Announcement on School Question at North Bay Meeting, Which Concludes His Trip-Describes Secessionist Talk as Toronto Rumors.

Canadian Press Despatch.

North Bay, Dec. 8 .- In the most lengthy speech he has made in his four-day journey, Premier E. C. Drury concluded his trip thru northern Ontario with a public meeting

here tonight. The premier devoted considerable attention to the school question, which, he said, should be not so much a ladder as a broad flight of stairs, and he said the first concern must be for the 90 per cent, of the children who never get beyond the common schools. A measure of local option in the taxation of unimproved land values was foreshadowed by the premier, who declared he had given he question much thought for some years. Premier Drury said he would give the municipalities the opportunity of taxing the land and exempting the improvements, altho there would Over Seven Hundred Bottles no compulsion in the matter.

Hon. Mr. Drury intimated that a sincere attempt would be made by the government to introduce a system of forestry which would meet the needs of the country. The premier said he better fire protection hoped to have better here protection for the forests, if perhaps they "might have to apply some of the medicine tried upon the inside civil service."

Prohibition was mentioned by the hoped to have

premier for the second time on the tour. He said there was no doubt in his mind regarding the verdict the people gave on this question, no doubt as to the government's duty in enfeccing the law fairly, and no doubt tut that they were going to do it. Canadian Press Despatch. Ottawa, Ont., Dec. 8. — With the statement that, even the the coal strike in the United States should reach an immediate settlement, it will likely be ten days before supplies will be moving normally from the mines, Mr. C. A. Magrath, Dominion fuel controller, contonight Mr. Magrath points out that many Canadian industries have been right up to the danger line in the mat-ter of fuel supplies, while others have crossed that line. He draws attention to the fact that we will, in all probability, shortly enter a period of severe cold weather and that if there should be delay in starting the normal coal movement from the United States to Canada our present supplies may easily

Friend of Jenkins Says He Wanted to Avert International Trouble.

Mexico City, Dec. 8 .- J. Salter Hanwhich W. O. Jenkins, the American consular agent at Puebla, was released last Thursday night, declared, in a statement last night, that he had act-ed on his own initiative. Mr. Hansen

"I wish to say the following: On Tuesday morning last, on account of nertain facts that came to my atten-

certain facts that came to my attention, which I am in no position to disclose, I suddenly realized that war between the United States and Mexico was inevitable unless one of the two governments was ready to sacrifice its honor, prestige and dignity by receding from the dangerous position into which it was forced.

"I therefore took all the steps necessary to effect the immediate release on ball of W. O. Jenkins and relieve the tension. I did so spontaneously, and of my own initiative, and I am ready and willing to take upon myself the full responsibility, or credit, according to the point of view."

IMPERATOR TOOK ON TOO MUCH COAL?

Washington, Dec. 8.—The former German liner Imperator, now under the British flag, will not be permitted to leave New York, officials said today, until the railroad administration has completed its investigation of charges that the vessel had taken on six thousand tons of coal when her fuel permit called for only 2,500 tons. It was intimated that if the facts warranted prosecution would be undertaken for violation of the Lever food and fuel control act.

The Imperator, which recently was turned over to the Ward Line, is due to sail Wednesday, but her departure may be delayed.

Misiano said that on Nov. 25 he went to Berlin, where he had spent ten months in prison for participating in the Spartacan movement, and went to the Italian consulate, where he obtained a passport to Vienna. From this place he had permission to return to Italy, where, he asserted, he arrived in time to be included in the amnesty granted to deserters from the army.

"I went to Rome, presented myself to the chamber, and took the oath of allegiance, at the same time eulogizing a Communist republic." Misiano continued. "My election cannot be annulled, because of the amnesty."

DEMAND TRIAL AS TRAITOR

Milan, Dec. 8.—The Liberal Associa-tion has addressed to the premier, the presidents of the chamber of deputies, and the serate and the ministers of and the serate and the ministers of justice and war, a petition asking that "in the name of the dignity of Italy and in the name of those failen in the war," Deputy Misiano, "already condemned to death by shooting as a deserter," be immediately placed on trial as a traitor to his country. The petition states that this should be done as a sign of the contempt of all Italians.

Chicago, Dec. 8.—(Special.)—The

If the illness is likely to continue until the close of the presiden-tial term The Tribune argues that congress should so declare, and insist upon Vice-President Marshall assuming the duties of president. If the illness is only temporary, however, The Tribune thinks it would be better to have Secretary of State Lansing act as a sort of regent, and carry on the Stratford, Ont.:—"I am very enthusiastic, in praise of Dr. Pierce's Favorite Prescription as a tonic for expectant mothers. The charges made in the editorial as to the present situation are, however, so startling and direct as to challenge public attention. The editorial says in part:

Secretary Lansing told the senate committee on foreign relations that he had not talked to the president in two months. He did not know what the president wanted done with regard to Mexico. On his own initiative he had written notes to Mexico. He could not act.

In efforts to settle the coal strike three different government officials have taken a hand. They have not had ideas in common. They have been in collision. Attorney-General Palmer, Secretary Wilson, and Dr. Garfield have tried it. Palmer's tour de force was an ironic failure. Garfield and Wilson complicated the badly tangled situation.

These men may have done their

best, but with the country needing a resourceful, powerful, and effec-tive government, it has none at all. It is disord, when one man repre-senting the government offers the

miners a 31 per cent. increase and another offers 14 per cent. when the executive message to congress declares the right to strike inviolable, and the federal prosecutors fight a strike by injunctions. The peace treaty with Germany is hanging on a nail in a closet because administration senators have not been able to see Mr. Wilson and are unwilling or unable to reach an agreement because they do not know what the president wants. We are not criticizing government officials and members of congress. They are doing the best they can. They are not the executive government. They have no authority. The head of authority is too fill to advise, consult or act. His physician denies the subordinates of the government access to him.

Bronze Statue of the Late Timothy Eaton Presented to Widow.

Pregnant with memories was the ent yesterday when a great nder of Canada's greatest store was unveiled in the presence of members of his family and firm and some ten thousand employes, who gazed pathetically and cheered enthusially when the veil was removed and the statue presented, as their of-fering to the widow of their aff-c-tionately remembered employer. The occasion was the finishing touch to the many events that have marked the many events that have marked the celebration of the golden jubilee of the firm, and gave grapule empha-sis to the contrast between the open-ing fifty years ago, when four em-ployes were the foundation for the 17,000 of today.

The ceremonies opened with "O Canada" by the orchestra and the Baton Choral Society, which has 180 trained singers, who did excellent work under the baton of their leader, H. M. Fletcher. The oldest employe in point of years, Harry McGee, second vice-president, was then called upon by J. Harper, to make the presentation. Complying, Mr. McGee said: "We celebrate today the fitteth leaded of the store, and a great We celebrate today the firtieth birthday of the store, and a great honor has been conferred upon me by the employes of the company in asking me to do them a service on this

"Fifty years ago today Mr. Eaton ommenced business in Toronto. He commenced business in Toronto. He came with new and great ideas of a better store than had yet existed, ideas of straightforward dealing, df one price, of guaranteeing satisfaction or refunding the purchase money, ideas of shorter hours for the workers and brighter, pleasanter surroundings, ideas that many considered than impractical, but which he persisted in and which revolutionized business methods not alone in his own store, but also thruout Canada. I need not refer to the great growth of the business during these fifty years. This no doubt is apparent to all present and needs no elaboration from me.

Most Fitting Contribution. "The staff, your boys and girls, decided that the most fitting contribution on this occasion was to erect and place in the store a bronze statue of Mr. Eaton, as a memorial and inspiration to all who see it (and particularly those of us who were here in Mr. Eaton's time). They have recognized that the foundation of this business was based on right and just principles and consequently success under his guidance was inevitable, in which you have had no small nor insignificant

So-called stomach troubles, such as in digestion, gas, sourness, stomach-ache and inability to retain food, are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion.

Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid.

To stop or prevent this souring of the food contents of the stomach and to neutralize the acid, and make it biand and harmless, a teaspoonful of bisurated magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating or whenever gas, sourness or acidity is felt. CHARGED WITH MURDER OF THREE-YEAR-OLD BOY

Hammondton, N.J., Dec. 8.-Charles S. White, next door neighbor of the Dansey family, was arrested late to-day, charged with the murder of day, charged with the murder of "Billy" Dansey. Miss Edith Jones, White's housekeepeer, was also arrested, charged with being an accessory after the fact.

The body of three-year-old "Billy"
Dansey was found by a hunter in a swamp near here on November 21.

The little boy had disappeared from his home several weeks previously and a nation-wide search had been conducted for him on the theory that kidnappers were responsible for his vanishing.

When the body was discovered Dr. When the body was discovered Dr. Louis R. Souder, the county physician, who examined it, said that there was no evidence of foul play, but that the vital organs and all parts of the body which would have aided in disclosing how the boy died had disappeared. Edmund C. Gaskill, county prosecutor, declared tonight that he had sufficient evidence to show that the sufficient evidence to show that the boy was murdered and to clear up the mystery surrounding his death.

SIR JOHN JELLICOE **ADVISES WOMEN**

Tells Canadian Club to Educate Their Menfolk on Sea Power.

From floor to ceiling was the beautiful area of Convocation Hall filled yesterday afternoon by members of the Women's Canadian Club, who turned out in their strength to greet the bulwark of the British Navy, Admiral Jellicoe. Mrs. John Garvin, president, received the distinguished guest, while the organ pealed out the stirring strains of "Rule, Britannia" as the admiral with Lady Jellicoe and suite, ascended the platform. In her words of welcome Mrs. Garvin assured the guest of the occasion that during the dark days of the war Canada had found comfort in the knowledge that the empire had such a warden of the seas as he. The president also referred to a magnificent dream entertained by many of Toronto becoming a seaport.

dream entertained by many of To-ronto becoming a seaport.

"You see in front of you an extra-ordinarily frightened individual," were the opening words of the admiral as he gazed out upon the sea of women's faces before him. He had addressed many audiences, but never before one made up altogether of ladies, or one in anywise approaching that in the great hall stated the speaker He supgreat hall, stated the speaker. He sup-posed the objects of the Women's Canadian Club were pretty much the same as that of the men, and he knew that one of their first objects seemed to be to get speakers willing or unwilling. He was one of the unwilling ones. He supposed that many of the women had already heard or would hear some of the things he had would hear some of the things he had said at the lunch, and his head in any case would not carry more than one address at a time, so the admiral expressed himself as in something of a dilemma. The speaker, however, found his theme when he expressed the great appreciation of the women of Great Britain for what Canadian women had

Britain for what Canadian women had done during the war, and the thing that he liked most of all was what they had done to help the sailor.

Should Educate Menfolk.

Something that Admiral Jellicoe gave the women to do was to educate first their menfolk and then the youth of Canada in the potential importance of sea force for the empire. "Bring home to your male kind," said the speaker, "that nothing should ever assail our sea-communication. Sea assail our sea-communication. Sea transportation must be borne in ships, but Great Britain should not bear it all—the ships might belong to Can-ada, New Zealand or other portions of

Quoting fig.res to show conditions, Admiral Jellicoe said that in 1912-the United Kingdom had nine times as much tonnage as the United States; in 1918 the United States launched twice as much as the United Kingdom; in 1912 the United Kingdom had thirty times the tonnage of Japan, in 1918 only three times that of Japan. In 1914 the United Kingdom had 41 per cent. of the world's tonnage and the United States had 4 per cent.; in 1919 the United Kingdom had only 34 per cent and the United States had 20 per cent.

Not Blaming States.

"Don't imagine I am blaming the United States," said the speaker, who then pointed out that the United States realized the need for larger shipping facilities when they found that about sixty per cent. of their troops had to be carried overseas by British ships. A decrease in prosperjity, if not worse, would come to Canada, said the great sea lord, if the empire's sea communications were

ever in danger. To keep men's heads straight during the period of unrest thru which the world is passing was another task set by the speaker, who said that those who, like Russia, think they can mend things all at once, are mistaken. A vote of thanks was moved by Lady Willison, seconded by Mrs. Murray Clark, who said now that women have the vote they should smash any olitician who would seek to weaken he navy. CANADIAN DOLLAR AT SIX PER CENT. DISCOUNT

of nore than 6 per cent, in the Toronto market yesterday for the first time in history, which is another way of saying that the Canadian dollar is now worth 94c or less in U. S. currency. The premium on New York funds at the close yesterday was between 6 and 6 5-64 per cent, as compared with 6 5-64 per cent., as compared with 5 27-32 to 5 57-64 premium on Saturday last, the high record up to that time.

CANADIAN MUNICIPAL STATISTICS.

The 1919-20 edition of Canadian Municipal Stetistics, a unique publication now in its fourth year, is a book of more than 400 pages, which will be welcomed by all who are interested in municipal data. The volume, issued by Wood, Gundy and Co., is an authoritative survey of the whole field of investment in Canadian municipals, and contains mans. Canadian municipals, and contains maps, as well as concise comment on the situation, financial, commercial and in-dustrial of the 500 municipalities dealt with. Special chapters are devoted to 'Trust Investment," "Canada's War Effort" and "Income Tax Requirements," and there is also a valuable "Summary of Municipal Law," contributed by Alexander Bruce, K.C. The book, which is of handy size, is attractively bound in limp leather.

OUTPUT MAKES RECORD

A Cobalt wire to Hamilton B. Wills yesterday said: The discovery on Crown Reserve promises to exceed anything in the history of the Cobalt camp. It is stated on reliable authority that in one blast 100,000 ounces of silver, 85 per cent. pure, were taken from the new vern, which is said to be six inches in width and of unknown length. It is the general of high-grade silver will be taken from this new location. Crown Reserve, on this basis, should sell at many times its present value.

ON PEACE RIVER OIL

"High grade" is the verdict of Cana-

very properly applies to that portion of the Ribble north of the intersecting dike of dlabase. Here great rolls can be seen very plainly along the face of a cliff about 30 feet high. The axes of these rolls or folds are nearly vertical, and the result is that the vein seems to climb up and then down the abrupt face of the cliff. It is a picturesque and unusual sight. South of the diabasic intrusion the axis of the rolls is nearer the horizontal and therefore they are not so conspicuous.

All the experts concede that rolls in a vein signify rich ore. At the Mysore mine in the Kolar field, southern India, there are somewhat similar rolls, and here an ore shoot 800 feet long by 4 feet wide mined to a depth of 4000 feet yielded \$120,000,000, the ore averaging more than \$20 per ton. The "saddle" reefs of Bendigo are not analogous to the Ribble because there the entire country rock has been folded, whereas at the Mysore and Wasapika Consolidated the iolds are largely in the vein itself.

Remarkable Fissure.

SPANISH RIVER AT HIGH-RECORD LEVEL

Brazilian and Steel of Canada Active-Twin City Advances.

Spanish River common which advanced to 75, the bighest point on record locally, to 75, the bighest point on record locally, stood out as the strongest stock on the Toronto Exchange yesterday. The general trend was somewhat irregular, and dealings were well distributed, no fewer than 36 issues contributing to a total of 3,150 shafes, exclusive of mining stocks. The two stocks in which trading was most active, Brazilian and Steel of Canada, swung within a narrow range, and a number of issues which have been prominent in recent weeks, including Dominion fron, Canada Steamships, and Canada Bread, were extremely dull.

The movement in Spanish River followed the upturn in Montreal. The opening here was strong at 43, and an advance to 75 followed, leaving the net gain at practically four points. The stock was however, offered at the close at 74½ with 73½ hid. Steel of Canada, in which the turnover was 515 shares, opened at 82%, a sain of half a point, but this was reduced to one-quarter of a point at the close.

The directors meet tomorrow for dividend action, and if the stock is not put on a seven per cent. basis, shareholders will be disappointed. Dominion from opened ½ up at 73½, but sagged to 73½ again. Dealings totaled only 125 shares. A broken lot of Steamships common sold at 79, unchanged, while the preferred stock was ¼ higher at 87. Atlantic Sugar opened strong at 70, but weakened to 68½, the closing bid being further off at 68. Canada Bread was neglected and a point lower at 31, but the preferred was strong at 86½. Cement was in demand between 71 and 71½, closing without net change.

Brazilian, with a turnover of 700 shares, led in activity, but ranged the entire day between 51½ and 51½, closing with a gain of ½. Twin City which sold last week at 38, opened yesterday at 40 and extended the advance to 42. In Minneapolis a vote will be taken today on a new cost-of-service franchise. A year-end dividend distribution of 2 or 3 per cent, is expected to be declared in a few days irrespective of the result of the franchise vote.

There was a fair demand for the war loans with prices little changed.

The day's transactions: Shares, 5,650, including 2,500 mining; war loans, \$257,550.

The 150-ton mill on this property is now running at capacity, and it is reported that the ore is of a very high grade quality. The deepest workings of this mine are down 700 feet, and the management state that the property was never in better condition nor the outlook brighter. Two years ago these reserves were estimated at half a million. They are now placed at \$3,000,000. This is one of the proven mines of the Kirkland Lake Camp, and we advise its immediate purchase for a substantial advance.
