PROGRESS OF HUMANITY IS UNIQUE FACT OF CREATION CHRISTIAN IDEAL ENDURES

Dr. Goldwin Smith, in Notable Letter on "Man and His Destiny," Reviews the Religious Thought of His Generation.

"The churches seem to be trying to restate religion by imposing demonstrations. The attempt is hopeless. Nothing will revive religion but the reassurance of its truth."

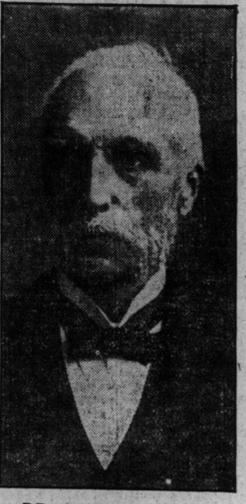

"This is the postscript to Goldwin Smith's letter in yesterday's New York Sun on 'Man and His Destiny.' The letter professes to be the conclusions of the writer on matters usually regarded as religious, and sums up the views expounded in many previous letters. 'Time has passed since I first sought access to your columns, ranging myself, as I still do, with the 9000 who in an English journal had craved for religious light,' the letter begins. 'The movement which caused that craving has gone on. The churches show their sense of it. Even in that of Rome there is a growth of 'Modernism,' as it is called by the pope, who, having lost his medieval preservatives of unity, strives to quell it by denunciation. Anglicanism resorts to a grand pageant of uniformity, beneath which, however, lurk Anglo-Catholicism, Evangelicalism and Liberalism, no means uniform in faith. The Protestant churches proper, their spirit being more emotional, feel the doctrinal movement less. But they are not untroubled, as they show by relaxation of tests and inclination to informal if not formal union, as well as by increasing the aesthetic and social attractions of their cult. While the sects are born and die. But marked is the increase of scepticism, avowed or unavowed. It advances probably everywhere in the track of physical science. We are confronted with the great question what the world would be without religion, without trust in Providence, without hope or fear of a hereafter. Social order in the modern world has hitherto acquired in their lot, believing that it was a divine ordinance and that there would be no other world. In the future, as conditions shall be leveled here, and nations quake with fear of change, the leaders of humanity in the future, as even find it necessary to make up by an increase of the powers of government for the loss of influence of religion.

"Belief in the Bible as inspired, and God's revelation of himself to man, can hardly now find any way to reform and open mind. Criticism, history and science have conspired to put an end to it. The authority of the greater part of the Bible, including the most important books, is unknown. The morality of the Old Testament differs from that of the New, and the latter is in more places than one, as in the case of the slaughter of the Canaanites, shocks us now. There are errors, too, in the Old Testament of a physical kind, such as those in the account of creation and the belief in the revolution of the sun. Of the New Testament, the most important books, the first three Gospels, our main authorities for the life of Christ, are manifestly grafted upon a stock of unknown origin. They betray a belief in diabolical possession, a local superstition from which the author of the Fourth Gospel, no doubt, was not free. In the Old Testament, the Passover. It is incredible that God in revealing Himself to man should have allowed any form of domestic deity to appear in the revelation. We have, moreover, to ask why that on which the world's salvation depended should have been written so long and communicated so few.

"There remains of the Old Testament, besides its vast historical interest, that which morally still impresses and excites us. Of the New Testament there remains the moral teaching, the most important, the faith in which no uncertainty as to the authors of the narratives or mistrust of them on account of the miraculous embellishments, the most important, the character as well as in arms, was its master. It has lived through all these centuries, all their revolutions and convulsions, the usurpation, tyranny, and scandals of the papacy. The most doubtful point of it, considered as a permanent exemplar, is its tendency, not to socialism, for Christ came 'eating and drinking,' but to an excessive preference for poverty and antipathy to wealth which would arrest human progress and kill the creative power. We have, however, a Nicodemus and a Joseph of Arimathea, as well as a Dives and a Lazarus. Nothing points to a Simon Stylites. Self-denial, the non-asceticism proper, is a necessary part of the life of a wandering preacher, which also excluded the exhibition of domestic virtues. The veneration of Jesus with His family appears to have been somewhat distant; we have no record of any communication between Him and His family; yet in His last hour He provides a retreat for His mother.

"We cannot appeal from reason to faith. Faith is confidence, and for confidence there must be reason. The faith to which appeal is made is in itself an assurance rather than an intellectual conviction.

DR. GOLDWIN SMITH.

Mauretania Helpless in Great Storm Breaking of Propeller Blade Alarms All on Board and Ship Wallows in Waves Half an Hour.

NEW YORK, Sept. 20.—For more than half an hour last Wednesday, the great turbine steamship Mauretania, with all her cabins filled with frightened passengers, rolled and pitched helplessly in the trough of the storm-tossed seas in mid-ocean, with waves constantly breaking over her decks. She had run into the storm hours before, but had been kept under headway until one of her propeller blades flew off with a crash that alarmed everyone on board.

CHOLERA SPREADS.

All kinds of dread disease have now been developed. ST. PETERSBURG, Sept. 20.—St. Petersburg is in the grasp of the Asiatic cholera, which already has exceeded in severity the visitation of 1893. The disease is increasing daily at an alarming rate. From Saturday noon until Sunday noon there were 298 cases and 141 deaths, this being the largest number so far announced. All varieties of Asiatic cholera have now developed here, there being numerous cases of the Aikid type, which is accompanied by the greatest suffering. Premier Stolypin has sharply reprimanded the municipal officials for the appalling conditions. At Obuchoff Hospital, which he visited on Saturday, he found that three bathrooms were doing service for 300 patients. The mortality at this hospital has been three times that at other hospitals. As a city St. Petersburg is woefully un sanitary, and the dread disease finds here the conditions most suitable for its propagation. Many cholera cases have been conveyed to hospitals in cabs, after which these same cabs were permitted, without disinfection, to return to their work on the streets. Germany and Austria have taken precautions to prevent the plague crossing the frontiers and other nearby countries have declared a quarantine against Russia.

BISHOP CARMICHAEL ILL. Stricken With Heart Trouble and is in Serious Condition.

A GOOD RECEIPT ON TAXATION FOR LONDON?

Many Important Papers to be Read at International Gathering Here Next Month.

COLUMBUS, O., Sept. 20.—(Special.)—The preliminary program for the second international conference on state and local taxation, which will be held at Toronto, Oct. 6 to 9, under the auspices of the National Tax Association, has been completed. Outline of Proceedings. President Piore will call the international conference to order Tuesday afternoon, Oct. 6, in the lecture room of the College of Physics building at the University of Toronto, and Joseph Olver, mayor of the City of Toronto, will be temporary chairman. The address of welcome on behalf of the Province of Ontario will be delivered by the prime minister, and the president of the council, and on behalf of the universities of the Dominion by Dr. R. A. Falconer, president of the University of Toronto. The responses will be delivered by members of the several delegations from the state and universities. An address by Dr. James H. Dillard, president of the Jeanes Foundation of New Orleans, La., will be delivered after the permanent organization of the conference has been made. At other sessions of the conference, of which there will be three daily, a regular program will be followed. Thursday evening the committee on resolutions will report the conclusions of the conference. The business meeting of the association will be held Friday morning, Oct. 9. There will be reports from the several committees, the election of officers and a permanent constitution will be adopted.

TOPICS TO BE DISCUSSED.

The speakers who have accepted invitations to the conference are as follows: Taxation of Mineral Resources in Canada.—Prof. Oscar D. Skelton, Queen's University, Kingston, Ont. Assessment of Oil, Gas and Coal Land.—T. C. Townsend, expert, West Virginia Tax Commission, Charleston, W. Va. Taxation of Minerals.—Hon. Frank L. McVey, chairman, State Tax Commission, Canada. Discussion.—J. J. Thomas, secretary, State Board of Equalization, Salt Lake City, Utah. Forest Taxation.—Fred R. Fairchild, professor of economics, Yale University, New Haven, Conn. Taxation of Conservation.—As Practised in Canada.—E. P. New, School of Forestry, University of Toronto. Discussion.—A. C. Shaw, law department, U. S. Forest Service, Washington, D. C. Taxation of Intangibles.—Professor Charles F. Rock, department of economics, Harvard University, Cambridge, Mass. Inheritance Tax Law.—Hon. William H. Woodruff, state tax commissioner, Hartford, Conn. Taxation of Inheritances.—Professor Solomon S. Huebner, University of Pennsylvania, Philadelphia, Pa. Discussion.—Joseph H. Woodward, professor of economics, University of Montana, Missoula, Montana. The Visitation of Life Insurance Companies in Canada.—T. Bradshaw, general manager, Imperial Life Association, Toronto. Business Assessments as a Substitute for Personal Property Tax.—Canadian Experience.—James C. Porman, assessment commissioner, Toronto. Organization and Work of State Tax Commissions.—Judge Ebert E. Woodruff, chairman, New York State Tax Commission, Albany, N. Y. Problems of Local Administration.—Judge Oscar Leser, Appeal Tax Court, Baltimore, Md. Taxation of Farm Land.—Matthew B. Hammond, professor of economics, Ohio State University, Columbus, Ohio. The Assessment of Farm Property for Taxation.—John E. Commons, professor of economics, University of Wisconsin, Madison, Wis. Farmers and Real Property Tax.—Hon. F. A. Dethlefs, Master State of Georgia, Mentua, Ohio. City Real Estate Assessment.—Hon. Lawson Purdy, present, Department of taxes and assessment, Hall of Records, New York City. Tax Systems of Northwest Canada.—The Hon. J. H. Hunt, solicitor of Winnipeg, Manitoba. The Adoption of Mathematical Rules for Assessment.—Professor E. R. A. Seligman, Columbia University, New York City. Growth of State and Local Expenditures.—Professor W. F. Gephart, Ohio State University, Columbus, Ohio. Canadian Methods of Taxing Manufacturing and Mercantile Corporations.—Professor James Mavor, University of Toronto. New Commissioner to Speak. Railroad Taxation.—Professor S. J. McLean, University of Toronto. Taxation of Public Service Corporations.—Dr. Milo R. Maltbie, member public service commission, City of New York. Discussion.—Harrison Williams, general land and tax agent, Erie-Railroad Company, New York City; Frank P. Crandon, tax commissioner, Chicago; and Northwestern Railroad Co., Chicago. Scientific Division between State and Local Taxation.—Professor George L. Loos, School of Political Science, University of Iowa, Iowa City, Ia. Theories of Multiple Taxation.—Hon. Theodore Sutor, chairman, committee on taxation, American Bar Association, New York. Historical Constitutional Limitations.—Robert A. Cambell, University of Wisconsin, Madison, Wis. Discussion.—Professor Isidor Loeb, University of Missouri, Columbia, Ohio. There will be other addresses. The speakers and the subjects will be announced at a later date. Already more than 35 states and all the provinces of Canada have appointed delegates to attend the conference. It is probable that the attendance will be even greater than that at the Columbus conference of last year.

LIBERALS RECEIVE SUGGESTION KINDLY—PREMIER LAURIER DECLINES TO CONTEST CITY.

LONDON, Sept. 20.—(Special.)—The Liberals of Ontario will nominate D. C. Hossack if the former pastor of Deer Park Presbyterian Church will intimate that he is willing to make the fight. While busy London lived out its day of Sunday silence, political history was being made in the Forest City. Sir Wilfrid Laurier, ignoring the details of party organization, went to the Catholic Cathedral with Senator Coffey in the morning and spent the rest of the day undisturbed. A leading London Liberal suggested that Sir Wilfrid be tendered nomination, and the suggestion was received with enthusiasm. The prime minister nipped this bright idea in the bud. Firmly and positively he intimated that honor could not be entertained. The Catholics of London have remembered Hossack kindly, and this was so important that the former pastor's name is acceptable to the Liberal organization of the city. Someone remembered that back in 1894, in the days of the P.P.A. the Catholics of Ontario had a strong feeling for Hossack, who said that organization did not represent the attitude of the Protestants at large towards their Roman Catholic brethren. The Catholics of London have remembered Hossack kindly, and this was so important that the former pastor's name is acceptable to the Liberal organization of the city. Major Beattie will again be tendered the Conservative nomination to-morrow night.

McFARLAND SURRENDERS AND IS OFF TO CHICAGO.

Man Arrested on Swindling Charge Surrendered to Police Last Night and Waived Extradition.

James McFarland, the man who is wanted in Chicago in connection with a swindle of \$34,950 from Mrs. James A. Fatten, wife of a millionaire of Evanston, Ill., a suburb of Chicago, and who was released Thursday night on bail on a vagrancy charge just before the police got word to hold him for Charles F. Rock, department of economics, Harvard University, Cambridge, Mass. He acted on the advice of his counsel, Eric Armour, K.C., and last night sped rapidly Chicagoward in charge of Sergeant of Detectives Bell of the Chicago Police Force, he having waived extradition proceedings. At noon yesterday Inspector of Detectives Duncan had a conference in his office with Mr. Armour, who had just returned from Chicago, and Frank Baillie, who had gone McFarland's bail, and kept in touch with them all the afternoon, so that at that time the prisoner's whereabouts were not known. About 10 o'clock last night word was received that McFarland was willing to surrender, so W. H. Welsh, general superintendent of the Canadian Detective Bureau, whose information had first led to McFarland's arrest, accompanied the Chicago sleuth to the corner of Queen and York-streets in an automobile, and the much-wanted man was taken in charge. From there the trio went at once to the Victoria Hotel, where McFarland's auto in waiting. Crown Attorney Corley was quickly located and all went over to Judge Winchester's home. There McFarland formally signed the papers waiving his rights to fight extradition and was taken at once to the train.

QUEEN AMELIE'S VISIT.

Bereaved Spouse of King Carlos, Fifty in England.

LONDON, Sept. 20.—Queen Amelie of Portugal will be England's next royal guest—but, of course, on a strictly private visit. The bereaved queen, whose health has been shattered by the tragedy of February last and her subsequent worries, is coming for a short rest and change in rural England. She is said to be only a shadow of her former self. King Edward has offered her the use of either Barton Hall in the Isle of Wight, or Birkhall House, near Balmoral.

ONE IN EVERY 25 OF GREAT BRITAIN PAUPER.

LONDON, Sept. 20.—One person in every 25 of the population of England and Wales is a pauper, according to the government returns on the condition of pauperism on Jan. 1, 1908. The number of casual paupers was then the highest on record and the number of able-bodied men relieved at public expense, owing to the fact that they were out of work and for other causes, showed an increase of 21 per cent, as compared with 1907. One noticeable feature of the report is that far more married couples without children than married couples with children had been relieved.

THIS WEEK A CONSERVATIVE WEEK.

R. L. Borden, K.C., M.P., the leader of the federal opposition, comes into Ontario to-day and will make this week a Conservative week in this province. Mr. Borden's first Ontario meeting will be at Pembroke to-night. He will be accompanied by an imposing array of orators in the persons of premiers and leading cabinet ministers from various provinces. A return to the old-time political enthusiasm is confidently expected. The big meeting of the tour will be in Toronto at Massey Hall on Wednesday evening. Toronto, everlastingly Conservative, will tender Mr. Borden and his able lieutenants an ovation that will set a standard for years to come. There is no doubt that the Conservative leaders will be cordially, even enthusiastically, received, all over the province. The people of Ontario are a thinking people, and Mr. Borden is eminently qualified to put their thinking caps on for them.

AUGUST BANK STATEMENT SHOWS BETTER CONDITION.

Demand Deposits Show Increase of Fifteen Millions Over July—Money Flows Beyond Border.

OTTAWA, Sept. 20.—(Special.)—The bank statement for the month of August would seem to indicate a betterment of business and financial conditions. Deposits payable on demand aggregated nearly \$180,000,000, as against \$165,000,000 in July. Note deposits also showed a small increase. The total note circulation was fifty-five million and one-quarter millions, as against fifty-four and one-quarter millions. There is a slight increase in the amount of money loaned outside Canada, which for the month totalled sixty-two and three-quarter millions, against fifty-five million in July. There was a decrease of about one million dollars in loans in Canada. Assets and liabilities are both higher than for July. The former stands at nine hundred and fifty-four and one-half millions, as against nine hundred and thirty-six and one-half millions, and liabilities at slightly under seven hundred and seventy-five millions, as against seven hundred and fifty-six and one-third millions in July.

BOB ROGERS FOR COMMONS.

Expected That Manitoba Minister of Works Will Contest Winnipeg.

MONTREAL, Sept. 20.—(Special.)—R. L. Borden and Premier Roblin and Hazen, with Provincial Secretary Hanna, left this evening for Ottawa and Pembroke, to continue their tour. During the day Mr. Hazen received a despatch from Fredericton stating that Hon. William Pugsley has declined to meet the New Brunswick premier and debate the questions in dispute between them. This afternoon Mr. Borden was in conference with Hon. Robert Rogers in the centre of the Villages of Saint-Anne, which is located close to the Place Des Vieux, was totally destroyed. The loss is estimated at \$5,000,000, but a much greater loss is likely to be involved through the complete interruption of all telephone communication in the centre of Paris, as well as communication with the provinces and abroad. This was a record day in the history of the fire department, the men being out all morning and afternoon for a big fire in a department in the Faubourg St. Denis. Damage to the extent of \$800,000 was done here, but the loss is covered by insurance.

CONFLAGRATIONS IN PARIS.

Telephone and Postoffice and Departmental Stores Burnt.

PARIS, Sept. 20.—Fire broke out tonight in the Central Telephone Building and spread with such rapidity that the telephone employees were forced, after brief and ineffectual efforts, to extinguish the flames, to fly hastily to the streets. The entire building was soon in flames, and this together with the postoffice, which is located close to the Place Des Vieux, was totally destroyed. The loss is estimated at \$5,000,000, but a much greater loss is likely to be involved through the complete interruption of all telephone communication in the centre of Paris, as well as communication with the provinces and abroad. This was a record day in the history of the fire department, the men being out all morning and afternoon for a big fire in a department in the Faubourg St. Denis. Damage to the extent of \$800,000 was done here, but the loss is covered by insurance.

SUFFRAGETTES AS MARTYRS.

Clad in White Robes They Greet Discharged Prisoners.

LONDON, Sept. 20.—The latest suffragette fashion is the wearing of "martyr robes," which consist of a white dress adorned with ribbons of suffragette colors. These martyr robes are worn when welcoming prisoners fresh from Holloway Jail and when planning onslaughts on the government. This week two detachments of prisoners were released. They were greeted by a contingent of fellow workers, fifty of whom dragged their carriage in place of horses. As the last detachment consisted of Scotch prisoners, special Highland arrangements were made, and bagpipes, white heather and much plaid drapery figured in the procession.

SAEBLOWERS AT BEACHVILLE.

Grand Trunk Station Entered, But No Booty Secured.

INGERSOLL, Sept. 20.—(Special.)—The safe in the Grand Trunk station at Beachville was cracked last night, and from the evidences of clever work it is supposed the burglars are professional cracksmen. Nitro-glycerine was evidently the explosive used and the safe was badly damaged. There was no money in the safe.

WHO IS THIS MAN?

Stranger, Believed to Be Alex. Wood, Seriously Injured Jumping Off Car.

A stranger jumped off a moving Church-street car at Matland-street at 10:45 on Saturday night and fell heavily, striking his head on the pavement and fracturing the skull. From the same on some letters found in his pockets, he is believed to be Alex. Wood, the his address is a mystery, and the he lay in the hospital all day yesterday, no one came to enquire after him.

BODY FOUND IN BAY.

Apparent Case of Suicide by Albert Harding.

The body of a man, believed to be Albert Harding, an Englishman, was found floating in the bay just off York-street at noon yesterday, and was removed to the new morgue on Lombard-street, where in the pockets were found two silver watches, \$270 in money and a few matches. In addition were found a number of letters bearing English postmarks. The dead man had the return coupon of a ticket to Bobcaygeon, dated Sept. 11, in which place he had apparently been working as a bartender. The case looks like suicide. Coroner W. H. B. Atkins has charged the body, and may hold an inquest.

GIVES WAY TO PARTY.

George McLaurin Agrees to Retire in Favor of Chas. Murphy.

OTTAWA, Sept. 20.—(Special.)—George McLaurin, who had been Liberal candidate in Russell, met the county executive yesterday afternoon, and it was agreed that he should retire from the contest in favor of Charles Murphy, secretary of state-elect.

BORDEAU PLEASED WITH QUEBEC OUTLOOK.

Tells Large Montreal Audience That Meetings Portend Victory—Strikers Try to Interrupt Address.

MONTREAL, Sept. 20.—(Special.)—The demonstration last evening in the Monument National will go down to political history as one of the most important gatherings ever held in this province, tho an organized attempt to prevent Mr. Borden from speaking was regrettable. The secret of the ten minutes' uproar was explained this morning. It appears that in view of the fact that a section of the Liberal speakers had asked Mr. Borden to pronounce himself upon the merits of the dispute, and the leader having refused to say anything on the subject, the strikers decided to prevent him from speaking, declaring that they would howl Sir Wilfrid Laurier down too, when he came to Montreal. There could not have been more than a couple of dozen disturbers in the hall and as soon as the light was turned on over the gallery and the police entered, they became as quiet as mice and were never heard of again during the three hours the demonstration lasted. The hall was packed and the representative men of the party were on the platform, almost the entire audience rising and cheering wildly when the leader seated his colleagues entered the building. H. Laporte and H. E. Bickers, two ex-mayors, presided. The first speaker introduced was F. Monk. His speech was directed to his compatriots to remember that there would be nothing more dangerous to the prestige of the race than to become isolated from the political thought or opinion of the other parts of the Dominion; for a solid Quebec, he said, would eventually bring about a solid English-speaking Canada. He reminded them of the old days when the provinces were divided on principle and when glorious records were obtained on both sides. Mr. Monk believed that there was a strong current of honest public opinion in this province, and as a result of that it would make itself felt on election day.

STORMY AT THE ISLAND DERRICK SCOW IS SUNK.

About \$2000 Damage Done to the Public Works in Progress on the Lake Front.

Damage to the extent of several thousand dollars was done by the waves on Saturday to the plant of Cummings & Miller, contractors for the new breakwater on the eastern shore of the island. A large derrick scow, with steam hoisting engine and concrete mixer, was sunk and now lies in 12 feet of water. The crew on finding the scow to be foundering, climbed into the derrick and hung there high and dry until taken off by a gasoline boat. Another scow was driven on the rocks and smashed to pieces. No one was on board. J. G. Sing, government engineer, who has supervision of the work visited the breakwater yesterday. He estimated the damage at about \$2000. The lake, he said, had been rough for three days, and the force of the waves became very violent on Saturday. The storm moderated appreciably yesterday, but Mr. Sing thinks it will be several days before the work of piling can be resumed. He is unable to account for the sinking of the derrick scow unless by the theory that the hatchways were left open. He has no doubt that the scow, which is about 200 yards from the shore, can be raised.

DEMAND DEPOSITS SHOW INCREASE OF FIFTEEN MILLIONS OVER JULY—MONEY FLOWS BEYOND BORDER.

OTTAWA, Sept. 20.—(Special.)—The bank statement for the month of August would seem to indicate a betterment of business and financial conditions. Deposits payable on demand aggregated nearly \$180,000,000, as against \$165,000,000 in July. Note deposits also showed a small increase. The total note circulation was fifty-five million and one-quarter millions, as against fifty-four and one-quarter millions. There is a slight increase in the amount of money loaned outside Canada, which for the month totalled sixty-two and three-quarter millions, against fifty-five million in July. There was a decrease of about one million dollars in loans in Canada. Assets and liabilities are both higher than for July. The former stands at nine hundred and fifty-four and one-half millions, as against nine hundred and thirty-six and one-half millions, and liabilities at slightly under seven hundred and seventy-five millions, as against seven hundred and fifty-six and one-third millions in July.

Damage to the extent of \$800,000 was done here, but the loss is covered by insurance.

HOME OF JULIET BURNED.

Old House in Verona to Which a Pious Tradition Has Been Completely Destroyed.

ROME, Sept. 20.—The house shown to tourists as the ancient palace of the Capulets at Verona, which is associated with the story of Romeo and Juliet, has been completely destroyed by fire. A fire which recently broke out in the centre of the Villages of Saint-Anne, which is located close to the Place Des Vieux, was totally destroyed. The loss is estimated at \$5,000,000, but a much greater loss is likely to be involved through the complete interruption of all telephone communication in the centre of Paris, as well as communication with the provinces and abroad. This was a record day in the history of the fire department, the men being out all morning and afternoon for a big fire in a department in the Faubourg St. Denis. The lake, he said, had been rough for three days, and the force of the waves became very violent on Saturday. The storm moderated appreciably yesterday, but Mr. Sing thinks it will be several days before the work of piling can be resumed. He is unable to account for the sinking of the derrick scow unless by the theory that the hatchways were left open. He has no doubt that the scow, which is about 200 yards from the shore, can be raised.

DEMAND DEPOSITS SHOW INCREASE OF FIFTEEN MILLIONS OVER JULY—MONEY FLOWS BEYOND BORDER.

OTTAWA, Sept. 20.—(Special.)—The bank statement for the month of August would seem to indicate a betterment of business and financial conditions. Deposits payable on demand aggregated nearly \$180,000,000, as against \$165,000,000 in July. Note deposits also showed a small increase. The total note circulation was fifty-five million and one-quarter millions, as against fifty-four and one-quarter millions. There is a slight increase in the amount of money loaned outside Canada, which for the month totalled sixty-two and three-quarter millions, against fifty-five million in July. There was a decrease of about one million dollars in loans in Canada. Assets and liabilities are both higher than for July. The former stands at nine hundred and fifty-four and one-half millions, as against nine hundred and thirty-six and one-half millions, and liabilities at slightly under seven hundred and seventy-five millions, as against seven hundred and fifty-six and one-third millions in July.

ABOUT \$2000 DAMAGE DONE TO THE PUBLIC WORKS IN PROGRESS ON THE LAKE FRONT.

Damage to the extent of several thousand dollars was done by the waves on Saturday to the plant of Cummings & Miller, contractors for the new breakwater on the eastern shore of the island. A large derrick scow, with steam hoisting engine and concrete mixer, was sunk and now lies in 12 feet of water. The crew on finding the scow to be foundering, climbed into the derrick and hung there high and dry until taken off by a gasoline boat. Another scow was driven on the rocks and smashed to pieces. No one was on board. J. G. Sing, government engineer, who has supervision of the work visited the breakwater yesterday. He estimated the damage at about \$2000. The lake, he said, had been rough for three days, and the force of the waves became very violent on Saturday. The storm moderated appreciably yesterday, but Mr. Sing thinks it will be several days before the work of piling can be resumed. He is unable to account for the sinking of the derrick scow unless by the theory that the hatchways were left open. He has no doubt that the scow, which is about 200 yards from the shore, can be raised.

CONFLAGRATIONS IN PARIS.

Telephone and Postoffice and Departmental Stores Burnt.

PARIS, Sept. 20.—Fire broke out tonight in the Central Telephone Building and spread with such rapidity that the telephone employees were forced, after brief and ineffectual efforts, to extinguish the flames, to fly hastily to the streets. The entire building was soon in flames, and this together with the postoffice, which is located close to the Place Des Vieux, was totally destroyed. The loss is estimated at \$5,000,000, but a much greater loss is likely to be involved through the complete interruption of all telephone communication in the centre of Paris, as well as communication with the provinces and abroad. This was a record day in the history of the fire department, the men being out all morning and afternoon for a big fire in a department in the Faubourg St. Denis

Hamilton Happenings

World subscribers in Hamilton are requested to register complaints as to careless or in late delivery at Hamilton office, room 7, Spectator Building, Phone 385.

POLICE ON SATURDAY COOPEE UP TWENTY-ONE

Couple Charged With Theft From Laundry—Military Officers Have a Day Off.

HAMILTON, Sept. 20.—(Special.)—The police arrested twenty-one prisoners Saturday. Amongst them were Wm. Bird, 343 Emerald-street, and Edith Duncan, 56 Broadbalt-street, who are accused of stealing \$10 from Tom Hagg's laundry on Charlton-avenue. Richard Beaton, another drunk on the "Indian" list, was also captured. Two young lads named Pauls, who are accused of running off with money belonging to a farmer near Belleville, are being held. Fred Shearman, New Ontario, was arrested with a .38 and revolver on a G.T.R. train.

GRUMPLED BY STORM WAS BAHAMAN TOWN

Ship's Officers Report That Wind Was Destructive at St. Matthew, West Indies.

NEW YORK, Sept. 20.—The steamer Siberia, which arrived here yesterday from West Indian ports, ran into the recent hurricane off the Bahama Islands, the storm commencing Sept. 11 and continuing until the 14th. The barometer fell to 29.5. At the centre of the storm moved over the island it was feared on the Siberia that great damage must have been done to the island.

NOTE AND COMMENT

The first day's racing at Woodbine Park would point as a warning to those who desire to play every event.

After a rough journey in the field and in the committee room the Tecumehs are champions sure.

The most harmonious season in the history of the Canadian baseball association wound up Saturday at the island.

The Toronto baseball team finished out their 1908 season with a record of 100 wins and 83 losses.

The long distance walkers, Clark and Marchant, were entertained royally by Dad Stewart at Woodbine.

Argonauts have secured a new field and will hold their first practice to-night at 8 o'clock.

All Saulters football team will meet to-night and Wednesday night.

At Chicago (American)—Smith pitched a 70-hit game against Philadelphia on Sunday.

At Detroit (American)—The champions retained their title on Saturday.

At St. Louis (American)—Waddell struck out 10 batters in the first inning.

At Philadelphia (Big League Feature)—Chicago won the first game from Philadelphia.

At Philadelphia (Big League Feature)—Chicago won the first game from Philadelphia.

At Philadelphia (Big League Feature)—Chicago won the first game from Philadelphia.

Last of the Eastern League Providence Beat Orioles Twice

Newarks Lose One to Jersey City and Drop Below the Grays—Toronto Beaten in Both on Saturday.

Table with columns: Club, Won, Lost, Pct. Final Eastern Standing.

Providence, Sept. 20—The final scenes in Eastern League season occurred here today, when the champions-elect lost two games they did not need to prove.

After a rough journey in the field and in the committee room the Tecumehs are champions sure.

Races Open at Woodbine Park Only One Favorite in Front

I. E. Seagram's Bouquet Wins Cup Handicap—Long Shots Land the Money—Accidents in the Steeplechase.

The autumn meeting of the Ontario Jockey Club opened most auspiciously on Saturday. The weather was cool and much more suitable to the racing than that of the hot times generally prevalent at beautiful Woodbine Park.

The crowd was not so dense as at the spring gatherings, but quite ample and in the neighborhood of the ten thousand mark, the falling off being most noticeable in the members' enclosure.

On the other hand down where the bookmakers' bank conditions are probably more vigorous than ever before. There are about sixty layers and the business was of sufficient bulk to demand all their attention.

Bouquet was the only favorite to win, one second, two third choices and three long shots being the other lucky horses. Of the beaten favorites, Theo. Cook, Goldfinger and Chionio finished second, Hostile Hyphen third and Closest outside the money.

The result of the first race gave the layers a splendid start for the victory of the 20 to 1 shot was a veritable clean-up for the bookies.

F. Clyde has a smart 2-year-old in Tasey, who won the first race at 20 to 1. She won her maiden race at Montreal.

Simco has great speed, but doesn't seem able to carry it for more than five and a half furlongs.

Mr. Seagram has a good 2-year-old in Bouquet, and it will take a mighty good horse to lead the Kinley Mack filly to the wire.

W. H. Carey was running over horses at the finish, and will be hard to beat when placed right.

Jockey Howard killed what chance Martha Doyle had by taking him to the front. He led to the stretch, but that jockey was told in the drive.

There was a wise play on Lady Martha in the third race, and a small fortune was taken out of the ring on the Brennan filly.

J. G. C. would have won the steeplechase but for blundering two jumps from home. As it was, he was only beaten in a drive after losing a dozen lengths.

After J. G. C.'s mishap, Steve Lane had a safe winning lead going to the last jump, but stumbled, throwing Jockey Simpson.

Jockey Powers failed to land a winner, his nearest effort being on Chionio, being nosed out at the wire.

In the first Special Handicap at Gravesend Saturday Fairplay ran the 1 1/2 miles in 2:02.25, making a new track record.

Our handicapper, "Centaur," called the whole six winners at Gravesend Saturday.

At the conclusion of the afternoon's racing there was a practice game of polo in the infield between the royal Canadian Canadian Dragons and the Toronto Hunt Club teams. They played only three men a side.

The level polo field shows up the new steeplechase course picturesquely. The jumps are somewhat higher than the old fences, and the quality of the leppers will be thoroughly tested.

In the opening steeplechase proved a stirring contest, only three of the eleven starters finishing the course without a mishap. None of the mishaps were of a serious nature, although several of the riders were put out of commission for a time.

In the steeplechase, Simpson lost a stirrup, and thus he rode Steve Lane the last turn of the field, or otherwise the case would have been as it was actually leading when he fell at the last jump.

The World's Selections

FIRST RACE—Carman entry, Park Row, Col. Zeb, Silk Hose.

SECOND RACE—Economy, Water-spread, Col. Zeb, Silk Hose.

THIRD RACE—Aronack, Ontario, Col. Jack.

FOURTH RACE—Belmore, Zippo, Lally.

FIFTH RACE—Edwin L., Maxin Gun.

SIXTH RACE—Seagram entry, The Globe, Moonraker.

SEVENTH RACE—Seagram entry, The Globe, Moonraker.

WOODBINE GOSSIP.

At the conclusion of the afternoon's racing there was a practice game of polo in the infield between the royal Canadian Canadian Dragons and the Toronto Hunt Club teams. They played only three men a side.

The level polo field shows up the new steeplechase course picturesquely. The jumps are somewhat higher than the old fences, and the quality of the leppers will be thoroughly tested.

In the opening steeplechase proved a stirring contest, only three of the eleven starters finishing the course without a mishap. None of the mishaps were of a serious nature, although several of the riders were put out of commission for a time.

To-Day's Entries

FIRST RACE—Havoc Purse, \$500 added, 2-year-olds and up, furlongs.

SECOND RACE—Lambton Purse, \$500 added, 2-year-olds and up, furlongs.

THIRD RACE—Prize Purse, \$500 added, 1 1/2 miles, selling, 4-year-olds and up.

FOURTH RACE—Belmore, Zippo, Lally.

FIFTH RACE—Edwin L., Maxin Gun.

SIXTH RACE—Seagram entry, The Globe, Moonraker.

SEVENTH RACE—Seagram entry, The Globe, Moonraker.

WOODBINE GOSSIP.

F. Clyde has a smart 2-year-old in Tasey, who won the first race at 20 to 1. She won her maiden race at Montreal.

Simco has great speed, but doesn't seem able to carry it for more than five and a half furlongs.

Mr. Seagram has a good 2-year-old in Bouquet, and it will take a mighty good horse to lead the Kinley Mack filly to the wire.

W. H. Carey was running over horses at the finish, and will be hard to beat when placed right.

Jockey Howard killed what chance Martha Doyle had by taking him to the front. He led to the stretch, but that jockey was told in the drive.

There was a wise play on Lady Martha in the third race, and a small fortune was taken out of the ring on the Brennan filly.

J. G. C. would have won the steeplechase but for blundering two jumps from home. As it was, he was only beaten in a drive after losing a dozen lengths.

After J. G. C.'s mishap, Steve Lane had a safe winning lead going to the last jump, but stumbled, throwing Jockey Simpson.

Jockey Powers failed to land a winner, his nearest effort being on Chionio, being nosed out at the wire.

In the first Special Handicap at Gravesend Saturday Fairplay ran the 1 1/2 miles in 2:02.25, making a new track record.

Our handicapper, "Centaur," called the whole six winners at Gravesend Saturday.

At the conclusion of the afternoon's racing there was a practice game of polo in the infield between the royal Canadian Canadian Dragons and the Toronto Hunt Club teams. They played only three men a side.

The level polo field shows up the new steeplechase course picturesquely. The jumps are somewhat higher than the old fences, and the quality of the leppers will be thoroughly tested.

In the opening steeplechase proved a stirring contest, only three of the eleven starters finishing the course without a mishap. None of the mishaps were of a serious nature, although several of the riders were put out of commission for a time.

GRAVESEND FAVORITES

Fairplay Wins the First Special Handicap, Beating Dandelion's Track Record.

NEW YORK, Sept. 19.—In a terrific drive, Fairplay won the first Special Handicap, one mile and a quarter, at Gravesend today. In doing so he clipped one second off the track record for the distance by stepping it in 2:02.25.

The previous time was held by Dandelion of 2:02.5. King James went to the front and led by a head passing the stand the first time. He continued to show the way to the far turn where Fairplay moved up and joined him. From the middle of the turn to the finish the two ran head and head, and it was only in the last stride that Fairplay got his head in front. Suffragette easily won the Junior Champion Handicap for 2-year-olds, while Hiltcher won the Hiltcher steeplechase in new track record time. The winners were all favorites. Summaries:

FIRST RACE—Selling, about 3 furlongs, 2-year-olds and upward:

1. Westbury, 108 (E. Dugan), 7 to 1. 2. Sanctus, 104 (Sweet), 4 to 1. 3. Director, 111 (J. Lee), 3 to 1. 4. Time 1:16. Acchigh, Belle Storme and Queen Marguerite also ran.

SECOND RACE—The Hiltcher Steeplechase, handicap, 4-year-olds and upward, about 2 1/2 miles:

1. Thistledeed, 163 (Lynch), 8 to 5. 2. Sanctus, 104 (Sweet), 4 to 1. 3. Bayonet, 147 (McKinnay), 3 to 1. 4. Time 4:43. Coligny and Bat also ran. Leonard and Hiltcher also ran.

THIRD RACE—The Junior Handicap, 2-year-olds, about 6 furlongs:

1. Suffragette, 122 (Notter), 2 to 1. 2. E. E. M. Green, 115 (Heidel), \$6.95. 3. Fitzherbert, 126 (Shilling), 4 to 1. 4. Time 1:09. E. E. M. Green, Joe Madden, Field Day, Madman, Statesman and Otogo also ran.

FOURTH RACE—The First Special Handicap, all ages, 1 1/2 miles:

1. Fairplay, 122 (E. Dugan), 3 to 1. 2. King James, 118 (J. Lee), 4 to 1. 3. Master Robert, 106 (Notter), 8 to 1. 4. Time 2:02.25. Dandelion also ran. SEVENTH RACE—Selling, 1 1/2 miles, 2-year-olds and upward:

1. Bad News, 109 (Notter), 4 to 1. 2. Lord Stanhope, 108 (Sweet), 5 to 1. 3. Castlewood, 97 (Lans), 10 to 1. 4. Time 1:34.5. Cairngorm, Still Alarm, Orphan Lad, Annius, Sailor, Lad of Langdon, Killchrankie and Rockette also ran.

SIXTH RACE—Philes, 2-year-olds, 5 furlongs:

1. Wallflower, 109 (Notter), 7 to 1. 2. Mediant, 121 (McCarthy), 7 to 2. 3. Grania, 106 (McCarthy), 10 to 1. 4. Time 1:01.5. Mascarada, Top Note and Bando also ran.

LOUISVILLE, Ky., Sept. 19.—FIRST RACE—Selling, 1 1/2 miles, 2-year-olds and upward:

1. Wood Sandals, 106 (Heidel), \$14.95. 2. Berwick, 123 (Butler), \$6.45, length.

REXFOLDS & CO. Oldest and Most Reliable Racing Bureau in Existence

Belmore 5-1 Won was our one best bet Saturday. When we say our one best bet, we mean a strictly one-horse-a-day affair.

Our one best bet record the past week:

Belmore, 5-1, Won. Fred Kelly, 2-1, Lost. Wm. Cairngorm, 2-1, Second. Wm. Frisellian, 2-1, Won. Brookdale Nymph, 5-5, Won.

80 per cent winners is our one best bet record since Jan. 1. Twenty years' experience has taught us that playing one race a day is the only successful way to beat the races.

TO-DAY TO-DAY 10 TO 1 SHOT From every point of view this one appears a certain winner, so don't overlook it. When buying racing information be sure you get the right kind. Don't be misled by fake records of long shots; these are usually the result of a closed office. The best proof is, no one was ever found who received the long shots some tipsters claim to have given. The same people in Toronto patronize us year after year, which goes to show that we must be on the level and give a higher average of winners than what can be obtained elsewhere, otherwise it would not pay us to come here for every meeting. Start the week right, by getting in on to-day's good thing; it should win without the least effort.

Travers Returns Golf Title.

NEW YORK, Sept. 19.—Jerome D. Travers of Montreal, N.J., still is the amateur golf champion of the United States. After reaching the final stage of a brilliant victory over the veteran former champion, Walter J. Travis, yesterday, in what was pronounced one of the finest games ever witnessed in this country, the champion to-day scored a comparatively easy win over Max H. Behr of the Morris County Club, at Garden City to-day.

Travers Returns Golf Title.

NEW YORK, Sept. 19.—Jerome D. Travers of Montreal, N.J., still is the amateur golf champion of the United States. After reaching the final stage of a brilliant victory over the veteran former champion, Walter J. Travis, yesterday, in what was pronounced one of the finest games ever witnessed in this country, the champion to-day scored a comparatively easy win over Max H. Behr of the Morris County Club, at Garden City to-day.

The new play proved practically an even term during the early stages of to-day's decisive match, but on the second round Travers took the lead by 13 over the best of it and the end came at the 29th hole when the champion was 8 up on his opponent, with only seven holes left to play.

RETALIATION AND RECIPROCITY.

One of the incidental consequences of the British Patent Act is the education the people are receiving with regard to the value of tariff legislation as a retaliatory measure. The act admittedly confers a benefit on British labor by compelling the foreign holder of a patent to manufacture in the country. And the outsiders who are chiefly affected are naturally irritated and talk retaliation. But as the patent acts of other countries are already stringent enough it is difficult to see what they can do, and foreign manufacturers practically admit the inability of their governments to offer effective resistance by their action in establishing manufactures in Britain.

Obviously the only way of securing relaxation of the provisions of the new British patent law is to offer easier terms for British manufacturers in foreign markets and this is already under discussion. Mr. Balfour's contention that reciprocity can be gained by retaliation is in this way given practical illustration, and the point will not be overlooked in the tariff controversy. Nor will it be less efficacious when foreign manufacturers are themselves declaring the measure to be a first instalment of tariff reform, since it provides the United Kingdom with a weapon to compel a rearrangement of trade relations. The education of the British people will be helped by the probability that the United States will be open in the near future to negotiations of this kind.

AIRSHIP ACCIDENTS.

As in the case of Count Zeppelin's airship, Orville Wright's aeroplane also came to grief at a crucial point in his experiments and unfortunately resulted in serious injury to the inventor, and in the death of the U. S. army officer who accompanied him. It is explained that the accident was caused by the breaking of the propeller blade, which struck a copper wire that had vibrated out of line. These constant mishaps and the dependence of all the present classes of air machines on the weather show that inventors have still a good way to go before the problem of air navigation can be considered as finally solved. Nevertheless scientific investigators like Edison confidently predict that within a few years air transit will have become sufficiently successful to be made available for transportation purposes.

PRIVATE BENEFACTIONS FOR PROVINCIAL UNIVERSITIES.

Wealthy citizens of Ontario may take a lesson in generosity to the University of Toronto from the will of the late W. F. Vilas. The deceased, who was a member of the Cleveland cabinet, and whose will was lately probated, left an estate valued at \$3,000,000. This, under peculiar charges and investments, will amount in a certain time to \$30,000,000, and will eventually pass to the University of Wisconsin as an endowment fund to be used by the university, as provided in the will.

It is a great-hearted gift, and because it plainly shows that philanthropists may justly and usefully favor state educational institutions, there is no longer need for the University of Toronto to lack sufficient endowment funds: private benefactions from wealthy citizens of Ontario would immensely help in placing the provincial university on a sound financial basis. The truth is that philanthropists who have great wealth are coming to recognize that they have peculiar opportunities in helping to maintain educational institutions. Why, then, should they be denied the happy privilege of furnishing endowment funds for such institutions as provincial universities?

Smoke Old Gold Cigarettes Sweet and Mild 5c

The idea seems to be abroad that because the University of Toronto is a state institution, private benefactions would not be acceptable, or, if so, could not be received. Certainly there is no law against such benefactions. And if they were received they could be applied to founding much-needed scholarships and fellowships, to liberally endowing chairs and special laboratories. Toronto University needs private endowments. There are great-hearted men of wealth in Ontario. Let them open up their hearts and give liberally to a worthy institution.

THE DEATH-KNELL OF TUBERCULOSIS.

In one of the leading magazines, Dr. Woods Hutchinson, the eminent physician, has a remarkably enlightening and sensible article on Tuberculosis. At first review, to the layman, it comes as a startling fact that we are all consumptives, at least in tendency. Yet out of this fact Dr. Hutchinson finds the most "cheering" aspect of the white plague. For on his authority in the human-are, as he calls them, "War-worn veterans, carrying the scars of a score of victories written all over them" (tubercular bacilli). These war-worn veterans are the living antitoxins which we call the "cells" of the body. For these cells are really animals; while "bacteria, bacilli, micrococci, and all their tribe are vegetables." In other words the cells of the body are a system of active fighters, and, given fair play, it is a foregone conclusion that the animal will win out over the vegetable tribe. In fact, as Dr. Hutchinson puts it, "the daily business, the regular means of livelihood of the animal cell for fifteen millions of years past has been eating and digesting the vegetable (bacteria, tubercular bacilli). And all that our body cells need is a little intelligent encouragement to continue this performance, even upon disease germs."

Now, this "little encouragement," Dr. Hutchinson finds to be nothing else than plenty of sunshine. For, as he submits, sunlight will kill the vegetable disease germs, that is, tubercular bacilli, and on this he certainly gives us new light. In his own words:

"The germs of tuberculosis will live for weeks and even months in dark, damp, unventilated quarters, just precisely such surroundings as are provided for them in the inside bedrooms of our tenements, and the dark, cellar-like rooms of many a peasant's cottage or farmhouse. In bright sunlight they will perish in from three to six hours; in bright daylight, in less than half a day. This is one of the factors that helps us to explain the apparent paradox that the dust collected from the floors and walls of tenement houses, floors of street cars, from the walls of theatres and churches in New York City was found to be simply alive with them. One of the most important elements in the value of sunlight in the treatment of consumption is its powerful germicidal effect."

In all this there is excellent cheer for the consumptive, and an admonition from a great authority, to open our houses to the sunlight and to health is a gift, freely offered us by nature.

UNIVERSITIES AND PUBLIC SERVICE

Editor World: Your editorial in today's World on "Universities and Public Service" is to be thoroughly commended as signaling a radical defect in the curricula of our Canadian universities. I am not going to dwell on the points of the editorial; it is too obvious and well taken to need further orientation. But I wish to offer two suggestions: First—Why should President Falconer not at once arrange to have a competent man or men, proceed to Harvard or Yale and investigate the work being done in these universities for training the youth of the country in the ideals of public service and civic ethics? The man, or men, so commissioned could then bring back a report on the matter, and thus make it easy to establish like courses in Toronto University, specially suited to Canadian needs. Secondly—It has been said that President Eliot has been a more efficient public servant than President Roosevelt. Whether this is so or not, at any rate, the great enthusiasm amongst the Harvard students for public service and the cause of good government is inspired by President Eliot's own unending efforts, by word and deed, in those matters. We have never heard President Eliot in Toronto. And so there is a strong body to invite President Eliot to the city is the Canadian Club. Let this club do so, and let them ask President Eliot to speak on some such subject as "The Right and Duty of Universities to Teach Ideals of Public Service and Methods of Good Government."

At the Church of the Ascension

Alternate sheaves of wheat and oats at the entrance of each pew was a feature of the harvest decorations at the Church of the Ascension yesterday, when Bishop Stringer preached, "Sheaves on the walls with golden berries made graceful trophies, and the columns were sheathed with chrysanthemums, red and other seasonal flowers. Over the chancel the words "Harvest Home" appeared in golden letters from the wheat field. The pulpit, decorated with the chancel rails were swathed in beautiful blossoms from the nurseries of W. E. Washington, who kindly contributed a wreath of flowers to the adornment of the church.

Rev. W. H. Vance, the rector, in appealing for a better attendance at the bible class, said that his members spent at least an hour a day in reading the papers which they would be quite as well without if they never saw them from one year's end to the other, but systematic study of the bible brought them in contact with the imperishable things of life.

"And Jesus answering said, were there no signs here? But where are the signs? There are four that returned to give glory to God, said this stranger.

These verses, Luke, xlii, 17, 18, formed Bishop Stringer's text, and in a half-hour discourse he dwelt on the analogy between the cleansed lepers who regarded not their wonderful restoration with gratitude, and the Christians who failed to show any appreciation of the privilege of being cleansed from the leprosy of sin. He was more grateful than those who dwell within the sound of the gospel message.

In Canada especially should people appreciate the blessings and the general prosperity of the country during the last year, said his lordship. His lordship had been surprised to find the extent to which Canada occupied attention in the old country. The good opinion held there had been generally justified. The fact that the other nations including the Bishop of London, who still continued to sing its praises, had led the people of England regard Canada as the coming nation. Ontario should be especially grateful for the satisfactory harvest which the northwest was better than the average of the last ten years, and in the east was more than usually good.

The TRADERS BANK of Canada. DIVIDEND NO. 50. NOTICE IS HEREBY GIVEN that a dividend of one and three quarters per cent. upon the paid-up capital stock of the Bank has been declared for the current quarter, being at the rate of seven per cent. per annum, and that the same will be payable at the Bank and its Branches on and after the first day of October next.

SHIP'S CREW HELPLESS 6 DAYS IN HURRICANE

Mate Swept Overboard and the Rest Rescued in the Nick of Time.

SAN JUAN, Puerto Rico, Sept. 20.—After a thrilling experience in a hurricane, during which they suffered terrible hardships, Capt. J. B. Morris and five seamen of the schooner Mary B. Judge, from Mobile, bound for San Juan, were rescued last Thursday by the steamer Julia Luckenbach, for San Juan from New York.

The Mary B. Judge ran into a hurricane on Sept. 11. The schooner's masts were carried away and she soon filled with water. The captain and his crew lashed themselves to the top of the poop. All they had succeeded in saving was a little hard tack and a gallon of water.

The water was exhausted in 24 hours, and the hard tack was doled out one to each man daily. On the 16th the men caught two gallons of rain, and when rain fell on the morning of Thursday they still had a gallon left and eight hard tacks. They had almost abandoned hope when the light of the Luckenbach was seen at 11:40 Wednesday night.

With some matches and a few splinters chipped from the rail a fire was started in the boiler. Chief Officer Thomas Haley sighted the little fire on the schooner several miles away, and bore down upon it. The sea was very rough, but a rescue was launched. Coming close to where the men of the schooner were huddled together, it was found impossible to bring the boat near enough to the wreck to take them off, and by one, the men leaped from the schooner into the sea and were dragged aboard.

George McCoy, mate of the schooner, was swept overboard and drowned on Sept. 15.

HEARS DEATH WARRANT THEN BEGINS TO SLAY

Colored Prisoner Kills Two Other Convicts and Severely Wounds Four Others When Condemned.

ALEXANDRIA, La., Sept. 20.—A mania for killing took possession of Edward Ayles, a negro prisoner, when his death warrant for the murder of his wife was read to him in jail. He grasped a knife and killed "Tip" Davis and Garfield Bradley, and severely wounded four other prisoners, all negroes. One of the wounded may die.

The screams of the victims attracted almost a thousand persons to the scene of the killing. The police brought him back to reason.

HEARST'S ACCUSATION PUTS FORAKER TO BAD

Senator Withdraws From Taft's Platform Fearing That Intimacy May Result in Injury

CINCINNATI, Sept. 20.—Senator J. B. Foraker last night admitted himself in the political rally of the National League of Republican Clubs to be held here next Tuesday. His action was made known to Judge Taft in the following letter, addressed to the judge yesterday, and made public by the senator last night.

"Cincinnati, O., Sept. 18, 1905. "My Dear Judge,—Having read in the newspapers that some of your friends, and possibly you, are in doubt as to the propriety of my speaking with you at Music Hall next Tuesday night, I have concluded not to attend the meeting. I take this action, not because I deem the answers I have made to Mr. Hearst's charges insufficient, nor because of my lack of loyalty to your cause, but only because I do not wish to do anything that might injure the cause or embarrass you personally.

Senator Foraker said on giving out the correspondence that his action was entirely voluntary, and that he had received no direct communication from Judge Taft regarding the situation. The publicity of the letter followed a series of conferences held Friday and Saturday.

THE T. EATON CO LIMITED The Store Opens at 8 a.m. Closes at 5 p.m.

Fancy Vests Are Popular for Fall

We've received a new shipment of these, direct from London. They are ready for your choosing Tuesday. Men's Scotch wool mixed, shirts or drawers, double-breasted, close ribbed cuffs and ankles, Shetland shade. Not more than two suits to each customer; Tuesday, each 29

Winter Furnishings for Boys

Many boys outgrow their clothes in a season, and we want to remind you that we pay the same attention to boys' furnishings that we give to men's. Our range of boys' underwear is larger than ever this year; prices from 25c to \$1.50

SHIRTS, 25c to \$1.00; COLLARS, 9c and 12 1/2c; SUSPENDERS, 10c to 50c; SWEATERS, 50c to \$1.00; BATH ROBES, \$2.75. Keep this list in mind.

An Overcoat for Your Boy

In making these coats we considered the boy's appearance and comfort as well as the mother's purse. They're made in our workrooms by reliable and experienced men, finished to satisfy the critical examiners, through whose hands every coat must pass, and we'll guarantee a fit and satisfaction or your money back. The savings gained by cash buying direct from the mills are shown in these prices.

- Boys' Fall Weight Reefers—For cool evenings, navy blue English serge, double-breasted, anchor buttons, Italian lined, sizes 21 to 27, \$1.50 and 1.95 Stylish Tweed Reefers—In fashionable shades, double-breasted style, velvet collars, well made and trimmed, sizes 23 to 28 4.00 Boys' Fawn Coat Cloths—Navy blue serges and neat tweeds, in grey and brown shades, tailored in latest styles, emblem on sleeves; sizes 21 to 27 4.50 Boys' Topper Overcoats—In fawn cover cloth, single-breasted Italian lined; sizes 29 to 33; \$5.50 to 6.00

The "Eaton": A High-Grade Gold Watch, 15 Jewel, \$9.75

Long as we've been buying and selling watches we've had our eyes open for one make that we could say positively "the best watch made for the money", now we have it—the "EATON", and the fact that we've put our name on it is guarantee of accuracy, high quality and the biggest watch value we can give you.

Made specially for us by one of the oldest and most reliable makers in the business, and for six weeks tested in every position at Kew Observatory, England; we say with certainty, they're perfect timekeepers. The "EATON" comes in Men's and women's, 16, 12 and 0 sizes, in 7 to 21 jewel. Tuesday we ask you to see the Men's 15-Jewel, 16 or 12 size; genuine gold filled case guaranteed 20 years, nickel movement, brequet hair spring, stem wind and set, exposed winding wheel, all features of the best movements. A 7-jewel watch at this price is good value—remember these are 15-jewel; each 9.75

ITALIANS CELEBRATE

Sunday the 28th Anniversary of Entry of Army into Rome.

Last night, at St. George's Hall, a large gathering of Italians commemorated the thirty-eighth anniversary of the entrance in Rome of the Italian army.

Prof. Capozzani was the first speaker, and roused the enthusiasm of the Italians reminding them of their motherland and of her influence in the civilization of to-day.

He urged them to be worthy sons of the great nation which they came, and to show their love for it in leading an exemplary life among the Canadian people, so that every act of their life should do honor to Italy.

Mr. Merlino gave an historical sketch of the taking of Rome, and the ceremony ended with singing the nation's anthem and great enthusiasm.

WORLD'S FORM CHART

TORONTO, Saturday, Sept. 19.—First day of the Ontario Jockey Club fall season. We have a steady track.

1 FIRST RACE—Purse \$500; all ages; 6 furlongs

Table with columns: Ind. Horses, Wt., St., 1/4, 1/2, 3/4, Str., Fin., Jockeys, Open, Close, Place. Races include Melrose, Hoelle, Orient, Grande, Halbarth, Doubt, Restoration, Spunky, Post.

PROGRESS OF HUMANITY

Continued From Page 1.

which all who have participated in the advance should share, we might have a solution of the great problem. But of this we have no certain assurance.

"Efforts and resistance to temptation may seem necessary ingredients in the formation of a virtuous character. So far we may think we have the clue, but what is to be said of the suffering of cases in which virtuous effort seems to be morally impossible...

"The belief that man has an immortal soul inserted into a mortal body from which, being, as Bishop Butler phrases it, 'indiscernible,' it is parted at death by a disembodied spirit. We know that man is one; that all grows and develops together...

"Whatever trouble, moral, social, or political, a great change of belief may bring, there is surely nothing for it but to seek and embrace the truth. Whatever may become of our creeds and of the dogma, so plainly human, in its origin, of some of them, we have said the Christian ideal is a great ideal which has not yet been seriously challenged...

"Superstition can be of no use morally; and yet politically it can be of little use and not for long. In America, bade them not confine their selves to what they had learned from his teaching, but to be ready to receive whatever truth might be made known to them by the written word of God. If there is a God, are not all truths scientific, historic, or critical, as well as anything written in the Bible, the word of God?

"Let me say once more that my attitude is simply that of one of the many who doubt, who are in a doubt may if possible be set at rest, and pray that enquiry among those most competent to conduct it may be no longer fettered by ecclesiastical tests, but be set perfectly free.

"Frankness was necessary, but I trust that in none of my letters has there been anything irreverent, for would anything irreverent be from the disposition of the writer."

Corby's Rye Whisky Matured as whisky should be.

WHAT IS MEANT BY "A MELLOW WHISKY?" HE mellowing influence of age is one of nature's most beneficent changes.

In nothing is this more apparent than in the manufacture of whisky. New whisky has a harshness, a repellent taste, which is nature's own warning against an impure, unwholesome article of human consumption.

Age brings the whisky to maturity; gives it richness, flavor, delicacy, and softness—in a word, a mellowness which is agreeable to the palate and which is nature's stamp of approval upon what has become a wholesome article of diet.

To be sure of getting a mellow whisky in Canada, you must get a pure Canadian whisky. There is one good old Canadian whisky which you can always depend upon; it is

Corby's "Special Selected" Rye

In judging of the agreeableness of any beverage you can safely trust your own palate. There is no uncertainty about the age of Corby's whiskies because the age of every bottle is guaranteed by the government.

For a mellow well-flavored whisky, TRY Corby's RYE and know WHY.

CHURCHILL'S WEDDING GARB

Doesn't Meet With the Approval of Sartorial Experts. LONDON, Sept. 20.—Winston Churchill's wedding clothes did not meet the approval of The Tailor and Cutter, that dictator in matters sartorial.

"The whole outfit," says the journal, "did not suit him. The coat was too long and too heavy as a morning coat, too short and skimpy as a frock. It was a sort of neither fish, flesh nor fowl, and was one of the greatest failures as a wedding garment we have ever seen, giving the wearer a sort of glorified coachman appearance."

FRIENDLY TOWARDS GERMANY

Von Buelow Told the Real Sentiment of British. BERLIN, Sept. 20.—The Interparliamentary Union, which is now in session here, has accepted the invitation extended from Canada to meet in Quebec in 1909.

LOOKS GOOD FOR MEN

Bell Hardy Says Conditions in West Are Bad. MONTREAL, Sept. 20.—(Special)—"The strike situation is looking more hopeful each day for the men, and the directors of the company are said to be asking pertinent questions of the officers as to why trains are not being handled better," said Bell Hardy to-night.

German v. British Taxation

LONDON, Sept. 20.—The English papers are paying a vast amount of attention this week to German finances, with efforts to prove that the German Empire is likely to rebel against the great burden of fresh taxation which the Reichstag must levy a few weeks hence in order to carry on the great naval program. It is true that the German national debt has increased during the last twenty-one years of profound peace from \$40,000,000 to \$1,000,000,000, and that the interest now costs \$40,000,000.

Auto and Train Collide

BUFFALO, N.Y., Sept. 20.—Mrs. Stephen B. Lee, wife of assistant secretary Lee of the Erie County Bank, was killed and Mr. Lee was fatally injured to-night in a collision between their automobile and a Lackawanna train. Executive committee of Central Y. M. C. A. meeting held last evening and arranged a schedule for the season. Many applications received indicate that fencing is increasing in popularity. Classes commence Tuesday, Oct. 4.

Watch, eyes open for the money" name on it is we can give

What's Wrong with Toronto? Too Much Greed and Dishonorable Ways of Money Making.

"What is the matter with Toronto?" was the subject of some interesting remarks by Rev. Byron Stauffer at Bond Street Congregational Church last evening.

The speaker referred to recent civic investigations showing that men held in high respect were tending to "graft" from the city's treasury.

He was sorry to see that the church was not doing its proper work and was becoming dissipated by the masses in many respects.

CHICAGO, Sept. 20.—Gov. Haskell of Oklahoma has telegraphed W. R. Hearst asking that a jury of five newspaper editors be agreed to who shall hear the two sides of the charges.

Lewis Salem of 204 Chestnut-street was arrested yesterday by Special Constable Roberts on a charge of stealing a canoe, paddles and cushions, the property of Miss Brent, lady superintendent of the Sick Children's Hospital.

Street

Prices suffer declines when Stock is Fed out

Wall Street Shows the Effect of Inside Realizing—Local Syndicates Have Ceased Bullish Operations.

World Office Saturday Evening, Sept. 19. Advances at the New York market ceased almost two weeks ago, since which time the gradual feeding out of stock has impressed the market.

One of the strongest influences on the market generally was the weakness of the Hill stocks. Great Northern has had an excellent reputation for many years, and its steady decline from 140 to 120 was at once accepted to mean a cut in the dividend, which rumor was persistently spread to every feeder leading to the expansion of the market.

Cutting off the dividend on Locomotive has directed more attention to industrial conditions and caused a re-estimation of the present and future values of the shares of the industrial companies. Morgan has had to contend with much resistance in the market, and the fear of this in the many other shares has had the effect of lowering the supporting bids.

It is certain that the present range of prices cannot appeal to investors, but this knowledge will not deter speculation from taking chances in the market. Successful operations are becoming more difficult because of the entire and only on occasion the speculative position, stocks are bought with any weakness can be profitable.

With the cessation of manipulation change has been made in the Toronto Exchange condition, and it cannot yet be assumed that all the transactions between actual buyers and sellers.

The annual meeting of the Rio Co. developed nothing beyond what has already been issued by promoters, but this security, and the shares have been related in price since that time.

COBALT---Crown Reserve Rallying Again; Closes Week at \$1.80---COBALT

Interest Gradually Widening For the Cobalt Securities

Profit-Taking Brings Small Reactions, But the Buying Power Easily Absorbs All Offerings.

World Office, Saturday Evening, Sept. 19. The belief that many of the Cobalt securities have advanced a little too rapidly caused a small amount of realising, and with the speculative pressure from traders on the floor of the exchange during the week, resulted in small losses from the high prices reached. The absorbing power, however, was sufficient to take care of all the selling, and to close the transactions up to-day at nearly the high prices of the week. Large blocks of the stocks which have hitherto been held by local financiers have been transferred to investors throughout the States and in England, and this kept up the scarcity of offerings in the market, which has been so prominent since the demand for the shares of the shipping mines started a couple of months ago. If there is one thing more than another which conduces to give confidence to buyers of the Cobalt issues it is the continued output from the camp. Last week the ore shipments again exceeded any similar period since the mining started, the shipments reaching the big amount of 100 tons, estimated on a conservative basis to be worth a quarter of a million dollars.

The break-up in the Wall-street market since a week ago had a slight influence on the New York curb for the Cobalt, but the demand from that centre has been practically continuous, as well as from Boston, which is now taking a more active interest in Cobalt than it has hitherto done. The offering of the Chambers-Ferland issue of 45,000 shares was subscribed for to the extent of 60,000, and the orders of underwriters have had to be pared down to meet this contingency. It is strongly believed that the next new dividend-paying will be the Nova Scotia Company, and this has partially accounted for the sharp advance in these shares. Among the older issues the strongest stock has been Trethewey, which has doubled its value within a few days.

Watts has also been another firm issue, on the ground that the mine is now in position to continue regular shipments and to show a large earning power. A large demand has developed for this stock, which is not yet listed on the market, and which on account of its immediate connection with the future of the mine is believed to have a big future ahead of it. The market closed up strong to-day, and a wider investment and speculative interest is plainly promised from now forward.

COBALT DISCOVERIES.

Several More Rich "Finds"—Capitalists Make Inspections. COBALT, Sept. 20.—(Special).—Two pullmans brought in yesterday by Frank C. Armstrong contained the most prominent Montreal and Ottawa people that have yet visited Cobalt. They came to see the La Rose properties and examined the La Rose and Princess Mines. Nipissing was the only other property visited.

The party included such men as Kenneth W. Blackwell, president Montreal Steel Works, J. M. Pangman, C. Franklin Hibbert, J. F. P. Knight, secretary of the Canadian Bankers' Association, Col. Gilmore, Stanbridge, Que.; C. Simpson Garland, Dr. W. G. Thesby, Dennis Murphy, J. A. Richardson, manager Imperial Bank, Montreal, T. F. How, manager Bank of Toronto, Montreal; Norman F. Naeh, H. H. Hansard, W. H. Miller of R. Moat & Co., Montreal; W. McLea Walsbank, vice-president Montreal Light, Heat & Power Co.; C. E. W. Smith, Geo. Marler, C. W. Ross, M. C. Sparks, E. S. Harwood, L. G. Beaulieu, Robert Meredith, Jas. Hannan, Ogdenburg, N.Y.; A. Bergwin, Jas. Robertson and J. Reid Wilson; Prof. W. E. Hidden, the eminent geologist, accompanied the party, as did A. W. McDougall and Alexander Grey, the well known writer.

Great discoveries are reported in different sections of the camp. At the one hundred foot level at Temiskaming and Hudson Bay in drift the vein has a width of five inches solid metal enormously rich in silver. This is most important for Trethewey, as the above values were got only ten feet from Trethewey line. Temiskaming, down below the Beaver, has been working a vein having a width of three feet with very high silver values.

Frank Burr Mosure, Discoverer of Sudbury Nickel Dead. AKRON, Ohio, Sept. 20.—Samuel J. Ritchie, millionaire capitalist of Akron and discoverer of rich nickel and copper mines at Sudbury, Canada, dropped dead in a hotel at Charleston, W. Va., to-day.

He became prominent a few years ago thru litigation with Judge Stevenson Burke of Cleveland, over Canadian property involving millions of dollars.

THE DOUGLAS MINING CO. LIMITED

Presl.—G. S. GZOWSKI, Toronto.

Authorized Capital - \$500,000

We are offering 75,000 shares of Douglas Mining Company Stock at 80c per share.

We strongly recommend the purchase of this stock as an investment.

The Douglas Mining Company have large quantities of valuable ore, high in gold, proved up ready for mining at their property in the Sturgeon Lake Gold Fields.

This is a splendid opportunity to insure steady high returns on a small outlay of capital.

Write for application forms or further particulars to

AS YOU READ REMEMBER THIS IS

"A GAMBLE"

To My Friends, the Canadian People:

It has always been my principle in life to "call a spade a spade" and to obtain by absolute truth a great public following. This being my preliminary, I want you, my readers, to carefully study all the facts contained in this announcement. As I head my advertisement "A Gamble," I want you all to understand that it is a gamble, but at the same time a legitimate one, with possibilities of making exceptionally high profits. If one stands on the top of one of the hills at Cobalt and looks around and remembers what that great industry, that one sees, has grown out of, its magnitude is appalling. Think of how Messrs. Chambers put a few hundred dollars together to grubstake the prospectors who staked the Nipissing properties, of how in a few months they sold out to their own astonishment to the original syndicate for \$250,000. To-day this Nipissing Company is operating more shafts than one can count, and taking out of the ground every year a sum of money sufficient to pay six times over for the original purchase of its mines.

REMEMBER, the great profits which the different Cobalt companies are making. REMEMBER, the enormous dividends which these companies are now paying to their shareholders. REMEMBER, that these Cobalt stocks are now rising by reason of their intrinsic value. REMEMBER, that it is conceded by all authorities that the Cobalt Mines are the greatest and richest silver mines in the world. REMEMBER, new silver mines are being discovered daily in certain sections of this great north country. REMEMBER, my readers, to-morrow in my final advertisement in this newspaper, I will give you a detailed history of the territory and an account of the assets of my proposition under the heading of

"A GAMBLE"

Ladies and Gentlemen:

I want to give you a few details reflecting on the possibilities of these "Gambles." We have the Temiskaming & Hudson Bay Mining Co., whose shares were not four years ago sold for thirty cents; in fact, were considered of such small account that a certain employe of the company once paid his landlady in Ottawa for a week's board with fifteen shares. That same landlady has received up to date some eighteen hundred dollars in dividends, and the market value of her shares, originally valued at four dollars and fifty cents on the price of a meal-ticket, is to-day between \$2500 and \$3000.

I there gave you an outline of the enormously rich silver mines which are opening up in that vicinity: mines which are as rich, if not richer, than any in Cobalt District, and whose ores have all the characteristics of those in Cobalt itself. The mines of Cobalt to-day are producing silver at the rate of one million dollars (\$1,000,000) per month, that is to say, twenty-four million ounces (24,000,000) of silver per annum and the output is steadily increasing. As the underground development progresses numerous new and undreamt-of ore bodies are frequently encountered, for example, those on the Crown Reserve and the Temiskaming Mines. Ladies and Gentlemen—These continual discoveries are merely the vouchers for the permanence of the Cobalt Camp. With the growing production and the enormous increase of dividends will commence an era of great prosperity for all who have confidence (sufficient to induce them to speculate), in our ONTARIO'S GREATEST ELDOorado. I wish you all, my readers and followers, to carefully read my final advertisement to-morrow under this heading. Use your best judgment, and if satisfied that my proposition is a fair one, then, and then only, have "A Gamble."

WHAT WAS ONCE A GAMBLE IS NOW A STANDARD INVESTMENT, BACKED BY AN IMPORTANT INDUSTRY.

The proposition which I shall put before you to-morrow in detail has all the same possibilities which were before the Temiskaming & Hudson Bay Company. The shares in my proposition will be put upon the public market to-morrow immediately after my final advertisement is published. You will no doubt recall my recent advertisement on "SOUTH LORRAIN" and "SOUND FINANCE."
