GOLDSTEIN DEFEATS CALLAHAN.

They Lasted Twenty Rounds, But the Former Had All the Best of It and Got the Decision.

Buffalo, Feb. 1.—The Empire A. C. arena was filled to overflowing to-night, the attraction being a 20-round bout between William Goldstein and Sammy Callahan, local middleweights. The men have long been rivals, and as each man has a numerous following considerable money changing hands on the result. In Callahan's corner were Frank Egan, Patsy Haley, Joe Kerwin, John Herkimer and George Seale; Goldstein's corner consisted of Harry Egan, Ed. Kelly, and Harry Egan. The men evenly matched in weight and height.

The fight was uneventful for 15 rounds, Goldstein doing nearly all the leading, but he could not land a blow on Callahan's forehead. The fighting in the 16th round was forced by Callahan to give up on his own, the bell saving him. The men fought furiously in the final round, Callahan going to the floor twice, and at the close Goldstein was the winner.

In the preliminary Jack Hepler and Jack Gerlach boxed six rounds to a draw. The second event brought out Dick O'Connell and Ed Robertson, who were to fight for 10 rounds. They were to box 8 rounds, O'Connell was given the decision in the first round, and the fight was over.

BETS ON THE FIGHT.

Money Going at Even and 10 to 7 on Corbett, with Plenty of Postponed Money in Sight.

New York, Feb. 1.—During the past few days there have been several bets made on the coming fight between Corbett and Fitzsimmons. Corbett naturally is the favorite of the big bettors, and the odds are being offered in order to get their money down. Some of the instances Fitzsimmons' friends have bet at even. Thus the market fluctuates, and the bets are being made in order to get their money down.

The best wager on the battle recorded to date was made by Joe Muldoon, who bet \$1000 to put up a promissory note for \$1000 to the winner of the fight. Muldoon is a physician at Belmont's on Thursday night.

There is an abundance of Corbett money in sight to this date, with odds as high as 10 to 1 on Callahan, and as low as 10 to 1 on Corbett. The market is very active, and the bets are being made in order to get their money down.

FROM CHICAGO TO THE FIGHT.

Chicago, Feb. 1.—It is estimated that between ten and fifteen thousand sports will go out to see the fight between Corbett and Fitzsimmons. The major portion of the sports will come from California, San Francisco, Sacramento, Los Angeles and the western resorts on the Pacific are all preparing to be deluged with the sports which come to see the fight. The sports will come from that neck of the woods. The East is also preparing to be deluged with the sports, and with conditions at all favorable, a monster exodus of the real article from the East will be seen on Thursday night. Chicago will profit some from the exodus, since the hotels and restaurants will be full to the brim with the sports.

George Siler and Malachi Hogan, who have assumed the task of transporting the fight from Chicago west, are being flooded with applications for tickets and reservations on the train. It is possible that the original plan of running one train out of Chicago to Toronto will be abandoned, and the sports will be made in two, and probably three, detachments of sports. It is certain that a rate will be made for the trip, and the sports will be made in two, and probably three, detachments of sports.

CHICAGO'S SUCCESSFUL SHOW.

Chicago's great cycle show closed after one of the most successful weeks in the history of the exhibition. The show was a success in every respect, and the sports will be made in two, and probably three, detachments of sports.

THE HAROLD A. WILSON CO.

The regular meeting of the Green City Bicycle Club will be held to-night at 8 o'clock at the Academy of Music.

THE "CHRISTY" For Comfort

A new little book that we'll send you free gives you the logic to prove that the Christy Anatomical Bicycle Saddle is the only just saddle. And it tells you just why. And it tells you just why. And it tells you just why.

PRESBYTERIAN DIVINES.

Opening of the Annual Conference of Knox College Yesterday—Papers of General Interest.

The annual conference of the Presbyterian Church opened in Knox College yesterday afternoon. Nearly all the resident ministers and many from surrounding towns were present.

The first paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The second paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The third paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The fourth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The fifth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The sixth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The seventh paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The eighth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The ninth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The tenth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The eleventh paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The twelfth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The thirteenth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The fourteenth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The fifteenth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The sixteenth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The seventeenth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The eighteenth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The nineteenth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The twentieth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The twenty-first paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The twenty-second paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The twenty-third paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The twenty-fourth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The twenty-fifth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The twenty-sixth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The twenty-seventh paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

The twenty-eighth paper was read by Rev. Dr. Green of the History of the Presbyterian Church in Ireland. He said the founder of the Church was St. Patrick.

THE CONSERVATIVE CLUB.

Sixty-Two New Members Were Enrolled Last Night—New Notices of Meetings.

The Conservative Club's meeting last night was well attended, and the list of 62 new members has been added to the club roll in the past few days.

The president, Robinson was in the chair, and the resolution of Mr. E. H. Dumas, advocating a report of the law regarding property qualification, was passed.

After an interesting discussion, during which both sides of the question were ably put, the following motion of Mr. D'Arvy was carried: "That in the opinion of the club the City Council should pass a by-law compelling all contractors laying out a street to be of the width of 40 feet, or in which the width is financially important, to employ the services of a surveyor, and that the surveyor be a member of the club."

Two interesting notices of motion were given. Mr. C. E. Macdonald, on taxation of the system of exempting from taxation the property of religious societies, was ably supported by Mr. H. B. Capwell.

Mr. H. B. Capwell will move that "in view of the recent action of Mr. John Chatham in the United States and this country, this club is of the opinion that the following resolutions be adopted: That the club be notified by any large number of the people of Canada upon the trade question of a large number from Scotland to Ireland."

A card party and smoking concert will be held at the club house on Saturday night.

GOOD-BYE TO OLD THE CHAPEL.

The Last Anniversary Meeting in Tenth-Street Methodist Church.

The members of the Tenth-street Methodist Church held a farewell social gathering last evening in the old building. The present structure of the church is a new edifice when an offer was received from Mr. and Mrs. Davies of Jarvis-street to build a church in memory of their daughter Eleanor.

The offer was thankfully accepted, and a new church will be built at a cost of between \$12,000 and \$15,000.

The Tenth-street Methodist Church started as a mission by the Plymouth Brethren in 1833, and was given over to the Baptist denomination in 1851, when Rev. E. G. Macdonald took charge of it. After them came Rev. A. A. Macdonald, who resigned to go to India as a missionary. Mr. J. W. Miller succeeded him, and he was followed by Rev. George C. Rock.

The present pastor, Rev. J. B. Kennedy, has been in charge for the last three years. The church is in a flourishing condition financially and has a membership of 185, a Sunday school of 200.

Refreshments were served in the lecture hall, which in the church is a good program was given. At the close Mr. W. H. Scott organized a new church, which will be built at a cost of between \$12,000 and \$15,000.

MR. O'DONOGHUE IN THE CHAIR.

Elected to the Position by the Technical School Board Without a Vote Being Taken.

Mr. D. J. O'Donoghue was elected chairman of the Technical School Board at the meeting held at the Municipal building last night.

The meeting was called to order by the secretary, there were present: Mayor James H. Watson, Mr. O'Donoghue, Mr. A. G. Smith, Mr. J. B. Kennedy, Mr. J. W. Miller, Mr. J. B. Kennedy, Mr. J. W. Miller, Mr. J. B. Kennedy, Mr. J. W. Miller.

Mr. O'Donoghue was elected chairman of the Technical School Board at the meeting held at the Municipal building last night.

Furniture Exposition!

Every February for years we've distributed new and reliable Furniture at prices that seemed positively ruinous. Our interest in the business has been to save you all the money we can, and what we're doing now is right in line with that policy. Not only are values decidedly special, but the wide range of styles is very much in the nature of an exposition. Your eyes will tell more at a glance than we can in a column of words. The jargon mystifies! The sight reveals! You ought to see, if only to see!

The fact of doing so well with Furniture last year means that we shall do better this. Can't afford to rest upon past reputation. Our only competition is our own past, and with Furniture, as with everything else, the success of '96 surcharges the energy of '97. Make whatever comparisons you choose, you'll find that these values discount and double discount anything you hear of elsewhere.

Bedroom Suites.

This beautiful Chival Bedroom Suite is made of solid oak, heavily carved and nicely finished. It is very large and extra well made. Bedstead is 6 feet high, 4 feet 4 inches wide. Bureau is very handsome, with 20 x 42 inch top, 18 x 40 inch bevel-plate mirror, large size combination washstand, as usual. Sale price \$19.95.

Rocking Chairs.

250 Rocking Chairs, hard-wood, antique finish, high back, fancy embossed carved, imperious shaped seat, antique cut. On sale Wednesday at \$1.50.

Extension Tables.

Extension Tables, fancy design, legs are very heavy and well braced, the top is 42 inches wide and extends to 8 feet long, made of hardwood, antique finish, regular price \$7.50. February sale price \$5.50.

Sideboards.

Sideboard made of solid oak, hand-carved and nicely finished, with well-shaped top 48 inches wide, has an 18 x 36 inch bevel-plate mirror drawers and doors. All fitted with locks same as cut. This is extra good value at \$10.00. February sale price \$7.25.

Lounges.

Folding Bed Lounges, oak frame, carved and nicely finished, opens out for use as double bed, upholstered in French cretonne or heavy jute covering. Sale price \$5.50.

Sideboards.

Sideboard made of solid oak, hand-carved and nicely finished, with well-shaped top 48 inches wide, has an 18 x 36 inch bevel-plate mirror drawers and doors. All fitted with locks same as cut. This is extra good value at \$10.00. February sale price \$7.25.

Mattresses.

For an extra good mattress at medium price we have a very special make of fibre and hair, well filled and closely tufted, with fancy stripes, heavy cotton ticking, regular price \$8. Sale price \$6.75.

Parlor Suites.

Fancy Parlor Suite, in three pieces, sofa, arm chair and reception chair, frames made of solid oak or walnut, nicely carved and polished, very strong and well braced, spring seats, well upholstered with silk tapestry or brocade covering, assorted colors, regular price \$18.50. February sale price \$12.75.

The strangest thing is that all this talk about Furniture and Furniture prices is truth. You see the advertisement in the papers, and unless you know us you take for granted you'll have to allow some discount for storekeeper's adjectives. But things here are just as they're represented. There isn't a word to change between what you think and what we say. Hardly anybody thinks how rare such agreement is.

CANADA AND THE JUBILEE.

The Queen's Diamond Jubilee ought to be participated in by the people of Canada with as much enthusiasm as by the people of Great Britain. The occasion is one eminently appropriate for our accentuating the fact that Canada is an integral part of the British Empire. There is an impression in the United States that Canada is the "partnering of the world." Mr. Charlton's resolution in Washington had the effect of confirming the McKinley administration labors under the idea that Canada's destiny is yet to be decided, that a slight pull in this way or that way may alter the course of the ship of state. The policy of the United States towards Canada has been shaped for the express purpose of starving us into annexation. We have now an excellent opportunity of proving to the world that Canada is not at the parting of the ways. The proposal of the Queen to invite to the Imperial capital the Premiers of all self-governing colonies and other colonial representatives is one which will have a marked effect in convincing the world of the greatness and homogeneity of the British Empire. But, in addition to this, Canada, on her own part, should originate some method of celebrating the event. The celebration, whatever form it may take, should graphically display our enthusiasm for and our loyalty to the Empire. It should be spontaneous on our part. The celebration should be accompanied by some event that will prove that we are not only an integral part of the Empire at the present time, but that we intend to stick to the Empire for all time. We must get up a great demonstration of some kind. It ought to be framed on a scale big enough to be seen by the people from the Atlantic to the Pacific and from Canada to the Gulf of Mexico. Perhaps some of our readers can suggest the form this demonstration should take.

PRISON LABOR.

The utilization of prison labor for improving the highways is one of the best suggestions that have been made in this country. It is a well-known effort of the Queen and many people think that it must, therefore, be all right. The Straits Settlement is on a silver basis. Their 20-cent piece is worth only 10 cents. The brokers who introduce this currency into the country are not only unscrupulous but are premeditated frauds. The Government should take measures to restrain them. The public should absolutely refuse all this kind of currency.

HOW TO IMPROVE OUR MILK SUPPLY.

According to an evening paper Dr. Sheard is not yet aware of the fact of the dairy farms in this country. It is stated that the Provincial Health Department should originate a scheme with no facts to justify it. The World stated the facts of the case some days ago, and it did not do so without knowing that every word it said was true. The calf in question was killed by a veterinary surgeon, and one of its lungs was found to be a perfect mass of tubercles. The mother of this calf is affected with tuberculosis, and had been for weeks previous to the time it was condemned as being unfit for food.

THE ISLAND RAILWAY.

The most formidable objection that has been urged against the proposed Island railway is that founded on the uncertainty as to the cost of the project. The city in the past has experienced no end of trouble and expense in undertaking works before we had ascertained the exact cost involved in them. The Council and Don Improvement are notable examples of our negligence in this respect. Care must be taken to avoid the same blunder in connection with the Island railway. Before committing the city to the project, the Council should know exactly what the total outlay is to be. This can be ascertained only by getting tenders for the work. Estimates of the cost are too indefinite to act upon. For our own part, we believe the bridge can be erected and the tracks extended as proposed for the sum estimated by the Engineer. The job can be done for less than \$250,000. Mayor Fleming's first duty in regard to the project is to prove this fact by advertising tenders.

OVERCROWDING IN STREET CARS.

There was introduced into the Missouri Legislature two weeks ago a bill whose object is to mitigate the evil of overcrowding in street cars. The bill is a very simple one, and it is to be hoped that the passenger who is crowded out of a seat is entitled to a seat. This is no doubt good law. A passenger riding two miles in a street car is just as much entitled to a seat for that distance as is a transcontinental passenger on a railway. The bill in question proceeds on the principle that the street car company, in not providing a seat for the passenger, does not fulfill its part of the contract with the public. It is therefore proposed that the passenger who has to stand will only pay for such service as is given him. The bill provides that street car companies must furnish their conductors with commutation tickets, and when a person falls to get a seat in a car he or she must be carried for half fare, and the conductor must give him a ticket for the regular fare a ticket good for another ride, provided it is also in a crowded car. These tickets are not to be good for seats, but a passenger can have a seat by giving up two of them. The companies are not to be compelled to furnish these tickets except when their cars are crowded, and if they can provide seats for their passengers there is no rebate. A man who gets up and gives his seat to someone else is not entitled to the half-fare rate, but the person to whom he offers the seat is compelled to take it, or, at least, to lose the rebate if she stands up where there is a vacant seat in the car.

MINOR CURRENCY REFORMS.

There are two or three minor reforms that the Government ought to introduce in our currency system. First of all, the need of paper money to represent a fraction of a dollar is very apparent. Not a little business has to be carried on between people living at a distance by means of postal stamps. There are many business houses that receive so many stamps in the settlement of small accounts that they are obliged to sell them at a discount to get rid of them. Postal stamps were not designed to take the place of currency, and those who have the handling of them as currency know what a nuisance they are. The business done by mail is constantly increasing, and the need of fractional paper money is greater now than it ever was. The revival of the silver-plaster would be a welcome reform. Canada's copper currency ought to be supplemented with a nickel coin.

How to Save Money.

There is no line of business that yields better returns to the patron than that of providing garments dyed or cleaned, that having the work is done at a strictly low price. The best house of the kind is at Stockwell, Henderson, Co. of 105 King-street West, with branches at 259 Talbot, Cochrane & Harvey, and 105 King-street West, which, in the aggregate, would amount to \$216,500 annually.

THE COUNTESS WINS.

The Earl of Cowley's Admissions Give His Wife a Divorce.
London, Feb. 1.—The trial of the action for divorce brought by Countess Cowley against her husband, Earl Cowley, was resumed in the divorce division of the High Court of Justice today. Evidence was given which proved by the admissions of the Earl that he had visited Brighton with a woman who passed as his wife, and the court will pronounce judgment in favor of the Countess to-morrow.

EDUCATIONAL BILL.

Right Hon. Arthur J. Balfour introduced the Educational Bill mentioned in the Queen's speech at the opening of the session as "A measure for the promotion of primary education by securing the maintenance of voluntary schools." The bill, he said, was limited to a simple measure relating to voluntary schools. The scheme formulated in 1896, he said, had collapsed because it was too comprehensive. The bill in education must be dealt with piecemeal, and it was now proposed that the Bill should grant to voluntary schools five shillings per child, which, in the aggregate, would amount to \$216,500 annually.

MR. SENECA BAKER.

Mr. Seneca Baker, councillor for Hartman Division of the County of York, resides at Bloomington, in Whitechurch Township. He was in the County Council from 1887 to 1890. For six years he has first party reeve and in '86 and '87 was returned as reeve. He has filled the positions of Commissioner of the Industrial Home, chairman of the Roads and Bridges Committee and County Commissioner. He is in manner and his choice for the wardenship cannot be long delayed. He is liberal in politics. The Township of Whitechurch, where he resides, has not been represented in the chair for more than 20 years.

CAPTAIN SINCLAIR HAS WON

Lord Aberdeen's Late Secretary is Now M. P.
ELECTED IN FORFARSHIRE
To Succeed Mr. James Martin White, Who Resigned.

MR. WHITE GOT MIXED UP IN A BREACH OF PROMISE CASE WITH A CLERGYMAN'S DAUGHTER WHICH LED HIM TO RESIGN HIS SEAT—COUNTS COWLEY GETS HIS DIVORCE—TALK OF AN IMPERIAL CONFERENCE WHEN THE COLONIAL PREMIERS ARE IN LONDON—GENERAL NEWS BY CABLE.

Dundee, Feb. 1.—The election to fill the seat in the House of Commons, made vacant by the resignation of James Martin White, Liberal member for Forfarshire, was held on Saturday, and resulted in the return of Mr. Sinclair, Liberal, by a vote of 6423 against 4968 for Mr. Ramsey, Conservative. The resignation of Mr. White, who is a member of the firm of J. F. White & Co., of New York, was caused by his being made the defendant in an action for breach of promise brought against him by Miss Eileen Grant, daughter of a Dundee clergyman, immediately after his resignation in November last. Mr. White started for India. At the general election Mr. White was given a majority of 433. He was then opposed by Mr. Ramsey, the present Conservative member for Forfarshire. The Liberal Association, which had been formed in 1885, and was aided by the Earl of Aberdeen, who was then Lord Lieutenant of Ireland. He retired from the army in 1887. He was a member of the Scotch Liberal Club, and was a member of the London County Council. He is a Radical, favoring Home Rule, and is a member of the Scotch Liberal Club. He was a member of the Scotch Liberal Club. He was a member of the Scotch Liberal Club.

Manipulated to Make Votes for the Mayor?

PROPERTY OWNERS GET HOT

An Investigation Into the Engineer's Department Ordered.

An Effort Will be Made to Save Money by Utilizing Ashes as Filling for John-street Bridge—Pavement Recommended on the Initiative of Refused Back-A-Raise of Wages to a Special Official—Was the Alarm of Tuberculosis in Harbour Without Foundation?

There was a lively set-to between the Mayor and Ald. Crane at the meeting of the Board of Works yesterday afternoon.

A letter from Beatty, Blackstock, Nesbitt, Clark & Biddell, on behalf of the ratepayers of Richmond-street, between Bay and York-streets, was read. The letter set forth that, as stated in The World, an agreement with the teamsters employed on the new roadway on that street was made for payment upon the basis of the loads hauled, instead of the hours worked, but when the time was returned by the inspectors that the amount which they were to receive was less than that which they had been promised.

The Mayor was instructed to report upon the cost of conveying ashes, etc., to the various streets of the city, and to report upon the expediency of utilizing such material on the Canadian Pacific tracks, the tracks of the city, and on the point where the filling is required.

The Mayor was instructed to report upon the expediency of utilizing such material on the Canadian Pacific tracks, the tracks of the city, and on the point where the filling is required.

TO ARRANGE THE WORK

A discussion arose upon the proposal by Ald. Leslie to have the work of the Board of Works arranged so that it should be completed in each year what payments should be reconstructed, so that the whole year's work might be laid out, instead of doing it piecemeal.

WILL TRY TO SAVE MONEY

The recommendation of the City Engineer to lay street railway tracks from King-street to the City Hall, via Cherry-street bridge at a cost of \$200,000, to enable the Street Commission to fill up the marsh, and also the proposal of the Engineer to extend the street railway from the City Hall to the south end of the John-street bridge was referred to the Board of Works.

REPORTS NOT UP TO DATE

Mineral Statistics for '95 Just to Hand.

FIND IN THE DON VALLEY

An Australian Miner Does Not Seem to Have Much Faith in It.

A Fine Mining Map of the Lake of the Woods Just Issued - Activity in Algoma - Crack at Buckle Shop

Review - Mr. William Hamilton Merritt, M.P., on the Fuel Deposits of Canada

General Mining News

The annual report on mineral statistics and mines for 1895, issued by the Geological Survey of Canada, is to hand. It shows that in 1895 Canada produced minerals to the value of \$22,000,000; that the exports of minerals and products of the mine manufactured in Canada totaled in value \$7,392,936, and that the imports of minerals and mineral products amounted to \$23,657,706.

ALLEGED DON FLAT GOLD

The Find Compared With Australian Placer Mines.

Editor World: Having spent five years in the placer mines of Victoria, Australia, I would like to give my impression of the find in the Don valley. The diggings at Ballarat have gone over a thousand feet deep and proved to be the most profitable placer mines in the colony, although the cost of the expensive, owing to depth. Soft white slate is said to be bed rock, and the gold is found only in the hills where the suggests and other gold pieces are found attached to quartz, and are called "specimens." I think the granite mentioned was only a boulder. I do not believe there will be any gold in a rock at that depth, as it will be money wasted to bore any deeper in the same place, as it will be only making a hole in the slate. Much time and money is spent in finding a lead, as they call the pay streak in alluvial diggings, and the parties who struck it in boring for gas were in luck if they only knew that quantity. Passing further west we find, in the interior of British Columbia, a valuable placer mine in the same place, as it will be only making a hole in the slate. Much time and money is spent in finding a lead, as they call the pay streak in alluvial diggings, and the parties who struck it in boring for gas were in luck if they only knew that quantity. AT THE MINERS To the Public:

For the purpose of putting in an electrical plant to generate power sufficient to operate a twenty-stamp mill, hoists, electrical drills, and light the mines, THE COLORADO GOLD MINING & DEVELOPMENT COMPANY offer 100,000 shares of treasury stock at \$1.00 per share, on which a dividend at the rate of 1 per cent. a month is guaranteed for five years.

In the Keyes, Keyes Extension and Three Chimneys the Company has three splendid properties from which it is now taking pay ore, and negotiations have just been concluded for the fourth, which gives it four great properties in the Keyesville District, Kern County, California, a county which has produced gold to the value of more than a hundred millions of dollars since its discovery.

This group of mines presents a combination of seven full mining claims, making an aggregate extent of two miles with a full width throughout of 600 feet. The body of ore is enormous in quantity and of high grade. It is free-milling, and more than ninety per cent. can be saved.

The Kern River, the second largest river in the State, is about one mile from the mines, and it is the intention of the Company to introduce a system of undershot wheels in the river, thereby generating sufficient power to operate the dynamo for the electrical plant as above outlined.

When the proposed improvements are completed, the cost of mining and milling will not exceed \$2.50 per ton; and as the average value of the ore is \$40 per ton it is believed our net earnings will average One Thousand Dollars a day, which will insure dividends of at least 3 per cent. a month on the par value of the shares.

So well satisfied is the Managing Director with the feasibility of the proposed plan of operation and of the increased earnings that would accrue from the material reduction in the cost of mining and milling, that I have personally guaranteed dividends at the rate of 12 per cent. per annum until February 15th, 1902, on such an amount of stock as it may be necessary for the Company to sell in order to provide for the machinery necessary to enhance its earning power to what is believed will prove 36 per cent. per annum. I am moved to do this, being confident that the Company's earnings will protect me against personal loss, and enable it to realize a fair amount for its treasury stock, so that it need not dissipate its assets by selling at an unnecessarily low figure in order to provide for the improvements already mentioned.

At the price the shares are now offered, with the present rate of dividend, we are justified in saying they are by far the best investment offered in the Dominion today, combining as they do perfect safety with a high rate of interest.

After the sale of this 100,000 shares no more stock will be offered, and there will remain in the treasury 1,300,000 shares of stock, 1,000,000 of which will be retained in the treasury for future use. The remaining 300,000 shares of stock will be allotted among the shareholders of record, to be disposed of as they see fit.

In order to insure investors of the absolute stability of the investment offered, Messrs. Lownsbrough & Co., Bankers, together with the Managing Director, J. Grant Lyman, personally and jointly guarantee dividends at the rate of one per cent. a month on the par value of the shares for five years.

The same shares offered by the Company carrying the same dividend, but not guaranteed by Messrs. Lownsbrough & Co. or J. Grant Lyman, we are offering for 75 cents.

It goes without saying that the Company, in order to pay dividends on part of its stock, must pay dividends on all, as there is no such thing as "preferred stock"; but in personally and jointly guaranteeing these dividends we make assurance a positive fact, and, of course, such stock is worth more money.

Intending purchasers of mining shares will please note the following features of this enterprise:

FIRST—The Company is not in the experimental stage, but an established enterprise with an assured earning capacity, extending its operations.

SECOND—Our proposition is purely a business one, as we buy only such properties as show a profit over our investment and do not buy "prospects."

THIRD—Every shareholder stands on the same basis, no shares being given away or set aside for an officer or director, except as they are paid for the same as by other shareholders.

FOURTH—The payment of the dividends is assured beyond all question.

Subscription books are now open at the office of LOWNSBROUGH & CO., Bankers and Brokers, 22 King Street East, Toronto, Ont., where J. Grant Lyman, Managing Director, will be pleased to receive your subscription for such number of shares of the above Company as will be agreeable to you. Price \$1.00 per share, par value \$1.00, full paid and non-assessable, being subject to no further call. Correspondence invited.

AT THE MINERS To the Public:

For the purpose of putting in an electrical plant to generate power sufficient to operate a twenty-stamp mill, hoists, electrical drills, and light the mines, THE COLORADO GOLD MINING & DEVELOPMENT COMPANY offer 100,000 shares of treasury stock at \$1.00 per share, on which a dividend at the rate of 1 per cent. a month is guaranteed for five years.

In the Keyes, Keyes Extension and Three Chimneys the Company has three splendid properties from which it is now taking pay ore, and negotiations have just been concluded for the fourth, which gives it four great properties in the Keyesville District, Kern County, California, a county which has produced gold to the value of more than a hundred millions of dollars since its discovery.

This group of mines presents a combination of seven full mining claims, making an aggregate extent of two miles with a full width throughout of 600 feet. The body of ore is enormous in quantity and of high grade. It is free-milling, and more than ninety per cent. can be saved.

The Kern River, the second largest river in the State, is about one mile from the mines, and it is the intention of the Company to introduce a system of undershot wheels in the river, thereby generating sufficient power to operate the dynamo for the electrical plant as above outlined.

When the proposed improvements are completed, the cost of mining and milling will not exceed \$2.50 per ton; and as the average value of the ore is \$40 per ton it is believed our net earnings will average One Thousand Dollars a day, which will insure dividends of at least 3 per cent. a month on the par value of the shares.

So well satisfied is the Managing Director with the feasibility of the proposed plan of operation and of the increased earnings that would accrue from the material reduction in the cost of mining and milling, that I have personally guaranteed dividends at the rate of 12 per cent. per annum until February 15th, 1902, on such an amount of stock as it may be necessary for the Company to sell in order to provide for the machinery necessary to enhance its earning power to what is believed will prove 36 per cent. per annum. I am moved to do this, being confident that the Company's earnings will protect me against personal loss, and enable it to realize a fair amount for its treasury stock, so that it need not dissipate its assets by selling at an unnecessarily low figure in order to provide for the improvements already mentioned.

At the price the shares are now offered, with the present rate of dividend, we are justified in saying they are by far the best investment offered in the Dominion today, combining as they do perfect safety with a high rate of interest.

After the sale of this 100,000 shares no more stock will be offered, and there will remain in the treasury 1,300,000 shares of stock, 1,000,000 of which will be retained in the treasury for future use. The remaining 300,000 shares of stock will be allotted among the shareholders of record, to be disposed of as they see fit.

In order to insure investors of the absolute stability of the investment offered, Messrs. Lownsbrough & Co., Bankers, together with the Managing Director, J. Grant Lyman, personally and jointly guarantee dividends at the rate of one per cent. a month on the par value of the shares for five years.

The same shares offered by the Company carrying the same dividend, but not guaranteed by Messrs. Lownsbrough & Co. or J. Grant Lyman, we are offering for 75 cents.

It goes without saying that the Company, in order to pay dividends on part of its stock, must pay dividends on all, as there is no such thing as "preferred stock"; but in personally and jointly guaranteeing these dividends we make assurance a positive fact, and, of course, such stock is worth more money.

Intending purchasers of mining shares will please note the following features of this enterprise:

FIRST—The Company is not in the experimental stage, but an established enterprise with an assured earning capacity, extending its operations.

SECOND—Our proposition is purely a business one, as we buy only such properties as show a profit over our investment and do not buy "prospects."

THIRD—Every shareholder stands on the same basis, no shares being given away or set aside for an officer or director, except as they are paid for the same as by other shareholders.

FOURTH—The payment of the dividends is assured beyond all question.

Subscription books are now open at the office of LOWNSBROUGH & CO., Bankers and Brokers, 22 King Street East, Toronto, Ont., where J. Grant Lyman, Managing Director, will be pleased to receive your subscription for such number of shares of the above Company as will be agreeable to you. Price \$1.00 per share, par value \$1.00, full paid and non-assessable, being subject to no further call. Correspondence invited.
