dip the rubber rings in before using. Dr.

Hastings says they should be boiled before using. As any rat, if not disinfected they may carry germs or spores that will turn the fruit or vegetables bad that are to be preserved. They could not be poisoned in the way suggested by the story. It is doubtful whether even enough prussic acid could be introduced by such means to be injurious.

If the rings are boiled, however, no poison can remain upon them.

A Weekly Bulletin and a Report.

There will be considerable satisfaction in many quarters over the decision of the government to issue a weekly bulletin of public information, covering all matters of interest in government affairs, or of news that is permitted to transpire. Government printing now runs to colossal dimensions. Tons of material that nobody reads are scattered over an unreciprocated land, and the valuable facts that are buried in this way are never heard of.

An example is just to hand in an elaborate report of the Dominion Experimental Farms running to 348 closely printed pages. The information is valuable, no doubt, to some, but it is 18 months old, and may be serviceable next spring, two years after the ending of the period which the report covers.

A smart editor would boil the essence of this report down into a short bulletin report which would give the general public all they wished to know, and the special reader sufficient knowledge of the report to judge whether he wanted the whole of it or not. A report of matters that happened in March, 1917, is somewhat belated in September, 1918. By all means let us have a good bulletin; and reform the report habit.

Mrs. Pankhurst on Russia.

Mrs. Pankhurst delivered herewith great clearness at the Canadian Club yesterday, and reiterated her message of loyalty to the program of the allies as it is generally understood, and voiced by President Wilson and Premier Lloyd George.

While she devoted the greater part of her speech to the Russian situation, she did not omit to denounce the Bolshevik element nearer home, who are prepared to sacrifice all that has been gained by the allied peoples in four years of desperate struggle in the deluded effort to make a silk purse out of a swine's ear. Mrs. Pankhurst admitted that she herself had been one of those who had made the mistake of thinking that after the revolution, Russia would move on and take her place with the democratic nations of the world. But she had learned by her visit to Russia the danger of changing to the middle of an enemy, insidious, crafty, and prepared for forty years not only for military conquest, but for economic and for political conquest of the world. Russia was full, when the war began, of German agents, spies, speakers, newspaper leader writers, government officials, professors and teachers, and when the revolution came all these turned their influence on the Russian people. They printed a paper which could be read by the ten per cent. literate peasants, and repeated by them to the 90 per cent. illiterate. The allies were misled. The British were said to be out for conquest, and for the subjection of the Russian people. These German agents incited the Russian peasants to murder the landed proprietors, the factory owners and others of repute. They were the sinister figures behind the movement to displace men like Radziokoff and Mikuloff, and it was their influence that pushed forward Kerensky. They never said a word against the Germans, nor was there a word in support of the independence and integrity of Russia, or its duty to the allies. All the talk was of nationalism and patriotism, and of the revolution being one step nearer the day when the working classes would rule the world.

All this was anti-democratic. Class rule is an evil thing whether the authority is that of an aristocracy or a mobocracy, and whether it is exercised by a single tyrant or by a whole class.

Mrs. Pankhurst's message was that this same Bolshevik element, propagandist in its influence and inspiration, was rampant in our own country. It was working its insidious way in every factory in the land. They would be found saying that the war was an imperialist war and not a people's war, a war of capitalists and not of workers. The very people whose sons and brothers were dying in the trenches were being invited to take a class advantage out of it.

The women's political party was preaching a different kind of doctrine, said Mrs. Pankhurst. If the war was a war for everybody, it meant slavery for everybody, no matter what class they belonged to. They had a better plan for the welfare of the masses, based on co-operation, but it could not succeed if it did not include the captain as well as the private of industry.

The lesson of Russia is a notable one for the workers of any land who theories of German propaganda, or the false representations of German propagandists. Class war is civil war, and it has left Russia starving, dishonored, homicidal and chaotic. It is plainly an example to be avoided.

THE WIFE

By JANE PHELPS

Brian Takes Mollie King to Dinner a Second Time.

CHAPTER XXXIV.

The next morning, when Brian reached the office, he found a bright little note from Ruth. She had seen the house she was to plan doing over, and it was a lovely place. She would surely be home in time for dinner the following night.

"I hope you are not too lonely, eating alone," she had written. "I must make it up to you when I get home." Brian smiled rather shamefacedly, altho there were none to see, when he read that passage; then thought, flushing a little at the hint of disloyalty in his mind, that day he had Mollie King on his hands for dinner.

He met Mollie at the usual time and, once more, they dined in the old corner. But that night they were not alone. Brian was in a way annoyed.

Several of the old burghers were there—the "Bohemians," as they styled themselves—whom he had known before he married Ruth, even before he had met her, and thinking he was acquainted with Ruth, these others had seemed somehow common, almost vulgar in their parade of their poverty and unconventionality—all but Mollie, she had always been a little different from the rest.

Brian was, however, cordial in his greetings. He could be nothing else, he thought, as long as he was with Mollie.

"Couldn't keep away, could you, Hackett?" Claude Wetherill, a worker who had not yet arrived, asked, slapping him familiarly on the back.

"Hello, Mollie! Aren't you afraid of getting your hair pulled?" Mrs. Brian may hear of this, and thinking he had been clever, left them to tell others that Brian Hackett was back with Mollie King from her nor from the village.

"I wish we had gone somewhere else," Brian said when he and Mollie were alone for a moment. One after another had come over to welcome Brian back to get a word or something to quench their thirst.

"It is a bore, isn't it?" Mollie replied. "Brian, they are really glad to see you, you know."

"Yes, but now it seems some way away from me," Brian said, looking a little cheaper. "I suppose I should be ashamed to say it, but they do."

"I understand you have been with a woman to whom nothing in the village would appeal. A woman who is conventional. They are the best kind to marry, Brian. Altho a man misses a lot of fun," she added naively.

"I know I have missed you, Mollie. But the rest of the sentence unfinished."

"I understand you have been with a woman to whom nothing in the village would appeal. A woman who is conventional. They are the best kind to marry, Brian. Altho a man misses a lot of fun," she added naively.

"Yes—but Brian, liking me when she meets me with others, and liking her when she knows I dine with her husband and she is away, are two different kinds of liking."

Up in the studio they smoked and talked. Brian, the reason for Ruth's absence, and that it was not his duty to bring her back, or for another hour they visited. Without meaning to, Brian had conveyed to Mollie the idea that he was rather a neglected sort of person; that he was disappointed in Ruth. He would have been shocked if he had realized the impression he had gained from her chatter. Feeling that he was perhaps unhappy, disillusioned Mollie had been better than for another hour they visited. Without meaning to, Brian had conveyed to Mollie the idea that he was rather a neglected sort of person; that he was disappointed in Ruth. He would have been shocked if he had realized the impression he had gained from her chatter. Feeling that he was perhaps unhappy, disillusioned Mollie had been better than for another hour they visited. Without meaning to, Brian had conveyed to Mollie the idea that he was rather a neglected sort of person; that he was disappointed in Ruth. He would have been shocked if he had realized the impression he had gained from her chatter. Feeling that he was perhaps unhappy, disillusioned Mollie had been better than for another hour they visited. Salada leaf. This ensures full quota of natural 'goodness' in your cup. Old, dusty teas have lost their 'nature' through age and can never yield like the fresh, young Salada leaf.

GERMANS AFRAID OF NEXT SPRING

Will Be Unable to Stand Pressure Then, Says Officer.

ARE IN A BAD WAY

Taking Things All Around, They Are in a Poor Condition.

With the British Army in France, Sept. 11.—Just what the average intelligent German soldier thinks of the war now may be gleaned from a letter written on Aug. 20 by a non-commissioned officer to his brother in the ranks: "I had to do real hard work in the trenches in 1918."

Behind the lines goes on the ceaseless activity of field ambulances, casualty clearing stations and hospitals. The devoted work of the former is lightened now as with marvelous celerity and method, the wounded are passed back to the forward hospitals in the rear.

"I am only interested in whether we are going to hold out longer than this winter. In my opinion, however, I will bring up such crowds of Americans and others next spring that we will be unable to withstand the heavy pressure. Also, our enemies will have such a number of aircraft available, that we shall not know where to find cover from their bombs."

"Taking it all round, we are in a bad position. Not only here at the front, but at home, too, things are in a very bad way. And the eastern front is being closed up again and I shall be interested to see whether the English will be able to hold out longer than this winter. In my opinion, however, I will bring up such crowds of Americans and others next spring that we will be unable to withstand the heavy pressure. Also, our enemies will have such a number of aircraft available, that we shall not know where to find cover from their bombs."

Prisoners Urge British to Capture Comrades—Letters Show Hopelessness.

At British Army Headquarters, Sept. 11.—Reuter's correspondent writes: "The state of the morale of the German army is indicated by the demeanor of the prisoners of the sectors of the division of the corps d'elite, which was withdrawn from fighting less than a month ago."

Prisoners are heartily glad that they surrendered and urged our men to continue the attack, assuring them that they were glad to be in the hands of the British and that they were anxious to surrender.

Prisoners are heartily glad that they surrendered and urged our men to continue the attack, assuring them that they were glad to be in the hands of the British and that they were anxious to surrender.

STRICKEN VETERANS THANK LLOYD GEORGE

Premier Receives Addresses From Armenians, Syrians and Zionists at Manchester.

WILL REPAY THE DEBT

Premier Hopes That Sufferers From Turkish Misrule May Again Enjoy Liberty.

London, Sept. 11.—At Manchester today, Premier Lloyd George received addresses from three deputations representing the Armenian Committee of Manchester, the Syrian Association of Manchester, and the Zionist Committee of Manchester, who were introduced by the noted orator, Sir Mark Hykes.

The Armenian address greeted Lloyd George as a great statesman, whose genius and nobility of heart compelled all freedom-loving people to regard him as their own chosen leader.

The Syrian orator presented an address on behalf of the Arabic-speaking peoples of the British Empire, who thanked Premier Lloyd George for his personal interest in the future of their fellow-countrymen.

Behind the lines goes on the ceaseless activity of field ambulances, casualty clearing stations and hospitals. The devoted work of the former is lightened now as with marvelous celerity and method, the wounded are passed back to the forward hospitals in the rear.

"I am only interested in whether we are going to hold out longer than this winter. CLAIMS EXEMPTION AS CHRISTADELPHIAN

Niagara Camp, Sept. 11.—Arthur Ernest Hill of the 2nd Battalion Garrison Regiment, was tried today by general court-martial for having refused to put on a uniform when ordered to do so by Major W. T. Rogers, at Exhibition Camp, Toronto, on Aug. 28 last. Hill claimed exemption from military service as a Christianadelphian.

Liability of David S. Weller and Peter A. Robertson of the 1st Battalion, 1st C.O.R., and Joseph Henry Williams, 2nd Battalion, C.O.R., conscientious objectors, was postponed.

Lieut.-Col. G. L. Francis, O.C. of the Canadian railway troops, presided, and the other members of the court were: Major A. A. McKenzie, M.C.; Major C. S. Pote, M.C.; Capt. W. S. Richardson; Capt. A. B. Lindsay, M.C.; Lieut.-Col. J. A. Macdonald, J.C.; Lieut. R. S. Sloan, 1st Battalion, 1st C.O.R., prosecutor.

Brazilian Journalists Sure Of Allies Gaining Victory

Rio de Janeiro, Brazil, Sept. 11.—The Journalists of Brazil, who have been holding a congress here, passed a resolution by unanimous vote in which confidence in an allied victory in the war was expressed. The solidarity of the entente press in support of the allies in the conflict was pointed out and lauded.

TONS OF EXPLOSIVES DROPPED BY FRENCH

Paris, Sept. 11.—During the course of the month of August French bombardment airplanes dropped more than 629 tons of projectiles, according to a statement issued today by the war office.

"In the course of August our bombardment airplanes in day flights dropped more than 269 tons of projectiles on objectives on the battlefield between the Somme and the Aisne. In night attacks our bombing airplanes dropped 360 tons of projectiles on railway stations and enemy roads of communication."

"In the same month 280 enemy machines were downed, or seen falling out of control, and 66 enemy balloons were set on fire."

MANY GERMAN DEAD

London, Sept. 11.—During two months the Germans have left 500,000 men upon the battlefields, of which 300,000 were dead, the Paris correspondent of the Exchange Telegraph Co. estimated today.

DODD'S KIDNEY PILLS

The Boston Red Sox Win Deciding Game by 2 to 1

MAY'S SUBMARINE DELIVERY DID IT

An Error Helped Boston Along, and Cubs Couldn't Hit Mays.

The detailed story of the final game of the world's series follows:

Chicago—Thomas took Flack's hopper and got his man easily at first base. Mays' underhand ball was kept closely around the batter's knee. Shean tossed out Hollister. Scott got Mann at first. No runs. No hits. No errors.

Chicago—Flack fouled to Thomas. Hollister fouled out to Ruth. Shean threw out Mann at first. No runs. No hits. No errors.

Chicago—Mays' delivery was a surprise. He pitched to the right of the batter's feet. Hean tossed out Hollister. Scott got Mann at first. No runs. No hits. No errors.

Chicago—Mays' delivery was a surprise. He pitched to the right of the batter's feet. Hean tossed out Hollister. Scott got Mann at first. No runs. No hits. No errors.

Chicago—Mays' delivery was a surprise. He pitched to the right of the batter's feet. Hean tossed out Hollister. Scott got Mann at first. No runs. No hits. No errors.

Chicago—Mays' delivery was a surprise. He pitched to the right of the batter's feet. Hean tossed out Hollister. Scott got Mann at first. No runs. No hits. No errors.

CHICAGO HELPLESS BEFORE CARL MAYS

For Spectacular Catch in Eighth From Pinch Hitter Barber's Bat, Which Was Easily Feature of Contest, and Probably of the Games Between the Sox and Cubs.

Fenway Park, Boston, Sept. 11.—The Boston Red Sox are the non-essential world champions of 1918. They defeated the Chicago Cubs by a score of 2 to 1 today in a hotly fought game which was replete with fine fielding plays, Flack's error in the third inning, the National League champions from the world series picture, the last to be shown on the baseball screen until the great war is over. Mays' underhand delivery held the Chicago Cubs helpless throughout. Thomas and Whiteman made bright fielding plays. The official box score, which follows, shows how the Cubs went down to defeat in the eighth inning, without one blot on the scoreboard.

Chicago—Flack pitched to Thomas. Hollister fouled out to Ruth. Shean threw out Mann at first. No runs. No hits. No errors.

Chicago—Mays' delivery was a surprise. He pitched to the right of the batter's feet. Hean tossed out Hollister. Scott got Mann at first. No runs. No hits. No errors.

Chicago—Mays' delivery was a surprise. He pitched to the right of the batter's feet. Hean tossed out Hollister. Scott got Mann at first. No runs. No hits. No errors.

CROWD GAVE GEO. WHITEMAN GREATEST OVATION OF SERIES

For Spectacular Catch in Eighth From Pinch Hitter Barber's Bat, Which Was Easily Feature of Contest, and Probably of the Games Between the Sox and Cubs.

Boston, Sept. 11.—Taps for professional baseball for the duration of the war was sounded at Fenway Park today, when the Boston American League pennant winners won the first war-scared baseball championship of the world by defeating the Chicago National League title holders in the sixth game of the series by a score of 2 to 1. It was the first time since 1903 that the Sox have won the National League pennant, and as the Boston Nationals won the championship in 1914, it brings to this city a second time without one blot on the scoreboard.

Chicago—Flack pitched to Thomas. Hollister fouled out to Ruth. Shean threw out Mann at first. No runs. No hits. No errors.

Chicago—Mays' delivery was a surprise. He pitched to the right of the batter's feet. Hean tossed out Hollister. Scott got Mann at first. No runs. No hits. No errors.

Chicago—Mays' delivery was a surprise. He pitched to the right of the batter's feet. Hean tossed out Hollister. Scott got Mann at first. No runs. No hits. No errors.

SIBERIAN CLIMATE RESEMBLES CANADIAN

Col. Dennis Corrects Several False Impressions Regarding the Country.

TRADE OPPORTUNITIES

Great Chances for Young Canadians Who Go There in One Capacity or Another.

Ottawa, Sept. 11.—That popular ideas as to the climate and resources of Siberia, where a Canadian force will shortly be fighting in the cause of the Allies are incorrect, was one of a number of interesting statements made in regard to that country by Col. Dennis, head of the C.P.R. department of natural resources, who is in the capital on government business.

NOTICE

TO UNITED STATES CITIZENS IN CANADA.

By the United States Military Service Convention Regulations, approved by the Governor-in-Council on 20th August, 1918, MALE CITIZENS OF THE UNITED STATES IN CANADA, WITHIN THE AGES for the time being SPECIFIED BY THE LAWS OF THE UNITED STATES prescribing compulsory military service, except those who have diplomatic exemption, ARE MADE SUBJECT AND LIABLE TO MILITARY SERVICE IN CANADA, AND BECOME ENTITLED TO EXEMPTION OR DISCHARGE THEREFROM, UNDER THE CANADIAN LAWS AND REGULATIONS.

REGULATIONS

3. EVERY MALE CITIZEN OF THE UNITED STATES WITHIN THE AGES for the time being SPECIFIED IN THE LAWS OF THE UNITED STATES prescribing compulsory military service, not including those who have diplomatic exemption, WITHIN TEN DAYS AFTER THE EXPIRY OF THE TIME LIMITED BY THE CONVENTION within which the Government of the United States may issue him a certificate of diplomatic exemption, SHALL TRULY REPORT TO THE REGISTRAR BY REGISTERED POST, and in writing which is plainly legible, his name in full, his occupation and the date of his birth; stating also whether he is single, married or a widower; and if the latter, whether he has a child living; and if married, the date of his marriage; and stating moreover his place of residence and usual post office address in Canada; and, if he reside within a city or place where the streets and dwellings are named and numbered, the name and number of his street and dwelling; or if he reside in another place, the lot and concession number, section, township, range, and meridian, or other definite description whereby his place of residence may be located, having regard to the custom of the locality in which he lives; and IF WITHOUT REASONABLE EXCUSE HE NEGLECT OR FAIL TO

ISSUED BY THE DEPARTMENT OF JUSTICE, MILITARY SERVICE BRANCH.

THIRD RACE—Claiming three-year-olds and up, mile and a sixteenth: 1. Crumple, 108 (Doy), \$4, \$2.70, \$2.00. 2. Silver Sandals, 105 (Johnson), \$3.30, \$2.70, \$2.00. 3. Golden Beniam, 105 (Steele), \$4.10, \$3.40, \$2.50.

ADDED STARTER WINS

Belmont Park, N.Y., Sept. 11.—The races here today resulted as follows: FIRST RACE—Purse, \$700; non-winners of three races since June 1, 1918, claiming, purse \$725.25, 5/8 furlongs, straight.

MURDERED OFFICIALS FRIENDS OF BOLSHIEVIKI

Stockholm, Sept. 11.—Advice received here show that Capt. Cromie, the British naval attaché, who was killed at Petrograd by the Bolsheviks, who mutilated his body and let it hang out of the embassy window until the neutral diplomats threatened to leave Petrograd if it was not removed, was friendly to the Bolsheviks, and belonged to the group of British officials who urged recognition of the soviet republic and co-operated with it until Trotsky broke the faith about permitting the Czechs to leave Russia by way of Siberia.

NEGOTIATIONS PROCEED.

John Hopkins, business agent for the Painters and Decorators' Union in Central Ontario, stated yesterday that negotiations between the union and many of the employers were progressing apace. He was very hopeful of the outcome.

DOVERCOURT BEAT BROADVIEW.

At Riverside Park on Saturday Dovercourt beat Broadview in a C. & M. League game by 4 to 2. Baiting first, the visitors lost 3 wickets for 8 runs, but the tail wagging rather vigorously, a total of 44 was reached. Jarvis was the main cause of the trouble, he securing 15 wickets for 15 runs. Buss got 3 for 26. The home team fared equally as badly, losing 7 wickets for 8 runs in 4 overs, and finished with 8 for 8. Moon got 2 for 5. Colbourne ran out.

ST. EDMUNDS V. ST. CYPRIANS.

St. C. & M. League game was played at Oakwood Saturday, and the indifferent display of cricket by St. Cyprians resulted in an easy victory for St. Edmunds. St. Cyprians batted first, and with the assistance of 10 extras totaled 120 runs. St. Edmunds batted second, and registered 120 runs, 10 extras included. The match was a close one, but St. Edmunds won by 10 runs.

BRITISH TROOPS RAID AUSTRIAN POSITIONS

Rome, Sept. 11.—British troops yesterday raided the Austro-Hungarian positions on the Asiatic plateau on the mountain front, and inflicted considerable losses on the enemy, according to the official statement. The British took prisoners and abundant war material.

GERMAN REGIMENT MUTINIES AT COLOGNE

Amsterdam, Sept. 11.—A German regiment, the 170th, mutinied at Cologne on Aug. 21, according to the Telegraaf. An eye-witness of the incident says that the soldiers on being ordered to leave Cologne for the western front refused to board a train. Another regiment was then ordered to force the mutineers to enter the train, but they refused to fire on their comrades.

GERMANS PREPARE TO EVACUATE DOUAL

Washington, Sept. 11.—Systematic evacuation of the Town of Douai, one of the important forward bases of the present German line in France, is described in official advices reaching Washington today. A vast amount of war material is being taken out of the town, the report says, including the equipment of the arsenal there, which was the largest establishment of the kind maintained by the enemy in the northern region of his advanced lines. The advices state that the removal of this equipment has been in progress more than ten days, and that the equipment at the Bravelle aerodrome, near Douai, also was being taken farther to the rear. The same precautions are being taken with equipment at an enemy aviation field at Lecelles, near St. Amant. That field, the report states, was specially established in connection with the raids by German aircraft along the English Channel coast.

RAPID JAP ADVANCE IN SIBERIAN THEATRE

Tokio, Sept. 11.—An official statement issued by the Japanese war office, reporting military operations on the Ussuri front in Siberia, says: "Our cavalry reached Bilchikovo on Sept. 2. Bilkin, 150 miles north of Vladivostok, was reached on Aug. 21, and our vanguards entered Lman, 40

PERVIC TORPEDOED.

New York, Sept. 11.—The transport torpedoed off the English coast on Sept. 6 with American troops on board, as reported in London despatches today, was the British steamship Pervic, of the White Star Line, a vessel of 12,042 tons gross.

WHY THE WOMEN WENT TO RUSSIA

Mrs. Pankhurst's Address at Canadian Club Enthusiastically Applauded.

URGED INTERVENTION

Government of Country at That Time Not Friendly to Allies.

"The British people, with insignificant exceptions, wanted war till victory, and wanted that victory so manifest that we should be able to dictate to Germany."

"When I got home my first piece of work was to get in touch with the prime minister, and beg him with all earnestness to intervene in Russia."

"The allies were going over now, late, as on other occasions, she said, which was one of the penalties of democracy, and they were there to clear away the monster of Bolshevism."

"The allies were going over now, late, as on other occasions, she said, which was one of the penalties of democracy, and they were there to clear away the monster of Bolshevism."

GOING TO ENGLAND. Miss Wiseman, president of the Canadian Women's Business Club, will be sent by her association to England, where she will cooperate with Miss King, president of the Women's Association of Commerce of the United States, who is going to England to study the entire activities of women in order to arrive at the quickest and best methods by which women may be of service now and after the war.

MILITARY POLICE GET SEVEN WITHOUT PAPERS

A surprise visit was paid last night to the Classic Athletic Club, East Queen Street, and three poolrooms in the Broadway Avenue district by the civil section of the military police corps in search of military defaulters. Seven men in all were found without military papers. Five of these were unable to produce the required papers later in the evening and were set free. The other two were released on their giving bonds for their reappearance today.

The Safest Matches in the World Also the Cheapest ARE

EDDY'S

"SILENT 500'S"

SAFEST because they are impregnated with a chemical solution which renders the stick "dead" immediately the match is extinguished. CHEAPEST because there are more perfect matches to the single box than in any other box on the market.

Mr. J. Tupper has arrived at the King Edward from Winnipeg.

Mr. and Mrs. E. D. Loomis, Montreal, are at the King Edward.

Miss Anna Hayes, 1432 Queen Street, who has been at the King Edward, her parents for a month or two before returning to the south.

Mr. W. M. Douglas entertained soldiers from the five convalescent hospitals at the Royal Canadian Yacht Club at dinner last night.

The marriage of Kathleen Agnes (Kitty), only daughter of Mr. and Mrs. E. Dawson Hartley, to Mr. George Neil Hargrave, second son of Mr. and Mrs. George Hargrave, took place at half-past two o'clock yesterday afternoon at the Church of the Epiphany, Parkdale, the service being taken by the rector, Rev. Canon Bernard Bryan and Rev. Dyson Hague, vicar.

The pretty bride, who was given away by her father, wore a gown of white satin and georgette crepe, with trimming of Brussels point. Her long tulle veil was from a crown of orange blossoms, and she carried a shower bouquet of sweetheart roses and white orchids and wore the bridegroom's gift of a barpin of sapphires and diamonds set in platinum.

The matron of honor was gowned in primrose satin and carried a wreath of large black velvet hat and gold shoes. The bridesmaids wore, respectively, pale blue satin and var Raalte net and lavender satin and net. Miss Grace Hartley and Miss Bessie Fell, who were bridesmaids, wore, respectively, pale blue satin and var Raalte net and lavender satin and net.

Mr. Matthew Ellis, pearl studs, Mr. Wedd, Jun., who played the wedding music and the usher, Mr. Ernest Grand and Mr. Bert Hartley, received pearl scarf pins. After the ceremony the bride's parents held a reception at their home in Springhurst Avenue, Mr. and Mrs. Hargrave left later on for the Adirondacks, the bride wearing a costume of Lucille fox fur. On their return to Toronto they will live at 22 Heath Street.

The Hotel Petrograd, North Audley Street, London, England, has been acquired by the office of works for the war.

She lets Sunlight do the work Sunlight dispels the shadow that once hung over wash day

In fact many women do not say "wash day" any more. They say "Sunlight Day". It's a genuine pleasure to use Sunlight Soap because it means an economical wash, it means a quick wash. Why? Because, Sunlight is absolutely pure— you need only half the quantity as compared with ordinary soaps, nor will Sunlight harm any delicate fabrics, or hurt your hands. And it really takes the labour out of the washing in surprisingly little time as you will see by following the directions.

LEVER BROTHERS LIMITED, TORONTO

Sunlight Washes the Clothes

BUSINESS WOMEN AT ANNUAL DINNER

Have Senator Nicholls and Mrs. Pankhurst as Their Guests.

PLAY BIG PART IN WAR

Tribute to Devotion of Those Who Have Undertaken Men's Work.

The Canadian Business Women's Club of Toronto was honored at the annual dinner, held last night in the board of trade rooms at the Royal Bank building, with having as guests Hon. Frederic Nicholls and Mrs. Emmeline Pankhurst. Miss Wiseman, president of the club, was hostess, with Lady Hearst on her left, and the speaker of the evening, Senator Nicholls, on her right-hand guest.

On Saturday afternoon and evening the 225 boys and girls now at the Sacred Heart Orphanage, are appealing to their friends by attending the garden party to be held on the grounds of the orphanage at Sunnyside on that date.

Last year's coal bill for the institution was over \$4800. This winter, with prices likely to soar, the outlook is for even greater outlay to keep the boys and girls of the home in any kind of comfort.

There are many little mouths to feed—in winter the average number of children keeps pace with the rise in prices—and three hundred, more or less little bodies to be fed and clothed.

By attending the garden party you will help the kiddies and at the same time enjoy the splendid program of meals, music and sports prepared by the committee in charge.

On a charge of housebreaking and their Gertrude Pholey (18), who gives her address as Grenadier road, was arrested last night by Detective Nichols of Cowan Avenue station. It is alleged by the police that the girl is implicated in a series of thefts in that district.

CHARGE OF THEFT.

On a charge of housebreaking and their Gertrude Pholey (18), who gives her address as Grenadier road, was arrested last night by Detective Nichols of Cowan Avenue station. It is alleged by the police that the girl is implicated in a series of thefts in that district.

GARDEN PARTY SATURDAY.

Sunnyside Orphanage is Giving its Annual Event.

On Saturday afternoon and evening the 225 boys and girls now at the Sacred Heart Orphanage, are appealing to their friends by attending the garden party to be held on the grounds of the orphanage at Sunnyside on that date.

Last year's coal bill for the institution was over \$4800. This winter, with prices likely to soar, the outlook is for even greater outlay to keep the boys and girls of the home in any kind of comfort.

There are many little mouths to feed—in winter the average number of children keeps pace with the rise in prices—and three hundred, more or less little bodies to be fed and clothed.

By attending the garden party you will help the kiddies and at the same time enjoy the splendid program of meals, music and sports prepared by the committee in charge.

On a charge of housebreaking and their Gertrude Pholey (18), who gives her address as Grenadier road, was arrested last night by Detective Nichols of Cowan Avenue station. It is alleged by the police that the girl is implicated in a series of thefts in that district.

ANNOUNCEMENTS

Notice of future events, not intended to raise money, 5c per word, minimum 50c; if held to raise money solely for Patriotic, Church or Charitable purpose 4c per word, minimum 25c. If held to raise money for any other than these purposes 6c per word, minimum 25c.

THE CANADIAN BUSINESS WOMEN'S CLUB

held a meeting at the Toronto Conservatory of Music at 8:15 on Sept. 12, at which Miss Florence King, president, Women's Association of Commerce of the U.S.A., will speak on "The Business Woman of the Future," and Miss Marjory MacMurphy, on "The Business Woman in Reconstruction."

Members of the U.S.A., will speak on "The Business Woman of the Future," and Miss Marjory MacMurphy, on "The Business Woman in Reconstruction."

NEW GOLD PRODUCERS OFFSET CLOSED MINES

Ontario's Production of Yellow Metal for First Six Months of Year Shows Slight Increase—Silver Output is Less, But Value is Greater.

Returns received by the Ontario Bureau of Mines for the six months ended June 30, 1918, show a small increase in the production of gold in comparison with the corresponding period of last year. Silver shows a falling off, but the higher price for this product has caused the output to show a greater value than that of a similar period in 1917.

In the table given below, for purposes of comparison, the quantities and values are given for the corresponding period in 1917.

Product	1917	1918
Gold (ounces)	228,673	229,421
Silver (ounces)	2,736,000	2,589,941
Cobalt, metallic (lbs.)	118,589	237,004
Nickel, metallic (lbs.)	45,861	208,802
Nickel oxide (lbs.)	1,418,035	259,371
Cobalt oxide (lbs.)	153,498	259,371
Other cobalt and nickel compounds	132,076	223,029
Copper in matte (tons)	20,230	21,393
Copper in matte (tons)	10,881	10,700
Copper ore (tons)	1,543	1,548
Iron ore (tons)	69,299	106,196
Pig iron (tons)	347,190	541,132
Molybdenite, concentrates	36,777	32,656
Lead, pig (lbs.)	912,894	114,923
Copper in matte was valued at 20 cents in 1917. For 1918 the value has been placed at 25 cents per pound respectively.		

New shippers this year include Edwards & Wright, Ltd., operating the old Green-Mechan mine; the Silver Eagle of Silver Centre; the Keeley mine in South Lorrain where a high grade vein has been uncovered. There was also a clean-up by the Lumatum Mining Co. The National Mines Ltd. recovered and treated tailings from Cross Lake that had been deposited there by the Old King Edward and Silver Cliff mines. The Mining Corporation of Canada is now treating a large tonnage of silmes and tailings from Cobalt Lake in the new mill. Silver was recovered from gold ore to the extent of 47,427 ounces.

Refineries.

There were treated at Deloro, Thorold and Welland 2659 tons of ore and concentrates, and 1116 tons of residues with a recovery of 2,758,701 ounces of silver. In addition, cobalt and nickel were produced in metallic form also as oxides and sulphates. The Deloro Smelting and Refining Company uses a considerable proportion of its output of metallic cobalt in the manufacture of "stellite" which contains about 10 per cent of cobalt.

Copper Mining Unprofitable.

As a result of high mining costs, together with increased freight rates and smelter charges, copper mining has become unprofitable. The only shipper was the Hudson Copper Co. at Havill. Nickel-copper mining and smelting, however, shows an increase in output. During the half year 804,640 tons of ore were raised from the operating nickel-copper mines. Ore smelted was 717,119 tons, producing 40,178 tons of nickel-copper matte.

Pig iron produced in the half year shows a little change in quantity, as compared with the corresponding period in 1917, but in value the increase is over 50 per cent. There were 515,094 tons of pig iron, a total of 751 tons of foreign ore smelted by the eight furnaces in blast. Steel produced in the period totaled 432,326 tons, worth \$12,850,600.

The production of molybdenite concentrates for the half year shows a small decline in quantity, but the value was nearly 50 per cent greater. There was only one producer of lead ore in the province during the half year, the James Robertson Estate. Operations both mining and smelting are carried on at Galesita. The pig lead product is used by the company in Montreal.

Gold.

The report continues: Considering the handicaps under which gold miners are operating, a small increase in production, as compared with the first half of 1917, is a creditable showing. In the Porcupine camp, the Dome, Porcupine Crown, Porcupine V. N. T. and Schumacher have ceased milling operations. At Boston, the Munro Township, the Tough-Oaks at Kirkland Lake and St. Anthony at Sturgeon Lake are in the same category. This curtailment of output is offset by the new producers of gold, Lake Shore at Kirkland Lake and Davidson at Porcupine. The 40-ton mill at Kirkland Lake started operating the latter part of June. A promising vein carrying gold telluride has been discovered on the Miller Independence at Boston Creek. Shaft sinking is proceeding, and arrangements made to increase the milling capacity at this property. Considerable activity at Boston Creek has resulted from these developments. In the new Matachewan camp, the claims under option to the Nipissing Mining Co. some spectacular samples of gold ore have been secured. Diamond drilling on the Otisse claims is said to be producing satisfactory results. During the period the Porcupine camp produced 207,721 ounces of gold and Kirkland Lake 17,927. A total of 515,094 tons of ore was milled with a recovery in gold and silver valued at \$4,692,529.

Silver.

Also shipments for the first half of 1918 were lower by 1,677,785 ounces than for the corresponding period of 1917, the value was \$683,155 greater, the average price of silver per ounce for the two periods being 92.8 as against 75.4 cents. Companies shipping over one half ton of silver per month are the Patricia Syndicate, Boston Creek, Shaft sinking is proceeding, and arrangements made to increase the milling capacity at this property. Considerable activity at Boston Creek has resulted from these developments. In the new Matachewan camp, the claims under option to the Nipissing Mining Co. some spectacular samples of gold ore have been secured. Diamond drilling on the Otisse claims is said to be producing satisfactory results. During the period the Porcupine camp produced 207,721 ounces of gold and Kirkland Lake 17,927. A total of 515,094 tons of ore was milled with a recovery in gold and silver valued at \$4,692,529.

HIGHER PRICE FOR GOLD WOULD PENALIZE HUNS

Advantage Which Enemy Might Derive From Depreciated Currency After War Can Be Guarded Against by Measures to Stimulate Output of Precious Metal in Allied Countries.

The Government of the United States has appointed Hennen Jennings to investigate what may be done to the gold situation. Mr. Jennings is consulting engineer of the United States Bureau of Mines, and his appointment is significant as to the favorable attitude of the government towards the industry.

Before his selection Mr. Jennings had publicly expressed his views on the subject. He had said that when prices of labor and commodities are so advanced that it is not profitable to mine, the majority of the gold mines of the world to work at any profit then labor and supply prices must become lower and gold becomes automatically demotivated. He also holds that it is vital for all the allied countries to encourage gold mining as far as possible, and even as a war measure maintain the gold standard, "and the more we get for money on a gold basis at the present time the less will be the burden of debts incurred on future generations."

Mr. Jennings believes that any radical diminution in the production of gold would demotivate the metal, and we know that in default of ameliorative conditions the output will inevitably decline, and a diminishing production must affect the value of all war issues and threaten the very existence of the gold standard. Mr. Jennings is decidedly in favor of preventing such a catastrophe. He is the chosen representative of the United States, and if his conclusions mean anything they mean that the rise in wages and supplies must be neutralized in some way and the industry placed on a pre-war profitable basis.

To Punish Germany.

As the gold of the world and the powers only slightly over one-half of one per cent, a radical rise in the price of gold is now being carefully considered. It would obviate the necessity of any bonus to the mine or any remission of duties or taxes, and it would overcome the advantage which our enemies might otherwise derive from a depreciated currency after the war. It is obvious that if they can pay their workmen in paper, which is worth, say only one-tenth of a dollar, they would be getting labor at a very low rate when compared with that payable in allied countries, and the burdens of the war. With their flat money, negotiable in their own country, they could probably successfully compete with outside nations. They must be made to suffer and to pay, not as competitors, but as protective measures. We must make the utmost use of our super-

position and at the same time prevent the unfair competition of cheap German labor.

An increase in the price of gold would be one of the means for imposing on Germany an obligation to reimburse the allied nations in part, at least, for the costs of the war, and it cannot be doubted that a readjustment of the price of gold is well within the powers of the allies.

Stimulate Production.

The price of the metal was arbitrarily fixed by the Bank of England at \$20.67 per ounce. The conditions are now very different. The price of gold is now high, and the strength of the allied combination is indeed irresistible. The central powers cannot produce gold at a profit, and the large quantities of our raw materials. They would be compelled to submit, and should be made to pay at least 90 per cent of the value of all securities issued by the governments of the allied countries. And besides, this would be a defensive as well as an offensive measure. The best guarantee of peace is a weakened Germany. Without the iron of Lorraine she could not have carried on the war. It would be atrocious folly to allow her the opportunities for trade and development which she enjoyed before the war. We must have Alsace-Lorraine and the free navigation of the Rhine. That would clip the wings of the Prussian eagle, and help to turn that predatory bird into a vulture feeding on the carrion and refuse of the rest of the world.

Relief in Sight.

Substantial relief to the gold mines is now in sight, and it will be a great boon to the industry in northern Ontario. The region has been practically the most promising in the world. It has already the nucleus of an efficient transportation system, and an approximation to pre-war conditions. The far east has by leaps and bounds advanced in both fields, if only to meet the depletion of deposits in other parts of the world.

Contracts subject to liquidation by the transfer of so many ounces of gold are very rare, and even with gold at \$40 per ounce it is not probable that the beneficiary of such a contract could claim more than the actual value of the gold. Certainly the contract was made for a value, giving the benefit of the increased price, but any difficulty which might otherwise arise could easily be guarded against when increasing the value of the metal.

Other forms of relief to the gold mines

LA ROSE SELLS OFF AFTER FRESH RISE

Gifford is Strong and Active—Hattie Makes Bow on Exchange.

Trading on the Standard Exchange yesterday was of considerably greater volume than on Tuesday, transactions approaching 4,000 shares, and, considering the weakness on other markets, the tone was quite satisfactory. Brokers report that quite a number of orders are waiting to be filled on reactions, but it seems probable that, with any improvement on outside exchanges, it will be difficult to pick up mining stocks at the price recessions.

There were several features of interest yesterday. La Rose, as had been expected, made a high point on the movement, closing up to 21 1/2 points above the previous top, but realizing sales caused a 4-point dip to 20, a point below the strong close of Tuesday. La Rose is still in points above the prevailing level, and the confidence that the developments on the company are being given is being given in the market. The price of La Rose is being given in the market. The price of La Rose is being given in the market. The price of La Rose is being given in the market.

Refineries.

There were treated at Deloro, Thorold and Welland 2659 tons of ore and concentrates, and 1116 tons of residues with a recovery of 2,758,701 ounces of silver. In addition, cobalt and nickel were produced in metallic form also as oxides and sulphates. The Deloro Smelting and Refining Company uses a considerable proportion of its output of metallic cobalt in the manufacture of "stellite" which contains about 10 per cent of cobalt.

Copper Mining Unprofitable.

As a result of high mining costs, together with increased freight rates and smelter charges, copper mining has become unprofitable. The only shipper was the Hudson Copper Co. at Havill. Nickel-copper mining and smelting, however, shows an increase in output. During the half year 804,640 tons of ore were raised from the operating nickel-copper mines. Ore smelted was 717,119 tons, producing 40,178 tons of nickel-copper matte.

TIMISKAMING REPORT

The special Timiskaming report, the main features of which were summarized in The World last Saturday, is being sent to shareholders. The statement, which comprises 16 pages, exclusive of comprehensive maps and diagrams, is a most interesting and detailed study by all interested in the possibilities of the veteran mine. The reports of the company's consulting engineers, J. J. Ennis, and Mine Manager L. S. Moseley, are supplemented by a special geological report prepared by A. R. Whitman, the eminent geologist.

As President J. P. Bickell points out, several very promising veins have been found on the Gans lot. The report of Mr. Ennis is stated that the ore is of a high grade, and has been laid out to thoroughly prospect the Gans lot above the diabase sill and the Gans and Timiskaming dikes below the diabase sill on the 1800-foot level. This program will be completed in six months and in the meantime prospecting will be continued in the old vein.

Mr. Whitman says: On the Gans lot, vein No. 506, which was encountered in the east crosscut on the 600-foot level, is as strong as any of the veins as I have seen on the property where silver is not actually visible. The character of the vein is such as to give rise to the possibility of a high-grade ore may be encountered at almost any moment.

TRAIL SMELTER RECEIPTS.

Ore receipts at the Trail smelter for the week ended Aug. 31 were 7,138 tons, as compared with 6,235 tons for the previous week. Besides this total, 147 tons of pyrites were received from the Sullivan mine at Kimberly, and 105 tons of iron ore from the 1400-foot level. The American flag at Republic, Wash., and the Queen, at Salmo, were new shippers reported for the week.

MINES ON CURB.

Closing prices yesterday in the Cobalt and Porcupine stocks on the New York Curb were as follows:

Ashted	10
Buffalo	10
Crown Reserve	10
Down	10
Dome Extension	14
Hollinger	4.87
Kent Lake	10
La Rose	20
McIntyre-Darragh	47
McIntyre	54
Nipissing	8.75
Peterson Lake	9.25
Timiskaming	30
Vipond	13
West Dome	10
Hattie Gold Mines	70

WASAPIKA'S FORMATION IMPRESSES GEOLOGIST

Reginald Hore, a Recognized Authority, Pronounces Ribble Vein on Wasapika One of Most Promising Deposits in West Shining Tree Area—Camp to Strike Lively Gait After War.

Reginald E. Hore, B.A., editor of The Canadian Mining Journal, has lately visited the new district of West Shining Tree. In the issue of the journal on Aug. 13 last there is an article fully dealing with its geology and ore deposits. One of the most promising deposits in the area, to quote the words of Mr. Hore, is the Ribble vein on the property of the Wasapika Gold Mine, Ltd., held under lease from the Province of Ontario. George R. Rogers, president and manager of the Wasapika Company, has carefully stripped and sampled this deposit, and has begun the sinking of a shaft to develop it at depth. Mr. Hore also says that those familiar with the gold deposits in northern Ontario will find the schist wall rock from the shaft at the Wasapika mine to be quite similar to the grey ferrodolomite at the Hollinger mine at Porcupine. He then adds: "We would not like to have our readers infer that the value of the property is necessarily great because of this similarity, but the advantages in finding yourself among old friends. We would consider that, so far as their composition affects the value of the property, the general direction of the vein has been much altered and saturated with carbonates, and then the fissures have been filled with auriferous quartz."

Mr. Hore considers that the information at present available as to the Wasapika is encouraging enough to warrant a considerable expenditure on development work.

A Qualified Observer.

Mr. Hore is a thoroughly qualified observer. He is a lecturer in the Michigan College of Mines, Houghton, Mich., and geologist for the Michigan Geological Survey. He has also been on the staff of the Ontario Bureau of Mines, and on the teaching staffs of the University of Toronto, the University of Michigan, and the school of mining, Queen's University, Kingston.

MATACHEWAN IS RICH IN PROMISING CLAIMS

District Will Have More Than Average Quota of Paying Properties, and All That is Needed to Obtain Splendid Results is Proper Development.

The firm of E. C. Sutherland & Co. own altogether eight claims in one block in the Matachewan gold area. They are less than half a mile from the Otisse, and the strike of the altered rock in the latter would, if prolonged, cut across these claims. The assessment work on this group has been completed by Sutcliffe and Keenan, the contractors, engineers and surveyors, of Halesbury. It has been very successful in itself and highly satisfactory to the owners of the claims.

It is always advisable to employ responsible firms for such work. There are many people in the north country anxious to obtain contracts, men without standing are often on lookout for they can then get in some way, and either have an excellent time or else do some prospecting on their own account. The work is reported but never fully performed. The interest of the owner in the manifest duty of the contractor are entirely disregarded. In fact, the staking of claims and the performance of work is a matter of great importance for the contractor. There are very few real discoveries of minerals or real attempts to make them. The last corner ties an "enap" for dishonest and unprincipled men. The only plan is to employ an honest firm or else superintend the work in person.

Mining Act's Defects.

Whatever its purpose may have been, the mining act of Ontario has seriously miscarried. It is not fully adapted to the conditions of the existing conditions and its continuing existence leads only to trouble and expense. Two thousand claims have been registered since the act was passed, and the number of claims is increasing. The act is a proper inspection as to discoveries and performance of these claims of assessment work would be impossible even if the necessary expenditure were warranted. Conditions in other mining divisions are even worse, and the progress of the mining industry in Ontario imperatively demands the repeal of the act. It is practically impossible for the government to compel the observance of its onerous provisions.

RAILWAY EARNINGS

Both the C.P.R. and Grand Trunk show good increases in earnings for the first week in September. The figures are:

C.P.R., \$3,053,000, increase \$287,000.
G.T.R., \$1,346,536, increase \$253,923.
The C.N.R. report also shows a good increase in earnings for the week, the revenue \$201,000, being \$18,200 larger than for the corresponding period last year.

ANOTHER DIVIDEND PASSED.

New York, Sept. 11.—The Tono Belmont Development Co. today decided not to declare any dividend at 10 per cent, made on July 1.

In view of his wide experience and well-known conservatism, Mr. Hore's opinions carry great weight. It would be difficult to overestimate their importance, and it will be seen from the quotations given above that he considers the Wasapika a valuable property.

The Ribble vein is, in fact, one of the most consistent and persistent in the whole north country. It carries very even values. It is well-developed and can be traced for over two miles, and it attains its greatest development on the Wasapika.

Region of Promise.

West Shining Tree is a very promising gold region. The formations have been fully described by W. H. Collins of the department of mines, Ottawa, and his hand, the gold-bearing veins are found only in the pre-Huronian schist-complex, which consists of an extraordinary variety of igneous, mainly volcanic rocks. The lavas range from basalt to rhyolite, and there are diabases, amphibolites, quartz, porphyry and ellipsoidal andesite.

West Shining Tree, the about 50 miles south of Porcupine, is on the same gold belt as Matachewan and Kirkland Lake. The general direction of this belt is north of east, and throughout there is a great deal of disturbance and mineralization. The conditions are, indeed, very favorable for the deposition of gold.

Results at the Wasapika have been remarkable for the amount of work done. The property is now ready for recovery of the considerable tonnage of ore available, and it is plain that if conditions were normal the mine would now be on a producing basis. The formation of the ore bodies is not readily obtainable, and besides there are difficulties in transportation. But the camp will strike a big vein on the latter side. The Wasapika has an excellent "jumping-off place," and it should soon become the leading mine of the district.

S. R. Clarke.

Many Varieties of Rock.

Matachewan is a region of many varieties of rock and an extraordinary amount of mineralization. Among the numerous accessory minerals we find hematite, barite and fluorite, besides the ordinary iron and copper pyrites. There is also much silicification, but not in the form of distinct veins.

In the large masses of syenite in the area, the syenite of Cairo and the otcheloche porphyry in the vicinity of the Otisse is not important. The former is a more hornblende than the latter, but the question is essentially one of fracture. We would prefer a shattered syenite to a massive porphyry, and it cannot be denied that the porphyry on the Davidson and the porphyry on the Davidson are thoroughly broken up, and that more than their constituent elements seems to determine its relation to the gold deposits.

There are probably more dikes of diabase in Matachewan than in any other gold field of New Ontario. These have had an important effect on the mineralization. They spell physical and chemical change, and the further we go away from the country rock in its original state the more likely is the occurrence of gold in commercial quantities.

There are many claims in Matachewan which can never make good, but at the same time the region will have more than the average quota of highly payable mines. All it wants is proper development of the most promising claims.

S. R. Clarke.

NEW SUGAR PRICE.

New York, Sept. 11.—It is officially announced that the price for the Cuba Cane will be 5.50c, f.o.b. Cuba. The present price is 5.60c, f.o.b.

NEW YORK COTTON.

J. P. Bickell & Co. report New York Cotton Exchange fluctuations as follows:

Open	High	Low	Close
Jan. ...	32.75	32.40	32.75

STEAMSHIPS DIVIDEND.

Canada Steamships Lines have declared a dividend on the preferred stock of 1 1/2 per cent, payable Oct. 1 to shareholders of record Sept. 16.

The "Golds" Coming Back

The advance in the price of the leading gold stocks and the generally broader tone to trading in the gold securities has confirmed our expressed belief in the power of the gold stocks to "come back."

For a long time we have advocated the purchase of the stocks of the "golds" of Northern Ontario, especially the leaders like Dome, Hollinger and McIntyre.

At times it may have looked as if we were allowing ourselves to be carried away by over-enthusiasm and flying in the face of conditions.

It did look that way sometimes.

But we based our predictions on the future. We believed that things would not always be as they were then, so we advised our friends and clients to buy the leading gold shares and make money.

It did not take much foresight to predict higher prices for such stocks as Dome, Hollinger and McIntyre. These issues were literally "trailing along bottom," and with the intrinsic values in most cases higher than the prevailing price per share, it was a "cinch" that the only thing that could happen would be higher prices.

When stocks decline to a fraction of what they were formerly, while at the same time the physical condition of the properties is improving, there is only one conclusion to come to.

That is why months ago, when Hollinger was offered around \$3.50 per share, Dome at \$6.50, and McIntyre at \$1.25, we told our clients to buy them without hesitation.

At that time the war outlook was not so good as it is today, and the labor conditions at the mines was most acute. So that many gloomily shook their heads and opined that "the bottom had dropped out of everything."

Fortunately, the managements of the gold producers were not moved by the same spirit. The Hollinger is today a bigger mine than it was before, so is the McIntyre, and, while the Dome is not producing, its developments underground have been of a sensational kind.

The McIntyre has continued to pay dividends at the rate of 15% annually to shareholders; the Hollinger has paid two dividends since the spring.

The Lake Shore of Kirkland Lake has also gone on a dividend basis.

These are the bright spots in the record of the goldmines during a period of adversity.

The rise in the price of the gold shares which has taken place is, we believe, merely the forerunner of what is to come. It is a warning to those who failed to take our advice months ago.

It is just as we have said before. The future of the gold stocks is based on the outcome of the war. If we have faith in an ultimate victory we should not hesitate to buy the gold securities. We said this when the war news was not so bright as it is now, and recent events have borne out what we said then.

The Allies are now on the Road to Victory.

The spirit of triumph that permeates the Allied armies is transformed into irresistible drives against the enemy.

The weight, not only of numbers and guns, is now on our side, and what is more, the will to win was never so strong.

It is only a question of time now.

As the Hun is driven out of France and the end of the war approaches, the gold stocks will gradually recover the losses suffered by them.

We again go on record as advising the purchase of the gold shares.
