STRIKES RETURN TO WORK

Bricklayers Accept Offer of the Bosses and Several Master Carpenters Sign the Scale—Two More Shops of Carriage Works Fall in Line.

The building trade in Toronto was tied up for only one day. This morning will see the bricklayers, and nearly all of the carpenters and joiners, back at work again, and a number of others who went out on strike yesterday morning because their demands were not granted by the employers. Although the bricklayers did not receive all they asked, yet they got a substantial increase, while the other trades are gradually winning their fight.

The bricklayers gathered in St. George's Hall, 341 members answering the roll. Delegate Mott of Utica, N.Y., an executive officer of the international body, had a conference with the bosses at the Builders' Exchange in the afternoon, at which the latter renewed their former offer of 42 cents an hour. This offer was further considered by the men at a meeting held last night, and they finally decided to accept it. The agreement was signed for one year, and the men return to work this morning. They asked for 45 cents an hour. Prior to last night only 37 cents.

The striking carpenters and joiners to the number of 400 gathered at Victoria Hall. Up to 3 o'clock in the afternoon the secretary had received the names of 17 additional firms who were willing to pay the demands, making a total of 54 who have acceded. As the firms yielded the men were allowed to return to work. Up to last night only 40 remained on strike. These, it is expected, will be at work in the course of a few days. Business Agent Smith of the Amalgamated Carpenters and Joiners' Union said yesterday: "We were never in a better position to strike before. Fully 500 carpenters now belong to the union." Only eight firms are now out.

Two more shops, John Burns & Son, and Bunker Bros., signed the agreement yesterday, and the 20 carriage and wagon workers who were out returned to work. At the meeting of the strikers in Pritchard Hall ten members of the trade who were non-union

THE OLD MAN TO MAKE A KICK AT LAST.

OLD MAN ONTARIO (as Mr. Ross, after over twenty years' flirtation with Miss Ontario still continues to call): When a young fellow don't know when he's outlasted his welcome, he'd oughter be reminded.

SUBSIDIZE STEAMERS ON CANADIAN ROUTE AS AN OFFSET TO THE SHIPPING COMBINE

Imperial House Discusses the American Invasion and Sees in It a Menace to Great Britain's Commerce—Lord Bessford Fears a General Disruption of Trade, But Advocates a Colonial Remedy.

London, May 1.—An attempt was made in the House of Commons to-day to get the government to pledge itself to prevent the transfer of a steamship to the committee under the chairmanship of the Earl of Camperdown, recently appointed by the Admiralty to inquire into the subject.

The government would be bound to make such arrangements with regard to the navy as the proposed changes might necessitate, but regarding the marine interests and what should be done to meet it, no announcement of the policy could be made except after prolonged and anxious consideration of the complicated problem. Under the present subsidizing system the British ships remain in the service of the Admiralty for another two years, and the government would be bound to consider if, in the interim, it could not either negotiate a continuance of the existing arrangements or make other arrangements with the Admiralty and the country.

In the House of Commons to-day the House of Commons discussed the matter of subsidizing steamships on the Canadian route. The House of Commons discussed the matter of subsidizing steamships on the Canadian route. The House of Commons discussed the matter of subsidizing steamships on the Canadian route.

AN EXCITING CONVENTION

Ottawa Liberals Select Candidates Under Decidedly Unfavorable Auspices.

LUMSDEN AND SCOTT THE CHOICE

But the Former Wrote Refusing to Allow His Name to Go Before Convention.

Ottawa, May 1.—The Liberal convention held to-night was one of the most exciting ever held here. The visit of Premier Ross a few days ago failed to patch up the differences over the Irish-Liberal nomination and to-night the Liberals of Ottawa enter the provincial fight torn by dissension. The head of Mr. Scott, Secretary of State, and brother of W. L. Scott, local Master in-Chancery, and ex-Mayor Samuel Elmhurst, the Ontario government secretary, Alex. Lumsden, the retiring member, and Mr. Bingham as the candidates, but Mr. Scott stuck to his determination to contest the convention, refusing to withdraw at the request of Premier Ross. At the ward meetings on Wednesday night to select delegates Mr. Scott's friends worked hard, and this morning when names were counted, it was estimated that he would have at least 50 majority in the convention to-night. Party leaders worked hard, however,

HOW TO AVOID THE DUTY COME INTO THIS COUNTRY

Two United States Agricultural Concerns Amalgamate With the John Abell Co., With Control in the Hands of the Americans—Benefit to Toronto.

Battle Creek, Mich., May 1.—The Advance Thresher Works to-day announced that they had bought the plant of the John Abell Threshing Machine and Agricultural Works, Toronto, Ont. This is one of the largest institutions of the kind in the Dominion, and has for years supplied the trade in Manitoba and the great wheat region of the Canadian Northwest. American firms could not send threshers and engines across the border at a profit on account of the duty. The Advance Co. will avoid the duty by making machines in Toronto.

"That report is hardly correct," said Mr. T. A. Iowan, barrister, who is acting for the firm, last night. "The fact is that the Advance Thresher Works, Battle Creek, and the Minneapolis Engine and Threshing Machine Co. of Minneapolis and the John Abell Co. of Toronto are amalgamating, with the control in the hands of the Americans. The amalgamation has been brought about by the purpose of pushing the John Abell Co.'s works to their full capacity and do all the Canadian trade for the three companies and a large part of the foreign trade. This is all I can say at present, although I might add that the amalgamation will mean a big thing for Toronto. I expect several of the Americans interested in the matter to call upon me today."

Mr. John Abell, president and general manager of the Toronto firm, was called up in connection with the matter, but nothing could be learned from him, as he was ill and confined to his bed.

REMOVE THE EMBARGO. House Adopts the Suggestion of Bourassa for Colonial Conference.

Ottawa, May 1.—To-day Henri Bourassa moved his motion in regard to the embargo on Canadian cattle in Britain. It was to the effect that it had been proved that there was no disease among Canadian cattle to justify their exclusion from the Mother Country under the Imperial Contagious Diseases Act, and urged the government to take advantage of the colonial conference to take steps to secure the removal of this restriction. Mr. Bourassa made a long speech in support of his resolution.

NEW COMMON STOCK ISSUED

An Important Meeting of the Shareholders of the Dominion Iron and Steel Company Held.

Steel Will Be Made at a Good Profit Before the End of the Year.

Montreal, May 1.—"Our ore, our coke and our limestone have all proved to be what we expected of them, and we are now able to make a first quality product of Mr. James Ross's statement at the special meeting of the Dominion Iron and Steel Company's shareholders, held here to-day, for the purpose of authorizing the issue of new stock. Hon. Robert Mackay presided.

Mr. James Ross spoke as follows: "With regard to the progress of our plant at Sydney, I should like to say that I had very satisfactory reports from our general manager, Mr. Baker. There are a good many delays which usually arise in connection with the completion of a plant of this magnitude, and these have limited very considerably our output of pig iron and steel. The principal cause of delay has been connected with our washing plant, that is, the plant for washing the coal for use in the blast furnaces. The original intention was that this plant should be capable of washing about one-third of the amount of coal that we are now producing, but it is necessary in order to obtain good results that the whole of the coal should be washed before being sent to the blast furnaces. As matters at present stand, they are now able to wash 1000 tons a day, and we expect to increase this to 1600 and 2000 tons a day. The blooming mill has been working since it was started in July 29. This is a very good result, and these changes will be followed by beneficial results.

WILL CONVENE JULY 29. Provincial Prohibitionists Will Begin Referendum Campaign.

A meeting of the Executive Committee of the Ontario Alliance for the Suppression of the Liquor Traffic was held yesterday afternoon, when reports were presented from the provincial organization. It was decided that there will be a general convention of prohibitionists in Toronto on July 29. This is the beginning of the campaign on behalf of the referendum.

SUDDEN DEATH AT DUNVILLE. Dunville, May 1.—Harry C. Ramsey of the Imperial Bank, Welland, and eldest son of Mr. F. J. Ramsey of this place died very suddenly at his home this evening.

RECALLED TO ROME. Philadelphia, May 1.—Cardinal Martinelli, apostolic delegate to the United States, said to-day that he had been re-called to Rome by Pope Leo XIII.

100 MILES IN 24 HOURS. Grimsby, May 1.—Lieut. Climo of the S.A.C. writes his mother from Klerkadorp, March 29, that a few days before the Klerkadorp flight his troop rode 100 miles in 24 hours.

Spills! Spills! What Spills? Radnor Spills!

CORONATION DAY IN CANADA. Ottawa, May 1.—The official observance of Coronation Day in Canada will take the form of a royal salute by artillery at the leading centres and a parade of the militia.

Patents—Fetherstonhaugh & Co. Kingston West. Toronto, also Montreal, Ottawa and Washington.

The Town Was Busy. A man returned from New York yesterday. He was busy while that man was there—at least the hat end of the town was. He came back with a bushel of shipping bills and a lot of letters to the Co. No, no, but hats. No, hats are good hats, all the hats in the town are now ordered and include the newest Broadway designs in light grey felons and in the brown and dark felt derby. If you want a new hat don't pass this over.

Spills! Spills! What Spills? Radnor Spills!

LOCAL SHOWERS. Meteorological Office, Toronto, May 1.—(8 p.m.)—Rain has fallen heavily to-day over Manitoba and moderately in the Maritime Provinces; elsewhere the weather has been fair. A rather pronounced disturbance covers Dakota, and an easterly gale is blowing over the western portion of Lake Superior.

Minimum and maximum temperatures: Dawson City, 26-32; Victoria, 44-52; Edmonton, 34-32; Winnipeg, 40-48; Port Arthur, 26-32; Toronto, 40-57; Ottawa, 42-58; Montreal, 40-58; Quebec, 42-54; Halifax, 42-44.

Lakes and Georgian Bay—Easterly winds, increasing to fresh or strong breezes; fair to-day; local showers at night.

DEATHS. WOODHOUSE—At Tottenham, April 22nd, John Woodhouse, aged 25 years and 5 months. Hamilton and Kingston papers please copy.

AND FOR CAPTAIN BERNIER

Government Looked to Give \$100,000 to Help Him Find the North Pole.

GENERAL DEBATE IN THE HOUSE

Sir Wilfrid Instimates that the Favorable Expressions Will Result in Spending Money.

Ottawa, May 1.—In the House to-day, on motion to go into supply, Mr. Charlton urged that the government grant an appropriation to Capt. Bernier in aid of his proposed expedition to the North Pole. Mr. Charlton proceeded to recount the record of polar expeditions, concluding with those of Perry and Baldwin, who he feared, might succeed in reaching the Pole before Capt. Bernier got there, if Canada did not hurry up.

Canadian were peculiarly fitted for this task by reason of their experience in exploration and familiarity with and fondness for adventure. Capt. Bernier was admirably fitted for the task of commanding a polar expedition. He was of the race of La Salle, and had the courage and perseverance to get to the North Pole if the government would give him the necessary assistance. (Cheers.) In the course of his reference to Capt. Bernier's qualifications, he mentioned that he was 50 years of age, had commanded a vessel at the age of 17, had been master of 46 ships and never lost but one, and had crossed the Atlantic 174 times.

BEARING PLANT.

His plan was to proceed by way of Behring Strait and sail north till he encountered the ice-pack. He would follow the ice-pack, which he estimated to be 175 degrees west longitude and drift with it to within 100 miles of the pole. During the winter months, intervals send out sled parties for 50 miles on each side of the ship to reconnoitre. Then, when the current would carry the ship, he would make a dash for the goal. It was proposed to use dog sledges and an automobile sledge.

He would also carry Marconi instruments, so that his sled parties would be in convenient communication with the ship and the ship in communication with Dawson City. Besides, he would use a new instrument, contrived to point in the direction of a similar instrument, so that the parties would always know the direction of each other and the bearing of the ship.

As for expense, Capt. Bernier had secured subscriptions of \$20,000, and would require \$100,000. Mr. Charlton concluded at 4 o'clock by Mr. Speaker called it, 6 o'clock.

Favors the Captain.

After recess, E. F. Clarke took up the discussion and strongly supported Capt. Bernier's project, as he had done last year in the House. He paid an appreciative personal tribute to the captain.

Mr. Flint (Lib., Yarmouth) and Mr. W. C. Edwards (Lib., Russell), who presided at one of Capt. Bernier's meetings last session, advocated government assistance to the expedition.

Mr. Robertson (Cons., South Grey) thought there were more practical enterprises deserving of assistance, and as for an adventure to Canada, which our first consideration, Parliament was voting the money of the toiler as well as of the rich, and it would be better spent on practical efforts than on the furtherance of Utopian schemes that in this case would only, in all probability, mark the nation's folly.

Mr. Lumsden as a Canadian heartily approved of Capt. Bernier's project. He said that he had written to the Hon. Mr. Wm. Ross (Lib., Victoria, N.S.), and had received a reply from him.

THE TERRIBLE MORGAN

There is more than a suspicion that the control of the Canadian Pacific has passed into the hands of capitalists of the United States. The Globe tries to be funny at the expense of those who said a year or more ago that any day we might find Morgan & Co. in possession of both our big roads. And it tries to be funny at the expense of those who are saying the same thing now.

But the fun is poorly put on. Right after comes the admission that Canada and the Canadian parliament are supreme, and that the public safety, the national well-being, may require interference with the plans of the railway plutocrats of the United States. We believe these men now control the Canadian Pacific, and before long they will reach out for the Grand Trunk. They have the Canada Atlantic. And if they get our roads even if it be to the national disadvantage of Canada. But they have the horse stolen. The thing was to have been forehad before that happened.

THE CANADIAN WEST

Settling the question of the Great West. The land sales of the Canadian Pacific show an enormous increase. The United States papers, especially those of Minnesota and the States beyond, are wondering where the rush Canada-ward is going to end. American agents are going to the States to buy land and to buy land. They see profit and success in both these things.

The rapid settlement of this great heritage of ours means much more to Ontario in the way of trade. There are only a hundred thousand farmers in all our West now. The number may double in two years. What they will require from the East in the way of goods and manufactures can be illustrated by one example. A hundred thousand settlers will have to spend \$100 each for harness, or ten millions of dollars in all, 90 per cent. of which money will come to the tanners, harness-makers and workmen of the East. And so it will be in many other directions.

A WORD FOR THE PROFESSOR

In March last a meeting was held at Oxford to start a branch of the British Empire League. The Provost of Oriel College presided. In his speech he said:

"I may mention another distinguished writer of the same school of thought, Mr. Goldwin Smith. [Cheers.] I gave in my room a picture he gave me some years ago, a picture of the Rocky Mountains in Canada. It was a picture of a sunset light upon it, and below there is written some Latin verse which I will not quote, but the purport of it is that when the sun is setting behind those Western mountains in the East, the light beginning to light up British settlements in the Far East and in British India. The man who has done this, I think, shows that, although Mr. Goldwin Smith is certainly not an Imperialist in the sense in which I mean that word, yet in his heart of hearts he is not a 'separatist' in sympathy with the greatness and welfare of the Empire."

LETTER FROM DR. ADAMS

Editor World: It was with some surprise that I read in the Globe Mr. Mowat's statement with reference to my candidature in the Liberal interest in North Toronto. I was under the impression that Mr. Mowat had been misquoted, and have waited until now to give him an opportunity to retract his statement. He instructs me that my candidature has been a "joke," and that the names on my requisition have not been "separatist" in design. As a lawyer and a K.C. I do not look well for Mr. Mowat to make any such statement. With regard to the signatures on the requisition presented to me, I can only say that I have no recollection of them. They are perfectly genuine, and as they contain many of the leading business men, wholesale and retail well-known professional men and artisans, whose word is as good as their bond, and whom I have known and honored for years, it seems to me that the I were absolutely undesirous of becoming a candidate. I have no objection to Mr. Mowat's attempt to place me in a ridiculous light before that. In fact, he finds that he has again blundered to the injury of the cause of Liberalism in Toronto. E. Herbert Adams.

Quiet in Rome

Rome, May 1.—The usual May Day demonstrations have thus far been perfectly orderly throughout Italy. About 15,000 workmen participated in a meeting in the morning.

No person should go from home without a bottle of Dr. J. D. Kellogg's Dysentery Cordia. It is a powerful purgative, and is used for cholera, dysentery, cholera, and other ailments. It is a powerful purgative, and is used for cholera, dysentery, cholera, and other ailments.

Libel Suit Settled

London, May 1.—The libel suit brought by Lord Sutherland against Henry Labouchere, was settled this morning. Mr. Labouchere withdrew all the imputations on the honor of Lord Sutherland.

Now is the time to order your coal for next winter's use. P. Burns & Co., 28 East King-street.

SOVEREIGN BANK OPENED

Handsome Headquarters at No. 27 West King-Street—Ready for Business.

A STEADY STREAM OF DEPOSITORS

The recipient of Head Office and Branches at Amherstburg, Perth, St. Catharines and Stouffville.

The Sovereign Bank commenced business yesterday, under most auspicious conditions. From the time of opening the doors of the splendid new establishment at 28 West King-street, in the morning, until 6 o'clock in the evening, there was a steady throng of visitors and depositors passing in and out.

Receiving the customers on the floor of the bank was the general manager, Mr. Stewart, who bustled himself explaining the merits of the new bank bills and imparting information in regard to the magnificent conditions under which the bank was opening its doors to the public. Mr. Stewart was the recipient of many hearty congratulations and of the best wishes of everybody who greeted him for the future success of the bank.

Artistic Bank Bills

In the neighborhood of \$10,000 of the handsome new bills were handed out during the day in cashing cheques and in exchanging the bills for other bank notes, in order to oblige persons desiring them. Only expressions of admiration were heard about the bills, and they were well received for the quality and the artistic effect. The bills are excellent specimens of the highest class of engraving. They were produced by the American Bank Note Company, Ottawa, and are the first bank bills in Canada containing the portrait of a photograph of His Majesty, the King, as nearly as possible at the time of his taking the oath. The multi-coloring on the back of the bills is as nearly perfect as the reproduction of anything known to date. In this regard they are modelled after the notes of the Bank of France.

Mr. Stewart informed The World that, as it was contrary to the rules of the bank to give information respecting the number of parliament, and a large number of the first regular business depositors, but he would say, however, that the gentleman in question was one whose name was known from one end of the Dominion to the other. Mr. Stewart will be junior clerk. A manager has not yet been appointed.

The staff to accompany Mr. Stewart to Montreal on the opening of that branch on June 1, will be: J. A. Ready, Merchants' Bank of Canada, Toronto; R. H. Fulton, manager West-end branch Royal Bank of Canada, Montreal.

The First Lady Depositor

From a reliable source The World

learned that the first lady depositor of the bank was Mrs. J. H. Pettit, 11 Harbord-street, and the occasion was marked by presenting her with a magnificent bouquet of roses. Mrs. Pettit graciously acknowledged the thoughtfulness and kindness of the management.

Magnificent Quarters

Messrs. Sprout & Rolph, the architects, who re-constructed the premises, deserve more than ordinary credit on the splendid result of their work. They adopted a style of architecture suitable to the condition of things, and have produced an excellent effect. The ceiling is elliptical in shape, and on the side are grained bays and mullioned windows, all presenting a neat and substantial appearance.

The accommodation for the officials is installed in Flemish oak and in bar-buff metal grill.

Mr. Stewart will remain in charge of the local branch until June 1, when he will remove to Montreal.

The Staff

The staff of the Toronto branch will be: A. W. Clarke of the Traders' Bank; B. A. Williams, Canadian Bank of Commerce; Bruff Garrett, Bank of British North America; A. C. B. Bourne, Bank of Toronto; and William Chandler, Canadian Bank of Commerce, Messrs. Burton, Warren and Buzotte will be junior clerks. A manager has not yet been appointed.

The Staff to accompany Mr. Stewart

to Montreal on the opening of that branch on June 1, will be: J. A. Ready, Merchants' Bank of Canada, Toronto; R. H. Fulton, manager West-end branch Royal Bank of Canada, Montreal.

CANADA'S GREATEST PIANO & ORGAN HOUSE

GOURLAY, WINTER & LEEMING 168 YONGE ST. TORONTO

PIANOS For Rent At Summer Homes

The summer outing is robbed of half its charm if music is made impossible by want of a piano. Every year we rent more and more pianos for this purpose. We think we have the best rental pianos to be obtained anywhere. Our terms are moderate. It is wise to make an early selection.

GOURLAY, WINTER & LEEMING TORONTO 168 YONGE ST. HAMILTON 66 KING ST. W.

real: W. A. Grasset, G. E. Willis, S. McDougall and F. A. M. Lister.

At Amherstburg M. J. Lane, manager of the Royal Bank of Canada at Sackville, N.B., will act as manager.

At Perth, Colin J. Sewell of the Bank of Montreal, Toronto, will be manager, and G. W. Hyndman of the Bank of Montreal, Toronto, accountant.

L. P. Snyder, manager of the Traders' Bank of North Bay, will manage the branch at St. Catharines, and C. H. Thornton, teller of the Imperial Bank, St. Catharines, will be his accountant.

At Stouffville, W. J. Stark, proprietor of a private bank at Stouffville, will be placed in charge of the branch at Stouffville. A. C. Burkholder of Stark & Barnes' private bank, Stouffville, will be accountant.

VERY FAST TIME

Splendid Run Made By Toronto Baseball Club Special on Grand Trunk Railway System.

The special train carrying the Toronto Baseball Club and 300 enthusiasts, which left the Union Station via Grand Trunk Railway at 8:30 a.m. yesterday morning, covered the distance between this city and Buffalo in the remarkably fast time of two hours and 30 minutes, arriving at Buffalo 11:05 a.m. This is the fastest run ever made between these points, and the baseball club and their friends are loud in the praise of the Grand Trunk Railway system and its service.

Mall Orders for goods or samples are given prompt attention.

BOARD OF CONTROL SECRETS

Once More Deliberated Upon in the Cosy Office of His Worship the Mayor.

ESTIMATES OF SCHOOL BOARD

Cause Considerable Discussion Between the Controllers—Matters at the City Hall.

An air of mystery was the prominent feature in the Board of Control room when Controllers Crane and Graham presented themselves for the meeting which was called for 3 o'clock yesterday afternoon.

On the secretary's table was a foolscap-size envelope, which contained some details from the School Board regarding estimates which had been requested by the Board of Control, and some minor correspondence.

One of Those Quiet Smokes. In the Mayor's office His Worship and Controller McMurich, Graham and Crane were holding one of those "quiet smokes."

Controller McMurich suggested that a letter asking for an explanation be sent to the School Board to be read at their meeting last night.

The Mayor thought most decidedly that the matter should go to the Corporation Counsel before any letters were written.

"Still delaying the estimates," fretfully remarked Aid. McMurich, who suggested that the board have everything ready to start at 11 on Wednesday, with the resolve to go right thru with the estimates.

The City's Position. Aid. McMurich pointed out that unfortunately under the existing law the Board of Control could not touch the School Board's estimates.

"The sooner we send all this matter to the Corporation Counsel the better," insisted the Mayor.

"I think you will have more information when you get the minutes of the meeting of the School Board," remarked Aid. Crane, after the Mayor had expressed the opinion that the School Board seemed to show an inclination to come down a bit.

TEACHERS WANT HIM TO STAY

Present a Large Petition to School Board to Retain James L. Hughes.

SAY HE IS AN "INSPIRATION."

Inspector Given Two Weeks' Leave of Absence—Those Eligible for the Position.

It was just three minutes after eight, before the regular meeting of the Public School Board had been called to order, that Inspector James L. Hughes stepped over to Secretary Wilkinson and dropped into his hands the formal notification to the board of his resignation, as announced in yesterday's World.

Accompanying the communication was a request for absence of leave for two weeks on personal business.

On motion of Justice H. A. B. Kent, seconded by Trustee Hedges, the matter of Mr. Hughes' resignation was referred to the Management Committee.

Mr. Doan said that the petition echoed the sentiments of every teacher in the city. Mr. Hughes was an excellent in this province as an educator and inspirer to teachers, and his retention would be satisfactory to every member of the profession and to every ratepayer in the city.

Chairman S. A. Jones, replying, said he would consider it little less than a public calamity to the city should the services of Mr. Hughes be lost. He thought this was the general opinion of members of the board, and assured the deputations that every effort would be made to comply with their petition.

The routine business did not take up much time. The reports of the Finance and Supply Committees were passed without question.

Portrait of a woman, likely related to the Dr. Campbell's advertisement.

DR. CAMPBELL'S Safe Arsenic Complexion Wafers

The best known and the most effectual remedy in the world as a beautifier of the complexion. Their well known merits in the world of society is worthy of comment, and long ago began to attract favorable comment in Canada.

Dr. Campbell's reputation in New York as a specialist in all diseases of the cuticle has raised many imitators; and in using arsenic as a beautifier the greatest care should be exercised in obtaining the wafers of Dr. Campbell only, as this particular combination has been well tested and is in universal use both by the medical profession and laymen.

A PERFECT COMPLEXION

Purity of Complexion constitutes the highest form of beauty, and the use of these wafers places it within the power of every woman to be beautiful.

The specific action of arsenic in this combination acts directly on the cuticle, giving life and vigor to the system; cleanses the pores of the skin; restores the natural vigor and allows the free egress of all impure matter.

NEVER depend on external remedies, such as Paints, Powders, Face Washes, Face Bleaches, Blooms or Lotions. Thousands of instances have come under our notice where beautiful women have been Paralyzed through the use of these lead preparations absorbed through the pores of the skin.

There is but one true method to obtain a clear, white beautiful complexion, and that is a remedy like Dr. Campbell Wafers, acting directly upon the skin through the stomach, blood and nerves.

The skin is constantly breathing through nine millions of pores, and it is of the utmost importance that these pores be kept free and clear, the skin moist and flexible.

DO NOT whitewash the skin with a cosmetic, that can have but one result—clog the pores and destroy the design of the Creator.

Look to the source of supply for the remedy of any evil; clear the complexion by direct action on the stomach with CAMPBELL'S ARSENIC WAFERS.

The steady demand for these goods has compelled us to stock them in large quantities, and after careful investigation and inquiry as to the merits of the wafers, we have no hesitancy in freely recommending them to our friends, feeling fully confident that they will meet the full approval of all who use them.

Ask your friend, your neighbor, your physician; they have all heard the wondrous praise of CAMPBELL'S WAFERS. Do not confound them with inferior goods, but ask for and see that you get the genuine Dr. Campbell's.

Observe carefully the directions on the box and you will be satisfied with the result.

Very truly yours, THE LYMAN BROS. CO., 71 Front Street East Toronto, Ont.

WAFERS, by mail, 50c and \$1 per box, 6 large boxes \$5. The large box contains three times as many Wafers as the 50 cent boxes. Fould's Arsenic Soap 50c. Address all mail orders to H. B. FOULD, 20 Glen Road, Toronto, Canada. CONSULTATION FREE BY LETTER.

WHILE D. C. FRASER IS AWAY

Made No Provision for the Meeting of the Public Accounts Committee.

MORNING SITTINGS OBJECTED TO

Immigration Bill, Chinese Poll Tax, C.P.R. Bill and Petition of Right Passed.

Ottawa, May 1.—When Sir Wilfrid Laurier moved in the House this afternoon his resolution to have morning sittings of the House next week, he provoked an outburst of protest against the growing disposition to rush business at the end of the session at the expense of private legislation.

Mr. Fraser, by the way, is stamping for the Ross government in Ontario. Mr. Fielding said he understood that Mr. Fraser had arranged before he went away that any members who wanted the committee called could have it done.

Mr. Kemp and other members replied that they had heard of no such arrangement.

Mr. Sifton moved the third reading of his immigration bill. E. P. Clarke, U.S. immigration inspector in Montreal, to the effect that over 100 Greeks, Syrians and others were at his office trying to get leave to cross the border.

All these people had sought passage by the shipping companies knew they would not be allowed to land there, therefore they came to Canada. Mr. Clarke protested against the admission of these diseased immigrants.

THE OWEN SOUND AND GEORGIAN BAY PARK AND SUMMER RESORT CO.

The Owen Sound and Georgian Bay Park and Summer Resort Co. Beautiful New Hotel at Owen Sound.

Situated about 3 1/2 miles from Owen Sound, at a picturesque spot on the shore of Georgian Bay, is what has become familiarly known as McLaughlin Park, a place that within the past few years has been a favorite resort with excursion parties, tourists and others.

This attractive spot has been long looked upon by many experienced parties as a desirable location for a modern summer hotel, and with this end in view, a strong company of investors, at a cost of over \$50,000 an hotel that will be first-class and meet the demands of the greatly increasing tourist travel to North Ontario and Georgian Bay.

The building is of Japanese architecture, three stories high, with a front porch on the bay shore of over three hundred feet, and will accommodate two hundred and fifty guests. It is amply supplied with large and spacious verandas, and commands a beautiful view of the bay and surrounding country.

The company have their own electric lighting plant, and their own water-works. In fact nothing has been overlooked in making this hotel as complete in equipment as can be found in any exclusive city hotel.

The park and grounds surrounding the hotel are the most beautiful to be had in any part of the province, and consist of 100 acres of natural wooded beach and a paradise for children. There are plenty of individual bath houses and bathing accommodation, numerous tennis courts, and small launches can be had if required.

This magnificent resort also numbers amongst its attractions a thoroughly equipped summer theatre, which will be constantly provided with the best and cleanest performances. There will also be provided numerous outside amusements for the children, and band concerts will be held periodically.

WE believe we are better able to sell you a good piano than any other agent in Canada.

Our belief is based on the fact that we sell only the good kind—the kind that has been tried here and everywhere and not found wanting. We can thoroughly recommend

SUPPLY DEPOT OF THE WORLD

Canada Destined to Supply the United States and Europe With Paper.

WATER POWER AND SPRUCE. Prospectus of a New Paper Company Contains Rich Food for Reflection.

The Shareholder, a leading financial paper in Montreal, has a strong article on the pulp and paper industry in Canada, and says:

The exceptional advantages which Canada enjoys in relation to pulp material for the manufacture of paper, the inexhaustible supply of raw material, the excellent and available water supply and its ready applicability for use as a motive power, offer strong inducements to capitalists desirous of seeking investment in profitable undertakings. That Canada can supply all the quarters of the globe with paper on conditions in no way inferior, but in many superior, to competing countries, is a well-established fact, and justifies the expectation that this industry will continue to flourish in a thriving condition, will yet become, and that at no distant day, one of the leading and most profitable industries of the country. As demand regulates supply, and as the demand for the product is being put forth in a virtually unlimited, the future is increasingly promising for this industry. It is highly desirable that the material should be manufactured in this country, and then only, exported in the finished state. If other countries can manufacture our raw material to advantage that is all the more reason why we should see to it that our own supply is derived from sources which we can control. We are gratified, therefore, to know that efforts are being put forth to accomplish this desirable result, and we believe that these efforts will meet with that success which is their right. Among the most recent enterprises in this direction is the Atlantic Pulp and Paper Company (Limited), which has been organized to take advantage of the unrivaled facilities for the manufacture of pulp and paper at New Richmond, on the Bale des Chaleurs, where it is confidently believed that these products can be manufactured as cheaply and economically, if not more so, than in any other place in America. The company's plant is situated on the banks of the St. Lawrence, and the position of its works on the Atlantic seaboard makes it possible to ship to foreign ports by water without transshipment, an advantage the value of which cannot be too highly estimated. In order to enable the company to complete the additional necessary works and secure sufficient capital, it has offered for sale \$250,000 of 7 per cent. cumulative preference stock at par, payable 10 per cent. on application, 20 per cent. on allotment, 20 per cent. two months, 25 per cent. four months and a like sum six months after the date of the prospectus. The objects contemplated, while the composition of the Board of Directors is a strong inducement to the fact that experienced, practical business men have in the success of the undertaking. The investment is seeking remuneration and employment for his idle capital. The statements contained in the prospectus issued by the company.

South African Graves Fund. The honorary treasurer of the South African Graves Fund, Mrs. Albert E. Gooderham, states that the fund now totals \$184,830. Among the goodly list of contributors of this good cause is Master Charles Heather of Mimico, who, after school hours, succeeded in collecting \$20 from his residents of Mimico. The fund is being steadily augmented by individual subscriptions and collections made by the different chapters of the Imperial Order of Daughters of the Empire. The following subscriptions have recently been received: Previously acknowledged, \$215.80; collected by Victoria Chapter, Quebec, \$110; Lieut-Col. Gravesley and Mrs. Stores, Old Fort, \$2.25; collected by Admiral Collingwood Chapter, \$49; collected by Baden-Powell Chapter, \$24; collected by Kitchener Chapter, \$96.50; Friend Friends (Chicago), 25c; collected by Charles Heather (Mimico), \$20; Mrs. Morrow, \$25; Mrs. H. S. Strathairn, \$25; Lieut-Col. Pelletier, \$10; George Gooderham, \$100; E. R. Wood, \$100; R. J. Christie, \$100; Mrs. S. Nordheimer, \$100; Wm. Macdonald, \$100; G. G. Cox, \$100; A. B. Ames, \$100; J. W. Flavell, \$100; E. B. Oiler, \$100; W. D. Matthews, \$100; Fred Nichols, \$100; E. K. Evans, \$20; T. G. Blackstock, \$25; Lieut-Col. Davidson, \$25. Total \$184,830.

Americans Released. Rome, May 1.—The King has pardoned the officers of the United States cruiser Chicago, who have been imprisoned at Venice. They will be immediately handed over to the United States consul, from whom they charge they will be transferred to the Chicago, which is ready to sail.

CITY NEWS.

Aurora Cannot Appeal.

The Court of Appeal yesterday refused to grant an appeal from a decision of the Divisional Court decision quashing a bylaw passed by it granting a bonus to a shoe factory. The factory in question was to move from Markham to Aurora on receipt of a bonus of \$10,000.

New Books at the Library.

Hobbes, Samuel, and Their Wonderful Discoveries; Lawrie, Training of Teachers; Tallack, Book of the Greenhouse; Peet, Wild Sport in the Outer Hebrides; Mayor, Chapters on English Metre; Henson, Cross-bench Views of Current Church Questions; Engle, History of English Literature; Graham, Scottish Men of Letters in Eighteenth Century; Church, Chapters on the West Indies and the Empire; Glover, Life and Letters in the Fourth Century; Fredericksen, Finland, Its Public and Private Economy; Samuel, Liberalism, Its Principles and Proposals; Gerlach, Story of Moscow (Medieval Towns); Escott, British Sovereigns in the Century; Rait, Five Stuart Princesses; Mar, John; Anna, Duchess of Anhalt; Anna, Duchess of Saxe-Weimar-Eisenach; Life, by Francis Gerard; John Strange Winter, A Matter of Sentiment; Walford, Charlotte; Kingsley, Mademoiselle Mathilde Clark; An Antarctic Queen; Hope, Ready-Made Romance.

Mrs. Fannie Goldman's Estate.

Mrs. Fannie Goldman, who committed suicide in Chicago on April 13 last, had an interest in property at Elizabeth and Louis-streets. The property is worth \$20,000, is mortgaged for \$10,000, and is being sold for \$9,000, one-half of which is Mrs. Goldman's and the other half being her husband's, General Goldman. Yesterday the court made application for administration of his wife's personal estate, making no application as to the realty. The personal is \$10,483 in cash and \$30 in unspecified property. With this application a caveat has been filed by Jacob Goldman, executor on remand, charged with theft from his father.

In the Police Court.

For stealing \$15.45 from C.A. Wilson, John McLaren was yesterday sent to jail for 60 days. William Perry, an alleged vagrant, was fined \$5 and costs or 30 days. Minnie Hoskin was discharged. She was charged with selling liquor without license. E. J. Clark, for keeping an improper house, was fined \$40 and costs. Two frequenters, Mand Matthews and Albert Peterson, were fined \$20 and costs or 30 days, and George Nooks was fined \$15 and costs or 15 days. Magistrate Kingsley advised a statement of the case in which James Ford is charged with stealing a horse from Frank Murphy. Mrs. Lucy Allen is still to ill to appear in court, and the theft case stands till Monday.

Building Permits.

Permits to the amount of \$575,024 were issued for April, an increase of \$23,312 over the same month of last year. For the first four months of 1902 permits to the extent of \$1,667,114 were issued, being \$108,447 in excess of the amount for the same period in 1901. There were no permits taken out yesterday. Threshing machines, plows, and other implements for the season have been having a disastrous effect on building operations. If no labor troubles had been impending there would in all probability have been at least a million dollars in permits taken out for April.

Want the Boy Released.

Friends of Wentworth Revel are seeking to have him released from the jail, where he is serving a term of 60 days for theft. The youth worked one day at the Backrach store and stole a number of silk handkerchiefs. He was convicted on April 9.

The Canadian Club.

Dr. George R. Parkin of Upper Canada College will be the guest of the Canadian Club to-day at the regular weekly luncheon at Webb's. Dr. Parkin will deliver an address on the coming "Colonial Conference," in London.

CARNEGIE TO THOROLD.

Thorold, May 1.—Andrew Carnegie has offered the town of Thorold ten thousand dollars for the erection of a free library building, and W. J. MacIntyre has offered to donate a site on the corner of Front and Clairmont streets.

J. F. Thomson to Sing Here.

James Fitch Thomson, an old Toronto favorite, and who in his day did a lot to make Toronto a city talked about, is staying here for a few days prior to the concert tour which he is to make in eastern cities with the great child violinist, Florio. He joins the company on the 8th and appears here in Massey Hall on the 15th. Since leaving the city Mr. Thomson has been appearing with a majority of the great continental musical societies, including Handel & Haydn, Boston, the New York oratorio, and the New York Symphony, and has participated in many oratorio festivals.

A Prompt Settlement.

On Monday, April 28, the boiler of the Hodd & Cullen Milling Co., Limited, at Stratford, exploded. The loss was covered by policy No. 8021, in the Boiler Inspection and Insurance Co. of Toronto, and within thirty hours afterwards the insurance company handed a cheque for \$2000 to the Hodd & Cullen Milling Co., Limited, in full payment of their loss. This fact speaks volumes for the promptitude with which the Boiler Inspection Co. settles their claims and is highly commended.

The Coronation Ceremonies.

As the coronation ceremonies approach there is an additional interest in the picture of King Edward and Queen Alexandra in their correct coronation robes, as shown in the window of G. W. Nixon, gent's furnisher, 157 1-2 Yonge-street, and C. Taylor, liquor merchant, 205 Parliament-street, creates more attention every day. Mr. Taylor is giving away this picture as a premium with his goods. Write, phone or call upon him for details.

Saturday, May 10.

Miss Ellen M. Stone, the ransomed missionary, will be heard in Massey Music Hall in a lecture on Saturday evening, May 10. She has created quite a furore by her lectures in Boston and New York, and she is spoken of as the most eloquent woman lecturer of the day. The sale of reserved seats will begin at Massey Hall on Wednesday morning next.

"THERE'S ALWAYS SOMETHING DOING AT JAMIESON'S"

A SPRING SUIT TO YOUR ORDER FOR \$16

Don't be afraid of the small price—it's in reality a \$22 Suit.

Ask any tailor the price of a Suit from the highest grade imported West of England woollens. Ask him if he has twenty-five patterns. We have.

A Suit in any style you fancy, tailored with the keenest attention to your every fad, correct in style, elegant in looks, as lasting as a Suit can be, and the price only \$16

FOUR DOLLAR TROUSERS FOR \$2.75

Tailored to your order from pure West of England worsteds. You cannot find better panting—no one has more patterns. Why not order to-day?

PHILIP JAMIESON,

At the Rounded Corner.

CANADIAN INVENTOR HITS IT.

Has New Scheme to Propel Vessels on the High Seas.

John Forrester of Prince Albert, Ont., who is a gentleman of some leisure and means, with the practical common sense of a Scotchman, has been interesting himself in an invention for the propelling of vessels on the high seas. Mr. Forrester claims that he has the weightiest craft that has ever been built, and that it is so simple and so rapid that it will be a great boon to the shipping industry. The scheme is ingenious yet simple enough. A system of funnels is to be so regulated as to permit of access with the sea. These are so adjusted that the undulating momentum of the surrounding waters, producing great force as it does, can be utilized for propelling power for the vessel. In fact, the more tempestuous the sea, the more rapid the vessels progress. The scheme is ingenious yet simple enough. A system of funnels is to be so regulated as to permit of access with the sea. These are so adjusted that the undulating momentum of the surrounding waters, producing great force as it does, can be utilized for propelling power for the vessel. In fact, the more tempestuous the sea, the more rapid the vessels progress. The scheme is ingenious yet simple enough. A system of funnels is to be so regulated as to permit of access with the sea. To the Trade

The Superiority of our stock in Shirt Waist and Light Texture Dress Material for summer wear is recognized at once by customers visiting our Warehouses.

John Macdonald & Co. Wellington and Front Streets East, TORONTO.

CHARITY EUCHRE PARTY.

There was a large and fashionable gathering at McConkey's last night on the occasion of the charity progressive euchre party, given in aid of the Western Hospital.

The committee of ladies in charge of the arrangements for the delightful affair was composed of Mrs. Percival Leadley, Mrs. R. J. Kearns, Mrs. George Campbell, Mrs. W. H. Lawrence, Dr. Stowe, Mrs. Frank Stowe, Mrs. Ghent, Mrs. Clemens, Mrs. Wilson, Mrs. Webster, Mrs. Jennings and Mr. L. K. Cameron.

The funds of the Toronto Western Hospital will be greatly augmented by the charity euchre party. The hospital, which is a comparatively new institution, accommodates almost 80 patients, nearly half of whom are in tents awaiting the erection of a suitable building.

The managers contemplate erecting suitable pavilions on modern plans, and some wealthy citizens have promised substantial aid.

Good Roads in Renfrew. Good Roads Commissioner Campbell returned yesterday from Renfrew. About \$10,000 will be spent there for a bridge and for the macadamizing of several streets.

Matchless Values in Single and Double-breasted Sacs Suits at Our Special Prices—\$25 and \$22.50.

For a Rainy Day, a Chilly Evening, or a Trip by Water, there's no overcoat so comfortable, serviceable or smart as one of our new English Raincoats.

GENTLEMEN'S SMART FIXINGS. We give the very closest attention to the little kinks of fashion in furnishings—smarter effects from smartest goods.

YORK COUNTY AND SUBURBS

New Stock Yards at the Junction Damaged Yesterday to Extent of \$10,000.

WILL OPEN ON THURSDAY NEXT

Fire, Which Was Probably of Incendiary Origin, Started in Hay Sheds.

Toronto Junction, May 1.—The sound of the workman's hammer on the new sheds at the Union Stock Yards ceased about 4 o'clock this afternoon and gave place to the ringing of fire bells, the galloping of horses and the pitter patter of children's feet.

It was a hot and rapid fire. A gang of men were on the roof of the pens putting on felt paper and boiling tar, preparatory to putting on gravel.

The fire broke out in a hay shed, which is supposed that some of the burning tar dropped into the shed in which 230 bales of hay were stored.

The fire brigade arrived at the scene at 8 o'clock, and the flames had made great headway.

The alleys between the long rows of pens are dug up. Watermains are being laid down. Piles of lumber are stored up. Lumber is everywhere.

The removal of the York Township Council to their new quarters in Richmond-street, Toronto, was in part effected yesterday when the treasurer, Mr. Armstrong, was snugly inducted into his new home.

Unionville Liberals will organize on Tuesday evening next.

The funeral of the late Benjamin Morison, which took place yesterday afternoon at 2 o'clock, was held in the Hagerman Methodist Church on Sunday morning.

Large number of people are already down at the beaches, and most of the summer residents will be there within two weeks.

INCREASE JUDGES' SALARIES. Minister of Justice in Favor of This Needed Reform.

Ottawa, May 1.—In the House today, in the course of the discussion on the bill respecting judges of provincial courts, the Minister of Justice said he was personally in favor of increasing judges' salaries, and after a certain number of years retiring them on full pay.

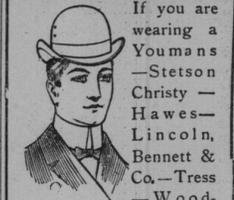

Replying to Mr. Cochrane, who wanted to know why he was any difficulty in finding gentlemen to fill judgeships, Mr. Fitzpatrick said that at the present time he could not get a judge at our price.

McLaughlin, Chemist, 151 Sherbourne St., puts up pure, unfermented grape juice in quart bottles, 15c each.
